“Project Co shall update the Environmental Matrix to reflect the following Board comments

- Update the Environmental Matrix shall by updated by Project Co to reflect all the rooms and room types in the proposed Facility, this should be based on an updated Schedule of Accommodation that has been commented on separately by the Board. This also needs to reflect the names and room numbers in the GSU table.
- Include the requirements contained in the Clinical Output Specification including but not limited to the requirement that theatre temperatures are to be able to be raised to 31°C for certain operations
- Measures shall be assessed, modelled and implemented to demonstrate that the internal air temperature of the following room types to reduce the temperature control from 28°C to 25°C
    - Treatment Rooms;
    - Consulting Rooms;
    - Laboratory;
    - Physiotherapy Studio;
    - Recovery.

  These room shall not exceed the maximum acceptable level of 25°C for more than 50 hours per annum
- Detailed proposal awaited on bedroom ventilation to achieve balanced/negative pressure relative to corridor.
- Colour rendering all stated as 80 where certain areas should be 90
- There also need to have a consistent approach e.g. guidance notes and ED body view room stated as 28 -8, bereavement suite body view room stated as 25 -8.
- Further discussion is required on the minimum temperate requirement for the Body View Room.

RHSC – DCN Edinburgh
Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

1.0 Introduction

We have been asked to review the air movement within the single bedrooms under various ventilation scenarios.

1. Windows and trickle vents closed, no natural ventilation, mechanical ventilation only provided to the bedrooms.

2. Windows and window trickle vents open, natural and mechanical ventilation provided to the bedrooms.

3. Some of the windows and window trickle vents open and some closed, mixture of natural and mechanical ventilation to the bedrooms.

2.0 Interpretation of SHTM 03 Ventilation for Healthcare Premises

A single room within Appendix 1 : Table A1 : Recommended air-change rates is given under the ventilation column as supply/extract/natural, with 6 ac/hr and room pressure as zero or negative. The single room WC from the table is 3 ac/hr and room pressure is negative.

Current bedroom ventilation design is supply into the room at 4 ac/hr with opening windows and trickle vents to provide natural ventilation, this gives a balanced room pressure as long as the window is open.

The single bedroom WC extract has been enhanced to 10 ac/hr and the room pressure is negative.

3.0 Ventilation Scenario's

Scenario 1

1. Bedroom is positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows to the corridor via doors.
4. Corridor is provided with extract ventilation, pressure is balanced.

Scenario 2

1. Bedroom has balanced pressure.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows and trickle vents.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms and other rooms.

Scenario 3

1. Bedrooms with open windows have balanced pressure and bedrooms with closed windows are positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows or through the bedroom doors if the windows are closed.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms.

Refer to Appendix 1 for the Air Flow and Resultant Room Pressure drawings.

The original reference design as detailed within the Environmental Matrix is as follows:-

Bedroom - Supply 4Ac/Hr & Room Pressure Positive.
WC – Extract 10Ac/Hr & Room Pressure Negative.

4.0 Conclusion

Reviewing the three air flow and resultant room pressure scenario drawings G1547/(57)SK01-SK03:

When the windows and trickle vents are utilised for natural ventilation the bedroom pressure is balanced and the corridor becomes negative.

If some of the windows and trickle vents are closed, these bedrooms will become positive and the bedrooms with open windows again will be balanced, where the corridor is negative.

Should all the bedroom windows and trickle vents be closed, the bedroom pressure is positive and the corridor shall be balanced as the corridor extract rate will match the supply air coming from the bedrooms via their doors.

The window trickle vents should be left open when the rooms are occupied, this will ensure that the bedroom pressure is balanced.

By utilising the proposed mixed mode ventilation proposal for the bedrooms, ie. opening windows and trickle vents with the supply air reduced from 6Ac/Hr to 4Ac/Hr direct into the bedroom, this will provide the most energy efficient solution for the space.

We believe that we have complied with the reference design concept as detailed within the original Environmental Matrix.

Subject: HAI Scribe Stage 3 Construction

Dear Both

We had scheduled a meeting today to complete HAI Scribe Stage 3 but unfortunately we could not proceed with the meeting as key individuals were not present. We did however manage to discuss the ventilation query and we will now review the information we were given at the meeting, which Ken is going to send electronically.

As you will be aware this stage of HAI Scribe has to be completed prior to any construction starting on site. HFS have recently reviewed and changed HAI Scribe documentation and it is the new documentation that we are using.

When we completed Stage 2 at the workshop on 19th November we agreed that NHSL and their TAs would review the Stage 3 template and complete it in draft format which we would then review with IHSL at today's workshop. In order to progress this those of us who were at today's workshop agreed that in the first instance we would send you the completed draft and request that you review this and amend the document as appropriate. It is important that the as well as checking the yes/no/n/a responses that additional information is provided in the comments boxes to justify the response.

Given the need to have this completed prior to construction commencing and the need for us to review the completed documentation internally before we can sign off we do need to turn this around quickly. It may also be that we will require to meet to review the documentation but will advice of this once we have the completed documentation back from you.

Janice

Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

1.0 Introduction

We have been asked to review the air movement within the single bedrooms under various ventilation scenarios.

1. Windows and trickle vents closed, no natural ventilation, mechanical ventilation only provided to the bedrooms.

2. Windows and window trickle vents open, natural and mechanical ventilation provided to the bedrooms.

3. Some of the windows and window trickle vents open and some closed, mixture of natural and mechanical ventilation to the bedrooms.

2.0 Interpretation of SHTM 03 Ventilation for Healthcare Premises

A single room within Appendix 1 : Table A1 : Recommended air-change rates is given under the ventilation column as supply/extract/natural, with 6 ac/hr and room pressure as zero or negative. The single room WC from the table is 3 ac/hr and room pressure is negative.

Current bedroom ventilation design is supply into the room at 4 ac/hr with opening windows and trickle vents to provide natural ventilation, this gives a balanced room pressure as long as the window is open.

The single bedroom WC extract has been enhanced to 10 ac/hr and the room pressure is negative.

3.0 Ventilation Scenario's

Scenario 1

1. Bedroom is positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows to the corridor via doors.
4. Corridor is provided with extract ventilation, pressure is balanced.

Scenario 2

1. Bedroom has balanced pressure.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows and trickle vents.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms and other rooms.

Scenario 3

1. Bedrooms with open windows have balanced pressure and bedrooms with closed windows are positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows or through the bedroom doors if the windows are closed.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms.

Refer to Appendix 1 for the Air Flow and Resultant Room Pressure drawings.

The original reference design as detailed within the Environmental Matrix is as follows:-

Bedroom - Supply 4Ac/Hr & Room Pressure Positive.
WC – Extract 10Ac/Hr & Room Pressure Negative.

4.0 Conclusion

Reviewing the three air flow and resultant room pressure scenario drawings G1547/(57)SK01-SK03:

When the windows and trickle vents are utilised for natural ventilation the bedroom pressure is balanced and the corridor becomes negative.

If some of the windows and trickle vents are closed, these bedrooms will become positive and the bedrooms with open windows again will be balanced, where the corridor is negative.

Should all the bedroom windows and trickle vents be closed, the bedroom pressure is positive and the corridor shall be balanced as the corridor extract rate will match the supply air coming from the bedrooms via their doors.

The window trickle vents should be left open when the rooms are occupied, this will ensure that the bedroom pressure is balanced.

By utilising the proposed mixed mode ventilation proposal for the bedrooms, ie. opening windows and trickle vents with the supply air reduced from 6Ac/Hr to 4Ac/Hr direct into the bedroom, this will provide the most energy efficient solution for the space.

We believe that we have complied with the reference design concept as detailed within the original Environmental Matrix.

Bedroom Ventilation: HAI Scribe Confirmation

From	Mr Ken Hall - Brookfield Multiplex Construction Europe
To (2)	Maureen Brown - Mott MacDonald Ltd (Head Office UK) Ms Janice Mackenzie - NHS Lothian
Cc (3)	Colin MacRae - Mott MacDonald Ltd (Head Office UK) Mr David Stillie - Mott MacDonald Ltd (Head Office UK) Mr Stewart McKechnie - Wallace Whittle
Sent	Monday, 19 January 2015
Respond by	**27/01/2015**

MESSAGE

As per meeting of Tuesday 13.01.15 and our request for clarity on negative / positive pressure regime within the bedrooms, we attach the sketches distributed at the meeting and seek confirmation /acceptance from the NHS review with infection control.

Thanks

Ken

REMINDER: Further to your Request For Information (RFI) and this subsequent Response to RFI (RTRFI), please ensure you now close out the original RFI. This is done by: 1. open the thread view and select the original RFI 2. once the original RFI appear on the screen, from the option at the top left of the screen, selecting the option to 'close out' Should you require additional information prior to closing out your RFI, you may raise further/new mail. In doing so, please ensure that the original RFI reference number is mentioned in the subject line, for ease of reference later.

Subject: Re: Bedroom Ventilation: HAI Scribe Confirmation

Hi Ken,

Following your recent RFI, the Board respond as follows:

- The single room with en-suite ventilation design shall comply with the parameters set out in SHTM 03-01.

- The design solution should not rely in any way with the opening windows as these will be opened or closed by patient choice.

- The critical factor from SHTM 03-01 for infection control will be the resultant pressure within the room being balanced with or negative to the corridor.

- Isolation room ventilation shall comply with SHPN 04 Supplement 1.

Kind regards,

Mo

MESSAGE

Hi Ken,

I note the attched schedule rev 05 still refers to Air Change rates between 2.7 & 3.5, we are seeking design for 4 Air Changes to all 14 rooms. Can you confirm that this is the brief to WW

Regards

Ronnie

Cc: Colin Grindlay, Andrew McColl
Mail Number: MPX-MM-000503
Subject: 12.04.18 4 Bed Workshop Summary

Confirmation of Key Points discussed.

Attendees: as attached.
Marked Up Drawings Tabled: as attached.
Agenda: as below - (MPX-GC-026334)
Date and Time: 12.04.18 @ 13.00Hrs

1.0 SM noted concerns on agreement from the previous workshop No1 that the objective of workshop No2 was to obtain agreement in principle on the draft drawings being tabled to allow progress to continue on 4 bed design. This was due to NHSL held up at another meeting, and no delegated authority at the workshop.

A43133429

Action. Concerns resolved as Ronnie Henderson joined the workshop at 13.30.

A. 4 BED Agenda Item

2.0 14 Rooms in question tabled based on the previous Rev 05 schedule. Rooms cross referenced drawings against the schedule. See attached schedule and drawings over viewed.

3.0 Room "M" type. NHSL noted environmental matrix notes supply and extract. Drawing tabled and site inspection has no changes to the extract.

Action: TUV SUD to confirm design intent to comply with the environmental matrix.

4.0 Area I + J. NHSL requested actual air change rates be confirmed given the increase in one extract system rather than perhaps introducing it across the 3 systems in the locale.

Action: Increase in air change rate(s) to be identified due to noise concerns.

5.0 Physical sizes of all increased duct sizes to be verified at site to confirm any spatial constraints.

Post meeting note: Surveys confirmed to proceed 18.04.18. Findings to be shared with NHSL.

6.0 NHSL confirmed agreement in principal to the strategy tabled, and to proceed to the next stage of site survey based on drawings tabled. Thereafter RDD pack to be submitted for speedy approval.

7.0 Spare capacity. TUV SUD tabled the initial draft assessment:

Supply: No impact as being maintained at 4ACH as per the Environmental Matrix.

Extract: AHU-04-06: extract up by 23%.
Extract: AHU-04-07: extract up by 10%.
Extract: AHU-04-08: extract up by 15%.
Extract: AHU-02-23: extract up by 36%.
Extract: AHU-04-04: extract up by 6%.

TUV SUD noted dialogue with Supplier of AHU being undertaken.

Action: Spare capacity impact analysis document to be issued after site checks carried out on spatial review to identify impact on current spare capacity to allow NHSL to consider if the design can proceed on this basis.

B. Spare Capacity Document

NHSL noted receipt of spare capacity document. Comments on the document to be tabled at next workshop.

8.0 NHSL noted the document issued per department had the comments removed that were in the original spare capacity document issued. Specifically for example the fans in relation to 10% spare capacity comment. NHSL reiterated clarity if the fans had 25% spare capacity, this was confirmed by TUV SUD.

Action: TUV SUD to confirm statement made at the meeting, ventilation 25% design spare capacity on the fans.

C. Schneider Agreement

9.0 TUV SUD statement distributed at the meeting,

Action: NHSL to feedback at next workshop.

D AOB

A43133429

10.0 NHSL requested Thursday meetings continue, perhaps alternated mechanical and electrical depending on topics to be resolved.

11.0 TUV SUD queried if generator load profile document had been returned by NHSL / MPX.

MPX confirmed after meeting TUV SUD were issued the document on 10.04.18.

Action: TUV SUD to confirm feedback on NHSL comments received.

12.0 NHSL noted query regarding earth cable and fire rated cabling. To be discussed and agreed at next workshop. NHSL requested formal confirmation to the points raised within original calculations feedback.

Action: TUV SUD to respond to Aconex MPX-GC-026161 dated 29.03.18.

Next meeting: Thursday 19.04.18, agenda to be issued prior to meeting.

Council	The City of Edinburgh Council
Design Champion	Person in the Board who promotes the importance of achieving quality in capital developments and in ongoing initiatives to improve both the patient environment and the working lives of staff
Encode	HTM 07-02: EnCO2de – Making energy work in healthcare
Environmental Matrix	Means the Environmental Matrix, which details the room environmental condition requirements of the Board required within each department / unit / space / area. The title is Reference Design Envisaged Solution – RHSC / DCN Environmental Matrix version third issue as set out in Appendix C of this Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with the Project Agreement);
Existing CAMHS	Child and Adolescent Mental Health Services currently at the Royal Edinburgh Hospital and Forteviot at the Existing RHSC
Existing DCN	Department of Clinical Neurosciences, Western General Hospital, Edinburgh
Existing RHSC	Royal Hospital for Sick Children, 9 Sciennes Road, Edinburgh
Family Council	Works collaboratively with partners, such as the Board, RHSC reprovision team and other forums, to ensure that the family perspective is integrated into current service provision, including redesign, for Children & Young People (C&YP) services
Firecode	Firecode consists of a number of Health Technical Memoranda (HTM) which consider policy, technical guidance and specialist aspects of fire precautions. Full list of HTM obtained from http://www.dh.gov.uk/en/Publicationsandstatistics/Lettersandcirculars/Firecode/DH_609
Good Practice Guidance for selecting materials	The edition of the publication entitled "Good practice in the selection of construction materials" (British Council for Offices (BCO): 2011) or any amended or updated version as at Financial Close.
Green Travel Plan	Means the NHS Lothian Sustainable Development Strategy Green Travel Plan.

p) Suitable means of shelter against adverse weather conditions at entrances, bus / transport waiting, and drop off locations and covered links provided, as appropriate;

q) Automatic vehicle access barriers, as appropriate; and

r) Fire hydrants.

All hardstanding, Site roads, paths, car parks, cycleways, and footpaths etc shall be designed and constructed so as to be free from standing water.

8 Mechanical & Electrical Engineering Requirements

Project Co shall provide the Works to comply with the Environmental Matrix.

Project Co shall in carrying out the Works comply with the following non-exhaustive list of mechanical & electrical requirements.

Project Co shall provide mechanical and electrical systems that help create a “state-of-the-art” building with innovative design. Project Co shall provide an engineering system that utilises the latest technology to create a high quality working environment that will provide a reassuring, enjoyable and convenient hospital for all patients, their families, visitors and staff. Project Co shall ensure the services network is efficient, effective, flexible and unobtrusive. Project Co shall ensure that the system is easy to maintain and shall maximise the opportunities for flexible adaptation and extension of the Facilities.

Electrical, mechanical and communication services shall be designed to be an integral and co-ordinated part of the design. Services shall be clearly identified at regular intervals and at all locations where maintenance access is required.

The location of engineering and utility services shall be co-ordinated with the structure and not constrain or conflict with Operational Functionality. Access to all services shall facilitate ease of maintenance which shall be safe and able to be effectively undertaken. There shall be provision for space to give flexibility for future re-planning and / or re-modelling of the Facilities.

The Board requires the buildings to be designed to achieve an optimum level of autonomy along with energy and utility utilisation. The energy centre shall be for the sole use of the Facilities. The services provided from the energy centre shall be provided from sources solely on the Site.

Project Co shall take cognisance of all the building services implications of the requirements described in the Board’s Construction Requirements of this Schedule Part 6 Section 3 Sub-Section D (Specific Clinical Requirements) and Sub-Section E (Specific Non-Clinical Requirements).

For the avoidance of doubt the hierarchy of standards and advice detailed in paragraph 2.5 shall apply to this paragraph 8.

8.1 Minimum Engineering Standards

In addition to the publications in paragraph 2 of this Sub-Section C Project Wide Requirement, Project Co shall ensure that the design, construction and selection of components for the mechanical and electrical works comply with, including but not limited to, the following design reference documents :

Project Co shall install Type 3 (in accordance with NHS Model Engineering Specification D08) thermostatic mixing valves at all HWS outlets to comply with SHTMs and SHGNs except where 60°C water is a particular requirement so that the mandatory requirements for the control of Legionella and other bacteria within the system are met.

Energy efficient hot water boilers shall be provided in all staff rest rooms and kitchen areas.

8.7.8 Mechanical Ventilation & Air Conditioning

The heating, ventilation and air conditioning systems shall be logically designed to operate efficiently incorporating heat recovery and providing local control where required. Project Co should ensure avoidance of simultaneous heating and cooling, either by the ventilation system itself or between the ventilation system and any other heating and cooling system,

The energy and power systems shall be appropriately designed to provide fully integrated designs in terms of the incorporation of engineering services into the building fabric and external spaces.

The need to maintain comfort conditions in accordance with the Room Data Sheets in all areas but particularly in clinical areas is of paramount importance and Project Co shall develop strategies for achieving these conditions together with minimum energy consumption.

Project Co shall provide natural and mechanical ventilation, comfort cooling, and air conditioning to suit the Facilities and clinical requirements and provision of the Clinical Services. Project Co shall provide a climate control facility in clinical and staff areas which are provided with comfort cooling (if applicable). The use of low carbon solutions is anticipated for such requirements.

Project Co shall provide the air lock to the first floor of the Link Building to the RIE Facilities in accordance with the Interface Output Specification, the Connection Proposal and relevant provisions or Paragraph 4 concerning any connections to the Link Building.

Project Co shall ensure heat gain from all equipment and personnel is allowed for in sizing and selection of the systems.

Project Co shall demonstrate how the proposals facilitate the control and management of an outbreak and spread of infectious diseases in accordance with SHTM 03-01, SHFN 30 and HAI-SCRIBE.

Project Co demonstration is to cover all aspects of the building, its services, spatial relationships, Soft and Hard FM proposals (as appropriate) and incorporate requirements of the Board's Infection Control Team.

Project Co shall ensure that ventilation systems installed in areas classified as hazardous are designed to relevant standards.

Where grilles or diffusers are used within rooms Project Co shall ensure they are:

a) Arranged to avoid draughts; and

b) Designed to minimise noise intrusion into the space.

Project Co shall incorporate provision to include humidification to the AHU plant at a future date.

The Reference Design is developed in full at 1:500 and 1:200 scales. At 1:50 scale, where individual room layouts are detailed, the coverage is 53% of the total number of rooms (equating to 43% of the net floor area).

During Dialogue Bidders will be required to develop 1:50 layout drawings for the rooms identified in the table below which will form part of their proposals.

Table: 1:50 Layout Drawings to provided by the Bidders		
Room Reference	**Room Designation**	**Department**
G - A1 - 028/029	Resuscitation Bay	Emergency Department
G - E1 - 001	The Pod/Multi-functional activity zone	Outpatient Area
G - D2 - 013	Lung Function Laboratory	Cardiology and Respiratory
1 - D6 - 053-4	Rehabilitation Rooms	Therapies
1 – J1 – 003	Body Viewing	Bereavement Suite
2 – R1 – 001-055	All	Clinical Management Suite
3 – H3 – 001	Workshop/Tutorial 3	Clinical Education Suite
3 – C1.1 – 042	Clean Utility	Medical In-patients
4 – H1 – 018	Molecular Biology Laboratory	Child Life and Health

4 – H1 – 016	Tissue Culture Store	Child Life and Health

The Preferred Bidder will be required to develop 1:50 layout drawings for all remaining rooms prior to Financial Close.

2.5.3 Room Data Sheets

Standard format Room Data Sheets have not been prepared by the Board for the Project. The specific room requirements (the "**Room Information**") are detailed in a combination of the following documents:

- The Board's Construction Requirements;
- The Environmental Matrix;
- The Schedule of Operational/Design Notes;
- The Equipment Schedule;
- The Equipment Responsibility Matrix;
- The Draft Schedule of Accommodation; and
- The Operational Functionality elements of the Reference Design.

During Dialogue Bidders will be required to develop Room Data Sheets, incorporating the Room Information, for those rooms for which 1:50 layout drawings have been prepared. For the avoidance of doubt this shall include all Key Rooms and Generic Rooms in addition to those rooms identified in the table at paragraph 2.5.2 above. The Room Data Sheets will form part of the Bidders proposals. The Preferred Bidder will be required to complete Room Data Sheets for all remaining rooms prior to Financial Close.

2.6 Indicative Elements of the Reference Design

During the preparation of the Mandatory Reference Design Requirements, other information has been generated both as a by-product of preparing the Reference Design itself and as a general Project requirement as follows:

1980s strongly suggested that this specialised ventilation for prosthetic joint surgery, usually called ultraclean ventilation (UCV), reduced infection rates, and hence UCV was adopted in many centres and countries. However, in the last decade or so, data from national registries such as in New Zealand and a review of recent research data, has suggested to some that UCV provides no additional benefit to the ventilation in conventional operating theatres when used with prophylactic antibiotics, given just before surgery. Furthermore, UCV is more expensive to install and has higher maintenance and energy costs. Nonetheless, the additional purity of air provided by UCV suggests that there is biological plausibility in having UCV in this setting, and many orthopaedic surgeons would probably require it for their patients. They and others might argue that the additional expense is justified given the considerable costs of treatment and the significant pain and disability that follow infection of a prosthetic joint.

4.2.2 In terms of preventing infection outside the operating theatre and specifically regarding isolation rooms for risk patients, negative pressure ventilation is used where the patient has a transmissible infection (**source isolation**) and you do not want the air from that patient spreading to other patients in the ward, i.e. air does not spread from the isolation room as the air pressure is negative there compared to other clinical areas nearby. Patients in this category would include those with COVID-19 infection. In contrast, positive pressure ventilation is used for protecting very vulnerable patients (**protective isolation**) such as those on cancer chemotherapy or a patient following organ transplantation where air from their room moves to other areas as the pressure there is higher than in surrounding clinical areas. This prevents the ingress of air from other parts of the ward where there may be pathogens such as methicillin-resistant *Staphylococcus aureus* (MRSA) and therefore protects the vulnerable patient from pathogens spread by air.

4.2.3 In addition to ensuring that the air is of sufficient quality, the air is filtered and the correct direction of airflow is achieved through differential air pressures expressed in Pasqual's (Pa), air changes per hour (ACH) and airflow rates (AFR). Therefore, a patient who is in a room with positive pressure ventilation, will have air pressures higher in that room, e.g. by 5 or 10 Pa compared to the surrounding area.

4.3 Relative importance of ventilation

4.3.1 Controlled ventilation such as in isolation facilities is one component of preventing infection being spread or being acquired by patients via air. This is especially important for patients who have highly transmissible infections such as measles or where patients are especially vulnerable to infection such as patients on cancer chemotherapy or

following bone marrow transplantation. However, in addition to ventilation itself, other measures are required such as standard and transmission-based precautions, including hospital hygiene, prophylactic antibiotics, etc. There is often much discussion over how many air-controlled rooms are necessary in acute hospitals, tertiary referral and specialist units both now and in to the future. However, an important starting point in deciding that is to consider how many at-risk patients are likely to be admitted under the categories described above.

4.3.2 It is challenging to identify specially the exact contribution a controlled ventilated area may have in either preventing a patient acquiring infection or in general preventing infections being transmitted within a hospital, because ventilation is not used alone, but is part of a suite of preventative measures. However, recent experience with COVID-19 highlights the importance of isolation and cohorting in reducing healthcare-associated SARS- Co-V2. The experience in Hong Kong during the SARS outbreak in the 2000s prompted the authorities there to build additional isolation rooms, which may partially explain the better preparedness of countries such as Hong Kong, Singapore and China for initially dealing with COVID-19, having experienced major problems with SARS (7). This lesson was not learned in most European countries, hence the experience of open and often over-crowded hospitals during some of the early phases or waves of the COVID-19 pandemic.

4.4 Differing standards between countries and in different clinical areas

4.4.1 Although I have had general input into the most recent version of HTM03-01, I am not an expert in the detailed technical specifications for a ventilation system. However, my assumption and understanding is that these are aimed at optimising the ventilation system to address the risk to patients and indeed staff. Hence, while there may be minor differences between Scottish and other standards in the UK, these are probably not significant in terms of their clinical implications. However, standards often have to balance logistics, cost, common sense/plausibility and feasibility with risk, while following any scientific evidence where it exists. Hence, the highest specifications in terms of air changes or provision of a lobby are especially important in those patients most at risk such as patients with neutropenia.

4.4.2. The specifications and literature relating to the operating theatre are somewhat more extensive in many ways for historical reasons, e.g. the need to remove potentially toxic gases, even though the evidence-base is far from definitive. There is acknowledgement that the critical care area, including high dependency units, should have controlled ventilation with single rooms and in HBN-04-02, published in 2013, it is recommended that at least 20% of beds should have controlled ventilation but that that would increase to 50% if many patients

1.0 Introduction:

This Report has been prepared by Jonathan McMillan for Hulley ECO, a sustainable building design and building simulation division within Hulley & Kirkwood Ltd. Jonathan has the following qualifications relative to sustainable building design and building simulation;

- MEng (Hons). in Mechanical Engineering - The University of Edinburgh
- BRE Approved Certifier of Design for Section 6 Compliance
- Integrated Environmental Solutions (IES) accreditation covering Section 6 Compliance for building types 3, 4 & 5 and for preparation of Energy Performance Certificates.
- BRE ISBEM software qualification
- CIBSE Low Carbon Consultant Simulation Specialist
- CIBSE Low Carbon Consultant Building Design Specialist
- Licensed BREEAM Assessor – Health Care

1.1 Report Scope

"BREEAM Healthcare 2008" was first issued on 24th June 2008. As of 1st July 2008 all health authorities in the UK required that all healthcare buildings seeking Outline of Business Case (OBC) approval commit to achieving an Excellent rating.

The original Royal Hospital for Sick Children (RHSC) only scheme was registered under the *"BREEAM Healthcare 2008"* assessment method by Hulley & Kirkwood during February of 2010. A pre-assessment checklist was issued and the design team set in motion a plan of action to achieve a *"BREEAM Healthcare 2008 "* Excellent rating under this scheme. It was confirmed through the pre assessment checklist estimator and subsequent design development during 2010 that an Excellent rating was achievable.

Following the change of procurement route towards the end of 2010 (HFS Framework to SFT route) and the alteration to the project scope to include the Department of Clinical Neurosciences (DCN), the RHSC-DCN Reference Design brief was formalised by NHSL with the Reference Design period commencing from the end of April 2011. As the project was already registered with the BRE, Hulley & Kirkwood were able to retain the registration number for project, and as a result, are currently able to pre-assess the combined RHSC/DCN building under the "*BREEAM Healthcare 2008"* assessment method.

During May and June of 2011, Hulley & Kirkwood prepared the pre-assessment for the new scheme and on the 8th July 2011 circulated a Reference Design stage "*BREEAM Healthcare 2008"* pre-assessment check list for the current RHSC/DCN building confirming again that an Excellent rating is achievable under this assessment criteria. The actions required to achieve a formal "*BREEAM Healthcare 2008"* Excellent rating were also confirmed. This is one of the Reference Design agreed deliverables already carried out in accordance with the agreed Reference Design program.

Following the "*BREEAM 2011 New Construction"* scheme going live on 1st July 2011, Hulley & Kirkwood have been requested by NHSL to prepare a short report highlighting the key differences between the *"BREEAM Healthcare 2008"* and new *"BREEAM 2011 New Construction"* assessment criteria and how this would affect the RHSC-DCN scoring estimate and predicted rating.

The intention of this report is to highlight the differences between the *"BREEAM Healthcare 2008"* scheme and its replacement, the new *"BREEAM 2011 New Construction"* scheme, and to identify the key risk areas which are highly likely to affect NHSL's aspirations of achieving an Excellent rating should the 2011 assessment criteria be applied instead of the 2008 assessment criteria.

It should be noted that this document is not intended as an exhaustive list of every difference between the *"BREEAM Healthcare 2008"* and *"BREEAM 2011 New Construction"* assessment methods.

Following the completion of the Reference Design stage, the project could continue to be assessed under the *"BREEAM Healthcare 2008"* assessment method. However, if the project reference number is not transferred the project will have to be re-registered under the new *"BREEAM 2011 New Construction"* assessment method.

1.2 Executive Summary

Hulley & Kirkwood have already prepared and circulated a reference design stage *"BREEAM Healthcare 2008"* pre-assessment check list for the current RHSC/DCN building which illustrates the actions required to achieve a BREEAM Excellent rating. This is one of the reference design agreed deliverables.

Credits within the checklist have been broken down into three categories

- **Best Value BREEAM credits** - Credits which form the basis of best practice design and which benefit the overall design with limited additional cost
- **Add-ons for excellent credits** - Technically challenging credits above best practice design which have implications on project cost, procurement strategy and site space requirements.
- **Unlikely credits** - Credits which are deemed unobtainable / unlikely for the reasons detailed

It was determined that a BREEAM Excellent rating was achievable in principle with input from the Reference Stage design team and the subsequent successful bidder design team. It was determined that a maximum potential score of **79.53%** was achievable, with 56.17% being attributed to "*Best Value BREEAM credits*" and 23.16% being attributed to "*Add-ons for BREEAM Excellent*".

Subsequent to the issue of this checklist Hulley & Kirkwood have compared the 2008 and 2011 BREEAM assessment methods on a credit by credit basis and have compiled an equivalent scoring for the project under the 2011 assessment method. The results of this comparison can be seen in table 1.2 below. The comparison demonstrates that the maximum potential score under the 2011 assessment method is significantly lower than that under the 2008 assessment method. Results highlight that, if the project is to be assessed under the 2011 assessment method, there is a high probability that an Excellent rating is not likely to be achieved and that a high Very Good rating is more likely for an acute hospital building on this restricted site.

Credit Type	Description	BREEAM 2008 Score	BREEAM 2011 Score
Best Value BREEAM credits	Credits which form the basis of best practice design and which benefit the overall design with limited additional cost	**56.17%**	**51.97%**
Add-ons for excellent credits	Technically challenging credits above best practice design which have implications on project cost, procurement strategy and site space requirements	**23.36%**	**17.74%**
Unlikely credits	Credits which are deemed unobtainable / unlikely for the reasons detailed	**20.47%**	**30.29%**
Maximum Potential Score	Maximum Potential Score including Add-ons for Excellent	**79.53%**	**69.71%** **(A drop of 9.82%)**
	BREEAM Excellent Rating Achieved (70% Required)	**Yes**	**No**

Table 1.2.1 Comparison of Potential Scoring between BREEAM 2008 and 2011 Assessment Methods

1.3 Risk areas associated with minimum credit standards

Having compiled a comparison of maximum potential scoring for the two assessment methods Hulley & Kirkwood have identified the following other specific high risk areas associated with achieving a BREEAM Excellent rating under the 2011 assessment method. In addition to the general more onerous scoring criteria overall, there are a number of "Minimum Standard" scoring requirements which must be achieved , without which Excellent will not be granted, even if the total scoring elsewhere passes the Excellent scoring threshold. These are :

§ Ene 01: Reduction of CO2 emissions

The Building Regulations Scotland were revised during October 2010 with more onerous targets for carbon reduction in new buildings as confirmed in Section 6 of the regulations. This new Section 6 raised the pass threshold for all new buildings from -28% carbon reduction to -50% carbon reduction relative to the “Notional Building”. In addition, the “Notional Building” in the 2010 Regulations became more efficient, meaning that the improvement relative to the previous 2007 version of the Building Regulations was in fact even greater.

In order to achieve a *“BREEAM 2011 New Construction”* Excellent rating a project must score at least six credits in the ENE01 section. In order to achieve six credits the building CO_2 emission rate must be reduced to a level representing a 25% improvement beyond the current 2010 Building Regulations, ie achieve a Building CO_2 emission rate (BER) which is 25% less than the Target CO_2 Emission Rate (TER). This reduction represents a total reduction in CO_2 emissions of 70% relative to the 2010 “Notional Building”. This is clearly an extremely onerous target for a highly serviced Acute Hospital facility with departments which inherently attract high energy profiles.

We have assessed that currently, the Reference Design Envisaged Approach will provide a Building Regulations Section 6 2010 compliance route in terms of reduction of carbon emissions. Our RHSC-DCN Sustainability Options Executive Summary Report explains how we achieve this with Best Practice Energy Efficiency measures, Passive Energy Conservation measures, the extensive use of PV panels (800m2 surface area) and key to the strategy, a gas fired Combined Heat and Power Unit located within the Energy Centre. The report illustrates the relative benefit of each measure - it can be seen that the CHP has the largest impact in the reduction of carbon emissions as well as being able to reduce the cost of energy through the generation of electricity on site by means of gas supply, with engine heat recovered for use within the facilities heating system. The report also analyses alternative and additional Low or Zero Carbon Generating Technologies (LZCT) and explains why the use of these alternatives for this project on this site is not practical which in summary are:

- Ground Source Heat Pump – We estimate a ground area of around 4,800m2 with 250 off, up to 150m deep, closed loop bored pipe system would be required to generate around 1500kW of low temperature heat which could be used for AHU frost coil load. Tight site boundary constraints dictate that this option is not a practical proposition for this site.

- Biomass Boiler Plant – We estimate an additional 150m2 internal Energy Centre plant space and 60 m2, 5m deep woodfuel bunker adjacent, with tipper truck delivery access required frequently would be necessary for a base heat load biomass boiler and large accumulator vessels. Likely planning objections arising from air quality issues (woodfuel flue particulates) and significantly increased flue chimney height along with the practical difficulties of safely managing woodfuel deliveries every other day via tipper trucks dictate that this option is not a practical proposition for this site.

- Solar Thermal Panels – Solar hot water systems whilst a worthwhile idea generally, are not complimentary for operation alongside CHP plant since both technologies are attempting to tackle base heat load demand. In this regard, it is a one or other technology choice, and for an acute hospital, CHP plant can make a much more significant impact on carbon reduction.

- Wind Turbines - Tight site boundary constraints dictate that this option is not a practical proposition for this site. Remote installation may be feasible at a scale which could make a significant reduction in carbon emissions for the RHSC-DCN only if carbon reduction benefits are transferable. The Scottish Government's current policy of grid electricity supply de-carbonisation through wind and wave renewable infrastructure projects in Scotland should eventually manifest in a formal reduction in the carbon emission factor associated with grid supplied electricity applied to Section 6 SBEM compliance calculations. In effect, this would automatically lead to a reduction in carbon emissions associated with the electrical consumption for the facility. The total electrical consumption is likely to represent around 40% of the total energy consumption and currently around 57% of the total carbon emissions, thus any decarbonisation of grid supplied electricity would be significant in the reduction of carbon emissions overall.

To recap, to achieve the *BREEAM 2011 New Construction* Ene 01 "Minimum Standard" for Excellent, we would need to improve our carbon reduction performance by a further 25% from where we currently stand. We are currently achieving -51.7% carbon relative to the 2010 "Notional Building" and would need to get to at least -70% less carbon. The only technology we feel can get some way towards this is by employing another CHP engine within the Energy Centre. Thus we would have a CHP engine operating to provide base load heat and power demand continuously for the whole year (apart from maintenance downtime) and a second engine operating approximately half of the year (mid season and winter) providing over base load heat and power demand. There is a practical limit on the selection of the engines against the buildings projected annual heat and power demand and transient profiles, and whilst we feel it is possible theoretically to get **close** to the target on current estimates, in reality we have reservations that the number can actually be achieved and would highlight the very high risk of it not being possible to achieve this credit without some other "off-site" Zero Carbon energy generating technology which could somehow be used to offset a further portion of the buildings carbon emissions.

By way of impact on special requirements, a second CHP would require the Energy Centre internal space to be increased from 1008m2 by +200m2 to 1208m2 and the external space to be increased by 80m2 to place heat rejection radiators for the second CHP. There would be no significant impact on the internal Hospital building plant space requirements with this proposal.

Table 1.2.2 below provides a comparison of the Notional, Target and Building Emission Rates in addition to the Minimum Standard emission rate required for BREEAM 2011 New Construction to achieve an Excellent rating.

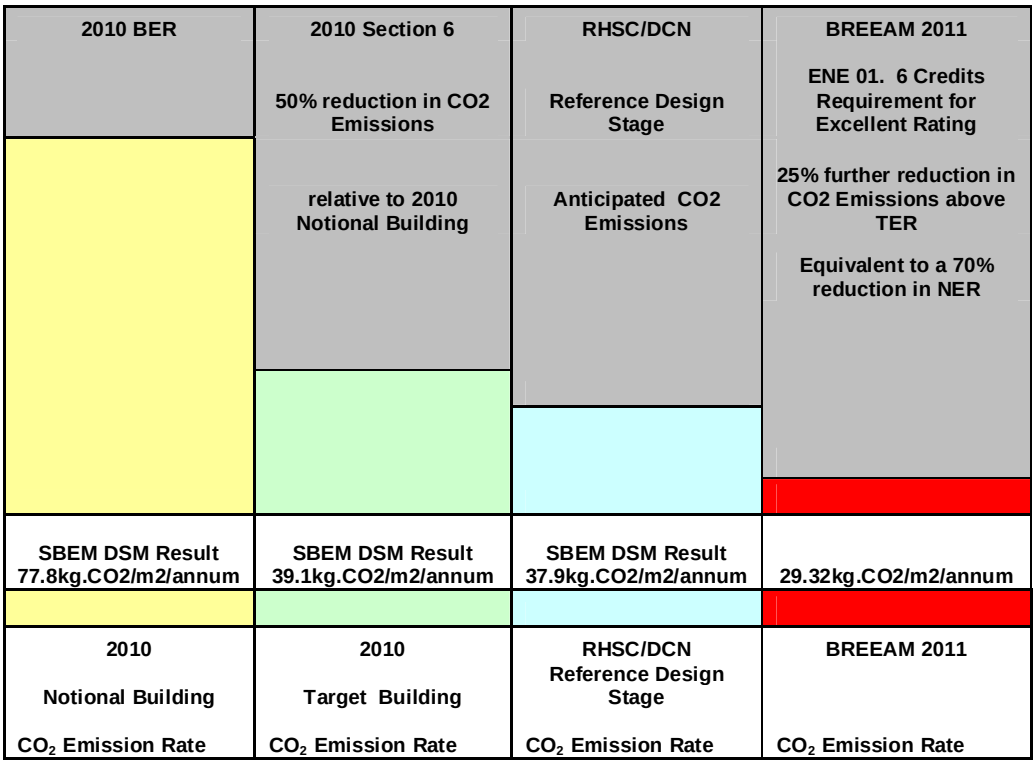

Table 1.2.2 2010 CO2 Emission Rate Targets

§ Wat 01: Water consumption

In order to achieve a BREEAM excellent rating a project must score at least one credit in the WAT01 section. In order to achieve this it must be demonstrated that the building can reduce its water consumption by approximately 12.5%. This will be difficult to achieve for a heavily serviced acute hospital building without additional water saving / recycling equipment. This may for instance require a substantial below ground rainwater harvesting scheme and filtration system, which would require significant extra site space for underground water storage and re-distribution of recovered water into the facility.

1.4 Concluding Remarks

- If assessed under the *BREEAM 2011 New Construction* scheme the project is highly like to not achieve the desired BREEAM Excellent rating for the reasons explained associated with “Minimum Standard” scoring credits.

- A Like for Like comparison has highlighted that the current level of credit compliance anticipated for the *BREEAM 2008 Healthcare* assessment method will be insufficient to achieve the minimum percentage scoring level of 70% under the 2011 assessment method required to achieve BREEAM Excellent.

- There is very significant additional risk associated with the “Minimum Standard” credits required for *BREEAM 2011 New Construction* to achieve Excellent. The greatest of these is ENE01 Reduction of CO2 emissions. The required CO2 emission reduction associated with this credit represents a total reduction in CO_2 emissions of 70% relative to the 2010 Building Regulations Notional Building. It should be noted that this is an extremely onerous target and is likely to incur significant design and cost implications even if it were possible. Our current analysis indicates it is not a practical proposition due to the restricted nature of the site and site boundary constraints.

2.0 Changes within BREEAM 2011

To maintain a flexible system *BREEAM 2011 New Construction* retains the balanced approach to the assessment and rating of building performance. This means that, to achieve a particular level of performance the majority of BREEAM credits can be traded, i.e. non-compliance in one area can be off-set through compliance in another to achieve the target BREEAM rating.

However, as per the *BREEAM Healthcare 2008* assessment method, to ensure that performance against fundamental environmental issues is not over-looked in pursuit of a particular rating, BREEAM 2011 improves Minimum Standards of performance in key areas e.g. energy, water, waste etc. It is important to bear in mind that these are minimum acceptable levels of performance and, in that respect they should not necessarily be viewed as levels that are representative of best practice for a BREEAM rating level.

To achieve a BREEAM Excellent rating the minimum overall percentage score of 70% must be achieved and the minimum standards, detailed in Table 2.1 below and overleaf must also be achieved.

Credit	Minimum Scoring required for Excellent	HK Comment
Man 01: Sustainable procurement	**One credit**	Equivalent to 2008 Assessment method. No additional risk
Man 02: Responsible construction practices	**One credit**	Equivalent to 2008 Assessment method. No additional risk
Man 04: Stakeholder participation	**One credit**	Building user information required Equivalent to 2008 Assessment method. No additional risk
Hea 01: Visual comfort	**One credit**	Equivalent to 2008 Assessment method. No additional risk
Hea 04: Water quality	**One credit**	Equivalent to 2008 Assessment method. No additional risk
Ene 01: Reduction of CO2 emissions	**Six credits**	BREEAM Excellent level (≥6 credits): Requires a CO2 parameter for the EPRNC calculation of 0.22. This is equivalent to a 25% improvement on the TER. **Significant Risk to RHSC DCN Excellent Rating.**
Ene 02: Energy monitoring	**One credit (First sub-metering credit)**	Equivalent to 2008 Assessment method. No additional risk
Ene 04: Low or zero carbon technologies	**One credit**	Equivalent to 2008 Assessment method. No additional risk

Table 2.1 continued…..

Wat 01: Water consumption	**One credit**	The water consumption (litres/person/day) for the assessed building is compared against a notional baseline performance and a minimum 12.5% improvement is required **Significant Risk to RHSC DCN Excellent Rating.**
Wat 02: Water monitoring	**Criterion 1 only**	Water meter required on incoming water main (regardless of water source) Equivalent to 2008 Assessment method. No additional risk
Mat 03: Responsible Sourcing	**Criterion 3 only**	All timber must be sourced in accordance with the UK Government Timber Procurement Policy Equivalent to 2008 Assessment method. No additional risk
Wst 03: Operational waste	One credit	Equivalent to 2008 Assessment method. No additional risk
LE 03: Mitigating ecological impact	One credit	Equivalent to 2008 Assessment method. No additional risk

Table 2.1 Minimum Excellent Rating Requirements

The following section provide a brief summary of the changes to individual credits

2.1 Management

Man 01 – Sustainable procurement

This section is comprised of BREEAM 2008 sections;

- Man 1: Commissioning - 2 credits, as previously
- Innovation credit: BREEAM AP - Now increased to 3 credits, with the first credit now split into 2 credits and the second credit remaining the same.

In addition there are new credits as follows;

- 1 credit for post construction thermo-graphic survey and remedial works where required
- 1 credit for a defined decision making process (to include the design team, contractor and occupier); agreed roles / responsibilities and schedule of training for building manager(s).
- 1 credit for post occupancy monitoring to collect energy & water data for 12 months post occupation and 'aftercare support'.

2.1/….

Man 02 – Responsible construction practices

This section is comprised of BREEAM 2008 section Man 2: Considerate Constructors and is worth 2 credits, as previously assessed under BREEAM 2008

Man 03 – Construction site impacts

This section takes a number of the BREEAM 2008 Man 3 sections and awards credits as follows;

- 1 credit for site energy targeting, monitoring and reporting (an enhancement of 2008 Man 3 item a)
- 1 credit for site water targeting, monitoring and reporting (an enhancement of 2008 Man 3 itemc)
- 1 credit for site transport monitoring and reporting an enhancement of 2008 Man 3 item b)
- 1 credit for sourcing sustainable site timber (similar to 2008 Man 3 timber credit)
- 1 credit for construction site management (EMS & pollution management similar to 2008 Man 3 items d, e & g)*Man 04 – Stakeholder participation*

This section is comprised of BREEAM 2008 sections;

- Man 4: Building user guide - 1 credit, as previously
- Man 6: Consultation - 1 credit, for covering the requirements of both 2008 credits and now also applies to commercial buildings. For schools this also now includes some elements of 2008 credit LE7.
  In addition there are new credits as follows;
- 1 credit for ensuring building accessibility, this contains some of the 2008 Man 7 credit requirements
- 1 credit for carrying out Post Occupancy Evaluation

Man 05 – Life cycle cost and service life planning

This section is comprised of BREEAM 2008 section Man 12 – Life cycle costing which is now increased to 3 credits, with the first credit now split into 2 credits and the second credit remaining the same.

2.2 Health & Wellbeing

Hea 01 – Visual comfort

This section is comprised of BREEAM 2008 sections;

- Hea 4: High frequency lighting - No credit value, but a minimum requirement for all rating levels
- Hea 1: Daylighting - 1 -2 credits, depending on building type
- Hea 2: View out and Hea 3: Glare control - Generally 1 credit, for both sections (2 credits for some healthcare buildings)
- Hea 5: Internal & external lighting levels and Hea 6: Lighting zones & controls - 1 credit, for both sections
- Hea 19: Arts in health - 1 credit, for healthcare only

Hea 02 – Indoor air quality

This section is comprised of BREEAM 2008 sections;

- Hea 7: Potential for natural ventilation - 1 credit, as previously
- Hea 8: Internal air pollution - 1 credit, as previously
- Hea 9: Volatile organic compounds - 1 credit, as previously
- Hea 17: Specification of laboratory fume cupboards and Hea 18 : Containment Level 2 & 3 laboratory areas - 1 credit, for both sections (only applicable where labs within the building)

In addition there is a new credit as follows;

- 1 credit for pre-occupancy VOC testing

Hea 03 – Thermal comfort

This section is comprised of BREEAM 2008 sections;

- Hea 10: Thermal comfort - 1 credit, as previously assessed under BREEAM 2008
- Man 11: Thermal zoning - 1 credit, as previously assessed under BREEAM 2008

Hea 04 – Water quality

This section is comprised of BREEAM 2008 sections Hea 12: Prevention of legionella and Hea 16; Drinking water worth 1 credit, for both sections

Hea 05 – Acoustic performance

This section is comprised of BREEAM 2008 section Hea 13: Acoustic performance worth 1 - 3 credits, as previously assessed under the 2008 scheme.

Hea 06 – Safety & security

This section is comprised of BREEAM 2008 sections;

- Man 8: Security - 1 credit, as previously and now also applies to commercial buildings
- Tra 4: Pedestrian & cyclist safety & Tra 8: Deliveries and Manoeuvring - Now 1 credit for both sections, all building types

2.3 Energy

Ene 01 – Reduction of CO2 emissions

Minimum standard requirements – 6 credits required for Excellent rating. A 25% reduction relative to the building TER is required in order to achieve a BREEAM Excellent rating.

This section is comprised of BREEAM 2008 section Ene 1:Reduction in CO2 emissions and is still worth 15 credits available with the top score still awarded for zero net CO2, however there is a new calculation method based on the TER from Part L BRUKL calculations rather than the EPC used for BREEAM 2008. At this stage it is difficult to be clear on what impact this is likely to have on scoring as the Ene 1 BREEAM calculator is not yet available.

Ene 02 – Energy monitoring

Minimum standard requirements;

This section is comprised of BREEAM 2008 sections;

- Ene 2: Sub-metering of major energy uses - now 1 credit, for all building types and no specific requirement for BEMS for healthcare buildings.
- Ene 3: Sub-metering of tenancy areas - 1 credit, as previously (except schools)

Ene 03 – External lighting

This section is comprised of BREEAM 2008 section Ene 4: External lighting worth 1 credit, as previously

Ene 04 – Low & zero carbon technologies

This section is comprised of BREEAM 2008 sections;

- Ene 5: Low and zero carbon technologies - 1 credit for feasibility study or green tariff in addition 1 further credit for 10% renewable energy
- Innovation credit: Ene 5 – 1 credit for 20% renewable energy (rather than the previous 15% under Ene 5)
- Ene 10: Free cooling - 1 credit, as previously but now for all building types

In addition there is a new credit as follows;

- 1 credit where the feasibility study also includes an LCA of the carbon impact of the chosen LZC system(s) and this results in a lifecycle reduction in CO2 emissions

Ene 06 – Energy efficient transportation systems

This section is comprised of BREEAM 2008 sections Ene 8: Lifts and Ene 9: Escalators and travelling walkways and is worth 2 credits. The first credit covers a transport analysis and system selection, the second covers specification of energy efficient features (both credits now cover lifts and escalators).

2.4 Transport

Tra 01 – Public transport accessibility

This section is comprised of BREEAM 2008 section Tra 1: Provision of public transport and is worth 2 – 5 credits, as previously (3 for offices & schools, 5 credits most other schemes).

Additionally, there is now also the option to get a maximum of 1 credit for buildings with a fixed shift pattern where a dedicated bus service is provided for building users. This is only available where no credits are achievable for scheduled public transport services.

Tra 02 – Proximity to amenities

This section is comprised of BREEAM 2008 section Tra 2: Proximity to amenities and is worth 1 credit for most schemes, with 2 credits available for Multi-Residential.

Tra 03 – Cyclist facilities

This section is comprised of BREEAM 2008 section Tra 3: Cyclist facilities and is worth 2 credits for most schemes. It is now possible to reduce cycle facilities by 50% if at least half the available Tra 1 credits have been achieved.

Tra 04 – Maximum car parking capacity

This section is comprised of BREEAM 2008 section Tra 6: Maximum car parking capacity and is worth 1 credit only for Healthcare

Tra 05 – Travel plan

This section is comprised of BREEAM 2008 section Tra 5: Travel plan and is still worth 1 credit.

2.5 Water

Wat 01 – Water consumption

This section combines BREEAM 2008 sections Wat 1: Water consumption and Wat 5: Water recycling and is now worth 5 credits. There is a new calculation method for all building types based on percentage improvement over a baseline of 'standard' sanitary fitting.
As the Wat 1 BREEAM calculator is not yet available is it is difficult to judge scoring impact at present.

Wat 02 – Water monitoring

This section combines BREEAM 2008 sections Wat 2: Water meter and Innovation credit: Wat 2 (where relevant) with 1 credit available for both sections.

Wat 03 – Leak detection

This section is comprised of BREEAM 2008 sections;

- Wat 3: Major leak detection - 1 credit, as previously assessed under BREEAM 2008
- Wat 4: Sanitary supply shut off - 1 credit, as previously assessed under BREEAM 2008

Wat 04 – Water efficient equipment

1 credit - all schemes, although may be filtered out if not relevant to building

This section is comprised of BREEAM 2008 sections Wat 6: Irrigation system and Wat 7: Vehicle wash and is now worth 1 credit for both sections.

2.6 Materials

Mat 01 – Life cycle impacts

This section is comprised of BREEAM 2008 section Mat 1: This is equivalent to the 2008 scheme.

Mat 02 – Hard landscaping and boundary protection

This section is comprised of BREEAM 2008 section Mat 2: Hard landscaping and boundary protection and is still worth 1 credit.

Mat 03 – Responsible sourcing of materials

This section is comprised of BREEAM 2008 section Mat 5: Responsible sourcing of materials and is still worth 3 credits.

Mat 04 – Insulation

This section is comprised of BREEAM 2008 section Mat 6: Insulation and is still worth 2 credits.

Mat 05 – Designing for robustness

This section is comprised of BREEAM 2008 section Mat 7: Designing for robustness and is still worth 1 credit.

2.7 Waste

Wst 01 – Construction site waste management

This section is comprised of BREEAM 2008 section Wst 1: Construction site waste management and is still worth 4 credits although waste benchmarks have been revised slightly.

Wst 02 – Recycled aggregates

This section is comprised of BREEAM 2008 section Wst 2: Recycled aggregate and is still worth 1 credit but now includes recycled aggregate targets for individual building elements.

Wst 03 – Operational waste

This section is comprised of BREEAM 2008 sections Wst 3: Recyclable waste storage, Wst 4: Compactor/baler and Wst 5: Composting and is now worth 1 credit for all sections (as relevant).

Wst 04 – Speculative floor & ceiling finishes

This section is comprised of BREEAM 2008 section Wst 6: Floor finishes and is still worth 1 credit but has now been extended to include ceilings.

2.8 Land Use & Ecology

LE 01 – Site selection

This section is comprised of BREEAM 2008 sections;

- LE 1: Reuse of land – 1 credit, as previously assessed under BREEAM 2008
- LE 2: Contaminated land – 1 credit, as previously assessed under BREEAM 2008

LE 02 – Ecological value of site and protection of ecological features

This section is comprised of BREEAM 2008 section LE 3: Ecological value of site and protection of ecological features and is still worth 1 credit.

LE 03 – Mitigating ecological impact

This section is comprised of BREEAM 2008 section LE 4: Mitigating ecological impact and is still worth 2 credits but uses revised habitat types.

LE 04 – Enhancing site ecology

This section is comprised of BREEAM 2008 section LE 5: Enhancing site ecology and is still worth 3 credits but uses revised habitat types.

LE 05 – Long term impact on biodiversity

This section is comprised of BREEAM 2008 section LE 6: Long term impact on biodiversity and is still worth 2 credits. Note this now includes the requirements of 2008 credit LE8 as an additional item for school assessments.

2.9 Pollution

Pol 01 – Impact of refrigerants

This section is comprised of BREEAM 2008 section;

- Pol 2: Refrigerant leak detection – Now 1 credit only for both leak detection and pump down

In addition there are new credits as follows;

- 1 credit where refrigerants have a direct effect life cycle CO2 equivalent of ≤ 1000 kgCO2e/kW cooling capacity
- 1 further credit where refrigerants have a direct effect life cycle CO2 equivalent of ≤ 100 kgCO2e/kW cooling capacity or GWP ≤10 (this would be met by achieving 2008 section Pol 1).

Pol 02 – NOx emissions

This section is comprised of BREEAM 2008 section Pol 4: NOx emissions and is still worth 3 credits.

Pol 03 – Surface water run-off

5 credits - all schemes

This section is comprised of BREEAM 2008 sections;

- Pol 5: Flood risk – 3 credits, as previously
- Pol 6: Minimising watercourse pollution – 1 credit, as previously assessed under BREEAM 2008

In addition there is a new credit as follows;

- 1 credit for additional attenuation of surface water run-off to ensure that local flooding will not occur in the event of local drainage system failure. This is in line with the requirements of the Code for Sustainable Homes.

Pol 04 – Reduction of night time light pollution

This section is comprised of BREEAM 2008 section Pol 7: Reduction of night time light pollution and is still worth 1 credit.

Pol 05 – Noise attenuation

This section is comprised of BREEAM 2008 section Pol 8: Noise attenuation and is still worth 1 credit.

2.10 Innovation

Man 01 – Sustainable procurement
1 credit for a 3 year commitment to monitor energy, water and occupancy satisfaction

Man 02 – Responsible construction practices
1 credit as 2008 Man 2 innovation credit.

Hea 01 – Visual comfort
1 credit as 2008 Hea 1 innovation credit.

Ene 01 – Reduction of CO2 emissions

Increased to 5 credits for a 'carbon negative' building

Ene 04 – Low or zero carbon technologies

1 credit for a 30% reduction in CO2 emissions as a result of specifying local LZC technologies

Wat 01 – Water consumption

1 credit for 65% improvement over benchmark

Mat 01 – Life cycle impacts

1 credit as 2008 Mat 1 innovation credit

Mat 03 – Responsible sourcing of materials

1 credit as 2008 Mat 5 innovation credit

Wst 01 – Construction site waste management
1 credit as 2008 Wst 1 innovation credit but now must also meet highest waste benchmark as well.

1.0 Introduction

This report has been prepared by Jonathan McMillan for Hulley Eco, a sustainable building design and building simulation division within Hulley & Kirkwood LTD, in order to demonstrate that the proposed Reference Design envisaged energy approach and envelope performance criteria for the Royal Hospital for Sick Children / Department for Clinical Neurosciences building could be compliant with the 2010 version of Section 6 Energy of the Scottish Building Regulations further to departmental layouts progressing beyond the 1:500 stage to 1:200 stage.

Jonathan has the following qualifications relevant to building energy modelling & low carbon/sustainable building design

- MEng (Hons). in Mechanical Engineering - The University of Edinburgh
- BRE Approved Certifier of Design for Section 6 Compliance
- Integrated Environmental Solutions (IES) accreditation covering Section 6 Compliance for building types 3, 4 & 5 and for preparation of Energy Performance Certificates.
- BRE ISBEM software qualification
- CIBSE Low Carbon Consultant Simulation Specialist
- CIBSE Low Carbon Consultant Building Design Specialist
- Licensed BREEAM Healthcare Assessor

1.1 Building Energy Modelling

A Simplified Building Energy Model calculation (SBEM) has been carried out to demonstrate compliance with Section 6 of the 2010 Building Regulations for the envisaged Reference Design Stage building. The model's geometry was accurately drawn from final Reference Design Stage 1:200 architectural plan layouts supplied by the Architect, Nightingale Associates. Assumptions on the occupancies and internal heat gains were based on typical values for specific operational area usage associated with acute hospital departments included. The latest version of IES Virtual Environment modelling software has been used (IES version 6.4) to demonstrate compliance. The details of which are given in Table 1.1.

Calculation Engine:	Apache SIM
Calculation Engine (version):	V6.4
Interface to Calculation Engine:	IES Virtual Environment
Interface to Calculation Engine (version):	V6.4
BRUKL Compliance Check (Version):	V4.1.c.2

Table 1.1. Calculation Tool Details

It should be noted that IES Virtual Environment V6.4 is an approved non-domestic DSM software package accredited through the Scottish Building Standards Agency.

2.0 Simulation Component Properties

2.1 Building Fabric

The following building fabric U-values have been incorporated into the Simplified Building Energy Model (SBEM) Calculation.

	U-Value W/m^{2}K
External Wall	0.21
Floor	0.20
Roof	0.20
Windows / Roof lights	1.7
Personnel Doors	1.7

Table 2.1 Building Fabric

2.1.1 Cold bridging details

An approved dynamic software package, IES Virtual Environment, has been used to prove compliance with Section 6. The software incorporates cold bridging details by using specific ψ values, measured W/(m.K), for the relevant building element junctions.

	Junctions involving metal cladding	Junctions not involving metal cladding
Type of Junction	ψ (W/(m.K))	ψ (W/(m.K))
Roof-Wall	0.6	0.12
Wall-Ground Floor	1.15	0.16
Wall-Wall Corner	0.25	0.09
Wall – Floor (not ground)	0.07	0.07
Lintel above window	1.27	0.3
Sill below window	1.27	0.04
Jamb at window/door	1.27	0.05

Table 2.1.1 Element Cold Bridging Details

2.2 Building Air Tightness

The building air tightness incorporated within our final Reference Design Stage SBEM model was set to 7.5(m^3/h)/m^2@50pa.

2.3 Internal Conditions

The various operational zones were subject to internal gains determined from National Calculation Method (NCM) templates and operational schedules. NCM templates were used to describe the daily activities and associated gains for the following room types.

- A&E Consulting/treatment/work areas
- Bathroom
- Bedroom
- Changing Facilities
- Circulation Areas
- Classroom
- Common room/staff room/lounge
- Consulting Room
- Diagnostic room
- Eating/Drinking
- Food Preparation
- Hall/lecture theatre
- Hydrotherapy pool
- Industrial Process area
- Intensive Care
- IT equipment (comms server)
- Laboratory
- Laundry
- Meeting Room
- Operating Theatre
- Patient Accommodation Day
- Multi-bed Wards
- Physiotherapy Studio
- Plant room
- Post mortem facility
- Reception
- Storage Area
- Tea Making
- Toilet
- Waiting Room
- Ward Offices

For the National Calculation Method (NCM) templates detailed above, the following gains are taken into account;

- Occupancy sensible
- Occupancy latent
- Lighting
- Activity specific equipment
- Miscellaneous small power

2.3/….

The nature of Section 6 SBEM modelling means that internal gains and operational profiles are fixed for both the Notional and Design buildings. These cannot be edited by the engineer.

2.4 External Conditions

Each scenario was simulated with respect to statistically predicted weather data and the local solar path, determined by the location and orientation of the site. Details of the solar path and annual ambient thermal profile can be seen in sections 2.4.1 & 2.4.2 respectively.

2.4.1 Solar Axis and Azimuth.

The following data is embedded within IES and is used to determine the magnitude of solar gain experienced due to direct sunlight exposure.

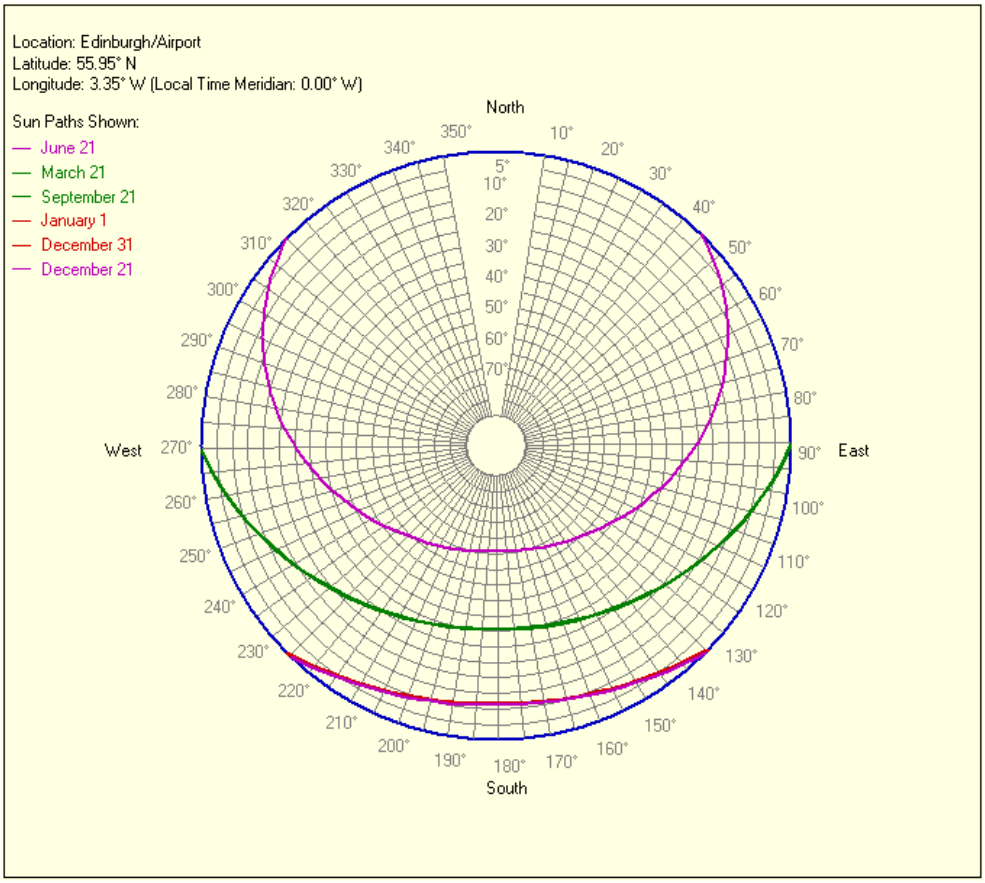

Figure 2.4.1 Solar Path Data

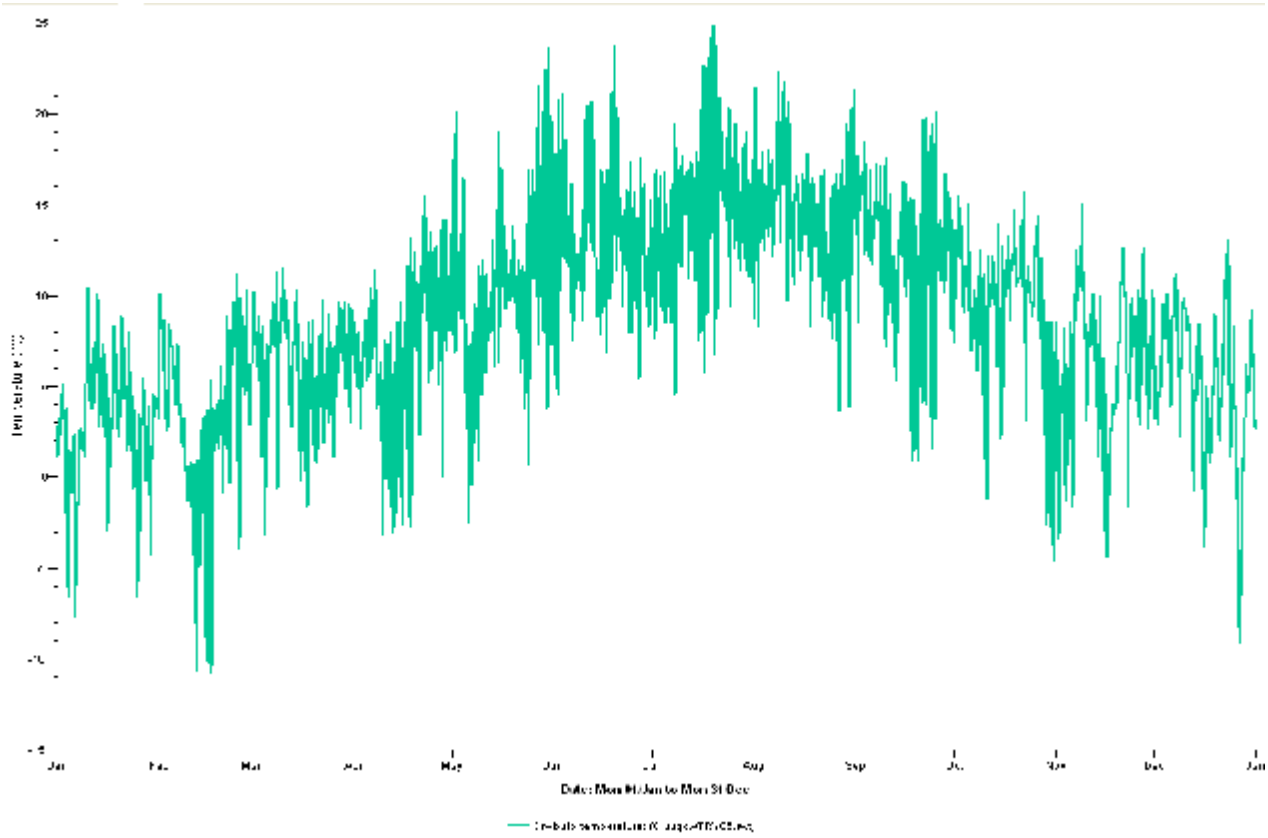
2.4.2 **Ambient external dry bulb temperature.**

As per the requirements of Section 6 of the Scottish Building regulations the Test Reference Year (TRY) weather file for Glasgow has been used.



2.5 Space Conditioning Systems

The heat source is a two system modular array comprising approximately 600kW (thermal) of waste heat from an onsite LZCT i.e. gas fired CHP engine operating alongside dual fuelled gas/oil boilers.

The generating technologies operate successively as follows;

1. Waste heat from the CHP engine is the first contributing low carbon heat source for the system meeting the envisaged base load heating demand.

2. The gas/oil boiler plant supplies the remainder of the seasonal heating loads, working in conjunction with the low carbon plant.

Thermal templates have been created to reflect the space heating and domestic water systems present in the new RHSC / DCN building. Thermal templates define the generating efficiency of mechanical plant, the specific fan power of mechanical ventilation plant, the SCoP of chillers and attribute auxiliary energy consumption to each system type based on energy u.sed by auxiliary pumps, fans and controls. The envisaged building systems present in RHSC / DCN Reference Design Stage building can be described as follows;

- LTHW radiant ceiling panels with local TRV temperature control with tempered and comfort cooled fresh air supply and general extract ventilation through central mechanical AHU plant with heat recovery devices.

- Heating & cooling supplied by mechanical ventilation, with use of local duct mounted reheat batteries and general extract ventilation through central AHU plant with heat recovery devices.

- Chilled water cassettes / FCUs for cooling of isolated high gain zones such as meeting rooms, equipment control rooms, IT/Hub rooms, ward kitchens and non-clinical area hot spots.

2.6 Additional Zero Carbon Generating Technologies (LZCGTs)

Photovoltaic technology generates electricity from light. Photovoltaic panels are distinct from other renewable energy technologies since there are no moving parts to be maintained and they are silent.

We have assessed the application of embedded photovoltaic panels on a south facing and south sloping roof and have assessed this technology on the basis of an active area of 800m^2 to demonstrate the benefits in contribution of zero carbon electrical energy to the building to assist with Section 6 compliance.

2.7 Building Geometry

A geometrically accurate representation of the new build Royal Hospital for Sick Children / Department for Clinical Neurosciences building was constructed from the architect's reference stage departmental layouts using the Model IT package within the IES Virtual Environment. As building elevations have not yet been formalised glazing has been added to the external walls such that 25% of the external wall area is glazed. This can be seen in figures 2.7.1 to 2.7.2 below.

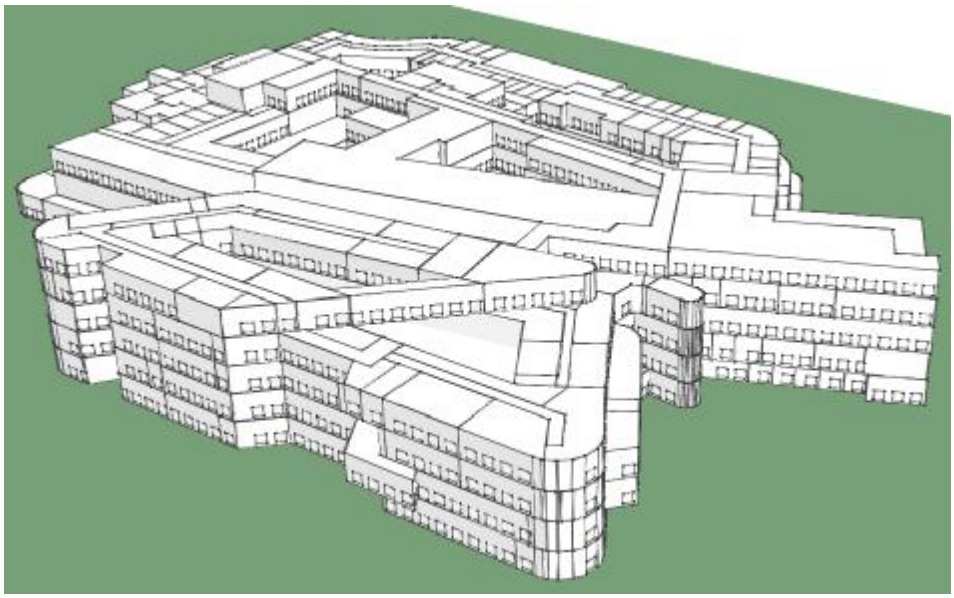


Figure 2.7.1 Model Geometry

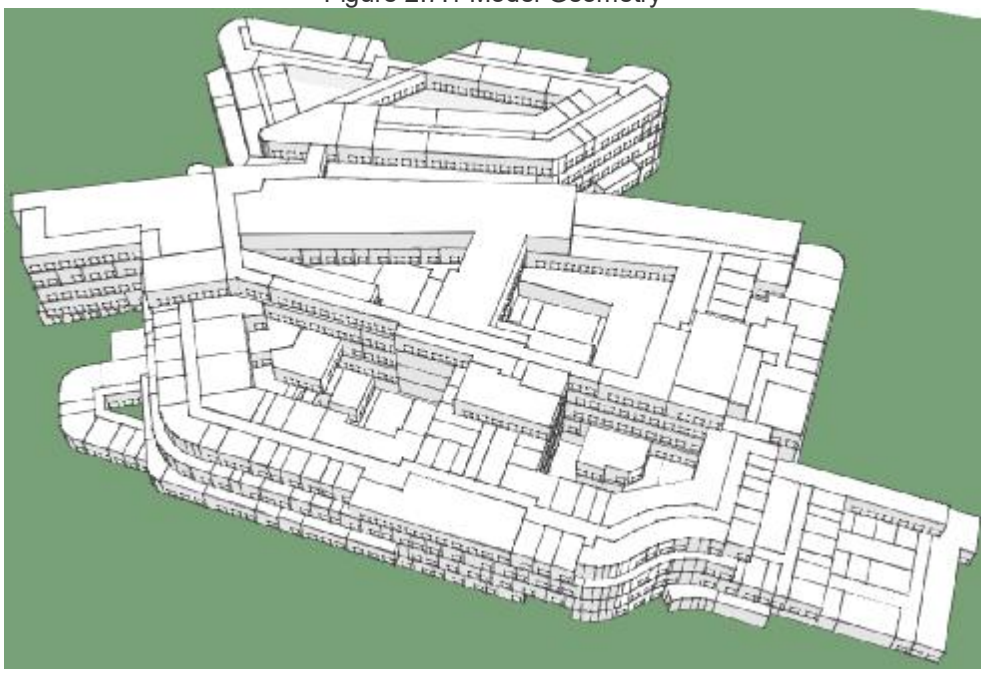

Figure 2.7.2 Model Geometry

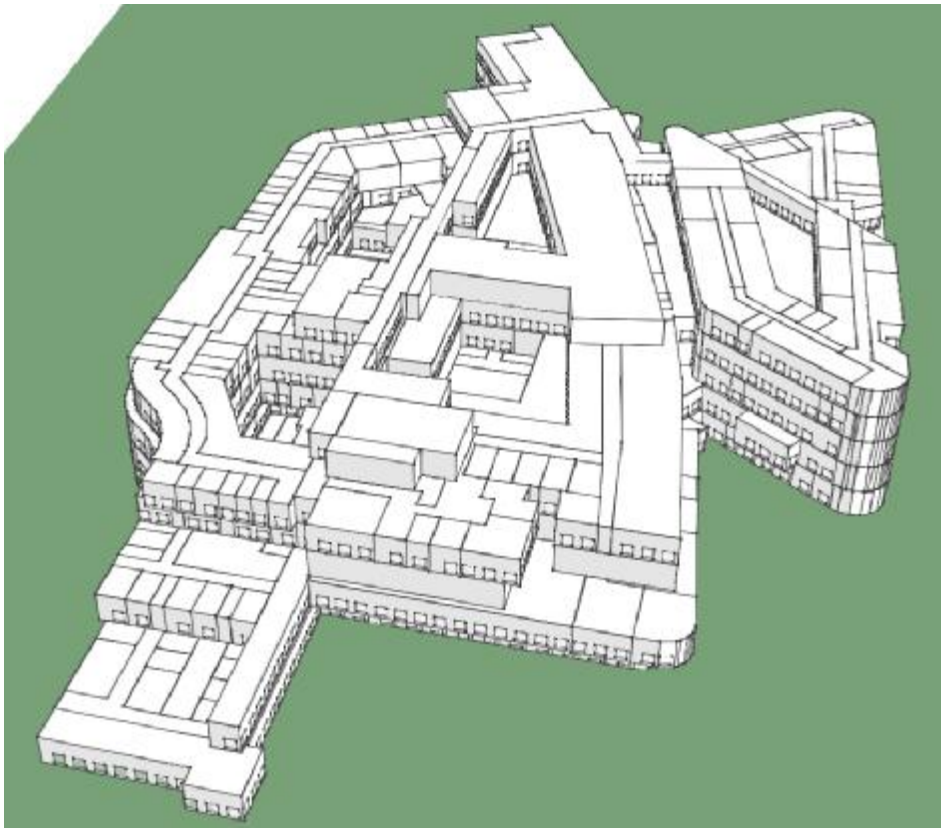

Figure 2.7.2 Model Geometry

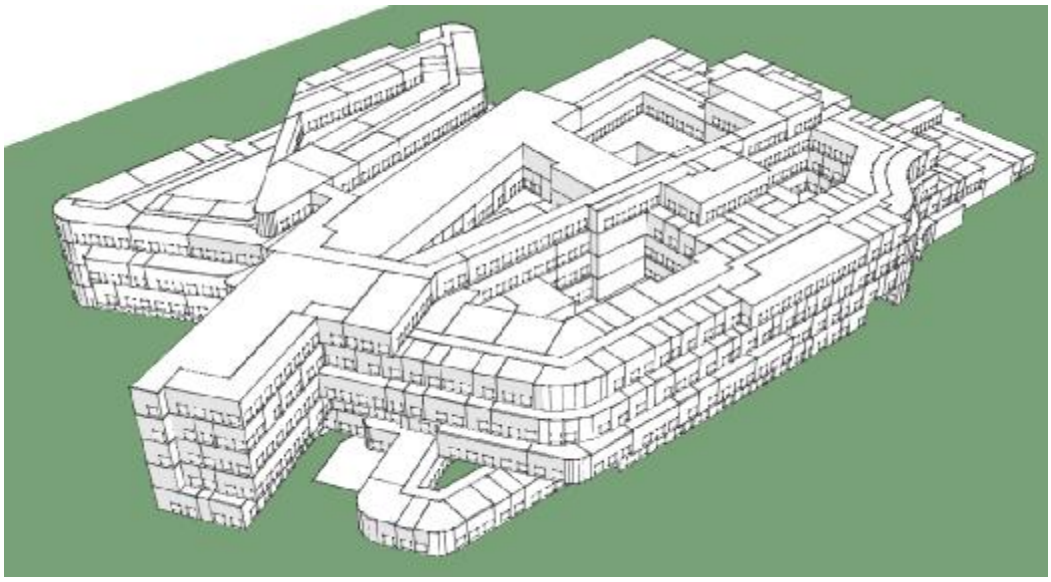

Figure 2.7.2 Model Geometry

3.0 Building CO2 Emission Results

Results of our SBEM Section 6 compliance simulation are detailed in Table3.0 below. Please refer to attached BRUKL Document for confirmation of NER, TER & BER.

- The NER is the Notional CO_2 Emission Rate for a building comprising the same geometry, location and operational usage/usage profile, but which is not designed to the current building regulations.

- The TER is the Target Emission Rate for the design building, which is derived from the improvement factor and LZCT factor detailed in Table 3.0 above. The improvement factor is based around the proportion of natural ventilation to mechanical ventilation within the building. A fully mechanically ventilated building will have an improvement factor of 0.2.

  The LZCT factor is set to 0.1 for all buildings.

  The TER is derived from the NER as follows

  TER = NER x (1 – 0.408) x (1 - LZCT Factor)

- The BER is the Reference design building CO_2 emission rate, incorporating actual plant efficiencies, U-values & LZCTs

LZCGT	Modulating CHP engine. Duty set to match building base heat load. PV panels - 800m2 - could be located on Energy Centre roof (floor area 1000m2 approx)	
Glazing Type	Solar control glass on S & W facades (g=.45)	
U - Values	U-values improved beyond those set out in Section 6	
Building Air Tightness	7.5 (m3/h)/m2@ 50Pa	
Notional Building Emission Rate (NER) Section 6 -2010	**Target Emission Rate (TER) Section 6 -2010**	**Reference Design Envisaged Scheme : Building Emission Rate (BER)**
$Kg.CO_2/m^2$	$Kg.CO_2/m^2$	$Kg.CO_2/m^2$
52.8	**26.6**	**25.8**

The figures detailed above have been derived from IES VE 2010 Apache Sim method. It is however accepted, and should be noted, that the figures derived from a compliance simulation based on NCM templates using the SBEM & DSM methods are not equivalent to the buildings actual “in-operation” consumed energy. As such, despite proving that the building will be more energy efficient and emit less CO_2 than an equivalent notional building, the figures detailed in section 3.0 should not be used as a benchmark or a target figure for actual building CO_2 emissions or to derive energy consumption.

4.0 Conclusions. Compliance with Section 6 – Energy

A Simplified Building Energy Model (SBEM) calculation has been carried out for the Reference Design Stage Royal Hospital for Sick Children / Department for Clinical Neuroscience building using the envisaged approach.

It should be noted that the envisaged approach is not intended to be prescriptive and that alternative approaches where put forward beyond the Reference Design could also be valid provided the conditions of planning are not compromised and that Section 6 can be complied with and that client briefing can be complied with.

Results detailed in Section 3.0 indicate that for the envisaged Reference Design approach , by incorporating the following passive and active LZCGT measures the RHSC/DCN building can meet the CO_2 emission reduction requirements set out in Section 6 Energy of the 2010 Scottish Building Regulations;

- Use of modulating gas fired Combined Heat and Power (CHP) to meet the building base heat load demand.
- Use of 800m^2 of Photo-Voltaic (PV) panels – possibly located on the energy centre roof.
- Use of high efficiency building services plant.
- Heat Recovery to AHU plant, with a minimum efficiency of 60% relative to return air volume.
- Inverter Drives to AHU motors and Circulation Pumps (variable speed drives).
- Occupancy/presence detectors in conjunction with automatic lighting controls with high efficiency lighting.
- Improving the building envelope U-values beyond the requirements of Section 6 Energy.
- Improving the building air tightness, to 7.5 (m^3/h)/m^2 @ 50Pa.
- The introduction of solar control glass, with a g-value of 0.45, to facades which are subject to high solar gain
- Ventilation solutions as aligned to the RHSC-DCN Environmental Matrix

5.0 Concluding Remarks

The simulation results given in this report are based on the output of a complex, dynamic Energy model, which takes account of the following design criteria:

- Architect's drawings
- Weather data
- Simulation Software
- Internal Conditions
- Construction materials
- Space Conditioning system efficiency

Any output from the model is only as accurate as the input of the variables associated with the above criteria.

It is essential that all parties understand and accept the various criteria, as these 'drive' the performance of the simulation.

A bright new future: A project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France

IMPORTANT NOTICE

The Invitation to Participate in Dialogue and any subsequent Invitation to Submit Final Tender (together the "**Invitation**") has been prepared for the purpose of providing certain information to Bidders invited to participate in the competition for the design, build, finance and maintenance of a project to enable the re-provision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France ("**the Project**").

In no circumstances shall the Board or their advisers, consultants, contractors, servants or agents incur any liability or responsibility arising out of or in respect of the issue of the Invitation.

Nothing in the Invitation shall be construed as legal, financial or tax advice.

Any summaries or descriptions of documents or contractual arrangements contained in any part of the Invitation cannot be and are not intended to be comprehensive, nor any substitute for the underlying documentation (whether existing or to be concluded in the future), and are in all respects qualified in their entirety by reference to them.

No legal relationship or other obligation shall arise between any Bidder and the Board unless and until the NPD Project Agreement has been formally executed in writing by the Board and the successful Bidder and any conditions precedent to its effectiveness have been fulfilled.

In this notice, references to the Invitation shall include all information contained herein and any other information (whether written, oral or in machine-readable form) or opinions made available by or on behalf of the Board, their advisers, consultants, contractors, servants or agents in connection with the Invitation or the Project including, without limitation, any additional information made available by the Board throughout the Dialogue Period.

Scots law shall be applicable to the Invitation and the Scottish Courts shall have exclusive jurisdiction.

Each Bidder's acceptance of delivery of the Invitation constitutes its agreement to, and acceptance of, the terms set forth in this Important Notice.

1 INTRODUCTION

1.1 Purpose of Invitation to Participate in Dialogue

This Invitation to Participate in Dialogue (ITPD) is being issued to the three successful candidates (each of whom shall be a Bidder) shortlisted by the Board following completion of the Pre-Qualification Questionnaire initiated by the Office Journal of European Union (OJEU) notice *ref.386758-2012 (2012/S 235-386758)* published on 5 December 2012. The ITPD describes the Board's needs and requirements and sets out how Dialogue will be conducted.

1.2 Structure of the Invitation to Participate in Dialogue

The ITPD comprises four volumes of information as follows:

1.2.1 **Volume 1** contains background information on the Project, the conditions of participation, the arrangements for the Dialogue, the Informal Submissions that Bidders must provide during the Dialogue Period, Draft Final Tender requirements, envisaged Final Tender requirements and how the Board intends to evaluate the Final Tender, award the Project and communicate with Bidders.

1.2.2 **Volume 2** contains the contractual requirements which are set out in the NPD Project Agreement and schedules, (which include the draft Payment Mechanism) and Articles of Association.

1.2.3 **Volume 3** contains the specific technical requirements of the Board for the Project including construction (clinical and non-clinical) requirements and Facilities standards, equipping requirements and facilities management requirements.

1.2.4 **Volume 4** comprises of details of the Data Room available to Bidders during the Tender Period.

1.3 Definitions within Invitation to Participate in Dialogue

1.3.1 In terms of the interpretation of the ITPD, unless the context otherwise requires:

(a) The masculine includes the feminine and vice-versa;

(b) The singular includes the plural and vice versa;

(c) The words "include" and "including" shall be construed without limitation;

(d) Any reference to a person includes a reference to an individual, company, authority, board, association or other legal entity;

(e) Any reference to any directive, statute or statutory provision shall include any directive, statute, or statutory provision which amends or replaces or has amended, replaced consolidated or re-enacted it and shall include any subordinate legislation made under any directive or statute;

(f) Save as otherwise provided herein, any reference to a Volume shall be a reference to a Volume of the ITPD to; and

(g) Save as otherwise provided herein, any reference in this Volume 1 to a section shall be a reference to a section of this Volume 1.

1.3.2 The terms used in these instructions to Bidders shall, where the same have been defined in the NPD Project Agreement, bear the same meaning as in the NPD Project Agreement unless otherwise defined hereunder:

Additional Documentation Submission has the meaning given to it in Appendix C(i) of Volume 1 of the ITPD;

Ancillary Agreements means the Memorandum and the Articles of Association;

Annual Service Payment has the meaning given to it in the NPD Project Agreement;

Bidder means each of

- B3 *(herein referred to as Bidder A);*
- Integrated Health Solutions (Lothian) *(herein referred to as Bidder B); and*
- Mosaic *(herein referred to as Bidder C)*

and **Bidders** shall be construed accordingly;

Bioquarter Site has the meaning given to it in the NPD Project Agreement;

Board has the meaning given to it in the NPD Project Agreement;

Board's Construction Requirements has the meaning given to it in the NPD Project Agreement;

Board Services has the meaning given to it in the NPD Project Agreement;

Briefing Meeting has the meaning given to it in paragraph 4.4 (Briefing Meeting and Q and A Sessions) of Volume 1 of the ITPD;

CAMHS means the Child and Adolescent Mental Health Service currently provided from the Royal Edinburgh Hospital, Morningside Place, Edinburgh.

Campus Facilities has the meaning given to it in the NPD Project Agreement;

Campus Site has the meaning given to it in the NPD Project Agreement;

Certificate of Non-Collusion and Non-Canvassing means the certificate of that name set out in Appendix H of Volume 1 of the ITPD*;*

CEC means the City of Edinburgh Council;

City Development means the department of City Development within the City of Edinburgh Council;

Conject means the Conject information channel, formerly known as BIW, provided by Conject Ltd, a web based construction collaboration portal utilised on the project by the Board.

Conject User Manual means the user manual for Conject set out in Volume 4 of the ITPD;

Consort has the meaning given to it in the NPD Project Agreement;

Core Evaluation Team means the principal assessment body for procurement, for Pre-Qualification Questionnaire, Dialogue and evaluation of the Final Tender;

Data room means the secure electronic data storage room that will be provided via Conject;

DCN means the Department of Clinical Neurosciences currently provided from the Western General Hospital on Crewe Road South, Edinburgh;

Dialogue means the competitive dialogue conducted in accordance with the Regulations;

Dialogue Meeting means a meeting between the Board and a Bidder during the Dialogue Period;

Dialogue Period means the period between the date of issue of the ITPD and the date of issue of the notification from the Board that Dialogue has been concluded;

Dialogue Period Bulletin means a communication during the Dialogue Period of that name described in paragraph 4.11.2 (Communication Protocol) of Volume 1 of the ITPD;

Dialogue Period Query means a communication during the Dialogue Period of that name described in paragraph 4.11.2 (Communication Protocol) of Volume 1 of the ITPD;

Draft Final Tender means the submission made by a Bidder during the Dialogue Period in accordance with Appendices A, B and C of Volume 1 of the ITPD;

Draft Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ITPD;

Enabling Works has the meaning given to it in paragraph 2.7.5 (Enabling Works) of Volume 1 of the ITPD;

Economic Cost has the meaning defined in paragraph 5.7.1 (Economic Cost) of Volume 1 of the ITPD;

Energy Centre means a dedicated autonomous energy centre to be provided as part of the Project;

Expiry Date has the meaning given to it in the NPD Project Agreement;

Environmental Matrix means the matrix contained in ITPD Volume 3, Schedule Part 6, Section 3, Appendix C*;*

Equalisation Adjustment has the meaning described at paragraph 5.7.1 (c) (Economic Cost) of Volume 1 of the ITPD;

Equipment Schedule means the document named such in Volume 3 of the ITPD;

Equipment Responsibility Matrix means the document named such in Volume 3 of the ITPD;

Facilities has the meaning given to it in the NPD Project Agreement;

Family Hotel has the meaning given to it in Schedule Part 6, Section 3, Sub-section D (Specific Clinical Requirements);

FOISA has the meaning given to it in the NPD Project Agreement**;**

Full Business Case or FBC means full business case of the Board;

Financial Close has the meaning given to it in the NPD Project Agreement;

Financial Model means an electronic model used for the purposes of this procurement as produced by a Bidder in support of the Bidder's Financial Submission (or by the Board in the case of the Shadow Bid Financial Model), having the attributes defined at paragraph 3.9 of this document*;*

Financial Proformas means the contents of Annex 1 to Appendix B of Volume 1 of the ITPD;

Financial Submission means the elements of a Bidders proposals relating to financial issues as defined in Appendix B of Volume 1 of the ITPD and as relating to the Final Tender, Draft Final Tender and all other submissions required during the Dialogue Period;

Final Tender means a submission made by a Bidder in response to an Invitation to Submit Final Tender;

Final Tender Period means the period between the date of issue of the notification that Dialogue has been concluded and the date of the Final Tender;

Generic Rooms has the meaning given to it in paragraph 2.5.2 (Room Layouts) of Volume 1 of the ITPD;

GICs means guaranteed investment certificates

Group 1 Equipment has the meaning given to it in the NPD Project Agreement;

Group 2A Equipment has the meaning given to it in the NPD Project Agreement;

Group 2B Equipment has the meaning given to it in the NPD Project Agreement;

Group 3 Equipment has the meaning given to it in the NPD Project Agreement;

Gross Internal Floor Area means the area of a building measured to the internal face of the perimeter walls at each floor level. The rules of measurement of gross internal floor area are defined in the latest edition of the RICS Code of Measuring Practice;

Hard FM has the meaning given to it in paragraph 2.11 (Facilities Management: Services to be provided by Project Co) of Volume 1 of the ITPD;

Helpdesk has the meaning given to it in the Service Level Specification contained in Volume 3 of the ITPD. *;*

Indicative Elements of the Reference Design has the meaning given to it in paragraph 2.6 (Indicative Elements of the Reference Design) of Volume 1 of the ITPD;

Informal Submission has the meaning given in paragraph 4.2.3 (Timetable and Dialogue Meetings) of Volume 1 of the ITPD;

Information Provided means the information provided to the Bidders by the Board or its advisers during the Dialogue Period;

Interface Proposals has the meaning given to it in the NPD Project Agreement;

Invitation to Participate in Dialogue or ITPD means this document as more particularly described in paragraph 1.2.1 of Volume 1 of the ITPD as updated by the Board from time to time;

Invitation to Submit Final Tender or ISFT means the document(s) which may be issued by the Board to any shortlisted Bidders inviting them to submit their Final Tender;

IRR means internal rate of return;

Key Rooms has the meaning given to it in paragraph 2.5.2 (Rooms Layouts) of Volume 1 of the ITPD;

Key Stage Review the validation to be carried out by the Scottish Futures Trust on behalf of the Scottish Government at key stages of the procurement process;

Link Building has the meaning given to it in the NPD Project Agreement;

Mandatory Reference Design Requirements has the meaning given to it in paragraph 2.5 (Reference Design and Mandatory Reference Design Requirements) of Volume 1 of the ITPD;

Medical School means the University of Edinburgh Medical School, Chancellor's Building, 49 Little France Crescent, Edinburgh, EH16 4SB;

MLA means mandatory liquid assets;

NPD means non-profit distributing;

NPD Articles of Association means the mandatory articles of association of Project Co, which are prescribed by the SFT;

NPD Model means the non-profit distributing model ascribed by the Scottish Government which represents a development of the traditional PFI model;

NPD Project Agreement means the contract set out in draft form at Volume 2 of the ITPD as updated from time to time and issued to all Bidders who remain in Dialogue with the Board at the relevant time;

NPV means net present value;

OBC means Outline Business Case of the Board relating to the Project;

Operational Functionality means

(a) the following matters as shown on the 1:500 scale development control plan and site plans;

(i) the point of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities; and

(iii) the adjacencies between different hospital departments within the Facilities,

as indicated in the Reference Design;

(b) the following matters as shown on the 1:200 scale plans:

(i) the points of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities;

(iii) the adjacencies between different hospital departments within the Facilities; and

(iv) the adjacencies between rooms within the hospital departments within the Facilities,

as indicated in the Reference Design;

(c) the quantity, description and areas (in square metres) and minimum critical dimensions of those rooms and spaces shown on the Draft Schedule of Accommodation, excluding Project Co spaces;

(d) the location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal elevations; and

(e) the location of and the inter-relationships between rooms within the departments within the Facilities, as indicated in the Reference Design;

but only insofar as each of the matters listed in (a) to (e) above relate to or affect Operational Use (with the exception of Non-Clinical Services);

Operational Use means the use of a room or space to the extent that it is used by the Board or its employees, tenants, agents and/or contractors (but not to avoid doubt Project Co staff) for carrying out the Board Services;

Payment Mechanism has the meaning given to it in the NPD Project Agreement;

Non-Clinical Services has the meaning given to it in the NPD Project Agreement;

NPD Project Agreement Submission has the meaning given to it in Appendix C(i) of Volume 1 of the ITPD;

Plan 2 has the meaning given to it in the NPD Project Agreement;

Plan 4 has the meaning given to it in the NPD Project Agreement;

Planning Permission in Principle or PPiP means planning permission in principle granted to the Board by CEC in relation to the Site;

Preferred Bidder means the Bidder identified by the Board after evaluation of each of the Final Tenders with which the Board wishes to enter into the NPD Project Agreement;

Pre-Qualification Questionnaire means the document of that name issued on 5 December 2012;

Price Evaluation means the process set out in paragraph 5.7 (Price Evaluation) of Volume 1 of the ITPD;

Price Evaluation Mark has the meaning given to it in paragraph 5.7.2 (Price Evaluation Mark) of Volume 1 of the ITPD;

Project has the meaning given to it in the NPD Project Agreement;

Public Interest Director has the meaning given to it in paragraph 3.2.1(b) (Public Interest Director) of Volume 1 of the ITPD;

Quality Evaluation Mark has the meaning given to it in paragraph 5.6 (Quality Evaluation Criteria) of Volume 1 of the ITPD;

Query Proformas means the document provided within Appendix D of Volume 1 of the ITPD;

Reference Design means the preliminary designs prepared by the Board and their advisers and contained in the Data Room;

Reference Design Elements means the documents referred to within Appendix E of Volume 1 of the ITPD;

Reference Design Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ITPD

Regulations mean The Public Contracts (Scotland) Regulations 2012;

RIE Facilities has the meaning given to it in the NPD Project Agreement;

RIE Project Agreement has the meaning given to it in the NPD Project Agreement;

Royal Hospital for Sick Children and Department of Clinical Neurosciences means the premises and associated infrastructure proposed to be constructed as part of the Project and includes CAMHS;

RHSC means the Royal Hospital for Sick Children currently located at 9 Sciennes Road, Edinburgh EH9 1LF**;**

Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ITPD;

Schedule of Operational/Design Notes means document contained in Volume 4 of the ITPD (Data Room);

Service Strip has the meaning given to it in the NPD Project Agreement;

SFT means the Scottish Futures Trust;

SFTs Standard Form NPD Project Agreement means the form of project agreement issued by SFT on in June 2012, and as amended by SFT from time to time;

Site Survey means the survey of the Site to be procured by the Board and set out in paragraph 2.16 (Surveys and Dialogue Period Ground Investigations);

Soft FM Interface Specification means the specification contained in Volume 3 of the ITPD, Part 6, Section 3;

Solution means a solution developed by each Bidder in regard to the Project during the Dialogue Period;

Submission means either or all of the Informal Submission, Draft Final Tender and/or Final Tender where the context requires

Surplus has the meaning given to it in the NPD Project Agreement;

Technical Cost Proformas means the proformas included in Annex 1 to Appendix A of Volume 1 of the ITPD;

Tender Period means either the Dialogue Period or any Final Tender Period;

User Guide means the SFT user guide in relation to standard project agreements (hub DBFM and NPD Model); version 2 dated June 2012 as amended from time to time;

VAT means value added tax;

VFM means value for money;

VIE means vacuum insulated evaporator.

1.4 Overview of Project

The Project shall be to design, build, finance and maintain a new facility to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France

In accordance with the Scottish Government's NPD initiative, the Board is now seeking to procure through Dialogue a partner who will form a NPD company (the "**Project Co**") for the delivery of the Project.

The Project shall be based at the Campus Site. The Campus Site shall comprise the Retained Site (i.e. the site of the existing hospital and university buildings) and the Site (i.e. the site for the new Facilities) together with the Retained Estate (i.e. the existing hospital and university buildings) and the Facilities (i.e. the new hospital). The Retained Estate and Retained Site form part of an earlier PFI project entered into between the Board and Consort in 1998. Consort therefore operate (on behalf of the Board) the Retained Estate and the Retained Site.

The intention is that the Project shall construct standalone Facilities on the Site within the Campus Site at Little France as far as is practically possible. However, there shall be a physical link between the Facilities and the Retained Estate via a Link Building between the Facilities and the RIE Facilities at ground and first floor levels.

The Project will co-locate services currently provided at the RHSC located at Sciennes Road, Edinburgh, CAMHS at the Royal Edinburgh Hospital and DCN at the Western General Hospital, Edinburgh. Planning Permission in Principle has been received in respect of the Project.

This Project is regulated and governed by the Public Contracts (Scotland) Regulations 2012 and any contract awarded shall be to the Bidder who can offer the most economically advantageous tender in accordance with the Dialogue procedure.

1.5 Project Objectives and Drivers

1.5.1 The Board has developed a strategic clinical framework to underpin its approach to delivering Scotland's vision for sustainable, quality health care services and a healthier future for everyone.
The framework sets out the Board's principles for planning and delivering services and care in Lothian, and identifies how, through integrated working with partners and redesigning service around and with people, the Board will promote good health and deliver safer, more effective, person-centre healthcare.

The key principles are to:

- focus on prevention and early intervention to help people keep well and anticipate care needs;
- take a whole system approach to planning and managing integrated pathways of care, working with partner agencies in local authorities and voluntary sector;
- reduce unnecessary variation in the way patients are cared for;
- deliver services with the appropriate mix of staff skills, ensuring viable clinical staff rotas;
- reduce spend on property and buildings as hospital stays reduce, to release money for direct patient services;
- question active treatment which will not extend life or quality of life;
- identify services that are not sustainable in the longer term and proactively plan a new way of delivering care;
- make sure we stop procedures and treatments which add no clinical value; and
- maximise the opportunities for use of new technologies to support health and healthcare.

The framework focuses on six strategic aims:

1. prioritise prevention, reduce inequalities and promote longer healthier lives for all;
2. put in place robust systems to deliver the best model of integrated care for our population – across primary, secondary and social care;
3. ensure that care is evidence based, incorporates best practice and innovation, and achieves sustainable care pathways for patients;

4. design healthcare systems to reliably and efficiently deliver the right care at the right time in the most appropriate setting;
5. involve patients and carers as equal partners, enabling individuals to manage their own health and wellbeing and that of their families; and
6. use resources – skilled people, technology, buildings and equipment - efficiently and effectively.

1.5.2 The Board is committed to increasing social capital and addressing inequalities, deriving benefit for the communities, such as through proactive application of community benefits clauses in its procurement processes.

1.5.3 Specific factors driving the need for change in children's and young people's services and clinical neurosciences are:

(a) The age and limitations of the current premises;
(b) The increase in age range of patients to be seen in the facility, up to age 16 years old, or 18 in some specialities.
(c) The need to deliver sustainable specialist services whilst meeting the challenge of relatively small numbers of patients and small numbers of clinical experts;
(d) The national policy for Paediatric Intensive Care Units in Scotland, which have been commissioned under NHS National Services since 2007, sited in two hospitals for children and young people;
(e) The need to deliver neurosurgery on the same site as adult and children's emergency departments; and
(f) The need to maintain strong links with the University of Edinburgh's Division of Clinical Neuroscience and their planned Institute of Neuroscience at Little France.

1.5.4 Clinical benefits of integrating the services into one building, supporting the Board's and national strategic ambitions include:

(a) The ability to deliver paediatric and adult neurosurgery in the same theatre suite, maximising the utilisation of specialist equipment (e.g. intra-operative MRI) and expert staff, with direct internal access to age-appropriate critical care and wards;
(b) Mental health services on the same site as acute hospital services for children and young people, supporting their physical as well as psychological care;
(c) Joint-working and economies of scale in high-cost specialist clinical areas such as theatres and radiology; and
(d) The opportunity to improve emergency access to services by incorporating a helipad on the roof of the Facilities.

1.6 Project Governance

1.6.1 The terminology used to describe project governance arrangements is as defined by the "Scottish Capital Investment Manual Programme and Project Organisation Guide".

1.6.2 The Investment Decision-Maker is Lothian Health Board, which is ultimately accountable for the Project.

1.6.3 The Board's Finance and Resources Committee (F&RC) has established a Project Steering Board, chaired by the Project Owner, who is NHS Lothian's Director of Finance.

1.6.4 The F&RC routinely receives minutes of the Project Steering Board. The Project Owner shall provide assurance to the F&RC on key aspects of project governance and internal control, and progress reports on the delivery of key project milestones.

1.6.5 The Project Owner shall alert the F&RC in the event of any trend towards cost escalation or delay, or any radical changes to the objectives of the Project. The Project Owner shall make recommendations to the F&RC on action to take in these circumstances.

1.6.6 The Project Owner has the executive responsibility for decision-making relating to the project. All decisions must be consistent with Board strategies, policies and procedures and delegated budgets or in line with any agreed derogations.

1.6.7 The Project Director has responsibility for delivering the project within the governance parameters set out.

1.6.8 Project Steering Board remit shall be:

- To assist the Project Owner and Project Director in the decision-making process for issues relating to the Project;
- To support the Project Owner and Project Director in preparing submissions to the F&RC, to satisfy that Committee's assurance needs on governance and internal control and monitoring of key performance milestones;
- To serve as the Capital Management Group, with delegated authority to approve capital enabling works for the Project up to £250k, and will be the first place to review schemes higher than £250k; and
- To be the arbiter of matters arising from the implementation of the Project Design and the Strategic Delivery Programme.

1.6.9 Project Steering Board Membership:

- Project Owner (chair)
- Project Director
- Medical Director
- Non-executive member(s) of Lothian NHS Board
- A representative from the service
- Project Clinical Director
- Director of Capital Planning and Projects
- Associate Director of Finance
- Project Operational Lead
- Communications Manager
- A representative from the Lothian Partnership Forum
- A representative from the South-East & Tayside Regional Planning Group (SEAT)
- A representative from the Scottish Government
- A representative from the Scottish Futures Trust

1.6.10 The Project Owner, as chair of the Project Steering Board, shall decide whether a meeting should proceed in the event of absence of any members. The Project Owner may designate a member to chair a Project Steering Board meeting in their absence.
However if the Project Steering Board is considering any business in its capacity as a Capital Management Group then the quorum is the Project Owner plus one member of Lothian Health Board, or if the Project Owner is not present, two members of Lothian Health Board.

1.6.11 The Project Director is supported by a project team comprising clinical experts and experienced NHS managers from capital planning, service management, finance and communications. Staff representation is fully integrated into the project with a full-time Partnership member of the team.

1.6.12 The Board's team are supplemented by specialist expertise from external financial, legal and technical advisers.

1.6.13 A Project Management Executive supports the Project Director in the day to day running of the Project and reporting on progress to the Project Steering Board.

1.7 Programme

The following table sets out the key target milestones for the Project.

Task	Date
Issue Invitation To Participate In Dialogue	12/03/13
Briefing Meetings	w/c18/03/13
Board to propose draft Site Survey	22/03/13
Bidders to provide comments in relation to draft Site Survey	05/04/13
Dialogue Meeting 1	w/c 01/04/13
Dialogue Meeting 2	w/c 29/04/13
Dialogue Meeting 3	w/c 27/05/13
Dialogue Meeting 4	w/c 24/06/13
Dialogue Meeting 5	w/c 22/07/13
Draft Final Tender submission	26/08/13
Dialogue Meeting 6	w/c 23/09/13
Close dialogue	30/09/13
Invitation to Submit Final Tenders	11/10/13
Final Tender submission	11/11/13
Identify Preferred Bidder	13/01/14
Commercial and Financial Close	07/08/14
Construction commences	18/08/14
Completion date (target)	17/03/17
Hospital opening date	15/05/17

2 TECHNICAL OVERVIEW

2.1 Introduction

This section provides an overview of the technical requirements of the Project. In relation to all technical information provided by the Board, the Board reserves the right to amend all such information during the course of the Dialogue Period, including without limitation the Mandatory Reference Design Requirements, Board's Construction Requirements and Equipment provisions.

2.2 The Site

The planned location for the new Facilities is at Little France, in the south east of Edinburgh, home to the RIE Facilities and the University of Edinburgh Medical School and adjacent to the Edinburgh Bioquarter Site development.

The site is bounded on the north by the Medical School, on the east by the RIE Facilities, to the south by existing commercial and residential buildings on Old Dalkeith Road and to the west by the Queen's Medical Research Institute and the main entrance road serving the Campus Site at Little France.

Also to the west of the Campus Site is an area of rising ground which slopes up to Craigmillar Castle. The view from the south-east over the site to the castle, with Arthur's Seat in the distance, is considered by City of Edinburgh Council (CEC) to be an important view on the southern approach to the city. The Site of the new Facilities is wholly within the red line boundary set out in Plan 1.

2.2.1 The Royal Infirmary of Edinburgh

The RIE Facilities is a major acute teaching hospital and has more than 900 inpatient beds. As described above the RIE Facilities were procured under a PFI contract between the Board and Consort in 1998 and was opened in 2003.

It is home to Scotland's busiest maternity unit – some 6000 babies are born at the RIE Facilities' "Simpson Centre for Reproductive Health" each year – and to Scotland's busiest emergency department.

With a 24-hour emergency department, it provides a wide range of acute medical and surgical services for patients from across the Lothian region and specialist services for people throughout the south east of Scotland and beyond.

2.2.2 University of Edinburgh

The Chancellor's Building, adjoining the RIE Facilities, is part of the University of Edinburgh Medical School and houses teaching facilities, the medical library and research laboratories. It is currently home to the Multiple Sclerosis and Euan MacDonald Motor Neurone Disease research centres. The Chancellor's Building was constructed by Consort under the terms of the RIE Project Agreement.

The University opened its Queen's Medical Research Institute in 2005 which represented a major milestone in the history of biomedical research in Edinburgh. The Queen's Medical Research Institute houses over 600 researchers and aims to tackle a wide range of diseases at the most fundamental cellular level. Facilities include MRI and other modern imaging technologies and supporting infrastructure.

The University's Scottish Centre for Regenerative Medicine was opened in the Edinburgh Bioquarter Site in 2011. The Anne Rowling Building is the most recent addition to the University's facilities and lies between the Chancellor's Building and the site proposed for the new Facilities

2.3 Stand Alone Requirements

Subject to Clause 9 (Nature of Land Interests) including without limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement, Appendix A of the Board's Construction Requirements and/or the Interface Proposals all buildings, facilities, services and associated works required to deliver the Project shall be contained within the Facilities and/or the Site and shall not be reliant upon any other buildings, facilities or services on the Retained Facilities and/or Retained Site (the "**Stand Alone Requirements**"). For the avoidance of doubt the following dedicated and autonomous elements shall be provided on the Site as part of the Project;

(a) an Energy Centre;
(b) the FM goods service yard; and
(c) Hard FM spaces.

2.4 Design and construction elements

2.4.1 Overview

The specific requirements for the Facilities to be provided are set out in the Board's Construction Requirements. This comprises: -

- General Requirements;
- Specific Clinical Requirements; and
- Specific Non-Clinical Requirements.

The Board's Construction Requirements are set out in Section 3 of Volume 3 of the ITPD and will ultimately form Section 3 of Schedule Part 6 (Board's Construction Requirements) of the NPD Project Agreement.

Using the work undertaken to date, the Board is seeking innovative proposals to meet its requirements.

The focus must be on providing age appropriate Facilities in a safe, caring and healing environment. This includes suitable Facilities for babies and young children, an adolescent inpatients zone, and accommodation for the adult population of DCN.

Areas for children, young people and adults should have their own identity within the integrated Facilities. At all times, the ethos, environment and needs of these different specialist areas has been considered in planning departmental relationships and patient pathways and this must be maintained.

Effective delivery of clinical services relies on close adjacencies between related specialties and disciplines. The design brief specifies that routes between departments should minimise travel time and distances for patients and staff in order to maximise clinical safety and efficiency.

The design will incorporate clearly identifiable, friendly and secure children's entrances to their outpatient and ward areas. There will be a separate main entrance to the DCN facilities. Recreation space and public facilities outside the wards will also be segregated as far as is practical.

The Board welcomes and will encourage Bidders to bring innovation, and expertise from within the UK and/or overseas to develop their own design proposals but it should be noted that certain elements of the design as they relate to aspects of Operational Functionality are mandatory, as described below and in Appendix E (Reference Design Elements) of Volume 1 of the ITPD.

2.4.2 Facilities to be provided

Facilities required for the Project include:

(a) inpatient wards;
(b) day case facilities;
(c) outpatient clinics;
(d) emergency department;
(e) operating theatres;
(f) radiology and physiology departments;
(g) rehabilitation facilities;
(h) support department;
(i) roof top helipad; and
(j) dedicated energy centre and goods delivery yard.

2.5 Reference Design and Mandatory Reference Design Requirements

The use of Reference Design in NPD projects is being promoted by the SFT and the Scottish Government.

A Reference Design for the Project has been developed and comprises mandatory elements and indicative elements.

The mandatory elements of the Reference Design (the "**Mandatory Reference Design Requirements**" are those elements of the Reference Design relating to Operational Functionality. The definition used in the NPD Project Agreement is being applied to define the agreed Operational Functionality included in the Reference Design and is generally set out in the following constituents of the Reference Design:

- 1:500 Departmental Adjacency Layouts;
- 1:200 Departmental Layouts; and
- 1:50 Generic and Key Room Layouts.

Other areas of Operational Functionality are contained in other components within the Reference Design. Full details of the Mandatory Reference Design Requirements are set out in Appendix E (Reference Design Elements).

Bidders are required to develop design proposals which comply with the Mandatory Reference Design Requirements.

For the avoidance of doubt, the Board will not enter into any Dialogue on alternative solutions to the Mandatory Reference Design Requirements. Bidders' proposals must be developed to comply with these Mandatory Reference Design Requirements. Bidders will be fully responsible for all elements of the design and construction of the Facilities including being responsible for verifying and satisfying themselves that the Mandatory Reference Design Requirements can be designed, built, and operated to meet the Board's Construction Requirements.

Following completion of the Reference Design some further adjustments were developed by the Board. These are set out in the Schedule of Proposed Adjustments contained in Volume 4 of the ITPD. Bidders are expected to address these adjustments during the Dialogue Period and incorporate them with their Final Tender. Bidders are required to provide a full breakdown of all costs (capex and opex) relating to item U1 "RHSC Specialist Paediatric Biochemistry Laboratory" included in the schedule.

2.5.1 Schedule of Accommodation and Reference Design Schedule of Accommodation

A schedule of accommodation has been developed by the Board to meet their requirements (the "**Draft Schedule of Accommodation**"). While the Draft Schedule of Accommodation is not mandatory in itself, the areas set out within it are considered to be minimum areas. These minimum areas will only apply to elements which affect the Operational Functionality and Non-Clinical Services areas. Areas such as service spaces (including risers) and Hard FM spaces will be for the Bidders to determine since responsibility and risk for these non operational spaces will ultimately rest with Project Co.

A further schedule of accommodation is included as part of the Reference Design; this has been developed based on the room areas achieved, as drawn, in the Reference Design (the "**Reference Design Schedule of Accommodation**"). Bidders are required to meet the minimum floor areas specified in the Draft Schedule of Accommodation however the Reference Design Schedule of Accommodation contains rooms where the area is less than the minimum requirements set out in the Draft Schedule of Accommodation. If Bidders cannot achieve the minimum floor areas for these rooms then it is acceptable, subject to agreement with the Board, for the rooms to be provided at the size achieved in the Reference Design. For the avoidance of doubt this will only apply to those individual rooms and not rooms of the same type or designation. Bidders will be expected to develop a schedule of accommodation which will form part of their proposals (the "**Schedule of Accommodation**").

Circulation and communication space indicated in the Reference Design is also considered to be indicative but any corridor widths specified will be treated as minimum requirements. This is also outlined paragraph 5.10 (Corridor Widths and Heights) of the Board's Construction Requirements. Therefore minimum corridor widths set out in the Reference Design are considered to be Mandatory Reference Design Requirements.

Any courtyards and terrace spaces are to be treated as communications spaces. These should be indicated on the Schedule of Accommodation submitted by Bidders but excluded from the measure of Gross Internal Floor Area.

2.5.2 Room Layouts

The 1:50 layout drawings included in the Reference Design cover the generic and key rooms only. Generic rooms are those rooms that are replicated more than four times across the Facilities ("**Generic Room"**). Key rooms are those that have critical operational requirements which the Board has identified for more detailed consideration and development at this early stage ("**Key Room"**). These include major spaces in the emergency department, operating theatre, radiology and outpatients departments. There are:

- 1839 rooms in total;
- 222 are covered under 88 Key Room types; and
- 756 are covered by 31 Generic Room types.

The Reference Design is developed in full at 1:500 and 1:200 scales. At 1:50 scale, where individual room layouts are detailed, the coverage is 53% of the total number of rooms (equating to 43% of the net floor area).

During Dialogue Bidders will be required to develop 1:50 layout drawings for the rooms identified in the table below which will form part of their proposals.

Table: 1:50 Layout Drawings to provided by the Bidders		
Room Reference	**Room Designation**	**Department**
G - A1 - 028/029	Resuscitation Bay	Emergency Department
G - E1 - 001	The Pod/Multi-functional activity zone	Outpatient Area
G - D2 - 013	Lung Function Laboratory	Cardiology and Respiratory
1 - D6 - 053-4	Rehabilitation Rooms	Therapies
1 – J1 – 003	Body Viewing	Bereavement Suite
2 – R1 – 001-055	All	Clinical Management Suite
3 – H3 – 001	Workshop/Tutorial 3	Clinical Education Suite
3 – C1.1 – 042	Clean Utility	Medical In-patients
4 – H1 – 018	Molecular Biology Laboratory	Child Life and Health
4 – H1 – 027	Physiological Laboratory	Child Life and Health
4 – H1 – 016	Tissue Culture Store	Child Life and Health

The Preferred Bidder will be required to develop 1:50 layout drawings for all remaining rooms prior to Financial Close.

2.5.3 Room Data Sheets

Standard format Room Data Sheets have not been prepared by the Board for the Project. The specific room requirements (the "**Room Information**") are detailed in a combination of the following documents:

- The Board's Construction Requirements;
- The Environmental Matrix;
- The Schedule of Operational/Design Notes;
- The Equipment Schedule;
- The Equipment Responsibility Matrix;
- The Draft Schedule of Accommodation; and
- The Operational Functionality elements of the Reference Design.

During Dialogue Bidders will be required to develop Room Data Sheets, incorporating the Room Information, for those rooms for which 1:50 layout drawings have been prepared. For the avoidance of doubt this shall include all Key Rooms and Generic Rooms in addition to those rooms identified in the table at paragraph 2.5.2 above. The Room Data Sheets will form part of the Bidders proposals. The Preferred Bidder will be required to complete Room Data Sheets for all remaining rooms prior to Financial Close.

2.6 Indicative Elements of the Reference Design

During the preparation of the Mandatory Reference Design Requirements, other information has been generated both as a by-product of preparing the Reference Design itself and as a general Project requirement as follows:

(i) FM goods handling and distribution;
(ii) Structural engineering solutions;
(iii) Building services engineering solutions;
(iv) Servicing strategies and space allocations; and
(v) Hard FM solutions and space allocations.

This constitutes the "**Indicative Elements of the Reference Design**".

Such information is issued to the Bidders for "information only" so that they may understand the intent of the Reference Design. Bidders must however refer to the Board's Construction Requirements for the detailed requirements for all such Indicative Elements of the Reference Design for which they will ultimately carry the risk. Bidders are advised that the Board's Construction Requirements will always take precedence over the Reference Design for matters which do not define Operational Functionality. The full distinction between Mandatory Reference Design Requirements and Indicative Elements of the Reference Design are set out in Appendix E (Reference Design Elements).

2.7 Interface and Enabling Works

Introduction

The section is an overview of:

1. General background and information about the Works – see paragraph 2.7.1;

2. Works to be designed, constructed and replaced, repaired, renewed and maintained by Project Co as part of the Project. Sometimes these works are on the Site or on the RIE Site or Campus Site or even off the Campus Site – see paragraphs 2.7.2 and 2.7.3;

3. Works to be designed and constructed by Project Co as part of the Project but not intended to be replaced, repaired, renewed and maintained by Project Co – see paragraph 2.7.4;

4. Works which are being carried out by others and not intended to form part of the Project but are taking place at the Campus Site or off the Campus Site but which are nevertheless pertinent to the operations at the Campus Site as a whole – see paragraph 2.7.5;

2.7.1 General information relevant to the Works

The permanent and temporary Works and all construction operations for the Project should, save where expressly provided otherwise, generally be designed and constructed to enable them to be carried out and where appropriate replaced, repaired, renewed and maintained on and from within the Site.

The Site is part of the Campus Site and Project Co has to be aware of and plan and programme the Works having regard to the other activities and operations ongoing at the Campus Site.

At some points it may be necessary temporarily for Project Co to enter or have access across other parts of the Campus Site for construction activities and the Board has secured a number of rights for Project Co in respect of such other parts of the Campus Site.

As well as operations on the Site, Project Co will be entitled to use Car Park E for a site compound during the Construction Phase for the Works, subject to a number of restrictions on use as detailed

in Section 3 (Site Compound/Car Park E) of Appendix A of the Board's Construction Requirements and Clause 9 (Nature of Land Interests) including with limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement. Further, in the event any activities on the Site involve oversailing any part of the Retained Site and/or the Retained Facilities then Project Co will require to develop an Oversail Strategy as detailed in Section 4 (Oversail) of Appendix A of the Board's Construction Requirements.

Where any construction and/or replacement, repair, renewal or maintenance activities are permitted at the Campus Site but off the Site then these activities are restricted to and must be carried out in accordance with the rights secured for such activities which rights are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement and such rights are subject to a number of conditions being met which conditions are further detailed in Appendix A (Interface with Campus Site and/or Campus Facilities) of the Board's Construction Requirements. Further restrictions on conditions and other information governing design, construction and replacement, repair, renewal and maintenance activities are detailed in the Board's Construction Requirements and Services Requirements.

Please also refer to the Interface Proposals which require to be developed by Bidders during the Dialogue Period.

2.7.2 Links with RIE

(a) Link Building

As set out in paragraph 2.3 (Stand Alone Requirements) the new Facilities shall be delivered as a standalone new build. However, the Facilities will be physically linked to the RIE Facilities at ground and first floor levels. The part of the RIE Facilities to which the Facilities will be linked is called the Link Building.

The Link Building is being constructed as part of the key enabling works described in paragraph 2.7.5 (Enabling Works). Its construction is not intended to be part of the Project and it is intended to be completed prior to the Works commencing on Site. The Link Building shall ensure improved clinical functionality and service delivery, particularly between the emergency departments, operating theatres and critical care departments in the RIE Facilities and the Facilities. Project Co will be responsible for designing and constructing the Facilities to physically link to the RIE Facilities at the Link Building interface point as set out in Appendix B (Interface Output Specification) of the Board's Construction Requirements.

(b) RIE Works within the Campus Site but outside the Site boundary and maintained by Project Co

There shall also be building services links between the new Facilities and the RIE Facilities in respect of building services and other connections in terms of: -

- infrastructure associated with ICT;
- a pneumatic tube system (PTS);
- fire alarm system; and
- foul drainage connections.

A new PTS will be designed and built which will run from the Facilities to the pharmacy and laboratories within the RIE Facilities. An ICT system will be designed and built which will run from the Facilities to link to the Board's ICT equipment/systems within the RIE Facilities. The Board will

advise Project Co of the route for the PTS and ICT within the RIE Facilities. The Board will procure that Project Co will be given access to the RIE Facilities for the installation of the PTS and ICT and Project Co will be responsible for replacing, repairing, renewing and maintaining the PTS and ICT which have been installed as part of the Works. The Board will procure access for constructing, replacing, repairing, renewing and maintaining, PTS and ICT within the RIE Facilities, such rights of access are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement but are subject to design, construction and other information being provided to and approved by the Board and Consort about the PTS and ICT systems as detailed in Section 7 (Link Building) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of Appendix A. For more information about these systems please also see sections Appendix A of the Board's Construction Requirements.

The fire system for the Facilities will have to be designed and constructed and replaced, repaired, renewed and maintained such that they will be connected to, communicate and operate with the fire system at RIE Facilities. It is envisaged that such connections and a control box will be proximate to or within the Link Building. The rights to make and replace, repair, renew and maintain such connections are subject to design, construction and other information being provided to and approved by the Board and Consort about the fire system for the Facilities as detailed in Section 7 (Link Building) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix A. For more information about these systems please also see paragraph 4 of the Board's Construction Requirements.

(c) Service Strip / Foul Drainage

There may also be connections into some existing infrastructure for foul drainage. If Project Co requires to connect the foul drainage systems for the Facilities into the existing foul and surface water drainage systems for RIE Facilities then foul drainage systems must be designed and constructed by Project Co such that they may be connected to foul drainage systems only at the agreed connection points in the Initial Drainage Proposal or within the Foul Service Strip shown shaded yellow and hatched black on Plan 2A serving the RIE Facilities. The Board will procure that Project Co will be given access to specified places and connections points on the RIE Site. Project Co will be responsible for replacing, repairing, renewing and maintaining the foul drainage systems serving the Facilities and the connections. The Board will procure access for Project Co constructing, replacing, repairing, renewing and maintaining the foul drainage systems serving the Facilities and connections as are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement, but are subject to design, construction and other information being provided to and approved by the Board and Consort about the foul drainage systems serving the Facilities as detailed in Section 6 (Service Strip and foul Service Strip) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix A. For more information about these systems please also see paragraphs 4, 6 and 8 of the Board's Construction Requirements and the Initial Drainage Proposal

A list of Interface Proposals from Bidders is required during Dialogue for those elements of the new Facility which may have to interface with the existing RIE Facilities and infrastructure serving RIE. These are detailed in Appendix A of the Board's Construction Requirements and summarised in Appendix C (iv) (Interface Proposals) of Volume 1 of the ITPD.

As regards design and construction of any electrical, gas and water connections there must all be independent services serving the Facilities and are not intended to connect into any such services serving RIE Facilities or the rest of the Campus Site and/or Campus Facilities. However wherever any such services have to be installed on the RIE Site, the locations for such services are restricted to certain areas, including the Service Strip which is shown shaded yellow and hatched black on Plan 2. Project Co will be responsible for design and construction and replacing, repairing, renewing and maintaining such services serving the Facilities. The Board will procure for Project Co access

for such rights of access for constructing replacing, repairing, renewing and maintaining such services as are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement but are subject to design, construction and other information being provided to and approved by the Board and Consort about the services as detailed in Section 6 (Service Strip and Foul Service Strip) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix and for more information about these systems please also see paragraphs 4, 6 and 8 of the Board's Construction Requirements.

2.7.3 Other Works outside Campus Site

The Board has identified other works (the Off Site Works on the Bioquarter Site) which will be required to be carried out, by Project Co, outwith the Campus Site. This may include the provision of a dedicated Scottish Power Substation for the Project which may be located adjacent to Car Park F at the Campus Site in the area outlined in blue on Plan 4 although Project Co is invited to suggest alternative locations for any suitable power source outwith the Campus Site. If required, access to the Substation, if constructed adjacent to Car Park F detailed above, for construction and ongoing maintenance may be via the area shaded blue and hatched black on Plan 4. The cable route to the Facilities will be agreed with the Board and may enter the Site via the Service Strip (shown shaded yellow and hatched in black on Plan 2) and the cable route may not cross the RIE Site at any other point.

2.7.4 Retained Estate Handback Infrastructure

The Board has identified the following RIE Works which will be required to be carried out on the Campus Site but outwith the Site boundary. These works shall result in the Retained Estate Handback Infrastructure and shall be Works carried out by Project Co but upon completion will not be maintained by Project Co but by or on behalf of the Board by or on behalf of Consort. These Works include the design and construction of:

(a) Hospital Square Infrastructure;
(b) Cycle Path Infrastructure; and
(c) Drainage Infrastructure.

The Retained Estate Handback Infrastructure is more fully described in paragraph 4 of the Board's Construction Requirements.

2.7.5 Enabling Works

(a) RIE Enabling Works

The Board has identified the following enabling works (the "**RIE Enabling Works**") which will be required to be carried out on the Campus Site to meet planning requirements for the Project. These key enabling works will be carried out by or on behalf of the Board by or on behalf of Consort. These works are not intended to form part of the Project and it is intended they are completed or substantially completed prior to any part of the Works commencing on Site. The key enabling works are described here for information purposes only.

(i) Flood Protection Works: which means the enhancement of existing flood protection measures at the Campus Site;

(ii) Road Infrastructure Works: which means changes to the road and transport infrastructure at the Campus Site , including but not limited to the creation of a public transport terminus to the east of RIE Facilities, new bus stances and revision of existing car parking;

(iii) VIE Relocation Works: which means relocation of the existing VIE plant serving RIE Facilities to another location on the RIE Site. Separate VIE plant is required for the Facilities;

(iv) Link Building Works: which means the building which is to be part of RIE Facilities to which the new Facilities will be connected at ground and first floor levels described in paragraph 2.7.1(a) above;

(v) Service Diversion Works: which means the diversion of certain services such as electricity, water, gas, that serve RIE Facilities and are currently located on under or over the Site to positions outwith the Site to new positions within the RIE Site. However Project Co should note that not all redundant services are being removed and grubbing up of any diverted and redundant services will be the responsibility of Project Co as part of the Works. For the avoidance of doubt there shall be no diversion of the County sewer, the crèche's sewer and connection, the crèche's storm water sewer which it is believed run under the Site;

(vi) Sewer Diversion Works: which means the diversion of trunk sewers currently located in the Site to positions outwith the Site to new positions within the RIE Site;

(vii) Clinical Facilities: Reconfiguration/alteration of a number of clinical facilities within RIE Facilities; and

(viii) Way Finding: which means the installation of new comprehensive way-finding measures across the Campus at Little France (new signage and directional indicators as necessary).

(b) Flood Works

Off-Site Flood Protection Works – It is proposed to construct flood defence walls (approximately 1000mm high) to both sides of the Niddrie Burn in the Nether Craigour area upstream of the Old Dalkeith Road bridge to provide improved flood protection to the Campus Site. These works will be procured under a separate contract and do not form part of the Project.

2.8 BREEAM

Bidder's designs must achieve, as minimum, a "Very Good" BREEAM rating in line with the requirements for healthcare facilities as set out in the BREEAM Scheme Document for New Construction (SD5073) 2011. The designs must also achieve a minimum of 6 credits ("Excellent" rating) in accordance with the BREEAM Scheme Document for New Construction (SD5073) Section 6.0 ENE1.

2.9 Sustainable Design and Quality

Bidders are required to promote sustainable development by demonstrating an integrated approach to the social, environmental and economic well-being of the area served, now and for future generations. The Facilities will reflect the objectives of any local agenda strategy supported by the CEC and also satisfy the requirements of all health and social care guidance notes, as set out in Board's Construction Requirements associated with sustainability and environmental performance.

2.10 Community Benefits

The Board recognises the importance of sustaining the community and delivering against social considerations. As well as providing significant training and employment opportunities for the full Project Term, the Project also has the potential to drive significant initiatives relating to regeneration, sustainability and social benefits, aligning with the Board's strategic objectives.

Community Benefits clauses set out within Clause 73 (Community Benefits) of the NPD Project Agreement support this agenda. Provisions relevant to training and appropriate measures regarding supply chain contracts and engagement with small and medium sized enterprises and supported businesses are recognised as examples of the elements that may be taken into account.
Project Co will work in partnership with the Board and where appropriate, the Edinburgh Partnership and the agencies listed in paragraph 3.6 of Appendix I to deliver the Board's requirements in respect of both the Construction Phase and Operational Term of the Project.

Please refer to Appendix I and section B6 of Appendix A(ii) of Volume 1 of the ITPD which set out the Board's approach to social considerations/Community Benefits and how Bidder proposals in these areas will be taken into account.

2.11 Facilities Management - Services to be provided by Project Co

The interface of facilities management (FM) services provided across the Campus Site will be addressed through the Little France Campus Working Group.

Project Co will be required to provide the Services which shall be a proactive facilities management and lifecycle replacement service. The key elements of the Services shall include, but not be limited to:

- Contract management;
- Performance management and monitoring via a helpdesk facility;
- Programmed ,maintenance and unprogrammed maintenance work of the mechanical, electrical and building fabric components of the Facilities;
- Procurement and management of Utilities;
- Lifecycle replacement of the mechanical, electrical and building fabric components of the Facilities, including all floor coverings;
- Hard landscaping maintenance;
- External façade cleaning / window cleaning; and
- Periodic cleaning of vents, extractors and luminaires.

For the avoidance of doubt, Bidders should note that the following items are excluded from the Services and will be delivered by the Board (or third party providers):

- Portable Appliance Testing; and
- Redecoration of walls and ceilings.

The detailed requirements for above are set out in Volume 3 of the ITPD and will ultimately become Schedule Part 12 (Service Requirements) of the NPD Project Agreement.

2.12 Services to be provided by the Board

Delivery of all Clinical Services in the Facilities will be the responsibility of the Board.

It is anticipated that soft FM services will be provided by a combination of the Board and third party providers contracted with the Board. There will be a number of operational interfaces not only with the Board's team but also the FM staff working within the RIE Facilities and so Project Co shall be required to adopt a collaborative approach to interfaces so that hard and soft facilities services are provided by Project Co, the Board and the RIE FM team effectively and in adherence with Board policies. Key to the success of that relationship will be the quality of the team and clarity of the agreement between the parties.

To assist Bidders in developing their proposals and understanding the interfaces with the Board and third party providers, information on the Board's proposed delivery strategies has been provided within Schedule Part 6 (Board's Construction Requirements), section 3, Sub-section E (Specific Non-Clinical Requirements) of the NPD Project Agreement covering items such as but not limited to:

- Linen Services;
- Waste Management/ Disposal;
- Materials Management;
- Portering Services;
- Catering Services;
- Routine, Periodic and Specialist cleaning;
- Domestic Services; and
- Delivery Area.

In addition the Board will be responsible for the maintenance and lifecycle replacement of Equipment that the Board is responsible for as set out in paragraph 2.15 (Equipment) and the Board Services.

2.13 ICT

The Project includes the design, construction and maintenance of comprehensive and robust infrastructure (e.g. containment, cabling and node rooms) for the Facilities in accordance with the requirements of the Board's Construction Requirements.

The Board will install hardware (e.g. servers, PCs, printers, scanners), make the final connections (at the application and in computer rooms) and commission the operational system. Future management of the telephone system and IT helpdesk will not form part of Project Co's scope of the Services. Instead, the telephone system and switchboard will be managed by the Board. The IT helpdesk service will also be provided by the Board.

A responsibility matrix relating to the ICT installations is contained in the Board's Construction Requirements.

2.14 Retail opportunities

The provision of catering and retail services within the Facilities does not form part of the Project. Catering and retail services shall be provided by the Board and associated parties (such as voluntary and/ or charitable organisations). These will be part of the Board Services.

2.15 Equipment

2.15.1 Equipment documentation

The following documents are contained within Volume 3 of the ITPD, which outline the Board's requirements in relation to Equipment and associated responsibilities:

(a) Equipment Schedule which shows all Equipment (Group 1, Group 2A, Group 2B and Group 3) which will be installed or anticipated to be installed in the Facilities presented on a room by room basis; and

(b) Equipment Responsibility Matrix which shows for each different item of Equipment, the split of responsibilities between Project Co and the Board.

2.15.2 Groups of Equipment

Equipment included for the Project will include new equipment replacement, transfer and fit out of existing equipment, upgrade of existing equipment and new equipment included in developments.

(a) Group 1 Equipment

This is Equipment fixed to the building fabric (including fixed furniture e.g. cabinets, boards, blinds, brackets, shelves, TV brackets and illuminators) and/or attached to, or forming part of the building services (e.g. sanitary ware, sockets, outlets IT and medical, theatre lights, luminaries and pendants etc).

Project Co will generally be responsible for all Group 1 Equipment including specification, procurement, installation, maintenance and Lifecycle Replacement. However, the Board shall specify the details (both quantities and specification) for certain key items of Group 1 Equipment which are more clinical in nature (e.g. pendants in theatres and critical care).

The quantities specified for Group 1 Equipment in the Equipment Schedule are considered to be indicative by the Board. However, such quantities of Group 1 Equipment represent the minimum quantities acceptable to the Board. The exception to this are those items of Group 1 Equipment which the Board wish to specify – these are identified on the Equipment Schedule and will be considered to be mandatory.

(b) Group 2A Equipment

Project Co will only be responsible for the installation of Group 2A Equipment (and the installation of the replacement equipment at lifecycle intervals). The Board will be responsible for all other aspects of Group 2A Equipment (such as specification, procurement, maintenance and Lifecycle Replacement). Project Co will be responsible for designing Facilities which allow the Board to carry out their obligations in relation to Group 2A Equipment (including operation).

(c) Group 2B and Group 3 Equipment

The Board will be wholly responsible for all Group 2B and Group 3 Equipment including specification, procurement, installation, maintenance and Lifecycle Replacement. Project Co will not be responsible for any aspect of Group 2B or Group 3 Equipment however will be responsible for designing Facilities which allow the Board to carry out their obligations in relation to Group 2B and Group 3 Equipment (including operation).

Equipment included for the Project will include new Equipment replacement, transfer and fit out of existing equipment, upgrade of existing Equipment and new Equipment included in developments.

2.16 Surveys and Dialogue Period Ground Investigations

The ground investigation surveys which have been carried out to date are summarised in Volume 4 Data Room Contents. Warranties are not provided for these surveys.

The Board intends to procure a Site Survey which shall be made available to all Bidders. Bidders shall be invited to review and comment on a draft scope for the Site Survey. Bidders shall be required to submit their comments within the timescale set out in paragraph 1.7 (Programme) of Volume 1 of the ITPD. When the scope is agreed, the Board shall instruct the Site Survey, incorporating any agreed Bidder comments in accordance with paragraph 1.7 (Programme) of Volume 1 of the ITPD.

The Board shall not warrant this Site Survey. However, the Board shall procure that the party engaged to carry out the Site Survey provides a reliance letter to the Preferred Bidder in respect of the Site Survey.

2.17 Planning

An application for Planning Permission in Principle (PPiP) for the "erection of a Children's Hospital, including Department for Clinical Neurosciences (DCN) and ancillary facilities, helipad, associated enabling development including energy centre, Vacuum Insulated Evaporator (VIE), car parking, revised access and public transport arrangements, public realm works and landscaping, (car parking, access and public transport arrangements in detail)" at Edinburgh Royal Infirmary, 51 Little France Crescent, Edinburgh, EH16 4SA was submitted to the CEC on the 29th July 2011.

The application (Reference 11/02454/PPP) was approved by CEC on 5th April 2012, subject to a number of conditions, and the conclusion of a Section 75 legal agreement.

The application was supported by a suite of information including a Design and Access Statement, which included the principles of design, sustainability, scale and massing. The application was also accompanied by an Environmental Statement in accordance with the Town and Country Planning (Environmental Impact Assessment) (Scotland) Regulations2011.

A subsequent stand alone permission (Reference 12/00479/FUL) was granted by CEC on 4 June 2012, for development of revised public access and revised public transport arrangements, associated car park remodelling, public realm works and landscaping. This followed the conclusion of a separate Section 75 legal agreement.

Various background papers relating to the application for PPiP and the application for Planning Permission, including Section 75 legal agreements are available within the Data Room.

In order to efficiently manage the pre-application consultation process for the approval of the detailed scheme, the Board and their representatives will agree a schedule of meetings with CEC Planning and Building Standards at which Bidders will be required to present their proposals and discuss planning and related issues. Any such meetings will be coordinated by the Board and their representatives and will be attended by the Board's representatives as appropriate. The details for these meetings will be agreed with each of the Bidders early in the dialogue process. No direct contact should be made with the CEC Planning and Building Standards, unless first agreed with the Board.

Other stakeholders, including Historic Scotland, Scottish Natural Heritage and Architecture and Design Scotland, will also be invited to be involved in this pre-planning process, to assist the Board in reviewing and assessing the Submissions.

The Preferred Bidder, once appointed, will be responsible for obtaining approval of the detailed scheme, in compliance with the conditions of the PPiP. This will require approval of matters specified in conditions. This will be required prior to Financial Close. The Board expects Bidders to

have satisfied themselves before submitting their Solutions that their proposals will secure detailed planning consent.

2.18 Artwork

The integration of art into the architecture and landscape to enhance the hospital environment is an essential requirement of the design. The Board welcomes innovative proposals for interactive art and wayfinding throughout the Facilities. Project Co will appoint artists to work with the Board on developing an arts strategy for the Project. Project Co shall carefully consider the arts strategy for the Board, including artworks and artefacts from the existing buildings that have been identified for transfer, and outputs from the 2010-2014 charitably funded Artists in Residence Programme within the RHSC and CAMHS.

The Board will be responsible for approving the whole art content in the Project and Project Co shall engage the Board fully in this process before any art work is commissioned.

2.19 Family Hotel

The Family Hotel is to provide “home away from home” accommodation for the families of children receiving in patient care in hospital. This accommodation is free of charge to families at the point of delivery, and aims to provide a supportive environment, and enable the whole family to be able to spend time together and close to their sick child.

It will provide overnight accommodation for families as well as facilities for parents whose children are resident on the wards, as outlined in the Specific Clinical Requirements section K2 (Family Hotel).

2.20 Achieving Excellence Design Evaluation Toolkit (AEDET)

An initial AEDET assessment has been carried out on the Reference Design which can be found in the Data Room. During Dialogue it is the intention of the Board to carry out further AEDET assessments using the information provided by the Bidders. The AEDET assessment will be undertaken by the Board with the key project stakeholders. The AEDET reviews will not be evaluated but the outcome of the process will be passed back to the Bidders during the Dialogue prior to Dialogue Meeting five, purely as an informative tool to assist Bidders develop their proposals. Bidders are, however, reminded that their proposals shall ultimately be evaluated by the Board in accordance with paragraph 5 (Tender Evaluation and Contract Award Criteria) of Volume 1 of the ITPD.

3 COMMERCIAL OVERVIEW

3.1 Introduction

This section provides an overview of the commercial aspects of the Project.

3.2 NPD Structure

The Project will be delivered using the Scottish Government's NPD Model. The NPD Model was developed and introduced as an alternative to, and has since superseded, the traditional private finance initiative or "PFI" model in Scotland. It has been used in the education (schools) and health sectors. The NPD Model has been fine-tuned since it was first introduced and this section summarises the basic principles that will underpin the NPD Model as it will apply to the Project.

The NPD Model is defined by three core principles:

- Enhanced stakeholder involvement in the management of projects;
- No dividend bearing equity; and
- Capped private sector returns.

Projects funded using NPD Model principles will pay a fixed return to the holders of the junior or risk-bearing debt of the Project Co. All other distributions to equity (i.e. the holders of the shares and junior debt of the Project Co) will be prohibited. Surpluses arising after satisfying all precedent lines in the cash cascade, subject to any agreed buffer, will be payable to the Board as a rebate against unitary charge service payments. In this way, returns to investors are capped at the level bid during the procurement process.

Although contractors and funders are expected to earn a normal market rate of return as in any other form of privately-finance PPP deal, the NPD Model seeks to eliminate uncapped equity returns associated with the traditional PFI model and limit these returns to a reasonable rate set in competition.

3.2.1 Key features of the NPD Model:

These key features include:

(a) **Corporate structure**: The Board will contract with a special purpose vehicle (referred to in the NPD Project Agreement as "**Project Co**") which will be majority owned and controlled by the private sector investors. The Board will own a "golden share" in the Project Co which gives it certain controls over the corporate, governance and management structures within the Project Co. Project Co's articles of association must incorporate the mandatory NPD articles, produced by the SFT, that enshrine the fundamental principles of the NPD Model;

(b) **Public Interest Director:** One of the Project Co's directors will be nominated by the SFT and will bring an independent voice to Project Co's board and shall ensure a greater degree of transparency and accountability to stakeholders (the "**Public Interest Director**");

(c) **Refinancing:** Under the NPD Model the Public Interest Director has the right to instigate a refinancing on the same basis as the Board may instigate a refinancing under SoPC4 guidance;

(d) Capped Returns: This shall ensure that a "normal" level of investment return is made by the private sector and that these returns are transparent;

(e) Surpluses: Surpluses generated by Project Co shall be reinvested in the public sector; and

(f) Transparency: The public interest shall be represented in the governance of the NPD structure, which increases transparency and accountability and facilitates a more pro-active and stable partnership between public and private sector parties.

SFT has provided a suite of contractual documents, comprising a NPD Project Agreement and articles that will be adopted for use in this Project, appropriately amended for project and NHS-specific issues. These are included at Volume 2 of the ITPD.

Further information on the NPD Model is available from the SFT website: www.scottishfuturestrust.org.uk.

3.2.2 Benefits of NPD Model

The NPD Model retains the benefits of traditional PFI structures, such as:

(a) optimum risk allocation;
(b) whole-life costing;
(c) maximised design efficiencies;
(d) robust programming of lifecycle maintenance and facilities management;
(e) performance-based payments to the private sector;
(f) single point delivery system, reducing interface risk for the public sector client; and
(g) improved service provision.

Also produces additional benefits, as set out in paragraph 3.2.1 above.

3.3 Overview of NPD Project Agreement

The NPD Project Agreement reflects the SFT's Standard Form NPD Project Agreement, with additional project specific amendments which have been agreed by SFT. In terms of these project specific amendments, please refer to paragraph 3.6 (Project Specific Changes) below. The NPD Project Agreement and its schedules shall regulate the relationship between the Board and Project Co.

The Board expects Bidders to accept the positions within the NPD Project Agreement which reflect the SFT's Standard Form Project Agreement. However, the Board acknowledges that the project specific amendments to the NPD Project Agreement may be amendments worthy of discussion between the Board and Bidders. Bidders are requested to raise all comments (including all Sub-contractor comments and/or anticipated Senior Funder comments) in relation to the NPD Project Agreement prior to Dialogue Meeting 3 and, if accepted by the Board and SFT (pursuant to the derogations process), such comments may form part of the relevant Submissions.
The SFT's Standard Form NPD Project Agreement is derived from other standard documentation in use in PFI projects; in particular SoPC4 and the Scottish Standard Health PPP Contract, therefore its principles will be familiar to those actively involved in the PPP market.

3.4 General Approach in relation to NPD Project Agreement

The Preferred Bidder will be expected to enter into the NPD Project Agreement with the Board in the form of the draft NPD Project Agreement set out in Volume 2 of the ITPD with the exception of any agreed derogations sanctioned by the Board and SFT.

In terms of the Dialogue, all matters relating to the NPD Project Agreement should be raised by Bidders, their Sub-contractors and/or their potential Funders during the Dialogue Period. Depending on the approach to funding adopted for Final Tender, as set out in paragraph 3.8.6 (Due Diligence) an appropriate level of due diligence on behalf of Funders should be carried out during the Dialogue Period. Only matters in relation to fine tuning and clarification of the NPD Project Agreement shall be addressed once the Dialogue Period has closed. Other than fine tuning and clarification issues, any issues which are not raised during the Dialogue Period will not be considered by the Board after the Dialogue Period has closed.

The Board will also require the Direct Agreements to be substantially in the form set out in the draft NPD Project Agreement

To the extent that Bidders, their potential Funders, diligence teams and/or Sub-contractors have concerns about the terms of the draft NPD Project Agreement or any of the other key project documents including the Ancillary Agreements, these must be raised with the Board prior to the start of Dialogue Meeting 3.

3.5 Derogation Procedure

The Board has agreed with SFT the required project/sector specific changes to the SFT's Standard Form NPD Project Agreement prior to issue of the ITPD. Thereafter, any further changes proposed to the NPD Project Agreement by Bidders during the Dialogue Period will, if acceptable to the Board, require SFT's approval through a derogation procedure to be managed by the Board. The Board and SFT's expectation is that any such derogations will be minimal. The Board will engage with the SFT on project/sector specific changes throughout the Dialogue Period, and will aim to provide feedback to Bidders on proposed amendments as soon as possible. A final decision on all Bidders amendments to the NPD Project Agreement shall be reached between the Board and SFT, and communicated to the relevant Bidders, prior to close of the Dialogue Period.

3.6 Project Specific Changes to NPD Project Agreement

3.6.1 A number of project/sector specific amendments have been agreed with SFT and are set out in the NPD Project Agreement.

The key project specific amendments include:

a) **Lifecycle** Additional lifecycle drafting has been added at Clause 23A (Lifecycle Replacement) of the NPD Project Agreement to provide the Board with greater visibility in terms of lifecycle replacement.

b) **TUPE** The Board does not envisage that the Transfer of Undertaking (Protection of Employment) Regulations 2006 (TUPE) will apply to the Project or to any current Board staff. SFT's alternative drafting set out in Form 2 of Appendix 2 of the User Guide has therefore been added at Clause 25 (No Employee Transfer) of the NPD Project Agreement. In addition, Clause 26 (Pensions) of the NPD

Project Agreement has been deleted.

c) **Board's right to stop Project Operations** — In terms of Clause 13A, a new clause has been added permitting the Board to instruct Project Co to stop performing the Project Operations in the event of a (i) Stop Incident; (ii) potential impact upon Clinical Services, and/or (iii) the occurrence of a Major Incident. In terms of (ii) and (iii) a Compensation Event shall be available to Project Co if the Board instructs stopping the Project Operations on one of these grounds. In terms of (i), the consequences of this Board instruction shall be treated in a similar way to Clause 13 in relation to opening up of the Works.

d) **Indemnities** — Additional limbs of the indemnity have been added in relation to breach of the Interface Proposals and/or breach of Appendix A of the Board's Construction Requirements and a breach of certain Reserved Rights. These are project specific requirements of the Board and primarily relate to Site issues which may have a wider impact upon the operation of the Campus Site.

e) **Insurance** — The Board has undertaken a review of the insurable and uninsurable risks that may emanate from the Project. The insurance provisions and minimum requirements have been set out in Clause 53 (Insurance) and Schedule Part 15 (Insurance Requirements) of the NPD Project. In addition, waiver of subrogation option has been added at Clause 53.6 (Subrogation and Vitiation) of the NPD Project Agreement. Bidders shall be required to price this option as part of its Draft Final Tender and Final Tender as indicated in Financial Proformas 1a and 4.

f) **Community Benefits** — SFT's drafting set out in Form 5 (Community Benefits) of the User Guide has been added at Clause 73 (Community Benefits) of the NPD Project Agreement (see 2.10, Appendix I and section B6 of Appendix A(ii) for further detail on how the Board is taking social considerations/Community Benefits into account in this procurement.

g) **Interface** — (i) *Interface*: Appendix A of the Board's Construction Requirements sets out the specific interface issues between the Facilities and the Retained Estate. Appendix A of the Board's Construction Requirements also requires Bidders to prepare certain Interface Proposals to address these specific interface issues.

(ii) *Interface Proposals*: The Interface Proposals shall include Bidder's proposals relating to construction access, operational access, oversail strategy, access areas strategy, drainage and substation proposals, service strip and foul service strip proposals and connection to the Link Building proposals. These Interface Proposals shall form part of Bidders Submissions and shall also form part of both the Draft Final Tender and Final Tender. The requirements for the Interface Proposals are more fully described in Appendix A of the Board's Construction Requirements, but shall be subject to conditions set out in Schedule Part 5 (Land Matters) of the NPD Project Agreement. However, for ease of reference, a list of Interface Proposals has been set out in Appendix C (iv) (Interface Proposals) of Volume 1 of the ITPD.

(iii) Little France Campus Working Group: The Board has established a Little France Campus Working Group in which Project Co will be required participate in. The purpose of this group is to support all parties on the Campus Site in order that they can work in partnership to deliver their responsibilities under Health and Safety legislation and the Construction (Design and Management) Regulations 2007 to ensure the safety of patients, staff and visitors and the operation of services on the Campus Site.

h) **Payment Mechanism** The NPD Project Agreement schedule has been amended to reflect the acute healthcare nature of the accommodation and incorporates the use of sessions as opposed to days as an element of the deduction formula for unavailability, in addition to the application of a gearing mechanism to the derivation of Service Unit values.

3.7 Articles of Association

Project Co will be a private company limited by shares with the Articles of Association contained in Volume 2 of the ITPD which sets out the mandatory NPD provisions including membership of Project Co, the rights of the members, voting rights and controls on how revenue is to be used.

3.8 Financial Aspects of the Project

In this Section, the ITPD sets out the following:

(a) key financial aspects of the Project that the Board considers to be of fundamental importance;
(b) financial assumptions to be made by bidders;
(c) submission requirements at each stage; and
(d) the process by which financial evaluation of Final Tenders will take place.

3.8.1 Affordability

The Board has developed a shadow bid Financial Model that produces an Annual Service Payment as derived from technical cost inputs that reflect the Reference Design and a set of assumptions

that reflects current economic factors and funding market conditions. This model has been used to ensure that the Project is affordable to the Board.

The Board will be responsible for meeting the proportion of the Annual Service Payment related to Hard Facilities Management (Hard FM) services and 50% of the lifecycle maintenance expenditure. The Scottish Government will meet the remaining proportion of the Annual Service Payment via revenue support.

Bidders should note that Scottish Government revenue support for a proportion of the Annual Service Payment is capped in relation to the construction cost of the Project. The construction cost cap will include all construction related costs, including design fees. It has been set at an uninflated amount of £137,757,000 (based on a 3Q 2011 base date) plus an inflation allowance calculated by reference to the BCIS All-in Tender Price Index from the base date of 3Q 2011 to the index forecast at the assumed construction mid-point of 4Q 2015. The indices at 18 February 2013 are 3Q2011 (final) 220 and 4Q 2015 (forecast) 237 giving a current inflation allowance of £10,645,000 and a total current construction cap of £148,402,000. All figures are net of VAT.

The construction cap supported by the Scottish Government will be adjusted during the Dialogue Period to reflect changes in BCIS All-in Tender Price Index for the forecast of the index at 4Q 2015 and bidders are expected to monitor movements in the index for the purposes of formulating their proposals. The Board will advise bidders in the ISFT of the level of Scottish Government's cap as at that date based on the most recently published BCIS Index forecast and it will be fixed at that date. In the shadow bid Financial Model, the Board has assumed Hard FM and Life Cycle Costs of £29 per m2 and £27 per m2 respectively, at current prices.

The Board will be responsible for meeting other costs such as soft facilities management services, utility costs and rates.

The Board reserves the right to set aside any Bid that exceeds the construction cap, except where the Board has specifically agreed that a higher construction cost is acceptable.

3.8.2 Value for Money

It is essential that the Board can demonstrate that the Project remains value for money throughout the procurement process. Provision of revenue support by the Scottish Government will be dependent upon the Board being able to demonstrate to the SFT and Scottish Government that Bidder proposals are based on costs that are competitive and represent value for money.
The Board is also required to submit a Full Business Case to the Scottish Government prior to Financial Close. This needs to clearly demonstrate that the Project will deliver value for money and will be affordable to the Board over the duration of the contract. The Full Business Case requires to be approved by the Scottish Government to allow the Project to proceed.

3.8.3 Funding Approach

Due to the current volatility of the funding market, the Board has devised an approach to the funding elements of Bidders' solutions that provides for the flexibility required to allow Bidders to respond to developments in the market as Dialogue progresses. This approach is set out below.

Submissions Prior to Final Tender

It is the Board's intention to devise and issue a standard term sheet containing funding terms relevant in the current funding market that Bidders should use in developing the financial elements of the Draft Final Tender and any relevant financial submissions required during the Dialogue

Period. This standard term sheet will be issued no later than three weeks before any relevant submission date.

Final Tender Stage

At the Final Tender stage the Board reserves the right to request either:

a) A **Fully Funded Solution** that covers the full duration of the NPD Project Agreement. In this option, it would be the Bidder's responsibility to identify and propose a form of funding for the Project that is both deliverable and offers the best possible Value for Money to the Board. Should Bidders consider that this is not achievable this must be discussed during Dialogue. In preparing Final Tenders on this basis, Bidders should clearly demonstrate to the Board that a competitive process has been undertaken in order to identify the preferred funder and/or chosen funding route, and that funder due diligence has been completed. The pricing developed will be evaluated to determine whether a funding competition will be required at Preferred Bidder stage; or

b) A solution based on a **Standard Term Sheet** to be issued by the Board should this prove to be preferable based on prevailing market conditions at that time. Should this option be pursued Bidders would be required in any case to have engaged diligence teams on behalf of potential funders, whose reports would be included within the Final Tender submissions. Once a Preferred Bidder is appointed a funding competition would be carried out to identify the preferred funding solution.

The Board will inform Bidders of the preferred option at the earliest possible opportunity during Dialogue.

Bidders should note that as a condition of Scottish Government support for the project the Board reserves the right to instruct a funding competition at any point during the procurement.

Bidders are also reminded that the Scottish Government reserves the right to consider alternative funding, financing and / or contractual arrangements to support the delivery of the project. The Board will provide updates to Bidders during dialogue should any such alternatives emerge.

3.8.4 Funder Commitment and Exclusivity

Bidders are required to demonstrate the strongest possible evidence of funder support for the proposals contained in the Final Tender. The Final Tender should include the provision of term sheets and letters of support as necessary and as specified in Appendix B. A clear statement on the level of internal approval that the project has received from the respective lending organisations should be made. In addition the details of any further approvals that would be required prior to Financial Close should be fully disclosed.
The Board requires that Bidders do not appoint funders on an exclusive basis during the Dialogue Period. During the Dialogue Period, Bidders will be required to confirm that no exclusivity arrangements have been signed with their potential funders. Failure to adhere to this requirement may result in the down-selection of that Bidder. Advice as to exclusivity in the Final Tender period will be provided during the Dialogue Period.

3.8.5 European Investment Bank Involvement

Bidders should note that initial discussions have taken place with the European Investment Bank (EIB) regarding their potential involvement in the Project. The potential involvement of EIB will be discussed with Bidders during the Dialogue Period.

3.8.6 Due Diligence

By Final Tender, Bidders are required to demonstrate that a detailed due diligence over their submission has been carried out on behalf of Funders or potential Funders. At that stage the Board will require assurances that the Funders have been involved in the due diligence process and fully support the submission.
Bidders are encouraged to progress their due diligence at the earliest opportunity.

3.8.7 Surpluses

In developing the Project the Board has assumed no prescribed levels of Surpluses are required to be paid during the concession period. Bidders should assume that any and all Surpluses that are generated will be paid to the Board as a rebate against the Annual Service Payment.
Any Surpluses produced by a Bidder's Financial Model will be included in the evaluation of price by applying 7% nominal discount rate in calculating the NPV of such Surpluses. Bidders should note that this discount rate is higher than that which will be used to evaluate the Annual Service Payment (6.09%). This approach reflects the Board's preference for a lower and certain Annual Service Payment as opposed to an equivalent and less certain Surplus.
Any Surpluses forecast in Bidders' Financial Models should reflect the level of cash buffer that has been bid (see below) and the full impact of the funding terms being used for Final Tenders, as these will affect the likelihood and timing of Surplus Payments actually being made to the Board.
Evaluation strategies should allow for risk adjustment of forecast Surpluses where appropriate.

3.8.8 Cash Buffer

Bidders may retain a cash buffer (over and above Funders' reserves and covenants) in their Financial Models in order to deal with unexpected events that arise during the Project. Surpluses are required to be paid out only to the extent that these exceed the cash buffer. The cash buffer should be set at a level that is no higher than two months' worth of the indexing element of the monthly Annual Service Payment. The cash buffer itself should index. Bidders are free to propose a lower level of cash buffer, as this will allow an earlier release of surpluses which will be evaluated more favourably through the NPV calculation described above.

Bidders' Financial Submissions should clearly identify Surpluses available for distribution to the Board. Such Surpluses should be defined as:

(a) any Surpluses bid and included in the Financial Model over the operational period, including the period post repayment of debt;

(b) positive cash balances forecast in the Financial Model at the Expiry Date;

(c) any Debt Service Reserve Account (DSRA) or Maintenance Reserve Account (MRA) balance released on repayment of debt (if not used to retire debt).

Payments of Surpluses to the Board should be assumed to take place on the last day of the relevant accounting period applicable.

3.8.9 Interest Rate Risk

The Scottish Government will take the risk of changes in the reference interest rate (e.g., the underlying London Interbank Borrowing Rate (LIBOR) rate) up to Financial Close subject to approval and conditions of the FBC.

3.8.10 Foreign Exchange Risk

The Board will not accept any foreign exchange risk. Such risks should be absorbed entirely by Bidders.

3.8.11 Third party income

The Board does not anticipate that any third party income will be available within the Project and none should be assumed within Financial Submissions.

3.8.12 Capital and charitable contributions

The Board does not intend to inject any capital contributions into the project at this time. However, The Board wishes to reserve the right to make such an injection should this prove practical and desirable at a later point in the Dialogue Period.

It is likely, however, that charities associated with the Board will wish to make a charitable contribution to the Project. This may take a number of forms:

(a) A contribution in the form a lump sum payment to cover the cost of construction of specific areas within the building that the charity wishes to support, such as the Family Hotel. For the avoidance of doubt, such areas are already included within the Service Level Specification and Reference Design and will form part of the new Facilities and Services whether or not a charitable contribution is made.

(b) A donation that will allow the specification of certain areas in the new Facilities to be enhanced over and above the level of Board's requirements currently contained within Volume 3 of the ITPD. Should such a donation be forthcoming, the Board would seek to amend the Board's requirements as required.

(c) A donation that funds the purchase of specific assets such as equipment or artwork.

At present, the size and nature of such contributions is not known. Where the value and timings of such contributions has an impact upon the level of borrowing that Bidders will require at Financial Close, the Board is to provide a firm commitment of the injection of these contributions to all Bidders prior to close of Dialogue so that Final Tenders and Financial Models can be prepared on the correct basis.

3.8.13 Indexation

The Annual Service Payment will be indexed on an annual basis. The Payment Mechanism contains the formula for applying the inflation adjustment. Bidders should note that the affordability assessment assumes that approximately 20% of Annual Service Payment payments are subject to indexation in line with the cost inputs used in the shadow bid Financial Model.

The Board does not expect that a Bidder's funding solution will require the use of RPI hedging instruments. Any relevant financial submissions should clearly demonstrate the proportion of costs that are fixed and the proportion subject to inflation. Bidders should set a rate of Annual Service Payment indexation that creates a natural hedge position given their cost structure. Bidders are required to develop their proposals on the basis of the use this natural hedge and to provide inflation sensitivities that demonstrate this as set out in the Financial Proformas contained in Annex 1 to Appendix B.

3.8.14 Validity of Submission

Bidders are required to price their Submissions anticipating a Financial Close of 7 August 2014.
Bidders are required to maintain underlying construction, operating, FM and Project Co's costs for a period of three months from the target Financial Close date with no adjustment for inflation, meaning that should Financial Close be reached prior to 7 Nov 2014, the bid price will not be adjusted for the effects of inflation.
Bidders are also obliged to use all reasonable endeavours to mitigate the impact of any cost increases post validity period.
Bidders must specify which cost index or indices they require costs to be inflated in the post validity period.

3.8.15 Pass Through Costs

The Board will retain price risk associated with the defined pass through costs, those being insurance, rates and utility costs, as set out in the NPD Project Agreement. However, Bidders should note that the Board will review such costs in each Bidder's solution and allow for these in the Equalisation Adjustment (see below) as part of the Price Evaluation process. Financial Pro-forma 1a should be used to set out the pass-through costs proposed by the Bidder.

3.8.16 Accounting and Tax Treatments

Bidders are required to satisfy themselves generally as to their own tax position under existing tax legislation, including any issues surrounding IFRS, the application of any capital allowances and revenue relief against corporation tax and the treatment of Surplus payments. All assumptions in respect of tax and accounting should be set out clearly in the Financial Model.
Bidders will be required to demonstrate within their Submissions that the most beneficial treatments have been adopted and that the Board has received the full benefit thereof by way of reduced Annual Service Payment. It is anticipated that a composite trade tax treatment will produce the lowest Annual Service Payment and, based upon this assumption, the NPD Project Agreement will be drafted accordingly. If Bidders can demonstrate a more beneficial tax and accounting treatment they should advise what changes would be required to the NPD Project Agreement to accommodate the alternative approach.

3.9 Financial Model

3.9.1 Key assumptions

Bidders are requested to note the following assumptions within their Financial Models, in addition to those noted in Section 3.8 above:

(a) For the purposes of their Submission, Bidders will be provided with a LIBOR swap rate assumption no later than three weeks before the submission date of any relevant

Submissions. Should a Bidder elect to provide a capital market solution, the Board will provide an appropriate reference rate on the same timescale.

(b) RPI should be assumed as 2.5%.

(c) The Financial Model should be prepared in accordance with UK GAAP or IFRS.

(d) The date of Financial Close should be assumed to be 7 August 2014.

(e) The Financial Model should cover an operational period of twenty-five (25) years plus the construction period, with each year end assumed to be 31 March.

(f) The discount rate to be used in calculating all NPV figures should be 3.5% real and 6.0875% nominal.

(g) All costs in the Financial Model should assume a price base date as at Financial Close with a first indexation point of the 1 April subsequent to Financial Close.

(h) The Bidders NPV calculation should discount cash flows back to the base date as at Financial Close.

(i) Annual Service Payment payments should assume 100% performance.

(j) Cash flows should be assumed to occur at the midpoint of each semi-annual period.

(k) Surpluses are as defined in Section 3.8.6 and should be treated as indicated.

(l) Public Interest Director fees are to be included in the financial submission of £15,000 per annum, subject to indexation.

(m) Construction insurance costs are to be included within the Financial Model.

(n) Pass-through costs (operational insurance costs, utilities costs and rates) are to be excluded from the Financial Model but should be shown separately within the Bidder's Financial Submission in Financial Proforma 1a. In the case of energy costs, Bidders should use the input unit price assumptions provided in the Proforma to generate the pass through cost, based on the projected energy usage inherent in the Bidder's proposals. All such pass-through costs will be evaluated as part of the Equalisation Adjustment.

(o) All assets will revert to the Board on expiry for nil consideration.

(p) No third party income should be included in the Financial Model.

(q) No capital contributions should be assumed unless otherwise informed.

3.9.2 Financial model format

Bidders must submit financial projections for each year of the NPD Project Agreement in the form of a computer Financial Model, which will become the Financial Model as defined in the Draft NPD Project Agreement.

The Financial Model must adhere to the following requirements:

(a) The Financial Model must be prepared using Microsoft Excel (2003 or later);

(b) The Financial Model should be free of error, including circular references or hard-coded values in non-input areas;

(c) The Financial Model should be transparent, with the logic of all calculations capable of being followed through the model, with no hidden macros or password protected areas;

(d) Financial projections should be presented on a monthly basis during the construction period and on a semi annual basis during operations (for each period ending 30 September and 31 March);

(e) All values should be expressed in £ sterling and to £'000's;

(f) The Financial Model should identify input capital expenditure and operating costs which should be referenced to costs in the Technical Cost Proformas as required under Annex 1 to Appendix A and Financial Proformas as required under Annex 1 to Appendix B;

(g) The Financial Model should incorporate all of the Financial Proformas provided at Annex 1 to Appendix B, linked to worksheets in the Bidder's Financial Model so that the Proforma contents update automatically and can be reconciled to worksheets in which model calculations are performed;

(h) The Financial Model should be capable running sensitivities in all the key areas of risk that funders are likely to focus on. As a minimum this should include the following:

(i) Delay to Financial Close;
(ii) Capital cost increases;
(iii) Construction programme delays;
(iv) Operational cost increases;
(v) Lifecycle cost increases;
(vi) Insurance cost increases;
(vii) Interest rate changes;
(viii) Inflation rate changes;
(ix) Corporation tax and VAT rate changes; and
(x) Deductions relating to the Payment Mechanism.

It is assumed that the Financial Model will be independently verified by the Bidder/Senior Funder as part of the process leading to Financial Close. Bidders are required to accept the risk that the model audit may prove the Annual Service Payment to be incorrect, and that they may not pass any additional costs on to the Board.

The Board will require sight of the Financial Model auditor's opinion letter that Bidder will obtain prior to Financial Close. For the avoidance of doubt the Board does not require a duty of care from the model auditors.

Bidders must submit three (3) CD copies of the Financial Model. The disks must be free of viruses. The Financial Model must include a print option macro.

During the Dialogue and evaluation phase, the Board may request Bidders to run key sensitivities and provide the results to the Board for analysis. Bidders' Financial Models must have the necessary functionality in order to undertake these sensitivities.

3.9.3 Model Databook

The Bidder is required to provide a databook and user guide supporting the Financial Model for any relevant Submission. The databook should include the following details as a minimum:

- Summary of the content of the Financial Model, on a sheet by sheet basis;
- A table of location of inputs to the Financial Model with the cell/sheet reference and source;
- Copies of source documents (e.g. construction cashflow);
- An explanation of the methodology used to generate the financial projections;
- A definition of how the financial ratios are calculated, (which must be consistent with the Funders' term sheets), and that the underlying values are confirmed as acceptable to funders in their support letter;
- Details of the mechanisms contained in the Financial Model and an explanation of how key tasks in the Financial Model are carried out;
- A statement of the accounting policies applied to the Financial Model and their compliance with the relevant accounting standards; and
- A detailed statement of the assumptions used in relation to tax.

3.10 Insurance

3.10.1 The Board has undertaken a review of the insurable and uninsurable risks that may emanate from the Project. Insurance provisions and minimum requirements have been set out in the NPD Project Agreement (at Clause 53 (Insurance), Schedule Part 15 (Insurance Requirements)) and Schedule Part 25 (Insurance Proceeds Account Agreement) in accordance with NHS Board requirements relative to NPD Projects in Scotland.

3.10.2 Insurances required under the Project will be reviewed and may be revised by the Board in line with Board strategy towards treatment of insurable risks in the Project, Project technical solutions and commercial considerations.

3.10.3 A waiver of subrogation option has been added at Clause 53.6 (Subrogation and Vitiation) of the NPD Project Agreement. Bidders are asked to identify separately the costs associated with this waiver in Part C (Waiver of subrogation for Consort and Consort Parties) of Appendix G (Insurance Response Matrix) of Volume 1 of the ITPD.

3.10.4 It is envisaged that the insurance provisions will be fully agreed and the insurance costs breakdown fixed prior to the close of Dialogue.

Insurance Response Requirements

3.10.5 For the purposes of demonstrating compliance with the Board's requirements, and to assist in evaluation, Bidders are required to provide completed versions of the insurance matrices set out in Part 1 (Insurance Cost Matrix) and Part 2 (Insurance Technical Matrix) of Appendix G (Insurance Response Matrix) of Volume1 of the ITPD, clearly identifying where:

(i) there will be full compliance with the Board's insurance requirements; and

(ii) the Bidder proposes alternative solutions to satisfy the Board's requirements and the rationale for these.

3.10.6 Bidders should ensure transparency in both the Financial Model and ITPD Submission. Bidders are required to provide detailed Required Insurances premium calculations and full details of associated Project insurance related costs in accordance with the format set out in Part 1 (Insurance Cost Matrix) of Appendix G (Insurance Response Matrix) of Volume 1 of the ITPD. Bidders are required to complete the Part 2 (Insurance Technical Matrix) of Appendix G (Insurance Response Matrix) of Volume 1 of the ITPD in a manner which is consistent with their mark-up of the NPD Project Agreement.

4 COMPETITIVE DIALOGUE PROCESS

4.1 Introduction

4.1.1 The Board has elected to use Dialogue to award the Project in accordance with Regulation 18 of the Regulations. Therefore, Dialogue commences upon the issue of the ITPD.

4.1.2 It is envisaged that the Dialogue process will comprise a series of meetings leading to submission of the Final Tender, as more fully described in this section. The Board intends to continue the Dialogue until it is satisfied that Solutions from one or more Bidders are capable of meeting the Board's requirements.

4.1.3 During Dialogue, the Board will:

a) discuss aspects of the NPD Project Agreement, the other key project documents including the Ancillary Agreements and the proposed risk allocation with the Bidders;

b) ensure equality of treatment among the Bidders and in particular, will not provide information in a discriminatory manner which may give any Bidder an advantage over another; and

c) not reveal to the other Bidders, Solutions proposed or any confidential information communicated by a Bidder without that Bidder's agreement.

4.1.4 Bidders are required to provide the following Submissions during the Dialogue Period:

a) Informal Submissions; and

b) Draft Final Tender.

At the close of Dialogue, Bidders will be invited to submit their Final Tender.

4.1.5 Each Bidder is required to develop only one Solution and provide Submissions in accordance with the requirements of this paragraph 4 (Competitive Dialogue Process).

4.2 Timetable of Dialogue Meetings

4.2.1 A series of monthly meetings have been scheduled to take place with each Bidder on the dates indicated in the table below. The Board may vary the timetable or terminate or alter the Dialogue process in any way at its sole discretion.

Activity	Week	Bidder A	Bidder B	Bidder C
Dialogue Opens				
Issue ITPD	0	12/03/13		
Briefing Meeting \ Q and A Sessions	1	Tue 19/03/13	Wed 20/03/13	Thu 21/03/13
Informal Submission 1	2	Mon 25/03/13	Tue 26/03/13	Wed 27/03/13
Dialogue Meeting 1	3	Tue 02/04/13	Wed 03/04/13	Thu 04/04/13
Informal Submission 2	6	Mon 22/04/13	Tue 23/04/13	Wed 24/04/13
Dialogue Meeting 2	7	Tue 30/04/13	Wed 01/05/13	Thu 02/05/13
Informal Submission 3	10	Mon 20/05/13	Tue 21/05/13	Wed 22/05/13
Dialogue Meeting 3	11	Tue 28/05/13	Wed 29/05/13	Thu 30/05/13
Informal Submission 4	14	Mon 17/06/13	Tue 18/06/13	Wed 19/06/13
Dialogue Meeting 4	15	Tue 25/06/13	Wed 26/06/13	Thu 27/06/13
Informal Submission	18	Mon 15/07/13	Tue 16/07/13	Wed 17/07/13
Dialogue Meeting 5	19	Tue 23/07/13	Wed 24/07/13	Thu 25/07/13
Draft Final Tender Submission	24	26/08/13		
Dialogue Meeting 6	28	Tue 24/09/13	Wed 25/09/13	Thu 26/09/13
Dialogue Closes				
Invitation to Submit for Final Tenders	30	11/10/13		
Submission of Final Tenders	35	11/11/13		

4.2.2 Each monthly Dialogue Meeting (Dialogue Meetings 1-6) shall involve the Board spending time with each Bidder. The format of such monthly meetings shall be:

(a) Initial meeting between the Board's full Core Evaluation Team and Bidder's team;

(b) The initial meeting shall (if required) break out into a series of sub-meetings concentrating on legal, technical and financial aspects of Bidder's proposals;

(c) The sub-meetings shall re-convene for a final wrap up meeting with the Board's full Core Evaluation Team and Bidder's team.

4.2.3 In advance of each Dialogue Meeting, Bidders are invited to submit specific material related to the agenda topics to be discussed (**"Informal Submissions"**) as more fully set out in paragraph 4.5.3. These Informal Submissions by Bidders prior to the Dialogue Meetings shall enable the Board and its advisers to:

(a) review the work undertaken by Bidders since the previous Dialogue Meeting;

(b) provide any meaningful and relevant comments to the Bidders; and

(c) avoid any time disconnect between the Board's comments and the development of Bidders' Solutions.

4.2.4 The Informal Submissions referred to in paragraph 4.2.3 above shall be required to be uploaded onto Conject in advance of each Bidder's Dialogue Meeting as outlined in the table at paragraph 4.2.1.

4.3 Dialogue and the Core Evaluation Team

4.3.1 Formal Dialogue Meetings will generally be chaired by one of the following members of the Board's team, who represent the following interests in evaluation:

- Brian Currie (Project Director)
- Iain Graham (Commercial and Legal)
- Janice MacKenzie (Clinical and Service Users)
- Carol Potter (Finance)
- Jackie Sansbury (Operations and Commissioning)

4.3.2 Upon commencement of Dialogue, Bidders will have the opportunity to comment on the title and purpose of each meeting and to suggest changes they believe could be made in order to make the Dialogue more economic, efficient and effective.

4.3.3 Each Bidder will be required to attend the scheduled meetings set out at paragraph 4.2.1. However, Bidders can propose alternative dates no later than twenty (20) Business Days before a meeting is scheduled to take place and must explain to the Board (in broad terms) the reasons why this proposed change is necessary.

4.3.4 The Board will consider alternative dates proposed by Bidders provided this does not compromise its obligation to conduct an open, fair and transparent dialogue and subject to availability of the Board personnel and advisers.

4.3.5 The Board will confirm if they can accommodate an alternative date no later than fifteen (15) Business Days before a meeting is arranged to take place.

4.3.6 Where the Board is unable to accommodate an alternative date proposed by a Bidder, the Bidder is required to attend the original scheduled meeting as set out in paragraph 4.2.1.

4.3.7 The Board may, subject to the availability of its relevant resources and at its sole discretion and in accordance with the Regulations, meet Bidders in addition to the scheduled meetings before the submission of the Draft Final Tender. If the Board considers that additional meetings are required, these will be arranged by the Board and notified to the Bidders accordingly.

4.3.8 The Board will provide Bidders with a draft agenda for a scheduled or additional Dialogue Meeting no later than ten (10) Business Days before the date a Dialogue Meeting is arranged to take place. A draft agenda will include the following:

(a) Title;

(b) Date and time;

(c) Chairperson and Scribe;

(d) Attendees;

(e) Purpose;

(f) Parts of the ITPD to be discussed, and

(g) Parts of a Bidder's Solution to be discussed and any supporting information that would make a discussion more meaningful.

4.3.9 Bidders are required to provide the supporting information requested by the Board and advise the Board of any changes or additions to be made to the draft agenda, together with any requests for clarification to facilitate discussions no later than six (6) Business Days before the date of a Dialogue Meeting.

4.3.10 The final agenda agreed by the Board and a Bidder will be circulated by the Board to all attendees no later than five (5) Business Days before a Dialogue Meeting.

4.3.11 The number of attendees at a meeting should be kept to a minimum and reflect the purpose and subject matter to be discussed.

4.3.12 The Board will endeavour to communicate a record of the actions that were agreed by the Board and a Bidder during a meeting no later than four (4) Business Days after a Dialogue Meeting takes place.

4.3.13 This information exchange will not constitute any decision by the Board and will be limited to a record of:

(a) the parts of a Solution presented and specified by a Bidder at the Dialogue Meeting; and

(b) any actions arising out of the Dialogue Meeting.

4.3.14 Nothing in this information exchange is, or should be, relied upon as a promise or representation as to the Board's ultimate decision in relation to the Dialogue for the Project.

4.3.15 Notwithstanding that the Board may not have objected to nor rejected a Bidder's Solution during the Dialogue Period, such Solutions shall not be considered by the Bidder to have been approved by the Board.

4.4 Briefing Meeting/ Q and A Session

4.4.1 A separate initial briefing meeting (the "**Briefing Meeting**") will be held with each of the three Bidders.

4.4.2 This will be an opportunity for each Bidder to meet the Project Owner, the Core Evaluation Team and members of the Board's project team, including its advisers. The Board will make a presentation to provide Bidders with an overview of the Project and in particular the detail and importance of the Reference Design and the demarcation between Mandatory Reference Design Requirements and Indicative Elements of the Reference Design.

It is envisaged that the agenda for the Briefing Meeting will include:

(a) Introduction and purpose/agenda (*Project Director*);
(b) Strategic context (*Project Owner/Director of Capital Planning*);
(c) Clinical context/Reference Design (*Clinical Lead/Project Director*);

(d) Operational context (*Operations Lead/Director of Capital Planning*);
(e) Commercial issues (*Board Legal and Financial Advisers*);
(f) Programme and process (*Project Director/Commissioning Lead*);
(g) Q and A (*Bidders*).

4.4.3 The number of attendees from each of the Bidder's teams to the Briefing Meeting will be limited to a maximum of fifteen (15) each. Confirmation of the Bidder's attendees will be requested by the Board in advance.

4.4.4 In advance of the Briefing Meeting, Bidders will be invited to submit questions to the Board using Conject.

4.5 Dialogue and associated submission

4.5.1 It is envisaged that there will be five (5) Dialogue Meetings prior to submission of the Draft Final Tender. Initially the Dialogue will focus on the strategic direction of the Project and development of Bidders' proposals, including technical, financial and legal proposals. The Dialogue will then aid Bidders in developing Solutions capable of meeting the Board's requirements and refining them prior to submission of the Draft Final Tender. Informal Submissions, which shall not be evaluated, will be required in advance of the Dialogue Meetings to support the Bidders proposals. Feedback will be given to Bidders at each stage of the Dialogue and will inform the basis for the remaining Dialogue. The objective of Dialogue is to ensure Bidders are clear on the Board's requirements and allow each Bidder to develop a Solution that is capable of meeting the requirements set out in the ITPD. Dialogue will also be the opportunity for Bidders to explore innovative proposals and aspects of their approach that will add value with the Board.

4.5.2 The schedule of formal Dialogue Meetings and corresponding dates for Dialogue Meetings are set out in paragraph 4.2.1 above.

4.5.3 The proposed agenda topics and submission requirements for each Dialogue Meeting are set out in the following appendices to Volume 1 of the ITPD:

(a) Appendix A (i) (Technical Agenda Topics and Informal Submission Requirements) and (ii) (Submission Requirements);

(b) Appendix B (i) (Financial Agenda Topics and Submission Requirements); and

(c) Appendix C (i) (Legal Agenda Topics) and (ii) Submission Requirements and Evaluation).

It should be noted that this is a proposed guide to the agenda topics and submission requirements during Dialogue. Bidders may suggest changes, but this will require the agreement of the Board.

4.5.4 With each technical submission, Bidders are also required to provide a completed Annex 2 to Appendix A (ii) – "Schedule of Design Deliverables for Technical Meetings during Dialogue Period" confirming the supporting drawings and information that Bidders are providing to support the Submission Requirements of the ITPD. Bidders should note that all drawings must be submitted at least once before submission of the Draft Final Tender

4.5.5 Throughout Dialogue the Board intends to provide Bidders with any updates to the NPD Project Agreement, its schedules and other project documents including the relevant Ancillary Agreements as set out in Volume 2 of the ITPD.

4.6 Draft Final Tender

4.6.1 Bidders are required to submit a Draft Final Tender on or before noon on the date set out in the programme at paragraph 4.2 (Timetable of Dialogue Meetings) or such other dates as notified by the Board to the Bidders.

4.6.2 The Board will review the Draft Final Tenders to ensure compliance with the tender requirements set out within the ITPD. A final Dialogue Meeting will then take place as indicated on the programme at paragraph 4.2.1 (Timetable of Dialogue Meetings). This Dialogue will provide feedback to Bidders on the content of their Draft Final Tender and clarify any outstanding points.

4.7 Conditions for closing Competitive Dialogue

It is expected by the close of Dialogue, the terms of the NPD Project Agreement will have been agreed in all material respects. Once Dialogue has been closed, the Board shall invite each Bidder to submit a Final Tender.

4.8 Final Tender

4.8.1 Once Dialogue has closed, the Board will issue an Invitation to Submit Final Tender to each Bidder. The requirements for this Invitation to Submit Final Tender are broadly set out in Appendices A, B and C of Volume 1 of the ITPD. However the Board reserves the right to amend or modify the requirements for the Invitation to Submit Final Tender.

4.8.2 The Invitation to Submit Final Tender shall set out the following:

(a) date for receipt of the Final Tender by the Board;
(b) conditions of the Final Tender;
(c) the submission requirements of the Final Tender; and
(d) the methodology which the Board will use to evaluate the Final Tender.

4.8.3 The Preferred Bidder shall only be permitted to fine tune and clarify aspects of its Final Tender in line with the requirements of procurement law.

4. 9 Submission requirements for the Draft Final Tender and Final Tender

4.9.1 Each Bidder shall ensure that its Submissions are provided using UK English, with all values expressed in UK Sterling/GB Pounds, using formats as specified in Submission Requirements.

4.9.2 Bidders shall ensure that one (1) electronic copy of the Draft Final Tender and/or Final Tender are delivered electronically via Conject in accordance with the Conject user manual contained in Volume 4 of the ITPD and two (2) hard copies are also delivered by receipted mail or by hand to:

RHSC and DCN Project Director
Project Offices
NHS Lothian
56 Canaan Lane

Edinburgh
EH10 4SG

4.9.3 The packages shall be clearly marked for the attention of the Project Director, Re-provision of RHSC and DCN at Little France.

4.9.4 No package should bear any mark indicating the Bidder's identity. If more than one package is delivered, they all shall carry some random unifying code number and an indication of the number of packages in total (e.g. 1 of 2, 2 of 2).

4.9.5 Each Bidder shall obtain a signed receipt acknowledging delivery of the Submission.

4.9.6 The Draft Final Tender and/or Final Tender shall be submitted no later than noon on the date for the relevant submission set out in the programme at paragraph 4.2 (Timetable of Dialogue Meetings) of Volume 1 of the ITPD or such other date as notified by the Board to the Bidders.

4.9.7 Submissions or requests received after specified dates and times shall not be accepted for consideration and shall be returned unopened to the sender unless there are extenuating circumstances beyond the control of the Bidder in which case on being satisfied that such extenuating circumstances existed, the Board may at their discretion accept such submission.

4.9.8 Draft Final Tender and Final Tender submissions shall not be accepted by email or facsimile unless otherwise instructed by the Board.

4.9.9 Each Bidders' Draft Final Tender and/or Final Tender shall be presented in three volumes – volume 1: Technical response; volume 2: Financial response; and volume 3: Legal response. The content required in each section is defined in the following appendices to Volume 1 of the ITPD:

(a) Appendix A (ii) (Submission Requirements);

(b) Appendix B (i) (Financial Agenda Topics and Submission Requirements);

(c) Appendix C (ii) (Submission Requirements and Evaluation); and

(d) Appendix G (Insurance Response Matrix).

4.9.10 Each hard copy volume of a Bidders' Draft Final Tender and/or Final Tender shall be filed in a separate folder with its contents clearly marked on the outside with Bidder's name, volume number, folder number and copy number for example Volume 2, folder 1 of 3, copy 1.

4.9.11 Each folder shall contain an index list for that folder which shall be bound immediately inside the cover, including the page numbers of each folder.

4.9.12 Each page of each volume shall be numbered clearly and sequentially.

4.9.13 Submissions shall not include any loose pages.

4.9.14 Drawings shall be numbered and a drawing list shall be included as part of the index list under the appropriate heading.

4.9.15 Drawings shall not be larger than A1 size and shall be clearly referenced, folded and inserted into pockets within the appropriate volume.

4.9.16 Each Bidder shall nominate and mark one copy of the Draft Final Tender and/or Final Tender as the master copy. The master copy of the Submission shall be used as the primary source of reference during the evaluation process.

4.9.17 Bidders shall provide Draft Final Tender and Final Tender Submissions that contain all the elements required and necessary for the performance of the NPD Project Agreement on the basis of the Solution presented and specified by Bidders during the Dialogue Period and accepted by the Board and SFT under the derogations process.

4.9.18 Draft Final Tenders and/or Final Tenders must be completed under the headings, using the tables and information supplied by the Board, and shall follow the order and numbering contained in Appendices A, B and C of this Volume 1 of the ITPD.

4.9.19 Draft Final Tenders and/or Final Tenders that include key information that has not been presented and specified by Bidders during the Dialogue Period and/or the Board has previously confirmed is not capable of meeting the mandatory requirements will not be accepted by the Board.

4.9.20 Bidders should provide such information as is necessary to enable the Board to evaluate whether a Draft Final Tender and/or Final Tender is capable of meeting the Board's requirements.

4.9.21 The Board are entitled to modify Appendices A, B and C, of Volume 1 of the ITPD, the Board's requirements set out in Volume 1 of the ITPD generally, and/or require Bidders to omit specific aspects of a Solution at their absolute discretion where not agreed by the Board during the Dialogue Period pursuant to the parameters set out in the NPD Project Agreement, the Board's Construction Requirements and/or SFT under the derogations process subject to ensuring equality of treatment amongst all Bidders.

4.9.22 General information such as marketing and promotional information will not be accepted by the Board and all information provided by Bidders must be specific to the information that is requested.

4.9.23 Bidders are required to provide a Draft Final Tender and/or Final Tender that are acceptable to all legal entities (including, where relevant, any Senior Funders and relevant subcontractors) that are involved in the development of a Solution and the preparation of Draft Final Tender and/or Final Tenders.

4.9.24 Bidders shall note that the Board shall reserve its position on the acceptability or otherwise of the Draft Final Tender and/or Final Tender.

4.10 Conject (BIW)

4.10.1 The Project will use Conject during the ITPD process. Conject, formerly known as BIW, is a web-based construction collaboration portal. Procedures utilising Conject shall include:

(a) Data room access;

(b) Dialogue queries and Dialogue Period bulletin responses;

(c) Bid clarification queries and responses;

(d) Submitting Informal Submissions; and

(e) Submitting completed Draft Final Tenders and Final Tenders.

4.11 Communication Protocol

4.11.1 All information and communication flows between the Board and Bidders outwith Dialogue Meetings will be via Conject. The process for information and communication flows between the Board and Bidders including queries, bulletins, submissions, and request for clarifications is set out in paragraph 4.11.2.

4.11.2 Information and communication flows between the Board and Bidders will be categorised as follows:

(a) Dialogue Period Query (Confidential/Not Confidential – see paragraph 4.12) prepared by a Bidder and communicated to the Board;

(b) Dialogue Period Bulletin (Confidential/Not Confidential - see paragraph 4.12) prepared by the Board and communicated to a Bidder (either in response to a Dialogue Period Query or otherwise);

(c) Dialogue Period Submission prepared by a Bidder and communicated to the Board; and

(d) Request for clarification prepared by the Board and communicated to a Bidder in response to a Dialogue Period Submission.

4.11.3 Please refer to Appendix D of Volume 1 of the ITPD for template form to be used by Bidders when sending a Dialogue Period Query. Please also refer to Appendix D of Volume 1 of the ITPD for template forms to be used by the Board when providing a Dialogue Period Bulletin.

4.11.4 The Board is entitled to decline to respond to any other form of information and communication flow sent by a Bidder.

4.11.5 Bidders may communicate a Dialogue Period Query to the Board no later than ten (10) Business Days before the date of any Submission.

4.11.6 The Board will endeavour to provide a Dialogue Period Bulletin in response to a Dialogue Period Query by no later than five (5) Business Days before the date of any Submission.

4.11.7 Receipt of information and communications flows between the Board and Bidders will be recorded in accordance with Conject User Manual.

4.11.8 Additionally, the Board reserve the right to issue additional information at any time during the Dialogue Period. The Board may exercise the option to postpone the return of the Draft Final Tender or Final Tender in the event that additional information is issued which has a bearing on the Draft Final Tender or Final Tender.

4.12 Commercially sensitive and confidential information

4.12.1 If a Bidder considers a communication or any part of its submission to be commercially sensitive and wishes it to be treated by the Board as confidential they should make it clear in the relevant section of the Dialogue Period Query template form and explain in concise terms what harm may result from its disclosure.

4.12.2 If the Board does not agree that a communication is commercially sensitive, the Bidder will be invited to withdraw this communication. In the event that this invitation is declined, the Board will distribute a response to all Bidders.

4.12.3 If the Board agrees that a communication is commercially sensitive it will be treated in the strictest confidence by the Board subject to an entitlement to share such communication with the relevant members of the Board's Project team including advisers and key stakeholders for the purposes of preparing a confidential response.

4.12.4 Any Dialogue Period Bulletin prepared by the Board in response to a Dialogue Period Query which is not commercially sensitive will be distributed to all Bidders.

4.12.5 During the Dialogue Period, the Board may:

(a) seek to establish the feasibility of a Bidder's Solution relevant to an aspect of the Project including obtaining the view of a third party, for example in relation to the interface with existing RIE Facilities; and/or;

(b) where not viewed as commercially sensitive by a Bidder, look to adapt its requirements to reflect, whether in whole or in part information provided and/or elements of a particular Bidder's Solution.

Both of the above may involve the passing of information to a third party.

4.12.6 In relation to paragraph 4.12.5 a) above, the Board shall adopt a process whereby it shall use its reasonable endeavours to procure that:

(a) any third party recipient of information will require to sign a confidentiality undertaking prior to receipt of any information;

(b) the Bidder will be provided with a consent request, prepared separately from other Dialogue documentation, in which it may detail information it is prepared to disclose to a third party, including any potentially competing third party, relevant to its proposals, and seeking consent for such disclosure; and

(c) Following receipt of such a consent request, a Bidder may at all times refuse or agree to disclose information to a third party.

4.12.7 In relation to paragraph 4.12.6(b) above, the Board will use its reasonable endeavours to seek the express consent of a Bidder as to whether a specific aspect of that Bidder's Solution can be adopted by the Board as a requirement for all Bidders to meet. A Bidder may withhold consent to the Board adopting such a requirement on the grounds that the Bidder has developed such requirement as part of its Solution and considers this requirement to be commercially sensitive and not capable of being disclosed to the other Bidders.

4.13 Building Information Modelling (BIM)

Building Information Modelling (BIM) is being increasingly used within the industry. The use of BIM is being encouraged by central government and the Board expect that Bidders will use BIM for the development and implementation of their proposals.

Bidders shall prepare a BIM execution plan for review by, and agreement with, the Board. The BIM execution plan must be prepared in accordance with BS1192 and shall be

submitted as part of the Bidder's Informal Submission during the Dialogue Period and form part of their Final Tender. Appendix J contains further details of the Board's BIM requirements for the Project.

5 TENDER EVALUATION AND CONTRACT AWARD CRITERIA

5.1 Introduction

5.1.1 This section outlines the approach to the evaluation methodology for the Final Tenders. The Informal Submissions and Draft Final Tender shall not be evaluated by the Board. These Informal Submissions and Draft Final Tenders shall be used as tools during the Dialogue Period for Bidders to set out their Solutions to the Board and for subsequent feedback on whether aspects of the Informal Submissions and Draft Final Tenders meet the Board's requirements set out in the ITPD. Bidders should note that there shall be no down selection of Bidders during the Dialogue Period.

5.1.2 Contract award will be on the basis of the offer, contained in the Final Tender, which is the most economically advantageous as set out in paragraphs 5.6 (Quality Evaluation Criteria), 5.7 (Price Evaluation) and 5.8 (Combining Price and Quality Evaluation), also in accordance with Part 5 of the Regulations.

5.2 Overview of Evaluation Process

5.2.1 The Final Tender evaluation will comprise the following steps:

(a) Completeness and compliance check – as more fully set out in paragraph 5.3 (Compliance and Completeness);

(b) Compliance with the Stand Alone Requirements – as more fully set out in paragraph 5.4 (Compliance with Stand Alone Requirements);

(c) Evaluation of Funding Proposals - as more fully set out in paragraph 5.5 (Deliverability of Funding);

(d) Evaluation of all of the Quality Evaluation Criteria on a pass/fail basis - as more fully set out in paragraph 5.6.2 (Quality Evaluation Criteria)

(e) Evaluation of those Quality Evaluation Criteria that are evaluated on a scored basis - as more fully set out in paragraphs 5.6.3 (Quality Evaluation Criteria) which will result in a mark out of 40 being awarded to each Bidder;

(f) Price Evaluation (including commercial aspects) – as more fully set out in paragraph 5.7 (Price Evaluation), which will result in a mark out of 60 being awarded to each Bidder; and

(g) Combination of Price Evaluation Mark and Quality Evaluation Mark, resulting in a mark out of 100 being awarded to each Bidder, as more fully set out in paragraph 5.8 (Combining Price and Quality Evaluation).

Should a Final Tender fail any of the steps set out in paragraphs 5.2.1 (a), (b), (c) or (d) above then no further evaluation will be carried out and the Final Tender will be deemed to be non-compliant.

5.2.2 Bidders should note that Board's requirements as referred to in Table B and Table C of paragraph 5.6 (Quality Evaluation Criteria) means all requirements of the Board as set out in Volume 2 and Volume 3 of (and any requirements referred to within) this ITPD, and as may

be supplemented, varied and/or refined (and disclosed by the Board to Bidders during Dialogue).

5.3 Compliance and Completeness

5.3.1 The Board will check each Final Tender for compliance and completeness to establish if it has been prepared and submitted in accordance with and meets the requirements set out in the Invitation to Submit Final Tender.

5.3.2 The Board is entitled to disqualify a Bidder if a Final Tender is not prepared and submitted in accordance with the requirements set out in the Invitation to Submit Final Tender. The Board's decision on this matter will be final.

5.3.3 The Board is entitled, but not obliged, to seek clarification from Bidders at any time in respect of incomplete and ambiguous information contained in a Final Tender.

5.3.4 In the event the Board receives incomplete or ambiguous information in a Final Tender or response to a request for clarification the Board is entitled to disqualify a Bidder and the Board's decision on this matter will be final.

5.3.5 The Board may request a Bidder to clarify a Final Tender received, but such clarification, specification and/or fine tuning shall not involve material changes to a Final Tender when such clarifications, specifications or fine tuning are likely to distort competition or have a discriminatory effect.

5.4 Compliance with Stand Alone Requirements

5.4.1 The Board will check each Final Tender for compliance with the Stand Alone Requirements as identified in paragraph 2.3 (Stand Alone Requirements). Non compliance with the Stand Alone Requirements will result in the Final Tender being deemed to be non-compliant.

5.5 Deliverability of Funding

Bidders should assume for the purposes of Final Tender that the deliverability of the funding proposals will be evaluated on the following broad basis:

(a) acceptability of proposed guarantees to be put in place to support the Project Co/consortium structure;

(b) extent of Funders due diligence completed and demonstration of a robust process for conclusion of the Funders due diligence; and

(c) extent of demonstrated support of Funders (including assessment of the quality of letters of support and any conditions of financing) and summarily for providers of any junior debt.

However the Board will provide additional guidance to Bidders as to the specific requirements of Final Tenders in relation to funding during the Dialogue Period and will confirm how such requirements will be evaluated at this stage. The evaluation of funding proposals shall be assessed on a pass/fail basis. A pass will be awarded where the Board is satisfied that proposals demonstrate acceptability against each of the above criteria, as such

criteria may be changed by the Board and notified to the Bidders during the Dialogue Period. It is the Board's intention that, during Dialogue and Draft Final Tender stages, Bidders will be made aware of elements of the proposed solution they are developing which are unlikely to achieve a pass.

5.6 Quality Evaluation Criteria

5.6.1 The Quality Evaluation Criteria (QEC), the basis for evaluation and, where relevant, their weightings are included in Table A below. Bidder's should note that Appendix A (ii) of the ITPD sets out for Bidder's (under the column "Submission Requirement") a description of technical aspects which the Board require, or where indicated anticipate Bidders should provide in their Submissions. Please note, however, that the individual submission requirements (for example, the bulleted points) are not and should not be treated by Bidders as sub-evaluation criteria. Bidder's are reminded that the QEC are as set out in Table A (duplicated in the first, second and third columns of Appendix A (ii) for ease of reference) and responses to each QEC will be evaluated only in accordance with this paragraph 5 and no other basis.

5.6.2 The Board are keen to ensure that the Bidder appointed Preferred Bidder is able to deliver the highest quality in respect of all of its requirements. Therefore in the first instance, all QEC will be evaluated on a pass/fail basis. Primarily the QEC will be evaluated in accordance with the pass/fail criteria set out in Table B of this paragraph 5.6. However, in some instances the Board's requirements for a QEC are not set out in Volume 2 and Volume 3 of the ITPD and as such Table B shall not apply. In those cases the QEC shall be evaluated by the Board based on the pass/fail criteria set out in the column headed "Pass / Fail Guidance" (where relevant) in Appendix A(ii) of the ITPD. It is the Board's intention that, during Dialogue and Draft Final Tender stages, Bidders will be made aware of elements of the proposed solution they are developing which are unlikely to achieve a pass in accordance with the relevant criteria, as set out in Table B or Appendix A (ii).

5.6.3 Following the pass/fail evaluation the Board will then carry out a detailed assessment of the remaining Final Tenders to evaluate some of the QEC based on a scored evaluation. The scored assessment shall only apply to those QEC flagged as "scored" in Table A of this paragraph 5.6. Each of these scored QEC shall be given a score of between 5 and 10 in accordance with the scoring system set out in Table C of this paragraph 5.6. The score for each QEC will then be multiplied by the QEC Weighting and divided by 10 to give a weighted score. The weighted score for each QEC will be added to give a total score for Quality out of 40 (the **Quality Evaluation Mark**).

	C19	Acceptable approach to achieving required BREEAM rating	Pass/ Fail	
	C20	Acceptable post Preferred Bidder stage design development proposals and design programme	Pass/ Fail	
	C21	Compliance with Board's Construction Requirements	Pass/ Fail	
	C22	Acceptable design life proposals	Pass/ Fail	
	C23	Acceptable construction programme and approach to monitoring	Pass/ Fail	
	C24	Clarity, robustness and quality of construction methodology	Scored	1.85
	C25	Acceptable approach to commissioning and handover	Pass/ Fail	
	C26	Acceptable approach to quality and environmental management systems	Pass/ Fail	
	C27	Acceptable approach to health and safety management	Pass/ Fail	
	C28	Acceptable approach to compliance with CDM regulations	Pass/ Fail	
	C29	Robustness of technical costs	Pass/ Fail	
	C30	Acceptable list of summary assumptions, clarifications and derogations	Not Scored	
	C31	Acceptable Interface Proposals	Pass / Fail	
D – Approach to Facilities Management (12%)				
	D1	Clarity, robustness and quality of approach to management and administration of the Services and Contract	Scored	2.50
	D2	Acceptable approach to integration with Board policies and operation	Pass/ Fail	

SECTION	QUALITY EVALUATION CRITERIA REFERENCE	QUALITY EVALUATION CRITERIA	QUALITY EVALUATION BASIS	QUALITY EVALUATION CRITERIA WEIGHTING
	D3	Acceptable approach to ensuring quality management	Pass/ Fail	
	D4	Acceptable approach to ensuring environmental management	Pass/ Fail	
	D5	Acceptable approach to ensuring health and safety management	Pass/ Fail	
	D6	Acceptable approach to interfacing with the Board for undertaking works outside of access times	Pass/ Fail	
	D7	Clarity, robustness and quality of approach to partnership and resources including liaison, resources and supply chain management	Scored	2.50
	D8	Acceptable approach to business continuity planning	Pass/ Fail	
	D9	Acceptable fire safety policies and procedures	Pass/ Fail	
	D10	Clarity, robustness and quality of approach to performance and information management including; Helpdesk, programme maintenance lifecycle, performance monitoring, monitoring and records, regular reports and information requests, building services and statutory testing	Scored	4.50
	D11	Acceptable approach to un-programmed maintenance	Pass/ Fail	
	D12	Clarity, robustness and quality of approach to service elements including; utilities management and grounds maintenance services	Scored	2.50
	D13	Robustness of technical costs	Pass/ Fail	
	D14	Acceptable list of summary assumptions, clarifications and derogations	Not Scored	
	D15	Acceptable approach to mobilisation of Facilities Management services	Pass/ Fail	

Table B – Pass / Fail Criteria for Quality Evaluation Criteria

	Pass / Fail Criteria
Pass	The Bidders approach: • demonstrates a satisfactory understanding of the Board's requirements; and • delivers a satisfactory level of compliance with the Board's requirements.
Fail	The Bidders approach: • fails to demonstrate a satisfactory understanding of the Board's requirements; or • fails to deliver a satisfactory level of compliance with the Board's requirements.

Table C – Scoring System for Quality Evaluation Criteria

Scoring Range 5 – 10	**Categorisation**	**Description**
5	Satisfactory	The Bidder's approach: • demonstrates a satisfactory understanding of all aspects of the Board's requirements; and/or • proposes a solution which performs satisfactorily in complying with the Board's requirements.
6-7	Good	The Bidder's approach: • demonstrates a satisfactory understanding of all aspects of the Board's requirements and a detailed and good understanding of some aspects of the Board's requirements; and/or • proposes a solution which performs well against the Board's requirements.
8-9	Very Good	The Bidder's approach: • demonstrates a detailed and very good understanding of all aspects of the Board's requirements; and/or • proposes a solution which, performs very well against the Board's requirements.

Scoring Range 5 – 10	Categorisation	Description
10	Excellent	The Bidder's approach: • demonstrates an exceptional understanding of all aspects of the Board's requirements; and/or • proposes a solution which performs very well in complying with the Board's requirements and excels in complying with some of the Board's requirements.

5.7 Price Evaluation

5.7.1 Economic Cost

The Economic Cost of the Submission will be determined by calculating the Net Present Value (NPV) of each Financial Submission over the period of the NPD Project Agreement using the following components:

(a) NPV of Annual Service Payment - The proposed total Annual Service Payment stream in the Bidder's Financial Model, taken from Financial Pro-forma 1 and verified against the Financial Model, prepared using the assumptions and specifications set out in paragraphs 3.8 and 3.9. The NPV will be calculated using the Treasury real discount rate of 3.5% (6.0875% nominal);

(b) NPV of Surpluses - The forecast level of surpluses in the Bidder's Financial Model, as presented in Financial Proforma 2 and verified against the Financial Model will be deducted from the NPV of the total Annual Service Payment. Due to the more uncertain nature of the surplus payments the NPV will be calculated using a real discount rate of 4.39% (7.0% nominal);

(c) Equalisation Adjustment - Any additional material related costs and revenues to be borne by the Board as a result of any Financial Submission, including the pass-through costs of energy and utilities, rates and insurance costs as set out in Financial Pro-forma 1. The impact of such costs will be estimated by the Board and expressed as an NPV of the adjustments made, discounted at a real rate of 3.5%. Where an Equalisation Adjustment (other than the pass-through costs) has been made, the nature of and rationale for the adjustment will be disclosed to the Bidder; and

(d) Quantifiable Bidder Amendments - The Economic Cost will include an amount that reflects the deemed value (whether positive or negative) of any (i) amendments, caveats or qualifications to the NPD Project Agreement or specification that affect the risk profile of the Project or (ii) elements of the Financial Submission, that have or, in the reasonable opinion of the Board may have, a significant and quantifiable financial impact on the Board (a '**Quantifiable Bidder Amendment'**). For this purpose, the deemed value of the Quantifiable Bidder Amendment will be the estimated financial impact to the Board of the risk occurring multiplied by the estimated probability of that risk being realised. Such values will be converted to an NPV using the 3.5% real discount rate.

Where any such Quantifiable Bidder Amendments and/or Equalisation Adjustments are identified, these will be discussed and the deemed value shared with each Bidder during Dialogue.

5.7.2 Price Evaluation Mark

The Economic Cost derived from the components described in paragraph 5.7.1 will be scored as shown in the table below, with the Bidder with the lowest Economic Cost scoring the maximum 60 (the **Price Evaluation Mark**).

Deviation from lowest Economic Cost	Price Evaluation Mark
</=0.25%	60
>0.25%, </=0.50%	59.75
>0.50%, </=0.75%	59.625
>0.75%, </= 1.00%	59.5
>1.00%, </= 1.50%	59.25
>1.50%, </=2%	59
>2%, </=3%	58.5
>3%, </=4%	58
>4%, </=5%	57.5
>5%, </=6%	56.5
>6%, </=7%	55.5
>7%, </=8%	54.5
>8%, </=9%	53.5
>9%, </=10%	52.5
>10%, </=11%	50.5
>11%, </=12%	48.5

>13%, </=14%	44.5
> 14%, </= 15%	42.5
> 15%, </= 16%	40.5
> 16%, </= 17%	37.5
> 17%, </= 18%	34.5
> 18%, </= 19%	31.5

Deviation from lowest Economic Cost	Price Evaluation Mark
> 19%, </= 20%	28.5
> 20%, </= 21%	24.5
> 21%, </= 22%	20.5
> 22%, </= 23%	16.5
> 23%, </= 24%	12.5
> 24%, </= 25%	8.5
> 25%	0

5.8 Combining Price and Quality Evaluation

For each Bidder, the Price Evaluation Mark (out of 60) will be added to the mark for the Quality Evaluation Mark (out of 40) to give a total mark out of 100. The Final Tender with the highest combined mark will be deemed by the Board to be the most economically advantageous tender.

6 GENERAL PROCUREMENT RULES

6.1 Introduction

This section outlines the general procurement rules applying to the Project competition in addition to those set out in section 4 (Competition Dialogue Process) relevant to submission requirements and elsewhere within the ITPD.

6.2 Information provided to Bidders – Confidentiality and Crown Copyright

By receiving the ITPD, each Bidder agrees to keep confidential the ITPD to Participate in Dialogue and all of the Information Provided.

Bidders shall not reproduce the ITPD in any form (including photocopying or storing by electronic means) or any other Information Provided for any purpose other than that specifically necessary to make a Submission without the specific written permission of the Board.

The ITPD and Information Provided may be made available to a Bidder's members, employees and professional advisers directly involved in the appraisal of such information (who must be made aware of the obligation of confidentiality) but shall not, either in whole or in part, be copied, reproduced, distributed or otherwise made available to any other party in any circumstances without the prior written consent of the Board, nor may it be used for any other purposes than that for which it is intended.

The ITPD (including any copies and or any supplemental or referenced documents) and any Information Provided is and shall always remain the property of the Board who is entitled to demand their return and/or destruction at any time.

6.3 Information provided to Bidders - Warnings / Disclaimers

While the Information Provided has been prepared in good faith, it does not purport to be comprehensive nor to have been verified by the Board or any of their advisers. Neither the Board nor any of their agents or advisers accept any liability or responsibility for the accuracy, adequacy or completeness of any opinions, commentary, information and documentation contained in the ITPD or of any other opinions, commentary, information and documentation made available during the Tender Period or in respect of any Final Tender. No representation or warranty, express or implied, is or will be given by the Board or any of their agents or advisers with respect to such opinions, commentary, information and documentation. Any liability therefore is hereby expressly disclaimed.

It is not warranted that the Information Provided shall identify or provide Bidders with Solutions for the attainment of the Board's requirements. It is the responsibility of each Bidder to develop their proposals to ensure that they satisfy the Board's requirements.

Bidders must obtain for themselves at their own responsibility and expense all information necessary for the preparation of their Submissions during the Tender Period and in respect of any Final Tender.

Bidders must complete and provide all information in accordance with the conditions and requirements of the ITPD.

6.4 Restrictions on the Use of the Invitation to Participate in Dialogue

The ITPD and subsequent Information provided should not be considered as an investment recommendation made by the Board or any of its advisers or agents to any of the Bidders. Each person to whom the ITPD is issued should make its own independent assessment of the Project competition and all matters relevant to that competition and to the Project after making such investigation and taking such professional advice as it deems necessary.

Nothing in the ITPD is, or should be, relied upon as a promise or representation as to the Board's ultimate decision in relation to the Project competition and/or the award of a public contract.

6.5 The Board's Right to Terminate

Bidders' attention is drawn to the fact that, by issuing the ITPD, the Board is in no way committed to accepting any Final Tender or identifying a Preferred Bidder.

The Board reserves the right, in its absolute discretion, to terminate, cancel or abandon the Project competition at any time before the execution of the NPD Project Agreement without giving prior notice to Bidders. In the event that the Project competition is so terminated, the Board will have no liability whatsoever to a Bidder, their subcontractor(s), their funders, the advisers to the Bidder or adviser(s) to any subcontractor(s) or funders for any costs incurred in connection with the Project competition.

6.6 Board's right to vary the process

The Board reserves the right, at its discretion, and subject to compliance with procurement law requirements:

6.6.1 to change the basis of, terms of or the procedure for, the process, including the timing, form and substance of the procedure of the Project competition. Under no circumstances shall the Board incur any liability in respect thereof;

6.6.2 to issue supplementary documentation at any time during the Project competition in order to clarify any matter and/or amend any aspect of the Information Provided;

6.6.3 amend the Board's requirements, Mandatory Reference Design Requirements, NPD Project Agreement and/or any other aspect of the Board's procurement documentation.

Any changes shall be communicated to Bidders as quickly as possible.

6.7 Conduct and Conflicts of interest

The Board wishes to avoid or resolve any conflicts of interest or other matters which may compromise its legal obligations relevant to conducting an open, transparent, fair and non-discriminatory competitive procurement. A Bidder must, accordingly, ensure that its participation in the Project competition that may lead to the award of a contract does not in any way compromise the Board's performance of its obligations.

A Bidder must consider these matters carefully on an ongoing basis and ensure that its actions are not capable of compromising the Board's ability to meet its obligations.
If in doubt, a Bidder must declare a potential conflict of interest and inform the Board of the measures the Bidder intends to implement to avoid it occurring.

The Board and Bidders will seek to agree the measures that are necessary to avoid any conflicts of interest or potential conflicts of interest arising.

In the event that an agreement cannot be reached and the Board considers its obligations in relation to the procurement are compromised, the Board reserves the right to disqualify a Bidder from the Project competition. The Board's decision on this matter will be final.

Each Bidder shall ensure that all relevant entities involved in its participation in the Project competition, including, without limitation, consortia members, subcontractors and all relevant technical, financial and legal advisers, are aware of the provisions of this paragraph 6 and do not breach any of the provisions set-out herein

6.8 Canvassing and contacts

Except as provided in the ITPD, Bidders shall not approach staff of the Board or staff of the Board's advisers or contractors with a view to obtaining information or clarification in respect of any part of their Submission or solution or attempting to support or enhance their prospect of being identified as the Preferred Bidder. Any such approach or attempted approach by a Bidder may lead to the Bidder's disqualification.

Bidders are required to complete a Certificate of Non-Collusion and Non-Canvassing as part of their Final Tender.

6.9 Disqualification/Rejection of Bidders

In accepting delivery of the ITPD, each Bidder agrees to abide by the provisions and conditions that it contains, or which are set out in any subsequent Information Provided in relation to the Project competition, in all and any dealings or communications, during the course of the Dialogue and in respect of any Final Tender or otherwise in relation to the Project.

The acceptance of the ITPD by a Bidder will imply acceptance of its provisions by Bidders without qualification. Any attempt to qualify provisions, either expressly or impliedly, may result in the Bidder being disqualified.

The Board reserves the right to reject or disqualify a Bidder where:

6.9.1 a Bidder's Submission is submitted late, completed incorrectly, incomplete or fails to include a Solution capable of meeting the Board's requirements; and/or

6.9.2 the Bidder or any person or entity involved with the Bidder's participation in the Project competition is guilty of serious misrepresentation in relation to any aspect of the Project competition; and/or

6.9.3 there is a change in identity, control, financial standing or other factor impacting on the selection and/or evaluation process affecting the Bidder including, where the Bidder is a consortium, changes relevant to Consortium membership and members , and such changes shall be addressed in accordance with paragraph 6.13; and/or

6.9.4 the Bidder or any person or entity involved with the Bidder's participation in the Project competition contravenes any of the terms of the ITPD or terms set out in any subsequent Information Provided, including within the Invitation to Submit Final Tenders; and/or

6.9.5 the Board becomes aware that information provided by the Bidder or any person or entity involved with the Bidder's participation in the Project competition is intentionally or unintentionally false, misleading or incorrect; and/or

6.9.6 the Bidder or any entity involved with the Bidder's participation in the Project competition prejudices the Project competition by failing to take steps to address a conflict of interest or other matters which impact negatively on the Board's ability to meet its procurement law obligations.

6.10 Costs

All work undertaken and costs incurred by Bidders in relation to any stage of the Dialogue relating to the Tender Period and any Final Tender, or otherwise in relation to the Project, shall be at each Bidder's own risk and expense.

6.11 Freedom of Information

FOISA and the Environmental Information (Scotland) Regulations provide significant and important rights to access information and the Board supports FOISA's and the Environmental Information (Scotland) Regulations' underpinning principles by encouraging behaviour which is open, transparent and increases public participation. Accordingly, all information submitted to the Board may be disclosed by the Board in response to a request under FOISA and the Environmental Information (Scotland) Regulations or in response to Legislation requiring the disclosure of information by the Board. The decisions of the Board in the interpretation thereof shall be final and conclusive in any dispute, difference or question arising in respect of disclosure. The Board may also decide to include certain information in the publication scheme which it maintains under FOISA and the Environmental Information (Scotland) Regulations.

Further, the Board may also disclose all information submitted to them to the Scottish or United Kingdom Parliament or any other department, office or agency of Her Majesty's Government in Scotland or the United Kingdom, and their servants or agents.

If a Bidder considers that any of the information to be provided is commercially sensitive, it shall be obliged to identify it and explain to the Board (in broad terms) what harm may result from its disclosure. Bidders should be aware that, even where it has indicated that information is commercially sensitive, the Board may be required to disclose it and as such reserves the right to do so.

Bidders should also note that the receipt of any material marked 'confidential' or equivalent by the Board should not be taken to mean that the Board accept any duty of confidence by virtue of that marking.

The Board may publish, on the Scottish Government and the Board's websites, the names and contact details of Bidders who have been issued with the ITPD.

6.12 Collusion

Any collusion between Bidders, their subcontractors or advisers will lead to the exclusion of the Bidders involved at the discretion of the Board.

Bidders shall be required to sign the Certificate of Non-Collusion and Non-Canvassing and to submit it no later than five (5) Business Days from the date of issue of the ITPD.

6.13 Changes in Bidder Circumstances

Each Bidder is required immediately to bring to the Board's notice any change in the identity of any organisation, consortium member or entity identified and evaluated in its pre-qualification submission since the submission of the Pre-Qualification Questionnaire and such change may only be made with the prior written agreement of the Board. Any additional information provided by a Bidder pursuant to the requirements of this section will be evaluated in accordance with the selection criteria in respect of such information in the Pre-Qualification Questionnaire. The Board has selected the Bidders on the basis of information provided by them concerning their eligibility, the economic and financial standing, technical and professional ability. The Board reserve the right to withdraw the selection of a Bidder at any time if the Board concludes that a Bidder is ineligible, no longer satisfies the minimum standards of economic and financial standing or technical and professional ability or is otherwise required by its procurement law obligations to reject the Bidder.

6.14 Non Compliance

Any Submission provided without the Bidder complying with the requirements of the ITPD or any Invitation to Submit Final Tender may be rejected by the Board.

6.15 Publicity and Media Statements

Bidders shall obtain the Board's specific written permission (on form, content and purpose) before any statements or other disclosures regarding their involvement in the procurement of the Project are made public (media, seminars, websites, conferences, promotional material etc).

6.16 Variant Bids

In accordance with the OJEU Notice, Bidders should be aware that no variant bids will be permitted.

Appendix A (i) –Technical Agenda Topics and Informal Submission Requirements

Bidders should note that the table below is a proposed guide to the agenda topics during Dialogue. It may however be subject to change to reflect the outcome of Dialogue and bidder specific issues. Bidders may suggest changes, but this will require the agreement of the Board.

With each Technical submission, Bidders are also required to provide a completed Annex 2 of Appendix A (ii) – "Schedule of Design Deliverables for Technical Meetings during Dialogue Period" confirming the supporting drawings and information that Bidders are providing in support of the Bid Submission Requirements. Bidders should note that all design deliverables must be submitted at least once before the Draft Final Tender submission.

Technical

Meeting	**Topics/Subject Areas**	**Submission in advance of meeting (cross ref. to Submission Requirements Table) supported by deliverables, where appropriate, as listed in AP1.1 (drawings) and 1.2 (specifications)**
Meeting 1	<u>Strategic</u> Understanding, Vision, Understanding outcomes, Collaborative working <u>Design</u> General approach to design covering stakeholders requirements, strategic approach to design, architectural and landscape strategy, innovation and adaptability/flexibility. Further development of BIM with draft versions of submission drawing requirements. <u>Construction</u> Final approach to construction methodology and programme, commissioning and handover, QA, construction health and safety and CDM. <u>Equipment</u> Review of final equipment proposals. <u>Facilities Management</u> Approach to services elements, unprogrammed maintenance. Assumptions made and mobilisation proposals. <u>Costs</u> Report on development of Capex and Opex with further developed costs. <u>Insurance</u> Update from Meeting 3.	C6, C7, C12, C13, C19 C23, C24, C25, C26, C27, C28 C11 D11, D12, D14, D15. C29, D13.
Meeting 5	<u>Strategic</u> Update on Meeting 4 and final review.	

Meeting	Topics/Subject Areas	Submission in advance of meeting (cross ref. to Submission Requirements Table) supported by deliverables, where appropriate, as listed in AP1.1 (drawings) and 1.2 (specifications)
	<u>Design</u> Review of final response to general approach to design covering stakeholders' requirements, strategic approach to design, architectural and landscape strategy, innovation and adaptability/flexibility. Final review of BIM and draft versions of all drawing submission requirements. <u>Construction</u> Compliance with BCRs, design life proposals, assumptions, clarifications and derogations. Final update on programme, commissioning and handover, QA, construction health and safety and CDM. <u>Equipment</u> Feedback on final equipment proposals <u>Facilities Management</u> Review and update on FM proposals. <u>Costs</u> Report on finalisation of Capex and Opex with final draft costs. <u>Insurance</u> Update from Meeting 4.	C1, C2, C3, C4, C5 C20, C22, C30 C23, C24, C25, C26, C27, C28 C11 C29, D13.
Meeting 6	Feedback on Draft Final Tender submission.	

Appendix A (ii) – Submission Requirements

The technical Submissions submitted by the Bidders shall be structured following the same numbering reference system as set out in the "Quality Evaluation Criteria and Reference" and the "Submission Requirement Reference" in the table below.

In relation to the technical Submission Requirements for C (Approach to Design and Construction), subject to the requirements of paragraph 4 of Volume 1 of the ITPD and to encourage and facilitate innovative technical solutions, Bidders are permitted to submit its responses in a format (e.g. written responses, drawings or other representations) which they consider most appropriate to best demonstrate an understanding of the Board's requirements and/or a solution which complies with the Board's requirements. However, as a minimum, the Board would require all design deliverables set out in AP1.1 and AP1.2 to be submitted as part of the Submission Requirements for C (Approach to Design and Construction) and each response (C1 to C31) should refer to which Design Deliverables within AP1.1 and AP1.2 support the response.

The technical submission requirements submitted by the Bidders in response to section C (Approach to Design and Construction) below will ultimately form part of Project Co's Proposals in accordance with the NPD Project Agreement.

The technical submission requirements submitted by the Bidders in response to section D (Approach to Facilities Management) below will ultimately form part of the Method Statements in accordance with the NPD Project Agreement.

The technical submission requirements submitted by the Bidders in response to section B (Strategic and Management Approach) below will form part of Project Co's Proposals and/or the Method Statements in accordance with the NPD Project Agreement.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
A. Executive Summary A1	Not Scored	n/a	A1.1	Bidders must submit an Executive Summary of their Final Tender. The Executive Summary shall include: • An overview of the Bidders' approach to the Project; • The Bidders' understanding of the Project, key Board requirements and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the main factors, as determined by the Bidder that will influence the deliverability of the Project. In addition a concise statement describing the Bidders' approach to address the factors identified; • An indication of what the Bidders bring to the Project by way of skills or innovative solutions to meet their own criteria for success; • An overview of the Bidders' accepted list of key assumptions or clarifications • An overview of the Bidders' proposed design solution and integration with the Site; and • An overview of the Final Tender from a financial perspective, including a summary of capital costs, the Unitary Payment and funding structures.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B. Strategic and Management Approach					
B1. Clarity, robustness and quality of understanding of policy framework and approach to addressing these.	Scored	0.16	B1.1	Bidders must submit proposals setting out their understanding of the relevant local and national health policies and describe how these strategic issues have been included within the Bidders' Final Tender submission, in particular with respect to the delivery of solutions specific to this Project.	To Pass, Bidders will be required to demonstrate a clear understanding of national health policies specific to the Project.
B2. Clarity, robustness and quality of approach to contribution to delivering the Board's 'vision' and associated performance management regime	Scored	0.32	B2.1	Bidders must submit proposals setting out how their proposals will enhance and contribute to the Board's vision. Bidders should explain their role in delivering the Board's vision, and include proposed performance management mechanisms for demonstrating Project Co's contribution to the achievement of this vision.	To Pass, Bidders will be required to demonstrate that they will contribute to the Board's vision.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B3. Clarity, robustness and quality of understanding of Project outcomes and approach to contribution of delivering these	Scored	0.57	B3.1	Bidders must submit proposal setting out their understanding of the Project outcomes (as outlined in the Boards benefits realisation plan) and how their proposals will contribute to the delivery of outcomes/benefits with specific details of how the Bidder has already addressed these in their Final Tender submission, or how they will be addressed after Final Tender submission. Bidders must also outline what they offer by way of skills and/or innovative solutions to deliver these outcomes/benefits.	To Pass, Bidders will be required to demonstrate that they understand the Project outcomes and will contribute to these.
B4. Clarity, robustness and quality, of approach to partnership and collaborative working with the Board and its partners	Scored	0.81	B4.1	Bidders must submit a method statement outlining their approach to collaborative working and developing and maintaining a successful long term partnership with the Board and its partners, (i) in the period from Preferred Bidder appointment to Financial Close; (ii) throughout the construction period; and (iii) operational period of the contract confirming in their proposals: • What they believe to be the factors critical to achieving a successful relationship (both short term and long term);	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to collaborative working.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Their understanding of the key interface issues and how they intend to manage these and integrate with the existing relationships; • How they will develop and maintain a full understanding of the Boards' objectives including matters identified during Dialogue; • How their objectives can reflect and adapt to the Board's goals as they evolve over time; and • The manner in which they will conduct themselves that accords with the culture of the Board, local communities and other key stakeholders to the Project.	
B5. Clarity, robustness and quality of approach to staff development including recruitment, training, induction and HR issues	Scored	0.32	B5.1	**Recruitment** The Bidders must submit proposals setting out details of the following: • Approach to recruitment and vetting of staff, including as appropriate relevant security clearances (e.g. Disclosure Scotland, Protection of Vulnerable Groups Scheme etc); • Procedures for working in areas with children or vulnerable persons; and	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to staff development.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of its employment policy and evidence that employees and prospective employees are treated fairly irrespective of race, gender, religion, disability or background.	
			B5.2	**Human Resources Issues** The Bidders must submit proposals setting out: • Details of their Occupational Health approach for staff having come into contact with high risk person or areas.	
			B5.3	**Training and Induction** The Bidders must submit proposals setting out: • Details of any achievement in relation to the Investors In People initiative (or equivalent); • Details of the Bidder's employee development and appraisal system; • Details of its own and its supply chain's training policy and procedures, including an indication of the training to be offered to the on-site staff specific to this Contract and a statement of the percentage of their annual turnover which is spent on staff training;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of induction programme and ongoing training for staff, specifically working with HV systems and Legionella control; and • Details of induction programme for sub-contractors.	
B6. Clarity, robustness and quality of approach to delivering community benefits	Scored	0.32	B6.1	Bidders must submit their proposals to deliver community benefits as part of the Project in accordance with Clause 73 (Community Benefits) of the NPD Project Agreement and Appendix I of Volume 1 of the ITPD. These should include specific proposals covering economic, environmental and social benefits related to the Project during both the construction and operational stages of the Project.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to community benefits (including complying with the minimum targeted recruitment numbers set out in Appendix I Section 2.1).
B7. Clarity, robustness and quality of approach to integration of design with facilities management considerations	Scored	0.32	B7.1	Bidders must submit proposals demonstrating how a consistent and a coordinated approach will be developed and assured between the building design and FM solutions. Bidders shall take account of the hard FM site interface issues and integration with the soft FM which will be provided by the Board. Bidders responses shall include specific	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to integration of design with facilities management.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				proposals on: • How their design development process will consider and incorporate the FM aspects at each stage of the process from pre financial close through to construction; and • The method by which design coordination issues will be managed and FM interface issues raised with the Board and its partners.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B8. Clarity, robustness and quality of approach to consortia management arrangements including approach to sub contractors	Scored	0.57	B8.1	Bidders must submit proposals setting out details of how its consortium will be managed, setting out the key roles and their responsibilities including technical roles within their consortium they have identified as key to the Project during contract finalisation, construction and operational stages and Project Co's role in leading the project management. This shall include team leaders for all principal disciplines, both before and after financial close, and may include but not be limited to the following: • Project and programme management; • Risk management; • Design; • Works; • Services; and • Quality, safety and environmental management including HAISCRIBE and BREEAM.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to consortia management proposals.
			B8.2	Where any element of the Works and/or Services are to be provided by subcontractors other than the Contractor or Service Provider(s) Bidders must submit details of: • The selection process undertaken for such sub contractors that are confirmed at the time of submitting Final Tender, and/or the selection process (including timescales) that will be undertaken for	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				those subcontractors yet to be confirmed; and • The manner in which performance of the sub contractors will be secured and integrated within the overall performance requirements of the Board's output specifications.	
B9. Quality of proposed personnel	Scored	0.32	B9.1	Bidders must submit a summary curriculum vitae (maximum of two pages per person) of the personnel proposed for the roles identified in B8 above which shall include (as a minimum) details of key experience, education and professional status.	To Pass, Bidders will be required to demonstrate that their key personnel have satisfactory levels of experience.
B10. Clarity, robustness and quality of approach to continuity throughout the Project	Scored	0.32	B10.1	Bidders must submit proposals setting out their continuity plan for all stages of the project. The key matters to be addressed will include: • how any changes in personnel between their pre and post financial close teams will be managed and communicated; • describe how as part of the design development process they view Project Co's role in ensuring design continuity and knowledge transfer. This will include how they will achieve design team continuity throughout the whole design development, construction and operational phases considering the consortium team and design organisations, and the key personnel	To Pass, Bidders will be required to demonstrate that there will be continuity throughout the Project.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				working within each of those organisations. The continuity plan shall address proposals for the role of design staff on-site during the development and the Works phase; and • the submission should particularly address the issue of consistency of personnel throughout the project and the need for procedures to deal with knowledge transfer to ensure smooth transition when required.	
B11. Acceptable organisational diagrams for each stage of Project	Pass/Fail	n/a	B11.1	Bidders must submit organisation diagrams for the consortium including the lines of communication with the Board and other key stakeholders for each of the phases of the project including: • contract finalisation (appointment of Preferred Bidder to Financial Close); • construction and commissioning period; and • operational term.	To Pass, Bidders will be required to demonstrate a clear organisational structure for each stage of the Project.
B12. Clarity, robustness and quality of approach to health and safety	Scored	0.81	B12.1	Bidders must submit a detailed health and safety strategy which the Bidder proposes to adopt to comply with in fulfilling their health and safety obligations throughout the project, covering the following phases: • contract finalisation (appointment of	To Pass, Bidders will be required to demonstrate they will adopt a robust approach to health and safety.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Preferred Bidder to Financial Close); • construction and commissioning period; and • operational term. In particular, the proposals should address Project Co's leadership role and key project roles throughout and particularly in the delivery and management of the Project on a 24/7 operational site, addressing key issues such as: • The Boards requirements; • Operational continuity requirements of the RIE Facilities; • Obligations to connect to and maintain critical service connections; • Traffic management – construction and operational access/ egress; • Compliance with HaiScribe requirements; • Construction activity; • Linking to a live operational major health facility; • Proximity to live operational general hospital facility (24/7) and medical school; • Security issues; • Access and maintenance requirements of the project; • Pollution control; • Noise, dust, water egress, and vibration issues and the like; and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of business continuity plans.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B13. Acceptable approach to environmental, quality and health and safety management systems	Pass/Fail	n/a	B13.1	Bidders must submit proposals setting out how Project Co intends to set up, manage, maintain, work towards and gain accreditation of its environmental, health and safety and quality management systems including specific proposals on: • The systems to be developed and implemented; • How these systems will be put in place; • The process for the development of the systems; • Interim measures while the systems are being developed; and • Timescales for accreditation.	To Pass, Bidders will be required to demonstrate that they will adopt an acceptable approach to management systems.
			B13.2	As a minimum Bidders must submit proposals setting out the following aspects of their environmental, health and safety and quality management systems: • Proposed document management systems; • Verification procedures for design work; • Detailed change control procedures for each stage of the Project; • Procedures and a programme for carrying out Project reviews; and • Description of the procedures to co-ordinate and manage the design process including the interface between design teams and continuity of design team members (as set out in B10). In addition,	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				a statement of how and when design changes will be reviewed and commented on by Project Co/ Service Provider.	
			B13.3	Bidders must submit propoals demonstrating that they operate an accredited Health and Safety management system complying with the OHAS 18001 standard.	
B14. Clarity, robustness and quality of approach to management of design development including integration with the Board and its partners	Scored	0.16	B14.1	Bidders must submit proposals setting out : • Their approach to managing the Project's design development, with particular emphasis on development post Final Tender, including proposals for interface with specific sub-groups harmonising with the current Board Project structure. The submission should include a description of the procedures to co-ordinate and manage the design process and to interface with key stakeholders, including document management, verification of design, change control during design development and design reviews; and • The management and review structures and procedures that will be put in place by the Bidder to manage potential conflicts, delays, changes in the Board's goals and other issues at each key design stage of the Project.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to management of design development including a commitment to working with the Board.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B15. Acceptable programme from appointment as Preferred Bidder to Financial Close	Pass/Fail	n/a	B15.1	Bidders must submit a week by week programme covering the contract finalisation period from appointment of Preferred Bidder until Financial Close with a detailed breakdown of the key tasks to be completed by the end of each week with the critical path and key milestones shown. Bidders shall supplement the programme with commentary on, as a minimum, the following matters: • Mechanisms that will be adopted to ensure that the critical path for the technical, legal and commercial activities will remain on programme, and therefore that the overall Project programme is maintained; • Confirmation of key inputs, timescales and required by dates for the Board to review/approve Bidder submissions during contract finalisation; • Confirmation that their overall programme to Financial Close, is achievable; and • Key risks to the Project proceeding on programme shall also be identified, with a brief commentary on how the Bidder proposes to mitigate each risk.	To Pass, Bidders will be required to submit a logical and deliverable programme.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C. Approach to Design & Construction					
C1. Clarity, robustness and quality of approach to meeting the stakeholders requirements in their design	Scored	2.64	C1.1	The Bidders must submit proposals setting out their approach to meeting the stakeholders requirements in their design. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Evidence that they are sensitive to the co-location of the RHSC and DCN and that they will take advantage of this arrangement to maximise their design; ii. Evidence that they are aware of the wide range of stakeholders associated with these departments and that they understand and will cater for all their requirements in their design; iii. Evidence that their bid will deliver a nurturing, engaged and safe community that supports the well being of all patients, carers, families, visitors and staff; iv. Evidence that their design will provide a healing environment that will assist the Board in its core obligation to	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				deliver clinical care to users of both the RHSC and DCN; v. Evidence that their design will include particular consideration of the proposed external spaces, therapy gardens and landscaping, communal patient areas for example quiet and television rooms, public areas; vi. Evidence that their design will adequately address security requirements; vii. Evidence that their design will fully incorporate infection control requirements and HAI Scribe; and viii. In particular for the RHSC and CAMHS, we would expect the Bidders to demonstrate how the design will be developed to achieve: i. Facilities that are a beautiful place with children and young people at the centre of a nurturing, engaged and safe community; ii. Facilities that are reassuring, relaxing, convenient and safe with the needs of children and young people and those with disabilities expressly addressed; and iii. Facilities that provide an	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				appropriate balance of internal and external play `areas. In relation to the DCN, we would anticipate Bidders shall demonstrate how similar qualities to the above (ix (i – iii) but also in addition, how the design will be developed to achieve a nurturing, quiet and relaxing environment for its patients.	
C2. Clarity, robustness and quality of approach to design quality	Scored	1.85	C2.1	Bidders must submit proposals setting out their approach to achieving design quality. This must be provided as set out in C2.1 – C2.3 below: Bidders must submit proposals setting out how the design will be developed to integrate the architectural, mechanical, electrical and civil and structural engineering aspects of the design to present a cohesive innovative design which meets all the Board's construction and stakeholders' requirements (including infection control and HAI Scribe requirements). The submission shall utilise all Mandatory Reference Design Requirements to deliver a solution across all disciplines.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
			C2.2	Bidders must submit proposals setting out their design analysis of both the site and the Board's requirements as depicted in the Board's Construction Requirements. The review of the site shall identify, as a minimum, opportunities, constraints and access and planning issues.	
			C2.3	Bidders must submit proposals setting out a clear statement summarising what they understand to be the key strategic issues relating to the project and demonstrate how the design proposals have dealt with these specific project issues, and any impact their proposals will have on such matters.	
C3. Clarity, robustness and quality of architectural and landscape design	Scored	2.64		Bidders must submit proposals setting out their approach to architecture and landscape design. This should be provided as set out in C3.1 – C3.3 below:	
			C3.1	Bidders must submit proposals setting out their approach to architecture design. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. How the design will deliver world class architectural design practice in delivering Facilities that support the Board's clinical needs and a design	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				which provides a high level of creativity; ii. How the design will provide an ordered composition of building elements in a stimulating form that successfully combines good standards of space, height, form, scale and use of materials and colours / images with associated functional requirements and the surroundings; iii. How the design will address the interests of stakeholders, including (but not limited to) clinicians, patients (and their representatives, families and carers), health commissioners, Local Government, and the local community; iv. How the design will deliver architectural quality and demonstrates how this will be provided; v. How the design will deliver the lines of sight and views from windows which are suitable for children and young people; vi. How the design will provide age and ability appropriate art and way finding design which is integrated into the design solution; vii. How the design will fully consider all aspects of safety in all areas and a description of how risks have been removed through design innovations;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				viii. How the design will fully address control of infection and HAI Scribe; and ix. How the design will minimise cleaning and maintenance of all elements of the Facilities by choice of materials, layout and orientation and shows how such activities can be carried out safety and without disruption to clinical activities.	
			C3.2	Bidders must submit proposals demonstrating how they will deliver high quality architectural buildings, and high quality finishes and component parts. As well as the architectural drawings and supporting information, Bidders shall provide specific details in detailed specification format to include the following: i. Internal and external doors and door furniture, also showing proposed pattern of vision panels; ii. Washing and toilet facilities; iii. Reception desks and touchdown bases; iv. Communal patient areas, which include spaces such as playrooms, television rooms and quiet rooms v. External therapy gardens and external covered play and seating areas vi. Floor and wall coverings; vii. Natural and artificial lighting	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				particularly in key public areas, artwork and key clinical areas such as theatres; viii. Samples of worktops and wall cupboards shall be provided for approval by the Board; and ix. Juxtaposition of main external finishes / cladding.	
			C3.3	Bidders must submit proposals setting out their approach to external hard and soft landscaping (including courtyards and therapy gardens) which shows how the design will be developed for therapeutic use and how it provides patient and staff access and how it enhances the environment of the Facilities. The proposals should demonstrate how the principle elements of external landscaping will be designed. to: i. Complement the RHSC and DCN buildings and the neighbouring RIE; ii. Minimise the risk of vandalism and crime; iii. Facilitate security of pedestrians and avoided 'no-go' areas in their design. Ensure site safety and link with the Green Travel Plan; iv. Minimise maintenance and operation costs; v. Ensure easy maintenance and cleaning whilst minimising health and safety issues;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				vi. Provide appropriate fire safety routes for all users; vii. Incorporate SUDS and other sustainable features; viii. Incorporate art work; and ix. Incorporate lighting, heating, seating, canopy and wind protection arrangements which are appropriate for young children and less disabled people. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) those items listed in (i) – (ix) above.	
C4. Clarity, robustness and quality of approach to delivering innovation	Scored	2.64	C4.1	Bidders must submit proposals setting out their approach to delivering innovation. This should be provided as set out in C4.1 – C4.4 below: Bidders must submit proposals setting out where it will be, or has been possible to provide innovative solutions to meet the Board's requirements. Innovation in design can range from whole concepts of hospital planning, distribution of functions etc to the building solution (e.g. use of prefabricated units) to detail design of components, materials, spaces, use of technology and art etc. Bidders must show how their design reflects current and developing innovations	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				in healthcare delivery and construction generally and translate these into an innovative building solution.	
			C4.2	Bidders must submit proposals setting out how their design, using innovation, will optimise the sustainability of the Facilities. Bidders must provide details of their strategy to show how it will optimise energy, water and utility consumption, minimise waste production, implements a strategy to meet the Board's BREEAM requirements including carbon reduction and other positive activities described in the Board's Construction Requirements to provide a sustainable development.	
			C4.3	Bidders must submit proposals setting out how an innovative approach to the provision of ICT in the Facilities in line with the Board's Construction Requirements and FM Output Specifications has been delivered.	
			C4.4	Where areas of innovation are identified Bidders must submit supporting evidence, where possible, with examples from other schemes where this has proved successful. Bidders must provide information to show the benefit, cost and risk for each innovation so the Board can assess them separately.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C5. Clarity, robustness, and quality of approach to adaptability and flexibility.	Scored	2.64		Bidders must submit proposals setting out their approach to adaptability and flexibility. This should be provided as set out in C5.1 and C5.2 below:	
			C5.1	Bidders must submit proposals setting out an adaptability strategy which shall describe what features have been incorporated to facilitate future adaptation of use and/or expansion, technological changes, changes in national policy, national and local planning, clinical advancement and seasonal or future strategic variations in use. It is expected that particular reference shall be made to potential changes in the delivery of surgical and radio diagnostic services given the rapid evolution of developments in these disciplines. All design disciplines i.e. architectural, mechanical and electrical, structural and environmental, must be considered.	
			C5.2	Bidders must submit proposals setting out their approach to adaptability and flexibility. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. How the interior spaces may be re-arranged in future if a change of use were to occur;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				ii. How the building's services and external infrastructure have been designed to allow this adaptability; iii. How the building structure and envelope, services, partitioning, ceiling, and flooring systems and construction technique has been designed to allow this adaptability; iv. How the main electrical installations can accommodate changes over and above the 25% capacity increase (requested in Section 3 Board's Construction Requirements) with minimal structure disruption; and v. How the environmental services strategy will co-ordinate with the adaptability and flexibility strategy.	
C6. Clarity, robustness and quality of way finding and signage proposals	Scored	1.06	C6.1	Bidders must submit proposals demonstrating their way finding strategy. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) how it has been developed to: i. Suit the needs of the particular patient mix for the Facilities i.e. children, young people and adults using different services, as well as staff and visitors; ii. Include internal and external signage	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				and signage outside the site boundary relevant to the Facilities. External signage shall include proposals for the wider RIE site, pedestrians, vehicles and street signage; iii. Integrate with the art strategy and lighting strategy for the Facilities; iv. Take cognisance of patient journey times and take steps to minimise such journey times; v. Minimise the transmission of micro-organisms and separates clean and contaminated traffic and material streams; vi. Include hand hygiene signage; vii. Include no smoking signage; viii. Make reference to sample or exemplar site information provided by The Board; and ix. Make use of signage in the floor.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C7. Clarity, robustness and quality of interior design proposals	Scored	2.64		Bidders shall submit their interior design proposals. This must be provided as set out in C7.1 and C7.2 below:	
			C7.1	For both the RHSC and DCN sectors of the Facilities Bidders must submit proposals setting out how their design has been developed to include: i. Interior design proposals and illustrations for each distinct area of the Facilities, paying particular attention to the interior design solutions for public, patient and key staff areas; ii. Communal patient areas that are light, spacious and provide a welcoming atmosphere and which are domestic in design and ambience with the main entrance being immediately apparent; iii. Public areas which are restful, open and well lit with natural light and have views out to landscaped spaces that add quality and orientation; iv. An open and friendly environment, that shall ensure privacy and dignity for patients, family members and visitors when required; v. The incorporation of art in the proposals. Bidders shall provide the name(s) of the artists whom will undertake the work;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				vi. Integration with their lighting strategy and equipment strategy; vii. Integration with maintenance, cleaning, operation and sustainability; viii. Integration with way finding and signage proposals and how the way finding and signage within the RHSC and DCN links with the way finding within the existing RIE; ix. How the interior materials within the Facilities match the furniture, furnishings and equipment being procured by the Board; and x. Facilities which have a safe and secure environment which is not created via visible security features e.g. security cameras. Safety in design shall also take consideration of anti-ligature, child safety, and Child and Adolescent Mental Health Service whilst maintaining access and ambience. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) those items listed in (i) – (x) above.	
			C7.2	Bidders must submit proposals setting out how their interior design for the RHSC has been developed to provide: i. Age and ability appropriate signage throughout the Facilities;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				ii. A nurturing, relaxed and safe environment in the patient, communal and public areas; and iii. Furniture, windows and lines of sight which are appropriate for young children and children in pushchairs and wheelchairs.	
			C7.3	Bidders must submit proposals setting out how their interior design submission for the DCN provides a nurturing, quiet and relaxed environment in the patient, communal and public areas.	
C8. Clarity, robustness and quality of M&E engineering design proposals	Scored	1.06		Bidders must submit proposals setting out their approach to M&E engineering services design. This must be provided as set out in C8.1 – C8.3 below:	
			C8.1	Bidders must submit proposals setting out the engineering services design for each element of the scheme in sufficient detail to demonstrate compliance with the Board's Construction Requirements. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. An engineering design, control and operational philosophy statement; ii. Details of principal M&E system selections;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				iii. The definition of plant areas and zones both internal and external to the Facilities; and iv. Schematics and written proposals for major plant provision.	
			C8.2	Bidders must submit proposals setting out how their design will be developed to include the following: i. Building services which support the Board's business, safety and security and life critical services under supply failure scenarios. Specific details shall be provided relating to standby facilities and mains service redundancy; ii. An autonomous energy centre and associated plant; iii. How temperature, ventilation and comfort for occupants will be maintained in accordance with the minimum criteria and how, if possible, these criteria will be improved; iv. How the quality of the environment and prevention of sick building syndrome shall be ensured; v. How mechanical and electrical design is integrated with architectural, structural and civil aspects as outlined above in C2 and C4; vi. How sustainability has been incorporated into their design,	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				including details of the maintenance and operation philosophy for all mechanical and electrical equipment; vii. Proposals for external services, including details of the main routes (including proposed connections to existing services), intakes and off-site reliance of these services and how this interfaces with adjacent sites (this is also discussed in C18 below); viii. Details of the main source of heating energy; and ix. Details of mechanical and electrical innovations including costs as described in C4. The following information should be also be provided to help demonstrate the design proposals noted above, including: x. An environmental conditions / room provisions matrix for both mechanical and electrical services for each room in the Facilities; and xi. Major plant life cycle statements and design life, including an explanation of the Bidder's lifecycle philosophy to support the lifecycle costing analysis completed in the technical costs proforma;	
			C8.3	Whilst Bidders are required to undertake their own design, the Board has provided a	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				draft Environmental Matrix as part of the ITPD documentation. Bidders must confirm acceptance of the Board's Environmental Matrix, highlighting any proposed changes on an exception basis.	
C9. Clarity, robustness and quality of natural and artificial lighting proposals	Scored	1.06	C9.1	Bidders must submit proposals setting out their approach to natural and artificial lighting within the Facilities. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The balance of natural and artificial light; ii. How the environment created by the lighting design will support the well being of patients, carers, visitors and staff; iii. How it will be functional for clinical use; iv. How it will produce an aesthetically pleasing environment; v. How it will be co-ordinated with the building structure and how it will integrate with other areas e.g. mechanical and electrical design, interior design and architecture; vi. How it will include sustainability and energy efficiency; vii. How the interior lighting philosophy will include room usage and warning	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				signs, night lighting, security emergency signage and emergency lighting, lighting control and wiring philosophy, standby lighting; and viii. How the external lighting philosophy will minimise light pollution for the neighbours including the RIE, assist to minimise vandalism, assist to improve security, and take account of local residents' needs.	
C10. Clarity, robustness and quality of energy management proposals	Scored	1.85	C10.1	Bidders must submit proposals setting out their approach to energy management. This should be provided as set out in C10.1 and C10.2 below. Bidders must submit an energy model, complete with supporting information, demonstrating how their design solution will achieve an optimum level of energy and utility conservation (linked with the requirement for a sustainable development in C4) and show that their design fulfils the following: i. The building energy performance will achieve a minimum of 6 credits for ENE.01 in the BREEAM assessment. ii. The water consumption for the Facilities will not exceed 170,000 litres/bed/annum (Part 6 Section 3: The Board's Construction	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Requirements); iii. 20% of energy is provided by renewable energy sources (Part 6 Section 3: The Board's Construction Requirements); and iv. The inclusion of passive design strategies for ventilation and thermal control. The environmental control system is to be co-ordinated and integrated with the design of the structure and the occupied areas in order to maximise the control and flexibility of the installations. In addition Bidders must submit an analysis of their design solution which demonstrates energy consumption proposals along with cost estimates of specific measures or innovations to be introduced.	
			C10.2	For information purposes only in addition to the model referred to above a dynamic thermal energy model is to be submitted which should comply with the parameters set out in Appendix F of the ITPD Volume 1.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C11. Clarity, robustness and quality of equipment proposals	Scored	1.06	C11.1	Bidders must submit proposals setting out their approach to equipment. This must be provided as set out in C11.1 and C11.2 below. Bidders must submit the following: : i. A commentary showing how the Group 1 Equipment scheduled by the Board varies from their own assessment of Group 1 Equipment needs. This shall be done by providing a mark-up of the Group 1 Equipment included in Equipment Schedule contained in Volume 3 of the ITPD. It should be noted that the quantity of Group 1 Equipment specified by the Board is considered to be a minimum; ii. A commentary on any aspect of the proposed equipment responsibilities regime suggested in paragraph 2.15 (Equipment) of the ITPD Volume 1. that is not considered to represent best value to the Board, and suggestions as to alternative profiles of responsibility, if any, that may enhance this; iii. A commentary setting out their proposals to select equipment suppliers and how the required level of quality is to be achieved in the equipment for which they will be	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				responsible for supplying and any improvement in the level of quality being proposed. Samples of worktops and wall cupboards shall be provided for approval by the Board to support this; and iv. Their approach to working alongside the Board to allow the Groups 2A, 2B and 3 Equipment to be installed and how this process will be managed.	
			C11.2	Bidders must submit a fully priced Schedule of Group 1 Equipment, the total sum for which should be clearly identifiable in the Technical Cost Proforma requested at C29 below.	
C11A Compliance with minimum level of Group 1 Equipment	Pass / Fail	n/a	C11A.1	Bidders must provide confirmation that they will comply with the minimum level of Group 1 Equipment as set out in the Equipment Schedule and Equipment Responsibility Matrix.	
C12. Compliance With Mandatory Reference Design Requirements	Pass / Fail	n/a	C12.1	Bidders must submit proposals demonstrating how their design complies with the Mandatory Reference Design Requirements.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C13.Acceptable approach to achieving planning permission	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to achieving planning permission. This must be provided as set out in C13.1 and C13.2 below.	To Pass, Bidders will be required to demonstrate that the granting of approvals for the scheme will be achieved
			C13.1	Bidders must submit proposals demonstrating compliance including a methodology for achieving planning approval accordance with paragraph 2.17 of Volume 1 of the ITPD. This should include the following: i. Community requirements; ii. Policy of the local planning authority; iii. Development Framework requirements; and iv. "Good neighbourliness".	
			C13.2	Bidders are required to (in conjunction with the Board) participate in planning consultation meetings with the City of Edinburgh Council regarding planning requirements. From these consultations Bidders must submit evidence to demonstrate that the granting of approvals for the scheme will be achieved in the Preferred Bidder stage and confirm any perceived obstacles / project risks (both known and unknown) in this regard shall be clearly drawn to the Board's attention.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C14. Acceptable vertical and horizontal movement strategy	Pass / Fail	n/a		Bidders must submit proposals setting out their vertical and horizontal movement strategy. This must be provided as set out in C14.2 – C14.3 below.	
			C14.1	Bidders must submit proposals setting out a coherent strategy which shows how their design has been developed for managing different categories of traffic and materials within the Campus Site. This shall include the movement of people and vehicles and the distribution of supplies and waste and the separation of clean and contaminated traffic and materials during transportation, storage and at drop off points.	
			C14.2	Bidders must submit proposals setting out how their design has been developed to minimise travel time and distances for patients, staff, and material transmission of micro-organisms either through airborne or other means to support and segregate a natural flow of pedestrian and vehicular traffic.	
			C14.3	Bidders must submit proposals setting out how their design has been developed to include a strategy for the following: i. Wheelchair users, less able users and transportation of small children and babies that will use the Facilities;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				ii. Incorporation of fire fighting lift(s) to maintain evacuation use for the less able, small children and babies in an emergency situation; and iii. The route required by people and materials from the helipad, the RIE and the Facilities.	
C15. Acceptable ICT strategy and Bidders proposals, compliant with Board's requirements	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to a compliant ICT strategy. This must be provided as set out in C15.1 – C15.4 below.	
			C15.1	Bidders must submit proposals setting out their ICT strategy and demonstrating an understanding of the Board's requirements for information management and technology (M&T).	
			C15.2	Bidders must submit proposals setting out a detailed methodology demonstrating how it will ensure compliance with the Board's Construction Requirements, define clear interfaces of responsibility as necessary, and how they will take overall responsibility for the coherence and compatibility of systems such that they will operate to suit the Board's needs.	
			C15.3	Bidders must submit proposals setting out the number, location size and specification	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				of IT / communications rooms.	
			C15.4	Bidders must submit proposals setting out how the Board's routing, fire suppression, ventilation and connectivity to the RIE requirements has been specifically addressed.	
C16. Acceptable fire planning strategy	Pass / Fail	n/a		Bidders must submit proposals setting out their fire planning strategy. This must be provided as set out in C16.1 and C16.2 below.	
			C16.1	Bidders must submit proposals setting out their strategic fire strategy, demonstrating how the design will be developed to consider fire compartmentation and horizontal and vertical evacuation strategies.	
			C16.2	Bidders must submit proposals setting out how their fire planning strategy has been developed. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The implications on staff and users in the event of a fire; ii. A clear understanding of the policies and principles underlying fire safety in NHS premises, compliance with NHS	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				polices and principles and full agreement and coordination with Lothian and Borders Fire and Rescue Service, The CEC Council's Building Control Department and the Board's Fire Officer; iii. Compliance with: The Building (Scotland) Regulations 2004 and The Building (Scotland) Amendment Regulations 2011, SHTM 81 and SHTM 82; iv. How a Fire Engineering solution has been developed (if it has been proposed), to what extent it has been agreed with the regulatory authorities and how the Board will not be exposed to any additional risks (programme, quality or cost) should the solution need to be amended or abandoned during the course of the development and finalisation of proposals; v. Integration of their fire strategy with the fire strategy for the RIE Facilities to ensure they are compatible and operate in conjunction and how the fire strategy issues at the Link with the RIE Facilities are to be addressed; vi. Details of external and internal access and circulation routes, including a safety and security statement for each element of the scheme with particular reference to the different patient types	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				using the Facilities; and vii. Details of how the particular issues in the surrounding areas of high fire risk such as the helicopter landing pad are to be addressed.	
C17. Acceptable structural design proposals	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to structural design. This must be provided as set out in C17.1 - C17.3 below.	
			C17.1	Bidders must submit proposals setting out a statement of the structural design philosophy which shall demonstrate how their design has been developed including a methodology for ensuring a safe, aesthetically pleasing and durable structure.	
			C17.2	Bidders must submit proposals relating to the following elements: i. Substructure; ii. Structural frame solution, including grid arrangements; iii. Ground, suspended floor slab and roof construction; iv. External wall and internal partition construction; v. Fire protection strategy and proposed methods to be adopted ; and vi. Methods for dealing with floor penetrations both during new build	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				works and to accommodate future potential needs.	
			C17.3	Bidders must submit the following: i. A schedule and/or drawings demonstrating the dead and imposed loading design criteria (both uniformly distributed and concentrated loads) adopted for all areas of the Facilities; ii. Specification of construction and materials to be utilised in the hard external works e.g. roads, pavements etc.; iii. Details of their proposals for co-ordinating structure with space requirements and distribution of services taking into account maintenance and replacement during the operational life of the buildings; iv. Details of opportunities for the future expansion of Clinical Services and Non-Clinical Services. The Bidders shall ensure that the physical arrangement of the Facilities allows for growth and change of clinical services in the future, as far as is practical for example partition moves and additional service runs both vertically and horizontally. The cost implications of structural solutions to future proof the Facility by creating 'soft spots' (refer also to C5 above) shall also be	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				included; and v. A detailed description of the design of the drainage system, taking into account matters such as the design itself, allowable discharge into the public sewers, the need or otherwise for surface water attenuation and the incorporation of drainage to existing buildings within the site drainage proposals.	
C18. Acceptable services, utilities and infrastructure proposals	Pass / Fail	n/a	C18.1	Bidders must submit proposals setting out their mains service infrastructure strategy for the site, and defines principal service routes external to the buildings. This shall also demonstrate adequacies of capacities including details of these provided by Utility providers.	
C19. Acceptable approach to achieving required BREEAM rating	Pass / Fail	n/a	C19.1	Bidders must submit proposals setting out their approach to achieving the required BREEAM rating. This must be provided as set out in C19.1 and C19.2 below. Bidders must submit a draft BREEAM assessment of their proposals with supporting commentary. Bidders shall demonstrate how they will achieve, as a minimum, a “Very Good” rating in line with the requirements for healthcare facilities as	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				set out in the BREEAM Scheme Document for New Construction (SD5073) 2011.	
			C19.2	Where assumptions with respect to certain elements within these assessments have to be made (i.e. such details that would ordinarily be developed during the Preferred Bidder or post Financial Close period) the basis for these assumptions, including substantiation, must be set out in the Bidders proposals.	
C20. Acceptable post Preferred Bidder stage design development proposals and design programme	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to design development and design programme. This must be provided as set out in C20.1 and C20.2 below.	To Pass, Bidders will be required to demonstrate clear proposals setting out a robust process, supported with a logical and deliverable programme, for the development process both up to, and beyond, Financial Close.
			C20.1	Bidders must submit proposals setting out their approach to be adopted to manage the design process (taking account of the design review procedures to be implemented). For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Further development of 1:500, 1:200 and 1:50 design drawings and other design details and how these will be developed in conjunction with the Board's project team, user groups, specialist advisers and other project	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				stakeholders, to achieve sign off to the proposals; ii. Further development of the specifications and engineering related drawings and how these will be developed in conjunction with the Board's project team to achieve sign off of the proposals; iii. The anticipated level of involvement that the Board will have in the design development process, and the number of main design iterations anticipated; iv. Outline proposals for change control, confirmation of technical queries and other design related management tools; and v. Further development of interior design proposals to the satisfaction of the Board incorporating patient groups.	
			C20.2	Bidders must submit a design programme to Financial Close and thereafter to design completion. This shall: i. Show the proposed programme for the development of the design drawings and specifications (supplemented by samples and models as appropriate) and other technical schedules to the NPD Project Agreement; ii. Clearly indicate the expected number of design drawings and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				specifications; iii. Clearly define periods allowed for the Board's consideration of proposals; and *iv.* Demonstrate how and when sign off of the Board's Construction Requirements will be achieved in this period by the Preferred Bidder, and how this sign off relates to development and sign off of Project Co Proposals.	
C21. Compliance with Board's Construction Requirements	Pass / Fail	n/a	C21.1	Bidders must confirm their compliance with the Board's Construction Requirements. If as their design has been developed there are specific areas of the Board's Construction Requirements that Bidders would seek to change, these shall be scheduled and provided in support of the statement. The Board shall not be required to accept any proposed amendments.	
C22. Acceptable design life proposals	Pass / Fail	n/a	C22.1	Bidders must submit a schedule of design life proposals against the elements listed in section 5.1 (Schedule of Life Expectancies) of the Board's Construction Requirements.	
C23. Acceptable construction	Pass / Fail	n/a		Bidders must submit proposals setting out their construction programme and approach	To Pass, Bidders will be required to demonstrate a

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
programme and approach to monitoring				to monitoring. This must be provided as set out in C23.1 and C23.2 below.	logical and deliverable construction programme supported with a robust process for programme management.
			C23.1	Bidders must submit a high level programme, for the Works, comprising a network and linked bar chart programme covering all of the main and key elements of design, construction, testing, commissioning and completion and covering the period from Financial Close to Post Completion Commissioning. The programme must include as a minimum, the following information: i. Sequencing of activities showing logic links, restraints and constraints; ii. Key activity durations; iii. Critical paths, including the identification of critical dependencies of activities and float; iv. Key and other target milestones; v. Planning approval, and other statutory consents; and vi. Proposed Relevant Service Transfer Dates.	
			C23.2	Bidders shall submit proposals setting out how they shall manage and monitor the programme, including their approach to minimising the effects of delays and unforeseen circumstances.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C24. Clarity, robustness and quality of construction methodology	Scored	1.85		Bidders must submit their construction methodology proposals. This must be provided as set out in C24.1 - C24.10 below.	
			C24.1	Bidders must submit proposals setting out in sufficient detail how they will deliver the development including their construction strategy, proposals and method statements. Bidders shall address in detail how the Works phase of the project will be managed including a methodology covering day to day management.	
			C24.2	Bidders must submit proposals setting out in sufficient detail how they shall mitigate the egress of water, dust, debris or any microbiological contamination out of the Site and into adjacent buildings i.e. how they will ensure they are a considerate contractor.	
			C24.3	Bidders must submit proposals setting out in sufficient detail how they will follow the provisions of Sections 60 and 61 of the Control of Pollution Act 1974, with reference to the control of noise due to any demolition or construction works in particular for works adjacent to an occupied property i.e. RIE and other occupiers of the wider estate.	
			C24.4	Bidders must submit proposals setting out in	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				sufficient detail how they will not only adhere to legal obligations but how they will ensure that "at all times the requirements and reasonable wishes and safety of the immediate neighbours to the Campus Site (including the Royal Infirmary of Edinburgh, Little France site) are respected" with particular consideration to key locations such as A&E and operating theatres.	
			C24.5	Bidders must submit proposals to set out in sufficient detail how they will ensure that they will integrate with and not inhibit the RIE pedestrian, vehicular, cycle, service vehicular and emergency vehicular movements, access routes and parking during construction and during operation of the Facilities. The submission must set out how they will ensure site safety at all times.	
			C24.6	Bidders must submit proposals, in sufficient detail, setting out how continuity of utility supplies and operational continuity of the immediate neighbours is to be maintained at all times. The Bidders submission shall also provide outage protocols in case these safeguards fail to protect the neighbours	
			C24.7	Bidders must submit proposals, in sufficient detail, setting out a detailed methodology demonstrating their proposals for the safe and compliant disposal of surplus excavated	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				material, all building spoil, demolition waste and rubbish.	
			C24.8	Bidders must submit proposals of their site office set up. This shall describe in particular how they are to be serviced and how safe access and egress will be provided.	
			C24.9	Bidders must submit proposals setting out in sufficient detail their approach to storage of materials. This shall describe in particular how materials will be delivered to, stored, and then transferred to the Site for incorporation in the Works.	
			C24.10	Bidders must submit proposals setting out in sufficient detail their construction phasing and access methodology which shall demonstrate how the proposals have been developed to address the Site constraints and interfaces with the wider site. Bidders must include their proposals for creation of a temporary construction access over the Yellow Area (as shown on Plan 2). Bidders must submit details of location of access and methodology for its construction. This will form part of the management procedures for the Works as regards satisfying town planning matters as detailed in the ITPD. Further details are set out in paragraph 1 (Construction Access over	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Yellow Area) of Section 1 of Part 1 of Appendix A of the Board's Construction Requirements.	
C25. Acceptable approach to commissioning and handover	Pass / Fail	n/a	C25.1	Bidders must submit proposals setting out a commissioning programme, supported by a methodology demonstrating how this will be developed and agreed in conjunction with the Board. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) how they will provide the following: i. Management of interfaces with the Board and the Board's contractors and other parties e.g. Consort for the Link Building and obtaining such other parties consents\approvals as required; ii. How they will carry out commissioning activities both before and after the Actual Completion Date; iii. Access for the Board during the Works including access for equipment installation (Groups 2A, 2B and 3) and the Board's Contractors; iv. A "zero defects" culture in order to deliver the scheme with few or no snagging items at the Actual Completion Date. Bidders shall outline a contingency plan for	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				investigating and rectifying any defects which could still occur despite all best endeavours of the Project Co. In addition proposals should be submitted outlining how snagging items will be closed out after the Actual Completion Date; v. Facilities handover including how they shall interface and assist the Board with their decanting, familiarisation and training for the Facilities and proposals on how they shall work closely with the Board in developing an occupation plan; vi. Facilities which are "Clinically Clean" to the satisfaction of the Board's Head of Service Infection Control. Bidders shall demonstrate within their response: ▪ How they propose to interface with the Board's Head of Service Infection Control to agree the process and standards required to achieve the appropriate level of clinical cleanliness for each location within the Facilities; ▪ How this will be managed in terms of the sign–off of the Facility and handover process; ▪ How this will conform with HAI Scribe; and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				▪ Details of any specialist contractors that may be used as part of this process.	
C26. Acceptable approach to quality and environmental management systems	Pass / Fail	n/a	C26.1	Bidders must submit proposals setting out their approach to construction quality and environmental management systems. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Confirmation that they will complete the Works in accordance with the requirements of BS EN ISO 9001 and 14001or any equivalent standard; ii. Details of proposed quality assurance and environmental management systems (i.e. a system synopsis); iii. Details of their approach to developing the quality and environmental management systems, including key dates; iv. Where individual quality and environmental management systems of the designers, contractor, service provider and Project Co are to be used, a statement regarding how these separate systems will be integrated to form a coherent overall quality management system. For the avoidance of doubt, the Board requires Project Co (in addition to their	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				sub-contractors) to adopt and implement a compliant system; v. Details of their approach for monitoring quality during construction (this may be by reference to a similar system implemented on a similar scheme); i.e. compliance with current revisions of BS 8000: Series “Workmanship on Building Sites, BS 5606:1990 “Guide to Accuracy in Building”. and other activities based on Good Industry Practice current at the time, as a minimum; vi. Details of their approach for auditing the quality and environmental management systems. This shall include details of the independent, internal and external audits of Project Co and its sub-contractors; and vii. A description of how the proposed systems will integrate with their strategies for risk mitigation.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C27. Acceptable approach to health and safety management	Pass / Fail	n/a	C27.1	Bidders must submit proposals setting out their health and safety management system. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Confirmation that they will adopt and implement an accredited health and safety management system complying with the requirements of OHAS ISO 18001. For the avoidance of doubt the Board requires that Project-Co adopt and implement a compliant system; ii. Details of all proposed designers, sub-contractors, and suppliers confirming that they operate and accredited health and safety management system complying with OHAS 18001 standards covering all aspects of the project as applicable. Copies of current certificates from an accredited third-party assessment body showing that systems are compliant should be provided; iii. Details of the approach for auditing designers, contractors, sub-contractors and suppliers of their health and safety management systems. This should include details	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				of internal, external and independent audits of Project-Co; iv. Proposals for managing occupational health that will be implemented; v. Key dates for development of the system; vi. Safety in design and how Bidders have removed risks through design innovations; vii. Potential constraints on their Works activities when considering the health and safety of their immediate neighbours and other members of the public that may be affected by the Works. This shall include construction traffic management plan within the Campus at Little France and restrictions on the movement of water, dust, vibration, noise and micro-organisms; viii. How any risks to health and safety will be managed and mitigated throughout the Works; ix. How they plan to deal with the potential occurrence of below ground services crossing the Site, in addition to the removal of other below ground obstructions that may still be present from previous demolition works; x. Methodology for the use of	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				overhead cranes; xi. The removal of waste material; xii. Compliance with HAI Scribe; xiii. Storage, transportation and handling of gas cylinders (for construction use); and *xiv.* How their proposals facilitate the control and management of an outbreak and spread of infectious diseases in accordance with HTM 2025 and SHFN 30.	
C28. Acceptable approach to compliance with CDM regulations	Pass / Fail	n/a	C28.1	Bidders must submit proposals setting out their approach to achieving compliance with the CDM regulations. This must be provided as set out in C28.1 and C28.2 below. Bidders must submit proposals setting out how they will comply with the requirements of the Construction (Design and Management) Regulations 2007. Particular reference shall be made to Project Co's role as Client, in addition to proposals to cover discharging the duties of CDM Coordinator, Designer and Principal Contractor under the Regulations. Bidders shall also include the methodology to demonstrate how they will deal with potential commercial and other conflicts between their constituent parts with respect to compliance with the Regulations and shall provide the following:	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				i. A competency submission for the individual who will be leading the role of CDM co-ordinator, in accordance with CDM ACOP L144 “Managing Health and Safety in Construction”; ii. A Health and Safety document to identify how the requirements of Appendix 4 of the ACOP L144 “Managing Health and Safety in Construction” will be applied on the project; iii. The format of the Pre- Construction Information relating to the project to address the requirements of Appendix 2 of the CDM ACOP L144 “Managing Health and Safety in Construction”; iv. The contents and structure of the Construction Phase Plan relating to the project to address the requirements of Appendix 3 of the CDM ACOP L144 “Managing Health and Safety in Construction”; v. Details of the induction process to address the requirements of section 184 and 185 of the CDM ACOP L144 “Managing Health and Safety in Construction”; vi. The format to be used for the Health and Safety File to address the requirements of section 263 of the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				CDM ACOP L144 “Managing Health and Safety in Construction”; and vii. Details of the process for managing health and safety in Design including hazard elimination and risk reduction, principles of prevention, provision of information and management of the Design process as required by the CDM ACOP L144 “Managing Health and Safety in Construction”.	
			C28.2	Bidders must submit proposals setting out how they have complied with the CDM duties during the Dialogue Period and provide a design risk assessment which is to be updated as the design is progressed.	
C29. Robustness of technical costs	Pass / Fail	n/a	C29.1	Bidders must submit fully completed technical cost proformas contained in the ITPD. All information requested must be provided. Bidders’ completed proformas shall be provided in the same MS Excel format to allow direct comparison between bids.	To Pass, Bidders will be required to demonstrate that their technical costs are robust for the scope of works to be delivered.
C30. Acceptable list of summary assumptions, clarifications and derogations	Not Scored	n/a	C30.1	Bidders must submit a consolidated schedule of all assumptions, clarifications and qualifications made in respect of their ITPD Bids. Whilst it is encouraged that such references are also made in the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				appropriate locations throughout Bidders' submissions, it is a mandatory requirement of the ITPD Submission that all such matters are also summarised in a single location.	
C31. Acceptable Interface Proposals	Pass / Fail	n/a	C31.1	Bidders must submit proposals setting out their approach to meeting the interface issues as described in Appendix A of the Board's Construction Requirements (subject to the conditions set out in Clause 9 (Nature of Land Interests) including without limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement).	

Appendix AP1.1 – Design Deliverables

Appendix AP1.1	**Design Deliverables** Bidders shall provide the following design submission requirements (as given in the Volume 1 of the ITPD): **1. Project Overview** 1.1 - Bid Drawings Schedule **2. Approach to Design & Construction - Architectural & Landscaping Design** 2.1 - Architectural Drawings Schedule 2.2 - Outline Architectural Specification supporting the design concept and setting out the proposed materials, finishes and components to be used. Outline Specification shall be included for all components as detailed in the BCIS Elemental Analysis 2.3 - Development Control Plan 2.4 - 1:1000 Site Plans 2.5 - 1:500 Location/Site Plan 2.6 - 1:200 Site Layouts 2.7 - Landscaping Proposal Specifications 2.8 - Landscaping Proposal Drawings 2..9 - 1:200 Architectural general arrangement floor plans, sections and elevations 2.10 - 1:500 Architectural departmental adjacencies 2.11 - 1:100 Architectural elevations including building elevation/facade showing appropriately rendered:-fenestration, exterior materials, louvers and cast shadows 2.12 - 1:100 Architectural sections denoting floor to ceiling heights, suspended ceilings, raised access floors and floor levels 2.13 - 1:100 Departmental and 1:50 room layouts 2.14 – 1:200 Architectural drawings detailing (I) movement strategy, (ii) user flow diagrams at all principal circulation locations, (iii) movement interfaces and (iv) analysis of key nodal points. 2.15 - 1:50 Architectural sections through Roof and Plant Room

2.16 - 1:100 Architectural proposals relative to the clinical requirements and infection control.

2.17 - 1:200 Architectural drawings in support of fire engineering proposals and how the proposals support the design concept and meet the requirements of the relevant code.

2.18 - DDA Proposals including drawings, analysis and proposals.

2.19 - AEDET assessment drawings

2.20 - 1:50 Architectural design response detailing interfaces with existing RIE

2.21 - 1:100 Architectural drawings and visualisations for the Pod proposals

2.22 – 1:50 Architectural elevations and visualisations showing the Entrances

3. Approach to Design & Construction - Interior Design Proposals

3.1 - Quality, appropriateness and proposals for RHSC interior design supported by architectural drawings of how the layout and the design proposed addresses:

3.1.1 - Signage

3.1.2 - Patient, communal and public areas

3.1.3 - Appropriateness of facilities for users

3.2 - Loaded 1:50 room layout drawings for the RHSC indicating interior design proposals and demonstrating the coordinating aspects of all design disciplines, including floors, walls, ceilings, façade ventilation, mechanical and electrical services.

3.3 - Quality, appropriateness and proposals for DCN interior design supported by architectural drawings of how the layout and the design proposed addresses:

3.3.1 - Signage

3.3.2 - Patient, communal and public areas

3.3.3 - Appropriateness of facilities for users

3.4 - Loaded 1:50 room layout drawings for the DCN indicating interior design proposals and demonstrating the coordinating aspects of all design disciplines, including floors, walls, ceilings, façade ventilation, mechanical and electrical services.

3.5 - Internal Perspectives at eye level that demonstrate form and setting of the key internal architectural areas,

	distinguishing or innovative features which demonstrate the design quality of the proposals 3.6 – Drawings and visualisations to demonstrate the integration of Artwork into the interior design concept. 3.7 – Sample boards to demonstrate the proposed interior finishes, colour and textures. Boards to include RHSC and DCN wards, the Pod, Atrium and CAMHS. **4. Approach to Design & Construction - Civil & Structural Proposals** 4.1 - Structural Drawings Schedule 4.2 - Civil Engineering Drawings Schedule 4.3 - Outline Structural Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as in accordance with the NBS Specification 4.4 - 1:500 Site plan layout indicating all manholes, gully positions for all site drainage 4.5 - 1:500 Site plan layout indicating all positions for surface water drainage 4.6 - 1:500 Site plan layout indicating all positions for foul water drainage 4.7 - 1:500 Site plan layout indicating all positions for water mains 4.8 - 1:500 Site plan layout indicating all positions for roads, footpaths and finished levels 4.9 - 1:100 structural general arrangement foundation plans 4.10 - 1:100 structural general arrangement plans including floor and roof plans indicating all column and beam locations and sizes and all structural elements 4.11 - 1:100 structural sections through the building showing structural elements and service zones 4.12 - Confirmation of Geotechnical surveys, reports, studies undertaken in addition to the Geotechnical survey in the data room 4.13 - Confirmation of other site surveys, reports, studies undertaken in addition to the information already located in the data room 4.14 - Confirmation of any vibration monitoring / prevention proposals. 4.15 - 1:100 drawings for Helipad 4.16 - Outline Structural Specification supporting the Helipad design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification

	5. **Mechanical & Electrical Services** 5.1 - Building services (mechanical) drawings schedule 5.2 - Building services (electrical) drawings schedule 5.3 - Outline Building services (mechanical) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification 5.4 - Outline Building services (electrical) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification 5.5 - 1:500 site plan layout indicating all mechanical services , utilities supplies, natural gas mains, water supply and fire mains 5.6 - 1:500 site plan layout indicating all electrical utilities supplies, electrical mains, data and communications ducts 5.7 - 1:200 internal services concept schematic and zoning plans for both heating and ventilation; indicating of heating and ventilation in each room 5.8 - 1:100 mechanical general arrangement floor plans showing extent of services, distribution routes, mechanical plant acoustic treatment, plant areas, etc 5.9 - Mechanical schematic layouts and report (co-ordinated and consistent with all drawings and design information contained within the Bid Submission Requirements) denoting details and extent of proposed : 5.9.1 - Plant strategy 5.9.2 - Distribution strategy 5.9.3 - Incoming gas and water services (including metering and sub-metering) 5.9.4 - Environmental design considerations 5.9.5 - Heat sources 5.9.6 - Natural Ventilation strategy 5.9.7 - Mechanical Ventilation strategy 5.9.8 - Mechanical cooling 5.9.9 - Mechanical air conditioning

	5.9.10 - Specialist ventilation strategy 5.9.11 - Domestic hot and cold water system 5.9.12 - Space Heating System 5.9.13 - Space Cooling System 5.9.14 - Building Energy and Management System 5.9.15 - Dry Risers 5.9.16 - Soil and Waste System (above and underground) 5.9.17 - Rainwater pipework and distribution 5.9.18 - Specialist drainage 5.9.19 - Sanitary ware and appliances 5.9.20 - Dry Risers 5.9.21 - Natural Gas Installations including Laboratory Gases 5.9.22 - Medical Gas Installations 5.9.23 – Pneumatic Tube System 5.9.24 - Mechanical Commissioning Strategy 5.10 - 1:100 electrical general arrangement floor plans showing extent of services, distribution routes, plant areas, etc 5.11 - Electrical schematic layouts and report (co-ordinated and consistent with all drawings and design information contained within the Bid Submission Requirements) denoting details and extent of proposed: 5.11.1 - Incoming electrical services 5.11.2 – Metering and Sub-metering 5.11.3 - Mains distribution including standby generation facilities 5.11.4 - Earthing, Bonding and Lightning protection 5.11.5 - Containment systems 5.11.6 - Small power installation 5.11.7 – Lighting and Emergency Lighting

	5.11.8 - Specialist lighting 5.11.9 - Lighting control systems 5.11.10 - Uninterruptible Power Supplies 5.11.11 - Telecommunications and I.T. 5.11.12 - Nurse Call System 5.11.13 - Fire Detection and Suppression System 5.11.14 - Staff Attack / Induction Loop 5.11.15 - Security system 5.11.16 - Access Control system 5.11.17 - CCTV system 5.11.18 - Public address system 5.11.19 - Digital TV and Radio Installation 5.11.20 – Patient / Equipment Tagging 5.11.21 – Induction Loop 5.11.22 – Bedhead Services 5.11.23 - Electrical Commissioning Strategy 5.12 - 1:50 mechanical and electrical services sections to illustrate use of ceilings, natural daylight, ventilation strategies, cooling and heating strategies, lighting strategy, acoustic strategy, specialist installations strategy, services concept **6. Lift Provisions** 6.1 - Lift and Escalator Drawings Schedule 6.2 - Outline Building Services (lift and escalator provision) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification. Traffic flow analysis to be included. **7. Environmental Services and Energy Management Strategy**

	7.1 - Natural Ventilation drawings and proposals **8. Fire Strategy** 8.1 - 1:100 Fire Strategy drawings in support of fire engineering proposals and how the proposals support the design concept and meet the requirements of the relevant code. 8.2 - Outline Fire Strategy Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification **9. Security Strategy** 9.1- 1:100 Security drawings in support of security strategy and how the security proposals support the design concept 9.2 - Outline Security Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification **10. Acoustic Strategy** 10.1 - Outline Acoustic Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification **11. Adaptability, Flexibility and Expandability Strategy** 11.1 - Architectural adaptability drawings in support of the overall adaptability strategy. 11.2 - Strategy and drawings showing how the design of the new RHSC and DCN demonstrates innovation, flexibility, consideration of whole life design and is capable of absorbing reasonable change in the future without excessive public, patient or clinical disruption.

AP1.2	**Specifications** Bidders shall provide specific details on their proposed suite of specifications for the Works. These details shall include, but not be limited to the following: i. The industry recognised specifications proposed, with specific commentary on the extent of application of those to each main discipline (civil / structural, M&E, architectural etc); ii. Inclusion of either Project specific specifications for each main discipline, or example specifications used on other projects that are representative of the level of detail and clearly demonstrate the proposed level of quality that will apply to this scheme: and iii. A statement confirming that all such specifications (including fully completed framework specifications) will be fully drafted by the Preferred Bidder prior to Financial Close. For the avoidance of doubt, the Board is expecting Bidders to adopt both general, and where required, specific specifications to cover all components, materials, workmanship etc. For example the NBS framework could be utilised for mainstream building elements, however may need to be supplemented by specific standards and specifications relevant to particular Bidder proposals (e.g. piling, steelwork erection, infrastructure works).

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
D. Approach to Facilities Management					
D1. Clarity, robustness and quality of approach to management and administration of the Services and Contract	Scored	2.50	D1.1	Bidders must submit proposals setting out their proposed approach to managing and administering both the Services and the NPD Project Agreement itself. The Bidder is also required to provide a detailed proposal for the management, liaison and interfacing with the Board and the other Board service providers, these being Authority Parties. The importance to the Board of a holistic approach to the delivery of Services under the NPD Project Agreement cannot be overstated. The success of this will be dependent upon the quality of the general management of the Project. Bidders must submit the following: i. Full Method Statements for the management and administration of the Project Agreement and Services contained therein; ii. Location of the members of Project Co's administration team (i.e. on or off site); iii. Details of Bidder's proposed managerial structure, indicating the roles and responsibilities of each manager, supervisor and team member; iv. Details of how material changes to the management structure of Project Co will be	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				communicated to the Board; v. Details of how changes to working practices and / or Service delivery timings will be communicated to the Board; and vi. Details of how it is proposed to electronically manage Services management and administration to improve delivery.	
D2. Acceptable approach to integration with Board policies and operation	Pass / Fail	n/a	D2.1	Bidders must submit proposals setting out how they will comply, integrate and align their methodologies with the Board's policies, operation and procedures for the delivery of Services to the Facilities. This must include the following: i. Details of how it will ensure that the Services are delivered in accordance with the requirements of the Health planning Standards/NHS Requirements as detailed within paragraph 2.3 of Volume 3 of the ITPD.	
D3. Acceptable approach to ensuring quality management	Pass / Fail	n/a	D3.1	Bidders must submit proposals setting out their Method Statements for quality management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Description of any quality management systems or policies the Bidder has for the Services or would put in place for the Services; ii. Interface with the Board's Quality	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Assurance representatives iii. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate; iv. Proposals for carrying out audits, including the provision of their proposed audit programme for the Services; and v. Details of the Bidder's proposals for the escalation of activities following a major incident including interface with the Board.	
D4. Acceptable approach to ensuring environmental management	Pass / Fail	n/a	D4.1	Bidders must submit proposals setting out their Method Statements for environmental management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Interface with the client's environment representatives; ii. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate; iii. Details of their approach to ISO 14001 and shall describe any relevant experience of implementing such systems for other local authority or NHS clients of the Bidder; iv. Bidder's environmental policy statement, and shall state explicitly whether they have, or	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				are working towards developing an environmental strategy; v. Bidder's environmental management system, for their own organisation and/or for this project; vi. Structure of the environmental management system; vii. Details of the Bidder's approach and commitment to use of ethical and sustainable materials; viii. Proposals for carrying out audits, including the provision of an indicative audit programme for the Services; and ix. Details of the Bidder's proposals for the escalation of activities following a major incident, including interface with the Board.	
D5. Acceptable approach to ensuring health and safety management	Pass / Fail	n/a	D5.1	Bidders must submit proposals setting out their Method Statements for health and safety management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Procedure for disseminating hazard and safety warnings; ii. Methodology for the development and maintenance of the health and safety system relevant to the Services; iii. Interface with the Board's health and safety representatives; iv. Process for maintaining effective overall control of all site activities and the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				coordination of and liaison with all staff such that there are suitable integrated arrangements to allow compliance with the Health and Safety at Work Act 1974; v. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate: vi. Process to ensure constant access to health and safety professionals for both its own staff and the Board's nominated representatives; vii. Develop bespoke risk assessments recognising the services being delivered at the RIE and University on the wider Campus. viii. A copy of the Bidder's Health and Safety policy and a description of their approach to ISO 9001 and ISO 18001 or similar systems; ix. Proposals for carrying out audits, including the provision of an indicative audit programme for the Services; and x. Details of their proposals for the escalation of activities following a major incident including interface with the Board.	
D6. Acceptable approach to interfacing with the Board for undertaking	Pass / Fail	n/a	D6.1	Bidders must submit proposals setting out their approach to interfacing with the Board for undertaking works outside of access times. This must include the following: i. How they will ensure that any Works and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
works outside of access times				Services proposed to be undertaken outside agreed Access Times are agreed with the Board's Representative prior to commencement; and ii. How Works and Services will be managed and carried out in accordance with Permit to Work System.	
D7. Clarity, robustness and quality of approach to partnership and resources including liaison, resources and supply chain management	Scored	2.50		Bidders must submit proposals setting out their approach to partnership and resources including liaison, resources and supply chain management. This must be provided as set out in D7.1 – D7.3 below.	
			D7.1	Bidders must submit proposals setting out their approach to communications with the Board or its representatives. This shall include their proposed appropriate interfaces, frequency, nature and structure of meetings and reporting.	
			D7.2	Bidders must submit proposals setting out: i. Details of storage, maintenance and disposal of plant, equipment, materials, consumables, packaging and chemicals used in the delivery of the Services; ii. Details of suitably qualified staff and availability to meet the requirements of this NPD Project Agreement.	
			D7.3	Bidders must submit proposals setting out: i. Details of how the supply chain will be managed;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				ii. Proposed approach to delivery of Services through the supply chain; iii. Method of creating a successful integrated Services team.	
D8. Acceptable approach to business continuity planning	Pass / Fail	n/a	D8.1	Bidders must submit proposals setting out their approach to business continuity planning. This must include the following: i. Details of its approach to business continuity planning including: a. Its approach to the creation and maintenance of its own business continuity plan and disaster recovery plans for the required Services; b. The proposed approach to supporting the Board's "Business Continuity; and c. Details of who within the management team will have overall responsibility for business continuity. ii. Details of its proposed training procedures for staff who will participate in emergency procedures; iii. Details of its proposals for testing Business Continuity Plans at the property; iv. Details of its proposals for the escalation of activities following a major incident (and\ or at the request of the Board); v. Details of its own, internal Business Continuity (e.g. those plans related to its own survival as a business following a major incident); and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				vi. Details of the existing arrangements for testing its own, internal Business Continuity Plans.	
D9. Acceptable fire safety policies and procedures	Pass / Fail	n/a	D9.1	Bidders must submit proposals setting out their approach to fire safety policies and procedure. This must include the following: i. Details of its fire safety policy ii. Details of fire safety and security systems and procedures to be implemented on site including their approach to the Helipad. iii. Approach to ensuring an integrated fire safety strategy for the overall site, including appropriate interfaces with the Board and other Third Party organisations i.e. Authority Parties.	
D10. Clarity, robustness and quality of approach to performance and information management including; helpdesk, programme maintenance lifecycle, performance monitoring,	Scored	4.50	D10.1	Bidders must submit proposals setting out their approach to performance and information management, This must be provided as set out in D10.1 – D10.8 below. Bidders must submit proposals setting out details of their proposed computer-aided facilities management (CAFM) system and how they will provide an asset management and reporting capability. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Call receipt and management and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
monitoring and records, regular reports and information requests, building services and statutory testing				escalation; ii. Management information; iii. Reporting; iv. Incident management; v. Alarm management; vi. Maintenance scheduling; vii. Asset data maintenance; viii. Helpdesk interface protocol with the Board and/or third party's; ix. Proposed staffing and location of the helpdesk; x. Interface between the helpdesk and other aspects of the CAFM system; xi. Reporting procedures and frequency of reporting; and xii. Enabling the Board to gain access to the data held within the BMS in a format/ method agreeable to the Board.	
			D10.2	Bidders must submit proposals setting out their approach to programme maintenance lifecycle. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The information and delivery strategy which will be utilised in establishing a Programmed Maintenance planner; ii. Confirmation that the Bidder recognises that certain works will need to be undertaken out of normal working hours/ during the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				weekends to minimise the impact on the Board's operations, and without additional cost to the Board; iii. Method of establishing and updating their 5-year Maintenance Lifecycle plan; iv. Details on the provision of all specialist sub-contractors for programmed maintenance and lifecycle; v. Details of how it will ensure that the delivery of all Services will underpin the required hygienic/infection control standards for the facility, specifically compliance with HAI Scribe standards; vi. Details on staffing and management of the Service; vii. Details on how planned, reactive and statutory works are to be monitored for both quality and safe methods of work. This should include works that are undertaken by directly employed staff and any sub-contractors; viii. Details of proposals to assess staff roles and responsibilities, skill requirements, competency, training arrangements and review procedures; ix. Details on its approach to planned, reactive and statutory maintenance including prioritising business critical equipment and systems at all premises together with details on how any planned maintenance that is not achieved by the planned date is addressed; x. Sample of proposed Service Report to be used for this Contract;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				xi. Details on interface with Board's cleaning service when carrying out Programmed Maintenance; xii. Schedule for cleaning of all internal and external panes of glazed areas of the Facilities envelope; and Schedule of planned external façade cleaning service.	
			D10.3	Bidders must submit proposals setting out details of their proposed delivery strategy and key activities. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following service areas: i. Mechanical maintenance ii. Electrical maintenance iii. Plumbing iv. Lift maintenance v. Fire safety system/ equipment vi. Internal / external fabric of the Facilities vii. Periodic electrical testing and inspections viii. Lift inspections ix. Pressure vessel x. Pressure systems (written schemes) xi. Water systems risk assessments xii. Fire risk assessments xiii. Water sampling / testing	
			D10.4	Bidders must submit proposals setting out their approach to performance monitoring. This must include the following: i. Description of how the performance of the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Service will be self-monitored; ii. Approach to customer feedback and complaints handling; iii. Sample customer feedback form.	
			D10.5	Bidders must submit proposals setting out their approach to monitoring and records. This must include the following: i. Details on how the Bidder will ensure all certificates, appropriate documentation and records in relation to the Project are stored in accordance with appropriate legislation and the Board's policies; and ii. Details on how the Bidder will ensure all records in relation to the Project are maintained accurately and kept up-to-date.	
			D10.6	Bidders must submit proposals setting out their approach to regular reporting and information request. This must include the following: i. Procedures for ensuring that the reports are appropriately tailored to the Boards requirements, including the completion period for such reports; ii. Details on how it will ensure that reports are accurate and produced in line with agreed timescales; iii. Details of the types of reports that they are currently producing for other clients.	
			D10.7	Bidders must submit proposals setting out their approach to building services. This must include	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the following: i. Approach to commissioning new Plant and Equipment; ii. Details on how hardware and software licenses will be kept up to date; iii. Details on how to ensure all Equipment/ Assets used in the delivery of the Services are maintained properly and safe to use.	
			D10.8	Bidders must submit proposals setting out their approach to statutory testing.	
D11. Acceptable approach to un-programmed maintenance	Pass / Fail	n/a	D11.1	Bidders must submit proposals setting out their approach to Un-programmed Maintenance Works. This must include the following: i. Meeting the relevant Rectification Period; and ii. Meeting the standards required.	
D12. Clarity, robustness and quality of approach to service elements including; utilities management and grounds maintenance services	Scored	2.50		Bidders must submit proposals setting out their approach to service elements including utilities management and grounds maintenance. This must be provided as set out in D12.1 and D12.2 below.	
			D12.1	Bidders must submit a detailed methodology describing their approach to utilities management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Proposals to ensure an adequate continuous	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				supply of energy is available; ii. Proposals for interface with the Board to ensure no interruptions in the supply of Utilities to the Facilities; iii. Proposals for procurement of Utilities for the Board which demonstrate value for money; iv. Maintenance approach to ensure all external Utility infrastructures within the Site is fully functional; v. Method of monitoring Utilities/carbon consumption and how usage will be analysed and used; vi. Sample Utility consumption report; vii. Proposals for improving energy/ carbon efficiency; and viii. Details on Utility energy profile audit.	
			D12.2	Bidder must submit proposals setting out their approach to grounds maintenance. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Methodology for Grounds Maintenance Service and indicative programme for Planned Maintenance; and ii. Interface with third parties in ensuring a holistic approach to the safe use of the Campus access and egress routes.	
D13. Robustness of technical costs	Pass / Fail	n/a	D13.1	Bidders must submit fully completed technical cost proformas for the Services contained in the ITPD. All information requested must be	To Pass, Bidders will be required to demonstrate that their technical costs are robust for the scope of

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				provided. Bidders' completed proformas shall be provided in the same MS Excel format to allow direct comparison between bids.	works to be delivered.
D14. Acceptable list of summary assumptions, clarifications and derogations	Not Scored	n/a	D14.1	Bidders must submit a consolidated schedule of all assumptions, clarifications and qualifications made in respect of their ITPD Bids. Whilst it is encouraged that such references are also made in the appropriate locations throughout Bidders' submissions, it is a mandatory requirement of the ITPD Submission that all such matters are also summarised in a single location.	
D15. Acceptable approach to mobilisation of Facilities Management services	Pass / Fail	n/a	D15.1	Bidders must submit proposals setting out their approach to mobilisation of facilities management services. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. A draft mobilisation plan using MS Project showing the activities to be performed, interdependencies between activities, the allocation of resources and where Board input is required; ii. Details of their proposed structuring and resourcing for mobilisation. This should include the names and CVs of the proposed mobilisation management team, indicating relevant experience;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				iii. Details of proposed communications with the Board during mobilisation. This shall propose appropriate interfaces and the frequency, nature and structure of meetings and reporting; iv. Approach to recruitment of staff, including as appropriate relevant security clearances; v. Detailed proposals for the establishment of the Helpdesk service that clearly demonstrates an understanding of the operational and technical interfaces with Board Services; vi. Proposals for installation and population of the CAFM system describing (as applicable) how installation shall be effected and how data will be migrated and tested; and vii. Method of vetting staff and acquiring the necessary and appropriate security clearances.	

Annex 1 to Appendix A – Technical Cost Proforma

Design and Construction and FM Technical Cost Proforma.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Annex 2 to Appendix A – Design Deliverables Proforma

Re-provision of RHSC and DCN at Little France

Schedule of Design Deliverables for Technical Meetings during the Dialogue Period

Instructions to Bidders:

1. The design deliverables listed below are those scheduled in Section C (Appendix AP1.1 & AP1.2) of the Submission Requirements detailed in Appendix A (ii) of Volume 1 of the ITPD.

2. Bidders shall complete the table below to indicate what drawings they will submit at each Dialogue Meeting in support of the Submission Requirements. This is in addition to each disciplines drawing schedule.

3. All drawings must be submitted during the Dialogue Period prior to submission of the Draft Final Tender.

4. The Final Tender shall include the design deliverables developed to RIBA Plan of Work Stage D.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix B (i) – Financial Agenda Topics and Submission Requirements

1. Dialogue Meeting 1: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation for Financial Meeting 1	• Funding strategy • Approach to surpluses/buffers • Risk capital	A Submission covering the following topics: • intended funding strategy, addressing 11 and 12 in Financial Submission requirements below. • intended approach to surpluses/buffers, addressing 7 below; • approach to risk capital addressing 15 below.
Financial Meeting 1	• Funding strategy • Approach to surpluses/buffers • Risk capital	Presentation of Submission described above.

2. Dialogue Meeting 2: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation for Financial Meeting 2	• Hedging • Payment Mechanism • Funder commitment and diligence • Meeting updates	A Submission covering the following topics: • approach to hedging (18 below). • Bidder initial views of payment mechanism, addressing 21 below; • Level of funder commitment obtained to date, progress on due diligence and approach between now and close to these issues, addressing 17, 19 and 20 below; • Update on progress on areas discussed in Meeting 1, where relevant.
Financial Meeting 2	• Hedging • Payment mechanism • Funder commitment and diligence • Meeting 1 updates	Presentation of Submission described above

3. Dialogue Meeting 3: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation Financial Meeting 3	• Financial Model • Tax and accounting • Bid validity	A Submission covering the following topics: • The Financial Model, its structure and operation; • Key model inputs and assumptions; • Key model outputs, including presentation of initial

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

	• Databook • Sensitivities • Working capital •	Annual Service Payment to proposals and response to 1, 8 and 9 below: • Update as required on other areas.
Financial Meeting 3	• Outstanding issues	Presentation of Submission described above. Discussion of outstanding issues.

4. Dialogue Meeting 4: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation for Financial Meeting 4	• All other areas of Financial Submission	A Submission covering all remaining areas of Financial Submission not covered in previous meetings, addressing 2, 3, 4, 5, 6, 9, 10, 14, 16 and 22 below.
Financial Meeting 4	• All other areas of Financial Submission	Presentation of Submission described above.

5. Dialogue Meeting 5: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation for Financial Meeting 5	• Update on previous Submissions • Identification of areas requiring Dialogue prior to Draft Final Tender	A written update of any changes to previous Submissions. A schedule of areas requiring further Dialogue before Draft Final Tenders are invited.
Financial Meeting 5	• Update on previous Submissions • Identification of areas requiring Dialogue prior to Draft Final Tender	Presentation of Submission described above.

6. Dialogue Meeting 6: Agenda Topics and Submission Requirements

Meeting	Topics	Deliverable
Preparation for Financial Meeting 6	• Update on previous Submissions • Identification of areas requiring Dialogue prior to	A written update of any changes to previous Submissions. A schedule of areas requiring further Dialogue before Final Tender is invited. The Board will provide a schedule to Bidders setting out its view of these areas

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

	Final Tender	which Bidders should annotate, expand and amend as required.
Financial Meeting 6	• Update on previous Submissions • Identification of areas requiring Dialogue prior to Draft Final Tender	Presentation of Submission described above.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

In order to ensure comparability in Submissions received, Bidders are requested to provide the financial information outlined below and to cross reference this to their Submission documentation. If Bidders believe that certain information is not applicable this should be clearly indicated within their responses.

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
Financial Model Response				
1	The Bidder is required to submit a Financial Model which complies with the format requirements set out in section 3.9.2.	Required as part of Submission for Dialogue Meeting 3.	Required. Bidders should populate a Financial Model using standard terms as provided by the Board.	Required. Bidders should populate a Financial Model using actual terms provided by chosen funding providers.
2	The Bidder should provide confirmation that they are prepared to underwrite the tax and accounting adopted within the Financial Model	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.
3	Bidders should identify assumptions in relation to taxation including the following: • Bidders must specify the corporation tax rates assumed, including any marginal relief (if appropriate) and confirm that consideration has been given to changes to the standard rate of corporation tax included in the Finance Act 2011 and announcements in the 2012 Autumn Statement; • Bidders should specify the assumptions made in respect of the commencement and cessation of trade for tax purposes, including any tax relief assumed for pre-trading interest costs. • Bidders should specify the assumptions made in respect of deductibility or non-deductibility of revenue costs, including in respect of construction costs, transaction costs, such as bid costs, development costs, planning costs	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
	and legal fees; • Bidders are required to specify the assumptions made in respect of the tax treatment of capital expenditure, (including in respect of lifecycle costs and any intangible fixed assets) including amounts of expenditure allocated to the different capital allowance pools, amounts assumed to be non-qualifying for capital allowances, the rate of writing down allowance claimed and details of any capital allowances disclaimed; • Bidders are required to categorise taxable profits by type, such as trading profits, interest, and other non-trading profits or losses. The categories of taxable income should be appropriately ring-fenced (e.g. when carrying forward losses); • Bidders must specify any assumptions made in respect of the tax treatment of capitalised interest; • The application of transfer pricing legislation in the UK can have implications for PPP/PFI projects, particularly around the tax treatment of subordinated debt and corporate debt interest charges. Bidders should consider the implications of this aspect of corporation tax on their proposals and confirm that any such implications have been considered. • Bidders should consider the potential implications of the worldwide debt cap in respect of the deductibility of interest costs and confirm that any such implications have been taken into account in pricing the project. • Bidders should provide a statement setting out their assumptions in respect of the tax treatment of any other income or capital contributions received; • Bidders should provide a statement setting out any tax assumptions made concerning timing of

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
	payments of corporation tax. • Bidders should state the tax treatment of any surpluses • Bidders must make their own decisions as to whether or not to seek advanced tax clearance from HMRC for any aspect of the proposed treatment. If such clearance is sought, Bidders must attach the appropriate correspondence to their submission. If the Bidder is relying on an advanced clearance from HMRC, this will need to be provided before contract signature and Financial Close. • Bidders should identify fall back positions if the proposed treatment fails together with any other possible tax treatments that may be applicable to the contract. • Bidders are required to state any VAT assumptions made and the basis for these assumptions (including VAT implications in relation to land transactions where applicable). • Bidders should consider the implications of SDLT on their proposals. Any SDLT costs should be included within the Financial Model along with an accompanying statement explaining how it is calculated.			
4	• Bidders should/must obtain and submit a formal letter from their tax advisers or suitably qualified professional confirming that in their opinion the proposed tax treatment (including corporation tax, VAT and SDLT) is valid and that any required accounting treatments underpinning the tax treatment would be within the appropriate accounting standards. This opinion should set out the basis for the treatments adopted, and identify any risks associated with it.	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
5	• The Bidder should separately identify the funders' margin and MLA costs (or equivalent) in the Financial Model and any swap credit spreads or liquidity margins (or equivalent) they would expect to incur • The Bidder should confirm those elements of the overall interest rate that are fixed and those that are variable up to financial close • The Bidder should identify the protocol they will utilise in setting the underlying funding rate at financial close ensuring transparency and best value for The Board • All financing fees, including arrangement, commitment, agency and any other relevant fees should be separately identified and reflected in the Financial Model • Assumptions on deposit and overdraft rates should be explicitly stated.	Required as part of Submission for Dialogue Meeting 4 omitting those elements that are not relevant due to the use of standard terms.	Required omitting those elements that are not relevant due to the use of standard terms.	Required.
6	Bidders should confirm that they will maintain underlying construction, operating, FM and Project Co costs for a period of three months from the target Financial Close date with no adjustment for inflation. Bidders should confirm that only capital, lifecycle and facilities management costs will increase post-validity period and that they will use all reasonable endeavours to mitigate the impact of any cost increases post validity period. Bidders should specify which cost index or indices they require costs to be inflated in the post validity period. Note should be taken of the indexation regime that will be applied to Scottish Government support in relation to the construction cost cap set out in section 3.8.1.	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.
7	Bidders should set out their approach to the treatment of surpluses and cash	Required as part of	Required in detailed	Required in detailed form.

	delivery of the Project. The Bidder's response should set out how value for money will be secured between funding options and/or funding providers, at each phase of the procurement. Bidders should confirm acceptance of the position that The Board reserves the right to instruct a funding competition at any point during the procurement.		Bidder and Financial Close.	
12	Bidders should provide a statement confirming that they have not entered/will not enter into any exclusivity arrangements with funders.	Required as part of Submission for Dialogue Meeting 1.	Required.	Required.

13	The Bidder must submit the following information for each class of debt finance:
	• Identity of the funders
	• Type of facility offered
	• Amounts to be provided by each funder
	• Credit margins and similar charges
	• Explanation of the types of reserve account(s) and/or facility(ies) proposed and associated terms
	• Terms and conditions attaching to the debt including:
	  • Draw down schedule
	  • Repayment schedule and tenor and any average life covenants
	  • Security required including parent company guarantees, bonding, letters of credit, liquidated damages and liability caps.
	  • Interest rates and other fees
	  • Financial ratios and covenants (base case, distribution and default)explicitly stating the basis of the calculation
	  • Default clauses
	  • Conditions precedent.
	  • Extent to which the funds are committed
	• Confirmation that the margins and
		Not required.	Draft versions required, noting that the terms described should not be used in the Financial Model but provided for information only.	Required.

	charges detailed above are a full and complete list and no additional margins or charges not otherwise disclosed will apply.			
14	The Bidder should specify any working capital requirements and provide evidence as to how this is to be financed.	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.
15	The Bidder must submit the following information for each type of risk capital to be raised: • Identity of the investors • Amounts to be subscribed by each investor and the timing thereof • Minimum return requirement for each class of risk capital and the basis of any IRR calculations • Terms and conditions of the subscription including return requirements (shareholder agreement or detailed term sheet) • Coupon rights attaching to the subscription • Mezzanine interest rates • Terms and any other agreements between the Investors in their capacity as investors in the Project Co • Any other rights attaching to this subscription • An undertaking that no additional margins or charges will apply that have not already been disclosed and included in the Financial Model • The length of time each class of risk capital will remain in the project vehicle • The extent to which the funds are committed. •	Outline proposals required as part of Submission for Dialogue Meeting 1.	Required.	Required.
16	To the extent that other forms of finance other than those listed above are to be used, the Bidder must provide appropriate details equivalent to those requested for subordinated debt and	Required as part of Submission for Dialogue Meeting 4.	Required.	Required.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
	debt finance.			
17	The Bidder is required to produce the strongest form of commitment possible. The level of investor and Funder commitment should be demonstrated through the provision of: • board minutes or draft letters of support from the sponsor shareholders committing to subscribe subordinated debt on the terms identified above • letters of support from underwriting banks and financial institutions (if applicable) offering debt facilities on the terms identified above (to be accompanied by draft term sheets) • A clear statement on the level of approval process and timescale that will be required from the respective lending organisations should be made. • A letter from the Bidder's financial advisers stating that the proposed funding structure is realistic, achievable and deliverable and that the financing proposals are sufficient to enable the Project Co to meet its obligations under the NPD Project Agreement.	Required as part of Submission for Dialogue Meeting 2.	Required in final draft form.	Required in final form.
18	The Bidder must set out clearly its proposal in relation to any hedging arrangements required to support the project. The following details should be provided: • the manner in which the Bidder will address the risk of future movements on interest rates, including a full description of its interest rate hedging to be applied • the time period over which hedges are expected to be in place • details of any financial instruments that will be used to provide protection against interest rate movements and the cost/effect of such protection should be reflected in the Financial	Required as part of Submission for Dialogue Meeting 2.	Required.	Required.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Ref	Required Response	Submissions during Dialogue	Draft Final Tender Submission	Requirement at Final Tender
	Model • confirmation that the Project Co will bear all interest rate risk in respect of its borrowings once financial close is achieved • confirmation that the Bidder will bear all foreign exchange risk • the manner (if any) in which the Bidder will address the risk of future movements in the Retail Price Index (RPI). The Board does not expect that Bidder's funding solution will require the use of RPI hedging instruments. The interim Financial Model submission should clearly demonstrate the proportion of costs that are fixed, the proportion subject to inflation and the basis upon which the Bidder has set the proportion of Annual Service Payment that will be subject to inflation • confirmation of the acceptance of the principle of benchmarking of hedging instruments (including GICs where appropriate) at financial close.			
19	The Bidder should indicate the extent of the funder due diligence that has been carried out to date and that will be carried out prior to the appointment of a preferred bidder and the overall scope and timetable of funder due diligence up to financial close. In addition to the provider of senior debt, the response should cover due diligence required by any third party provider of subordinated debt funds.	Required as part of Submission for Dialogue Meeting 2.	Required.	Required.
20	A programme setting out the timescale for agreeing all matters relating to funding to financial close must be provided. Evidence must be provided that the proposed providers of finance to Project Co have accepted this timetable in principle and that adequate resource will be available to ensure the timetable is met.	Required as part of Submission for Dialogue Meeting 2.	Required.	Required.

Annex 1 to Appendix B– Financial Proformas

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix C - Legal Agenda Topics, Submission Requirements and Evaluation

Appendix C (i) – Legal Agenda Topics

1. Overview

It is the Board's intention that the core elements for discussion at the relevant Dialogue Meetings shall be as set out in the following legal agendas. However, the Board shall reserve the right to dovetail the legal agendas to address specific Bidder issues during the Dialogue Period.

2. Legal Agenda Topics

Meeting	Topics	Deliverable
Dialogue Meeting 1	Top 10 Key Issues in NPD Project Agreement	1. A list of up to 10 key commercial / contractual issues in relation to the NPD Project Agreement together with: • an explanation of each of the Bidders' issues and why Bidders do not believe the NPD Project Agreement addresses the relevant issue; and • where relevant, the Bidders' alternative proposal/s, explaining why the alternative proposal/s might be acceptable to the Board. 2. Any comments that Bidders may have in relation to the NPD Model requirements of the Board, including the NPD Articles of Association.
Dialogue Meeting 2	Project Agreement mark-up and contractual structure	1. Bidders are required to submit a detailed mark-up (in both clean and PDF comparison format) of the NPD Project Agreement (including all Schedules), together with a commentary in the form set out in Appendix C(ii) of Volume 1 of the ITPD. The detailed mark-up of the NPD Project Agreement and commentary should include: • an explanation of each of the Bidder's amendments s and why the Bidder does not believe the NPD Project Agreement addresses the relevant issue; and • where relevant, the Bidder's alternative proposal/s, explaining why the alternative proposal/s might be acceptable to the Board, • Details of any proposed caps and termination triggers, with such documentation being referred to as the "**NPD Project Agreement Submission"**. 2. In addition, the following documentation shall also require

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Meeting	Topics	Deliverable
		to be provided by Bidders: • Contractual matrix/diagram, showing clearly the relationships between the Bidder and its supply chain including funders and sub-contractors. The diagram should provide details of all collateral warranties, direct agreements and guarantees. Bidders should also be prepared to provide a presentation on its contractual structure; • Draft heads of terms for each of the Contractor, Services Provider and any relevant Key Sub-contractors. The Board will expect to see details such as caps in liability, liquidated damages and indemnities covered in these heads of terms; • Key terms of any proposed parent company guarantee; • Collateral Warranties to be provided to the Board together with key commercial terms; • Step-in and direct agreements together with key commercial terms; • Any proposed amendments to the Articles of Association, with such documentation being referred to as the "**Additional Documentation Submission"**. 3. Bidders should bear in mind the Board's expectations of minimal derogations to the NPD Project Agreement and be mindful of the Board's requirement to obtain SFT approval of any derogations pursuant to paragraph 3.5 (Derogation Procedure) of Volume 1 of the ITPD).
Dialogue Meeting 3	Project Agreement mark-up and contractual structure	1. Continue dialogue in relation to Bidders' NPD Project Agreement Submission. 2. Continue dialogue in relation to Bidders' Additional Documentation Submission. 3. Board to provide feedback to Bidders in relation to the Bidders' Project Agreement Submission and Additional Document Submission.
Dialogue Meeting 4	Project Agreement mark-up and contractual structure	1. Continue dialogue in relation to Bidders' NPD Project Agreement Submission. 2. Continue dialogue in relation to Bidders' Additional

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Meeting	Topics	Deliverable
		Documentation Submission. 3. Board to provide feedback to Bidders in relation to the Bidders' Project Agreement Submission and Additional Document Submission.
Dialogue Meeting 5	Project Agreement mark-up and contractual structure	1. Continue dialogue in relation to Bidders' NPD Project Agreement Submission. 2. Continue dialogue in relation to Bidders' Additional Documentation Submission. 3. Board to provide feedback to Bidders in relation to the Bidders' Project Agreement Submission, Additional Document Submission.
Dialogue Meeting 6	Review of Draft Final Tenders	Please refer to paragraph 3 (Draft Final Tender Requirements**)** below.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix C (ii) – Submission Requirements and Evaluation

1. Draft Final Tender Requirements for Legal Submission

Prior to Dialogue Meeting 6, Bidders are required to re-submit the documentation set out in paragraph 1.1 below to reflect the progress of issues agreed during the Dialogue Period. This documentation shall in turn form a Bidder's legal submission for the Draft Final Tender.

1.1 NPD Project Agreement and Additional Documentation

Bidders shall be required to provide:

1.1.1 A fully marked-up NPD Project Agreement in both clean and PDF comparison format together with a detailed commentary in the form set out in Appendix C(ii) of Volume 1 of the ITPD in relation to each amendment, setting out a Bidder's commercial position where relevant. The mark up should include details of any proposed caps (with associated justifications for the levels set), and details of all termination trigger levels and persistent breach levels (including associated justifications for any departures from those set out in the NPD Project Agreement), where they appear in square brackets in the NPD Project Agreement. Bidders will not be permitted to include in their mark up of the NPD Project Agreement; and

1.1.2

(a) Contractual matrix/diagram, showing clearly the relationships between the Bidder and its supply chain including funders and sub-contractors. The diagram should provide details of all collateral warranties, direct agreements and any applicable guarantees which will be granted to the Board and the circumstances in which the protection offered by the collateral warranties and direct agreements will be available; and

(b) Fully developed, signed heads of terms for each of the Contractor, Services Provider and any relevant Key-Subcontractors. The Board will expect to see details such as caps on liability, liquidated damages and indemnities covered in these heads of terms;

(c) Final version of proposed parent company guarantees;

(d) Final version of the Articles of Association.

1.2 Prohibited Bidder Amendments

1.2.1 Bidders will not be permitted to include in their mark up of the NPD Project Agreement referred to in paragraph 1.1.1 above or the additional documentation referred to in paragraph 1.1.2 above:

(a) amendments, caveats and/or qualifications which have not previously been raised with the Board and/or its advisers during the Dialogue Period (other than drafting that is necessarily consequential on, or necessary to implement, amendments which have been so raised); or

(b) amendments, caveats and/or qualifications which have been raised with the Board during Dialogue Period but rejected by the SFT,

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

such amendments being defined as "**Prohibited Bidder Amendments**".

1.2.2 The Board shall be entitled to reject in its absolute discretion any Prohibited Bidder Amendments included within the documentation to be submitted pursuant to paragraphs 1.1.1 and 1.1.2 above which forms part of a Bidder's legal submission for the Draft Final Tender**.**

1.3 Review of Draft Final Tenders

As per paragraph 4.6 (Draft Final Tender) of Volume 1 of the ITPD, the Board will review the Draft Final Tenders to ensure compliance with the tender requirements. A final round of Dialogue will then take place as indicated on the programme at paragraph 4.2.1 (Timetable of Dialogue Meetings) of Volume 1 of the ITPD. This Dialogue will provide feedback to Bidders on the content of their Draft Final Tender and clarify any outstanding points.

2. Final Tender

2.1 Overview

As per paragraph 4.8 (Final Tender) of Volume 1 of the ITPD, the Board shall provide Bidders with an Invitation to Submit Final Tenders. Unless the Bidder is notified otherwise in the Invitation to Submit Final Tender, the legal submission requirements for the Final Tender shall be as set out in paragraph 4.2 (NPD Project Agreement) and 4.3 (Additional Documentation) below.

2.2 NPD Project Agreement

2.2.1 Bidders should note that a NPD Project Agreement specific to each Bidder (**Final Tender (Bidder Specific) NPD Project Agreement**) shall be issued to each Bidder by the Board in the Invitation to Submit a Final Tender.

2.2.2 The Final Tender (Bidder Specific) NPD Project shall be based upon:

(a) the respective NPD Project Agreement submitted by Bidders as part of the Draft Final Tender ; and

(b) any agreed issues resolved in the final Dialogue Meeting,

and Bidders shall be required to submit their Final Tenders on the basis of the terms of the Final Tender (Bidder Specific) NPD Project Agreements, without further amendment.

2.2.3 Any amendment to the Final Tender (Bidder Specific) NPD Project Agreement may result in a Bidder's entire Final Tender being rejected by the Board without further evaluation.

2.3 Additional Documentation

2.3.1 Subject to paragraph 2.3.2, the following documentation shall also require to be submitted by Bidders as part of their Final Tender:

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

(a) Contractual matrix/diagram, showing clearly the relationships between the Bidder and its supply chain including funders and sub-contractors. The diagram should provide details of all collateral warranties, direct agreements and any applicable guarantees which will be granted to the Board and the circumstances in which the protection offered by the collateral warranties and direct agreements will be available;

(b) Fully developed, signed heads of terms for each of the Contractor, Services Provider and any relevant Key Sub-contractors. The Board will expect to see details such as caps on liability, liquidated damages and indemnities covered in these heads of terms;

(c) Final version of proposed parent company guarantees; and

(d) Final version of the NPD Articles of Association.

2.3.2 The documentation referred to above in paragraph 2.3.1 above, shall be based upon:

(a) the documentation referred to in paragraph 1.1.2 which was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(b) any agreed issues resolved in the final Dialogue Meeting,

and Bidders shall be required to submit their Final Tenders on the basis of the terms of this paragraph, without further amendment.

2.3.3 Any amendment to the documentation referred to in paragraph 2.3.1 may result in a Bidder's entire Final Tender being rejected by the Board without further evaluation.

2.4 Evaluation of Final Tender

2.4.1 The legal submission which forms part of the Final Tender shall be evaluated as follows:

(a) NPD Project Agreement

Subject to paragraph 2.2.3, the NPD Project Agreement shall be evaluated in accordance with the following:

(i) Pass/Fail: Bidders shall be awarded a pass if they accept the Final Tender (Bidder Specific) Project Agreement. Bidders shall be awarded a fail if they do not accept the Final Tender (Bidder Specific) Project Agreement;

(ii) If a pass is received by Bidders in respect of the Final Tender (Bidder Specific) Project Agreement, the provisions of paragraph 5.7.1(d) (Quantifiable Bidder Amendments) of Volume 1 of the ITPD shall be applied. The Quantifiable Bidder Amendments that shall be applied to a Bidder's Provisional Economic Cost Score shall be those Quantifiable Bidder Amendments notified by the Board to Bidders during the Dialogue Period.

(b) Additional Documentation

Subject to paragraph 2.3.3, the additional documentation referred to in paragraph 2.3.1 above shall be evaluated in accordance with the following:

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

(i) Pass: Bidders shall be awarded a pass if they submit as part of their legal submission for their Final Tender the documentation referred to above in paragraph 2.3.1 above, which shall be based upon:

(A) the documentation referred to in paragraph 1.2.1 which was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(B) any agreed issues resolved in the final Dialogue Meeting,

(ii) Fail: Bidders shall be awarded a fail if they submit as part of their legal submission for their Final Tender the documentation referred to above in paragraph 2.3.1 above which is not based upon:

(A) the documentation referred to in paragraph 1.2.1 which was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(B) any agreed issues resolved in the final Dialogue Meeting.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix C (iii) – Proforma Commentary Table for NPD Project Agreement

The following pro forma commentary table should be used by Bidder's as the basis of their commentary table to accompany any mark-up of the NPD Project Agreement.

In accordance with paragraph 5.7 (Price Evaluation), the "Issue" column of the commentary table should include a description of each amendment to the NPD Project Agreement as either 1 or 2 as follows:

1. Minor/inconsequential amendment;

2. Quantifiable Bidder Amendment.

Issue	Clause	Description	Issue	Bidder Comment	Board Comment
1.	4	Project Documents	1	[●]	[●]

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix C (iv) – Interface Proposals

Summary of Interface Proposals to be provided by Bidders

The following Interface Proposals are required to be provided by Bidders to the Board during the Dialogue Period. The requirements of the Interface Proposals are more fully set out in Appendix A of the Board's Construction Requirements, subject to certain conditions within Schedule Part 5 (Land Matters), and this summary should be read in conjunction with these provisions. Although the Interface Proposals are primarily relevant to the Construction Phase, some Interface Proposals shall apply to the Project Operations. Please note that Appendix A of the Board's Construction Requirements may be subject to change to reflect discussions during the Dialogue Period.

The requirement for the Interface Proposals arose from an agreement between the Board and Consort when the Site was removed from the Campus Site (i.e. in order for the Board to secure land for the construction of the Facilities) and therefore from Consort's responsibility. The Interface Proposals are intended to provide Consort with some comfort that the Project Operations are conducted by Project Co in a manner which is least detrimental to Consort's ability to operate the Retained Estate and/or Retained Site.

The Interface Proposals shall be agreed between the Board and Consort pursuant to procedures set out in the RIE Project Agreement. All Bidders are required to submit Interface Proposals prior to relevant Dialogue Meetings, as per the timetable set out below. However, the Board shall not engage with Consort to finalise and agree these Interface Proposals until Preferred Bidder stage. It is the Board's intention that the Interface Proposals shall be in an agreed form and ready for implementation by the Preferred Bidder at Financial Close.
The Board's approach to the Interface Proposals in the ITPD is to ensure a level playing field between Bidders. Please note that the Board cannot guarantee that Appendix A of the Board's Construction Requirements, upon which the Interface Proposals shall be based, will not be subject to further amendment or refinement at Preferred Bidder stage or post-financial close. However, at this stage, the Board anticipates that any such amendment or refinement should not be material.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
1	Traffic Management Strategy	The Traffic Management Strategy ('**TMS**') is required where Project Co wants to access the Site for the construction of the Project via the Orange Areas (which includes the orange hatched areas) shown on Plan 2. The TMS is a proposal which is to address traffic management at the Campus which must be prepared having regard to: (a) the health and safety of all users of the Campus Site and/or Campus Facilities must be safeguarded at all times; (b) RIE Facilities is a working hospital to which access (including both pedestrian and vehicular) must be maintained at all times; (c) traffic at the Campus Site is to be prioritised in accordance with the following hierarchy: (i) blue light traffic access/egress; (ii) staff, patients and visitors to the Campus Site and/or Campus Facilities (public transport);	Drafts to be submitted for Dialogue Meeting 2. Also required to be submitted for Draft Final Tender and Final Tender. .	Preferred Bidder Stage	Pass / Fail	Construction Phase

	Proposal	connections from the Site to the existing surface water drain within the Orange Area. There is already an Initial Drainage Proposal, as set out in Appendix E of the Board's Construction Requirements, which primarily details the agreed connection points. This has to be complied with and supplemented by this Supplemental Drainage Proposal to include details of the design, construction, programme and Project Co's drainage proposals for the relevant drainage works. Prior to any drainage works taking place, Project Co (once appointed as Preferred Bidder) shall undertake a camera survey to document the condition of the existing surface water drainage system within the RIE Site. The camera survey will be carried out in accordance with Good Industry Practice and cover the full section of the RIE Site surface water drainage system that will serve the Site, from the point of the first connection from the Site to the drainage system to the point at which the drainage system discharges from the RIE Site to the Niddrie Burn. Four hard copies and an electronic version of the camera survey will be delivered by Project Co to the Board and no works may be carried out until the said camera survey has been carried out and requisite copies delivered by Project Co to the Board. Further details of the Drainage Proposals are set out in paragraphs 5 (Drainage Proposals) and 8 (Other General	for Dialogue Meeting 2. Also required to be submitted for Draft Final Tender and Final Tender.	Stage

Appendix E – Reference Design Elements

Elements of the Reference Design	Status
Schedules of Accommodation	For spaces relating to Operational Functionality that will be used by NHS Lothian, and Non-Clinical Services spaces, the area of these rooms shall be a minimum and this minimum area is a mandatory requirement. The Reference Design Schedule of Accommodation needs to be read in conjunction with the Draft Schedule of Accommodation prepared by the Board as noted in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation). All other spaces are indicative.
Development Control Plan and Urban Design 1:1000/1:500	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities; and (iv) the corridor widths as shown are a minimum with these minimum widths being mandatory requirements. Indicative - everything else including Non-Clinical Services spaces.
Departmental Layouts 1:500	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities; and (iv) the corridor widths as shown are a minimum with these minimum widths being mandatory requirements. Indicative - all other elements (e.g. Non-Clinical Services spaces, layouts and locations for Hard FM spaces, locations and sizes for services risers and spaces etc).
General Arrangements Plans 1:200	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities;

Commercial in Confidence - Subject to the Freedom of Information (Scotland) Act 2002

Elements of the Reference Design	Status
	(iv) the adjacencies between rooms within the Hospital departments; and(v) the corridor widths as shown are a minimum and these minimum widths are mandatory requirements. Indicative - all other elements (e.g. Non-Clinical Services spaces, layouts and locations for Hard FM spaces, locations and sizes for services risers and spaces, etc).
General Arrangement Elevations and Sections.	Indicative
Generic Room Layouts 1:50	Mandatory - those elements defined under Operational Functionality i.e.: The location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal room elevations. Indicative - All other elements.
Key Room Layouts 1:50	Mandatory - those elements defined under 'Operational Functionality' i.e.: The location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal room elevations. Indicative - All other elements.
Fire Strategy 1:200	Indicative
Interior Design and Artwork Concepts	Indicative
Wayfinding Strategy	Indicative

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Elements of the Reference Design	Status
Flexibility and expandability	Indicative
Supplies, Storage, Distribution and Waste Management (Soft FM)	Mandatory
Decontamination and Control of Infection (HAI-SCRIBE)	Indicative
BREEAM	Indicative
Geotechnical Site Investigation	N/A (Data Room status)
Decanting, Phasing,	Indicative
Traffic Impact Assessment and Traffic Management Plan	Indicative
Security Strategy	Indicative
ICT strategy	Indicative
Helipad	Indicative

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix F – Thermal and Energy Model Parameters

1. Thermal Modelling Data

1.1 General

Project Co shall undertake Dynamic Thermal Energy Modelling to assess the energy performance and thermal performance of Project Co's Proposals.

The thermal performance of the Facilities shall be dynamically thermally modelled to the Project specific parameters, identified within Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*). Thermal modelling shall inform the sizing of all heating, ventilation and comfort cooling requirements for Project Co's Proposals, inclusive of all natural ventilation pathway and overheating analysis.

In conjunction with energy performance, CO^2 emissions shall also be required to be equal to, or better than, the agreed Carbon Emissions requirements in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters).

The following documentation shall be used in providing the targeted thermal energy modelling requirements for the building;

- Scottish Health Technical Memorandums
- EnCO2de
- Health Building Notes
- CIBSE Design Guides
- Building Regulations (Scotland) Technical Standards

1.2 Building Envelope

The building envelope, construction and materials and the operation will have a significant impact on the efficient operation of the building engineering services installations. The thermal and energy model requires therefore to take cognisance of the project specific factors as detailed in the Reference Design proposals and Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*).

The modelling exercise must take cognisance of the RIE Facilities and the associated Link Building to recognise the interface between the new and the existing buildings.

The Gross Internal Floor Area should be calculated by measuring the overall internal area of the building making a reduction for partitions, walls, voids and courtyards. The floor areas of internal rooms, circulation spaces and internal walkways should be included.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

The heated volume should take into account the height between the floor surface and the room ceiling and should exclude ceiling voids, pipe ducts and plant rooms and include for a 6% reduction due to walls/partition generally in accordance with HTM 07-02: EnCO2de – Making energy work in healthcare.

The building envelope performance design criteria should be based upon an air tightness figure measured in $m^3/hr/m^2$ @ 50Pa as appropriate to the type of facility and in accordance with Building Regulations (Scotland) Technical Standards.

Further methods of measuring and demonstrating the thermal efficiency of the building envelope such as thermal imaging can be utilised subject to agreement with the Board.

1.3 Ambient Weather Profile and Degree Day

The energy use of the building will be predicated by reference to the outside temperature and the Department of Health Estate and Facilities division publishes degree day data on a monthly basis.

The energy modelling shall be based on the above degree day data utilising the base temperature of 18.5° Celsius and Edinburgh degree day weather profile data.

1.4 Dynamic Thermal and Energy Modelling Simulation

A certified and industry approved Dynamic Simulation Model (DSM) software tool compliant with CIBSE Applications Manual AM11 shall be used to produce the thermal and energy model for the Facilities.

Bidders shall seek agreement from the Board of their proposed modelling tool which shall require to be the most updated version of either:-

- IES (Integrated Environmental Solutions) Programme
- TAS (Thermal Assessment Simulation) Programme

Future modelling tools may be available and Bidders shall obtain the agreement of the Board if they propose to use a certified alternative to those listed above.

1.5 Plant and Systems

The thermal and energy modelling shall incorporate all building services installations as required to maintain the Facilities within the operational parameters as defined in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters).

Any specific loads that Bidders deem to be excluded from the thermal and energy model, such as catering, etc., shall be quantified by Bidders and submitted to the Board for agreement and acceptance prior to any modelling works commencing.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

1.6 Group 2 to 3 Equipment

As part of the thermal and energy modelling exercise Bidders shall provide an assessment of the energy consumption of the known Group 2A, Group 2B and Group 3 equipment.

Bidders are to provide a proposed methodology to the Board to demonstrate the projected energy consumption of the Group 2A, Group 2B and Group 3 equipment.

Although this information shall not form part of the agreed energy or carbon emissions targets, it shall be utilised to provide the Board with an informed estimate of anticipated future energy consumptions and utilities costs to allow future budget allocations to be assessed.

2 Design Period

2.1 Modelling of Design Proposals

To calculate energy consumption loads for mechanical services, the CIBSE Building Energy Codes, calculation using the Degree Day Method and Edinburgh weather data for Space Heating and ventilation systems shall be used.

The occupancy, Equipment usage and departmental hours shall be identified by the Board. Any variations from this data proposed by Project Co shall be agreed with the Board prior to any modelling works commencing. Where assumptions are made by Project Co, these shall be in line with Good Industry Practice. This includes the application of factors set out in CIBSE Guide B for the thermal weight of the building, levels of operation and occupancy (Table B18.12), and the correction factor for the length of working day (table B18.13) as appropriate.

The exact correction factors to be applied in the modelling shall be provided by the Bidders and agreed with the Board prior to any modelling works commencing.

The degree day figure used shall be 18.5° Celsius as the base.

Space heating/cooling should be assessed on the required temperatures that are indicated on the room data sheets that will be provided by the Board to Bidders.

Design calculations shall be based on an external winter condition appropriate to Edinburgh and shall be compliant with external winter conditions detailed in the CIBSE design guides.

Thermal conductivity values shall be at a minimum as stated in the Scottish Building Regulations (Technical Standards) and shall reflect the actual building fabric design proposals.

The clinical usage and departmental hours shall be as indicated by the Board and any variations from these shall be proposed by the Bidders shall be agreed with the Board prior to any modelling works commencing.

All ventilation plant should be assessed on a maximum power and pressure drop within the air distribution systems as stated in the Scottish Building Regulations (Technical Standards) and in-line with Good Industry Practice.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Domestic Hot Water (DHW), usage shall be based on a 24-hour usage period. Any variation to this shall be proposed by Bidders and agreed with the Board prior to any modelling works commencing.

The cold water storage provision should be based on a 24-hour day usage period. Any variation to this shall be proposed by Bidders and agreed with the Board prior to any modelling works commencing.

Lighting shall be modelled in accordance with the Board's Construction Requirements, Room Data Sheets and any specific guidance provided by the end-user through the Board.

All lighting designs shall comply with CIBSE lighting design guides and the general lighting strategy
proposed by Bidders and as detailed and agreed at Financial Close. Any variation to this shall be proposed by Bidders shall be agreed with the Board prior to any modelling works commencing.

The Dynamic Thermal Energy Model shall also be used by Bidders to show compliance of Project Co's Proposals with the Board's thermal and air quality requirements as identified in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters).

The dynamic simulation model shall use the CIBSE Design Summer Year (DSY) for Edinburgh in assessing the heating and, where required, cooling for each room within the Facilities. This information will inform the sizing of heating, ventilation and comfort cooling equipment within Project Co's Proposals.

The Dynamic Thermal Energy Model shall accurately model all proposed window/fenestration opening profiles, including taking in to account all constraints in the fenestration openings, including reveals, meshing and restrictors, when assessing overheating and air quality criteria for naturally ventilated rooms. Any automation and/or proposed opening parameters, for example temperature set points to open fenestration or any night time cooling strategies, shall be agreed in advance with the Authority.

The Dynamic Thermal Energy Model shall further allow for accurate thermal representation, and HVAC system sizing therein, for where doors are to be held open for operational or fire safety reasons.

2.2 Key Deliverable

The primary deliverable will be that Bidders shall provide detailed calculation and modelling documentation at design stage that demonstrates the proposed annual energy consumption of the Facilities by fuel type.

Appendix G – Insurance Response Matrix
Part 1 Insurance Costs Matrices

A. Premium calculation for Construction Phase - Schedule Part 15 Section 1

Class of Required Insurance	Cover Period	Sum Insured/ Rateable Factor	Premium Rate	Premium excluding IPT	Insurance Premium Tax (IPT)	Brokers remuneration (specify type and amount)
1. Contractors "All Risks" Insurance						
2. Contractors “All Risks” Terrorism Insurance[1]						
3. Delay in Start Up Insurance						
4. Delay in Start Up Terrorism Insurance[2]						
5. Construction Third Party Liability Insurance						
6. Insurances required by law						
TOTALS						

[1] Bidder Note: whilst it is noted that the Terrorism Insurance will be renewable annually, the premium quoted in this table should represent the full cost for the duration of the Works.
[2] Bidder Note: whilst it is noted that the Terrorism Insurance will be renewable annually, the premium quoted in this table should represent the full cost for the duration of the Works.

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

B. Premium calculation for Policies to be taken out and maintained from the Actual Completion Date - Schedule Part 15 Section 2

Class of Required Insurance	Cover Period	Sum Insured/ Rateable Factor	Premium Rate	Premium excluding IPT	Insurance Premium Tax (IPT)	Brokers remuneration (specify type and amount)
1. Property Damage "All Risks" Insurance						
2. Property Damage “All Risks” Terrorism Insurance						
3. Business Interruption Insurance						
4. Business Interruption Terrorism Insurance						
5. Third Party Public & Products Liability Insurance						
6. Insurances required by law						
TOTALS						

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

C. Waiver of subrogation for Consort and Consort Parties

Please identify separately for all policies required by Schedule Part 15 Sections 1 and 2 the cost of obtaining a waiver of subrogation against Consort and Consort Parties including their respective suppliers and / or subcontractors of any tier pertaining to the RIE Project Agreement in accordance with clause 53.6.1 of the draft NPD Project Agreement.

Class of Required Insurance	**Cover Period**	**Premium excluding IPT**	**Insurance Premium Tax (IPT)**	**Brokers remuneration (specify type and amount)**
1. Contractors "All Risks" Insurance				
2. Delay in Start Up Insurance				
3. Construction Third Party Liability Insurance				
4. Insurances required by law (Construction Phase)				
5. Property Damage Insurance				
6. Business Interruption Insurance				
7. Third Party Public & Products Liability Insurance

Commercial In Confidence - not disclosable under the Freedom of Information (Scotland) Act 2002

Appendix H – Certificate of Non-Collusion and Non-Canvassing

CERTIFICATE OF NON-COLLUSION AND NON-CANVASSING

We acknowledge that any Bidder who directly or indirectly canvasses any member, official or employee of Lothian Health Board ("the Board") concerning the award of any contract in relation to the Project to re-provide services from the Royal Hospital for Sick Children, Child and adolescent Mental Health Services and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France will be disqualified from the bidding process and any Bid submitted by or on their behalf shall be disregarded.

Therefore, we hereby certify and undertake and bind and oblige ourselves to the Board and its successors that we have not canvassed or solicited nor will we in the future canvass or solicit any member, official or employee of the Board in connection with the award of the Project or any Bid or proposed Bid in connection therewith and we certify that, to the best of our knowledge and belief having made reasonable enquiry, our Relevant Persons (as hereinafter defined) have not so canvassed or solicited.

In this certificate and undertaking, "Relevant Person" shall mean, as applicable in relation to us, any party co-operating with us in tendering for the Project, fellow tender consortium member, joint venture, controlling shareholder, subsidiary or parent company or other company within any group of which we form part, or any other person directly or indirectly controlling or controlled by us.

The essence of tendering is that the Board shall receive *bona fide* competitive Bids from all persons tendering. In recognition of this principle:

I. We certify to the Board and its successors that the Bid submitted by us, or on our behalf, is a *bona fide* Bid, intended to be competitive and we have not fixed or adjusted the amount of the Bid or the rates or prices quoted therein by, or under, or in accordance with any agreement or arrangement with any other person.

II. We also certify to the Board and its successors that we and, to the best of our knowledge and belief having made reasonable enquiry, our Relevant Persons have not done and we hereby undertake and bind and oblige ourselves that we will not do at any time, any of the following acts:
   A. enter into any agreement or arrangement with any other person that he shall refrain from bidding or add to the amount of any Bid to be submitted; or
   B. offer or agree to pay or give any sum of money, inducement or valuable consideration directly or indirectly to any person for doing or having done or causing to be done, any act or omission in relation to the Bid or any other tender submitted to the Board in relation to the Project.

Appendix I – Community Benefits

1 SOCIAL CONSIDERATIONS / COMMUNITY BENEFITS OVERVIEW

1.1 Background

The Board recognises the very significant training and employment opportunities delivery of this Project can create for the wider community and beyond throughout the Project Term. The Board also recognises that the Project has the potential to drive significant initiatives relating to regeneration, sustainability and social benefits, aligning with the Board's strategic objectives.

The Board is therefore incorporating a range of social considerations/Community Benefits (CB) Requirements into its procurement which will ultimately form contractual requirements under and in terms of Clause 73 (Community Benefits) of the NPD Project Agreement.

Project Co will work in partnership with the Board and where appropriate, the Edinburgh Partnership and the agencies listed in section 3.6 to deliver the Board's CB Requirements in respect of both the construction and operational phases of the Project.

1.2 Overview of the Board's CB Requirements

These are set out in Section 2 and comprise requirements for the following -:

- Targeted Recruitment and Training /Employment and Skills Plan(Section 2.1)
- Supply Chain Development (SMEs) (Section 2.2)
- Supply Chain Development (Social Enterprises) (Section 2.3)
- General CB Requirements (Section 2.4)

1.3 Bid Submission Requirements

These are detailed in Section 3.
In broad terms the Board's CB Requirements are expressed in general terms. Bidders are given freedom to provide proposals that best fit their delivery structure and procedures, split into construction phase proposals and operational phase proposals. Bidders are, however, required to propose specific financial consequences for failing to deliver these proposals, such payments to be reflected in Clause 73 of the NPD Project Agreement.
Bidders' responses will comprise completion of the various submission requirements, which are more fully set out in Section 3, but can be summarised as follows:

Section	Submission requirement	Approach to scoring
Section 3.1: Employability and Training – Construction phase	Completed ESP Completed CB Method Statement	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ITPD, as also referred to in section B6 of Appendix (ii) (Submission Requirements) of Volume 1 of the ITPD. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.2 – Employability	Completed ESP	Scored in accordance with

Section	Submission requirement	Approach to scoring
and Training – Operational phase	Completed CB Method Statement	section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ITPD, as also referred to in section B6 of Appendix (ii) (Submission Requirements) of Volume 1 of the ITPD. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.3 – Supply Chain Development, SME and Social Enterprise – Construction phase	Completed CB Method Statement for Construction phase	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ITPD, as also referred to in section B6 of Appendix (ii) (Submission Requirements) of Volume 1 of the ITPD. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.3 – Supply Chain Development, SME and Social Enterprise – Operational phase	Completed CB Method Statement for Operational phase	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ITPD, as also referred to in section B6 of Appendix (ii) (Submission Requirements) of Volume 1 of the ITPD. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.4 – Other Community Benefits	Bidders shall submit a Method Statement setting out any other proposals or measures they are willing to undertake to provide additional Community Benefits	Requirement to submit a Method Statement but not scored.

.Responses referred to here as “CB Method Statements” are referred to in the NPD Project Agreement as Project Co's Community Benefits Method Statements.

1.4 Role of Edinburgh Council

The Board is a partner in the Edinburgh Partnership, a community planning partnership for the city which brings together the public, community, voluntary and business sectors to deliver a better quality of life in Edinburgh. For further information see:

http://www.edinburgh.gov.uk/info/20162/edinburgh_partnership/1446/about_the_edinburgh_partnership
Members of the Partnership will not be precluded from working with Project Co to deliver the CB programme provided that any potential conflicts of interest are managed to the Board's satisfaction.

2 THE BOARD'S COMMUNITY BENEFITS REQUIREMENTS

2.1 Targeted Recruitment & Training/Employment and Skills Plan

The Board is committed to assisting unemployed people, encouraging access to quality sustainable employment and providing training opportunities relating to deliver of the Project.

This may include on-site training and assessment, or offsite training, or a mix of these.

The Board, based on the approach outlined by Construction Skills, and using benchmarks suggested in guidance produced by them relevant to employability and training measures in major health projects, has identified the following required outputs and volumes.

Work Placement (16-19 years)	16
Work Placement (14-16 years)	4
Curriculum support activities	14
Graduates	3
Apprentice starts	11
Existing apprentices	10
Apprentice completions	3
Jobs advertised through local employment vehicles	7
N/SVQ starts for subcontractors	21
N/SVQ completions for subcontractors	18
Training Plans for subcontractors	5
Supervisor training for subcontractors	10
Leadership and management training for subcontractors	9
Advanced health and safety training for subcontractors	11

2.2 Supply Chain Development: SMEs

Context

The long term sustainable development of the SME base is vital to driving sustainable economic growth within Lothian, Scotland and beyond. The Board, in furtherance of its own objectives and those of the Edinburgh Partnership of which it forms part, recognises the need to support the development of the SME sector by developing a procurement approach which ensures their exposure to procurement opportunities related to the Project.

Requirement

Project Co shall ensure that the Project Co advertises, and ensures that its sub-contractors:

- advertise all relevant subcontracts to be agreed with Bidders with reference to Bidders' method statements; and

- allow SMEs equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market).

An SME is defined as a company that is a small or medium-sized company and is not a member of a large group. An SME has a turnover of up to 50m Euro per annum and has no more than 250 employees.

Notes

Bidders may wish to contact the organisations listed in section 3.6 in the context of developing their proposals to meet the above.

2.3 Supply Chain Development: Social Enterprises

Context

The Board supports the Scottish Government's policy on Social Enterprise and believes that Social Enterprises have a distinct and valuable role to play in helping to create a strong, sustainable and socially inclusive economy.

A Social Enterprise is a business with primarily social objectives whose surpluses are principally reinvested for that social purpose in the business or in the community rather than being driven by the need to maximise profit for shareholders and owners. Social Enterprise is a business model which offers the prospect of a greater equity of economic power and a more sustainable society - by combining market efficiency with social and environmental justice.

The approach is founded on the principle of building relationships and partnerships by integrating a community development vision, social outcomes, business objectives and local and national government goals. Social Enterprises are involved in a wide range of industries, from recycling, community transport, landscaping, catering, employment and training to event management. In accordance with its broader objectives and its objectives through the Edinburgh Partnership, the Board wishes its procurement process ensures that Social Enterprises are made aware of supply chain opportunities offered by the Project.

Requirements: General

Project Co shall ensure that Project Co shall advertise, and ensure that its sub-contractors:

- advertise all relevant subcontracts to be agreed with Bidders with reference to Bidders method statements; and
- allow Social Enterprises equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market)

Notes

Bidders may wish to contact the agencies listed in section 3.7 for information on Social Enterprises and/or in the context of developing their proposals to meet the above.

As part of the Scottish Government's strategy to create an enterprising third sector, social enterprises are preparing to increase activity with commercial contractors, utilising national and local training, capacity building and promotional measures. A register of social enterprises that are interested in contract delivery has been created at ***www.readyforbusiness.org*** *to assist contractors to identify individual social enterprises and consortia, to assist planning with respect to community benefit delivery within a range of contract opportunities.*

Scottish Government initiatives are supported by a Tender Preparation programme for Third Sector Organisations throughout Scotland that will be delivered through Scottish Government Contract by CEiS and the Supplier Development Programme in 2010/11. Through these programmes, significant support and resource is being allocated to support social enterprises to be ready to engage with companies delivering commercial contracts, and in particular within a community benefits framework to ensure that procurement activity contributes to meeting The Board's aims of having a robust social enterprise sector delivering social and environmental benefits in the city.

2.4 Other Community Benefits

Consistent with its broader objectives, including its objectives through the Edinburgh Partnership, the Board seeks to maximise Community Benefits delivered by the Project.

Accordingly, bidders will require to set out any additional Community Benefits that they would be willing to provide at no additional cost over the period of the contract. **Submissions on these additional benefits will not be scored** but the Board considers that such submissions could, for example, include additional Bidder proposals to:

- undertake educational initiatives with community, voluntary and charitable organisations relevant to the Project and not falling under 2.1 and 2.2 above; or

- support or contribute in some other way to the work of community, voluntary and charitable organisations associated with the Project.

Bidders will be at liberty to put forward other proposals.

Clause 73 of the NPD Project Agreement shall operate to contractually oblige Project Co to deliver additional Community Benefits that it puts forward.

2.5 General Community Benefits Requirements

2.5.1 Monitoring

Project Co will be required to provide monitoring information at least quarterly in a format to be agreed with the Board. The primary function of the monitoring information will be to enable the Board to measure and produce reports on Project Co's performance against the Community Benefits objectives.

In particular:

- Targeted Recruitment and Training:
- Supply Chain Development (SMEs and Social Enterprises); and
- Other Benefits put forward by Project Co.

To comply with the Data Protection Act, all such monitoring and training documents must include a statement authorising Project Co to disclose personal data from the monitoring forms to the Board for the purposes of contract monitoring. This statement is to be signed by the individuals listed.

2.5.2 Insurances

Project Co shall ensure that insurance cover includes people aged 16 and over and staff from employment and training organisations when on work experience on-site.

2.5.3 Disclaimer

The Board will work with its partners to enable access to appropriate construction and operational training, jobseekers, SMEs and Social Enterprises to be available to Project Co.

This action, however, does not comprise or imply any promise on the part of the Board or their agents to provide suitable services, trainees, labour or resources.

Any action taken by the Board to facilitate relationships between Project Co and individuals/firms/agencies does not imply and should not be deemed to imply that they or its agents consider the individual, firm or agency as suitable for engagement by Project Co and/or its supply chain. Within this context, the Board will work with local agencies to help facilitate the achievement of the Community Benefits Requirements.

3 BID SUBMISSION REQUIREMENTS

Bid submission requirements in respect of the Board's CB requirements are summarised at 1.3 above. The following sets out the detail required.

3.1 Employment and Skills Plan: Construction Phase

Bidders are required to complete an Employment and Skills Plan (ESP) covering the employment and skills areas from the table below (as extended by the Bidder to cover the full period of construction). For further information on each of these categories, Bidders are referred to Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" (and Appendix A in particular).

Benchmarks are provided in 2.1 and constitute minimum outputs for Bidders' ESPs. Bidders are to use their own judgement as to what outputs beyond those minimums they consider are ultimately achievable in relation to the Project.

The output figures for the ESP should indicate the minimum outputs for each month against the relevant employment and skills areas. The "Summary" columns are also to be completed. Guidance on the employment and skills areas is also included within Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" *(and Appendix A in particular).*

Bidders are required to provide an unequivocal statement alongside their ESP that, if appointed, they will be contractually bound to deliver against what they have set out in the ESP, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement.

TEMPLATE EMPLOYMENT AND SKILLS PLAN (ESP)

Employment and Skills areas		Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7	Month 8	Month 9	Month 10	Month 11	Month 12	Summ No
1.	Work Placement (16-19 years) – persons													16
2.	Work Placement (14-16 years) – persons													4
3.	Curriculum Support Activities – individual engagement													14
4.	Graduates – persons													3
5.	Apprentice Starts - persons													11
6.	Existing apprentices - persons													10
7.	Apprentice Completions - persons													3
8.	Jobs Advertised Through proximate Employment Vehicles - number													7
9.	N/SVQ Starts for Subcontractors - persons													21
10.	N/SVQ Completions for Subcontractors - persons													18
11.	Training Plans for Subcontractors - number													5
12.	Supervisor Training for Subcontractors - persons													10
13.	Leadership and Management Training for Subcontractors - persons													9
14.	Advanced Health and Safety Training for Subcontractors - persons													11

Employment and Skills Method Statement

Bidders are also required to provide a detailed CB Method Statement setting out how they intend to implement the employment and training requirements of the Board and to deliver the ESP. The CB Method Statement should be restricted to **1000** words and clearly set out the proposed approach for delivering skills development against the employment and skills areas, covering the following:

- who in the organisation will be responsible for managing the training scheme and overseeing the proposals?
- which education and training providers will be involved with the delivery of the ESP?
- what types of accredited and non-accredited training are expected to be offered and who are expected to be the main beneficiaries of this training?
- which trades or occupational areas is it envisaged will be offering apprenticeship opportunities?
- what types of apprenticeships are expected to be offered (i.e., traditional programme led, advanced etc)?
- how will the target outputs as set out in the ESP be delivered?
- how will health and safety issues be managed?
- what actions will be taken to ensure the support of trade contractors and sub-contractors working on the project?
- how will compliance be managed and monitored with respect to the organisation's trade contractors and sub-contractors?
- how will the target outputs as set out in the ESP be delivered?
- how will health and safety issues be managed?
- How will monitoring of delivery of Community Benefits and reporting to the Board under Clause 73 of the NPD Project Agreement be undertaken?
- What financial consequence the bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against the ESP.

Bidders are referred to Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" *(and Appendix A in particular) for* further information and Appendix B of that document in particular.

3.2 Employment and skills plan: operational phase

Bidders should repeat the process outlined for the construction phase in respect of the operational phase (though the table should be completed not on a monthly basis but on an annual basis).

Note: The desired/expected outputs set out at Section 2.1 are for the Construction Phase only. The Board does not have desired/expected output figures for this element and it is a matter for bidders to consider, as against their specific approach to delivery.

3.3 Supply Chain Development: SMEs & Social Enterprise

Each Bidder must complete two separate CB Method Statements in accordance with the detail set out below, detailing what it proposes to do to meet the Board's SME and Social Enterprise supplier development objectives in respect of both the Construction Phase and Operational Phase (**800** word limit for each).

Bidders will be expected to have identified a source for any additional resources they will require to deliver the SME and Social Enterprise development, so that the requirements can be met with no additional costs to the Board. As part of the bid preparation, the Board expects Bidders to have contacted the agencies listed in Section 3.6 or other similar agencies of their choice.

Bidders are required to provide an unequivocal statement in the CB Method Statement that, if appointed, they will be contractually bound to deliver against what they have set out in their CB Method Statements, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement and the financial consequence the Bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against what they have set out.

The Small to Medium sized Enterprises / Social Enterprises CB Method Statements must respond to the following questions *(NOTE: Separate responses are to be provided for the Construction Phase and the Operational Phase):*

1.	Describe the activities that you will undertake to identify SMEs and Social Enterprises and assess each sector separately in their capacity to deliver works, services or supplies, that are required for all contracts in relation to the Project.
2.	Please quantify, both in hours and value, the commitment of you and your sub-contractors, in relation to this project, to the engagement with SME / SEs in specific capacity building support and in the development of partnership working and outline your overall approach.
3.	How will you ensure that your sub-contractors make all opportunities available to SMEs and Social Enterprises?
4.	Describe the anticipated outcomes for SMEs and Social Enterprises from the activities you have outlined in response to Q2 and Q3 and how would you monitor and assess the social and economic impact of your engagement with SMEs and Social Enterprises?
5.	How you will monitor delivery of Community Benefits and report to the Board under Clause 73 of the NPD Project Agreement?

3.4 Other Community Benefits

Bidders must provide a CB Method Statement setting out any other Community Benefits they are willing to deliver (see Section 2.4) and their proposals to monitor delivery of Community Benefits and report to the Board under Clause 73 of the NPD Project Agreement **(note: this CB Method Statement will not be scored)**.

Bidders are required to provide an unequivocal statement in the CB Method Statement that, if appointed, they will be contractually bound to deliver against what they have set out in their CB Method Statements, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement and the financial consequence the Bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against what they have set out. (**800** word limit)

3.5 FOR INFORMATION ONLY – SUPPORT AGENCIES

POSSIBLE RESOURCES

Note: Any action taken by the Board to facilitate relationships between Project Co and individuals/firms/agencies does not imply and should not be deemed to imply that they or its agents consider the individual, firm or agency as suitable for engagement by Project Co and/or its supply chain. Within this context, the Board will work with local agencies to help facilitate the achievement of the Community Benefits Requirements.

Appendix J - BIM Requirements for the Project

1. Project Set-up

1.1 Bidders are required to prepare a BIM Execution Plan for review by the Board. The BIM Execution Plan shall cover as a minimum the following topics:

b) Project information/description;

c) Key BIM stakeholders;

d) Goals and project objectives;

e) BIM objectives and uses;

f) Model management;

g) BIM deliverables and format;

h) Quality control system;

i) Data management; and

j) Frequency and content of BIM audits.

1.2 The BIM execution plan is to be prepared in accordance with BS 1192.

1.3 Bidders must use recognised industry BIM software platforms, suited to the various tasks to be fulfilled by both the design team and the supply chain, and establish principles of interoperability.

1.4 Bidders will provide a BIM overlay to the design team process map.

1.5 Bidders will appoint an Information Manager to see that the common data environment is set up and maintained and that the mechanism and technology for information exchange are in place and adhered to throughout the Construction Phase and the Operational Term.

1.6 Bidders will establish a through-life information management strategy including graphical and non-graphical information. Agree format for transfer of information into asset management systems will be developed, and a data classification system (eg Uniclass 2) established.

1.7 A Soft Landings implementation plan will be developed that follows the principles of the Government Soft Landings plan Policy dated September 2012.

2. Pre-construction Phase

2.1 3D visualisations, walk-throughs and images for User, Local Authority and other Stakeholder presentations and discussions at key project milestones are to be prepared.

2.2 Room layouts are to be prepared using ADB to include fully loaded 3D views.

2.3 The model is to include performance targets for key indicators, associated with associated provision in the design to measure data in operation and allow model-based comparisons between design intent and actual performance.

2.4 Data outputs in COBie format are to be prepared at key stages aligned to the process map, at a Level of Detail matching the stage requirement.

2.5 Specifications are to be based on a system that allows direct links between spatial BIM Models and the accompanying specifications and object attributes.

2.6 Read-only access to the BIM model gratis and within 24 hours is to be made available at the Board's request.

3. Construction Phase

3.1 The Board is to have read-only access to 4D construction sequencing output from model.

3.2 The model is to be regularly updated (every 2 weeks) to reflect material/component detailed selections or variations from those selected at design/tender stage.

3.3 Read-only access to the BIM model gratis and within 24 hours is to be made available at the Board's request.

4. Operational Term

4.1 The model shall be maintained throughout the Operational Term to reflect all planned maintenance and lifecycle works and modification should be made to reflect all changes implemented under Schedule 16 Change Protocol.

4.2 Read-only access to BIM model, gratis, and within 24 hours is to be made available at the Board's request.

4.3 Asset Management software is to be discussed with the Board but data should be held in recognised interchange format (e.g. COBie) to allow interoperability between recognised facilities management (CAFM) packages, recognised asset management packages and the BIM model.

5. Handback

5.1 Project Co will hand over ownership of the model to the Board at the Expiry Date.

5.2 At the Expiry Date, the model is to be fully updated model to reflect all changes during the Operational Term including specification details, operation and maintenance requirements and residual design life of all components and assemblies.

5.3 The on-going maintenance and replacement information is to be in a format to be agreed with the Board.

.

5.4 Project Co shall provide training in the operation of software to the Board.

A bright new future: A project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France

IMPORTANT NOTICE

The Invitation to Submit Final Tender (the "**Invitation**") has been prepared for the purpose of providing certain information to Bidders invited to submit their final tenders in the competition for the design, build, finance and maintenance of a project to enable the re-provision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France ("**the Project**").

In no circumstances shall the Board or their advisers, consultants, contractors, servants or agents incur any liability or responsibility arising out of or in respect of the issue of the Invitation.

Nothing in the Invitation shall be construed as legal, financial or tax advice.

Any summaries or descriptions of documents or contractual arrangements contained in any part of the Invitation cannot be and are not intended to be comprehensive, nor any substitute for the underlying documentation (whether existing or to be concluded in the future), and are in all respects qualified in their entirety by reference to them.

No legal relationship or other obligation shall arise between any Bidder and the Board unless and until the NPD Project Agreement has been formally executed in writing by the Board and the successful Bidder and any conditions precedent to its effectiveness have been fulfilled.

In this notice, references to the Invitation shall include all information contained herein and any other information (whether written, oral or in machine-readable form) or opinions made available by or on behalf of the Board, their advisers, consultants, contractors, servants or agents in connection with the Invitation or the Project including, without limitation, any additional information made available by the Board throughout the Dialogue Period.

Scots law shall be applicable to the Invitation and the Scottish Courts shall have exclusive jurisdiction.

Each Bidder's acceptance of delivery of the Invitation constitutes its agreement to, and acceptance of, the terms set forth in this Important Notice.

1 INTRODUCTION

1.1 Purpose of Invitation to Submit Final Tender

This Invitation to Submit Final Tender (ISFT) is being issued in relation to the Official Journal of European Union (OJEU) notice *ref.386758-2012 (2012/S 235-386758)* published on 5 December 2012. The three Bidders shortlisted by the Board following completion of the Pre-Qualification Questionnaire and subsequent completion of Competitive Dialogue are invited to submit Final Tenders.

The ISFT describes the Board's needs and requirements and sets out how Final Tender will be conducted.

1.2 Structure of the Invitation to Submit Final Tender

The ISFT comprises four volumes of information as follows:

1.2.1 **Volume 1** contains background information on the Project, the conditions of participation, Final Tender requirements and how the Board intends to evaluate the Final Tender, award the Project and communicate with Bidders. The requirements are broadly set out in Appendices A, B and C of Volume 1.

1.2.2 **Volume 2** contains the contractual requirements which are set out in the NPD Project Agreement and schedules, (which include the draft Payment Mechanism) and Articles of Association and the Final Tender (Bidder Specific) NPD Project Agreement.

1.2.3 **Volume 3** contains the specific technical requirements of the Board for the Project including construction (clinical and non-clinical) requirements and Facilities standards, equipping requirements and facilities management requirements.

1.2.4 **Volume 4** comprises of details of the Data Room available to Bidders during the Tender Period.

1.3 Definitions within Invitation to Submit Final Tender

1.3.1 In terms of the interpretation of the ISFT, unless the context otherwise requires:

(a) The masculine includes the feminine and vice-versa;

(b) The singular includes the plural and vice versa;

(c) The words "include" and "including" shall be construed without limitation;

(d) Any reference to a person includes a reference to an individual, company, authority, board, association or other legal entity;

(e) Any reference to any directive, statute or statutory provision shall include any directive, statute, or statutory provision which amends or replaces or has amended, replaced consolidated or re-enacted it and shall include any subordinate legislation made under any directive or statute;

(f) Save as otherwise provided herein, any reference to a Volume shall be a reference to a Volume of the ISFT to; and

(g) Save as otherwise provided herein, any reference in this Volume 1 to a section shall be a reference to a section of this Volume 1.

1.3.2 The terms used in these instructions to Bidders shall, where the same have been defined in the NPD Project Agreement, bear the same meaning as in the NPD Project Agreement unless otherwise defined hereunder:

Additional Documentation Submission has the meaning given to it in Appendix C (ii) of Volume 1 of the ISFT;

Ancillary Agreements means the Memorandum and the Articles of Association;

Annual Service Payment has the meaning given to it in the NPD Project Agreement;

Bidder means each of

- B3*;*
- Integrated Health Solutions (Lothian) *; and*
- Mosaic

and **Bidders** shall be construed accordingly;

Bioquarter Site has the meaning given to it in the NPD Project Agreement;

Board has the meaning given to it in the NPD Project Agreement;

Board's Construction Requirements has the meaning given to it in the NPD Project Agreement;

Board Services has the meaning given to it in the NPD Project Agreement;

CAMHS means the Child and Adolescent Mental Health Service currently provided from the Royal Edinburgh Hospital, Morningside Place, Edinburgh.

Campus Facilities has the meaning given to it in the NPD Project Agreement;

Campus Site has the meaning given to it in the NPD Project Agreement;

Certificate of Non-Collusion and Non-Canvassing means the certificate of that name set out in Appendix H of Volume 1 of the ISFT*;*

CEC means the City of Edinburgh Council;

City Development means the department of City Development within the City of Edinburgh Council;

Conject means the Conject information channel, , provided by Conject Ltd, a web based construction collaboration portal utilised on the project by the Board.

Conject User Manual means the user manual for Conject set out in Volume 4 of the ISFT;

Consort has the meaning given to it in the NPD Project Agreement;

Core Evaluation Team means the principal assessment body for procurement, for Pre-Qualification Questionnaire, Dialogue and evaluation of the Final Tender;

Data room means the secure electronic data storage room that will be provided via Conject;

DCN means the Department of Clinical Neurosciences currently provided from the Western General Hospital on Crewe Road South, Edinburgh;

Dialogue Period Bulletin means a communication during the Final Tender Period of that name described in paragraph 4.5.2 (Communication Protocol) of Volume 1 of the ISFT;

Dialogue Period Query means a communication during the Final Tender Period of that name described in paragraph 4.5.2 (Communication Protocol) of Volume 1 of the ISFT;

Dialogue Period Query Proformas means the document provided within Appendix D of Volume 1 of the ISFT;

Draft Final Tender means the submission made by a Bidder during the Dialogue Period in accordance with Appendices A, B and C of Volume 1 of the ITPD;

Draft Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ISFT;

Enabling Works has the meaning given to it in paragraph 2.7.5 (Enabling Works) of Volume 1 of the ISFT;

Economic Cost has the meaning defined in paragraph 5.7.1 (Economic Cost) of Volume 1 of the ISFT;

Energy Centre means a dedicated autonomous energy centre to be provided as part of the Project;

Expiry Date has the meaning given to it in the NPD Project Agreement;

Environmental Matrix means the matrix contained in ISFT Volume 3, Schedule Part 6, Section 3, Appendix C*;*

Equalisation Adjustment has the meaning described at paragraph 5.7.1 (c) (Economic Cost) of Volume 1 of the ISFT;

Equipment Schedule means the document named such in Volume 3 of the ISFT;

Equipment Responsibility Matrix means the document named such in Volume 3 of the ISFT;

Facilities has the meaning given to it in the NPD Project Agreement;

Family Hotel has the meaning given to it in Schedule Part 6, Section 3, Sub-section D (Specific Clinical Requirements);

FOISA has the meaning given to it in the NPD Project Agreement**;**

Full Business Case or FBC means full business case of the Board;

Financial Close has the meaning given to it in the NPD Project Agreement;

Financial Model means an electronic model used for the purposes of this procurement as produced by a Bidder in support of the Bidder's Financial Submission (or by the Board in the case of the Shadow Bid Financial Model), having the attributes defined at paragraph 3.9 of this document*;*

Financial Proformas means the contents of Appendix B (ii) of Volume 1 of the ISFT;

Financial Submission means the elements of a Bidders proposals relating to financial issues as defined in Appendix B of Volume 1 of the ISFT and as relating to the Final Tender

Final Tender means a submission made by a Bidder in response to an Invitation to Submit Final Tender;

Final Tender (Bidder Specific) NPD Project Agreement means the Bidder specific NPD Project Agreement agreed with each Bidder during the Dialogue Period;

Final Tender Period means the period between the date of issue of the ISFT and the date of the Final Tender;

Generic Rooms has the meaning given to it in paragraph 2.5.2 (Room Layouts) of Volume 1 of the ISFT;

GICs means guaranteed investment certificates

Group 1 Equipment has the meaning given to it in the NPD Project Agreement;

Group 2A Equipment has the meaning given to it in the NPD Project Agreement;

Group 2B Equipment has the meaning given to it in the NPD Project Agreement;

Group 3 Equipment has the meaning given to it in the NPD Project Agreement;

Gross Internal Floor Area means the area of a building measured to the internal face of the perimeter walls at each floor level. The rules of measurement of gross internal floor area are defined in the latest edition of the RICS Code of Measuring Practice;

Hard FM has the meaning given to it in paragraph 2.11 (Facilities Management: Services to be provided by Project Co) of Volume 1 of the ISFT;

Helpdesk has the meaning given to it in the Service Level Specification contained in Volume 3 of the ISFT*;*

Indicative Elements of the Reference Design has the meaning given to it in paragraph 2.6 (Indicative Elements of the Reference Design) of Volume 1 of the ISFT;

Information Provided means the information provided to the Bidders by the Board or its advisers during the Final Tender Period;

Interface Proposals has the meaning given to it in the NPD Project Agreement;

Invitation to Participate in Dialogue or ITPD means the document(s) issued on the 11th March 2013 to successful PQQ candidates

Invitation to Submit Final Tender or ISFT means this document as more particularly described in paragraph 4.1 of Volume 1 of the ISFT as updated by the Board from time to time and issued by the Board to any shortlisted Bidders inviting them to submit their Final Tender;

IRR means internal rate of return;

Key Rooms has the meaning given to it in paragraph 2.5.2 (Rooms Layouts) of Volume 1 of the ISFT;

Key Stage Review the validation to be carried out by the Scottish Futures Trust on behalf of the Scottish Government at key stages of the procurement process;

Link Building has the meaning given to it in the NPD Project Agreement;

Mandatory Reference Design Requirements has the meaning given to it in paragraph 2.5 (Reference Design and Mandatory Reference Design Requirements) of Volume 1 of the ISFT;

Medical School means the University of Edinburgh Medical School, Chancellor's Building, 49 Little France Crescent, Edinburgh, EH16 4SB;

MLA means mandatory liquid assets;

NPD means non-profit distributing;

NPD Articles of Association means the mandatory articles of association of Project Co, which are prescribed by the SFT;

NPD Model means the non-profit distributing model ascribed by the Scottish Government which represents a development of the traditional PFI model;

NPD Project Agreement means either the base NPD Project Agreement and/or the Final Tender (Bidder Specific) NPD Project Agreement (as the context requires), both as more fully described in paragraph 3.3, as set out in Volume 2 of the ISFT and issued to each Bidder as part of the ISFT;;

NPV means net present value;

OBC means Outline Business Case of the Board relating to the Project;

Operational Functionality means

(a) the following matters as shown on the 1:500 scale development control plan and site plans;

(i) the point of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities; and

(iii) the adjacencies between different hospital departments within the Facilities,

as indicated in the Reference Design;

(b) the following matters as shown on the 1:200 scale plans:

(i) the points of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities;

(iii) the adjacencies between different hospital departments within the Facilities; and

(iv) the adjacencies between rooms within the hospital departments within the Facilities,

as indicated in the Reference Design;

(c) the quantity, description and areas (in square metres) and minimum critical dimensions of those rooms and spaces shown on the Draft Schedule of Accommodation, excluding Project Co spaces;

(d) the location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal elevations; and

(e) the location of and the inter-relationships between rooms within the departments within the Facilities, as indicated in the Reference Design;

but only insofar as each of the matters listed in (a) to (e) above relate to or affect Operational Use (with the exception of Non-Clinical Services);

Operational Use means the use of a room or space to the extent that it is used by the Board or its employees, tenants, agents and/or contractors (but not to avoid doubt Project Co staff) for carrying out the Board Services;

Payment Mechanism has the meaning given to it in the NPD Project Agreement;

Non-Clinical Services has the meaning given to it in the NPD Project Agreement;

NPD Project Agreement Submission has the meaning given to it in Appendix C(ii) of Volume 1 of the ISFT;

Petrol Station Site has the meaning given to it in the NPD Project Agreement;

Plan 2 has the meaning given to it in the NPD Project Agreement;

Plan 4 has the meaning given to it in the NPD Project Agreement;

Planning Permission in Principle or PPiP means planning permission in principle granted to the Board by CEC in relation to the Site;

Preferred Bidder means the Bidder identified by the Board after evaluation of each of the Final Tenders with which the Board wishes to enter into the NPD Project Agreement;

Pre-Qualification Questionnaire means the document of that name issued on 5 December 2012;

Price Evaluation means the process set out in paragraph 5.7 (Price Evaluation) of Volume 1 of the ISFT;

Price Evaluation Mark has the meaning given to it in paragraph 5.7.2 (Price Evaluation Mark) of Volume 1 of the ISFT;

Project has the meaning given to it in the NPD Project Agreement;

Public Interest Director has the meaning given to it in paragraph 3.2.1(b) (Public Interest Director) of Volume 1 of the ISFT;

Quality Evaluation Mark has the meaning given to it in paragraph 5.6.3 (Quality Evaluation Criteria) of Volume 1 of the ISFT;

Reference Design means the preliminary designs prepared by the Board and their advisers and contained in the Data Room;

Reference Design Elements means the documents referred to within Appendix E of Volume 1 of the ISFT;

Reference Design Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ISFT;

Regulations mean The Public Contracts (Scotland) Regulations 2012;

RIE Facilities has the meaning given to it in the NPD Project Agreement;

RIE Project Agreement has the meaning given to it in the NPD Project Agreement;

Royal Hospital for Sick Children and Department of Clinical Neurosciences means the premises and associated infrastructure proposed to be constructed as part of the Project and includes CAMHS;

RHSC means the Royal Hospital for Sick Children currently located at 9 Sciennes Road, Edinburgh EH9 1LF**;**

Schedule of Accommodation has the meaning given to it in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation) of Volume 1 of the ISFT;

Schedule of Operational/Design Notes means document contained in Volume 4 of the ISFT (Data Room);

Service Strip has the meaning given to it in the NPD Project Agreement;

SFT means the Scottish Futures Trust;

SFT's Standard Form NPD Project Agreement means the form of project agreement issued by SFT in June 2012, and as amended by SFT from time to time;

Site Survey means the survey of the Site procured by the Board and set out in paragraph 2.16 (Surveys and Dialogue Period Ground Investigations) of Volume 1 of the ISFT;

Soft FM Interface Specification means the specification contained in Volume 3 of the ISFT, Part 6, Section 3;

Solution means a solution developed by each Bidder in regard to the Project during the Dialogue Period;

Submission means the Final Tender Submission

Surplus has the meaning given to it in the NPD Project Agreement;

Technical Cost Proformas means the proformas included in Appendix A (v) of Volume 1 of the ISFT;

Tender Period means the Final Tender Period;

User Guide means the SFT user guide in relation to standard project agreements (hub DBFM and NPD Model); version 2 dated June 2012 as amended from time to time;

VAT means value added tax;

VFM means value for money;

VIE means vacuum insulated evaporator.

1.4 Overview of Project

The Project shall be to design, build, finance and maintain a new facility to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France.

In accordance with the Scottish Government's NPD initiative, the Board is seeking to procure a partner who will form a NPD company (the "**Project Co**") for the delivery of the Project. With the completion of the Dialogue Period, the Board is now issuing this ISFT.

The Project shall be based at the Campus Site. The Campus Site shall comprise the Retained Site (i.e. the site of the existing hospital and university buildings) and the Site (i.e. the site for the new Facilities) together with the Retained Estate (i.e. the existing hospital and university buildings) and the Facilities (i.e. the new hospital). The Retained Estate and Retained Site form part of an earlier PFI project entered into between the Board and Consort in 1998. Consort therefore operate (on behalf of the Board) the Retained Estate and the Retained Site.

The intention is that the Project shall construct standalone Facilities on the Site within the Campus Site at Little France as far as is practically possible. However, there shall be a physical link between the Facilities and the Retained Estate via a Link Building between the Facilities and the RIE Facilities at ground and first floor levels.

The Project will co-locate services currently provided at the RHSC located at Sciennes Road, Edinburgh, CAMHS at the Royal Edinburgh Hospital and DCN at the Western General Hospital, Edinburgh. Planning Permission in Principle has been received in respect of the Project.

This Project is regulated and governed by the Public Contracts (Scotland) Regulations 2012 and any contract awarded shall be to the Bidder who can offer the most economically advantageous tender in accordance with the Dialogue procedure.

1.5 Project Objectives and Drivers

1.5.1 The Board has developed a strategic clinical framework to underpin its approach to delivering Scotland's vision for sustainable, quality health care services and a healthier future for everyone.

The framework sets out the Board's principles for planning and delivering services and care in Lothian, and identifies how, through integrated working with partners and redesigning service around and with people, the Board will promote good health and deliver safer, more effective, person-centre healthcare.

The key principles are to:

1. focus on prevention and early intervention to help people keep well and anticipate care needs;
2. take a whole system approach to planning and managing integrated pathways of care, working with partner agencies in local authorities and voluntary sector;
3. reduce unnecessary variation in the way patients are cared for;
4. deliver services with the appropriate mix of staff skills, ensuring viable clinical staff rotas;
5. reduce spend on property and buildings as hospital stays reduce, to release money for direct patient services;
6. question active treatment which will not extend life or quality of life;
7. identify services that are not sustainable in the longer term and proactively plan a new way of delivering care;
8. make sure we stop procedures and treatments which add no clinical value; and
9. maximise the opportunities for use of new technologies to support health and healthcare.

The framework focuses on six strategic aims:

1. prioritise prevention, reduce inequalities and promote longer healthier lives for all;
2. put in place robust systems to deliver the best model of integrated care for our population – across primary, secondary and social care;
3. ensure that care is evidence based, incorporates best practice and innovation, and achieves sustainable care pathways for patients;
4. design healthcare systems to reliably and efficiently deliver the right care at the right time in the most appropriate setting;
5. involve patients and carers as equal partners, enabling individuals to manage their own health and wellbeing and that of their families; and
6. use resources – skilled people, technology, buildings and equipment - efficiently and effectively.

1.5.2 The Board is committed to increasing social capital and addressing inequalities, deriving benefit for the communities, such as through proactive application of community benefits clauses in its procurement processes.

1.5.3 Specific factors driving the need for change in children's and young people's services and clinical neurosciences are:

(a) The age and limitations of the current premises;
(b) The increase in age range of patients to be seen in the RHSC, up to age 16 years old, or 18 in some specialities.
(c) The need to deliver sustainable specialist services whilst meeting the challenge of relatively small numbers of patients and small numbers of clinical experts;
(d) The national policy for Paediatric Intensive Care Units in Scotland, which have been commissioned under NHS National Services since 2007, sited in two hospitals for children and young people;
(e) The need to deliver neurosurgery on the same site as adult and children's emergency departments; and
(f) The need to maintain strong links with the University of Edinburgh's Division of Clinical Neuroscience and their planned Institute of Neuroscience at Little France.

1.5.4 Clinical benefits of integrating the services into one building, supporting the Board's and national strategic ambitions include:

(a) The ability to deliver paediatric and adult neurosurgery in the same theatre suite, maximising the utilisation of specialist equipment (e.g. intra-operative MRI) and expert staff, with direct internal access to age-appropriate critical care and wards;
(b) Mental health services on the same site as acute hospital services for children and young people, supporting their physical as well as psychological care;
(c) Joint-working and economies of scale in high-cost specialist clinical areas such as theatres and radiology; and
(d) The opportunity to improve emergency access to services by incorporating a helipad on the roof of the Facilities.

1.6 Project Governance

1.6.1 The terminology used to describe project governance arrangements is as defined by the "Scottish Capital Investment Manual Programme and Project Organisation Guide".

1.6.2 The Investment Decision-Maker is Lothian Health Board, which is ultimately accountable for the Project.

1.6.3 The Board's Finance and Resources Committee (F&RC) has established a Project Steering Board, chaired by the Project Owner, who is NHS Lothian's Director of Finance.

1.6.4 The Project Owner has the executive responsibility for decision-making relating to the project. All decisions must be consistent with Board strategies, policies and procedures and delegated budgets or in line with any agreed derogations.

1.6.5 The Project Director has responsibility for delivering the project within the governance parameters set out.

1.6.6 The Project Steering Board remit shall be:

- To assist the Project Owner and Project Director in the decision-making process for issues relating to the Project;
- To support the Project Owner and Project Director in preparing submissions to the F&RC, to satisfy that Committee's assurance needs on governance and internal control and monitoring of key performance milestones;

- To serve as the Capital Management Group, with delegated authority to approve capital enabling works for the Project up to £250k, and will be the first place to review schemes higher than £250k; and
- To be the arbiter of matters arising from the implementation of the Project Design and the Strategic Delivery Programme.

1.6.7 Project Steering Board Membership:

- Project Owner (chair)
- Project Director
- Medical Director
- Non-executive member(s) of Lothian NHS Board
- Director of Operations for children's services and neuroscience services
- Project Clinical Director
- Director of Capital Planning and Projects
- Project Head of Commissioning and Service Redesign
- Head of Communications
- Employee Director
- A representative from the South-East & Tayside Regional Planning Group (SEAT)
- A representative from the Scottish Government
- A representative from the Scottish Futures Trust

1.6.8 The Project Director is supported by a project team comprising clinical experts and experienced NHS managers from capital planning, service management, finance and communications. Staff representation is fully integrated into the project with a full-time Partnership member of the team.

1.6.9 The Board's team are supplemented by specialist expertise from external financial, legal and technical advisers.

1.7 Programme

The following table sets out the key target milestones for the Project.

Task	Date
Invitation to Submit Final Tenders	16/12/13
Final Tender submission	13/01/14
Identify Preferred Bidder	17/03/14
Commercial and Financial Close	02/10/14
Construction commences	03/10/14
Completion date (target)	17/02/17
Hospital opening date	15/05/17

2 TECHNICAL OVERVIEW

2.1 Introduction

This section provides an overview of the technical requirements of the Project. In relation to all technical information provided by the Board, the Board reserves the right to amend all such information during the Final Tender, including without limitation the Mandatory Reference Design Requirements, Board's Construction Requirements and Equipment provisions.

2.2 The Site

The planned location for the new Facilities is at Little France, in the south east of Edinburgh, home to the RIE Facilities and the University of Edinburgh Medical School and adjacent to the Edinburgh Bioquarter Site development.

The site is bounded on the north by the Medical School, on the east by the RIE Facilities, to the south by existing residential buildings on Old Dalkeith Road and to the west by the Queen's Medical Research Institute and the main entrance road serving the Campus Site at Little France.

Also to the west of the Campus Site is an area of rising ground which slopes up to Craigmillar Castle. The view from the south-east over the site to the castle, with Arthur's Seat in the distance, is considered by City of Edinburgh Council (CEC) to be an important view on the southern approach to the city. The Site of the new Facilities is wholly within the red line boundary set out in Plan 1.

2.2.1 The Royal Infirmary of Edinburgh

The RIE Facilities is a major acute teaching hospital and has more than 900 inpatient beds. As described above the RIE Facilities were procured under a PFI contract between the Board and Consort in 1998 and was opened in 2003.

It is home to Scotland's busiest maternity unit – some 6000 babies are born at the RIE Facilities' "Simpson Centre for Reproductive Health" each year – and to Scotland's busiest emergency department.

With a 24-hour emergency department, it provides a wide range of acute medical and surgical services for patients from across the Lothian region and specialist services for people throughout the south east of Scotland and beyond.

2.2.2 University of Edinburgh

The Chancellor's Building, adjoining the RIE Facilities, is part of the University of Edinburgh Medical School and houses teaching facilities, the medical library and research laboratories. It is currently home to the Multiple Sclerosis and Euan MacDonald Motor Neurone Disease research centres. The Chancellor's Building was constructed by Consort under the terms of the RIE Project Agreement.

The University opened its Queen's Medical Research Institute in 2005 which represented a major milestone in the history of biomedical research in Edinburgh. The Queen's Medical Research Institute houses over 600 researchers and aims to tackle a wide range of diseases at the most fundamental cellular level. Facilities include MRI and other modern imaging technologies and supporting infrastructure.

The University's Scottish Centre for Regenerative Medicine was opened in the Edinburgh Bioquarter Site in 2011. The Anne Rowling Building is the most recent addition to the University's facilities and lies between the Chancellor's Building and the site proposed for the new Facilities

2.3 Stand Alone Requirements

Subject to Clause 9 (Nature of Land Interests) including without limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement, Appendix A of the Board's Construction Requirements and/or the Interface Proposals all buildings, facilities, services and associated works required to deliver the Project shall be contained within the Facilities and/or the Site and shall not be reliant upon any other buildings, facilities or services on the Retained Facilities and/or Retained Site (the "**Stand Alone Requirements**"). For the avoidance of doubt the following dedicated and autonomous elements shall be provided on the Site as part of the Project;

(a) an Energy Centre;
(b) the FM goods service yard; and
(c) Hard FM spaces.

2.4 Design and construction elements

2.4.1 Overview

The specific requirements for the Facilities to be provided are set out in the Board's Construction Requirements. This comprises: -

- General Requirements;
- Specific Clinical Requirements; and
- Specific Non-Clinical Requirements.

The Board's Construction Requirements are set out in Section 3 of Volume 3 of the ISFT and will ultimately form Section 3 of Schedule Part 6 (Board's Construction Requirements) of the NPD Project Agreement.

Using the work undertaken to date, the Board is seeking innovative proposals to meet its requirements.

The focus must be on providing age appropriate Facilities in a safe, caring and healing environment. This includes suitable Facilities for babies and young children, an adolescent inpatients zone, and accommodation for the adult population of DCN.

Areas for children, young people and adults should have their own identity within the integrated Facilities. At all times, the ethos, environment and needs of these different specialist areas has been considered in planning departmental relationships and patient pathways and this must be maintained.

Effective delivery of clinical services relies on close adjacencies between related specialties and disciplines. The design brief specifies that routes between departments should minimise travel time and distances for patients and staff in order to maximise clinical safety and efficiency.

The design will incorporate clearly identifiable, friendly and secure children's entrances to their outpatient and ward areas. There will be a separate main entrance to the DCN facilities. Recreation space and public facilities outside the wards will also be segregated as far as is practical.

The Board welcomes and will encourage Bidders to bring innovation, and expertise from within the UK and/or overseas to develop their own design proposals but it should be noted that certain elements of the design as they relate to aspects of Operational Functionality are mandatory, as described below and in Appendix E (Reference Design Elements) of Volume 1 of the ISFT.

2.4.2 Facilities to be provided

Facilities required for the Project include:

(a) inpatient wards;
(b) day case facilities;
(c) outpatient clinics;
(d) emergency department;
(e) operating theatres;
(f) radiology and physiology departments;
(g) rehabilitation facilities;
(h) laboratory facilities;
(i) support department;
(j) roof top helipad; and
(k) dedicated energy centre and goods delivery yard.

2.5 Reference Design and Mandatory Reference Design Requirements

The use of Reference Design in NPD projects is being promoted by the SFT and the Scottish Government.

A Reference Design for the Project has been developed and comprises mandatory elements and indicative elements. Procurement is proceeding on the basis of a Reference Design that the Board spent some time developing with significant clinical and stakeholder input prior to commencement of the Procurement. However, as set out in the ITPD, the Board reserves the right to amend the technical information provided. That Reference Design comprises mandatory elements and indicative elements.
The mandatory elements of the Reference Design (the "**Mandatory Reference Design Requirements**" are those elements of the Reference Design relating to Operational Functionality.
The definition used in the NPD Project Agreement is being applied to define the agreed Operational Functionality included in the Reference Design and is generally set out in the following constituents of the Reference Design:

- 1:500 Departmental Adjacency Layouts;
- 1:200 Departmental Layouts; and
- 1:50 Generic and Key Room Layouts.

Other areas of Operational Functionality are contained in other components within the Reference Design. Full details of the Mandatory Reference Design Requirements are set out in Appendix E (Reference Design Elements).

Bidders are required to develop design proposals which comply with the Mandatory Reference Design Requirements.

Bidders will be fully responsible for all elements of the design and construction of the Facilities including being responsible for verifying and satisfying themselves that the Mandatory Reference

Design Requirements can be designed, built, and operated to meet the Board's Construction Requirements.

The Board will consider, and may accept, changes to the Mandatory Reference Design Requirements (i.e. those elements relating to Operational Functionality) where a Bidder considers that those Mandatory Reference Design Requirements are not capable of meeting the Board's requirements (as described in paragraph 5.2.2 of Volume 1 of the ITPD).

Bidders are reminded of the definition of Operational Functionality which is the process to be adopted by Bidders in this regard is as follows:

- in the event that a Bidder considers that the Board's requirements cannot be delivered as a result of a specific Mandatory Reference Design Requirement, then the Bidder should notify the Board as to the specific element of the Reference Design where this is the case. Bidders must explain why the Board's requirements cannot be delivered and provide supporting information. In addition, alternative design proposals to comply with the Board's requirements shall be submitted by the Bidders as part of their Informal Submission for the next Dialogue Meeting;

- the Board will review whether they agree that the Reference Design does not comply with the Board's requirements and if so whether the alternative design proposals are acceptable (or any comments they have on the alternative design proposals);

- the Board will confirm to the relevant Bidder whether they agree and, if so, any comments the Board have on the alternative design proposals. In the event that this is agreed then the mandatory status of this element of the Reference Design will be relaxed.

The Board confirms that the drafting in the ITPD around Operational Functionality is not intended to mandate elements of the Reference Design which demonstrably do not affect or impact Operational Use (excluding Non-Clinical Services). For example, this would mean that consequential adjacencies could be amended. Consequential adjacencies are those adjacencies which occur in the Reference Design but not for any intentional operational reason.

For the avoidance of doubt, Bidders are advised that the Board shall be entitled to reject any proposed change which it considers does affect Operational Use (excluding Non-Clinical Services).

Following completion of the Reference Design some further adjustments were developed by the Board. These are set out in the Schedule of Proposed Adjustments contained in Volume 4 of the ISFT. Bidders are expected to incorporate these adjustments in their Final Tender. Bidders are required to provide a full breakdown of all costs (capex and opex) relating to item U1 "RHSC Specialist Paediatric Biochemistry Laboratory" included in the schedule.

2.5.1 Schedule of Accommodation and Reference Design Schedule of Accommodation

A schedule of accommodation has been developed by the Board to meet their requirements (the "**Draft Schedule of Accommodation**"). During the Dialogue Period a separate Draft Schedule of Accommodation was issued for the RHSC Specialist Paediatric Biochemistry Laboratories. While the Draft Schedule of Accommodation is not mandatory in itself, the areas set out within them are considered to be minimum areas. These minimum areas will only apply to elements which affect the Operational Functionality and Non-Clinical Services areas. Areas such as service spaces (including risers) and Hard FM spaces will be for the Bidders to determine since responsibility and risk for these non operational spaces will ultimately rest with Project Co.

A further schedule of accommodation is included as part of the Reference Design; this has been developed based on the room areas achieved, as drawn, in the Reference Design (the "**Reference**

Design Schedule of Accommodation"). Bidders are required to meet the minimum floor areas specified in the Draft Schedule of Accommodation however the Reference Design Schedule of Accommodation contains rooms where the area is less than the minimum requirements set out in the Draft Schedule of Accommodation. If Bidders cannot achieve the minimum floor areas for these rooms then it is acceptable, subject to agreement with the Board, for the rooms to be provided at the size achieved in the Reference Design. For the avoidance of doubt this will only apply to those individual rooms and not rooms of the same type or designation.

Bidders will be expected to develop a schedule of accommodation which will form part of their proposals (the "**Schedule of Accommodation**"). The basis of measurement of floor areas within that schedule shall be as set out in SHPN 04-01, Adult Inpatient Facilities, Figure 12: Diagram indicating communication, circulation and net floor areas.

This is considered by the Board to be an integral part of compliance with Quality Evaluation Criteria C12 and Bidders are required to confirm that the net areas within their designs have been measured in accordance with that SHPN.

Notwithstanding the foregoing, it has been agreed that the net area of Bedrooms within the Family Hotel will include the short length of entrance hall which gives access to the En-suite facilities.

Circulation and communication space indicated in the Reference Design is also considered to be indicative but any corridor widths specified will be treated as minimum requirements. This is also outlined paragraph 5.10 (Corridor Widths and Heights) of the Board's Construction Requirements. Therefore minimum corridor widths set out in the Reference Design are considered to be Mandatory Reference Design Requirements.

Any courtyards and terrace spaces are to be treated as communications spaces. These should be indicated on the Schedule of Accommodation submitted by Bidders but excluded from the measure of Gross Internal Floor Area.

2.5.2 Room Layouts

The 1:50 layout drawings included in the Reference Design cover the generic and key rooms only. Generic rooms are those rooms that are replicated more than four times across the Facilities ("**Generic Room"**). Key rooms are those that have critical operational requirements which the Board has identified for more detailed consideration and development at this early stage ("**Key Room"**). These include major spaces in the emergency department, operating theatre, radiology and outpatients departments. There are:

- 1839 rooms in total;
- 222 are covered under 88 Key Room types; and
- 756 are covered by 31 Generic Room types.

The Reference Design is developed in full at 1:500 and 1:200 scales. At 1:50 scale, where individual room layouts are detailed, the coverage is 53% of the total number of rooms (equating to 43% of the net floor area).

During Dialogue Bidders were required to develop 1:50 layout drawings for a selection of rooms. The Preferred Bidder will be required to develop 1:50 layout drawings for all remaining rooms prior to Financial Close.

2.5.3 Room Data Sheets

Standard format Room Data Sheets have not been prepared by the Board for the Project. The specific room requirements (the "**Room Information**") are detailed in a combination of the following documents:

- The Board's Construction Requirements;
- The Environmental Matrix;
- The Schedule of Operational Design Notes;
- The Equipment Schedule;
- The Equipment Responsibility Matrix;
- The Draft Schedule of Accommodation; and
- The Operational Functionality elements of the Reference Design.

Bidders will be required to develop Room Data Sheets, incorporating the Room Information, for those rooms for which 1:50 layout drawings were prepared in dialogue, as well as all Key Rooms and Generic Rooms. The Room Data Sheets will form part of the Bidders proposals.

The Preferred Bidder will be required to complete Room Data Sheets for all remaining rooms prior to Financial Close.

2.6 Indicative Elements of the Reference Design

During the preparation of the Mandatory Reference Design Requirements, other information has been generated both as a by-product of preparing the Reference Design itself and as a general Project requirement as follows:

(i) FM goods handling and distribution;
(ii) Structural engineering solutions;
(iii) Building services engineering solutions;
(iv) Servicing strategies and space allocations; and
(v) Hard FM solutions and space allocations.

This constitutes the "**Indicative Elements of the Reference Design**".

Such information is issued to the Bidders for "information only" so that they may understand the intent of the Reference Design. Bidders must however refer to the Board's Construction Requirements for the detailed requirements for all such Indicative Elements of the Reference Design for which they will ultimately carry the risk. Bidders are advised that the Board's Construction Requirements will always take precedence over the Reference Design for matters which do not define Operational Functionality. The full distinction between Mandatory Reference Design Requirements and Indicative Elements of the Reference Design are set out in Appendix E (Reference Design Elements).

2.7 Interface and Enabling Works

Introduction

The section is an overview of:

1. General background and information about the Works – see paragraph 2.7.1;

2. Works to be designed, constructed and replaced, repaired, renewed and maintained by Project Co as part of the Project. Sometimes these works are on the Site or on the RIE Site or Campus Site or even off the Campus Site – see paragraphs 2.7.2 and 2.7.3;

3. Works to be designed and constructed by Project Co as part of the Project but not intended to be replaced, repaired, renewed and maintained by Project Co – see paragraph 2.7.4;

4. Works which are being carried out by others and not intended to form part of the Project but are taking place at the Campus Site or off the Campus Site but which are nevertheless pertinent to the operations at the Campus Site as a whole – see paragraph 2.7.5;

2.7.1 General information relevant to the Works

The permanent and temporary Works and all construction operations for the Project should, save where expressly provided otherwise, generally be designed and constructed to enable them to be carried out and where appropriate replaced, repaired, renewed and maintained on and from within the Site.

The Site is part of the Campus Site and Project Co has to be aware of and plan and programme the Works having regard to the other activities and operations ongoing at the Campus Site.

At some points it may be necessary temporarily for Project Co to enter or have access across other parts of the Campus Site for construction activities and the Board has secured a number of rights for Project Co in respect of such other parts of the Campus Site.

As well as operations on the Site, Project Co will be entitled to use Car Park E for a site compound during the Construction Phase for the Works, subject to a number of restrictions on use as detailed in Section 3 (Site Compound/Car Park E) of Appendix A of the Board's Construction Requirements and Clause 9 (Nature of Land Interests) including with limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement. Further, in the event any activities on the Site involve oversailing any part of the Retained Site and/or the Retained Facilities then Project Co will require to develop an Oversail Strategy as detailed in Section 4 (Oversail) of Appendix A of the Board's Construction Requirements.

Where any construction and/or replacement, repair, renewal or maintenance activities are permitted at the Campus Site but off the Site then these activities are restricted to and must be carried out in accordance with the rights secured for such activities which rights are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement and such rights are subject to a number of conditions being met which conditions are further detailed in Appendix A (Interface with Campus Site and/or Campus Facilities) of the Board's Construction Requirements. Further restrictions on conditions and other information governing design, construction and replacement, repair, renewal and maintenance activities are detailed in the Board's Construction Requirements and Services Requirements.

Bidder should refer to section C (iv) on Interface Proposals.

2.7.2 Links with RIE

(a) Link Building

As set out in paragraph 2.3 (Stand Alone Requirements) the new Facilities shall be delivered as a standalone new build. However, the Facilities will be physically linked to the RIE Facilities at ground

and first floor levels. The part of the RIE Facilities to which the Facilities will be linked is called the Link Building.

The Link Building is being constructed as part of the key enabling works described in paragraph 2.7.5 (Enabling Works). Its construction is not intended to be part of the Project and it is intended to be completed prior to the Works commencing on Site. The Link Building shall ensure improved clinical functionality and service delivery, particularly between the emergency departments, operating theatres and critical care departments in the RIE Facilities and the Facilities. Project Co will be responsible for designing and constructing the Facilities to physically link to the RIE Facilities at the Link Building interface point as set out in Appendix B (Interface Output Specification) of the Board's Construction Requirements.

(b) RIE Works within the Campus Site but outside the Site boundary and maintained by Project Co

There shall also be building services links between the new Facilities and the RIE Facilities in respect of building services and other connections in terms of: -

- infrastructure associated with ICT;
- a pneumatic tube system (PTS);
- fire alarm system; and
- surface water drainage connections.

A new PTS will be designed and built which will run from the Facilities to the pharmacy and laboratories within the RIE Facilities. An ICT system will be designed and built which will run from the Facilities to link to the Board's ICT equipment/systems within the RIE Facilities. The Board will advise Project Co of the route for the PTS and ICT within the RIE Facilities. The Board will procure that Project Co will be given access to the RIE Facilities for the installation of the PTS and ICT and Project Co will be responsible for replacing, repairing, renewing and maintaining the PTS and ICT which have been installed as part of the Works. The Board will procure access for constructing, replacing, repairing, renewing and maintaining, PTS and ICT within the RIE Facilities, such rights of access are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement but are subject to design, construction and other information being provided to and approved by the Board and Consort about the PTS and ICT systems as detailed in Section 7 (Link Building) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix A. For more information about these systems please also see sections Appendix A of the Board's Construction Requirements.

The fire system for the Facilities will have to be designed and constructed and replaced, repaired, renewed and maintained such that they will be connected to, communicate and operate with the fire system at RIE Facilities. It is envisaged that such connections and a control box will be proximate to or within the Link Building. The rights to make and replace, repair, renew and maintain such connections are subject to design, construction and other information being provided to and approved by the Board and Consort about the fire system for the Facilities as detailed in Section 7 (Link Building) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix A. For more information about these systems please also see paragraph 4 of the Board's Construction Requirements.

(c) Service Strip / Foul Drainage

There may also be connections into some existing infrastructure for foul drainage. If Project Co requires to connect the foul drainage systems for the Facilities into the existing foul and surface

water drainage systems for RIE Facilities then foul drainage systems must be designed and constructed by Project Co such that they may be connected to foul drainage systems only at the agreed connection points in the Initial Drainage Proposal or within the Foul Service Strip shown shaded yellow and hatched black on Plan 2A serving the RIE Facilities. The Board will procure that Project Co will be given access to specified places and connections points on the RIE Site. Project Co will be responsible for replacing, repairing, renewing and maintaining the foul drainage systems serving the Facilities and the connections. The Board will procure access for Project Co constructing, replacing, repairing, renewing and maintaining the foul drainage systems serving the Facilities and connections as are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement, but are subject to design, construction and other information being provided to and approved by the Board and Consort about the foul drainage systems serving the Facilities as detailed in Section 6 (Service Strip and foul Service Strip) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix A. For more information about these systems please also see paragraphs 4, 6 and 8 of the Board's Construction Requirements and the Initial Drainage Proposal

A list of Interface Proposals from Bidders is required for those elements of the new Facility which will have to interface with the existing RIE Facilities and infrastructure serving RIE. These are detailed in Appendix A of the Board's Construction Requirements and summarised in Appendix C (iv) (Interface Proposals) of Volume 1 of the ISFT.

As regards design and construction of any electrical, gas and water connections these must all be independent services serving the Facilities and are not intended to connect into any such services serving RIE Facilities or the rest of the Campus Site and/or Campus Facilities. However wherever any such services have to be installed on the RIE Site, the locations for such services are restricted to certain areas, including the Service Strip which is shown shaded yellow and hatched black on Plan 2. Project Co will be responsible for design and construction and replacing, repairing, renewing and maintaining such services serving the Facilities. The Board will procure for Project Co access for such rights of access for constructing replacing, repairing, renewing and maintaining such services as are detailed in Section 3 (Ancillary Rights) of Schedule Part 5 (Land Matters) of the NPD Project Agreement but are subject to design, construction and other information being provided to and approved by the Board and Consort about the services as detailed in Section 6 (Service Strip and Foul Service Strip) of Part 1 of Appendix A of the Board's Construction Requirements and other applicable provisions of such Appendix. For more information about these systems please also paragraphs 4, 6 and 8 of the Board's Construction Requirements.

2.7.3 Other Works outside Campus Site

The Board has identified other works (the Off Site Works on the Bioquarter Site) which will be required to be carried out, by Project Co, outwith the Campus Site. This may include the provision of a dedicated Scottish Power Substation for the Project which may be located adjacent to Car Park F at the Campus Site in the area outlined in blue on Plan 4 although Project Co is invited to suggest alternative locations for any suitable power source outwith the Campus Site. If required, access to the Substation, if constructed adjacent to Car Park F detailed above, for construction and ongoing maintenance may be via the area shaded blue and hatched black on Plan 4. The cable route to the Facilities will be agreed with the Board and must enter the Site via the Service Strip (shown shaded yellow and hatched in black on Plan 2) and the cable route may not cross the RIE Site at any other point.

2.7.4 Retained Estate Handback Infrastructure

The Board has identified the following RIE Works which will be required to be carried out on the Campus Site but outwith the Site boundary. These works shall result in the Retained Estate

Handback Infrastructure and shall be Works carried out by Project Co but upon completion will not be maintained by Project Co but by or on behalf of the Board by or on behalf of Consort. These Works include the design and construction of:

(a) Hospital Square Infrastructure;
(b) Cycle Path Infrastructure;
(c) Petrol Station Site; and
(d) Drainage Infrastructure.

The Retained Estate Handback Infrastructure is more fully described in paragraph 4 of the Board's Construction Requirements.

For a summary of the proposed Petrol Station Works, the Petrol Station provisional sum and relevant background reports, Bidders should refer to Appendix L (Petrol Station Site) of the Volume 1 of the ISFT. This should be read in conjunction with the relevant updates to Volume 2 and Volume 3 of the ISFT.

2.7.5 Enabling Works

(a) RIE Enabling Works

The Board has identified the following enabling works (the "**RIE Enabling Works**") which will be required to be carried out on the Campus Site to meet planning requirements for the Project. These key enabling works will be carried out by or on behalf of the Board by or on behalf of Consort. These works are not intended to form part of the Project and it is intended they are completed or substantially completed prior to any part of the Works commencing on Site. The key enabling works, and their programmed completion dates, are described here for information purposes only.

(i) Flood Protection Works: which means the enhancement of existing flood protection measures at the Campus Site, to be completed October 2014;

(ii) Road Infrastructure Works: which means changes to the road and transport infrastructure at the Campus Site , including but not limited to the creation of a public transport terminus to the east of RIE Facilities, new bus stances and revision of existing car parking, to be completed March 2015;

(iii) VIE Relocation Works: which means relocation of the existing VIE plant serving RIE Facilities to another location on the RIE Site. Separate VIE plant is required for the Facilities to be completed December 2013;

(iv) Link Building Works: which means the building which is to be part of RIE Facilities to which the new Facilities will be connected at ground and first floor levels described in paragraph 2.7.1(a) above, to be completed December 2014;

(v) Service Diversion Works: which means the diversion of certain services such as electricity, water, gas, that serve RIE Facilities and are currently located on under or over the Site to positions outwith the Site to new positions within the RIE Site. However Project Co should note that not all redundant services are being removed and grubbing up of any diverted and redundant services will be the responsibility of Project Co as part of the Works. For the avoidance of doubt there shall be no diversion of the County sewer, the crèche's sewer and connection, the crèche's storm water sewer which it is believed run under the Site, to be completed October 2014;

(vi) Sewer Diversion Works: which means the diversion of trunk sewers currently located in the Site to positions on the perimeter but still within the Site to new positions within the RIE Site, to be completed March 2014;

(vii) Clinical Facilities: Reconfiguration/alteration of a number of clinical facilities within RIE Facilities; and

(viii) Way Finding: which means the installation of new comprehensive way-finding measures across the Campus at Little France (new signage and directional indicators as necessary).

(b) Flood Works

Off-Site Flood Protection Works – It is proposed to construct flood defence walls (approximately 1000mm high) to both sides of the Niddrie Burn in the Nether Craigour area upstream of the Old Dalkeith Road bridge to provide improved flood protection to the Campus Site. These works will be procured under a separate contract and do not form part of the Project.

2.8 BREEAM

Bidder's designs must achieve, as minimum, a "Very Good" BREEAM rating in line with the requirements for healthcare facilities as set out in the BREEAM Scheme Document for New Construction (SD5073) 2011. The designs must also achieve as a minimum, an "Excellent" level of performance for credit ENE 01 *Reduction of Emissions* in accordance with the requirements in the BREEAM Scheme Document for New Construction (SD5073).

2.9 Sustainable Design and Quality

Bidders are required to promote sustainable development by demonstrating an integrated approach to the social, environmental and economic well-being of the area served, now and for future generations. The Facilities will reflect the objectives of any local agenda strategy supported by the CEC and also satisfy the requirements of all health and social care guidance notes, as set out in Board's Construction Requirements associated with sustainability and environmental performance.

2.10 Community Benefits

The Board recognises the importance of sustaining the community and delivering against social considerations. As well as providing significant training and employment opportunities for the full Project Term, the Project also has the potential to drive significant initiatives relating to regeneration, sustainability and social benefits, aligning with the Board's strategic objectives.

Community Benefits clauses set out within Clause 73 (Community Benefits) of the NPD Project Agreement support this agenda. Provisions relevant to training and appropriate measures regarding supply chain contracts and engagement with small and medium sized enterprises and supported businesses are recognised as examples of the elements that may be taken into account.
Project Co will work in partnership with the Board and where appropriate, the Edinburgh Partnership and the agencies listed in paragraph 3.6 of Appendix I (Community Benefits) to deliver the Board's requirements in respect of both the Construction Phase and Operational Term of the Project.

Please refer to Appendix I and criteria B6 of Appendix A (ii) which set out the Board's approach to social considerations/Community Benefits and how Bidder proposals in these areas will be taken into account.

2.11 Facilities Management - Services to be provided by Project Co

The interface of facilities management (FM) services provided across the Campus Site will be addressed through the Little France Campus Working Group.

Project Co will be required to provide the Services which shall be a proactive facilities management and lifecycle replacement service. The key elements of the Services shall include, but not be limited to:

- Contract management;
- Performance management and monitoring via a helpdesk facility;
- Programmed and unprogrammed maintenance work of the mechanical, electrical and building fabric components of the Facilities;
- Procurement and management of Utilities;
- Lifecycle replacement of the mechanical, electrical and building fabric components of the Facilities, including all floor coverings;
- Hard landscaping maintenance;
- External façade cleaning / window cleaning; and
- Periodic cleaning of vents, extractors and luminaires.

For the avoidance of doubt, Bidders should note that the following items are excluded from the Services and will be delivered by the Board (or third party providers):

- Portable Appliance Testing; and
- Redecoration of walls and ceilings.

The detailed requirements for above are set out in Volume 3 of the ISFT and will ultimately become Schedule Part 12 (Service Requirements) of the NPD Project Agreement.

2.12 Services to be provided by the Board

Delivery of all Clinical Services in the Facilities will be the responsibility of the Board.
It is anticipated that soft FM services will be provided by a combination of the Board and third party providers contracted with the Board. There will be a number of operational interfaces not only with the Board's team but also the FM staff working within the RIE Facilities and so Project Co shall be required to adopt a collaborative approach to interfaces so that hard and soft facilities services are provided by Project Co, the Board and the RIE FM team effectively and in adherence with Board policies. Key to the success of that relationship will be the quality of the team and clarity of the agreement between the parties.

To assist Bidders in developing their proposals and understanding the interfaces with the Board and third party providers, information on the Board's proposed delivery strategies has been provided within Schedule Part 6 (Board's Construction Requirements), section 3, Sub-section E (Specific Non-Clinical Requirements) of the NPD Project Agreement covering items such as but not limited to:

- Linen Services;
- Waste Management/ Disposal;
- Materials Management;
- Portering Services;
- Catering Services;
- Routine, Periodic and Specialist cleaning;

- Domestic Services; and
- Delivery Area.

In addition the Board will be responsible for the maintenance and lifecycle replacement of Equipment that the Board is responsible for as set out in paragraph 2.15 (Equipment) and the Board Services.

2.13 ICT

The Project includes the design, construction and maintenance of comprehensive and robust infrastructure (e.g. containment, cabling and node rooms) for the Facilities in accordance with the requirements of the Board's Construction Requirements.

The Board will install hardware (e.g. servers, PCs, printers, scanners), make the final connections (at the application and in computer rooms) and commission the operational system. Future management of the telephone system and IT helpdesk will not form part of Project Co's scope of the Services. Instead, the telephone system and switchboard will be managed by the Board. The IT helpdesk service will also be provided by the Board.

A responsibility matrix relating to the ICT installations is contained in the Board's Construction Requirements.

2.14 Retail opportunities

The provision of catering and retail services within the Facilities does not form part of the Project. Catering and retail services shall be provided by the Board and associated parties (such as voluntary and/ or charitable organisations). These will be part of the Board Services.

2.15 Equipment

2.15.1 Equipment documentation

The following documents are contained within Volume 3 of the ISFT, which outline the Board's requirements in relation to Equipment and associated responsibilities:

(a) Equipment Schedule which shows all Equipment (Group 1, Group 2A, Group 2B and Group 3) which will be installed or anticipated to be installed in the Facilities presented on a room by room basis;
(b) Supplemental Equipment Schedule for U1 – RHSC Specialist Paediatric Biochemistry Laboratories: and

(c) Equipment Responsibility Matrix which shows for each different item of Equipment, the split of responsibilities between Project Co and the Board.

2.15.2 Groups of Equipment

Equipment included for the Project will include new equipment replacement, transfer and fit out of existing equipment, upgrade of existing equipment and new equipment included in developments.

(a) Group 1 Equipment

This is Equipment fixed to the building fabric (including fixed furniture e.g. cabinets, boards, blinds, brackets, shelves, TV brackets and illuminators) and/or attached to, or forming part of the building services (e.g. sanitary ware, sockets, outlets IT and medical, theatre lights, luminaries and pendants etc).

Project Co will generally be responsible for all Group 1 Equipment including specification, procurement, installation, maintenance and Lifecycle Replacement. However, the Board shall specify the details (both quantities and specification) for certain key items of Group 1 Equipment which are more clinical in nature (e.g. pendants in theatres and critical care).

The quantities specified for Group 1 Equipment in the Equipment Schedule are considered to be indicative by the Board. However, such quantities of Group 1 Equipment represent the minimum quantities acceptable to the Board. The exception to this are those items of Group 1 Equipment which the Board wish to specify – these are identified on the Equipment Schedule and will be considered to be mandatory.

(b) Group 2A Equipment

Project Co will only be responsible for the installation of Group 2A Equipment (and the installation of the replacement equipment at lifecycle intervals). The Board will be responsible for all other aspects of Group 2A Equipment (such as specification, procurement, maintenance and Lifecycle Replacement). Project Co will be responsible for designing Facilities which allow the Board to carry out their obligations in relation to Group 2A Equipment (including operation).

(c) Group 2B and Group 3 Equipment

The Board will be wholly responsible for all Group 2B and Group 3 Equipment including specification, procurement, installation, maintenance and Lifecycle Replacement. Project Co will not be responsible for any aspect of Group 2B or Group 3 Equipment however Project Co will be responsible for designing Facilities which allow the Board to carry out their obligations in relation to Group 2B and Group 3 Equipment (including operation).

Equipment included for the Project will include new Equipment replacement, transfer and fit out of existing equipment, upgrade of existing Equipment and new Equipment included in developments.

2.16 Surveys and Dialogue Period Ground Investigations

The ground investigation surveys which have been carried out to date are summarised in Volume 4 Data Room Contents. Warranties are not provided for these surveys.

The Board procured a Site Survey, the results of which were made available through the issue of the Factual Report via CLAR-00133 to all bidders. The Site Survey incorporated the agreed Bidder comments.

The Board shall not warrant this Site Survey. However, the Board shall procure that the party engaged to carry out the Site Survey provides a reliance letter to the Preferred Bidder in respect of the Site Survey.

2.17 Planning

An application for Planning Permission in Principle (PPiP) for the "erection of a Children's Hospital, including Department for Clinical Neurosciences (DCN) and ancillary facilities, helipad, associated enabling development including energy centre, Vacuum Insulated Evaporator (VIE), car parking, revised access and public transport arrangements, public realm works and landscaping, (car

parking, access and public transport arrangements in detail)" at Edinburgh Royal Infirmary, 51 Little France Crescent, Edinburgh, EH16 4SA was submitted to the CEC on the 29th July 2011.

The application (Reference 11/02454/PPP) was approved by CEC on 5th April 2012, subject to a number of conditions, and the conclusion of a Section 75 legal agreement.

The application was supported by a suite of information including a Design and Access Statement, which included the principles of design, sustainability, scale and massing. The application was also accompanied by an Environmental Statement in accordance with the Town and Country Planning (Environmental Impact Assessment) (Scotland) Regulations2011.

A subsequent stand alone permission (Reference 12/00479/FUL) was granted by CEC on 4 June 2012, for development of revised public access and revised public transport arrangements, associated car park remodelling, public realm works and landscaping. This followed the conclusion of a separate Section 75 legal agreement.

Various background papers relating to the application for PPiP and the application for Planning Permission, including Section 75 legal agreements are available within the Data Room.

The Preferred Bidder, once appointed, will be responsible for obtaining approval of the detailed scheme, in compliance with the conditions of the PPiP. This will require approval of matters specified in conditions. This will be required prior to Financial Close. The Board expects Bidders to have satisfied themselves before submitting their Solutions that their proposals will secure detailed planning consent.

2.17.1 Archaeology – Watching Brief

Bidders are advised that following negotiations with City of Edinburgh Council, a Written Scheme of Investigation for the archaeological watching brief has now been drafted (Condition 10 of the granted Planning in Principal 11/02454/PPP dated 5th April refers)

The Board has obtained prior agreement to the Written Scheme of Investigation from the City of Edinburgh Council Archaeology Service and formal written confirmation is awaited from the Principal Planner.

AOC Archaeology Group will be employed by the Board to undertake this service.

2.18 Artwork

The integration of art into the architecture and landscape to enhance the hospital environment is an essential requirement of the design. The Board welcomes innovative proposals for interactive art and wayfinding throughout the Facilities. Project Co will appoint artists to work with the Board on developing an arts strategy for the Project. Project Co shall carefully consider the arts strategy for the Board, including artworks and artefacts from the existing buildings that have been identified for transfer, and outputs from the 2010-2014 charitably funded Artists in Residence Programme within the RHSC and CAMHS.

The Board will be responsible for approving the whole art content in the Project and Project Co shall engage the Board fully in this process before any art work is commissioned.

2.19 Family Hotel

The Family Hotel is to provide “home away from home” accommodation for the families of children receiving inpatient care in hospital. This accommodation is free of charge to families at the point of

delivery, and aims to provide a supportive environment, and enable the whole family to be able to spend time together and close to their sick child.

It will provide overnight accommodation for families as well as facilities for parents whose children are resident on the wards, as outlined in the Specific Clinical Requirements section K2 (Family Hotel) of Sub Section D (Specific Clinical Requirements).

2.20 Achieving Excellence Design Evaluation Toolkit (AEDET)

Project Co will be required to provide design information for an AEDET assessment within one month of appointment as Preferred Bidder. The AEDET assessment will be facilitated by the Board with the assistance of Project Co, and carried out by key project stakeholders. The outcome of the process will assist Project Co to develop their proposals. Bidders are, however, reminded that their proposals shall ultimately be evaluated by the Board in accordance with the design deliverables and requirements laid out in the Invitation to Submit Final Tender.

A final AEDET review will be carried out on the design following the completion of construction and handover of the building to the Board.

3 COMMERCIAL OVERVIEW

3.1 Introduction

This section provides an overview of the commercial aspects of the Project.

3.2 NPD Structure

The Project will be delivered using the Scottish Government's NPD Model. The NPD Model was developed and introduced as an alternative to, and has since superseded, the traditional private finance initiative or "PFI" model in Scotland. It has been used in the education (schools) and health sectors. The NPD Model is defined by three core principles:

- Enhanced stakeholder involvement in the management of projects;
- No dividend bearing equity; and
- Capped private sector returns.

Projects funded using NPD Model principles will pay a fixed return to the holders of the junior or risk-bearing debt of the Project Co. All other distributions to equity (i.e. the holders of the shares and junior debt of the Project Co) will be prohibited. Surpluses arising after satisfying all precedent lines in the cash cascade, subject to any agreed buffer, will be payable to the Board as a rebate against Annual Service Payments. In this way, returns to investors are capped at the level bid during the procurement process.

Although contractors and funders are expected to earn a normal market rate of return as in any other form of privately-finance PPP deal, the NPD Model seeks to eliminate uncapped equity returns associated with the traditional PFI model and limit these returns to a reasonable rate set in competition.

3.2.1 Key features of the NPD Model:

These key features include:

(a) **Corporate structure**: The Board will contract with a special purpose vehicle (referred to in the NPD Project Agreement as "**Project Co**") which will be majority owned and controlled by the private sector investors. The Board will own a "golden share" in the Project Co which gives it certain controls over the corporate, governance and management structures within the Project Co. Project Co's articles of association must incorporate the mandatory NPD articles, produced by the SFT, that enshrine the fundamental principles of the NPD Model;

(b) **Public Interest Director:** One of the Project Co's directors will be nominated by the SFT and will bring an independent voice to Project Co's board and shall ensure a greater degree of transparency and accountability to stakeholders (the "**Public Interest Director**");

(c) **Refinancing:** Under the NPD Model the Public Interest Director has the right to instigate a refinancing on the same basis as the Board may instigate a refinancing under SoPC4 guidance;

(d) **Capped Returns:** This shall ensure that a "normal" level of investment return is made by the private sector and that these returns are transparent;

(e) Surpluses: Surpluses generated by Project Co shall be reinvested in the public sector; and

(f) Transparency: The public interest shall be represented in the governance of the NPD structure, which increases transparency and accountability and facilitates a more pro-active and stable partnership between public and private sector parties.

SFT provided a suite of contractual documents, comprising a NPD Project Agreement and articles to be adopted for use in this Project, appropriately amended for project and NHS-specific issues. These documents formed the basis of commercial dialogue from March to December 2013.

Further information on the NPD Model is available from the SFT website: www.scottishfuturestrust.org.uk.

3.2.2 Benefits of NPD Model

The NPD Model retains the benefits of traditional PFI structures, such as:

(a) optimum risk allocation;
(b) whole-life costing;
(c) maximised design efficiencies;
(d) robust programming of lifecycle maintenance and facilities management;
(e) performance-based payments to the private sector;
(f) single point delivery system, reducing interface risk for the public sector client; and
(g) improved service provision.

Also produces additional benefits, as set out in paragraph 3.2.1 above.

3.3 Overview of NPD Project Agreement

In terms of Volume 2 of the ISFT, this sets out the following documentation:

3.3.1 The Board's base NPD Project Agreement which reflects SFT's Standard Form NPD Project Agreement, as amended to reflect additional project specific amendments which have been agreed by SFT. In terms of these project specific amendments, please refer to paragraph 3.6 (Project Specific Changes) below;

3.3.2 A Final Tender (Bidder Specific) NPD Project Agreement which reflects all Bidder specific amendments agreed between the Board, SFT and each Bidder during the Dialogue Period. The Final Tender (Bidder Specific) NPD Project Agreement and its schedules shall regulate the relationship between the Board and Project Co.

3.4 General Approach in relation to NPD Project Agreement

The Preferred Bidder will be expected to enter into the Final Tender (Bidder Specific) NPD Project Agreement with the Board in the form set out in Volume 2 of the ISFT.

Only matters in relation to fine tuning and clarification of the Final Tender (Bidder Specific) NPD Project Agreement shall be addressed once the Dialogue Period has closed. Other than fine tuning and clarification issues, any issues not raised during the Dialogue Period will not be considered by

the Board if they involve changes to the basic features of the Final Tender Submission or the Project that are likely to distort competition or have a discriminatory effect.

The Board will also require the Direct Agreements to be substantially in the form set out in the Final Tender (Bidder Specific) NPD Project Agreement

To the extent that Bidders, their potential Funders, diligence teams and/or Sub-contractors had concerns about the terms of the Final Tender (Bidder Specific) NPD Project Agreement or any of the other key project documents including the Ancillary Agreements, these should have been raised with the Board during the Dialogue Period.

3.5 Derogation Procedure

The Board has raised all Bidder specific derogations with SFT during the Dialogue Period and has provided feedback to Bidders during the Dialogue Period as to whether such derogations have been either accepted or rejected by SFT.

3.6 Project Specific Changes to NPD Project Agreement

3.6.1 A number of project/sector specific amendments were agreed with SFT and were set out in the Board's base NPD Project Agreement for the ITPD.

The key project specific amendments included for the ITPD were:

a) **Lifecycle** Additional lifecycle drafting has been added at Clause 23A (Lifecycle Replacement) of the NPD Project Agreement to provide the Board with greater visibility in terms of lifecycle replacement.

b) **TUPE** The Board does not envisage that the Transfer of Undertaking (Protection of Employment) Regulations 2006 (TUPE) will apply to the Project or to any current Board staff. SFT's alternative drafting set out in Form 2 of Appendix 2 of the User Guide has therefore been added at Clause 25 (No Employee Transfer) of the NPD Project Agreement. In addition, Clause 26 (Pensions) of the NPD Project Agreement has been deleted.

c) **Board's right to stop Project Operations** In terms of Clause 13A, a new clause has been added permitting the Board to instruct Project Co to stop performing the Project Operations in the event of a (i) Stop Incident; (ii) potential impact upon Clinical Services, and/or (iii) the occurrence of a Major Incident. In terms of (ii) and (iii) a Compensation Event shall be available to Project Co if the Board instructs stopping the Project Operations on one of these grounds. In terms of (i), the consequences of this Board instruction shall be treated in a similar way to Clause 13 in relation to opening up of the Works.

d) **Indemnities** Additional limbs of the indemnity have been added in relation to breach of the Interface Proposals and/or breach of Appendix A of the Board's Construction Requirements and a breach of certain Reserved Rights. These are project specific requirements of the Board and primarily relate to Site issues which may have a wider impact upon the operation of the Campus Site.

e) **Insurance** The Board has undertaken a review of the insurable and uninsurable risks that may emanate from the Project. The insurance provisions and minimum requirements have been set out in Clause 53 (Insurance) and Schedule Part 15 (Insurance Requirements) of the NPD Project. In addition, waiver of subrogation option has been added at Clause 53.6 (Subrogation and Vitiation) of the NPD Project Agreement. Bidders shall be required to price this option as part of its Draft Final Tender and Final Tender as indicated in Financial Proformas 1a and 4.

f) **Community Benefits** SFT's drafting set out in Form 5 (Community Benefits) of the User Guide has been added at Clause 73 (Community Benefits) of the NPD Project Agreement (see 2.10, Appendix I and section B6 of Appendix A(ii) for further detail on how the Board is taking social considerations/Community Benefits into account in this procurement.

g) **Interface**

(i) *Interface*: Appendix A of the Board's Construction Requirements sets out the specific interface issues between the Facilities and the Retained Estate. Appendix A of the Board's Construction Requirements also requires Bidders to prepare certain Interface Proposals to address these specific interface issues.

(ii) *Interface Proposals*: The Interface Proposals shall include Bidder's proposals relating to construction access, operational access, oversail strategy, access areas strategy, drainage and substation proposals, service strip and foul service strip proposals and connection to the Link Building proposals. These Interface Proposals shall form part of Bidders Submissions and shall also form part of both the Draft Final Tender and Final Tender. The requirements for the Interface Proposals are more fully described in Appendix A of the Board's Construction Requirements, but shall be subject to conditions set out in Schedule Part 5 (Land Matters) of the NPD Project Agreement. However, for ease of reference, a list of Interface Proposals has been set out in Appendix C (iv) (Interface Proposals) of Volume 1 of the ISFT.

(iii) Little France Campus Working Group: The Board has established a Little France Campus Working Group in which Project Co will be required participate in. The purpose of this group is to support all parties on the Campus Site in order that they can work in partnership to deliver their responsibilities under Health and Safety legislation and the Construction (Design and Management) Regulations 2007 to ensure the safety of patients, staff and visitors and the operation of services on the Campus Site.

h) **Payment Mechanism** The NPD Project Agreement schedule has been amended to reflect the acute healthcare nature of the accommodation and incorporates the use of sessions as opposed to days as an element of the deduction formula for unavailability, in addition to the application of a gearing mechanism to the derivation of

Service Unit values.

3.7 Articles of Association

Project Co will be a private company limited by shares with the Articles of Association contained in Volume 2 of the ISFT which sets out the mandatory NPD provisions including membership of Project Co, the rights of the members, voting rights and controls on how revenue is to be used.
As part of the Final Tender, Bidders are requested to populate paragraph 4.1.5 of the Articles of Association in order that the Board is made aware of the amount of any cash buffer within the Financial Model.

3.8 Financial Aspects of the Project

In this Section, the ISFT sets out the following:

(a) key financial aspects of the Project that the Board considers to be of fundamental importance; and

(b) financial assumptions to be made by Bidders.

3.8.1 Affordability

The Board has developed a shadow bid Financial Model that produces an Annual Service Payment as derived from technical cost inputs that reflect the project scope and a set of assumptions that reflects current economic factors and funding market conditions. This model has been used to ensure that the Project is affordable to the Board.

The Board will be responsible for meeting the proportion of the Annual Service Payment related to Hard Facilities Management (Hard FM) services and 50% of the lifecycle maintenance expenditure. The Scottish Government will meet the remaining proportion of the Annual Service Payment via revenue support.

The Board will be responsible for meeting other costs such as soft facilities management services, utility costs and rates.

Scottish Government support for a proportion of the Annual Service Payment continues to be capped in relation to the construction cost of the project, including all construction related costs, including design fees. It has been set at an uninflated amount of £137,757,000 (based on a Q3 2011 base date) plus an inflation allowance calculated by reference to the BCIS All-in Tender Price Index from the base date of Q3 2011 to the index forecast at the assumed construction mid-point of Q4 2015. The indices at 27 November 2013 are Q3 2011 220 and Q4 2015 255 giving a current inflation of allowance of £21,283,457 and a total construction cap of £159,040,567.

This figure is the final cap level, which from this point forward is fixed and will not be adjusted further. All figures are net of VAT.

The table below summarises the key drivers of the Board's affordability position. The Board's expectation is that Bidders will seek to deliver financial proposals that remain within these constraints. The Board reserves the right to set aside any proposals from Bidders which are unaffordable.

Element	Notes	Amount
Capital cost	Scottish Government cap	£159,040,567
Annual real life cycle maintenance	None	£27 / sq m
Annual real hard FM	None	£29 / sq m
Capitalised bid development costs (excluding design fees)	As a percentage of construction costs	3%

3.8.2 Funding Approach

The Board requires a Funding Competition to be undertaken once a Preferred Bidder has been appointed. EIB have now confirmed that they would, subject to satisfactory due diligence, be willing to provide funding for the Project up to a value of £98.81 million. Further, EIB have indicated that they are willing to enter into discussions with Bidders, to sign confidentiality agreements and provide letters of support should these be required. A letter confirming EIB's willingness to fund the Project is included in Appendix B.

The Board has a strong preference that EIB funding is used to support the Preferred Bidder's proposals given the value for money that it will offer. However, the use of EIB funding is not mandatory - Bidders may continue to explore funding solutions that do not incorporate EIB funding should these have the potential to offer better value for money.

A set of funding terms that Bidders should use in developing their Draft Final Tenders and Final Tenders is appended to this document at Appendix B (iv).The terms provided are based on a combination of commercial bank and EIB funding provided on a 50/50 basis.

Where a Bidder proposes to utilise an Equity Bridge Loan, the same terms should be assumed as for the senior debt, that is, the relevant assumptions as to the pricing of the Loan should be extracted from Appendix B (iv)

3.8.3 Security package

Bidders are required to incorporate a fully priced security package into their bids. This package should be compatible with the funding structure and terms provided by the Board, at this stage assumed to be a commercial bank and EIB funded approach. Details of the pricing or this package should be inserted into the table included at Appendix B (v)

Bidders will be required to take the full risk of the pricing of the security package relating to commercial bank and EIB debt. If Bidders have not adequately priced the security package, they must bear the cost of any enhancement required.

In discussion with SFT, the Board has identified the likely security package requirement associated with a capital market funding solution. Bidders should populate the table at Appendix B (v) in relation to the pricing of such a package. The prices provided would be used in the case of a capital market solution being adopted following the post Preferred Bidder Funding Competition.

For the avoidance of doubt, the Board would expect to receive the benefit of any cost reduction arising from lower security package sizing requirements and would bear the risk of the cost

implications of a capital market solution requiring higher security package sizing requirements than those included in the table. Bidders will be expected to bear the risk of any variation in the actual pricing of the security package.

3.8.4 Due Diligence

Bidders are required to demonstrate that they have carried out a full due diligence exercise over their submission which would be accepted by potential Funders. Bidders must submit copies of completed due diligence reports as part of Final Tender submission.

3.8.5 Surpluses

In developing the Project the Board has assumed no prescribed levels of Surpluses are required to be paid during the concession period. Bidders should assume that any and all Surpluses that are generated will be paid to the Board as a rebate against the Annual Service Payment. Bidders should follow the accounting and tax advice, in relation to surpluses, as detailed below.

Any Surpluses produced by a Bidder's financial model will be included in the evaluation of price by applying 7% nominal discount rate in calculating the NPV of such Surpluses. Bidders should note that this discount rate is higher than that which will be used to evaluate the Annual Service Payment (6.0875%). This approach reflects the Board's strong preference for a lower and certain Annual Service Payment as opposed to an equivalent and less certain Surplus.

Any Surpluses forecast in Bidders' Financial Models should reflect the level of cash buffer that has been bid (see below) and the full impact of the terms of the Senior Funding Agreements, as these will affect the likelihood and timing of Surplus Payments actually being made to the Board.

Bidders may retain a cash buffer (over and above Senior Funders' reserves and covenants) in their Financial Models in order to deal with unexpected events that arise during the Project. Surpluses are required to be paid out only to the extent that these exceed the cash buffer. The cash buffer should be set at a level that is no higher than two months' worth of the indexing element of the monthly Annual Service Payment. The cash buffer itself should index. Bidders are free to propose a lower level of cash buffer, as this will allow an earlier release of surpluses which will be evaluated more favourably through the NPV calculation described above.

Bidders' Financial Submissions should clearly identify Surpluses available for distribution to the Board. Such Surpluses should be defined as:

(a) any Surpluses bid and included in the Financial Model over the operational period, including the period post repayment of debt;

(b) positive cash balances forecast in the Financial Model at the Expiry Date; and

(c) any Debt Service Reserve Account (DSRA) or Maintenance Reserve Account (MRA) balance released on repayment of debt (if not used to retire debt).

Payments of Surpluses to the Board should be assumed to take place on the last day of the relevant accounting period applicable.

3.8.7 SFT Policy on Accounting and Tax Treatment of Surpluses

In terms of the treatment of surpluses, Bidders should adopt the new Non Profit Distributing rebate of Annual Service Payment model advocated by the Scottish Futures Trust, whereby additional costs are accrued throughout each year of the project in order to reduce trading profits each year, reflecting the fact that profits are not distributed. This is a significantly more tax efficient method than

the previous approach commonly used of returning surpluses to the public sector under the gift aid relief method.

The tax and accounting treatment of surpluses is an evolving technical area for accounting and tax experts, whose accounting advice (and hence tax treatment), as provided to Bidders for NPD projects, is advancing rapidly. There is a range of treatments that accounting experts consider could be used to model the rebate structure. Whilst maintaining the principle of moving to a rebate model and seeking tax efficient proposals, Bidders should determine their own specific accounting, and hence taxation, approach in their final submissions with reference to the Board's submission requirement F12. It is not possible or desirable for the Board to mandate an accounting and tax approach at this time.

Bidders are required to include all costs associated with delivering the proposed treatment, including but not limited to advisory costs incurred in seeking clearances if considered necessary by the Bidder. Bidders are also expected to have undertaken diligence on behalf of funders and submit a tender, taking into account the accounting and tax treatment of surpluses, that is acceptable to the funding market.

It is not considered likely that HMRC will provide a clearance for tax treatment adopted as this will be dependent on the accounting treatment and standards adopted by the SPV in discussion with its auditors. However, Bidders must make their own decisions as to whether or not to seek advance tax clearance from the HMRC for any proposed treatments in respect of surpluses.

If the Bidder is to apply to HMRC for a non-statutory clearance regarding any other tax treatment applied, the Board will require such clearance to be obtained before Financial Close.

3.8.8 Interest Rate Risk

The Scottish Government will take the risk of changes in the reference interest rate (e.g. either the underlying London Interbank Borrowing Rate (LIBOR) rate or UK Government Gilt rate) up to Financial Close.

3.8.9 Foreign Exchange Risk

The Board will not accept any foreign exchange risk. Such risks should be absorbed entirely by Bidders.

3.8.10 Third party income

The Board does not anticipate that any third party income will be available within the Project and none should be assumed within Financial Submissions.

3.8.11 Capital and charitable contributions

For the purposes of the Final Tender, Bidders should assume that the Board will not inject any capital contributions into the Project, nor will there be any charitable contributions. This position may be reviewed at Preferred Bidder stage.

3.8.12 Validity of Submission

Bidders are required to price their Submissions anticipating a Financial Close of 2 October 2014. Bidders are required to maintain underlying construction, operating, FM and Project Co's costs for a period of three months from the target Financial Close date with no adjustment for inflation, meaning that should Financial Close be reached prior to 2 January 2015, the bid price will not be adjusted for the effects of inflation.

Bidders are also obliged to use all reasonable endeavours to mitigate the impact of any cost increases post validity period.

Bidders must confirm that the following cost indexes will apply in the post validity period:

(a) Construction costs – BCIS All in TPI

(b) Facilities management, lifecycle and SPV costs – RPI

3.8.13 Indexation

The Annual Service Payment will be indexed on an annual basis. The Payment Mechanism contains the formula for applying the inflation adjustment.

The Authority does not expect that a Bidder's funding solution will require the use of RPI hedging instruments. Any relevant financial submission should clearly demonstrate the proportion of costs that are fixed and the proportion subject to inflation. Bidders should set a rate of Annual Service Payment indexation that creates a natural hedge position given their cost structure. Bidders are required to develop their proposals on the basis of the use this natural hedge and to provide inflation sensitivities that demonstrate this as set out in the Financial Proformas.

3.8.14 Pass Through Costs

The Board will retain price risk associated with the defined pass through costs, those being insurance, rates and utility costs, as set out in the NPD Project Agreement. However, Bidders should note that the Board will review such costs in each Bidder's solution and allow for these in the Equalisation Adjustment as part of the Price evaluation process.

3.9 Financial Model

3.9.1 Key assumptions

Bidders are requested to note the following assumptions within their Financial Models, in addition to those noted above:

(a) For the purposes of their Submission, Bidders are provided with a LIBOR swap rate assumption as part of the Term Sheets included in Appendix B.

(b) Indexation of the Annual Service Payment should be based on RPI and not RPIx. RPI should be assumed as 2.5%.

(c) The Financial Model should be prepared in accordance with UK GAAP or IFRS.

(d) The date of Financial Close should be assumed to be 2 October 2014.

(e) The Financial Model should cover an operational period of twenty-five (25) years plus the construction period, with each year end assumed to be 31 March.

(f) The discount rate to be used in calculating all NPV figures should be 3.5% real and 6.0875% nominal, with the exception of the discounting of surpluses, which should be discounted at 7% nominal.

(g) All costs in the Financial Model should assume a price base date as at Financial Close with a first indexation point of the 1 April subsequent to Financial Close.

(h) The Bidders NPV calculation should discount cash flows back to the base date as at Financial Close.

(i) The NPV should be based on values at the mid-point of each financial period.

(j) Bidders should assume corporation tax rates which have been included in the Finance Act 2012 and announcements in the 2012 Autumn Statement;

(k) Annual Service Payment payments should assume 100% performance.

(l) Surpluses are as defined in Section 3.8.5 of this document and should be treated as indicated.

(m) Public Interest Director fees are to be included in the financial submission of £15,000 per annum, subject to indexation, and clearly shown in a separate row in the Financial Model and proformas.

(n) Construction insurance costs are to be included within the Financial Model.

(o) Pass-through costs (operational insurance costs, utilities costs and rates) are to be excluded from the Financial Model but should be shown separately within the Bidder's Financial Submission in Proforma FP1a. In the case of energy costs, Bidders should use the input unit price assumptions provided in the Proforma to generate the pass through cost, based on the projected energy usage inherent in the Bidder's proposals. For Non-Domestic Rates, Bidders should populate the Proforma FP1a using the calculator at Proforma FP1b. All such pass-through costs will be evaluated as part of the Equalisation Adjustment.

For a summary of the potential Equalisation Adjustment relating to Appendices to Schedule Part 16 – Change Protocol, Bidders should refer to Appendix A (vi) (Change Protocol) of the Volume 1 of the ISFT.

(p) All assets will revert to the Board on expiry for nil consideration.

(q) Debtor Days relating to revenue in the model should be assumed to be zero.

(r) No capital contributions should be assumed unless otherwise informed.

3.9.2 Financial model Format

Bidders must submit financial projections for each year of the NPD Project Agreement in the form of a computer Financial Model, which will become the Financial Model as defined in the Draft NPD Project Agreement.

The Financial Model must adhere to the following requirements:

(a) The Financial Model must be prepared using Microsoft Excel (2003 or later)

(b) The Financial Model should be free of error, including circular references or hard-coded values in non-input areas

(c) The Financial Model should be transparent, with the logic of all calculations capable of being followed through the model, with no hidden macros or password protected areas

(d) Financial projections should be presented on a monthly basis during the construction period and on a semi annual basis during operations (for each period ending 30 September and 31 March)

(e) All values should be expressed in £ sterling and to £'000's

(f) The Financial Model should identify input capital expenditure and operating costs which should be referenced to costs in the Technical Cost Proformas as required under Appendix A (v) and Financial Proformas as required under Appendix B (ii)

(g) The Financial Model should incorporate all of the Financial Proformas provided at Appendix B (ii), linked to worksheets in the Bidder's Financial Model so that the Proforma contents update automatically and can be reconciled to worksheets in which model calculations are performed

(h) The Financial Model should be capable of running sensitivities in all the key areas of risk that funders are likely to focus on. As a minimum this should include the following:

(i) Delay to Financial Close;

(ii) Capital cost increases;

(iii) Construction programme delays;

(iv) Operational cost increases;

(v) Lifecycle cost increases;

(vi) Insurance cost increases;

(vii) Interest rate changes;

(viii) Inflation rate changes;

(ix) Corporation tax and VAT rate changes;

(x) Deductions relating to the Payment Mechanism.

It is assumed that the Financial Model will be independently verified by the Bidder/Senior Funder as part of the process leading to Financial Close. Bidders are required to accept the risk that the model audit may prove the Annual Service Payment to be incorrect, and that they may not pass any additional costs on to the Board.

The Board will require sight of the Financial Model auditor's opinion letter that Bidder will obtain prior to Financial Close. For the avoidance of doubt the Board does not require a duty of care from the model auditors.

The Financial Model must include a print option macro.

3.9.3 Model Databook

The Bidder is required to provide a databook and user guide supporting the Financial Model for any relevant Submission. The databook should include the following details as a minimum:

- Summary of the content of the Financial Model, on a sheet by sheet basis;
- A table of location of inputs to the Financial Model with the cell/sheet reference and source;
- Copies of source documents (e.g. construction cashflow);

- An explanation of the methodology used to generate the financial projections;
- A definition of how the financial ratios are calculated;
- Details of the mechanisms contained in the Financial Model and an explanation of how key tasks in the Financial Model are carried out;
- A statement of the accounting policies applied to the Financial Model and their compliance with the relevant accounting standards;
- A detailed statement of the assumptions used in relation to tax.

3.10 Insurance

3.10.1 The Board has undertaken a review of the insurable and uninsurable risks that may emanate from the Project. Insurance provisions and minimum requirements have been set out in the NPD Project Agreement (at Clause 53 (Insurance), Schedule Part 15 (Insurance Requirements)) and Schedule Part 25 (Insurance Proceeds Account Agreement) in accordance with NHS Board requirements relative to NPD Projects in Scotland.

3.10.2 Insurances required under the Project will be reviewed and may be revised by the Board in line with Board strategy towards treatment of insurable risks in the Project, Project technical solutions and commercial considerations. Any such revision will form part of the Equalisation Adjustment made in relation to insurance pass-through costs.

3.10.3 A waiver of subrogation option has been added at Clause 53.6 (Subrogation and Vitiation) of the NPD Project Agreement. Bidders are asked to identify separately the costs associated with this waiver in Part C (Waiver of subrogation for Consort and Consort Parties) of Appendix G (Insurance Response Matrix) of Volume 1 of the ISFT.

Insurance Response Requirements

3.10.4 For the purposes of demonstrating compliance with the Board's requirements, and to assist in evaluation, Bidders are required to provide completed versions of the insurance matrices set out in Part 1 (Insurance Cost Matrix) and Part 2 (Insurance Technical Matrix) of Appendix G (Insurance Response Matrix) of Volume1 of the ISFT, clearly identifying where:

(i) there will be full compliance with the Board's insurance requirements; and

(ii) the Bidder proposes alternative solutions to satisfy the Board's requirements and the rationale for these.

3.10.5 Bidders should ensure transparency in both the Financial Model and ISFT Submission. Bidders are required to provide detailed Required Insurances premium calculations and full details of associated Project insurance related costs in accordance with the format set out in Part 1 (Insurance Cost Matrix) of Appendix G (Insurance Response Matrix) of Volume 1 of the ISFT. Bidders are required to complete the Part 2 (Insurance Technical Matrix) of Appendix G (Insurance Response Matrix) of Volume 1 of the ISFT in a manner which is consistent with their mark-up of the NPD Project Agreement. Costs presented in the Matrices should reconcile to the insurance pass-through cost values entered into Financial Proforma PF1a.

4 FINAL TENDER SUBMISSION

4.1 Final Tender

4.1.1 A Final Tender must not contain proposals which:

a. Materially differ from proposals presented / submitted to the Board in respect of matters which the Bidder was required to present / submit to the Board during the Dialogue Period;
b. Include key information that has not been presented and specified by Bidders during the Dialogue Period; or
c. The Board has previously confirmed as not capable of meeting its requirements; and
d. Include changes to the Final Tender (Bidder Specific) NPD Project Agreement.

4.1.2 The Preferred Bidder shall only be permitted to fine tune and clarify aspects of its Final Tender in line with the requirements of procurement law.

4.2 Board Evaluation Team

4.2.1 The Core Evaluation Team consists of the following members, representing various Board interests in evaluation:

- Brian Currie (Project Director)
- Iain Graham (Commercial and Legal)
- Janice MacKenzie (Clinical and Service Users)
- Jackie Sansbury (Operations and Commissioning)

4.2.2 The evaluation of each criteria will be led by a member of the Core Evaluation Team and will include members of the NHS Lothian project team and advisers.

4.3 Submission requirements for the Final Tender

4.3.1 Each Bidder shall ensure that its Submissions are provided using UK English, with all values expressed in UK Sterling/GB Pounds, using formats as specified in Submission Requirements.

4.3.2 The Final Tender shall be submitted no later than noon on the date for the relevant submission set out in the programme at paragraph 1.7 or such other date as notified by the Board to the Bidders.

4.3.3 Submissions or requests received after specified dates and times shall not be accepted for consideration and shall be returned unopened to the sender unless there are extenuating circumstances beyond the control of the Bidder in which case on being satisfied that such extenuating circumstances existed, the Board may at their discretion accept such submission.

4.3.4 Bidders shall ensure that one (1) electronic copy of the Final Tender are delivered electronically via Conject in accordance with the filing structure set up in Conject.

4.3.5 The filing structure on Conject will require a separate document for each criteria and each requirement outlined in ISFT Volume 1 Appendices.

a) Quality evaluation submissions: *No commercial / financial information should be submitted via these folders*

- Technical submission part A – executive summary *(excluding the overview of the Final Tender from a financial perspective)*
- Technical submission part B – strategic and management: separate folders for each of 15 criteria with supporting appendices
- Technical submission part C – design and construction: separate folders for each of 30 criteria with supporting appendices – *excluding C29*
- Technical submission part D – facilities management: separate folders for each of 14 criteria and any supporting appendices – *excluding D13*
- Technical submission appendix 1.1 – design deliverables
- Technical submission appendix 1.2 – specifications
- Appendix C (iv) Interface Proposals

b) All commercial / financial information should be contained in the following folders;

- Executive Summary (including the overview of the Final Tender from a financial perspective, including a summary of capital costs, Annual Service Payment and funding structures)
- Technical submissions – costs criteria files for C29 & D13 and appendices
- Financial Submission
- Legal submission

4.3.6 The electronically submitted final tender will take precedence over the hard copy.

4.3.7 Final Tender submissions shall not be accepted by email or facsimile unless otherwise instructed by the Board.

4.3.8 Bidders shall ensure that two (2) hard copies of the Final Tender, with a further two (2) hard copies of the response to Appendix A (ii) – Technical Submission Requirements are delivered by receipted mail or by hand to:

RHSC and DCN Project Offices
NHS Lothian
56 Canaan Lane
Edinburgh
EH10 4SG

4.3.8 The packages shall be clearly marked for the attention of the Project Director, Re-provision of RHSC and DCN at Little France.

4.3.9 No package should bear any mark indicating the Bidder's identity. If more than one package is delivered, they all shall carry some random unifying code number and an indication of the number of packages in total (e.g. 1 of 2, 2 of 2).

4.3.10 Each Bidder shall obtain a signed receipt acknowledging delivery of the Submission.

4.3.11 Each Bidders' Final Tender shall be presented in three volumes – volume 1: Technical response; volume 2: Financial response; and volume 3: Legal response. The content required in each section is defined in the following appendices to Volume 1 of the ISFT:

(a) Appendix A (i) (Not Used);

(b) Appendix A (ii) (Technical Submission Requirements);

(c) Appendix A (iii) (Design Deliverables);

(d) Appendix A (iv) (Specifications);

(e) Appendix A (v) (Technical Cost Proformas);

(f) Appendix A (vi) (Change Protocol);

(g) Appendix B (i) (Financial Submission Requirements);

(h) Appendix C (ii) (Legal Submission Requirements and Evaluation); and

(i) Appendix G (Insurance Response Matrix).

4.3.12 Each hard copy volume of a Bidders' Final Tender shall be filed in a separate folder with its contents clearly marked on the outside with Bidder's name, volume number, folder number and copy number for example Volume 2, folder 1 of 3, copy 1.

4.3.13 Hard copy submissions should be bound in a way that responses to each Quality Evaluation Criterion (as set out in the ISFT) can be extracted separately.

4.3.14 Each folder shall contain an index list for that folder which shall be bound immediately inside the cover, including the page numbers of each folder.

4.3.16 Each page of each volume shall be numbered clearly and sequentially.

4.3.17 Submissions shall not include any loose pages.

4.3.18 Drawings shall be numbered and a drawing list shall be included as part of the index list under the appropriate heading.

4.3.19 Drawings shall not be larger than A0 size and shall be clearly referenced, folded and inserted into pockets within the appropriate volume.

4.3.20 Each Bidder shall nominate and mark one copy of the Final Tender as the master copy. The master copy of the Submission shall be used as the primary source of reference during the evaluation process.

4.3.21 Bidders shall provide Final Tender Submissions that contain all the elements required and necessary for the performance of the NPD Project Agreement on the basis of the Solution presented and specified by Bidders during the Dialogue Period and accepted by the Board and SFT under the derogations process.

4.3.22 Final Tenders must be completed under the headings, using the tables and information supplied by the Board, and shall follow the order and numbering contained in Appendices A, B and C of this Volume 1 of the ISFT.

4.3.23 Final Tenders that include key information that has not been presented and specified by Bidders during the Dialogue Period and/or the Board has previously confirmed is not capable of meeting the mandatory requirements will not be accepted by the Board.

4.3.24 Bidders should provide such information as is necessary to enable the Board to evaluate whether a Final Tender is capable of meeting the Board's requirements.

4.3.25 The Board are entitled to modify Appendices A, B and C, of Volume 1 of the ISFT, the Board's requirements set out in Volume 1 of the ISFT generally, and/or require Bidders to omit specific aspects of a Solution at their absolute discretion where not agreed by the Board during the Dialogue Period pursuant to the parameters set out in the NPD Project

Agreement, the Board's Construction Requirements and/or SFT under the derogations process subject to ensuring equality of treatment amongst all Bidders.

4.3.26 General information such as marketing and promotional information will not be accepted by the Board and all information provided by Bidders must be specific to the information that is requested.

4.3.27 Bidders are required to provide a Final Tender that are acceptable to all legal entities (including, where relevant, any Senior Funders and relevant subcontractors) that are involved in the development of a Solution and the preparation of Final Tenders.

4.3.28 Bidders shall note that the Board shall reserve its position on the acceptability or otherwise of the Final Tender.

4.4 Conject

4.4.1 The Project will continue to use Conject during the Final Tender process. Conject, is a web-based construction collaboration portal. Procedures utilising Conject shall include:

(a) Data room access;

(b) Dialogue queries and Dialogue Period bulletin responses;

(c) Submitting completed Final Tenders.

4.5 Communication Protocol

4.5.1 All information and communication flows between the Board and Bidders during the Final Tender Period will be via Conject. The process for information and communication flows between the Board and Bidders including queries, bulletins, and request for clarifications is set out in paragraph 4.6.

4.5.2 Information and communication flows between the Board and Bidders will be categorised as follows:

(a) Dialogue Period Query (Confidential/Not Confidential – see paragraph 4.6.1) prepared by a Bidder and communicated to the Board relating to an ISFT process query only;

(b) Dialogue Period Bulletin prepared by the Board and communicated to a Bidder (in response to an ISFT process query only);

(c) Request for clarification prepared by the Board and communicated to a Bidder in response to a Final Tender Submission.

4.5.3 Please refer to Appendix D of Volume 1 of the ISFT for template form to be used by Bidders when sending a Dialogue Period Query.

4.5.4 The Board is entitled to decline to respond to any other form of information and communication flow sent by a Bidder.

4.5.5 Bidders may communicate a Dialogue Period Query to the Board no later than four (4) Business Days after the issue of ISFT.

4.5.6 The Board will endeavour to provide a Dialogue Period Bulletin in response to a Dialogue Period Query by no later than four (4) Business Days before the date of submission of Final Tenders.

4.5.7 Receipt of information and communications flows between the Board and Bidders will be recorded in accordance with Conject User Manual.

4.5.8 Additionally, the Board reserve the right to issue additional information at any time during the Final Tender Period. The Board may exercise the option to postpone the return of the Final Tender in the event that additional information is issued which has a bearing on the Final Tender.

4.6 Commercially sensitive and confidential information

4.6.1 If a Bidder considers a communication or any part of its submission to be commercially sensitive and wishes it to be treated by the Board as confidential they should make it clear in the relevant section of the Dialogue Period Query template form and explain in concise terms what harm may result from its disclosure.

4.6.2 If the Board does not agree that a communication is commercially sensitive, the Bidder will be invited to withdraw this communication. In the event that this invitation is declined, the Board will distribute a response to all Bidders.

4.6.3 If the Board agrees that a communication is commercially sensitive it will be treated in the strictest confidence by the Board subject to an entitlement to share such communication with the relevant members of the Board's Project team including advisers and key stakeholders for the purposes of preparing a confidential response.

4.7 Building Information Modelling (BIM)

Building Information Modelling (BIM) is being increasingly used within the industry. The use of BIM is being encouraged by central government and the Board expect that Bidders will use BIM for the development and implementation of their proposals.

Bidders shall prepare a BIM execution plan for review by, and agreement with, the Board. The BIM execution plan must be prepared in accordance with BS1192 and shall be submitted as part of their Final Tender. Appendix J contains further details of the Board's BIM requirements for the Project.

5 TENDER EVALUATION AND CONTRACT AWARD CRITERIA

5.1 Introduction

5.1.1 This section outlines the approach to the evaluation methodology for the Final Tenders.

5.1.2 Contract award will be on the basis of the offer, contained in the Final Tender, which is the most economically advantageous as set out in paragraphs 5.6 (Quality Evaluation Criteria), 5.7 (Price Evaluation) and 5.8 (Combining Price and Quality Evaluation), also in accordance with Part 5 of the Regulations.

5.2 Overview of Evaluation Process

5.2.1 The Final Tender evaluation will comprise the following steps:

(a) Completeness and compliance check – as more fully set out in paragraph 5.3 (Compliance and Completeness);

(b) Compliance with the Stand Alone Requirements – as more fully set out in paragraph 5.4 (Compliance with Stand Alone Requirements);

(c) Evaluation of all of the Quality Evaluation Criteria on a pass/fail basis - as more fully set out in paragraph 5.6.2 (Quality Evaluation Criteria)

(d) Evaluation of those Quality Evaluation Criteria that are evaluated on a scored basis - as more fully set out in paragraphs 5.6.3 (Quality Evaluation Criteria) which will result in a mark out of 40 being awarded to each Bidder;

(e) Price Evaluation (including commercial aspects) – as more fully set out in paragraph 5.7 (Price Evaluation), which will result in a mark out of 60 being awarded to each Bidder; and

(f) Combination of Price Evaluation Mark and Quality Evaluation Mark, resulting in a mark out of 100 being awarded to each Bidder, as more fully set out in paragraph 5.8 (Combining Price and Quality Evaluation).

Should a Final Tender fail any of the steps set out in paragraphs 5.2.1 (a), (b), or (c) above then the Final Tender will be deemed to be non-compliant and no further evaluation will be carried out.

5.2.2 Bidders should note that Board's requirements as referred to in Table B and Table C of paragraph 5.6 (Quality Evaluation Criteria) means all requirements of the Board as set out in Volume 2 and Volume 3 of (and any requirements referred to within) this ISFT.

5.3 Compliance and Completeness

5.3.1 The Board will check each Final Tender for compliance and completeness to establish if it has been prepared and submitted in accordance with and meets the requirements set out in the ISFT.

5.3.2 The Board is entitled to disqualify a Bidder if a Final Tender is not prepared and submitted in accordance with the requirements set out in the ISFT. The Board's decision on this matter will be final.

5.3.3 The Board is entitled, but not obliged, to seek clarification from Bidders at any time in respect of incomplete and ambiguous information contained in a Final Tender.

5.3.4 In the event the Board receives incomplete or ambiguous information in a Final Tender or response to a request for clarification the Board is entitled to disqualify a Bidder and the Board's decision on this matter will be final.

5.3.5 The Board may request a Bidder to clarify a Final Tender received, but such clarification, specification and/or fine tuning shall not involve material changes to a Final Tender when such clarifications, specifications or fine tuning are likely to distort competition or have a discriminatory effect.

5.4 Compliance with Stand Alone Requirements

5.4.1 The Board will check each Final Tender for compliance with the Stand Alone Requirements as identified in paragraph 2.3 (Stand Alone Requirements). Non-compliance with the Stand Alone Requirements will result in the Final Tender being deemed to be non-compliant.

5.6 Quality Evaluation Criteria

5.6.1 The Quality Evaluation Criteria (QEC), the basis for evaluation and, where relevant, their weightings are included in Table A below. Bidder's should note that Appendix A (ii) (Technical Submission Requirements) of the Volume 1 of the ISFT sets out for Bidder's (under the column "Submission Requirement") a description of technical aspects which the Board require, or where indicated anticipate Bidders should provide in their Submissions. Please note, however, that the individual submission requirements (for example, the bulleted points) are not and should not be treated by Bidders as sub-evaluation criteria. Bidders are reminded that the QEC are as set out in Table A (duplicated in the first, second and third columns of Appendix A (ii) (Technical Submission Requirements) of the Volume 1 of the ISFT for ease of reference) and responses to each QEC will be evaluated only in accordance with this paragraph 5 and no other basis.

5.6.2 The Board are keen to ensure that the Bidder appointed Preferred Bidder is able to deliver the highest quality in respect of all of its requirements. Therefore in the first instance, all QEC will be evaluated on a pass/fail basis. Primarily the QEC will be evaluated in accordance with the pass/fail criteria set out in Table B of this paragraph 5.6.2 However, in some instances the Board's requirements for a QEC are not set out in Volume 2 and Volume 3 of the ISFT and as such Table B shall not apply. In those cases the QEC shall be evaluated by the Board based on the pass/fail criteria set out in the column headed "Pass / Fail Guidance" (where relevant) in Appendix A(ii) of the ISFT. Bidders were made aware, pursuant to submission of Draft Final Tenders, of specific areas in which their draft proposals submitted at that stage did not constitute a pass.

5.6.3 Following the pass/fail evaluation the Board will then carry out a detailed assessment of the remaining Final Tenders to evaluate some of the QEC based on a scored evaluation. The scored assessment shall only apply to those QEC flagged as "scored" in Table A of this paragraph 5.6. Each of these scored QEC shall be given a score of between 5 and 10 in accordance with the scoring system set out in Table C of this paragraph 5.6. The score for each QEC will then be multiplied by the QEC Weighting and divided by 10 to give a weighted

score. The weighted score for each QEC will be added to give a total score for Quality out of 40 (the **Quality Evaluation Mark**).

Table B – Pass / Fail Criteria for Quality Evaluation Criteria

	Pass / Fail Criteria
Pass	The Bidders approach: • demonstrates a satisfactory understanding of the Board's requirements; and • delivers a satisfactory level of compliance with the Board's requirements.
Fail	The Bidders approach: • fails to demonstrate a satisfactory understanding of the Board's requirements; or • fails to deliver a satisfactory level of compliance with the Board's requirements.

Table C – Scoring System for Quality Evaluation Criteria

Scoring Range 5 – 10	Categorisation	Description
5	Satisfactory	The Bidder's approach: • demonstrates a satisfactory understanding of all aspects of the Board's requirements; and/or • proposes a solution which performs satisfactorily in complying with the Board's requirements.
6-7	Good	The Bidder's approach: • demonstrates a satisfactory understanding of all aspects of the Board's requirements and a detailed and good understanding of some aspects of the Board's requirements; and/or • proposes a solution which performs well against the Board's requirements.

Scoring Range 5 – 10	Categorisation	Description
8-9	Very Good	The Bidder's approach: • demonstrates a detailed and very good understanding of all aspects of the Board's requirements; and/or • proposes a solution which, performs very well against the Board's requirements.
10	Excellent	The Bidder's approach: • demonstrates an exceptional understanding of all aspects of the Board's requirements; and/or • proposes a solution which performs very well in complying with the Board's requirements and excels in complying with some of the Board's requirements.

5.7 Price Evaluation

5.7.1 Economic Cost

The Economic Cost of the Submission will be determined by calculating the Net Present Value (NPV) of each Financial Submission over the period of the NPD Project Agreement using the following components:

(a) NPV of Annual Service Payment - The proposed total Annual Service Payment stream in the Bidder's Financial Model, taken from Financial Pro-forma 1 and verified against the Financial Model, prepared using the assumptions and specifications set out in paragraphs 3.8 and 3.9. The NPV will be calculated using the Treasury real discount rate of 3.5% (6.0875% nominal);

(b) NPV of Surpluses - The forecast level of surpluses in the Bidder's Financial Model, as presented in Financial Proforma 2 and verified against the Financial Model will be deducted from the NPV of the total Annual Service Payment. Due to the more uncertain nature of the surplus payments the NPV will be calculated using a real discount rate of 4.39% (7.0% nominal);

(c) Equalisation Adjustment - Any additional material related costs and revenues to be borne by the Board as a result of any Financial Submission, including the pass-through costs of energy and utilities, rates and insurance costs as set out in Financial Pro-forma 1. The impact of such costs will be estimated by the Board and expressed as an NPV of the adjustments made, discounted at a real rate of 3.5%. Where an Equalisation Adjustment (other than the pass-through costs) has been made, the nature of and rationale for the adjustment will be disclosed to the Bidder; and

(d) Quantifiable Bidder Amendments - The Economic Cost will include an amount that reflects the deemed value (whether positive or negative) of any (i) amendments, caveats or qualifications to the NPD Project Agreement or specification that affect the risk profile of the Project or (ii) elements of the Financial Submission, that have or, in the reasonable opinion of the Board may have, a significant and quantifiable financial impact on the

Board (a '**Quantifiable Bidder Amendment'**). For this purpose, the deemed value of the Quantifiable Bidder Amendment will be the estimated financial impact to the Board of the risk occurring multiplied by the estimated probability of that risk being realised. Such values will be converted to an NPV using the 3.5% real discount rate.

Where any such Quantifiable Bidder Amendments and/or Equalisation Adjustments are identified, these were discussed and the deemed value shared with each Bidder during Dialogue.

5.7.2 Price Evaluation Mark

The Economic Cost derived from the components described in paragraph 5.7.1 will be scored as shown in the table below, with the Bidder with the lowest Economic Cost scoring the maximum 60 (the **Price Evaluation Mark**).

Deviation from lowest Economic Cost	Price Evaluation Mark
</=0.25%	60
>0.25%, </=0.50%	59.75
>0.50%, </=0.75%	59.625
>0.75%, </= 1.00%	59.5
>1.00%, </= 1.50%	59.25
>1.50%, </=2%	59
>2%, </=3%	58.5
>3%, </=4%	58
>4%, </=5%	57.5
>5%, </=6%	56.5
>6%, </=7%	55.5
>7%, </=8%	54.5
>8%, </=9%	53.5
>9%, </=10%	52.5
>10%, </=11%	50.5
>11%, </=12%	48.5
>12%, </=13%	46.5
>13%, </=14%	44.5
> 14%, </= 15%	42.5

Deviation from lowest Economic Cost	Price Evaluation Mark
> 15%, </= 16%	40.5
> 16%, </= 17%	37.5
> 17%, </= 18%	34.5
> 18%, </= 19%	31.5
> 19%, </= 20%	28.5
> 20%, </= 21%	24.5
> 21%, </= 22%	20.5
> 22%, </= 23%	16.5
> 23%, </= 24%	12.5
> 24%, </= 25%	8.5
> 25%	0

5.7.3 Evaluation of Funding Approach

The Board will evaluate Bidders' submissions in relation to funding on a scored basis. The areas of the submission that will be evaluated for this purpose are, primarily, the responses to questions F1-F7. However, responses to questions F8-F17 will also be taken into account where these would have a bearing on the deliverability of funding. Such scoring would be applied as an adjustment to the Price Evaluation Mark only and would not form part of the Qualitative appraisal.

The scoring scheme to be applied is set out in the table below:

Adequacy of response	Overall deduction from Price Evaluation Mark
All required information is provided, with no omission or qualification, and provides strong evidence that the eventual funding package adopted will be deliverable	No deduction
Required information is largely provided, with answers present for all questions, with only minor and insignificant omission or qualification, and provides reasonable evidence that the eventual funding package adopted will be deliverable	Deduction of 1 Mark
Information provided contains significant omissions and qualifications, with only some evidence provided that the eventual funding package adopted will be deliverable	Deduction of 2 Marks
Information provided is insufficient and contains multiple significant omissions and qualifications, with several questions not answered	Deduction of 3 Marks

adequately, with little evidence that that the eventual funding package adopted will be deliverable	

By way of example, the lowest priced Final Tender would be awarded the maximum Price Evaluation Mark of 60, but should that Bidder's responses in relation to funding be inadequate, the Bidder may sustain a deduction that could reduce this Mark to 57.

Bidders were made aware, pursuant to submission of Draft Final Tenders, of how their Draft Final Tender submissions would be scored under the above mechanism". The purpose of adding this wording is to reduce risk of arguments that bidders were unaware of how this process would operate

5.8 Combining Price and Quality Evaluation

For each Bidder, the Price Evaluation Mark (out of 60) will be added to the mark for the Quality Evaluation Mark (out of 40) to give a total mark out of 100. The Final Tender with the highest combined mark will be deemed by the Board to be the most economically advantageous tender.

6 GENERAL PROCUREMENT RULES

6.1 Introduction

This section outlines the general procurement rules applying to the Project competition relevant to submission requirements and elsewhere within the ISFT.

6.2 Information provided to Bidders – Confidentiality and Crown Copyright

By receiving the ISFT, each Bidder agrees to keep confidential the ISFT and all of the Information Provided.

Bidders shall not reproduce the ISFT in any form (including photocopying or storing by electronic means) or any other Information Provided for any purpose other than that specifically necessary to submit a Final Tender without the specific written permission of the Board.

The ISFT and Information Provided may be made available to a Bidder's members, employees and professional advisers directly involved in the appraisal of such information (who must be made aware of the obligation of confidentiality) but shall not, either in whole or in part, be copied, reproduced, distributed or otherwise made available to any other party in any circumstances without the prior written consent of the Board, nor may it be used for any other purposes than that for which it is intended.

The ISFT (including any copies and or any supplemental or referenced documents) and any Information Provided is and shall always remain the property of the Board who is entitled to demand their return and/or destruction at any time.

6.3 Information provided to Bidders - Warnings / Disclaimers

While the Information Provided has been prepared in good faith, it does not purport to be comprehensive nor to have been verified by the Board or any of their advisers. Neither the Board nor any of their agents or advisers accept any liability or responsibility for the accuracy, adequacy or completeness of any opinions, commentary, information and documentation contained in the ISFT or of any other opinions, commentary, information and documentation made available during the Tender Period or in respect of any Final Tender. No representation or warranty, express or implied, is or will be given by the Board or any of their agents or advisers with respect to such opinions, commentary, information and documentation. Any liability therefore is hereby expressly disclaimed.

It is not warranted that the Information Provided shall identify or provide Bidders with Solutions for the attainment of the Board's requirements. It is the responsibility of each Bidder to develop their proposals to ensure that they satisfy the Board's requirements.

Bidders must obtain for themselves at their own responsibility and expense all information necessary for the preparation of their Final Tender.

Bidders must complete and provide all information in accordance with the conditions and requirements of the ISFT.

6.4 Restrictions on the Use of the Invitation to Submit Final Tender

The ISFT and subsequent Information provided should not be considered as an investment recommendation made by the Board or any of its advisers or agents to any of the Bidders. Each person to whom the ISFT is issued should make its own independent assessment of the Project

competition and all matters relevant to that competition and to the Project after making such investigation and taking such professional advice as it deems necessary.

Nothing in the ISFT is, or should be, relied upon as a promise or representation as to the Board's ultimate decision in relation to the Project competition and/or the award of a public contract.

6.5 The Board's Right to Terminate

Bidders' attention is drawn to the fact that, by issuing the ISFT, the Board is in no way committed to accepting any Final Tender or identifying a Preferred Bidder.

The Board reserves the right, in its absolute discretion, to terminate, cancel or abandon the Project competition at any time before the execution of the NPD Project Agreement without giving prior notice to Bidders. In the event that the Project competition is so terminated, the Board will have no liability whatsoever to a Bidder, their subcontractor(s), their funders, the advisers to the Bidder or adviser(s) to any subcontractor(s) or funders for any costs incurred in connection with the Project competition.

6.6 Board's right to vary the process

The Board reserves the right, at its discretion, and subject to compliance with procurement law requirements:

6.6.1 to change the basis of, terms of or the procedure for, the process, including the timing, form and substance of the procedure of the Project competition. Under no circumstances shall the Board incur any liability in respect thereof.

6.6.2 to issue supplementary documentation at any time during the Project competition in order to clarify any matter and/or amend any aspect of the Information Provided.

6.6.3 amend the Board's requirements, Mandatory Reference Design Requirements, NPD Project Agreement and/or any other aspect of the Board's procurement documentation.

Any changes shall be communicated to Bidders as quickly as possible.

6.7 Conduct and Conflicts of interest

The Board wishes to avoid or resolve any conflicts of interest or other matters which may compromise its legal obligations relevant to conducting an open, transparent, fair and non-discriminatory competitive procurement. A Bidder must, accordingly, ensure that its participation in the Project competition that may lead to the award of a contract does not in any way compromise the Board's performance of its obligations.

A Bidder must consider these matters carefully on an ongoing basis and ensure that its actions are not capable of compromising the Board's ability to meet its obligations.
If in doubt, a Bidder must declare a potential conflict of interest and inform the Board of the measures the Bidder intends to implement to avoid it occurring.

The Board and Bidders will seek to agree the measures that are necessary to avoid any conflicts of interest or potential conflicts of interest arising.

In the event that an agreement cannot be reached and the Board considers its obligations in relation to the procurement are compromised, the Board reserves the right to disqualify a Bidder from the Project competition. The Board's decision on this matter will be final.

Each Bidder shall ensure that all relevant entities involved in its participation in the Project competition, including, without limitation, consortia members, subcontractors and all relevant technical, financial and legal advisers, are aware of the provisions of this paragraph 6 and do not breach any of the provisions set-out herein

6.8 Canvassing and contacts

Except as provided in the ISFT, Bidders shall not approach staff of the Board or staff of the Board's advisers or contractors with a view to obtaining information or clarification in respect of any part of their Submission or solution or attempting to support or enhance their prospect of being identified as the Preferred Bidder. Any such approach or attempted approach by a Bidder may lead to the Bidder's disqualification.

Bidders are required to complete a Certificate of Non-Collusion and Non-Canvassing as part of their Final Tender.

6.9 Disqualification/Rejection of Bidders

In accepting delivery of the ISFT, each Bidder agrees to abide by the provisions and conditions that it contains, or which are set out in any subsequent Information Provided in relation to the Project competition, in all and any dealings or communications, during the Final Tender or otherwise in relation to the Project.

The acceptance of the ISFT by a Bidder will imply acceptance of its provisions by Bidders without qualification. Any attempt to qualify provisions, either expressly or impliedly, may result in the Bidder being disqualified.

The Board reserves the right to reject or disqualify a Bidder where:

6.9.1 a Bidder's Submission is submitted late, completed incorrectly, incomplete or fails to include a Solution capable of meeting the Board's requirements; and/or

6.9.2 the Bidder or any person or entity involved with the Bidder's participation in the Project competition is guilty of serious misrepresentation in relation to any aspect of the Project competition; and/or

6.9.3 there is a change in identity, control, financial standing or other factor impacting on the selection and/or evaluation process affecting the Bidder including, where the Bidder is a consortium, changes relevant to Consortium membership and members , and such changes shall be addressed in accordance with paragraph 6.13; and/or

6.9.4 the Bidder or any person or entity involved with the Bidder's participation in the Project competition contravenes any of the terms of the ISFT or terms set out in any subsequent Information Provided, including within the Invitation to Submit Final Tenders; and/or

6.9.5 the Board becomes aware that information provided by the Bidder or any person or entity involved with the Bidder's participation in the Project competition is intentionally or unintentionally false, misleading or incorrect; and/or

6.9.6 the Bidder or any entity involved with the Bidder's participation in the Project competition prejudices the Project competition by failing to take steps to address a conflict of interest or

other matters which impact negatively on the Board's ability to meet its procurement law obligations.

6.10 Costs

All work undertaken and costs incurred by Bidders in relation to any stage of the Tender Period and any Final Tender, or otherwise in relation to the Project, shall be at each Bidder's own risk and expense.

6.11 Freedom of Information

FOISA and the Environmental Information (Scotland) Regulations provide significant and important rights to access information and the Board supports FOISA's and the Environmental Information (Scotland) Regulations' underpinning principles by encouraging behaviour which is open, transparent and increases public participation. Accordingly, all information submitted to the Board may be disclosed by the Board in response to a request under FOISA and the Environmental Information (Scotland) Regulations or in response to Legislation requiring the disclosure of information by the Board. The decisions of the Board in the interpretation thereof shall be final and conclusive in any dispute, difference or question arising in respect of disclosure. The Board may also decide to include certain information in the publication scheme which it maintains under FOISA and the Environmental Information (Scotland) Regulations.

Further, the Board may also disclose all information submitted to them to the Scottish or United Kingdom Parliament or any other department, office or agency of Her Majesty's Government in Scotland or the United Kingdom, and their servants or agents.

If a Bidder considers that any of the information to be provided is commercially sensitive, it shall be obliged to identify it and explain to the Board (in broad terms) what harm may result from its disclosure. Bidders should be aware that, even where it has indicated that information is commercially sensitive, the Board may be required to disclose it and as such reserves the right to do so. Bidders should be further aware that the basis of the preferred bid will be included within the Full Business Case that the Board requires to complete. The Full Business Case will be made a public document.

Bidders should also note that the receipt of any material marked 'confidential' or equivalent by the Board should not be taken to mean that the Board accept any duty of confidence by virtue of that marking.

The Board may publish, on the Scottish Government and the Board's websites, the names and contact details of Bidders who have been issued with the ISFT.

6.12 Collusion

Any collusion between Bidders, their subcontractors or advisers will lead to the exclusion of the Bidders involved at the discretion of the Board.

Bidders shall be required to sign the Certificate of Non-Collusion and Non-Canvassing and to submit it no later than five (5) Business Days from the date of issue of the ISFT.

6.13 Changes in Bidder Circumstances

Each Bidder is required immediately to bring to the Board's notice any change in the identity of any organisation, consortium member or entity identified and evaluated in its pre-qualification submission since the submission of the Pre-Qualification Questionnaire and such change may only be made with the prior written agreement of the Board. Any additional information provided by a Bidder pursuant to the requirements of this section will be evaluated in accordance with the selection criteria in respect of such information in the Pre-Qualification Questionnaire. The Board has selected the Bidders on the basis of information provided by them concerning their eligibility, the economic and financial standing, technical and professional ability. The Board reserve the right to withdraw the selection of a Bidder at any time if the Board concludes that a Bidder is ineligible, no longer satisfies the minimum standards of economic and financial standing or technical and professional ability or is otherwise required by its procurement law obligations to reject the Bidder.

6.14 Non Compliance

Any Submission provided without the Bidder complying with the requirements of the ISFT may be rejected by the Board.

6.15 Publicity and Media Statements

Bidders shall obtain the Board's specific written permission (on form, content and purpose) before any statements or other disclosures regarding their involvement in the procurement of the Project are made public (media, seminars, websites, conferences, promotional material etc).

6.16 Variant Bids

In accordance with the OJEU Notice, Bidders should be aware that no variant bids will be permitted.

Appendix A (i) – Not used

Appendix A (ii) – Technical Submission Requirements

The technical Submissions submitted by the Bidders shall be structured following the same numbering reference system as set out in the "Quality Evaluation Criteria and Reference" and the "Submission Requirement Reference" in the table below.

In relation to the technical Submission Requirements for C (Approach to Design and Construction), subject to the requirements of paragraph 4 of Volume 1 of the ITPD and to encourage and facilitate innovative technical solutions, Bidders are permitted to submit its responses in a format (e.g. written responses, drawings or other representations) which they consider most appropriate to best demonstrate an understanding of the Board's requirements and/or a solution which complies with the Board's requirements. However, as a minimum, the Board would require all design deliverables set out in AP1.1 and AP1.2 to be submitted as part of the Submission Requirements for C (Approach to Design and Construction) and each response (C1 to C31) should refer to which Design Deliverables within AP1.1 and AP1.2 support the response.

The technical submission requirements submitted by the Bidders in response to section C (Approach to Design and Construction) below will ultimately form part of Project Co's Proposals in accordance with the NPD Project Agreement.

The technical submission requirements submitted by the Bidders in response to section D (Approach to Facilities Management) below will ultimately form part of the Method Statements in accordance with the NPD Project Agreement.

The technical submission requirements submitted by the Bidders in response to section B (Strategic and Management Approach) below will form part of Project Co's Proposals and/or the Method Statements in accordance with the NPD Project Agreement.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
A. Executive Summary A1	Not Scored	n/a	A1.1	Bidders must submit an Executive Summary of their Final Tender. The Executive Summary shall include: • An overview of the Bidders' approach to the Project; • The Bidders' understanding of the Project, key Board requirements and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the main factors, as determined by the Bidder that will influence the deliverability of the Project. In addition a concise statement describing the Bidders' approach to address the factors identified; • An indication of what the Bidders bring to the Project by way of skills or innovative solutions to meet their own criteria for success; • An overview of the Bidders' accepted list of key assumptions or clarifications • An overview of the Bidders' proposed design solution and integration with the Site; and • An overview of the Final Tender from a financial perspective, including a summary of capital costs, the Unitary Payment and funding structures.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B. Strategic and Management Approach					
B1. Clarity, robustness and quality of understanding of policy framework and approach to addressing these.	Scored	0.16	B1.1	Bidders must submit proposals setting out their understanding of the relevant local and national health policies and describe how these strategic issues have been included within the Bidders' Final Tender submission, in particular with respect to the delivery of solutions specific to this Project.	To Pass, Bidders will be required to demonstrate a clear understanding of national health policies specific to the Project.
B2. Clarity, robustness and quality of approach to contribution to delivering the Board's 'vision' and associated performance management regime	Scored	0.32	B2.1	Bidders must submit proposals setting out how their proposals will enhance and contribute to the Board's vision. Bidders should explain their role in delivering the Board's vision, and include proposed performance management mechanisms for demonstrating Project Co's contribution to the achievement of this vision.	To Pass, Bidders will be required to demonstrate that they will contribute to the Board's vision.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B3. Clarity, robustness and quality of understanding of Project outcomes and approach to contribution of delivering these	Scored	0.57	B3.1	Bidders must submit proposal setting out their understanding of the Project outcomes (as outlined in the Boards benefits realisation plan) and how their proposals will contribute to the delivery of outcomes/benefits with specific details of how the Bidder has already addressed these in their Final Tender submission, or how they will be addressed after Final Tender submission. Bidders must also outline what they offer by way of skills and/or innovative solutions to deliver these outcomes/benefits.	To Pass, Bidders will be required to demonstrate that they understand the Project outcomes and will contribute to these.
B4. Clarity, robustness and quality, of approach to partnership and collaborative working with the Board and its partners	Scored	0.81	B4.1	Bidders must submit a method statement outlining their approach to collaborative working and developing and maintaining a successful long term partnership with the Board and its partners, (i) in the period from Preferred Bidder appointment to Financial Close; (ii) throughout the construction period; and (iii) operational period of the contract confirming in their proposals: • What they believe to be the factors critical to achieving a successful relationship (both short term and long term);	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to collaborative working.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Their understanding of the key interface issues and how they intend to manage these and integrate with the existing relationships; • How they will develop and maintain a full understanding of the Boards' objectives including matters identified during Dialogue; • How their objectives can reflect and adapt to the Board's goals as they evolve over time; and • The manner in which they will conduct themselves that accords with the culture of the Board, local communities and other key stakeholders to the Project.	
B5. Clarity, robustness and quality of approach to staff development including recruitment, training, induction and HR issues	Scored	0.32	B5.1	**Recruitment** The Bidders must submit proposals setting out details of the following: • Approach to recruitment and vetting of staff, including as appropriate relevant security clearances (e.g. Disclosure Scotland, Protection of Vulnerable Groups Scheme etc); • Procedures for working in areas with children or vulnerable persons; and	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to staff development.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of its employment policy and evidence that employees and prospective employees are treated fairly irrespective of race, gender, religion, disability or background.	
			B5.2	**Human Resources Issues** The Bidders must submit proposals setting out: • Details of their Occupational Health approach for staff having come into contact with high risk person or areas.	
			B5.3	**Training and Induction** The Bidders must submit proposals setting out: • Details of any achievement in relation to the Investors In People initiative (or equivalent); • Details of the Bidder's employee development and appraisal system; • Details of its own and its supply chain's training policy and procedures, including an indication of the training to be offered to the on-site staff specific to this Contract and a statement of the percentage of their annual turnover which is spent on staff training;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of induction programme and ongoing training for staff, specifically working with HV systems and Legionella control; and • Details of induction programme for sub-contractors.	
B6. Clarity, robustness and quality of approach to delivering community benefits	Scored	0.32	B6.1	Bidders must submit their proposals to deliver community benefits as part of the Project in accordance with Clause 73 (Community Benefits) of the NPD Project Agreement and Appendix I of Volume 1 of the ITPD. These should include specific proposals covering economic, environmental and social benefits related to the Project during both the construction and operational stages of the Project.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to community benefits (including complying with the minimum targeted recruitment numbers set out in Appendix I Section 2.1).
B7. Clarity, robustness and quality of approach to integration of design with facilities management considerations	Scored	0.32	B7.1	Bidders must submit proposals demonstrating how a consistent and a coordinated approach will be developed and assured between the building design and FM solutions. Bidders shall take account of the hard FM site interface issues and integration with the soft FM which will be provided by the Board. Bidders responses shall include specific	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to integration of design with facilities management.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				proposals on: • How their design development process will consider and incorporate the FM aspects at each stage of the process from pre financial close through to construction; and • The method by which design coordination issues will be managed and FM interface issues raised with the Board and its partners.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B8. Clarity, robustness and quality of approach to consortia management arrangements including approach to sub contractors	Scored	0.57	B8.1	Bidders must submit proposals setting out details of how its consortium will be managed, setting out the key roles and their responsibilities including technical roles within their consortium they have identified as key to the Project during contract finalisation, construction and operational stages and Project Co's role in leading the project management. This shall include team leaders for all principal disciplines, both before and after financial close, and may include but not be limited to the following: • Project and programme management; • Risk management; • Design; • Works; • Services; and • Quality, safety and environmental management including HAISCRIBE and BREEAM.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to consortia management proposals.
			B8.2	Where any element of the Works and/or Services are to be provided by subcontractors other than the Contractor or Service Provider(s) Bidders must submit details of: • The selection process undertaken for such sub contractors that are confirmed at the time of submitting Final Tender, and/or the selection process (including timescales) that will be undertaken for	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				those subcontractors yet to be confirmed; and • The manner in which performance of the sub contractors will be secured and integrated within the overall performance requirements of the Board's output specifications.	
B9. Quality of proposed personnel	Scored	0.32	B9.1	Bidders must submit a summary curriculum vitae (maximum of two pages per person) of the personnel proposed for the roles identified in B8 above which shall include (as a minimum) details of key experience, education and professional status.	To Pass, Bidders will be required to demonstrate that their key personnel have satisfactory levels of experience.
B10. Clarity, robustness and quality of approach to continuity throughout the Project	Scored	0.32	B10.1	Bidders must submit proposals setting out their continuity plan for all stages of the project. The key matters to be addressed will include: • how any changes in personnel between their pre and post financial close teams will be managed and communicated; • describe how as part of the design development process they view Project Co's role in ensuring design continuity and knowledge transfer. This will include how they will achieve design team continuity throughout the whole design development, construction and operational phases considering the consortium team and design organisations, and the key personnel	To Pass, Bidders will be required to demonstrate that there will be continuity throughout the Project.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				working within each of those organisations. The continuity plan shall address proposals for the role of design staff on-site during the development and the Works phase; and • the submission should particularly address the issue of consistency of personnel throughout the project and the need for procedures to deal with knowledge transfer to ensure smooth transition when required.	
B11. Acceptable organisational diagrams for each stage of Project	Pass/Fail	n/a	B11.1	Bidders must submit organisation diagrams for the consortium including the lines of communication with the Board and other key stakeholders for each of the phases of the project including: • contract finalisation (appointment of Preferred Bidder to Financial Close); • construction and commissioning period; and • operational term.	To Pass, Bidders will be required to demonstrate a clear organisational structure for each stage of the Project.
B12. Clarity, robustness and quality of approach to health and safety	Scored	0.81	B12.1	Bidders must submit a detailed health and safety strategy which the Bidder proposes to adopt to comply with in fulfilling their health and safety obligations throughout the project, covering the following phases: • contract finalisation (appointment of	To Pass, Bidders will be required to demonstrate they will adopt a robust approach to health and safety.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Preferred Bidder to Financial Close); • construction and commissioning period; and • operational term. In particular, the proposals should address Project Co's leadership role and key project roles throughout and particularly in the delivery and management of the Project on a 24/7 operational site, addressing key issues such as: • The Boards requirements; • Operational continuity requirements of the RIE Facilities; • Obligations to connect to and maintain critical service connections; • Traffic management – construction and operational access/ egress; • Compliance with HaiScribe requirements; • Construction activity; • Linking to a live operational major health facility; • Proximity to live operational general hospital facility (24/7) and medical school; • Security issues; • Access and maintenance requirements of the project; • Pollution control; • Noise, dust, water egress, and vibration issues and the like; and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				• Details of business continuity plans.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B13. Acceptable approach to environmental, quality and health and safety management systems	Pass/Fail	n/a	B13.1	Bidders must submit proposals setting out how Project Co intends to set up, manage, maintain, work towards and gain accreditation of its environmental, health and safety and quality management systems including specific proposals on: • The systems to be developed and implemented; • How these systems will be put in place; • The process for the development of the systems; • Interim measures while the systems are being developed; and • Timescales for accreditation.	To Pass, Bidders will be required to demonstrate that they will adopt an acceptable approach to management systems.
			B13.2	As a minimum Bidders must submit proposals setting out the following aspects of their environmental, health and safety and quality management systems: • Proposed document management systems; • Verification procedures for design work; • Detailed change control procedures for each stage of the Project; • Procedures and a programme for carrying out Project reviews; and • Description of the procedures to co-ordinate and manage the design process including the interface between design teams and continuity of design team members (as set out in B10). In addition,	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				a statement of how and when design changes will be reviewed and commented on by Project Co/ Service Provider.	
			B13.3	Bidders must submit propoals demonstrating that they operate an accredited Health and Safety management system complying with the OHAS 18001 standard.	
B14. Clarity, robustness and quality of approach to management of design development including integration with the Board and its partners	Scored	0.16	B14.1	Bidders must submit proposals setting out : • Their approach to managing the Project's design development, with particular emphasis on development post Final Tender, including proposals for interface with specific sub-groups harmonising with the current Board Project structure. The submission should include a description of the procedures to co-ordinate and manage the design process and to interface with key stakeholders, including document management, verification of design, change control during design development and design reviews; and • The management and review structures and procedures that will be put in place by the Bidder to manage potential conflicts, delays, changes in the Board's goals and other issues at each key design stage of the Project.	To Pass, Bidders will be required to demonstrate that they will adopt a robust approach to management of design development including a commitment to working with the Board.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
B15. Acceptable programme from appointment as Preferred Bidder to Financial Close	Pass/Fail	n/a	B15.1	Bidders must submit a week by week programme covering the contract finalisation period from appointment of Preferred Bidder until Financial Close with a detailed breakdown of the key tasks to be completed by the end of each week with the critical path and key milestones shown. Bidders shall supplement the programme with commentary on, as a minimum, the following matters: • Mechanisms that will be adopted to ensure that the critical path for the technical, legal and commercial activities will remain on programme, and therefore that the overall Project programme is maintained; • Confirmation of key inputs, timescales and required by dates for the Board to review/approve Bidder submissions during contract finalisation; • Confirmation that their overall programme to Financial Close, is achievable; and • Key risks to the Project proceeding on programme shall also be identified, with a brief commentary on how the Bidder proposes to mitigate each risk.	To Pass, Bidders will be required to submit a logical and deliverable programme.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C. Approach to Design & Construction					
C1. Clarity, robustness and quality of approach to meeting the stakeholders requirements in their design	Scored	2.64	C1.1	The Bidders must submit proposals setting out their approach to meeting the stakeholders requirements in their design. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Evidence that they are sensitive to the co-location of the RHSC and DCN and that they will take advantage of this arrangement to maximise their design; ii. Evidence that they are aware of the wide range of stakeholders associated with these departments and that they understand and will cater for all their requirements in their design; iii. Evidence that their bid will deliver a nurturing, engaged and safe community that supports the well being of all patients, carers, families, visitors and staff; iv. Evidence that their design will provide	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				a healing environment that will assist the Board in its core obligation to deliver clinical care to users of both the RHSC and DCN; v. Evidence that their design will include particular consideration of the proposed external spaces, therapy gardens and landscaping, communal patient areas for example quiet and television rooms, public areas; vi. Evidence that their design will adequately address security requirements; vii. Evidence that their design will fully incorporate infection control requirements and HAI Scribe; and viii. In particular for the RHSC and CAMHS, we would expect the Bidders to demonstrate how the design will be developed to achieve: i. Facilities that are a beautiful place with children and young people at the centre of a nurturing, engaged and safe community; ii. Facilities that are reassuring, relaxing, convenient and safe with the needs of children and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				young people and those with disabilities expressly addressed; and iii. Facilities that provide an appropriate balance of internal and external play `areas. In relation to the DCN, we would anticipate Bidders shall demonstrate how similar qualities to the above (ix (i – iii) but also in addition, how the design will be developed to achieve a nurturing, quiet and relaxing environment for its patients.	
C2. Clarity, robustness and quality of approach to design quality	Scored	1.85	C2.1	Bidders must submit proposals setting out their approach to achieving design quality. This must be provided as set out in C2.1 – C2.3 below: Bidders must submit proposals setting out how the design will be developed to integrate the architectural, mechanical, electrical and civil and structural engineering aspects of the design to present a cohesive innovative design which meets all the Board's construction and stakeholders' requirements (including infection control and HAI Scribe	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				requirements). The submission shall utilise all Mandatory Reference Design Requirements to deliver a solution across all disciplines.	
			C2.2	Bidders must submit proposals setting out their design analysis of both the site and the Board's requirements as depicted in the Board's Construction Requirements. The review of the site shall identify, as a minimum, opportunities, constraints and access and planning issues.	
			C2.3	Bidders must submit proposals setting out a clear statement summarising what they understand to be the key strategic issues relating to the project and demonstrate how the design proposals have dealt with these specific project issues, and any impact their proposals will have on such matters.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C3. Clarity, robustness and quality of architectural and landscape design	Scored	2.64		Bidders must submit proposals setting out their approach to architecture and landscape design. This should be provided as set out in C3.1 – C3.3 below:	
			C3.1	Bidders must submit proposals setting out their approach to architecture design. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. How the design will deliver world class architectural design practice in delivering Facilities that support the Board's clinical needs and a design which provides a high level of creativity; ii. How the design will provide an ordered composition of building elements in a stimulating form that successfully combines good standards of space, height, form, scale and use of materials and colours / images with associated functional requirements and the surroundings; iii. How the design will address the interests of stakeholders, including (but not limited to) clinicians, patients (and their representatives, families	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				and carers), health commissioners, Local Government, and the local community; iv. How the design will deliver architectural quality and demonstrates how this will be provided; v. How the design will deliver the lines of sight and views from windows which are suitable for children and young people; vi. How the design will provide age and ability appropriate art and way finding design which is integrated into the design solution; vii. How the design will fully consider all aspects of safety in all areas and a description of how risks have been removed through design innovations; viii. How the design will fully address control of infection and HAI Scribe; and ix. How the design will minimise cleaning and maintenance of all elements of the Facilities by choice of materials, layout and orientation and shows how such activities can be carried out safety and without disruption to clinical activities.	
			C3.2	Bidders must submit proposals demonstrating how they will deliver high	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				quality architectural buildings, and high quality finishes and component parts. As well as the architectural drawings and supporting information, Bidders shall provide specific details in detailed specification format to include the following: i. Internal and external doors and door furniture, also showing proposed pattern of vision panels; ii. Washing and toilet facilities; iii. Reception desks and touchdown bases; iv. Communal patient areas, which include spaces such as playrooms, television rooms and quiet rooms v. External therapy gardens and external covered play and seating areas vi. Floor and wall coverings; vii. Natural and artificial lighting particularly in key public areas, artwork and key clinical areas such as theatres; viii. Samples of worktops and wall cupboards shall be provided for approval by the Board; and ix. Juxtaposition of main external finishes / cladding.	
			C3.3	Bidders must submit proposals setting out	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				their approach to external hard and soft landscaping (including courtyards and therapy gardens) which shows how the design will be developed for therapeutic use and how it provides patient and staff access and how it enhances the environment of the Facilities. The proposals should demonstrate how the principle elements of external landscaping will be designed. to: i. Complement the RHSC and DCN buildings and the neighbouring RIE; ii. Minimise the risk of vandalism and crime; iii. Facilitate security of pedestrians and avoided 'no-go' areas in their design. Ensure site safety and link with the Green Travel Plan; iv. Minimise maintenance and operation costs; v. Ensure easy maintenance and cleaning whilst minimising health and safety issues; vi. Provide appropriate fire safety routes for all users; vii. Incorporate SUDS and other sustainable features; viii. Incorporate art work; and ix. Incorporate lighting, heating, seating, canopy and wind protection arrangements which are appropriate	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				for young children and less disabled people. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) those items listed in (i) – (ix) above.	
C4. Clarity, robustness and quality of approach to delivering innovation	Scored	2.64	C4.1	Bidders must submit proposals setting out their approach to delivering innovation. This should be provided as set out in C4.1 – C4.4 below: Bidders must submit proposals setting out where it will be, or has been possible to provide innovative solutions to meet the Board's requirements. Innovation in design can range from whole concepts of hospital planning, distribution of functions etc to the building solution (e.g. use of prefabricated units) to detail design of components, materials, spaces, use of technology and art	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				etc. Bidders must show how their design reflects current and developing innovations in healthcare delivery and construction generally and translate these into an innovative building solution.	
			C4.2	Bidders must submit proposals setting out how their design, using innovation, will optimise the sustainability of the Facilities. Bidders must provide details of their strategy to show how it will optimise energy, water and utility consumption, minimise waste production, implements a strategy to meet the Board's BREEAM requirements including carbon reduction and other positive activities described in the Board's Construction Requirements to provide a sustainable development.	
			C4.3	Bidders must submit proposals setting out how an innovative approach to the provision of ICT in the Facilities in line with the Board's Construction Requirements and FM Output Specifications has been delivered.	
			C4.4	Where areas of innovation are identified Bidders must submit supporting evidence, where possible, with examples from other schemes where this has proved successful. Bidders must provide information to show	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the benefit, cost and risk for each innovation so the Board can assess them separately.	
C5. Clarity, robustness, and quality of approach to adaptability and flexibility.	Scored	2.64		Bidders must submit proposals setting out their approach to adaptability and flexibility. This should be provided as set out in C5.1 and C5.2 below:	
			C5.1	Bidders must submit proposals setting out an adaptability strategy which shall describe what features have been incorporated to facilitate future adaptation of use and/or expansion, technological changes, changes in national policy, national and local planning, clinical advancement and seasonal or future strategic variations in use. It is expected that particular reference shall be made to potential changes in the delivery of surgical and radio diagnostic services given the rapid evolution of developments in these disciplines. All design disciplines i.e. architectural, mechanical and electrical, structural and environmental, must be considered.	
			C5.2	Bidders must submit proposals setting out their approach to adaptability and flexibility.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. How the interior spaces may be re-arranged in future if a change of use were to occur; ii. How the building's services and external infrastructure have been designed to allow this adaptability; iii. How the building structure and envelope, services, partitioning, ceiling, and flooring systems and construction technique has been designed to allow this adaptability; iv. How the main electrical installations can accommodate changes over and above the 25% capacity increase (requested in Section 3 Board's Construction Requirements) with minimal structure disruption; and v. How the environmental services strategy will co-ordinate with the adaptability and flexibility strategy.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C6. Clarity, robustness and quality of way finding and signage proposals	Scored	1.06	C6.1	Bidders must submit proposals demonstrating their way finding strategy. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) how it has been developed to: i. Suit the needs of the particular patient mix for the Facilities i.e. children, young people and adults using different services, as well as staff and visitors; ii. Include internal and external signage and signage outside the site boundary relevant to the Facilities. External signage shall include proposals for the wider RIE site, pedestrians, vehicles and street signage; iii. Integrate with the art strategy and lighting strategy for the Facilities; iv. Take cognisance of patient journey times and take steps to minimise such journey times; v. Minimise the transmission of micro-organisms and separates clean and contaminated traffic and material streams; vi. Include hand hygiene signage; vii. Include no smoking signage; viii. Make reference to sample or exemplar	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				site information provided by The Board; and ix. Make use of signage in the floor.	
C7. Clarity, robustness and quality of interior design proposals	Scored	2.64	C7.1	Bidders shall submit their interior design proposals. This must be provided as set out in C7.1 and C7.2 below: For both the RHSC and DCN sectors of the Facilities Bidders must submit proposals setting out how their design has been developed to include: i. Interior design proposals and illustrations for each distinct area of the Facilities, paying particular attention to the interior design solutions for public, patient and key staff areas; ii. Communal patient areas that are light, spacious and provide a welcoming atmosphere and which are domestic in design and ambience with the main entrance being immediately apparent; iii. Public areas which are restful, open and well lit with natural light and have views out to landscaped spaces that add quality and orientation; iv. An open and friendly environment, that	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				shall ensure privacy and dignity for patients, family members and visitors when required; v. The incorporation of art in the proposals. Bidders shall provide the name(s) of the artists whom will undertake the work; vi. Integration with their lighting strategy and equipment strategy; vii. Integration with maintenance, cleaning, operation and sustainability; viii. Integration with way finding and signage proposals and how the way finding and signage within the RHSC and DCN links with the way finding within the existing RIE; ix. How the interior materials within the Facilities match the furniture, furnishings and equipment being procured by the Board; and x. Facilities which have a safe and secure environment which is not created via visible security features e.g. security cameras. Safety in design shall also take consideration of anti-ligature, child safety, and Child and Adolescent Mental Health Service whilst maintaining access and ambience. For indicative purposes only it is anticipated	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				that Bidders proposals may include (but shall not necessarily be limited to) those items listed in (i) – (x) above.	
			C7.2	Bidders must submit proposals setting out how their interior design for the RHSC has been developed to provide: i. Age and ability appropriate signage throughout the Facilities; ii. A nurturing, relaxed and safe environment in the patient, communal and public areas; and iii. Furniture, windows and lines of sight which are appropriate for young children and children in pushchairs and wheelchairs.	
			C7.3	Bidders must submit proposals setting out how their interior design submission for the DCN provides a nurturing, quiet and relaxed environment in the patient, communal and public areas.	
C8. Clarity, robustness and quality of M&E engineering design proposals	Scored	1.06		Bidders must submit proposals setting out their approach to M&E engineering services design. This must be provided as set out in C8.1 – C8.3 below:	
			C8.1	Bidders must submit proposals setting out	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the engineering services design for each element of the scheme in sufficient detail to demonstrate compliance with the Board's Construction Requirements. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. An engineering design, control and operational philosophy statement; ii. Details of principal M&E system selections; iii. The definition of plant areas and zones both internal and external to the Facilities; and iv. Schematics and written proposals for major plant provision.	
			C8.2	Bidders must submit proposals setting out how their design will be developed to include the following: i. Building services which support the Board's business, safety and security and life critical services under supply failure scenarios. Specific details shall be provided relating to standby facilities and mains service redundancy; ii. An autonomous energy centre and associated plant; iii. How temperature, ventilation and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				comfort for occupants will be maintained in accordance with the minimum criteria and how, if possible, these criteria will be improved; iv. How the quality of the environment and prevention of sick building syndrome shall be ensured; v. How mechanical and electrical design is integrated with architectural, structural and civil aspects as outlined above in C2 and C4; vi. How sustainability has been incorporated into their design, including details of the maintenance and operation philosophy for all mechanical and electrical equipment; vii. Proposals for external services, including details of the main routes (including proposed connections to existing services), intakes and off-site reliance of these services and how this interfaces with adjacent sites (this is also discussed in C18 below); viii. Details of the main source of heating energy; and ix. Details of mechanical and electrical innovations including costs as described in C4. The following information should be also be	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				provided to help demonstrate the design proposals noted above, including: x. An environmental conditions / room provisions matrix for both mechanical and electrical services for each room in the Facilities; and xi. Major plant life cycle statements and design life, including an explanation of the Bidder's lifecycle philosophy to support the lifecycle costing analysis completed in the technical costs proforma;	
			C8.3	Whilst Bidders are required to undertake their own design, the Board has provided a draft Environmental Matrix as part of the ITPD documentation. Bidders must confirm acceptance of the Board's Environmental Matrix, highlighting any proposed changes on an exception basis.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C9. Clarity, robustness and quality of natural and artificial lighting proposals	Scored	1.06	C9.1	Bidders must submit proposals setting out their approach to natural and artificial lighting within the Facilities. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The balance of natural and artificial light; ii. How the environment created by the lighting design will support the well being of patients, carers, visitors and staff; iii. How it will be functional for clinical use; iv. How it will produce an aesthetically pleasing environment; v. How it will be co-ordinated with the building structure and how it will integrate with other areas e.g. mechanical and electrical design, interior design and architecture; vi. How it will include sustainability and energy efficiency; vii. How the interior lighting philosophy will include room usage and warning signs, night lighting, security emergency signage and emergency lighting, lighting control and wiring philosophy, standby lighting; and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				viii. How the external lighting philosophy will minimise light pollution for the neighbours including the RIE, assist to minimise vandalism, assist to improve security, and take account of local residents' needs.	
C10. Clarity, robustness and quality of energy management proposals	Scored	1.85	C10.1	Bidders must submit proposals setting out their approach to energy management. This should be provided as set out in C10.1 and C10.2 below. Bidders must submit an energy model, complete with supporting information, demonstrating how their design solution will achieve an optimum level of energy and utility conservation (linked with the requirement for a sustainable development in C4) and show that their design fulfils the following: i. The building energy performance will achieve a minimum of 6 credits for ENE.01 in the BREEAM assessment. ii. The water consumption for the Facilities will not exceed 170,000	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				litres/bed/annum (Part 6 Section 3: The Board's Construction Requirements); iii. 20% of energy is provided by renewable energy sources (Part 6 Section 3: The Board's Construction Requirements); and iv. The inclusion of passive design strategies for ventilation and thermal control. The environmental control system is to be co-ordinated and integrated with the design of the structure and the occupied areas in order to maximise the control and flexibility of the installations. In addition Bidders must submit an analysis of their design solution which demonstrates energy consumption proposals along with cost estimates of specific measures or innovations to be introduced. C10.2 For information purposes only in addition to the model referred to above a dynamic thermal energy model is to be submitted which should comply with the parameters set out in Appendix F of the ITPD Volume 1.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C11. Clarity, robustness and quality of equipment proposals	Scored	1.06	C11.1	Bidders must submit proposals setting out their approach to equipment. This must be provided as set out in C11.1 and C11.2 below. Bidders must submit the following: : i. A commentary showing how the Group 1 Equipment scheduled by the Board varies from their own assessment of Group 1 Equipment needs. This shall be done by providing a mark-up of the Group 1 Equipment included in Equipment Schedule contained in Volume 3 of the ITPD. It should be noted that the quantity of Group 1 Equipment specified by the Board is considered to be a minimum; ii. A commentary on any aspect of the proposed equipment responsibilities regime suggested in paragraph 2.15 (Equipment) of the ITPD Volume 1. that is not considered to represent best value to the Board, and suggestions as to alternative profiles of responsibility, if any, that may enhance this; iii. A commentary setting out their proposals to select equipment suppliers and how the required level of	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				quality is to be achieved in the equipment for which they will be responsible for supplying and any improvement in the level of quality being proposed. Samples of worktops and wall cupboards shall be provided for approval by the Board to support this; and iv. Their approach to working alongside the Board to allow the Groups 2A, 2B and 3 Equipment to be installed and how this process will be managed. Bidders must submit a fully priced Schedule of Group 1 Equipment, the total sum for which should be clearly identifiable in the Technical Cost Proforma requested at C29 below.	
C11A Compliance with minimum level of Group 1 Equipment	Pass / Fail	n/a	C11A.1	Bidders must provide confirmation that they will comply with the minimum level of Group 1 Equipment as set out in the Equipment Schedule and Equipment Responsibility Matrix.	
C12. Compliance With Mandatory Reference Design Requirements	Pass / Fail	n/a	C12.1	Bidders must submit proposals demonstrating how their design complies with the Mandatory Reference Design Requirements.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C13.Acceptable approach to achieving planning permission	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to achieving planning permission. This must be provided as set out in C13.1 and C13.2 below.	To Pass, Bidders will be required to demonstrate that the granting of approvals for the scheme will be achieved
			C13.1	Bidders must submit proposals demonstrating compliance including a methodology for achieving planning approval accordance with paragraph 2.17 of Volume 1 of the ITPD. This should include the following: i. Community requirements; ii. Policy of the local planning authority; iii. Development Framework requirements; and iv. “Good neighbourliness”.	
			C13.2	Bidders are required to (in conjunction with the Board) participate in planning consultation meetings with the City of Edinburgh Council regarding planning requirements. From these consultations Bidders must submit evidence to demonstrate that the granting of approvals for the scheme will be achieved in the Preferred Bidder stage and confirm any perceived obstacles / project risks (both known and unknown) in this regard shall be clearly drawn to the Board’s attention.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C14. Acceptable vertical and horizontal movement strategy	Pass / Fail	n/a		Bidders must submit proposals setting out their vertical and horizontal movement strategy. This must be provided as set out in C14.2 – C14.3 below.	
			C14.1	Bidders must submit proposals setting out a coherent strategy which shows how their design has been developed for managing different categories of traffic and materials within the Campus Site. This shall include the movement of people and vehicles and the distribution of supplies and waste and the separation of clean and contaminated traffic and materials during transportation, storage and at drop off points.	
			C14.2	Bidders must submit proposals setting out how their design has been developed to minimise travel time and distances for patients, staff, and material transmission of micro-organisms either through airborne or other means to support and segregate a natural flow of pedestrian and vehicular traffic.	
			C14.3	Bidders must submit proposals setting out	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				how their design has been developed to include a strategy for the following: i. Wheelchair users, less able users and transportation of small children and babies that will use the Facilities; ii. Incorporation of fire fighting lift(s) to maintain evacuation use for the less able, small children and babies in an emergency situation; and iii. The route required by people and materials from the helipad, the RIE and the Facilities.	
C15. Acceptable ICT strategy and Bidders proposals, compliant with Board's requirements	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to a compliant ICT strategy. This must be provided as set out in C15.1 – C15.4 below.	
			C15.1	Bidders must submit proposals setting out their ICT strategy and demonstrating an understanding of the Board's requirements for information management and technology (M&T).	
			C15.2	Bidders must submit proposals setting out a detailed methodology demonstrating how it will ensure compliance with the Board's Construction Requirements, define clear interfaces of responsibility as necessary,	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				and how they will take overall responsibility for the coherence and compatibility of systems such that they will operate to suit the Board's needs.	
			C15.3	Bidders must submit proposals setting out the number, location size and specification of IT / communications rooms.	
			C15.4	Bidders must submit proposals setting out how the Board's routing, fire suppression, ventilation and connectivity to the RIE requirements has been specifically addressed.	
C16. Acceptable fire planning strategy	Pass / Fail	n/a		Bidders must submit proposals setting out their fire planning strategy. This must be provided as set out in C16.1 and C16.2 below.	
			C16.1	Bidders must submit proposals setting out their strategic fire strategy, demonstrating how the design will be developed to consider fire compartmentation and horizontal and vertical evacuation strategies.	
			C16.2	Bidders must submit proposals setting out how their fire planning strategy has been developed. For indicative purposes only it is	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The implications on staff and users in the event of a fire; ii. A clear understanding of the policies and principles underlying fire safety in NHS premises, compliance with NHS polices and principles and full agreement and coordination with Lothian and Borders Fire and Rescue Service, The CEC Council's Building Control Department and the Board's Fire Officer; iii. Compliance with: The Building (Scotland) Regulations 2004 and The Building (Scotland) Amendment Regulations 2011, SHTM 81 and SHTM 82; iv. How a Fire Engineering solution has been developed (if it has been proposed), to what extent it has been agreed with the regulatory authorities and how the Board will not be exposed to any additional risks (programme, quality or cost) should the solution need to be amended or abandoned during the course of the development and finalisation of proposals; v. Integration of their fire strategy with	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the fire strategy for the RIE Facilities to ensure they are compatible and operate in conjunction and how the fire strategy issues at the Link with the RIE Facilities are to be addressed; vi. Details of external and internal access and circulation routes, including a safety and security statement for each element of the scheme with particular reference to the different patient types using the Facilities; and vii. Details of how the particular issues in the surrounding areas of high fire risk such as the helicopter landing pad are to be addressed.	
C17. Acceptable structural design proposals	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to structural design. This must be provided as set out in C17.1 - C17.3 below.	
			C17.1	Bidders must submit proposals setting out a statement of the structural design philosophy which shall demonstrate how their design has been developed including a methodology for ensuring a safe, aesthetically pleasing and durable structure.	
			C17.2	Bidders must submit proposals relating to	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the following elements: i. Substructure; ii. Structural frame solution, including grid arrangements; iii. Ground, suspended floor slab and roof construction; iv. External wall and internal partition construction; v. Fire protection strategy and proposed methods to be adopted ; and vi. Methods for dealing with floor penetrations both during new build works and to accommodate future potential needs.	
			C17.3	Bidders must submit the following: i. A schedule and/or drawings demonstrating the dead and imposed loading design criteria (both uniformly distributed and concentrated loads) adopted for all areas of the Facilities; ii. Specification of construction and materials to be utilised in the hard external works e.g. roads, pavements etc.; iii. Details of their proposals for co-ordinating structure with space requirements and distribution of services taking into account maintenance and replacement during	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				the operational life of the buildings; iv. Details of opportunities for the future expansion of Clinical Services and Non-Clinical Services. The Bidders shall ensure that the physical arrangement of the Facilities allows for growth and change of clinical services in the future, as far as is practical for example partition moves and additional service runs both vertically and horizontally. The cost implications of structural solutions to future proof the Facility by creating 'soft spots' (refer also to C5 above) shall also be included; and v. A detailed description of the design of the drainage system, taking into account matters such as the design itself, allowable discharge into the public sewers, the need or otherwise for surface water attenuation and the incorporation of drainage to existing buildings within the site drainage proposals.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C18. Acceptable services, utilities and infrastructure proposals	Pass / Fail	n/a	C18.1	Bidders must submit proposals setting out their mains service infrastructure strategy for the site, and defines principal service routes external to the buildings. This shall also demonstrate adequacies of capacities including details of these provided by Utility providers.	
C19. Acceptable approach to achieving required BREEAM rating	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to achieving the required BREEAM rating. This must be provided as set out in C19.1 and C19.2 below.	
			C19.1	Bidders must submit a draft BREEAM assessment of their proposals with supporting commentary. Bidders shall demonstrate how they will achieve, as a minimum, a “Very Good” rating in line with the requirements for healthcare facilities as set out in the BREEAM Scheme Document for New Construction (SD5073) 2011.	
			C19.2	Where assumptions with respect to certain elements within these assessments have to be made (i.e. such details that would ordinarily be developed during the Preferred Bidder or post Financial Close period) the basis for these assumptions, including	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				substantiation, must be set out in the Bidders proposals.	
C20. Acceptable post Preferred Bidder stage design development proposals and design programme	Pass / Fail	n/a	C20.1	Bidders must submit proposals setting out their approach to design development and design programme. This must be provided as set out in C20.1 and C20.2 below. Bidders must submit proposals setting out their approach to be adopted to manage the design process (taking account of the design review procedures to be implemented). For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Further development of 1:500, 1:200 and 1:50 design drawings and other design details and how these will be developed in conjunction with the Board's project team, user groups, specialist advisers and other project stakeholders, to achieve sign off to the proposals; ii. Further development of the	To Pass, Bidders will be required to demonstrate clear proposals setting out a robust process, supported with a logical and deliverable programme, for the development process both up to, and beyond, Financial Close.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				specifications and engineering related drawings and how these will be developed in conjunction with the Board's project team to achieve sign off of the proposals; iii. The anticipated level of involvement that the Board will have in the design development process, and the number of main design iterations anticipated; iv. Outline proposals for change control, confirmation of technical queries and other design related management tools; and v. Further development of interior design proposals to the satisfaction of the Board incorporating patient groups.	
			C20.2	Bidders must submit a design programme to Financial Close and thereafter to design completion. This shall: i. Show the proposed programme for the development of the design drawings and specifications (supplemented by samples and models as appropriate) and other technical schedules to the NPD Project Agreement; ii. Clearly indicate the expected number of design drawings and specifications;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				iii. Clearly define periods allowed for the Board's consideration of proposals; and *iv.* Demonstrate how and when sign off of the Board's Construction Requirements will be achieved in this period by the Preferred Bidder, and how this sign off relates to development and sign off of Project Co Proposals.	
C21. Compliance with Board's Construction Requirements	Pass / Fail	n/a	C21.1	Bidders must confirm their compliance with the Board's Construction Requirements. If as their design has been developed there are specific areas of the Board's Construction Requirements that Bidders would seek to change, these shall be scheduled and provided in support of the statement. The Board shall not be required to accept any proposed amendments.	
C22. Acceptable design life proposals	Pass / Fail	n/a	C22.1	Bidders must submit a schedule of design life proposals against the elements listed in section 5.1 (Schedule of Life Expectancies) of the Board's Construction Requirements.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C23. Acceptable construction programme and approach to monitoring	Pass / Fail	n/a	C23.1 C23.2	Bidders must submit proposals setting out their construction programme and approach to monitoring. This must be provided as set out in C23.1 and C23.2 below. Bidders must submit a high level programme, for the Works, comprising a network and linked bar chart programme covering all of the main and key elements of design, construction, testing, commissioning and completion and covering the period from Financial Close to Post Completion Commissioning. The programme must include as a minimum, the following information: i. Sequencing of activities showing logic links, restraints and constraints; ii. Key activity durations; iii. Critical paths, including the identification of critical dependencies of activities and float; iv. Key and other target milestones; v. Planning approval, and other statutory consents; and vi. Proposed Relevant Service Transfer Dates. Bidders shall submit proposals setting out how they shall manage and monitor the programme, including their approach to	To Pass, Bidders will be required to demonstrate a logical and deliverable construction programme supported with a robust process for programme management.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				minimising the effects of delays and unforeseen circumstances.	
C24. Clarity, robustness and quality of construction methodology	Scored	1.85		Bidders must submit their construction methodology proposals. This must be provided as set out in C24.1 - C24.10 below.	
			C24.1	Bidders must submit proposals setting out in sufficient detail how they will deliver the development including their construction strategy, proposals and method statements. Bidders shall address in detail how the Works phase of the project will be managed including a methodology covering day to day management.	
			C24.2	Bidders must submit proposals setting out in sufficient detail how they shall mitigate the egress of water, dust, debris or any microbiological contamination out of the Site and into adjacent buildings i.e. how they will ensure they are a considerate contractor.	
			C24.3	Bidders must submit proposals setting out in sufficient detail how they will follow the provisions of Sections 60 and 61 of the Control of Pollution Act 1974, with reference to the control of noise due to any demolition	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				or construction works in particular for works adjacent to an occupied property i.e. RIE and other occupiers of the wider estate.	
			C24.4	Bidders must submit proposals setting out in sufficient detail how they will not only adhere to legal obligations but how they will ensure that "at all times the requirements and reasonable wishes and safety of the immediate neighbours to the Campus Site (including the Royal Infirmary of Edinburgh, Little France site) are respected" with particular consideration to key locations such as A&E and operating theatres.	
			C24.5	Bidders must submit proposals to set out in sufficient detail how they will ensure that they will integrate with and not inhibit the RIE pedestrian, vehicular, cycle, service vehicular and emergency vehicular movements, access routes and parking during construction and during operation of the Facilities. The submission must set out how they will ensure site safety at all times.	
			C24.6	Bidders must submit proposals, in sufficient detail, setting out how continuity of utility supplies and operational continuity of the immediate neighbours is to be maintained at all times. The Bidders submission shall also	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				provide outage protocols in case these safeguards fail to protect the neighbours	
			C24.7	Bidders must submit proposals, in sufficient detail, setting out a detailed methodology demonstrating their proposals for the safe and compliant disposal of surplus excavated material, all building spoil, demolition waste and rubbish.	
			C24.8	Bidders must submit proposals of their site office set up. This shall describe in particular how they are to be serviced and how safe access and egress will be provided.	
			C24.9	Bidders must submit proposals setting out in sufficient detail their approach to storage of materials. This shall describe in particular how materials will be delivered to, stored, and then transferred to the Site for incorporation in the Works.	
			C24.10	Bidders must submit proposals setting out in sufficient detail their construction phasing and access methodology which shall demonstrate how the proposals have been developed to address the Site constraints and interfaces with the wider site. Bidders must include their proposals for creation of	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				a temporary construction access over the Yellow Area (as shown on Plan 2). Bidders must submit details of location of access and methodology for its construction. This will form part of the management procedures for the Works as regards satisfying town planning matters as detailed in the ITPD. Further details are set out in paragraph 1 (Construction Access over Yellow Area) of Section 1 of Part 1 of Appendix A of the Board's Construction Requirements.	
C25. Acceptable approach to commissioning and handover	Pass / Fail	n/a	C25.1	Bidders must submit proposals setting out a commissioning programme, supported by a methodology demonstrating how this will be developed and agreed in conjunction with the Board. For indicative purposes only it is anticipated that Bidders proposals may include (but shall not necessarily be limited to) how they will provide the following: i. Management of interfaces with the Board and the Board's contractors and other parties e.g. Consort for the Link Building and obtaining such other parties consents\approvals as required; ii. How they will carry out commissioning	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				activities both before and after the Actual Completion Date; iii. Access for the Board during the Works including access for equipment installation (Groups 2A, 2B and 3) and the Board's Contractors; iv. A "zero defects" culture in order to deliver the scheme with few or no snagging items at the Actual Completion Date. Bidders shall outline a contingency plan for investigating and rectifying any defects which could still occur despite all best endeavours of the Project Co. In addition proposals should be submitted outlining how snagging items will be closed out after the Actual Completion Date; v. Facilities handover including how they shall interface and assist the Board with their decanting, familiarisation and training for the Facilities and proposals on how they shall work closely with the Board in developing an occupation plan; vi. Facilities which are "Handover Clean". Bidders shall demonstrate within their response: ▪ How this will be managed in terms of the sign–off of the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Facilities and handover process; and ▪ Details of any specialist contractors that may be used as part of this process.	
C26. Acceptable approach to quality and environmental management systems	Pass / Fail	n/a	C26.1	Bidders must submit proposals setting out their approach to construction quality and environmental management systems. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Confirmation that they will complete the Works in accordance with the requirements of BS EN ISO 9001 and 14001or any equivalent standard; ii. Details of proposed quality assurance and environmental management systems (i.e. a system synopsis); iii. Details of their approach to developing the quality and environmental management systems, including key dates; iv. Where individual quality and environmental management systems of the designers, contractor, service provider and Project Co are to be used, a statement regarding how these separate systems will be	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				integrated to form a coherent overall quality management system. For the avoidance of doubt, the Board requires Project Co (in addition to their sub-contractors) to adopt and implement a compliant system; v. Details of their approach for monitoring quality during construction (this may be by reference to a similar system implemented on a similar scheme); i.e. compliance with current revisions of BS 8000: Series "Workmanship on Building Sites, BS 5606:1990 "Guide to Accuracy in Building". and other activities based on Good Industry Practice current at the time, as a minimum; vi. Details of their approach for auditing the quality and environmental management systems. This shall include details of the independent, internal and external audits of Project Co and its sub-contractors; and vii. A description of how the proposed systems will integrate with their strategies for risk mitigation.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
C27. Acceptable approach to health and safety management	Pass / Fail	n/a	C27.1	Bidders must submit proposals setting out their health and safety management system. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Confirmation that they will adopt and implement an accredited health and safety management system complying with the requirements of OHAS ISO 18001. For the avoidance of doubt the Board requires that Project-Co adopt and implement a compliant system; ii. Details of all proposed designers, sub-contractors, and suppliers confirming that they operate and accredited health and safety management system complying with OHAS 18001 standards covering all aspects of the project as applicable. Copies of current certificates from an accredited third-party assessment body showing that systems are compliant should be provided; iii. Details of the approach for auditing designers, contractors, sub-contractors and suppliers of their	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				health and safety management systems. This should include details of internal, external and independent audits of Project-Co; iv. Proposals for managing occupational health that will be implemented; v. Key dates for development of the system; vi. Safety in design and how Bidders have removed risks through design innovations; vii. Potential constraints on their Works activities when considering the health and safety of their immediate neighbours and other members of the public that may be affected by the Works. This shall include construction traffic management plan within the Campus at Little France and restrictions on the movement of water, dust, vibration, noise and micro-organisms; viii. How any risks to health and safety will be managed and mitigated throughout the Works; ix. How they plan to deal with the potential occurrence of below ground services crossing the Site, in addition to the removal of other	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				below ground obstructions that may still be present from previous demolition works; x. Methodology for the use of overhead cranes; xi. The removal of waste material; xii. Compliance with HAI Scribe; xiii. Storage, transportation and handling of gas cylinders (for construction use); and *xiv.* How their proposals facilitate the control and management of an outbreak and spread of infectious diseases in accordance with HTM 2025 and SHFN 30.	
C28. Acceptable approach to compliance with CDM regulations	Pass / Fail	n/a		Bidders must submit proposals setting out their approach to achieving compliance with the CDM regulations. This must be provided as set out in C28.1 and C28.2 below.	
			C28.1	Bidders must submit proposals setting out how they will comply with the requirements of the Construction (Design and Management) Regulations 2007. Particular reference shall be made to Project Co's role as Client, in addition to proposals to cover discharging the duties of CDM Coordinator, Designer and Principal Contractor under the Regulations. Bidders shall also include the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				methodology to demonstrate how they will deal with potential commercial and other conflicts between their constituent parts with respect to compliance with the Regulations and shall provide the following: i. A competency submission for the individual who will be leading the role of CDM co-ordinator, in accordance with CDM ACOP L144 “Managing Health and Safety in Construction”; ii. A Health and Safety document to identify how the requirements of Appendix 4 of the ACOP L144 “Managing Health and Safety in Construction” will be applied on the project; iii. The format of the Pre- Construction Information relating to the project to address the requirements of Appendix 2 of the CDM ACOP L144 “Managing Health and Safety in Construction”; iv. The contents and structure of the Construction Phase Plan relating to the project to address the requirements of Appendix 3 of the CDM ACOP L144 “Managing Health and Safety in Construction”; v. Details of the induction process to	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				address the requirements of section 184 and 185 of the CDM ACOP L144 “Managing Health and Safety in Construction”; vi. The format to be used for the Health and Safety File to address the requirements of section 263 of the CDM ACOP L144 “Managing Health and Safety in Construction”; and vii. Details of the process for managing health and safety in Design including hazard elimination and risk reduction, principles of prevention, provision of information and management of the Design process as required by the CDM ACOP L144 “Managing Health and Safety in Construction”.	
			C28.2	Bidders must submit proposals setting out how they have complied with the CDM duties during the Dialogue Period and provide a design risk assessment which is to be updated as the design is progressed.	
C29. Robustness of technical costs	Pass / Fail	n/a	C29.1	Bidders must submit fully completed technical cost proformas contained in the ITPD. All information requested must be provided. Bidders’ completed proformas shall be provided in the same MS Excel	To Pass, Bidders will be required to demonstrate that their technical costs are robust for the scope of works to be delivered.

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				format to allow direct comparison between bids.	
C30. Acceptable list of summary assumptions, clarifications and derogations	Not Scored	n/a	C30.1	Bidders must submit a consolidated schedule of all assumptions, clarifications and qualifications made in respect of their ITPD Bids. Whilst it is encouraged that such references are also made in the appropriate locations throughout Bidders' submissions, it is a mandatory requirement of the ITPD Submission that all such matters are also summarised in a single location.	
C31. Acceptable Interface Proposals	Pass / Fail	n/a	C31.1	Bidders must submit proposals setting out their approach to meeting the interface issues as described in Appendix A of the Board's Construction Requirements (subject to the conditions set out in Clause 9 (Nature of Land Interests) including without limitation Schedule Part 5 (Land Matters) of the NPD Project Agreement).	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
D. Approach to Facilities Management					
D1. Clarity, robustness and quality of approach to management and administration of the Services and Contract	Scored	2.50	D1.1	Bidders must submit proposals setting out their proposed approach to managing and administering both the Services and the NPD Project Agreement itself. The Bidder is also required to provide a detailed proposal for the management, liaison and interfacing with the Board and the other Board service providers, these being Authority Parties. The importance to the Board of a holistic approach to the delivery of Services under the NPD Project Agreement cannot be overstated. The success of this will be dependent upon the quality of the general management of the Project. Bidders must submit the following: i. Full Method Statements for the management and administration of the Project Agreement and Services contained therein; ii. Location of the members of Project Co's administration team (i.e. on or off site); iii. Details of Bidder's proposed managerial structure, indicating the roles and responsibilities of each manager, supervisor and team member; iv. Details of how material changes to the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				management structure of Project Co will be communicated to the Board; v. Details of how changes to working practices and / or Service delivery timings will be communicated to the Board; and vi. Details of how it is proposed to electronically manage Services management and administration to improve delivery.	
D2. Acceptable approach to integration with Board policies and operation	Pass / Fail	n/a	D2.1	Bidders must submit proposals setting out how they will comply, integrate and align their methodologies with the Board's policies, operation and procedures for the delivery of Services to the Facilities. This must include the following: i. Details of how it will ensure that the Services are delivered in accordance with the requirements of the Health planning Standards/NHS Requirements as detailed within paragraph 2.3 of Volume 3 of the ITPD.	
D3. Acceptable approach to ensuring quality management	Pass / Fail	n/a	D3.1	Bidders must submit proposals setting out their Method Statements for quality management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Description of any quality management systems or policies the Bidder has for the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Services or would put in place for the Services; ii. Interface with the Board's Quality Assurance representatives iii. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate; iv. Proposals for carrying out audits, including the provision of their proposed audit programme for the Services; and v. Details of the Bidder's proposals for the escalation of activities following a major incident including interface with the Board.	
D4. Acceptable approach to ensuring environmental management	Pass / Fail	n/a	D4.1	Bidders must submit proposals setting out their Method Statements for environmental management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Interface with the client's environment representatives; ii. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate; iii. Details of their approach to ISO 14001 and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				shall describe any relevant experience of implementing such systems for other local authority or NHS clients of the Bidder; iv. Bidder's environmental policy statement, and shall state explicitly whether they have, or are working towards developing an environmental strategy; v. Bidder's environmental management system, for their own organisation and/or for this project; vi. Structure of the environmental management system; vii. Details of the Bidder's approach and commitment to use of ethical and sustainable materials; viii. Proposals for carrying out audits, including the provision of an indicative audit programme for the Services; and ix. Details of the Bidder's proposals for the escalation of activities following a major incident, including interface with the Board.	
D5. Acceptable approach to ensuring health and safety management	Pass / Fail	n/a	D5.1	Bidders must submit proposals setting out their Method Statements for health and safety management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Procedure for disseminating hazard and safety warnings;	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				ii. Methodology for the development and maintenance of the health and safety system relevant to the Services; iii. Interface with the Board's health and safety representatives; iv. Process for maintaining effective overall control of all site activities and the coordination of and liaison with all staff such that there are suitable integrated arrangements to allow compliance with the Health and Safety at Work Act 1974; v. Process to ensure that Project Co's advisers are continually aware of any relevant legislative changes and procedures for communicating these changes to the Board as appropriate: vi. Process to ensure constant access to health and safety professionals for both its own staff and the Board's nominated representatives; vii. Develop bespoke risk assessments recognising the services being delivered at the RIE and University on the wider Campus. viii. A copy of the Bidder's Health and Safety policy and a description of their approach to ISO 9001 and ISO 18001 or similar systems; ix. Proposals for carrying out audits, including the provision of an indicative audit programme for the Services; and x. Details of their proposals for the escalation	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				of activities following a major incident including interface with the Board.	
D6. Acceptable approach to interfacing with the Board for undertaking works outside of access times	Pass / Fail	n/a	D6.1	Bidders must submit proposals setting out their approach to interfacing with the Board for undertaking works outside of access times. This must include the following: i. How they will ensure that any Works and Services proposed to be undertaken outside agreed Access Times are agreed with the Board's Representative prior to commencement; and ii. How Works and Services will be managed and carried out in accordance with Permit to Work System.	
D7. Clarity, robustness and quality of approach to partnership and resources including liaison, resources and supply chain management	Scored	2.50	D7.1 D7.2	Bidders must submit proposals setting out their approach to partnership and resources including liaison, resources and supply chain management. This must be provided as set out in D7.1 – D7.3 below. Bidders must submit proposals setting out their approach to communications with the Board or its representatives. This shall include their proposed appropriate interfaces, frequency, nature and structure of meetings and reporting. Bidders must submit proposals setting out:	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				i. Details of storage, maintenance and disposal of plant, equipment, materials, consumables, packaging and chemicals used in the delivery of the Services; ii. Details of suitably qualified staff and availability to meet the requirements of this NPD Project Agreement.	
			D7.3	Bidders must submit proposals setting out: i. Details of how the supply chain will be managed; ii. Proposed approach to delivery of Services through the supply chain; iii. Method of creating a successful integrated Services team.	
D8. Acceptable approach to business continuity planning	Pass / Fail	n/a	D8.1	Bidders must submit proposals setting out their approach to business continuity planning. This must include the following: i. Details of its approach to business continuity planning including: a. Its approach to the creation and maintenance of its own business continuity plan and disaster recovery plans for the required Services; b. The proposed approach to supporting the Board's "Business Continuity; and c. Details of who within the management team will have overall	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				responsibility for business continuity. ii. Details of its proposed training procedures for staff who will participate in emergency procedures; iii. Details of its proposals for testing Business Continuity Plans at the property; iv. Details of its proposals for the escalation of activities following a major incident (and\ or at the request of the Board); v. Details of its own, internal Business Continuity (e.g. those plans related to its own survival as a business following a major incident); and vi. Details of the existing arrangements for testing its own, internal Business Continuity Plans.	
D9. Acceptable fire safety policies and procedures	Pass / Fail	n/a	D9.1	Bidders must submit proposals setting out their approach to fire safety policies and procedure. This must include the following: i. Details of its fire safety policy ii. Details of fire safety and security systems and procedures to be implemented on site including their approach to the Helipad. iii. Approach to ensuring an integrated fire safety strategy for the overall site, including appropriate interfaces with the Board and other Third Party organisations i.e. Authority Parties.

D10. Clarity, robustness and quality of approach to performance and information management including; helpdesk, programme maintenance lifecycle, performance monitoring, monitoring and records, regular reports and information requests, building services and statutory testing	Scored	4.50		Bidders must submit proposals setting out their approach to performance and information management, This must be provided as set out in D10.1 – D10.8 below.	
			D10.1	Bidders must submit proposals setting out details of their proposed computer-aided facilities management (CAFM) system and how they will provide an asset management and reporting capability. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. Call receipt and management and escalation; ii. Management information; iii. Reporting; iv. Incident management; v. Alarm management; vi. Maintenance scheduling; vii. Asset data maintenance; viii. Helpdesk interface protocol with the Board and/or third party's; ix. Proposed staffing and location of the helpdesk; x. Interface between the helpdesk and other aspects of the CAFM system; xi. Reporting procedures and frequency of reporting; and

				xii. Enabling the Board to gain access to the data held within the BMS in a format/ method agreeable to the Board.	
			D10.2	Bidders must submit proposals setting out their approach to programme maintenance lifecycle. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. The information and delivery strategy which will be utilised in establishing a Programmed Maintenance planner; ii. Confirmation that the Bidder recognises that certain works will need to be undertaken out of normal working hours/ during the weekends to minimise the impact on the Board's operations, and without additional cost to the Board; iii. Method of establishing and updating their 5-year Maintenance Lifecycle plan; iv. Details on the provision of all specialist sub-contractors for programmed maintenance and lifecycle; v. Details of how it will ensure that the delivery of all Services will underpin the required hygienic/infection control standards for the facility, specifically compliance with HAI Scribe standards; vi. Details on staffing and management of the	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				Service; vii. Details on how planned, reactive and statutory works are to be monitored for both quality and safe methods of work. This should include works that are undertaken by directly employed staff and any sub-contractors; viii. Details of proposals to assess staff roles and responsibilities, skill requirements, competency, training arrangements and review procedures; ix. Details on its approach to planned, reactive and statutory maintenance including prioritising business critical equipment and systems at all premises together with details on how any planned maintenance that is not achieved by the planned date is addressed; x. Sample of proposed Service Report to be used for this Contract; xi. Details on interface with Board's cleaning service when carrying out Programmed Maintenance; xii. Schedule for cleaning of all internal and external panes of glazed areas of the Facilities envelope; and Schedule of planned external façade cleaning service.	
			D10.3	Bidders must submit proposals setting out details of their proposed delivery strategy and key activities. For indicative purposes only it is

				anticipated that Bidders proposals may include (but should not necessarily be limited to) the following service areas: i. Mechanical maintenance ii. Electrical maintenance iii. Plumbing iv. Lift maintenance v. Fire safety system/ equipment vi. Internal / external fabric of the Facilities vii. Periodic electrical testing and inspections viii. Lift inspections ix. Pressure vessel x. Pressure systems (written schemes) xi. Water systems risk assessments xii. Fire risk assessments xiii. Water sampling / testing	
			D10.4	Bidders must submit proposals setting out their approach to performance monitoring. This must include the following: i. Description of how the performance of the Service will be self-monitored; ii. Approach to customer feedback and complaints handling; iii. Sample customer feedback form.	
			D10.5	Bidders must submit proposals setting out their approach to monitoring and records. This must include the following: i. Details on how the Bidder will ensure all	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				certificates, appropriate documentation and records in relation to the Project are stored in accordance with appropriate legislation and the Board's policies; and ii. Details on how the Bidder will ensure all records in relation to the Project are maintained accurately and kept up-to-date.	
			D10.6	Bidders must submit proposals setting out their approach to regular reporting and information request. This must include the following: i. Procedures for ensuring that the reports are appropriately tailored to the Boards requirements, including the completion period for such reports; ii. Details on how it will ensure that reports are accurate and produced in line with agreed timescales; iii. Details of the types of reports that they are currently producing for other clients.	
			D10.7	Bidders must submit proposals setting out their approach to building services. This must include the following: i. Approach to commissioning new Plant and Equipment; ii. Details on how hardware and software licenses will be kept up to date; iii. Details on how to ensure all Equipment/ Assets used in the delivery of the Services are maintained properly and safe to use.	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
			D10.8	Bidders must submit proposals setting out their approach to statutory testing.	
D11. Acceptable approach to un-programmed maintenance	Pass / Fail	n/a	D11.1	Bidders must submit proposals setting out their approach to Un-programmed Maintenance Works. This must include the following: i. Meeting the relevant Rectification Period; and ii. Meeting the standards required.	
D12. Clarity, robustness and quality of approach to service elements including; utilities management and grounds maintenance services	Scored	2.50	D12.1	Bidders must submit proposals setting out their approach to service elements including utilities management and grounds maintenance. This must be provided as set out in D12.1 and D12.2 below. Bidders must submit a detailed methodology describing their approach to utilities management. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Proposals to ensure an adequate continuous	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				supply of energy is available; ii. Proposals for interface with the Board to ensure no interruptions in the supply of Utilities to the Facilities; iii. Proposals for procurement of Utilities for the Board which demonstrate value for money; iv. Maintenance approach to ensure all external Utility infrastructures within the Site is fully functional; v. Method of monitoring Utilities/carbon consumption and how usage will be analysed and used; vi. Sample Utility consumption report; vii. Proposals for improving energy/ carbon efficiency; and viii. Details on Utility energy profile audit.	
			D12.2	Bidder must submit proposals setting out their approach to grounds maintenance. For indicative purposes only it is anticipated that Bidders proposals may include (but should not necessarily be limited to) the following: i. Methodology for Grounds Maintenance Service and indicative programme for Planned Maintenance; and ii. Interface with third parties in ensuring a holistic approach to the safe use of the Campus access and egress routes.	
D13.	Pass / Fail	n/a	D13.1	Bidders must submit fully completed technical	To Pass, Bidders will be

Robustness of technical costs				cost proformas for the Services contained in the ITPD. All information requested must be provided. Bidders' completed proformas shall be provided in the same MS Excel format to allow direct comparison between bids.	required to demonstrate that their technical costs are robust for the scope of works to be delivered.
D14. Acceptable list of summary assumptions, clarifications and derogations	Not Scored	n/a	D14.1	Bidders must submit a consolidated schedule of all assumptions, clarifications and qualifications made in respect of their ITPD Bids. Whilst it is encouraged that such references are also made in the appropriate locations throughout Bidders' submissions, it is a mandatory requirement of the ITPD Submission that all such matters are also summarised in a single location.	
D15. Acceptable approach to mobilisation of Facilities Management services	Pass / Fail	n/a	D15.1	Bidders must submit proposals setting out their approach to mobilisation of facilities management services. For indicative purposes only it is anticipated that Bidders proposals must include (but should not necessarily be limited to) the following: i. A draft mobilisation plan using MS Project showing the activities to be performed, interdependencies between activities, the allocation of resources and where Board input is required; ii. Details of their proposed structuring and	

Quality Evaluation Criteria & Reference	Quality Evaluation Basis	Quality Evaluation Criteria Weighting	Submission Requirement Reference	Submission Requirement	Pass / Fail Guidance
				resourcing for mobilisation. This should include the names and CVs of the proposed mobilisation management team, indicating relevant experience; iii. Details of proposed communications with the Board during mobilisation. This shall propose appropriate interfaces and the frequency, nature and structure of meetings and reporting; iv. Approach to recruitment of staff, including as appropriate relevant security clearances; v. Detailed proposals for the establishment of the Helpdesk service that clearly demonstrates an understanding of the operational and technical interfaces with Board Services; vi. Proposals for installation and population of the CAFM system describing (as applicable) how installation shall be effected and how data will be migrated and tested; and vii. Method of vetting staff and acquiring the necessary and appropriate security clearances.	

Appendix A (iii) – Design Deliverables

Appendix A (iii)	**Design Deliverables** Bidders shall provide the following design submission requirements (as given in the Volume 1 of the ITPD): **1. Project Overview** 1.1 - Bid Drawings Schedule **2. Approach to Design & Construction - Architectural & Landscaping Design** 2.1 - Architectural Drawings Schedule 2.2 - Outline Architectural Specification supporting the design concept and setting out the proposed materials, finishes and components to be used. An Outline Specification shall be included for all components as detailed in the appropriate sub sections of the NBS Specification template. 2.3 - Development Control Plan 2.4 - 1:1000 Site Plan 2.5 - 1:500 Location/Site Plan 2.6 - 1:200 Site Layouts 2.7 - Landscaping Proposal Specifications 2.8 - Landscaping Proposal Drawings 2..9 - 1:200 Architectural general arrangement floor plans, sections and elevations 2.10 - 1:500 Architectural departmental adjacencies 2.11 - 1:200 Architectural elevations showing appropriately rendered:-fenestration, exterior materials, louvers and cast shadows 2.12 - 1:100 Architectural sections denoting floor to ceiling heights, suspended ceilings, raised access floors and floor levels 2.13 - 1:200 Departmental layouts to include a table setting out the Draft Schedule of Accommodation and Reference Design Schedule of Accommodation requirements and the Bidder's proposed schedule of accommodation and 1:50 room layouts. Schedule of Accommodation should include the following:

	Column A – areas for each room as stated in the Draft Schedule of Accommodation Column B – areas for each room as stated in the Reference Design Schedule of Accommodation Column C – as drawn Areas for each room proposed by the Bidder Column D – variance in areas between Column A and Column C (Column C minus Column A) Column E – where the areas in Column C are less than Column A, Bidders shall provide the variance in areas between Column C and B (Column C minus Column B) Column F – a comments Column to explain why the Board's Draft Schedule of Accommodation (Column A) cannot be achieved, noting the absolute minimum area the Board will accept is the area in the Reference Design Schedule of Accommodation (Column B) 2.14 – 1:200 Architectural drawings detailing (I) movement strategy, (ii) user flow diagrams at all principal circulation locations, (iii) movement interfaces and (iv) analysis of key nodal points 2.15 - 1:50 Architectural sections through Roof and Plant Room 2.16 - 1:200 Architectural proposals relative to the clinical requirements and infection control. 2.17 - 1:200 Architectural drawings in support of fire engineering proposals and how the proposals support the design concept and meet the requirements of the relevant code. 2.18 - DDA Proposals including drawings, analysis and proposals. 2.19 –Drawings of the developed proposals suitable for use at post Preferred Bidder AEDET Review. 2.20 - 1:50 Architectural design response detailing interfaces with existing RIE 2.21 - 1:100 Architectural drawings and visualisations for the Pod proposals 2.22 – 1:20 coloured part architectural elevations and visualisations showing the Entrances **3. Approach to Design & Construction - Interior Design Proposals** 3.1 - Quality, appropriateness and proposals for RHSC interior design supported by architectural drawings of how the layout and the design proposed addresses:

	3.1.1 - Signage 3.1.2 - Patient, communal and public areas 3.1.3 - Appropriateness of facilities for users 3.2 - Loaded 1:50 room layout drawings for the RHSC indicating interior design proposals and demonstrating the coordinating aspects of all design disciplines, including floors, walls, ceilings, façade ventilation, mechanical and electrical services. 3.3 - Quality, appropriateness and proposals for DCN interior design supported by architectural drawings of how the layout and the design proposed addresses: 3.3.1 - Signage 3.3.2 - Patient, communal and public areas 3.3.3 - Appropriateness of facilities for users 3.4 - Loaded 1:50 room layout drawings for the DCN indicating interior design proposals and demonstrating the coordinating aspects of all design disciplines, including floors, walls, ceilings, façade ventilation, mechanical and electrical services. 3.5 - Internal Perspectives at eye level that demonstrate form and setting of the key internal architectural areas, distinguishing or innovative features which demonstrate the design quality of the proposals 3.6 – Drawings and visualisations to demonstrate the integration of Artwork into the interior design concept. 3.7 – Sample boards to demonstrate the proposed interior finishes, colour and textures. Boards to include RHSC and DCN wards, the Pod, Atrium and CAMHS. **4. Approach to Design & Construction - Civil & Structural Proposals** 4.1 - Structural Drawings Schedule 4.2 - Civil Engineering Drawings Schedule 4.3 - Outline Structural Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. 4.4 - 1:500 Site plan layout indicating all manholes, gully positions for all site drainage 4.5 - 1:500 Site plan layout indicating all positions for surface water drainage

	4.6 - 1:500 Site plan layout indicating all positions for foul water drainage 4.7 - 1:500 Site plan layout indicating all positions for water mains 4.8 - 1:500 Site plan layout indicating all positions for roads, footpaths and finished levels 4.9 - 1:200 structural general arrangement foundation plans 4.10 - 1:200 structural general arrangement plans including floor and roof plans indicating all column and beam locations and sizes and all structural elements 4.11 - 1:100 structural sections through the building showing structural elements and service zones 4.12 - Confirmation of Geotechnical surveys, reports, studies undertaken in addition to the Geotechnical survey in the data room 4.13 - Confirmation of other site surveys, reports, studies undertaken in addition to the information already located in the data room 4.14 - Confirmation of any vibration monitoring / prevention proposals. 4.15 - 1:100 drawings for Helipad 4.16 - Outline Structural Specification supporting the Helipad design concept including proposed materials and components to be used. Outline Specification shall be included for all components in accordance with the NBS Specification **5**. **Mechanical & Electrical Services** 5.1 - Building services (mechanical) drawings schedule 5.2 - Building services (electrical) drawings schedule 5.3 - Outline Building services (mechanical) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. 5.4 - Outline Building services (electrical) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. 5.5 - 1:500 site plan layout indicating all mechanical services , utilities supplies, natural gas mains, water supply and fire

	mains 5.6 - 1:500 site plan layout indicating all electrical utilities supplies, electrical mains, data and communications ducts 5.7 - 1:200 internal services concept schematic and zoning plans for both heating and ventilation; indicating of heating and ventilation in each room 5.8 - 1:200 mechanical general arrangement floor plans showing extent of services, distribution routes, mechanical plant acoustic treatment, plant areas, etc 5.9 - Mechanical schematic layouts and report (co-ordinated and consistent with all drawings and design information contained within the Bid Submission Requirements) denoting details and extent of proposed : 5.9.1 - Plant strategy 5.9.2 - Distribution strategy 5.9.3 - Incoming gas and water services (including metering and sub-metering) 5.9.4 - Environmental design considerations 5.9.5 - Heat sources 5.9.6 - Natural Ventilation strategy 5.9.7 - Mechanical Ventilation strategy 5.9.8 - Mechanical cooling 5.9.9 - Mechanical air conditioning 5.9.10 - Specialist ventilation strategy 5.9.11 - Domestic hot and cold water system 5.9.12 - Space Heating System 5.9.13 - Space Cooling System 5.9.14 - Building Energy and Management System 5.9.15 - Dry Risers 5.9.16 - Soil and Waste System (above and underground)

	5.9.17 - Rainwater pipework and distribution 5.9.18 - Specialist drainage 5.9.19 - Sanitary ware and appliances 5.9.20 - Dry Risers 5.9.21 - Natural Gas Installations including Laboratory Gases 5.9.22 - Medical Gas Installations 5.9.23 – Pneumatic Tube System 5.9.24 - Mechanical Commissioning Strategy 5.10 - 1:200 electrical general arrangement floor plans showing extent of services, distribution routes, plant areas, etc 5.11 - Electrical schematic layouts and report (co-ordinated and consistent with all drawings and design information contained within the Bid Submission Requirements) denoting details and extent of proposed: 5.11.1 - Incoming electrical services 5.11.2 – Metering and Sub-metering 5.11.3 - Mains distribution including standby generation facilities 5.11.4 - Earthing, Bonding and Lightning protection 5.11.5 - Containment systems 5.11.6 - Small power installation 5.11.7 – Lighting and Emergency Lighting 5.11.8 - Specialist lighting 5.11.9 - Lighting control systems 5.11.10 - Uninterruptible Power Supplies 5.11.11 - Telecommunications and I.T. 5.11.12 - Nurse Call System 5.11.13 - Fire Detection and Suppression System

	5.11.14 - Staff Attack / Induction Loop 5.11.15 - Security system 5.11.16 - Access Control system 5.11.17 - CCTV system 5.11.18 - Public address system 5.11.19 - Digital TV and Radio Installation 5.11.20 – Patient / Equipment Tagging 5.11.21 – Induction Loop 5.11.22 – Bedhead Services 5.11.23 - Electrical Commissioning Strategy 5.12 - 1:50 mechanical and electrical services sections to illustrate use of ceilings, natural daylight, ventilation strategies, cooling and heating strategies, lighting strategy, acoustic strategy, specialist installations strategy, services concept **6. Lift Provisions** 6.1 - Lift and Escalator Drawings Schedule 6.2 - Outline Building Services (lift and escalator provision) Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. Traffic flow analysis to be included. **7. Environmental Services and Energy Management Strategy** 7.1 - Natural Ventilation drawings and proposals **8. Fire Strategy** 8.1 - 1:200 Fire Strategy drawings in support of fire engineering proposals and how the proposals support the design concept and meet the requirements of the relevant code.

	8.2 - Outline Fire Strategy Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. **9. Security Strategy** 9.1- 1:200 Security drawings in support of security strategy and how the security proposals support the design concept 9.2 - Outline Security Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. **10. Acoustic Strategy** 10.1 - Outline Acoustic Specification supporting the design concept including proposed materials and components to be used. Outline Specification shall be included for all components as detailed in the appropriate sub section of the NBS Specification template. **11. Adaptability, Flexibility and Expandability Strategy** 11.1 - Architectural adaptability drawings in support of the overall adaptability strategy. 11.2 - Strategy and drawings showing how the design of the new RHSC and DCN demonstrates innovation, flexibility, consideration of whole life design and is capable of absorbing reasonable change in the future without excessive public, patient or clinical disruption.

Appendix A (iv) – Specifications

Appendix A (iv)	**Specifications** Bidders shall provide specific details on their proposed suite of specifications for the Works. These details shall include, but not be limited to the following: i. The industry recognised specifications proposed, with specific commentary on the extent of application of those to each main discipline (civil / structural, M&E, architectural etc); ii. Inclusion of either Project specific specifications for each main discipline, or example specifications used on other projects that are representative of the level of detail and clearly demonstrate the proposed level of quality that will apply to this scheme: and iii. A statement confirming that all such specifications (including fully completed framework specifications) will be fully drafted by the Preferred Bidder prior to Financial Close. For the avoidance of doubt, the Board is expecting Bidders to adopt both general, and where required, specific specifications to cover all components, materials, workmanship etc. For example the NBS framework could be utilised for mainstream building elements, however may need to be supplemented by specific standards and specifications relevant to particular Bidder proposals (e.g. piling, steelwork erection, infrastructure works).

Appendix A (v) – Technical Cost Proformas

[See separate Excel file]

Appendix A (vi) – Change Protocol

Annex 1 to Appendix A (vi) – Description of Potential Equalisation Adjustment for Change Protocol

Bidders to note the following points in relation to the Appendices to Schedule Part 16 Change Protocol;

1. Notional fixed quantities have been applied to the attached Appendices of Schedule Part 16 - Change Protocol,
2. The notional fixed quantities will be applied automatically to the bidder's rates to obtain the annual cost of the bidders Appendices of Schedule Part 16 - Change Protocol submissions,
3. As described at paragraph 5.7.1 (c) (Economic Cost) of Volume 1 of the ITPD, the Board will apply the annual cost over the 25 year concession period.
4. A probability factor will be applied to the annual cost of each Bidder's proposals, with the probability being a maximum of 20% in any year, to reflect the likelihood that the full value of change will not apply to each and every year but will vary across the contract period. With respect to the proposed probability factor, the Board confirms that the same factors will be applied to all three Bidder.
5. The resulting risk adjusted annual values will be discounted by 3.5% (real) to derive a NPV that will form the Equalisation Adjustment to be applied.
6. The notional quantities will be removed prior to Financial Close and will not form part of the catalogue for the operational period and as such should not be assumed to be the level of works required during the contract period.
7. When completing Appendix 1 Part 1 bidders should ensure that the Timescales section of the Appendix are completed with reference to the drafting in Schedule part 16.
8. The population of these catalogues is for evaluation purposes only through a potential Equalisation Adjustment, which shall be calculated pursuant to the above description. At the preferred bidder stage the catalogue will be developed further to reflect the full range of specifications within the preferred bidders design, any additional rates will be benchmarked against the bidders original rates proposed at Final Tender.
9. It is recognised that each Bidder will be applying different product solutions and it is for the Bidder to decide the appropriate product(s) from their catalogue to be inserted into the change workbook which is only to be utilised for evaluation purposes. This should be based on bidders' experience of the most likely product(s) to be required under change control noting;

Appendix 2, Part 1 – column for Bidder Priced Product Description, to allow bidders to specify the product they have used for pricing each line item within the table.

Appendix 2, Part 2 – Revised the responsible party for a number of items to correctly reflect the costing requirements for lifecycle works.

Annex 2 to Appendix A (vi) – Schedule Part 16 Change Protocol Proformas

[See separate Excel file]

Appendix B (i) – Financial Submission Requirements

Bidders should provide their responses to the questions below in a separate document labelled 'Financial Submission'. Where possible, the responses should be contained in a single document, with the use of separate annex documents avoided if it is possible to include the relevant information in the main text without causing difficulties in formatting or document size.

Ref	Required Response
F1	**Potential Funders** Bidders should provide details of funders that the Bidder would intend to involve in a Preferred Bidder Funding Competition. This shortlist should include as wide a range of potential funding solutions as is practical and should include capital markets solutions. Bidders should submit summary details of the funding terms being proposed by these funders within Final Tenders for information purposes only. Letters of support should be submitted from funders to be included in the funding competition.
F2	**Funding Competition Methodology** The Bidder's response should set out how value for money will be secured between funding options and/or funding providers, during the Preferred Bidder Funding Competition. This should take the form of a proposed Funding Competition methodology, to be based on the protocol set out in Appendix B6 below, that will be applied in order to secure the required funding after Preferred Bidder appointment, including timescales that will apply.
F3	**Programme to Financial Close** The Bidder should describe any additional funding-specific actions or issues between Tender submission and Financial Close over and above those described in the answer to question B15. Except where already provided in the response to question B15, evidence must be provided that potential providers of finance to Project Co have accepted the proposed timetable in principle and that adequate resource will be available to ensure the timetable is met. Where possible, and again except where already covered in the response to question B15, Bidders should provide a clear statement on the level of approval process and timescale that will be required from the respective lending organisations.
F4	**Exclusivity** Bidders should provide a statement confirming that they have not entered/will not enter into any exclusivity arrangements with funders before Preferred Bidder appointment.
F5	**Risk Capital Information** The Bidder must submit the following information for each type of risk capital to be raised: • Identity of the investors • Amounts to be subscribed by each investor and the timing thereof • Terms and conditions of the subscription including return requirements and/or coupon rights (shareholder agreement or detailed term sheet) • Mezzanine interest rates if applicable • Terms and any other agreements between the Investors in their capacity as investors in the Project

Ref	Required Response
	Co • Any other rights attaching to this subscription • An undertaking that no additional margins or charges will apply that have not already been disclosed and included in the Financial Model • The length of time each class of risk capital will remain in the project vehicle • The extent to which the funds are committed. The Bidder is required to produce the strongest form of commitment possible. The level of commitment should be demonstrated through the provision of Board minutes or letters of support from the sponsors committing to subscribe subordinated debt on the terms identified above.
F6	**Due Diligence** The Bidder should indicate the extent of the funder due diligence that has been carried out to date and the overall scope and timetable of funder due diligence up to Financial Close. In addition to the provider of senior debt, the response should cover due diligence required by any third party provider of subordinated debt funds. Bidders should provide completed versions of the diligence certification appended to this document at Appendix B3 below for legal and technical diligence advisors, to the effect that they have carried out work as if acting on behalf of funders and have raised all of the issues that they would normally expect funders to have raised in assessing the Bidders' proposals. Bidders should submit any diligence reports available in support of the certification. A model audit is not required at this stage. However, Bidders should indicate whether a model auditor has been appointed and if so, what scope of services has been agreed. Bidders should indicate their acceptance of the risk that the model audit may prove the Annual Service Payment to be incorrect, and that they may not pass any additional costs on to the Board.
F7	**Security Package** Bidders should provide full details of the security required to support their proposals, including parent company guarantees, bonding, letters of credit, liquidated damages and liability caps, and set out full details of the pricing assumed for such a security package. This should be done by completing the table included in Appendix B5. Bidders should confirm that they will bear the risk of pricing of the security package relating to senior debt as contained with the Bidder's submitted Financial Model. Bidders should describe the process undertaken to establish the security package and pricing proposed and set out how they have satisfied themselves that they are able to bear the risk of any change in pricing. **Security Package for Capital Market Solution** Bidders should provide detailed pricing information for the security package required for a capital market solution, based on discussions with potential providers of funding from this source and clearly demonstrating the level of internal approval already obtained or required to secure such pricing. Bidders should complete the table included at Appendix B5. Evidence to support the pricing presented, such as letters from brokers or bondsmen, should be provided in support of this information. Bidders should describe how pricing of the package might change if the sizing of the security package alters, for example, if a 15% performance bond is required. Bidders should clearly set out in their proposals the trigger point for any change in junior debt structure or timing that may come as a result of the use of a capital funded solution. For example, Bidders should indicate the tolerance within which any change in the timing, structure or amount of junior debt would allow that Bidder to keep to its final tender IRR.

Ref	Required Response
	Bidders should identify any security package requirements that would be unacceptable.
F8	**Financial Model** The Bidder should provide a narrative statement describing the key outputs of the Financial Model, including Annual Service Payment (both real and nominal in the first full year of operations); NPV of ASP and surpluses, summary of pass-through costs, sources and uses of funds and key assumptions. The Bidder is required to submit the Financial Model from which the key output information is derived which complies with the authority term sheet in Appendix B4 and the key assumption and format requirements set out in section 3.9 of IFT Volume 1.
F9	**Databook** The Bidder is required to provide a databook and user guide supporting the Financial Model for the Financial Submission, as set out in section 3.9 of IFT Volume 1.
F10	**Proformas** The proforma financial information requirements are included in Appendix B2 below. The information is the minimum requirement. Where the Bidder needs to provide additional information in order to provide a higher level of understanding of the individual components of the submission such additional information should be provided.
F11	**Tax and Accounting Risk** The Bidder should provide confirmation that they will underwrite and accept all risk relating to the tax and accounting adopted within the Financial Model.
F12	**Advisor Opinion** Bidders should submit a formal letter from their tax advisers or suitably qualified professional from within the Bidder's own organisation confirming that in their opinion the proposed tax treatment (including corporation tax, treatment of surpluses, VAT and SDLT) is valid and that any required accounting treatments underpinning the tax treatment would be within the appropriate accounting standards. This opinion should set out the basis for the treatments adopted, and identify any risks associated with it.
F13	**Detailed Tax Assumptions** Bidders should identify assumptions in relation to taxation including the following: • Bidders must specify the corporation tax rates assumed, including any marginal relief (if appropriate) and confirm that consideration has been given to changes to the standard rate of corporation tax included in the Finance Act 2011 and announcements in the 2012 Autumn Statement. • Bidders should specify the assumptions made in respect of the commencement and cessation of trade for tax purposes, including any tax relief assumed for pre-trading interest costs. • Bidders should specify the assumptions made in respect of deductibility or non-deductibility of revenue costs, including in respect of construction costs, transaction costs, such as bid costs, development costs, planning costs and legal fees. • Bidders are required to specify the assumptions made in respect of the tax treatment of capital expenditure, (including in respect of lifecycle costs and any intangible fixed assets) including amounts of expenditure allocated to the different capital allowance pools, amounts assumed to be non-qualifying for capital allowances, the rate of writing down allowance claimed and details of any capital allowances disclaimed.

Ref	Required Response
	• Bidders are required to categorise taxable profits by type, such as trading profits, interest, and other non-trading profits or losses. The categories of taxable income should be appropriately ring-fenced (e.g. when carrying forward losses). • Bidders must specify any assumptions made in respect of the tax treatment of capitalised interest. • The application of transfer pricing legislation in the UK can have implications for PPP/PFI projects, particularly around the tax treatment of subordinated debt and corporate debt interest charges. Bidders should consider the implications of this aspect of corporation tax on their proposals and confirm that any such implications have been considered. • Bidders should consider the potential implications of the worldwide debt cap in respect of the deductibility of interest costs and confirm that any such implications have been taken into account in pricing the project. • Bidders should provide a statement setting out their assumptions in respect of the tax treatment of any other income or capital contributions received. • Bidders should provide a statement setting out any tax assumptions made concerning timing of payments of corporation tax. • Bidders must make their own decisions as to whether or not to seek advanced tax clearance from HMRC for any aspect of the proposed treatment. If such clearance is sought, Bidders must attach the appropriate correspondence to their submission. If the Bidder is relying on an advanced clearance from HMRC, this will need to be provided before contract signature and Financial Close. • Bidders are required to state any VAT assumptions made and the basis for these assumptions (including VAT implications in relation to land transactions where applicable). • Bidders should consider the implications of SDLT on their proposals if relevant. Any SDLT costs should be included within the Financial Model along with an accompanying statement explaining how it is calculated.
F14	**Bid Validity** Bidders should confirm that they will maintain underlying construction, operating, FM and Project Co costs for a period of three months from the target Financial Close date with no adjustment for inflation. Bidders should confirm that only capital, lifecycle and facilities management costs will increase post-validity period and that they will use all reasonable endeavours to mitigate the impact of any cost increases post validity period. Bidders should provide specific cell references in the Financial Model that define which costs will increase post validity period. Bidders should specify which cost index or indices they require costs to be inflated in the post validity period. Note should be taken of the indexation regime that will be applied to Scottish Government support in relation to the construction cost cap.
F15	**Surplus Treatment** Bidders should describe in detail the tax and accounting treatment applied to any surpluses in the Financial Model. Bidders should also set out the approach taken to the creation of any cash buffer, with reference to paragraph 3.8.6 of this IFT document.
F16	**Hedging** The Bidder must set out clearly its proposal in relation to financial risk, Financial Close and any hedging arrangements required to support the project. The following details should be provided:

Ref	Required Response
	• The manner in which the Bidder will address the risk of future movements on interest rates, including a full description of its interest rate hedging to be applied. • The time period over which hedges are expected to be in place. • Details of any financial instruments that will be used to provide protection against interest rate movements and the cost/effect of such protection should be reflected in the Financial Model. • Confirmation that the Project Co will bear all interest rate risk in respect of its borrowings once Financial Close is achieved. • Confirmation that the Bidder (and subsequently Project Co) will bear all foreign exchange risk. • The manner in which the Bidder will address the risk of future movements in the Retail Price Index (RPI). The Board does not expect that any Bidder's funding solution will require the use of RPI hedging instruments. The Financial Model submission should clearly demonstrate the proportion of costs that are fixed, the proportion subject to inflation and the basis upon which the Bidder has set the proportion of Annual Service Payment that will be subject to inflation. • Confirmation of the acceptance of the principle of benchmarking of hedging instruments (including GICs where appropriate) at Financial Close. • The Bidder should identify the broad approach they will utilise in setting the underlying funding rate at Financial Close ensuring transparency and best value for The Board.
F17	**Payment Mechanism** The Bidder should confirm, in relation to the payment mechanism schedule and thresholds for warning notices and termination in clauses 24 and 41, that: • the sponsors support the bid position • the bid position is acceptable to FM sub-contractors • appointed funder technical advisors have reviewed the bid position and have included all relevant comments in their due diligence report • the Bidder will work with the Board in agreeing the bid position with funders appointed as a result of the funding competition

Appendix B (ii) – Financial Proformas

[See separate Excel file]

Appendix B (iii) – Due Diligence Certification

Part 1 - Funder's Technical Adviser: Draft Certificate

As per Question F6 of the Financial Submission Requirements, The Board requires that this certificate is signed by the technical adviser who has carried out the funder's technical due diligence exercise for the purposes of the Final Tender.

We were appointed by [Insert name of Bidder] to carry out funder due diligence on the Final Tender Submission ("Funder's Technical Due Diligence").

We were appointed to undertake the following scope of work and confirm that this has been completed.

a) [Insert Scope of work here]

We confirm that this is the level of technical due diligence we would expect to carry out on behalf of a funder for a project of this type at this stage.

We confirm that we have undertaken due diligence on the calibration of the Payment Mechanism and that any matters which we have raised as a result of the due diligence we have carried out have been raised and discussed with the Board during the Dialogue Period and have been included within [Insert name of Bidder]'s Final Tender submission.

Approved Signatory of technical adviser: _____

Name of company: _____

Date: _____

Part 2 - Funder's Legal Adviser: Draft Certificate

As per Question F6 of the Financial Submission Requirements, The Board requires that this certificate is signed by the legal adviser who has carried out the funder's technical due diligence exercise for the purposes of the Final Tender.

We were appointed by [Insert name of Final Bidder] to carry out funder due diligence on the Final Tender Submission ("Funder's legal Due Diligence").

We were appointed to undertake the following scope of work and confirm that this has been completed.

a) [Insert Scope of work here]

We confirm that this is the level of legal due diligence we would expect to carry out on behalf of a funder for a project of this type at this stage.

We confirm that any matters which we have raised as a result of the funder due diligence we have carried out have been raised and discussed with the Board during dialogue and are included within [Insert name of Final Bidder]'s Final Tender submission.

Approved Signatory of legal adviser: _____

Name of company: _____

Date: _____

Appendix B (iv) – Term Sheets

	Commercial Bank(s)	**EIB**
Senior Term Loan	50% of the Senior Funding Requirement.	50% of the Senior Funding Requirement up to a maximum of £98.81 million.
Gearing	To be no more than 90% at Financial Close.	
Debt tail	2 years	
Repayment	The Senior Term Loan shall be repaid in accordance with the agreed repayment schedule reflected in the Base Case Financial Model and the Facility Agreement, which will be a 6-monthly sculpted schedule.	
Facility Margins	LIBOR assumed to be 4.00% Construction: LIBOR plus 2.80% p.a. Operations Yrs 1 - 8: LIBOR plus 2.50% Operations Yrs 9 - 15: LIBOR plus 2.80% Operations Yrs 16 - 20: LIBOR plus 3.00% Operations Yrs 21+: LIBOR plus 3.20% Equity Bridge (if in use): 1.75%	5.50% p.a. throughout.
Hedging Credit Spread	Interest rate swap: 0.28%	n/a
MLAs	2 bps	n/a
Arrangement Fee	2.30 %	1.00%
Commitment Fee	40% of the applicable margin	45bps
Agency Fee	£35,000 p.a. indexed	n/a
Cover Ratios	Base Case Minimum ADSCR: 1.20 Base Case Average ADSCR: 1.20 Minimum LLCR: 1.20 Lock Up ADSCR: 1.10 Lock Up LLCR: 1.15 Default Minimum ADSCR: 1.05 Default Minimum LLCR: 1.10	
Reserve Accounts	A Debt Service Reserve Account to cover 6 months debt service. A Maintenance Reserve Account to provide a 3 year look-forward	

	reserve mechanism on a 100%/66%/33% basis.

Project Ratios – Definitions

For the purpose of this Term Sheet, cover ratios shall be defined as follows:

Annual Debt Service Cover Ratio (ADSCR) - (Backward and Forward looking)

The ADSCR is calculated looking back 12 months from the testing date and looking forward 12 months from the testing date and is calculated as the Available Cash Flow **divided by** the Debt Repayments.

Available Cash Flow comprises:

Include	**Deduct**
Unitary Payment	Service provider operating costs
Current account balance	SPV operating expenditure
Receipt of third party revenue	Life-cycle costs
Cash receipts from sale of tax losses	Taxes
Positive changes in working capital	Negative changes in working capital
Releases from Reserve Account(s)	Payments to Reserve Account(s)
Interest received on cash deposits	

Debt Repayment comprises:

Senior debt principal repayments plus senior debt interest payments for the 12 months prior to the testing date for a backward looking ADSCR and 12months from the testing date for a forward looking ADSCR.

Loan Life Cover Ratio

Net present value of forecast available cash from the testing date until the final repayment date of the senior debt discounted to the testing date at the weight average cost of the senior debt plus all cash balances **divided by** total senior debt outstanding at the calculation date.

Luxembourg, 04 December 2013 OPS A/WE-2/2013-0200/FR/vdb Ref.:

Royal Hospital for Sick Children (RHSC), Child and Adolescent Mental Health Service (CAMHS) and the Department of Clinical Neurosciences (DCN).

Dear Madam,

The European Investment Bank ("**EIB**") is pleased to respond to the request of the NHS Lothian (the "**Authority**") to write in support of the financing proposal for the Royal Hospital for Sick Children (RHSC), Child and Adolescent Mental Health Service (CAMHS) and the Department of Clinical Neurosciences (DCN), (the "**Project**").

The EIB's Board of Directors have approved in principle a loan to the Project for an amount of up to GBP 98.81 million. This letter does not represent a binding commitment by EIB to provide financing to the Authority, or the Project, and any financing and participation by EIB will be subject to satisfactory due diligence, terms and documentation, including but not limited to the various conditions referred to below.

The commitment to fund the Project would be made at financial close and before providing such commitment EIB would need to be satisfied that various conditions have been fulfilled including, inter alia:

(i) we have completed satisfactory due diligence in relation to the Project and that the structure and terms of all project and finance documentation are satisfactory to us;
(ii) we have agreed the commercial arrangements and documentation with the preferred bidder, the sponsors/contractors and the other debt providers;
(iii) the proposed loan achieves an acceptable internal loan grading and risk profile;
(iv) that we have received the necessary internal credit and other approvals; and

98-100, boulevard Konrad Adenauer L-2950 Luxembourg (+352) 43 79 1 (+352) 43 77 04 info@eib.org www.eib.org

(v) the relevant conditions precedent have been fulfilled to EIB's satisfaction.

This letter shall not create any legal relations.

More information on these projects can be found on www.eib.org

EIB looks forward to working with the Authority on the implementation of this Project.

This letter shall be governed by and construed in accordance with English law.

Yours faithfully,

EUROPEAN INVESTMENT BANK

[redacted] [redacted]

Appendix B (vi) – Funding Competition Protocol

Objectives of the Funding Competition

The primary objective of the Funding Competition is to identify competitive proposals for senior debt funding for the Project which:

- are firm, unqualified and deliverable;
- enable the required amount of senior debt to be raised;
- reduce the NPV of the Annual Service Payment as proposed in the Preferred Bidder's Final Tender Financial Model ('FT Model');
- are deliverable by the target Financial Close date 1 October 2014;
- do not require any renegotiation of any Project documents or any alteration of the risk allocation as agreed between the Board and Preferred Bidder.

Process

Delivery of senior debt funding is the responsibility of the Preferred Bidder. This includes:

- management of the Funding Competition process and of the funder Due Diligence process;
- production of all materials required and covering all costs incurred in the process;
- meeting the timescales that will be set out in the Preferred Bidder letter.

The Funding Competition will be run by the Preferred Bidder, subject to advance approval from the Board, SFT and their financial advisors in respect of key issues including:

- timing of the competition;
- developing the shortlist of prospective funders to be approached;
- the documentation issued to prospective funders;
- evaluation criteria;
- final selection of bank versus any other (e.g. public bond) structure.

Any difference in cost to the account of the Preferred Bidder arising from the final selection of funding route is the Preferred Bidder's risk, subject to the risk allocation arrangements set out in the IFT. Such costs will not be amended following selection of Preferred Bidder and final selection of preferred funder(s).

Offers solicited from prospective senior debt funders must at a minimum:

- be deliverable - final submissions from funders must have credit committee approval providing an unambiguous commitment to fund;
- be sufficient to cover the full required senior debt sum;
- set out their proposals for all key terms such as credit margins, fees, cover ratios, and interest rate hedging;
- accept the principles of public sector benchmarking of derivatives pricing at Financial Close, or competing any GICs at Financial Close in the case of a bond solution;
- accept the Project Agreement, associated Schedules and all other Project Documents in full, preserving the risk allocation set out in the Final Tender. Any funder seeking to amend these Documents may be excluded from the Competition;
- confirm whether the Preferred Bidder's security package proposals (including proposed security provider(s)) are acceptable;
- confirm their rating requirements for the Account Bank;

- confirm whether their offer is a "bank" or "bond" solution; that they accept the standard form compensation on termination provisions for "bank" or "bond" (as applicable); that they accept calculation of breakage costs on termination on the basis of readily identifiable and objective benchmarks;
- demonstrate commitment to the proposed financial close date;
- confirm whether the Preferred Bidder's security package proposals (including proposed security provider(s)) are acceptable;
- confirm their rating requirements for the Account Bank;
- confirm whether their offer is a "bank" or "bond" solution; that they accept the standard form compensation on termination provisions for "bank" or "bond" (as applicable); that they accept calculation of breakage costs on termination on the basis of readily identifiable and objective benchmarks;
- reflect the detailed funder's due diligence undertaken and accept novation of the funder's advisors appointed by the Preferred Bidder; and
- demonstrate commitment to the proposed financial close date.

The Board will not accept significant changes to the Project Agreement, associated Schedules or other Project Documents as a result of the funding competition. To the extent that any such change has a negative impact on the Project it will be an equity risk rather than a risk for the Board. The Board therefore expects the Preferred Bidder to develop the Information Memorandum to a sufficient level of detail to make the above terms for participation clear.

If financing is expected to come from a club of funders, the following should be asked of prospective funders in order to assess the deliverability of any club solution:

- whether, if part of a club, they would accept one funder in the club taking on the role of Agent/Security Trustee (and whether they would be willing to / require to assume that role); and
- whether, if part of a club, they would accept the appointment of one funder to represent the club on technical issues and one funder to represent the club on legal issues (and whether they would be willing to / require to assume that role).

The Preferred Bidder will discuss Funding Competition responses received with the Board to allow financial modelling of responses to be carried out on an agreed basis. The Preferred Bidder will model all Funding Competition responses agreed with the Board as set out in the Funding Competition Methodology. The Preferred Bidder will prepare a summary report demonstrating the impact of each funding proposal on the Annual Service Payment and the associated NPV versus those in the FT Model as well as a tabular summary of pricing and key terms and conditions for each proposal.

Financial Model

The FT Model based on the Board's Final Tender term sheet provided in this document will be provided to prospective funders by the Preferred Bidder. Funders will be requested to improve on these terms, subject to there being no change in the Board's risk profile. If prospective funders feel that a revised Model reflecting an alternative structure is necessary for them to perform their assessment of the Project then they should outline their rationale to enable the Preferred Bidder and Board to consider the request and agree a new version.

The junior debt coupon included in the FT Model will not increase regardless of any change in rates or terms resulting from the Funding Competition.

The Board will take the risk up to Financial Close on movements to underlying LIBOR/ reference gilt/GIC rates or bond margin.

Benefits arising from the Funding Competition and any improvements up to and including Financial

Close will be passed in full to the Board, including improvements in bank terms such as fees, costs, margins, gearing, cover ratios and increase in loan tenor. Benefits from any incorporation of EIB finance are wholly for the account of the Board.

Involvement of the Board and SFT

To enable agreement and decision-making throughout the process, the Preferred Bidder will chair a funding competition "working group" which will include a representative from each of the Board, its financial advisers and SFT.

Consent of SFT will be required throughout, including:

- agreement of the shortlist of funders;
- agreement of the contents of the Information Memorandum;
- final selection of the funding route and final selection of the preferred funder(s).

All correspondence with funders in competition will be recorded in writing and available to all procuring parties (i.e. the Board, the preferred bidder, SFT and advisors).

The Board, its advisors and SFT retain the right to attend all significant meetings held with potential funders. A minimum of 48 hours' notice of such meetings must therefore be given to the Board including a detailed agenda for such meetings.

Regular summaries of significant communications pertaining to the competition and the position of any negotiations are to be provided in advance of each meeting.

The competition will be run on a transparent, open book basis. The Preferred Bidder will allow the Board, its advisors and SFT full access to the responses received from funders and all analysis (including financial modelling produced by the Preferred Bidder or its advisers) to assess and compare those responses. The Preferred Bidder agrees to run any additional scenarios or sensitivities reasonably requested by the Board, its advisors or SFT. The list of sensitivities will, as far as possible, be agreed in advance of the competition.

Appendix C (i) – Not Used

Appendix C (ii) – Legal Submission Requirements and Evaluation

1. Prohibited Bidder Amendments

1.1 Bidders will not be permitted to include in their Final Tender (Bidder Specific) NPD Project Agreement or any part of their Final Tender Submission:

1.1.1 amendments, caveats and/or qualifications which have not previously been raised with the Board and/or its advisers during the Dialogue Period (other than drafting that is necessarily consequential on, or necessary to implement, amendments which have been so raised); or

1.1.2 amendments, caveats and/or qualifications which have been raised with the Board during Dialogue Period but rejected by the SFT,

such amendments being defined as "**Prohibited Bidder Amendments**".

1.2 The Board shall be entitled to reject in its absolute discretion any Prohibited Bidder Amendments included within the Final Tender (Bidder Specific) NPD Project Agreement or Final Tender Submission which forms part of a Bidder's submission for the Final Tender**.**

2. Final Tender

2.1 Overview

Unless a Bidder is notified otherwise , the legal submission requirements for the Final Tender shall be as set out in paragraph 2.2 (NPD Project Agreement) and 2.3 (Additional Documentation) below.

2.2 NPD Project Agreement Submission

2.2.1 Bidders should note that a NPD Project Agreement specific to each Bidder (**Final Tender (Bidder Specific) NPD Project Agreement**) shall be issued to each Bidder by the Board in the Invitation to Submit a Final Tender.

2.2.2 The Final Tender (Bidder Specific) NPD Project shall be based upon:

(a) the respective NPD Project Agreement submitted by Bidders as part of the Draft Final Tender ; and

(b) any agreed issues resolved in the final Dialogue Meeting,

and Bidders shall be required to submit their Final Tenders on the basis of the terms of the Final Tender (Bidder Specific) NPD Project Agreements, without further amendment (subject to paragraph 2.4.1(a)(ii)) (the "**NPD Project Agreement Submission**"). A letter from each Bidder's consortium confirming that their Final Tender (Bidder Specific) NPD Project Agreement is acceptable to them shall suffice for the purposes of the NPD Project Agreement Submission. Please also note the additional Board requirement to complete the certificate set out in Appendix K (Acceptance of Contractual Terms) by the consortium members (including sub-contractors).

2.2.3 Subject to paragraph 2.4.1(a)(ii) any amendment to the Final Tender (Bidder Specific) NPD Project Agreement may result in a Bidder's entire Final Tender being rejected by the Board without further evaluation.

2.3 Additional Documentation Submission

2.3.1 Subject to paragraph 2.3.2, the following documentation (**the "Additional Documentation Submission**") shall also require to be submitted by Bidders as part of their Final Tender:

(a) Contractual matrix/diagram, showing clearly the relationships between the Bidder and its supply chain including shareholders, junior debt providers, funders and sub-contractors. The diagram should provide details of all collateral warranties, direct agreements, any applicable guarantees and who the design consultants shall be which will be granted to the Board and the circumstances in which the protection offered by the collateral warranties and direct agreements will be available;

(b) Fully developed, signed heads of terms for each of the Contractor, Services Provider and any relevant Key Sub-contractors. The Board will expect to see details such as caps on liability, liquidated damages and indemnities covered in these heads of terms;

(c) Final version of proposed parent company guarantees; and

(d) Final version of the NPD Articles of Association.

2.3.2 The documentation referred to above in paragraph 2.3.1 above, shall be based upon:

(a) such similar documentation as was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(b) any agreed issues resolved in the final Dialogue Meeting,

and Bidders shall be required to submit their Final Tenders on the basis of the terms of this paragraph, without further amendment.

2.4 Evaluation of Final Tender

2.4.1 The legal submission which forms part of the Final Tender shall be evaluated as follows:

(a) NPD Project Agreement

Subject to paragraph 2.2.3, the NPD Project Agreement shall be evaluated in accordance with the following:

(i) Pass/Fail: Subject to paragraph 2.4.1 (a)(ii) below, Bidders shall be awarded a pass if they accept the Final Tender (Bidder Specific) Project Agreement. Bidders shall be awarded a fail if they do not accept the Final Tender (Bidder Specific) Project Agreement;

(ii) If a pass is received by Bidders in respect of the Final Tender (Bidder Specific) Project Agreement, the provisions of paragraph 5.7.1(d) (Quantifiable Bidder Amendments) of Volume 1 of the ITPD shall be applied. The Quantifiable Bidder Amendments that shall be applied to a Bidder's Provisional Economic Cost Score shall be those Quantifiable Bidder Amendments notified by the Board to Bidders

during the Dialogue Period. Bidders can choose not to include amendments which result in Quantifiable Bidders Amendments within the Final Tender (Bidder Specific) NPD Project Agreement, as part of their Final Tender. The Quantifiable Bidder Amendments to be applied to the Provisional Economic Cost Score shall then be reduced accordingly by the Board.

(b) Additional Documentation Submission

Subject to paragraph 2.3.3, the Additional Documentation Submission referred to in paragraph 2.3.1 above shall be evaluated in accordance with the following:

(i) Pass: Bidders shall be awarded a pass if they submit as part of their legal submission for their Final Tender the documentation referred to above in paragraph 2.3.1 above, which shall be based upon:

(A) such similar documentation as was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(B) any agreed issues resolved in the final Dialogue Meeting,

(ii) Fail: Bidders shall be awarded a fail if they submit as part of their legal submission for their Final Tender the documentation referred to above in paragraph 2.3.1 above which is not based upon:

(A) such similar documentation was submitted by respective Bidders as part of their legal submission for the Draft Final Tender; and

(B) any agreed issues resolved in the final Dialogue Meeting.

Appendix C (iii) – Not Used

Appendix C (iv) – Interface Proposals

Summary of Interface Proposals to be provided by Bidders

The following Interface Proposals are required to be provided by Bidders to the Board for Final Tender as part of C31. The requirements of the Interface Proposals are more fully set out in Appendix A of the Board's Construction Requirements, subject to certain conditions within Schedule Part 5 (Land Matters), and this summary should be read in conjunction with these provisions. Although the Interface Proposals are primarily relevant to the Construction Phase, some Interface Proposals shall apply to the Project Operations. Please note that Appendix A of the Board's Construction Requirements may be subject to change to reflect discussions during the Dialogue Period.

The requirement for the Interface Proposals arose from an agreement between the Board and Consort when the Site was removed from the Campus Site (i.e. in order for the Board to secure land for the construction of the Facilities) and therefore from Consort's responsibility. The Interface Proposals are intended to provide Consort with some comfort that the Project Operations are conducted by Project Co in a manner which is least detrimental to Consort's ability to operate the Retained Estate and/or Retained Site.

The Interface Proposals shall be agreed between the Board and Consort pursuant to procedures set out in the RIE Project Agreement. All Bidders are required to submit Interface Proposals prior to relevant Dialogue Meetings, as per the timetable set out below. However, the Board shall not engage with Consort to finalise and agree these Interface Proposals until Preferred Bidder stage. It is the Board's intention that the Interface Proposals shall be in an agreed form and ready for implementation by the Preferred Bidder at Financial Close.
The Board's approach to the Interface Proposals in the ITPD is to ensure a level playing field between Bidders. Please note that the Board cannot guarantee that Appendix A of the Board's Construction Requirements, upon which the Interface Proposals shall be based, will not be subject to further amendment or refinement at Preferred Bidder stage or post-financial close. However, at this stage, the Board anticipates that any such amendment or refinement should not be material.

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
1	Traffic Management Strategy	The Traffic Management Strategy ('**TMS**') is required where Project Co wants to access the Site for the construction of the Project via the Orange Areas (which	Required to be	Preferred Bidder Stage	Pass / Fail	Construction Phase

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		includes the orange hatched areas) shown on Plan 2. The TMS is a proposal which is to address traffic management at the Campus which must be prepared having regard to: (a) the health and safety of all users of the Campus Site and/or Campus Facilities must be safeguarded at all times; (b) RIE Facilities is a working hospital to which access (including both pedestrian and vehicular) must be maintained at all times; (c) traffic at the Campus Site is to be prioritised in accordance with the following hierarchy: (i) blue light traffic access/egress; (ii) staff, patients and visitors to the Campus Site and/or Campus Facilities (public transport); (iii) staff, patients and visitors to Campus Site and/or Campus Facilities (car parking); (iv) Campus Site and/or Campus Facilities deliveries, FM supplies and waste collection; and (v) Project Co's construction traffic; and (d) insofar as reasonably practicable and appropriate in	submitted for Final Tender. .			

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		the circumstances (taking into consideration, for example, the number of construction vehicles involved, the number of journeys anticipated, the time of the day when access is required and the part(s) of the areas affected) construction traffic using the affected area shall require to be segregated from other traffic and/or pedestrians using the affected area (for example, through contra-flow or one way traffic arrangements and safe routes for pedestrians). Further details of the TMS are set out in paragraph 2 (Construction Access over Orange Area) of Section 1 of Part 1 of Appendix A of the Board's Construction Requirements.				
2	Oversail Strategy	If as part of its activities (including construction of the Project) Project Co needs to oversail any other part of the Retained Site and/or Retained Estate then Project Co requires to prepare Oversail Strategy/ies. The Oversail Strategy/ies must comply with specified criteria and include: (a) programme of proposed oversail activities; (b) risk assessments; (c) a strategy for erection, operation, dismantling of oversailing crane(s), the details of which are more fully set out in Section 4 (Oversailing) of Part 1 of Appendix A of the Board's Construction Requirements.	Required to be submitted for Final Tender.	Preferred Bidder Stage	Pass / Fail	Primarily Construction Phase but also Operational Term if any Project Operations required oversailling

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
3	Access Strategy	An Access Strategy is required where Project Co needs to occupy part or parts or do works in and/or hoard off Access Areas (which includes Orange Areas (including orange hatched areas, on Plan 2), Yellow Area (including yellow hatched area, on Plan 2) and Substation Access Area (which is shaded blue and hatched black on Plan 2)) for carrying out works to pedestrian and vehicular access, to reconfigure roads, footpaths and landscaped areas and install surface water and foul/sewer drainage connections. Pedestrian and vehicular access to the Campus Site and/or Campus Facilities must be maintained at all times (albeit that the access arrangements may require to be subject to restrictions or diversions during any periods of occupation.) These restrictions need approval in the form of an Access Strategy. The Access Strategy is for managing pedestrian and vehicular access, in a manner similar to the TMS above but is not limited to traffic for construction. The Access Strategy is be prepared which shall ensure: (a) The health and safety of all users of the Campus Site and/or Campus Facilities must be safeguarded at all times; (b) Regard is had to RIE Facilities as a working hospital to which appropriate pedestrian and vehicular access must be maintained at all times;	Required to be submitted for Final Tender.	Preferred Bidder Stage	Pass / Fail	Construction Phase and Operational Term (wherever there is to be future ongoing maintenance the areas described).

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		(c) Pedestrian and vehicular access must be maintained (albeit, at times it may be restricted) over the section of Little France Crescent lying within the part of the Orange Area shown shaded orange (but not hatched black) on Plan 2; and (d) Traffic will be prioritised in accordance with the following hierarchy: (i) blue light traffic access/egress; (ii) staff, patients and visitors to the Campus Site and/or Campus Facilities (public transport); (iii) staff, patients and visitors to the Campus Site and/or Campus Facilities (car parking); (iv) Campus Site and/or Campus Facilities deliveries, FM supplies and waste collection; and (v) Project Co's construction traffic. Further details of the Access Strategy are set out in paragraphs 2 to 4 (Access Strategy) and 8 of Section 5 of Part 1 of Appendix A of the Board's Construction Requirements				

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		Provisions about any Access Strategy to address an access which is required in the Operational Term not contemplated by the Access Strategy above is dealt with in Section 2 (Access Strategy and Amended Drainage Proposal) of Part 2 of Appendix A of the Board's Construction Requirements.				
4	Supplemental Drainage Proposal	A Supplemental Drainage Proposal is required where Project Co wants to install new surface water drainage connections from the Site to the existing surface water drain within the Orange Area. There is already an Initial Drainage Proposal, as set out in Appendix E of the Board's Construction Requirements, which primarily details the agreed connection points. This has to be complied with and supplemented by this Supplemental Drainage Proposal to include details of the design, construction, programme and Project Co's drainage proposals for the relevant drainage works. Prior to any drainage works taking place, Project Co (once appointed as Preferred Bidder) shall undertake a camera survey to document the condition of the existing surface water drainage system within the RIE Site. The camera survey will be carried out in accordance with Good Industry Practice and cover the full section of the RIE Site surface water drainage system that will serve the Site, from the point of the first connection from the Site to the drainage system to the point at which the drainage system discharges from the RIE Site to the Niddrie Burn. Four hard copies and an electronic version of the camera survey will be delivered by Project Co to the Board and no	Required to be submitted for Final Tender.	Preferred Bidder Stage	Pass / Fail	Construction Phase

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		works may be carried out until the said camera survey has been carried out and requisite copies delivered by Project Co to the Board. Further details of the Drainage Proposals are set out in paragraphs 5 (Drainage Proposals) and 8 (Other General Matters) of Section 5 of Part 1 of Appendix A of the Board's Construction Requirements. **Amended Drainage Proposal** If when Project Co is carrying out any of the drainage or services connections as more fully described above, it transpires that the position within the Orange Area is different (including route, depth, size or condition of the service media within the Orange Area) from what was anticipated so there is a need to change the scope of the drainage or service connections, then Project Co requires to prepare an Amended Drainage Proposal to include additional detail, information and drawings as are available. Further details of the Amended Drainage Proposals are set out in paragraph 2 (Drainage Proposals) of Section 2 of Part 2 of Appendix A of the Board's Construction Requirements.				
5	Substation Proposal	The Sub-station Proposal must address the construction and maintenance repair and renewal of the access road in the Substation Access Area in the event that a Substation	Required to be submitted	Preferred Bidder Stage	Pass / Fail	Construction Phase and Operational

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		is being built on the Substation Site. **Substation Access Area** If Project Co needs to do works to construct an access road in Substation Access Area shown shaded blue and hatched black on Plan 2, then prior to any access Project Co will have to prepare a Substation Proposal which must include details of design, construction, programme and Project Co's Proposals for the relevant Sub-station Access Works. The Substation Proposal must: (a) be safe in respect of personnel or equipment on any part of the Campus and/or Campus Facilities; (b) be in accordance with Good Industry Practice and Law; (c) not materially adversely effect the flow or functioning of the Niddrie Burn; and (d) adequately protect the high voltage electricity cable running through the Substation Access Area. **Substation** Project Co also needs to provide information about the design and construction of the Substation and Substation HV Cable.	for Final Tender.			Term.

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		Method Statement Maintenance of Substation HV Cable by Project Co. Further details of the Substation Proposals and the Substation and Substation HV Cable are set out in paragraphs 6 and 7 (Substation Access and Cables) of Section 5 of Part 1 of Appendix A of the Board's Construction Requirements.				
6	Service Proposal (Service Strip and Foul Service Strip)	If Project Co wishes to do works (in each case as necessary in connection with the Works) to construct and lay: (a) service media through under over Service Strip (shown shaded yellow and hatched black on Plan 2) for the passage of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications); and/or (b) foul drainage through under over Foul Service Strip (shown shaded yellow and hatched black on Plan 2A) for the passage of foul drainage, then Project Co requires to exhibit Scottish Water or other statutory authority/utility company approvals in relation to the works for the connection of service media from the Site to the mains sewer located on the RIE Site and provide a Project Co's Proposal which must detail the route and depth of service media and detailed Method Statements for the maintenance, repair and renewal of the (i) service media through, under and over the Service Strip; and (ii)	Required to be submitted Final Tender.	Preferred Bidder Stage	Pass / Fail	Construction Phase and Operational Term

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		foul drainage through the Foul Service Strip. Further details of the Service Proposal are set out in Section 6 (Service Strip and Foul Service Strip) of Part 1 of Appendix A of the Board's Construction Requirements. **Amended Service Proposal** If when Project Co is carrying out any of the drainage or services connections as more fully described above, it transpires that the position on Site is different (including route, depth, size or condition of the service media on Site) from what was anticipated so there is a need to change the scope of the drainage or service connections, then Project Co requires to prepare an Amended Service Proposal to include additional detail, information and drawings as are available. Further details of the Amended Service Proposal are set out in Section 3 (Service Strip and Foul Service Strip) of Part 2 of Appendix A of the Board's Construction Requirements.				
7	Connection Proposal	Project Co shall prepare a Connection Proposal in respect of the RIE Works. This should include a programme and the following specific connection information: (a) Link Building: (i) Design package for method of connection of the Facilities to the Link; and (ii) a Project Co's Proposal in respect of the connection to the Link	Required to be submitted for Final Tender.	Preferred Bidder Stage	Pass / Fail	Construction Phase and Operational Term

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		Building; (b) Fire alarm systems: (i) The fire alarm system specification for the interface link between the fire alarm system within the Facilities and the RIE Facilities; (ii) design package information for method of installation for the interface link between the fire alarm system within the Facilities and the RIE Facilities; (iii) a Project Co's Proposal for the interface link between the fire alarm system within the Facilities and the RIE Facilities; and (iv) a Method Statement for the maintenance and repair of the interface link between the fire alarm system within the Facilities and the RIE Facilities; (c) Not Used, (c) PTS: (i) The PTS specifications for the Facilities and the RIE Facilities; (ii) design package information for the proposed method of installation of the PTS within the Facilities and the RIE Facilities; (iii) a Project Co's Proposal for the installation of the PTS within the Facilities and RIE Facilities; (iv) a Method Statement for the maintenance and repair of the PTS within the Facilities and RIE Facilities; The Board will confirm the route during Dialogue. (d) ICT: (i) The ICT specifications for the Facilities and the RIE Facilities; (ii) design package information for the proposed method of installation of the ICT within the Facilities and the RIE Facilities; (iii) a Project Co's Proposal for the installation of the ICT within the Facilities and RIE Facilities; (iv) a Method Statement for				

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both
		the maintenance and repair of the ICT within the Facilities and RIE Facilities; The Board will confirm the route during Dialogue. Project Co should refer to Sub-section C of the Board's Construction Requirements as regards specifications and control requirements for such PTS, ICT, fire and security systems and information about the Link Building. Further details of the Connection Proposal are set out in Section 7 (Link Building) of Part 1 of Appendix A of the Board's Construction Requirements. Project Co's construction access is governed by the following provisions of Appendix A of the Board's Construction Requirements: (a) Paragraph 1 in relation to Construction Access over the Yellow Area; and (b) Paragraph 2 in relation to construction access over the Orange Area.				
8	Construction Access Proposal		Required to be submitted for Final tender	Preferred Bidder Stage	Pass/Fail	Construction Phase

Item	Description of Interface Proposal	Content	When Submitted by Bidder	When agreed between Board and Bidder	How evaluated for Final Tender	Applicable to Construction Phase, Operational Term or both

Appendix E - Reference Design Elements

Elements of the Reference Design	Status
Schedules of Accommodation	For spaces relating to Operational Functionality that will be used by NHS Lothian, and Non-Clinical Services spaces, the area of these rooms shall be a minimum and this minimum area is a mandatory requirement. The Reference Design Schedule of Accommodation needs to be read in conjunction with the Draft Schedule of Accommodation prepared by the Board as noted in paragraph 2.5.1 (Schedule of Accommodation and Reference Design Schedule of Accommodation). All other spaces are indicative.
Development Control Plan and Urban Design 1:1000/1:500	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities; and (iv) the corridor widths as shown are a minimum with these minimum widths being mandatory requirements. Indicative - everything else including Non-Clinical Services spaces.
Departmental Layouts 1:500	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities; and (iv) the corridor widths as shown are a minimum with these minimum widths being mandatory requirements. Indicative - all other elements (e.g. Non-Clinical Services spaces, layouts and locations for Hard FM spaces, locations and sizes for services risers and spaces etc).
General Arrangements Plans 1:200	Mandatory - those elements defined under Operational Functionality i.e.: (i) the points of access to and within the Site and the Facilities; (ii) the relationship between one or more buildings that comprise the Facilities; (iii) the adjacencies between different departments within the Facilities; (iv) the adjacencies between rooms within the Hospital departments; and(v) the corridor widths as shown are a minimum and these minimum widths are mandatory requirements.
A43133429	Indicative - all other elements (e.g. Non-Clinical Services spaces, layouts and locations for Hard FM spaces, locations and sizes for services risers and spaces, etc).

Elements of the Reference Design	Status
General Arrangement Elevations and Sections.	Indicative
Generic Room Layouts 1:50	Mandatory - those elements defined under Operational Functionality i.e.: The location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal room elevations. Indicative - All other elements.
Key Room Layouts 1:50	Mandatory - those elements defined under 'Operational Functionality' i.e.: The location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans and internal room elevations. Indicative - All other elements.
Fire Strategy 1:200	Indicative
Interior Design and Artwork Concepts	Indicative
Wayfinding Strategy	Indicative
Flexibility and expandability	Indicative
Supplies, Storage, Distribution and Waste Management (Soft FM)	Mandatory
Decontamination and Control of Infection (HAI-SCRIBE)	Indicative

Elements of the Reference Design	Status
BREEAM	Indicative
Geotechnical Site Investigation	N/A (Data Room status)
Decanting, Phasing,	Indicative
Traffic Impact Assessment and Traffic Management Plan	Indicative
Security Strategy	Indicative
ICT strategy	Indicative
Helipad	Indicative

Appendix F – Thermal and Energy Model Parameters

1 THERMAL MODELLING DATA

1.1 General

In addition to energy modelling required of Bidders to satisfy Building Regulations and the BREEAM requirements of the Project, energy modelling shall further be undertaken to inform the Authority of the actual proposed annual energy consumption of the Facilities, by fuel type, and the annual operating costs therein.

Bidders / Project Co shall undertake comprehensive "all-inclusive" thermal and energy modelling to assess the performance of the Bidders' proposals/Project Co Proposals, and provide an assessment of the actual energy consumption for the building.

The thermal and energy performance of the Facilities shall be modelled to the Project specific parameters, identified within Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*). Thermal and energy modelling shall inform the sizing of all heating, ventilation and comfort cooling requirements for Project Co's Proposals, inclusive of all natural ventilation pathway and overheating analysis.

Bidders/Project Co shall provide proposed energy consumption figures from their "all-inclusive" thermal and energy modelling, with all supporting documentation including model inputs, assumptions, calculations and reporting, at the following design stages:

- Final Tender;
- Financial Close; and
- Commissioning End Date.

The following documentation shall be used in providing the thermal and energy modelling for the building;

- Scottish Health Technical Memorandums
- EnCO2de
- Health Building Notes
- CIBSE Design Guides (including AM11: *Building Energy and Environmental Modelling* and TM54: *Evaluating operational energy performance of buildings at the design stage)*
- Building Regulations (Scotland) Technical Standards

1.2 Building Envelope

The building envelope, construction and materials and the operation will have a significant impact on the efficient operation of the building engineering services installations. The thermal and energy

model requires therefore to take cognisance of the project specific factors as detailed in the Reference Design proposals and Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*).

The modelling exercise must take cognisance of the RIE Facilities and the associated Link Building to recognise the interface between the new and the existing buildings.

The Gross Internal Floor Area should be calculated by measuring the overall internal area of the building making a reduction for partitions, walls, voids and courtyards. The floor areas of internal rooms, circulation spaces and internal walkways should be included.

The heated volume should take into account the height between the floor surface and the room ceiling and should exclude ceiling voids, pipe ducts and plant rooms and include for a 6% reduction due to walls/partition generally in accordance with HTM 07-02: EnCO2de – Making energy work in healthcare.

The building envelope performance design criteria should be based upon an air tightness figure measured in $m^3/hr/m^2$ @ 50Pa as appropriate to the type of facility and in accordance with Building Regulations (Scotland) Technical Standards.

Further methods of measuring and demonstrating the thermal efficiency of the building envelope such as thermal imaging can be utilised subject to agreement with the Board.

1.3 Ambient Weather Profile and Degree Day

The energy use of the building may be predicated by reference to the outside temperature and the Department of Health Estate and Facilities division publishes degree day data on a monthly basis.

The energy modelling shall be based on the above degree day data utilising the base temperature of 18.5° Celsius and Edinburgh degree day weather profile data.

Outputs from degree day energy models may be combined with additional numerical energy models to provide an "all inclusive" energy model for the building.

1.4 Dynamic Thermal and Energy Modelling Simulation

As an alternative to the Degree Day methodology, a certified and industry approved Dynamic Simulation Model (DSM) software tool compliant with CIBSE Applications Manual AM11 may be used to produce the thermal and energy model for the Facilities.

Bidders shall seek agreement from the Board of their proposed modelling tool which shall require to be the most updated version of either:-

- IES (Integrated Environmental Solutions) Programme
- TAS (Thermal Assessment Simulation) Programme

Future modelling tools may be available and Bidders shall obtain the agreement of the Board if they propose to use a certified alternative to those listed above.

Outputs from dynamic simulation models may be combined with additional numerical energy models to provide an "all inclusive" energy model for the building.

1.5 Plant and Systems

The thermal and energy modelling shall incorporate all building services installations as required to maintain the Facilities within the operational parameters as defined in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters).

Any specific loads that Bidders deem to be excluded from the thermal and energy model, such as catering, etc., shall be quantified by Bidders and submitted to the Board for agreement and acceptance prior to any modelling works commencing.

1.6 Group 2 to 3 Equipment

As part of the thermal and energy modelling exercise Bidders shall provide an assessment of the energy consumption of the known Group 2A, Group 2B and Group 3 equipment.

Bidders are to provide a proposed methodology to the Board to demonstrate the projected energy consumption of the Group 2A, Group 2B and Group 3 equipment.

Although this information shall not form part of the agreed energy or carbon emissions targets, it shall be utilised to provide the Board with an informed estimate of anticipated future energy consumptions and utilities costs to allow future budget allocations to be assessed.

2 DESIGN PERIOD

2.1 Modelling of Design Proposals

To calculate energy consumption loads for mechanical services, the CIBSE Building Energy Codes, calculation using the Degree Day Method and Edinburgh weather data for Space Heating and ventilation systems shall be used.

The occupancy, Equipment usage and departmental hours shall be identified by the Board. Any variations from this data proposed by Project Co shall be agreed with the Board prior to any modelling works commencing. Where assumptions are made by Project Co, these shall be in line with Good Industry Practice and shall be quantified in the submission. This includes the application of factors set out in CIBSE Guide B for the thermal weight of the building, levels of operation and occupancy (Table B18.12), and the correction factor for the length of working day (table B18.13) as appropriate.

The exact correction factors to be applied in the modelling shall be provided by the Bidders and agreed with the Board prior to any modelling works commencing.

The degree day figure used shall be 18.5° Celsius as the base.

Space heating/cooling should be assessed on the required temperatures that are indicated on the room data sheets that will be provided by the Board to Bidders.

Design calculations shall be based on an external winter condition appropriate to Edinburgh and shall be compliant with external winter conditions detailed in the CIBSE design guides.

Thermal conductivity values shall be at a minimum as stated in the Scottish Building Regulations (Technical Standards) and shall reflect the actual building fabric design proposals.

The clinical usage and departmental hours shall be as indicated by the Board and any variations from these shall be proposed by the Bidders shall be agreed with the Board prior to any modelling

works commencing.

All ventilation plant should be assessed on a maximum power and pressure drop within the air distribution systems as stated in the Scottish Building Regulations (Technical Standards) and in-line with Good Industry Practice.

Domestic Hot Water (DHW), usage shall be based on a 24-hour usage period. Any variation to this shall be proposed by Bidders and agreed with the Board prior to any modelling works commencing.

The cold water storage provision should be based on a 24-hour day usage period. Any variation to this shall be proposed by Bidders and agreed with the Board prior to any modelling works commencing.

Lighting shall be modelled in accordance with the Board's Construction Requirements, Room Data Sheets and any specific guidance provided by the end-user through the Board.

All lighting designs shall comply with CIBSE lighting design guides and the general lighting strategy proposed by Bidders and as detailed and agreed at Financial Close. Any variation to this shall be proposed by Bidders shall be agreed with the Board prior to any modelling works commencing.The thermal and energy model shall also be used by Bidders to show compliance of Project Co's Proposals with the Board's thermal and air quality requirements as identified in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters).

Dynamic simulation models shall use the CIBSE Test Reference Year (TRY) data for Edinburgh in assessing the heating and, where required, cooling for each room within the Facilities. This information will inform the sizing of heating, ventilation and comfort cooling equipment within Project Co's Proposals. CIBSE Design Summer Year (DSY) data shall be utilised to assess natural ventilation strategies.

Thermal and energy models shall accurately model all proposed window/fenestration opening profiles, including taking in to account all constraints in the fenestration openings, including reveals, meshing and restrictors, when assessing overheating and air quality criteria for naturally ventilated rooms. Any automation and/or proposed opening parameters, for example temperature set points to open fenestration or any night time cooling strategies, shall be agreed in advance with the Authority.

The thermal and energy models shall further allow for accurate thermal representation, and HVAC system sizing therein, for where doors are to be held open for operational or fire safety reasons.

2.2 Key Deliverable

The primary deliverable will be that Bidders / Project Co shall provide detailed calculation and modelling documentation, following the protocol as identified above that demonstrates the proposed "all-inclusive" actual annual energy consumption of the proposed Facilities by fuel type.

Bidders/Project Co shall further show that thermal modelling has been undertaken, following the protocol as identified above, to inform the heating, ventilation and cooling (HVAC) plant, overheating analysis and equipment sizing for the Facilities.

Appendix G – Insurance Response Matrix

Part 1 Insurance Costs Matrices

A. Premium calculation for Construction Phase - Schedule Part 15 Section 1

Class of Required Insurance	Cover Period	Sum Insured/ Rateable Factor	Premium Rate	Premium excluding IPT	Insurance Premium Tax (IPT)	Brokers remuneration (specify type and amount)
1. Contractors "All Risks" Insurance						
2. Contractors “All Risks” Terrorism Insurance[1]						
3. Delay in Start Up Insurance						
4. Delay in Start Up Terrorism Insurance[2]						
5. Construction Third Party Liability Insurance						
6. Insurances required by law						
TOTALS						

[1] Bidder Note: whilst it is noted that the Terrorism Insurance will be renewable annually, the premium quoted in this table should represent the full cost for the duration of the Works.
[2] Bidder Note: whilst it is noted that the Terrorism Insurance will be renewable annually, the premium quoted in this table should represent the full cost for the duration of the Works.

B. Premium calculation for Policies to be taken out and maintained from the Actual Completion Date - Schedule Part 15 Section 2

Class of Required Insurance	Cover Period	Sum Insured/ Rateable Factor	Premium Rate	Premium excluding IPT	Insurance Premium Tax (IPT)	Brokers remuneration (specify type and amount)
1. Property Damage "All Risks" Insurance						
2. Property Damage “All Risks” Terrorism Insurance						
3. Business Interruption Insurance						
4. Business Interruption Terrorism Insurance						
5. Third Party Public & Products Liability Insurance						
6. Insurances required by law						
TOTALS						

C. Waiver of subrogation for Consort and Consort Parties

Please identify separately for all policies required by Schedule Part 15 Sections 1 and 2 the cost of obtaining a waiver of subrogation against Consort and Consort Parties including their respective suppliers and / or subcontractors of any tier pertaining to the RIE Project Agreement in accordance with clause 53.6.1 of the draft NPD Project Agreement.

Class of Required Insurance	**Cover Period**	**Premium excluding IPT**	**Insurance Premium Tax (IPT)**	**Brokers remuneration (specify type and amount)**
1. Contractors "All Risks" Insurance				
2. Delay in Start Up Insurance				
3. Construction Third Party Liability Insurance				
4. Insurances required by law (Construction Phase)				
5. Property Damage Insurance				
6. Business Interruption Insurance				
7. Third Party Public & Products Liability Insurance				
8. Insurances required by law (from Actual Completion Date)				
TOTALS				

Part 2 Insurance Technical Matrix

A. Schedule Part 15 Section 1 of NPD Project Agreement

Class of Insurance	Insurer(s) Identity (N.B. Including any co-insurers or excess layer insurers)	Deductible each and every claim (N.B. Confirm any aggregate Deductible if applicable)	Agreement to the requirements Clause 53 (Insurance) (If not please identify areas of variation or alternative proposals)	Agreement to the requirements of Schedules Part 15 (Insurance Requirement) and Schedule Part 25 (Insurance Proceeds Account Agreement) (If not please identify areas of variation or alternative proposals)
1. Contractors "All Risks" Insurance				
2. Delay in Start Up Insurance				
3. Construction Third Party Liability Insurance				
4. Insurances required by law				

B. Schedule Part 15 Section 2 of NPD Project Agreement

Class of Insurance	Insurer(s) Identity (N.B. Including any co-insurers or excess layer insurers)	Deductible each and every claim (N.B. Confirm any aggregate Deductible if applicable)	Agreement to the requirements of Clause 53 (Insurance) (If not please identify areas of variation or alternative proposals)	Agreement to the requirements of Schedules Part 15 (Insurance Requirement) and Schedule Part 25 (Insurance Proceeds Account Agreement) (If not please identify areas of variation or alternative proposals)
1. Property Damage "All Risks" Insurance				
2. Business Interruption Insurance				
3. Third Party Public & Products Liability Insurance				
4. Insurances required by law				

Appendix H – Certificate of Non-Collusion and Non-Canvassing

CERTIFICATE OF NON-COLLUSION AND NON-CANVASSING

We acknowledge that any Bidder who directly or indirectly canvasses any member, official or employee of Lothian Health Board ("the Board") concerning the award of any contract in relation to the Project to re-provide services from the Royal Hospital for Sick Children, Child and adolescent Mental Health Services and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France will be disqualified from the bidding process and any Submission submitted by or on their behalf shall be disregarded.

Therefore, we hereby certify and undertake and bind and oblige ourselves to the Board and its successors that we have not canvassed or solicited nor will we in the future canvass or solicit any member, official or employee of the Board in connection with the award of the Project or any Submission or proposed Submission in connection therewith and we certify that, to the best of our knowledge and belief having made reasonable enquiry, our Relevant Persons (as hereinafter defined) have not so canvassed or solicited.

In this certificate and undertaking, "Relevant Person" shall mean, as applicable in relation to us, any party co-operating with us in tendering for the Project, fellow tender consortium member, joint venture, controlling shareholder, subsidiary or parent company or other company within any group of which we form part, or any other person directly or indirectly controlling or controlled by us.

The essence of tendering is that the Board shall receive *bona fide* competitive Submission from all persons tendering. In recognition of this principle:

I. We certify to the Board and its successors that the Submission submitted by us, or on our behalf, is a *bona fide* Submission, intended to be competitive and we have not fixed or adjusted the amount of the Submission or the rates or prices quoted therein by, or under, or in accordance with any agreement or arrangement with any other person.

II. We also certify to the Board and its successors that we and, to the best of our knowledge and belief having made reasonable enquiry, our Relevant Persons have not done and we hereby undertake and bind and oblige ourselves that we will not do at any time, any of the following acts:
   A. enter into any agreement or arrangement with any other person that he shall refrain from bidding or add to the amount of any Submission to be submitted; or
   B. offer or agree to pay or give any sum of money, inducement or valuable consideration directly or indirectly to any person for doing or having done or causing to be done, any act or omission in relation to the Submission or any other tender submitted to the Board in relation to the Project.

Appendix I – Community Benefits

1 Social Considerations / Community benefits overview

1.1 Background

The Board recognises the very significant training and employment opportunities delivery of this Project can create for the wider community and beyond throughout the Project Term. The Board also recognises that the Project has the potential to drive significant initiatives relating to regeneration, sustainability and social benefits, aligning with the Board's strategic objectives.

The Board is therefore incorporating a range of social considerations/Community Benefits (CB) Requirements into its procurement which will ultimately form contractual requirements under and in terms of Clause 73 (Community Benefits) of the NPD Project Agreement.

Project Co will work in partnership with the Board and where appropriate, the Edinburgh Partnership and the agencies listed in section 3.6 to deliver the Board's CB Requirements in respect of both the construction and operational phases of the Project.

1.2 Overview of the Board's CB Requirements

These are set out in Section 2 and comprise requirements for the following -:

- Targeted Recruitment and Training /Employment and Skills Plan(Section 2.1)
- Supply Chain Development (SMEs) (Section 2.2)
- Supply Chain Development (Social Enterprises) (Section 2.3)
- General CB Requirements (Section 2.4)

1.3 Bid Submission Requirements

These are detailed in Section 3.
In broad terms the Board's CB Requirements are expressed in general terms. Bidders are given freedom to provide proposals that best fit their delivery structure and procedures, split into construction phase proposals and operational phase proposals. Bidders are, however, required to propose specific financial consequences for failing to deliver these proposals, such payments to be reflected in Clause 73 of the NPD Project Agreement.
Bidders' responses will comprise completion of the various submission requirements, which are more fully set out in Section 3, but can be summarised as follows:

Section	Submission requirement	Approach to scoring
Section 3.1: Employability and Training – Construction phase	Completed ESP Completed CB Method Statement	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ISFT, as also referred to in section B6 of Appendix (ii) (Technical Submission Requirements) of Volume 1 of the ISFT. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.

Section	Submission requirement	Approach to scoring
Section 3.2 – Employability and Training – Operational phase	Completed ESP Completed CB Method Statement	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ISFT, as also referred to in section B6 of Appendix (ii) (Technical Submission Requirements) of Volume 1 of the ISFT. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.3 – Supply Chain Development, SME and Social Enterprise – Construction phase	Completed CB Method Statement for Construction phase	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ISFT, as also referred to in section B6 of Appendix (ii) (Technical Submission Requirements) of Volume 1 of the ISFT. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.3 – Supply Chain Development, SME and Social Enterprise – Operational phase	Completed CB Method Statement for Operational phase	Scored in accordance with section B6 of Table A set out in paragraph 5.6.3 of Volume 1 of the ISFT, as also referred to in section B6 of Appendix (ii) (Technical Submission Requirements) of Volume 1 of the ISFT. A maximum of 25% of the Quality Evaluation Criteria Weighting will be applicable to this section.
Section 3.4 – Other Community Benefits	Bidders shall submit a Method Statement setting out any other proposals or measures they are willing to undertake to provide additional Community Benefits	Requirement to submit a Method Statement but not scored.

Responses referred to here as “CB Method Statements” are referred to in the NPD Project Agreement (Bidder Specific) as Project Co's Community Benefits Method Statements.

1.4 Role of Edinburgh Council

The Board is a partner in the Edinburgh Partnership, a community planning partnership for the city which brings together the public, community, voluntary and business sectors to deliver a better quality of life in Edinburgh. For further information see:

http://www.edinburgh.gov.uk/info/20162/edinburgh_partnership/1446/about_the_edinburgh_partnership
Members of the Partnership will not be precluded from working with Project Co to deliver the CB programme provided that any potential conflicts of interest are managed to the Board's satisfaction.

2 The Board's Community Benefits Requirements

2.1 Targeted Recruitment & Training/Employment and Skills Plan

The Board is committed to assisting unemployed people, encouraging access to quality sustainable employment and providing training opportunities relating to deliver of the Project.

This may include on-site training and assessment, or offsite training, or a mix of these.

The Board, based on the approach outlined by Construction Skills, and using benchmarks suggested in guidance produced by them relevant to employability and training measures in major health projects, has identified the following required outputs and volumes.

Work Placement (16-19 years)	16
Work Placement (14-16 years)	4
Curriculum support activities	14
Graduates	3
Apprentice starts	11
Existing apprentices	10
Apprentice completions	3
Jobs advertised through local employment vehicles	7
N/SVQ starts for subcontractors	21
N/SVQ completions for subcontractors	18
Training Plans for subcontractors	5
Supervisor training for subcontractors	10
Leadership and management training for subcontractors	9
Advanced health and safety training for subcontractors	11

2.2 Supply Chain Development: SMEs

2.2.1 Context

The long term sustainable development of the SME base is vital to driving sustainable economic growth within Lothian, Scotland and beyond. The Board, in furtherance of its own objectives and those of the Edinburgh Partnership of which it forms part, recognises the need to support the development of the SME sector by developing a procurement approach which ensures their exposure to procurement opportunities related to the Project.

2.2.2 Requirement

Project Co shall ensure that the Project Co advertises, and ensures that its sub-contractors:

- advertise all relevant subcontracts to be agreed with Bidders with reference to Bidders' method statements; and

- allow SMEs equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market).

An SME is defined as a company that is a small or medium-sized company and is not a member of a large group. An SME has a turnover of up to 50m Euro per annum and has no more than 250 employees.

2.2.3 Notes

Bidders may wish to contact the organisations listed in section 3.6 in the context of developing their proposals to meet the above.

1.1 Supply Chain Development: Social Enterprises

2.3.1 Context

The Board supports the Scottish Government's policy on Social Enterprise and believes that Social Enterprises have a distinct and valuable role to play in helping to create a strong, sustainable and socially inclusive economy.

A Social Enterprise is a business with primarily social objectives whose surpluses are principally reinvested for that social purpose in the business or in the community rather than being driven by the need to maximise profit for shareholders and owners. Social Enterprise is a business model which offers the prospect of a greater equity of economic power and a more sustainable society - by combining market efficiency with social and environmental justice.

The approach is founded on the principle of building relationships and partnerships by integrating a community development vision, social outcomes, business objectives and local and national government goals. Social Enterprises are involved in a wide range of industries, from recycling, community transport, landscaping, catering, employment and training to event management. In accordance with its broader objectives and its objectives through the Edinburgh Partnership, the Board wishes its procurement process ensures that Social Enterprises are made aware of supply chain opportunities offered by the Project.

2.3.2 Requirements: General

Project Co shall ensure that Project Co shall advertise, and ensure that its sub-contractors:

- advertise all relevant subcontracts to be agreed with Bidders with reference to Bidders method statements; and
- allow Social Enterprises equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market)

2.3.3 Notes

Bidders may wish to contact the agencies listed in section 3.7 for information on Social Enterprises and/or in the context of developing their proposals to meet the above.

As part of the Scottish Government's strategy to create an enterprising third sector, social enterprises are preparing to increase activity with commercial contractors, utilising national and local training, capacity building and promotional measures. A register of social enterprises that are interested in contract delivery has been created at ***www.readyforbusiness.org*** *to assist contractors to identify individual social enterprises and consortia, to assist planning with respect to community benefit delivery within a range of contract opportunities.*

Scottish Government initiatives are supported by a Tender Preparation programme for Third Sector Organisations throughout Scotland that will be delivered through Scottish Government Contract by CEiS and the Supplier Development Programme in 2010/11. Through these programmes, significant support and resource is being allocated to support social enterprises to be ready to engage with companies delivering commercial contracts, and in particular within a community benefits framework to ensure that procurement activity contributes to meeting the Board's aims of having a robust social enterprise sector delivering social and environmental benefits in the city.

2.4 Other Community Benefits

Consistent with its broader objectives, including its objectives through the Edinburgh Partnership, the Board seeks to maximise Community Benefits delivered by the Project.

Accordingly, bidders will require to set out any additional Community Benefits that they would be willing to provide at no additional cost over the period of the contract. **Submissions on these additional benefits will not be scored** but the Board considers that such submissions could, for example, include additional Bidder proposals to:

- undertake educational initiatives with community, voluntary and charitable organisations relevant to the Project and not falling under 2.1 and 2.2 above; or

- support or contribute in some other way to the work of community, voluntary and charitable organisations associated with the Project.

Bidders will be at liberty to put forward other proposals.

Clause 73 of the NPD Project Agreement shall operate to contractually oblige Project Co to deliver additional Community Benefits that it puts forward.

2.5 General Community Benefits Requirements

2.5.1 Monitoring

Project Co will be required to provide monitoring information at least quarterly in a format to be agreed with the Board. The primary function of the monitoring information will be to enable the Board to measure and produce reports on Project Co's performance against the Community Benefits objectives.

In particular:

- Targeted Recruitment and Training:

- Supply Chain Development (SMEs and Social Enterprises); and
- Other Benefits put forward by Project Co.

To comply with the Data Protection Act, all such monitoring and training documents must include a statement authorising Project Co to disclose personal data from the monitoring forms to the Board for the purposes of contract monitoring. This statement is to be signed by the individuals listed.

2.5.2 Insurances

Project Co shall ensure that insurance cover includes people aged 16 and over and staff from employment and training organisations when on work experience on-site.

2.5.3 Disclaimer

The Board will work with its partners to enable access to appropriate construction and operational training, jobseekers, SMEs and Social Enterprises to be available to Project Co.

This action, however, does not comprise or imply any promise on the part of the Board or their agents to provide suitable services, trainees, labour or resources.

Any action taken by the Board to facilitate relationships between Project Co and individuals/firms/agencies does not imply and should not be deemed to imply that they or its agents consider the individual, firm or agency as suitable for engagement by Project Co and/or its supply chain. Within this context, the Board will work with local agencies to help facilitate the achievement of the Community Benefits Requirements.

3 BID SUBMISSION REQUIREMENTS

Bid submission requirements in respect of the Board's CB requirements are summarised at 1.3 above. The following sets out the detail required.

3.1 Employment and Skills Plan: Construction Phase

Bidders are required to complete an Employment and Skills Plan (ESP) covering the employment and skills areas from the table below (as extended by the Bidder to cover the full period of construction). For further information on each of these categories, Bidders are referred to Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" (and Appendix A in particular).

Benchmarks are provided in 2.1 and constitute minimum outputs for Bidders' ESPs. Bidders are to use their own judgement as to what outputs beyond those minimums they consider are ultimately achievable in relation to the Project.

The output figures for the ESP should indicate the minimum outputs for each month against the relevant employment and skills areas. The "Summary" columns are also to be completed. Guidance on the employment and skills areas is also included within Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" *(and Appendix A in particular).*

Bidders are required to provide an unequivocal statement alongside their ESP that, if appointed, they will be contractually bound to deliver against what they have set out in the ESP, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement.

TEMPLATE EMPLOYMENT AND SKILLS PLAN (ESP)

Employment and Skills areas		Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7	Month 8	Month 9	Month 10	Month 11	Month 12	Summ No
1.	Work Placement (16-19 years) – persons													16
2.	Work Placement (14-16 years) – persons													4
3.	Curriculum Support Activities – individual engagement													14
4.	Graduates – persons													3
5.	Apprentice Starts - persons													11
6.	Existing apprentices - persons													10
7.	Apprentice Completions - persons													3
8.	Jobs Advertised Through proximate Employment Vehicles - number													7
9.	N/SVQ Starts for Subcontractors - persons													21
10.	N/SVQ Completions for Subcontractors - persons													18
11.	Training Plans for Subcontractors - number													5
12.	Supervisor Training for Subcontractors - persons													10
13.	Leadership and Management Training for Subcontractors - persons													9
14.	Advanced Health and Safety Training for Subcontractors - persons													11

Employment and Skills Method Statement

Bidders are also required to provide a detailed CB Method Statement setting out how they intend to implement the employment and training requirements of the Board and to deliver the ESP. The CB Method Statement should clearly set out the proposed approach for delivering skills development against the employment and skills areas, covering the following:

- who in the organisation will be responsible for managing the training scheme and overseeing the proposals?
- which education and training providers will be involved with the delivery of the ESP?
- what types of accredited and non-accredited training are expected to be offered and who are expected to be the main beneficiaries of this training?
- which trades or occupational areas is it envisaged will be offering apprenticeship opportunities?
- what types of apprenticeships are expected to be offered (i.e., traditional programme led, advanced etc)?
- how will the target outputs as set out in the ESP be delivered?
- how will health and safety issues be managed?
- what actions will be taken to ensure the support of trade contractors and sub-contractors working on the project?
- how will compliance be managed and monitored with respect to the organisation's trade contractors and sub-contractors?
- how will the target outputs as set out in the ESP be delivered?
- how will health and safety issues be managed?
- How will monitoring of delivery of Community Benefits and reporting to the Board under Clause 73 of the NPD Project Agreement be undertaken?
- What financial consequence the bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against the ESP.

Bidders are referred to Construction Skills in Scotland's document "*Client Based Approach to developing an Employment and Skills Strategy on construction projects in Scotland*" *(and Appendix A in particular) for* further information and Appendix B of that document in particular.

3.2 Employment and skills plan: operational phase

Bidders should repeat the process outlined for the construction phase in respect of the operational phase (though the table should be completed not on a monthly basis but on an annual basis).

Note: The desired/expected outputs set out at Section 2.1 are for the Construction Phase only. The Board does not have desired/expected output figures for this element and it is a matter for bidders to consider, as against their specific approach to delivery.

3.3 Supply Chain Development: SMEs & Social Enterprise

Each Bidder must complete two separate CB Method Statements in accordance with the detail set out below, detailing what it proposes to do to meet the Board's SME and Social Enterprise supplier development objectives in respect of both the Construction Phase and Operational Phase.

Bidders will be expected to have identified a source for any additional resources they will require to deliver the SME and Social Enterprise development, so that the requirements can be met with no additional costs to the Board. As part of the bid preparation, the Board expects Bidders to have contacted the agencies listed in Section 3.6 or other similar agencies of their choice.

Bidders are required to provide an unequivocal statement in the CB Method Statement that, if appointed, they will be contractually bound to deliver against what they have set out in their CB Method Statements, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement and the financial consequence the Bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against what they have set out.

The Small to Medium sized Enterprises / Social Enterprises CB Method Statements must respond to the following questions *(NOTE: Separate responses are to be provided for the Construction Phase and the Operational Phase):*

1.	Describe the activities that you will undertake to identify SMEs and Social Enterprises and assess each sector separately in their capacity to deliver works, services or supplies, that are required for all contracts in relation to the Project.
2.	Please quantify, both in hours and value, the commitment of you and your sub-contractors, in relation to this project, to the engagement with SME / SEs in specific capacity building support and in the development of partnership working and outline your overall approach.
3.	How will you ensure that your sub-contractors make all opportunities available to SMEs and Social Enterprises?
4.	Describe the anticipated outcomes for SMEs and Social Enterprises from the activities you have outlined in response to Q2 and Q3 and how would you monitor and assess the social and economic impact of your engagement with SMEs and Social Enterprises?
5.	How you will monitor delivery of Community Benefits and report to the Board under Clau

3.4 Other Community Benefits

Bidders must provide a CB Method Statement setting out any other Community Benefits they are willing to deliver (see Section 2.4) and their proposals to monitor delivery of Community Benefits and report to the Board under Clause 73 of the NPD Project Agreement **(note: this CB Method Statement will not be scored)**.

Bidders are required to provide an unequivocal statement in the CB Method Statement that, if appointed, they will be contractually bound to deliver against what they have set out in their CB Method Statements, in accordance with the terms and conditions set out in Clause 73 of the NPD Project Agreement and the financial consequence the Bidder proposes to include, for the purposes of clause 73 of the NPD Project Agreement, for failure to deliver against what they have set out.

3.5 FOR INFORMATION ONLY – SUPPORT AGENCIES

POSSIBLE RESOURCES

Note: Any action taken by the Board to facilitate relationships between Project Co and individuals/firms/agencies does not imply and should not be deemed to imply that they or its agents consider the individual, firm or agency as suitable for engagement by Project Co and/or its supply chain. Within this context, the Board will work with local agencies to help facilitate the achievement of the Community Benefits Requirements.

Appendix J - BIM Requirements for the Project

1 Project set up

1.1 Bidders are required to prepare a BIM Execution Plan for review by the Board. The BIM Execution Plan shall cover as a minimum the following topics:

a) Project information/description;

b) Key BIM stakeholders;

c) Goals and project objectives;

d) BIM objectives and uses;

e) Model management;

f) BIM deliverables and format;

g) Quality control system;

h) Data management; and

i) Frequency and content of BIM audits.

1.2 The BIM execution plan is to be prepared in accordance with BS 1192.

1.3 Bidders must use recognised industry BIM software platforms, suited to the various tasks to be fulfilled by both the design team and the supply chain, and establish principles of interoperability.

1.4 Bidders will provide a BIM overlay to the design team process map.

1.5 Bidders will appoint an Information Manager to see that the common data environment is set up and maintained and that the mechanism and technology for information exchange are in place and adhered to throughout the Construction Phase and the Operational Term.

1.6 Bidders will establish a through-life information management strategy including graphical and non-graphical information. Agree format for transfer of information into asset management systems will be developed, and a data classification system (eg Uniclass 2) established.

1.7 A Soft Landings implementation plan will be developed that follows the principles of the Government Soft Landings plan Policy dated September 2012.

2. Pre-construction Phase

2.1 3D visualisations, walk-throughs and images for User, Local Authority and other Stakeholder presentations and discussions at key project milestones are to be prepared.

2.2 Room layouts are to be prepared using ADB to include fully loaded 3D views.

2.3 The model is to include performance targets for key indicators, associated with associated provision in the design to measure data in operation and allow model-based comparisons between design intent and actual performance.

2.4 Data outputs in COBie format are to be prepared at key stages aligned to the process map, at a Level of Detail matching the stage requirement.

2.5 Specifications are to be based on a system that allows direct links between spatial BIM Models and the accompanying specifications and object attributes.

2.6 Read-only access to the BIM model gratis and within 24 hours is to be made available at the Board's request.

3. Construction Phase

3.1 The Board is to have read-only access to 4D construction sequencing output from model.

3.2 The model is to be regularly updated (every 2 weeks) to reflect material/component detailed selections or variations from those selected at design/tender stage.

3.3 Read-only access to the BIM model gratis and within 24 hours is to be made available at the Board's request.

4. Operational Term

4.1 The model shall be maintained throughout the Operational Term to reflect all planned maintenance and lifecycle works and modification should be made to reflect all changes implemented under Schedule 16 Change Protocol.

4.2 Read-only access to BIM model, gratis, and within 24 hours is to be made available at the Board's request.

4.3 Asset Management software is to be discussed with the Board but data should be held in recognised interchange format (e.g. COBie) to allow interoperability between recognised facilities management (CAFM) packages, recognised asset management packages and the BIM model.

5. Handback

5.1 Project Co will hand over ownership of the model to the Board at the Expiry Date.

5.2 At the Expiry Date, the model is to be fully updated model to reflect all changes during the Operational Term including specification details, operation and maintenance requirements and residual design life of all components and assemblies.

5.3 The on-going maintenance and replacement information is to be in a format to be agreed with the Board.

.

5.4 Project Co shall provide training in the operation of software to the Board.

Appendix K – Certificate of Acceptance of Contractual Terms

CERTIFICATE OF ACCEPTANCE ON CONTRACTUAL TERMS

As per paragraph 2.2.2 of Appendix C of Volume 1 of the ISFT, the Board requires that this certificate is signed by the Bid Director/Project Co lead, the D&C lead and the FM lead to acknowledge acceptance of the terms of the Final Tender (Bidder Specific) NPD Project Agreement, the Payment Mechanism and the Service Level Specification.

1. We, being [Project Co], [D&C] and [FM] can confirm that the terms of the following documentation (where relevant) are acceptable to us:

1.1 Final Tender (Bidder Specific) NPD Project Agreement as set out in Volume 2 of the ISFT;

1.2 Payment Mechanism as set out in Volume 2 of the ISFT;

1.3 Service Level Specification as set out in Volume 3 of the ISFT; and

1.4 Board's Construction Requirements as set out in Volume 3 of the ISFT.

2. We confirm that any matters which we have raised as a result of the due diligence we have carried out during the Dialogue Period have been raised and discussed with the Board during the Dialogue Period and that such matters have been included within [Insert name of Bidder]'s Final Tender submission.

Appendix L – Petrol Station Site

The Board can confirm the Petrol Station Site was purchased by the Board on Wednesday 27 November 2013. The Petrol Station Site is as outlined in pink on the attached Plan 2.

Bidders shall include the landscaping of the Petrol Station Site in their Final Tender landscaping proposals. The Board can confirm that Bidders may use the Petrol Station Site during the Works for Construction Traffic only. The Petrol Station landscaping proposals and construction methodology will not be scored in the Final Tender Evaluation, however the bidders proposals should meet the Boards requirements.

Ground Investigations will be undertaken by the Board at the Petrol Station Site as early as practically possible with the anticipated issue of the Factual Report in March 2014. The scope and appointment of the Ground Investigation will be clarified in consultation with all Bidders prior to commencement of the Ground Investigation.

The Ground Investigations will be designed and managed by the Board's environmental consultant who will produce a Phase 1 and Phase 2 contaminated land risk assessment based on a proposed public open space land use. The reports will represent the baseline site conditions and be submitted to the bidders for review. The Ground Investigation Contractor will provide a letter of reliance for the Petrol Station Site Ground Investigation works only. A letter of reliance will not be provided for the reports produced by the Board's environmental consultant.

The preferred bidder will be required to obtain necessary planning permission from The City of Edinburgh Council for the proposed temporary and permanent land uses at the Petrol Station Site e.g. potential construction traffic route during construction and final reinstatement as an area of public open space within the Board's retained estate. The preferred bidder shall submit appropriate documentation to obtain such permissions including, but not limited to, risk assessments, a detailed remedial options appraisal and remediation statement which shall be produced in line with Part IIA of the Environmental Protection Act (1990) and follow best practice guidelines detailed in CLR11 (2004), BS10175:2011+A1:2013 and PAN 33.

Remediation proposals shall be agreed with the Board and their Environmental Consultant prior to submission to The City of Edinburgh Council and if necessary, SEPA.

Any remediation undertaken by Project Co during construction phase shall be independently verified by the Environmental Consultant and certified in accordance with the City of Edinburgh Council Planning Requirements and Regulations.

Additional Completion Criteria will be added to Appendix B (Completion Criteria) of Schedule Part 10 (Outline Commissioning Programme) to reflect the Petrol Station Works, the Petrol Station Completion Criteria are included in this clarification.

It is expected the work will be completed within the overall construction timetable, and therefore the Petrol Station Works will form part of the main Completion Criteria, however a fall back option of a phase 2 completion can be considered in the preferred bidder to financial close period, only if the Ground Investigation indicates more onerous ground conditions.

Provisional Sum

A provisional sum of £500,000 (excluding VAT) for undertaking the scope defined in this clarification shall be included to cover.

1. **Risk Assessment and Reporting:**
   - Production of contaminated land interpretive reports and risk assessments (Phase 1 and Phase 2).
   - Production of a remediation options appraisal report and remediation strategy (Phase 3).

2. **Discharge of Planning Conditions imposed by The City of Edinburgh City Council relating to:**
   - The Demolition of any existing buildings.
   - The proposed temporary land use, e.g. site access road.
   - The final public open space land use as part of the wider planning application.

3. **Remediation works:**
   - Potential removal of hydrocarbon free product and impacted soils/groundwater (if encountered).
   - Supervision of the above.
   - Provision of an inert environmental capping layer and geo-membrane.
   - Independent validation and inspection.
   - Or other viable remediation method that meets the planning requirements

The Board confirms the Provisional Sum includes the provision of an inert environmental capping layer and geo-membrane, however landscaping is not included.

The above scope, although based on the Parson Brinkerhoff Remediation Reports attached to this clarification, is indicative only and will be refined during the risk assessment process. It is dependent on the nature of the ground conditions encountered during the Petrol Station Site Ground Investigation works.

The Provisional Sum for the Petrol Station Works will be reviewed by the Board and the preferred bidder during the preferred bidder to Financial Close stage. This review will take place on an open book basis and following the issue of the Petrol Station Site Ground Investigation and subsequent preferred bidder discussions with the City of Edinburgh Council on the extent of any remediation that may (or may not) be required. The provisional sum will be adjusted in accordance with the attached Open Book Accounting Strategy and will be jointly agreed between the preferred bidder and the Board whilst also demonstrating value for money for the Board.

Volume 4 - Data Room – for information only

Copies of Parson Brinkerhoff Remediation reports

Copies of historical ground investigations reports provided to the Board during purchase of the Petrol Station Site will be available for bidder information only.

Mott MacDonald Risk Assessment and Remediation Options Appraisal Reports

A review and assessment of the information contained within the Parsons Brinkerhoff Report and other reports provided to the Board by Esso Petroleum Company Limited during purchase of the Petrol Station Site has been undertaken by Mott MacDonald in view of the proposed public open space land use. These reports are for information only.

RHSC – DCN Edinburgh
Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

1.0 Introduction

We have been asked to review the air movement within the single bedrooms under various ventilation scenarios.

1. Windows and trickle vents closed, no natural ventilation, mechanical ventilation only provided to the bedrooms.

2. Windows and window trickle vents open, natural and mechanical ventilation provided to the bedrooms.

3. Some of the windows and window trickle vents open and some closed, mixture of natural and mechanical ventilation to the bedrooms.

2.0 Interpretation of SHTM 03 Ventilation for Healthcare Premises

A single room within Appendix 1 : Table A1 : Recommended air-change rates is given under the ventilation column as supply/extract/natural, with 6 ac/hr and room pressure as zero or negative. The single room WC from the table is 3 ac/hr and room pressure is negative.

Current bedroom ventilation design is supply into the room at 4 ac/hr with opening windows and trickle vents to provide natural ventilation, this gives a balanced room pressure as long as the window is open.

The single bedroom WC extract has been enhanced to 10 ac/hr and the room pressure is negative.

3.0 Ventilation Scenario's

Scenario 1

1. Bedroom is positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows to the corridor via doors.
4. Corridor is provided with extract ventilation, pressure is balanced.

Scenario 2

1. Bedroom has balanced pressure.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows and trickle vents.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms and other rooms.

RHSC – DCN Edinburgh
Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

Scenario 3

1. Bedrooms with open windows have balanced pressure and bedrooms with closed windows are positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows or through the bedroom doors if the windows are closed.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms.

Refer to Appendix 1 for the Air Flow and Resultant Room Pressure drawings.

The original reference design as detailed within the Environmental Matrix is as follows:-

Bedroom - Supply 4Ac/Hr & Room Pressure Positive.
WC – Extract 10Ac/Hr & Room Pressure Negative.

4.0 Conclusion

Reviewing the three air flow and resultant room pressure scenario drawings G1547/(57)SK01-SK03:

When the windows and trickle vents are utilised for natural ventilation the bedroom pressure is balanced and the corridor becomes negative.

If some of the windows and trickle vents are closed, these bedrooms will become positive and the bedrooms with open windows again will be balanced, where the corridor is negative.

Should all the bedroom windows and trickle vents be closed, the bedroom pressure is positive and the corridor shall be balanced as the corridor extract rate will match the supply air coming from the bedrooms via their doors.

The window trickle vents should be left open when the rooms are occupied, this will ensure that the bedroom pressure is balanced.

By utilising the proposed mixed mode ventilation proposal for the bedrooms, ie. opening windows and trickle vents with the supply air reduced from 6Ac/Hr to 4Ac/Hr direct into the bedroom, this will provide the most energy efficient solution for the space.

We believe that we have complied with the reference design concept as detailed within the original Environmental Matrix.

1 Introduction

1.1 The following is a supplementary response by Multiplex Construction Europe Limited ("**MPX**") to the questions 1 to 16 ("**Questions**") set out in Annex 1 to Request for Information Number 2 relating to RHCYP and DCN issued by the Scottish Hospitals Inquiry under cover of letter dated 6 August 2021 (reference Edin/Vent/2/JA).

1.2 As agreed with the Scottish Hospitals Inquiry, MPX provided a preliminary response to the Questions on 8 October 2021, with a supplementary response following by 5 November 2021.

1.3 This supplementary response is accompanied by an updated annotated version of the "*Ventilation Spreadsheet*" setting out MPX's comments on the "*Ventilation Spreadsheet*", together with the documents referred to therein. To assist the Inquiry, MPX has treated each item ID noted on the "*Ventilation Spreadsheet*" as a discrete matter and for each item has provided copies of all documents referred to by reference to the item ID number.

2 MPX response to each of the Questions

2.1 "*1. Do you agree that the design, installation and operation of the ventilation systems for the RHCYP/ DCN should have complied with the Scottish Health Technical Memorandum 03-01 ("SHTM 03-01)?*"

2.1.1 MPX agrees that the design and installation of the ventilation systems for the RHCYP and DCN should be consistent with *SHTM 03-01,* subject to the qualifications noted in response to question 2 below.

2.1.2 As MPX is not the operator of RHCYP and DCN it does not comment on the operation of the ventilation systems.

2.2 "*2. If the answer to question 1 is "no", please explain why.*"

Executive Summary

2.2.1 Whether the design and installation of the ventilation system was to comply with SHTM 03-01, is a function of the contractual arrangements between the parties.

2.2.2 The Project Agreement between NHSL and IHSL, and Construction Contract between IHSL and MPX, stipulate that it was not necessary for the ventilation system to be consistent with SHTM 03-01 where a different position was required, agreed or permitted in:

2.2.2.1 the Project Agreement,

2.2.2.2 the Board's Construction Requirements,

2.2.2.3 the Room Data Sheets (which includes the Environmental Matrix),

2.2.2.4 the outcomes of the Review Procedure,

2.2.2.5 a Change or a derogation, and

2.2.2.6 in the Settlement Agreement entered into by NHSL on 22 February 2019.

2.2.3 This is considered in more detail below:

Project Agreement and the Board's Construction Requirements

2.2.4 Clause 5.2.4 of the Project Agreement provides that:

"*Project Co shall at its own cost be solely responsible for procuring that the Project Operations are at all times performed…. except to the extent expressly stated to the contrary in the Board's Construction Requirements or the Service Level Specification, in compliance with all applicable NHS Requirements*" (our emphasis)

2.2.4.1 "**Project Operations**" is defined as "*the carrying out of the Works, the carrying out of Project Co's Pre-Completion Commissioning and Project Co's Post-Completion Commissioning, the management and provision of the Services and the performance of all other obligations of Project Co under this Agreement from time to time*"

2.2.4.2 "**NHS Requirements**" is defined as meaning: "*Health Building Notes and Health Technical Memoranda and such other requirements as are designated as NHS Requirements in the Board's Construction Requirements*"

2.2.4.3 "**Board's Construction Requirements**" are defined as meaning: "*requirements of the Board set out or identified in Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters) as amended from time to time in accordance with the terms of this Agreement*"

2.2.5 Accordingly, under Clause 5.2.4 of the Project Agreement, the ventilation systems were required to comply with Health Technical Memoranda, and so SHTM 03-01, but only to the extent that NHSL did not state an express contrary requirement in the Board's Construction Requirements, as amended or which became amended.

2.2.6 Further, paragraph 2.3 of the Board's Construction Requirements ("**BCRs**") states (again our emphasis):

2.2.7 "*In addition to the standards listed in paragraph 2.4 of this Sub-Section C of the Board's Construction Requirements, unless the Board has expressed elsewhere in the Board's Construction Requirements, a specific and different requirement, the Facilities shall comply with but not be limited to the provisions of the NHS Requirements as the same may be amended from time to time:*

…(h)HTM and SHTM"

2.2.7.1 "**NHS Requirements**" is additionally defined in the BCRs as being: "*the requirements defined in paragraph 2.3 of this Schedule Part 6 Section 3 Sub-Section C as the same may be amended from time to time*".

2.2.8 Paragraph 2.3 of the BCRs therefore echoes clause 5.2.4 of the Project Agreement and reiterates that if NHSL has expressed elsewhere in the BCRs a specific and different requirement, then that specific requirement is to be complied with and there is no obligation to comply with any differing general requirement in the NHS Requirements (including SHTM 03-01).

2.2.9 This makes commercial sense as SHTM 03-01 is a general design guidance document containing options, whereas NHSL provided bespoke requirements which met their clinical and commercial needs for this particular hospital.

The Room Data Sheets, which include the Environmental Matrix

2.2.10 A key part of the Board's Construction Requirements was the Room Data Sheets.

2.2.11 "**Room Data Sheets**" are defined in the Project Agreement as having "*the meaning given in Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters)*". Section 6 then states:

"*The Room Data Sheets are the Room Data Sheets as set out on the disc in the Agreed Form identified and executed as Appendix 1 (RDS Pack) and Appendix 2 (Environmental Matrix) of Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters) of this Agreement, referred to in and forming part of this Agreement*"

2.2.12 The Room Data Sheets are accordingly formed of two parts: (1) the Room Data Sheets themselves, which are provided as Appendix 1 to Section 6, which we will refer to as "**RDS**"; and (2) the Environmental Matrix which is Appendix 2.

2.2.13 The RDS included in the Project Agreement are modelled on generic Activity Database Sheets (also known as ADB). The RDS included in the Project Agreement, however, are not these generic ADB sheets; rather, they have been modified to reflect NHSL's specific requirements. See by way of example MPX's response in relation to Item ID 2.7 and 2.11 and the specific RDS requirements for single bedrooms and Multibed wards.

2.2.14 In terms of the Environmental Matrix this is defined in the BCRs as being (our emphasis):

"*Means the Environmental Matrix, which details the room environmental condition requirements of the Board required within each department / unit / space / area as set out in Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters) (as varied, amended or supplemented from time to time in accordance with the Project Agreement)*"

2.2.15 Reference is also made to Item 1 of the Guidance Notes to the Environmental Matrix, which states: "*This workbook is prepared for the Financial Close Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets*".

2.2.16 Page 3 of the Project Agreement Environmental Matrix is then titled: "*Room Function Reference Sheet*" and states: "*The following table details reference templates which are used to populate cells*

within the environmental matrix. Refer to individual department sheets for individual room environmental conditions". In relation to ventilation this table provides the type, supply air changes per hour ("ac/hr"), extract ac/hr, relative pressure, and minimum filtration required for each room type. This then being then further expanded within the matrix by reference to each department.

2.2.17 The Room Data Sheets, being both the RDS and Environmental Matrix, contained NHSL's specific requirements, which took precedence to the general guidance position as stated in SHTM 03-01. In this regard, reference is made to Clause 5.2.4 of the Project Agreement and paragraph 2.3 of the BCRS, discussed above, together with:

paragraph 2.5 of the BCRs which states (our emphasis):

"*In certain instances, NHS publications include a number of options or alternative solutions. Where the Board has defined their preference specifically, Project Co shall adopt these preferences as a mandatory requirement. Where no Board preference is stated, Project Co shall engage the Board in the design development process to seek and incorporate the Board's preference within the Facilities*"; and

paragraph 8 of the BCR which states (our emphasis):

"*Project Co shall provide the Works to comply with the Environmental Matrix.*"

2.2.18 It is also important to note than an Environmental Matrix was issued by NHSL to bidders as part of the Invitation to Participate in Dialogue documentation ("**ITPD**") dated 11 March 2013.

2.2.19 The ITPD defined this Environmental Matrix as:

"*Means the Environmental Matrix, which details the room environmental condition requirements of the Board required within each department / unit / space / area. The title is Reference Design Envisaged Solution - RHSC / DCN Environmental Matrix version third issue as set out in Appendix C of this Section 3 (Board's Construction Requirements) of Schedule Part 6 (Construction Matters) (as varied, amended or supplemented from time to time in accordance with the Project Agreement)*"

2.2.20 The ITPD also included the same requirement that:

"*Project Co shall provide the Works to comply with the Environmental Matrix*".

2.2.21 Further, bid submission requirement C8.3 of the ITPD stated:

"*Whilst bidders are required to undertake their own design, the Board has provided a draft Environmental Matrix as part of the ITPD documentation. Bidders must confirm acceptance of the Board's Environmental Matrix, highlighting any proposed changes on an exception basis*".

2.2.22 The Environmental Matrix produced with the ITPD was identified as being produced by Hulley & Kirkwood, a well-known firm of consulting engineers. As with the Project Agreement Environmental Matrix, it contained specific ventilation requirements for each room type. In compliance with the bid submission requirement C8.3, MPX confirmed no changes were currently proposed to the Environmental Matrix, as part of their bid submission (see Document 2.7.2).

2.2.23 During the Preferred Bidder period, NHSL's specific requirements were then further discussed and agreed prior to Financial Close.

2.2.24 Following Financial Close, the Room Data Sheets were then developed in conjunction with NHSL and approved and agreed by them as part of the Review Procedure discussed below; with Project Co being obliged to demonstrate compliance with the final approved versions. Reference is made to paragraph 3.6.3 of the BCRs which provide *inter alia* -:

"*Project Co shall provide fully developed Room Data Sheets submitted to the Board as Reviewable Design Data for review by the Board in accordance with Schedule Part 8 (Review Procedure) and Clause 12.6 (Board design approval) of the Project Agreement.*

As part of the commissioning process, Project Co shall be responsible for demonstrating compliance with the requirements included within the Room Data Sheets."

2.2.25 This requirement to comply with NHSL's specific approved requirements, as opposed to the general guidance position in SHTM 03-01, is also confirmed by paragraph 2.1.4 and 2.1.32 of Schedule Part 10, Appendix B - Completion Criteria of the Project Agreement, which state:

2.1.4: "*All mechanical and electrical Plant and systems shall be tested, commissioned and operate satisfactorily in accordance with the specified design criteria, any manufacturers' operating requirements and the Room Data Sheets*"

2.1.32: "*Project Co shall provide Environmental Matrix including Commissioning data test sheets as commissioned in accordance with CIBSE Commissioning Code C and demonstrating compliance with the Environmental Matrix*"

2.2.26 Accordingly, with reference to the terms of Question 1, the design and installation of the ventilation systems for the RHCYP / DCN was to comply with SHTM 03-01, except where a differing requirement was expressed by NHSL in the Board's Construction Requirements and/or required by the Room Data Sheets, as reviewed and approved by NHSL.

The Review Procedure

2.2.27 It was not, however, just the Room Data Sheets which were reviewed and approved by NHSL - all aspects of the ventilation design were.

2.2.28 Reference is made to Schedule Part 8 (Review Procedure) and Clause 12.6 of the Project Agreement under which all aspects of the Reviewable Design (including the Room Data Sheets), were reviewed by NHSL and became, through that process, what Project Co / MPX was required to build.

2.2.29 NHSL therefore played an active role in the design development, this approach being confirmed by the final sentence of paragraph 2 of the BCRs:

"*The Board is keen to actively participate in the design process. To facilitate this, Project Co shall engage the Board in the design and in particular the Reviewable Design Data*"

2.2.30 Paragraph 3 of Schedule Part 8 sets out the Grounds of Objection NHSL could make in relation to Submitted Items, identifying that they may make comments on the ground that an item was not in accordance with: (a) their requirements in the BCRs; and/or (b) Project Co's Proposals.

2.2.31 Paragraph 4 of Schedule Part 8 then sets out the effect of the review, with paragraph 4.1 stating (our emphasis):

"*Any Submitted Item which is returned or deemed to have been returned by the Board's Representative endorsed "no comment" (and in the case of Reviewable Design Data, endorsed "Level A - no comment")* *shall be complied with or implemented (as the case may be) by Project Co*"

2.2.32 With paragraph 4.3.1 then stating that (again our emphasis):

"*Project Co shall where the Board's Representative has endorsed the Submitted Item "Level B-proceed subject to amendment as noted",* *either proceed to construct or proceed to the next level of design of the part of the Works to which the Submitted Item relates* *but take into account any amendments required by the Board's Representative in his comments*"

2.2.33 Accordingly, once a design document was approved as either Level A or B, Project Co / MPX were under a positive obligation to proceed in accordance with it.

2.2.34 Indeed, under Clause 12.6.1 of the Project Agreement, Project Co was not permitted to commence construction until: "*it is confirmed by the Board's Representative that Project Co. is entitled to proceed with construction in accordance with paragraph 3.3. of Schedule Party 8 (Review Procedure)*"

2.2.35 Overall, therefore, approved items became part of the BCRs and became what MPX were obliged to build. All the individual parts of the ventilation design which were separately approved, also fed into the Room Data Sheets which (as noted above), were themselves approved and formed the M&E Completion Criteria.

2.2.36 As such, where NHSL's approved specific requirements differed from SHTM 03-01, MPX were obliged to comply with the NHSL's requirements, not any contrary general guidance in SHTM 03-01

2.2.37 Again, this interpretation makes commercial sense. It was a feature of the contracts for the construction of this complicated facility that Project Co, MPX and NHSL would work together in reviewing and approving the design. This collaborative approach was necessary to try to make sure that what was built matched NHSL requirements for provision of the clinical services from the facility. NHSL were assisted in this by clinical and technical teams. This approach allowed NHSL to retain the ability to specify something which was different from the NHS Requirements, if it thought that it suited its specific requirements to do so.

2.2.38 If as a result of the review procedure NHSL required Project Co to build something that did not comply with an NHS Requirement (including SHTM 03-01), then that was what MPX was obliged to do.

2.2.39 Throughout the review procedure, MPX sought to engage and work with NHSL in a collaborative manner. Extensive dialogue was held between MPX and NHSL during the review procedure. MPX understands that as part of its review NHSL sought input from clinicians and healthcare professionals as to the designs proposed.

Changes and Derogations

2.2.40 Together with any express contrary requirements stated in and/or approved under the Project Agreement and BCRs, NHSL also had the power to expressly alter their requirements regarding what was to be constructed, by way of a Change or a derogation.

2.2.41 Reference is made to clause 33 of the conditions of the PA, which refers to Schedule Part 16 for Changes; and paragraph 2.7 of the BCRs for derogations.

2.2.42 Changes and derogations were a further way NHSL expressed their specific requirements. They instructed changes to the BCRs and were capable of altering what was to be constructed and whether this was required to follow the general position within NHS Requirements including SHTM 03-01.

Settlement Agreement

2.2.43 Finally, the Settlement Agreement and Supplemental Agreements between NHSL and IHSL and IHSL and MPX dated 22 February 2019 ("**SA**"), also inform the position as to the applicability of SHTM 03-01.

2.2.44 Under the SA, NHSL agreed to resolve certain heads of claim (known as the Released Claims). These Released Claims include any claims arising out of or connected with: (1) the Dispute; (2) the underlying facts of the Dispute; (3) any act, omission, breach, default, negligence or failure to comply with the Construction Contract in relation to the Dispute; and (4) the Agreed Resolution.

2.2.45 The "**Dispute**" is defined in the SA as: (i) all claims, disagreements and disputes arising out of or in connection with the matters which are set out in the column entitled "Dispute" in the Technical Schedule; and/or the Post Completion Disputed Works.

2.2.46 The Agreed Resolution is the technical solution required to resolve the Dispute as described in the Technical Schedule.

2.2.47 A number of the items contained within the Technical Schedule relate to ventilation. By way of example reference is made to MPX's response in relation to the Public Inquiry's Item IDs 2.7, 2.9, 2.11 and 3.6.

2.2.48 The SA therefore restated the Board's Requirements under the Project Agreement. Where those requirements were different from SHTM 03-01, it also confirmed that the design and construction should meet the Board's bespoke requirements as documented in the SA, not SHTM 03-01.

2.2.49 The SA was intended to capture all known technical disputes between the parties regarding the design and installation of the hospital prior to the independent tester certifying the works as complete.

2.2.50 As such, had MPX (in the opinion of NHSL and its advisors) failed to comply with the Project Agreement, and failed to adhere to SHTM 03-01, this would have been raised in the SA and an Agreed Resolution specified. Completion would not have been certified until there was an Agreed Resolution and any works required to meet that Agreed Resolution completed.

2.2.51 This was not the case. Instead, completion was certified on 22 February 2019, pursuant to Clause 17.12 of the Project Agreement. This certification confirmed that the Facilities had been completed in accordance with the Completion Criteria, as amended by the SA.

2.3 "*3. Do you agree that the nineteen issues highlighted in bold in the Ventilation Spreadsheet were issues with the ventilation system at the RHCYP/ DCN?*"

2.3.1 When responding to this question, MPX would wish to clarify that:

2.3.1.1 Under the Construction Contract and Project Agreement, as amended by the SA, in order to achieve completion of the Works, MPX had to meet the Completion Criteria, being the Completion Tests as defined in Appendix B of Schedule Part 10 of the Project Agreement.

2.3.1.2 On 22 February 2019, the Independent Tester issued:

(1) The Commissioning Completion Certificate; and

(2) The Certificate of Practical Completion

confirming the Completion Criteria had been achieved.

2.3.1.3 The items noted on the Ventilation Spreadsheet then arose in the context of a review exercise which was conducted on behalf NHSL by the Institute of Occupational Medicine ("**IOM**"). IOM were appointed some three months after completion, when MPX no longer had control of the ventilation systems. It is unclear to MPX why this validation exercise was not carried out earlier, prior to completion where the validation could have been carried out alongside Arcadis who were representing NHSL in the full inspection and approval of commissioning of ventilation systems. It was not until 3 June 2019, just one month prior to the planned opening of the Hospital, that NHSL contacted MPX and informed them that they would be carrying out an independent validation of all critical ventilation systems beginning 17 June 2019 for approximately 8 to 10 days (see Document 1.10.5).

2.3.1.4 The scope of the validation exercise initially related to only critical care areas but was thereafter expanded by NHSL to become a full review of the Hospital.

2.3.1.5 All items on the Ventilation Spreadsheet were assumed to be matters for which MPX were responsible. Such an approach does not reflect the contractual framework, or the nature of the items identified. No attempt was made to identify items which properly related to the maintenance and management of the Hospital,

and so should therefore have been addressed by Bouygues, and/or those items which were not "issues" at all. Instead, MPX were presented with lists of "issues" and required to investigate them all.

2.3.1.6 There were a number of difficulties in both the initial critical care validation and the wider full review, as a result of matters out with MPX's control, including:

- IOM did not appear to be fully or properly briefed on NHSL's requirements and therefore did not apply the applicable requirements and criteria, see for example MPX's detailed responses in relation to items: 1.10, 2.7, 2.9, 2.11, 3.6, 8.1, 8.2 and 14.2 in the Ventilation Spreadsheet;

- IOM used inappropriate measurement tools and methodologies, resulting in incorrect readings. As an example, when measuring airflow IOM did not apply correction factors in accordance with the CIBSE Commissioning Code A and BSRIA guidance. Reference is made to MPX's detailed response in relation to item 1.10 in the Ventilation Spreadsheet;

- IOM carried out the exercise and issued their results without reference to the original commissioning strategy and ventilation systems. As a result, a considerable amount of time had to be spent deciphering IOM's results before they could then be investigated by MPX. It then became apparent there were a number of errors and inaccuracies with IOM's readings;

- Issues around access. As the exercise was carried out post-completion it meant that MPX no longer had possession of the Hospital and was therefore required to liaise with NHSL to gain access and was given access as and when permitted by NHSL;

- The availability of IOM operators and NHSL's priorities impacted the progress of the exercise;

- Readings taken some time after completion may be different for a variety of reasons, including such things as fouling of filters, balancing damper changes and fan speed changes which matters fell within the remit of the operator;

- From early 2020 the facilities at the Hospital were in use by NHSL with patients being treated, meaning availability for access was limited;

- the Board were carrying out additional works post completion[1] which would itself alter some commissioning results, and interfered with the exercise,

all of which served to prolong the validation and review exercises.

2.3.1.7 Notwithstanding the time which these exercises took as a result of NHSL and IOM's approach; MPX understand that the only item raised which impacted the full migration to the Hospital, was the post completion works carried out by NHSL for which MPX had no responsibility or involvement, in particular in relation to critical care and haematology / oncology. Reference is made to the following extracts taken from publicly available documents, including NHSL's own reporting on this matter:

- On 4 July 2019**,** the Scottish Health Secretary announced that the opening of the hospital was being postponed due to *"final safety checks which revealed that the ventilation system within the critical care department of the new hospital requires further works to meet national standards"*[2]

- On 13 May 2020, NHSL recorded in an update on RHCYP: *"All actions related to water quality, drainage, electrical safety and medical gases in the RHCYP & DCN have been addressed and closed off…. All ventilation checks and improvements except the critical care and haematology / oncology ward works have been carried out…. "*[3]

- On 9 December 2020*,* NHSL recorded in an update on RHCYP: *"Following the successful migration of all DCN services and 80% of Paediatric Outpatients by July of this year, remedial and enhancement works to Paediatric Critical Care and Haematology and Oncology respectively continue to make good progress with a handover date from the contractor programmed for the end of January, 2021"*[4]

- On 20 January 2021, NHSL's Finance and Resource Committee recorded: "*Ms Goldsmith gave a verbal update. A delay with the installation of the critical care pendants was due to engineers from the supplier having to isolate due to a case of COVID-19. Ventilation works were completed and would be tested that week by the contractor and the following week by NHS Lothian. A revised complete handover date had*

1 Discussed in response to question 6 below
2 https://www.gov.scot/news/update-on-royal-hospital-for-children-and-young-people/
3 See paragraph 3.1 and 3.2 of the minutes from NHSL's Board Meeting dated 13 May 2020 "*ROYAL HOSPITAL FOR CHILDREN AND YOUNG PEOPLE AND DEPARTMENT OF CLINICAL NEUROSCIENCES – PROJECT UPDATE*" – to be found at page 118/195 of Document A
4 See paragraph 3.1 of the minutes from NHSL's Board Meeting dated 09 December 2020 "*RHCYP/DCN/CAMHS PROGRESS UPDATE*" to be found at page 328/330 of Document B

been agreed with IHSL for 8 February 2021 with an expected move in date before Easter 2021..."[5]

2.3.1.8 Reference is also made to MPX's detailed response to Item 2.7 regarding the original contract design and installation in the critical care department.

2.3.1.9 In light of the above, in this response MPX proceeds on the basis that the phrase "*issues with the ventilation system at the RHCYP / DCN*" is a reference to items raised by IOM after contractual completion.

2.3.1.10 MPX accept these items were raised by IOM, with the exception of item ID Nos:6; 7.1; 9.1; 9.2; 9.3; 9.4; 9.6; 9.7; 9.8; 9.9; 9.10; 16; 17, which MPX are not presently aware as having been notified.

2.3.1.11 MPX's position in relation to all these items is discussed in response to question 4 below and further detailed in the Ventilation Spreadsheet.

2.3.1.12 MPX note that, as far as they understand it, the only matter raised by IOM and referred to in the Ventilation Spreadsheet, which MPX understands delayed full migration, was the wider post completion changes NHSL undertook associated with item 2.7, which MPX had no involvement with or responsibility for.

2.4 "*4. If the answer to question 3 is "no", please explain why.*"

2.4.1 MPX has produced a detailed response in relation to each item in the Ventilation Spreadsheet. As can be seen from these responses, notwithstanding the difficulties caused by IOM's approach as noted above, MPX worked with NHSL and IOM to investigate each item thoroughly.

2.4.2 These investigations showed that the majority of the items raised were either incorrect (requiring no additional works); or were minor items completed and closed out by July 2019. In relation to some items MPX undertook additional works, notwithstanding the compliance of the original design and construction with a view to closing out the item in accordance with IOM's preference as soon as possible, albeit that this varied from the preferences of Arcadis, who had already signed off the works on behalf of NHSL. The result of this is that there are only a few items identified on the Ventilation Spreadsheet where further minor works were required by MPX and their sub-contractors.

2.4.3 To assist the Inquiry, the table below seeks to categorise the status of the Item IDs noted on the "*Ventilation Spreadsheet*":

5 See paragraph 46.5.1 of the minutes of the meeting of the Finance and Resources Committee held at 9.30 on Wednesday 20 January 2021 to be found at page 14/426 of Document C

	Item ID
Nothing for MPX to address	2.1; 2.5; 2.6; 2.7; 2.9; 2.10; 2.11; 3.2; 3.4; 3.5; 3.6; 4.2; 4.3; 7.2; 8.1; 8.2; 10; 14.1; 14.2; 14.3, 16, 17.
Review undertaken and confirmed by July 2019	1.1; 1.3; 1.4; 1.5; 1.6; 1.7; 2.2; 2.3; 2.4; 2.8; 3.3
Minor additional works carried out - notwithstanding compliance of original design and installation	4.1;12;
Not notified to MPX	6; 7.1; 9.1; 9.2; 9.3; 9.4; 9.6; 9.7; 9.8; 9.9; 9.10; 16; 17
Further investigation required	1.2; 1.8; 1.9; 1.10 3.1; 5, 9.5; 11; 13; 15.1; 15.218; 19

2.4.4 In relation to the items noted in the table requiring further investigation, these investigations were carried out in parallel to, and largely completed before, the post contract changes implemented by NHSL. Further, as noted above and below, MPX do not consider that these items directly impacted migration or the opening of the Hospital. Whilst MPX would refer the Inquiry to their detailed response in relation to each item in the Ventilation Spreadsheet, they would make the following comments:

- **Item ID 1.2; 3.1 - Theatre Corridors**

    - MPX were advised of IOM's concerns in relation to limited extract within the Theatre Corridors on 25 June 2019.

    - On 09 July 2019 NHSL advised that this item was to be reviewed but that *"all pressure cascades are compliant"*.

    - Various investigations were carried out and TUV SUD Limited ("TUV SUD") (MPX's designer responsible for the associated design)

    - In or around December 2019 to January 2020 4 no. mechanical extraction fans were installed within the Level 2 theatre plantroom and ducted to the theatre corridors.

    - In July 2020 works were undertaken to provide a non- fan assisted solution which enables dispersal of corridor air reducing the over pressure. The works included alterations to door control, installation of passive pressure relief dampers and minor modifications to the fire strategy. On completion of these works a report was issued by NHSL which confirmed the cascade of air from the corridor and that the doors closed unaided.

- Discussions are underway to see if a further minor improvement to extract is required, but all parties in these discussions recognise that any solution must work around the fact that all theatres are working and fully functional.

- Notwithstanding this ongoing review, MPX would note that the Hospital is now fully open. Therefore, whilst MPX will continue to liaise with NHSL and TUV SUD where necessary in relation to this item, it is not a matter which MPX consider impacted the commencement of clinical operations within the Hospital.

- **Item ID 1.8; 1.9; 1.10 – General Ventilation**

  - NHSL instructed an independent review of the general ventilation system by IOM after completion.

  - MPX were not provided with a full copy of IOM's results from this review until September 2019.

  - All matters raised were assumed to be items MPX were responsible for. However, IOM's results contained errors and did not accurately reflect the airflow rate and air changes being achieved; and/or related to matters which MPX were not responsible for.

  - MPX carried out a re-check of the identified areas and provided a full response to IOM's results no later than April 2020. This recheck was carried out in circumstances where MPX no longer had control of the hospital, or the ventilation systems.

  - As noted at paragraph 2.3.1.7 above, as at May 2020, NHSL was reporting that: "*All ventilation checks and improvements except the critical care and haematology / oncology ward works have been carried out*".

  - In May 2020 a second independent review was then carried out by IOM on behalf of NHSL, and a second set of different results provided to MPX.

  - These results again contained errors and inaccurate readings. MPX provided a full response to this second set of results, by no later than October 2020.

  - Both sets of investigations carried out by MPX confirmed that that the general ventilation systems were achieving their design requirements, with only minor adjustments being necessary in relation to a limited number of rooms.

- **Item ID 5 – Theatre temperature control**

  - On 25 June 2019 MPX were advised that IOM considered there to be a number of faulty control valves on plant and heater batteries.

- MPX investigated and carried out replacement where necessary and this item was closed in the IOM logs in July 2019.

- A separate item relating to BMS plant control was then intimated to MPX on 16 July 2019.

- MPX requested further specifics from IOM, with data to support their findings, but noted that in the interim they were arranging for the manufacturer to attend site and review

- Monitoring was then carried out and minor adjustments made to three theatres. These adjustments involved no physical works, but instead a minor change to the software control strategy for the systems in question, whereby the Building Management System control logic was adjusted to provide a tighter / closer control band for three theatres.

- These adjustments were completed by MPX on or around 11 October 2019 and IOM and NHSL thereafter confirmed the item as closed on 26 November 2019.

- **Item ID 9.5 – UCV Theatre Noise Levels**

  - On 25 June 2019 MPX were advised that IOM considered that the noise level in the ultra-clean ventilation ("UCV") Theatres was "*slightly high"*.

  - It was confirmed that the noise levels had all been previously measured during the original commissioning and were compliant.

  - In July and August 2019 faulty fans were then identified in Theatres 36 and 38 and were replaced. Faults to fans can arise at any time.

  - On 9 August 2019 the item raised on 25 June 2019, was closed with IOM.

  - Over a year after completion on 23 March 2020 IOM then suggested that noise levels had increased in some theatres. By this point it must be accepted that NHSL, with a full facilities management team, operating the Hospital and adjusting items as they see fit, have responsibility liability for maintenance.

  - On 23 March 2020 Medical Air Technology ("MAT") provided a quotation to Bouygues E&S Solutions Limited ("BYES") for replacement of the UCV fans in theatres, 31, 32, 33, 36, 37, 38, and 39.

  - On 31 March 2020 MAT confirmed they were on site carrying out these works and verifying all UCV theatres. These works were carried out under warranty and under the control of Bouygues.

- This was nothing more than general maintenance, as would be expected of a complicated medical facility.

- **Item ID 11 - fire damper access and fire rating**

  - The fusible link fire dampers and motorised combined fire smoke dampers were commissioned, reviewed and approved by the Independent Tester on behalf of NHSL.

  - In September 2019, a draft version of the NHS NSS report was issued to MPX. It suggested that that fire dampers could not be adequately tested due to poor duct access and questioned whether the ductwork used was appropriately fire rated.

  - MPX carried out a review and agreed to install additional access hatches to allow a visual inspection of the dampers. This item was noted as closed on 07 February 2020.

- **Items ID 13– bypass arrangement**

  - MPX understand this to be a reference to the maintenance arrangement for the AHUs serving isolation rooms

  - The "bypass" arrangement originally related to 4 AHUs: AHU 04-06 and AHU04-07 and AHU 04-08 and AHU 04-09. Due to additional works carried out by NHSL which MPX were not involved in, MPX understand that now only 2 AHUs currently operate with this bypass arrangement - AHU 04-08 and AHU 04-09.

  - AHU 04-09 is a general ward department AHU, it does not serve any isolation rooms. Accordingly, following NHSL's removal of AHU 04-06 and AHU 04-07, MPX understand the only isolation rooms associated with this bypass arrangement are those associated with AHU04-08. These are the following 4 isolation rooms on level 3: 3-C1.1.004; 3-C1.1.033; 3-C1.1.036; 3-C1.1.040.

  - This "bypass" arrangement does not affect the day-to-day operation of the AHUs. It is an additional maintenance arrangement whereby during the periods that AHU 04-08 requires to be switched off for general maintenance, AHU 04-09 accommodates the additional supply duty required to serve the four AHU 04-08 isolation rooms.

  - Changes to the control strategy associated with this bypass arrangement (i.e., changes to the computer software which controls the opening and closing of dampers) were made and the arrangement was demonstrated no later than 28 February 2020.

- **Item ID 15.1 and 15.2 – concerns around flexible ductwork in Theatres**

    - In July 2019 IOM raised concerns in relation to the length, configuration of and fire rating of flexible ductwork.

    - MPX sought confirmation from NHSL of the locations these concerns related to. Theatre 35 was identified, and minor works were undertaken to alter the flexible duct work, as during installation flex had been used to create one single bend.

    - On 6 August 2019 the relevant fire certification was issued to NHSL.

    - On 29 August 2019, Theatre 35 was noted as rectified. NHSL were unable to identify any other specific concerns and the item was noted as closed.

- **Item ID 18 – concerns around loose cabling within AHUs and ductwork**

    - In June 2019 concerns were raised in relation to the cabling associated with the AHUs and ductwork.

    - On 19 July 2019, it was noted that IOM had confirmed their concerns did not affect safe operation.

    - On 17 October 2019 NHSL approved an agreed scope of upgrade works

    - Changes were made to the AHU internal configuration to provide separation of the cabling from the airstream. This was achieved by using an Alu-zinc cable enclosure system c/w gaskets and sealed using an agreed sealant. The inverters were removed from inside the AHU's and mounted externally on the AHUs, in an agreed position. Other minor works such as changes to seals around bag filter casings and sealing of penetrations using an agreed sealant were also carried out.

    - On 04 March 2020 NHSL confirmed that the associated AHUs had been reviewed and a final snagging inspection was planned for 10 and 24 March 2020.

- **Item ID 19 - concerns with cleanliness of AHUs**

    - Prior to completion, the ventilation AHUs and ductwork systems were internally cleaned to BESA Guide to Good Practice TR19 (2nd Edition) cleanliness verification standards whereby no more than 0.3g dust / m² duct surface may be found using the 15 litre/min Preferred Vacuum Test Method.

    - The related reports include photographs from various locations before and after works have taken place to demonstrate the hygiene condition of ventilation ductwork systems. This cleaning was reviewed and approved by the Independent Tester on 23 January 2019.

- In or around August 2019 IOM suggested:

  (1) Internals of some units not clean.

  (2) That there was evidence of bird droppings to one unit and one unit has a dead mouse or small bird in the inlet section

  (3) That there was a risk of standing water

- Points (1) and (2) were noted as being the responsibility of the Bouygues.

- In relation to point 3, MPX carried out minor works. These works were completed by November 2019.

2.4.5 Overall, MPX's understanding is that all items in the Ventilation Spreadsheet which MPX were notified of and had a responsibility for, did not directly impact the opening or migration to the Hospital. They were either resolved quickly with limited or no additional works required by MPX or were further investigated whilst these system were being used by NHSL for patient care.

2.5 "*5. Do you consider that there were any additional issues with the ventilation system at the RHCYP/ DCN, which had the potential to adversely impact on patient safety and care, that are not highlighted in the Ventilation Spreadsheet? (If so, please provide an explanation of the issue(s))*"

2.5.1 It is MPX's position that it provided the ventilation system at the RHCYP / DCN in accordance with NHSL's requirements.

2.6 "*6. Did the issues highlighted in bold in the Ventilation Spreadsheet create delay in the completion of the RHCYP/ DCN?*"

2.6.1 No, on 22 February 2019 the Commissioning Completion Certificate and Certificate of Practical Completion were issued confirming that the Completion Criteria had been achieved. For the purposes of the Project Agreement and Construction Contract completion of the RHCYP / DCN was achieved on that date.

2.6.2 It was on 3 June 2019, one month prior to the planned opening of the Hospital on 9 July 2019, that NHSL contacted MPX and informed them that they would be carrying out an independent validation of all critical ventilation systems beginning 17 June 2021 for approximately 8 to 10 days. The "*issues*" noted in the Ventilation Spreadsheet were therefore raised after completion.

2.6.3 In regard to the planned opening of the Hospital, on 4 July 2019 the Scottish Government published an "*Update on Royal Hospital for Children and Young People*", which, *inter alia*, stated:

"*To protect patient safety the Health Secretary has delayed the move of patients, staff and services from the existing Royal Hospital for Sick Children to the new site at the Royal Infirmary of Edinburgh, which was due to take place next week.*

This decision was taken following final safety checks which revealed that the ventilation system within the critical care department in the new hospital requires further work to meet national standards."

2.6.4 MPX understands that the "…*further work to meet national standards*" referred to above concerned additional works[6] to deliver 10 air changes and 10Pa positive pressure for critical care areas in respect of certain rooms. The Board initially engaged with MPX and IHSL to consider a post completion High Value Change in relation to those additional works. In the event, NHSL engaged others to carry out those additional works over the period 2019 to 2021.

2.6.5 MPX further understands that over the period 2019 to 2021 NHSL also carried out enhancement works to haematology / oncology wards; fire dampers; corridor walls and doors to sleeping accommodation; and critical care pendants. MPX is not aware of the precise scope of the works which were carried out by NHSL.

2.6.6 NHSL then reported that the completion of the additional works referred to above thereafter allowed the full migration of services to the Hospital in 2021, albeit by July 2020 DCN services and 80% of Paediatric Outpatients had been migrated to the Hospital.

2.7 "*7. If the answer to 6 is "yes", please explain the nature of the delay.*"

2.7.1 Not applicable.

2.8 "*8. Were you aware of each of the issues highlighted in the Ventilation Spreadsheet on the dates specified in the Ventilation Spreadsheet? (please address each entry in the spreadsheet)*"

2.8.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.9 "*9. If the answer to question 8 is "no", please provide details of when you became aware of each issue highlighted in the Ventilation Spreadsheet.*"

2.9.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.10 "*10. How did you become aware of the issues highlight in the Ventilation Spreadsheet? (please address each entry in the spreadsheet)*"

2.10.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.11 "*11. Have the issues highlighted in bold in the Ventilation Spreadsheet been resolved? (please address each entry in the spreadsheet. If you consider that an issue or issues have not been resolved, please provide an explanation of the problem(s).)*"

2.11.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.12 "*12. When were the issues resolved? (please address each entry in the spreadsheet)*"

6 Being additional to the works provided for under the Project Agreement and Construction Contract.

2.12.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.13 "*13. How were each of the issues highlighted in the Ventilation Spreadsheet resolved? (please address each entry in the spreadsheet. Responses should address any agreements changes to the specification for the ventilation system together with details of remedial works undertaken and/ or replacement works)*"

2.13.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.14 "*14. Please explain why you consider each issue set out in the Ventilation Spreadsheet arose.*"

2.14.1 Reference is made to the annotated version of the "*Ventilation Spreadsheet*".

2.15 "*15. Do you have anything to add at this stage in relation to whether the ventilation system installed at the RHCYP/ DCN in July 2019: (i) was capable of performing the function and/ or purpose for which it was intended; and/ or (ii) conformed to relevant statutory regulation and other applicable recommendations, guidance, and good practice?*"

2.15.1 MPX does not have anything to add at this stage.

2.16 "*16. Do you have anything to add at this stage in relation to whether the ventilation system in the RHCYP/ DCN as at 23 March 2021: (i) is capable of performing the function and/ or purpose for which it was intended; and/ or (ii) conforms to relevant statutory regulation and other applicable recommendations, guidance, and good practice?*"

2.16.1 MPX is unable to respond to this question given that the status of the ventilation system in the RHCYP / DCN some two years after completion was achieved is not something that MPX has awareness of. Following completion, maintenance and operation of the ventilation system in the RHCYP / DCN was the responsibility of the Board and IHSL.

BETWEEN:

(1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the **"Board"**); and

(2) [ ] (registered under number [ ]) whose registered office is [ ] ("**Project Co**").

WHEREAS:

(A) The Board wishes to develop new facilities on the Site and Off-Site and to consolidate on the Site services currently provided at other locations in order to improve the quality and efficiency of services provided by the Board.

(B) The Board wishes to procure the design, build, finance and maintenance of a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the **"Project"**).

(C) In accordance with the Scottish Government's NPD initiative, the Board conducted a competitive dialogue to identify the most economically advantageous tender from persons interested in being appointed the Board's private sector partner and forming a NPD company to procure the Project.

(D) The tender submitted by Project Co has been selected as the most economically advantageous tender.

(E) This Agreement is entered into pursuant to a project applying principles similar to the principles of the private finance initiative and is excluded from the Housing Grants, Construction and Regeneration Act 1996 by virtue of the Construction Contracts (Scotland) Exclusion Order 1998 (S.I. 1998/686).

NOW IT IS HEREBY AGREED as follows:

PART 1: GENERAL

1. DEFINITIONS AND INTERPRETATION

Schedule Part 1 (*Definitions and Interpretation*) shall apply.

2. EXECUTION AND DELIVERY OF DOCUMENTS

2.1 On or prior to execution of this Agreement Project Co shall deliver to the Board the documents referred to in Section 1 (*Documents to be delivered by Project Co*) of Schedule Part 2 (*Completion Documents*) (unless the requirement to deliver any such document is waived by the Board by written notice to Project Co); and

2.2 the Board shall deliver to Project Co the documents referred to in Section 2

(*Documents to be delivered by the Board*) of Schedule Part 2 (*Completion Documents*) (unless the requirement to deliver any such document is waived by Project Co by written notice to the Board).

3. COMMENCEMENT AND DURATION

This Agreement, and the rights and obligations of the parties, shall commence on the date of execution of this Agreement and, without prejudice to Clause 47.6, shall terminate automatically on the expiry of the Project Term.

4. PROJECT DOCUMENTS

Ancillary Documents

4.1 Project Co shall perform its obligations under, and observe all of the provisions of, the Project Documents to which it is a party and shall not:

4.1.1 terminate or agree to the termination of all or part of any Ancillary Document;

4.1.2 make or agree to any material variation of any Ancillary Document;4.1.3 in any material respect depart from its obligations (or waive or allow to lapse any rights it may have in a material respect), or procure that others in any material respect depart from their obligations (or waive or allow to lapse any rights they may have in a material respect), under any Ancillary Document; or4.1.4 enter into (or permit the entry into by any other person of) any agreement replacing all or part of (or otherwise materially and adversely affecting the interpretation of) any Ancillary Document,

unless the proposed course of action (and any relevant documentation) has been submitted to the Board's Representative for review under Schedule Part 8 (*Review Procedure*) and either:

(a) there has been no objection in accordance with paragraph 3of Schedule Part 8 (*Review Procedure*) within twenty (20) Business Days of receipt by the Board's Representative of the submission of the proposed course of action (and any relevant documentation), or such shorter period as may be agreed by the parties; or

(b) Project Co is acting in accordance with the comments of the Board as provided in paragraph 4.2 of Schedule Part 8 (*Review Procedure*);

and, in the circumstances specified in Clause 4.1.1, Project Co has complied with Clause 57 (*Assignation and Sub-contracting*).

Changes to Funding Agreements and Refinancing

4.2 Subject to Clauses 4.3, 4.4 and 4.5, Project Co shall be free, at any time, to enter into, terminate, amend, waive its rights and generally deal with its Funding Agreements on such terms and conditions as it sees fit without the prior written consent of the Board provided that (at the time such action is contemplated and effected) the same will not materially and adversely affect the ability of Project Co to perform its obligations under the Project Documents or this Agreement.

4.3 No amendment, waiver or exercise of a right under any Funding Agreement or Ancillary Document shall have the effect of increasing the Board's liabilities on early termination of this Agreement unless:

4.3.1 Project Co has obtained the prior written consent of the Board to such increased liability for the purposes of this Clause 4.3; or

4.3.2 it is a Permitted Borrowing.

4.4 Project Co shall not, without the prior written consent of the Board for the purposes of this Clause 4.4, vary, amend or replace any Funding Agreement or enter into any new Funding Agreement, the effect of which is to:

4.4.1 change the circumstances in, or conditions on, which the Agreed Order of Priorities may be varied;

4.4.2 change the circumstances in, or conditions on, which Project Co is entitled or obliged to make payments into the Surplus Account; and/or

4.4.3 change the circumstances in, or conditions on, which Project Co is entitled or obliged to make Surplus Payments.

4.5 Any amendment or variation of any Funding Agreements which constitutes a Refinancing shall be carried out in accordance with the provisions of Schedule Part 23 (*Refinancing*).

4.6 Without prejudice to Clause 4.2, Project Co shall liaise with the Board, and shall use all reasonable endeavours to provide the Board with a copy of the relevant agreement in settled draft form, not less than ten (10) Business Days before it enters into any Funding Agreement (other than the Initial Funding Agreements).

Delivery

4.7 Without prejudice to the provisions of this Clause 4 (*Project Documents*), if at any time an amendment is made to any Project Document, or Project Co enters into a new Project Document (or any agreement which affects the interpretation or application of any Project Document), Project Co shall deliver to the Board a conformed copy of each such amendment or agreement within ten (10) Business Days of the date of its execution or creation, certified as a true copy by an officer of Project Co.

Funding Default

4.8 Project Co shall promptly upon the occurrence of a [Funding Default] notify the Board of such [Funding Default].

4.9 The Board may, in circumstances referred to in Clause 4.8 above (regardless of whether the Senior Funders have exercised any enforcement or similar rights under the Senior Funding Agreements), require Project Co to provide an Interim Project Report and to attend, and use all reasonable endeavours to ensure that the Senior Funders attend, such meetings as the Board may convene to discuss such Interim Project Report and the circumstances giving rise to it.

4.10 Project Co shall promptly upon a failure by the Senior Funders to advance amounts due under the Senior Funding Agreements (or in circumstances that might reasonably be expected to lead to such a failure) notify the Board of such failure (or expected failure).

4.11 The Board may, in the circumstances referred to in Clause 4.10 above, require Project Co to attend, and use all reasonable endeavours to ensure that the Senior Funders attend, such meetings as the Board may convene to discuss the circumstances.

5. THE PROJECT OPERATIONS

Scope

5.1 Subject to and in accordance with the provisions of this Agreement, Project Co shall perform its duties under this Agreement at its own cost and risk without recourse to the Board except as otherwise expressly provided in this Agreement.

General standards

5.2 Project Co shall at its own cost be solely responsible for procuring that the Project Operations are at all times performed:

5.2.1 in compliance with all Law and Consents (including without limitation the giving of notices and the obtaining of any such Consents) and so as not to prejudice the renewal of any such Consents;

5.2.2 in a manner that is not likely to be injurious to health or to cause damage to property;

5.2.3 in a manner consistent with the Quality Plans;

5.2.4 except to the extent expressly stated to the contrary in the Board's Construction Requirements or the Service Level Specification, in

compliance with all applicable NHS Requirements;

5.2.5 in a manner consistent with the Board discharging its statutory duties and other functions undertaken by it as the same may be notified to Project Co from time to time;

5.2.6 in so far as not in conflict with an express obligation of Project Co under this Agreement, or where in relation to a matter there is no express obligation or standard imposed on Project Co under this Agreement, in accordance with Good Industry Practice; and

5.2.7 without prejudice to the foregoing generality, where any of the Project Operations are to carried out on any part of the Retained Site and/or the Retained Estate in compliance with the reasonable requirements of the Board, which Project Co acknowledges may include the reasonable requirements of Consort and/or the University and/or other parties with an interest in the Retained Site and/or Retained Estate.

In the event that any ambiguity, uncertainty, dispute or discrepancy arises in the nature and scope of Project Co's obligations under this Clause 5.2 (*General Standards*), the provisions of this Clause 5.2 (*General Standards*) will be given meaning and have effect in descending order of precedence set out in this Clause 5.2 (*General Standards*).

Board's Undertaking

5.3 The Board undertakes to Project Co that it shall:

5.3.1 subject to the provisions of this Agreement, comply with all Laws, NHS Requirements and Consents applicable to it which relate to the Project Operations;

5.3.2 not wilfully impede Project Co in the performance of its obligations under this Agreement (having regard always to the interactive nature of the activities of the Board and of Project Co and to the Board's use of the Facilities, the Retained Estate Handback Infrastructure and/or the Retained Estate to provide the relevant Board Services and any other operations or activities carried out by the Board on or at the Site, Off-Site and/or the Retained Site for the purposes contemplated by this Agreement and any other of the Board's statutory functions);

5.3.2 inform Project Co as soon as reasonably practicable if at any time it becomes unable to meet any of its financial obligations and in such case inform, and keep Project Co informed, of any course of action to remedy the situation recommended or required by the Scottish Government, the Board or other competent authority; and

5.3.3 to the extent permitted by Law, supply to Project Co within sixty (60) Business Days of their publication, a copy of the Board's Annual

provided that, to avoid doubt, nothing in this Clause 5.3 (*Board's Undertaking*) shall in any way fetter the discretion of the Board in fulfilling its statutory functions.

Co-operation

5.4 Each party agrees to co operate, at its own expense, with the other party in the fulfilment of the purposes and intent of this Agreement. To avoid doubt, neither party shall be under any obligation to perform any of the other's obligations under this Agreement.

5.5 Without prejudice to the generality of Clause 5.4, the parties shall liaise with a view to ensuring that the requirements of The NHS and You and any other NHS requirement relating to customer service and satisfaction which may from time to time supplement or replace The NHS and You are met in respect of the operation of the Facilities.

6. GENERAL OBLIGATIONS AND RESPONSIBILITIES OF PROJECT CO

Other business

6.1 Project Co shall not engage in any business or activity other than the business or activities related to, and conducted for, the purpose of the Project Operations.

Project Co Parties

6.2 Subject to the provision of Clause 30.1.7, Project Co shall not be relieved or excused of any responsibility, liability or obligation under this Agreement by the appointment of any Project Co Party. Project Co shall, as between itself and the Board, be responsible for the selection, pricing, performance, acts, defaults, omissions, breaches and negligence of all Project Co Parties. All references in this Agreement to any act, default, omission, breach or negligence of Project Co shall be construed accordingly to include any such act, default, omission, breach or negligence of a Project Co Party.

Safety

6.3 Project Co shall, in carrying out the Project Operations, have full regard for the safety of all persons on the Site, the Retained Site and/or Off-Site (whether lawfully or not) and keep the Site and/or Off-Site, the Works and the Facilities in an orderly state, appropriate in accordance with Good Industry Practice, to avoid danger to such persons.

7. BOARD'S DATA

No liability

7.1 The Board shall not be liable to Project Co for and Project Co shall not seek to recover from the Board (or from any Board Party) any damages, losses, costs, liabilities or expenses which may arise (whether in contract, delict or otherwise) from the adoption, use or application of the Disclosed Data by, or on behalf of, Project Co, the Independent Tester or any Project Co Party.

No warranty

7.2 The Board gives no warranty or undertaking of whatever nature in respect of the Disclosed Data and, specifically (but without limitation), the Board does not warrant that the Disclosed Data represents all of the information in its possession or power (either during the conduct of the tender process for the Project or at the time of execution of this Agreement) relevant or material to or in connection with the Project or the obligations of Project Co under this Agreement or under any of the Project Documents. In addition, the Board shall not be liable to Project Co in respect of any failure to disclose or make available to Project Co (whether before, on or after the execution of this Agreement) any information, documents or data, nor any failure to review or to update the Disclosed Data, nor any failure to inform Project Co (whether before, on or after execution of this Agreement) of any inaccuracy, error, omission, defects or inadequacy in the Disclosed Data.

Project Co investigation

7.3 Project Co acknowledges and confirms that:

7.3.1 it has conducted its own analysis and review of the Disclosed Data and has, before the execution of this Agreement, satisfied itself as to the accuracy, completeness and fitness for purpose of any such Disclosed Data upon which it places reliance; and

7.3.2 it shall not be entitled to and shall not (and shall procure that no Project Co Party shall) make any claim against the Board or any Board Party whether in contract, delict or otherwise including, without limitation, any claim in damages, for extensions of time or for additional payments under this Agreement on the grounds:

(a) of any misunderstanding or misapprehension in respect of the Disclosed Data; or

(b) that incorrect or insufficient information relating to the Disclosed Data was given to it by any person, whether or not an Board Party,

nor shall Project Co be relieved from any obligation imposed on, or undertaken by it, under this Agreement on any such ground.

8. REPRESENTATIVES

Representatives of the Board

8.1 The Board's Representative shall be Brian Currie or such other person appointed pursuant to this Clause. The Board's Representative shall exercise the functions and powers of the Board in relation to the Project Operations which are identified in this Agreement as functions or powers to be carried out by the Board's Representative. The Board's Representative shall also exercise such other functions and powers of the Board under this Agreement as may be notified to Project Co from time to time.

8.2 The Board's Representative shall be entitled at any time, by notice to Project Co, to authorise any other person to exercise the functions and powers of the Board delegated to him pursuant to this Clause, either generally or specifically. Any act of any such person shall, for the purposes of this Agreement, constitute an act of the Board's Representative and all references to the "**Board's Representative**" in this Agreement (apart from this Clause) shall be taken as references to such person so far as they concern matters within the scope of such person's authority.

8.3 The Board may by notice to Project Co change the Board's Representative. The Board shall (as far as practicable) consult with Project Co prior to the appointment of any replacement for the Board's Representative, taking account of the need for liaison and continuity in respect of the Project. Such change shall have effect on the date specified in the written notice (which date shall, other than in the case of emergency, be such date as will not cause material inconvenience to Project Co in the execution of its obligations under this Agreement).

8.4 During any period when no Board's Representative has been appointed (or when the Board's Representative is unable through illness, incapacity or any other reason whatsoever to carry out or exercise his functions under this Agreement) the Board shall carry out the functions which would otherwise be performed by the Board's Representative.

8.5 No act or omission of the Board, the Board's Representative or any officer, employee or other person engaged by the Board shall, except as otherwise expressly provided in this Agreement:

8.5.1 in any way relieve or absolve Project Co from, modify, or act as a waiver or personal bar of, any liability, responsibility, obligation or duty under this Agreement; or

8.5.2 in the absence of an express order or authorisation under Schedule Part 16 (*Change Protocol*), constitute or authorise a Change.

8.6 Except as previously notified in writing before such act by the Board to Project Co, Project Co and Project Co's Representative shall be entitled to treat any act of the Board's Representative which is authorised by this Agreement as being expressly authorised by the Board and Project Co and Project Co's Representative shall not be required to determine whether an express Board has in fact been given.

Representative of Project Co

8.7 Project Co's Representative shall be [ ] or such other person appointed pursuant to Clause 8.8. Project Co's Representative shall have full authority to act on behalf of Project Co for all purposes of this Agreement. Except as previously notified in writing before such act by Project Co to the Board, the Board and the Board's Representative shall be entitled to treat any act of Project Co's Representative in connection with this Agreement as being expressly authorised by Project Co and the Board and the Board's Representative shall not be required to determine whether any express authority has in fact been given.

8.8 Project Co may by notice to the Board change Project Co's Representative. Where Project Co wishes to do so it shall by written notice to the Board propose a substitute for approval, taking account of the need for liaison and continuity in respect of the Project. Such appointment shall be subject to the approval of the Board (not to be unreasonably withheld or delayed).

8.9 Project Co's Key Works Personnel are identified in Schedule Part 3 (*Key Works Personnel*). Project Co shall, as far as it is within Project Co's control, ensure that such persons retain their involvement in the Works and, in particular, will not, for the duration of the Works, require or request any of them to be involved in any other project on behalf of Project Co or any of the Shareholders or its or their Associated Companies if, in the reasonable opinion of the Board, this would adversely affect the Project.

Board Observer

8.10 Project Co shall, subject to Clauses 8.11 to 8.13, ensure that the Board Observer:

8.10.1 is invited to attend all Project Co board meetings;

8.10.2 receives at or around the time that they are received by Project Co's board members) the agendas and supporting papers that are circulated to the board members in advance of the board meetings or tabled at the board meetings including, without prejudice to the foregoing generality, six-monthly management accounts, budgets and management reports (including explanations of material variances against budget) and the statutory accounts in respect of each financial year;

8.10.3 is permitted by Project Co to attend and participate (but not vote at) all Project Co board meetings; and

8.10.4 receives (at or around the same time as they are received by the board members) copies of the minutes of Project Co's board meetings and all other financial information relating to Project Co as any Director might reasonably require to keep himself properly informed about the activities of Project Co.

8.11 The Board Observer shall, unless otherwise determined by a board resolution in respect of any particular matter, be entitled to disclose any information received pursuant to Clause 8.10 subject to and in accordance with the provisions of Clause 61 (*Confidentiality*) and the Board shall procure that the individual appointed to fulfil such role executes suitable undertakings of confidentiality to comply with the terms of Clause 61 (*Confidentiality*).

8.12 Project Co, acting reasonably, shall be entitled to exclude the Board Observer from attending Project Co's board meetings and withhold the agendas and supporting papers referred to in Clause 8.10:

8.12.1 in the event that the Board Observer discloses information received pursuant to Clause 8.10 other than in accordance with Clause8.11; or

8.12.2 where and for so long as the conduct of the Board Observer is inappropriate.

8.13 Project Co shall be entitled to exclude the Board Observer from attending any part of a Project Co board meeting at which:

8.13.1 the exercise or purported exercise of contractual rights by Project Co against the Board or by the Board against Project Co; or

8.13.2 any claims or potential claims by Project Co against the Board or by the Board against Project Co; or

8.13.3 any matter of interpretation of this Agreement,

is discussed and shall be entitled to withhold from the Board any supporting papers and information to the extent that they relate to the matters listed in Clauses 8.13.1 to 8.13.3.

8A LITTLE FRANCE CAMPUS WORKING GROUP

8A.1 The Board, Consort and the University have established a working group to discuss operational Campus Site and Campus Facilities issues (the "**Little France Campus Working Group**").

8A.2 The Little France Campus Working Group shall meet on a monthly basis and one representative from Project Co and one representative from the relevant Subcontractor, together with one representative each of the parties referred to in Clause 8A.1 above, shall be obliged to attend such monthly meeting during the Project Term.

8A.3 The functions of the Little France Campus Working Group shall be:

8A.3.1 to provide means for the review of day to day aspects of the health and safety issues relating to the Campus Site and the Campus Facilities;

8A.3.2 to provide a forum for strategic discussion relating to where

improvements could be made to facilitate improved health and safety arrangements within the Campus Site and the Campus Facilities; and

8A.3.3 to monitor and review the Programme to ensure that correct health and safety procedures are adhered to.

8A.4 Project Co shall submit to the Board's Representative ten (10) Business Days prior to the date of each monthly meeting a safety programme, which shall include safety measures to be undertaken by Project Co up to the date of such meeting.

8A.5 The role of the Little France Campus Working Group is to make recommendations to the Little France Campus Working Group Parties, which they may accept or reject at their complete discretion. Neither the Little France Campus Working Group itself, nor the Little France Campus Working Group Parties acting in that capacity shall have the authority to vary the provisions of this Agreement or to make any decision which is binding on all of the Little France Campus Working Group Parties. Neither the Board nor Project Co shall rely on any act or omission of the Little France Campus Working Group, nor any Little France Campus Working Group Parties acting in that capacity, so as to give rise to any waiver or personal bar in respect of any right, benefit of obligation of either party.

8A.6 Project Co shall appoint and remove its relevant representative of the Little France Campus Working Group and/or alternative by written notice delivered to the Board. If such representative and/or alternate is unavailable to attend then Project Co must issue a report to the Board ten (10) Business Days before the relevant meeting of the Little France Campus Working Group setting out any significant health and safety and/or risk management issues within the Site and/or Facilities since the previous meeting, together with the safety programme referred to in Clause 8A.4.

Procedures and practices

8A.7 Subject to the provisions of this Agreement, the Little France Campus Working Parties may adopt such procedures and practices for the conduct of the activities of the Little France Campus Working Group as they consider appropriate from time to time and:

8A.7.1 may invite to any meeting of the Little France Campus Working Group such other persons as the Little France Campus Working Group Parties may agree; and

8A.7.2 receive and review a report from any person agreed by its members.

8A.8 The Little France Campus Working Group shall meet at least once each month (unless otherwise agreed by its members) and from time to time as necessary.

8A.9 Any Little France Campus Working Group Party may convene a meeting of the Little France Campus Working Group at any time.

8A.10 Meetings of the Little France Campus Working Group shall be convened on not less than seven (7) Business Days notice (identifying the agenda items to be discussed at the meeting) provided that in emergencies a meeting may be called at any time on such notice as may be reasonable in the circumstances.

8A.11 Where the Little France Campus Working Group decides it is appropriate, meetings may also be held by telephone or another form of telecommunication, by which each participant can hear and speak to all other participants at the same

time.

8A.12 Minutes of all recommendations (including those made by telephone or other form of telecommunication) and meetings of the Little France Campus Working Group shall be kept by the Board and copies circulated promptly to the Little France Campus Working Group Parties, normally within five (5) Business Days of the making of the recommendation or the holding of the meeting. A full set of minutes shall be open to inspection by either party at any time, upon request.

PART 2: LAND ISSUES

9. NATURE OF LAND INTERESTS

Access During Construction

9.1 From the Commencement Date until the Actual Completion Date or (if earlier) the Termination Date, the Board shall grant to Project Co and Project Co Parties, or procure that Project Co and the Project Co Parties are granted the Ancillary Rights set out in paragraphs 1 to 9 of Section 3 *(Ancillary Rights)* of Schedule Part 5 (*Land Matters*), in each case subject only to the Reserved Rights, the Title Conditions and the Board's rights under this Agreement and solely for the purposes of implementing the Works and carrying out Project Co's Pre-Completion Commissioning.

Access Following Construction

9.2 After the occurrence of the Actual Completion Date the Board shall grant to Project Co and Project Co Parties, or procure that Project Co and Project Co Parties are granted, access to the Facilities in terms of paragraph 10 of Section 3 *(Ancillary Rights)* of Schedule Part 5 (*Land Matters*) subject only to the Reserved Rights, the Title Conditions and the provisions of this Agreement and solely for the purposes of:

9.2.1 carrying out the Project Operations (other than those Project Operations for which Project Co is granted rights pursuant to Clause 9.1 (*Access During Construction*));

9.2.2 remedying Defects and carrying out Snagging Matters; and

9.2.3 exercising the Ancillary Rights set out in paragraph 10 of Section 3 *(Ancillary Rights)* of Schedule Part 5 (*Land Matters*).

Such rights shall terminate on the Expiry Date or (if earlier) the Termination Date.

Extent of Rights

9.3 The rights referred to at Clauses 9.1 (*Access During Construction*) and 9.2 (*Access Following Construction*) shall not operate or be deemed to operate as a

lease of the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site or any part of the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site and Project Co shall not have or be entitled to exclusive possession (save to the extent expressly included within the Ancillary Rights) or any estate, right, title or interest in and to the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site except as provided herein and shall occupy the Site as a licensee only

9.4 The rights referred to at Clause 9.1 (*Access During Construction*) and 9.2 (*Access Following Construction*) are personal to Project Co and the Project Co Parties.

9.5 Project Co shall procure that:

9.5.1 all Project Operations carried out at the Site or Off-Site: by or on behalf of Project Co (whether before, during or after the completion of the Works) shall be carried out in a manner which does not breach any of the Title Conditions and/or the Reserved Rights; and

9.5.2 there shall be no action, or omission to act by Project Co or a Project Co Party, which shall give rise to a right for any person to obtain title to the Site and/or Off-Site or any part of it.

9.6 Notwithstanding the terms of Clauses 9.1 and 9.2 or any other rights granted under this Agreement, the Board shall (if it is the heritable proprietor of the Site or Off-Site), or (if it is not the heritable proprietor of the Site or Off-Site) shall procure that the heritable proprietor of the Site and/or Off-Site shall, enter into such wayleaves, deeds of servitude or other similar agreements with any third party that Project Co or any Project Co Party may require to be granted in favour of or by any third party, in order to exercise its rights or perform its obligations under this Agreement. The Board shall enter into (or, where appropriate, shall procure that the heritable proprietor of the Site and/or Off-Site shall enter into) any such wayleave, deed of servitude or other similar agreement, as soon as reasonably practicable after Project Co has provided to the Board all relevant information in connection therewith provided always that Project Co has obtained at its own cost the prior agreement of the third party in terms acceptable to the Board (acting reasonably). Project Co shall reimburse the Board for all costs and expenses reasonably and properly incurred by the Board (and/or the heritable proprietor of the Site and/or Off-Site) in connection with entering into such wayleaves, deeds of servitude or other similar agreements at the request of Project Co.

10. THE SITE AND OFF-SITE

10.1 The condition of the Site and Off-Site shall be the sole responsibility of Project Co. Accordingly (without prejudice to any other obligation of Project Co under this Agreement), Project Co shall be deemed to have:

10.1.1 carried out a Ground Physical and Geophysical Investigation and to have inspected and examined the Site and Off-Site and its surroundings and (where applicable) any existing structures or works on, over or under the Site and Off-Site;

10.1.2 satisfied itself as to the nature of (1) the Site Conditions and Off-Site Conditions, the ground and the subsoil, the form and nature of the Site and Off-Site, the load bearing and other relevant properties of the Site and Off-Site, the risk of injury or damage to property affecting the Site and Off-Site, the nature of the materials (whether natural or otherwise) to be excavated and the nature of the design, work and materials in each case, necessary for the execution of the Works;

10.1.3 satisfied itself as to the extent and adequacy of the Site and Off-Site and of the rights of access to and from and through the Site and Off-Site granted hereunder and any accommodation it may require for the purposes of fulfilling its obligations under this Agreement (such as additional land or buildings outside the Site) without prejudice to Project Co's rights under this Agreement in respect of a breach by the Board of its obligations under Clause 9.1 and/or Clause 9.2;

10.1.4 satisfied itself as to the precautions, times and methods of working necessary to prevent any nuisance or interference, whether public or private, being caused to any third parties including without limitation Consort, Consort Parties, users of the Bioquarter Site, the University and any University Parties; and

10.1.5 satisfied itself as to the conditions, burdens, restrictions and reservations set out in the Title Conditions and the Reserved Rights.

10.2 To avoid doubt, Project Co accepts full responsibility for all matters referred to in Clause 10.1 and Project Co shall:

10.2.1 not be entitled to make any claim against the Board of any nature whatsoever save, if applicable, as expressly provided in Clause 29 (*Delay Events*), on any grounds including (without limitation) the fact that incorrect or insufficient information on any matter relating to the Site and Off-Site was given to it by any person, whether or not the Board or an Board Party; and

10.2.2 be responsible for, and hold the Board harmless from, (1) cleaning up and/or otherwise dealing with any Contamination at the Site and Off-Site and (2) that it shall at all times comply with its obligations under this Agreement including (without limitation) complying with, at its own cost, any applicable Laws and any Consents, orders, notices or directions of any regulatory body (whether made against the Board or Project Co).

11. CONSENTS & PLANNING APPROVAL

11.1 Project Co shall be responsible for:

11.1.1 obtaining all Consents which may be required for the performance of the Project Operations; and

11.1.2 implementing each Consent within the period of its validity in accordance with its terms.

11.2 In the event that:

11.2.1 a Consent that has been granted is subsequently amended, repealed, revoked or otherwise ceases to be in full force and effect in accordance with its terms as a consequence of any action by a Relevant Board;

11.2.2 affected persons are entitled to claim compensation for the adverse effects of such action under a statutory scheme of compensation; and

11.2.3 Project Co is not entitled in its own name to claim under that scheme but the Board is so entitled

the Board must use all reasonable endeavours, at the request and at the cost of Project Co, to claim or to include within its claim such sums as Project Co acting reasonably requests and shall pay to Project Co the part of any compensation that it receives under that scheme that relates to the sums claimed at the request of Project Co.

PART 3: DESIGN AND CONSTRUCTION

12. THE DESIGN CONSTRUCTION AND COMMISSIONING PROCESS

Overall Responsibility

12.1 Project Co shall carry out the Works:

12.1.1 so as to procure satisfaction of the Board's Construction Requirements;

12.1.2 in accordance with Project Co's Proposals; and

12.1.3 in accordance with the terms of this Agreement.

12.2 To avoid doubt, the obligations in Clauses 12.1.1, 12.1.2 and 12.1.3 are independent obligations. In particular:

12.2.1 the fact that Project Co has complied with Project Co's Proposals shall not be a defence to an allegation that Project Co has not satisfied the Board's Construction Requirements; and

12.2.2 the fact that Project Co has satisfied the Board's Construction Requirements shall not be a defence to an allegation that Project Co has failed to comply with Project Co's Proposals.

Design responsibility

12.3 Project Co warrants that it has used, and will continue to use, the degree of skill and care in the design of the Facilities and the Retained Estate Handback Infrastructure that would reasonably be expected of a competent professional designer experienced in carrying out design activities of a similar nature, scope and complexity to those comprised in the Works.

Corporate Identity and Signage

12.4 The parties acknowledge that the Board may, from time to time during the Construction Phase, be required to procure the erection of hoarding, site boards, plaques and/or other signage in connection with the Project. Accordingly:

12.4.1 where requested by the Board (acting reasonably), Project Co shall procure the erection and maintenance of such hoarding, site boards, plaques and/or other signage as the Board may require; and

12.4.2 the size, design, information disclosed, position and materials used in connection with such hoarding, site boards, plaques or other signage shall be approved by the Board, such approval not to be unreasonably withheld; and

12.4.3 for the purposes of this Clause 12.4 *(Corporate Identity and Signage)*, the Board shall be deemed to be acting reasonably where any proposals made by it and/or any approvals exercised by it conform with any relevant guidance issued to NHS Boards by the Scottish Government Health Directorate (or any successor Directorate) in relation to such matters whether by Executive Letter or otherwise.

Board design approval

12.5 The Board confirms that, as at the date of this Agreement, it has reviewed such of Project Co's Proposals as have been initialled by the Board and that, subject to any qualifications and/or comments notified by the Board to Project Co in writing and set out in Section 9 (*Board's Comments on Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) such proposals satisfy the Board's requirements in respect of Operational Functionality, so far as can reasonably be determined given the level of detail of Design Data which has been disclosed to the Board.

12.6 Project Co shall develop and finalise the design and specification of the Works and the Board shall review the Reviewable Design Data in accordance with Schedule Part 8 (*Review Procedure*) and the provisions of this Clause 12.6:

12.6.1 Project Co shall submit the Reviewable Design Data and the design of any Changes developed in accordance with the procedure set out in Schedule Part 16 (*Change Protocol*) to the Board's Representative for review under Schedule Part 8(*Review Procedure*). Project Co shall not commence or permit the commencement of construction of the part or parts of the Facilities and/or Retained Estate Handback Infrastructure to which such Reviewable Design Data relates until it has submitted the appropriate Reviewable Design Data and either it is confirmed by the Board's Representative that Project Co is entitled to proceed with construction in accordance with paragraph 3.3 of Schedule Part 8 (*Review Procedure*) or Project Co is:

(a) disputing the status of such Reviewable Design Data pursuant to paragraph 1.3.1 or paragraph 4.3 of Schedule Part 8 (*Review Procedure*); and

(b) proceeding at risk pursuant to paragraph 1.3.2 of Schedule Part 8 *(Review Procedure).*

12.6.2 with effect from the date at which any item of Reviewable Design Data is or becomes an Approved RDD Item in accordance with Schedule Part 8 (*Review Procedure*), such Approved RDD Item shall for the purposes of this Agreement be deemed to have satisfied the requirements of the Board in the manner and to the extent set out in,

Table Ain Appendix 1 of Schedule Part 8 (*Review Procedure*);

12.6.3 Project Co shall allow the Board's Representative, at any time, a reasonable opportunity to view any items of Design Data, which shall be made available to the Board's Representative as soon as practicable following receipt of any written request from the Board's Representative; and

12.6.4 Project Co shall procure that the Contractor establishes and maintains a computerised design database which Project Co and the Board's Representative may access remotely by computer to view drawings comprised within the Design Data (including Reviewable Design Data) and electronically store and/or print copies of such Design Data. In the event of the Board's Representative being unable to access such design database, Project Co shall procure that it is made available for inspection by the Board's Representative, or any other person authorised by the Board's Representative.

Rectification of Project Co's Proposals

12.7 Without prejudice to Clause 12.1, if it should be found that Project Co's Proposals do not fulfil the Board's Construction Requirements, Project Co shall at its own expense, and in accordance with Clause 12.8 below, amend Project Co's Proposals and rectify the Works or any part affected. Such amendment and rectification shall have the effect that:

12.7.1 Project Co's Proposals shall satisfy the Board's Construction Requirements; and

12.7.2 following the amendment or rectification, the structural, mechanical and electrical performance of the Facilities and/or Retained Estate Handback Infrastructure will be of an equivalent standard of performance to that set out in Project Co's Proposals prior to their amendment or rectification (for the purpose of this comparison disregarding the fault which required the amendment or rectification to be made).

12.8 Where Clause 12.7 applies, Project Co shall submit its proposal for amending Project Co's Proposals and rectifying the Works (or any part affected) to the Board's Representative for review under Schedule Part 8 (*Review Procedure*) and shall not amend Project Co's Proposals or commence or allow the commencement of the rectification of the Works (or any part affected) until it is permitted to proceed in accordance with Schedule Part 8 (*Review Procedure*).

13. RIGHT OF ACCESS OF BOARD'S REPRESENTATIVE

Access to the Site and Off-Site

13.1 Without prejudice to Clause 9 *(Nature of Land Interests),* Appendix A of the

Board's Construction Requirements and/or the Interface Proposals, Project Co shall procure that:

13.1.1 subject to complying with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure, the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time, the Board's Representative and any other parties authorised by the Board's Representative to accompany the Board's Representative shall have unrestricted access at all reasonable times during normal working hours to:

(a) view the Works at the Site and Off-Site on reasonable prior notice appropriate to the circumstances, provided that the notice procedures in this Clause 13.1.1(a) shall not apply to the right of access for the Board's Representative and his staff and visitors to the office and other facilities provided at the Site and Off-Site for his use; and

(b) subject to obtaining the consent of the relevant manufacturer or supplier (which Project Co agrees to use all reasonable endeavours to obtain), visit any site or workshop where materials, plant or equipment are being manufactured, prepared or stored for use in the Works for the purposes of general inspection and of attending any test or investigation being carried out in respect of the Works;

13.1.2 the Board's Representative shall have such rights of access to the Site and/or Off-Site in an emergency as he (acting reasonably) considers suitable in the circumstances; and

13.1.3 monthly progress meetings and site meetings are held and that the Board's Representative shall have the right to attend such monthly progress meetings and site meetings and to attend such other meetings as the Board's Representative may reasonably request.

Increased monitoring

13.2 If, following any viewing, visit or inspection made pursuant to Clause 13.1.1, it is discovered that there are defects in the Works or that Project Co has failed to comply with the Board's Construction Requirements or Project Co's Proposals, the Board's Representative may (without prejudice to any other right or remedy available to the Board) by notice to Project Co increase the level of monitoring of Project Co until such time as Project Co shall have demonstrated to the satisfaction of the Board that it is capable of performing and will perform all its obligations to the Board under this Agreement. Project Co shall compensate the Board for any reasonable additional costs incurred as a result of such increased monitoring.

Right to Open Up

13.3 Subject to Clause 13.4, the Board's Representative shall have the right at any time prior to the Actual Completion Date to request Project Co to open up and inspect any part or parts of the Works where the Board's Representative reasonably believes that such part or parts of the Works is or are defective and Project Co shall comply with such request.

13.4 Prior to exercising his right pursuant to Clause 13.3 above, the Board's Representative shall notify Project Co of his intention to exercise such right, setting out detailed reasons.

13.5 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the inspection shows that the relevant part or parts of the Works are not defective then Clause 29.3.4 shall apply.

13.6 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the inspection shows that the relevant part or parts of the Works is or are defective, Project Co shall rectify and make good such Defect(s) and any consequence of such rectification and/or making good Defect(s) shall be carried out by Project Co at no cost to the Board and Project Co shall not be entitled to any extension of time in relation to such rectification and making good of the Works.

13.7 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the Board's Representative is of the opinion that the inspection shows that the relevant part or parts of the Works is or are defective and Project Co does not agree with such opinion, the matter shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

13.8 Without prejudice to the rights of the Board's Representative pursuant to this Clause 13 (*Right of Access of Board's Representative*) the parties acknowledge that the exercise of such rights shall not in any way affect the obligations of Project Co under this Agreement save as expressly set out in this Clause 13 (*Right of Access of Board's Representative*).

Safety during Construction

13.9 The provisions of Section 2 (*Safety During Construction*) of Schedule Part 6 (*Construction Matters*) shall apply to matters of safety.

13A BOARD'S RIGHT TO STOP PROJECT OPERATIONS DURING THE PROJECT TERM

13A.1 The Board's Representative shall have the right at any time during the Project Term to instruct Project Co to stop the Project Operations (or any part or parts thereof) and to allow him to inspect the Project Operations (or any part or parts thereof) if:

13A.1.1 the Board's Representative reasonably believes that Project Co is failing to carry out the Project Operations in accordance with:

(a) Appendix A *(Interface with Campus Site and/or Campus Facilities)* of the Board's Construction Requirements and/or the Interface Proposals; and/or

(b) any provision of this Agreement and such breach gives rise to an immediate and serious threat to the health and safety of any user of the Facilities and/or the Retained Estate during the Construction Phase; and/or

(c) paragraphs 4.4(b), 4.4(e), 4.5.1A, 4.5.12, 6.1.1, 6.1.2 and/or 7.5(j) of Sub-section C of the Board's Construction Requirements[1],

with any such breach hereinafter being referred to as a "**Stop Incident**"; or

13A.1.2 the Board's Representative reasonably believes that the carrying out of the Project Operations has or is likely to have a potentially adverse impact upon the Clinical Services at the Facilities and/or the clinical services at the RIE Facilities; or

13A.1.3 there is an occurrence of a Major Incident during the Construction Phase.

13A.2 In the event that Project Co receives an instruction from the Board's Representative to stop the Project Operations pursuant to Clause 13A.1 above, then Project Co shall immediately stop the Project Operations (or relevant part or parts thereof) until such time as it receives an instruction from the Board's representative pursuant to Clause 13A.6 below to re-start the Project Operations (or relevant part or parts thereof).

13A.3 If following the exercise by the Board's Representative of his right to stop the Project Operations pursuant to:

13A.3.1 Clause 13A.1.1, it is agreed or determined under the Dispute Resolution Procedure that no Stop Incident has occurred, then Clause 29.3.9 *(Delay Events)* shall apply;

13A.3.2 Clause 13A.1.2, then Clause 29.3.10 *(Delay Events)* shall apply;

13A.3.3 Clause 13A.1.3, then Clause 29.3.11 *(Delay Events)* shall apply.

[1] Essentially covering noise dust pollution and mud on roads etc and also the existing sewer and possible gas pipe that may continue to run under the Site.

13A.4 If following the exercise by the Board's Representative of his rights pursuant to Clause 13A.1.1, the inspection shows that one or more Stop Incident(s) have occurred, Project Co shall rectify and make good such Stop Incident(s) and any consequence of such rectification and/or making good such Stop Incident(s) shall be carried out by Project Co at no cost to the Board and Project Co shall not be entitled to any extension of time in relation to such rectification and making good of such Stop Incident(s).

13A.5 If following the exercise by the Board's Representative of his right pursuant to Clause 13A.1.1 the Board's Representative is of the opinion that the inspection shows that one or more Stop Incident(s) have occurred and Project Co does not agree with such opinion, the matter shall be determined in accordance with Schedule Part 20 *(Dispute Resolution Procedure).*

13A.6 Without prejudice to Clause 13A.7, following the exercise of the Board's Representative of his rights pursuant to Clause 13A.1, the Board's Representative shall have the right to instruct Project Co to re-start the Project Operations.

13A.7 Without prejudice to the rights of the Board's Representative pursuant to this Clause 13A *(Board's right to stop Project Operations during the Project Term)* the parties acknowledge that the exercise of such rights shall not in any way affect the obligations of Project Co under this Agreement save as expressly set out in this Clause 13A *(Board's right to stop Project Operations during the Project Term).*

14. PROGRAMME AND DATES FOR COMPLETION

Dates for Completion

14.1 Project Co shall complete the Works by the Completion Date. Without prejudice to Clause 40 (*Project Co Event of Default*), 42(*Board Voluntary Termination*), 46(*Compensation on Termination*) and 47 (*Consequences of Termination*) the Board shall not be entitled to claim liquidated or general damages in respect of any delay which elapses between the Completion Date and the Actual Completion Date.

The Programme

14.2 Any Programme submitted in accordance with the provisions set out below shall be prepared in accordance with Good Industry Practice and shall be in sufficient detail so as to enable the Board's Representative to monitor the progress including all commissioning activities and likely future progress of the Works.

14.3 The initial Programme is set out at Schedule Part 7 (*The Programme*). Any change to the Programme shall only be made in accordance with this Clause 14 (*Programme and Dates for Completion*) and Schedule Part 8 (*Review Procedure*). Project Co shall promptly submit to the Board's Representative a copy of any version of the Programme varied in accordance with this Clause 14 (*Programme and dates for Completion*) and Schedule Part 8 (*Review Procedure*).

14.4 If it appears to the Board's Representative at any time that the actual progress of the Works has significantly fallen behind the Programme, then the Board's Representative shall be entitled to require Project Co to submit to the Board's Representative a report identifying the reasons for the delay and, unless the event causing the delay is still subsisting and it is not possible to predict with any certainty when the delay might come to an end, require Project Co (at the Board's option):

14.4.1 to produce and submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a revised Programme showing the manner and the periods in which the Works will be carried out to ensure completion; and/or

14.4.2 to produce and submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a revised Programme showing the steps which are to be taken to eliminate or reduce the delay.

Early completion

14.5 Notwithstanding that the Works may have been completed in accordance with this Agreement, the Actual Completion Date may only occur on a date on or after the Completion Date unless the Board, in its absolute discretion, agrees otherwise in writing.

14.6 Not Used.

15. INDEPENDENT TESTER

Appointment

15.1 The parties have on or prior to the date of this Agreement, in compliance with all Law relating to procurement which is applicable to either party, appointed a suitably qualified and experienced consultant to act as the Independent Tester for the purposes of this Agreement upon the terms of the Independent Tester Contract.

Changes to terms of appointment

15.2 Neither the Board nor Project Co shall without the other's prior written approval (not to be unreasonably withheld or delayed):

15.2.1 terminate, repudiate or discharge the Independent Tester Contract or treat the same as having been terminated, repudiated or otherwise discharged;

15.2.2 waive, settle, compromise or otherwise prejudice any rights or claims which the other may from time to time have against the Independent

Tester; or

15.2.3 vary the terms of the Independent Tester Contract or the service performed or to be performed by the Independent Tester.

15.3 The parties shall comply with and fulfil their respective duties and obligations arising under or in connection with the Independent Tester Contract.

Co-operation

15.4 The parties agree to co-operate with each other generally in relation to all matters within the scope of or in connection with the Independent Tester Contract. All instructions and representations issued or made by either of the parties to the Independent Tester shall be simultaneously copied to the other and both parties shall be entitled to attend all inspections undertaken by or meetings involving the Independent Tester.

Replacement

15.5 If the Independent Tester's appointment is terminated otherwise than for full performance, the parties shall liaise and co-operate with each other in order to appoint, in accordance with this Clause 15.5, a replacement consultant to act as the Independent Tester as soon as reasonably practicable. The identity of any such replacement shall be as agreed by the parties and the terms of his appointment shall, unless otherwise agreed, be as set out in the Independent Tester Contract.

15.6 If the parties fail to agree the identity and/or terms of a replacement Independent Tester in accordance with Clause 15.5 within ten (10) Business Days of the original Independent Tester's appointment being terminated then such disagreement shall be referred for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

16. EQUIPMENT

Project Co shall comply with the provisions of Schedule Part 11 (*Equipment*) in respect of Equipment.

17. PRE-COMPLETION COMMISSIONING AND COMPLETION

17.1 Not less than six (6) months before the Completion Date, the Board shall provide Project Co with a draft of the Final Commissioning Programme as jointly developed by the Board and Project Co in accordance with the provisions of Clause 17.2 and 17.3. Project Co shall provide the Board with comments on the draft Final Commissioning Programme submitted to it within fifteen (15) Business Days. The parties shall, within fifteen (15) Business Days of receipt by the Board of Project Co's comments agree the terms of the Final Commissioning Programme provided that the Board may by prior notice to Project Co change the scope and time of the Board's Commissioning and reimburse Project Co its reasonable costs

incurred as a result of such change in scope or time. If the parties are unable to agree the Final Commissioning Programme or the change in scope or time of the Board's Commissioning by three (3) months, the matter shall be referred for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

17.2 The Final Commissioning Programme shall be in accordance with the Outline Commissioning Programme and shall impose no greater or more onerous obligations on the Board than those set out in the Outline Commissioning Programme (unless otherwise agreed by the Board in its absolute discretion). The Final Commissioning Programme shall then replace the Outline Commissioning Programme.

17.3 The Final Commissioning Programme shall describe the steps necessary, the party responsible for taking each of such steps and the timing and sequence of each of such steps to ensure:

17.3.1 that Project Co's Pre-Completion Commissioning and the Board's Commissioning will not delay the Actual Completion Date from occurring by the Completion Date; and

17.3.2 that Project Co's Post Completion Commissioning and the Board's Post Completion Commissioning are completed by the Commissioning End Date.

17.4 The parties shall procure that the steps that they are responsible for carrying out and completing pursuant to the Final Commissioning Programme include, [in the case of Project Co's activities, the activities described at paragraph [ ] of the Board's Construction Requirements].

17.5 Project Co shall notify the Independent Tester and the Board's Representative of the date when Project Co (acting reasonably) considers that the Works will be complete in accordance with the Board's Construction Requirements, the Completion Criteria and this Agreement not less than three (3) months prior to such anticipated completion. Such notification shall trigger the activities of the Independent Tester under this Clause.

17.6 The parties each undertake to co-operate with the Independent Tester to ensure that the Independent Tester is familiar with all necessary aspects of the Project for the purposes of its role as described in this Clause.

Commissioning prior to Completion Date

17.7 Project Co shall:

17.7.1 undertake Project Co's Pre-Completion Commissioning in accordance with the Final Commissioning Programme; and

17.7.2 permit the Board to undertake the Board's Commissioning including permitting specialist contractors engaged by the Board to deliver and install equipment on such dates as agreed between the Board and Project Co, in accordance with the Final Commissioning Programme

and the Board shall undertake the Board's Commissioning in accordance with the Final Commissioning Programme and so as not to cause material damage to the Works.

17.8 Project Co shall give written notice to the Independent Tester and the Board of the commencement of Project Co's Pre-Completion Commissioning and shall ensure that the Independent Tester and the Board's Representative are invited to witness all of, and are provided with all information they may reasonably require in relation to, Project Co's Pre-Completion Commissioning] and that the Independent Tester is invited to comment on Project Co's Pre-Completion Commissioning.

17.9 Project Co shall (or shall procure that the Contractor shall), give the Board access to the Facilities and the Retained Estate Handback Infrastructure at such times as may be set out in the Final Commissioning Programme to enable the Board to undertake the Board's Commissioning in accordance with the Final Commissioning Programme for the period prior to completion. When exercising such rights the Board shall comply with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure , the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time.

Pre-Completion inspection

17.10 Without prejudice to the notice periods in respect of the Works which are set out in Appendix A of the Board's Constructions Requirements in respect of which notice of completion is to be given by Project Co, Project Co shall in addition give the Independent Tester and the Board's Representative not less than twenty (20) Business Days notice and not more than thirty (30) Business Days notice of the date upon which Project Co considers that the Works will be complete and the tests on completion required to be performed in accordance with the Final Commissioning Programme will be carried out. Following receipt of the notice specified in this Clause 17.10 (*Pre-Completion Inspection*) the Board's Representative and the Independent Tester shall be entitled to inspect the Works on the date or dates reasonably specified by Project Co in accordance with this Clause 17.10 (*Pre-Completion Inspection*), and to attend any of the tests on completion. Project Co shall, if so requested, accompany the Board's Representative and the Independent Tester on any such inspection.

Pre-Completion matters

17.11 The parties shall procure that the Independent Tester, within five (5) Business Days of any inspection made pursuant to Clause 17.10 (*Pre-Completion Inspection*), notifies Project Co and the Board of any outstanding matters (including, without limitation, the repetition of any of the tests on completion which are required to be carried out and passed in accordance with the Final Commissioning Programme) which are required to be attended to before the

Works can be considered to be complete in accordance with the Board's Construction Requirements, Project Co's Proposals and the Completion Criteria. Project Co shall attend to such matters and shall, if necessary, give the Independent Tester further notices in accordance with Clause 17.10 (*Pre-Completion Inspection*) (but dealing only with matters raised in the notification under this Clause 17.11 (*Pre-Completion Matters*)) so that the procedures in Clause 17.10 (*Pre-Completion Inspection*) and this Clause 17.11 (*Pre-Completion Matters*) are repeated as often as may be necessary to ensure that all outstanding matters in relation to the Works are attended to.

Completion Certificate

17.12 Pursuant to the terms of the Independent Tester Contract, the parties shall procure that the Independent Tester, when he is satisfied that the Facilities and the Retained Estate Handback Infrastructure are complete in accordance with the Completion Criteria, issues a Certificate of Practical Completion to that effect to the Board and to Project Co.

17.13 Without prejudice to Clauses 17.14 and 17.17, the issue of the Certificate of Practical Completion shall, in the absence of manifest error, bad faith or fraud, be conclusive evidence (but only for the purpose of ascertaining the Payment Commencement Date), that the Facilities and the Retained Estate Handback Infrastructure were complete in accordance with the Completion Criteria on the date stated in the Certificate of Practical Completion.

17.14 The Independent Tester shall issue the Certificate of Practical Completion notwithstanding that there are Snagging Matters. Where there are Snagging Matters, the parties shall procure that the Independent Tester shall, within [ten (10)] Business Days of the date of issue of the Certificate of Practical Completion, issue a Snagging Notice which shall specify the Snagging Matters and an estimate of the cost of rectifying such Snagging Matters.

17.15 Following the issue of a Snagging Notice, Project Co shall, in consultation with the Board's Representative and in such manner as to cause as little disruption as reasonably practicable to the Board's Post Completion Commissioning and the Board's use of the Facilities and the Retained Estate Handback Infrastructure and the Retained Estate, rectify all Snagging Matters within ten (10) Business Days of the issue of the Snagging Notice.

17.16 If, within ten (10) Business Days of the issue of the Snagging Notice, Project Co has failed to rectify the Snagging Matters specified in the Snagging Notice the Board may by itself (or engage others to) carry out the works necessary to rectify the Snagging Matters, at the risk and cost of Project Co.

17.17 The issue of the Certificate of Practical Completion shall in no way affect the obligations of Project Co under this Agreement including in respect of any Defects.

As-built specification

17.18 Within ten (10) Business Days, after the issue of the Certificate of Practical

Completion, Project Co shall provide to the Board three (3) hard copies and one (1) electronic copy of the as-built building specification, together with all drawings relating to the Works.

18. POST COMPLETION COMMISSIONING

Commissioning

18.1 Project Co and the Board shall respectively undertake and complete Project Co's Post-Completion Commissioning and the Board's Post Completion Commissioning, in accordance with the Final Commissioning Programme. Both parties shall, at all times, and in particular in the period between the Actual Completion Date and the Actual Commissioning End Date, use reasonable endeavours to assist the other party to ensure compliance with the Final Commissioning Programme.

Information

18.2 Project Co shall ensure that the Board's Representative is provided with all the information he may reasonably require in relation to Project Co's Post-Completion Commissioning and the Board shall ensure that Project Co is provided with all information Project Co may reasonably require in relation to the Board's Post Completion Commissioning.

18.3 If the Board's Representative, acting reasonably, makes any comment in relation to the carrying out of Project Co's Post-Completion Commissioning, such comments shall be taken into account by Project Co and if Project Co, acting reasonably, makes any comment in relation to the carrying out of the Board's Post Completion Commissioning, such comment shall be taken into account by the Board.

18.4 On the completion of Project Co’s Post-Completion Commissioning and the Board’s Post Completion Commissioning the Independent Tester shall issue the Commissioning Completion Certificate.

Operational Manuals

18.5 Project Co shall make available on the Site to the Board's Representative:

18.5.1 at least twenty four (24) weeks prior to the anticipated Actual Completion Date, one (1) electronic copy and three (3) hard copies of a draft operation and maintenance manual in sufficient detail to allow the Board to plan for the safe and efficient operation of the Facilities and the Retained Estate Handback Infrastructure;

18.5.2 on or before the Actual Completion Date one (1) electronic copy and three (3) hard copies of a final draft operation and maintenance manual in sufficient detail to allow the Board to operate and use the

Facilities and the Retained Estate Handback Infrastructure safely and efficiently;

18.5.3 within ten (10) Business Days following the Actual Completion Date, the principal operation and maintenance manual;

in each case including all manufacturers' instructions relating to Equipment installed by or on behalf of Project Co.

18.6 Project Co shall provide to the Board such information after the Actual Completion Date as relates to any Snagging Matters or rectification of Defect as is reasonably necessary to allow for the updating of any of the items listed in Clause 18.5.

18.7 On termination of this Agreement (howsoever arising) prior to the provision by Project Co in accordance with Clause 18.5 of the items listed therein, Project Co shall within ten (10) Business Days of such termination provide in triplicate hard copies and a single electronic copy of any operating and maintenance manual not yet provided (completed as appropriate to the date of termination) to the Board.

19. FOSSILS AND ANTIQUITIES

Property

19.1 As between the parties, all fossils, antiquities, and other objects having artistic, historic or monetary value and human remains which may be found on or at the Site and Off-Site are or shall become, upon discovery, the absolute property of the Board.

Discovery

19.2 Upon the discovery of any such item during the course of the Works, Project Co shall:

19.2.1 immediately notify the Board's Representative of such discovery;

19.2.2 take all steps not to disturb the object and, if necessary, cease any Works in so far as the carrying out of such Works would endanger the object or prevent or impede its excavation; and

19.2.3 take all necessary steps to preserve the object in the same position and condition in which it was found.

Action

19.3 The Board shall procure that the Board's Representative promptly, and in any

event within ten (10) Business Days of receipt of notice pursuant to Clause 19.2.1, issues an instruction to Project Co specifying what action the Board's Representative requires Project Co to take in relation to such discovery.

19.4 Project Co shall promptly and diligently comply with any instruction issued by the Board's Representative referred to in Clause 19.3 above (except and to the extent that such instruction constitutes an Board Change pursuant to Clause 19.6 below in which case the provisions of Schedule Part 16 (*Change Protocol*) shall apply), at its own cost.

19.5 If directed by the Board's Representative, Project Co shall allow representatives of the Board to enter the Site and Off-Site for the purposes of removal or disposal of such discovery provided that such entry shall be subject to the Board complying with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure, the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time.

19.6 If, in relation to such discovery, the Board requires Project Co to carry out works (being any work of alteration, addition, demolition or extension or variation in the Works) which are not works which would be necessary for the purpose of compliance with Law or any Consents, it must issue an Board Change Notice in accordance with the provisions of Schedule Part 16 (*Change Protocol*).

PART 4: QUALITY ASSURANCE

20. QUALITY ASSURANCE

Quality Plans and Systems

20.1 Project Co shall procure that all aspects of the Project Operations are the subject of quality management systems in accordance with the provisions of this Clause 20 (*Quality Assurance*).

20.2 The quality management systems referred to in Clause 20.1 above shall be reflected in appropriate quality plans, the standard of which shall be consistent with BS EN ISO 9001 or 9002 (as the case may be) or any equivalent standard which is generally recognised as having replaced them (or either of them).

20.3 Without limitation to the generality of Clause20.2, there shall be:

20.3.1 a Design Quality Plan;

20.3.2 a Construction Quality Plan; and

20.3.3 a Services Quality Plan for each Service,

provided that the Design Quality Plan and the Construction Quality Plan may be incorporated into one document.

20.4 Project Co shall procure that the Project Operations are carried out in compliance with the Quality Plans. All Quality Plans shall be submitted to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) and Project Co shall not be entitled to implement or procure the implementation of any Quality Plan unless Project Co is entitled to proceed with such implementation pursuant to Schedule Part 8 (*Review Procedure*).

20.5 Project Co shall implement the quality management systems referred to in Clause 20.1 and shall procure that:

20.5.1 the Contractor implements the Design Quality Plan;

20.5.2 the Contractor implements the Construction Quality Plan;

20.5.3 each Service Provider implements the relevant Services Quality Plan for each Service being provided by that Service Provider.

20.6 Where any aspect of the Project Operations is performed by more than one contractor or subcontractor, then the provisions of this Clause 20 (*Quality Assurance*) (in so far as relevant or appropriate to the activities to be performed by such contractor or subcontractor) shall apply in respect of each of such contractors or subcontractors, and references in this Clause 20 (*Quality Assurance*) to the "**Contractor**" or the "**Service Provider**" shall be construed accordingly. To avoid doubt, this Clause shall not be construed as requiring subcontractors of the Contractor or the Service Provider to have their own quality plans but only to comply with the Design Quality Plan and the Construction Quality Plan or the relevant aspects of the Services Quality Plan (as the case may be).

20.7 Project Co shall from time to time submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) any changes to any of the Quality Plans required for such Quality Plan to continue to comply with the requirements set out in Clause 20.2. The Board's Representative may raise comments on any such proposed change only on the grounds set out in paragraph 3 of Schedule Part 8 (*Review Procedure*).

20.8 If there is no objection under Schedule Part 8 (*Review Procedure*) to a change to any Quality Plan proposed pursuant to Clause 20.7, the Quality Plan shall be amended to incorporate such change.

Quality Manuals and Procedures

20.9 If any Quality Plan refers to, relies on or incorporates any quality manual or procedure, then such quality manual or procedure or the relevant parts of it shall be submitted to the Board's Representative at the time that the relevant Quality Plan or part of (or change to) a Quality Plan is submitted in accordance with Schedule Part 8 (*Review Procedure*), and the contents of such quality manual or procedure shall be taken into account in the consideration of the relevant Quality Plan or part of (or change to) a Quality Plan in accordance with Schedule Part 8 (*Review Procedure*).

Quality Management

20.10 Project Co shall maintain a quality management system which shall:

20.10.1 ensure the effective operation of the quality systems described in this Clause 20 (*Quality Assurance*);

20.10.2 cause an audit of the quality systems at regular intervals and the findings of such audit will be reported to the Board's Representative;

20.10.3 require review of all quality systems at intervals agreed with the Board's Representative to ensure their continued suitability and effectiveness;

20.10.4 require liaison with the Board's Representative on all matters relating to quality management; and

20.10.5 require production of reports and their delivery to Project Co.

Quality Monitoring

20.11 The Board's Representative may carry out audits of Project Co's quality management system (including all relevant Quality Plans and any quality manuals and procedures) to establish that Project Co is complying with Clauses 20.1 and 20.3. The Board's Representative may carry out such audits at approximate intervals of three (3) months and may carry out other periodic monitoring, spot checks and auditing of Project Co's quality management systems. Project Co shall procure that the Board's Representative shall have an equivalent right in respect of the Contractor's and the Service Providers' quality management systems. Project Co shall co operate, and shall procure that any Sub-Contractor co-operates, with the Board's Representative including providing him with all information and documentation which he reasonably requires in connection with his rights under this Clause.

PART 5: NOT USED

21. NOT USED

PART 6: SERVICES

22. THE SERVICES

General obligations

22.1 Throughout the Operational Term Project Co shall provide (or procure that the Service Providers provide) the Services in accordance with:

22.1.1 the Service Level Specification;

22.1.2 the Method Statements; and

22.1.3 the terms of this Agreement

22.2 To avoid doubt the obligations in Clauses 22.1.1, 22.1.2 and 22.1.3, are independent obligations and:

22.2.1 the fact that Project Co has complied with the Method Statements shall not be a defence to an allegation that Project Co has not satisfied the Service Level Specification; and

22.2.2 the fact that Project Co has complied with the Service Level Specification shall not be a defence to an allegation that Project Co has not satisfied the Method Statements;

provided that where there is any conflict between the Service Level Specification and the Method Statements the Board shall be entitled (in its sole discretion) to decide which shall take precedence and inform Project Co of its decision and Project Co shall, at its own cost, be obliged to implement the Board's decision.

Commencement of Services

22.3 Project Co shall procure that the provision of the Services commences on the Actual Completion Date.

Project Co Services Changes

22.4 Project Co may at any time submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) proposals for amendments to or substitution for the Method Statements or any part of them. If there is no comment on such proposed amendment or substitution (on the grounds set out in paragraph 3 of Schedule Part 8 (*Review Procedure*)), then the Method Statements as so amended or substituted shall be the Method Statements for the purposes of this Agreement, subject to any further amendment or substitution to which there has

been no comment in accordance with Schedule Part 8 (*Review Procedure*).

22.5 To avoid doubt, an amendment to or substitution for the Method Statements proposed pursuant to Clause 22.4 shall not be a Qualifying Change entitling Project Co to any payment (or other compensation) or to any relief from the performance of its obligations under this Agreement.

No disruption

22.6 Project Co shall perform the Services so as to co-ordinate with the Board's operations on the Site, the Retained Site and Off-Site and/or in the Facilities and/or the Retained Estate and shall take all reasonable care to ensure that it does not interfere with the operations of the Board and/or Board Party.

23. MAINTENANCE

Programmed Maintenance Works

23.1 No later than three (3) months prior to the Completion Date Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Programmed Maintenance for the period from the Completion Date to the expiry of that Contract Year.

23.2 Not later than three (3) months prior to the commencement of each subsequent anniversary of the Completion Date Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Programmed Maintenance for the next succeeding Contract Year.

23.3 Each Schedule of Programmed Maintenance shall contain the following information (the "**Programmed Maintenance Information**"):

23.3.1 details of the proposed start and end dates for each period of Programmed Maintenance, the works to be carried out and the proposed hours of work; and

23.3.2 details of any effect of the Programmed Maintenance on the delivery of any of the Services and/or the activities of the Board; and

23.3.3 any other information which is required pursuant to Appendix A of the Board's Construction Requirements and/or of Clause 9 *(Nature of Land Interests).*

23.4 Not later than twenty (20) Business Days prior to the commencement of any quarter (being a three month period commencing on 1 April, 1 July, 1 October or 1 January), Project Co may submit to the Board's Representative for approval in accordance with Schedule Part 8 (*Review Procedure*) a revision to the Schedule of Programmed Maintenance for the Contract Year in which the relevant quarter

falls showing the effect of the proposed changes to the Programmed Maintenance Information. If the Board's Representative does not raise comments on such proposed revision in accordance with Schedule Part 8 (*Review Procedure*), the Schedule of Programmed Maintenance as revised shall become the Schedule of Programmed Maintenance in respect of that quarter.

23.5 Where the Board's Representative raises comments in respect of any Programmed Maintenance periods and/or hours of work shown in a Schedule of Programmed Maintenance in accordance with paragraph 3 of Schedule Part 8 (*Review Procedure*), he shall indicate whether, and if so when, the Programmed Maintenance can be re-scheduled and Project Co shall amend the relevant Schedule of Programmed Maintenance accordingly.

23A LIFECYCLE REPLACEMENT

Lifecycle Replacement

23A.1 No later than two (2) months prior to the Actual Completion Date, Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 *(Review Procedure)* a schedule of Lifecycle Replacement for the Facilities for the Project Term.

23A.2 Not later than two (2) months prior to each subsequent anniversary of the Actual Completion Date, Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 *(Review Procedure)* a Schedule of Lifecycle Replacement for the Facilities for the next succeeding Contract Year.

23A.3 Each Schedule of Lifecycle Replacement shall contain the following information:

23A.3.1 details of all items of Plant and Equipment and any other asset for which Lifecycle Replacement is planned during the Project Term; and

23A.3.2 the Contract Year (or Years) when the Lifecycle Replacement is planned to take place.

23A.4 Each Schedule of Lifecycle Replacement shall contain the following additional information for the items scheduled for the following Contract Year:

23A.4.1 details of all items of Plant and Equipment and any other asset for which Lifecycle Replacement is planned during the Contract Year;

23A.4.2 any changes in any Plant, Equipment or any other assets which appear in the Schedule of Lifecycle Replacement since the previous annual revision of the Schedule of Lifecycle Replacement;

23A.4.3 evidence which demonstrates that Project Co has taken into account in the proposed Lifecycle Replacement the cost to the Board of

occupation and operation of the Facilities, which may be affected by Project Co's proposals for Lifecycle Works, including without limitation, energy consumption and the Board's maintenance and cleaning obligations;

23A.4.4 details of Group 1 Equipment to be replaced and commentary on how this has been determined with particular reference to any changes to the Board Services which the Board has made Project Co aware of, which mean that a like for like replacement of Group 1 Equipment may not be appropriate or represent best value for money to the Board;

23A.4.5 details of the proposed start and end dates for the Lifecycle Replacement, the works to be carried out and the proposed hours of work, and any other information which the Board may reasonably require.

23A.4.6 details of any effect of the Lifecycle Replacement on the delivery of any of the Services and/or the activities of the Board; and

23A.5 Where Lifecycle Replacement provides an opportunity to improve whole life costs, such as through lower energy consumption, longer life, or lower replacement costs, Project Co shall provide the Board with the details and benefits of any alternative products or solutions.

23A.6 The Board's Representative may comment on each Schedule of Lifecycle Replacement submitted by Project Co in accordance with this Clause 23A in accordance with Schedule Part 8 *(Review Procedure).* Project Co shall consider the Board's Representative comments but, for the avoidance of doubt (and without prejudice to Project Co's obligations under this Agreement), Project Co shall not be obliged to amend the Schedule of Lifecycle Replacement to reflect any comments which the Board's Representative may make in accordance with the provisions of paragraph 3.11 of Schedule Part 8 *(Review Procedure)*.

Programmed and Unprogrammed Maintenance

23.6 Project Co shall not carry out any Programmed Maintenance or Unprogrammed Maintenance Works or Lifecycle Replacement save:

23.6.1 in accordance with a Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement to which no objection has been made under Schedule Part 8 (*Review Procedure*) or, where comment has been raised in respect of the Programmed Maintenance periods and/or time, the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement has been amended pursuant to the Service Level Specification;

23.6.2 in accordance with the procedures set out in Clause 23.8; or

23.6.3 in an emergency, in accordance with Clause 23.9.

23.7 Notwithstanding that there has been no objection to a Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement, the Board's Representative may, at any time, require Project Co to accelerate or defer any Programmed Maintenance or Lifecycle Replacement by giving written notice to Project Co, (unless otherwise agreed) not less than twenty (20) Business Days prior to the scheduled date for carrying out such Programmed Maintenance or Lifecycle Replacement, which notice shall set out the time and/or periods at or during which the Board requires the Programmed Maintenance or Lifecycle Replacement to be performed. Project Co shall notify the Board of the amount of any additional reasonable costs which it will incur as a direct consequence of such acceleration or deferment (the "**Estimated Increased Maintenance and Lifecycle Costs**") within five (5) Business Days of the receipt of the written notice advising of the requirement for an acceleration or deferment of the Programmed Maintenance or Schedule of Lifecycle Replacement. The Board shall, within a further period of five (5) Business Days following receipt by the Board of notification of the amount of the Estimated Increased Maintenance and Lifecycle Costs, at the Board's option, either confirm or withdraw its request to accelerate or defer the Schedule of Programmed Maintenance and Schedule of Lifecycle Replacement. If the Board does not respond within this five (5) Business Day period, the request shall be deemed to have been confirmed. The Board shall reimburse Project Co the direct and reasonable costs actually incurred by Project Co as a consequence of such acceleration or deferment up to, but not exceeding, the amount of the Estimated Increased Maintenance and Lifecycle Costs.

23.8 If, in circumstances other than an emergency, the need arises for Maintenance Works or Lifecycle Replacement (excluding any works of a *de minimis* nature in respect of which the parties have agreed this Clause 23.8 shall not apply and excluding works carried out for the purpose of Rectification, which shall take place in accordance with the provisions of Schedule Part 14 (*Payment Mechanism*)), which are not scheduled to be carried out as part of the Programmed Maintenance or Lifecycle Replacement ("**Unprogrammed Maintenance Work**"), Project Co shall not carry out any Unprogrammed Maintenance or Lifecycle Replacement Work unless and until the Board's Representative has approved the proposed commencement date, the proposed hours of work and estimated duration of the requisite Unprogrammed Maintenance or Lifecycle Replacement Works in accordance with the provisions of paragraph 3.9 of Schedule Part 8 (*Review Procedure*). Nothing in this Clause 23.8 (including any approval of the Board pursuant to Schedule Part 8 (*Review Procedure*) shall prevent the Board from making any deductions in calculating the Monthly Service Payments pursuant to the Payment Mechanism.

Emergency and Unprogrammed Maintenance

23.9 If, as a result of an emergency, the need arises for Unprogrammed Maintenance Works, Project Co may carry out such Unprogrammed Maintenance Works provided that Project Co shall notify the Board's Representative as soon as possible (and in any event within the timescale set out in accordance with paragraph FM44 of the Service Level Specification of the occurrence of the emergency) of the extent of the necessary Unprogrammed Maintenance Works and the reasons for them. Project Co shall take all reasonable steps to minimise the duration of such Unprogrammed Maintenance Works. Nothing in this Clause 23.9 shall prevent the Board from making any deductions in calculating the Monthly Service Payments pursuant to the Payment Mechanism.

23.10 Where Programmed Maintenance and/or Lifecycle Replacement scheduled to be carried out in accordance with the Schedule of Programmed Maintenance has been deferred by the Board's Representative under Clause 23.7, Project Co shall not be treated as having failed to perform the relevant Service on account of the condition of the Facilities or any part of them from the time the Programmed Maintenance and/or Lifecycle Replacement was scheduled to have been completed until the time the deferred Programmed Maintenance and/or Lifecycle Replacement was scheduled to have been completed, but not afterwards, provided always, to avoid doubt, that Project Co shall not be relieved from the consequences of any failure to maintain the Facilities in respect of any period prior to the period for performing the particular work according to the Schedule of Programmed Maintenance or the Schedule of Lifecycle Replacement.

5 Year Maintenance Plan

23.11 Project Co shall deliver to the Board's Representative not less than three (3) months prior to the Completion Date, and thereafter not less than three (3) months prior to the commencement of each Contract Year the latest version of the 5 Year Maintenance Plan.

23.12 The Board shall have a right to inspect the Facilities and the Maintenance Works to ensure that the Facilities are being maintained in accordance with the Service Level Specification and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals throughout the Project Term. The Board may appoint an independent third party for the purposes of carrying out any such inspection and shall make known the findings to Project Co and the Funders. The parties shall then meet to discuss any implications of such findings and any steps that are necessary to remedy any failure to comply with such obligations. Project Co shall (subject to Clause 33 (*Change Protocol*)) take into account such discussions in the next Schedule of Programmed Maintenance so that any failure to comply with such obligations shall be remedied.

Board's Maintenance Obligations

23.13 The Board's Maintenance Obligations are as follows:

23.13.1 not less frequently than once in every five (5) years from the Actual Completion Date, in a good and workmanlike manner to make good plaster and other interior wall and ceiling finishes and decoration in all such parts of the interior of the Functional Areas as were plastered, finished and/or decorated by Project Co as part of the Works or in implementing an Board Change;

23.13.2 Not Used;

23.13.3 Not Used;

23.13.4 as often as is necessary to maintain anything provided by the Board under a Derogated Low Value Change; and

23.13.5 to ensure that all portable electrical appliances that are connected to the electricity supply in the Facilities by the Board and Board Parties have been tested in accordance with Law and the "**Code of Practice for In-service Inspection and Testing of Electrical Equipment**" published from time to time by the Institution of Electrical Engineers.

23.14 Subject to Clause 23.21, the Board must carry out and perform the Board's Maintenance Obligations or procure that the Board's Maintenance Obligations are carried out and performed as often as required by Clause 23.13 and in accordance with Good Industry Practice. Without prejudice to the Board's rights under Clause 23.7, the Board's Maintenance Obligations must be scheduled by the Board so as not to interfere with Project Co carrying out Programmed Maintenance or Lifecycle Replacement in accordance with the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement and/or interfere with Project Co carrying out Unprogrammed Maintenance Work or Lifecycle Replacement in accordance with Clause 23.8.

23.15 If the Board is in breach of Clause23.14, Project Co may, while the breach is continuing, give a notice to the Board requiring it to carry out the relevant Board Maintenance Obligations. If the Board:

23.15.1 does not reply to Project Co in writing within ten (10) Business Days of the date of Project Co's notice with a programme for carrying out the relevant Board Maintenance Obligations within a period of time that is reasonable having regard to the nature of the breach, the reasonably foreseeable consequences of non-performance of the relevant Board Maintenance Obligations for the Services and Project Co's obligations under this Agreement; or

23.15.2 having provided such a programme, does not comply with it,

Project Co shall be entitled to perform the Board's Maintenance Obligations so far as necessary to prevent any reasonably foreseeable adverse effect on the Services and/or Project Co's obligations under this Agreement consequent upon the non-performance of the relevant Board Maintenance Obligations.

23.16 Project Co shall not carry out any Project Co's Remedial Services unless and until the Board's Representative, pursuant to this Clause 23.16, has approved or is deemed to have approved or has specified the proposed commencement date, the proposed hours of work and the estimated duration of Project Co's Remedial Services (together the "**PRS Timetable**"). Project Co must give the Board not less than twenty (20) Business Days notice of its proposed PRS Timetable. If the Board's Representative considers that the proposed PRS Timetable is not consistent with the principles set out in Appendix 2 to Schedule Part 8 (*Review Procedure*), he may specify an alternative PRS Timetable that is consistent with those principles, which shall be as near to the PRS Timetable proposed by Project Co as reasonably practicable. If the Board's Representative fails either to approve Project Co's proposed PRS Timetable or to specify an alternative PRS Timetable within ten (10) Business Days of receipt of Project Co's proposed PRS Timetable, he shall be deemed to have approved it.

23.17 The Board must allow Project Co and relevant Project Co Parties access to the Site and the Facilities:

23.17.1 for the purpose of monitoring the carrying out of Board's Maintenance Obligations; and

23.17.2 in accordance with the approved PRS Timetable for the purpose of carrying out any of Project Co's Remedial Services.

23.18 If the Board does not allow access to the Site and/or the Facilities as required pursuant to Clause 23.17.2, or otherwise prevents or interferes with Project Co and any relevant Project Co Party performing the PRS Remedial Works, Project Co may propose a new PRS Timetable in respect of the relevant Project Co's Remedial Services and Clause 23.16 shall apply.

23.19 In carrying out and performing Project Co's Remedial Services, Project Co must comply with the standards applicable to the relevant Board's Maintenance Obligations and Good Industry Practice and must use reasonable endeavours to match colours and other finishes to those that currently exist in the relevant part or parts of the Facilities.

23.20 The Board must reimburse Project Co all reasonable costs that it incurs in carrying out and performing Project Co's Remedial Services in accordance with this Clause 23.

23.21 Notwithstanding the terms of Clauses 23.14 to 23.19 above, Project Co is responsible for:

23.21.1 making good any defects in plaster and other interior wall and ceiling finishes and decoration provided by Project Co as part of the Works or in implementing an Board Change, caused by defective design or workmanship in the carrying out of the Works or in implementing the Board Change; and

23.21.2 making good any defects in plaster and other interior wall and ceiling finishes and decoration provided by Project Co as part of the Works or in implementing an Board Change (whether or not these have subsequently been replaced or renewed by the Board) and things referred to in Clause 23.13.4 consequential on any Programmed Maintenance or Unprogrammed Maintenance or any act or omission of Project Co.

22.22 The Board and Project Co shall co-operate with each other to coordinate any activities that the Board proposes to undertake to implement any of the Board's Maintenance Obligations and Project Co's Programmed Maintenance and Project Co must include the Board's intentions with regard to performing the Board's Maintenance Obligations in the Schedule of Programmed Maintenance for each Contract Year.

Energy for Repairs

23.23 Subject to Clause 23.24, the Board is entitled to be reimbursed by Project Co for

costs incurred by the Board for Utilities supplied to the Facilities during the Operational Term that are consumed in the process of Project Co or any Project Co Party carrying out operations to rectify an Availability Failure.

23.24 For the purpose of applying Clause 23.23 the cost of each Utility shall be considered separately and Clause 23.23 shall not apply if the costs concerned, in respect of the particular Availability Failure, do not exceed [the daily average cost based on bills paid by the Board to the supplier of the relevant Utility to the Facilities over the most recent 12-month period for which figures are available][2].

23.25 Where the Board claims reimbursement of Utilities costs pursuant to Clause 23.23 it must reasonably estimate those costs using all available evidence and send Project Co a statement showing its calculation of the amount claimed along with its supporting evidence. Unless Project Co disputes the statement within ten (10) Business Days of receipt, the Board will be entitled, pursuant to Clause 34.6, to set-off the amount claimed.

24. MONITORING OF PERFORMANCE

Monitoring

24.1 In carrying out the Services, Project Co shall, and shall procure that all Project Co Parties and any other persons for whom it is responsible shall, comply with the provisions of Schedule Part 12 (*Service Requirements*).

24.2 Project Co shall be responsible for monitoring its performance of this Agreement during the Operational Term, in the manner and at the frequencies set out in Schedule Part 12 (*Service Requirements*). Project Co shall provide the Board's Representative with relevant particulars of any aspects of its performance which fail to meet the requirements of this Agreement (unless otherwise notified in writing by the Board). The Board may at all reasonable times observe, inspect and satisfy itself as to the adequacy of the monitoring procedures (including without limitation carrying out sample checks).

Grounds for Warning Notices

24.3 If at any time during the Operational Term (other than by reason of a Force Majeure Event, a Relief Event or an Emergency):

24.3.1 the total Deductions for any Contract Month amount to more than 0.123% per cent of the Annual Service Payment for the current Contract Year; or

24.3.2 the total Deductions in each of any three Contract Months in any six consecutive Contract Months amount to more than 0.059% per cent of the Annual Service Payment for the current Contract Year,

[2] To be discussed with Bidders during the Dialogue Period.

the Board's Representative may serve a Warning Notice on Project Co, provided always that, to give Project Co time to take appropriate rectification measures, the Board's Representative shall not be entitled:

(a) to serve more than one (1) Warning Notice in any Contract Month;

(b) to serve a Warning Notice in any two (2) consecutive Contract Months to the extent that the same event has contributed to the Board's right to serve the Warning Notice, but provided that Project Co demonstrates to the Board that it has taken all reasonable steps to remedy the cause of that event.

Warning Notices Disputes

24.4 If Project Co disputes that the Board was or is entitled to serve a Warning Notice, Project Co may refer that dispute for determination under the Dispute Resolution Procedure for resolution. If, after the Board's Representative issues a Warning Notice, the parties subsequently agree, or it is determined under the Dispute Resolution Procedure that the Warning Notice was served without justification, that Warning Notice shall be recalled or shall be cancelled and deemed not to have been served.

Board's remedial rights

24.5 The provisions of Clauses 24.6 to 24.9 (inclusive) shall apply if the Board, acting reasonably, considers that it needs to take action in connection with the Services:

24.5.1 because of an immediate and serious threat to the health or safety of any user of the Facilities and/or the Retained Estate; or

24.5.2 to prevent or address material interruption in the provision of one or more of the Services; or

24.5.3 because of a risk of the ability of the Board to provide the relevant Board Services being prejudiced to a material degree.

24.6 If any of the circumstances set out in Clause 24.5 arise (without prejudice to its rights under Clause 40 (*Project Co Event of Default*) or any other express rights under this Agreement) and the Board wishes to take action (either by itself or by engaging others), the Board shall notify Project Co in writing of the following:

24.6.1 the action it wishes to take;

24.6.2 the reason for such action;

24.6.3 the date it wishes to commence such action;

24.6.4 the time period which it believes will be necessary for such action; and

24.6.5 to the extent practicable, the effect on Project Co and its obligation to provide the Services during the period such action is being taken.

24.7 Following service of such notice, the Board shall take such action as has been notified under Clause 24.6 and any consequential additional action as it reasonably believes is necessary (together, the "**Required Action**") and Project Co shall give all reasonable assistance to the Board while it is taking the Required Action. To the extent that the Board performs any of the obligations of Project Co hereunder or undertakes tasks that would otherwise be undertaken by Project Co pursuant to this Agreement, the Board shall perform such obligations or undertake such tasks to the same standard as would be required of Project Co under the terms of this Agreement.

24.8 If the Required Action is taken other than as a result of a breach by Project Co of its obligations under this Agreement, then for so long as and to the extent that the Required Action is taken, and this prevents Project Co from providing any part of the Services:

24.8.1 Project Co shall be relieved from its obligations to provide such part of the Services; and

24.8.2 in respect of this period in which the Board is taking the Required Action and provided that Project Co provides the Board with reasonable assistance (such assistance to be at the expense of the Board to the extent that additional costs are incurred), the Monthly Service Payments due from the Board to Project Co shall equal the amounts that Project Co would receive if it were satisfying all of its obligations and providing the Services affected by the Required Action in full over that period and the Board shall indemnify Project Co against all Direct Losses sustained by Project Co as a result of the Board taking the Required Action.

24.9 If the Required Action is taken as a result of a breach by Project Co of its obligations under this Agreement, then for so long as and to the extent that the Required Action is taken, and this prevents Project Co from providing any part of the Services:

24.9.1 Project Co shall be relieved of its obligations to provide such part of the Services; and

24.9.2 in respect of the period in which the Board is taking the Required Action, the Monthly Service Payments due from the Board to Project Co shall equal the amounts Project Co would receive if it were satisfying all of its obligations and providing the Services affected by the Required Action in full over that period, less an amount equal to all of the costs incurred by the Board in taking the Required Action (including, without limitation, an appropriate sum in respect of general staff costs and overheads).

Emergencies

24.10 If an Emergency arises during the Operational Term which cannot be dealt with by performance of the Services, the Board may instruct Project Co to procure that such additional or alternative services are undertaken by Project Co as and when required by the Board to ensure that the Emergency is dealt with and normal operation of the Facilities resumes as soon as is reasonably practicable.

24.11 The cost of any additional or alternative services provided by Project Co under Clause 24.10 shall be borne by the Board and paid in accordance with Clause 34 (*Payment*). The Board will not be entitled to levy Deductions in respect of any failure to provide the Services to the extent that such failure arises by reason of Project Co's compliance with Clause 24.10.

25 TUPE AND EMPLOYMENT MATTERS

No Employee Transfer

25.1 The Board and Project Co agree that there are no individuals presently employed by the Board or any other sub-contractor of the Board whose contracts of employment will, by virtue of the transfer to Project Co of responsibility for provision of (or procuring the provision by Service Providers of) any of the Services in accordance with this Agreement and in accordance with the Transfer Regulations, have effect after the date or dates of such transfer as agreed by the parties (each a "**Relevant Service Transfer Date**") (or at any other time) as if originally made between those persons and the relevant Service Provider.

25.2 If it is subsequently agreed or determined that there are persons presently employed by the Board or any other sub-contractor of the Board whose contracts of employment do have effect after the Relevant Service Transfer Date as if originally made between those persons and the relevant Service Provider ("**Transferring Staff**") then:

25.2.1 the Board shall within ten (10) Business Days of the date on which it was so agreed or determined have the opportunity to offer or procure the offer of a position as an employee of the Board to some or all of the Transferring Staff;

25.2.2 Project Co shall procure that no person to whom the Board has offered a position in accordance with Clause 25.2.1 shall be dismissed by reason of redundancy until the period for acceptance of such offer has expired and the person in question has not accepted such offer; and

25.2.3 subject to Clauses 25.2.1 and 25.2.2 Project Co or any Service Provider shall be entitled to dismiss any or all of the Transferring Staff by reason of redundancy provided that Project Co shall use and shall procure that any Service Provider shall carry out in the required manner any obligation to consult with the Transferring Staff or any of them, or their respective representatives, and shall use all reasonable

endeavours to mitigate the amount of any costs payable in respect of the Transferring Staff or their dismissal.

The Board shall indemnify Project Co against any costs referred to in Clause 25.2.3 reasonably incurred by Project Co (or by a relevant Service Provider and for which Project Co is responsible) and shall reimburse any costs reasonably and properly incurred by Project Co or the Service Provider in employing any Transferring Staff prior to the expiry of the period referred to in Clause 25.2.2.

Compliance with Legislation and Board Policies

25.3 Project Co shall comply and shall procure that each Service Provider and all persons employed or engaged by a Service Provider in connection with the provision of any Service shall comply at all times with the Law on health and safety at work and on anti-discrimination and equal opportunities.

25.4 Project Co shall procure that each Service Provider takes all reasonable steps to procure that all persons including any employed or engaged by a Service Provider in connection with the provision of any Service shall, so far as applicable, comply with the Board Policies as regards health and safety at work (including the Board Policy regarding smoking) and with those relating to anti-discrimination and equal opportunities (including those relating to harassment). Project Co also shall take and shall procure that every Service Provider shall take all such steps as the Board may reasonably require, which shall include co-operation with action proposed or taken by the Board, to ensure that the Board complies with its duty under Section 3(1) Health and Safety at Work Act 1974 regarding the conduct of the undertaking of the Board.

Project Co Indemnities

25.5 Project Co shall indemnify and keep indemnified in full the Board and, at the Board's request, each and every service provider who has or shall provide any service equivalent to any of the Services against:

25.5.1 claims in respect of all emoluments and all other contractual or statutory payments unpaid by Project Co or a Service Provider to any person entitled to such payments from Project Co or a Service Provider who is or has been employed or engaged by Project Co or any Service Provider on or after the Relevant Service Transfer Date but prior to the date of expiry or termination of this Agreement, and all income tax and pension and national insurance contributions payable thereon; and

25.5.2 insofar as Clause 25.5.1 does not apply, all Direct Losses incurred by the Board as a result of any claim against the Board in respect of any liability to any person who is or has been employed or engaged (whether as a consequence of the Transfer Regulations or of the provisions of this Clause 25) by Project Co or any Service Provider in connection with the provision of any of the Services, where such claim arises as a result of any act or omission of Project Co or the Service Provider occurring after the Relevant Service Transfer Date and before the expiry or termination of this Agreement;

BUT the indemnities in Clauses 25.5.1 and 25.5.2 shall not apply to the extent that the claim arises from a wrongful act or omission of the Board or is in respect of

sums for which the Board is liable pursuant to Clause 25.2.

25.6 Clause 49.3 (*Conduct of Claims*) of this Agreement shall apply where any claim is made in respect of the indemnities given by Project Co under Clause 49.1 (*Project Co Indemnities*).

Position on expiry or earlier termination of this Agreement

25.7 On the expiry or earlier termination of this Agreement, the Board and Project Co agree that it is their intention that the Transfer Regulations shall apply in respect of the provision thereafter of any service equivalent to a Service but the position shall be determined in accordance with the Law at the date of expiry or termination as the case may be and this Clause is without prejudice to such determination.

25.8 Project Co shall not and shall procure that no Service Provider shall make any material change to the terms and conditions of employment of any person employed in the provision of any Service, transfer any person employed in the provision of any Service to another part of its business, or materially increase or decrease the number of such persons:

25.8.1 within the period of twelve (12) months immediately preceding the expiry of this Agreement, or

25.8.2 within the period of twelve (12) months before the termination of this Agreement or, if shorter, during the period of notice of termination

without the Board's consent (which shall not be unreasonably withheld), except if such change is required by Law.

25.9 If the Transfer Regulations do not apply on the expiry or earlier termination of this Agreement, the Board shall ensure that each new provider of a service equivalent to a Service on or after the expiry or earlier termination of this Agreement (including the Board) shall offer employment to the persons employed by Project Co or a Service Provider in the provision of the Service immediately before the expiry or earlier termination of this Agreement and shall indemnify Project Co or a Service Provider for Direct Losses any of them may suffer or incur as a result of its failure to do so, and for any costs, claims or liabilities for redundancy payments (whether statutory or contractual).

25.10 If an offer of employment is made in accordance with Clause 25.9 the employment shall be on the same terms and conditions as applied immediately before the expiry or earlier termination of this Agreement including full continuity of employment, except that the Board or other new service provider may at its absolute discretion not offer such terms and conditions if there has been any change to the terms and conditions of the persons concerned in breach of Clause 25.8.

26. NOT USED

27. SITE AND OFF-SITE SECURITY AND PERSONNEL ISSUES

Access

27.1 The Board shall have the right to refuse admittance to, or order the removal from, the Facilities and/or the Retained Estate of any person employed by (or acting on behalf of) Project Co, any Project Co Party or any sub-contractor whose presence, in the reasonable opinion of the Board, is likely to have a material adverse effect on the provision by the Board of the relevant Board Services at the Facilities and/or the Retained Estate or who is not a fit and proper person to be in the Facilities and/or the Retained Estate.

27.2 Action taken under Clause 27.1 shall forthwith be confirmed in writing by the Board to Project Co and, to avoid doubt, shall not relieve Project Co of any of its obligations under this Agreement.

27.3 If and when so directed in writing by the Board, Project Co shall within twenty (20) Business Days provide a list of the names and addresses of all persons it expects may require admission in connection with this Agreement, to any premises occupied by the Board, specifying the capacities in which those persons are concerned with this Agreement and giving such other particulars as the Board may reasonably require.

27.4 The decision of the Board as to whether any person is to be refused admission shall be final and conclusive.

Board Policies

27.5 Project Co shall, and shall procure that all Project Co Parties shall, comply at all times with the Board Policies.

27.6 The Board shall notify Project Co of any proposed change to the Board Policies as soon as practicable (and, in any event, prior to such change taking effect) and consult with Project Co. Subject to Clause 27.7, such change shall take effect as a Change in accordance with Schedule Part 16 (*Change Protocol*).

27.7 The Board may, at its sole option, notify Project Co that Project Co shall not be obliged to comply with any change to any Board Policy and that Project Co should continue to comply with the relevant Board Policy prior to any change in which case such change shall not take effect as a Change in accordance with Schedule Part 16 (*Change Protocol*) .

Resources and training

27.8 Project Co shall procure that:

27.8.1 there shall at all times be a sufficient number of staff (including all relevant grades of supervisory staff) engaged in the provision of the Services with the requisite level of skill and experience. To avoid doubt, this obligation shall include ensuring that there are sufficient

staff to cover periods of holiday, sickness, other absence, and anticipated and actual peaks in demand for each of the Services; and

27.8.2 all staff receive such training and supervision as is necessary to ensure the proper performance of this Agreement and compliance with all health and safety rules, procedures and requirements.

27.9 Not Used.

Convictions and disciplinary action

27.10 Subject to Clause 27.10A, Project Co (to the extent permitted by Law) shall procure that all potential staff or persons performing any of the Project Operations who may reasonably be expected in the course of their employment or engagement to have access to children, the elderly and/or vulnerable adults:

27.10.1 are questioned concerning their Convictions; and

27.10.2 only in the case of potential staff who may reasonably be expected in the course of their employment to have access to children, the elderly and/or vulnerable adults, are required to complete a Protecting Vulnerable Groups Scheme form.

27.10A The completion of a Protecting Vulnerable Groups Scheme form shall not be applicable to any person engaged by Project Co during the course of the Project Operations (who is not a member of Project Co staff nor ordinarily at the Facilities and/or the Retained Estate) provided that any such person is always accompanied within the Facilities and/or Retained Estate by a member of Project Co's staff who has satisfactorily completed a Protecting Vulnerable Groups Scheme form and who (if found to have any Convictions) has been employed or engaged in the Project Operations with the Board's prior written consent pursuant to Clause 27.11.

27.11 Project Co shall procure that no person who discloses any Convictions, or who is found to have any Convictions following the completion of a Protecting Vulnerable Groups Scheme, in either case of which Project Co or a Service Provider is aware or ought to be aware is employed or engaged in the provision of the Project Operations without the Board's prior written consent (such consent not to be unreasonably withheld or delayed).

27.12 Project Co shall procure that the Board is kept advised at all times of any person employed or engaged by Project Co or any Service Provider in the provision of any of the Project Operations who, subsequent to his/her commencement of such employment or engagement, receives a Conviction of which Project Co or a Service Provider becomes aware or whose previous Convictions become known to Project Co or a Service Provider.

27.13 The Board's Representative (acting reasonably) may instruct Project Co to procure that appropriate disciplinary action is taken against any employee of

Project Co or any Sub-Contractor (in accordance with the terms and conditions of employment of the employee concerned) who misconducts himself or is incompetent or negligent in his duties or whose presence or conduct on the Site and/or Off-Site or at work is otherwise considered by the Board's Representative (acting reasonably) to be undesirable. The Board shall co-operate with any such disciplinary proceedings and shall be advised in writing by Project Co of the outcome.

27.14 Project Co shall procure that there are set up and maintained, by it and by all Service Providers, personnel policies and procedures covering all relevant matters (including discipline, grievance, equal opportunities and health and safety). Project Co shall procure that the terms and the implementation of such policies and procedures comply with Law and Good Industry Practice and that they are published in written form and that copies of them (and any revisions and amendments to them) are forthwith issued to the Board.

Management

27.15 Project Co shall consult with the Board in relation to the selection procedure (which shall stipulate a professional qualification in respect of facilities management or equivalent qualification) for Project Co's Facility Manager and such person shall not be appointed (or replaced) without the prior written consent of the Board (such consent not to be unreasonably withheld or delayed).

27.16 Project Co shall provide, and shall procure that all Service Providers provide, to the Board upon request details of their respective management organisations.

Lists and Records

27.17 Project Co shall procure that the Board's Representative shall at all reasonable times have access to all material details in respect of all employees of Project Co or any Service Provider engaged in the provision of the Services including numbers and categories of staff employed to perform the Services and including in respect of each such employee:

27.17.1 details of qualifications; and

27.17.2 details of training undertaken by the employee.

Health Requirements

27.18 Not Used.

27.19 To the extent permitted by Law, records of all screenings, examinations or treatments referred to in this Clause 27 *(Site and Off-Site Security and Personnel Issues)* shall be held by Project Co on behalf of and as agent for the Board and produced (subject to requirements under the Law) for inspection upon request by the Board's Representative provided that no such inspection shall take place

unless each staff member has given his or her written consent to such inspection.

27.20 Project Co shall (to the extent permitted by Law) procure that the Board shall be informed upon reasonable request by the Board of the outcome of each and every medical screening examination or treatment referred to in Clause 27.18 with reference to the purpose of the screening, examination or treatment concerned and shall receive all such other information referred to in Clause 27.18 subject to requirements under the Law.

27.21 The Board's Representative may (acting reasonably) refuse admittance to or order the removal from the Board's premises of any person employed or engaged in the provision of the Services whose presence poses or is reasonably believed to pose a risk to the health of Board staff, patients or visitors and such action, which shall forthwith be confirmed in writing by the Board, shall not relieve Project Co of any of its obligations under this Agreement.

28. STOCKS CONSUMABLES, MATERIALS AND EQUIPMENT

Standards

28.1 All goods, equipment, consumables and materials which are to be used in the provision of the Services shall be of satisfactory quality.

28.2 Project Co shall ensure that the goods, equipment, consumables and materials used by it or any Sub-Contractor in connection with the provision of any of the Services (each as a distinct and separate obligation) are:

28.2.1 maintained in a safe, serviceable and clean condition in accordance with Good Industry Practice;

28.2.2 of the type specified in the Service Level Specification and/or the Method Statements (where appropriate); and

28.2.3 in compliance with any relevant rules, regulations, codes of practice and/or British or European Standards,

and shall, as soon as practicable after receiving a request from the Board's Representative, supply to the Board's Representative evidence to demonstrate its compliance with this Clause 28.2.

28.3 Project Co shall procure that sufficient stocks of goods, consumables, equipment and materials are held in order to comply with its obligations under this Agreement.

Hazardous substances and materials

28.4 Project Co shall not install, keep or use in or on the Facilities any materials, equipment or apparatus the installation, keeping or use of which is likely to cause (or in fact causes):

28.4.1 material damage to the Facilities;

28.4.2 dust, noise or vibration constituting a nuisance to the owners and/or occupiers of any property adjoining or near to the Facilities; or

28.4.3 the generation, accumulation or migration of any hazardous substance in an unlawful manner whether within or outside the Facilities,

and shall use all reasonable endeavours to ensure (by directions to staff and otherwise) that all materials, equipment or apparatus in or on the Facilities is operated so as to minimise noise and vibration likely to cause annoyance or disturbance and the unlawful generation or migration of any hazardous substance.

28.5 Project Co shall not bring in or on to (or keep or maintain in or on) the Facilities, any hazardous materials or equipment without the prior written consent of the Board and unless Project Co has complied with all relevant Law.

28.6 Without prejudice to the generality of its obligations, Project Co shall:

28.6.1 procure that all hazardous materials and equipment used, by it or by a Sub-Contractor or used on behalf of any of them, or stored, by it or by a Sub-Contractor or stored on behalf of any of them, on the Site and/or Off-Site are kept in accordance with all relevant Law and Good Industry Practice, properly and securely labelled and stored, under appropriate supervision and used only by appropriately trained and competent staff; and

28.6.2 use all practicable and reasonable means to:

(a) prevent or counteract, to the satisfaction of the Board's Representative, the unlawful emission of any such hazardous substance;

(b) avoid the unlawful discharge into any conducting media serving the Facilities, of any hazardous substance;

(c) prevent the unlawful generation, accumulation or migration of any hazardous substance at or from the Facilities, ; and

(d) prevent any environmental claims arising or any circumstances arising likely to result in any environmental claims,

in so far as any such hazardous substance is, or should be, under the control of Project Co pursuant to this Agreement.

28.7 The Board shall:

28.7.1 procure that all hazardous materials and equipment used, by it or by any Board Party or used on behalf of any of them, or stored, by it or by any Board Party or stored on behalf of any of them, on the Site are kept in accordance with all relevant Law and Good Industry Practice, properly and securely labelled and stored, under appropriate supervision and used only by appropriately trained and competent staff; and

28.7.2 use all practicable and reasonable means to:

(a) prevent or counteract the unlawful emission of any such hazardous substance;

(b) avoid the unlawful discharge into any conducting media serving the Facilities of any hazardous substance;

(c) prevent the unlawful generation, accumulation or migration of any hazardous substance at or from the Facilities; and

(d) prevent any environmental claims arising or any circumstances arising likely to result in any environmental claims,

in so far as any such hazardous substance is, or should be, under the control of the Board.

28.8 Project Co shall:

28.8.1 maintain or procure that a Service Provider maintains a COSHH register for the Facilities, which shall be up-to-date at all times;

28.8.2 ensure that a copy of the COSHH register is kept at the Facilities; and

28.8.3 ensure that a further copy of the COSHH register is given to the Board as often as it is changed.

PART 7: DELAY EVENTS, RELIEF EVENTS AND FORCE MAJEURE

29. DELAY EVENTS

29.1 If, at any time, Project Co becomes aware that there will be (or is likely to be) a delay in completion of the Works, Project Co shall forthwith give notice to the Board's Representative to that effect specifying the relevant delay or impediment. In relation to any such delay or impediment if the Board's Representative is satisfied, or it is determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*), that such delay or impediment has arisen as a result of the occurrence of a Delay Event, then, subject to Clause 29.2, the Board's Representative shall allow Project Co an extension of time equal to the delay or impediment caused by such Delay Event (taking into account reasonably foreseeable consequences of the Delay Event) and shall revise the Completion Date accordingly but to avoid doubt, there shall be no extension to the Project Term as a result of any such delay or impediment.

29.2 If Project Co is (or claims to be) affected by a Delay Event:

29.2.1 it shall (and shall procure that the Project Co Parties shall) take and continue to take all reasonable steps to eliminate or mitigate the consequences of such an event upon the performance of its obligations under this Agreement and, where relevant, resume performance of its obligations affected by the Delay Event as soon as practicable; and

29.2.2 it shall neither be relieved from liability under this Agreement nor entitled to any extension of time for the purpose of Clause 29 (*Delay Events*) to the extent that it is delayed or impeded due to its failure (if any) to comply with its obligations under Clause 29.2.1 above.

29.3 For the purposes of this Agreement, a Delay Event means any of the following to the extent in each case that there will be (or is likely to be) a delay in completion of the Facilities and/or the Retained Estate Handback Infrastructure:

29.3.1 the occurrence of a Qualifying Change in relation to which it has been agreed or determined that the implementation of the Board Change would delay the completion of the Facilities and/or the Retained Estate Handback Infrastructure;

29.3.2 any breach by the Board and/or any Board Party of any of the Board's express obligations under this Agreement to the extent in each case that any such breach is not caused, or contributed to, by Project Co or any Project Co Party;

29.3.3 the execution of works on the Site not forming part of this Agreement by the Board or any contractors employed by the Board;

29.3.4 opening up of the Works pursuant to Clauses 13.3 to 13.7 (inclusive) where such Works are not subsequently found to be defective (unless it is agreed or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) that the opening up of the Works was reasonable in the light of other defects previously discovered by the Board);

29.3.5 Force Majeure;

29.3.6 a Relief Event; or

29.3.7 a Relevant Change in Law referred to in Clause 32.3.1 (*Discriminatory Change in Law*) and Clause 32.3.2 (*Specific Change in Law*); or

29.3.8 Not Used;

29.3.9 an instruction by the Board's Representative to Project Co to stop the Project Operations (or any part or parts thereof) pursuant to Clause 13A.1.1 *(Board's right to stop Project Operations during the Project Term)* where it is subsequently agreed or determined in accordance with Schedule Part 20 *(Dispute Resolution Procedure)* that no Stop Incident(s) has occurred).

29.3.10 an instruction by the Board's Representative to Project Co to the stop the Project Operations (or any part or parts thereof) pursuant to Clause 13A.1.2 *(Board's right to stop Project Operations during the Project Term)*.

29.3.11 an instruction by the Board's Representative to Project Co to stop the Project Operations (or any part or parts thereof) pursuant to Clause 13A.1.3 *(Board's right to stop Project Operations during the Project Term).*

29.4 Without prejudice to the generality of Clause 29 (*Delay Events*), Project Co shall give notice in writing to the Board's Representative as soon as it (or the Contractor) can reasonably foresee a Delay Event occurring or, if the same is not reasonably foreseeable, as soon as it (or the Contractor) shall become aware of a Delay Event. Project Co shall within ten (10) Business Days after such notification, give further written details to the Board's Representative which shall include:

29.4.1 a statement of which Delay Event the claim is based upon;

29.4.2 details of the circumstances from which the Delay Event arises;

29.4.3 details of the contemporary records which Project Co will maintain to substantiate its claim for extra time;

29.4.4 details of the consequences (whether direct or indirect, financial or non-financial) which such Delay Event may have upon completion of the Facilities and the Retained Estate Handback Infrastructure; and

29.4.5 details of any measures which Project Co proposes to adopt to mitigate the consequences of such Delay Event.

29.5 As soon as possible but in any event within (five (5) Business Days of Project Co (or the Contractor) receiving, or becoming aware of, any supplemental information which may further substantiate or support Project Co's claim then, provided that the Completion Date has not otherwise already been revised pursuant to Clause 29.7, Project Co shall submit further particulars based on such information to the Board's Representative.

29.6 The Board's Representative shall, after receipt of written details under Clause 29.4, or of further particulars under Clause 29.5, be entitled by notice in writing to require Project Co to provide such further supporting particulars as he may reasonably consider necessary. Project Co shall afford the Board's Representative reasonable facilities for investigating the validity of Project Co's claim including, without limitation, onsite inspection.

29.7 Subject to the provisions of this Clause, the Board's Representative shall revise the Completion Date in accordance with Clause 29.1 (*Delay Events*) as soon as reasonably practicable and in any event within ten (10) Business Days of the later of:

29.7.1 the date of receipt by the Board's Representative of Project Co's notice given in accordance with Clause 29.4 and the date of receipt of any further particulars (if such are required under Clause 29.6), whichever is the later; and

29.7.2 the date of receipt by the Board's Representative of any supplemental information supplied by Project Co in accordance with Clause 29.5 and the date of receipt of any further particulars (if such are required under Clause 29.6), whichever is the later.

If Project Co has failed to comply with the requirements as to the giving of notice under Clause 29.4, or has failed to maintain records or afford facilities for inspection to the Board's Representative, then Project Co shall not be entitled to any extension of time (and the Completion Date shall not be revised) in respect of any period of delay by Project Co in giving notice or providing information under Clause 29.4 and/or to the extent that its failure to maintain records or afford facilities for inspection to the Board's Representative has prevented the Board's Representative from assessing the consequences of the Delay Event.

29.8 If:

29.8.1 the Board's Representative declines to fix a revised Completion Date;

or

29.8.2 Project Co considers that a different Completion Date should be fixed; or

29.8.3 there is a disagreement as to whether a Delay Event has occurred,

then Project Co shall be entitled to refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

Compensation

29.9 If the Delay Event is a Compensation Event Project Co's sole right to compensation shall be as provided for in Clauses 29.11 to 29.13 inclusive. To avoid doubt, no other Delay Event shall entitle Project Co to receive any compensation save as otherwise expressly provided in:

29.9.1 Schedule Part 16 (*Change Protocol*) in the case of a Delay Event referred to in Clause 29.3.1 (subject always to the provisions of Clause 32 (*Changes in Law*)); or

29.9.2 Clause 32 (*Changes in Law*) in the case of a Delay Event referred to in Clause 29.3.7.

29.10 For the purposes of Clause 29.9, a Compensation Event means:

29.10.1 any Delay Event referred to in Clause 29.3.2, Clause 29.3.3 or Clauses 29.3.4, 29.3.9, 29.3.10 and 29.3.11 for which, in each case, it has been agreed or determined pursuant to this Clause 29 (*Delay Events*) that Project Co is entitled to an extension of time; or

29.10.2 in the period prior to the Actual Completion Date, in circumstances where there is no delay in completion of the Facilities and the Retained Estate Handback Infrastructure any breach by the Board and/or any Board Party of any of the Board's express obligations under this Agreement to the extent that such breach is not caused, or contributed to, by Project Co or any Project Co Party.

29.10.3 Not Used.

29.11 Subject to Clause 29.12, if it is agreed, or determined, that there has been a Compensation Event, and Project Co has incurred loss (including loss of revenue) and/or expense as a direct result of such Compensation Event, Project Co shall be entitled to such compensation as would place Project Co in no better or worse position than it would have been in had the relevant Compensation Event not occurred. Project Co shall promptly provide the Board's Representative with any additional information he may require in order to determine the amount of such

compensation.

29.12 Project Co shall take all reasonable steps so as to minimise the loss and/or expense referred to in Clause 29.11 in relation to any Compensation Event and any compensation payable shall:

29.12.1 exclude any amounts incurred or to be incurred as a result of any failure of Project Co (or any Project Co Party) to comply with this Clause 29.12; and

29.12.2 be reduced by any amount which Project Co has recovered or will recover under any insurance policy (or would have recovered if it had complied with the requirements of this Agreement or of any policy of insurance required under this Agreement) which amount, to avoid doubt, shall not include any excess or deductibles or any amount over the maximum amount insured applicable to any such insurance policy.

29.13 The amount of any compensation due to Project Co under Clause 29.11 shall be agreed between the parties or, failing agreement, determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) and such compensation shall be payable:

29.13.1 in respect of compensation for a Compensation Event to the extent resulting in Capital Expenditure being incurred the Board shall compensate Project Co for the actual Capital Expenditure incurred by Project Co within twenty (20) Business Days of its receipt of a written demand accompanied by a valid VAT invoice for the same by Project Co supported by all relevant information; and

29.13.2 in all other cases in accordance with Section 6 (*Changing the Financial Model*) of Schedule Part 16 (*Change Protocol*) as if a Relevant Event had taken place.

30. RELIEF EVENTS

30.1 For the purposes of this Agreement, subject to Clause 30.4, Relief Events mean any of the following events:

30.1.1 fire, explosion, lightning, storm, tempest, flood, bursting or overflowing of water tanks, apparatus or pipes, ionising radiation (to the extent it does not constitute Force Majeure), earthquake, riot or civil commotion;

30.1.2 failure by any statutory undertaker, utility company, local authority or other like body to carry out works or provide services;

30.1.3 accidental loss or damage to the Works and/or Facilities or any roads servicing the same;

30.1.4 without prejudice to any obligation of Project Co to provide stand-by power facilities in accordance with the Board's Construction Requirements, the Service Level Specification, failure or shortage of power, fuel or transport;

30.1.5 blockade or embargo falling short of Force Majeure;

30.1.6 the discovery of fossils, antiquities and human remains requiring action in accordance with Clause 19 (*Fossils and Antiquities*); or

30.1.7 official or unofficial strike, lockout, go slow or other dispute in each case generally affecting the construction, building maintenance or facilities management industry (or a significant sector of that industry),

provided in each case that such event does not arise (directly or indirectly) as a result of any wilful act or default of the party claiming relief and/or (i) in the case of Project Co claiming relief, any Project Co Party and (ii) in the case of the Board claiming relief, any Board Party.

30.2 Subject to Clauses 30.3 and 30.4, no right of termination shall arise under this Agreement by reason of any failure by a party to perform any of its obligations under this Agreement to the extent that such failure to perform occurs because of the occurrence of a Relief Event (and, to avoid doubt, and without prejudice to Clause 30.9, unless expressly stated to the contrary in this Agreement, it is acknowledged that all other rights and obligations of the parties under this Agreement remain unaffected by the occurrence of a Relief Event).

30.3 Without prejudice to Project Co's rights under Clause 29 (Delay Events), Project Co shall only be relieved of its obligations under Clauses 12 (*The Design, Construction and Commissioning Process*), 13 (*Right of Access of Board's Representative*), 14(*Programme and Dates for Completion*), 17 (*Pre-Completion Commissioning and Completion*) and 29 (*Delay Events*) by Delay Events in accordance with Clause 29 (*Delay Events*).

Mitigation

30.4 Where a party is (or claims to be) affected by a Relief Event:

30.4.1 it shall take all reasonable steps to mitigate the consequences of such an event upon the performance of its obligations under this Agreement, resume performance of its obligations affected by the Relief Event as soon as practicable and use all reasonable endeavours to remedy its failure to perform; and

30.4.2 it shall not be entitled to rely upon the relief afforded to it pursuant to Clause 30.2 of this Agreement to the extent that it is not able to perform, or has not in fact performed, its obligations under this Agreement due to its failure (if any) to comply with its obligations under Clause 30.4.1 above.

30.5 The party claiming relief shall serve written notice on the other party within five (5) Business Days of it becoming aware of the relevant Relief Event. Such initial notice shall give sufficient details to identify the particular event claimed to be a Relief Event.

30.6 A subsequent written notice shall be served by the party claiming relief on the other party within a further five (5) Business Days of the notice referred to in Clause 30.5 which shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including (without limitation) the effect of the Relief Event on the ability of the party to perform, the action being taken in accordance with Clause 30.4, the date of the occurrence of the Relief Event and an estimate of the period of time required to overcome it (and/or its effects).

30.7 The party claiming relief shall notify the other as soon as the consequences of the Relief Event have ceased and of when performance of its affected obligations can be resumed.

30.8 If, following the issue of any notice referred to in Clause 30.6, the party claiming relief receives or becomes aware of any further information relating to the Relief Event (and/or any failure to perform), it shall submit such further information to the other party as soon as reasonably possible.

30.9 To avoid doubt, the occurrence of a Relief Event shall not entitle Project Co to any compensation.

31. FORCE MAJEURE

31.1 For the purposes of this Agreement, Force Majeure means any of the following events or circumstances:

31.1.1 war, civil war, armed conflict or terrorism; or

31.1.12 nuclear contamination unless in any case Project Co and/or any Project Co Party is the source or the cause of the contamination; or

31.1.3 chemical or biological contamination of the Works and/or the Facilities and/or the Site from any of the events referred to in Clause 31.1.1 above; or

31.1.4 pressure waves caused by devices travelling at supersonic speeds,

which directly causes either party to be unable to comply with all or a material part of its obligations under this Agreement.

31.2 Subject to Clauses 31.3 and 31.4 the party claiming relief shall be relieved from liability under this Agreement to the extent that by reason of the Force Majeure it is

not able to perform its obligations under this Agreement. For the avoidance of doubt (but without prejudice to Clause 41(*Termination Resulting from Force Majeure*)) the Board shall not be entitled to terminate this Agreement for a Project Co Event of Default if such Project Co Event of Default arises from a Force Majeure Event.

31.3 Where a party is (or claims to be) affected by an event of Force Majeure:

31.3.1 it shall take all reasonable steps to mitigate the consequences of such an event upon the performance of its obligations under this Agreement, resume performance of its obligations affected by the event of Force Majeure as soon as practicable and use all reasonable endeavours to remedy its failure to perform; and

31.3.2 it shall not be relieved from liability under this Agreement to the extent that it is not able to perform, or has not in fact performed, its obligations under this Agreement due to its failure (if any) to comply with its obligations under Clause 31.3.1.

31.4 Without prejudice to Project Co's rights under Clause 29(*Delay Events*), Project Co shall only be relieved from its obligations under Clauses 12 (*The Design, Construction and Commissioning Process*), 13 (*Right of Access of Board's Representative*), 14 (*Programme and Dates for Completion*) and 29 (*Delay Events*) by Delay Events in accordance with Clause 29 (*Delay Events*).

31.5 The party claiming relief shall serve written notice on the other party within five (5) Business Days of it becoming aware of the relevant event of Force Majeure. Such initial notice shall give sufficient details to identify the particular event claimed to be an event of Force Majeure.

31.6 A subsequent written notice shall be served by the party claiming relief on the other party within a further five (5) Business Days which shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including (without limitation) the effect of the event of Force Majeure on the ability of the party to perform, the action being taken in accordance with Clause 31.3, the date of the occurrence of the event of Force Majeure and an estimate of the period of time required to overcome it (and/or its effects).

31.7 The party claiming relief shall notify the other as soon as the consequences of the event of Force Majeure have ceased and of when performance of its affected obligations can be resumed.

31.8 If, following the issue of any notice referred to in Clause 31.6, the party claiming relief receives or becomes aware of any further information relating to the event of Force Majeure (and/or any failure to perform), it shall submit such further information to the other party as soon as reasonably possible.

31.9 Nothing in this Clause 31 shall affect the Board’s entitlement to make Deductions in the period during which any event of Force Majeure is subsisting.

31.10 The parties shall endeavour to agree any modifications to this Agreement which may be equitable having regard to the nature of an event or events of Force Majeure. Schedule Part 20 (*Dispute Resolution Procedure*) shall not apply to a failure of the Board and Project Co to reach agreement pursuant to this Clause 31.10.

PART 8: CHANGES IN LAW & CHANGES

32. CHANGES IN LAW

General

32.1 Project Co shall take all steps necessary to ensure that the Project Operations are performed in accordance with the terms of this Agreement (including, without limitation, Clause 5.2.1) following any Change in Law.

Relevant Changes in Law

32.2 Subject to Clause 32.4.3(e) and Clause 32.4.3(f) and on the occurrence of any Relevant Change in Law, the parties shall be entitled to seek adjustments to the Annual Service Payments to compensate for any increase or decrease (as the case may be) in the net cost to Project Co of performing the Project Operations. Such adjustments (if any) will be calculated in accordance with and subject to Clause 32.4.

32.3 Relevant Change in Law means any of the following:

32.3.1 the occurrence of any Discriminatory Change in Law having an impact on the cost of performance of the Project Operations;

32.3.2 the occurrence of any Specific Change in Law having an impact on the cost of performance of the Project Operations; or

32.3.3 the occurrence, after the relevant date, of any Change in Law which requires any work of alteration, addition, demolition or extension or variation in the quality or function of the Facilities which is not Maintenance Work or Lifecycle Replacement or work which Project Co would otherwise be required to undertake to comply with its obligations under this Agreement. For the purposes of this Clause 32.3.3, the relevant date shall be the later to occur of the Completion Date and the Actual Completion Date, save where the Actual Completion Date is delayed by a Compensation Event, a Delay Event referred to in Clause 29.3.1 or by a Delay Event referred to in Clause 29.3.7, in which case the relevant date shall be the later to occur of the Completion Date and the date on which the Works would have been completed in accordance with this Agreement had the relevant Compensation Event or Delay Event not occurred,

provided that:

(a) such Change in Law (or, in the case of a Specific Change in Law, change to a NHS Requirement, as the case may be) was not reasonably foreseeable at the date of this Agreement by an experienced contractor performing operations similar to the relevant the Project Operations, on

the basis of draft bills published in Government green or white papers or other Government departmental consultation papers, bills, draft statutory instruments or draft instruments or proposals published in the Official Journal of the European Union, in each case published:

(i) prior to the date of this Agreement; and

(ii) in substantially the same form or having substantially the same effect as the Relevant Change in Law; and

(b) a Change in Law relating to the application for, coming into effect, terms, implementation, repeal, revocation or otherwise of any Planning Permission shall not constitute a Relevant Change in Law.

32.4 On the occurrence of a Relevant Change in Law:

32.4.1 either party may give notice to the other of the occurrence of the Relevant Change in Law;

32.4.2 the parties shall meet within fifteen (15) Business Days of the notice referred to in Clause 32.4.1 to consult and seek to agree the effect of the Relevant Change in Law. If the parties, within ten (10) Business Days of this meeting, have not agreed the occurrence or the effect of the Relevant Change in Law, either party may refer the question of whether a Relevant Change in Law has occurred or the effect of any Relevant Change in Law for resolution in accordance with Schedule Part 20 *(Dispute Resolution Procedure)*; and

32.4.3 within ten (10) Business Days of the agreement or determination referred to in Clause 32.4.2 above, the Board's Representative shall issue an Board Change Notice and the relevant provisions of Schedule Part 16 (*Change Protocol*) shall apply except that:

(a) Project Co may give notice to the Board's Representative that it objects to such an Board Change Notice only on the grounds that the implementation of the Change would not give effect to or comply with the Relevant Change in Law;

(b) the Board shall (i) agree the implementation of the Low Value Change, or (ii) confirm the estimate for the Medium Value Change, or (iii) approve the High Value Change Stage 2 Submission, (as appropriate) in respect of the Change in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*);

(c) the provisions of Clause 11 (*Consents and Planning*

Approval) shall apply;

(d) the Board shall not be entitled to withdraw any Board Change Notice or its agreement as to the implementation of the Low Value Change, confirmation of an estimate for the Medium Value Change or approval of a High Value Change Stage 2 Submission (as appropriate), issued in accordance with this Clause 32.4;

(e) Project Co shall, without prejudice to its general obligation to comply with the terms of this Agreement:

(i) use all reasonable endeavours to mitigate the adverse effects of any Relevant Change in Law and take all reasonable steps to minimise any increase in costs arising from such Relevant Change in Law; and

(ii) use all reasonable endeavours to take advantage of any positive or beneficial effects of any Relevant Change in Law and take all reasonable steps to maximise any reduction in costs arising from such Relevant Change in Law; and

(f) any compensation payable, or reduction to the Annual Service Payments, shall be calculated in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*) provided that:

(i) the amount of any compensation payable; or

(ii) the amount by which the Annual Service Payment is to be reduced,

shall not take into account any amounts incurred or to be incurred as a result of Project Co's failure to comply with Clause 32.4.3(e) above.

General Change in Law

32.5 Either party may give notice to the other of the need for a Change which is necessary in order to enable Project Co to comply with any Change in Law which is not a Relevant Change in Law, in which event:

32.5.1 the parties shall meet within fifteen (15) Business Days to consult and seek to agree the effect of the Change in Law and any Change required as a consequence. If the parties, within ten (10) Business Days of this meeting, have not agreed the occurrence or the effect of

the relevant Change in Law, either party may refer the question of whether a Change in Law has occurred or the effect of the Change in Law for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*); and

32.5.2 within twenty (20) Business Days of the agreement or determination referred to in Clause 32.5.1 above the Board's Representative shall, if it is agreed or determined that a Change is required in order to comply with the Change in Law, issue an Board Change Notice and the relevant provisions of Schedule Part 16 (*Change Protocol*) shall apply except that:

(a) Project Co may give notice to the Board's Representative that it objects to such an Board Change Notice only on the grounds that the implementation of the Change would not give effect to or comply with the Change in Law;

(b) the Board shall (i) agree the implementation of the Low Value Change; or (ii) confirm the estimate for the Medium Value Change; or (iii) approve the High Value Change Stage 2 Submission, (as appropriate) in respect of the Change in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*);

(c) the provisions of Clause 11 (*Consents and Planning Approval*) shall apply;

(d) the Board shall not be entitled to withdraw any Board Change Notice or its (i) agreement as to the implementation of the Low Value Change; or (ii) confirmation of an estimate for the Medium Value Change; or (iii) approval of a High Value Change Stage 2 Submission (as appropriate), issued in accordance with this Clause 32.5 (*General Changes in Law*); and

(e) Project Co shall not be entitled to any payment or other compensation or relief from any performance of its obligations under this Agreement in respect of such Change in Law or associated Change (or the consequences of either).

33. CHANGE PROTOCOL

The provisions of Schedule Part 16 (*Change Protocol*) shall have effect in respect of Changes except as otherwise expressly provided in this Agreement.

PART 9: FINANCIAL

34A BOARD CAPITAL CONTRIBUTIONS[3]

34. PAYMENT

Service Payments

34.1 Project Co shall not be entitled to receive any Monthly Service Payments until the Payment Commencement Date. Subject to the provisions of this Agreement, the Board shall pay Project Co the Monthly Service Payments in respect of each Contract Month following the Payment Commencement Date in accordance with the provisions of Schedule Part 14 (*Payment Mechanism*).

Invoicing and payment arrangements

34.2 The provisions of this Clause 34.2 apply to the issue of invoices in respect of the Monthly Service Payments by Project Co under this Agreement:

34.2.1 On or before the first day of each Contract Month Project Co shall submit to the Board an invoice ("**Monthly Invoice**") aggregating the following:

(a) the Monthly Service Payment for that Contract Month, calculated in accordance with Section 2 (*Calculation of Service Payments*) of Schedule Part 14 (*Payment Mechanism*);

(b) adjustments to reflect previous over-payments and/or under-payments (each adjusted stated separately);

(c) any other amounts due by one party to the other (and where owed by Project Co showing as a negative figure);

(d) any VAT payable in respect of the above amounts;

(e) Not Used;

(f) as a negative figure, in respect of the Monthly Invoice issued during the final Contract Month only, an amount equivalent to twice the monthly average of the Deductions incurred in the previous six Contract Months ("**Estimated Deductions**"),

[3] To be discussed with Bidders during Dialogue.

and setting out the date of the invoice, the due date for payment of the invoice and the account to which payment is to be made together with supporting information that clearly sets out the derivation and calculation of amounts referred to in the Monthly Invoice.

34.2.2 Subject to Clauses 34.2.3 and 34.3 and the submission of the supporting information referred to in Clause 34.2.1, where a Monthly Invoice shows a net amount owed by the Board to Project Co, the Board shall pay the amount of the Monthly Invoice within ten (10) Business Days of its submission and delivery of a valid VAT invoice in respect thereof. Where a Monthly Invoice shows a net amount owed by Project Co to the Board, Project Co shall pay that amount to the Board within ten (10) Business Days of the Monthly Invoice or, at the option of the Board, carry forward that amount to the next Monthly Invoice to reduce amounts which would otherwise be owed by the Board to Project Co.

34.2.3 Within 10 Business Days of the Expiry Date, Project Co shall provide to the Board a Performance Monitoring Report in respect of the final two Contract Months. If the Deductions incurred in the final two Contract Months exceed the Estimated Deductions, Project Co shall pay to the Board an amount equal to the excess within ten (10) Business Days of receipt of an invoice therefor. If the Estimated Deductions exceed the Deductions incurred in the final two Contract Months the Board shall pay to Project Co an amount equal to the excess within ten (10) Business Days of receipt of an invoice therefor.

34.2.4 On or before the tenth day of each Contract Month Project Co shall submit to the Board a Monthly Service Report in respect of the immediately preceding Contract Month. The Monthly Service Report shall set out, in respect of the immediately preceding Contract Month:

(a) details of each and the aggregate amount of all Deductions incurred in relation to Performance Failures;

(b) details of each and the aggregate amount of all Deductions incurred in relation to Availability Failures;

(c) other information detailed in Schedule Part 12 (*Service Requirements*).

34.2.5 The parties shall endeavour to agree the contents of a Monthly Service Report within ten (10) Business Days of its submission in accordance with Clause 34.2.4, failing which either party may refer the matter to the Dispute Resolution Procedure.

Manner of payment

34.3 All payments under this Agreement shall be made in pounds sterling by electronic transfer of funds for value on the day in question to the bank account of the

recipient (located in the United Kingdom) specified in the relevant invoice, quoting the invoice number against which payment is made.

Disputes

34.4 If the Board (acting in good faith) disputes all or any part of the Monthly Service Payments calculated in accordance with Clause 34.2 (*Invoicing and Payment Arrangements*), the undisputed amount of the Monthly Service Payment shall be paid by the Board in accordance with Clause 34.2 (*Invoicing and Payment Arrangements*) and the provisions of this Clause 34.4 shall apply. The parties shall use all reasonable endeavours to resolve the dispute in question within ten (10) Business Days of the dispute arising. If they fail so to resolve it, either party may refer the matter to the Dispute Resolution Procedure. Following resolution of the dispute, any amount agreed or determined to have been payable shall be paid forthwith by the Board to Project Co, together with interest on such amount calculated in accordance with Clause 34.5 (*Late Payments*).

Late Payments

34.5 Each party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not duly made pursuant to the terms of this Agreement on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate and including from the day after the date on which payment was due up to and including the date of payment.

Set-Off

34.6 Subject to Clause 46.12, whenever any sum of money shall be agreed, or determined, as due and payable by Project Co to the Board, such sum may at the Board's discretion be deducted from or applied to reduce the amount of any sum then due, or which at any time afterwards may become due, to Project Co from the Board under this Agreement provided that the Board has given Project Co not less than five (5) Business Days' notice of its intention to deduct or apply such sum.

34.7 Whenever any sum of money shall be agreed, or determined, as due and payable by the Board to Project Co, such sum may at Project Co's discretion be deducted from or applied to reduce the amount of any sum then due, or which at any time afterwards may become due, from Project Co to the Board under this Agreement provided that Project Co has given the Board not less than five (5) Business Days' notice of its intention to deduct or apply such sum.

35. VAT AND CONSTRUCTION INDUSTRY TAX DEDUCTION SCHEME

VAT

35.1 All amounts stated to be payable by either party under this Agreement shall be exclusive of any VAT properly chargeable on any amount.

35.2 Each party shall pay to the other party any VAT properly chargeable on any supply made to it under this Agreement provided that it shall first have received from the other party a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.

35.3 If either party (referred to in this Clause as the "**First Party**") shall consider that any VAT which the other party (referred to in this Clause as the "**Second Party**") claims to be properly chargeable to the First Party in connection with this Agreement is not in fact properly so chargeable, the First Party shall be entitled to require the Second Party to obtain a ruling from the Commissioners for Customs and Excise (or, if relevant, such other body as is charged at the time with the collection and management of VAT) (referred to in this Clause as the "**Commissioners**") as to the VAT (if any) properly so chargeable. The Second Party shall forthwith request the Commissioners for such a ruling.

35.4 The following further provisions shall apply in respect of the application for a ruling in accordance with Clause 35.3:

35.4.1 prior to submitting its request for such a ruling and any further communication to the Commissioners in connection with the obtaining of the ruling, the Second Party shall first obtain the agreement of the First Party to the contents of such request and any such further communication, such agreement not to be unreasonably withheld or delayed;

35.4.2 the Second Party shall provide to the First Party copies of all communications received from the Commissioners in connection with the application for a ruling as soon as practicable after receipt; and

35.4.3 the Second Party shall use all reasonable endeavours (including without limitation the provision of such additional information as the Commissioners may require) to obtain such a ruling as soon as reasonably practicable following the initial request.

35.5 If a ruling is required by the First Party under Clause 35.3, the First Party shall not be obliged to pay the VAT so claimed by the Second Party unless and until a ruling is received from the Commissioners which states that a sum of VAT (the "**VAT Sum**") is properly so chargeable or the Commissioners state that they are not prepared to give any ruling on the matter. In this case, then subject to Clauses 35.6 and 35.7 and provided that the First Party shall first have received a valid tax invoice which complies with the requirements of Part III VAT Regulations 1995 and which states the VAT Sum to be the amount of VAT chargeable to the First Party, the First Party shall pay the VAT Sum (and any interest or penalties attributable to the VAT Sum) to the Second Party.

35.6 If the First Party disagrees with any ruling obtained pursuant to Clause 35.3 by the Second Party from the Commissioners, then the Second Party (provided that it is indemnified to its reasonable satisfaction against all costs and expenses including interest and penalties which it may incur in relation thereto) shall take such action and give such information and assistance to the First Party as the First Party may require to challenge such ruling or otherwise to resist or avoid the imposition of VAT on the relevant supply.

35.7 The following further provisions shall apply if the First Party shall exercise its rights under Clause 35.6:

35.7.1 the action which the First Party shall be entitled to require the Second Party to take shall include (without limitation) contesting any assessment to VAT or other relevant determination of the Commissioners before any VAT tribunal or court of competent jurisdiction and appealing any judgement or decision of any such tribunal or court;

35.7.2 if the Second Party shall be required to pay to or deposit with the Commissioners a sum equal to the VAT assessed as a condition precedent to its pursuing any appeal, the First Party shall, at its election, either pay such sum to the Commissioners on behalf of the Second Party or on receipt of proof in a form reasonably satisfactory to the First Party that the Second Party has paid such sum to or deposited such sum with the Commissioners the First Party shall pay such sum to the Second Party;

35.7.3 save as specifically provided in Clause 35.5, the First Party shall not be obliged to pay to the Second Party any sum in respect of the VAT in dispute to the Second Party or in respect of VAT on any further supplies made by the Second Party to the First Party which are of the same type and raise the same issues as the supplies which are the subject of the relevant dispute unless and until the final outcome of the relevant dispute is that it is either determined or agreed that VAT is properly chargeable on the relevant supply or supplies; and

35.7.4 the Second Party shall account to the First Party for any costs awarded to the Second Party on any appeal, for any sum paid to or deposited with the Commissioners in accordance with Clause 35.7.2 which is repayable to the Second Party and for any interest to which the Second Party is entitled in respect of such sums.

Changes in recoverability of VAT

35.8 Subject to Clause 35.9, if, following a Change in Law, Project Co becomes unable to recover VAT attributable to supplies to be made to the Board by Project Co pursuant to this Agreement, the Board shall ensure that Project Co is left in no better and no worse position than it would have been had such Change in Law not occurred (including but not limited to making such amendments to this Agreement as Project Co and the Board shall agree acting reasonably), provided that Project Co shall use all reasonable endeavours to mitigate the adverse effects of any such Change in Law.

35.9 The provisions of Clause 35.9 shall apply only if (and to the extent that) the Change in Law was not reasonably foreseeable at the date of this Agreement by an experienced contractor performing operations similar to the relevant Works on the basis of draft bills published in Government green or white papers or other Government departmental consultation papers, bills, draft statutory instruments or draft instruments or proposals published in the Official Journal of the European Union, in each case published:

35.9.1 prior to the date of this Agreement; and

35.9.2 in substantially the same form as the Change in Law.

Construction Industry Tax Deduction Scheme

35.10 This Clause 35.10 (*Construction Industry Tax Deduction Scheme*) relates to the Construction Industry Tax Deduction Scheme:

35.10.1 In this Clause 35.10(*Construction Industry Tax Deduction Scheme*) (but not otherwise):

(a) "**the Act**" means the Finance Act 2004;

(b) "**the Regulations**" means the Income Tax (Construction Industry Scheme) Regulations 2005 (SI 2005/2045);

(c) "**the Legislation**" means Chapter 3 Part 3 of the Act and the Regulations, taken together;

(d) "**Contractor**" means a person who is a contractor for the purposes of Chapter 3 Part 3 of the Act; and

(e) "**sub-contractor**" means a person who is a sub-contractor for the purposes of Chapter 3 Part 3 of the Act.

35.10.2 Each of the Board and Project Co shall comply with the Legislation.

35.10.3 f any payment due from the Board to Project Co under this Agreement is a contract payment under section 60(1) of the Act, then the Board, as Contractor, shall (not later than fifteen (15) Business days before the first such payment is due to be made) verify, in accordance with paragraph 6 of the Regulations, whether the sub-contractor is registered for gross payment or for payment under deduction or is not registered under Chapter 3 Part 3 of the Act.

35.10.4 If any payment due from the Board to Project Co under this Agreement is a contract payment under section 60(1) of the Act, then:

(a) if Project Co is registered for gross payment under section 63(2) of the Act, the Board shall make a payment to Project Co without any deduction;

(b) if Project Co is not registered for gross payments under section 63(2) of the Act, the Board shall make a payment to

Project Co, subject to the deduction of the relevant percentage in accordance with section 61(1) of the Act, and thereupon Clause 35.10.6 below shall apply.

35.10.5 If any dispute arises between the Board and Project Co as to whether any payment due by the Board to Project Co under this Agreement is or is not a contract payment by virtue of the exemption in Regulation 23 of the Regulations, the parties will jointly apply to HM Revenue and Customs for a written ruling and until such ruling is received it shall be assumed that such payment is a contract payment and the provisions of Clause 35.10 (*Construction Industry Tax Deduction Scheme*) shall apply accordingly.

35.10.6 The Board shall be entitled to make a deduction at the rate specified in section 61(1) of the Act or at such other rate as may be in force from time to time from the whole of any payment to Project Co (and not just that part of such payment which does not represent the direct cost to Project Co or any other person of materials used or to be used in carrying out the construction operations to which the relevant payment relates) unless prior to making such payment the Board shall have received written confirmation from HM Revenue and Customs (obtained by and at the expense of Project Co) in a form which is reasonably satisfactory to the Board directing the Board to make the deduction against only a specified amount or proportion of any such payment to Project Co.

35.10.7 Where any error or omission has occurred in calculating or making any payment under this Clause 35.10 (*Construction Industry Tax Deduction Scheme*) then:

(a) in the case of an over deduction, the Board shall correct that error by repayment of the sum over deducted to Project Co; and

(b) in the case of an under deduction, Project Co shall correct that error or omission by repayment of the sum under deducted to the Board.

35.10.8 The Board shall send promptly to H M Revenue & Customs any returns required by the Legislation, and shall provide to Project Co a payment statement (where appropriate) and/or such other information as may be required by the Legislation in relation to any contract payment.

35.10.9 If compliance with this Clause 35.10 involves the Board or Project Co in not complying with any other of the terms of this Agreement, then the provisions of this Clause shall prevail.

36. PAYMENT OF SURPLUSES AND COMPLIANCE WITH NPD REQUIREMENTS

Project Co shall:

36.1 subject to the provisos, obligations and restrictions referred to in Article [3.1.2] of the Articles of Association and the right to postpone payments referred to in Article [3.2] of the Articles of Association, pay to the Board (or to such other party as the Board may, in its absolute discretion direct), within 30 Business Days of each Surplus Payment Date, the Surplus available as at the relevant Surplus Payment Date as a rebate of the Monthly Service Payments for the Contract Year most recently ended prior to the relevant Surplus Payment Date; and

36.2 comply with the NPD Requirements at all times throughout the Project Term.

37. FINANCIAL MODEL

37.1 Unless otherwise agreed between the parties, any amendments to the Financial Model shall reflect, be consistent with and be made only in accordance with the provisions of this Agreement, and shall in all cases be subject to the prior written approval of the Board (such approval not to be unreasonably withheld or delayed). In the event that the parties fail to agree any proposed amendments to the Financial Model, the matter shall be referred for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

37.2 Following any amendment of the Financial Model in accordance with this Agreement, Project Co shall promptly deliver a copy of the revised Financial Model to the Board in the same form as the original form (or such other form as may be agreed by the parties from time to time).

38. RECORDS AND OPEN BOOK ACCOUNTING

Records and Reports

The provisions of Schedule Part 19 (*Record Provisions*) shall apply to the keeping of records and the making of reports.

PART 10: TERMINATION

39. BOARD EVENTS OF DEFAULT

39.1 For the purposes of this Agreement, Board Events of Default means any of the following events or circumstances:

39.1.1 the Board is in material breach of its obligations under Clause 9 (*Nature of Land Interests*) (other than as a consequence of a breach by Project Co of its obligations under this Agreement) and such breach materially adversely affects the ability of Project Co to perform its material obligations under this Agreement for a continuous period of not less than thirty (30) Business Days; or

30.1.2 the Board fails to pay any sum or sums due to Project Co under this Agreement (which sums are not in dispute) which, either singly or in aggregate, exceed(s) the amount of the Monthly Service Payment from time to time and such failure continues for thirty (30) Business Days from receipt by the Board of a notice of non payment from Project Co;

39.1.3 the Board is in breach of its obligations under Clause 57.4; or

39.1.4 an Adverse Law or a Proposal for an Adverse Law being made.

Project Co's options

39.2 On the occurrence of an Board Event of Default, or within a reasonable time after Project Co becomes aware of the same, and while the same is still subsisting, Project Co may, at its option:

39.2.1 in respect of execution of the Works, suspend performance by it of its obligations under this Agreement until such time as the Board shall have demonstrated to the reasonable satisfaction of Project Co that it is capable of performing, and will perform, its obligations under this Agreement; or

39.2.2 serve notice on the Board (or such other party as may be notified in advance in writing by the Board to Project Co) of the occurrence (and specifying details) of such Board Event of Default. If the relevant matter or circumstance has not been rectified or remedied by the Board (or otherwise) in respect of Clause 39.1.1, or Clause 39.1.3 within sixty (60) Business Days of such notice, and in respect of Clause 39.1.2 within thirty (30) Business Days of such notice, Project Co may serve a further notice on the Board (or its substitute notified in accordance with this Clause 39.2.2) terminating this Agreement with immediate effect.

39.3 Project Co shall not exercise or purport to exercise any right to terminate this Agreement (or accept any repudiation of this Agreement) except as expressly set out in this Agreement.

40. PROJECT CO EVENT OF DEFAULT

Project Co Event of Default

40.1 For the purposes of this Agreement, Project Co Event of Default means any of the following events or circumstances:

Insolvency

40.1.1 the occurrence of any of the following events in respect of Project Co, namely:

(a) any arrangement or composition with or for the benefit of creditors (including any voluntary arrangement as defined in the Insolvency Act 1986) being entered into by or in relation to Project Co;

(b) a receiver, administrator, administrative receiver or other encumbrancer taking possession of or being appointed over, or any distress, execution or other process being levied or enforced (and not being discharged within ten (10) Business Days) upon, the whole or any material part of the assets of Project Co;

(c) Project Co ceasing to carry on business;

(d) a petition being presented (and not being discharged within twenty (20) Business Days), or a resolution being passed or an order being made for the administration or the winding up, bankruptcy or dissolution of Project Co[; or

(e) if Project Co shall suffer any event analogous to the events set out in Clauses 40.1.1(a) to (d) in any jurisdiction in which it is incorporated or resident];

Long stop

40.1.2 Project Co failing to achieve the Actual Completion Date within a period of eighteen (18) months after the Completion Date;

Default

40.1.3

(a) Project Co committing a material breach of its obligations under this Agreement which has a material and adverse effect on the delivery of the Board Services (other than as a consequence of a breach by the Board of its obligations under this Agreement);

(b) Project Co wilfully breaches Schedule Part 23 (*Refinancing*);

40.1.4 Project Co abandoning this Agreement;

Health and safety

40.1.5 at any time after the Actual Completion Date Project Co committing a material breach of its obligations under this Agreement (other than as a consequence of a breach by the Board of its obligations under this Agreement) which results in the criminal investigation, prosecution and conviction of Project Co or any Project Co Party or the Board under the Health and Safety Regime (an "H&S Conviction") provided that an H&S Conviction of a Project Co Party or the Board shall not constitute a Project Co Event of Default if, within ninety (90) Business Days from the date of the H&S Conviction (whether or not the H&S Conviction is subject to an appeal or any further judicial process), the involvement in the Project Operations of each relevant Project Co Party (which in the case of an individual director, officer or employee shall be deemed to include the Project Co Party of which that person is a director, officer or employee) is terminated and a replacement is appointed by Project Co in accordance with Clause 57.5 (Sub contracting);

In determining whether to exercise any right of termination or right to require the termination of the engagement of a Project Co Party pursuant to this Clause 40.1.5, the Board shall:

(a) act in a reasonable and proportionate manner having regard to such matters as the gravity of any offence and the identity of the person committing it; and

(b) give all due consideration, where appropriate, to action other than termination of this Agreement;

Change in Control

40.1.6 the occurrence of any Change in Control which is prohibited by Clause 58 (*Ownership Information and Changes in Control*);

Assignation

40.1.7 Project Co failing to comply with the provisions of Clauses 57.2 or 57.5;

Deductions

40.1.8 in each of any three Contract Months in any six consecutive Contract Months Project Co has suffered Deductions equal to or greater than 0.123% percent of the Annual Service Payment for the current Contract Year; or

Warning Notices

40.1.9 Project Co is awarded a total of four (4) or more Warning Notices in any period of twelve (12) consecutive months; or

Payment

40.1.10 Project Co failing to pay any sum or sums due to the Board under this Agreement (which sums are not in dispute) which, either singly or in aggregate, exceed(s) one hundred and fifty thousand pounds (£150,000) (index linked) and such failure continues for sixty (60) Business Days from receipt by Project Co of a notice of non payment from the Board; or

Insurance

40.1.11 a breach by Project Co of its obligation to take out and maintain the insurances required by Clauses 53.1 and 53.2.

Notification

40.2 Project Co shall notify the Board of the occurrence, and details, of any Project Co Event of Default and of any event or circumstance which is likely, with the passage of time or otherwise, to constitute or give rise to a Project Co Event of Default, in either case promptly on Project Co becoming aware of its occurrence.

Board's options

40.3 On the occurrence of a Project Co Event of Default, or within a reasonable time after the Board becomes aware of the same, and while the same is subsisting, the Board may:

40.3.1 in the case of the Project Co Events of Default referred to in Clauses 40.1.1 (*Insolvency*), 40.1.2 (*Long Stop*), 40.1.3(b), 40.1.5 (*Health and Safety*), 40.1.6 (*Change in Control*), 40.1.7 (*Assignation*), 40.1.8 (*Deductions*) 40.1.9 (*Warning Notices*), or 40.1.10 (*Payment*),

terminate this Agreement in its entirety by notice in writing having immediate effect;

40.3.2 in the case of any Project Co Event of Default referred to in Clause 40.1.3(a) and 40.1.4, serve notice of default on Project Co requiring Project Co at Project Co's option either:

(a) to remedy the Project Co Event of Default referred to in such notice of default (if the same is continuing) within twenty (20) Business Days of such notice of default; or

(b) to put forward within twenty (20) Business Days of such notice of default a reasonable programme (set out, if appropriate, in stages) for remedying the Project Co Event of Default. The programme shall specify in reasonable detail the manner in, and the latest date by, which such Project Co Event of Default is proposed to be remedied (Project Co shall only have the option of putting forward a programme in accordance with this Clause40.3.2(b) if it first notifies the Board within ten (10) Business Days of such notice of default that it proposes to do so); and

40.3.3 in the case of any Project Co Event of Default referred to in Clause 40.1.11 *(Insurance)* serve notice of default on Project Co requiring Project Co to remedy the Project Co Event of Default (if the same is continuing) within twenty (20) Business Days of such notice of default.

Remedy provisions

40.4 Where Project Co puts forward a programme in accordance with Clause 40.3.2(b), the Board shall have twenty (20) Business Days from receipt of the same within which to notify Project Co (acting reasonably) that it does not accept the programme, failing which the Board shall be deemed to have accepted the programme. Where the Board notifies Project Co that it does not accept the programme as being reasonable, the parties shall endeavour within the following five (5) Business Days to agree any necessary amendments to the programme put forward. In the absence of agreement within five (5) Business Days, the question of whether the programme (as the same may have been amended by agreement) will remedy the Project Co Event of Default in a reasonable manner and within a reasonable time period (and, if not, what would be a reasonable programme) may be referred by either party for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

40.5 If:

40.5.1 the Project Co Event of Default notified in a notice of default served under Clause 40.3.2 or Clause 40.3.3 (as the case may be) is not remedied before the expiry of the period referred to in Clause 40.3.2(a) or Clause 40.3.3 (as appropriate); or

40.5.2 where Project Co puts forward a programme pursuant to Clause 40.3.2(b) which has been accepted by the Board or has been determined to be reasonable and Project Co fails to achieve any element of the programme or the end date for the programme (as the case may be); or

40.5.3 any programme put forward by Project Co pursuant to Clause 40.3.2(b) is rejected by the Board as not being reasonable, and the Dispute Resolution Procedure does not find against that rejection,

then the Board may terminate this Agreement in its entirety by written notice to Project Co with immediate effect. Provided that for the purposes of Clause 40.5.2 if Project Co's performance of the programme is adversely affected by the occurrence of Force Majeure, a Relief Event or an Excusing Cause then, subject to Project Co complying with the mitigation and other requirements in this Agreement concerning Force Majeure, a Relief Event or an Excusing Cause (as the case may be), the time for performance of the programme or any relevant element of it shall be deemed to be extended by a period equal to the delay caused by Force Majeure, the Relief Event or the Excusing Cause (as the case may be) which is agreed by the parties or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

Board's costs

40.6 Project Co shall reimburse the Board for all reasonable costs incurred by the Board in exercising any of its rights pursuant to this Clause 40 (*Project Co Event of Default*) (including, without limitation, any relevant increased administrative expenses). The Board shall take reasonable steps to mitigate such costs.

40.7 The Board shall not exercise, or purport to exercise, any right to terminate this Agreement except as expressly set out in this Agreement. The rights of the Board (to terminate or otherwise) under this Clause are in addition (and without prejudice) to any right which the Board may have to claim the amount of loss or damage suffered by the Board on account of the acts or omissions of Project Co (or to take any action other than termination of this Agreement).

41. TERMINATION RESULTING FROM FORCE MAJEURE

If, in the circumstances referred to in Clause 31 (*Force Majeure*), the parties have failed to reach agreement on any modification to this Agreement pursuant to Clause 31 (*Force Majeure*) within six (6) calendar months of the date on which the party affected serves notice on the other party in accordance with Clause 31 (*Force Majeure*) either party may at any time afterwards terminate this Agreement by written notice to the other party having immediate effect provided always that the effects of the relevant event of Force Majeure continues to prevent either party from performing any material obligation under this Agreement.

42. BOARD VOLUNTARY TERMINATION

42.1 The Board shall be entitled to terminate this Agreement at any time on six (6)

months' written notice to Project Co. In the event of notice being given by the Board in accordance with this Clause, the Board shall, at any time before the expiration of such notice, be entitled to direct Project Co, where the Works (or any part or parts of the Works) or any Service (or any elements of any Service) have not been commenced, to refrain from commencing any such Works or Services (or to procure the same).

43. EXPIRY

This Agreement shall terminate automatically on the Expiry Date unless it shall have been terminated earlier in accordance with the provisions of this Agreement. To avoid doubt, Project Co shall not be entitled to any compensation for termination of this Agreement on the Expiry Date.

44. CORRUPT GIFTS AND PAYMENTS

Prohibition on corruption

44.1 The term "**Prohibited Act**" means:

44.1.1 offering, giving or agreeing to give to the Board or any other public body or to any person employed by or on behalf of the Board or any other public body any gift or consideration of any kind as an inducement or reward:

(a) for doing or not doing (or for having done or not having done) any act in relation to the obtaining or performance of this Agreement or any other agreement with the Board or any other public body; or

(b) for showing or not showing favour or disfavour to any person in relation to this Agreement or any other agreement with the Board or any other public body;

44.1.2 entering into this Agreement or any other agreement with the Board or any other public body in connection with which commission has been paid or has been agreed to be paid by Project Co or on its behalf, or to its knowledge, unless before the relevant agreement is entered into particulars of any such commission and of the terms and conditions of any such agreement for the payment of such commission have been disclosed in writing to the Board;

44.1.3 committing any offence:

(a) under the Bribery Act 2010;

(b) under any Law creating offences in respect of fraudulent acts;

or

(c) at common law, in respect of fraudulent acts in relation to this Agreement or any other agreement with the Board or any other public body; or

44.1.4 defrauding or attempting to defraud or conspiring to defraud the Board or any other public body.

Warranty

44.2 Project Co warrants that in entering into this Agreement it has not committed any Prohibited Act.

Remedies

44.3 If Project Co or any Project Co Party (or anyone employed by or acting on behalf of them) commits any Prohibited Act, then the Board shall be entitled to act in accordance with Clauses 44.3.1 to 44.3.6 below:

44.3.1 if a Prohibited Act is committed by Project Co or by an employee not acting independently of Project Co, then the Board may terminate this Agreement with immediate effect by giving written notice to Project Co;

44.3.2 if the Prohibited Act is committed by an employee of Project Co acting independently of Project Co, then the Board may give written notice to Project Co of termination and this Agreement will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co terminates the employee's employment and (if necessary) procures the performance of the relevant part of the Works and/or Services by another person;

44.3.3 if the Prohibited Act is committed by a Contracting Associate or by an employee of that Contracting Associate not acting independently of that Contracting Associate then the Board may give written notice to Project Co of termination and this Agreement will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co terminates the relevant Sub-Contract and procures the performance of the relevant part of the Works and/or Services by another person, where relevant, in accordance with Clause 57 (*Assignation and Sub-Contracting*);

44.3.4 if the Prohibited Act is committed by an employee of a Contracting Associate acting independently of that Contracting Associate, then the Board may give notice to Project Co of termination and this Agreement will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co procures the termination of the employee's employment and (if necessary) procures the performance

of the relevant part of the Works and/or Services by another person;

44.3.5 if the Prohibited Act is committed by any other person not specified in Clauses 44.3.1 to 44.3.4 above, then the Board may give notice to Project Co of termination and this Agreement will terminate unless within twenty (20) Business Days Project Co procures the termination of such person's employment and of the appointment of their employer (where the employer is not the Board and where such person is not employed by Project Co or the Contracting Associate) and (if necessary) procures the performance of the relevant part of the Works and/or Services by another person; and

44.3.6 any notice of termination under this Clause shall specify:

(a) the nature of the Prohibited Act;

(b) the identity of the party who the Board believes has committed the Prohibited Act; and

(c) the date on which this Agreement will terminate in accordance with the applicable provisions of this Clause.

44.4 Without prejudice to its other rights or remedies under this Clause, the Board shall be entitled to recover from Project Co:

44.4.1 the amount or value of any such gift, consideration or commission; and

44.4.2 any other loss sustained in consequence of any breach of this Clause.

Permitted payments

44.5 Nothing contained in this Clause shall prevent Project Co from paying any proper commission or bonus to its employees within the agreed terms of their employment.

Notification

44.6 Project Co shall notify the Board of the occurrence (and details) of any Prohibited Act promptly on Project Co becoming aware of its occurrence.

Interim Management

44.7 Where Project Co is required to replace any Sub Contractor pursuant to this

Clause, the provisions of Clause 57.9 shall apply and be construed accordingly.

45. BREACH OF THE NPD REQUIREMENTS

Breach by Project Co

45.1 If Project Co breaches Clause 36 (*Payment of Surpluses and Compliance with NPD Requirements*) then the Board may terminate this Agreement, at any time within 18 months of becoming aware of such breach, in accordance with Clause 45.2 below. The Board shall inform Project Co of the occurrence of any such breach as soon as reasonably practicable after becoming aware of the breach, provided that failure by the Board to so inform Project Co shall not constitute a breach of this Agreement by the Board and shall not prejudice the exercise of its rights under Clause 45.2.

Notice of Termination

45.2 If the Board wishes to terminate this Agreement under this Clause 45 (*Breach of the NPD Requirements*), it must first give Project Co notice stating:

45.2.1 that the Board is terminating this Agreement under this Clause 45 *(Breach of the NPD Requirements)*; and

45.2.3 that this Agreement will terminate on the date falling 30 Business Days after the date of receipt of the notice.

and this Agreement will terminate on the day falling 30 Business Days after Project Co receives the notice unless Project Co demonstrates to the satisfaction of the Board (acting reasonably) that such breach was caused by an administrative error of Project Co and Project Co rectifies such breach within 10 Business Days of receipt of such notice, in which the notice shall be deemed not to have been served.

46. COMPENSATION ON TERMINATION

46.1 If this Agreement is terminated pursuant to Clause 41 (*Termination Resulting from Force Majeure*), then the Board shall pay compensation to Project Co in accordance with Section 3 (*Consequence of Termination for Force Majeure*) of Schedule Part 17 (*Compensation on Termination*).

46.2 If this Agreement is terminated pursuant to Clause 40 (*Project Co Events of Default*) other than pursuant to Clause 40.1.3(b), then the Board shall pay compensation to Project Co in accordance with Section 2 (*Compensation on Project Co Default*) of Schedule Part 17 (*Compensation on Termination*).

46.3 If this Agreement is terminated pursuant to Clause 39 (*Board Events of Default*), then the Board shall pay compensation to Project Co in accordance with Section 1

(*Compensation on Termination for Board Default and Voluntary Termination*) of Schedule Part 17(*Compensation on Termination*).

46.4 If this Agreement is terminated pursuant to Clause 42 (*Voluntary Termination*), then the Board shall pay compensation to Project Co in accordance with Section1 (*Compensation on Termination for Board Default and Voluntary Termination*) of Schedule Part 17 (*Compensation on Termination*).

46.5 If this Agreement is terminated pursuant to Clause 40.1.3(b), Clause 44.3 or Clause 45 (*Breach of the* NPD *Requirements*) then the Board shall pay compensation to Project Co in accordance with Section 4 (*Corrupt Gifts and Fraud or Breach of Refinancing or Breach of NPD Requirements*) of Schedule Part 17 (*Compensation on Termination*).

Tax equalisation

46.6 Where a payment is to be made to Project Co pursuant to Clause 46.1, Clause 46.3, Clause 46.4 or Clause 46.5 (a "**Compensation Payment**") and Project Co has a Relevant Tax Liability in respect of such payment, then the amount of the Compensation Payment to be made by the Board to Project Co shall be increased so as to ensure that Project Co is in the same position (after account is taken of the Relevant Tax Liability) as it would have been in had it not been for such Relevant Tax Liability.

46.7 For the purposes of this Clause 46 (*Compensation on Termination*):

46.7.1 "**Relief**" shall mean any relief, allowance or deduction in computing profits or tax or a credit against, or right to repayment of, tax granted by or pursuant to any legislation for tax purposes;

46.7.2 a "**Relief derived from the Project**" is a Relief which arises in connection with the Project and includes any Relief arising as a consequence of the distribution of any amount obtained in respect of the Project (other than a Compensation Payment) by Project Co (whether by way of interest, dividend or other distribution, repayment, reduction or redemption of capital or indebtedness or return of assets or otherwise); and

46.7.3 Project Co shall be regarded as having a "**Relevant Tax Liability**" in respect of a Compensation Payment to the extent that:

(a) it has a liability for tax in consequence of or in respect of a Compensation Payment ("**Actual Liability**"); or

(b) it would have had a liability for tax within paragraph (a) above but for the utilisation of a Relief other than a Relief derived from the Project ("**Deemed Liability**").

46.8 In determining whether Project Co has a Relevant Tax Liability by reason of a Compensation Payment, it should be assumed that any Reliefs derived from the Project which are available to Project Co (or would have been so available but for a surrender by Project Co of such Reliefs by way of group or consortium relief) for offset against the Compensation Payment, or against tax in relation to the same, have been so offset to the maximum extent possible.

46.9 Project Co shall keep the Board fully informed of all negotiations with the HM Revenue and Customs in relation to any Relevant Tax Liability in respect of a Compensation Payment. Project Co shall not agree, accept or compromise any claim, issue or dispute relating to such Relevant Tax Liability without the prior written consent of the Board, which shall not be unreasonably withheld or delayed. The Board may, if it considers in good faith that such action is justified having regard to the likely costs and benefits, direct Project Co to resist, appeal, defend or otherwise dispute the Relevant Tax Liability in respect of the Compensation Payment, provided that the cost of any such dispute (including any interest or penalties incurred) shall be at the Board's expense. However, if Project Co obtains professional advice from an independent person with relevant expertise that any resistance, appeal, defence or other mode of dispute is not likely to result in any more beneficial position in relation to the Relevant Tax Liability, Project Co shall be entitled not to continue with such resistance, appeal, defence or other mode of dispute. Where any resistance, appeal, defence or other mode of dispute results in a more beneficial position in relation to the Relevant Tax Liability, an adjustment will be made to the amount payable under Clause 46.6 to reflect such outcome.

46.10 Any increase in the amount of a Compensation Payment which is payable under Clause 46.6 shall be paid on the later of five (5) Business Days after a demand therefore (together with evidence in sufficient detail for the Board to satisfy itself of the Relevant Tax Liability and its calculation) is made by Project Co and:

46.10.1 in the case of an Actual Liability, five (5) Business Days before the date on which the relevant tax must be paid to the tax Board in order to avoid incurring interest and penalties; and

46.10.2 in the case of a Deemed Liability, five (5) Business Days before the date on which tax which would not have been payable but for the utilisation of the relevant Relief must be paid in order to avoid incurring interest or penalties (whether by Project Co or otherwise) and, for the purposes of determining when the Relief would otherwise have been utilised, Reliefs shall be regarded as utilised in the order in which they arise.

46.11 The Board shall have the right to pay the amount payable under Clause 46.6 direct to HM Revenue and Customs in satisfaction of the relevant tax due by Project Co.

Rights of Set-Off

46.12 To avoid doubt, the Board's obligations to make any payment of compensation to Project Co pursuant to this Clause are subject to the Board's rights under Clause 34.6, save that the Board agrees not to set-off any amount agreed or determined as due and payable by Project Co to the Board against any payment of

termination compensation (whether payable as a lump sum or in instalments) under Clauses 46.1, 46.3, 46.4 or 46.5, except to the extent that such termination payment exceeds the Base Senior Debt Termination Amount or the Revised Senior Debt Termination Amount (as the case may be) at that time.

Full and final settlement

46.13 Subject to the provisions of paragraph 2.1 of Section 5 (*General*) of Schedule Part 17 (*Compensation on Termination*):

46.13.1 any compensation paid pursuant to this Clause shall be in full and final settlement of any claim, demand and/or proceedings of Project Co in relation to any termination of this Agreement and/or any Project Document (and the circumstances leading to such termination) and Project Co shall be excluded from all other rights and remedies in respect of any such termination; and

46.13.2 the compensation payable (if any) pursuant to this Clause 46 (*Compensation on Termination*) above shall be the sole remedy of Project Co and Project Co shall not have any other right or remedy in respect of such termination.

47. CONSEQUENCES OF TERMINATION

Continued performance

47.1 Subject to any exercise by the Board of its rights to perform, or to procure a third party to perform, the obligations of Project Co, the parties shall continue to perform their obligations under this Agreement, notwithstanding the giving of any notice of default or notice of termination, until the Termination Date.

Transfer to Board of Assets, Contracts etc.

47.2 On the service of a notice of termination in accordance with this Agreement for any reason:

47.2.1 if prior to the Actual Completion Date, in so far as any transfer shall be necessary fully and effectively to transfer property to the Board, Project Co shall transfer to, and there shall vest in, the Board, such part of the Works and/or the Facilities as shall have been constructed and such items of the Plant and Equipment as shall have been procured by Project Co if the Board so elects:

47.2.2 all goods and all materials on or near to the Site and/or Off-Site not yet incorporated in the Works shall remain available to the Board for the purposes of completing the Works and if the cost of such goods and materials has not been reflected in the payment of any compensation pursuant to Schedule Part 17 (*Compensation on*

Termination), subject to the payment by the Board (determined as between a willing vendor and willing purchaser with any disputes determined pursuant to Clause 56 (*Dispute Resolution Procedure*));

47.2.3 the construction plant shall remain available to the Board for the purposes of completing the Works, subject to payment of the Contractor's reasonable charges;

47.2.4 Project Co shall hand over to, and there shall vest in, the Board, free from any Encumbrances (other than any created on or by or against the Board), the Facilities, the Retained Estate Handback Infrastructure and Equipment (which in the case of the termination of this Agreement in accordance with Clause 43 (*Expiry*) shall be in the state required in accordance with Schedule Part 18 (*Handback Procedure*));

47.2.5 if the Board so elects, Project Co shall procure that any of the Construction Contract, the Service Contracts and/or the Independent Tester Contract shall be novated or assigned to the Board, provided that where termination occurs under Clause 39 (*Board Events of Default*) the consent of the Contractor, the Service Provider or the Independent Tester (as the case may be) shall be required;

47.2.6 Project Co shall, or shall procure that any Contracting Associate shall (as the case may be), offer to sell to the Board at a fair value (determined as between a willing vendor and willing purchaser, with any disputes as to such fair value being determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*), free from any Encumbrance all or any part of the stocks of material and other assets, road vehicles, spare parts and other moveable property owned by Project Co or any of its Contracting Associates and reasonably required by the Board in connection with the operation of the Facilities or the provision of the Services;

47.2.7 Project Co shall deliver to the Board (as far as not already delivered to the Board) three (3) hard copies and one (1) electronic copy of complete sets of:

(a) "as built drawings" showing all alterations made to the Facilities since the commencement of operation of the Facilities; and

(b) maintenance, operation and training manuals for the Facilities and the Retained Estate Handback Infrastructure;

47.2.8 Project Co shall use all reasonable endeavours to procure that the benefit of all manufacturer's warranties in respect of mechanical and electrical plant and equipment used or made available by Project Co under this Agreement and included in the Facilities and the Retained Estate Handback Infrastructure are assigned, or otherwise transferred, to the Board with full title guarantee; and

47.2.9 Project Co shall deliver to the Board in relation to the employees employed by Project Co and/or Service Providers and] the records referred to in Clause 38 (*Records and Open Book* Accounting) except where such documents are required by Law to be retained by Project Co or its Contracting Associates (in which case complete copies shall be delivered to the Board).

47.3 Project Co shall ensure that provision is made in all contracts of any description whatsoever to ensure that the Board will be in a position to exercise its rights, and Project Co will be in a position to comply with its obligations, under Clause 47.2.

Transitional arrangements

47.4 On the termination of this Agreement for any reason, for a reasonable period both before and after any such termination, Project Co shall have the following duties:

47.4.1 Project Co shall co-operate fully with the Board and any successor providing to the Board services in the nature of any of the Services or any part of the Services in order to achieve a smooth transfer of the manner in which the Board obtains services in the nature of the Services and to avoid or mitigate in so far as reasonably practicable any inconvenience or any risk to the health and safety of the employees of the Board and members of the public;

47.4.2 Project Co shall as soon as practicable remove from the Site and/or Off-Site, all property not acquired by the Board pursuant to Clause 47.2 (or not belonging to the Board or any Board Party) and if it has not done so within forty (40) Business Days after any notice from the Board requiring it to do so the Board may (without being responsible for any loss, damage, costs or expenses) remove and sell any such property and shall hold any proceeds less all costs incurred to the credit of Project Co;

47.4.3 Project Co shall forthwith deliver to the Board's Representative:

(a) any security passwords, access codes and other keys to the Facilities and the Retained Estate Handback Infrastructure and the equipment; and

(b) without prejudice to Clause 55 (*Intellectual Property*), any copyright licences for any computer programmes (or licences to use the same) necessary for the operation of the Facilities and the Retained Estate Handback Infrastructure (but excluding computer programmes, which have been developed or acquired by a Service Provider for its own use and not solely for the purposes of provision of any of the Services at the Facilities or the assignation or transfer of which is otherwise restricted); and

47.4.5 Project Co shall as soon as practicable vacate the Site and Off-Site ,

and (without prejudice to Schedule Part 18 (*Handback* Procedure)) shall leave the Site and Off-Site and the Facilities and the Retained Estate Handback Infrastructure, in a safe, clean and orderly condition.

47.5 If the Board wishes to conduct a competition prior to the Expiry Date with a view to entering into an agreement for the provision of services (which may or may not be the same as, or similar to, the Services or any of them) following the expiry of this Agreement, Project Co shall co-operate with the Board fully in such competition process including (without limitation) by:

47.5.1 providing any information which the Board may reasonably require to conduct such competition but, to avoid doubt, information which is commercially sensitive to Project Co shall not be provided (and, for the purpose of this Clause 47.5.1 commercially sensitive shall mean information which would if disclosed to a competitor of Project Co give that competitor a competitive advantage over Project Co and thereby prejudice the business of Project Co but shall, to avoid doubt, exclude any information to be disclosed in terms of Clause 25 (*TUPE and Employment matters*)); and

47.5.2 assisting the Board by providing all (or any) participants in such competition process with access to the Site, Off-Site and the Facilities and the Retained Estate Handback Infrastructure.

Continuing Obligations

47.6 Save as otherwise expressly provided in this Agreement or as already taken into account in the calculation of any termination sum or other payment of compensation on termination pursuant to this Agreement:

47.6.1 termination of this Agreement shall be without prejudice to any accrued rights and obligations under this Agreement as at the date of termination; and

47.6.2 termination of this Agreement shall not affect the continuing rights and obligations of Project Co and the Board under Clauses 10 (*The Site*), 25 (*TUPE and Employment Matters*), 31 (*Force Majeure*), 34 (*Payment*), 35 (*Taxation*), 36 (*Payment of Surpluses and compliance with NPD Requirements*), 37 (*Custody of Financial Model*), 38 (*Records and Reports*), 41 (*Termination Resulting from Force Majeure*), 42 (*Board Voluntary Termination*), 44 (*Corrupt Gifts and Payments*), 46 (*Compensation on Termination*), 47.2, 47.4 and 47.5 (*Transitional Arrangements*), 49 (*Indemnities and Liability*), 53 (*Insurance*), 54 (*Exclusions and Limits on Liability*), 55 (*Intellectual Property*), 56 (*Dispute Resolution Procedure*), 59 (*Mitigation*), 61(*Confidentiality*), 64 (*Notices*) and Clause 74 (*Governing Law and Jurisdiction*) or under any other provision of this Agreement which is expressed to survive termination or which is required to give effect to such termination or the consequences of such termination.

48. HANDBACK PROCEDURE

The provisions of Schedule Part 18 (*Handback Procedure*) shall apply to the handback of the Facilities to the Board on expiry of this Agreement.

PART 11: INDEMNITIES, WARRANTIES & INSURANCE

49. INDEMNITIES

Project Co indemnities to Board

49.1 Project Co shall indemnify and keep the Board indemnified at all times from and against all Direct Losses sustained by the Board in consequence of:

49.1.1 any claim for, or in respect of, the death and/or personal injury of any employee of, or person engaged by, Project Co or any Project Co Party notwithstanding any act or omission of the Board or any Board Party;

49.1.2 any claim for, or in respect of, the death and/or personal injury of any third party (other than a person referred to in Clause 49.2.1) arising out of, or in the course of, the Project Operations, save to the extent caused (or contributed to) by any Unreasonable Act by the Board or any Board Party, breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party;

49.1.3 any physical loss of or damage to Board Assets arising by reason of any act or omission of Project Co or any Project Co Party, save to the extent that such loss or damage arises out of the breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party; and

49.1.4 any loss of or damage to property or assets of any third party arising by reason of any act or omission of Project Co or any Project Co Party, save to the extent that such loss or damage arises out of the breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party.

49.1.5 any breach of and/or any negligent act in complying with the terms of the Interface Proposals and/or paragraphs 4.4(b), 4.4(e), 4.5.1A, 4.5.12, 6.1.1, 6.1.2 and/or 7.5(j)[4] of Sub-Section C of the Board's Construction Requirements and/or Appendix A *(Interface with Campus Site and/or Campus Facilities)* of the of the Board's Construction Requirements, by Project Co or any Project Co Party;

49.1.6 any breach of Clause 9.5.1 *(Extent of Rights)* insofar as relates to the Reserved Rights set out in paragraphs 9 and 10 of Section 2 *(Reserved Rights)* of Schedule Part 5 *(Land Matters)* by Project Co or any Project Co Party.

[4] Essentially covering noise dust pollution and mud on roads etc and also the existing sewer and possible gas pipe that may continue to run under the Site.

Board indemnities to Project Co

49.2 The Board shall indemnify and keep Project Co indemnified at all times from and against all Direct Losses sustained by Project Co in consequence of:

49.2.1 any claim for, or in respect of, the death and/or personal injury of any employee of, or person engaged by, the Board or any Board Party notwithstanding any act or omission of Project Co or any Project Co Party;

49.2.2 any claim for, or in respect of, the death and/or personal injury of any third party (other than a person referred to in Clause 49.1.1) arising by reason of any act or omission of the Board or any Board Party in the course of provision of the Board Services, any Unreasonable Act by the Board or any Board Party, breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party;

49.2.3 any physical damage to any part of the Facilities or any assets or other property of Project Co or any Project Co Party arising by reason of any breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party; and

49.2.4 any loss of or damage to property or assets of any third party arising by reason of any breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party;

provided that in the case of Clauses 49.2.3 and 49.2.4 there shall be excluded from the indemnity given by the Board any liability:

(a) for the occurrence of risks against which and to the extent to which Project Co is obliged to insure under this Agreement (but for the avoidance of doubt, not such liability to the extent within any applicable excess or deductible or over the maximum amount insured or to be insured under such insurance); or

(b) in respect of a matter which is a Compensation Event; or

(c) in respect of malicious damage.

Conduct of claims

49.3 This Clause 49.3 (*Conduct of Claims*) shall apply to the conduct, by a party from whom an indemnity is sought under this Agreement, of claims made by a third person against a party having (or claiming to have) the benefit of the indemnity. The party having, or claiming to have, the benefit of the indemnity is referred to as the "**Beneficiary**" and the party giving the indemnity is referred to as the "**Indemnifier**". Accordingly:

49.3.1 if the Beneficiary receives any notice, demand, letter or other document concerning any claim for which it appears that the Beneficiary is, or may become, entitled to indemnification under this Agreement, the Beneficiary shall give notice in writing to the Indemnifier as soon as reasonably practicable and in any event within twenty (20) Business Days of receipt of the same;

49.3.2 subject to Clauses 49.3.3, 49.3.4 and 49.3.5 below, on the giving of a notice by the Beneficiary pursuant to Clause 49.3.1 above, where it appears that the Beneficiary is or may be entitled to indemnification from the Indemnifier in respect of all (but not part only) of the liability arising out of the claim, the Indemnifier shall (subject to providing the Beneficiary with an indemnity to its reasonable satisfaction against all costs and expenses that it may incur by reason of such action) be entitled to dispute the claim in accordance with the Dispute Resolution Procedure in the name of the Beneficiary at the Indemnifier's own expense and take conduct of any defence, dispute, compromise, or appeal of the claim and of any incidental negotiations. The Beneficiary shall give the Indemnifier all reasonable co operation, access and assistance for the purposes of considering and resisting such claim;

49.3.3 with respect to any claim conducted by the Indemnifier pursuant to Clause 49.3.2 above:

(a) the Indemnifier shall keep the Beneficiary fully informed and consult with it about material elements of the conduct of the claim;

(b) the Indemnifier shall not bring the name of the Beneficiary into disrepute; and

(c) the Indemnifier shall not pay or settle such claims without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed;

49.3.4 the Beneficiary shall be free to pay or settle any claim on such terms as it thinks fit and without prejudice to its rights and remedies under this Agreement if:

(a) the Indemnifier is not entitled to take conduct of the claim in accordance with Clause 49.3.2 above; or

(b) the Indemnifier fails to notify the Beneficiary of its intention to take conduct of the relevant claim within twenty (20) Business Days of the notice from the Beneficiary under Clause 49.3.1 above or notifies the Beneficiary that it does not intend to take conduct of the claim; or

(c) the Indemnifier fails to comply in any material respect with the provisions of Clause 49.3.3 above;

49.3.5 the Beneficiary shall be free at any time to give notice to the Indemnifier that it is retaining or taking over (as the case may be) the conduct of any defence, dispute, compromise or appeal of any claim (or of any incidental negotiations) to which Clause 49.3.2 above applies. On receipt of such notice the Indemnifier shall promptly take all steps necessary to transfer the conduct of such claim to the Beneficiary, and shall provide to the Beneficiary all reasonable co operation, access and assistance for the purposes of considering and resisting such claim. If the Beneficiary gives any notice pursuant to this Clause 49.1, then the Indemnifier shall be released from any liability under its indemnity under Clause 49.2 (Project Co Indemnities to Board) or Clause 49.2 (*Board Indemnities to Project Co*) (as the case may be) and, without prejudice to any accrued liabilities, any liability under its indemnity given pursuant to Clause 49.3.2 in respect of such claim;

49.3.6 if the Indemnifier pays to the Beneficiary an amount in respect of an indemnity and the Beneficiary subsequently recovers (whether by payment, discount, credit, saving, relief or other benefit or otherwise) a sum which is directly referable to the fact, matter, event or circumstances giving rise to the claim under the indemnity, the Beneficiary shall forthwith repay to the Indemnifier whichever is the lesser of:

(a) an amount equal to the sum recovered (or the value of the saving or benefit obtained) less any out of pocket costs and expenses properly incurred by the Beneficiary in recovering the same; and

(b) the amount paid to the Beneficiary by the Indemnifier in respect of the claim under the relevant indemnity,

49.3.7 provided that there shall be no obligation on the Beneficiary to pursue such recovery and that the Indemnifier is repaid only to the extent that the amount of such recovery aggregated with any sum recovered from the Indemnifier exceeds any loss sustained by the Beneficiary (including for this purpose indirect or consequential losses or claims for loss of profits which are excluded by this Agreement from being recovered from the Indemnifier); and

49.3.8 any person taking any of the steps contemplated by Clauses 49.3.1 to 49.3.5 shall comply with the requirements of any insurer who may have an obligation to provide an indemnity in respect of any liability arising under this Agreement.

Mitigation – indemnity claims

49.4 To avoid doubt the provisions of Clause 59 (*Mitigation*) apply to any indemnity given under this Agreement and any such indemnity shall not apply to the extent that such part or parts of Direct Losses could have been reduced or avoided by the Beneficiary complying with the provisions of such Clause 59 (*Mitigation*).

49A MALICIOUS DAMAGE

49A.1 Remit of Clause

This Clause 49A specifies the respective obligations of the parties in relation to malicious damage to the Facilities during the Operational Term.

49A.2 Notification

49A.2.1 As soon as possible after a Service Event has been notified to the Helpdesk or after Project Co has itself or by a Service Provider become aware of a Service Event, if it considers that the Service Event was caused by malicious damage by a person other than a Project Co Party, Project Co must verbally inform the Helpdesk and the Board's Representative (a "**Malicious Damage Report**"). Where it is reasonably practicable for it to do so without prejudicing its ability to achieve Rectification of the Service Event within the Rectification Period and subject to any immediate steps that it requires to take to make the Facilities safe, it must allow the Board's Representative an opportunity to inspect the evidence it relies on to support its claim that malicious damage caused the Service Event concerned before carrying out Rectification and, where this is not reasonably practicable, Project Co must take reasonable steps to preserve or record in a suitable manner any such evidence and forthwith make that record available to the Board.

49A.2.2 Provided Project Co has complied with the requirements of Clause 49A.2.1, unless within twelve (12) hours of receipt of a Malicious Damage Report the Board's Representative notifies Project Co that he agrees that the Service Event referred to in the relevant Malicious Damage Report was caused by malicious damage by a person other than a Project Co Party, the Board's Representative will be deemed to have disagreed that the Service Event concerned was caused by malicious damage by a person other than a Project Co Party.

49A.3 Rectification of Malicious Damage

49A.3.1 In relation to any Service Event referred to in a Malicious Damage Report, Project Co shall always take such steps as are necessary in accordance with its obligations under this Agreement to make the Facilities safe.

49A.3.2 If the Board's Representative agrees in accordance with Clause 49A.2 that a Service Event was caused by malicious damage by a person other than a Project Co Party, except when Clause 49A.3.3 applies, Project Co shall not Rectify the Service Event beyond what is required by Clause 49A.3.1 unless instructed by the Board to do so as an Board Change under Schedule Part 16 (*Change Protocol*).

49A.3.3 If, in the reasonable opinion of Project Co, the Service Event referred to in a Malicious Damage Report, if not Rectified, will or is likely to result in the costs of performing the Services and in particular the costs of Maintenance Works and Lifecycle Replacement being materially increased, it may notify the Board's Representative to that effect and shall be entitled to proceed with Rectification in accordance with its obligations under this Agreement.

49A.3.4 If the Board's Representative does not agree accordance with Clause 49A.2 that the Service Event referred to in a Malicious Damage Report was caused by malicious damage by a person other than a Project Co Party, Project Co shall be entitled to proceed with Rectification in accordance with its obligations under this Agreement.

49A.4 **Costs of rectifying malicious damage**

Project Co will be entitled to include all reasonable costs incurred with any Service Provider or third party:

49A.4.1 to make the Facilities safe pursuant to Clause 49A.3.1 if it is agreed by the Board or subsequently determined under the Dispute Resolution Procedure that the Service Event was caused by malicious damage by a person other than a Project Co Party; or

49A.4.2 to carry out Rectification pursuant to Clause 49A.3.3; or

49A.4.3 to carry out Rectification pursuant to Clause 49A.3.4 if it is subsequently determined under the Dispute Resolution Procedure that the Service Event was caused by malicious damage by a person other than a Project Co Party,

in a Monthly Invoice in accordance with Clause 34.2.1(c). In deciding what a reasonable cost is, regard may be had to prices and rates in the Catalogue (as defined in Schedule Part 16 (*Change Protocol*)).

49A.5 **Project Co to Provide Information**

Project Co must provide the Board with such information as the Board reasonably requests for the purpose of making claims for losses due to malicious damage, under the Operational Insurances.

49A.6 **Disputes**

Any dispute under this Clause 49A shall be determined under the Dispute Resolution Procedure.

50. TAX ON INDEMNITY PAYMENTS

If any payment by one party under an indemnity in this Agreement is subject to income tax or corporation tax (or any tax replacing them) in the hands of the recipient, the recipient may demand in writing to the party making the payment that the payment shall be increased by such amount as would ensure that, after taking into account any such tax payable in respect of such additional amount, the recipient receives and retains a net sum equal to the amount it would have otherwise received had the payment not been subject to such tax. In relation to any such additional amount payable to Project Co, Project Co and the Board shall have the same rights and obligations as would apply to a Relevant Tax Liability under Clause 46.7.3 and Clauses 46.6 to 46.11 (inclusive) shall apply mutatis mutandis to the payment of the additional amount. The party making the payment shall pay such additional amount within ten (10) Business Days of receipt of such demand.

51. EXCUSING CAUSES

51.1 If an Excusing Cause interferes adversely with, or causes or contributes to a failure of, the performance of the Project Operations by Project Co and/or causes or contributes to the occurrence of an Availability Failure and/or a Performance Failure and provided that the effect of such Excusing Cause is claimed within ten (10) Business Days of the date on which Project Co became aware (or ought reasonably to have become so aware) of the occurrence of the Excusing Cause, then (subject to Clauses 51.3 (*Insured Exposure*) and 51.4) to the extent such failure or interference or occurrence of an Availability Failure and/or a Performance Failure arises as a result of such Excusing Cause:

51.1.1 such failure by Project Co to perform or interference or occurrence, and any poor performance of, any affected Service shall not constitute a breach of the provisions of this Agreement by Project Co;

51.1.2 such failure by Project Co to perform or interference or occurrence shall be taken account of in measuring the performance of any affected Service in accordance with the Service Level Specification, which shall be operated as though the relevant Service had been performed free from such adverse interference; and

51.1.3 any such Availability Failure and/or Performance Failure shall be deemed not to have occurred,

so that Project Co shall be entitled to payment under this Agreement as if there had been no such interference with, or failure in the performance of, the Project Operations and no such occurrence of an Availability Failure and/or Performance

Failure.

51.2 For the purpose of Clause 51 (*Excusing Causes*), an Excusing Cause means:

51.2.1 any breach of any express provision of this Agreement by the Board or any Board Party (unless, and to the extent, caused or contributed to by Project Co or any Project Co Party);

51.2.2 any deliberate act or omission of the Board or any Board Party or any failure by the Board or Board Party (having regard always to the interactive nature of the activities of the Board and of Project Co) to take reasonable steps to carry out its activities in a manner which minimises undue interference with Project Co's performance of the Project Operations, save where (and to the extent):

(a) caused or contributed to by Project Co or any Project Co Party;

(b) the Board or Board Party is acting in accordance with a recommendation or instruction of Project Co or any Project Co Party;

(c) any such act or omission giving rise to such failure was within the contemplation of the parties or was otherwise provided for in this Agreement;

(d) the consequences of any such deliberate act or omission or other acts or omissions giving rise to such failure would have been prevented by the proper performance of Project Co's obligations under this Agreement; or

(e) [the same arises from an act of the Board or a Board Party compliant with the Contractor's Site Rules and other requirements of the Contractor as referred to in Clause 13.1 (*Access to Site*) or 17.9.]; or

51.2.3 the outbreak or the effects of any outbreak of any Medical Contamination unless and to the extent that the effects of such outbreak are caused (or contributed to) by any failure of Project Co or any Project Co Party to comply with procedures (or Board instructions) relating to control of infection or to take all reasonable steps to mitigate the effect of such Medical Contamination;

51.2.4 the implementation of any action taken by the Board or any Board Party, or any suspension of Project Co's obligation to deliver any or any part of the Services or the compliance by Project Co with instructions given by the Board, in each case in the circumstances referred to in Clauses 24.6 to 24.9 (inclusive);

51.2.5 the carrying out of any Low Value Change in accordance with the terms of this Agreement during the period of time agreed between the Board and Project Co; or

51.2.6 the carrying out of planned preventative maintenance in accordance with the Schedule of Programmed Maintenance and Schedule of Lifecycle Replacement; or

51.2.7 the occurrence of a Service Event that the Board's Representative has agreed pursuant to Clause 49A.3.2 or that it has been determined pursuant to the Dispute Resolution Procedure has been caused by malicious damage by a person other than a Project Co Party, but only until such time as either (i) the Board has instructed Project Co to Rectify the Service Event as an Board Change and the time period for implementation of such Board Change has expired or (ii) Project Co has Rectified the Service Event pursuant to Clause 49A.3.3.

51.2.8 Not Used.

Insured exposure

51.3 Without prejudice to Clause 53 (*Insurance*), Project Co shall not be entitled to any payment which would not have been due under this Agreement but for Clause 51 (*Excusing Causes*) to the extent that Project Co is or should be able to recover under any policy of insurance required to be maintained by Project Co or any Project Co Party in accordance with this Agreement (whether or not such insurance has in fact been effected or, if effected, has been vitiated as a result of any act or omission of Project Co (or any Project Co Party), including but not limited to non-disclosure or under insurance) or has any other policy of insurance which Project Co has taken out and maintained.

Mitigation of Excusing Cause

51.4 Project Co shall take all reasonable steps to mitigate the consequences of an Excusing Cause on Project Co's ability to perform its obligations under this Agreement. To the extent that Project Co does not take such steps, Project Co shall not be entitled to, and shall not receive, the relief specified in Clause 51.2.2

51.5 To avoid doubt, Clause 51.2.2 shall not impose a general obligation on the Board to take (or to procure that any Board Party takes) such steps and shall apply (and be construed) solely for the purpose of establishing whether an Excusing Cause has occurred.

52. NOT USED

53. INSURANCE

Project Co Insurances

53.1 Project Co shall procure that the insurances, details of which are set out in Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) of Schedule Part 15 (*Insurance Requirements*), are taken out prior to the commencement of the Works and are maintained for the periods specified in Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) of Schedule Part 15 (*Insurance Requirements*).

53.2 Project Co shall procure that the insurances, details of which are set out in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*)) of Schedule Part 15 (*Insurance Requirements*), are taken out prior to the Actual Completion Date and are maintained for the periods specified in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*).

53.3 Without prejudice to the other provisions of this Clause 53 (*Insurance*), Project Co shall, at all relevant times, at its own cost, effect and maintain in full force those insurances which it is required to effect by any applicable Law.

53.4 All Insurances referred to in Clauses 53.1and 53.2 shall:

53.4.1 be maintained in the names of the parties specified in Schedule Part 15 (*Insurance Requirements*) and shall be composite policies of insurance (and not joint) unless stated otherwise in Schedule Part 15 (*Insurance Requirements*));

53.4.2 be placed with insurers who are acceptable to the Board (such acceptance not to be unreasonably withheld or delayed);

53.4.3 in so far as they relate to damage to assets (including the Facilities), cover the same for the full reinstatement value;

53.4.4 comply with the relevant provisions of Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) and Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*).

53.4.5 provide for 30 days prior written notice of their cancellation, non–renewal or amendment to be given to the Board in accordance with Endorsement 1 in Section 3 (*Endorsement*) of Schedule Part 15 (*Insurance Requirements*);

53.4.6 in respect of the Physical Damage Policies provide for payment of any proceeds received by Project Co to be applied in accordance with Clause 53.22 (*Reinstatement*);

53.4.7 in the case of the Operational Insurances only, be taken out and maintained in accordance with Section 4 of Schedule Part 15

(*Insurance Requirements*).

53.5 Project Co shall ensure that its brokers give the Board a letter of undertaking substantially in the form set out in Section 5 (*Broker's Letter of Undertaking*) of Schedule Part 15 (*Insurance Requirements*) at Financial Close and subsequently on the renewal of each of the Insurances.

Subrogation and Vitiation

53.6 Project Co shall in respect of the insurances referred to in Clauses 53.1 and 53.2:

53.6.1 procure that all policies of insurance to be effected by it pursuant to this Clause shall contain a provision to the effect that the insurers have agreed to waive all rights of subrogation against (a) the Board (and all Board Parties other than contractors and sub-contractors; and [(b) [Consort and Consort Parties including their respective suppliers and/or sub-contractors of any tier pertaining to the RIE Project Agreement] in accordance with Endorsement 2 in Section 3 (*Endorsements*) of Schedule Part 15 (*Insurance Requirements*)][5]; and

53.6.2 provide for non-vitiation protection in respect of any claim made by the Board as co-insured in accordance with Endorsement [2] in Section 3 (*Endorsements*) of Schedule Part 15 (In*surance Requirements*);

provided that, to avoid doubt, this Clause 53.6 shall not by itself prevent Project Co from claiming against the Board (or any Board Party) under an express provision of this Agreement for any loss or damage not covered because of the level of deductibles under such insurance permitted by this Agreement or to the extent such loss or damage exceeds the maximum of such insurance required by this Agreement.

53.7 Neither party shall take any action or fail to take any reasonable action or (in so far as it is reasonably within its power) permit or allow others to take or fail to take any action (including failure to disclose any fact) as a result of which any of the Insurances may be rendered void, voidable, unenforceable or suspended or impaired in whole or in part or which may otherwise render any sum paid out under any relevant policy repayable in whole or in part.

Evidence of Project Co Insurance

53.8 Not less than twenty (20) Business Days prior to the amendment or expiry of any relevant insurance policy (other than the expiry of any of the Operational Insurances in respect of which Project Co must comply with the provisions of Section 4 of Schedule Part 15 *(Insurance Requirements)),* Project Co shall submit to the Board a request for approval from the Board of the insurer and the principal terms and conditions of such insurance policy (and any revision to such terms and conditions or change in identity of such insurer), such approval not to be

[5] Only relevant if waiver of subrogation option agreed by the Board.

unreasonably withheld or delayed.

53.9 Project Co shall provide to the Board:

53.9.1 copies on request of all insurance policies referred to in Clauses 53.1 to 53.3 (together with any other information reasonably requested by the Board relating to such insurance policies) and the Board shall be entitled to inspect them during ordinary business hours; and

53.9.2 evidence that the premiums payable under all insurance policies have been paid and that the Insurances are in full force and effect in accordance with the requirements of this Clause 53 (*Insurance*) and Schedule Part 15 (*Insurance Requirements*).

53.10 Renewal certificates or other such evidence of renewal in relation to the Insurances shall be obtained as and when necessary and copies (certified in a manner acceptable to the Board) shall be forwarded to the Board as soon as possible but in any event within 20 Business Days of the renewal date.

53.11 If Project Co defaults in insuring or continuing to maintain the Insurances, the Board may insure against any risk in respect of which such default has occurred and recover any premiums from Project Co as a debt provided that if the default occurs during the Operational Term the amount recoverable from Project Co shall be the difference between the premiums had Project Co continued to maintain the Insurances and the premiums paid by the Board to take out and maintain the Insurances.

Acceptance and compliance

53.12 The supply to the Board of any draft insurance policy or certificate of insurance or other evidence of compliance with this Clause 53 (*Insurance*) shall not imply acceptance by the Board (or the Board's Representative) that:

53.12.1 the extent of insurance cover is sufficient and its terms are satisfactory; or

53.12.2 in respect of any risks not insured against, that the same were Uninsurable.

53.13 Neither failure to comply, nor full compliance, with the insurance provisions of this Agreement shall relieve Project Co of its liabilities and obligations under this Agreement.

Uninsurable Risks

53.14

53.14.1 If a risk usually covered by contractors' 'all risks' insurance, property damage insurance, third party liability insurance, delay in start up and business interruption insurance (but not loss of profits) or statutory insurances in each case required under this Agreement becomes Uninsurable then:

(a) Project Co shall notify the Board of any risk becoming Uninsurable within five (5) Business Days of becoming aware of the same and in any event at least five (5) Business Days before expiry or cancellation of any existing insurance in respect of that risk; and

(b) if both parties agree, or it is determined in accordance with the Dispute Resolution Procedure that the risk is Uninsurable and that:

(i) the risk being Uninsurable is not caused by the actions of Project Co or any sub-contractor of Project Co (of any tier); and

(ii) Project Co has demonstrated to the Board that Project Co and a prudent board of directors of a company operating the same or substantially similar businesses in the United Kingdom to that operated by Project Co would in similar circumstances (in the absence of the type of relief envisaged by this Clause) be acting reasonably and in the best interests of the company if they resolved to cease to operate such businesses as a result of that risk becoming Uninsurable, taking into account inter alia (and without limitation) the likelihood of the Uninsurable risk occurring (if it has not already occurred), the financial consequences for such company if such Uninsurable risk did occur (or has occurred) and other mitigants against such consequences which may be available to such company

the parties shall meet to discuss the means by which the risk should be managed or shared (including considering the issue of self–insurance by either party).

53.14.2 If the requirements of Clause 53.14.1 are satisfied, but the parties cannot agree as to how to manage or share the risk, then:

(a) where such requirements are satisfied in respect of such third party liability insurance the Board shall (at the Board's option) either pay to Project Co an amount equal to the amount calculated in accordance with Section 3 (*Compensation on Termination for Force* Majeure) of Schedule Part 17 (*Compensation on Termination*) and this Agreement will terminate, or elect to allow this Agreement to continue and Clause 53.14.2(b) below shall thereafter apply

in respect of such risk; and

(b) where such requirements are satisfied in respect of contractors' 'all risks' insurance, property damage insurance, third party liability insurance (if the Board elects to allow this Agreement to continue in accordance with Clause 53.14.2(a)), delay in start up and business interruption insurance (but not loss of profits) or statutory insurances this Agreement shall continue and on the occurrence of the risk (but only for as long as such risk remains Uninsurable) the Board shall (at the Board's option) either pay to Project Co an amount equal to insurance proceeds that would have been payable had the relevant insurance continued to be available and this Agreement will continue, or an amount equal to the amount calculated in accordance with Section 3 (*Compensation on Termination for Force Majeure*) of Schedule Part 17 (*Compensation on Termination*) plus (in relation to third party liability insurance only) the amount of insurance proceeds that would have been payable whereupon this Agreement will terminate; and

(c) where pursuant to Clauses 53.14.2(a) and/or 53.14.2(b) this Agreement continues then the Annual Service Payment shall be reduced in each year for which the relevant insurance is not maintained by an amount equal to the premium paid (or which would have been paid) by Project Co in respect of the relevant risk in the year prior to it becoming Uninsurable (index linked from the date that the risk becomes Uninsurable) save to the extent that such reduction is otherwise reflected in a reduction in the payments claimed by Project Co pursuant to paragraph 3.1 of Section 6 (*Pass Through Costs*) of Schedule Part 14 (*Payment Mechanism*). Where the risk is Uninsurable for part of a year only the reduction in the Annual Service Payment shall be pro rated to the number of months for which the risk is Uninsurable;

(d) where pursuant to Clauses 53.14.2(a) and/or 53.14.2(b) this Agreement continues Project Co shall approach the insurance market at least every four months to establish whether the risk remains Uninsurable. As soon as Project Co is aware and the parties agree or it is determined pursuant to the Dispute Resolution Procedure that the risk is no longer Uninsurable, Project Co shall take out and maintain or procure the taking out and maintenance of insurance (to be incepted as soon as is reasonably practicable) for such risk in accordance with this Agreement;

(e) in respect of any period between the Board receiving notification in accordance with Clause 53.14.1(a) that a TPL Risk has become Uninsurable and the Board's notification to the Project Co in accordance with Clause 53.14.2(a) in respect of such risk then, provided it is ultimately agreed or determined that the requirements of Clause 53.14.1(b) are satisfied in respect of the Uninsurable TPL Risk and subject to Clause 53.14.2(f) below, Clause 53.14.2(b) shall apply in

respect of occurrences of the Uninsurable TPL Risk during such period unless the parties otherwise agree how to manage the risk during this period; and

(f) Clause 53.14.2(e) shall only apply provided the Project Co does not unreasonably materially delay (a) agreement and/or determination in accordance with the Dispute Resolution Procedure as to whether the requirements of Clause 53.14.1(b) are satisfied in respect of the Uninsurable TPL Risk and/or (b) meeting with the Board to discuss the means by which the risk should be managed.

Where this Clause 53.14.2 applies and this Agreement continues, Project Co shall, subject to Clause 53.14.2(c), be relieved of its obligations to maintain insurance in respect of the relevant Uninsurable Risk.

53.14.3 If, pursuant to Clause 53.14.1(b), the Board elects to make payment of compensation to Project Co (such that this Agreement will terminate)(the **"Relevant Payment"**), Project Co shall have the option (exercisable in writing within (20) Business Days of the date of such election by the Board (the **"Option Period"**)) to pay to the Board on or before the end of the Option Period, an amount equal to the insurance proceeds that would have been payable had the relevant risk not become Uninsurable, in which case this Agreement will continue (and the Relevant Payment will not be made by the Board), and Project Co's payment shall be applied for the same purpose and in the same manner as insurance proceeds would have been applied had the relevant risk not become Uninsurable.

53.14.4 During the Operational Term, the Board shall be entitled to notify Project Co that a risk has become Uninsurable under paragraph (b) of the definition of "Uninsurable". Following such notification Clauses 53.14.1(b) to 53.14.3 (except Clause 53.14.1(b)(ii)) shall apply as if Project Co has issued a notice under Clause 53.14.1(a).

53.15 Unavailability of terms

53.15.1 If, upon the renewal of any of the Insurances:

(a) any Insurance Term is not available to Project Co in the worldwide insurance market with reputable insurers of good standing; and/or

(b) the insurance premium payable for Insurance incorporating such Insurance Term is such that the Insurance Term is not generally being incorporated in insurance procured in the worldwide insurance market with reputable insurers of good standing by contractors in the United Kingdom,

(c) other than, in each case by reason of one or more actions of Project Co and/or any sub-contractor of Project Co (of any tier) then Clause 53.15.2, shall apply.

53.15.2 If it is agreed or determined that Clause 53.15.1 applies then the Board shall waive Project Co's obligations in Clauses 53.1 to 53.3 and/or Schedule Part 15 (*Insurance Requirements*) in respect of that particular Insurance Term and Project Co shall not be considered in breach of its obligations regarding the maintenance of insurance pursuant to this Agreement as a result of the failure to maintain insurance incorporating such Insurance Term for so long as the relevant circumstances described in Clause 53.15.1 continue to apply to such Insurance Term.

53.15.3 To the extent that the parties agree (acting reasonably), or it is determined pursuant to the Dispute Resolution Procedure, that an alternative or replacement term and /or condition of insurance is available to Project Co in the worldwide insurance market with reputable insurers of good standing which if included in the relevant insurance policy would fully or partially address Project Co's inability to maintain or procure the maintenance of insurance with the relevant Insurance Term, at a cost which contractors in the UK are (at such time) generally prepared to pay, Project Co shall maintain or procure the maintenance of insurance including such alternative or replacement term and/or condition.

53.15.4 Project Co shall notify the Board as soon as reasonably practicable and in any event within five (5) days of becoming aware that Clause 53.15.1(a) and/or Clause 53.15.1(b) are likely to apply or (on expiry of the relevant insurance then in place) do apply in respect of an Insurance Term (irrespective of the reason for the same). During the Operational Term the Board shall be entitled to notify Project Co that Clause 53.15.1(b) is likely to apply or (on expiry of the relevant insurance then in place) does apply in respect of an Insurance Term (irrespective of the reason for the same). Project Co shall provide the Board with such information as the Board reasonably requests regarding the unavailability of the Insurance Term and the parties shall meet to discuss the means by which such unavailability should be managed as soon as is reasonably practicable.

53.15.5 In the event that Clause 53.15.1(a) and/or Clause 15.15.1(b) apply in respect of an Insurance Term, (irrespective of the reasons for the same) Project Co shall approach the insurance market at least every four months to establish whether Clause 53.15.1(a) and/or Clause 53.15.1(b) remain applicable to the Insurance Term. As soon as Project Co is aware that Clause 53.15.1(a) and/or Clause 53.15.1(b) has ceased to apply to the Insurance Term and the parties agree or it is determined pursuant to the Dispute Resolution Procedure, Project Co shall take out and maintain or procure the taking out and maintenance of insurance (to be incepted as soon as is reasonably practicable) incorporating such Insurance Term in accordance with this Agreement.

Risk Management

53.16 With effect from the date of this Agreement, the Board and Project Co shall each designate or appoint an insurance and risk manager and notify details of the same to the other party. Such person shall:

53.16.1 be responsible for dealing with all risk management matters on behalf of its appointing or designating party including (without limitation) ensuring compliance by that party with this Clause 53.16;

53.16.2 advise and report to that party on such matters; and

53.16.3 ensure that any report or survey conducted by any insurer of any relevant procedures in relation to the Project is disclosed to the parties.

53.17 Without prejudice to the provisions of Clause 53.16, the parties shall notify one another, and in Project Co's case the relevant insurer, of any circumstances which may give rise to a claim of a value equal to or in excess of fifty thousand pounds (£50,000) (index linked) under the Insurances within five (5) Business Days of becoming aware of the same (or earlier, if so requested by the terms of the relevant insurance policy). If any insurer disputes any such claim, Project Co shall provide the Board with full details of any disputed claim and the parties shall liaise with one another to ensure that the relevant claim is preserved or pursued.

Application of Proceeds

53.18 All insurance proceeds received by Project Co under the insurances referred to in paragraph 1 (*Contractor's "All Risk" Insurance*) of Section 1 (*Insurance Requirements*) and paragraph 1 (*Property Damage Insurance*) of Section 2 (*Policies to be taken out by Project Co and Maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*) shall be paid into the Insurance Proceeds Account and shall be applied in accordance with this Agreement and in accordance with the Insurance Proceeds Accounts Agreement.

53.19 Subject to the provisions of the Funders' Direct Agreement and Clause 53.22 *(Reinstatement)* [and Clause 53.23 *(Economic Test)*], Project Co shall apply any proceeds of any policies of Insurance:

53.19.1 in the case of third party legal liability or employers' liability insurance, in satisfaction of the claim, demand, proceeding or liability in respect of which such proceeds are payable; and

53.19.2 in the case of any other insurance other than delay in start up or business interruption insurance, so as to ensure the performance by Project Co of its obligations under this Agreement, including where necessary the reinstatement, restoration or replacement of the Facilities, assets, materials or goods affected by the event giving rise to the insurance claim and consequent payment of proceeds.

53.20 Where reinstatement monies are required to be released from the Insurance

Proceeds Account Project Co shall obtain the Board's consent in accordance with the Insurance Proceeds Account Agreement. The Board shall give its consent (or confirm that it is withholding its consent) to the release of monies from the Insurance Proceeds Account within one (1) Business Day of a request from Project Co (provided that such consent must not be unreasonably withheld).

53.21 If the proceeds of any insurance claim are insufficient to cover the settlement of such claims, Project Co will make good any deficiency forthwith.

53.22 **Reinstatement**

53.22.1 [Subject to Clause 53.23 *(Economic Test),] a*ll insurance proceeds received under any Physical Damage Policy shall be applied to repair, reinstate and replace each part or parts of the Facilities in respect of which the proceeds were received.

53.22.2 [Subject to Clause 53.23 *(Economic Test),] w*here a claim is made or proceeds of insurance are received or are receivable under any Physical Damage Policy in respect of a single event (or a series of related events) (the ("**Relevant Incident**") in an amount in excess of two hundred and fifty thousand pounds (£250,000) (Index linked) :

(a) Project Co shall deliver as soon as practicable and in any event within 28 days after the making of the claim a plan prepared by Project Co for the carrying out of the works necessary (the "**Reinstatement Works**") to repair, reinstate or replace (the "**Reinstatement Plan**") the assets which are the subject of the relevant claim or claims in accordance with Clause 53.22.2(b) below. The Reinstatement Plan shall set out:

(i) if not the Contractor, the identity of the person proposed to effect the Reinstatement Works, which shall be subject to the prior written approval of the Board; and

(ii) the proposed terms and timetable or, if not then established, the reasonably anticipated terms and timetable upon which the Reinstatement Works are to be effected (including the date that the Project will become fully operational), the final terms of which shall be subject to the prior written approval of the Board, which approval shall not be unreasonably delayed;

(b) provided that the Board is satisfied that the Reinstatement Plan will enable Project Co to comply with Clause 53.22.2(b)(iv) below within a reasonable timescale:

(i) the Reinstatement Plan will be adopted and carried out by Project Co;

(ii) Project Co shall enter into contractual arrangements to effect the Reinstatement Works with the person identified in the Reinstatement Plan approved by the Board;

(iii) prior to the earlier to occur of the Termination Date or the Expiry Date, any amounts standing to the credit of the Insurance Proceeds Account (the "**Relevant Proceeds**") (together with any interest accrued) may be withdrawn by Project Co from the Insurance Proceeds Account as required to enable it to make payments in accordance with the terms of the contractual arrangements referred to in Clause 53.22.2(b)(ii) above, and to meet any other reasonable costs and expenses of Project Co for the sole purposes of funding the Reinstatement Works and the parties shall operate the signatory requirements of the Insurance Proceeds Account in order to give effect to such payments. Following the earlier to occur of the Termination Date and the Expiry Date, the Board may withdraw amounts standing to the credit of the Insurance Proceeds Account for the purposes of funding any Reinstatement Works;

(iv) the Board agrees and undertakes that, subject to compliance by Project Co with its obligations under this Clause, and provided that Project Co procures that the Reinstatement Works are carried out and completed in accordance with the contractual arrangements referred to in Clause 53.22.2(b)(ii), it shall not exercise any right which it might otherwise have to terminate this Agreement by virtue of the event which gave rise to the claim for the Relevant Proceeds;

(v) the Board undertakes to use reasonable endeavours to assist Project Co in the carrying out of the Reinstatement Plan; and

(vi) after the Reinstatement Plan has been implemented to the reasonable satisfaction of the Board and in accordance with Clause 53.22.3 below the Board shall permit withdrawal by Project Co of any Relevant Proceeds then held in the Insurance Proceeds Account that have not been paid under Clause 53.22.2(b)(iii) above, in respect of the Relevant Incident, together with any interest accrued.

(vii) subject to the provisions of Clause 49.1 (*Project Co Indemnities to Board*) Project Co shall be solely responsible for the payment of any deficiency.

53.22.3 Where insurance proceeds are to be used, in accordance with this

Agreement, to repair, reinstate or replace any Facilities, Project Co shall carry out the work in accordance with the Board's Construction Requirements so that on completion of the work, the provisions of this Agreement are complied with.

53.22.4 If and to the extent that a breach by Project Co of its obligations under Clause 53.22.2(b) leads to a delay in the completion of the Reinstatement Works, any entitlement that Project Co has to relief under Clause 30 *(Relief Events)* shall be suspended.

[Economic Test[6]

53.23 If all of the Facilities are destroyed or substantially destroyed in a single event and the insurance proceeds (when taken together with any other funds available to Project Co) are equal to or greater than the amount required to repair or reinstate the Facilities, then Project Co shall calculate the [senior debt loan life cover ratio] as used in the Financial Model as at Financial Close (on the assumption that the Facilities are repaired or reinstated in accordance with Clause 53.22 *(Reinstatement)*).

53.24 If the calculation referred to in Clause 53.23 above shows that the [senior debt loan life cover ratio] is greater than or equal to [event of default level] then Project Co shall be subject to the procedure set out in Clause 53.22 *(Reinstatement).*

53.25 If the calculation referred to in Clause 53.23 above shows that the [senior debt loan life cover ratio] is less than [event of default level] then an amount equal to the lesser of:

53.25.1 the insurance proceeds; and

53.25.2 the Base Senior Debt Termination Amount or, if any Additional Permitted Borrowing has been advanced, the Revised Senior Debt Termination Amount,

shall be released from the Insurance Proceeds Account to Project Co.

53.26 If, pursuant to Clause 53.25 above, insurance proceeds are released from the Insurance Proceeds Account, Project Co shall be in breach of its obligations under this Agreement and shall not, pursuant to Clause 30 *(Relief Events)*, be relieved of its obligations unless it can demonstrate to the satisfaction of the Board that it can carry out the works necessary to repair, reinstate or replace the assets which are subject to the relevant claims in accordance with Clause 53.22.3 and within a reasonable timescale.

54. EXCLUSIONS AND LIMITATIONS ON LIABILITY

[6] For Bidders to propose with valid justification.

Exclusions

54.1 The indemnities under this Agreement shall not apply and (without prejudice to the Board's rights under the Payment Mechanism) there shall be no right to claim damages for breach of this Agreement, in delict or on any other basis whatsoever to the extent that any loss claimed by either party is for loss of profits, loss of use, loss of production, loss of business or loss of business opportunity or is a claim for consequential loss or for indirect loss of any nature ("**Indirect Losses**") suffered or allegedly suffered by either party but notwithstanding the foregoing any liability of the Board to indemnify Consort pursuant to the RIE Project Agreement shall not be excluded by reason of this Clause 54.1. The Board agrees that, notwithstanding the foregoing, any losses of Project Co arising under the Construction Contract and the Service Contracts as originally executed (or as amended in accordance with and subject to Clause 4.1 (*Ancillary Documents*)) which are not Indirect Losses shall not be excluded from such a claim solely by reason of this Clause 54.1.

54.2 The Board shall not be liable in delict to Project Co or any Project Co Party in respect of any negligent act or omission of the Board and/or any Board Party [and/or Consort and/or any Consort Party][7] relating to or in connection with this Agreement and Project Co shall procure that no Project Co Party shall bring such a claim against the Board. Project Co has accepted this on the basis that it and each Project Co Party will cover the risk of negligent acts or omissions by insurance or in such other manner as it (or they) may think fit.

No Double Recovery

54.3 Subject to:

54.3.1 any other express right of the Board pursuant to this Agreement; and

54.3.2 the Board's right to claim, on or after termination of this Agreement, the amount of its reasonable costs, losses, damages and expenses suffered or incurred by it as a result of rectifying or mitigating the effects of any breach of this Agreement by Project Co save to the extent that the same has already been recovered by the Board pursuant to this Agreement or has been taken into account to reduce any compensation payable by the Board pursuant to Clause 46 (*Compensation on Termination*),

the sole remedy of the Board in respect of a failure to provide the Services in accordance with this Agreement shall be the operation of the Payment Mechanism.

54.4 Subject to Clause 29 (*Board Events of Default*) and any other express right of Project Co pursuant to this Agreement, Project Co's sole remedy in respect of any breach of this Agreement which is a Compensation Event shall be pursuant to Clause 29 (*Delay Events*).

[7] Only relevant if waivers of subrogation in favour of Consort and/or Consort Parties in place.

54.5 Nothing in Clause 54.3 shall prevent or restrict the right of the Board to seek interdict or a decree of specific implement or other discretionary remedies of the court.

54.6 Notwithstanding any other provision of this Agreement, neither party shall be entitled to recover compensation or make a claim under this Agreement or any other agreement in relation to the Project in respect of any loss that it has incurred (or any failure of the other party) to the extent that it has already been compensated in respect of that loss or failure pursuant to this Agreement or otherwise.

54.7 Neither party shall have the right to terminate this Agreement for breach of contract save as expressly set out in this Agreement.

PART 12: MISCELLANEOUS

55. INTELLECTUAL PROPERTY

Project Data

55.1 Project Co shall make available to the Board free of charge (and hereby irrevocably licences the Board to use) all Project Data that might reasonably be required by the Board and Project Co shall ensure that it can make the Project Data available to the Board on these terms, for the purposes of:

55.1.1 the Board carrying out the Board Services (and its operations relating to the performance of the Board Services), its duties under this Agreement and/or any statutory duties that the Board may have; and

55.1.2 following termination of this Agreement, the design or construction of the Facilities, the operation, maintenance or improvement of the Facilities and/or the carrying out of operations the same as, or similar to, the Project Operations,

(together the "**Approved Purposes**") and in this Clause "use" shall include the acts of copying, modifying, adapting and translating the material in question and/or incorporating them with other materials and the term "the right to use" shall be construed accordingly.

Intellectual Property Rights

55.2 Project Co:

55.2.1 hereby grants to the Board, free of charge, an irrevocable, non-exclusive and transferable (but only to any assignee or transferee of any rights or benefits under this Agreement or upon or at any time following termination of this Agreement) licence (carrying the right to grant sub-licences) to use the Intellectual Property Rights which are or become vested in Project Co; and

55.2.2 shall, where any Intellectual Property Rights are or become vested in a third party, use all reasonable endeavours to procure the grant of a like licence to that referred to in Clause 55.2.1 above to the Board,

in both cases, solely for the Approved Purposes.

Project Co shall use all reasonable endeavours to ensure that any Intellectual Property Rights created, brought into existence or acquired during the term of this Agreement vest, and remain vested throughout the term of this Agreement, in Project Co and Project Co shall enter into appropriate agreements with any Project Co Party (or other third parties) that may create or bring into existence, or

from which it may acquire, any Intellectual Property Rights.

Maintenance of data

55.3 To the extent that any of the data, materials and documents referred to in this Clause are generated by or maintained on a computer or similar system, Project Co shall use all reasonable endeavours to procure for the benefit of the Board, at no charge or at the lowest reasonable fee, the grant of a licence or sub-licence for any relevant software to enable the Board or its nominee to access and otherwise use (subject to the payment by the Board of the relevant fee, if any) such data for such purposes as the Board may at its sole discretion require. As an alternative, Project Co may provide such data, materials or documents in a format which may be read by software generally available in the market at the relevant time or in hard copy format.

55.4 Project Co shall ensure the back-up and storage in safe custody of the data, materials and documents referred to in Clause 55.3 in accordance with Good Industry Practice. Without prejudice to this obligation, Project Co shall submit to the Board's Representative for approval its proposals for the back-up and storage in safe custody of such data, materials and documents and the Board shall be entitled to object if the same is not in accordance with Good Industry Practice. Project Co shall comply, and shall cause all Project Co Parties to comply, with all procedures to which the Board's Representative has given its approval. Project Co may vary its procedures for such back-up and storage subject to submitting its proposals for change to the Board's Representative, who shall be entitled to object on the basis set out above.

Claims

55.5 Where a claim or proceeding is made or brought against the Board which arises out of the infringement of any rights in or to any Intellectual Property (other than any Disclosed Data) or because the use of any materials, Plant, machinery or equipment in connection with the Project Operations infringes any rights in or to any Intellectual Property of a third party then, unless such infringement has arisen out of the use of any Intellectual Property by or on behalf of the Board otherwise than in accordance with the terms of this Agreement, Project Co shall indemnify the Board at all times from and against all such claims and proceedings and the provisions of Clause 49.3 (*Conduct of Claims*) shall apply.

56. DISPUTE RESOLUTION PROCEDURE

Except where expressly provided otherwise in this Agreement, any dispute arising out of or in connection with this Agreement shall be resolved in accordance with the procedure set out in Schedule Part 20 (*Dispute Resolution Procedure*).

57. ASSIGNATION AND SUB-CONTRACTING

Assignation

57.1 This Agreement and any other agreement in connection with the Project to which both the Board and Project Co are a party shall be binding on, and shall enure to the benefit of, Project Co and the Board and their respective statutory successors and permitted transferees and assignees. In the case of the Board, its successors shall include any person to whom the Scottish Ministers, in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the Board ceasing to exist, transfers the property, rights and obligations of the Board under this Agreement and such other agreements in connection with the Project to which the Board and Project Co are both a party.

57.2 Subject to Clause 57.3, Project Co shall not, without the prior written consent of the Board, assign, novate transfer, sub-contract or otherwise dispose of any interest in this Agreement, [the Independent Tester Contract,] the Construction Contract, the Service Contracts and [any other contract] entered into by Project Co for the purposes of performing its obligations under this Agreement.[8]

57.3 The provisions of Clause 57.2 do not apply to the grant of any security, in a form approved by the Board prior to its grant (such approval not to be unreasonably withheld or delayed), for any loan made to Project Co under the Initial Funding Agreements provided that any assignee shall enter into the Funders' Direct Agreement in relation to the exercise of its rights, if the Board so requires.

57.4 The Board shall be entitled to assign, transfer or dispose of the whole of this Agreement and/or of any agreement entered into in connection with this Agreement to which the Board and Project Co are both party to:

57.4.1 the Scottish Ministers, another Health Board or any other person or body replacing any of the foregoing (or to whom the Scottish Ministers exercising their statutory rights would be entitled to transfer such benefits) covered by the National Health Service (Residual Liabilities) Act 1996; or

57.4.2 any other person or body with the prior written consent of Project Co (not to be unreasonably withheld or delayed);

provided that nothing in this Clause shall restrict the rights of the Scottish Ministers to effect a statutory transfer.

Sub-contractors

57.5 Project Co shall, without prejudice to Clause 57.1, procure that none of the persons listed below shall sub-contract all (or substantially all) of their obligations under or in the agreement set out next to its name:

Person	**Contract**
Contractor	Construction Contract

[8] Bidders to complete.

without, in each case, the prior written consent of the Board (such consent not to be unreasonably withheld or delayed). To avoid doubt, (i) any failure to comply with Clause 57.7 shall be a reasonable ground for withholding consent and (ii) consent shall, without prejudice to the other provisions of Clause 57.5, not be required in respect of the appointment of any party currently approved by the Board as a suitable replacement.

57.6 If the contract set out next to the name of any person referred to in Clause 57.5 shall at any time lapse, terminate or otherwise cease to be in full force and effect (whether by reason of expiry or otherwise), with the effect that such person shall cease to act in relation to the Project, Project Co shall forthwith appoint a replacement (subject to compliance with Clause 57.5).

57.7 Project Co shall procure that any replacement for any person referred to in Clause 57.5 [or any Key Sub-Contractor] shall enter into a contract upon the same or substantially similar terms as the person so replaced and shall also enter into a collateral agreement on the same or substantially the same terms as the Collateral Agreement entered into by the person so replaced.[9]

57.8 Where Project Co enters into a contract with a sub-contractor for the purposes of carrying out the Project Operations or any part of the Project Operations under this Agreement, Project Co shall cause a term to be included in such contract:

57.8.1 which requires payment to be made to the sub-contractor within a specified period not exceeding thirty (30) days from receipt of a valid invoice as defined by the contract requirements and in the case of the provision of Services provides that, for the purpose of payment alone, where the Board has made payment to Project Co and the sub-contractor's invoice includes Project Operations in relation to which payment has been made by the Board then, to the extent that it relates to such Project Operations, the invoice shall be treated as valid and payment shall be made to the sub-contractor without deduction (but without prejudice to any right to deduct or set off validly arising under the terms of the contract with the sub-contractor); and

57.8.2 which notifies the sub-contractor that the contract forms part of a larger contract for the benefit of the Board and that should the sub-contractor have any difficulty in securing the timely payment of an invoice that matter may be referred by the sub-contractor to the Board's Representative; and

57.8.3 in the same terms as this Clause 57.8 (including for the avoidance of doubt this Clause 57.8.3) subject only to modification to refer to the correct designation of the equivalent party as the supplier and recipient of the relevant Project Operations as the case may be.

Replacement of a non-performing Sub-Contractor

[9] Bidders to complete.

57.9 On the substitution or replacement of a Service Provider due to a breach or default under a Service Contract, Project Co may elect, subject to Clause 57.11 and provided that at the time of making such election no notice of termination has been served under this Agreement, that for the purposes of Clause 40.1.8 (*Deductions*) and Clause 40.1.9 (*Warning Notices*) only, all Deductions incurred and Warning Notices served prior to the date of such substitution or replacement shall be disregarded by virtue of Clause 57.10 below.

57.10 If Project Co makes an election pursuant to Clause 57.9 above then, with effect from the date of substitution or replacement of the Service Provider, all Deductions incurred and Warning Notices served prior to that date shall be disregarded for the purposes of Clause 40.1.8 (*Deductions*) and Clause 40.1.9 (*Warning Notices*). For the avoidance of doubt, the Board shall retain the right to make Deductions in accordance with Schedule Part 14 (*Payment Mechanism*) in respect of the Availability Failures and/or Performance Failures to which the Deductions and/or Warning Notices are attributable.

57.11 Project Co shall be entitled to make an election pursuant to Clause 57.9 on a maximum of two occasions during the Project Term.

58. OWNERSHIP INFORMATION AND CHANGES IN CONTROL

58.1 Project Co represents and warrants to the Board that at the date of this Agreement the legal and beneficial ownership of Project Co is as set out in Schedule Part 21 (*Project Co Information*) and that, [other than any Shareholder pre-emption rights,] no arrangements are in place that have or may have or result in any sale, transfer or disposal of any legal, beneficial, equitable or other interest in any or all of the shares in Project Co.[10]

58.2 Project Co shall inform the Board as soon as reasonably practicable (and in any event, within thirty (30) days) of any Change in Control occurring in respect of Project Co.

58.3 The Board may, not more than twelve (12) times in any Contract Year, or any time when a Project Co Event of Default is outstanding, require Project Co to inform it, as soon as reasonably practicable and in any event within thirty (30) days of receipt of the Board's request for details, of any Change in Control in respect of Project Co.

58.4 Project Co's obligations under Clauses 58.1 and 58.2 above shall, except where a legal transfer of shares has occurred be limited to the extent of Project Co's awareness having made all reasonable enquiry.

58.5 Subject to Clause 58.6, prior to the expiry of a period of twelve (12) months commencing on the Actual Completion Date, no Change in Control in any or all of the shares in Project Co shall be permitted without the prior written approval of the Board. Any Change in Control arising as a consequence of either:

[10] Bidders to complete.

58.5.1 the grant or enforcement of security in favour of the Senior Funders over or in relation to any of the shares of the Project Co, provided that any document conferring security over any shares has been approved by the Board (such approval not to be unreasonably withheld or delayed); or

58.5.2. any transfer by a Shareholder to an [Associate] of such transferor;[11]

shall be disregarded for the purpose of this Clause 58.5 above.

Where Clause 58.5.2 applies and subsequent to any such transfer (the **"Original Transfer"**) the transferee ceases to be an [Associate] of the original transferor, it shall be a breach of this Clause 58.5 if the shares or interests which were the subject of the Original Transfer are not [within 20 Business Days] of the transferee ceasing to be an Associate of the original transferor, transferred to the original transferor or any Associate of such transferor.

58.6 No Change in Control (at any time) in any or all of the shares in Project Co (or any company (other than a public quoted company whose equity securities are listed on a recognised investment exchange, as defined in section 285 of the Financial Services and Markets Act 2000) holding shares in Hold Co, Project Co or in any company (or its shareholders) holding shares in such a company (or its shareholders)) shall be permitted without the prior written approval of the Board where the person acquiring control is a Restricted Person.

59. MITIGATION

Each of the Board and Project Co shall at all times take all reasonable steps to minimise and mitigate any loss for which the relevant party is entitled to bring a claim against the other party pursuant to this Agreement.

60. DATA PROTECTION

Data Protection

60.1 For the purpose of the following Clauses, the term "personal data" shall have the meaning given to it in the Data Protection Act 1998.

60.2 Project Co undertakes to the Board that it shall comply with the obligations of a "data controller" under the provisions of the Seventh Data Protection Principle as set out in Schedule 1 of the Data Protection Act 1998. In addition, Project Co:

60.1.1 warrants that it has, or will have at all material times, (and it shall use best endeavours to procure that all Sub-Contractors (and their agents and sub contractors of any tier have or will have at all material times) the appropriate technical and organisational measures in place

[11] Bidders to complete.

against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data held or processed by it and that it has taken, or will take at all material times, all reasonable steps to ensure the reliability of any of its staff which will have access to personal data processed as part of the Project Operations;

60.2.2 undertakes that it will act only on the instructions of the Board in relation to the processing of any personal data made available by or on behalf of the Board as part of the Project Operations;

60.2.3 undertakes that it will only obtain, hold, process, use, store and disclose personal data as is necessary to perform its obligations under this Agreement and (without prejudice to Clause 5.2 (*General standards*)) that such data will be held, processed, used, stored and disclosed only in accordance with the Data Protection Act 1998 and any other applicable Law; and

60.2.4 undertakes to allow the Board access to any relevant premises on reasonable notice to inspect its procedures described at Clause 60.2.1 above.

61. CONFIDENTIALITY

61.1 The Board shall, subject to Clause 61.2 be entitled to make the documents and information listed in this Clause 61.1 freely available to the public (which may include, without limitation, publication on the Board's website):

61.1.1 this Agreement;

61.1.2 the Independent Tester Contract;

61.1.3 the Collateral Agreements;

61.1.4 the payment and performance report;

61.1.5 the Financial Model (as updated from time to time in accordance with this Agreement); and

61.1.6 Schedule of Lifecycle Replacement; and

61.1.7 [project specifics]

and Project Co acknowledges and agrees that, subject to the exclusion of information referred to in Clause 61.2.2, the provision or publication of the documents and information listed in this Clause 61.1 shall not give rise to any

liability under the terms of this Agreement or otherwise. The Board shall notify Project Co in writing not less than ten (10) Business Days prior to any intended provision or publication of information pursuant to this Clause 61.1.

61.2

61.2.1 The parties agree that the provisions of this Agreement and each Ancillary Document shall, subject to Clause 61.2.2 below, not be treated as Confidential Information and may be disclosed without restriction and Project Co acknowledges that the Board shall, subject to Clause 61.2.2 below, be entitled to make this Agreement and each Ancillary Document available in the public domain.

61.2.2 Clause 61.2.1 above shall not apply to provisions of this Agreement or an Ancillary Document designated as Commercially Sensitive Information and listed in Schedule Part 26 (*Commercially Sensitive Information*)] to this Agreement which shall, subject to Clause 61.3 be kept confidential for the periods specified in that Schedule Part 26 (*Commercially Sensitive Information*).

61.2.3 The parties shall keep confidential all Confidential Information received by one party from the other party relating to this Agreement and Ancillary Documents or the Project and shall use all reasonable endeavours to prevent their employees and agents from making any disclosure to any person of any such Confidential Information.

Permitted Disclosure

61.3 Clauses 61.2.2 and 61.2.3 shall not apply to:

61.3.1 any disclosure of information that is reasonably required by any person engaged in the performance of their obligations under this Agreement for the performance of those obligations;

61.3.2 any matter which a party can demonstrate is already or becomes generally available and in the public domain otherwise than as a result of a breach of this Clause;

61.3.3 any disclosure to enable a determination to be made under Schedule Part 20 (*Dispute Resolution Procedure*) or in connection with a dispute between Project Co and any of its subcontractors;

61.3.4 any disclosure which is required pursuant to any Law or Parliamentary obligation placed upon the party making the disclosure or the rules of any stock exchange or governmental or regulatory authority having the force of law or, if not having the force of law, compliance with which is in accordance with the general practice of persons subject to the stock exchange or governmental or regulatory authority concerned;

61.3.5 any disclosure of information which is already lawfully in the possession of the receiving party, prior to its disclosure by the disclosing party;

61.3.6 any provision of information to the parties' own professional advisers or insurance advisers or to the Senior Funders or the Senior Funders' professional advisers or insurance advisers or, where it is proposed that a person should or may provide funds (whether directly or indirectly and whether by loan, equity participation or otherwise) to Project Co to enable it to carry out its obligations under this Agreement, or may wish to acquire shares in Project Co [and/or Hold Co] in accordance with the provisions of this Agreement to that person or their respective professional advisers but only to the extent reasonably necessary to enable a decision to be taken on the proposal;[12]

61.3.7 any disclosure by the Board of information relating to the design, construction, operation and maintenance of the Project and such other information as may be reasonably required for the purpose of conducting a due diligence exercise, to any proposed new contractor, its advisers and lenders, should the Board decide to retender this Agreement; or

61.3.8 any registration or recording of the Consents and property registration required;

61.3.9 any disclosure of information by the Board to any other department, office or agency of the Government or their respective advisers or to the Scottish Futures Trust or to any person engaged in providing services to the Board for any purpose related to or ancillary to this Agreement;

61.3.10 any disclosure for the purpose of:

(a) the examination and certification of the Board's or Project Co's accounts;

(b) any examination pursuant to section 6(1) of the National Audit Act 1983 of the economy, efficiency and effectiveness with which the Board has used its resources;

(c) complying with a proper request from either party's insurance adviser, or insurer on placing or renewing any insurance policies; or

(d) (without prejudice to the generality of Clause 61.3.4) compliance with the FOI(S)A and/or the Environmental Information (Scotland) Regulations;

[12] Bidders to complete.

61.3.11 disclosure pursuant to Clause 61.1; or

61.3.12 disclosure to the extent required pursuant to Clause 63.2;

provided that, to avoid doubt, neither Clause 61.3.10(d) nor Clause 61.3.4 above shall permit disclosure of Confidential Information otherwise prohibited by Clause 61.2.3 where that information is exempt from disclosure under section 36 of the FOI(S)A.

61.4 Where disclosure is permitted under Clause 61.3, other than under Clauses 61.3.2, 61.3.4, 61.3.5, 61.3.8 and 61.3.10, the party providing the information shall procure that the recipient of the information shall be subject to the same obligation of confidentiality as that contained in this Agreement.

61.5 Project Co shall not make use of this Agreement or any information issued or provided by or on behalf of the Board in connection with this Agreement otherwise than for the purpose of this Agreement, except with the written consent of the Board.

61.6 Where Project Co, in carrying out its obligations under this Agreement, is provided with information relating to any Board Party, Project Co shall not disclose or make use of any such information otherwise than for the purpose for which it was provided, unless Project Co has obtained the prior written consent of that person and has obtained the prior written consent of the Board.

61.7 On or before the Expiry Date, Project Co shall ensure that all documents or computer records in its possession, custody or control, which contain information relating to any patient or Board Party including any documents in the possession, custody or control of a Sub-Contractor, are delivered up to the Board.

61.8 The parties acknowledge that Audit Scotland has the right to publish details of this Agreement (including Commercially Sensitive Information) in its relevant reports to Parliament.

61.9 The provisions of this Clause 61 *(Confidentiality)* are without prejudice to the application of the Official Secrets Acts 1911 to 1989.

Announcements

61.10 Unless otherwise required by any Law or any regulatory or governmental authority (but only to that extent), neither party shall make or permit or procure to be made any public announcement or disclosure (whether for publication in the press, the radio, television screen or any other medium) of any Confidential Information or in the case of Project Co of its (or any Project Co Party's) interest in the Project or, in any such case, any matters relating thereto, without the prior written consent of the other party (which shall not be unreasonably withheld or delayed).

62. FREEDOM OF INFORMATION

62.1 Project Co acknowledges that the Board is subject to the requirements of the FOI(S)A and the Environmental Information (Scotland) Regulations and shall assist and cooperate with the Board to facilitate the Board's compliance with its Information disclosure requirements pursuant to the same in the manner provided for in Clauses 62.2 to62.8.

62.2 Where the Board receives a Request for Information in relation to Information that Project Co is holding on its behalf and which the Board does not hold itself the Board shall refer to Project Co such Request for Information as soon as practicable and in any event within five (5) Business Days of receiving such Request for Information and Project Co shall:

62.2.1 provide the Board with a copy of all such Information in the form that the Board requires as soon as practicable and in any event within five (5) Business Days (or such other period as the Board acting reasonably may specify) of the Board's request; and

62.2.2 provide all necessary assistance as reasonably requested by the Board in connection with any such Information, to enable the Board to respond to the Request for Information within the time for compliance set out in section 10 of the FOI(S)A or Regulation 5 of the Environmental Information (Scotland) Regulations.

62.3 Following notification under Clause 62.2, and up until such time as Project Co has provided the Board with all the Information specified in Clause 62.2.1, Project Co may make representations to the Board as to whether or not or on what basis Information requested should be disclosed, and whether further information should reasonably be provided in order to identify and locate the information requested, provided always that the Board shall be responsible for determining at its absolute discretion:

62.3.1 whether Information is exempt from disclosure under the FOI(S)A and the Environmental Information (Scotland) Regulations;

62.3.2 whether Information is to be disclosed in response to a Request for Information, and

in no event shall Project Co respond directly, or allow its Sub-Contractors to respond directly, to a Request for Information unless expressly authorised to do so by the Board.

62.4 Project Co shall ensure that all Information held on behalf of the Board is retained for disclosure for the remainder of the Project Term plus an additional seven (7) years, and shall permit the Board to inspect such Information as requested from time to time.

62.5 Project Co shall transfer to the Board any Request for Information received by Project Co as soon as practicable and in any event within two (2) Business Days of receiving it.

62.6 Project Co acknowledges that any lists provided by it listing or outlining Confidential Information are of indicative value only and that the Board may nevertheless be obliged to disclose Confidential Information in accordance with the requirements of FOI(S)A and the Environmental (Scotland) Regulations.

62.7 In the event of a request from the Board pursuant to Clause 62.2 Project Co shall as soon as practicable, and in any event within five (5) Business Days of receipt of such request, inform the Board of Project Co's estimated costs of complying with the request to the extent these would be recoverable, if incurred by the Board, under section 13(1) of the FOI(S)A and the Fees Regulations. Where such costs (either on their own or in conjunction with the Board's own such costs in respect of such Request for Information) will exceed the appropriate limit referred to in section 12(1) of the FOI(S)A and as set out in the Fees Regulations (the **"Appropriate Limit"**) the Board shall inform Project Co in writing whether or not it still requires Project Co to comply with the request and where it does require Project Co to comply with the request the ten (10) Business Days period for compliance shall be extended by such number of additional days for compliance as the Board is entitled to under section 10 of the FOI(S)A. In such case, the Board shall notify Project Co of such additional days as soon as practicable after becoming aware of them and shall reimburse Project Co for such costs as Project Co incurs in complying with the request to the extent it is itself entitled to reimbursement of such costs in accordance with its own FOI(S)A policy from time to time.

62.8 Project Co acknowledges that (notwithstanding the provisions of Clause 61 (*Confidentiality*)) the Board may, acting in accordance with the Scottish Ministers Code of Practice on the Discharge of Functions of Public Authorities under Part 6 of the Freedom of Information (Scotland) Act 2002 (the "**Code**"), and/or having full regard to any guidance or briefings issued by the Scottish Information Commissioner or the Scottish Ministers, be obliged under the FOI(S)A, or the Environmental Information (Scotland) Regulations to disclose Information concerning Project Co or the Project:

62.8.1 in certain circumstances without consulting with Project Co; or

62.8.2 following consultation with Project Co and having taken their views into account,

provided always that where Clause 62.8.1 above applies the Board shall, in accordance with the recommendations of the Code, draw this to the attention of Project Co prior to any disclosure.

62.9 In the event that the Project Co is or becomes subject to Environmental Information (Scotland) Regulations or FOI(S)A it shall comply with its obligations under Environmental Information (Scotland) Regulations and FOI(S)A. In doing so, it will use reasonable endeavours to consult the Board before disclosing Information about them or any agreement entered into between the Board and Project Co.

63. INFORMATION AND AUDIT ACCESS

63.1 Project Co shall provide to the Board's Representative all information, documents, records and the like in the possession of, or available to, Project Co (and to this end Project Co shall use all reasonable endeavours to procure that all such items in the possession of the Contractor or any Service Providers shall be available to it and Project Co has included, or shall include, relevant terms in all contracts with the Contractor or any Service Providers to this effect) as may be reasonably requested by the Board's Representative for any purpose in connection with this Agreement.

63.2 For the purpose of:

63.2.1 the examination and certification of the Board's accounts; or

63.2.2 any examination pursuant to section 23 of the Public Finance and Accountability (Scotland) Act 2000 of the economy, efficiency and effectiveness with which the Board has used its resources,

the Auditor General for Scotland may examine such documents as he may reasonably require which are owned, held or otherwise within the control of Project Co (and Project Co shall procure that any person acting on its behalf who has such documents and/or other information shall also provide access) and may require Project Co to produce such oral or written explanations as he considers necessary.

63.3. Project Co shall provide and shall procure that its Sub-Contractors shall provide such information as the Board may reasonably require from time to time to enable it to meet its obligations to provide reports and returns pursuant to regulations, directions or guidance applicable to the Board including, without limitation, reports and returns regarding the physical condition of buildings occupied by the Board, health and safety, under the firecode, relating to environmental health and to comply with requirements for the provision of information relating to achievement of customer service targets.

64. NOTICES

64.1 All notices under this Agreement shall be in writing and all certificates, notices or written instructions to be given under the terms of this Agreement shall be served by sending the same by first class post, or by hand, leaving the same at:

If to Project Co Address:

If to the Board Address:

64.2 Where any information or documentation is to be provided or submitted to the Board's Representative or the Project Co Representative it shall be provided or submitted by sending the same by first class post, or by hand, leaving the same at:

If to Project Co's Representative Address:

If to the Board's Representative Address:

(copied in each case to the Board)

64.3 Either party to this Agreement (and either Representative) may change its nominated address by prior notice to the other party.

64.4 Notices given by post shall be effective upon the earlier of (i) actual receipt, and (ii) five (5) Business Days after mailing. Notices delivered by hand shall be effective upon delivery.

65. NO WAIVER

65.1 Any relaxation, forbearance, indulgence or delay (together "**indulgence**") of any party in exercising any right shall not be construed as a waiver of the right and shall not affect the ability of that party subsequently to exercise that right or to pursue any remedy, nor shall any indulgence constitute a waiver of any other right (whether against that party or any other person).

Continued effect – no waiver

65.2 Notwithstanding any breach of this Agreement by either party, and without prejudice to any other rights which the other party may have in relation to it, the other party may elect to continue to treat this Agreement as being in full force and effect and to enforce its rights under this Agreement. The failure of either party to exercise any right under this Agreement, including any right to terminate this Agreement and any right to claim damages, shall not be deemed a waiver of such right for any continuing or subsequent breach.

66. NO AGENCY

66.1 Nothing in this Agreement shall be construed as creating a partnership or as a contract of employment between the Board and Project Co.66.2 Save as expressly provided otherwise in this Agreement, Project Co shall not be, or be deemed to be, an agent of the Board and Project Co shall not hold itself out as having authority or power to bind the Board in any way.

66.3 Without limitation to its actual knowledge, Project Co shall for all purposes of this Agreement, be deemed to have such knowledge in respect of the Project as is held (or ought reasonably to be held) by any Project Co Party.

67. ENTIRE AGREEMENT

67.1 Except where expressly provided otherwise in this Agreement, this Agreement

constitutes the entire agreement between the parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings concerning the subject matter of this Agreement.

67.2 Each of the parties acknowledges that:

67.2.1 it does not enter into this Agreement on the basis of and does not rely, and has not relied, upon any statement or representation (whether negligent or innocent) or warranty or other provision (in any case whether oral, written, express or implied) made or agreed to by any person (whether a party to this Agreement or not) except those expressly repeated or referred to in this Agreement and the only remedy or remedies available in respect of any misrepresentation or untrue statement made to it shall be any remedy available under this Agreement; and

67.2.2 this Clause shall not apply to any statement, representation or warranty made fraudulently, or to any provision of this Agreement which was induced by fraud, for which the remedies available shall be all those available under the law governing this Agreement.

68. THIRD PARTY RIGHTS

Save to the extent expressly provided in this Agreement and, to avoid doubt, without prejudice to the terms of the Funders' Direct Agreement or the rights of any permitted successor to the rights of Project Co or of any permitted assignee, it is expressly declared that no rights shall be conferred under and arising out of this Agreement upon any person other than the Board and Project Co and without prejudice to the generality of the foregoing, there shall not be created by this Agreement a *jus quaesitum tertio* in favour of any person whatsoever.

69. SEVERABILITY

If any provision of this Agreement shall be declared invalid, unenforceable or illegal by the courts of any jurisdiction to which it is subject, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Agreement.

70. CONFLICTS OF AGREEMENTS

In the event of any conflict between this Agreement and the Project Documents, the provisions of this Agreement shall prevail.

71. COSTS AND EXPENSES

Each party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement.

72. FURTHER ASSURANCE

Each party shall do all things and execute all further documents necessary to give full effect to this Agreement.

73. COMMUNITY BENEFITS

73.1 Project Co shall comply with the Board's Community Benefits Requirements set out in [the Board's Construction Requirements and Service Level Specification] in accordance with Project Co's Community Benefits Method Statements set out in [ ][13].

73.2 If, in relation to the Works, Project Co does not:

73.2.1 [insert target][14]

then Project Co shall pay to the Board the sum of [*insert amount*][15] (index linked);

73.2.2 [*insert target*][16]

then Project Co shall pay to the Board the sum of [*insert amount*] (index linked);

73.2.3 [*insert target*][17]

then Project Co shall pay to the Board the sum of [*insert amount*][18] (index linked);

73.2.4 provide the [quarterly / annual] information in accordance with [ ][19]

then on the occurrence of each such failure Project Co shall pay to the Board the sum of [*insert amount*][20] (index linked),

provided that in each case the Board has first served notice on Project Co notifying it of its non-compliance and Project Co has failed to rectify such non-compliance within twenty (20) Business Days of such notice.

73.3 The Board's sole and exclusive remedy in respect of a breach of Clause 73.2 above shall be the payments provided for in Clause 73.2 [and Project Co's

[13] Bidders to complete.
[14] Bid Back Item: Bidders to bid back.
[15] Bid Back Item: Bidders to bid back.
[16] Bid Back Item: Bidders to bid back.
[17] Bid Back Item: Bidders to bid back.
[18] Bid Back Item: Bidders to bid back.
[19] Bid Back Item: Bidders to complete.
[20] Bid Back Item: Bidders to bid back.

maximum liability in this respect shall be [*insert amount*][21] (index linked)].

73.4 If, in relation to the Services, Project Co does not:

73.4.1 [insert target][22]

then Project Co shall pay to the Board the sum of [insert amount][23] (index linked);

73.4.2 [insert target][24]

then Project Co shall pay to the Board the sum of [insert amount][25] (index linked);

73.4.3 [insert target][26]

then Project Co shall pay to the Board the sum of [insert amount][27] (index linked);

73.4.4 provide the [quarterly / annual] information in accordance with [ ] then on the occurrence of each such failure Project Co shall pay to the Board the sum of [*insert amount*][28] (index linked),

provided that in each case the Board has first served notice on Project Co notifying it of its non-compliance and Project Co has failed to rectify such non-compliance within [twenty] Business Days of such notice.

73.5 The Board's sole and exclusive remedy in respect of a breach of Clause 73.4 shall be the payments provided for in Clause 73.4 [and Project Co's maximum liability in this respect shall be [*insert amount*][29] (index linked)].

73.6 All payments due by Project Co to the Board under this Clause shall be payable within [ ][30] Business Days of written demand.

74. GOVERNING LAW AND JURISDICTION

74.1 This Agreement shall be considered as a contract made in Scotland and shall be subject to the laws of Scotland.

[21] Bid Back Item: Bidders to bid back.
[22] Bid Back Item: Bidders to bid back.
[23] Bid Back Item: Bidders to bid back.
[24] Bid Back Item: Bidders to bid back.
[25] Bid Back Item: Bidders to bid back.
[26] Bid Back Item: Bidders to bid back.
[27] Bid Back Item: Bidders to bid back.
[28] Bid Back Item: Bidders to bid back.
[29] Bid Back Item: Bidders to bid back.
[30] Bid Back Item: Bidders to bid back.

74.2 Subject to the provisions of the Dispute Resolution Procedure, both parties agree that the courts of Scotland shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Agreement and irrevocably submit to the jurisdiction of those courts.

IN WITNESS WHEREOF these presents typewritten on this and the preceding [ ] pages together with the Schedule in [ ] Parts are executed by the parties hereto as follows:

SCHEDULES

SCHEDULE PART 1

DEFINITIONS AND INTERPRETATION

SECTION 1

In this Agreement unless the context otherwise requires:

"217 Old Dalkeith Road"	means that area forming 217 Old Dalkeith Road shown outlined in red on Plan 9;
"5 Year Maintenance Plan"	means the plan, to be prepared by or on behalf of Project Co, for any works for the maintenance or repair of the Facilities, including the renewal or replacement of plant or equipment as necessary, during each rolling five year period for the duration of the Project Term;
"Access Areas"	means the Orange Area, the Yellow Area and the Substation Access Area;
"Access Roads"	means the access roads and footpaths shown coloured orange and yellow on Plan 8;
"Access Roads (Future)"	means the access roads and footpaths leading from Old Dalkeith Road, Edinburgh as shown shaded yellow, blue and pink/hatched black (for the avoidance of doubt, excluding the section of road shaded pink but unhatched) Plan 6 or such alternative access roads and footpaths from Old Dalkeith Road, Edinburgh, as approved by the local planning authority and roads authority to be constructed on the Campus Site in substitution for the foregoing access roads and footpaths;
"Access Strategy"	means the agreed proposal for access to the Access Areas in Appendix F of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement) and/or any proposal for access to the Access Areas agreed or determined pursuant to paragraph 1 of Section 2 *(Access Areas and Amended Drainage Proposals)* of Part 2 *(Interface Proposals Procedure)* of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Actual Commissioning End Date"	means the date specified in the Commissioning Completion Certificate issued by the Independent Tester pursuant to Clause 18.4;

"Actual Completion Date" means the later of:

(a) the date stated in the Certificate of Practical Completion issued by the Independent Tester pursuant to Clause 17.12; and

(b) subject to Clause 14.5, the Completion Date;

"Actual Liability" has the meaning given in Clause 46.7.3;

"Additional Oversail Strategy" as defined in paragraph 1 of Section 1 *(Oversail)* of Part 2 *(Interface Proposals Procedure)* of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);

"Additional Permitted Borrowing" means on any date, the amount equal to any amount of principal outstanding under the Senior Funding Agreements (as the same may from time to time be amended, whether or not with the approval of the Board) in excess of the amount of principal scheduled under the Senior Funding Agreements at Financial Close to be outstanding at that date,

but only to the extent that:

(a) this amount is less than or equal to the Additional Permitted Borrowings Limit; and

(b) in respect of any Additional Permitted Borrowing the Agent is not in material breach of its obligations under clause 9.4.3 of the Funders' Direct Agreement as it applies to such Additional Permitted Borrowing,

and provided further that any such excess amount of principal which is:

(i) invested as part of any Qualifying Change; or

(ii) outstanding from time to time as a result of any drawing under the Senior Funding Agreements as entered into at the date of this Agreement, disregarding any subsequent amendment; or

(iii) outstanding from time to time as a result of any amendment to the Senior Funding Agreements in respect of which the Board has agreed that its liabilities on a termination may be increased pursuant to Clause 4.3 shall not be counted as

Additional Permitted Borrowing;

"Additional Permitted Borrowings Limit" means an amount equal to:

(a) 10% of the Original Senior Commitment, for any Additional Permitted Borrowing subsisting in the period from the date of Financial Close to the date on which the amount outstanding under the Senior Funding Agreements is reduced to 50% or less of the Original Senior Commitment; and thereafter

(b) the higher of:

(i) 5% of the Original Senior Commitment; and

(ii) the amount of any Additional Permitted Borrowing outstanding on the last day of the period referred to in paragraph (a);

"Adjudicator" has the meaning given in paragraph 4.1 of Schedule Part 20 (*Dispute Resolution Procedure*);

"Adverse Law" means any Change in Law which would if passed into Law have the following effects, and any administrative act of the Government or any minister of the Crown, department, agency, regulator or other public body or official not amounting to a Change in Law but which has (or would, if made, have) the following effects:

(a) remove, transfer to another party or otherwise have a material adverse effect upon the Board's legal capacity (or obligation) to perform any of its material obligations in relation to the Project which are material to the interests of Project Co and/or its Funders; or

(b) amend or repeal (without re-enactment, consolidation or replacement by Law having an equivalent effect) the National Health Service (Residual Liabilities) Act 1996 or the National Health Service (Private Finance) Act 1997;

provided that,

(i) in the circumstances referred to in paragraph (a), where a Change in Law would have the effect of

transferring the legal capacity or obligation of the Board in relation to such material obligations to a new entity (a "**Board Substitute**"), the relevant Law shall not be an Adverse Law if:

(aa) either:

(i) the provisions of the National Health Service (Residual Liabilities) Act 1996 and the National Health Service (Private Finance) Act 1997 (together the "**Protective Legislation**") apply to such Board Substitute in full (as applied to the Board as at the date of this Agreement); or

(ii) the relevant Law has the same effect in relation to the Board Substitute as the Protective Legislation; and

(bb) the relevant Law does not otherwise have any adverse material effect on the legal capacity or obligation of the Board Substitute which affects (or could reasonably be expected to affect) the Board Substitute's ability to perform any material obligations owed to Project Co and/or the Funders in relation to the Project which are material to the interests of Project Co and/or its Funders, when compared to the material obligations of the Board under this Agreement;

"Affiliate" means, in relation to any person, any holding company or subsidiary of that person or any subsidiary of such holding company, and "**holding company**" and "**subsidiary**" shall have the meaning given to them in section 1159 of the Companies Act 2006;

"Agent" has the meaning given in the Funders' Direct Agreement;

"Agreed Order of Priorities" has the meaning given in the Articles of Association;

"Amended Drainage Proposal"	as defined in paragraph 2.1 of Section 2 *(Access Areas and Amended Drainage Proposal*) of Part 2 *(Interface Proposals Procedure)* of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Amended Service Proposal"	as defined in paragraph 1.1 of Section 3 *(Amended Service Proposal)* of Part 2 *(Interface Proposals Procedure)* of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Ancillary Documents"	means the Construction Contract, the Service Contracts and the Performance Guarantees [and [TO BE FINALISED DURING DIALOGUE]], all as the same may be amended or replaced from time to time;
"Ancillary Rights"	means such rights as set out in Section 3 (*Ancillary Rights*) of Schedule Part 5 (*Land Matters*);
"Annual Service Payment"	has the meaning given in Schedule Part 14 (*Payment Mechanism*);
"Approved RDD Item"	means an item of Reviewable Design Data which has been returned or has been deemed to have been returned endorsed either "Level A – no comment" or "Level B – proceed subject to amendment as noted" by the Board's Representative pursuant to the provisions of Clause 12 (*Design, Construction and Commissioning Process*) and Schedule Part 8 (*Review Procedure*) (provided that in the case of any item of Reviewable Design Data which has been returned or has been deemed to have been returned endorsed "Level B – proceed subject to amendment as noted" Project Co has taken account of the Board's Representative's comments), as such item of Reviewable Design Data may be varied or amended from time to time in accordance with Schedule Part 16 (*Change Protocol*);
"Articles of Association"	means Project Co's articles of association, and the term "**Articles**" shall be construed accordingly;
"As Built Energy Model"	means Project Co's Financial Close Energy Model updated to incorporate all as built construction, commissioning and testing information and any Board agreed design amendments, as agreed with the Board prior to the Commissioning End Date;

"Associated Companies"	means, in respect of a relevant company, a company which is a Subsidiary, a Holding Company or a company that is a Subsidiary of the ultimate Holding Company of that relevant company, and in the case of Project Co shall include [Hold Co] and each of the Shareholders, and the term "**Associate**" shall be interpreted accordingly;
"Availability Failure"	has the meaning given in Schedule Part 14 (*Payment Mechanism*);
"Base Date"	has the meaning given in paragraph 16 of Section 2 (*Interpretation*) of Schedule Part 1 (*Definitions and Interpretation*);
"Base Senior Debt Termination Amount"	has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);
"Beneficiary"	has the meaning given in Clause 49.3 (*Conduct of Claims*);
"Bioquarter Site"	means the area shown outlined in red on Plan 12;
"Bioquarter Infrastructure"	means the infrastructure resulting from the Bioquarter Works;
"Bioquarter Works"	means the design [(including preparation of all Design Data)], construction, testing and commissioning and completion of the works to be undertaken on the Bioquarter Site in accordance with paragraph 4.5.10 of Sub-Section C of Part 3 and Section 2 (Operational Construction Issues) and paragraph 7 *(Sub-station Access and Cables)* of Part 1 of Section 5 *(Access Areas, Drainage and Substation*) of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Board Assets"	means the Retained Estate, Retained Site and any other assets and equipment or other property used by, or on behalf of, the Board or any Board Party, other than the Facilities;
"Board Change"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Board Change Notice"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Board's Commissioning"	means the Board's pre-completion commissioning activities to be carried out by the Board in accordance with Clause 17 (*Pre-Completion Commissioning and Completion*);
"Board's Community Benefits Requirements"	means those requirements set out in [Board's Construction Requirements and Service Level

	Specification];
"Board's Construction Requirements"	means the requirements of the Board set out or identified in Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*) as amended from time to time in accordance with the terms of this Agreement;
"Board Events of Default"	has the meaning given in Clause 39.1;
"Board's Maintenance Obligations"	has the meaning given in Clause 23.13;
"Board Observer"	means, from time to time, the individual designated as such by the Board;
"Board Party"	means any of the Board's agents, contractors and sub-contractors of any tier and its or their directors, officers and employees at the Facilities, with the authority of the Board but excluding Project Co, any Project Co Party and statutory undertakers and utilities and "**Board Parties**" shall be construed accordingly;
"Board Policies"	means, subject to Clause 27.7, the policies of the Board set out in Schedule Part 28 *(Board Policies)* as amended from time to time;
"Board's Post Completion Commissioning"	means the Board's post-completion commissioning activities to be carried out by the Board in accordance with Clause 18.1 (*Post Completion Commissioning*);
"Board's Representative"	means the person so appointed by the Board pursuant to Clause 8 (*Representatives*);
"Board Services"	means: (a) the Clinical Services; (b) the Non-Clinical Services; (c) a catering service comprising a restaurant, grab and go kiosks, vending machines and trolley services, (d) retail premises for the sale of goods which are ordinarily sold in hospitals; (e) display of works of art for exhibition and/or sale within the Site; (f) any Volunteer Services; (f) the holding of an occasional fete, tombola and raffle for charitable fund raising purposes within the Site; (e) Teenager Cancer Trust Activities,

	and such other services as may be notified to Project Co by the Board from time to time which are not services to be carried out by Project Co under this Agreement;
"Business Day"	means a day other than a Saturday, Sunday or a bank holiday in Edinburgh;
"Campus Facilities"	means the Facilities and Retained Estate;
"Campus Parties"	means the Board and/or Board Parties and/or Consort and/or Consort Parties and/or the University and/or the University Parties, and each of their tenants or any party authorised by the same;
"Campus Site"	means the land shown outlined in red on Plan 7 and contained in Schedule Part 27 *(Plans);*
"Capital Expenditure"	means capital expenditure (as such term is interpreted in accordance with generally accepted accounting principles in the United Kingdom from time to time);
"Car Park E"	means the area of land the extent of which is shown delineated in a broken red line on Plan 3 and the location of which within the Campus Site is shown on Plan 5;
"CDM Regulations"	has the meaning given in Section 2 (*Safety During Construction*) of Schedule Part 6 (*Construction Matters*);
"Certificate of Practical Completion"	means a certificate in the relevant form set out in Schedule Part 22 (*Certificates*);
"Change"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Change in Control"	means: (a) any sale or other disposal of any legal, beneficial or equitable interest in any or all of the equity share capital of a corporation (including the control over the exercise of voting rights conferred on that equity share capital, control over the right to appoint or remove directors or the rights to dividends); and/or (b) any other arrangements that have or may have or which result in the same effect as paragraph (a) above; means the coming into effect or repeal (without re-enactment or consolidation) in Scotland of any Law, or any amendment or variation to any Law, or any judgement of a relevant court of law which

	changes binding precedent in Scotland in each case after the date of this Agreement;
"Clinical Services"	means: (a) management, responsibility, administration and carrying out of the clinical and medical services provided at the Facilities by or on behalf of the Board from time to time; (b) the provision of training and education required to deliver the services referred to in paragraph (a) above, and which are not services to be provided by Project Co to the Board under this Agreement;
"Collateral Agreements"	means the Contractor's Collateral Agreement, the Service Providers' Collateral Agreements and the Key Sub-Contractor Collateral Agreements;
"Commencement Date"	means [the date of this Agreement];
"Commercially Sensitive Information"	means the sub set of Confidential Information listed in column 1 of Part 1 *(Commercially Sensitive Contractual Provisions)* and column 1 of Part 2 *(Commercially Sensitive Material)* of Schedule Part 26 (*Commercially Sensitive Information*) in each case for the period specified in column 2 of Parts 1 and 2 of Schedule Part 26 (*Commercially Sensitive Information*);
"Commissioners"	has the meaning given in Clause 35.3;
"Commissioning Completion Certificate"	means a certificate in the relevant form set out in Schedule Part 22 (*Certificates*);
"Commissioning End Date"	means the date by which the parties' commissioning activities are programmed to be completed in accordance with the Final Commissioning Programme;
["Committed Standby Facility"	means [ ];]
"Compensation Event"	has the meaning given in Clause 29.10;
"Compensation Payment"	has the meaning given in Clause 46.10;
"Completion Criteria"	means the Completion Tests as defined in Appendix B of Schedule Part 10 (*Outline Commissioning Programme*);
"Completion Date"	means [ ] or such revised date as may be specified by the Board's Representative pursuant to Clause 29 *(Delay Events)* or such other date as may be agreed by the parties;
"Completion Process"	has the meaning given to it in Schedule Part 10

(Outline Commissioning Programme);

"Confidential Information" means:

(a) information that ought to be considered as confidential (however it is conveyed or on whatever media it is stored) and may include information whose disclosure would, or would be likely to, prejudice the commercial interests of any person, trade secrets, Intellectual Property Rights and know-how of either party and all personal data and sensitive personal data within the meaning of the Data Protection Act 1988 and

(b) Commercially Sensitive Information;

"Connection Area" means the area of land shown shaded blue on Plan 2;

"Connection Proposal" means the agreed proposal for connection information relating to the connection from the Facilities to the Link Building in Appendix G of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with the Agreement);

"Consents" means all permissions, consents, approvals, certificates, permits, licences, statutory agreements and authorisations required by Law, and all necessary consents and agreements from any third parties (including, without limitation, any Planning Permission), needed to carry out the Project Operations in accordance with this Agreement;

"Consort" means Consort Healthcare (Edinburgh Royal Infirmary) Limited a company incorporated in Scotland under the Companies Acts (company number SC187449) and having its registered office at Edinburgh Quay, 133 Fountainbridge, Edinburgh EH3 9AG and/or any successor and/or assignee or party acquiring an interest in the Retained Estate and/or Retained Site and/or the RIE Project Agreement;

"Consort Party" means Consort's agents and contractors of any tier and its or their directors, officers, employees and/or workmen in relation to the Retained Site and/or the Retained Estate and any relevant successors of the same;

"Construction Access" as defined in paragraph 1.1 of Section 1 *(Construction Access)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A of the Board's Construction

	Requirements (as varied, amended or supplemented from time to time in accordance with the Agreement);
"Construction Access Proposal"	means the agreed proposal for construction access over the Yellow Area in Appendix H of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with the Agreement);
"Construction Contract"	means the design and build contract dated the same date as this Agreement between Project Co and the Contractor (which, as at the date of this Agreement, is in the Agreed Form) as amended or replaced from time to time in accordance with this Agreement;
"Construction Phase"	means the period from and including the date of execution of this Agreement to and including the Actual Completion Date;
"Construction Quality Plan"	means the document at Section 8 (*Quality Plans (Design and Construction*)) of Schedule Part 6 (*Construction Matters*);
"Contamination"	means all or any pollutants or contaminants, including any chemical or industrial, radioactive, dangerous, toxic or hazardous substance, waste or residue (whether in solid, semi-solid or liquid form or a gas or vapour) and including without limitation genetically modified organisms;
"Contract Month"	means a calendar month provided that: (a) the first Contract Month shall be the period from and including the Payment Commencement Date to and including the last day of the calendar month in which the Payment Commencement Date falls; and (b) the last Contract Month shall be the period from and including the first day of the calendar month in which the Expiry Date or Termination Date (as the case may be) falls to and including the Expiry Date or the Termination Date (as the case may be);
"Contract Year"	means: (a) for the first Contract Year, the period from the date of this Agreement to the subsequent 31 March; and (b) for all subsequent Contract Years, the period of twelve 12 calendar months commencing on each anniversary of 1

April,

provided that the final Contract Year shall be such period as commences on 1 April and ends on and includes the date of expiry or earlier termination of this Agreement (as the case may be);

"Contracting Associate" means the Contractor, any Service Provider and [any other entity which performs on behalf of Project Co any material function in connection with this Agreement or the Project Operations];

"Contractor" means [ ] engaged by Project Co to carry out the Works and any substitute design and/or building contractor engaged by Project Co as may be permitted by this Agreement;

"Contractor's Collateral Agreement" means a collateral agreement among the Board, Project Co and the Contractor in the form set out in Section 1 of Schedule Part 9 (*Collateral Agreements*);

"Contractor's Site Manager" means the manager to be appointed by the Contractor for purposes of supervision of all day-to-day activities on the Site and/or Off-Site;

"Contractor's Site Rules" means the Contractor's rules, applicable on the Site and/or Off-Site to the Board, Project Co, the Contractor and their respective sub-contractors and suppliers of every tier during the construction of the Facilities and the Retained Estate Handback Infrastructure;

"Convictions" means, other than in relation to minor road traffic offences, any previous or pending prosecutions, convictions, cautions and binding-over orders (including any spent convictions as contemplated by section 1(1) of The Rehabilitation of Offenders Act 1974 by virtue of the exemptions specified in Part II of Schedule 1 of the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (SI 1975/1023) and the Rehabilitation of Offenders Act 1974 (Exclusions and Exceptions) (Scotland) Order 2003 Scottish SI 2003/231) or any replacement or amendment to those Orders);

"Cycle Path Infrastructure means the infrastructure resulting from the Cycle Path Works;

"Cycle Path Works" means the design (including preparation of all Design Data)], construction, testing and commissioning and completion of the works to be undertaken on the cycle path in accordance with inter alia paragraphs 3.8.4 and 4 of the Board's Construction Requirement (as varied, amended or supplemented from time to time in accordance with this Agreement);

"Deduction"	means a deduction to be made in calculating a Monthly Service Payment, calculated in accordance with Section 3 (*Deductions from Monthly Service Payments*) of Schedule Part 14 (*Payment Mechanism*);
"Deemed Liability"	has the meaning given in Clause 46.7.3;
"Default Interest"	means any increased margin that is payable to the Senior Funders or which accrues as a result of any payment due to the Senior Funders not being made on the date on which it is due;
"Default Interest Rate"	means 2% over LIBOR;
"Defects"	means any defect or fault in the Works and/or the Facilities and/or the Retained Estate Handback Infrastructure (not being a Snagging Matter) which occurs due to a failure by Project Co to meet the Board's Construction Requirements and/or Project Co's Proposals or otherwise to comply with its obligations under this Agreement;
"Delay Event"	has the meaning given in Clause 29.3;
"Derogated Low Value Change"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Design Data"	means all drawings, reports, documents, plans, software, formulae, calculations and other data relating to the design, construction, testing and/or operation of the Facilities and/or the Retained Estate Handback Infrastructure;
"Design Quality Plan"	means the document at Section 8 (*Quality Plans (Design and Construction*)) of Schedule Part 6 (*Construction Matters*);
"Direct Losses"	means, subject to the provisions of Clause 54.1, all damage, losses, liabilities, claims, actions, costs, expenses (including the cost of legal or professional services, legal costs being on an agent/client, client paying basis), proceedings, demands and charges whether arising under statute, contract or at common law but, to avoid doubt, excluding Indirect Losses;
"Disclosed Data"	means any Design Data and any other written information, data and documents made available or issued to Project Co or any Project Co Party in connection with the Project by or on behalf of the Board (or any Board Party) whether on, before or after the execution of this Agreement;
"Discriminatory Change in Law"	means any Change in Law the effect of which is to discriminate directly against: (a) hospitals whose design, construction, financing and operation are procured under the private finance initiative in

relation to other similar projects; or

(b) companies undertaking projects procured by contracts under the private finance initiative in relation to other companies undertaking similar projects; or

(c) the Re-provision of RHSC and DCN at Little France in relation to other similar facilities; or

(d) Project Co in relation to other companies,

save:

(i) where such Change in Law is in response to any act or omission on the part of Project Co which is illegal (other than an act or omission rendered illegal by virtue of the Change in Law itself);

(ii) that such action shall not be deemed to be discriminatory solely on the basis that its effect on Project Co is greater than its effect on other companies; and

(iii) that a change in taxes or the introduction of a tax affecting companies generally or a change in VAT shall be deemed not to be discriminatory in any circumstances (to avoid doubt, such changes being given effect in accordance with Clause 35 (*VAT and Construction Industry Tax Deduction Scheme*);

"Dispute" has the meaning given in paragraph 1 of Schedule Part 20 (*Dispute Resolution Procedure*);

"Dispute Resolution Procedure" means the procedure set out in Schedule Part 20 (*Dispute Resolution Procedure*);

"Drainage Infrastructure" means the infrastructure resulting from the Drainage Works;

"Drainage Works" means the design [(including preparation of all Design Detail)], construction, testing and commissioning and completion of the drainage works to be undertaken in accordance with inter alia paragraphs 4, 6 and 8 of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance

	wit this Agreement);
“Emergency”	means an event causing or, in the reasonable opinion of a party, threatening to cause death or injury to any individual, or serious disruption to the lives of a number of people or extensive damage to property, or contamination of the environment, in each case on a scale beyond the capacity of the emergency services or preventing the Services operating under normal circumstances and requiring the mobilisation and organisation of the emergency services;
"Encumbrance"	means any option, right of pre-emption, pledge, security, interest, lien, charge, mortgage, lease, licence, claim, condition, retention or other encumbrance or restriction whether imposed by agreement, by law or otherwise;
"Energy Model"	means Project Co's approved software energy model used to inform compliance of Project Co’s Proposals with the Board’s Energy Performance criteria;
"Energy Performance"	means the Board’s requirements in relation to achieving a minimum performance for BREEAM credit ENE 01 and a minimum Energy Performance Certificate rating, as set out in Section 3 (*Board’s Construction Requirements*) of Schedule Part 6 (*Construction Matters*);
“Environmental Information (Scotland) Regulations”	means the Environmental Information (Scotland) Regulations 2004 together with any guidance and/or codes of practice issued by the Scottish Information Commissioner or relevant Government Department in relation to such regulations;
“Equipment”	means the Group 1 Equipment, the Group 2A Equipment, the Group 2B Equipment and/or the Group 3 Equipment;
"Equipment Responsibilities Matrix"	means the equipment responsibilities matrix set out in Appendix 2 of Schedule Part 11 *(Equipment);*
"Equipment Schedule"	means the equipment schedule set out in Appendix 1 to Schedule Part 11 *(Equipment);*
“Estimated Deductions”	has the meaning given in Clause 34.2.1;
“Estimated Increased Maintenance Costs”	has the meaning given in Clause 23.7;
“Excusing Cause”	has the meaning given in Clause 51.2;
“Expiry Date”	means [midnight] on [date];
“Facilities”	means the buildings and other facilities, together with all supporting infrastructure (including the Plant and the Group 1 Equipment), external hard-

	standings, specialist surfaces and other amenities located on the Site and Off-Site (excluding the Retained Estate Handback Infrastructure but including as a minimum all aspects detailed within Appendix B to Section 1 (*Service Level Specification*) of Schedule Part 12 (*Service Requirements*)), as required to enable Project Co to comply with its obligations under this Agreement, all as the same may be varied, amended or supplemented from time to time in accordance with this Agreement;
"Facility Manager"	means Project Co's duty manager who shall be present at the Facilities in accordance with the Service Level Specification;
"Fees Regulations"	means the Freedom of Information (Fees for Required Disclosure (Scotland)) Regulations 2004;
"Final Commissioning Programme"	means the programme jointly developed and agreed by the Board and Project Co in accordance with the provisions of Clause 17.1;
"Financial Close"	means the date of this Agreement;
"Financial Close Energy Model"	means Project Co's Energy Model as agreed with the Board at Financial Close to inform compliance of Project Co's Proposals with the Board's Energy Performance requirements for the Facilities as detailed in Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters);*
"Financial Model"	means the computer spreadsheet model for the Project incorporating statements of Project Co's cashflows including all expenditure, revenues, financing and taxation of the Project Operations together with the profit and loss accounts and balance sheets for Project Co throughout the Project Term accompanied by details of all assumptions, calculations and methodology used in their compilation and any other documentation necessary or desirable to operate the model, as amended from time to time in accordance with the terms of Clause 37 (*Financial Model*), a copy of which is attached to this Agreement on disk as Attachment [ ];
"Finishes"	means those finishes listed in the table set out in paragraph 1.2.3 of Schedule Part 8 (*Review Procedure*);
"Finishes Proposal Date"	means, in relation to a Finish, the relevant date identified in the table set out in paragraph 1.2.3 of Schedule Part 8 (*Review Procedure*);
"Finishes Selection Date"	means, in relation to a Finish, the relevant date identified in the table set out in paragraph 1.2.3 of

	Schedule Part 8(*Review Procedure*);
"First Party"	has the meaning given in Clause 35.3;
"FOI(S)A"	means the Freedom of Information (Scotland) Act 2002 and any subordinate legislation (as defined in section 73 of the Freedom of Information (Scotland) Act 2002) made under the Freedom of Information (Scotland) Act 2002 from time to time together with any guidance and/or codes of practice issued by the Scottish Information Commissioner or relevant Government department in relation to such Act;
"Force Majeure"	has the meaning given in Clause 31 (*Force Majeure*);
"Foul Service Strip"	means the area shaded yellow and hatched black on Plan 2A;
"Functional Area"	means an area of the Facilities identified as such in Appendix 2 to Schedule Part 14 (*Payment Mechanism*);
"Funders"	means all or any of the persons who provide financing or funding in respect of the Project Operations under the Funding Agreements including [ ] and, where the context so permits, prospective financiers or funders;
"Funders' Direct Agreement"	means the agreement to be entered into between the Board, the Senior Funders and Project Co in the form set out in Schedule Part 4 (*Funders' Direct Agreement*);
"Funding Agreements"	means all or any of the agreements or instruments to be entered into by Project Co or any of its Associates relating to the financing of the Project Operations (including the Initial Funding Agreements and any agreements or instruments to be entered into by Project Co or any of its Associates relating to the rescheduling of their indebtedness or the refinancing of the Project Operations);
"Funding Default"	means [refer to Borrower default under Senior Funding Agreements.];
"Good Industry Practice"	means using standards, practices, methods and procedures conforming to the Law and exercising that degree of skill and care, diligence, prudence and foresight which would reasonably and ordinarily be expected from a skilled and experienced person engaged in a similar type of undertaking under the same or similar circumstances;
"Government"	means the government of the United Kingdom or

	the Scottish Ministers;
“Ground Physical and Geophysical Investigation”	means the investigation of all the conditions of and surrounding the Site and Off-Site and of any extraneous materials in, on or under the Site and Off-Site (including its surface and subsoil) to enable the Facilities and the Retained Estate Handback Infrastructure to be designed and constructed and the Works to be carried out with due regard for those conditions and the seismic activity (if any) in the region of the Site and Off-Site;
"Group 1 Equipment"	means the equipment indicated as 1 in the "Group" column of the Equipment Responsibilities Matrix;
"Group 2A Equipment"	means the equipment indicated as 2A in the "Group" column of the Equipment Responsibilities Matrix;
"Group 2B Equipment"	means the equipment indicated as 2B in the "Group" column of the Equipment Responsibilities Matrix;
"Group 3 Equipment"	means the equipment indicated as 3 in the "Group" column of the Equipment Responsibilities Matrix;
“H&S Conviction”	has the meaning given in Clause 40.1.5;
“Handback Amount”	has the meaning given in Schedule Part 18 (*Handback Procedure*);
“Handback Bond”	has the meaning given in Schedule Part 18 (*Handback Procedure*);
“Handback Certificate”	means the certificate of confirmation that the Facilities comply with the Handback Requirements in the relevant form set out in Schedule Part 18 (*Handback Procedure*);
“Handback Programme”	has the meaning given in Schedule Part 18 (*Handback Procedure*);
“Handback Requirements”	has the meaning given in Schedule Part 18 (*Handback Procedure*);
“Handback Works”	has the meaning given in Schedule Part 18 (*Handback Procedure*);
"Handover Clean"	has the meaning given in paragraph 3 *(Handover Clean)* of Appendix B *(Completion Criteria)* of Schedule Part 10 *(Outline Commissioning Programme);*
"Hatched Orange Area"	means the area of land shown coloured orange and hatched in black on Plan 2, which forms part of the Orange Area;

"Health and Safety Regime"	means the Food Safety Act 1990 (and associated regulations), the Health & Safety at Work etc Act 1974 (and associated regulations), the Fire Precautions Act 1971, the Environmental Protection Act 1990 and the Water Industry (Scotland) Act 2002 and any similar or analogous health, safety or environmental legislation in force from time to time;
"Health Board"	means a health board established under section 2 of the National Health Service (Scotland) Act 1978 (or any successor body to any such body established with substantially the same powers or duties);
"High Value Change Stage 2 Submission"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Hold Co"	means [ ];
"Holding Company"	has the meaning given to it in section 1159 of the Companies Act 2006;
"Hospital Square"	means the areas shaded orange and hatched black on Plan 2, which forms part of the Orange Area;
"Hospital Square Infrastructure"	means the infrastructure resulting from the Hospital Square Works;
"Hospital Square Works"	means the works to be carried out in relation to Hospital Square as set out in inter alia paragraph 4of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Hours for Programmed Maintenance"	has the meaning given in Appendix 2 of Schedule Part 8 (*Review Procedure*);
"Hours of Operation"	has the meaning given in Appendix 2 of Schedule Part 8 (*Review Procedure*);
"Indemnifier"	has the meaning given in Clause 49.3 (*Conduct of Claims*);
"Indemnity Period"	has the meaning given to it in Schedule Part 15 *(Insurance Requirements);*
"Independent Tester"	means the [insert name of Independent Tester] or such substitute independent tester as may be permitted pursuant to this Agreement;
"Independent Tester Contract"	means the contract dated the same date as this Agreement in the form set out in Schedule Part 13 (*Independent Tester Contract*) or any replacement thereof among Project Co, the Board and the Independent Tester;
"Indirect Losses"	has the meaning given in Clause 54.1

	(*Exclusions and Limits on Liability*);
"Information"	has the meaning given under section 73 of the Freedom of Information (Scotland) Act 2002;
"Initial Funding Agreements"	means [ ] in the Agreed Form;
"Insurance Proceeds Account"	means the account numbered [ ] in the joint names of Project Co and the Board with the [Account Bank (as defined in the Funding Agreement)];
"Insurance Proceeds Account Agreement"	means the agreement in the form set out in Schedule Part 25 (*Insurance Proceeds Account Agreement*);
"Insurance Term"	means any term and/or condition required to be included in a policy of insurance by Clause 53 (*Insurance*) and/or Schedule Part 15 (*Insurance Requirements*) but excluding any risk;
"Insurances"	means, as the context requires, all or any of the insurances required to be maintained by Project Co pursuant to this Agreement;
"Intellectual Property"	means all registered or unregistered trademarks, service marks, patents, registered designs, utility models, applications for any of the foregoing, copyrights, unregistered designs, the sui generis rights of extraction relating to databases, trade secrets and other confidential information or know-how;
"Intellectual Property Rights"	means the Intellectual Property which (or the subject matter of which) is created, brought into existence, acquired, used or intended to be used by Project Co, any Project Co Party or by other third parties (for the use by or on behalf of or for the benefit of Project Co) for the purposes of the design or construction of the Facilities and the Retained Estate Handback Infrastructure, the operation, maintenance, improvement and/or testing of the Facilities and Retained Estate Handback Infrastructure or the conduct of any other Project Operation or otherwise for the purposes of this Agreement;
"Interim Project Report"	means a report prepared by Project Co setting out all information which Project Co is required to provide to the Senior Funders in respect of a Funding Default;
"ICT"	means data cabling in the communication room in the RIE Facilities and connecting the Facilities to the RIE Facilities;
"Initial Drainage Proposal"	means the proposal in regard to works to install new surface water drainage connections from the Site to the surface water drainage within the RIE Site detailed in Appendix E of the Board's

	Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"IT"	means information technology systems, hardware and software;
"Interface Output Specification"	means the document entitled "Link to RIE Interface Output Specification" detailing interfaces between the Facilities and the Link Building and/or the RIE Facilities set out in Appendix B of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Interface Proposals"	means any of the Access Strategy, Connection Proposal, Construction Access Proposal, Oversail Strategy, Service Proposal, Substation Proposal, Supplemental Drainage Proposal, Traffic Management Strategy, and any strategy or proposal agreed or determined pursuant to the terms of Part 2 *(Interface Proposals Procedure)* of Appendix A of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement), which Interface Proposals form part of Project Co's Proposals and Method Statements;
"Joint"	means the isolation/movement joint within the Connection Area between the Facilities and the Link Building, as more particularly referred to at paragraph 3.3 of the Interface Output Specification;
"Key Sub-Contractor"	means every sub-consultant appointed by Project Co and/or the Contractor who has responsibility for design of the Works or any part thereof[31];
"Key Sub-Contractor Collateral Agreements"	means the collateral agreement among the Board, Project Co [, the Contractor] and the Key Sub-Contractors in the form set out in Section 3 of Schedule Part 9 (*Collateral Agreements*);

[31] The Board are considering whether to list any key subcontract elements from whom they would like key sub-contract warranties in addition to design team warranties. Such key elements may include, helipad design,piling, roof, windows, lifts etc.

"Law"	means: (a) any applicable statute or proclamation or any delegated or subordinate legislation; (b) any enforceable community right within the meaning of section 2(1) of the European Communities Act 1972; (c) any applicable guidance, direction or determination with which the Board and/or Project Co is bound to comply to the extent that the same are published and publicly available or the existence or contents of them have been notified to Project Co by the Board; and (d) any applicable judgement of a relevant court of law which is a binding precedent in Scotland, in each case in force in Scotland;
"LIBOR"	means the rate per annum determined by [ ] Bank plc to be the offered rate for six month sterling deposits in the London interbank market which appears on Telerate Page 3750 (or such other page as may replace that page on the Dow Jones Telerate service);
"Lifecycle Replacement"	means any works for the renewal of any Plant, Equipment, or any other asset or part of the Facilities that are necessary to ensure that the Facilities are maintained in accordance with the Service Level Specification and Method Statements and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals throughout the Project Term;
"Link Building"	means the extension to the RIE Facilities constructed or to be constructed within the Connection Area by or on behalf of the Board;
"Little France Campus Working Group"	has the meaning given to it in Clause 8A.1 *(Little France Campus Working Group);*
"Little France Campus Working Group Parties"	means one (1) member of the Board, Consort, the University, Project Co and the relevant Sub-contractor;
"Little France Steading"	means subjects extending to 0.242 hectares forming Little France Steading shown outlined in

red on Plan 10;

"Low Value Change" has the meaning given in Schedule Part 16 (*Change Protocol*);

"Maintenance Works" means any works for maintenance or repair of the Facilities that are necessary to ensure that the Facilities are maintained in accordance with Service Level Specification and Method Statements and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals (including, without limitation, the renewal or replacement of any Plant or equipment) throughout the Project Term but excluding for the avoidance of doubt Lifecycle Replacement;

"Major Incident" means a major incident as defined in paragraph 1.2 of the Board Policy titled "Major Incident Plan", as set out in Schedule Part 28 (*Board Policies*);

"Malicious Damage Report" has the meaning given in Clause 49A.2.1;

"Medical Contamination" means a disease carrying agent which cleaning and prevention of infection or contamination techniques in use in accordance with Good Industry Practice and this Agreement cannot substantially prevent or cannot substantially remove with the result that:

(a) it is unsafe to admit patients or staff to the relevant area or to use the area for the purpose for which it is intended; and

(b) the area cannot be made safe for the admission of patients or staff;

"Medium Value Change" has the meaning given in Schedule Part 16 (*Change Protocol*);

"Method Statements" means the method of providing a Service as set out or identified in Section 2 (*Method Statements*) of Schedule Part 12 (*Service Requirements*) as amended from time to time in accordance with Clause 33 (*Change Protocol*) and Clause 22 (*The Services*);

"Monthly Service Payment" has the meaning given in Schedule Part 14 (*Payment Mechanism*);

"Monthly Service Report" means a monthly report to be prepared by Project Co and provided to the Board in accordance with the relevant provisions in Section 1 (*Service Level Specification*) of Schedule Part 12 (*Service Requirements*);

"Net Present Value" has the meaning given in Schedule Part 23 (*Refinancing*);

"NHS" means the National Health Service;

"NHS Requirement" means:

(a) in relation to the Works, Health Building Notes and Health Technical Memoranda and such other requirements as are designated as NHS Requirements in the Board's Construction Requirements; and

(b) in relation to the Project Operations (other than the Works), Health Building Notes, Health Technical Memoranda, all Executive Letters, Health Service Guidelines, Health Circulars of the NHS and any similar official requests, requirements and guidance having similar status for the time being in force, but only to the extent the same are published and publicly available or the existence and contents of them have been notified to Project Co by the Board;

"Non-Clinical Services" has the meaning set out in Sub-Section E *(Specific Non-Clinical Requirements)* of the Board's Construction Requirements;

"NPD" means non-profit distributing model;

"NPD Mandatory Provisions" shall mean Clause 4.4 *(Changes to Funding Agreements and Refinancing)* of this Agreement and Articles [ ][32] of the Articles of Association;

"NPD Requirements" means all of the following requirements:

(a) not to make a distribution of profit or surplus, or any transfer of assets to one or more shareholders whether by means of any payment or transfer of assets, directly or indirectly, in cash or in any kind, whether by way of dividend, bonus or release of obligation or in any other way otherwise than:

(i) for full consideration; or

(ii) to the Board pursuant to Clause 36 (*Payment of Surpluses and Compliance with NPD Requirements*) or Article [12 or 13] of the Articles of Association); or

(iii) [Project Co's Share of a Project

[32] Insert reference to mandatory NPD Articles of the Articles of Association in due course.

Co Change]; or

(iv) [Project Co's Share of a Refinancing Gain];

(b) not to amend or delete, or add new provisions to the Articles of Association, which have the effect of amending or frustrating the NPD Mandatory Provisions;

(c) to comply with the NPD Mandatory Provisions; and

(d) not to frustrate the appointment of the Public Interest Director to Project Co's board of directors in accordance with the Articles of Association;

"Off-Site" means the land made available to Project Co for the Off-Site Works and Services being:

(a) the Yellow Area, the Orange Area, the Connection Area, the Service Strip and the Substation Access Area in Plan 2; and

(b) the Foul Service Strip on Plan 2A; and

(c) the Substation Site and [Sub-station Cable Route] on Plan 4;

"Off-Site Conditions" means the condition of the Off-Site (including but not limited to) hydrological, hydrogeological, ecological, environmental, geotechnical and archaeological conditions;

"Off-Site Works" means the Bioquarter Works, RIE Works, Hospital Square Works, Cycle Path Works, Sub-Station Works and/or Sub-Station Access Works;

"Operational Functionality" means

(a) the following matters as shown on the 1:500 scale development control plan and site plans;

(i) the point of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities; and

(iii) the adjacencies between different hospital departments

within the Facilities,

as indicated on the following drawings in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* [relevant drawing numbers [●]];

(b) the following matters as shown on the 1:200 scale plans:

(i) the points of access to and within the Site and the Facilities;

(ii) the relationship between one or more buildings that comprise the Facilities;

(iii) the adjacencies between different hospital departments within the Facilities; and

(iv) the adjacencies between rooms within the hospital departments within the Facilities,

as indicated on the following drawings in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* [relevant drawing numbers [●]];

(c) the quantity, description and areas (in square metres) and minimum critical dimensions of those rooms and spaces as indicated on the following drawings in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* [relevant drawing numbers [●]];

(d) the location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans in respect of:

(i) all bed and trolley positions;

(ii) internal room elevations;

(iii) actual ceiling layouts;

(iv) the Non-Clinical Services supplies, storage, distribution and waste management spaces; and

(v) the ICT requirements;

(e) the location of and the inter-relationships between rooms within the departments within the Facilities, as indicated on the

following drawings in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* [relevant drawing numbers [●]];

but only insofar as each of the matters listed in (a) to (e) above relate to or affect Operational Use;

"Operational Insurances" means the insurances required by Clause 53.2 and "**Operational Insurance**" means any one of such insurances;

"Operational Term" means the period from the Actual Completion Date until the end of the Project Term;

"Operational Use" means the use of a room or space to the extent that it is used by the Board or its employees, tenants, agents and/or contractors (but not to avoid doubt Project Co staff) for carrying out the Board Services;

"Option Period" has the meaning given in Clause 53.14.3 (*Uninsurable Risks*);

"Orange Area" means the area of land shaded Orange on Plan 2;

"Original Senior Commitment" means the amount committed under the Senior Funding Agreements as at Financial Close (as adjusted to take into account any Qualifying Change);

"Outline Commissioning Programme" means the programme setting out the standards, specifications, procedures and other requirements for the carrying out and completion of the commissioning activities of the parties set out in outline in Schedule Part 10 (*Outline Commissioning Programme*);

"Oversail Strategy" means the agreed proposal(s) for oversailing parts of the Campus Site other than the Facilities in Appendix I of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);

"Payment Commencement Date" means the Actual Completion Date;

"Payment Mechanism" means Schedule Part 14 (*Payment Mechanism*);

"Performance Failure" has the meaning given in Section 1of Schedule Part 14 (*Payment Mechanism*);

"Performance Guarantees" means the guarantees to Project Co in respect of the Construction Contract, the Service Contracts [insert details of any other guarantees to be

given][33] which, as at the date of this Agreement are in the Agreed Form;

"**Permitted Borrowing**"	means without double-counting, any: (a) advance to Project Co under the Senior Funding Agreements, provided that such advance is not made under any Committed Standby Facility; (b) Additional Permitted Borrowing; (c) advance to Project Co under any Committed Standby Facility which is made solely for the purpose of funding any cost overruns, increased expenses or loss of revenue which Project Co incurs, provided that such funds are not used in substitution for other sources of committed funding designated for those purposes; and (d) interest and, in respect of the original Senior Funding Agreements only (as entered into at the date of this Agreement, prior to any subsequent amendment), other amounts accrued or payable under the terms of such original Senior Funding Agreements, except where the amount referred to in paragraphs (a) to (d) above is or is being used to fund a payment of Default Interest on any Additional Permitted Borrowing;
"Physical Damage Policies"	means the policies of insurance referred to in paragraph 1 (*Contractors' 'All Risk' Insurance*) of Section 1 (*Policies to be Taken Out by Project Co and Maintained During the Design and Construction Phase*) and paragraph 1 (*Property Damage*) of Section 2 (*Policies to be Taken Out By Project Co and Maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*);
"Plan 1"	means the plan marked "Plan 1 *(RHSC & DCN Site)"* annexed and executed as relative hereto and contained in Schedule Part 27 *(Plans);*
"Plan 2"	means the plan marked "Plan 2 *(Yellow Area, Orange Area, Connection Area, Service Strip and Substation Access Area)"* annexed and executed as relative hereto and contained in Schedule Part

[33] Bidders to complete.

27 *(Plans);*

"Plan 2A" means the plan marked "Plan 2A *(Foul Service Strip*)" annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 3" means the plan marked "Plan 3 *(Car Park E)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 4" means the plan marked "Plan 4 *(Substation Site)"* annexed and executed as relative hereto and contained in Schedule Part 27 *(Plans);*

"Plan 5" means the plan marked "Plan 5 *(Car Parking Layout Plan)"* annexed and executed as relative hereto and contained in Schedule Part 27 *(Plans);*

"Plan 6" means the plan marked "Plan 6 *(Roads Layout)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 7" means the indicative plan marked "Plan 7 *(Campus Site Plan)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 8" means the plan marked "Plan 8 *(University Access Rights)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 9" means the plan marked "Plan 9 *(217 Old Dalkeith Road)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 10" means the plan marked "Plan 10 *(Little France Steading)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 11" means the plan marked "Plan 11 *(Sewer)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 12" means the plan marked "Plan 12 *(Bioquarter Site)"* annexed and executed as relative to this Agreement and contained in Schedule Part 27 *(Plans);*

"Plan 13" means the plan marked "Plan 13 *(Substation Cable Route)"* annexed and executed as relative to this Agreement and contained in Schedule Part

	27 *(Plans);*
"Planning Approval"	means planning permission in principal for the Project given reference number 11/02454/PPP by the City of Edinburgh Council and dated 5 April 2012,[and annexed as Attachment [ ];
"Planning Permission"	means any planning permission, approval of matters specified in conditions attached to any planning permission in principle listed building consent, conservation areas consent and/or other consent or approval reasonably required from time to time for construction and/or operation of the Facilities and the Retained Estate Handback Infrastructure (including without limitation for any Board Change and the Planning Approval);
"Plant"	means the infrastructure systems, building systems, fixed, and immovable equipment systems, installed as part of the Works or pursuant to an Board Change as replaced from time to time;
"Post Completion Commissioning"	means, as appropriate, Project Co's Post Completion Commissioning and/or the Board's Post Completion Commissioning;
"**Programme**"	means the programme set out in Schedule Part 7 (*The Programme*) as revised and issued by Project Co (or on its behalf) from time to time pursuant to Clause 14 (*Programme and Dates for Completion*);
"**Programmed Maintenance**"	means the maintenance work which Project Co is to carry out in accordance with Schedule of Programmed Maintenance;
"**Programmed Maintenance Information**"	has the meaning given in Clause 23.3;
"Prohibited Act"	has the meaning given in Clause 44 (*Corrupt Gifts and Payments*);
"Project"	has the meaning given in Recital B;
"Project Co Event of Default"	has the meaning given in Clause 40 (*Project Co Events of Default*);
"Project Co Party"	means Project Co's agents and contractors (including without limitation the Contractor and the Service Providers) and its or their sub-contractors of any tier and its or their directors, officers, employees and workmen in relation to the Project and "**Project Co Parties**" shall be construed accordingly;
"Project Co's Post-Completion Commissioning"	means Project Co's commissioning activities carried out in accordance with Clause 18.1;
"Project Co's Pre-Completion	means Project Co's commissioning activities to be carried out in accordance with Clause 17 (*Pre*

Commissioning"	*Completion Commissioning and Completion*);
"Project Co's Community Benefits Method Statements"	means those method statements set out in [•];
"Project Co's Proposals"	means the document at Section 4 (*Project Co Proposals*) of Schedule Part 6 (*Construction Matters*) as amended from time to time in accordance with Clause 33 (*Change Protocol*);
"Project Co's Remedial Services"	means any activities to be performed by or on behalf of Project Co pursuant to its rights under Clause 23.15;
"Project Co's Representative"	means the person appointed by Project Co pursuant to Clause 8 (*Representatives*);
"Project Data"	means: (a) all Design Data; (b) all drawings, reports, documents, plans, software, formulae, calculations and other data relating to the provision of the Services; and (c) any other materials, documents and or data acquired, brought into existence or used in relation to the Project Operations or this Agreement;
"Project Documents"	means the Ancillary Documents and the Funding Agreements;
"Project Operations"	means the carrying out of the Works, the carrying out of Project Co's Pre-Completion Commissioning and Project Co's Post-Completion Commissioning, the management and provision of the Services and the performance of all other obligations of Project Co under this Agreement from time to time;
"Project Term"	means the period commencing at midnight on the date of this Agreement and ending on the earlier of the Expiry Date and the Termination Date;
"Proposal for an Adverse Law"	means: (a) in the case of a bill, the bill being introduced by the Government or receiving the support of the Government at its second reading in the first House of Parliament into which it is introduced or the bill passing a second reading in the first House of Parliament

into which it is introduced;

(b) in the case of a bill passing through the Scottish Parliament, the bill being introduced by the Scottish Government or receiving the support of the Scottish Government at Stage 2 in the Scottish Parliament or the bill passing Stage 2 in the Scottish Parliament;

(c) in the case of subordinate legislation, the proposed statutory instrument or order being laid before Parliament in draft;

(d) in the case of a directive, regulation or decision of the European Union, its adoption; or

(e) in the case of an administrative act as referred to in the definition of Adverse Law, any of the following prior or preparatory to the making of such an act;

(f) the taking by the Board, the Government, a minister of the Crown, or a department, agency, regulator or other public body official of any step in a process defined by Law for the making of such administrative acts, other than any early stages of such process (such as, without limitation, consultation or information gathering) following the completion of which further substantive steps remain in such a process before the making of such an administrative act can occur; or

(g) any communication from the Government, a minister of the Crown, or the department, agency, regulator or other public body or official responsible for making such administrative acts, to the effect that such an administrative act will be made;

"Protecting Vulnerable Groups Scheme" means the Scottish Government's membership scheme which helps to ensure that people who have regular contact with children and protected adults through paid or unpaid work do not have a known history of harmful behaviour;

"PTS" means a pneumatic tube system installed within RIE Facilities and connecting the Facilities to the RIE Facilities;

"PRS Timetable"	has the meaning given in Clause 23.16;
"Qualifying Change"	means (unless expressly stated otherwise): (a) a Low Value Change in respect of which the parties have agreed the method of implementation; or (b) a Medium Value Change in respect of which the Board has issued a confirmation notice pursuant to paragraph 7.1.1 of Section 3 (*Medium Value Changes*) of Schedule Part 16 (*Change Protocol*); or (c) a High Value Change which has received Stage 2 Approval pursuant to paragraph 8.2.1 of Section 4 (*High Value Changes*) of Schedule Part 16 (*Change Protocol*), in each case provided that any necessary changes required to be made to any Project Document and/or Ancillary Document pursuant to Schedule Part 16 (*Change Protocol*) have been given effect to and become unconditional;
"Quality Plans"	means the Design Quality Plan and Construction Quality Plan, prepared in accordance with Section 8 (*Quality Plans (Design and Construction*)) of Schedule Part 6 (*Construction Matters*), and the Services Quality Plan, prepared in accordance with Section 3 (*Service Quality Plan*) of Schedule Part 12 (*Service Requirements*), as required to be implemented by Project Co in accordance with Clause 20 (*Quality Assurance*);
"Range of Finishes"	has the meaning given in paragraph 1.2.3(a) of Schedule Part 8 (*Review Procedure*);
"Rectification"	has the meaning given in Schedule Part 14 (*Payment Mechanism*);
"Rectification Period"	has the meaning given in Schedule Part 14 (*Payment Mechanism*);
"Refinancing"	has the meaning given in Schedule Part 23 (*Refinancing*);
"Reinstatement Plan"	has the meaning given in Clause 53.22 (*Reinstatement*);

"Reinstatement Works"	has the meaning given in Clause 53.22.2 (*Reinstatement*);
"Relevant Authority"	means any court with the relevant jurisdiction and any local, national or supra-national agency, inspectorate, minister, ministry, official or public or statutory person of the government of the United Kingdom, or of the European Union, (or of the Scottish Government or the Scottish Parliament);
"Relevant Change in Law"	has the meaning given in Clause 32.3 (*Changes in Law*);
"Relevant Event"	has the meaning given in Schedule Part 16 (*Change Protocol*);
"Relevant Incident"	has the meaning given in Clause 53.22.2 (*Reinstatement*);
"Relevant Payment"	has the meaning given in Clause 53.14.3;
"Relevant Proceeds"	has the meaning given in Clause 53.22.2 (*Reinstatement*);
"Relevant Service Transfer Date"	has the meaning given in Clause 25.1;
"Relevant Tax Liability"	has the meaning given in Clause 46.7.3;
"Relief"	has the meaning given in Clause 46.7.1;
"Relief Events"	has the meaning given in Clause 30 (*Relief Events*);
"Request for Information"	has the meaning set out in the FOI(S)A or the Environmental Information (Scotland) Regulations as relevant (where the meaning set out for the term "request" shall apply);
"Required Action"	has the meaning given in Clause 24.7;
"Reserved Rights"	means the matter referred to in Section 2 (*Safety During Construction*) of Schedule Part 5 (*Land Matters*)*;*
"Restricted Person"	means either: (a) a person providing or proposing to provide healthcare services of a similar nature to those provided or contemplated by the Board at the time in question; or (b) any person who has a material interest in the production of tobacco products and/or alcoholic beverages;

"Retail Prices Index" or **"RPI"**	means the Retail Prices Index (All Items) as published by the Office for National Statistics from time to time (the "Index"), or, failing such publication or in the event of a fundamental change to the Index, such other index as the parties may agree, or such adjustments to the Index as the parties may agree (in each case with the intention of putting the parties in no better nor worse position than they would have been in had the Index not ceased to be published or the relevant fundamental change not been made) or, in the event that no such agreement is reached, as may be determined in accordance with the Dispute Resolution Procedure;
"Retained Estate"	means the RIE Facilities and the University Facilities;
"Retained Estate Handback Infrastructure"	means the infrastructure to be handed back to the Board at or prior to the Actual Completion Date, comprising the Hospital Square Infrastructure, Cycle Path Infrastructure and Drainage Infrastructure;
"Retained Site"	means the Campus Site under exception of the Site;
"Revenue"	means the projected Unavoidable Fixed Costs and Senior Debt Service Costs of Project Co;
"Reviewable Design Data"	means the Design Data listed at Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*);
"Revised Senior Debt Termination Amount"	has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);
"RIE Facilities"	means the existing hospital, buildings and other facilities together with all supporting infrastructure and amenities located on the RIE Site as such hospital, buildings, facilities, infrastructure and amenities may be modified from time to time;
"RIE Infrastructure"	means the infrastructure resulting from the RIE Works;
"RIE Project"	means the financing, design, construction equipping and operation of, and the provision of certain services in connection with the RIE Facilities;
"RIE Project Agreement"	means the private finance initiative agreement between the Board and Consort in relation to the RIE Project;
"RIE Site"	means the Retained Site other than the University Site;

"RIE Works"	means the design [(including preparation of all Design Data), construction, testing, commissioning and completion of the works to be undertaken at the RIE Site and/or the RIE Facilities in accordance with inter alia paragraph 4 of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Room Data Sheets"	has the meaning given in Section 6 (*Room Data Sheets*) of Schedule Part 6 (*Construction Matters*);
"Schedule of Lifecycle Replacement"	means the programme of Lifecycle Replacement for the Project Term that complies with the requirements set out in Clause 23A *(Lifecycle Replacement);*
"Second Party"	has the meaning given in Clause 35.3;
"Scottish Futures Trust"	means Scottish Futures Trust Limited (Company Number SC348382), having its registered office at 1st Floor, 11-15 Thistle Street, Edinburgh EH2 1DT;
"Schedule of Programmed Maintenance"	means the programme referred to in Clause 23.1 to be submitted to the Board's Representative by Project Co in accordance with Schedule Part 8 (*Review Procedure*);
"Security Trustee"	means [ ];
"Senior Debt"	has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);
"Senior Debt Service Costs"	means interest and debt service costs incurred in respect of the [Senior Funding Agreements] less: (a) sums which are in arrears; (b) all sums reserved by Project Co and which Project Co is entitled to use to make such payments, without breaching the [Senior Funding Agreements];
"Senior Funders"	means [specify relevant funders];
"Senior Funding Agreements"	means [ ] as at the date of this Agreement and as amended as permitted under Clause 4 (*Project Documents*);
"Service Contracts"	means the contracts dated the same date as this Agreement between Project Co and each Service Provider (which as at the date of this Agreement are in the Agreed Form), by which Project Co will procure the performance of the Services (as amended or replaced from time to time in

	accordance with this Agreement);
"Service Event"	has the meaning given in Schedule Part 14 (*Payment Mechanism*);
"Service Level Specification"	means the requirements of the Board set out in Section 1 (*Service Level Specification*) of Schedule Part 12 (*Service Requirements*) as amended from time to time in accordance with Clause 33 (*Change Protocol*);
"Service Proposal"	means the agreed proposal for laying and maintaining service media in the Service Strip and/or foul drainage in the Foul Service Strip as applicable, in Appendix J of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Service Provider"	means each of [insert description of Service Providers] or any other person engaged by Project Co from time to time as may be permitted by this Agreement to procure the provision of the Services (or any part of them);
"Service Providers Collateral Agreements"	means the collateral agreements among the Board, Project Co and each Service Provider in the form set out in Section 2 of Schedule Part 9 (*Collateral Agreements*);
"Service Strip"	means the area shaded yellow and hatched black on Plan 2;
"Services"	means the services to be provided, managed and/or procured by Project Co for the Board in relation to the Facilities in accordance with Schedule Part 12 (*Service Requirements*) as subsequently amended or adjusted in accordance with this Agreement;
"Services Quality Plan"	means the document set out in Section 3 (*Services Quality Plan*) of Schedule Part 12 (*Service Requirements*);
"Sewer"	means the expected route of which is to be located within the area of land shaded green on Plan 11;
"Shareholder(s)"	means any person(s) who from time to time, as permitted by this Agreement, holds share capital in Project Co or Hold Co which persons are, as at the date of this Agreement, listed as such in Schedule Part 21 (*Project Co Information*);
"Shareholders Agreements"	means the agreement or agreements between the Shareholders relating to Project Co, including any agreement relating to the subscription of equity (or other shareholder funding) by the Shareholders in Project Co or Hold Co;

"Site"	means the land made available to Project Co for the Project outlined in red on "Plan 1 (*RHSC & DCN Site)"* and contained in Schedule Part 27 *(Plans)*;
"Site Conditions"	means the condition of the Site including (but not limited to) climatic, hydrological, hydrogeological, ecological, environmental, geotechnical and archaeological conditions;
"Snagging Matters"	means minor items of outstanding work (including in relation to landscaping) which would not materially impair the Board's use and enjoyment of the Facilities and/or Retained Estate and/or the Retained Estate Handback Infrastructure or the carrying out by the Board of the Board Services or the performance of the Services by Project Co and/or the carrying out of any services pursuant to the RIE Project Agreement;
"Snagging Notice"	means the notice to be issued by the Independent Tester in accordance with Clause 17.4;
"Specific Change in Law"	means: (a) any Change in Law which specifically refers to: (i) the provision of works or services the same as or similar to the Works or the Services in premises similar to the Facilities; or (ii) the holding of shares in companies whose main business is providing works or services the same as or similar to the Works or the Services in premises similar to the Facilities; or (b) any change in a NHS Requirement (other than any NHS Requirement which merely gives effect to Law generally and does not principally affect or principally relate to the provision or operation of the Facilities or healthcare premises);
"Stop Incident"	has the meaning given to it in Clause 13A.1.1 *(Board's right to stop Project Operations during the Project Term);*
"Sub-Contractor"	means any third party (including the Contractor and a Services Provider) who enters into any Sub-Contract;
"Sub-Contracts"	means the contracts entered into by or between Project Co, the Contractor and/or a Service Provider and other third parties in relation to any

	aspect of the Project Operations;
"Subordinated Debt"	has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);
"Subordinated Funder"	means a person providing finance under a Subordinated Funding Agreement;
"Subordinated Funding Agreements"	means [ ] as at the date of this Agreement or as amended with the prior written agreement of the Board;
"Subsidiary"	has the meaning given to it in Section 1159 of the Companies Act 2006;
"Substation"	means the substation resulting from the Substation Works;
"Substation Access Area"	means the area outlined in blue, shaded blue and hatched black on Plan 2 and also coloured blue and hatched black on Plan 4;
"Substation Access Infrastructure"	means the road infrastructure resulting from the Substation Access Works;
"Substation Access Works"	means the design [including preparation of all Project Data], construction, testing and commissioning and completion of the works to be undertaken on the Substation Access Area in accordance with inter alia paragraph 4 of Appendix A of the Board's Construction Requirements (as carried, amended or supplemented from time to time in accordance with this Agreement);
"Substation HV Cable"	means the high voltage cable [which has a dedicated route in accordance with the Substation Cable Route] resulting from the Substation Works;
"Substation Infrastructure"	means the infrastructure resulting from the Substation Works being both the Substation and the Substation HV Cable;
"Substation Proposal"	means the agreed proposal for constructing an access in the Substation Access Area in Appendix K of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Substation Site"	means the area of land outlined in blue on Plan 4;
[**Sub-station Cable Route**	means the route shown in blue on Plan 13];
"Substation Works"	means the design (including preparation of all Design Data), construction, testing and commissioning and completion of the works to be

	undertaken on the Substation Site in accordance with inter alia paragraph 4 of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Suitable Substitute Contractor"	has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);
"Supplemental Drainage Proposal"	means the agreed proposal for surface water drainage connections in the Orange Area in Appendix L of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Surplus"	means, on any given date, the amount (if any) standing to the credit of the Surplus Account;
"Surplus Account"	[has the meaning given in the Senior Funding Agreements];
"Surplus Payment"	means the payment of a Surplus or Surpluses by Project Co to the Board pursuant to Clause 36 (*Payment of Surpluses and Compliance with NPD Requirements*);
"Surplus Payment Date"	means, in relation to each period of 6 months that follows the Commencement Date, the final day of such period;
"Teenage Cancer Trust Activities"	means activities carried out at the Facilities and/or Site by the "Teenage Cancer Trust", a charitable organisation devoted to improving the lives of teenagers and young adults with cancer;
"Termination Date"	means the date on which termination of this Agreement takes effect in accordance with its terms;
"The NHS and You"	means the document so entitled and issued by the Scottish Government Health Directorate in January 2009;
"Title Conditions"	means title conditions set out in Section 5 of Schedule Part 5 (*Land Matters*);
"TPL Risk"	means a risk which is required to be insured under the third party liability insurance policy;
"Traffic Management Strategy" or "TMS"	means the agreed traffic management strategy for construction access over the Orange Area in Appendix M of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement);
"Transfer Regulations"	means the Transfer of Undertaking (Protection of

Employment) Regulations 2006 (SI No. 246);

"Transferring Staff" has the meaning given to it in Clause 25.2;

“Unavoidable Fixed Costs” means the fixed costs incurred by Project Co which first fall due for payment by Project Co during the period of indemnity but excluding:

(a) costs which could have reasonably been mitigated or avoided by Project Co;

(b) payments to Project Co’s Associated Companies;

(c) payments which are not entirely at arm’s length;

(d) payments to holders of equity in Project Co, providers of Subordinated Debt and any other financing costs other than Senior Debt Service Costs

(e) indirect losses suffered or allegedly suffered by any person;

(f) fines, penalties or damages for unlawful acts, breaches of contract or other legal obligations;

(g) payments Project Co can recover under contract or in respect of which Project Co has a remedy against another person in respect of the same liability;

(h) payments to the extent that Project Co has available to it including:

(i) reserves which Project Co can draw upon without breaching the Senior Funding Agreements;

(ii) standby or contingent facilities or funds of Senior Debt or equity which Project Co is entitled to have available;

(i) payments representing any profits of the Project (to the extent not already excluded in (e) above);

“Uninsurable” means, in relation to a risk, either that:

(a) insurance is not available to Project Co in respect of the Project in the worldwide insurance market with reputable insurers of good standing in respect of that risk;

or

(b) the insurance premium payable for insuring that risk is at such a level that the risk is not generally being insured against in the worldwide insurance market with reputable insurers of good standing by contractors in the United Kingdom;

"University"	means the University Court of the University of Edinburgh and any successor or permitted assignee acquiring an interest in the University Site and/or the University Facilities;
"University Facilities"	means the existing university buildings, buildings and other facilities together with all supporting infrastructure and amenities located on the University Site as each university buildings, facilities, infrastructure and amenities may be modified from time to time;
"University Party"	means any of the University's agents, contractors and sub-contractors of any tier, its tenants and its or their directors, officers, employees, consultants, researchers, students, staff, workmen, licensees, permitted occupiers, tenants, users, visitors, sub-contractors (of any tier), any patients (whether of the University or of the University's tenants), and any other person for whom the University is responsible for;
"University Site"	means the two areas of land shaded orange on Plan 7;
"Unprogrammed Maintenance Work"	has the meaning given in Clause 23.8;
"Unreasonable Act"	means any act or omission which is contrary to any reasonable instruction, guidance or rules for the operation or management of the Facilities;
"Utilities"	has the meaning given in the Service Level Specification;
"VAT"	means value added tax at the rate prevailing at the time of the relevant supply charged in accordance with the provisions of the Value Added Tax Act 1994;
"VAT Sum"	has the meaning given in Clause 35 (*VAT and Construction Industry Tax Deduction Scheme*);
"Volunteer Services"	means any volunteer services and/or third sector bodies and/or retail bodies authorised by the Board to be the provider of volunteer services at the Facilities and/or Site from time to time, including for the avoidance of doubt the drop in centre, radio lollipop and clown doctors;

"Vitiating Act"	has the meaning given in Endorsement 2, Section 3 (*Endorsement*) of Schedule Part 15 (*Insurance Requirements*);
"Warning Notice"	means a notice validly served by the Board's Representative on Project Co under Clause 24.3(*Warning Notices*), specifying that it is a Warning Notice and setting out the circumstances that have given rise to the issue thereof;
"Works"	means the design (including the preparation of all Design Data), construction, testing, commissioning and completion of the Facilities and the Retained Estate Handback Infrastructure (including any temporary works) and the installation, testing, commissioning and completion of Equipment to be performed by Project Co in accordance with this Agreement (as varied, amended or supplemented from time to time in accordance with this Agreement);
" Yellow Area"	means the area shaded Yellow on Plan 2.

SECTION 2

INTERPRETATION

This Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

1 The headings and marginal notes and references to them in this Agreement shall be deemed not to be part of this Agreement and shall not be taken into consideration in the interpretation of this Agreement.

2 Except where the context expressly requires otherwise, references to Clauses, Sub-clauses, paragraphs, sub-paragraphs and parts of the Schedule are references to Clauses, Sub-clauses, paragraphs, sub-paragraphs and parts of the Schedule to this Agreement and references to Sections, Appendices and Attachments (if any) are references to Sections, Appendices and Attachments to or contained in this Agreement.

3 The Schedule and Attachments (if any) to this Agreement are integral parts of this Agreement and a reference to this Agreement includes a reference to the Schedule and the Attachments (if any).

4 Words importing persons shall, where the context so requires or admits, include individuals, firms, partnerships, trusts, corporations, governments, governmental bodies, authorities, agencies, unincorporated bodies of persons or associations and any organisations having legal capacity.

5 Where the context so requires words importing the singular only also include the plural and vice versa and words importing the masculine shall be construed as including the feminine or the neuter or vice versa.

6 The language of this Agreement is English. All correspondence, notices, drawings, Design Data, test reports, certificates, specifications and information shall be in English. All operating and maintenance instructions, name plates, identification labels, instructions and notices to the public and staff and all other written, printed or electronically readable matter required in accordance with, or for purposes envisaged by, this Agreement shall be in English.

7 Save where stated to the contrary, references to any agreement or document include (subject to all relevant approvals and any other provisions of this Agreement concerning amendments to agreements or documents) a reference to that agreement or document as amended, supplemented, substituted, novated or assigned.

8 References to any Law are to be construed as references to that Law as from time to time amended or to any Law from time to time replacing, extending, consolidating or amending the same provided that the provisions of this paragraph shall be without prejudice to the operation of Clause 32 (*Changes in Law*) and Schedule Part 16 (*Change Protocol*) which shall operate in relation to a Change in Law on the basis set out in this Agreement.

9 Without prejudice to Clause 57.1, references to a public organisation (other than the Board) shall be deemed to include a reference to any successor to such public organisation or any

organisation or entity which has taken over either or both the relevant functions and relevant responsibilities of such public organisation.

10 Without prejudice to Clause 57.1, references to other persons (other than the Board and Project Co) shall include their successors and assignees.

11 References to a deliberate act or omission of the Board or any Board Party shall be construed having regard to the interactive nature of the activities of the Board and of Project Co and the expression shall exclude acts or omissions which were within the contemplation of the parties or which were otherwise provided for in this Agreement.

12 The words in this Agreement shall bear their natural meaning. The parties have had the opportunity to take legal advice on this Agreement and no term shall, therefore, be construed contra proferentem.

13 Reference to "parties" means the parties to this Agreement and references to "a party" mean one of the parties to this Agreement.

14 In construing this Agreement, the rule known as the ejusdem generis rule shall not apply nor shall any similar rule or approach to the construction of this Agreement and accordingly general words introduced or followed by the word "other" or "including" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.

15 All of Project Co's obligations, duties and responsibilities shall be construed as separate obligations, duties and responsibilities owed to the Board and to be performed at Project Co's own cost and expense.

16 Unless expressly stated otherwise, references to amounts or sums expressed to be "(**index linked**)" are references to amounts or sums expressed in prices relevant at the date of this Agreement (the "**Base Date**") which require to be adjusted whenever the provision containing the amount or sum is given effect in accordance with this Agreement to reflect the effects of inflation after that date. The adjustment shall be measured by changes in the relevant index published for that Contract Year as calculated in accordance with the following formula:

Amount or sum in Base Date prices x RPId/RPIo

Where RPI_d is the value of the Retail Prices Index published or determined with respect to the month of February most recently preceding the date when the provision in question is to be given effect and RPI_0 is the value of the Retail Prices Index at the Base Date

$$\frac{RPI_d}{RPI_0}$$

17 Reference to a document being in the Agreed Form is a reference to the form of the relevant document agreed between the parties and for the purpose of identification initialled by each of them or on their behalf.

18 The operation of the Housing Grants, Construction and Regeneration Act 1996 upon any Project Document shall not affect the rights or obligations of the parties under this

Agreement.

19 Words in parenthesis and italics appearing after a Clause reference or a reference to a Schedule Part are inserted for ease of reference only. If there is any discrepancy between the Clause reference and the words appearing in parenthesis and italics after the Clause reference, the Clause reference shall prevail.

20 Where this Agreement states that an obligation shall be performed "no later than" or "within" or "by" a prescribed number of Business Days after a stipulated date or event, or “no later than” or “by” a stipulated date or event which is a prescribed number of Business Days after a stipulated date or event, the latest time for performance shall be 5pm on the last Business Day for performance of the obligations concerned.

21 Where this Agreement states that an obligation shall be performed “no later than” or “within” or “by” a prescribed number of Business Days before a stipulated date or event, or “no later than” or “by” a stipulated date or event which is a prescribed number of Business Days before a stipulated date or event, the latest time for performance shall be 5pm on the last Business Day for performance of the obligations concerned.

SCHEDULE PART 2

COMPLETION DOCUMENTS

SECTION 1

DOCUMENTS TO BE DELIVERED BY PROJECT CO

Unless an original document is specifically requested, a copy (certified by an officer of Project Co as being a true copy) of each of the following documents is to be delivered by Project Co to the Board in accordance with Clause 2.1 (*Execution and Delivery of Documents*) of this Agreement:

1. The Consents and other authorisations, licences, permits, and approvals listed below:

   [Project specific items to be listed]

2 The Shareholders Agreements and certification from Project Co that the Shareholders Agreements have become (or will become, simultaneously with delivery of the other documents referred to in this Schedule Part 2 (*Completion Documents*)) unconditional in accordance with their terms, accompanied by evidence of the same.

3 The Initial Funding Agreements and certification from Project Co that (1) the Initial Funding Agreements have become unconditional (other than any condition relating to the conditionality of this Agreement) and (2) that all conditions to the availability of funds to Project Co under the Initial Funding Agreements have been satisfied or waived, accompanied by evidence of the same.

4 The Construction Contract, the Services Contract and the Performance Guarantees, executed by the parties to such agreements.

5 An original of the Funders' Direct Agreement, the Independent Tester Contract, the Insurance Proceeds Account Agreement, the Collateral Agreements and the brokers letters of undertaking relating to the Insurances referred to in paragraph 11 below in the Agreed Form, executed by the parties to such agreements (other than the Board).

6 Extracts from the minutes of the meeting of the board of directors (certified as true and accurate by the Secretary of the relevant company) of each of Project Co, each Shareholder[, Hold Co] and each of the other parties to the documents listed in Section 1 (*Documents to be delivered by Project Co*) of Schedule Part 2 (*Completion Documents*), at which resolutions were passed approving the execution, delivery and performance of each relevant document to which such person is expressed to be a party and in each case authorising a named person or persons to execute and deliver each such document and any other documents to be delivered by it pursuant to it. For the avoidance of doubt, this requirement shall not extend to the Senior Funders.

7 A certificate of the Secretary of each of the companies referred to in paragraph 11 above setting out the names and specimen signatures of the person or persons named in the relevant certified extract.

8 Evidence of the share subscriptions required under the Shareholders Agreements and other shareholder funding commitments having been made by the Shareholders in Project Co

[and Hold Co].

9 Project Co's [and Hold Co's] Certificate of Incorporation and of any Certificate of Incorporation on Change of Name.

10 The Articles of Association of Project Co [and Hold Co].

11 The insurance broker's letter of undertaking, evidence of the insurances required in accordance with Clause 53 (*Insurances*) having been taken out by Project Co and that the policies comply with the requirements of this Agreement, and an estimate by the insurance broker of the premiums for the Operational Insurances for the first year of the Operational Term.

12 Two computer disk copies of the Financial Model audited by [relevant financial adviser].

13 Evidence that an election has been made for Project Co to act as "client" for the Project for the purposes of the CDM Regulations.

14 Evidence that the Insurance Proceeds Account has been opened.

15 [Board to indicate other project specific documents, including any other project document, planning and property related agreements and any subordinated debt or other financing arrangement.]

16 An original duly executed copy of this Agreement.

SECTION 2

DOCUMENTS TO BE DELIVERED BY THE BOARD

The Board shall deliver to Project Co the following documents:

1. An original copy of the Funders' Direct Agreement, the Collateral Agreements, the Independent Tester Contract, the Insurance Proceeds Account Agreement and this Agreement, duly executed by the Board.

2 A certified copy of the resolution of the Board approving the execution, delivery and performance of the documents referred to in paragraph 1 above and in each case authorising a named person or persons to execute and deliver each such document and any documents to be delivered by it pursuant thereto.

3 A certificate of the relevant officer of the Board setting out the names and specimen signatures of the person or persons named in the resolution of the Board referred to in paragraph 2above.

4 [Board to list other project specific documents to be included.]

SCHEDULE PART 3

KEY WORKS PERSONNEL

SCHEDULE PART 4

FUNDERS' DIRECT AGREEMENT[34]

THIS AGREEMENT IS MADE ON

AMONG:

(1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the **"Board"**)

(2) [ ] (the "**Agent**" for the Senior Funders) on behalf of itself and the Senior Funders; and

(3) [ ] company no [ ]) whose registered office is at [ ] ("**Project Co**")

IT IS AGREED AS FOLLOWS:

1 **INTERPRETATIONS**

Definitions[35]

In this Agreement, unless the context otherwise requires:

"Appointed Representative"	means a Representative that has been notified to the Board pursuant to a Step-In Notice;
"Board Direct Agreements"	means [ ];
"Board Project Documents"	means the Design Build Finance and Maintain Agreement and all other documents to which the Board and Project Co are parties pursuant to the Design Build Finance and Maintain Agreement;
"Collateral Agreements"	means [ ];
"Collateral Agreement Counterparty"	means one of the parties to the Collateral Agreements (other than the Board or Project Co);

[34] The purpose of the Funders Direct Agreement is to provide rights for the Funders to step-in and manage the project where otherwise the right and obligation of Project Co to perform the project would terminate. The Funders require this right because their preferred approach will generally be to keep the project alive and preserve the project's income stream, rather than allowing the Agreement to terminate, as this represents the Funders' best chance of being fully repaid.
The Funders Direct Agreement sets out arrangements whereby the effect of any notice of termination issued by the Board will be suspended and the Funders will have a specified period to put in place alternative contractors to perform the project. Key issues will include the length of the suspensory period and the liability (if any) the Funders will incur while trying to save the project.

[35] A number of terms are defined by reference to various funding agreements. If this is the case a Master Definition Schedule should be appended to the Direct Agreement setting out all such definitions so that the intended meaning of all such terms is clear to all parties.

"Enforcement Event"	means [ ];
"Event of Default"	shall have the meaning given to it in the Credit Agreement;
"Event of Insolvency"	means [incorporate appropriate cross references from Design Build Finance and Maintain Agreement] (inclusive) of a Project Co Event of Default;
"Final Payment Date"	means [ ];
"Design Build Finance and Maintain Agreement"	means an agreement dated [ ] between Project Co and the Board relating to the [ ];
"Project Co Event of Default"	shall have the meaning given to it in the Design Build Finance and Maintain Agreement;[36]
"Representative"	means: (a) the Agent, any Senior Funder and/or any of their Affiliates; (b) an administrator, administrative receiver, receiver or receiver and manager of Project Co appointed under the Security Documents; (c) a person directly or indirectly owned or controlled by the Agent and/or any Senior Funders; or (d) any other person approved by the Board (such approval not to be unreasonably withheld or delayed);
"Required Period"	means subject to paragraph 4 (*No Liquid Market*) the period starting on the date of a Termination Notice and: (a) prior to the Payment Commencement Date, ending eighty (80) Business Days later; and (b) on or following the Payment Commencement Date, ending sixty (60) Business Days later;

[36] Definition to include not only the occurrence of an event of default under the credit agreement but also the taking of action to enforce repayment.

"Security Documents"	[list the security documents forming part of the Senior Funding Agreements];
"Senior Debt Discharge Date"	means the date on which all amounts owing by the Contractor to the Senior Funders under the Senior Funding Agreements have been irrevocably paid in full;
"Senior Funders"	means [insert details if not included in Design Build Finance and Maintain Agreement];
"Step-In Date"	means the date on which the Agent gives the Board a Step-In Notice;
"Step-In Notice"	means the notice given by Project Co to the Board pursuant to paragraph 5 (*Representative*) stating that the Agent is exercising the step-in rights under this Agreement and identifying the Appointed Representative;
"Step-In Period"	means the period from the Step-In Date up to and including the earlier of: (a) the Step-Out Date; (b) the date of any transfer under paragraph 8 (*Novation*); (c) the date of any termination for breach under paragraph 6 (*Step-In Period*); and (d) the date of expiry of the Design Build Finance and Maintain Agreement;
"Step-Out Date"	means the date falling twenty (20) Business Days after the date of a Step-Out Notice;
"Step-Out Notice"	means a notice from the Agent or Appointed Representative to the Board pursuant to paragraph 7 (*Step-Out*);
"Suitable Substitute Contractor"	means a person approved by the Board (such approval not to be unreasonably withheld or delayed) as: (a) having the legal capacity, power and authority to become a party to and perform the obligations of Project Co under the Board Project Documents; and

(b) employing persons having the appropriate qualifications, experience and technical competence and having the resources available to it (including committed financial resources and sub-contracts) which are sufficient to enable it to perform the obligations of Project Co under the Board Project Documents;

"Termination Notice" means a notice given by the Board to the Agent under paragraph3.2;

"Unrestricted Assets" means those [Assets], excluding any revenues or cash balances or claims outstanding at the date of transfer under any Sub-Contract, which are required by the Board or its nominee or any replacement of Project Co for the purposes of the construction, operation or maintenance of the Facilities following termination, assuming such construction, operation or maintenance is carried out on terms substantially the same as the terms of the Design Build Finance and Maintain Agreement.

1.2 Interpretation

1.2.1 Capitalised terms defined in the Design Build Finance and Maintain Agreement shall have the same meaning in this Agreement.

1.2.2 The clause and paragraph headings in this Agreement are for ease of reference only and are not to be taken into account in the construction or interpretation of any provision to which they refer.

1.2.3 Unless the context otherwise requires:

(a) a reference in this Agreement to any clause, sub-clause, paragraph, schedule or annex is, except where it is expressly stated to the contrary, a reference to such clause, sub-clause, paragraph, schedule or annex of this Agreement;

(b) references to this Agreement or to any other such document shall include any permitted variation, amendment or supplements to such document;

(c) references to any enactment, order, regulation or other similar instrument shall be construed as a reference to the enactment, order, regulation or instrument (including any EU instrument) as amended or re-enacted;

(d) references to a person includes firms and corporations and their successors and permitted assignees or transferees;

(e) words in this Agreement importing any one gender include both other genders and may be used interchangeably; and

(f) words in this Agreement importing the singular meaning, include the plural meaning and vice versa.

2. CONSENT TO SECURITY

2.1 The Board acknowledges notice of, and consents to, the security interest granted over Project Co's rights under the Board Project Documents[37] effected by Project Co in favour of the Senior Funders under the Security Documents.

2.2 The Board confirms that it has not received notice of any other security interest granted over Project Co's rights under the Board Project Documents.

2.3 Except as specifically provided for in this Agreement the Board has no obligations (whether express, implied, collateral or otherwise) to the Agent and/or the Senior Funders in connection with this Agreement or the Board Project Documents or the Project.

2.4 The Board acknowledges notice of and consents to the security interest granted by Hold Co in favour of the Agent over the entire issued share capital of Project Co.[38]

2.5 [For the purposes of Clause 34.3 of the Design Build Finance and Maintain Agreement, Project Co and the Agent hereby authorise and instruct the Board (and the Board agrees) to pay all sums payable to Project Co under the Board Project Documents to the [account] and Project Co and the Board agree that upon the occurrence of an Enforcement Event, if so directed in writing by the Agent upon giving reasonable notice[39], the Board shall pay any sum which it is obliged to pay to Project Co under the Board Project Documents to a bank account specified by the Agent.]

2.6 The Board shall not be obliged to make any enquiry as to the authority of the Agent in doing any act or entering into any document or making any agreement under or in connection with this Agreement and the Board shall be entitled to assume that the Agent is duly authorised by each of the Senior Funders to assume the obligations expressed to be assumed by it under this Agreement and to undertake on behalf of each Senior Funder in the terms of this Agreement so as to bind each Senior Funder as if it were a party hereto.

[37] It may be appropriate to incorporate an acknowledgement of the creation of security over other project documents (eg any leases to Project Co if applicable). It may also be appropriate to include in this clause an acknowledgement (if applicable) that Service Payments due from the Board are to be made to a designated account of Project Co held by the Agent.

[38] This clause is not mandatory and will only be relevant in cases where a holding company structure is adopted by the sponsors.

[39] The Board should not be exposed to the possibility that it may be too late to revoke a payment to Project Co which has already been set up, such that the Boards at risk of having to pay twice.

2.7 The rights of the Agent under this Agreement shall be extinguished upon the Final Payment Date.

3. NO TERMINATION WITHOUT NOTICE

3.1 Subject only to paragraph3.2, the Board may serve notice terminating the Design Build Finance and Maintain Agreement at any time if it is entitled to do so under the terms of the Design Build Finance and Maintain Agreement.

3.2 The Board shall not terminate or serve notice terminating the Design Build Finance and Maintain Agreement in respect of a Project Co Event of Default without giving to the Agent:

3.2.1 at least the Required Period of prior written notice (a "**Termination Notice**") stating:

(a) that a Project Co Event of Default has occurred and the proposed Termination Date; and

(b) the grounds for termination in reasonable detail, and

3.2.2 not later than the date falling twenty (20) Business Days after the date of a Termination Notice a notice containing details of any amount owed by Project Co to the Board, and any other liabilities or obligations of Project Co of which the Board is aware (having made proper enquiry) which are:

(a) accrued and outstanding at the time of the Termination Notice; and/or

(b) which will fall due on or prior to the end of the Required Period, under the Design Build Finance and Maintain Agreement.

3.3 On becoming aware of an Enforcement Event the Agent shall give notice thereof to the Board stating that an Enforcement Event has occurred and giving reasonable details thereof (an "**Enforcement Event Notice**") whereupon, subject to payment by the Agent of the Board's reasonable costs and expenses in respect thereof (being such costs and expenses as would not have been incurred in respect of the provision of such information had an Enforcement Event Notice not been served) the provisions of paragraph 3.2.2 shall apply as if references therein to a Termination Notice were to an Enforcement Event Notice.

4. NO LIQUID MARKET

4.1 At any time during the Required Period the Agent may issue a written notice (the "**No Liquid Market Notice**") to the Board setting out the reasons why the Agent does not believe that a Liquid Market exists.

4.2 On or before the date falling fourteen (14) Business Days after the date on which a No Liquid Market Notice is received by the Board, the Board shall notify the Agent of its opinion as to whether or not a Liquid Market exists. Where the Board believes that a Liquid Market does exist, such notice shall set out the reasons for the Board's belief. If the parties do not agree whether or not a Liquid Market exists, then either party may refer the dispute to be determined in accordance with paragraph 17 (*Disputes*) below.

4.3 If the parties agree or it is determined in accordance with Clause 56 (*Dispute Resolution Procedure*) of the Design Build Finance and Maintain Agreement that no Liquid Market exists, the Design Build Finance and Maintain Agreement shall automatically terminate and the provisions of paragraph 4 (*No Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of Schedule Part 17 (*Compensation on Termination*) to the Design Build Finance and Maintain Agreement (*No Retendering*) shall apply.

4.4 If any dispute relating to this paragraph 4 (*No Liquid Market*) is determined pursuant to paragraph17, the Required Period shall be extended by the period of time spent determining such dispute pursuant to paragraph17.

5. REPRESENTATIVE

5.1 Subject to paragraph 5.2 and without prejudice to the Agent's rights under the Security Documents, the Agent may give the Board a Step-In Notice at any time:

5.1.1 during which a Project Co Event of Default or an Enforcement Event[40] is subsisting (whether or not a Termination Notice has been served); or

5.1.2 during the Required Period.

5.2 The Agent shall give the Board not less than 5 Business Days prior notice of:

5.2.1 its intention to issue a Step-In Notice; and

5.2.2 the identity of the proposed Appointed Representative.

5.3 On the issue of the Step-In Notice, the Appointed Representative shall assume jointly with Project Co the rights of Project Co under the Board Project Documents and thereafter, until the end of the Step-In Period the Board shall deal with the Appointed Representative and not Project Co.

[40] If Senior Funders are taking enforcement action, then there is no objection to there being a right of step-in, although in practice funders may not wish to step in if there is no Project Co Event of Default (and therefore no threat of termination of the Design Build Finance and Maintain Agreement).

6. STEP-IN PERIOD

6.1 Notwithstanding paragraph 3 (*No Termination Without Notice*) above, the Board may terminate the Design Build Finance and Maintain Agreement if:

6.1.1 any amount referred to in paragraph 3.2.2(a) above has not been paid to the Board on or before the Step-In Date; or

6.1.2 any amount referred to in paragraph 3.2.2(b) above has not been paid on or before the last day of the Required Period;

6.1.3 amounts, of which the Board was not aware (having made proper enquiry) at the time of the Termination Notice, subsequently become payable and are not discharged on or before the date falling twenty (20) Business Days after the date on which the liability of Project Co for these amounts is notified to the Agent or if later the Step-In Date; or

6.1.4 grounds arise after the Step-In Date in accordance with the terms of the Design Build Finance and Maintain Agreement provided that Deductions and/or Warning Notices that arose pursuant to Schedule Part 14 (*Payment Mechanism*) to the Design Build Finance and Maintain Agreement prior to the Step-In Date shall not be taken into account during the Step-In Period but such Deductions and/or Warning Notices (to the extent applicable under the terms of the Design Build Finance and Maintain Agreement) shall be taken into account after the Step-Out Date.

6.2 The Board shall not terminate the Design Build Finance and Maintain Agreement during the Step-In Period on grounds:

6.2.1 that the Agent has served a Step-In Notice or enforced any Security Document; or

6.2.2 arising prior to the Step-In Date of which the Board was aware (having made proper enquiry) and whether or not continuing at the Step-In Date unless:

(a) the grounds arose prior to the Actual Completion Date, and the Actual Completion Date does not occur on or before the date twelve (12) months after the date on which the Board would have been entitled to terminate the Design Build Finance and Maintain Agreement for non-completion of the Works under Clause 40.1.2 (*Long stop*) of the Design Build Finance and Maintain Agreement; or

(b) the grounds arose after the Actual Completion Date, and neither the Appointed Representative nor Project Co is using all reasonable endeavours (including implementation

of any remedial programme) to remedy any breach of the Design Build Finance and Maintain Agreement which:

(i) arose prior to the Step-In Date; and

(ii) is continuing (and capable of remedy); and

(iii) would have entitled the Board to terminate the Design Build Finance and Maintain Agreement; or

(c) the grounds (whenever they first arose) did not give rise to any right to terminate until after the Step-In Notice; or

6.2.3 arising solely in relation to Project Co

7. STEP-OUT

7.1 The Appointed Representative may at any time during the Step-In Period deliver to the Board a Step-Out Notice which shall specify the Step-Out Date.

7.2 On expiry of the Step-In Period:

7.2.1 the Appointed Representative will be released from all of its obligations and liabilities to the Board under the Board Project Documents arising prior to the end of the Step-In Period and rights of the Appointed Representative against the Board will be cancelled;[41] and

7.2.2 the Board shall no longer deal with the Appointed Representative and shall deal with Project Co in connection with the Board Project Documents.

7.3 Project Co shall continue to be bound by the terms of the Design Build Finance and Maintain Agreement, notwithstanding the occurrence of a Step-In Notice, a Step-In Period, a Step-Out Notice, Step-Out Date, any action by the Agent or Appointed Representative or the Senior Funders and/or any provision of this Agreement.

8. NOVATION

8.1 Subject to paragraph8.2, at any time:

[41] The effect of this provision is that rights and obligations which are outstanding from the Step-in Period are preserved and will be reflected in the amount of compensation payable by the Board on early termination of the Design Build Finance and Maintain Agreement. It is not therefore necessary for the Board to retain rights of action against the Appointed Representative after the end of the Step-in Period.

8.1.1 after an Enforcement Event has occurred; or

8.1.2 during the Step-In Period,

the Agent may, subject to paragraph8.2, on not less than twenty (20) Business Days' prior notice to the Board and any Appointed Representative, procure the transfer of Project Co's rights and liabilities under the Board Project Documents to a Suitable Substitute Contractor in accordance with the provisions of paragraph8.4.

8.2 The Board shall notify the Agent as to whether any person to whom the Agent proposes to transfer Project Co's rights and liabilities under the Board Project Documents is a Suitable Substitute Contractor, on or before the date falling twenty (20) Business Days after the date of receipt from the Agent of all information reasonably required by the Board to decide whether the proposed transferee is a Suitable Substitute Contractor.

8.3 The Board shall not unreasonably withhold or delay its decision on whether the proposed transferee is a Suitable Substitute Contractor and it shall, without limitation, be reasonable for the Board to withhold its consent if there are unremedied breaches under the Board Project Documents and there is no rectification plan reasonably acceptable to the Board in respect of the breaches.

8.4 Upon the transfer referred to in paragraph 8.1 becoming effective:

8.4.1 Project Co and the Board will be released from their obligations under the Board Project Documents to each other (the "discharged obligations");

8.4.2 the Suitable Substitute Contractor and the Board will assume obligations towards each other which differ from the discharged obligations only insofar as they are owed to or assumed by the Suitable Substitute Contractor instead of Project Co;

8.4.3 the rights of Project Co against the Board under the Board Project Documents and vice versa (the "**discharged rights**") will be cancelled;

8.4.4 the Suitable Substitute Contractor and the Board will acquire rights against each other which differ from the discharged rights only insofar as they are exercisable by or against the Suitable Substitute Contractor instead of Project Co;

8.4.5 any then subsisting ground for termination of the Design Build Finance and Maintain Agreement by the Board shall be deemed to have no effect and any subsisting Termination Notice shall be automatically revoked;

8.4.6 the Board shall enter into a direct agreement with the Suitable Substitute Contractor and a representative of Senior Funders lending to the Suitable Substitute Contractor on substantially the same terms as this Agreement; and

8.4.7 any Deductions and/or Warning Notices that arose pursuant to Schedule Part 14 (*Payment Mechanism*) [or due to [unavailability]] prior to that time shall, without prejudice to the rights of the Board to make financial deductions, not be taken into account in determining whether a Project Co Event of Default has occurred.

9. MISCELLANEOUS

9.1 The Board shall at Project Co's expense, take whatever action the Agent, an Appointed Representative or a Suitable Substitute Contractor taking a transfer in accordance with paragraph 8.1 may require for perfecting any transfer or release under paragraph 5 (*Representative*) above, paragraph 7 (*Step-Out*) above and paragraph 8 (*Novation*) above including the execution of any transfer or assignment, and the giving of any notice, order or direction and the making of any registration which, in each case, the Agent or Appointed Representative or Suitable Substitute Contractor reasonably requires.

9.2 The Board shall not take any action to wind up, appoint an administrator or sanction a voluntary arrangement (or similar) in relation to Project Co.

9.3 This Agreement shall remain in effect until the earlier of:

9.3.1 the Final Payment Date;

9.3.2 the date of termination of the Design Build Finance and Maintain Agreement; or

9.3.3 the date of transfer of Project Co's rights and liabilities under the Board Project Documents to a Suitable Substitute Contractor pursuant to paragraph 9.1 above.

9.4 The Agent, in respect of paragraphs9.4.1, 9.4.2and9.4.3, and Project Co, in respect of paragraph 9.4.4 shall promptly notify the Board of:

9.4.1 any Enforcement Event and any action taken in connection with such Enforcement Event, any decisions to accelerate the maturity of any amounts owing by Project Co to the Senior Funders under the Senior Funders Agreement and/or any decisions to demand repayment;

9.4.2 the date referred to in paragraph 9.3.1 above on or before the date falling twenty (20) Business Days after its occurrence:

9.4.3 the details and amount of any proposed Additional Permitted Borrowing including:

(a) the circumstances giving rise to it and reasons for it; and

(b) the terms on which it will be borrowed;

9.4.4 on the first Business Day of each calendar month during which any Additional Permitted Borrowing is, or may be, subsisting, the amount outstanding under the Senior Funding Agreements (as the same may be amended (whether or not with the approval of the Board))and, to the extent it is aware (having made reasonable and proper enquiry);

(a) the amount of any [Distribution] made by Project Co; and

(b) the amount of any credit balance on any account of Project Co.[42]

9.5 Project Co joins in this Agreement to acknowledge and consent to the arrangements set out and agrees not knowingly to do or omit to do anything that may prevent any party from enforcing its rights under this Agreement.

9.6 For the avoidance of doubt, if there is any conflict or inconsistency between the provisions of this Agreement and the Design Build Finance and Maintain Agreement, the provisions of this Agreement shall prevail.

9.7 Notwithstanding any provision in the Collateral Agreements to the contrary, the Board agrees that, subject to paragraphs 9.8 and9.9, it will not, in respect of any particular Collateral Agreement, exercise or seek to exercise any of its step-in rights or other rights (other than design, intellectual property or similar rights) under such Collateral Agreement until the earliest of:

9.7.1 the Senior Debt Discharge Date; or

9.7.2 the date on which the Agent has given its written consent to such exercise; or

9.7.3 the time when in respect of any such Collateral Agreement either:

(a) the Senior Funders have failed to exercise any corresponding

[42] For a Bond Transaction, 9.4.4 may be replaced by a new clause as follows if the Board think this is appropriate:
(a) on each [Payment Date] during which any Additional Permitted Borrowing is, or may be, subsisting, the amount outstanding under the Senior Funding Agreements and to the extent it is aware (having made reasonable and proper enquiry);
(b) on each [Payment Date] and the first Business Day of each calendar month following a Distribution made by Project Co the amount of any Distribution made; and
(c) on each [Payment Date] and on the first Business Day of each calendar month following 5 Business Days written notice from the Board the amount of any credit balance on any account of Project Co.

right to such Collateral Agreement under their own Security Documents and the time for exercising such right has ended in accordance with the terms thereof; or

(b) the Agent has confirmed in writing to the Board (following any request from the Board for such confirmation, to which the Agent shall be obliged to respond promptly) that it does not intend to exercise any of its rights under the relevant Security Document or that it has no further claim thereunder; or

(c) the Senior Funders have stepped in to or otherwise directly or indirectly taken control over the rights of Project Co under the relevant Sub-Contract (in accordance with their rights under their Security Documents) and then stepped out from, or otherwise relinquished control of such rights under or in connection with such Sub-Contract; or

9.7.4 the date falling [ ] months after the date on which the Design Build Finance and Maintain Agreement has been terminated in accordance with its terms and the terms of this Agreement.

9.8 In addition to its rights under paragraph9.7, where the Design Build Finance and Maintain Agreement has not been terminated but a counterparty has a right to terminate its Sub-Contract for breach by Project Co of the terms of such Sub-Contract the Board may pay directly, or undertake to make a payment directly to the counterparty concerned, amounts due pursuant to the Sub-Contract and may set off any such sums against any payments payable by the Board to Project Co under the Design Build Finance and Maintain Agreement so as to satisfy them pro tanto, provided always that the Board shall not exercise its rights under this paragraph 9.8 in respect of any particular Sub-Contract in circumstances where the Senior Funders have stepped in to or otherwise directly or indirectly taken control over the relevant Sub-Contract and have not stepped out of it or otherwise relinquished such control.

9.9 In addition to its rights under paragraph9.7, where the Design Build Finance and Maintain Agreement has been terminated, the Board shall from the Termination Date be able to exercise any of its step-in rights or other rights under or in respect of any of the Collateral Agreements; however notwithstanding the terms of the Collateral Agreements or any other provisions of this paragraph9.9, each of the relevant Sub-Contractors (and any guarantors thereof as relevant) shall remain responsible, and be liable, to Project Co in respect of all costs, claims, damages, losses and liabilities which shall have arisen out of or in connection with the relevant Sub-Contracts in respect of the period prior to the Termination Date in relation to which the Agent acting on behalf of Project Co and the Senior Funders shall retain the benefit of all and any rights to all such costs, claims, damages, losses and liabilities.

9.10 Except in accordance with the provisions of paragraphs 9.7 to 9.9(inclusive) the Board shall not, prior to the Senior Debt Discharge Date:

9.10.1 claim, recover, retain or receive (or seek to claim, recover, retain or receive) any amount under the Collateral Agreements;

9.10.2 take any action to wind-up, appoint an administrator, seek an interim order appointee (under paragraph 3(b) of the Insolvency Act 1986 (as amended)) or sanction a voluntary arrangement (or similar) in relation to any Sub-Contractors; or

9.10.3 save with the prior written consent of the Agent, compete on grounds (whether in whole or in part) relating to the Project (by virtue of a claim under any of the Collateral Agreements, the Design Build Finance and Maintain Agreement or any other Project Document or otherwise) with the rights of the Senior Funders on any formal insolvency of any Sub-Contractor or Project Co, nor claim to be subrogated to the rights of any Senior Funders.

9.11 The Board agrees and undertakes that if it receives any amount in contravention of the provisions of paragraph 9.10 above it will promptly turn the same over to the Agent and pending such payment hold the same on trust for the Agent and the Senior Funders.

9.12 Notwithstanding the terms of the Design Build Finance and Maintain Agreement and Security Documents, the Agent agrees that the Board may exercise its rights to have transferred to it or its nominee any Unrestricted Assets following the Termination Date and the Agent will not exercise or seek to exercise any enforcement rights and shall on or before the date any Unrestricted Assets are transferred to the Board or its nominee, as the case may be, release its security over them.

9.13 Notwithstanding the terms of any Senior Funding Agreements, the parties agree and shall, to the extent it is within their power, direct that all insurance proceeds receivable or received by Project Co under the insurances referred to in Clause 53 (*Insurance*) of the Design Build Finance and Maintain Agreement shall be paid directly into the Insurance Proceeds Account and applied in accordance with the Design Build Finance and Maintain Agreement.

10. ASSIGNATION

10.1 No party to this Agreement may assign or transfer any part of its rights or obligations under this Agreement save as provided in this paragraph 10 (*Assignation*).

10.2 The Agent may assign, novate or transfer its rights and obligations under this Agreement and in respect of the Security Documents to a successor Agent in accordance with the Senior Funding Agreements without the consent of the Board and any such assignation novation or transfer shall not constitute a Change of Control for the purposes of Clause 58.6 of the Design Build Finance and Maintain Agreement. The Board also agrees that any enforcement by the Agent of the security referred to in paragraph 2.5 above (and any subsequent transfer of share capital in Project Co) following an Enforcement Event shall not constitute a Project Co Event of Default under Clause 40.1.6 (*Change in Control*) of the Design Build Finance and Maintain Agreement.

10.3 Any Senior Funder may assign or transfer its rights under the [Senior Funding Agreements] in accordance with the terms of the [Senior Funding Agreements].

10.4 The Board may transfer its rights and obligations under this Agreement to any permitted assignee of its interest in the Design Build Finance and Maintain Agreement and the Agent and the Senior Funders shall co-operate with the Board in completing the formalities of any transfer or assignment including by executing any additional documents as may be required by the Board.

10.5 If paragraph 10.2 applies in relation to the Agent, the Board shall enter into a new direct Agreement with the new Agent on substantially the same terms as this Agreement.

11. ENTIRE AGREEMENT

Unless otherwise stated in this Agreement, this Agreement and the Board Project Documents constitutes the entire agreement between the parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings concerning the subject matter of this Agreement. No party has relied on any representation except as expressly set out in this Agreement.

12. WAIVER

12.1 The failure of any party to exercise any contractual right or remedy shall not constitute a waiver thereof until communication in writing under paragraph12.2.

12.2 No waiver shall be effective unless it is communicated in writing to the other party.

12.3 A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of this Agreement.

13. SEVERABILITY

If any term, condition or provision contained in this Agreement shall be held to be invalid, unlawful or unenforceable to any extent, such term, condition or provision shall not affect the validity, legality or enforceability of the remaining parts of this Agreement.

14. CONFIDENTIALITY

The Agent shall be bound to comply with the obligations on the part of Project Co contained in Clause 61 (*Confidentiality*) of the Design Build Finance and Maintain Agreement in relation to all information and matters obtained from any other party under or in connection with the Project.

15. NOTICES CONSENTS AND APPROVALS

15.1 Any notice served under or in connection with this Agreement is to be in writing and shall be deemed to have been served:-

15.1.1 if delivered at the time of delivery; or

15.1.2 if posted at noon (Greenwich mean time) one Business Day after posting; or

15.1.3 if set by fax at the time shown in the relevant transmission report for the complete fax.

provided that a notice or other communication received on a non-Business Day or after 5p.m. in the place of receipt shall be deemed to be received at 9a.m. on the next following Business Day in such place.

15.2 Any notice to be given to the Board should be marked for the attention of [ ] and delivered to [ ] or faxed to [ ] or such other party or address or fax number as notified in writing to the Agent by the Board.

15.3 Any notice to be given to the Agent should be marked for the attention of [ ] and delivered to [ ] or faxed to [ ] or such other party address or fax number as notified in writing to the Board by the Agent.

15.4 Any consent or approval under this Agreement is required to be obtained before the act or event to which it applies is carried out or done and is to be treated as effective only if the consent or approval is given in writing.

16. SURVIVORSHIP

Notwithstanding the provisions of paragraph 9.3.2 and paragraphs 9.7 to 9.13 (inclusive) (*Miscellaneous*) shall survive termination of this Agreement.

17. DISPUTES

17.1 All disputes shall be resolved in accordance with terms equivalent (mutatis mutandis) to the Dispute Resolution Procedure set out in the Design Build Finance and Maintain Agreement.

17.2 Project Co, the Board and the Agent shall co-operate to facilitate the proper, just, economical and expeditious resolution of any and all such disputes which arise under this Agreement.

18. GOVERNING LAW

18.1 Subject to paragraph 17 (*Disputes*) above, this Agreement is governed by the laws of Scotland.

18.2 The parties agree that the courts of Scotland shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Agreement and irrevocably submit to the jurisdiction of those courts.

IN WITNESS WHEREOF:

SCHEDULE PART 5

LAND MATTERS

SECTION 1 – TITLE CONDITIONS[43]

1. Little France Steading has the benefit of the following rights:

   1.1 a servitude right to lay and thereafter maintain a pipe connecting Little France Steading to the main sewer running through the Campus Site to the northwest of Little France Steading, subject to causing as little inconvenience as possible during pipe laying operations and making good any damage caused to the surface of the said subjects occasioned by the laying of the pipe or the maintenance thereof;

   1.2 a right to enter that part of the Campus Site lying to the northeast of Little France Steading in so far as this may be necessary for the repair, maintenance or renewal of the buildings erected on these subjects.

2. 217 Old Dalkeith Road has the benefit of a heritable and irredeemable servitude right of access and egress for vehicular and pedestrian traffic in all time coming over that part of the access road shown on Plan 9 as is required to give access to 217 Old Dalkeith Road.

3. There are reserved in favour of the local or public authorities and statutory undertakers, utilities companies or organisations and the like all necessary rights of access for the installation, repair, maintenance, cleaning and renewal of all electric and telegraphic cables, water, gas and drainage pipes, sewers, soil, waste and water supply pipes and all other cables, pipes and transmitters and other services serving the Site provided that such rights may be exercised by any local or public authority or statutory undertaker or utility company or organisation without any liability on the part of the Board.

4. Use of the Campus Site by Project Co

Project Co and any Project Co Parties shall not be permitted to use any part of the Campus Site (including, without prejudice to the foregoing generality, the car parks, shops, restaurants, toilets, concourses and corridors forming the Campus Site except (a) as otherwise provided for in this Agreement, or (b) with the express permission of the Board, or (c) with regard to the accident and emergency department within the RIE Facilities, in the case of a medical emergency.

5. The following title conditions apply from the date upon which the Board notifies Project Co of that they shall have effect:

   5.1 A right of access and egress for pedestrians and vehicles over the Access Roads (Future) in favour of each Campus Party.

   5.2 Project Co shall not park or leave unattended or cause or permit to be left parked or unattended any vehicles, trucks or trailers on or otherwise in any way obstruct, cause or permit to be obstructed any part of the Access Roads (Future).

   5.3 The Campus Site is subject to an absolute prohibition in all time coming on the use of any part of the Site for any purpose falling within Classes 5 and 6 of the Schedule to the Town and Country Planning (Use Classes) (Scotland) Order 1997.

[43] Title Conditions in respect of Plots 14 and 16 to be advised by the Board during the Dialogue Period.

5.4 Each Campus Party have the benefit of rights to connect into mains services running through the Campus Site and any service media and the right to lay, construct, maintain and repair gas, water, drainage and sewage pipes and telephone cables and wires through the Campus Site along routes to be agreed with the relevant Campus Party who shall be bound to act reasonably in this regard subject to the following provisos:

5.4.1 the Campus Party exercising the rights shall be responsible for obtaining and complying with all necessary statutory and other consents and approvals required in connection with the works involved in relation to such connection and the installation of such pipes and conduits;

5.4.2 the Campus Party exercising the foregoing rights shall do so at reasonable times (upon prior appointment except in the case of emergency) and shall do so in such a manner as to cause the least disturbance and inconvenience reasonably practicable to the relevant part of the Campus Site or the business being carried out thereon;

5.4.3 the Campus Party exercising the foregoing rights shall pay compensation to the owner of that part of the Campus Site affected by the exercise of the foregoing rights for any loss or physical damage caused to any part of the Campus Site and any buildings, structures or others erected thereon, or any plant, equipment and moveable items located thereon, (such rights of compensation to be agreed between the parties, or failing such agreement as determined by the Chairman of the Scottish Branch of the Royal Institute of Chartered Surveyors).

SECTION 2 – RESERVED RIGHTS

1 To each Campus Party the full free and uninterrupted passage and running of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications) and other services through the Campus Site by or through the pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media which currently or at any time in the future may be located within the Campus.

2 To each Campus Party or any party on behalf of any of them, the right to connect into and maintain, repair and renew existing pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media through, under and over the Retained Site for the passage of services referred to in paragraph 1.

3. To each Campus Party or any party on behalf of any of them, the right to maintain, repair and renew existing pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media through, under and over the Site for the passage of services referred to in paragraph 1 above subject to the following conditions:

3.1 this right is exercisable on reasonable prior notice being given (except in an emergency) to Project Co;

3.2 the right shall be exercised in such a manner as shall cause the minimum practicable disruption to the use and occupation of the Site;

3.3 the Board shall procure that any physical damage to the Site and any buildings, structures and others erected thereon and any plant, machinery and equipment resulting from the exercise of the rights is made good.

4. To each Campus Party or any party on behalf of any of them, a right of access over the Site where necessary in connection with the carrying out of works of maintenance, repair and

renewal to the Retained Site and/or Retained Estate.

5. To the Board and/or any Board Party and/or Consort and/or any Consort Party or any party on behalf of them, a right of overhang in respect of the canopy forming part of the RIE Facilities at the A&E entrance and a right to retain pillars supporting the said canopy, for so long as they subsist (in their existing form or as replaced or renewed from time to time) to the extent that such pillars or canopy are within the remainder of the RIE Facilities together with all rights of access over the Site where necessary for the purposes of carrying out any works of maintenance, repair, renewal or replacement of the canopy and pillars, provided that the rights in this paragraph 5 shall cease to be enforceable following the permanent dismantling and removal of the canopy and pillars.

6. To the Board and/or any Board Party and/or the University and/or any University Party a right of pedestrian and vehicular access over the Access Roads.

7. To the Board and/or any Board Party and/or the University and/or any University Party, a right of access and egress for pedestrians and cycles over the footpaths and cycle routes on the Retained Site as shall be provided from time to time for general use by members of the public;

8. To the Board and/or any Board Party or any party acting on their behalf all necessary rights required for the maintenance and cleansing of the Niddrie Burn.

9. To the Board and/or any Board Party and/or Consort and/or any Consort Party, an exclusive right of occupation over the RIE Site, subject to the Reserved Rights and the Ancillary Rights.

10. To the Board and/or any Board Party and/or the University and/or any University Party, an exclusive right of occupation over the University Site;

11. To each Campus Party or any party on behalf of any of them a right to inspect, maintain, repair, renew and/or replace any service media, buildings, structures and others erected thereon and any plant, machinery and equipment located within or adjacent to any part or parts of the Access Areas which are occupied and/or hoarded off by Project Co or a Project Co Party pursuant to Section 5 *(Access Areas, Drainage and Substation)* of Part 1 (Interface Construction Issues and Interface Proposals) of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement, and if any such party requires to access such areas to inspect, maintain, repair, renew and/or replace aforesaid then the following provisions shall apply:

    11.1 except in the case of an emergency, the Board shall give Project Co reasonable prior notice of the requirement to enter such areas;

    11.2 Project Co shall provide the Board and/or any Board Party, and/or Consort and/or any Consort Party and/or the University and/or any University Party and/or any party authorised by them with the level of access required to implement their obligations and/or exercise their rights in regard to such service media, buildings, structures and others erected thereon and any plant, machinery and equipment; and

    11.3 the Board shall use reasonable endeavours to procure that Consort and the University shall in exercising the rights pursuant to this paragraph 11 cause as little inconvenience as is reasonably practicable to Project Co; and

    11.4 the Board shall use reasonable endeavours to procure that Consort and University in exercising the rights pursuant to this paragraph 11 shall comply with Project Co's reasonable site rules and requirements which are applied in accordance with Good Industry Practice.

12. To each Campus Party, or any party on behalf of any of them, a right to inspect, maintain,

repair, renew and/or replace service media buildings, structures and others erected thereon and any plant, machinery and equipment, located within any parts of Car Park E which are occupied by Project Co or a Project Co Party and/or are hoarded off pursuant to Section 3 *(Site Compound/Car Park E)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface With Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and if any such party requires to access such areas to inspect, maintain, repair, renew and/or replace aforesaid then the following provisions shall apply:

12.1 Except in the case of an emergency where no prior notice is required, the Board shall give Project Co reasonable prior notice of the requirement to enter Car Park E and/or the relevant part;

12.2 Project Co shall provide the Board and/or any Board Party and/or Consort and/or any Consort Party, and the University and/or University Party and/or any party authorised by them with the level of access required to exercise their rights and/or implement their obligations in regard to such service media buildings, structures and others and any plant, machinery and equipment and without prejudice to the foregoing generality shall ensure that the areas under which the such service media, buildings, structures and others and any plant, machinery and equipment are located are not obstructed; and

12.3 The Board shall use reasonable endeavours to procure that Consort and/or the University shall in exercising the rights pursuant to this paragraph 12 cause as little inconvenience as is reasonably practicable to Project Co.

13. To the extent that the gas pipe serving the RIE Site and/or RIE Facilities is located within the Site Project Co shall comply with the conditions and restrictions in paragraph 6.1.2 of Sub-Section C of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and there shall be reserved to the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them, rights of access to the Site to the extent required to maintain, repair, replace and renew the gas pipe and all necessary rights to maintain, repair, replace and renew the gas pipe.

14. To the extent that the Sewer serving the RIE Site and/or RIE Facilities and other neighbouring properties on and off the Campus Site part of which is located within the Site as shown in Plan 11 which forms part of the Disclosed Data, Project Co shall comply with the conditions and restrictions in paragraph 6.1.1 of Sub-Section C of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and there shall be reserved to the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them, rights of access to the Site to the extent required to maintain, repair, replace and renew the Sewer and all necessary rights to maintain, repair, replace and renew the Sewer.

15. To each Campus Party and/or any party on behalf of any of them and other restrictions, reservations and others contained in Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and in each of the Interface Proposals.

SECTION 3 – ANCILLARY RIGHTS

The following Ancillary Rights are granted to the extent required for the purpose of implementing the Works, performing the Services and fulfilling Project Co's rights and obligations under this Agreement:-

1. Occupancy

A non exclusive right to enter and remain on the Site;

[44][2. Construction Access over the Yellow Area

[TO BE USED IF SOLUTION UTILISES ACCESS ROUTE OVER YELLOW AREA]

Project Co shall have the right to:-

(a) form a dedicated access route which may comprise a temporary road or bridge, or a combination of both over and across the Yellow Area, (the "**Construction Access**")

(b) hoard off the Construction Access from the remainder of the Yellow Area, and

(c) use the Construction Access during the Construction Phase for access to and/or egress from the Site at all times for all kinds of construction traffic and pedestrians;

subject to Project Co complying with and carrying out such works and hoarding off in accordance with the provisions of paragraph 1 of Section 1 *(Construction Access)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Construction Access Proposal.

3 Construction Access over the Orange Area

[TO BE USED IF SOLUTION UTILISES ACCESS ROUTE OVER ORANGE AREA]

Project Co shall have the right to take construction access to and egress from the Site for the carrying out and completion of the Works over the Orange Area subject to Project Co complying with and carrying out the Works over the Orange Area in accordance with the provisions of paragraph 2 of Section 1 *(Construction Access)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix *A (Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the TMS.

4. Access Areas

Project Co shall have the right during the Construction Phase as part of the Works:-

4.1 to enter upon and occupy on an exclusive basis and where necessary hoard off from the remainder of the RIE Site any part or parts of the Access Areas in connection with the exercise of the rights granted in terms of the Access Strategy;

4.2 to carry out works to form pedestrian and vehicular accesses to and from the Site onto the Orange Area;

4.3 to reconfigure the roads, footpaths and landscaped areas within the Hatched Orange

[44] Construction Access may be taken over the Yellow Area. It is preferred that construction access is taken over the Yellow Area.
In a number of circumstances and subject to a number of further provisos which are detailed in the ITPD, it is possible for construction access to be taken over the Orange Area at the Board's sole option.
It is expected that the route and methodology of the construction access will be resolved prior to financial close. In the event that construction access over the Yellow Area is not required in terms of the successful bid, paragraph 2 will be deleted. In the event that construction access is not required over the Orange Area, paragraphs 3 and 4 will be amended to delete any rights granted over the Orange Area in respect of construction access. Reserved Right 6 will also require to be amended to reflect the construction access methodology.

Area;

4.4 to install new surface water drainage connections from the Site to the existing surface water drain within the Orange Area; and

4.5 to carry out works to form a cycle path and reconfigure the landscaped areas within the Yellow Area;

subject to Project Co complying with the conditions in Section 5 *(Access Areas, Drainage and Substation)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A (Interface with Campus Site and/or Campus Facilities) of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Access Strategy, and in relation to the matters in the foregoing paragraph 4.1.4 the Initial Drainage Proposal and the Supplemental Drainage Proposal and where applicable the Amended Drainage Proposal and/or Access Strategy agreed or determined pursuant to Section *2 (Access Areas and Amended Drainage Proposals)* of Part 2 *(Interface Proposals Procedure)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement.

5. Substation Access and Cables

Project Co shall have the right to:-

5.1 install an electricity substation within the Substation Site;

5.2 to construct an access road within the Substation Access Area from the road shown shaded pink and hatched black on Plan 2 to the Substation Site to provide pedestrian and vehicular access to and egress from the electricity substation to be constructed within the Substation Site;

5.3 install an electricity cable from the electricity substation to be installed on the Substation Site to Old Dalkeith Road along the Substation Cable Route;

5.4 thereafter use, maintain, repair and renew the electricity substation;

subject to Project Co complying with the conditions in Section 5 *(Access Areas, Drainage and Substation)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Access Strategy and the Substation Proposal, and where applicable, any Access Strategy agreed or determined pursuant to Section 2 *(Access Areas and Amended Drainage Proposals)* of Part 2 *(Interface Proposals Procedure)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement.

6. **Service Strip and Foul Service Strip**

Project Co shall have the right to construct and lay and thereafter maintain, repair and renew service media through, under and over (1) the Service Strip for the passage of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications), and (2) the Foul Service Strip for the passage of foul drainage, in each case as necessary in connection with the Works but subject to Project Co complying with the conditions in Section 6 (Service Strip and Foul Service Strip) of Part 1 (Interface Construction Issues and Interface Proposals) of Appendix A (Interface with Campus Site and/or Campus Facilities) of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement, and the Service Proposal and/or where applicable any Amended Service Proposal agreed or determined pursuant to Section 3

(Amended Service Proposal) of Part 2 *(Interface Proposals Procedure)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement.

7. **Link Building**

Following the construction of the Link Building to the RIE Facilities within the Connection Area, Project Co shall be entitled: -

7.1 to form a connection from the Facilities to the Link Building;

7.2 to install and thereafter maintain, repair and renew interface links between the fire alarm and security systems within the Facilities with those within the RIE Facilities;

7.3 to install and thereafter maintain, repair and renew the PTS; and

7.4 to install and thereafter maintain, repair and renew the ICT,

subject to Project Co complying with the conditions in Section 7 *(Link Building)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Connection Proposal.

8. **Site Compound/Car Park E**

During the Construction Phase Project Co shall be entitled to occupy Car Park E and where necessary hoard off and segregate Car Park E or the relevant part thereof being occupied from the remainder of the Campus Site subject to Project Co complying with the conditions in Section 3 *(Site Compound/Car Park E)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Interface Proposals.

9. **Oversail**

Project Co shall be permitted to oversail parts of the Retained Site with the jib and/or counterweight of any crane subject to Project Co complying with the requirements in Section 4 *(Oversail)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Oversail Strategy and/or where applicable any Additional Oversail Strategy agreed or determined pursuant to Section 1 *(Oversail)* of Part 2 *(Interface Proposals Procedure)* of Appendix A (Interface with Campus Site and/or Campus Facilities) of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement.

10. **Operational Access**

10.1 During the Operational Term Project Co shall have the following rights of access to and egress from the Site: -

10.1.1 (until adoption by the relevant authority for use as a public road) for pedestrians and vehicles (excluding heavy construction traffic) over and across the roads and footpaths shown coloured blue, coloured yellow and coloured pink and also hatched black (excluding the section of road coloured pink but unhatched) on Plan 6;

10.1.2 for pedestrians and vehicles (excluding heavy construction traffic) over and across

the roads and footpaths shown coloured pink (excluding the section of road coloured pink and hatched black) on Plan 6 until such time as the Board notify Project Co in writing that access over this area shall no longer be permitted;

10.1.3 at all times for pedestrians only from Old Dalkeith Road over the Service Strip.

10.2 During the Operational Term Project Co shall have a right of access over the RIE Site where necessary in connection with the carrying out of works of maintenance, repair and renewal to the RIE Facilities subject to Project Co complying with the conditions in paragraph 1 of Section 2 *(Operational Construction Issues)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A *(Interface with Campus Site and/or Campus Facilities)* of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time) of this Agreement and the Interface Proposals.

10.3 During the Operational Term Project Co shall have a right of access to the Service Strip and the Foul Service Strip to repair, maintain and renew service media serving the Facilities located within the Service Strip or the Foul Service Strip subject to Project Co complying with the terms of Section 6 *(Service Strip and Foul Service Strip)* of Part *1 (Interface Construction Issues and Interface Proposals)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement) and the Service Proposal, and where applicable any Amended Service Proposal agreed or determined pursuant to Section 3 *(Amended Service Proposal)* of Part *2 (Interface Proposals Procedure)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement.

10.4 During the Operational Term Project Co shall have a right of access to the RIE Facilities to repair, maintain and renew the interface links between the fire alarm and security systems, PTS and ICT to be installed to be installed pursuant to Section 7 *(Link Building)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement) subject to Project Co complying with Section 7 *(Link Building)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement) and the Connection Proposal.

10.5 During the Operational Term Project Co shall have a right of access to the Substation Cable Route to repair, maintain and (where necessary) renew the electricity cable to be installed pursuant to paragraph 8 of Section 5 *(Access Areas, Drainage and Substation)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement), subject to Project Co complying with Section 5 *(Access Areas, Drainage and Substation)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement), and where applicable with paragraph 1 of Section 2 *(Operational Construction Issues)* of Part 1 *(Interface Construction Issues and Interface Proposals)* of said Appendix A, the Access Strategy and the Substation Proposal and where applicable any Access Strategy agreed or determined pursuant to Section 2 *(Access Areas and Amended Drainage Proposal)* of Part 2 *(Interface Proposals Procedure)* of Appendix A of Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* (as varied, amended or supplemented from time to time in accordance with this Agreement, and any relevant Service Proposal and where applicable any Amended Service Proposal agreed or determined pursuant to Section 3 *(Amended Service Proposal)* of Part 2 *(Interface Proposals Procedure)* of said Appendix A.

11. Wherever in this Schedule Part 5 *(Land Matters)* (as varied, amended or supplemented from

time to time in accordance with this Agreement) Project Co has an obligation to perform or comply with any matter, Project Co shall procure that Project Co Parties shall perform or comply with any such matter.

SCHEDULE PART 6

CONSTRUCTION MATTERS

SECTION 1

PLANNING/CONSENTS

SECTION 2

SAFETY DURING CONSTRUCTION

1 In this Section 2 (*Safety During Construction*) of Schedule Part 6 (*Construction Matters*) and wherever used elsewhere in this Agreement:

1.1 "**CDM Regulations**" means the Construction (Design and Management) Regulations 2007 (and "**CDM Regulation**" shall be construed accordingly); and

1.2 "the **client**", "**the CDM Co-ordinator**" and "the Executive" shall have the same meanings as are ascribed to them in the CDM Regulations.

2 In so far as not already done, within five (5) Business Days of the date of execution of this Agreement, Project Co shall make and serve on the Board a declaration pursuant to and in the form (if any) required by CDM Regulation 8 that Project Co will act as the client in relation to the Works for all the purposes of the CDM Regulations. Notwithstanding the election made by Project Co in relation to CDM Regulation 8, the Board will comply with its remaining obligations as set out in CDM Regulation 8. During the Project Term, Project Co shall not, and shall not seek to, withdraw, terminate or in any manner derogate from its declaration that it will act as, and its acceptance of its responsibilities as, the client in relation to the Works for all the purposes of the CDM Regulations. The Board will endorse its consent, in writing, to such election on the said election and return it to Project Co within five (5) Business Days of receipt.

3 Project Co warrants that it has the competence, resources and capacity to, and shall, observe, perform and discharge or shall procure the observance, performance and discharge of:

3.1 all the obligations, requirements and duties of the client arising under the CDM Regulations in connection with the Works and, where necessary, the provision of the Services; and

3.2 all obligations incumbent on the client under any Code of Practice for the time being approved by the Health and Safety Commission pursuant to the Health and Safety at Work etc Act 1974 issued in connection with the CDM Regulations.

4 Project Co shall provide to the Board's Representative:

4.1 in a substantially complete form on the Actual Completion Date; and

4.2 in final form within five (5) Business Days of the Actual Completion Date,

one electronic copy (on computer disk, tape or other format) of each and every health and safety file and construction phase plan prepared by the CDM Co-ordinator pursuant to the CDM Regulations in relation to the Works and the Services and electronic or paper copies of every amendment or update made to such file during the Project Term.

SECTION 3

BOARD'S CONSTRUCTION REQUIREMENTS

SECTION 4

PROJECT CO'S PROPOSALS

SECTION 5

REVIEWABLE DESIGN DATA

This Section 5 *(Reviewable Design Data)* of Schedule Part 6 *(Construction Matters)* sets out the details of the specific design information, materials, samples and required approvals (as more specifically set out in the table below) ("**Reviewable Design Data**") to be reviewed by the Board in accordance with Schedule Part 8 *(Review Procedure)* before such Reviewable Design Data is incorporated into the Facilities and/or the Site by Project Co.

For the avoidance of doubt, if Project Co's Proposals incorporate Room Data Sheets and/or Reviewable Design Data there shall be no requirement for Project Co's Proposals to be issued to the Board for review under Schedule Part 8 *(Review Procedure).* However, if Project Co subsequently revises or amends its Project Co's Proposals in relation to the Room Data Sheets and/or Reviewable Design Data, then such revisals or amendments shall require to be issued to the Board for review under Schedule Part 8 *(Review Procedure).*

Ref	Sample	Drawing	Other	Description	Project Co to submit by:	Board to review by:
A				**GENERAL INFORMATION**		
A1			*	Room Data Sheets (including upper load limits for heavy equipment).		
A2		*		Entrance areas		
A3		*		1:100 detailed landscape plans for all areas including levels, planting details, kerbs, paths and lighting for works both within red line boundary and out with including any visual screening, security details and maintenance access. To include extent, type and location of external equipment.		
A4		*		1:100 general arrangement floor and room plans and section		
A5	*	*		1:50 details of envelope in conjunction with 1:50 sections through all external systems/ components particularly at interfaces, changes in plane and junctions. (Note – full size mock ups of key envelope areas to be provided on site.) Also same info for basement and sub structure.		
A6		*		1:50 room layouts showing reflected ceiling plans, internal wall elevations and loaded floor plans.		
A7		*		1:200 fire strategy plans – showing all main fire compartments, sub compartments, hazard rooms, fire doors, fire escape doors and routes, call points, detectors, fire extinguishers, emergency lighting, fire dampers and compliance with Firecode		
A8		*		1:100 elevations and details of window glazing and opening lights		

Ref	Sample	Drawing	Other	Description	Project Co to submit by:	Board to review by:
				types and locations		
A9	*	*		1:50 glazing details, 1:50 sections and full size mock ups of glazing systems to be provide on site.		
10		*	*	1:100 roof plan with details of rooflights and other roof terminations. Comprehensive specification and details of all proposed roofing systems to be provided.		
A11		*		1:100 sections and1:50 sections		
A12		*		Loading floor plans and elevations including details of strong routes. Upper limits for heavy equipment as per Room Data Sheets. Maximum allowable structural deflections, differential settlement, vibration and specific tolerances of areas. (structural)		
A13			*	Detailed specifications for all mechanical and electrical components		
A14			*	List of proposed manufacturers, products, materials and equipment proposed.		
A15		*		Entrance canopy and covered walkway plans and details		
A16		*		Main entrance details		
A17	*			Facing bricks		
A18	*			Facing blocks		
A19	*			Cladding - all types		
A2-0	*		*	Window types		
A21	*		*	Roofing materials		
A22	*		*	Internal wall, column and ceiling linings including details of screening to rooms containing radiology or emitting ionising radiations, field protection around MRI installations and screening to rooms containing EEG or evoked potential recordings equipment.		
A23	*	*	*	Bespoke joinery		
A24			*	External doors		
A25	*		*	Door signage - NHS standard		
A26		*	*	Balustrade		
A27			*	Plaster/render		
A28	*			General floor finishes		
A29	*		*	Painting and decorating		
A30	*		*	Sanitary fittings inc schedule		
A31			*	Drainage materials		
A32	*			All light fittings		
A33	*			In patient radiator/valve		
A34	*		*	Typical bed head assembly with patient call, etc.		
A35	*			Typical switches/sockets		
A36	*		*	Typical smoke detector etc		

Ref	Sample	Drawing	Other	Description	Project Co to submit by:	Board to review by:
A37	*		*	Vent, grill & diffuser		
A38		*		Location of all structural movement joints.		
A39		*		Road, car park and footpath design, materials and layout including fire fighting appliance access, Details of pedestrian crossings, road and car park markings.		
A40	*	*	*	Works of art being included in the project including details of associated artists and samples of work.		
A41		*	*	Drawings and report indicating the adaptability strategy incorporated in the proposals.		
A42		*	*	Drawings and report on the demolition methodology being proposed.		
A43		*	*	Full details of helipad and associated procedures.		
A44		*	*	Details for the control of infection		
B				**SPECIFIC PROPOSALS**		
B1	*	*	*	Nurse call/communication system including Panic Alarm		
B2	*	*	*	Security installations (inc sample of CCTV cameras)		
C				**ELEMENTAL INFORMATION**		
C1	*	*	*	Internal doors and screens		
C2	*		*	Ironmongery schedule, samples and lock suiting including details of card access system		
C3	*		*	Finishes schedule		
C4	*		*	Schedule and details of furniture and fittings		
D				**FLOOR FINISHES**		
D1	*			Sheet finishes & skirtings		
D2	*			Carpets		
D3	*			Ceramic tiling		
D4	*			Dirt arresting floor coverings/ mats		
E				**CEILING FINISHES**		
E1	*			Suspended - tile types		
E2			*	Plasterboard		
E3	*			All other ceiling types		
F				**WALL FINISHES**		
F1	*			Decorations		
F2	*			Ceramic tiling		
G				**FIXTURES & FITTING**		
G1	*		*	Taps – all types		
G2	*	*	*	Touchdown bases		

Ref	Sample	Drawing	Other	Description	Project Co to submit by:	Board to review by:
G3	*	*	*	Reception counters		
G4	*		*	Office workstations		
G5	*		*	External/Internal signage		
G6	*		*	Light switches and sockets		
G7	*			Luminaires		
G8	*		*	Work benches/work surfaces		
G9	*	*	*	Bed head arrangement and patient call		
G10	*		*	Cubicle curtain track		
G11	*		*	Blinds		
G12	*	*	*	Equipment tagging		
H				**ENGINEERING SERVICES**		
The following for mechanical and electrical engineering Reviewable Design Data shall be provided. This will encompass the design, size, location and interface with existing, phasing and temporary provision in schematic format with respect to the following;						
H1		*	*	Boiler/primary heating distribution		
H2		*	*	Hot and cold domestic water storage and distribution		
H3		*	*	hv and lv electrical distribution		
H4		*	*	Standby generators		
H5		*	*	Fire alarms and detection system		
H6		*	*	Nurse call system		
H7		*	*	CCTV/security system		
H8		*	*	Air handling systems		
H9		*	*	Lifts/transportation samples and visualisations of typical lift required.		
H10		*	*	Controls / BMS including details of graphic representations and associated tutorial software..		
H11		*	*	Voice & Data		
H12		*	*	Pneumatic tube system		
1:200 Primary distribution for all areas indicating main distribution routes and plant locations with respect to the following:						
I1		*		LPHW heating		
I2		*		Domestic water services		
I3		*		Ventilation		
I4		*		Lighting and power		
I5		*		Fire alarms		
I7		*		Voice & data		
I8		*		Nurse call		
I9	*	*		Patient tagging		
I10		*		Pneumatic tube system		
1:50 Detail layouts for all areas for the following						
J1		*		Plant rooms and supporting schematics		
J2		*		Heating		
J3		*		Domestic water services		
J4		*		Ventilation		
J5		*		Lighting & power		
J6		*		Fire alarms		
J7		*		Voice and data		

Ref	Sample	Drawing	Other	Description	Project Co to submit by:	Board to review by:
J8		*		Nurse call		
J9		*		Security/CCTV		
J10		*		Personal alarms		
J11		*		Sprinklers		
J12		*		Lightning protection		
J13		*		Pneumatic tube system		
J14		*		Infrared systems and induction loops		
J15		*		Proposed ceiling voids above ceilings and safe points of access.		
1:500 external services drawing indicating all new works and site modifications, routes of all new and diverted services relating to the following:						
K1		*		Natural gas		
K2		*		Electrical supplies		
K3		*		Water supplies		
K4		*		Street lighting car park lighting		
K5		*		Foul and surface water drainage		
K6		*		Fire alarms		
Such supporting calculations, schedules and information, as requested by the Board to support items above.						
Elevational information related to fully loaded plans for complex areas						
L1		*		Voice & data communication		

SECTION 6

ROOM DATA SHEETS

SECTION 7

THERMAL AND ENERGY EFFICIENCY TESTING PROCEDURE

1. INTRODUCTION

1.1 Main Principles

This Section 7 *(Thermal and Energy Efficiency and Testing Procedure)* of Schedule Part 6 *(Construction Matters),* sets out the structure and main principles of the Thermal and Energy Efficiency Testing procedures to be carried out by Project Co at the Facilities in order to ascertain the As Built Facilities Energy Performance. In particular, this Section 7 *(Thermal and Energy Efficiency and Testing Procedure)* of Schedule Part 6 *(Construction Matters),* sets out the tests that shall be carried out during the commissioning period to ensure the completed Facilities complies with the agreed Energy Performance, or if improved, the Energy Performance stated in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters).*

2. TESTING OF THE THERMAL AND ENERGY MODEL

Project Co shall provide an As Built Energy Model for the Facilities to ensure compliance with the agreed Energy Performance, or if improved, the Energy Performance stated in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters).*

2.1 As Built Energy Model

2.1.1 Prior to the Commissioning End Date, Project Co shall submit an As Built Energy Model for the Board's review.

2.1.2 The information provided with the As Built Energy Model shall be in line with Good Industry Practice, and consistent with the level of information submitted in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* and consistent with the Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters).*

2.1.3 Project Co's As Built Energy Model shall be developed from Project Co's Energy Model used to confirm compliance with the Energy Performance at Financial Close. When updating to the As Built Energy Model, Project Co shall not amend any parameters of the Financial Close Energy Model other than where agreed in writing with the Board or where those parameters are affected by the information and commissioning tests detailed below.

2.1.4 Project Co shall include the following updates in the As Built Energy Model:

(a) As built building envelope and construction materials performance;

(b) As installed manufacturers' plant and components information, including all associated operating parameters such as co-efficient of performance;

(c) Results of building wide commissioning of completed installations including, but not limited to, all Heating, Ventilation and Cooling (HVAC) systems and lighting systems; and

(d) Results of commissioning period tests as detailed in paragraph 3 of this Section 7 *(Thermal and Energy Efficiency Testing Procedure)* of Schedule Part 6 *(Construction Matters).*

2.1.5 Project Co shall ensure the completed Facilities meet the Energy Performance or if

improved, the Energy Performance stated in Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters)* following input of all the above information.

2.1.6 Project Co shall clearly report input information and results of the As Built Energy Model for the Board's review and approval. Reporting shall highlight where input parameters have been altered from the Financial Close Energy Model, and the reason for the change i.e. following commissioning period testing.

3. COMMISSIONING PERIOD TESTS

3.1 Introduction

3.1.1 Notwithstanding Project Co's obligation to undertake all commissioning requirements of Schedule Part 10 *(Outline Commissioning Programme)* and Appendix B *(Completion Criteria),* Project Co shall undertake the following commissioning period tests in an agreed test zone (or with respect to the Air tightness test for all zones in the Facilities), to be agreed by the Board and Project Co, both parties acting reasonably, to demonstrate the actual Energy Performance of the Facilities:

(a) Air tightness test;

(b) Internal lighting installation test;

(c) Building fabric performance test; and

(d) Seasonal heating, cooling and ventilation installation testing.

3.1.2 Project Co shall incorporate the results of the commissioning period tests as detailed in this paragraph 3 of this Section *7 (Thermal and Energy Efficiency Testing Procedure)* of Schedule Part 6 *(Construction Matters)*, in the As Built Energy Model.

3.1.3 Project Co shall interpolate all results from the commissioning period tests such that the confirmed performance of the Facilities/installations following the commissioning period tests is applied across the complete Facilities in the As Built Energy Model.

3.1.4 Project Co shall submit all commissioning period test results and interpolative calculations to the Board as part of their As Built Energy Model submission for the Board's review.

3.1.5 An indication of the methodology of the commissioning period tests are outlined below, however the final extent and scope of the tests to be undertaken shall be developed and agreed by the Board and Project Co, both parties acting reasonably.

3.2 Air Tightness Test

3.2.1 Project Co shall carry out an air tightness test for the Facilities as outlined and in compliance with the Scottish Technical Standards and as detailed in CIBSE Technical Memorandum TM23-2000.

3.2.2 This air leakage rate should demonstrate the construction quality of the Facilities and allow a direct correlation to the assumed value used in the As Built Energy Model, detailed in m3/m2/h@50P.

3.3 Internal Lighting Installation

3.3.1 The lighting installation serving the agreed area/zone shall be completed, commissioned and operational and manually enabled for an agreed fixed period of time.

3.3.2 All lighting controls tested shall be as those installed in the Facilities and shall include

all automatic presence and photocell sensors, time controls and manual switching/dimming controls.

3.3.3 The operating usage and hours for the lighting installation within the test zone and period shall be as the operating profiles in the Financial Close Energy Model.

3.3.4 The lighting distribution board feeding the agreed area/zone shall be separately metered to provide the actual energy consumption for that area which shall confirm, or otherwise inform, the lighting energy consumption in Project Co's As Built Energy Model.

3.3.5 Project Co shall undertake light meter tests in the agreed area/zone to confirm, or otherwise inform, the lighting levels within the respective areas in Project Co's As Built Energy Model.

3.4 Building Fabric Performance

3.4.1 The thermal performance of the Facilities building fabric shall be assessed by Project Co within the agreed area/zone.

3.4.2 Project Co shall undertake the necessary tests to confirm the thermal performance of window, external door, ground floor, roof and external wall areas, as agreed between Project Co and the Board, both parties acting reasonably, within the agreed test zone.

3.4.3 Project Co shall further undertake thermographic surveys, to the relevant British Standards, of the agreed test areas to prove the quality of the thermal performance of the Facilities.

3.4.4 The thermal performance assessment in the agreed test zone shall confirm the thermal performance figures used for the building constructions, and all assumptions on thermal bridging, assumed within Project Co's As Built Energy Model.

3.5 Seasonal Heating, Cooling and Ventilation Installation Testing

3.5.1 Energy testing of the heating, cooling and ventilation system shall require seasonal testing of the completed, commissioned and operational main heating plant and any cooling and ventilation plant serving the agreed area/zone.

3.5.2 Project Co shall incorporate in their commissioning programme the ability to monitor the heating, and any cooling and ventilation, installations during extremes of ambient conditions, for example testing heating systems within the winter months, and testing cooling systems in the summer months complete with fully simulated heat gains, as agreed with the Board in the Financial Close Energy Model, both parties acting reasonably.

3.5.3 The main heating/cooling distribution pipework feeding the agreed test area/zone shall be separately metered (for the test area/zone) and the BMS/controls installation shall require to be manually adjusted to simulate an agreed operating period.

3.5.4 Ventilation systems shall be assessed at maximum power on maximum pressure drop across the system.

3.5.5 The power feeds serving the agreed area/zone heating, cooling and ventilation systems shall be further separately metered to provide the actual energy consumption for those services within that area.

3.5.6 The actual power consumption of the installations during the testing period will

confirm, or otherwise inform, Project Co's assumed co-efficients of performance, specific fan powers and energy efficiency ratings for the heating, ventilation and cooling systems in the As Built Energy Model; this being based on power inputs, heat/air flow rates//cooling outputs and associated ambient conditions during the testing procedures.

SECTION 8

QUALITY PLANS (DESIGN AND CONSTRUCTION)

SECTION 9

BOARD'S COMMENTS ON PROJECT CO'S PROPOSALS

[Comments/No Comments]

SCHEDULE PART 7

THE PROGRAMME

SCHEDULE PART 8

REVIEW PROCEDURE

1. REVIEW

1.1 The provisions of this Schedule Part 8 (*Review Procedure*) shall apply whenever any item, document or course of action is required to be reviewed, approved or otherwise processed in accordance with Schedule Part 8 (*Review Procedure*).

1.2 Subject to any express provision of this Agreement, the manner, form and timing of any submission to be made by Project Co to the Board's Representative for review under this Schedule Part 8 (*Review Procedure*) shall be a matter for Project Co to determine. Each submission under this Schedule Part 8 (*Review Procedure*) shall be accompanied by a copy of the proposed document to be reviewed (including, where applicable, any Reviewable Design Data) or a statement of the proposed course of action (the entire contents of a submission being referred to in this Schedule Part 8 (*Review Procedure*) as a "**Submitted Item**"). In relation to each Submitted Item, the following procedure shall apply:

1.2.1 as soon as possible and, if the Submitted Item comprises:

(a) an item of Reviewable Design Data;

(b) a revised Programme submitted pursuant to Clause 14 (*Programme and Dates for Completion*); or

(c) a document or proposed course of action submitted in the case of (an emergency),

within fifteen (15) Business Days of the date of receipt of a submission (or re-submission, as the case may be) of the Submitted Item to the Board's Representative (or such other period as the parties may agree), the Board's Representative shall return one copy of the relevant Submitted Item to Project Co endorsed "no comment" or (subject to and in accordance with paragraph 3 (*Grounds for Objection*)) "comments" as appropriate; and

1.2.2 subject to paragraph 1.4, if the Board's Representative fails to return a copy of any Submitted Item (including any re-submitted Submitted Item) duly endorsed in accordance with paragraph1.2.1, within fifteen (15) Business Days (or within such other period as the parties may agree in writing) of the date of its submission to the Board's Representative, then the Board's Representative shall be deemed to have returned the Submitted Item to Project Co endorsed "no comment" (and, in the case of Reviewable Design Data, endorsed "Level A - no comment"); and

1.2.3 in relation to the aspects of each Finish identified in the table below:

(a) Project Co shall submit to the Board a range or selection of finishes ("**Range of Finishes**") no later than the relevant Finishes Proposal Date;

(b) the Board's Representative shall by the relevant Finishes Selection Date notify Project Co of its selection for the relevant Finish; and

(c) if no selection of a Finish has been made by the Board's Representative and notified to Project Co in accordance with paragraph 1.2.3(b) by the relevant Finish Selection Date, Project Co shall be entitled to make a selection from the Range of Finishes

submitted in accordance with paragraph 1.2.3(b). After the relevant Finish Selection Date, should the Board wish to vary any selection previously made by Project Co or by the Board, such variation shall be effected as a Change in accordance with Schedule Part 16 (*Change Protocol*).

Table of Finishes[45]

Finishes	Aspects	Finishes Proposal Date	Finishes Selection Date
External envelope and finishes including roof, windows, horizontal glazing or equivalent, cladding screens, ventilation outlets and grilles comprising the external elevations and roofing all incorporated in minimum of full size three mock-ups	colour and materials and detailing		
internal wall finishes	colour and specification		
ceiling finishes	colour and specification		
floor finishes	colour and specification		
doors and screens	colour and specification		
ironmongery (windows and doors)	style, colour and specification		
sanitary fittings	style and content		
reception counters and desks	colour, content, style and material		
nurses station	colour, content, style and material		
main public light fittings	specification and style		
lifts – walls, ceilings and floors, external finishes and trims.	colour, content, style and material		
external signage	size, style, colour and location		
internal signage	size, style, colour and location		
light switches and sockets	style and colour		
light fittings	style and colour		
hard landscaping	colour and material		
soft landscaping	specification, material and colour		
boundary fencing and	size, style, colour and		

[45] Additional further detail may require to be added but this is directly related to what level of detail is captured in the Preferred Bidder's Project Co's Proposals.

enclosures	location		
Cancer Trust room decoration	colour and material		
stairs, treads, balustrades and handrails	style and colour		

1.3 If the Board's Representative raises comments on any Submitted Item in accordance with paragraph 3 (*Grounds for Objection*) he shall state the ground upon which such comments are based and the evidence or other information necessary to substantiate that ground. To the extent that the Board's Representative comments on a Submitted Item other than on the basis set out in this Schedule Part 8 (*Review Procedure*), or fails to comply with the provisions of this paragraph, Project Co may, in its discretion, either:

1.3.1 request written clarification of the basis for such comments and, if clarification is not received within ten (10) Business Days of such request by Project Co, refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*); or

1.3.2 in the case of a Submitted Item comprising Reviewable Design Data only, at its own risk, and without prejudice to Clause 12 (The Design, Construction and Commissioning Process), proceed with further design or construction disregarding such comments pending the outcome of any reference to the Dispute Resolution Procedure that may be made by either party.

1.4 In the case of any Submitted Item of the type referred to in paragraph3.10, a failure by the Board's Representative to endorse and return such Submitted Item within the period specified in paragraph 1.2.2 shall be deemed to constitute an objection by the Board's Representative to such Submitted Item. If the parties fail to agree the form and content of such Submitted Item, within ten (10) Business Days following the expiry of the period specified in paragraph1.2.2, the matter shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

2. FURTHER INFORMATION

Project Co shall submit any further or other information, data and documents that the Board's Representative reasonably requires in order to determine whether he has a basis for raising comments or making objections to any Submitted Item in accordance with this Schedule Part 8 (*Review Procedure*). If Project Co does not submit any such information, data and documents, the Board's Representative shall be entitled to:

2.1 comment on the Submitted Item on the basis of the information, data and documents which have been provided; or

2.2 object to the Submitted Item on the grounds that insufficient information, data and documents have been provided to enable the Board's Representative to determine whether he has a legitimate basis for commenting or objecting in accordance with this Schedule Part 8 (*Review Procedure*).

3. GROUNDS OF OBJECTION

The expression "raise comments" in this paragraph shall be construed to mean "raise comments or make objections" unless the contrary appears from the context. The Board's Representative may raise comments in relation to any Submitted Item on the grounds set out in paragraph 2 (*Further Information*) above or on the ground that the Submitted Item would (on the balance of probabilities) breach any Law but otherwise may raise comments

in relation to a Submitted Item only as follows:

3.1 in relation to any Submitted Item if:

3.1.1 Project Co's ability to perform its obligations under this Agreement would (on the balance of probabilities) be adversely affected by the implementation of the Submitted Item; or

3.1.2 the implementation of the Submitted Item would (on the balance of probabilities) adversely affect any right of the Board under this Agreement or its ability to enforce any such right;

3.1.3 any aspect of a Submitted Item does not comply with or is not in accordance with Appendix A of the Board's Construction Requirements and/or the Interface Proposals;

3.2 in relation to any Submitted Item submitted pursuant to Clause 4.1 (*Ancillary Documents*) if:

3.2.1 the Board's ability to perform its obligations under this Agreement would be adversely affected by the proposed course of action;

3.2.2 the Board's ability to provide the relevant Board Services or to carry out any of its statutory functions would (on the balance of probabilities) be adversely affected by the proposed course of action;

3.2.3 the proposed course of action would be likely to result in an increase to the Board's liabilities or potential or contingent liabilities under this Agreement;

3.2.4 the proposed course of action would adversely affect any right of the Board under this Agreement or its ability to enforce any such right; or

3.2.5 Project Co's ability to perform its obligations under this Agreement would be materially adversely affected by the proposed course of action;

3.3 in relation to Reviewable Design Data submitted pursuant to Clause 12.6:

3.3.1 which does not comprise 1:50 scale Room Layout Drawings the Board's Representative may raise comments, subject to and in accordance with paragraph 4 (*Effect of Review*) on the ground that the Submitted Item is not in accordance with:

(a) the Board's Construction Requirements; and/or

(b) Project Co's Proposals;

3.3.2 which comprises a 1:50 scale Room Layout Drawing in respect of which there is a corresponding generic 1:50 scale Room Layout Drawing for the relevant room type (which has previously been reviewed and commented upon by the Board's Representative in accordance with this Schedule Part 8 (Review Procedure)), the Board's Representative may raise comments, subject to and in accordance with paragraph 4 *(Effect of Review),* on the ground that the Submitted Item

3.3.3 which comprises a 1:50 scale Room Layout Drawing in respect of which there is no corresponding generic 1:50 scale Room Layout Drawing for the relevant room type (which has previously been reviewed and commented upon by the Board's Representative in accordance with this Schedule Part 8 *(Review Procedure)*), the Board's Representative may raise comments, subject to and in accordance with paragraph 4 *(Effect of Review),* on the

grounds that the Submitted Item:

(a) is not in accordance with the Board's Construction Requirements and/or Project Co's Proposals; or

(b) is inconsistent with the guidance contained in any current NHS Requirement which is applicable to a room of that function provided that such guidance has not been superseded by and is not inconsistent with any other provisions of the Board's Construction Requirements (including any existing Approved RDD Item);

3.3.4 on the grounds that the Submitted Item is not in accordance with Appendix A of the Board's Construction Requirements and/or the relevant Interface Proposals;

3.4 in relation to a proposal to amend Project Co's Proposals and rectify (part of) the Works submitted pursuant to Clause 12.8, on the grounds that, following the amendment and rectification proposed:

3.4.1 Project Co's Proposals would not satisfy the Board's Construction Requirements; and/or

3.4.2 the structural, mechanical and/or electrical performance of the Facilities and/or the Retained Estate Handback Infrastructure would not be of an equivalent standard of performance to that set out in Project Co's Proposals prior to their amendment or rectification (for the purpose of this comparison disregarding the fault which required the amendment or rectification to be made);

3.5 in relation to Finishes:

3.5.1 which have the effect of making a selection from the Range of Finishes (or any alternative range or selection of Finishes submitted by Project Co to the Board's Representative) pursuant to Clause 12.6.1; or

3.5.2 where the Submitted Item does not comply with the relevant provisions of the Board's Construction Requirements and/or Project Co's Proposals;

3.6 in relation to the submission of any revised Programme pursuant to Clause 14 (*Programme and Dates for Completion*) on the ground that the revised Programme would not (on the balance of probabilities) enable the Works to be completed by the Completion Date and/or reflect any timescales set out in the Appendix A of the Board Construction Requirements and/or the Interface Proposals;

3.7 in relation to the submission of any Quality Plan or part of a Quality Plan or any changes to any Quality Plan pursuant to Clause 20.4 or Clause 20.7 or any quality manual or procedure in accordance with Clause 20.9 (*Quality Manuals and Procedures*), on the grounds that such Quality Plans, or parts of or changes to such Quality Plans, quality manuals or procedures, or the quality management systems which they reflect, would not comply with:

3.7.1 in the case of the Design Quality Plan and the Construction Quality Plan referred to in Clause 20.8, the requirements referred to in Section 8 (Quality *Plans (Design and Construction*)) of Schedule Part 6 (*Construction Matters*); and

3.7.2 in the case of the Services Quality Plan referred to in Clause 20 (*Quality* Assurance), the requirements referred to in Section 3 (*Services Quality Plan*) of Schedule Part 12 (*Service Requirements*);

3.8 in relation to the submission of any proposed revision or substitution for the Method Statements or any part of any Method Statement (as the case may be) pursuant to Clause 22.4, on the grounds that:

3.8.1 the proposed revision or substitution is not in accordance with Good Industry Practice;

3.8.2 the performance of the Services in accordance with the proposed revision or substitution would (on the balance of probabilities):

(a) be materially different from the performance of the Services in accordance with the Method Statement prior to such proposed revision or substitution; or

(b) be less likely to achieve compliance with the Service Level Specification and/or the relevant Interface Proposals; or

(c) have an adverse effect on the provision by the Board of the relevant Board Services at, or on the safety of any users of, the Facilities; or

3.8.3 the proposed revision or substitution would (on the balance of probabilities) result in an inferior standard of performance of the Services to the standard of performance in accordance with the Method Statement prior to such proposed revision or substitution; and

3.9 in relation to the submission of any Schedule of Programmed Maintenance pursuant to Clause 23.1, the submission of any Schedule of Lifecycle Replacement pursuant to Clause 23A, any revision to any Schedule of Programmed Maintenance pursuant to Clause 23.4 or any submission of Unprogrammed Maintenance Works pursuant to Clause 23.8, on the grounds that:

3.9.1 carrying out the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works in the period or at the times suggested would (on the balance of probabilities) interfere with the operations of the Board and such interference could be avoided or mitigated by Project Co rescheduling the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works; or

3.9.2 in relation to the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement, the proposed hours for carrying out the Programmed Maintenance or Schedule of Lifecycle Replacement are not consistent with the principles set out in Appendix 2, Table B to this Schedule Part 8 (*Review Procedure*); or

3.9.3 the proposed method of performance of the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works would not be in accordance with the Service Level Specification and/or the relevant Interface Proposals and/or Appendix A of the Board's Construction Requirements and/or the restrictions and/or requirements of Clause 9 *(Nature of Land Interests)* including without limitation Schedule Part 5 *(Land Matters)*; or

3.9.4 the safety of users of the Facilities would (on the balance of probabilities) be adversely affected; or

3.9.5 the period for carrying out the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works would (on the balance of probabilities) exceed the period reasonably required for the relevant works.

3.10 In relation to the submission of Project Co's proposals for the Handback Works, the Handback Programme and the Handback Amount pursuant to Schedule Part 18 (*Handback Procedure*), on the grounds that:

3.10.1 in the case of the Handback Works, Project Co's proposals will not (on the balance of probabilities) ensure that the Handback Requirements are achieved by the Expiry Date;

3.10.2 in the case of the Handback Programme, performance of the Handback Works in accordance with the programme is not (on the balance of probabilities) capable of achieving satisfaction of the Handback Requirements by the Expiry Date; and

3.10.3 in the case of the Handback Amount, it does not represent the cost of carrying out the Handback Works according to the Handback Programme and the provisions of Schedule Part 18 (*Handback Procedure*).

3.11 In relation to the submission of any Schedule of Lifecycle Replacement on the grounds that, Project Co's Proposals do not address the issues set out in Clause 23A.3 and/or Clause 23A.4 or the Board's Representative wishes to make additional comments on the issues set out in Clauses 23A.3, 23A.4 and/or Clause 23A.5.

4. EFFECT OF REVIEW

4.1 Any Submitted Item which is returned or deemed to have been returned by the Board's Representative endorsed "no comment" (and in the case of Reviewable Design Data, endorsed "Level A - no comment") shall be complied with or implemented (as the case may be) by Project Co.

4.2 In the case of any Submitted Item other than Reviewable Design Data, if the Board's Representative returns the Submitted Item to Project Co endorsed "comments", Project Co shall comply with such Submitted Item after amendment in accordance with the comments unless Project Co disputes that any such comment is on grounds permitted by this Agreement, in which case Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (Dispute Resolution Procedure) and Project Co shall not act on the Submitted Item until such matter is so determined or otherwise agreed.

4.3 In the case of a Submitted Item comprising Reviewable Design Data, if the Board's Representative returns the Submitted Item endorsed other than "Level A - no comment", Project Co shall:

4.3.1 where the Board's Representative has endorsed the Submitted Item "Level B - proceed subject to amendment as noted", either proceed to construct or proceed to the next level of design of the part of the Works to which the Submitted Item relates but take into account any amendments required by the Board's Representative in his comments;

4.3.2 where the Board's Representative has endorsed the Submitted Item "Level C - subject to amendment as noted" not act upon the Submitted Item, amend the Submitted Item in accordance with the Board's Representative's comments and re-submit the same to the Board's Representative in accordance with paragraph4.4; and

4.3.3 where the Board's Representative has endorsed the Submitted Item "Level D - rejected" not act upon the Submitted Item, amend the Submitted Item and re-submit the Submitted Item to the Board's Representative in accordance with paragraph4.4,

unless Project Co disputes that any such comment or proposed amendment is on

grounds permitted by this Agreement, in which case Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) and Project Co shall not act on the Submitted Item until such matter is so determined or otherwise agreed except at its own risk in accordance with paragraph 1.3.2.

4.4 Within ten (10) Business Days of receiving the comments of the Board's Representative on any Submitted Item comprising Reviewable Design Data, Project Co shall (except in the case contemplated in paragraph4.3.1) send a copy of the Submitted Item as amended to the Board's Representative pursuant to paragraph 4.3 and the provisions of paragraphs 1.2.1, 4.1 and 4.3 shall apply (changed according to context) to such re-submission.

4.5 The return or deemed return of any Submitted Item endorsed "no comment" (or in the case of Reviewable Design Data endorsed "Level A - no comment" or otherwise endorsed in accordance with paragraph 4.3.1 or4.3.2) shall mean that the relevant Submitted Item may be used or implemented for the purposes for which it is intended but, save to the extent expressly stated in this Agreement including, without limitation, as specified in Appendix 1 Table A to this Schedule Part 8 (*Review Procedure*), such return or deemed return of any Submitted Item shall not otherwise relieve Project Co of its obligations under this Agreement nor is it an acknowledgement by the Board that Project Co has complied with such obligations.

4.6 Clause 23A.6 shall apply in respect of any comments made by the Board's Representative on the grounds set out in paragraphs 3.9 to 3.11 which Project Co shall not be bound to implement, notwithstanding any other provision in this Schedule Part 8 *(Review Procedure).*

5. DOCUMENTATION MANAGEMENT

5.1 Project Co shall issue two (2) copies of all Submitted Items to the Board and compile and maintain a register of the date and contents of the submission of all Submitted Items.

5.2 Project Co shall compile and maintain a register of the date of receipt and content of all Submitted Items that are returned or deemed to be returned by the Board's Representative.

5.3 Save to the extent set out in Appendix 1, Table A to this Schedule Part 8 (*Review Procedure*) or elsewhere in this Schedule Part 8 (*Review Procedure*), no review, comment or approval by the Board shall operate to exclude or limit Project Co's obligations or liabilities under this Agreement (or the Board's rights under this Agreement).

6. CHANGES

6.1 No approval or comment or any failure to give or make an approval or comment under this Schedule Part 8 shall constitute a Change save to the extent provided in this Schedule Part 8 (*Review Procedure*).

6.2 If, having received comments from the Board's Representative, Project Co considers that compliance with those comments would amount to a Change, Project Co shall, before complying with the comments, notify the Board of the same and, if it is agreed by the parties or determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) that a Change would arise if the comments were complied with, the Board may, if it wishes, implement the Change and it shall be dealt with in accordance with Schedule Part 16 (*Change Protocol*). Any failure by Project Co to notify the Board that it considers compliance with any comments of the Board's Representative would amount to a Change shall constitute an irrevocable acceptance by Project Co that any compliance with the Board's comments shall be without cost to the Board and without

any extension of time.

6.3 No alteration or modification to the design, quality and quantity of the Works arising from the development of detailed design or from the co-ordination of the design shall be construed or regarded as a Change.

APPENDIX 1

TABLE A

Approved RDD Item (by category)	**Scale**	**Meaning of "Level A - no comment" and "Level B – proceed subject to amendment as noted" endorsement of Reviewable Design Data under Schedule Part** 8 **(*Review Procedure*) (including both the actual and deemed endorsement).**
Room Data Sheets	n/a	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any room data sheet means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information in the relevant room data sheet satisfies Operational Functionality.
Drawings – Development Control Plan	1:1250	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:1250 scale development control plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies Operational Functionality.
Drawings – Site Plan	1:500	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:500 scale site plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies Operational Functionality.
Drawings – Floor Plans	1:200	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:200 scale floor plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies the Operational Functionality.
Drawings – Room Layouts (including room elevations) &	1:50	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:50 scale room layout and/or reflected ceiling drawing means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied (to the extent of the design and other information contained in the relevant drawing) that the design and other information in the relevant drawing

Reflected ceiling plans		satisfies Operational Functionality.
Drawings – Departmental plans	1:50	A "Level A - no comment" endorsement or a "Level B – proceed subject to amendment as noted" endorsement of any 1:50 scale departmental plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied (to the extent of the design and other information contained in the relevant drawing) that the design and other information in the relevant drawing satisfies Operational Functionality.

APPENDIX 2

HOURS FOR PROGRAMMED MAINTENANCE

1 Subject to paragraphs 3 to 5 below, Project Co shall carry out Programmed Maintenance and Lifecycle Replacement at the Facilities during the hours of 0800 to 1700 from Monday to Friday ("**Hours for Programmed Maintenance**").

2 Project Co may, with the consent of the Board (which consent shall not be unreasonably withheld) carry out Maintenance Works outside the Hours for Programmed Maintenance and Lifecycle Replacement provided always that it shall take into account:

2.1 the likely disturbance to the Board and/or its staff and users within the immediate area where the Maintenance Works and Lifecycle Replacement are to be undertaken;

2.2 the likely disturbance to adjacent areas, the Board and/or its staff and users in those adjacent areas that may be affected by the Maintenance Works to be undertaken in the area(s) identified in (i) above; and

2.3 compliance with the Law.

3 Subject to paragraph4, Project Co shall have access to the Facilities during the hours of operation to the areas set out in and in accordance with Table B below (**"Hours of Operation"**) to carry out Programmed Maintenance and Lifecycle Replacement.

TABLE B

Wards	0800 - 1800
Day Case Areas	1000 – 2000
Emergency Department	0800 - 1600
Theatres	1800 - 0700
Laboratories	0800 - 1600
ITU/High Dependency	0800 - 1800
Toilets	0000 - 0000
Corridors	0000 - 0000
VIP Rooms and Meeting Rooms	0000 - 0000
Family Hotel	0900 - 1700
Outpatient Departments	0000 - 0000
Office Accommodation	0000 - 0000
Reception/Entrances	0000 - 0000
Storage Areas	0000 – 0000
Classrooms	Outwith term time

4 Where Project Co requires access to an area of the Facilities during the Hours of Operation, Project Co will consult with and obtain the consent of [the member of personnel in charge of a department ("**Head of Department**")] concerning dates, times and periods during which Programmed Maintenance or Lifecycle Replacement is to be undertaken in those departments so as to minimise disruption to those departments.

5 The Board may request Project Co to carry out Programmed Maintenance or Lifecycle Replacement outside the Hours for Programmed Maintenance in the event that the carrying out of such Programmed Maintenance or Lifecycle Replacement during the Hours for Programmed Maintenance would adversely affect the use of the department or area.

SCHEDULE PART 9

COLLATERAL AGREEMENTS

SECTION 1

CONTRACTOR'S COLLATERAL AGREEMENT

COLLATERAL WARRANTY

AMONG:

(1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the **"Board"**);

(2) [CONTRACTOR] (the "**Contractor**");

(3) [PROJECT CO] ("**Project Co**"); and

(4) [FUNDER] ("**Funder**" being one of the Funders).

WHEREAS:

(A) The Board and Project Co have agreed the terms on which Project Co will design, develop and construct and provide certain services in connection with the reprovision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "Development") at the Site and Off-Site (as such expressions are defined in the Design Build Finance and Maintain Agreement) and, accordingly, have entered into the Design Build Finance and Maintain Agreement and the Project Documents.

(B) Project Co has entered into the Funding Agreements, (as defined in the Design Building Finance and Maintenance Agreement) with the Funders.

(C) The Contractor and Project Co have entered into an agreement (the "Construction Contract") of even date herewith relating to the provision of the Works (as defined in the Design Build Finance and Maintain Agreement) by the Contractor to enable Project Co to discharge its obligations to the Board regarding such Works under the Design Build Finance and Maintain Agreement and the Project Documents.

(D) This Contractor's Collateral Agreement (the "Agreement") is the Contractor's Collateral Agreement contemplated by the Design Build Finance and Maintain Agreement.

NOW IT IS HEREBY AGREED as follows:

1 DEFINITIONS AND INTERPRETATION

1.1 **Definitions**

In this Agreement, the following terms shall, unless the context otherwise requires, have the following meanings:

"Ancillary Documents"	has the meaning given in the Design Build Finance and Maintain Agreement;
"Business Day"	means a day other than a Saturday, Sunday or a bank holiday in Scotland;

"Construction Contract"	has the meaning given in the Design Build Finance and Maintain Agreement;
"Design Build Finance and Maintain Agreement"	means the Design Build Finance and Maintain Agreement of even date herewith between (1) the Board and (2) Project Co;
"Event of Project Co Default"	has the meaning given in the Construction Contract;
"Funders"	means [ ];
"Funders' Contractor Direct Agreement"	means the agreement of even date herewith between, amongst others, Project Co, the Contractor and the Funder;
"Funders' Direct Agreement"	is the agreement of even date herewith between, amongst others, the Board, Project Co, and the Funder;
"Funding Agreements"	has the meaning given in the Design Build Finance and Maintain Agreement;
"Novation Agreement"	has the meaning given in Clause 4.5.3(b);
"Novation Effective Date"	means the date of performance of the obligations set out in Clause 4 (*Novation*);
"Parent Company Guarantee"	has the meaning given in the Construction Contract;
"Proposed Novation Date"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Proposed Novation Notice"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Proposed Step-in Date"	has the meaning given in Clause 3.1 (*Step-in Notice*);
"Proposed Substitute"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Security Documents"	has the meaning given in the Funders' Direct Agreement;
"Step-in Date"	means the date of issue of the Step-in Undertaking;
"Step-in Notice"	has the meaning given in Clause 3.1 (*Step-in Notice*);
"Step-in Period"	means the period commencing on the Step-in Date and ending on the earliest of: the date of the first anniversary of the Step-in Date (but subject always to Clause 4.7 (*Extension of Step-in Period*));

	the Step-out Date; the Novation Effective Date; and termination of the Construction Contract under Clause 3.3 (*Restriction of Right of Termination*);
"Step-in Undertaking"	has the meaning given in Clause 3.2.4;
"Step-out Date"	has the meaning given in Clause 3.4.1;
"Termination Notice"	has the meaning given in Clause 2.3 (*Termination Notice*).

1.2 Interpretation

Save to the extent that the context or the express provisions of this Agreement otherwise require:

1.2.1 headings and sub-headings are for ease of reference only and shall not be taken into consideration in the interpretation or construction of this Agreement;

1.2.2 all references to Clauses are references to Clauses of this Agreement;

1.2.3 all references to agreements, documents or other instruments include (subject to all relevant approvals) a reference to that agreement, document or instrument as amended, supplemented, substituted, novated or assigned from time to time;

1.2.4 all references to any statute or statutory provision shall include references to any statute or statutory provision which amends, extends, consolidates or replaces the same or which has been amended, extended, consolidated or replaced by the same and shall include any orders, regulations, codes of practice, instruments or other subordinate legislation made under the relevant statute or statutory provision;

1.2.5 any reference to time of day shall be a reference to Edinburgh time;

1.2.6 the words "herein", "hereto" and "hereunder" refer to this Agreement as a whole and not to the particular Clause in which such word may be used;

1.2.7 words importing the singular include the plural and vice versa;

1.2.8 words importing a particular gender include all genders;

1.2.9 "person" includes any individual, partnership, firm, trust, body corporate, government, governmental body, authority, agency, unincorporated body of persons or association;

1.2.10 any reference to a public organisation shall be deemed to include a reference to any successor to such public organisation or any organisation or entity which has taken over the functions or responsibilities of such public organisation;

1.2.11 references to "Party" means a party to this Agreement and references to "Parties" shall be construed accordingly;

1.2.12 all monetary amounts are expressed in pounds sterling;

1.2.13 references to the word "includes" or "including" are to be construed without limitation;

2.1.14 the obligations of any Party under this Agreement are to be performed at that Party's own cost and expense;

2.1.15 terms used in this Agreement that are defined in the Design Build Finance and Maintain Agreement or the Ancillary Documents shall have the meanings given to them in the Design Build Finance and Maintain Agreement or the Ancillary Documents, as appropriate.

2 TERMINATION NOTICE AND BOARD TERMINATION

2.1 Contractor's Warranties and Undertakings

The Contractor warrants and undertakes to the Board that it has complied with and fulfilled and shall continue to comply with and fulfil its duties and obligations arising under or by virtue of the Construction Contract, provided that the Board shall only be entitled to make a claim against the Contractor under this Clause 2.1 (Contractor's Warranties and Undertakings) if the Design Build Finance and Maintain Agreement has terminated and shall not be entitled to do so during the Step-in Period or after the Construction Contract has been novated under Clause 4 (Novation).

2.2 Liability of Contractor

Any liability arising from any claim for breach of the warranty under or pursuant to Clause 2.1 (*Contractor's Warranties and Undertakings*) shall be in addition to and without prejudice to any other present or future liability of the Contractor to the Board (including, without prejudice to the generality of the foregoing, any liability in negligence) and shall not be released, diminished or in any other way be affected by any independent enquiry into any relevant matter which may be made or carried out by or on behalf of the Board by any person nor by any action or omission of any person whether or not such action or omission might give rise to an independent liability of such person to the Board provided always that the Contractor shall owe no greater duties or obligations to the Board under this Agreement than it owes or would have owed to Project Co under the Construction Contract. Without prejudice to Clause 12 (*Aggregate Liability*), the Contractor shall be entitled in any action or proceedings brought by the Board under this Agreement to rely on any limitation or

exclusion of liability in the Construction Contract and to raise equivalent rights in defence of liability (but excluding retention, set-offs and counterclaims) as it would have against Project Co under the Construction Contract.

2.3 **Termination Notice**

2.3.1 The Contractor undertakes not to terminate the Construction Contract on account of an Event of Project Co Default without first giving the Board not less than twenty (20) Business Days' prior written notice specifying the grounds for that termination. Subject to Clause 2.3.2 below any such notice shall be a "**Termination Notice**".

2.3.2 Where the Contractor's right to terminate is subject to the terms of the Funders' Direct Agreement then the Contractor shall notify the Board of the same as soon as reasonably practicable upon becoming aware of the provisions of the Funders' Contractor Direct Agreement applying. Thereafter as soon as the Contractor becomes entitled to terminate the Construction Contract free from the constraints contained in the Funders' Contractor Direct Agreement, whether upon the expiry of the Step-in Period (as such term is defined in the Funders' Direct Agreement) or otherwise, then the Contractor undertakes to the Board not to terminate the Construction Contract on account of an Event of Project Co Default (whether occurring before or after the Contractor's right to terminate the Construction Contract was free from the constraints of the Funders' Contractor Direct Agreement) without first giving the Board not less than twenty (20) Business Days' prior notice specifying the grounds for that termination and noting that the Contractor's right of termination is not subject to the Funders' Contractor Direct Agreement. Any such notice, other than one given in circumstances where there is no default under the Construction Contract by Project Co or the Contractor, shall for the purposes of this Agreement also be a Termination Notice and the provisions of this Agreement shall apply accordingly.

2.3.3 Notwithstanding any provision of the Construction Contract to the contrary, on termination of the Design Build Finance and Maintain Agreement by the Board, the Parties agree that the Construction Contract shall not come to an end except in accordance with the terms of this Agreement.

2.3.4 The Board acknowledges that it shall not be entitled to exercise its rights under Clauses 3 (*Step-in and Step-out*) and 4 (*Novation*):

(a) where the event giving rise to termination of the Design Build Finance and Maintain Agreement is a Contractor Event of Default (as that term is defined in the Construction Contract) whether or not at the relevant time there has been notice to terminate the Construction Contract for such Contractor Event of Default;

(b) until the Funder has released its security over the Construction Contract; or

(c) until the Funder has confirmed to the Board in writing that it has no further claims or interest in the claims of Project Co or any Suitable Substitute Contractor (as such term is defined in the Funders' Contractor Direct Agreement) against the Contractor whether pursuant to the Security Documents, the Construction Contract or the

enforcement of any rights under the Security Documents or the Funders' Contractor Direct Agreement.

3. STEP-IN AND STEP-OUT

3.1 Step-in Notice

3.1.1 If the Board has terminated the Design Build Finance and Maintain Agreement in accordance with the terms of the Design Build Finance and Maintain Agreement or if the Board has received a Termination Notice, then subject to the provisions of this Agreement, the Board may give written notice to the Contractor (copied to the Funder) (a "**Step-in Notice**") of the intention of the Board to issue a Step-in Undertaking on a specified date (the "**Proposed Step-in Date**") provided that such Proposed Step-in Date shall be:

(a) no later than five (5) Business Days after termination of the Design Build Finance and Maintain Agreement where this has been terminated by the Board; and

(b) no earlier than the date falling five (5) Business Days prior to the date of expiry of the Termination Notice and no later than the date of expiry of the Termination Notice where a Termination Notice has been given by the Contractor.

3.1.2 Unless the Contractor otherwise consents, only one Step-in Notice may be given during the period of this Agreement. Subject to Clause 5.1 (*Rights of Termination*) below, the Contractor shall not be entitled to terminate the Construction Contract until after the Proposed Step-in Date.

3.2 Notice of Obligations and Step-in Undertaking

3.2.1 Within three (3) Business Days of receipt of any Step-in Notice, the Contractor shall give written notice to the Board of any sums of which the Contractor has actual knowledge which are due and payable but unpaid by Project Co and of any other material obligations or liabilities, of which the Contractor has actual knowledge, which should have been performed or discharged by Project Co under the Construction Contract, in each case, as at the date of the Step-in Notice.

3.2.2 The Contractor shall inform the Board in writing as soon as reasonably practicable of:

(a) any change in such sums, obligations or liabilities referred to in Clause 3.2.1; and

(b) any further sums, obligations or liabilities thereafter falling due and payable but unpaid or falling due for performance or discharge and

unperformed or undischarged (as the case may be);

in each case of which the Contractor has actual knowledge, before the Step-in Date.

3.2.3 The Contractor shall give the Board the information referred to in Clauses 3.2.1 and 3.2.2 in good faith and may not give any further notifications pursuant to Clause 3.2.2 less than two (2) Business Days prior to the Proposed Step-in Date. The Board shall not be required to assume any liability under a Step-in Undertaking for any outstanding obligations or liabilities of Project Co to the Contractor which are not notified to the Board pursuant to Clauses 3.2.1 or3.2.2.

3.2.4 Not later than the Proposed Step-in Date the Board shall decide if it is prepared to issue a Step-in Undertaking. If it does so decide, the Board shall promptly give the Contractor written notification of such decision and, at the same time, provide a copy of such notification to the Funder. The Board shall deliver to the Contractor on the Proposed Step-in Date, a written undertaking in form and substance agreed with the Contractor (both the Board and the Contractor acting reasonably) (the "**Step in Undertaking**"), incorporating a clause in terms similar to Clause 11 (but only to the extent that there will not be double counting of default interest accruing under the Construction Contract and this Agreement), and undertaking to the Contractor:

(a) to pay or procure the payment to the Contractor, within twenty (20) Business Days of demand by the Contractor, of any sum due and payable but unpaid by Project Co to the Contractor under the Construction Contract before the Step-in Date and which has been notified by the Contractor to the Board in accordance with Clause 3.2.1 or3.2.2;

(b) to perform or discharge or procure the performance or discharge of any unperformed or undischarged obligations of Project Co under the Construction Contract which shall have fallen due for performance or discharge before the Step-in Date and which have been notified by the Contractor to the Board in accordance with Clause 3.2.1 or 3.2.2 within such period as the Contractor may reasonably require;

(c) to pay or procure the payment of any sum due and payable by Project Co under the Construction Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 and 4.5.3(b)) but not, to avoid doubt, any sum due in respect of any Works carried out before the Step-in Date; and

(d) to perform or discharge or procure the performance or discharge of any obligations of Project Co under the Construction Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4(*Step-Out*) and4.5.3(b)) but not, to avoid doubt, to perform or discharge or to procure the performance or discharge of any obligations in respect of any Works carried before

the Step-in Date.

3.2.5 Following notification of the Board's decision pursuant to Clause 3.2.4, the Funder shall, on or before the Proposed Step-in Date, take any action which is necessary unconditionally and irrevocably to release the Construction Contract and the Parent Company Guarantee from the security constituted by the Security Documents.

3.2.6 Upon release by the Funder of its security over the Parent Company Guarantee in accordance with Clause 3.2.5, Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause [insert reference] of the same.

3.2.7 If the Board shall not have issued the Step-in Undertaking on or before the Proposed Step-in Date the Step-in Notice shall be deemed to have been withdrawn and the rights and obligations of the Parties shall be construed as if the Step-in Notice had not been given.

3.3 **Restriction of Right of Termination**

During or in respect of the Step-in Period, the Contractor confirms to the Board that it shall continue to observe and perform its duties and obligations under the Construction Contract and shall, without prejudice to Clause 5.1 (*Rights of Termination*), only be entitled to exercise its rights of termination under the Construction Contract:

3.3.1 by reference to an Event of Project Co Default arising during the Step-in Period provided that no event of default by Project Co under the Design Build Finance and Maintain Agreement (whether resulting in termination of the Design Build Finance and Maintain Agreement or otherwise, and notwithstanding that it has occurred during the Step-in Period) shall entitle the Contractor to exercise such rights of termination during the Step-in Period; or

3.3.2 if the Board, in breach of the terms of the Construction Contract, fails to pay when due any amount owed to the Contractor or fails to perform or discharge when falling due for performance or discharge any obligation under the Step-in Undertaking or fails to procure such payment or performance or discharge; or

3.3.3 if such rights of termination arise in circumstances where there is no default under the Construction Contract by the Board or the Contractor.

3.4 **Step-Out**

3.4.1 the Board may, at any time, give the Contractor at least twenty (20) days' prior written notice to terminate the Step-in Period on a date specified in the notice (the "**Step-out Date**");

3.4.2 the Board shall give the Contractor at least twenty (20) days' prior written notice that (subject to Clause 4.4.2) the Step-in Period will end due to the occurrence (subject to Clause 4.7 (*Extension of Step-in Period*) of the first anniversary of the Step-in Date;

provided that:

(a) the Board has performed and discharged in full or procured the performance and discharge in full of any obligations of Project Co under the Construction Contract in relation to the maintenance of records and the provision of reports during the Step-in Period so as to permit the Contractor to monitor the performance of Project Co's other obligations under the Construction Contract; and

(b) all liability under the Step-in Undertaking pursuant to any claims made up to the date specified in either Clause 3.4.1 or Clause 3.4.2 (as the case may be) shall have been fully and unconditionally discharged,

the Board shall be released from the Step-in Undertaking on the expiry of the Step-in Period in accordance with Clauses 3.4.1 and3.4.2. Such release shall not affect the continuation of Project Co's obligations towards the Contractor under the Construction Contract.

4 NOVATION

4.1 Proposed Substitute

At any time that the Board is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*) or at any time during the Step-in Period the Board may give notice (copied to the Funder) (a "**Proposed Novation Notice**") to the Contractor that it wishes itself or another person (a "**Proposed Substitute**") to assume, by way of sale, transfer or other disposal, the rights and obligations of Project Co under the Construction Contract and specifying a date (the "**Proposed Novation Date**"):

4.1.1 falling not later than fifteen (15) Business Days after termination of the Design Build Finance and Maintain Agreement where this has been terminated by the Board;

4.1.2 falling not later than the expiry of the Termination Notice where a Proposed Novation Notice is given by the Board at a time when it is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*); and

4.1.3 falling not later than twenty-eight (28) Business Days after the date of the Proposed Novation Notice, where a Proposed Novation Notice is given during a Step-in Period.

Save as provided in Clause 4.4 (*Consent Withheld*), only one Proposed Novation

Notice may be given during the period of this Agreement. Without prejudice to Clauses 3.3 (*Restriction of Right of Termination*) and 5.1 (*Rights of Termination*), the Contractor shall not be entitled to terminate the Construction Contract during the notice period specified in a Proposed Novation Notice.

4.2 **Information for Consent to Novation**

If the Proposed Novation Notice specifies the Board as the Proposed Substitute, the Contractor's consent to the novation shall be deemed to have been given automatically. Where the Proposed Substitute is not the Board, a novation in accordance with a Proposed Novation Notice shall only be effective if the Contractor consents to that novation in writing in accordance with Clause 4.3 *(Grant of Consent*) and the Board shall (as soon as practicable) supply the Contractor with the following information (copied to the Funder):

4.2.1 the name and registered address of the Proposed Substitute;

4.2.2 the names of the shareholders in the Proposed Substitute and the share capital owned by each of them;

4.2.3 the names of the directors and the secretary of the Proposed Substitute;

4.2.4 details of the means by which it is proposed to finance the Proposed Substitute (including the extent to which such finance is committed and any conditions precedent as to its availability for drawing); and

4.2.5 the resources (including contractual arrangements) which are to be available to the Proposed Substitute to enable it to perform its obligations under the Construction Contract.

4.3 **Grant of Consent**

The Contractor may withhold or delay consent to a novation only where the Proposed Substitute is not the Board and the Board has failed to show to the Contractor's satisfaction (acting reasonably) that:

4.3.1 the Proposed Substitute has the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co under the Construction Contract; and

4.3.2 the technical competence and financial standing of and the technical and financial resources available to the Proposed Substitute are sufficient to perform the obligations of Project Co under the Construction Contract.

The Contractor shall notify the Board in writing, within five (5) Business Days of the later of receipt of a Proposed Novation Notice and all information required under Clause 4.2 (*Information for Consent to Novation*), as to whether or not it has decided

to grant such consent (together with an explanation of its reasons if it has decided to withhold its consent).

4.4 **Consent withheld**

If, in accordance with Clause 4.3 (*Grant of Consent*), the Contractor withholds its consent to a Proposed Novation Notice, the Board shall be entitled to give one or more subsequent Proposed Novation Notices, pursuant to the provisions of Clause 4.1 (*Proposed Substitute*), containing changed particulars relating to the same Proposed Substitute or particulars relating to another Proposed Substitute which (where the replacement Proposed Substitute is not the Board) the Board has good cause to believe would fulfil the requirements of Clauses 4.3.1 and4.3.2, provided that only one Proposed Novation Notice may be outstanding at any one time, and provided further that:

4.4.1 where a Step-in-Notice has not been issued, any revised Proposed Novation Date shall be a date falling no later than the date specified in Clause 4.1.1 or 4.1.2 as appropriate; and

4.4.2 if the Proposed Novation Notice was served during the Step-in Period, any revised Proposed Novation Date shall be a date falling not later than twenty-eight (28) Business Days after the date of the revised Proposed Novation Notice.

4.5 **Implementation of Novation**

4.5.1 If the Contractor consents to a novation pursuant to a Proposed Novation Notice (whether automatically or otherwise), then on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*),

(a) following notification pursuant to Clause 4.1 (*Proposed Substitute*) and in the absence of any prior release in accordance with Clause 3.2.5, the Funder shall, on or before the Proposed Novation Date, take any action which is necessary unconditionally and irrevocably to release the Construction Contract and the Parent Company Guarantee from the security constituted by the Security Documents; and

(b) Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with clause [insert reference] of the same and on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*).

4.5.2 Subject to the prior performance by the Funder and Project Co of their respective obligations under Clause 4.5.1(a) and Clause 4.5.1(b) the Proposed Substitute shall become a party to the Construction Contract in place of Project Co and, thereafter, shall be treated as if it was and had always been named as a party to the Construction Contract in place of Project Co; and

(a) the Contractor, Project Co and the Proposed Substitute shall enter into a novation agreement (the "**Novation Agreement**") and any other requisite agreements, in form and substance satisfactory to the Contractor (acting reasonably), pursuant to which:

(i) the Proposed Substitute shall be granted all of the rights of Project Co under the Construction Contract (including those arising prior to the end of the Step-in Period);

(ii) subject to the Contractor giving to the Proposed Substitute within three (3) Business Days of receipt of the Proposed Novation Notice such notice as is referred to in Clause 3.2.1 and to the provisions of Clauses 3.2.2 and3.2.3, mutatis mutandis, the Proposed Substitute shall assume all of the obligations and liabilities of Project Co under the Construction Contract (including those arising prior to the end of any Step-in Period and those arising during the period of the Proposed Novation Notice);

provided that the Contractor will not be in breach of any of its obligations under this Agreement if the Proposed Substitute does not enter into one or other of such agreements.

4.5.3 On and after the Novation Effective Date:

(a) the Contractor shall owe its obligations under the Construction Contract (whether arising before, on or after such date) to the Proposed Substitute and the receipt, acknowledgement or acquiescence of the Proposed Substitute shall be a good discharge; and

(b) if the Board shall have entered into a Step-in Undertaking, the Board will be released from the Step-in Undertaking, provided that:

(i) all obligations of the Board under the Step-in Undertaking which have accrued up to the Novation Effective Date and are identifiable as at that date shall have been fully and unconditionally discharged; and

(ii) the Board has performed and discharged in full or procured the performance and discharge in full of the obligations of Project Co under the Construction Contract in relation to the maintenance of records and the provision of reports during the Step-in Period up to the Novation Effective Date so as to permit the Contractor to monitor the performance of Project Co's other obligations under the Construction Contract.

4.5.4 the Board and the Contractor shall use all reasonable endeavours to agree and the Board shall use reasonable endeavours to procure that the Proposed Substitute agrees any amendments to the Construction Contract

necessary to reflect Clause 3.2.2 and the fact that the Design Build Finance and Maintain Agreement may have terminated at the time of the Novation Effective Date.

4.6 **Termination After Novation**

After the Novation Effective Date the Contractor shall only be entitled to exercise its rights of termination under the Construction Contract:

4.6.1 in respect of any Event of Project Co Default arising after that date in accordance with the Construction Contract; or

4.6.2 if the Proposed Substitute does not discharge the obligations and liabilities assumed by it under Clause 4.5.2(a) which relate to matters arising prior to the end of the Step-in Period within fifteen (15) Business Days following the Novation Effective Date.

4.7 **Extension of Step-In Period**

As at the date of the first anniversary of the Step-in Date, if the Step-in Period has not previously ended, and:

4.7.1 the Board is in the course of conducting discussions in good faith with a Proposed Substitute (the novation to whom has been approved by the Contractor whether automatically or otherwise in accordance with Clause 4.3 (*Grant of Consent*)), the Step-in Period shall be extended and shall continue until such date as is proposed by the Board and agreed by the Contractor; or

4.7.2 a contract has been entered into between the Board and a Proposed Substitute (which has been approved by the Contractor in accordance with Clause 4.3 (*Grant of Consent*)) as at such date,

the Step-in Period shall be extended and shall continue until the date such contract comes into force, provided that such date shall not be later than thirty (30) Business Days after the last date of execution of such contract.

5 RIGHTS AND OBLIGATIONS UNDER THE CONSTRUCTION CONTRACT

5.1 **Rights of Termination**

If:

5.1.1 no Step-in Notice or Proposed Novation Notice is given before a Termination Notice expires or within twenty (20) Business Days after termination of the Design Build Finance and Maintain Agreement by the

Board; or

5.1.2 a Step-in Undertaking is not issued on the Proposed Step-in Date; or

5.1.3 the Step-in Notice is withdrawn or, pursuant to Clause 3.2.7, deemed to have been withdrawn; or

5.1.4 the Step-in Period ends before the occurrence of the Novation Effective Date; or

5.1.5 in the absence of a Step-in Undertaking, the Contractor withholds its consent to a novation pursuant to a Proposed Novation Notice, in accordance with Clause 4.3 (*Grant of Consent*), and does not subsequently grant consent to a novation in accordance with Clause 4.4 (*Consent Withheld*) on or before the Proposed Novation Date; or

5.1.6 in the absence of a Step-in Undertaking, the obligations of the Proposed Substitute set out in Clause 4.5 (*Implementation of Novation*) are not performed on the Proposed Novation Date; or

5.1.7 the Contractor is entitled to terminate the Construction Contract under Clause 3.3 (*Restriction of Right of Termination*) or 4.6 (*Termination after Novation*); or

5.1.8 the Board exercises its right to Step-out under Clause 3.4.1,

the Contractor shall, on and from the Step-out Date, be entitled to:

5.1.9 exercise all of its rights under the Construction Contract and act upon any and all grounds for termination available to it in relation to the Construction Contract whenever occurring; and/or

5.1.10 pursue any and all claims and exercise any and all rights and remedies against Project Co.

5.2 **Project Co's Obligations to Continue**

Until completion of a novation pursuant to Clause 4.5 (*Implementation of Novation*) (unless the terms of such novation expressly preserve an obligation or liability of Project Co), Project Co shall continue to be liable for all its obligations and liabilities, whenever occurring, under or arising from the Construction Contract notwithstanding:

5.2.1 the service of a Step-in Notice or the issue of a Step-in Undertaking or the expiry of the Step-in Period or the release of a Step-in Undertaking; or

5.2.2 the service of a Proposed Novation Notice; or

5.2.3 any other provision of this Agreement.

6 REVOCATION OF NOTICES

A Termination Notice and a Step-in Notice may each be revoked (in writing to the recipient) by the Party giving them before the expiry of their respective notice periods. Upon any such revocation, the rights and obligations of the Parties shall be construed as if the relevant notice had not been given.

7 ASSIGNATION

7.1 Binding on Successors and Assignees

This Agreement shall be binding on and shall enure to the benefit of the Parties and their respective successors and permitted assignees. In the case of the Board, its successors shall include any person to which the [Scottish Ministers], in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the Board ceasing to exist, transfers the rights and obligations of the Board under this Agreement.

7.2 Restriction on Assignation

No Party shall assign or transfer any part of its respective rights or obligations under this Agreement without the prior consent of the others (such consent not to be unreasonably withheld or delayed), provided that:

7.2.1 Project Co shall not assign this Agreement to any party other than a party to whom Project Co's interests in the Design Build Finance and Maintain Agreement and Construction Contract are assigned in accordance with the terms of the Design Build Finance and Maintain Agreement and Construction Contract respectively;

7.2.2 the Board shall be entitled, without the consent of any other Party, to transfer all its rights and obligations hereunder, to any person to whom it assigns or otherwise disposes of the benefit of the Design Build Finance and Maintain Agreement in accordance with Clause 57 (*Assignation and Sub-Contracting*) of the Design Build Finance and Maintain Agreement and, otherwise, with Project Co's and the Contractor's consent (not to be unreasonably withheld or delayed);

7.2.3 nothing in this sub-clause shall restrict the rights of the [Scottish Ministers] to effect a statutory transfer;

7.2.4 the Contractor shall assign this Agreement to any party to whom it assigns the Construction Contract (in accordance with the terms of that agreement).

7.2.5 the Funder may assign or transfer its rights and obligations to a successor trustee of the Funders under the Funding Agreement without the consent of any other Party and this Clause 7.2 shall not prevent any Funder assigning or transferring its rights under the Funding Agreements and the Security Documents in accordance with the terms of the Funding Agreements.

7.3 **No Loss**

The Contractor agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no loss or a different loss has been suffered by such assignee.

8 CONFIDENTIALITY

8.1 The parties shall be bound to observe, mutatis mutandis, the terms of Clause [insert reference] of the Construction Contract with respect to any information or document referred to in Clause [insert reference] of the Construction Contract which shall come into its possession pursuant to this Agreement.

8.2 The Contractor agrees that the Board shall be entitled to disclose the terms of this Agreement in accordance with Clause 61 (*Confidentiality*) of the Design Build Finance and Maintain Agreement.

9 NOTICES

Any notice given under this Agreement shall be deemed to be duly given if it is delivered by hand or sent by recorded delivery to the party named therein at the address of such party shown in this Agreement or such other address as such party may by notice in writing nominate for the purpose of service and if sent by recorded delivery shall be deemed (subject to proof to the contrary) to have been received forty eight (48) hours after being posted.

10 PAYMENTS AND TAXES

10.1 **Payments**

All payments under this Agreement to any Party shall be made in pounds sterling by electronic transfer of funds for value on the day in question to the bank account of the recipient (located in the United Kingdom) specified to the other Parties from time to time.

10.2 **VAT**

10.2.1 All amounts stated to be payable by any Party under this Agreement shall be exclusive of any VAT properly payable in respect of the supplies to which

they relate.

10.2.2 Each Party shall pay any VAT properly payable hereunder in respect of any supply made to it under this Agreement, provided that it shall first have received a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.

10.3 **Deductions from payments**

All sums payable by a Party to any other Party under this Agreement shall be paid free and clear of all deductions or withholdings whatsoever in respect of taxation, save as may be required by Law.

11 DEFAULT INTEREST

Each Party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not made on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate from the day after the date on which payment was due up to and including the date of payment.

12 AGGREGATE LIABILITY

Notwithstanding any other provision of this Agreement, the Contractor's liability from time to time under this Agreement shall not at any time exceed its maximum liability as stated in the Construction Contract.

13 PROFESSIONAL INDEMNITY INSURANCE

13.1 The Contractor by this Agreement covenants with the Board that it has at its own cost taken out, or procured the taking out of, professional indemnity insurance with reputable insurers carrying on business in the European Union with a limit of indemnity of not less than £[10,000,000] ([ten] million pounds) in the annual aggregate with at least one annual reinstatement, in relation to the Works, provided always that:

13.2 such insurance shall be in place from the commencement of the Works until no less than 12 years after the Actual Completion Date or, if earlier, after the date of termination of the Construction Contract;

13.3 the insurance premiums in respect of the insurance shall at all times be the responsibility of the Contractor;

13.4 if such insurance is not available to the Contractor (and/or design and build contractors engaged in projects of a similar scope, size, nature and complexity as the Contractor) at commercially reasonable rates and terms (excluding any increase in premiums attributable to the actions, omissions, errors or defaults of the Contractor), the Contractor and the Board will meet and the Contractor will outline the steps it

intends to take to manage such risks. If the steps proposed by the Contractor are not acceptable to the Board (acting reasonably), the Contractor and the Board shall agree an alternative method of managing such risk.

13.5 The Contractor will, upon request, provide the Board with reasonable evidence that the policy referred to in this Clause 13 (*Professional Indemnity Insurance*) is in full force and effect in accordance with the requirements of this Clause 13 (P*rofessional Indemnity Insurance*).

14 THIRD PARTY RIGHTS

It is agreed that this Agreement is not intended to, and does not, give to any person who is not a party to this Agreement any rights to enforce any provisions contained herein except for any person to whom the benefit of this Agreement is assigned or transferred in accordance with Clause 7 (*Assignation*).

15 AGENCY

15.1 No Delegation

No provision of this Agreement shall be construed as a delegation by the Board of any of its statutory Board to any other Party.

15.2 No Agency

Save as otherwise provided in this Agreement, no other Party shall be or be deemed to be an agent of the other Parties nor shall any party hold itself out as having Board or power to bind the other parties in any way.

15.3 Independent Contractor

The Parties shall, at all times, be independent contractors and nothing in this Agreement shall be construed as creating any partnership between the Parties or any relationship of employer and employee between the Parties.

16 WHOLE AGREEMENT

16.1 This Agreement (when read together with the Design Build Finance and Maintain Agreement, the Construction Contract and the Parent Company Guarantee)supersedes all previous agreements and understandings between the Parties with respect thereto and each of the Parties acknowledges and confirms that it does not enter into this Agreement in reliance on any representation, warranty or other undertaking not fully reflected in the terms of this Agreement.

16.2 Nothing in this Agreement is intended to or shall operate so as to exclude or limit any liability for fraud or fraudulent misrepresentation.

17 **WAIVER**

Failure by any Party at any time to enforce any provision of this Agreement or to require performance by the other Parties of any provision of this Agreement shall not be construed as a waiver of such provision and shall not affect the validity of this Agreement or any part of it or the right of the relevant Party to enforce any provision in accordance with its terms.

18 **SEVERABILITY**

If any condition, Clause or provision of this Agreement not being of a fundamental nature, is held to be illegal or unenforceable, the validity or enforceability of the remainder of this Agreement shall not be affected thereby.

19 **COSTS AND EXPENSES**

Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement.

20 **AMENDMENTS**

No amendment to this Agreement shall be binding unless in writing and signed by the duly authorised representatives of the Parties.

21 **GOVERNING LAW AND JURISDICTION**

21.1 **Law**

This Agreement shall be governed by and construed in all respects in accordance with Scottish law.

21.2 **Jurisdiction**

The Parties each submit to the jurisdiction of the Scottish Courts as regards any claim or matter arising in relation to this Agreement.

IN WITNESS WHEREOF these presents consisting of this and the [ ] preceding pages are executed as follows:-

SECTION 2

SERVICE PROVIDER COLLATERAL AGREEMENT

COLLATERAL WARRANTY

AMONG:

(1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the **"Board"**);

(2) [SERVICE PROVIDER] (the "**Service Provider**");

(3) [PROJECT CO] ("**Project Co**"); and

(4) [FUNDER] ("**Funder**") being one of the Funders.

WHEREAS:

(A) The Board and Project Co have agreed the terms on which Project Co will design, develop and construct and provide certain services in connection with the reprovision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Development**") at the Site and Off-Site (as such expressions are defined in the Design Build Finance and Maintain Agreement) and, accordingly, have entered into the Design Build Finance and Maintain Agreement and the Project Documents.

(B) Project Co has entered into the Funding Agreement (as defined in the Design Build Finance and Maintain Agreement with the Funder.

(C) The Service Provider and Project Co have entered into an agreement of even date herewith relating to the provision of certain of the Services (as defined in the Design Build Finance and Maintain Agreement) by the Service Provider to enable Project Co to discharge its obligations to the Board regarding such Services under the Design Build Finance and Maintain Agreement and the Project Documents (the "**Service Contract**").

(D) This Service Provider's Collateral Agreement (the "**Agreement**") is one of the Service Providers' Collateral Agreements contemplated by the Design Build Finance and Maintain Agreement.

NOW IT IS HEREBY AGREED as follows:

1 DEFINITIONS AND INTERPRETATION

1.1 Definitions

In this Agreement, the following terms shall, unless the context otherwise requires, have the following meanings:

"Ancillary Documents"	has the meaning given in the Design Build Finance and Maintain Agreement;

"Business Day"	means a day other than a Saturday, Sunday or a bank holiday in Scotland;
"Design Build Finance and Maintain Agreement"	means the Design Build Finance and Maintain Agreement of even date herewith between (1) the Board and (2) Project Co;
"Event of Project Co Default"	has the meaning given in the Service Contract;
"Funders"	means [ ];
"Funders' Direct Agreement"	is the agreement of even date herewith between, amongst others, the Board,. Project Co, and the Funder;
"Funders' Service Provider Direct Agreement"	means the agreement of even date herewith between, amongst others, Project Co, the Service Provider and the Funder;
"Funding Agreements"	has the meaning given in the Design Build Finance and Maintain Agreement;
"Novation Agreement"	has the meaning given in Clause 4.5.3(b);
"Novation Effective Date"	means the date of performance of the obligations set out in Clause 4 (*Novation*);
"Parent Company Guarantee"	has the meaning given in the Service Contract;
"Proposed Novation Date"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Proposed Novation Notice"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Proposed Step-in Date"	has the meaning given in Clause 3.1 (*Step-in Notice*);
"Proposed Substitute"	has the meaning given in Clause 4.1 (*Proposed Substitute*);
"Security Documents"	has the meaning given in the Funders' Direct Agreement;
"Service Contract"	has the meaning given in the Design Build Finance and Maintain Agreement;
"Step-in Date"	means the date of issue of the Step-in Undertaking;
"Step-in Notice"	has the meaning given in Clause 3.1 (*Step-in Notice*);
"Step-in Period"	means the period commencing on the Step-in Date and ending on the earliest of: (a) the date of the first anniversary of the Step-in Date (but subject always to

Clause 4.7 (*Extension of Step-in Period*));

(b) the Step-out Date;

(c) the Novation Effective Date; and

(d) termination of the Service Contract under Clause 3.3 (*Restriction of Right of Termination*);

"Step-in Undertaking" has the meaning given in Clause 3.2.4;

"Step-out Date" has the meaning given in Clause 3.4.1;

"Termination Notice" has the meaning given in Clause 2.4 (*Termination Notice*).

1.2 **Interpretation**

Save to the extent that the context or the express provisions of this Agreement otherwise require:

1.2.1 headings and sub-headings are for ease of reference only and shall not be taken into consideration in the interpretation or construction of this Agreement;

1.2.2 all references to Clauses are references to Clauses of this Agreement;

1.2.3 all references to agreements, documents or other instruments include (subject to all relevant approvals) a reference to that agreement, document or instrument as amended, supplemented, substituted, novated or assigned from time to time;

1.2.4 all references to any statute or statutory provision shall include references to any statute or statutory provision which amends, extends, consolidates or replaces the same or which has been amended, extended, consolidated or replaced by the same and shall include any orders, regulations, codes of practice, instruments or other subordinate legislation made under the relevant statute or statutory provision;

1.2.5 any reference to time of day shall be a reference to Edinburgh time;

1.2.6 the words "herein", "hereto" and "hereunder" refer to this Agreement as a whole and not to the particular Clause in which such word may be used;

1.2.7 words importing the singular include the plural and vice versa;

1.2.8 words importing a particular gender include all genders;

1.2.9 "person" includes any individual, partnership, firm, trust, body corporate, government, governmental body, authority, agency, unincorporated body of persons or association;

1.2.10 any reference to a public organisation shall be deemed to include a reference to any successor to such public organisation or any organisation or entity which has taken over the functions or responsibilities of such public organisation;

1.2.11 references to "Party" means a party to this Agreement and references to "Parties" shall be construed accordingly;

1.2.12 all monetary amounts are expressed in pounds sterling;

1.2.13 references to the word "includes" or "including" are to be construed without limitation;

1.2.14 the obligations of any Party under this Agreement are to be performed at that Party's own cost and expense;

1.2.15 terms used in this Agreement that are defined in the Design Build Finance and Maintain Agreement or the Ancillary Documents shall have the meanings given to them in the Design Build Finance and Maintain Agreement or the Ancillary Documents, as appropriate.

2 TERMINATION NOTICE AND BOARD TERMINATION

2.1 Service Provider's Warranties and Undertakings

The Service Provider warrants and undertakes to the Board that it has complied with and fulfilled and shall continue to comply with and fulfil its duties and obligations arising under or by virtue of the Service Contract, provided that the Board shall only be entitled to make a claim against the Service Provider under this Clause 2.1 (*Service Provider's Warranties and Undertakings*) if the Design Build Finance and Maintain Agreement has terminated and shall not be entitled to do so during the Step-in Period or after the Service Contract has been novated under Clause 4 (*Novation*).

2.2 Liability of Service Provider

Any liability arising from any claim for breach of the warranty under or pursuant to Clause 2.1 (*Service Provider's warranties and Undertakings*) shall be in addition to and without prejudice to any other present or future liability of the Service Provider to the Board (including, without prejudice to the generality of the foregoing, any liability in negligence) and shall not be released, diminished or in any other way be affected by any independent enquiry into any relevant matter which may be made or carried

out by or on behalf of the Board by any person nor by any action or omission of any person whether or not such action or omission might give rise to an independent liability of such person to the Board provided always that the Service Provider shall owe no greater duties or obligations to the Board under this Agreement than it owes or would have owed to Project Co under the Service Contract. Without prejudice to Clause 12 (*Aggregate Liability*), the Service Provider shall be entitled in any action or proceedings brought by the Board under this Agreement to rely on any limitation or exclusion of liability in the Service Contract and to raise equivalent rights in defence of liability (but excluding retention, set-offs and counterclaims) as it would have against Project Co under the Service Contract.

2.3 **Not Used**

2.4 **Termination Notice**

2.4.1 The Service Provider undertakes not to terminate the Service Contract on account of an Event of Project Co Default without first giving the Board not less than twenty (20) Business Days' prior written notice specifying the grounds for that termination. Subject to Clause 2.4.2 below any such notice shall be a "**Termination Notice**".

2.4.2 Where the Service Provider's right to terminate is subject to the terms of the Funders' Service Provider's Direct Agreement then the Service Provider shall notify the Board of the same as soon as reasonably practicable upon becoming aware of the provisions of the Funders' Service Provider's Direct Agreement applying. Thereafter as soon as the Service Provider becomes entitled to terminate the Service Contract free from the constraints contained in the Funders' Service Provider's Direct Agreement, whether upon the expiry of the Step-in Period (as such term is defined in the Funders' Service Provider's Direct Agreement) or otherwise, then the Service Provider undertakes to the Board not to terminate the Service Contract on account of an Event of Project Co Default (whether occurring before or after the Service Provider's right to terminate the Service Contract was free from the constraints of the Funders' Service Provider's Direct Agreement) without first giving the Board not less than [fifteen (15)] Business Days' prior notice specifying the grounds for that termination and noting that the Service Provider's right of termination is not subject to the Funders' Service Provider's Direct Agreement. Any such notice, other than one given in circumstances where there is no default under the Service Contract by Project Co or the Service Provider, shall for the purposes of this Agreement also be a Termination Notice and the provisions of this Agreement shall apply accordingly.

2.4.3 Notwithstanding any provision of the Service Contract to the contrary, on termination of the Design Build Finance and Maintain Agreement by the Board, the Parties agree that the Service Contract shall not come to an end except in accordance with the terms of this Agreement.

2.4.4 The Board acknowledges that it shall not be entitled to exercise its rights under Clauses 3 (*Step-in and Step-out*) and 4 (*Novation*):

(a) where the event giving rise to termination of the Design Build Finance and Maintain Agreement is a Service Provider Event of Default (as

that term is defined in the Service Contract) whether or not at the relevant time there has been notice to terminate the Service Contract for such Service Provider Event of Default;

(b) until the Funder has released its security over the Service Contract; or

(c) until the Funder has confirmed to the Board in writing that it has no further claims or interest in the claims of Project Co or any Suitable Substitute Contractor (as such term is defined in the Funders' Service Provider Direct Agreement) against the Service Provider whether pursuant to the Security Documents, the Service Contract or the enforcement of any rights under the Security Documents or the Funders' Service Provider Direct Agreement.

3 STEP-IN AND STEP-OUT

3.1 Step-in Notice

3.1.1 If the Board has terminated the Design Build Finance and Maintain Agreement in accordance with the terms of the Design Build Finance and Maintain Agreement or if the Board has received a Termination Notice, then subject to the provisions of this Agreement, the Board may give written notice to the Service Provider (copied to the Funder) (a "**Step-in** Notice") of the intention of the Board to issue a Step-in Undertaking on a specified date (the "**Proposed Step-in Date**") provided that such Proposed Step-in Date shall be:

(a) no later than five (5) Business Days after termination of the Design Build Finance and Maintain Agreement where this has been terminated by the Board; and

(b) no earlier than the date falling five (5) Business Days prior to the date of expiry of the Termination Notice and no later than the date of expiry of the Termination Notice where a Termination Notice has been given by the Service Provider.

3.1.2 Unless the Service Provider otherwise consents, only one Step-in Notice may be given during the period of this Agreement. Subject to Clause 5.1 (*Rights of Termination*) below, the Service Provider shall not be entitled to terminate the Service Contract until after the Proposed Step-in Date.

3.2 Notice of Obligations and Step-in Undertaking

3.2.1 Within three (3) Business Days of receipt of any Step-in Notice, the Service Provider shall give written notice to the Board of any sums of which the Service Provider has actual knowledge which are due and payable but unpaid by Project Co and of any other material obligations or liabilities, of which the Service Provider has actual knowledge, which should have been

performed or discharged by Project Co under the Service Contract, in each case, as at the date of the Step-in Notice.

3.2.2 The Service Provider shall inform the Board in writing as soon as reasonably practicable of:

(a) any change in such sums, obligations or liabilities referred to in Clause 3.2.1; and

(b) any further sums, obligations or liabilities thereafter falling due and payable but unpaid or falling due for performance or discharge and unperformed or undischarged (as the case may be);

in each case of which the Service Provider has actual knowledge, before the Step-in Date.

3.2.3 The Service Provider shall give the Board the information referred to in Clauses 3.2.1 and 3.2.2 in good faith and may not give any further notifications pursuant to Clause 3.2.2 less than [two (2)] Business Days prior to the Proposed Step-in Date. The Board shall not be required to assume any liability under a Step-in Undertaking for any outstanding obligations or liabilities of Project Co to the Service Provider which are not notified to the Board pursuant to Clauses 3.2.1 or3.2.2.

3.2.4 Not later than the Proposed Step-in Date the Board shall decide if it is prepared to issue a Step-in Undertaking. If it does so decide, the Board shall promptly give the Service Provider written notification of such decision and, at the same time, provide a copy of such notification to the Funder. The Board shall deliver to the Service Provider on the Proposed Step-in Date, a written undertaking in form and substance agreed with the Service Provider (both the Board and the Service Provider acting reasonably) (the "**Step in Undertaking**"), incorporating a clause in terms similar to Clause 11 (*Default Interest*) (but only to the extent that there will not be double counting of default interest accruing under the Service Contract and this Agreement), and undertaking to the Service Provider:

(a) to pay or procure the payment to the Service Provider, within twenty (20) Business Days of demand by the Service Provider, of any sum due and payable but unpaid by Project Co to the Service Provider under the Service Contract before the Step-in Date and which has been notified by the Service Provider to the Board in accordance with Clause 3.2.1 or 3.2.2;

(b) to perform or discharge or procure the performance or discharge of any unperformed or undischarged obligations of Project Co under the Service Contract which shall have fallen due for performance or discharge before the Step-in Date and which have been notified by the Service Provider to the Board in accordance with Clause 3.2.1 or 3.2.2 within such period as the Service Provider may reasonably require;

(c) to pay or procure the payment of any sum due and payable by Project Co under the Service Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 (Step-Out) and4.5.3(b)) but not, to avoid doubt, any sum due in respect of any Services provided before the Step-in Date; and

(d) to perform or discharge or procure the performance or discharge of any obligations of Project Co under the Service Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 (Step-Out) and 4.5.3(b)) but not, to avoid doubt, to perform or discharge or to procure the performance or discharge of any obligations in respect of any Services provided before the Step-in Date.

3.2.5 Following notification of the Board's decision pursuant to Clause 3.2.4, the Funder shall, on or before the Proposed Step-in Date, take any action which is necessary unconditionally and irrevocably to release the Service Contract and the Parent Company Guarantee from the security constituted by the Security Documents.

3.2.6 Upon release by the Funder of its security over the Parent Company Guarantee in accordance with Clause 3.2.5 Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with clause [insert reference] of the same.

3.2.7 If the Board shall not have issued the Step-in Undertaking on or before the Proposed Step-in Date the Step-in Notice shall be deemed to have been withdrawn and the rights and obligations of the Parties shall be construed as if the Step-in Notice had not been given.

3.3 **Restriction of Right of Termination**

During or in respect of the Step-in Period, the Service Provider confirms to the Board that it shall continue to observe and perform its duties and obligations under the Service Contract and shall, without prejudice to Clause 5.1 (*Rights of Termination*), only be entitled to exercise its rights of termination under the Service Contract:

3.3.1 by reference to an Event of Project Co Default arising during the Step-in Period provided that no event of default by Project Co under the Design Build Finance and Maintain Agreement (whether resulting in termination of the Design Build Finance and Maintain Agreement or otherwise, and notwithstanding that it has occurred during the Step-in Period) shall entitle the Service Provider to exercise such rights of termination during the Step-in Period; or

3.3.2 if the Board, in breach of the terms of the Service Contract, fails to pay when due any amount owed to the Service Provider or fails to perform or discharge when falling due for performance or discharge any obligation under the Step-in Undertaking or fails to procure such payment or

performance or discharge; or

3.3.3 if such rights of termination arise in circumstances where there is no default under the Service Contract by the Board or the Service Provider.

3.4 **Step-Out**

3.4.1 the Board may, at any time, give the Service Provider at least twenty (20) days' prior written notice to terminate the Step-in Period on a date specified in the notice (the "**Step-out Date**");

3.4.2 the Board shall give the Service Provider at least twenty (20) days' prior written notice that (subject to Clause 4.4.2) the Step-in Period will end due to the occurrence (subject to Clause 4.7 (*Extension of Step-In Period*) of the first anniversary of the Step-in Date;

provided that:

(a) the Board has performed and discharged in full or procured the performance and discharge in full of any obligations of Project Co under the Service Contract in relation to the maintenance of records and the provision of reports during the Step-in Period so as to permit the Service Provider to monitor the performance of Project Co's other obligations under the Service Contract; and

(b) all liability under the Step-in Undertaking pursuant to any claims made up to the date specified in either Clause 3.4.1 or Clause 3.4.2 (as the case may be) shall have been fully and unconditionally discharged,

the Board shall be released from the Step-in Undertaking on the expiry of the Step-in Period in accordance with Clauses 3.4.1 and3.4.2. Such release shall not affect the continuation of Project Co's obligations towards the Service Provider under the Service Contract.

4 NOVATION

4.1 **Proposed Substitute**

At any time that the Board is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*) or at any time during the Step-in Period the Board may give notice (copied to the Funder) (a "**Proposed Novation Notice**") to the Service Provider that it wishes itself or another person (a "**Proposed Substitute**") to assume, by way of sale, transfer or other disposal, the rights and obligations of Project Co under the Service Contract and specifying a date (the "**Proposed Novation Date**"):

4.1.1 falling not later than fifteen (15) Business Days after termination of the

Design Build Finance and Maintain Agreement where this has been terminated by the Board;

4.1.2 falling not later than the expiry of the Termination Notice where a Proposed Novation Notice is given by the Board at a time when it is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*); and

4.1.3 falling not later than twenty-eight (28) Business Days after the date of the Proposed Novation Notice, where a Proposed Novation Notice is given during a Step-in Period.

Save as provided in Clause 4.4 (*Consent withheld*), only one Proposed Novation Notice may be given during the period of this Agreement. Without prejudice to Clauses 3.3 (*Restriction of Right of Termination*) and 5.1 (*Rights of Termination*), the Service Provider shall not be entitled to terminate the Service Contract during the notice period specified in a Proposed Novation Notice.

4.2 **Information for Consent to Novation**

If the Proposed Novation Notice specifies the Board as the Proposed Substitute, the Service Provider's consent to the novation shall be deemed to have been given automatically. Where the Proposed Substitute is not the Board, a novation in accordance with a Proposed Novation Notice shall only be effective if the Service Provider consents to that novation in writing in accordance with Clause 4.3 (*Grant of Consent*) and the Board shall (as soon as practicable) supply the Service Provider with the following information (copied to the Funder):

4.2.1 the name and registered address of the Proposed Substitute;

4.2.2 the names of the shareholders in the Proposed Substitute and the share capital owned by each of them;

4.2.3 the names of the directors and the secretary of the Proposed Substitute;

4.2.4 details of the means by which it is proposed to finance the Proposed Substitute (including the extent to which such finance is committed and any conditions precedent as to its availability for drawing); and

4.2.5 the resources (including contractual arrangements) which are to be available to the Proposed Substitute to enable it to perform its obligations under the Service Contract.

4.3 **Grant of Consent**

The Service Provider may withhold or delay consent to a novation only where the Proposed Substitute is not the Board and the Board has failed to show to the Service Provider's satisfaction (acting reasonably) that:

4.3.1 the Proposed Substitute has the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co under the Service Contract; and

4.3.2 the technical competence and financial standing of and the technical and financial resources available to the Proposed Substitute are sufficient to perform the obligations of Project Co under the Service Contract.

The Service Provider shall notify the Board in writing, within five (5) Business Days of the later of receipt of a Proposed Novation Notice and all information required under Clause 4.2 (*Information for Consent to Novation*), as to whether or not it has decided to grant such consent (together with an explanation of its reasons if it has decided to withhold its consent).

4.4 **Consent withheld**

If, in accordance with Clause 4.3 (*Grant of Consent*), the Service Provider withholds its consent to a Proposed Novation Notice, the Board shall be entitled to give one or more subsequent Proposed Novation Notices, pursuant to the provisions of Clause 4.1 (*Proposed Substitute*), containing changed particulars relating to the same Proposed Substitute or particulars relating to another Proposed Substitute which (where the replacement Proposed Substitute is not the Board) the Board has good cause to believe would fulfil the requirements of Clauses 4.3.1 and4.3.2, provided that only one Proposed Novation Notice may be outstanding at any one time, and provided further that:

4.4.1 where a Step-in-Notice has not been issued, any revised Proposed Novation Date shall be a date falling no later than the date specified in Clause 4.1.1 or 4.1.2 as appropriate; and

4.4.2 if the Proposed Novation Notice was served during the Step-in Period, any revised Proposed Novation Date shall be a date falling not later than twenty-eight (28) Business Days after the date of the revised Proposed Novation Notice.

4.5 **Implementation of Novation**

4.5.1 If the Service Provider consents to a novation pursuant to a Proposed Novation Notice (whether automatically or otherwise), then on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*):

(a) following notification pursuant to Clause 4.1 (Proposed Substitute) and in the absence of any prior release in accordance with Clause 3.2.5, the Funder shall, on or before the Proposed Novation Date, take any action which is necessary unconditionally and irrevocably to release the Construction Contract and the Parent Company Guarantee from the security constituted by the Security Documents; and

(b) Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause [insert reference] of the same, and on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*).

4.5.2 Subject to the prior performance by the Funder and Project Co of their respective obligations under Clause 4.5.1(a) and Clause 4.5.1(b) the Proposed Substitute shall become a party to the Service Contract in place of Project Co and, thereafter, shall be treated as if it was and had always been named as a party to the Service Contract in place of Project Co; and

(a) the Service Provider, Project Co and the Proposed Substitute shall enter into a novation agreement (the "Novation Agreement") and any other requisite agreements, in form and substance satisfactory to the Service Provider (acting reasonably), pursuant to which:

(i) the Proposed Substitute shall be granted all of the rights of Project Co under the Service Contract (including those arising prior to the end of the Step-in Period);

(ii) [subject to the Service Provider giving to the Proposed Substitute within [three (3)] Business Days of receipt of the Proposed Novation Notice such notice as is referred to in Clause 3.2.1 and to the provisions of Clauses 3.2.2 and 3.2.3 mutatis mutandis, the Proposed Substitute shall assume all of the obligations and liabilities of Project Co under the Service Contract (including those arising prior to the end of any Step-in Period and those arising during the period of the Proposed Novation Notice);]

provided that the Service Provider will not be in breach of any of its obligations under this Agreement if the Proposed Substitute does not enter into one or other of such agreements.

4.5.3 On and after the Novation Effective Date:

(a) the Service Provider shall owe its obligations under the Service Contract (whether arising before, on or after such date) to the Proposed Substitute and the receipt, acknowledgement or acquiescence of the Proposed Substitute shall be a good discharge; and

(b) if the Board shall have entered into a Step-in Undertaking, the Board will be released from the Step-in Undertaking, provided that:

(i) all obligations of the Board under the Step-in Undertaking which have accrued up to the Novation Effective Date and are identifiable as at that date shall have been fully and unconditionally discharged; and

(ii) the Board has performed and discharged in full or procured the performance and discharge in full of the obligations of Project Co under the Service Contract in relation to the maintenance of records and the provision of reports during the Step-in Period up to the Novation Effective Date so as to permit the Service Provider to monitor the performance of Project Co's other obligations under the Service Contract.

4.5.4 the Board and the Service Provider shall use all reasonable endeavours to agree and the Board shall use reasonable endeavours to procure that the Proposed Substitute agrees any amendments to the Service Contract necessary to reflect Clause 3.2.2 and the fact that the Design Build Finance and Maintain Agreement may have terminated at the time of the Novation Effective Date.

4.6 **Termination After Novation**

After the Novation Effective Date the Service Provider shall only be entitled to exercise its rights of termination under the Service Contract:

4.6.1 in respect of any Event of Project Co Default arising after that date in accordance with the Service Contract; or

4.6.2 if the Proposed Substitute does not discharge the obligations and liabilities assumed by it under Clause 4.5.2 which relate to matters arising prior to the end of the Step-in Period within[fifteen (15) Business Days following the Novation Effective Date.

4.7 **Extension of Step-In Period**

As at the date of the first anniversary of the Step-in Date, if the Step-in Period has not previously ended, and:

4.7.1 the Board is in the course of conducting discussions in good faith with a Proposed Substitute (the novation to whom has been approved by the Service Provider whether automatically or otherwise in accordance with Clause 4.3 (*Grant of Consent*)), the Step-in Period shall be extended and shall continue until such date as is proposed by the Board and agreed by the Service Provider; or

4.7.2 a contract has been entered into between the Board and a Proposed Substitute (which has been approved by the Service Provider in accordance with Clause 4.3 (*Grant of Consent*)) as at such date,

the Step-in Period shall be extended and shall continue until the date such contract comes into force, provided that such date shall not be later than thirty (30) Business Days after the last date of execution of such contract.

5 RIGHTS AND OBLIGATIONS UNDER THE SERVICE CONTRACT

5.1 Rights of Termination

If:

5.1.1 no Step-in Notice or Proposed Novation Notice is given before a Termination Notice expires or within twenty (20) Business Days after termination of the Design Build Finance and Maintain Agreement by the Board; or

5.1.2 a Step-in Undertaking is not issued on the Proposed Step-in Date; or

5.1.3 the Step-in Notice is withdrawn or, pursuant to Clause 3.2.7, deemed to have been withdrawn; or

5.1.4 the Step-in Period ends before the occurrence of the Novation Effective Date; or

5.1.5 in the absence of a Step-in Undertaking, the Service Provider withholds its consent to a novation pursuant to a Proposed Novation Notice, in accordance with Clause 4.3 (*Grant of Consent*), and does not subsequently grant consent to a novation in accordance with Clause 4.4 (*Consent Withheld*) on or before the Proposed Novation Date; or

5.1.6 in the absence of a Step-in Undertaking, the obligations of the Proposed Substitute set out in Clause 4.5 (*Implementation of Novation*) are not performed on the Proposed Novation Date; or

5.1.7 the Service Provider is entitled to terminate the Service Contract under Clause 3.3 (*Restriction of Right of Termination*) or 4.6 (*Termination after Novation*); or

5.1.8 the Board exercises its right to Step-out under Clause 3.4.1,

the Service Provider shall, on and from the Step-out Date, be entitled to:

5.1.9 exercise all of its rights under the Service Contract and act upon any and all grounds for termination available to it in relation to the Service Contract whenever occurring; and/or

5.1.10 pursue any and all claims and exercise any and all rights and remedies against Project Co.

5.2 Project Co's Obligations to Continue

Until completion of a novation pursuant to Clause 4.5 (*Implementation of Novation*) (unless the terms of such novation expressly preserve an obligation or liability of Project Co), Project Co shall continue to be liable for all its obligations and liabilities, whenever occurring, under or arising from the Service Contract notwithstanding:

5.2.1 the service of a Step-in Notice or the issue of a Step-in Undertaking or the expiry of the Step-in Period or the release of a Step-in Undertaking; or

5.2.2 the service of a Proposed Novation Notice; or

5.2.3 any other provision of this Agreement.

6 REVOCATION OF NOTICES

A Termination Notice and a Step-in Notice may each be revoked (in writing to the recipient) by the Party giving them before the expiry of their respective notice periods. Upon any such revocation, the rights and obligations of the Parties shall be construed as if the relevant notice had not been given.

7 ASSIGNATION

7.1 Binding on Successors and Assignees

This Agreement shall be binding on and shall enure to the benefit of the Parties and their respective successors and permitted assignees. In the case of the Board, its successors shall include any person to which the [Scottish Ministers], in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the Board ceasing to exist, transfers the rights and obligations of the Board under this Agreement.

7.2 Restriction on Assignation

No Party shall assign or transfer any part of its respective rights or obligations under this Agreement without the prior consent of the others (such consent not to be unreasonably withheld or delayed), provided that:

7.2.1 Project Co shall not assign this Agreement to any party other than a party to whom Project Co's interests in the Design Build Finance and Maintain Agreement and Service Contract are assigned in accordance with the terms of the Design Build Finance and Maintain Agreement and Service Contract respectively;

7.2.2 the Board shall be entitled, without the consent of any other Party, to transfer all its rights and obligations hereunder, to any person to whom it assigns or otherwise disposes of the benefit of the Design Build Finance and Maintain Agreement in accordance with Clause 57 (*Assignation and Sub-Contracting*) of the Design Build Finance and Maintain Agreement and,

otherwise, with Project Co's and the Service Provider's consent (not to be unreasonably withheld or delayed);

7.2.3 nothing in this sub-clause shall restrict the rights of the Scottish Ministers to effect a statutory transfer;

7.2.4 the Service Provider shall assign this Agreement to any party to whom it assigns the Service Contract (in accordance with the terms of that agreement).

7.2.5 the Funder may assign or transfer its rights and obligations to a successor trustee of the Funders under the Funding Agreement without the consent of any other Party and this Clause 7.2 (*Restriction on Assignation*) shall not prevent any Funder assigning or transferring its rights under the Funding Agreements and the Security Documents in accordance with the terms of the Funding Agreements.

7.3 **No Loss**

The Services Provider agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no loss or a different loss has been suffered by such assignee.

8 CONFIDENTIALITY

8.1 The parties shall be bound to observe, mutatis mutandis, the terms of Clause [●] of the Service Contract with respect to any information or document referred to in Clause [●] of the Service Contract which shall come into its possession pursuant to this Agreement.

8.2 The Service Provider agrees that the Board shall be entitled to disclose the terms of this Agreement in accordance with Clause 61 (*Confidentiality*) of the Design Build, Finance and Maintain Agreement.

9 NOTICES

Any notice given under this Agreement shall be deemed to be duly given if it is delivered by hand or sent by recorded delivery to the party named therein at the address of such party shown in this Agreement or such other address as such party may by notice in writing nominate for the purpose of service and if sent by recorded delivery shall be deemed (subject to proof to the contrary) to have been received forty eight (48) hours after being posted.

10 PAYMENTS AND TAXES

10.1 **Payments**

All payments under this Agreement to any Party shall be made in pounds sterling by electronic transfer of funds for value on the day in question to the bank account of the recipient (located in the United Kingdom) specified to the other Parties from time to time.

10.2 **VAT**

10.2.1 All amounts stated to be payable by any Party under this Agreement shall be exclusive of any VAT properly payable in respect of the supplies to which they relate.

10.2.2 Each Party shall pay any VAT properly payable hereunder in respect of any supply made to it under this Agreement, provided that it shall first have received a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.

10.3 **Deductions from payments**

All sums payable by a Party to any other Party under this Agreement shall be paid free and clear of all deductions or withholdings whatsoever in respect of taxation, save as may be required by Law.

11 DEFAULT INTEREST

Each Party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not made on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate from the day after the date on which payment was due up to and including the date of payment.

12 AGGREGATE LIABILITY

Notwithstanding any other provision of this Agreement, the Service Provider's liability from time to time under this Agreement shall not at any time exceed its maximum liability as stated in the Service Contract.

13 THIRD PARTY RIGHTS

It is agreed that this Agreement is not intended to, and does not, give to any person who is not a party to this Agreement any rights to enforce any provisions contained herein except for any person to whom the benefit of this Agreement is assigned or transferred in accordance with Clause 7 (*Assignation*).

14 AGENCY

14.1 **No Delegation**

No provision of this Agreement shall be construed as a delegation by the Board of any of its statutory authority to any other Party.

14.2 **No Agency**

Save as otherwise provided in this Agreement, no other Party shall be or be deemed to be an agent of the other Parties nor shall any party hold itself out as having authority or power to bind the other parties in any way.

14.3 **Independent Contractor**

The Parties shall, at all times, be independent contractors and nothing in this Agreement shall be construed as creating any partnership between the Parties or any relationship of employer and employee between the Parties.

15 WHOLE AGREEMENT

15.1 This Agreement (when read together with the Design Build Finance and Maintain Agreement, the Service Contract and the Parent Company Guarantee) contains or supersedes all previous agreements and understandings between the Parties with respect thereto and each of the Parties acknowledges and confirms that it does not enter into this Agreement in reliance on any representation, warranty or other undertaking not fully reflected in the terms of this Agreement.

15.2 Nothing in this Agreement is intended to or shall operate so as to exclude or limit any liability for fraud or fraudulent misrepresentation.

16 WAIVER

Failure by any Party at any time to enforce any provision of this Agreement or to require performance by the other Parties of any provision of this Agreement shall not be construed as a waiver of such provision and shall not affect the validity of this Agreement or any part of it or the right of the relevant Party to enforce any provision in accordance with its terms.

17 SEVERABILITY

If any condition, Clause or provision of this Agreement not being of a fundamental nature, is held to be illegal or unenforceable, the validity or enforceability of the remainder of this Agreement shall not be affected thereby.

18 COSTS AND EXPENSES

Each Party shall be responsible for paying its own costs and expenses incurred in

connection with the negotiation, preparation and execution of this Agreement.

19 **AMENDMENTS**

No amendment to this Agreement shall be binding unless in writing and signed by the duly authorised representatives of the Parties.

20 **GOVERNING LAW AND JURISDICTION**

20.1 **Law**

This Agreement shall be governed by and construed in all respects in accordance with Scottish law.

20.2 **Jurisdiction**

The Parties each submit to the jurisdiction of the Scottish Courts as regards any claim or matter arising in relation to this Agreement.

IN WITNESS WHEREOF these presents consisting of this and the [ ] preceding pages are executed as follows:-

SECTION 3

KEY SUB-CONTRACTOR COLLATERAL AGREEMENT

COLLATERAL WARRANTY

AMONG:

LOTHIAN HEALTH BOARD, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Beneficiary**" which expression shall include its successors in title or permitted assignees under this Agreement and for the Design Build Finance and Maintain Agreement and/or the Beneficiary's appointee);

and

[**Project Co**], a company incorporated in Scotland under the Companies Acts (Registered Number [ ]) and having its Registered Office at [ ] ("**Project Co**" which expression shall include its successors in title or permitted assignees under this Agreement);

and

[ ] LIMITED, a company incorporated in [Scotland/England and Wales/Northern Ireland] under the Companies Acts (Registered Number [ ]) and having its Registered Office at [ ] (the "**Contractor**" which expression shall include its successors in title or permitted assignees under this Agreement).

and

[ ] LIMITED, a company incorporated in [Scotland/England and Wales/Northern Ireland] under the Companies Acts (Registered Number [ ]) and having its Registered Office at [ ] (the "**Consultant**").

WHEREAS:

(A) The Beneficiary and Project Co have entered into an agreement for the design, build, finance and maintenance of a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Project**") on or about the date hereof (the "**DBFM Agreement**").

(B) Project Co and the Contractor have entered into a contract (the "**Construction Contract**") on or about the date hereof for the design and construction of the Project (the "**Contract Works**").

(C) The Contractor has entered or intends to enter into an agreement with the Consultant whereby the Consultant will provide certain design services (the "**Services**") in connection with the Project ("**the Appointment**") as more particularly described in the Appointment.

(D) It is a condition of the Appointment that the Consultant enters this Agreement with the Beneficiary.

(E) The Beneficiary shall be entitled to rely and is deemed to have relied on the Consultant's reasonable skill, care and diligence in respect of all matters covered by this Agreement insofar as they relate to the Services provided by the Consultant under the Appointment.

NOW IT IS AGREED as follows:

1 WARRANTY AND UNDERTAKING

1.1 The Consultant warrants and undertakes to the Beneficiary that it has complied and will continue to comply with all the terms and obligations and duties under or arising out of the Appointment on the Consultant's part to be performed and observed and shall complete the Services in accordance with the Appointment.

1.2 Without prejudice to Clause 1.1 of this Agreement, the Consultant further warrants and undertakes to the Beneficiary that:

1.2.1 it has exercised and will continue to exercise all the due skill, care and diligence of a properly qualified and competent consultant experienced in providing design services on projects similar in nature, size and complexity to the Project in:

(a) the design of the Contract Works;

(b) the materials selected or specified by or on its behalf for use in the Contract Works (or any part or parts thereof) are in accordance with the guidance contained in the Good Practice Guidance and this Clause 1.2.1(b); and

(c) only materials and goods which are new and of sound and satisfactory quality shall be specified for use in connection with the Contract Works; and

(d) there shall not be specified for use in connection with the Contract Works any materials or substances which are expressly prohibited by the Construction Contract or which are generally known not to be in accordance with British or European Standards and Codes of Practice at the time of specification or use (as applicable), or any materials or substances which are deleterious to health and safety or to the curability of buildings and/or other structures and/or finishes and/or plant and machinery in the particular circumstances in which they are used, or any materials or substances identified as deleterious, unsatisfactory or unsuitable in the relevant circumstances in the Good Practice Guidance and, in addition to and separate from the foregoing, any substances or combination of substances publicised prior to the time of construction in any Building Research Establishment Limited ("BRE") publications issued as part of the BRE Professional development service which the BRE recommend are not used for building purposes or for the type of buildings comprised in the Project.

(e) the performance of the Services to the Contractor under the Appointment;

For the purposes of Clause 1.2.1, "**Good Practice Guidance"** means the edition of the publication entitles "Good practice in the selection of construction materials" (British Council for Offices (BCO): 2011) or any amended or updated version as at the Commencement

Date (as such term is defined in the Design Build Finance and Maintain Agreement)

1.2.2 the final design and all materials and goods specified therein will correspond as to description, quality and condition with the requirements of the Construction Contract;

1.2.3 the final design will at practical completion or its equivalent under the Construction Contract, as the case may be, comply with all relevant legislation and Good Industry Practice;

2 INSURANCE

2.1 The Consultant shall maintain throughout the duration of provision of the Services and for a period of 12 years after the date of practical completion or its equivalent under the Construction Contract, professional indemnity insurance in an amount of not less than [five] million pounds (£[5 ,000,000)] sterling on an each and every claim basis and for any one occurrence or series of occurrences arising out of any one event with insurer of good repute carrying on business in the European Union provided always that such insurance is available at rates which are commercially reasonable to consultants.

2.2 In determining whether or not insurance is available as aforesaid, the financial characteristics and claims' record of the Consultant shall be ignored.

2.3 The Consultant shall immediately inform the Beneficiary if such insurance ceases to be available at rates which are commercially reasonable in order that the Consultant and the Beneficiary can consider alternative means of best protecting their respective positions in respect of the Project in the absence of such insurance provided that the Beneficiary shall be entitled to require the Consultant to maintain such lesser amount of Professional Indemnity Insurance as is available to the Consultant at rates which are commercially reasonable.

2.4 As and when it is reasonably requested to do so by the Beneficiary the Consultant shall produce for inspection documentary evidence satisfactory to the Beneficiary (acting reasonably) that its Professional Indemnity Insurance is being maintained.

2.5 The Consultant confirms that this Agreement has been disclosed to and has been approved by the Consultant's Professional Indemnity Insurers or Underwriters.

2.6 Should the Consultant be in breach of any of its obligations under this Clause 2 (Insurance), the Beneficiary may itself insure against any risk with respect to which the breach shall have occurred and may recover such sum or sums from the Consultant as a debt.

3 COPYRIGHT

3.1 The Consultant hereby grants to the Beneficiary or its appointee and all those authorised by the Beneficiary an irrevocable, transferable, non-exclusive and royalty-

free licence (which shall be capable of assignation) to use and reproduce all information (whether or not stored in computer systems), drawings, models, bills of quantities, specifications, schedules, details, plans, programmes, budgets, reports, calculations or other documents, work or things including all applicable passwords or access codes whatsoever provided or to be provided by the Consultant in connection with the Services (the **"Documents"**) for such purposes as the Beneficiary may at its sole discretion require.

3.2 Such licence shall carry the right to grant sub-licences and shall subsist notwithstanding that the Appointment is terminated or the obligations and duties there under have been completed. For the avoidance of doubt, the grant of such licence or sub-licences shall not impose any additional liability on the Consultant.

3.3 The Consultant shall on reasonable demand provide to the Beneficiary or its appointee and those authorised by the Beneficiary additional copies of any documents on receipt of reasonable copying costs. The Consultant will not be liable for any use by the Beneficiary or any appointee or sub-licensee of any of the Documents for any purpose other than that for which the same were prepared and provided by the Consultant or for any improper or negligent use by the Beneficiary or any appointee or sub-licensee.

3.4 The Consultant agrees to indemnify and keep indemnified the Beneficiary from and against all loss, damage, cost, expense, liability or claim in respect of breach of the copyright or other intellectual property rights of any third party caused by or arising out of the carrying out of the Services or the use of the licence.

4 ASSIGNATION

4.1 This Agreement may be assigned or otherwise transferred, novated, in whole or in part by the Beneficiary to any successor to the Beneficiary's interest in the Project or any part thereof without the consent of the Consultant being required and such assignation shall be effective upon written notice thereof being given to the Consultant. No assignation of this Agreement by any other party shall be permitted.

4.2 The Consultant agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no less or a different loss has been suffered by such assignee.

5 NO WAIVER OR VARIATION

5.1 No failure, approval, act or forbearance on the part of the Beneficiary in respect of any right of the Beneficiary pursuant to this Agreement shall constitute any waiver of any right of the Beneficiary under or arising out of this Agreement nor relieve the Consultant of any of its duties or obligations under or arising out of this Agreement.

5.2 The Consultant will not seek to modify or vary any of the obligations for which it is responsible under the Appointment in any respect if that modification or variation will be detrimental to the Beneficiary or affects the Beneficiary's rights or obligations under the DBFM Agreement, the Construction Contract or this Agreement or affects

the Consultant's obligations under this Agreement.

6 EQUIVALENT RIGHTS

The obligations of the Consultant under this Agreement shall be no greater in extent or quantity than if the Beneficiary had been named as joint employer with the Contractor under the Appointment. The Consultant shall be entitled in any action or proceedings by the Beneficiary to rely on any limitation in the Appointment and to raise the equivalent rights in defence of liability as it would have against the Contractor under the Appointment (other than retention, counterclaim, set-off or to state a defence of no loss or a different loss has been suffered by the Contractor).

7 NOTICES

7.1 Any notice, consent or demand to be given or made by any party under this Agreement (hereinafter called a "Notice") shall only be validly served if in writing and delivered personally or sent by pre-paid first class recorded delivery post or sent by fax to the following address and marked for the attention of the following person in the case of each party:

Party	Address	Fax Number	Person
The Beneficiary	[●]	[●]	[●]
Project Co	[●]	[●]	[●]
The Contractor	[●]	[●]	[●]
The Consultant	[●]	[●]	[●]

Any party may by Notice to the other party/parties change its address, fax number or the title of the person for whose attention Notices are to be given or made pursuant to this Clause. Any such Notice shall be deemed to have been received:

7.1.1 if delivered personally, at the time of delivery;

7.1.2 in the case of pre-paid first class recorded delivery post, on the first Business Day after the date of posting; and

7.1.3 in the case of a fax, at the time of transmission.

7.2 If any Notice is delivered or faxed after 5 p.m. on a Business Day, or at any time during a day which is not a Business Day, that Notice shall be deemed to have been received at 9 a.m. on the next Business Day.

7.3 For the purposes of this Clause 7 (*Notices*), "Business Day" means any day which is not a Saturday, a Sunday or a public holiday in Scotland. In proving service it shall be sufficient to prove that the envelope containing such Notice was properly addressed

to the relevant party and either delivered personally to that address or delivered into the custody of the postal authorities as a pre-paid first class recorded delivery letter, or that such Notice was transmitted by fax to the correct fax number of the relevant party (as demonstrated by the transmission slip). For the avoidance of doubt, Notices shall not be validly served if sent by e-mail.

7.4 The definitions of words and phrases used in this Agreement shall be those set out in the Construction Contract and Appointment except where expressly defined in this Agreement.

7.5 This Agreement shall be governed by and construed in accordance with Scots Law and the parties hereto submit to the exclusive jurisdiction of the Scottish Courts.

7.6 Save to the extent expressly provided in this Agreement no provision of this Agreement is intended to or does confer upon any third party any benefit or right enforceable at the option of that third party or any liability whatsoever to any third party, and without prejudice to the generality of the foregoing, there shall not in any circumstances be created by this Agreement a jus quaesitum tertio in favour of any person whatsoever.

IN WITNESS WHEREOF this Agreement consisting of this and the preceding [ ] pages is executed as follows:

SCHEDULE PART 10

OUTLINE COMMISSIONING PROGRAMME

1 PRE-COMPLETION COMMISSIONING

1.1 Project Co's Pre-Completion Commissioning shall comprise the activities described as such in Table A of Appendix A of this Schedule Part 10 *(Outline Commissioning Programme).*

1.2 Project Co shall give written notice to the Independent Tester and the Board's Representative of the commencement of Project Co's Pre-Completion Commissioning not less than five (5) Business Days prior to the date when Project Co (acting reasonably) considers that it shall commence Project Co's Pre-Completion.

1.3 The Board's Pre-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 *(Outline Commissioning Programme).*

1.4 Project Co shall give written notice to the Board's Representative of the date upon which the Board shall be entitled to commence the Board's Pre-Completion Commissioning, such notice to be given at least [one (1) month] prior to the date when Project Co (acting reasonably) considers that the Board should commence the Board's Commissioning in accordance with the Final Commissioning Programme.

2. POST-COMPLETION COMMISSIONING

2.1 Project Co's Post-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 *(Outline Commissioning Programme).*

2.2 The Board's Post-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 *(Outline Commissioning Programme).*

3. EQUIPMENT AND TRAINING

3.1 Project Co shall not clean, or move to enable general cleaning, items of equipment so identified by the Board unless in agreement with the Board's Representative. This shall include but not be limited to:

(a) physiological monitoring equipment;

(b) department based computers, visual display units and radiographic equipment or machine consoles including anything bearing radiation or hazard Warning signs; and

(c) equipment that is plugged in for re-charging.

3.2 The Board shall ensure that any equipment of the Board that is transferred from an existing site is cleaned and disinfected prior to being transferred to the Facilities.

Project Co to carry out clinical clean in accordance with the Final Commissioning Programme.	Board hardware installed, commissioned, tested and asset tagged.

APPENDIX B – COMPLETION CRITERIA

1. GENERAL

1.1 General Requirements

1.1.1 Project Co shall provide such labour, materials, stores, test equipment, tools, instruments, apparatus and assistance as are reasonably required for the purpose of any inspection and where appropriate testing by the Independent Tester and shall be responsible for the provision of such electricity, fuel, water and other consumables and materials as may be reasonably required for the same. Invitations shall be furnished to the Board and its technical advisers to witness such inspections, testing and commissioning activities of the Works as the Board deems necessary. At least fourteen (14) Business Days' notice of any testing shall be given.

1.1.2 Project Co shall ensure that major items of Plant shall be tested during the Works for both performance and safety prior to dispatch and provide documentary evidence that testing has been carried out if requested by the Independent Tester. For the purposes of this paragraph "major items of Plant" shall include, but not be limited to, boilers, air handling units, generators, chillers, hv/mv switchgear and pressure vessels. Project Co shall arrange to witness specific unit factory testing of major items of Plant and shall furnish the Board and its technical advisers with the opportunity to witness all such factory testing. The Board and its technical advisers shall be given at least fourteen (14) Business Days' notice, or such reasonable notice as may be agreed, of such testing of major items of Plant.

2. WORKS INSPECTION, TESTING AND ACCEPTANCE ACTIVITIES

2.1 **Completion Criteria**

Project Co shall demonstrate that the following criteria (the **"Completion Criteria"**) has been achieved:

2.1.1 The building is structurally complete, all external fabric is complete, wind and watertight and air pressure testing complete. Internally all the finishes are complete in accordance with the Room Data Sheets;

2.1.2 The link to the existing RIE Facilities has been constructed in accordance with this Agreement and to the satisfaction of the Board;

2.1.3 All incoming Utilities including but not limited to power, water, gas and all relevant back up systems are tested, commissioned and operational;

2.1.4 All mechanical and electrical Plant and systems shall be tested, commissioned and operate satisfactorily in accordance with the specified design criteria, any manufacturers' operating requirements and the Room Data Sheets;

2.1.5 The building management system is complete, tested, commissioned and operational including the setting up of graphs, logs or equivalent;

2.1.6 All furniture and Equipment shown on the loaded room layout drawings (as supplemented by Schedule Part 11 (Equipment)) as Project Co's responsibility have been installed (and commissioned if appropriate);

2.1.7 All keys, access cards, access codes and other access devices along with any associated suiting, for access to all relevant areas of the Facilities, complete with all relevant schedules, including agreed suiting schedules are ready for handover to the Board;

2.1.8 Safe access and egress to and within the Facilities has been established;

2.1.9 The Works shall be free from all surplus materials, plant and equipment and shall comply with the standards and requirements of paragraph 3 (Handover Clean);

2.1.10 All internal and external drainage systems are installed and are operational including connections to the drainage as operated by Consort;

2.1.11 All external works as appropriate have been completed and are available for use by the Board;

2.1.12 All hard-landscaped external works, including roads, car parks, pavements and boundary walls/fences are complete and available for use by the Board;

2.1.13 All lift systems are complete, commissioned and operational; including connection and monitoring of lift car emergency call device;

2.1.14 All, building, directional, departmental, general information, room numbering and external signage as indicated within Project Co's Proposals and/or Reviewable Design Data and necessary to allow the operational Services to commence has been provided and installed. This includes both internal and external signage for the Facilities and areas outwith the red line boundary to include the access routes and buildings on the wider Retained Site;

2.1.15 Those elements of the fire management strategy and fire safety risk assessment in accordance with the Fire (Scotland) Act 2005, for which Project Co is responsible, have been produced;

2.1.16 All fire detection, alarm and suppression systems including the interconnection with the existing RIE Facilities are complete, tested commissioned and operational;

2.1.17 All external lighting is installed, tested, commissioned and operational;

2.1.18 All IT, communication and security systems to be installed by Project Co including the interconnection with the existing RIE Facilities, are complete, tested and test results submitted to the Board (and if appropriate commissioned);

2.1.19 All security and surveillance systems, access controls and call alarms are complete, tested, commissioned, operational and available for use by the Board;

2.1.20 All acoustic testing has been completed to prove compliance with Section 3 *(Board's Construction Requirements)* of Schedule Part 6 *(Construction Matters)* and Section 4 *(Project Co's Proposals)* of Schedule Part 6 *(Construction Matters);*

2.1.21 All medical gas and vacuum system's are complete, tested, commissioned and witnessed by the Board's chief pharmacist and medical gases approved person;

2.1.22 All pneumatic tube systems including the elements within the RIE Facilities are complete, tested, commissioned, operational and available for use by the Board;

2.1.23 Project Co has provided all documentation to the Independent Tester in accordance with this Agreement and paragraph 4 *(Indicative Testing and Commissioning Documentation)* below;

2.1.24 A final draft Operational Manual for the Facilities, in accordance with Clause 18.5 *(Operational Manuals)* of this Agreement, (containing, as a minimum, all the testing and commissioning information including as-built drawings / test results so far as it is reasonably practicable) have been made available by the Contractor to Project Co to allow the Facilities to be operated safely;

2.1.25 All tests undertaken in accordance with Section 7 *(Thermal & Energy Efficiency Testing Procedures)* of Schedule Part 6 *(Construction Matters);*

2.1.26 All elements of the Handover Clean, set out in paragraph 3 *(Handover Clean)* below are complete;

2.1.27 Testing and commissioning of all access systems;

2.1.28 Project Co shall ensure the following finishing Works are completed;

(a) Removal of Site establishment;

(b) Cap off and completely remove temporary site services and record position;

(c) Removal of temporary materials, including surfacing, complete with full reinstatement; and

2.1.29 Project Co shall reinstate any damage to Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E to the satisfaction of the Board in accordance with paragraph 3 of Part 3 *(General Matters)* and shall comply with the requirements in paragraphs 3 and 4 of Section 3 *(General Matters*) of Appendix A of the Board's Construction Requirements.

3. HANDOVER CLEAN

On completion of the Works, Project Co shall remove builders debris, and clean all areas of the Facilities including plant rooms, to the standard defined below:

3.1 Floors

3.1.1 The floor is cleaned to remove paint, plaster, grit and litter, water and other liquids;

3.1.2 The floor is cleaned to remove stains, spots and scuffs;

3.1.3 Inaccessible areas (edges and corners) cleaned to remove grit and lint;

3.1.4 All carpets, vinyl's and the like floor coverings are clean and vacuumed;

3.1.5 Barrier matting zones are vacuumed and wells free of debris;

3.1.6 Toilets, Sinks, Basins, Baths, Taps and Fixtures free of all labels, tape and sticky marks to be removed;

3.1.7 Porcelain, cubicle rails and plastic surfaces are wiped clean;

3.1.8 Metal surfaces, shower screens and mirrors are wiped clean;

3.1.9 Wall tiles and wall fixtures (including dispensers, toilet holders, paper dispensers, grab rails and the like) wiped clean to remove grit;

3.1.10 Inaccessible areas (edges, corners, folds and crevices) are cleaned to remove grit and lint;

3.1.11 All pieces of fixed furniture, equipment and appliances free of all labels, tape and sticky marks and litter, cleaned inside and out;

3.1.12 All high surfaces are wiped clean;

3.1.13 Blinds, curtains, screens including hanging rails, hooks and fixings cleaned to remove all dust and wiped clean;

3.1.14 Shelves, bench tops, cupboards and wardrobes are wiped clean inside and out and are free of litter;

3.1.15 Protective film is removed from all hard surfaces and equipment unless otherwise requested by the Service Provider.

3.2 Low Level Surfaces

3.2.1 Internal walls cleaned to remove paint splashes, grit, soil and graffiti;

3.2.2 Skirtings, covings and the like are cleaned to remove paint or plaster splashes;

3.2.3 Light switches and electrical sockets are wiped clean; and

3.3.4 All windows (glass internal and external), ironmongery, vents window frames and sills are cleaned.

3.3 High Level Surfaces

3.3.1 Walls and ceilings are cleaned to remove plaster splashes, paint splashes, grit, soil, film and graffiti;

3.3.2 Ceilings and light fittings and are cleaned to remove surface markings, dust and dirt;

3.3.3 Doors and doorframes are cleaned to remove grit, soil, and film;

3.3.4 Air vents, grilles and other ventilation outlets are unblocked and cleaned to remove grit, soil, scuffs and other marks; and

3.3.5 Door tracks and door jambs are cleaned to remove grit and other debris.

4. INDICATIVE TESTING AND COMMISSIONING DOCUMENTATION

4.1 Documentation

The following list is indicative of the test documentation expected to be provided

4.1.1 Building warrant completion certificates;

4.1.2 Evidence that all conditions for which Project Co is responsible attached to the detailed Planning Approval have been discharged to the satisfaction of the relevant local authority;

4.1.3 All road construction consent remedial works identified by the relevant local authority should be undertaken prior to the Actual Completion Date, final road construction consent certificate from the relevant local authority should be issued within one (1) month of the Certificate of Practical Completion;

4.1.4 Flushing cleaning and chlorination test certificates;

4.1.5 Boiler Plant manufacturers factory test and commissioning sheets in accordance with CIBSE Commissioning Code B, including all steam systems;

4.1.6 Ductwork systems pressure test and volume flow rate certificates if appropriate;

4.1.7 Kitchen equipment commissioning certificate if appropriate;

4.1.8 Electrical installation completion and inspection certificates in accordance with (BS 7671 and NICEIC requirements);

4.1.9 Lighting and power certificate of test;

4.1.10 Fire and intruder alarms commissioning certificates, including intruder detection and alarm, access control system(s);

4.1.11 General electrical earth loop and insulation resistance test sheets;

4.1.12 Testing of all hot water service thermostatic mixing valves ("TMV's") in accordance with BS6700 and tests to comply with HSE Document L8 and HGN 'Safe Hot Water and Surface Temperatures;

4.1.13 Emergency lighting completion and test certificates;

3.1.14 Security systems commissioning certificates;

4.1.15 Certificate of soundness testing of gas installation;

4.1.16 Gas pipework pressure test and purge certificates;

4.1.17 Fire suppression system certificates (in accordance with BS6266 and tests to comply with CIBSE Guidance E;

4.1.18 Fire alarm sound record sheets;

4.1.19 Lighting calculation sheets and lux level test results;

4.1.20 Machine (generator/ups etc) specialist commissioning and factory test sheets;

4.1.21 Acoustic test sheets (in accordance with BS EN ISO 717 – 1: 1997);

4.1.22 Lift Commissioning in accordance with BS EN 81;

4.1.23 Lightning protection risk analysis and test/commissioning sheets in accordance with BS EN 62305 (2008);

4.1.24 Works pressure test certificates for all pressure vessels;

4.1.25 Mechanical pipework systems pressure tests;

4.1.26 A/C Equipment performance tests;

4.1.27 Condensate clearance tests for A/C Equipment;

4.1.28 BMS/EMS tests/commissioning records in accordance with CIBSE Commissioning Code C;

4.1.29 Air distribution systems in accordance with CIBSE Commissioning Code A;

4.1.30 Water systems (heating and domestic water) in accordance with CIBSE Commissioning Code W and SHTM 04-01;

4.1.31 Legionella testing (to include an organic check on the incoming mains) within tolerances given in HSE ACOP test sheets;

4.1.32 Domestic water systems bacteriological quality test sheets;

4.1.33 All medical gas and medical and dental vacuum systems test and commissioning certificates as witnessed by the Board's chief pharmacist and medical gases approved person in accordance with SHTM 2022: Medical gas pipeline systems, Vol 1 - Design, installation, validation and verification;

4.1.34 Anaesthetic gas scavenging system test and commissioning certificates in accordance with SHTM 2022: Medical gas pipeline systems, Vol 1 - Design, installation, validation and verification;

4.1.35 Plant (Calorific, Treatment etc.) specialist commissioning and factory test sheets, if applicable;

4.1.36 Nurse call test certificate;

4.1.37 Disabled Toilet Alarm test certificate;

4.1.38 Fire Alarm Test Certificate;

4.1.39 CCTV and access control test certificate;

4.1.40 Telephone and data structured cable scheme test certificate, test results and copy of manufacturers warranty;

4.1.41 Pneumatic tube system test certificate;

4.1.42 Induction loop test certificate;

4.1.43 Pipeline Pressure and flow rate test certificates including drainage and all steam systems;

4.1.44 Steam boiler/generator test factory test and commissioning certificates in accordance with CIBSE Commissioning Code B;

4.1.45 Chiller factory test and commissioning certificates in accordance with CIBSE Commissioning Code R;

4.1.46 Chemical clean and inhibitor dosing certification to heating/chilled water systems;

4.1.47 Ductwork physical cleaning certification in accordance with SHTM 03-01 and the HVCA (2005) 'TR/19 – Guide to good practice;

4.1.48 Proving of isolation rooms differential pressure;

4.1.49 Air tests and test records for the Facilities drains and drainage network;

4.1.50 Test certificates and sufficient written evidence covering the design, construction and repair etc for all protective devices such as pressure relief valves and the like. Specific reference is made to compliance with Regulation 5 of The Pressure Systems Safety Regulations 2000;

4.1.51 The Board hardware installed, commissioned and tested (network, servers and workstations in clinical and non-clinical areas); and

4.1.52 Patient and equipment tagging system.

SCHEDULE PART 11

EQUIPMENT

1 GROUP 1 EQUIPMENT[46]

1.1 Project Co shall at its own cost procure, install and commission the Group 1 Equipment at the Facilities as part of the Works in accordance with the Board's Construction Requirements, the Final Commissioning Programme and Project Co's Proposals.

1.2 Project Co shall at its own cost repair, maintain and replace the Group 1 Equipment in accordance with the Service Level Specification and the Method Statements.

2 GROUP 2A EQUIPMENT

2.1 The Board shall at its own cost:

2.1.1 procure and make available to Project Co the Group 2A Equipment for installation by Project Co at the Facilities in accordance with the Final Commissioning Programme; and

2.1.2 without prejudice to paragraph 2.1.1, ensure that the relevant items are delivered to the Facilities during the relevant periods set out in the Final Commissioning Programme and in accordance with paragraph 2.6.

2.2 Project Co shall install the Group 2A Equipment at the Facilities in accordance with the Final Commissioning Programme, the Board's Construction Requirements and Project Co's Proposals.

2.3 The Board shall be responsible for the maintenance, replacement and disposal of the Group 2A Equipment and Project Co shall have no responsibility to maintain or replace or dispose of the Group 2A Equipment save for the installation of lifecycle replacements.

2.4 Project Co shall give the Board not less than twenty five (25) Business Days prior written notice of the date upon which Project Co requires the Board to procure the delivery of Equipment to be installed and commissioned by Project Co in accordance with paragraph 2.2.

2.5 Each notice given pursuant to paragraph 2.4 shall specify;

2.5.1 the item or items of Group 2A Equipment be delivered by the Board;

2.5.2 the location on the Site to which that Group 2A Equipment is to be delivered by the Board; and

[46] Project Co shall will generally be responsible for all Group 1 Equipment including specification, procurement, installation, maintenance and lifecycle replacement, however, the Board will specify the details (both quantities and specification) for certain key items which are more clinical in nature (e.g. pendants in Theatres & Critical Care) that will be identified in the Equipment Schedule. To be discussed with Bidders during the Dialogue Period.

2.5.3 the date upon which Project Co requires the Board to deliver the relevant item or items of Group 2A Equipment.

2.6 Without prejudice to paragraph 2.1, the Board shall deliver, or shall procure delivery of the relevant item or items of and/or pertaining to the Group 2A Equipment on the date specified in the relevant notice issued by Project Co pursuant to paragraph 2.4 to such location as set out in paragraph 2.5.2 (which for the avoidance of doubt, must be safely accessible by those persons delivering the relevant item or items of Equipment).

2.7 Following delivery of the Group 2A Equipment pursuant to paragraph 2.6, Project Co shall procure the safe and appropriate storage of the same until the completion of installation of the Group 2A Equipment by Project Co.

2.8 If at the time of installing or commissioning the Group 2A Equipment, such Group 2A Equipment is found to be damaged, does not properly function or otherwise does not correspond with the items to be procured by the Board pursuant to paragraph 2.1 to allow successful completion of commissioning to occur, then the Board shall procure the repair or replacement of such Group 2A Equipment as soon as reasonably practicable, having regard to the length of time generally taken to procure such Group 2A Equipment or procure repairs to such Group 2A Equipment provided that, to avoid doubt, where such Group 2A Equipment is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 2A Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

3 GROUP 2B EQUIPMENT

3.1 The Board shall at its own cost:

3.1.1 procure the Group 2B Equipment for installation by its own contractors at the Facilities in accordance with the Final Commissioning Programme; and

3.1.2 without prejudice to paragraph 3.1.1, ensure that the Group 2B Equipment is delivered to and installed at the Facilities during the relevant periods set out in the Final Commissioning Programme in accordance with paragraph 3.6.

3.2 The Board shall procure the installation of the Group 2B Equipment at the Facilities in accordance with the Final Commissioning Programme, the Board's Construction Requirements and Project Co's Proposals.

3.3 The Board shall be responsible for the maintenance, replacement and disposal of the Group 2B Equipment and Project Co shall have no responsibility to maintain or replace or dispose of the Group 2B Equipment.

3.4 Project Co shall give the Board not less than twenty five (25) Business Days prior written notice of the date upon which Project Co requires the Board to procure the delivery and installation of the Group 2B Equipment by the Board and its contractors in accordance with paragraph 3.2.

3.5 Each notice given pursuant to paragraph 3.4 shall specify;

3.5.1 the item or items of Group 2B Equipment be delivered and installed by the Board;

3.5.2 the location on the Site to which that Group 2B Equipment is to be delivered and installed by the Board; and

3.5.3 the date upon which Project Co requires the Board to deliver and install the relevant item or items of Group 2B Equipment.

3.6 Without prejudice to paragraph 3.1, the Board shall deliver, or shall procure delivery of the relevant item or items of and/or pertaining to the Group 2B Equipment on the date specified in the relevant notice issued by Project Co pursuant to paragraph 3.4 to such location as set out in paragraph 3.5.2 (which for the avoidance of doubt, must be safely accessible by those persons delivering the relevant item or items of Equipment).

3.7 Following delivery of the Group 2B Equipment pursuant to paragraph 3.6, Project Co shall procure the safe and appropriate storage of the same until the completion of installation by or procured by the Board.

3.8 If at the time of installing or commissioning the Group 2B Equipment, such Group 2B Equipment is found to be damaged, does not properly function or otherwise does not correspond with the items to be procured by the Board pursuant to paragraph 3.1 to allow successful completion of commissioning to occur, then the Board shall procure the repair or replacement of such Group 2B Equipment as soon as reasonably practicable, having regard to the length of time generally taken to procure such Group 2B Equipment or procure repairs to such Group 2B Equipment provided that, to avoid doubt, where such Group 2B Equipment Is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 2B Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

4 GROUP 3 EQUIPMENT

4.1 Without prejudice to paragraph 1, the Board shall at its own cost procure, install and commission the Group 3 Equipment at the Facilities as part of the Board's Post Completion Commissioning.

4.2 The Board shall be responsible for the maintenance, replacement and disposal of the Group 3 Equipment and Project Co shall have no responsibility to maintain or replace or dispose of the Group 3 Equipment. If such Group 3 Equipment is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 3 Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

5 GENERAL

5.1 Each Party shall at its own expense perform its obligations described in this Schedule Part 11 *(Equipment).*

SCHEDULE PART 13

INDEPENDENT TESTER CONTRACT

AGREEMENT

AMONG:

(1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (together with its successors, assignees and/or transferees is referred to as the **"Board"**);

(2) [PROJECT CO] ("**Project Co**");

(3) [INDEPENDENT TESTER] (the "**Independent Tester**");

(4) [FUNDER] (the "**Funder**" being one of the Funders); and

(5) [CONTRACTOR] (the "**Contractor**"); and

WHEREAS:

(A) Project Co and the Board have entered into an agreement for the financing, design and construction of and the provision of certain services in connection with a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France at the Site and Off-Site (the "**Project**") pursuant to the Government's private finance initiative (the "Design Build Finance and Maintain Agreement") under the terms of which they have jointly agreed to appoint an independent tester.

(B) Project Co has entered into the Construction Contract with the Contractor for the development of the Project at the Site and Off-Site.

(C) Project Co has entered into the Funding Agreements with the Funders.

(D) The Independent Tester is an independent adviser willing to provide services to Project Co and the Board and for the benefit of the Funders.

(E) Project Co and the Board have jointly agreed to engage the Independent Tester to carry out the duties and obligations ascribed to the Independent Tester in the Design Build Finance and Maintain Agreement upon the terms of this Agreement.

IT IS AGREED as follows:

1 **INTERPRETATION**

1.1 Unless the context otherwise requires, words and expressions defined in the Design Build Finance and Maintain Agreement have the same meanings in this Agreement as in the Design Build Finance and Maintain Agreement.

1.2 The headings in this Agreement do not affect its interpretation.

Unless the context otherwise requires, all references to Clauses and Appendices are references to clauses of and appendices to this Agreement.

2 APPOINTMENT

2.1 Project Co and the Board jointly appoint the Independent Tester to perform the services obligations and tasks which are ascribed to the Independent Tester under the Design Build Finance and Maintain Agreement and which are set out in Appendix 1 upon the terms and conditions set out below. The Contractor is a party to this Agreement solely to make the commitments on its part as expressly made in this Agreement and, for the avoidance of doubt, the Independent Tester shall have no liability to the Contractor.

2.2 The Independent Tester shall provide the services, obligation and tasks under Clause 2.1 above (the "Services") independently, fairly and impartially to and as between Project Co and the Board in relation to the Design Build Finance and Maintain Agreement at such times and at such locations as the parties shall agree from time to time. In performing the Services, the Independent Tester shall have regard to the interest of the Funders. Whilst the Independent Tester shall take account of any representations made by Project Co and the Board and the Contractor (as appropriate) the Independent Tester shall not be bound to comply with any representations made by any of them in connection with any matter on which the Independent Tester is required to exercise his professional judgement.

3 VARIED SERVICES

3.1 The Independent Tester shall carry out and perform any additional and/or varied services required for the implementation of the Project reasonably required by the Board and Project Co which are not included in, or which are omitted from, the Services (the **"Varied Services"**), subject to prior agreement by the Board and Project Co to the costs thereof. The written agreement by the Board and Project Co pursuant to this Clause 3.1 shall state whether (and where applicable in what proportions) the Board and/or Project Co will be responsible for the payment of the fee agreed for the Varied Services. The Independent Tester acknowledges that the liability of Project Co and the Board to pay the Independent Tester for the Varied Services shall be several and not joint.

3.2 If the Independent Tester shall at any time be required to perform Varied Services, it shall give to the Board and Project Co a written estimate of the cost thereof (taking into account any reduction in work or other expense which might also occur as a result of the circumstances giving rise to the Varied Services).

3.3 Where a change to the Project occurs pursuant to the terms of the Design Build Finance and Maintain Agreement (whether by virtue of a Delay Event, Change, change to the Programme or otherwise) which may materially impact on the Services or otherwise on the Independent Tester, the Board and Project Co shall promptly notify the Independent Tester of such change. The Independent Tester shall within five (5) Business Days of receiving such notification, notify the Board and Project Co of the impact of such change, if any, on the Services, including whether such change

gives rise to any Varied Services and the provisions of this Clause 3.3 shall apply accordingly.

3.4 The Independent Tester shall promptly and efficiently provide the Services and the Varied Services:

3.4.1 with the reasonable care, skill and diligence to be expected of a properly qualified and competent professional adviser who has held itself out as competent and experienced in rendering such services for projects of a similar size, nature, scope and complexity to the Project; and

3.4.2 in accordance with all applicable Law and NHS Requirements.

3.5 All instructions to the Independent Tester must be given signed and given jointly by the Board's Representative and Project Co's Representative or such other person appointed pursuant to Clause 12 of the Design Build Finance and Maintain Agreement (*Representatives*) and, for the avoidance of doubt, the Independent Tester shall not act in accordance with any instructions given to him by either the Board or Project Co (or any other person) not given in accordance with the provisions of this Clause 3.5.

3.6 The Independent Tester shall comply with all reasonable instructions given to it by Project Co and the Board pursuant to Clause 3.5 except and to the extent that the Independent Tester reasonably considers that any such instructions vary or might vary the Services or its authority or responsibilities under this Agreement or prejudices or might prejudice the exercise by the Independent Tester of its professional judgement in accordance with Clauses 2.2 and 3.4 above. The Independent Tester shall promptly confirm in writing to Project Co and the Board whether or not it shall comply with any such instruction setting out the grounds upon which the decision is made.

3.7 The Board, Project Co and the Contractor agree to co-operate with and provide reasonable assistance to the Independent Tester to familiarise the Independent Tester with all necessary aspects of the Project to enable the Independent Tester to carry out its obligations under this Agreement.

3.8 The Independent Tester shall be deemed to have full knowledge of the provisions of the Design Build Finance and Maintain Agreement, the Construction Contract, the Service Contracts, the Funding Agreements and the [Sub-Contractor Co-operation Agreement (as defined in the Construction Contract)] such as relates to the Services and shall be deemed to be aware of and to have taken full account of all the undertakings and warranties, both expressed and implied, on the part of Project Co and the Board which are set out in the Design Build Finance and Maintain Agreement provided always that true and accurate copies have been delivered to the Independent Tester.

3.9 Subject to Clause 3.10, the Independent Tester shall use the following partners, directors or employees: [insert names of individuals] in connection with the performance of the Services and such persons' services shall be available when necessary and for so long as may be necessary to ensure the proper performance by the Independent Tester of the Services. Such persons shall have full authority to act

on behalf of the Independent Tester for all purposes in connection with the Services.

3.10 The Independent Tester may by written notice to the Board and Project Co replace the staff identified in Clause 3.9 taking into account the need for liaison, continuity, level of qualification and availability of personnel in respect of the Project. Such replacement shall be subject to approval in writing by Project Co and the Board (not to be unreasonably withheld or delayed).

4 DURATION

4.1 The Services shall commence on the last date of execution of the Design Build, Finance and Maintain Agreement

4.2 The parties hereby agree that this Agreement governs all of the Services (including the Varied Services, if any) provided by the Independent Tester in relation to the Project whether before or after the date hereof.

5 FEE

5.1 Project Co shall pay to the Independent Tester a fee of [INSERT FEE] for the Services provided under this Agreement. The fee is exclusive of value added tax and inclusive of disbursements. The Independent Tester shall issue an invoice to Project Co on a monthly basis in accordance with Appendix 2 Section 1 (*Schedule of Drawdown of Fees*) (the **"Application for Payment"**). 5 days after the date on which the invoice is received by Project Co shall constitute the due date (the **"Due Date"**). The final date for payment by Project Co shall be thirty (30) days after receipt of the Independent Tester's invoice (the **"Final Date"**). If Varied Services are provided then they shall be paid for in accordance with the agreement between the Independent Tester and the Board and Project Co pursuant to Clause 3.1.

5.2 Not later than 5 days after the Due Date ascertained in accordance with Clause 5.1, Project Co shall give written notice to the Independent Tester stating the amount which Project Co considers to be or have been due at the Due Date and the basis on which the amount is calculated (the **"Payment Notice"**). It is immaterial that the sum referred to in this notice may be zero. If Project Co fails to give a Payment Notice in accordance with this Clause 5.2 and the Independent Tester has given an Application for Payment in accordance with Clause 5.1, subject to any Pay Less Notice given under Clause 5.3, the sum to be paid to the Independent Tester shall be the sum specified in the Application for Payment.

5.3 Where Project Co intends to pay less than the sum stated as due pursuant to this Agreement, Project Co shall, not later than 2 days before the relevant Final Date, give a written notice to the Independent Tester (a **"Pay Less Notice"**). Such Pay Less Notice shall specify both the sum that Project Co considers to be due to the Independent Tester at the date the notice is given and the basis on which that sum is calculated. It is immaterial that the sum referred to in this Clause 5.3 may be zero. Where any Pay Less Notice is given, the payment to be made on or before the relevant Final Date shall be not less than the amount stated as due in such notice.

5.4 If Project Co fails to pay a sum, or any part of it, properly due to the Independent

Tester under this Agreement by the relevant Final Date, Project Co shall, in addition to any unpaid amount that should properly have been paid, pay the Independent Tester simple interest on that amount from the Final Date until the actual date of payment at the [Default Interest Rate].

5.5 If Project Co fails to pay any amount properly due pursuant to this Agreement by the relevant Final Date and the failure continues for 21 days after the Independent Tester has given notice to Project Co of its intention to suspend performance of all or any of the Services and the ground or grounds on which it is intended to suspend performance, the Independent Tester may suspend performance of any or all of its obligations until payment of the amount properly due is made in full. Any period of suspension of the Services in accordance with this Clause 5.5 shall be disregarded in computing any contractual time limit to complete work directly or indirectly affected by the exercise of the rights conferred by this Clause 5.5 or as the case may be, the time for completion of such work shall be extended by a period equal to the period of suspension.

Where the Independent Tester exercises its right of suspension under this Clause 5.5, it shall be entitled to a reasonable amount in respect of costs and expenses reasonably incurred by it as a result of the exercise of that right. Any such costs and expenses shall be included in the Independent Tester's next Application for Payment and the Independent Tester shall, with its application, submit such details of the costs and expenses as are reasonably necessary to enable the Independent Tester's entitlement to be ascertained.

5.6 Without prejudice to Clause 3.5, neither the Board nor Project Co shall issue instructions or do anything which does or is reasonably likely materially to increase the fees payable to the Independent Tester without the prior approval of the other (such approval not to be unreasonably withheld or delayed).

5.7 As soon as the Independent Tester becomes aware of the same and before acting on the same the Independent Tester shall inform the Board and Project Co of any instructions given to him pursuant to Clause 3.5 which will or could reasonably be expected to increase the fees payable to the Independent Tester under the terms of this Agreement. The Independent Tester shall if requested by either Project Co or the Board provide both the Board and Project Co with as detailed an estimate as is reasonably practicable of the increase to the fees payable to it if it carries out such instructions. The estimate of increased fees shall be based upon the rates contained in Appendix 2, Section 2 (*Schedule of Daily Rates*).

6 LIMITATIONS ON AUTHORITY

6.1 The Independent Tester shall not:

6.1.1 make or purport to make any alteration or addition to or omission from the design of the Facilities and/or the Retained Estate Handback Infrastructure, (including, without limitation, the setting of performance standards) or issue any instruction or direction to any contractor or professional consultant employed or engaged in connection with the Project; or

6.1.2 (unless both Project Co and the Board consent in writing) consent or agree

to any waiver or release of any obligation of Project Co or the Board under the Design Build Finance and Maintain Agreement or of any contractor or professional consultant employed or engaged in connection with the Project.

6.2 For the avoidance of doubt, the Independent Tester shall not express an opinion on and shall not interfere with or give any advice, opinion or make any representation in relation to any matters which are beyond its role and responsibilities under this Agreement.

7 TERMINATION

7.1 Project Co and the Board may by joint notice in writing (a "**Joint Notice**") immediately terminate this Agreement if the Independent Tester:

7.1.1 is in breach of any of the terms of this Agreement which, in the case of a breach capable of remedy, shall not have been remedied by the Independent Tester within 21 days of receipt by the Independent Tester of a Joint Notice specifying the breach and requiring its remedy;

7.1.2 is incompetent, guilty of gross misconduct and/or any material failure, negligence or delay in the provision of the Services and/or its other duties under this Agreement;

7.1.3 fails or refuses after written warning to provide the Services and/or its other duties under this Agreement reasonably and as properly required of him; or

7.1.4 is subject to an event analogous to any of the events set out in Clause 40.1.1 (*Insolvency*) of the Design Build Finance and Maintain Agreement.

7.2 If the Design Build Finance and Maintain Agreement is rescinded, terminated or repudiated for any reason and, notwithstanding that the validity of such rescission, termination or repudiation may be disputed, this Agreement may be terminated by Joint Notice and with immediate effect.

7.3 Following any termination of this Agreement, but subject to any set-off or deductions which Project Co or the Board may be entitled properly to make as a result of any breach of this Agreement by the Independent Tester, the Independent Tester shall be entitled to be paid in full and final settlement of any valid claim which the Independent Tester may have in consequence thereof, any fees due under Clause 5 (*Fee*) above in respect of the Services carried out in accordance with this Agreement prior to the date of termination.

7.4 Termination of this Agreement shall be without prejudice to any accrued rights and obligations under this Agreement as at the date of termination (including the right of Project Co and the Board to recover damages from the Independent Tester).

7.5 If this Agreement is terminated in accordance with Clause 7.1, Project Co and the Board shall use reasonable endeavours to engage an alternative Independent Tester

within 30 days, subject to Law and public procurement rules. If within such period Project Co and the Board are unable to procure the appointment of an alternative Independent Tester on reasonable commercial terms, the Independent Tester shall pay to Project Co and/or the Board, as the case may be, any reasonable incremental loss, damage or extra costs suffered by each of them.

7.6 If Project Co fails to make a payment of any undisputed sum to the Independent Tester within twenty (20) Business Days of the expiry of any notice issued pursuant to Clause 5.5. in respect of such sum, the Independent Tester may issue a further written notice to the Board and Project Co specifying that the payment remains outstanding (the "Second Notice") and if payment is not made within fifteen (15) Business Days of receipt of the Second Notice the Independent Tester may issue a further written notice terminating this Agreement with immediate effect. Failure by Project Co to pay, following receipt of a Second Notice pursuant to this Clause 7.6, shall be the Independent Tester's sole ground for terminating this Agreement by reason of breach of this Agreement by the Board and/or Project Co.

7.7 Termination of this Agreement shall not affect the continuing rights and obligations of Project Co, the Board and the Independent Tester under Clauses 6 (*Limitations on Board*), 8 (*Confidential Information and Copyright*), 9 (*Professional Indemnity Insurance*), 18 (*Dispute Resolution Procedure*) and this Clause or under any other Clause which is expressed to survive termination or which is required to give effect to such termination or the consequences of such termination.

8 CONFIDENTIAL INFORMATION AND COPYRIGHT

8.1 The Independent Tester shall treat as secret and confidential and shall not at any time for any reason disclose or permit to be disclosed to any person or otherwise make use of or permit to be made use of any unpublished information relating to Project Co's or the Board's or the Contractor's (if appropriate) technology or other know-how business plans or finances or any such information relating to a subsidiary, supplier, customer or client of Project Co or the Board or the Contractor (if appropriate) where the information was received during the period of this Agreement except as may be reasonably necessary in the performance of the Services. Upon termination of this Agreement for whatever reasons the Independent Tester shall offer to deliver up to Project Co or the Board (as appropriate) all working papers, computer disks and tapes or other material and copies provided to or prepared by him pursuant either to this Agreement or to any previous obligation owed to Project Co or the Board provided always that the Independent Tester shall be entitled to retain copies of all such items where such offer is accepted.

8.2 The obligation to maintain confidentiality does not apply to any information or material to the extent that the Independent Tester is compelled to disclose any such information or material by law or any regulatory or Government authority.

8.3 The copyright in all reports, and other documents produced by the Independent Tester in connection with the Project shall remain vested in the Independent Tester but the Independent Tester grants to Project Co and Board and their nominees with full title guarantee a non-exclusive irrevocable royalty free licence to copy and use such reports, and other documents and to reproduce the information contained in them for any purpose related to the Project including (but without limitation) the construction, completion, maintenance, letting, promotion, advertisement, reinstatement, extension and repair of the Project. Such licence shall include a licence to grant sub-licences and to transfer the same to third parties.

8.4 The Independent Tester shall not be liable for use by any person of the documents, (including reports, details, plans, specifications, schedules, computer programs, software, consents and any other papers, works, reports and inventions produced by the Independent Tester) for any purpose other than that for which the same were prepared by or on behalf of the Independent Tester.

9 PROFESSIONAL INDEMNITY INSURANCE

9.1 Without prejudice to its obligations under this Agreement, or otherwise at law, the Independent Tester shall maintain professional indemnity insurance with a limit of indemnity of not less than [ten million pounds (£10,000,000)] for any one claim in respect of any neglect, error or omission on the Independent Tester's part in the performance of its obligations under this Agreement for the period commencing on the date of this Agreement and expiring 12 years after:

9.1.1 the date of final certification of the Works; or

9.1.2 the termination of this Agreement,

whichever is the earlier, provided that such insurance is available in the market place at commercially reasonable rates.

9.2 The Independent Tester shall maintain such insurance with reputable insurers carrying on business in the United Kingdom.

9.3 Any increased or additional premium required by insurers by reason of the Independent Tester's own claims record or other acts, omissions, matters or things particular to the Independent Tester shall be deemed to be within commercially reasonable rates.

9.4 The Independent Tester shall as soon as reasonably practicable inform Project Co and the Board if such insurance ceases to be available at commercially reasonable rates in order that the Independent Tester and Project Co and the Board can discuss means of best protecting the respective positions of Project Co and the Board and the Independent Tester in respect of the Project in the absence of such insurance.

9.5 The Independent Tester shall fully co-operate with any measures reasonably required by Project Co and the Board including (without limitation) completing any proposals for insurance and associated documents, maintaining such insurance at rates above commercially reasonable rates if Project Co and the Board undertake in writing to reimburse the Independent Tester in respect of the net cost of such insurance to the Independent Tester above commercially reasonable rates.

9.6 The Independent Tester shall, prior to commencing the provision of the Services and as soon as reasonably practicable following renewal dates, produce for inspection by Project Co and the Board documentary evidence that such insurance is being properly maintained.

9.7 The above obligations in respect of professional indemnity insurance shall continue notwithstanding termination of this Agreement for any reason whatsoever, including (without limitation) breach by Project Co and the Board.

10 LIMITATION OF LIABILITY

10.1 With the exception of liability for death, personal injury and/or any other liability that cannot lawfully be excluded or limited, the Independent Tester's maximum aggregate liability to all parties, under or in connection with this Agreement, whether in contract or in delict, or for breach of statutory duty is limited to [ten million (£[10,000,000]).

10.2 [Notwithstanding anything to the contrary stated elsewhere in this Agreement, the parties hereby expressly agree that the Independent Tester shall have no liability to any party under or in connection with this Agreement for any claim or claims related to terrorism, asbestos or toxic mould.][47]

10.3 No action or proceedings under or in connection with this Agreement shall be commenced against the Independent Tester after the expiry of twelve years from the earlier of: (a) the completion of the Services; and (b) the termination of this Agreement.

11 SUB-CONTRACTOR LOSSES AND NO LOSS AVOIDANCE

11.1 Without prejudice to Clause 10 (*Limitation of Liability*) the Independent Tester hereby acknowledges and accepts (a) that a breach or failure on the part of the Independent Tester could have adverse financial consequences for the Sub-Contractors (or any of them) and (b) any losses, damages, costs and/or other liabilities suffered or incurred by the Sub-Contractors (or any of them) (as the case may be) arising from or in connection with any breach or failure on the part of the Independent Tester under this Agreement shall, for the purposes of this Agreement and notwithstanding the provisions of any Sub-Contract, be deemed to be losses, damages, costs and/or liabilities suffered or incurred by Project Co arising from or in connection with such breach or failure.

11.2 Where the Independent Tester would otherwise be liable to make a payment by way of compensation to Project Co including amounts which, in turn, comprise compensation to any Sub-Contractor which is payable by Project Co and/or which would be payable by way of compensation to any Sub-Contractor by Project Co the Independent Tester shall not be entitled to withhold, reduce or avoid any such payment to Project Co in reliance (in whole or in part) on the fact that payment of the amount which is or would be due from Project Co to the Sub-Contractor or the entitlement of the Sub-Contractor to receive payment of such amount (as a result of the circumstances giving rise to the Independent Tester's obligation to pay such compensation) is conditional on receipt by Project Co of such amount from the Independent Tester.

12 NOTICES

[47] This may be appropriate where the IT's insurance cover excludes liability for these occurrences. Authorities to check.

All notices or other communications required in connection with this Agreement shall be in writing and sent by hand, by first class pre-paid post or by facsimile transmission to the relevant address or facsimile number set out in the Design Build Finance and Maintain Agreement or in the case of the Independent Tester to its registered office for the attention of the company secretary or to such other address or facsimile number as a party to this Agreement may notify to another party to this Agreement in writing.

13 ASSIGNATION

13.1 The Independent Tester shall not assign or transfer any of its rights or obligations under this Agreement or sub-contract the whole or any part of the Services.

13.2 Neither Project Co nor the Board shall be entitled to assign or transfer any of their respective rights or obligations under this Agreement save that the parties hereby consent to any such assignment or transfer which is contemporaneous to the assignment or transfer of the Design Build Finance and Maintain Agreement and is made to the same assignee or transferee. In the event that the Design Build Finance and Maintain Agreement is novated to a third party, the term "Design Build Finance and Maintain Agreement" shall include any replacement contract arising from such novation.

13.3 The Independent Tester shall not be entitled to contend that any person to whom this Agreement is assigned in accordance with Clause 13.2 is precluded from recovering under this Agreement any loss incurred by such assignee resulting from any breach of this Agreement (whenever happening) by reason that such person is an assignee and not a named [party] under this Agreement.

14 CUMULATIVE RIGHTS AND ENFORCEMENT

14.1 Any rights and remedies provided for in this Agreement whether in favour of Project Co or the Board or the Independent Tester are cumulative and in addition to any further rights or remedies which may otherwise be available to the parties.

14.2 The duties and obligations of the Independent Tester arising under or in connection with this Agreement are owed to Project Co and the Board both jointly and severally and Project Co and the Board may accordingly enforce the provisions hereof and pursue their respective rights hereunder in their own name, whether separately or with each other.

14.3 Project Co and the Board covenant with each other that they shall not waive any rights, remedies or entitlements or take any other action under this Agreement which would or might reasonably be expected to adversely affect the rights, remedies or entitlements of the other without the other's prior written consent, such consent not to be unreasonably withheld or delayed.

15 WAIVER

The failure of any party at any one time to enforce any provision of this Agreement shall in no way affect its right thereafter to require complete performance by any other party, nor

shall the waiver of any breach or any provision be taken or held to be a waiver of any subsequent breach of any provision or be a waiver of the provision itself.

16 SEVERABILITY

In the event that any term, condition or provision contained in this Agreement shall be held to be invalid, unlawful or unenforceable to any extent, such term, clause or provision shall, to that extent, be omitted from this Agreement and the rest of this Agreement shall stand, without affecting the remaining clauses.

17 VARIATION

A variation of this Agreement is valid only if it is in writing and signed by or on behalf of each party.

18 DISPUTE RESOLUTION PROCEDURE

18.1 All disputes shall be resolved in accordance with terms equivalent (mutatis mutandis) to the Dispute Resolution Procedure as set out in the Design Build Finance and Maintain Agreement.

18.2 Project Co, the Board and the Independent Tester shall co-operate to facilitate the proper, just, economical and expeditious resolution of any and all such disputes which arise under this Agreement.

19 GOVERNING LAW AND JURISDICTION

Subject to Clause 18 (*Dispute Resolution Procedure*) above, this Agreement shall be governed by and construed in accordance with the laws of Scotland, and (subject as aforesaid) the parties hereby submit to the non-exclusive jurisdiction of the courts of Scotland.

20 NOT USED

21 THIRD PARTY RIGHTS

Save as expressly set out herein, no provision of this Agreement is intended to or does confer upon any third party any benefit or right enforceable at the option of that third party against any party to this Agreement.

IN WITNESS WHEREOF these presents consisting of this and the [ ] preceding pages and the Appendices are executed as follows:-

APPENDIX 1

SCOPE OF SERVICES - INDEPENDENT TESTER CONTRACT[48]

The Independent Tester shall perform the role of Independent Tester as referred to in Clauses 17 (*Pre-Completion Commissioning and Completion*), 18(*Post Completion Commissioning*) and 19 (*Fossils and Antiquities*) (including complying with any time limits specified in such Clauses) and Schedule Part 6 (*Construction Matters*), Schedule Part 7 (*The Programme*), Schedule Part 8 (*Review Procedure*), Schedule Part 10 (*Outlining Commissioning Programme*), Schedule Part 11 *(Equipment)* and Schedule Part 17 (*Compensation on Termination*) of the Design Build Finance and Maintain Agreement[49], by providing the following scope of Services:

1 MONTHLY REPORT AND COMPLETION CERTIFICATION

The Independent Tester shall:

1.1 During the Works, attend monthly site progress meetings and provide the Board and Project Co with a monthly report on the activities carried out by the Independent Tester.

1.2 Undertake regular inspections during the Works, as necessary, in accordance with the Design Build Finance and Maintain Agreement. Report on the completion status of the Project, identifying any work that is not compliant with the Board's Construction Requirements, Project Co's Proposals, the Approved Reviewable Design Data (Approved RDD) and/or the Completion Criteria.

1.3 Not Used.

1.4 Certify the Actual Completion Date and issue a Certificate of Practical Completion in accordance with the Design Build Finance and Maintain Agreement.

1.5 Within five (5) Business Days of issue of the Certificate of Practical Completion, issue a Snagging Notice specifying any Snagging Matters. Monitor and review rectification of such Snagging Matters in accordance with the Design Build Finance and Maintain Agreement.

1.6 Review the programme for the rectification of all Snagging Matters to be carried out and advise Project Co and the Board as appropriate.

1.7 And in order to enable the Independent Tester to discharge these primary functions which are to be performed independently, fairly and impartially to and as between Project Co and the Board and having regard to the interests of Funders, the Independent Tester shall discharge the further duties described below.

2 GENERAL

The Independent Tester shall:

2.1 Familiarise itself with the Design Build Finance and Maintain Agreement (including the Design Data, the Design Quality Plan, the Construction Quality Plan, the [Equipment Responsibilities Matrix, Schedule Part 11 (Equipment) of the Design Build Finance and Maintain Agreement][50] and any Changes issued from time to time and any other relevant documentation or information referred to in the Design Build Finance and Maintain Agreement, relevant Service Level Specification and Method Statements) and the Construction Contract to the extent necessary to enable it to provide a report to the Board and Project Co on any contradictory requirements contained within the same and to be in a position to carry out the Services in accordance with the terms of the Design Build Finance and Maintain Agreement and this Agreement.

2.2 Following notification by Project Co, pursuant to Clauses 17.8 (Commissioning prior to Completion Date) and 17.10 (Pre-Completion inspection) of the Design Build Finance and Maintain Agreement, inspect and comment as required on the Works as required by [the Completion Process].

3 DESIGN REVIEW

The Independent Tester shall:

3.1 Monitor and report upon the implementation of the Design Quality Plan for the construction, structural and engineering services design for the Project.

3.2 Monitor the detailed working drawings and specifications for a sample number and type of rooms which in his professional judgment is appropriate to be selected by the Independent Tester to verify that they comply with the Approved RDD as described in the Design Build Finance and Maintain Agreement. The Independent Tester has indicated that in normal circumstances twenty-five percent (25%) of rooms should be sampled. If in the professional judgment of the Independent Tester, because of the results of its sample or other circumstances a different sampling percentage is appropriate, he shall provide a detailed report in respect of that and, if so agreed (or determined as between Project Co and the Board by the Dispute Resolution Procedure) any change in the percentage sampling resulting in a change in fees will be borne by Project Co and the Board as they shall agree or as determined by the Dispute Resolution Procedure.

3.3 Review the detailed design information for any approved design or specification variations for compliance with the performance and quality standards of the Design Build Finance and Maintain Agreement, and quality standards as set out in the and the Contractor's Quality Plan.

4 PROCEDURE REVIEW

The Independent Tester shall:

[50] Insert reference to any equipment list or other document as appropriate.

4.1 Monitor the operation of the quality assurance procedures of the Contractor at regular intervals (maximum three (3) months) during the execution of the Works.

4.2 The Independent Tester shall familiarise itself with the proposed procedures and programmes for the testing and commissioning of the Mechanical and Electrical engineering services prior to the Board's occupation.

4.3 Monitor the procedures for the identification, approval and recording of agreed Changes to the Works in accordance with the Design Build Finance and Maintain Agreement.

4.4 Review any samples or mock ups as required by Section 5 (Reviewable Design Data) of Schedule Part 6 (Construction Matters) and Schedule Part 8 (Review Procedure) and check that they have been approved in accordance with the Design Build Finance and Maintain Agreement.

5 CONSTRUCTION REVIEW

The Independent Tester shall:

5.1 Visit the Site and Off-Site and monitor the Works for their compliance with the Board's Construction Requirements, Project Co's Proposals and the Approved RDD.[51] The frequency and timing of the Independent Tester's visits are dependent on the progress of construction on Site and Off-Site. The Contractor shall agree a programme with the Independent Tester for the inspection of key construction processes and the completed Works and shall give the Independent Tester advance notice of these Works being carried out on Site and Off-Site. The Independent Tester shall identify any aspect of the Works which needs to be inspected before being covered over by subsequent activity so that he may satisfy himself that these have been constructed in accordance with the Contractor's Quality Plan without the need for opening up.

5.2 Randomly check that the Works are being undertaken in accordance with the Construction Quality Plan that has been agreed by the Board and Project Co.

5.3 Review the written Mechanical and Electrical engineering services testing and commissioning procedure. Undertake selective witnessing of the Mechanical and Electrical services testing and commissioning. The Independent Tester has indicated that these sampling proportions should amount to approximately fifty percent (50%). The Independent Tester shall review one hundred percent (100%) of all test results. If in the professional judgment of the Independent Tester, because of the results of witnessing (or because of other circumstances) a different sampling percentage is appropriate he shall provide a detailed report in respect of that and any change in the percentage sampling resulting in a change of fees will be borne by Project Co, the Board or the Contractor as they shall agree, failing such agreement, as determined by the Dispute Resolution Procedure.

5.4 Inspect rectification works which have previously prevented the Independent Tester from certifying the Project as complete. Concurrent with the issue of the Certificate of

[51] Authorities to insert any other relevant documents.

Practical Completion, agree a list of Snagging Matters with the Board and Project Co together with its programme for implementation and issue a Snagging Notice in accordance with Clause 17.14 (Completion Certificate) of the Design Build Finance and Maintain Agreement.

5.5 Check the production of the relevant operating manuals, relevant approvals, test results, inspection records and as built drawings and monitor the timely handover of this documentation.

6 PARTICIPATION IN DISPUTE RESOLUTION

As and when required by the Board or Project Co, the Independent Tester shall participate in the Dispute Resolution Procedure of the Design Build Finance and Maintain Agreement (as such term is defined in the Design Build Finance and Maintain Agreement) to the extent that issues under the Design Build Finance and Maintain Agreement which have been referred to the said Dispute Resolution Procedure relate to the Independent Tester's other obligations and tasks as set out in this Appendix 1 and this Agreement.

APPENDIX 2

SECTION 1

SCHEDULE OF DRAWDOWN OF FEES

SECTION 2

SCHEDULE OF DAILY RATES

SCHEDULE PART 14

PAYMENT MECHANISM

[Please refer to separate paper apart]

SCHEDULE PART 15

INSURANCE REQUIREMENTS

SECTION 1

POLICIES TO BE TAKEN OUT BY PROJECT CO AND MAINTAINED DURING THE DESIGN AND CONSTRUCTION PHASE

Policies to be taken out by Project Co and maintained during the design and construction phase.

Common to each policy in Section 1 (Pol*icies to be taken out by Project Co and maintained during the design and construction phase*) (unless stated otherwise):

Insureds:

1. Board

2 Project Co

3 Contractor

4 Service Provider

5 Construction sub-contractors of any tier

6 Senior Funders

7 Subordinated Funders

8 Consultants - for their site activities only

each for their respective rights and interests in the Project

1 [CONTRACTORS' 'ALL RISKS' INSURANCE (CAR)]

1.1 **Insured Property**

The permanent and temporary works, materials (including but not limited to equipment supplied by the Board, goods, plant and equipment for incorporation in the works (other than constructional plant, tools, accommodation and equipment belonging to or the responsibility of the Contractor or the Construction sub-contractors) and all other property used or for use in connection with works associated with the Project.

1.2 **Coverage**

"All risks" of physical loss or damage to the Insured Property unless otherwise excluded.

1.3 **Sum Insured**

At all times an amount not less than the full reinstatement or replacement value of the Insured Property, but not less than the value specified in the Construction Contract plus provision to include Cover Features & Extensions as appropriate.

1.4 **Maximum Deductible**

Not to exceed £150,000 each and every claim for defective design, materials and workmanship and in respect of all other claims £10,000.

1.5 **Territorial Limits**

United Kingdom including offsite storage and during inland transit.

1.6 **Period of Insurance**

From the date of this Agreement until the Actual Completion Date and thereafter in respect of defects liability until expiry of the 12 months defects liability period.

1.7 **Cover Features & Extensions**

1.7.1 Terrorism

1.7.2 Munitions of war clause

1.7.3 Additional costs of completion clause

1.7.4 Professional fees clause (including Board professional fees incurred during any period of reinstatement)

1.7.5 Debris removal clause

1.7.6 72 hour clause

1.7.7 European Union local authorities clause

1.7.8 Free issue materials clause

1.7.9 [10]% escalation clause

1.7.10 Automatic reinstatement of sum insured clause

1.17.11 Loss minimisation

1.17.12 Testing/commissioning period clause

1.17.13 Plans and documents clause

1.17.14 Expediting expenses

1.17.15 Temporary repairs

1.17.16 Waiver of subrogation to Consort Healthcare (Edinburgh Royal Infirmary) Limited, Project Co to the RIE Project

1.8 **Principal Exclusions**

1.8.1 War and related perils (UK market agreed wording)

1.8.2 Nuclear/radioactive risks (UK market agreed wording)

1.8.3 Pressure waves caused by aircraft and other aerial devices travelling at sonic or supersonic speeds

1.8.4 Wear, tear and gradual deterioration

1.8.5 Consequential financial losses

1.8.6 Cyber risks

1.8.7 Inventory losses

1.8.8 Fraud and employee dishonesty

1.8.9 Faulty design, workmanship and materials DE5 or LEG3 option extension

2 DELAY IN START UP INSURANCE (DSU)

2.1 **Insureds**

2.1.1 Project Co

2.1.2 Senior Funders

2.1.3 Subordinated Funders

2.1.4 [Board]

each for their respective rights and interests in the Project.

2.2 **Indemnity**

In respect of:

2.2.1 loss of anticipated Revenue during at least the Minimum Indemnity Period arising from a delay in completion of the Project as a result of loss or damage covered under the Contractors' All Risks' Insurance effected in accordance with Item 1 (*Contractors' 'All Risks' Insurance (CAR*)) of Schedule Part 15 (*Insurance Requirements*), including physical loss or damage which would be indemnifiable but for the application of any deductible;

2.2.2 the economic additional expenditure necessarily and reasonably incurred for the purpose of avoiding or reducing the loss of Revenue of Project Co which without such expenditure would have taken place, during the Minimum Indemnity Period.

2.3 **Sum Insured**

An amount sufficient to cover the sums the subject of the Indemnity for the Minimum Indemnity Period.

2.4 **Maximum Excess**

[£●] / [●] days[52].

2.5 **Minimum Indemnity Period**

[●] months[53].

[52] Bid Back Item: Bidders to propose.

2.6 **Period of Insurance**

As per the Contractors' "All Risks" Insurance, excluding the defects liability period.

2.7 **Cover Features & Extensions**

2.7.1 Denial of access

2.7.2 Utilities

2.7.3 Terrorism

2.7.4 Automatic Reinstatement of sum insured

2.7.5 Professional Fees

2.8 **Principal Exclusions**

2.8.1 The exclusions under the Contractors' 'All Risks' Insurance, other than for consequential financial losses.

2.8.2 Delayed response by a public body or state authority.

3 CONSTRUCTION THIRD PARTY LIABILITY INSURANCE

3.1 **Interest**

To indemnify the Insured in respect of all sums that they may become legally liable to pay (including claimant's costs and expenses) as damages in respect of accidental:

3.1.1 death, or bodily injury, illness, death, disease contracted by any person;

3.1.2 loss or damage to property;

3.1.3 interference to property or any easement right of air, light, water or way or the enjoyment or use thereof by obstruction, trespass, nuisance, loss of amenities, or any like cause.

happening during the Period of Insurance and arising out of or in connection with the Project.

[53] Bid Back Item: Bidders to propose.

3.2 **Limit of Indemnity**

Not less than fifty million pounds (£50,000,000) in respect of any one occurrence, the number of occurrences being unlimited, but in the aggregate in respect of pollution liability.

3.3 **Maximum Deductible**

£10,000 for each and every occurrence of property damage. (Personal injury claims will be paid in full).

3.4 **Territorial Limits**

UK and elsewhere in the world in respect of non manual visits.

3.5 **Jurisdiction**

Worldwide excluding USA and Canada.

3.6 **Period of Insurance**

As per the Contractors' "All Risks" Insurance, including the defects liability period.

3.7 **Cover Features & Extensions**

3.7.1 Munitions of war

3.7.2 Cross liability clause

3.7.3 Contingent motor

3.7.4 Legal defence costs in addition

3.7.5 Personal injury to include false imprisonment, wrongful arrest, eviction or any like cause

3.7.6 Defective premises act clause

3.7.7 Data protection act clause

3.7.8 Indemnify to employees and directors

3.8 **Principal Exclusions**

3.8.1 Liability for death, illness, disease or bodily injury sustained by employees of the insured.

3.8.2 Liability arising out of the use of mechanically propelled vehicles whilst required to be compulsorily insured by legislation in respect of such vehicles.

3.8.3 Liability in respect of predetermined penalties or liquidated damages imposed under any contract entered into by the Insured.

3.8.4 Liability in respect of loss or damage to property in the care, custody and control of the insured but this exclusion is not to apply to all property belonging to the Board which is in the care, custody and control of another Insured.

3.8.5 Events more properly covered under a professional indemnity policy.

3.8.6 Liability arising from the ownership, possession or use of any aircraft or marine vessel.

3.8.7 Liability arising from seepage and pollution unless caused by a sudden, unintended and unexpected occurrence.

3.8.8 Losses indemnified under the CAR policy or DSU policy.

3.8.9 Asbestos.

3.8.10 Toxic mould.

SECTION 2

POLICIES TO BE TAKEN OUT BY PROJECT CO AND MAINTAINED FROM THE ACTUAL COMPLETION DATE

Common to all policies in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) (unless stated otherwise):

Insureds

1 Board

2 Project Co

3 Service Provider

4 Service Provider's sub-contractors

5 Senior Funders

6 Subordinated Funders

each for their respective rights and interests in the Project.

1 PROPERTY DAMAGE INSURANCE

1.1 Insured Property

The project assets which are the property of Project Co or for which Project Co may be responsible including but not limited to the Facilities.

1.2 Coverage

"All risks" of physical loss or damage to the Insured Property from any cause not excluded, including machinery breakdown and computer breakdown in respect of appropriate equipment.

1.3 Sum Insured

At all times an amount not less than the total reinstatement or replacement value of the Insured Property plus provision to include other Principal Extensions as appropriate (escalated periodically as appropriate).

1.4 Maximum Deductible

£10,000each and every claim (escalated periodically as appropriate).

1.5 **Territorial Limits**

United Kingdom plus elsewhere whilst in inland transit.

1.6 **Period of Insurance**

From the Actual Completion Date or as otherwise specified in this Agreement for the duration of this Agreement and renewable on an annual basis unless agreed otherwise by the Parties.

1.7 **Cover Features & Extensions**

1.7.1 Terrorism

1.7.2 Automatic reinstatement of sum insured

1.7.3 Capital additions clause

1.7.4 72 hour clause

1.7.5 European Union local authorities clause

1.7.6 Professional fees

1.7.7 Debris removal

1.7.8 Pollution and contamination to the Insured Property arising from an event which itself is not otherwise excluded

1.7.9 Repair / reinstatement basis of claims settlement with cash option for non-reinstatement

1.7.10 Theft damage to buildings

1.7.11 Day one reinstatement – 15% uplift

1.7.12 [Waiver of subrogation to Consort Healthcare (Edinburgh Royal Infirmary) Limited, Project Co to the RIE Project]

1.8 **Principal Exclusions**

1.8.1 War and related perils (UK market agreed wording)

1.8.2 Nuclear/radioactive risks (UK market agreed wording)

1.8.3 Pressure waves caused by aircraft and other aerial devices travelling at sonic or supersonic speeds

1.8.4 Wear, tear and gradual deterioration

1.8.5 Consequential financial losses

1.8.6 Cyber risks

1.8.7 Losses recovered under the CAR policy

2 BUSINESS INTERRUPTION INSURANCE

2.1 **Insureds**

2.1.1 Project Co

2.1.2 Senior Funders

2.1.3 Subordinated Funders

each for their respective rights and interests in the Project.

2.2 **Indemnity**

In respect of:

2.2.1 loss of anticipated Revenue during at least the Minimum Indemnity Period arising from an interruption or interference in the operation of the Project as a result of loss or damage covered under Property Damage Insurance effected in accordance with paragraph 1 of Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of this Schedule Part 15 (*Insurance Requirements*) including physical loss or damage which would be indemnifiable but for the application of any deductible;

2.2.2 the economic additional expenditure necessarily and reasonably incurred for the purpose of avoiding or reducing the loss of Revenue of Project Co which without such expenditure would have taken place, during the Indemnity Period.

2.3 **Sum Insured**

An amount sufficient to cover the sums the subject of the Indemnity for the Minimum Indemnity Period.

2.4 **Maximum Excess**

[£]/[● days].[54]

2.5 **Minimum Indemnity Period**

[●] months.[55]

2.6 **Period of Insurance**

From the Actual Completion Date for the duration of this Agreement and renewable on an annual basis unless agreed otherwise.

2.7 **Cover Features & Extensions**

2.7.1 Denial of access

2.7.2 Terrorism

2.7.3 Utilities

2.7.4 Accountants Clause

2.7.5 Automatic reinstatement of sum insured

2.8 **Principal Exclusions**

2.8.1 Financial losses

[54] Bid Back Item: Project Co to confirm.
[55] Bid Back Item: Project Co to confirm.

2.8.2 Delayed response by a public body or state authority

3 THIRD PARTY PUBLIC AND PRODUCTS LIABILITY INSURANCE

3.1 Indemnity

To indemnify the Insured in respect of all sums that they may become legally liable to pay (including claimant's costs and expenses) as damages in respect of accidental:

3.1.1 death, or bodily injury, illness, death, disease contracted by any person;

3.1.2 loss or damage to property;

3.1.3 interference to property or any easement right of air, light, water or way or the enjoyment or use thereof by obstruction, trespass, nuisance, loss of amenities, or any like cause.

happening during the period of insurance and arising out of or in connection with the Project and the provision of the Services.

3.2 Limit of Indemnity

Not less than fifty million pounds (£50,000,000) (escalated periodically as appropriate) in respect of any one occurrence, the number of occurrences being unlimited, but in the aggregate in respect of pollution and products liability.

3.3 Maximum Deductible

£10,000 for each and every occurrence of property damage (escalated periodically as appropriate). (Personal injury claims will be paid in full).

3.4 Territorial Limits

UK and elsewhere in the world in respect of non manual visits.

3.5 Jurisdiction

Worldwide.

3.6 Period of Insurance

From the Actual Completion Date or as otherwise specified in this Agreement for the

duration of this Agreement and renewable on an annual basis unless agreed otherwise.

3.7 **Cover Features & Extensions**

3.7.1 Munitions of war.

3.7.2 Cross liability clause

3.7.3 Contingent motor

3.7.4 legal defence costs in addition to the Limit of Indemnity

3.7.5 Personal injury to include false imprisonment, wrongful arrest, eviction or any like cause

3.7.6 Health & safety at work act(s) defence costs

3.7.7 Effective premises act clause

3.7.8 Data protection act clause

3.7.9 Directors & employees

3.8 **Principal Exclusions**

3.8.1 Liability for death, illness, disease or bodily injury sustained by employees of the insured.

3.8.2 Liability arising out of the use of mechanically propelled vehicles whilst required to be compulsorily insured by legislation in respect of such vehicles.

3.8.3 Liability in respect of predetermined penalties or liquidated damages imposed under any contract entered into by the insured.

3.8.4 Liability in respect of loss or damage to property in the care, custody and control of the insured but this exclusion is not to apply to all property belonging to the Board which is in the care, custody and control of another Insured Party.

3.8.5 Liability arising out of technical or professional advice (given for a fee) other than in respect of death or bodily injury to persons or damage to third party

property.

3.8.6 Liability arising from the ownership, possession or use of any aircraft or marine vessel.

3.8.7 Liability arising from seepage and pollution unless caused by a sudden, unintended and unexpected occurrence.

3.8.8 Losses under the property damage policy or business interruption policy.

3.8.9 Asbestos

3.8.10 Toxic mould

SECTION 3

ENDORSEMENTS

Unless the context otherwise requires defined terms set out in the following endorsements shall have the meaning set out in the Contract.

Endorsement 1

Cancellation

1 This policy shall not be cancelled or terminated before the original expiry date is to take effect except in respect of non-payment of premium.

2 The insurer shall by written notice advise the Board:

2.1 at least 30 days before any such cancellation or termination is to take effect;

2.2 at least 30 days before any reduction in limits or coverage or any increase in deductibles is to take effect; and

2.3 of any act or omission or any event of which the insurer has knowledge and which might invalidate or render unenforceable in whole or in part this policy.

Endorsement 2

Multiple Insured/Non-Vitiation Clause

1. Each of the parties comprising the insured shall for the purpose of this policy be considered a separate co-insured entity, insured on a composite basis, with the words "the insured" applying to each as if they were separately and individually insured provided that the total liability of the insurers under each section of this policy to the insured collectively shall not (unless the policy specifically permits otherwise) exceed the limit of indemnity or amount stated to be insured under that section or policy. Accordingly, the liability of the insurers under this policy to any one insured shall not be conditional upon the due observance and fulfilment by any other insured party of the terms and conditions of this policy or of any duties imposed upon that insured party relating thereto, and shall not be affected by any failure in such observance or fulfilment by any such other insured party.

2 It is understood and agreed that any payment or payments by insurers to any one or more of the insureds shall reduce, to the extent of that payment, insurers' liability to all such parties arising from any one event giving rise to a claim under this policy and (if applicable) in the aggregate.

3 Insurers shall be entitled to avoid liability to or (as may be appropriate) claim damages from any insured party in circumstances of fraud misrepresentation non-disclosure or material breach of warranty or condition of this policy (each referred to in this clause as a "**Vitiating Act**") committed by that insured party save where such misrepresentation non-disclosure or breach of warranty or condition was committed innocently and in good faith.

4 For the avoidance of doubt it is however agreed that a Vitiating Act committed by one insured party shall not prejudice the right to indemnity of any other insured who has an

insurable interest and who has not committed the Vitiating Act.

5 Insurers hereby agree to waive all rights of subrogation and/or recourse which they may have or acquire against any insured party (together with their employees and agents) except where the rights of subrogation or recourse are acquired in consequence of a Vitiating Act in which circumstances insurers may enforce such rights against the insured responsible for the Vitiating Act notwithstanding the continuing or former status of the vitiating party as an insured.

6 Notwithstanding any other provision of this policy or any other document or any act and/or omission by any insured party insurers agree that:

6.1 no party other than the Board has any authority to make any warranty, disclosure or representation in connection with this policy on behalf of the Board;

6.2 where any warranty, disclosure or representation is required from the Board in connection with this policy insurers will contact the Board in writing (in accordance with Endorsement 3 to the Contract) and set out expressly the warranty, disclosure and/or representation required within a reasonable period of time from the Board (regarding itself); and

6.3 save as set out in a request from insurers to the Board in accordance with (2) above, the Board shall have no duty to disclose any fact or matter to insurers in connection with this policy save to the extent that for the Board not to disclose a fact or matter would constitute fraudulent misrepresentation and/or fraudulent non-disclosure.

Endorsement 3

Communications

1. All notices or other communications under or in connection with this policy shall be given to each insured (and the Board) in writing or by facsimile. Any such notice will be deemed to be given as follows:

1.1 if in writing, when delivered;

1.2 if by facsimile, when transmitted but only if, immediately after transmission, the sender's facsimile machine records a successful transmission has occurred.

2. The address and facsimile number of the Board for all notices under or in connection with this policy are those notified from time to time by the Board for this purpose to Project Co at the relevant time. The initial address and facsimile number of the Board are as follows:

The Board:

Address:

Facsimile No: [ ]

Attention: The Chief Executive from time to time of the Board

3. It is further agreed that a notice of claim given by the Board or any other insured shall in the absence of any manifest error be accepted by the insurer as a valid notification of a claim on behalf of all insureds.

Endorsement 4

Loss Payee (applicable only to the Physical Damage Policies)

Subject to the provision of Clause 53.22.2 of this Agreement all proceeds of this policy shall be payable without deduction or set-off to the Insurance Proceeds Account.

Endorsement 5

Primary Insurance

It is expressly understood and agreed that this policy provides primary cover for the insured parties and that in the event of loss destruction damage or liability covered by this policy which is covered either in whole or in part under any other policy or policies of insurance effected by or on behalf of any of the insured parties the insurers will indemnify the insured parties as if such other policy or policies of insurance were not in force and the insurers waive their rights of recourse if any against the insurers of such other policy or policies of insurance.

Endorsement 6

Ringfencing

The level of any indemnity available to an insured party under this policy in relation to any claim(s) concerning the Project shall not be affected and/or reduced by any claim(s) unrelated to the Project.

SECTION 4

INSURANCE ARRANGEMENTS

1 Project Co must comply with the provisions of this Section 4 of Schedule Part 15 when placing or renewing the Operational Insurances.

2 Not less than sixty (60) Business Days prior to the Completion Date and each subsequent renewal date in respect of each of the Operational Insurances, Project Co must inform the Board's Representative of the forthcoming requirement to place or renew an Operational Insurance and provide either:

2.1 confirmation that any existing long term agreement (entered into with the agreement of the Board) is being maintained, or

2.2 its proposals for obtaining competitive quotations from at least (three (3) suitable insurers. Project Co must take advice from reputable insurance brokers experienced in arranging insurances for similar risks as to which insurers are most likely to provide quotations that will represent best value for money for the Board as payer of the premiums for such insurance. In considering which insurers to approach, Project Co must consider whether any of the Shareholders enjoys any special relationship with any insurer and/or is otherwise able to procure the placing of the relevant insurance in any particular manner consistent with the requirements of this Agreement that may result in lower premiums and shall include such insurers in its proposal under this paragraph2.

3 Within [ten (10)] Business Days of receiving a notice from Project Co pursuant to paragraph2, the Board may provide Project Co with details of up to two (2) other insurers that it wishes Project Co to invite to quote for provision of the relevant Operational Insurance.

4 Not less than thirty (30) Business Days prior to the Completion Date and each subsequent renewal date for any of the Operational Insurances, Project Co must forward to the Board's Representative quotes from the proposed insurers (together with the principal terms and conditions of the relevant insurance policies), to include any insurer nominated by the Board pursuant to paragraph3, including a reasoned recommendation as to which quote Project Co views as offering best value for money for the Board, taking into account all relevant circumstances.

5 Within ten (10) Business Days of receiving a recommendation from Project Co pursuant to paragraph 4, the Board must notify Project Co in writing which insurer it is to place the relevant Operational Insurance with, failing which Project Co shall be entitled to place the relevant Operational Insurance with the insurer recommended by Project Co.

SECTION 5

BROKER'S LETTER OF UNDERTAKING

To: The Board

Dear Sirs

Agreement dated [ ] entered into between [ ] Limited ("Project Co") and [ ] (the "Board") (the "Agreement")

1 We refer to the Agreement. Unless the context otherwise requires, terms defined in the Agreement shall have the same meaning in this letter.

2 We act as insurance broker to Project Co in respect of the Insurances and in that capacity we confirm that the Insurances which are required to be procured pursuant to Clause 53 and Schedule Part 15 of the Agreement:

2.1 where appropriate name you and such other persons as are required to be named pursuant to the Agreement for their respective interests;

2.2 are, in our reasonable opinion as insurance brokers, as at today's date, in full force and effect in respect of all the matters specified in the Agreement; and

2.3 that all premiums due to date in respect of the Insurances are paid and the Insurances are, to the best of our knowledge and belief, placed with insurers which, as at the time of placement, are reputable and financially sound. We do not, however, make any representations regarding such insurers' current or future solvency or ability to pay claims; and that

2.4 the endorsements set out in Section 3 (*Endorsements*) of Schedule Part 15 (*Insurance Requirements*) of the Agreement are as at today's date in full force and effect in respect of the Insurances.

3 We further confirm that the attached cover notes confirm this position.

4 Pursuant to instructions received from Project Co and in consideration of your approving our appointment [or continuing appointment] as brokers in connection with the Insurances, we hereby undertake in respect of the interests of the Board in relation to the Insurances:

4.1 **Notification Obligations**

4.1.1 to notify you at least 30 (thirty) days prior to the expiry of any of the Insurances if we have not received instructions from Project Co to negotiate renewal and in the event of our receiving instructions to renew, to advise you promptly of the details thereof;

4.1.2 to notify you at least 30 (thirty) days prior to ceasing to act as brokers to Project Co unless, due to circumstances beyond our control, we are unable to do so in which case we shall notify you as soon as practicable; and

4.1.3 to pay into the Insurance Proceeds Account without set off or deduction of any kind for any reason all payments in respect of claims received by us from insurers in relation to the Insurances specified in Clauses 30.1 to 30.3 of the Agreement.

4.2 **Advisory Obligations**

4.2.1 to notify you promptly of any default in the payment of any premium for any of the Insurances;

4.2.2 to notify you if any insurer cancels or gives notification of cancellation of any of the Insurances, at least 30 (thirty) days before such cancellation is to take effect or as soon as reasonably practicable in the event that notification of cancellation takes place less than 30 (thirty) days before it is to take effect;

4.2.3 to notify you of any act or omission, breach or default of which we have knowledge which in our reasonable opinion may either invalidate or render unenforceable in whole or in part any of the Insurances or which may otherwise materially impact on the extent of cover provided under the Insurances; and

4.2.4 to advise Project Co of its duties of disclosure to insurers and to specifically advise upon:

(a) the facts, circumstances and beliefs that should generally be disclosed to insurers; and

(b) the obligation not to misrepresent any facts, matters or beliefs to insurers.

4.3 Disclosure Obligations

4.3.1 to disclose to insurers all information made available to us from any source and any fact, change of circumstances or occurrence made known to us from any source which in our reasonable opinion is material to the risks insured against under the Insurances and which properly should be disclosed to insurers as soon as practicable after we become aware of such information, fact, change of circumstance or occurrence whether prior to inception or renewal or otherwise; and

4.3.2 to treat as confidential all information so marked or otherwise stated to be confidential and supplied to us by or on behalf of Project Co or the Board and not to disclose such information, without the prior written consent of the supplier, to any third party other than those persons who, in our reasonable

opinion have a need to have access to such information from time to time, and for the purpose of disclosure to the insurers or their agents in respect of the Insurances in discharge of our obligation set out at Clause 4.3.1 of this letter. Our obligations of confidentiality shall not conflict with our duties owed to Project Co and shall not apply to disclosure required by an order of a court of competent jurisdiction, or pursuant to any applicable law, governmental or regulatory authority having the force of law or to information which is in the public domain.

4.4 Administrative Obligations

4.4.1 to hold copies of all documents relating to or evidencing the Insurances, including but without prejudice to the generality of the foregoing, insurance slips, contracts, policies, endorsements and copies of all documents evidencing renewal of the Insurances, payment of premiums and presentation and receipt of claims;

4.4.2 to supply to the Board and/or its insurance advisers (or the Board's or its insurance advisers' authorised representatives) promptly on written request copies of the documents set out in Clause 5.4.1 of this letter, and to the extent available, to make available to such persons promptly upon the Board's request the originals of such documents;

4.4.3 to administer the payment of premiums due pursuant to the Insurances such that, in so far as we hold appropriate funds, all such premiums shall be paid to insurers in accordance with the terms of the Insurances;

4.4.4 to administer the payment of claims from insurers in respect of the Insurances (the "Insurance Claims") including:

(a) negotiating settlement of Insurance Claims presented in respect of the Insurances;

(b) collating and presenting all information required by insurers in relation to Insurance Claims presented in respect of the Insurances, and

(c) insofar as it is relevant and practicable, liaising with and reporting to each Board throughout the settlement, payment and administration of such Insurance Claims.

4.4.5 to advise the Board promptly upon receipt of notice of any material changes which we are instructed to make in the terms of the Insurances and which, if effected, in our opinion as Insurance Brokers would result in any material reduction in limits or coverage or in any increase in deductibles, exclusions or exceptions;

4.4.6 to advise the Board in advance of any change to the terms of, or any lapse, non-renewal and/or cancellation of any policy maintained in respect of the Insurances;

4.4.7 to use our reasonable endeavours to have endorsed on each and every policy evidencing the Insurances (when the same is issued) endorsements substantially in the form set out in Section 3 (Endorsements) to Schedule Part 15 (Required Insurances) of the Agreement; and

4.4.8 to provide, prior to the Commencement of the Operational Insurances and prior to each renewal of any of them, a statement containing

(a) the information required to satisfy the requirement of Section 4 of Schedule Part 15 (*Insurance Requirements*) to the Project Agreement; and

(b) our opinion, supported by appropriate evidence, of the generally prevailing market for the relevant Insurance and of any other circumstances relevant to the application of paragraph 3.2 of Section 6 (*Pass Through Costs*) of Schedule Part 14 (*Payment Mechanism*) to the Project Agreement to the premiums for the relevant Insurance specifying the impact of each factor on the premium quotations obtained.

5 NOTIFICATION DETAILS

Our obligations at Clause 4 of this letter to notify or inform you shall be discharged by providing the requisite information in hard copy to: [Board]

6 We shall supply further letters substantially in this form on renewal of each of the Insurances and shall supply copies of such letters to those parties identified to us by the Board for such purposes.

Yours faithfully

For and on behalf of [Project Co's broker]

SCHEDULE PART 16

CHANGE PROTOCOL

SECTION 1

DEFINITIONS

In this Schedule Part 16 (*Change Protocol*) and elsewhere in this Agreement (save where Schedule Part 1 provides to the contrary) the following words shall have the following meanings:

"Adjustment Date"	means the date on which the adjustment to the Annual Service Payments takes effect in accordance with the provisions of this Agreement, or such other date as is agreed between the parties;
"Affordable"	means within the revenue resource parameters determined by the Board and notified in writing by it to Project Co as available for a proposed High Value Change;
"Approval Criteria"	has the meaning given in paragraph 7 (*Approval Criteria*) of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Approved Criteria"	has the meaning given in paragraph 8.2.1 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Assumption Adjustment"	means an adjustment to any of the assumptions contained in the Financial Model;
"Board Change"	means, as the case may be, a Low Value Change, a Medium Value Change or a High Value Change;
"Board Change Notice"	means a notice issued in accordance with this Schedule Part 16 (*Change Protocol*) requiring an Board Change;
"Calculation Date"	means the relevant date for the purposes of calculating the Incurred Change Management Fee in accordance with Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Capital Cost"	means in relation to any High Value Change the cost of carrying out the design, construction and commissioning of any construction works required to implement that High Value Change;
"Catalogue of Small Works and Services" and "Catalogue"	means the list of prices and time periods for types of Low Value Changes set out in Appendix 1 Part 1 (*Catalogue*) to this Schedule Part 16 (*Change Protocol*), as amended from time to time in accordance with paragraph 3 (*Project Co Response and Board Confirmation*) of Section 2 (*Low Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Catalogue Price"	means the total cost (excluding VAT) of carrying out a

Low Value Change as set out in the Catalogue;

"Catalogue Review Date" means each third anniversary of the Commencement Date;

"Change" means a change in the Works, the Facilities and/or Services or additional works and/or services or a change in the Board's Policies that may be made under Clause 33 (*Change Protocol*) or this Schedule Part 16 (*Change Protocol*);

"Change in Costs" means in respect of any Relevant Event, the effect of that Relevant Event (whether of a one-off or recurring nature, and whether positive or negative) upon the actual or anticipated costs, losses or liabilities of Project Co and/or the Contractor and/or any Service Provider (without double counting), including, as relevant, the following:

(a) the reasonable costs of complying with the requirements of Clauses24.9, 29(*Delay Events*),32 (*Changes in Law*) and/or Sections 2 (*Low Value Changes*) to 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*), including the reasonable costs of preparation of design and estimates;

(b) the costs of continued employment of, or making redundant, staff who are no longer required;

(c) the costs of employing additional staff;

(d) reasonable professional fees;

(e) the costs to project co of financing any relevant event (and the consequences thereof) including commitment fees and capital costs interest and hedging costs, lost interest on any of project co's own capital employed and any finance required pending receipt of a lump sum payment or adjustments to the annual service payment;

(f) the effects of costs on implementation of any insurance reinstatement in accordance with this Agreement, including any adverse effect on the insurance proceeds payable to Project Co (whether arising from physical damage insurance or business interruption insurance (or their equivalent)) in respect of that insurance reinstatement and any extension of the period of implementation of the insurance reinstatement;

(g) operating costs, including Lifecycle Replacement or maintenance costs;

(h) Capital Expenditure (or, in the case of a Relevant Event which is a Relevant Change in Law, Capital Expenditure for which the Board is responsible);

(i) the costs required to ensure continued compliance with the Funding Agreements;

(j) any deductible or increase in the level of deductible, or any increase in premium under or in respect of any insurance policy; and

(k) Direct Losses or Indirect Losses, including reasonable legal expenses on an indemnity basis;

"Change Management Fee" means the fee calculated in accordance with paragraph (*Information and notifications by the Board to Project Co and cooperation of the Board*) of Section 4 (*High Value Changes*);

"Cost" where used in the definitions of High Value Change and Low Value Change means the immediate cost that will be incurred by Project Co to implement the relevant Change, disregarding any Whole Life Costs;

"Derogated Low Value Change" means:

(a) [list specific types of Changes to be allowed] and

(b) any other Low Value Change that:

(i) consists of minor works;

(ii) only affects the interior of the Facilities;

(iii) does not affect any of the mechanical and electrical equipment of the Facilities;

(iv) does not involve any interference with the service media in the Facilities;

(v) will not conflict with any Programmed Maintenance or Lifecycle Replacement; and

(vi) will not prejudice any of the Operational Insurances;

"Derogated Low Value Change means a notice given by the Board in accordance with paragraph 1.2 of Section 2 (*Low Value Changes*) of this

Notice"	Schedule Part 16 (*Change Protocol*);
"Estimate"	has the meaning given in paragraph 3 of Section 3 (*Medium Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Estimated Change in Project Costs"	means, in respect of any Relevant Event, the aggregate of any Change in Costs and/or (without double counting) Change in Revenue (as relevant);
"High Value Change"	means: (a) a Change requested by the Board that, in the reasonable opinion of the Board, is likely either to Cost in excess of [five hundred thousand pounds (£500,000)] index linked or to require an adjustment to the Annual Service Payment that on a full year basis is 2% or more of the Annual Service Payment in the relevant Contract Year provided that the parties may agree that such a Change should instead be processed as a Medium Value Change; or (b) any other Change that the parties agree is to be treated as a High Value Change;
"High Value Change Proposal"	means a proposal satisfying the requirements of paragraph 3.4 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"High Value Change Requirements"	has the meaning given in paragraph 2.1.3 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"High Value Change Stage 2 Submission"	has the meaning given in paragraph 4.1.1 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Incurred Change Management Fee"	means the amounts actually incurred or payable by or on behalf of Project Co up to the Calculation Date in respect of matters identified by Project Co pursuant to paragraphs 3.4.3 and/or 4.3.7 of Section 4 (*High Value Changes*) of this Schedule as falling within the Change Management Fee (and not already reimbursed by the Board);
"Input Adjustment"	means any adjustment to the Financial Model other than Assumption Adjustment and Logic Adjustments;
"Key Ratios"	means the following ratios: (a) the [Loan Life Cover Ratio] (as defined in the Senior Funding Agreements); (b) the [Annual Debt Service Cover Ratio] (as defined

in the Senior Funding Agreements);

(c) the [Project IRR]; and

(d) the [Subordinated Debt Rate];

"Logic Adjustment" means an adjustment to the logic or formulae contained in the Financial Model;

"Low Value Change" means a Change which is either:

(a) of a type listed in the Catalogue of Small Works and Services; or

(b) is not so listed, but has an individual Cost not exceeding [twenty five thousand pounds (£25,000)] index linked , or as otherwise agreed from time to time, except for any request that would (if implemented) increase the likelihood of Project Co failing to meet the Board's Construction Requirements and/or the Service Level Specification or materially and adversely affect Project Co's ability to perform its obligations under this Agreement;

"Medium Value Change" means a Change requested by the Board which is not a Low Value Change or a High Value Change;

"Post-Adjustment Financial Model" means the Financial Model in effect immediately following the making of the relevant Adjustments;

"Pre-Adjustment Financial Model" means the Financial Model in effect immediately prior to the making of the relevant Adjustments;

"Project Co Change" means a Change that is initiated by Project Co by submitting a Project Co Notice of Change to the Board pursuant to Section 5 (*Project Co Changes*) of this Schedule Part 16 (*Change Protocol*);

"Project Co Notice of Change" has the meaning given in paragraph 1 of Section 5 (*Project Co Changes*) of this Schedule Part 16 (*Change Protocol*);

"Relevant Event" means an event or circumstance in which this Agreement expressly provides for an adjustment to the Annual Service Payments to be made;

"Review Procedure" means the procedure set out in Schedule Part 8 (*Review Procedure*);

"Small Works and Services Rates" means the rates to be applied in respect of any request from the Board for a Low Value Change set out in Appendix 1 Part 2 (*Small Works and Services Rates*) to this Schedule Part 16 (*Change Protocol*), as amended from time to time in accordance with paragraph 8 of

	Section 2 (*Low Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Stage 1 Approval"	has the meaning given in paragraph 3.7 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Stage 1 Approved Project"	has the meaning given in paragraph 3.7 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Stage 2 Approval"	has the meaning given in paragraph 8.2.1 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Target Cost"	has the meaning given in paragraph 2.1.2 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
"Third Party Costs"	means the costs incurred by Project Co with third parties in responding to an Board Change Notice for a Medium Value Change or a High Value Change, including, but not limited to, the Sub-Contractors, consultants and advisers; and
"Whole Life Cost"	means the estimated and (to the extent that such information is available) the actual cost of operating and maintaining that High Value Change over its intended design life (consistent with Project Co's Proposals).

SECTION 2

LOW VALUE CHANGES

1. Low Value Change Notice

1.1 Subject to paragraph 1.2 of this Section 2 (*Low Value Changes*), where a Low Value Change is required by the Board, it must submit an Board Change Notice to Project Co.

1.2 The Board may carry out Derogated Low Value Changes during the Operational Term. If the Board wishes to carry out a Derogated Low Value Change it shall send Project Co a notice at least [five (5)] Business Days prior to the date on which it proposes to start to implement the Change setting out the nature of the proposed Change in sufficient detail to enable Project Co to satisfy itself that the proposed Change constitutes a Derogated Low Value Change. Project Co may notify the Board within [three (3)] Business Days of receipt of a Derogated Low Value Change Notice that it does not agree that the proposed Change constitutes a Derogated Low Value Change and, unless the parties otherwise agree, the Board must not take any steps to carry out the proposed Change unless it has referred the dispute to the Dispute Resolution Procedure and it has been determined that the proposed Change is a Derogated Low Value Change.

1.3 If it carries out a Derogated Low Value Change, the Board must use Good Industry Practice to the standards that would have applied to Project Co if it had carried it out as a Low Value Change.

2 Board Change Notice

An Board Change Notice for a Low Value Change must:

2.1 state that it relates to a Low Value Change;

2.2 contain a description of the works and/or the change to the Works and/or the Services that the Board requires including, if relevant, the applicable type of Low Value Change listed in the Catalogue; and

2.3 if there is no applicable type of change listed in the Catalogue, specify the time period within which the Board requires the Change to be implemented.

3 Project Co Response and Board Confirmation

Within five (5) Business Days of receipt of an Board Change Notice for a Low Value Change, Project Co must notify the Board of:

3.1 the cost of implementing the required Low Value Change; and

3.2 the time period for implementing the Low Value Change,

in each case in accordance with paragraph 4 of this Section 2 (*Low Value Changes*).

4 Cost and Timing

4.1 If the Low Value Change is of a type listed in the Catalogue, the cost of carrying out that Low Value Change shall not exceed the relevant Catalogue Price and the time period for implementing the Low Value Change shall not exceed the relevant time specified in the Catalogue.

4.2 If the Low Value Change is not of a type that is listed in the Catalogue, the cost of carrying out that Low Value Change shall be calculated on the basis that:

4.2.1 wherever practicable the Low Value Change will be carried out by an existing on-site and suitably qualified employee of Project Co or a Project Co Party and in that case Project Co may not charge for labour. Where there is no such suitably qualified on-site employee reasonably available to carry out the Low Value Change, the cost of the labour element will be calculated in accordance with the Small Works and Services Rates or, where such rates are not applicable, in accordance with rates which are fair and reasonable; and

4.2.2 the materials element will be charged at the cost of materials to Project Co or to the Project Co Party carrying out the work (net of all discounts) and there shall be no management fee, margin, overhead, contingency or other cost applied in relation thereto.

4.3 Other than the costs referred to in paragraphs 4.1 and 4.2 of this Section 2 (*Low Value Changes*) Project Co may not charge the Board for processing, implementing or managing a Low Value Change.

5 Board objection

The Board may object in writing within five (5) Business Days of receipt of Project Co's notice pursuant to paragraph 3 of this Section 2 (*Low Value Changes*), to any part of that notice and in that event the parties shall act reasonably to endeavour to agree as soon as practicable how the Low Value Change is to be implemented, which may include the Board withdrawing the Board Notice of Change.

6 Implementation

6.1 Project Co must implement a required Low Value Change so as to minimise any inconvenience to the Board and, subject to paragraph 10.2 of this Section 2 (*Low Value Changes*), within the timescale specified in the notice given by Project Co pursuant to paragraph 3 of this Section 2 (*Low Value Changes*) (or agreed by the parties pursuant to paragraph 5 of this Section 2 (*Low Value Changes*)).

6.2 Project Co shall notify the Board when it considers that the Low Value Change has been completed.

6.3 If Project Co:

6.3.1 fails to give a notice to the Board in accordance with paragraph 3 of this Section 2 (*Low Value Changes*) within fifteen (15) Business Days of the date of the Board Change Notice; or

6.3.2 gives a notice pursuant to paragraph 3 of this Section 2 (*Low Value Changes*) to which the Board has objected pursuant to paragraph 5 of this Section 2 (*Low Value Changes*) on any ground other than the cost of the Low Value Change, the parties have not reached agreement as to how the Low Value Change is to be implemented and the objection has not been referred to the Dispute Resolution Procedure; or

6.3.3 gives a notice pursuant to paragraph 3 of this Section 2 (Low Value Changes) to which the Board does not object pursuant to paragraph 5 but then fails to fully implement the Low Value Change within ten (10) Business Days after the timescale specified in that notice or agreed in accordance with paragraph 5 of this Section 2 (*Low Value Changes*),

then, subject to paragraph 10.3 of this Section 2 (*Low Value Changes*), the Board may notify Project Co that the Low Value Change Notice is withdrawn and, following such notification, may procure the implementation of the Low Value Change without further recourse to Project Co, but the Board must ensure that the Low Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the Low Value Change.

7 Payment

Unless the Board notifies Project Co within five (5) Business Days of receipt of a notice from Project Co pursuant to paragraph 6.2 above that the Low Value Change has not been implemented to its reasonable satisfaction:

7.1 Project Co shall, where the Low Value Change is implemented prior to the Operational Term, issue an invoice in respect of the costs of the Low Value Change, which the Board must pay within 20 Business Days of receipt; or

7.2 Project Co shall, where the Low Value Change is implemented during the Operational Term, include the costs of the Low Value Change in the next Monthly Invoice submitted pursuant to Clause 34.2 of this Agreement following completion or implementation of the relevant Low Value Change and the amounts payable for the Low Value Changes shall be invoiced and paid in accordance with the procedure described in Clause 34 of this Agreement.

8 Update of Catalogue and Small Works and Services Rates

8.1 From the Commencement Date the Catalogue shall be that set out in Part 1 of Appendix 1 to this Schedule Part 16 (*Change Protocol*) and the Small Works and Services Rates shall be those set out in Part 2 of Appendix 1 to this Schedule Part 16 (*Change Protocol*).

8.2 Subject to paragraph 8.3 of this Section 2 (*Low Value Changes*), the unit prices and the Small Works and Services Rates set out in the Catalogue and the Small Works and Services Rates shall be index linked on each anniversary of the Commencement Date for the change in RPI since the Commencement Date or, after the first Catalogue Review Date, since the most recent Catalogue Review Date.

8.3 On the date which is twenty (20) Business Days before each Catalogue Review Date, Project Co must provide the Board with:

8.3.1 a revised and updated Catalogue which:

(a) includes in the Catalogue unit prices for any types of Low Value Changes which have occurred and which the parties consider are reasonably likely to reoccur during the life of the Project and any other types of Low Value Changes as the parties may agree; and

(b) includes time periods for the carrying out of each listed type of Low Value Change; and

8.3.2 updated Small Works and Services Rates.

The unit prices and Small Works and Services Rates will be for the ensuing three-year period following the Catalogue Review Date. The unit prices must represent good value for money having regard to:

(a) prices prevailing for similar items in the market at the time; and

(b) paragraph 4.2 of this Section 2 (*Low Value Changes*).

The Small Works and Services Rates must provide value for money with reference to rates prevailing for similar services in the market at the time.

8.4 Within ten (10) Business Days of the submission by Project Co of the revised and updated Catalogue and Small Works and Services Rates pursuant to paragraph 8.3 of this Section 2 (*Low Value Changes*), the Board shall confirm in writing whether or not it agrees that the revised and the updated Catalogue shall constitute the Catalogue and the updated Small Works and Services Rates shall constitute the Small Works and Services Rates for the purposes of this Agreement from the relevant Catalogue Review Date;

8.5 If the Board does not confirm to Project Co that it agrees with the revised and updated Catalogue and/or Small Works and Services Rates provided by Project Co pursuant

to paragraph 8.3 of this Section 2 (*Low Value Changes*), the parties shall meet and endeavour, in good faith, to agree any amendments to the Catalogue and/or Small Works and Services Rates. Any dispute in relation to this paragraph 8 may be referred by either party to the Dispute Resolution Procedure. The revised and updated Catalogue and revised and updated Small Works and Services Rates with such amendments as are agreed by the parties or determined under the Dispute Resolution Procedure shall constitute the Catalogue and the Small Works and Services Rates for the purposes of this Agreement from the relevant Catalogue Review Date.

9 Documentation and Monitoring

9.1 No due diligence (whether funder, legal, technical, insurance or financial) shall be required in relation to Low Value Changes unless otherwise agreed between the parties.

9.2 No changes shall be made to this Agreement or any Project Document as a result of a Low Value Change, unless otherwise agreed between the parties.

9.3 Where it is agreed that an adjustment of the Annual Service Payment is required in respect of a Low Value Change, the Financial Model shall be adjusted to give effect to such Low Value Changes once each Contract Year on a date to be agreed between the parties and all relevant Low Value Changes that have occurred since the preceding such adjustment shall be aggregated together into a single cumulative adjustment in accordance with Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*).

9.4 Project Co shall keep a record of all Low Value Changes processed, completed and outstanding and shall provide the Board with a copy of that record whenever reasonably required by the Board.

10 Disputes

10.1 Any dispute concerning any matter referred to in this Section 2 (*Low Value Changes*) may be referred by either party to the Dispute Resolution Procedure.

10.2 Project Co shall not be obliged to implement the Low Value Change until any dispute has been determined except that where such dispute concerns only the cost of a Low Value Change, unless the Board otherwise directs, Project Co must continue to carry out or implement the Low Value Change within the prescribed timescale notwithstanding the dispute.

10.3 The Board is not entitled to withdraw an Board Change Notice and procure implementation of a Low Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will implement and carry out the Low Value Change in accordance with the determination.

SECTION 3

MEDIUM VALUE CHANGES

1 Medium Value Changes

1.1 If the Board requires a Medium Value Change, it must serve an Board Change Notice on Project Co in accordance with paragraph 2 (*Medium Value Change Notice*) of this Section 3 (Medium Value Changes).

1.2 Project Co shall be entitled to refuse a Medium Value Change that:

1.2.1 requires the Works and/or the Services to be performed in a way that infringes any law or is inconsistent with Good Industry Practice;

1.2.2 would cause any Necessary Consent to be revoked (or would require a new consent to be obtained or any existing Necessary Consent to be amended which, after using reasonable efforts, Project Co has been unable to obtain);

1.2.3 would materially and adversely affect Project Co's ability to deliver the Works and/or the Services (except those Works and/or Services which have been specified as requiring to be amended in the Board Change Notice) in a manner not compensated for pursuant to this Section 3 (*Medium Value Changes*);

1.2.4 would materially and adversely affect the health and safety of any person;

1.2.5 would, if implemented, materially and adversely change the nature of the Project (including its risk profile); or

1.2.6 the Board does not have the legal power or capacity to require implementation of.

2 Medium Value Change Notice

2.1 An Board Change Notice for a Medium Value Change must:

2.1.1 state that it refers to a Medium Value Change;

2.1.2 set out the change in the Works or Services or the additional works or services required in sufficient detail to enable Project Co to calculate and provide the Estimated Change in Project Costs in accordance with paragraph 3 (*Contractor's Estimate*) of this Section 3 (*Medium Value Changes*);

2.1.3 set out whether, in respect of any additional facilities, Project Co is expected to provide facilities management services and lifecycle maintenance services in respect of such additional facilities; and

2.1.4 set out the timing of the additional works or services required by the Board.

2.2 Within fifteen (15) Business Days of receipt of the Medium Value Change Notice, Project Co must notify the Board in writing:

2.2.1 whether it considers that it is entitled to refuse the Medium Value Change on any of the grounds set out in paragraphs 1.2.1 to 1.2.6 of this Section 3;

2.2.2 when it will provide the Estimate to the Board bearing in mind the requirement in paragraph 7.2.2 of this Section 3; and

2.2.3 its estimate of the Third Party Costs that it will incur to prepare the Estimate.

2.3 If Project Co notifies the Board that it considers that it is entitled to refuse the Medium Value Change on one or more of the grounds set out in paragraphs 1.2.1 to 1.2.6 of this Section 3, then unless the parties otherwise agree, the Board shall be deemed to have withdrawn the Board Notice of Change if it has not referred the matter to the Dispute Resolution Procedure within twenty (20) Business Days of receipt of Project Co's notice.

2.4 If the Board considers that Project Co's proposed time for providing the Estimate is not reasonable, the parties shall endeavour to agree the time, failing which the matter may be referred to the Dispute Resolution Procedure.

2.5 If the Board considers that the Project Co's estimate of Third Party Costs to prepare the Estimate is not reasonable, the parties shall endeavour to agree the same, failing which the matter may be referred to the Dispute Resolution Procedure.

2.6 If any matter is referred to the Dispute Resolution Procedure pursuant to paragraph 2 (*Medium Value Change Notice*) of this Section 3 (*Medium Value Changes*), the time for Project Co to provide the Estimate shall be counted from the date of determination of that dispute if the dispute is determined in Project Co's favour.

3 Contractor's Estimate

As soon as reasonably practicable and in any event within the time period agreed or determined pursuant to paragraph 2.4 of this Section 3, Project Co shall deliver to the Board the Estimate.

The Estimate must contain:

3.1 a detailed timetable for implementation of the Medium Value Change;

3.2 any requirement for relief from compliance with obligations, including the obligations of Project Co to achieve the Actual Completion Date by the Completion Date and to meet the requirements set out in the Board's Construction Requirements and/or the Service Level Specification during the implementation of the Medium Value Change;

3.3 an outline of the proposed design solution and design, including an appropriate analysis/risk appraisal and, to the extent relevant, the impact on whole life costings;

3.4 any impact on the provision of the Works and/or the Services;

3.5 a value for money justification for any proposed change to the quality of the works or the services comprised in the Medium Value Change as compared to the Works and the Services;

3.6 any amendment required to this Agreement and/or any Project Document as a result of the Medium Value Change;

3.7 any Estimated Change in Project Costs that results from the Medium Value Change;

3.8 any Capital Expenditure that is required or no longer required as a result of the Medium Value Change;

3.9 amendments to existing Necessary Consents that are required;

3.10 a payment schedule for any Capital Expenditure required to implement the Change, based on milestones where relevant;

3.11 costs and details of (i) any other approvals required and/or due diligence permitted pursuant to paragraph 12 of this Section 3 (*Medium Value Changes*); and (ii) any Third Party Costs;

3.12 the method of implementation and the proposed method of certification of any construction aspects of the Medium Value Change, if not covered by the procedures specified in Clause 14 (*Programme and Dates for Completion*); and

3.13 any other information requested by the Board in the Board Change Notice.

together the "**Estimate**"

4 Costing of the Estimate

In calculating the Estimated Change in Project Costs and/or the Capital Expenditure for the purposes of the Estimate, Project Co shall apply the following principles wherever applicable:

4.1 unless the Board's requirements for the Medium Value Change specify a different quality as compared to the Works:

4.1.1 the unit cost of any construction or installation works or associated preliminaries (excluding any temporary or demolition works, professional fees, contingencies, overheads and profit margins) required to implement the Medium Value Change is the equivalent unit rate set out in Part 1 (*Unit Cost for Construction or Installation Costs*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*), uplifted using the DTI Pubsec index for construction cost inflation in the period between the Commencement Date and the date the Medium Value Change is to be commenced;

4.1.2 any Lifecycle Replacement and Maintenance Works associated with additional works (or changes to the Works) are consistent with the lifecycle and maintenance profile of the Facilities envisaged in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) including (without limitation) in terms of the replacement cycles for equipment, provided that Project Co must reflect improvements in technology that can optimise Whole Life Costs for the Board; and

4.1.3 the unit costs to be applied to the pricing of lifecycle replacement and maintenance is the equivalent unit rate set out in Part 2 (*Unit Costs of Lifecycle Maintenance*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*) (index linked);

4.2 any professional fees, contingencies, overheads and/or profit margins to be charged by any consultant, sub-contractor or supplier in respect of construction and/or installation and/or lifecycle and/or service provision for the Medium Value Change are the equivalent rates set out in Part 3 (*Consultant, Sub-contractor or Supplier Fees*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*), or if the professional fees, contingencies, overheads and profit margins being charged by consultants, sub-contractors and/or suppliers in current market conditions have changed significantly from those set out in Part 3 (*Consultant, Sub-contractor or Supplier Fees*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*), such other rates as the parties agree or failing agreement as may be determined under the Dispute Resolution Procedure as being consistent with those charged in current market conditions;

4.3 unless the Board's requirements for the Medium Value Change specify a different quality than required by the Service Level Specification, the unit cost of any extension of, or change to, any Service (either in scope or area), taking into account the capacity of existing labour resources, is consistent with the equivalent unit rate set out in Part 4 of Appendix 2 to this Schedule Part 16 (*Change Protocol*);

4.4 other than as referred to in paragraphs 4.1 to 4.3 of this Section 3 (*Medium Value Changes*) no charge shall be made in respect of Project Co's time, or that of any Project Co Party spent processing, managing or monitoring the Medium Value Change (and no additional mark up or management fee shall be applied by Project Co); and

4.5 where aspects of the Medium Value Change are not addressed by paragraphs 4.1 to 4.4 of this Section 3 (*Medium Value Changes*), they shall be costed on a fair and reasonable basis reflecting the then current market rates.

5 Standards of provision of the Estimate

In providing the Estimate Project Co must:

5.1 use reasonable endeavours to oblige its Sub-Contractors to minimise any increase in costs and maximise any reduction in costs;

5.2 demonstrate how any Capital Expenditure to be incurred or avoided is being measured in a cost effective manner, including showing that when such expenditure is incurred, reasonably foreseeable Changes in Law at that time have been taken into account; and

5.3 demonstrate that any expenditure that has been avoided, which was anticipated to be incurred to replace or maintain assets that have been affected by the Medium Value Change concerned, has been taken into account in the amount which in its opinion has resulted or is required under paragraphs 3.7 and/or 3.8 of this Section 3; and

5.4 provide written evidence of Project Co's compliance with paragraphs 5.1 to 5.3 of this Section 3.

6 Determination of the Estimate

As soon as practicable after the Board receives the Estimate, the parties shall discuss and endeavour to agree the contents of the Estimate. If the parties cannot agree on the contents of the Estimate, the matter may be referred by either party to the Dispute Resolution Procedure to determine if the Estimate represents a fair and reasonable approach to implementing the Medium Value Change in all respects.

7 Confirmation or Withdrawal of the Medium Value Change Notice

7.1 As soon as practicable after the contents of the Estimate have been agreed or otherwise determined pursuant to paragraph 6 of this Section 3, the Board shall:

7.1.1 confirm in writing to Project Co the Estimate (as modified); or

7.1.2 withdraw the Board Change Notice.

7.2 If, in any Contract Year, the Board has either not confirmed an Estimate (as modified, if applicable) within twenty (20) Business Days of the contents of the Estimate having been agreed or determined in accordance with the foregoing provisions of this Section 3 or has withdrawn an Board Change Notice for a Medium Value Change on three or more occasions, then the Board shall pay to Project Co on the third and each subsequent such occasion in that Contract Year the reasonable additional Third Party Costs incurred by Project Co in preparing the Estimate provided that:

7.2.1 Project Co has used all reasonable endeavours to submit a reasonably

priced Estimate; and

7.2.2 Project Co made available to the Board, with the Estimate, a cost break down of Third Party Costs incurred by Project Co to prepare the Estimate, which shall be consistent with the estimate of such costs approved by the Board pursuant to paragraph 2.5 of this Section 3.

8 Implementation of the Medium Value Change

8.1 When the Board has confirmed the Estimate in accordance with paragraph 7.1 of this Section 3, Project Co shall, subject to Project Co obtaining all new or amended Necessary Consents that are required and have not already been obtained, implement the required Medium Value Change in accordance with the Estimate. Where an extension of time has been agreed as part of the Estimate the Completion Date shall be extended as agreed in the Estimate.

8.2 Project Co shall notify the Board when it considers that the Medium Value Change has been completed.

8.3 If:

8.3.1 Project Co fails to provide a response pursuant to paragraph 2.2 of this Section 3 within fifteen (15) Business Days of the date of the Medium Value Change Notice; or

8.3.2 Project Co fails to provide an Estimate in accordance with paragraph 3 of this Section 3; or

8.3.3 the Board has confirmed an Estimate but Project Co fails to fully implement the Medium Value Change within ten (10) Business Days after the expiry of the time for implementing the Medium Value Change set out in the Estimate Low Value Change (as such time may be extended for any delay that is, or is equivalent to, a Delay Event);

then, subject to paragraph 14.3 of this Section 3, the Board may notify Project Co that the Medium Value Change Notice is withdrawn and, following such notification, may procure the implementation of the Medium Value Change without further recourse to Project Co, but the Board must ensure that the Medium Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the Medium Value Change.

9 Certification of the Medium Value Change

9.1 Where the Medium Value Change is implemented at the Facilities and/or the Retained Estate Handback Infrastructure before the Actual Completion Date, the procedure set out at Clause 17 (*Pre-Completion Commissioning and Completion*) shall apply to the Medium Value Change at the same time as it applies to the original Works.

9.2 Where the Medium Value Change is implemented at the Facilities after the Actual Completion Date and constitutes additional works, the procedure set out and agreed in the Estimate for certifying the completion of the Medium Value Change shall apply to determine whether the Medium Value Change has been completed appropriately.

10 Method of Payment of Board Contribution

10.1 Project Co shall invoice the Board for Capital Expenditure incurred by Project Co to implement a Medium Value Change according to the payment schedule set out in the Estimate as referred to in paragraph3.10.

10.2 The Board shall make a payment to Project Co within fifteen (15) Business Days of receipt by the Board of invoices presented to the Board (complete in all material respects) in accordance with paragraph 10.1 of this Section 3 accompanied by the relevant evidence (where applicable) that the relevant part of the Medium Value Change has been carried out.

11 Adjustment to Annual Service Payment

Any adjustment to the Annual Service Payment that is necessary due to the implementation of a Medium Value Change shall be calculated in accordance with Section 6 of this Schedule Part 16 (*Change Protocol*).

12 Due Diligence

12.1 Project Co shall procure that the Senior Lenders shall not:

12.1.1 (in any event) withhold or delay any consents that are required pursuant to the Senior Financing Agreements to a Medium Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.6 of this Section 3 apply; or

12.1.2 carry out any due diligence (whether funder, legal, technical, insurance or financial) in relation to the carrying out of any Medium Value Change unless either (i) the Medium Value Change in question would result in an adjustment to the Annual Service Payment that, on a full year basis, is in excess of one percent (1%) of the Annual Service Payment in the relevant Contract Year or (ii) the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.6 of this Section 3 apply.

12.2 Where not prohibited by paragraph 12.1 of this Section 3, the Senior Lenders may carry out legal, financial, insurance and/or technical due diligence on any proposal for a Medium Value Change. In the event that such due diligence is permitted and required, the parties shall agree a budget for the due diligence not exceeding 5% of the overall value of the Medium Value Change in question unless the parties (acting reasonably) agree otherwise. Any costs incurred by Project Co as a result of the Senior Lenders due diligence shall be reimbursed by the Board following agreement

or determination of the contents of the Estimate within ten (10) Business Days of Project Co submitting an invoice for and evidence of such costs, subject to the invoices being in accordance with the agreed budget.

12.3 It is acknowledged that Changes (particularly where they involve a change to the Works or the Facilities) may require authorisation from the insurers under the Required Insurances. Project Co shall notify the relevant insurance broker immediately upon any material Medium Value Change being agreed (materiality being judged in relation to the size and nature of the scope of the Medium Value Change).

13 Project Documentation

13.1 Unless the parties otherwise agree, no changes to the Project Documents shall be made as a result of a Medium Value Change.

13.2 Project Co shall, no later than one (1) month following completion of a Medium Value Change, update the as-built drawings and the operating and maintenance manuals as necessary to reflect the Medium Value Change.

14 Disputes

14.1 Any dispute concerning any matter referred to in this Section 3 may be referred by either party to the Dispute Resolution Procedure.

14.2 Project Co shall not be obliged to implement the Medium Value Change until the dispute has been determined.

14.3 The Board is not entitled to withdraw an Board Change Notice and procure implementation of a Medium Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will implement and carry out the Medium Value Change in accordance with the determination.

SECTION 4

HIGH VALUE CHANGES

1 High Value Changes

1.1 If the Board requires a High Value Change it must serve an Board Change Notice on Project Co in accordance with paragraph 2 of this Section 4 (*High Value Changes*).

1.2 Project Co shall be entitled to refuse a High Value Change that:

1.2.1 requires the Works and/or the Services to be performed in a way that 1.2.1infringes any law or is inconsistent with Good Industry Practice;

1.2.2 would cause any Necessary Consent to be revoked (or would require a new consent to be obtained to implement the relevant change in the Works and/or the Services which, after using reasonable efforts, Project Co has been unable to obtain);

1.2.3 would materially and adversely affect Project Co's ability to deliver the Works and/or the Services (except those Works and/or Services which have been specified as requiring to be amended in the High Value Change Notice) in a manner not compensated pursuant to this Section 4 (High Value Changes);

1.2.4 would materially and adversely affect the health and safety of any person;

1.2.5 would, if implemented, materially and adversely change the nature of the Project (including its risk profile);

1.2.6 is the subject of a High Value Change Notice that cannot reasonably be complied with;

1.2.7 the Board does not have the legal power or capacity to require implementation of; or

1.2.8 would if implemented adversely affect the enforceability or priority of the security held by or on behalf of the existing Senior Lenders.

2 High Value Change Notice

2.1 An Board Change Notice for a High Value Change must:

2.1.1 state that is refers to a High Value Change;

2.1.2 set out the maximum available capital and/or revenue the Board is able to commit to that High Value Change (the **"Target Cost"**);

2.1.3 identify any requirements of the Board that must be satisfied as part of the High Value Change Proposal (the **"High Value Change Requirements"**); and

2.1.4 identify how the Board will assess whether the High Value Change Stage 2 Submission offers it value for money.

2.2 The parties may agree written protocols with express reference to this Section 4 (*High Value Changes*) which explain or clarify any aspects of the High Value Change approval procedure set out in this Section 4 (*High Value Changes*) and such protocols shall be read as if incorporated into this Section 4 (*High Value Changes*) (including accelerated procedures with reduced requirements for High Value Changes of relatively low values).

2.3 The parties must:

2.3.1 within five (5) Business Days of receipt by Project Co of any High Value Change Notice, discuss and review the nature of the High Value Change, including a discussion as to which of the items set out in paragraph 3.4 of this Section 4 (*High Value Changes*) are appropriate to be included within the High Value Change Proposal; and

2.3.2 within five (5) Business Days of a High Value Change Proposal becoming a Stage 1 Approved Project, discuss and review the nature of the Stage 1 Approved Project, including a discussion as to which of the items set out in paragraph 4.3 of this Section 4 (*High Value Changes*) are appropriate to be included within the High Value Change Stage 2 Submission.

3 High Value Change Proposal

3.1 Project Co must notify the Board in writing as soon as practicable and in any event within fifteen (15) Business Days after having received the Board Change Notice for a High Value Change if it considers that any of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (High Value Changes) apply. If no such notice is served, Project Co must (within thirty (30) Business Days after having received the Board Change Notice) either:

3.1.1 submit a High Value Change Proposal to the Board; or

3.1.2 notify the Board as to when the High Value Change Proposal will be provided to it (provided that Project Co shall use all reasonable endeavours to obtain all the information that it requires, expeditiously).

3.2 If Project Co notifies the Board that it considers that one or more of the grounds set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply, then

unless the parties otherwise agree, the Board shall be deemed to have withdrawn the Board Notice of Change if it has not referred the matter to the Dispute Resolution Procedure within twenty (20) Business Days of receipt of Project Co's notice. If the matter is referred to the Dispute Resolution Procedure the time for Project Co to provide the High Value Change Proposal shall be counted from the date of determination of that dispute if the dispute is determined in Project Co's favour.

3.3 If the Board considers that Project Co's proposed time for providing the High Value Change Proposal is not reasonable, the parties shall endeavour to agree the time, failing which the matter may be referred to the Dispute Resolution Procedure.

3.4 Unless Project Co has submitted a High Value Change Proposal in accordance with paragraph 3.1.1 of this Section 4 (*High Value Changes*), Project Co must deliver to the Board the High Value Change Proposal as soon as reasonably practicable and in any event within the time period agreed or determined pursuant to paragraph 3.3 of this Section 4 (*High Value Changes*). Unless the parties agree otherwise, a High Value Change Proposal will contain at least the following information in sufficient detail to enable the Board to make an informed decision under paragraph 3.6 of this Section 4 (*High Value Changes*):

3.4.1 a description of the High Value Change, with evidence of how the High Value Change meets the High Value Change Requirements;

3.4.2 an outline of the proposed building solution and design including an appropriate analysis/risk appraisal of, in each case to the extent relevant (if at all), the preferred investment solution contemplated in terms of new build, refurbishment, whole life costings;

3.4.3 the Change Management Fee for the High Value Change, which shall be a capped fee calculated in accordance with paragraph 10 of this Section 4 (*High Value Changes*);

3.4.4 details of the third party activity likely to be required by Project Co in developing a High Value Change Stage 2 Submission together with a budget (or budgets) for relative Third Party Costs;

3.4.5 an estimated programme for submission of the High Value Change Stage 2 Submission and for the implementation of the High Value Change;

3.4.6 any requirement for relief from compliance with obligations, including the obligations of Project Co to achieve the Actual Completion Date by the Completion Date and meet the requirements set out in the Board's Construction Requirements and/or the Service Level Specification during the implementation of the High Value Change;

3.4.7 any impact on the provision of the Works and/or the Services;

3.4.8 any amendment required to this Agreement and/or any Project Document as a result of the High Value Change;

3.4.9 any Estimated Change in Project Costs that results from the High Value Change;

3.4.10 an outline of how Project Co proposes to finance any Capital Expenditure required for the High Value Change;

3.4.11 Project Co's suggested payment schedule for any Capital Expenditure to be incurred in implementing the Change that is to be borne by the Board, based on milestones where relevant;

3.4.12 any new Necessary Consents and/or any amendments to existing Necessary Consents which are required;

3.4.13 costs and details of any other approvals required or due diligence permitted pursuant to paragraph 14 of this Section 4 (*High Value Changes*);

3.4.14 the proposed method of certification of any construction or operational aspects of the Works or the Services required by the proposed High Value Change if not covered by the procedures specified in Clause 17 (*Pre-Completion Commissioning and Completion*); and

3.4.15 a value for money assessment explaining why Project Co's proposals represent value for money taking into account both the proposed Capital Cost and Whole Life Cost.

3.5 **Liaison between Project Co, the Board and relevant end users**

In developing a High Value Change Proposal Project Co must liaise with the Board and relevant end users (being such persons or organisations as Project Co in consultation with the Board considers appropriate). The Board must provide Project Co with such information about its requirements as Project Co reasonably requires and must assist Project Co in the review of any draft designs in relation to the High Value Change Proposal. Any and all information and other input or feedback provided by the Board to Project Co, unless expressly stated otherwise by the Board, will be without warranty and will be provided without prejudice to the Board's rights under this Section 4 (*High Value Changes*).

3.6 **Consideration of a High Value Change Proposal by the Board**

The Board will consider in good faith each High Value Change Proposal put forward by Project Co and the Board will not unreasonably withhold or delay its consent to a High Value Change Proposal. If, acting reasonably, the Board finds that any material aspects of the High Value Change Proposal are unsatisfactory to it, it shall notify Project Co of the same and offer reasonable assistance to Project Co to enable it to revise and resubmit the High Value Change Proposal as soon as reasonably practicable.

3.7 **Board response to a High Value Change Proposal**

If the Board approves a High Value Change Proposal (including any revised High Value Change Proposal resubmitted pursuant to paragraph 3.5 of this Section 4 (*High Value Changes*)), then it shall be a **"Stage 1 Approved Project"** or be referred to as having received **"Stage 1 Approval"**, as the context requires.

3.8 **Project Co not entitled to dispute non-approval**

Project Co shall not be entitled to refer any dispute concerning the Board's failure to approve a High Value Change Proposal to the Dispute Resolution Procedure.

4 Stage 2 Submission

4.1 **Development of a High Value Change Stage 2 Submission**

4.1.1 Within ten (10) Business Days of a High Value Change Proposal having become a Stage 1 Approved Project, the parties shall seek to agree the time period within which Project Co must develop the Stage 1 Approved Project into a detailed submission (the **"High Value Change Stage 2 Submission"**). If the parties are unable to agree a reasonable time period for such submission any dispute may be referred to the Dispute Resolution Procedure.

4.1.2 Following agreement or determination of what is an appropriate time period for submission by Project Co of the High Value Change Stage 2 Submission pursuant to paragraph 4.1.1 of this Section 4 (*High Value Changes*), Project Co shall proceed regularly and diligently to produce and submit the same to the Board within the agreed or determined time period.

4.2 **Liaison between Project Co, the Board and relevant end users**

In developing a High Value Change Stage 2 Submission Project Co must continue to liaise with the Board and relevant end users (being such persons or organisations as the Board in consultation with Project Co considers appropriate). The Board must provide Project Co with such information as to its requirements as is reasonably necessary to enable Project Co to submit a full and complete High Value Change Stage 2 Submission and any such other information as Project Co may reasonably require and must assist Project Co in the review of any draft designs in relation to the Stage 1 Approved Project and in the development of other aspects of the High Value Change Stage 2 Submission (but not where this would involve the Board incurring additional material expense). Any and all information and other input or feedback provided by the Board to Project Co will be without warranty and will be provided without prejudice to the Board's rights under this Section 4 (*High Value Changes*).

4.3 **Content requirements in relation to a High Value Change Stage 2 Submission**

Save where the parties agree otherwise, in relation to the relevant Stage 1 Approved

Project, Project Co shall procure that a High Value Change Stage 2 Submission includes (but not be limited to):

4.3.1 draft(s) of the relevant Project Document(s) identifying (if relevant) any material changes or amendments proposed in respect of the relevant Stage 1 Approved Project, together with the reasons for any such changes or amendments proposed and including full details of which provisions of the relevant Project Documents will apply to the High Value Change so that it is implemented in equivalent manner and to an equivalent standard as required in respect of the Works and/or Services as appropriate;

4.3.2 detailed design solutions (to RIBA Level D);

4.3.3 appropriate plans and drawings;

4.3.4 relevant detailed planning permissions and any other relevant planning approvals and Necessary Consents (or such lesser confirmation or information in relation to planning as may be agreed with the Board);

4.3.5 a proposed revised Financial Model including the detailed price estimates for the Stage 1 Approved Project;

4.3.6 an explanation (together with appropriate supporting evidence) as to why the High Value Change Stage 2 Submission meets the Approval Criteria (as defined in paragraph 7 of this Section 4 (*High Value Changes*));

4.3.7 confirmation (or details of any requested variations to (with supporting justification)) of the Change Management Fee referred in paragraph 3.4.3 of this Section 4 (*High Value Changes*);

4.3.8 the proposed method of certification of any construction aspects of the High Value Change, if not covered by the procedures specified in Clause 17 (*Pre-Completion Commissioning & Completion*);

4.3.9 a value for money assessment explaining why Project Co's proposals represent value for money taking into account both the proposed Capital Cost and Whole Life Cost;

4.3.10 a timetable and method statement setting out how the relevant High Value Change will be delivered, which shall include (but not be limited to) in so far as relevant:

(a) proposals for the effective management of the building programme;

(b) [project specific information];

(c) an assessment as to the savings (if relevant) to be generated by the High Value Change, particularly on staff costs and lifecycle replacement and maintenance and operation of Services;

(d) details of the Sub-Contractors together with evidence and explanation of the value testing undertaken by Project Co in relation to the High Value Change;

(e) a completed risk register showing the potential risks identified in relation to the delivery of the High Value Change the occurrence of which are capable of adversely affecting the time for completion, cost and/or quality of the project, the probability of such risks occurring and a financial estimate of the most likely consequences of each risk occurring together with the prioritisation of all continuing risks and an action plan in respect of, and risk owners for, all risks prioritised as serious risks;

4.3.11 any surveys and investigations and associated reports that are reasonably necessary to ascertain (in relation to Changes involving the construction of additional buildings) information as to the nature, location and condition of the relevant land (including hydrological, geological, geotechnical and sub-surface conditions) together with information relating to archaeological finds, areas of archaeological, scientific or natural interest and (in relation to the refurbishment of any existing buildings) information on the condition and quality of existing structures and, in particular, the presence of any latent defects.

Co-operation of the Board

4.4 The Board will co-operate with Project Co in relation to any High Value Change Stage 2 Submission being developed by Project Co, including (without limitation) promptly providing:

4.4.1 written confirmation of the Target Cost and/or High Value Change Requirements and any change to such Target Cost and/or High Value Change Requirements; and

4.4.2 any information reasonably required by Project Co to enable it to satisfy the requirements of paragraph 4.3 of this Section 4 (*High Value Changes*).

5 Time periods for approval

5.1 Each High Value Change Proposal and each High Value Change Stage 2 Submission shall be valid for a period of three (3) months from the date of its submission by Project Co.

5.2 If by the end of the three (3) month period referred to in paragraph 5.1 of this Section 4 (*High Value Changes*) the Board has not:

5.2.1 in relation to a High Value Change Proposal, approved or rejected that High

Value Change Proposal in accordance with the procedures set out in this Section 4 (*High Value Changes*):

(a) Project Co shall be entitled to withdraw the High Value Change Proposal; and

(b) Project Co shall not be entitled to any costs relating to the High Value Change Proposal unless the Board has either not responded to the High Value Change Proposal and/or is in material breach of its obligations in paragraph 3 and/or paragraph 4.4 of this Section 4 in which case paragraph 8.5 of this Section 4 (*High Value Changes*) shall apply;

5.2.2 in relation to a High Value Change Stage 2 Submission, approved or rejected that High Value Change Stage 2 Submission in accordance with the procedures set out in this Section 4 (*High Value Changes*) (or has not given any notification of the Board's response to the High Value Change Stage 2 Submission or has given written notice to Project Co withdrawing or cancelling the High Value Change to which the High Value Change Stage 2 Submission relates) then the High Value Change Stage 2 Submission shall be deemed to have been improperly rejected by the Board and paragraph 8.5 shall apply.

6 Changes to the High Value Change Requirements or Approval Criteria

6.1 If the High Value Change Requirements or Approval Criteria are subject to any material variation in relation to a High Value Change by the Board after the High Value Change Proposal has been submitted then:

6.1.1 Project Co and the Board shall negotiate in good faith as to the implications on the High Value Change Proposal or High Value Change Stage 2 Submission (as the case may be) and shall seek to agree changes thereto to accommodate the variation (including any change to the Target Cost and/or to the Change Management Fee);

6.1.2 if agreement has not been reached pursuant to paragraph 6.1.1 of this Section 4 (*High Value Changes*) within twenty (20) Business Days (or such longer period as the parties may agree) then:

(a) Project Co shall be entitled by notice in writing to the Board to withdraw the High Value Change Proposal or the High Value Change Stage 2 Submission (as the case may be) and to be paid the Incurred Change Management Fee with the Calculation Date being the date of the variation notified by the Board; and

(b) the Board shall not be entitled to procure the High Value Change without issuing a new Board Change Notice for the High Value Change and complying with the procedure in this Section 4 (*High Value Changes*) in relation to that High Value Change.

6.1.3 The Board may, at any time, give notice in writing to Project Co that it proposes to cancel a High Value Change without completing the process set out in this Section 4 (*High Value Changes*) in which case the Board must pay Project Co the Incurred Change Management Fee in respect of the cancelled High Value Change with the Calculation Date being the date of such notice.

7 Approval Criteria

7.1 For the purposes of this Section 4 (*High Value Changes*), Approval Criteria means the criteria against which any Stage 1 Approved Project is to be judged by the Board in determining whether it achieves Stage 2 Approval. The criteria are:

7.1.1 whether the costs of the Stage 1 Approved Project are within the Target Cost notified to Project Co by the Board;

7.1.2 whether it has been demonstrated that the Stage 1 Approved Project provides value for money assessed in accordance with the measures identified by the Board in accordance with paragraph 2.1.4 of this Section 4 (*High Value Changes*);

7.1.3 whether the Board, acting reasonably, is satisfied that the High Value Change Stage 2 Submission meets the High Value Change Requirements;

7.1.4 whether any material changes or amendments to the relevant Project Document(s) as detailed pursuant to paragraph 4.3.1 of this Section 4 (*High Value Changes*) are acceptable to the Board, acting reasonably; and

7.1.5 whether the High Value Change Stage 2 Submission contains all the information required pursuant to paragraph 4.3 of this Section 4 (*High Value Changes*) (or as otherwise agreed by the parties).

8 Submission of the High Value Change Stage 2 Submission to the Board and consideration of that submission by the Board

8.1 The Board will consider in good faith High Value Change Stage 2 Submissions submitted by Project Co and the Board will not unreasonably withhold or delay its consent to a High Value Change Stage 2 Submission. The Board is entitled to call for such reasonable information and assistance as it considers appropriate to enable it to decide whether the High Value Change Stage 2 Submission meets the Approval Criteria. Project Co must reply promptly to all such requests for further information and assistance.

8.2 As soon as reasonably practicable after the submission to it of a High Value Change Stage 2 Submission (including any revised High Value Change Stage 2 Submission re-submitted by Project Co) the Board must give written notice of whether it:

8.2.1 approves the relevant Stage 1 Approved Project (in which case the Stage 1

Approved Project will be referred to as having received **"Stage 2 Approval"** or as being a **"Stage 2 Approved Project"** or an "Approved Project" as the context requires); or

8.2.2 rejects the Stage 1 Approved Project:

(a) on the ground that the High Value Change Stage 2 Submission in relation to the relevant Stage 1 Approved Project has failed to meet one or more of the Approval Criteria (except as referred to in paragraph 8.2.2(b)(i) or paragraph 8.2.2(b)(ii)), in which case (subject to resubmission under paragraph8.2.3) paragraph 8.3 shall apply;

(b)

(i) because, as a result of any change to the Target Cost referred to in paragraph2.1.2, the Stage 1 Approved Project is not in fact Affordable despite the High Value Change Stage 2 Submission being within the Target Cost notified by the Board pursuant to paragraph 2.1.2 of this Section 4 (*High Value Changes*); or

(ii) because Project Co has failed to meet one or more of the Approval Criteria and the sole reason for that failure is that any Necessary Consent identified by Project Co (in compliance with paragraph 3.4.12 of this Section 4 (*High Value Changes*)) has not been obtained; or

(iii) otherwise on grounds other than those set out in paragraphs 8.2.2(a), 8.2.2(b)(i) and 8.2.2(b)(ii) of this Section 4 (*High Value Changes*),

in which case paragraph 8.5 shall apply.

8.2.3 If the Board rejects the High Value Change Stage 2 Submission on the grounds set out in paragraph 8.2.2(a) the Board and Project Co will work together to address the reasons for such failure and attempt in good faith to produce a revised High Value Change Stage 2 Submission for Project Co to re-submit to the Board.

8.2.4 If:

(a) a resubmitted High Value Change Stage 2 Submission is rejected by the Board on the ground set out in paragraph 8.2.2(a) (subject to paragraphs 16.3 to 16.4 (if applicable) of this Section 4 (*High Value Changes*)); or

(b) no resubmission of the High Value Change Stage 2 Submission is made within 30 Business Days of the date of the notice of rejection

(or such longer period as the parties may agree),

then the relevant Stage 1 Approved Project shall be treated as having been properly rejected, the provisions of paragraph 8.3 of this Section 4 (*High Value Changes*) shall apply and neither the Board nor Project Co will have any further obligations in relation to the relevant High Value Change referred to in the High Value Change Stage 2 Submission.

If a High Value Change Stage 2 Submission is properly rejected by the Board

8.3 Where this paragraph 8.3 applies (as set out in paragraph8.2.2(a), paragraph 8.2.4 and paragraph 16.4.2 of this Section 4 (*High Value Changes*)) the Board shall not be required to reimburse or compensate Project Co in respect of any costs relating to the High Value Change including the Change Management Fee.

8.4 If:

8.4.1 Project Co fails to provide a response to an Board Change Notice in accordance with paragraph 3.1of this Section 4 (*High Value Changes*); or

8.4.2 (where applicable) Project Co fails to provide a High Value Change Proposal in accordance with paragraph 3.4 of this Section 4 (*High Value Changes*); or

8.4.3 Project Co fails to submit a High Value Change Stage 2 Submission in accordance with paragraph **4.1.2** of Section 4 (*High Value Changes*); or

8.4.4 the Board has validly rejected a High Value Change Stage 2 Submission in accordance with paragraph 8.2 and the matter has not been referred to the Dispute Resolution Procedure or any such dispute has been determined as described in paragraph 16.4.2 of this Section 4 (*High Value Changes*),

then, subject to paragraph 17 of this Section 4 (*High Value Changes*), the Board may notify Project Co that the High Value Change Notice is withdrawn and, following such notification, may procure the implementation of the High Value Change without further recourse to Project Co, but the Board must ensure that the High Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the High Value Change.

If a High Value Change Stage 2 Submission is improperly rejected by the Board

8.5 Where this paragraph 8.5 applies (as set out in paragraph5.2.1(b), paragraph 5.2.2 paragraph 8.2.2(b) and paragraph16.4.1)), the Incurred Change Management Fee and Third Party Costs incurred by Project Co to prepare the High Value Change Proposal and Stage 2 Submission, which shall be in accordance with the activities and budget referred to in paragraph 3.4.4 of this Section 4 (*High Value Changes*), in relation to the relevant High Value Change will be paid by the Board within ten (10) Business Days of the date on which Project Co receives written notice of the rejection or the date of the deemed rejection (as the case may be) with the date of the rejection or the deemed rejection (as the case may be) being the Calculation Date for the purposes of calculating the amount of the Incurred Change Management Fee (unless a different Calculation Date is expressly stated in this Section 4 (*High Value Changes*)

in relation to the circumstances giving rise to the entitlement of Project Co to be paid the Incurred Change Management Fee).

9 Information and notifications by the Board to Project Co and cooperation of the Board

9.1 The Board must notify Project Co as soon as it becomes aware of any matter which may have a reasonably foreseeable material adverse effect on the viability of any High Value Change including any:

9.1.1 planning issues likely to cause a material delay in the anticipated programme for the High Value Change or material cost increases; and

9.1.2 changes to funding which the Board receives or to the way in which funding may be applied, either or both of which may affect whether a High Value Change is Affordable.

9.2 The Board shall provide reasonable assistance to Project Co in relation to the procurement by Project Co of all relevant Necessary Consents.

10 Change Management Fee

The Change Management Fee is to reimburse Project Co for the time spent by its employees in project managing the development, procurement and implementation of the High Value Change and shall:

10.1 be based on actual time spent (validated by time sheets);

10.2 be calculated at the daily rates as set out in Appendix 2 Part 3 to this Schedule Part 16 (*Change Protocol*), but capped at the sum set out in the High Value Change Proposal;

10.3 not include the time of any person who is not employed by Project Co;

10.4 not include any mark-up or profit or additional overheads;

10.5 be paid in three stages as follows:

10.5.1 on Stage 1 Approval;

10.5.2 on Stage 2 Approval; and

10.5.3 when any works involved in the High Value Change have been completed,

and at each stage Project Co shall charge the Board (subject to the applicable cap) only for the time incurred by its staff up to completion of that stage.

11 Implementation of the High Value Change

Project Co must implement any High Value Change approved by the Board so as to minimise any inconvenience to the Board and to the provision of Board Services and in accordance with the Approved Project. Where an extension of time has been agreed as part of the Stage 2 Approval the Completion Date shall be extended as agreed in the Approved Project.

12 Method of Payment of Board Contribution

12.1 This paragraph 12 shall apply where Capital Expenditure for an Approved Project is to be funded in whole or part by the Board.

12.2 Project Co shall invoice the Board for Capital Expenditure incurred by Project Co to implement a High Value Change that is to be borne by the Board according to the payment schedule set out in the High Value Change Stage 2 Submission as referred to in paragraph 3.4.11 of this Section 4.

12.3 The Board shall make a payment to Project Co within fifteen (15) Business Days of receipt by the Board of invoices presented to the Board (complete in all material respects) in accordance with paragraph 12.2 of this Section 4, accompanied by the relevant evidence (where applicable) that the relevant part of the High Value Change has been carried out.

13 Adjustment to Annual Service Payment

Any adjustment to the Annual Service Payment which is necessary as a result of the implementation of a High Value Change shall be calculated in accordance with Section 6 of this Schedule Part 16 (*Change Protocol*).

14 Due Diligence

14.1 Where the Board is funding the High Value Change, Project Co shall procure that the Senior Lenders shall not withhold or delay any consents which are required pursuant to the Senior Financing Agreements to such High Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply.

14.2 Where the Board is not funding the High Value Change, Project Co shall procure that the Senior Lenders do not unreasonably withhold or delay any consents which are required pursuant to the Senior Financing Agreements to such High Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value*

Changes) apply.

14.3 The parties agree that the Senior Lenders may carry out legal, financial, insurance and technical due diligence on any proposal for a High Value Change. The parties shall agree a budget for the due diligence provided that the costs may not exceed the lower of (i) 3% of the overall value of the High Value Change in question or (ii) fifty thousand pounds (£50,000) unless, in either case, the parties (acting reasonably) agree otherwise. Any costs incurred by Project Co as a result of the Senior Lenders due diligence will be reimbursed by the Board following the conclusion of the process in this Section 4 (*High Value Changes*) within ten (10) Business Days of Project Co submitting an invoice for and evidence of such costs, subject to the invoices being in accordance with the agreed budget.

14.4 It is acknowledged that High Value Changes (particularly where they involve a change to the Works or the Facilities) may require authorisation from the insurers under the Required Insurances. Project Co shall notify the relevant insurance broker immediately upon any material High Value Change being agreed (materiality being judged in relation to the size and nature of the scope of the High Value Change).

14.5 The parties agree that paragraph 14.2 of this Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*) does not oblige the Senior Lenders to provide any additional funding for the relevant High Value Change, which shall be in their absolute discretion.

15 Project Documentation

15.1 The only changes to the Project Documents or Ancillary Documents to be made as a result of a High Value Change shall be those identified in the Approved Project (subject to any amendments to it agreed by the parties).

15.2 Project Co shall, on completion of the Change, update the as-built drawings and the operating and maintenance manuals as necessary to reflect the High Value Change.

16 Disputes

16.1 Except as otherwise expressly provided, any dispute concerning any matter referred to in this Section 4 (*High Value Changes*) may be referred by either party to the Dispute Resolution Procedure.

16.2 The Board shall not be entitled to approve a High Value Change Proposal or a High Value Change Stage 2 Submission that is the subject of a dispute until the dispute has been determined.

16.3 If the Board rejects a High Value Change Stage 2 Submission pursuant to the provisions of paragraph 8.2.2(a) of this Section 4, Project Co shall be entitled to refer the matter for consideration under the Dispute Resolution Procedure within ten (10) Business Days after receiving written notice of the Board's decision.

16.4 If, following a referral to the Dispute Resolution Procedure, it is agreed or determined:

16.4.1 that the High Value Change rejected by the Board pursuant to paragraph 8.2.2(a) of this Section 4 met the Approval Criteria the Board shall either:

(a) declare that the relevant High Value Change has received Stage 2 Approval and that High Value Change shall proceed; or

(b) declare that its rejection of the relevant High Value Change be treated as an improper rejection and that the provisions of paragraph 8.2.2(a) of this Section 4 (*High Value Changes*) shall apply.

16.4.2 the High Value Change did not meet the Approval Criteria, save in one of the respects referred to in paragraphs 8.2.2(b)(i) or 8.2.2(b)(ii) the provisions of paragraph 8.3 of this Section 4 (*High Value Changes*) shall apply.

17 The Board is not entitled to withdraw an Board Change Notice and procure implementation of a High Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will comply with its obligations under this Section 4 in accordance with the determination.

SECTION 5

PROJECT CO CHANGES

1 If Project Co wishes to introduce a Project Co Change, it shall serve a notice containing the information required pursuant to paragraph 2 of this Section 5 (*Project Co Changes*) (a "*Project Co Notice of Change*") on the Board.

2 A Project Co Notice of Change shall:

2.1 set out the proposed Project Co Change in sufficient detail to enable the Board to evaluate it in full;

2.2 specify Project Co's reasons for proposing Project Co Change;

2.3 indicate any implications of Project Co Change;

2.4 indicate what savings, if any, will be generated by Project Co Change, including:

2.4.1 whether a reduction of the Annual Service Payment is; or

2.4.2 whether such savings will be paid to the Board in a lump sum,

in each case giving details in accordance with paragraph 8 of this Section 5 (*Project Co Changes*);

2.5 indicate whether there are any critical dates by which a decision by the Board is required; and

2.6 request the Board to consult with Project Co with a view to deciding whether to agree to Project Co Change and, if so, what consequential changes the Board requires as a result.

3 The Board shall evaluate Project Co Notice of Change in good faith, taking into account all relevant issues, including whether:

3.1 a revision of the Annual Service Payment will occur;

3.2 the Project Co Change may affect the quality of the Services and/or the Works or the likelihood of successful completion of the Works and/or delivery of the Services (or any of them);

3.3 the Project Co Change will interfere with the relationship of the Board with third parties;

3.4 the financial strength of Project Co is sufficient to perform the Works and/or Services after implementation of Project Co Change;

3.5 the value and/or life expectancy of any of the Facilities will be reduced; or

3.6 the Project Co Change materially affects the risks or costs to which the Board is exposed.

4 As soon as practicable after receiving Project Co Notice of Change, the parties shall meet and discuss the matters referred to in it, including in the case of a Relevant Change in Law those matters referred to in Clause 32.4 of this Agreement. During discussions the Board may propose modifications to, or accept or reject, Project Co Notice of Change.

5 If the Board accepts Project Co Notice of Change (with or without modification) the parties shall consult and agree the remaining details as soon as practicable and upon agreement the Board shall issue a notice confirming Project Co Change which shall set out the agreed Project Co Change and:

5.1 shall enter into any documents to amend this Agreement or any relevant Ancillary Document which are necessary to give effect to Project Co Change;

5.2 subject to paragraph 7 of this Section 5 (*Project Co Changes*), the Annual Service Payment shall be revised in accordance with Section 6 (*Changing the Financial Model*) of this Schedule Part 16(C*hange Protocol*); and

5.3 Project Co Change shall be implemented within the period specified by the Board in its notice of acceptance.

6 If the Board rejects Project Co Notice of Change, it shall not be obliged to give its reasons for such a rejection and Project Co shall not be entitled to reimbursement by the Board of any of its costs involved in the preparation of Project Co Notice of Change.

7 Unless the Board's written acceptance expressly agrees to an increase in the Annual Service Payment or that Project Co should be entitled to relief from any of its obligations, there shall be no increase in the Annual Service Payment or relief granted from any obligations as a result of a Project Co Change.

8 If a Project Co Change causes, or will cause, Project Co's costs or those of a sub-contractor to decrease, there shall be a decrease in the Annual Service Payment such that any cost savings (following deduction of costs reasonably incurred by Project Co in implementing such Project Co Change) will be shared on the basis of fifty per cent (50%) of the saving being retained by Project Co and fifty per cent (50%) of the saving being paid to the Board as a lump sum within ten (10) Business Days of agreement or determination or by way of revision of the Annual Service Payment pursuant to Section 6 (*Changing the Financial Mode*l) of this Schedule Part 16 (*Change Protocol*).

SECTION 6

CHANGING THE FINANCIAL MODEL

Procedure

1 If a Relevant Event occurs, the Financial Model shall be adjusted in accordance with this Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*).

Adjusting the Logic or Formulae

2 If it is necessary to make a Logic Adjustment to permit an Input Adjustment or Assumption Adjustment to be made, Project Co shall make such Logic Adjustment only:

2.1 to the extent necessary;

2.2 in accordance with generally accepted accounting principles in the United Kingdom; and

2.3 so as to leave Project Co in no better and no worse a position.

3 In order to demonstrate that the conditions in paragraph 2 are met, Project Co shall prepare:

3.1 a run of the Financial Model before making any Assumption Adjustment or Input Adjustment and immediately prior to making the Logic Adjustment; and

3.2 a run of the Financial Model immediately following the Logic Adjustment which shows that Project Co is in no worse and no better a position following the making of the Logic Adjustment.

Adjusting the Assumptions

4 Subject to paragraph5, Project Co may make an Assumption Adjustment so that the Assumptions in the Financial Model reflect:

4.1 reasonable economic assumptions prevailing at the Adjustment Date; and

4.2 reasonably foreseeable changes in the prospective technical performance of the Project arising as a result of the Relevant Event.

5 In making Assumption Adjustments, Project Co may make such adjustments only insofar as they relate to the Relevant Event, and such adjustments shall not have effect in relation to any period prior to the Adjustment Date, nor in relation to any aspect of the Project other than the Relevant Event in the period following the Adjustment Date.

Adjusting the Inputs

6 Project Co may make Input Adjustments to the extent required to reflect the Estimated

Change in Project Costs arising out of the Relevant Event.

Adjusting the Annual Service Payments

7 In order to calculate the adjustment to be made to the Annual Service Payments, Project Co shall run the Financial Model after making the Logic Adjustments, the Assumption Adjustments and the Input Adjustments relating to the Relevant Event and permitted by this Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*) so that, following the Relevant Event, it is in no better and no worse a position than it would have been if no Relevant Event had occurred.

8 The Annual Service Payments shall be adjusted by such amount as leaves Project Co, following the Relevant Event, in no better and no worse a position than it would have been if no Relevant Event had occurred.

No better and no worse

9 Any reference in this Agreement to "no better and no worse" or to leaving Project Co in "no better and no worse a position" shall be construed by reference to Project Co's:

9.1 rights, duties and liabilities under or arising pursuant to performance of this Agreement, the Funding Agreements, the Construction Contract and Service Contracts; and

9.2 ability to perform its obligations and exercise its rights under this Agreement, the Funding Agreements, the Construction Contract and Service Contracts,

so as to ensure that:

9.3 Project Co is left in a position in relation to the Key Ratios which is no better and no worse in the Post-Adjustment Financial Model than it is in the Pre-Adjustment Financial Model; and

9.4 following the making of the Adjustments, the ability of Project Co to comply with this Agreement is not adversely affected or improved as a consequence of the Relevant Event.

SCHEDULE PART 17

COMPENSATION ON TERMINATION

SECTION 1

COMPENSATION ON TERMINATION FOR BOARD DEFAULT AND VOLUNTARY TERMINATION

1 Compensation on Termination for the Board Default and Voluntary Termination

1.1 If Project Co terminates this Agreement pursuant to Clause 39 (*Board Events of Default*) or the Board terminates this Agreement pursuant to Clause 42.1 the Board shall pay to Project Co the **"Board Default Termination Sum"** as set out in paragraph 1.2.

1.2 Subject to paragraphs 1.4 to 1.6 below the Board Default Termination Sum shall be an amount equal to the aggregate of:

1.2.1 the Base Senior Debt Termination Amount;

1.2.2 Redundancy Payments and Sub-Contractor Losses; and

1.2.3 the aggregate amount for which the share capital of Project Co and the amounts outstanding under the Subordinated Funding Agreements could have been sold on an open market basis based on the Relevant Assumptions,

LESS, to the extent it is a positive amount, the aggregate of without double counting in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below:

1.2.4 the value of any right of Project Co to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 of this Agreement in reinstatement, restoration or replacement or, in the case of any third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or have been determined but not yet paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims;

1.2.5 to the extent realised before the Invoice Date the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; or

(b) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms; and

1.2.6 amounts which the Board is entitled to set off pursuant to Clause 46.12 of this Agreement.

1.3 To the extent that such assets and rights referred to in paragraph 1.2.5 above are not realised and applied by the Invoice Date, Project Co shall on payment of the Board Default Termination Sum assign such assets and rights to the Board.

1.4 If the aggregate of the amounts referred to in paragraphs 1.2.1 and 1.2.3 is less than the Revised Senior Debt Termination Amount, then the Board Default Termination Sum shall be increased so that it is equal to the aggregate of the Revised Senior Debt Termination Amount and the amount referred to in paragraph 1.2.2 LESS the amounts referred to in paragraphs 1.2.4 to 1.2.6 above; provided always that (a) the amount referred to in paragraph 1.2.2 shall only be paid to the extent that Project Co has demonstrated to the reasonable satisfaction of the Board that the amount will not be applied (in whole or in part) in payment of any Distribution and (b) if, at the time of termination, there are any Additional Permitted Borrowings outstanding, no Sub-Contractor Losses shall be paid in respect of any Sub Contract in circumstances where there is an event of default under such Sub-Contract which would entitle Project Co to terminate such Sub-Contract.

1.5 If a Distribution is made whilst any Additional Permitted Borrowing is outstanding and Project Co has wilfully, or through gross negligence failed to comply with its obligations under clause 9.4.4(a) of the Funders' Direct Agreement then in addition to the deduction of the Distribution made pursuant to paragraph (v) of the definition of Revised Senior Debt Termination Amount, the Board shall be entitled to set off the value of that Distribution a second time against the Board Default Termination Sum, provided that the amount of the Board Default Termination Sum shall never be less than the Revised Senior Debt Termination Amount.

1.6 If Project Co has wilfully or through gross negligence failed to comply with its obligations under clause 9.4.4(b) of the Funders' Direct Agreement and there has been an overstatement of the cash balances by Project Co as at that date which has caused the Board to reasonably believe that it would be required to pay a lesser sum at the Termination Date than it actually is required to pay under the terms of this Section 1 (*Compensation on Termination for Board Default and Voluntary Termination)*, then the Board Default Termination Sum shall be reduced by the amount of such overstatement (to the extent such overstatement is still applicable at the Termination Date), provided that the amount of the Board Default Termination Sum will never be less than the Revised Senior Debt Termination Amount.

1.7 The Board Default Termination Sum shall be payable in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

SECTION 2

COMPENSATION FOR PROJECT CO DEFAULT

1 If the Board terminates this Agreement pursuant to Clause 40 (*Project Co Events of Default*), with the exception of termination pursuant to Clause 40.1.3(b), the Board shall pay to Project Co such sum as is calculated according to this Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*).

2 RETENDERING ELECTION

2.1 The Board shall be entitled to retender the provision of the Project Operations in accordance with paragraph 3 (*Retendering Procedure*) and the provisions of paragraph 3 (*Retendering Procedure*) shall apply if:

2.2.1 the Board notifies Project Co on or before the date falling twenty (20) Business Days after the Termination Date that it intends to retender; and

2.2.2 there is a Liquid Market; and either

(a) the Senior Funders have not exercised their rights to step-in under clause 5 (*Representative*) of the Funders' Direct Agreement; or

(b) Project Co or the Senior Funders have not procured the transfer of Project Co's rights and liabilities under this Agreement to a Suitable Substitute Contractor and have failed to use all reasonable efforts to do so

but otherwise the Board shall not be entitled to re-tender the provision of the Project Operations and paragraph 4 (*No Retendering Procedure*) shall apply.

3 RETENDERING PROCEDURE

3.1 The objective of the Tender Process shall be to enter into a New Agreement with a Compliant Tenderer.

3.2 The Board shall (subject to any legal requirements preventing it from doing so) use all reasonable endeavours to complete the Tender Process as soon as practicable.

3.3 The Board shall as soon as reasonably practicable notify Project Co of the Qualification Criteria and the other requirements and terms of the Tender Process, including the timing of the Tender Process, and shall act reasonably in setting such requirements and terms.

3.4 Project Co authorises the release of any information by the Board under the Tender Process which would otherwise be prevented under Clause 61 (*Confidentiality*) that is reasonably required as part of the Tender Process.

3.5 For all or any part of a month, falling within the period from the Termination Date to the Compensation Date, the Board shall pay to Project Co:

3.5.1 the Post Termination Service Amount for each completed month, on or before the date falling ten (10) Business Days after the end of that month; and

3.5.2 the Post Termination Service Amount for the period from the end of the last completed month until the Compensation Date, on or before the date falling twenty (20) Business Days after the Compensation Date.

3.6 Project Co may, at its own cost, appoint a person to monitor the Tender Process for the purpose of monitoring and reporting to Project Co and the Senior Funders on the Board's compliance with the Tender Process.

3.7 The Tender Process Monitor shall enter into a confidentiality agreement with the Board in a form acceptable to the Board and shall be entitled to attend all meetings relating to the Tender Process, inspect copies of all the tender documentation and bids and make representations to the Board as to compliance with the Tender Process. The Board shall not be bound to consider or act upon such representations but acknowledges that such representations may be referred to by Project Co in the event that Project Co refers a dispute as to the Adjusted Highest Compliant Tender Price to the Dispute Resolution Procedure. The Tender Process Monitor will not disclose confidential information to Project Co or the Senior Funders or any other person (and shall provide an undertaking to the Board to such effect as a condition of his appointment) but shall be entitled to advise Project Co and the Senior Funders on whether it considers that the Board has acted in accordance with the Tender Process and correctly determined the Adjusted Highest Compliant Tender Price.

3.8 If any Post Termination Service Amount is less than zero then it may be carried forward and may be set off against any future positive Post Termination Service Amounts.

3.9 The Board shall require bidders to bid on the basis that they will receive the benefit of any outstanding claims under material damage insurance policies and the amount (if any) standing to the credit of the Insurance Proceeds Account on the date that the New Agreement is entered into.

3.10 As soon as practicable after tenders have been received, the Board shall (acting reasonably) review and assess the Compliant Tenders and shall notify Project Co of:

3.10.1 the Highest Compliant Tender Price;

3.10.2 the Tender Costs; and

3.10.3 the Adjusted Highest Compliant Tender Price.

3.11 If Project Co refers a dispute relating to the Adjusted Highest Compliant Tender Price

to dispute resolution in accordance with Clause 56 (*Dispute Resolution*), the Board shall irrespective of such dispute be entitled to enter into a New Agreement.

3.12 The Adjusted Highest Compliant Tender Price shall be paid in accordance with Section 5 (*General)* of this Schedule Part 17 (*Compensation on Termination*).

3.13 Subject to paragraphs 1.6 and 1.8 of Section 5 *(General)* of this Schedule Part 17 (*Compensation on Termination*), if the Board has not paid an amount equal to the Adjusted Highest Compliant Tender Price to Project Co on or before the date falling two years after the Termination Date then the following provisions of this paragraph 3 shall not apply to that termination and the provisions of paragraph 4 (*No Retendering Procedure*) shall apply instead.

3.14 The Board may elect at any time prior to the receipt of a Compliant Tender, to follow the no retendering procedure under paragraph 4 (No Retendering Procedure) by notifying Project Co that this election has been made.

3.15 In the event that the Adjusted Highest Compliant Tender Price exceeds the Maximum Termination Amount, the Adjusted Highest Compliant Tender Price shall be deemed to be an amount equal to the Maximum Termination Amount.

4 NO RETENDERING PROCEDURE

4.1 Subject to paragraph4.2, if the provisions of this paragraph 4 (*No Retendering Procedure*) apply Project Co shall not be entitled to receive any Post Termination Service Amount.

4.2 If the Board elects to follow the no retendering procedure in accordance with this paragraph 4 (*No Retendering Procedure*) after it has elected to follow the procedure under paragraph 3 (*Retendering Procedure*), then the Board shall continue to pay to Project Co each Post Termination Service Amount until the Compensation Date, in accordance with paragraph 3(*Retendering Procedure*).

4.3 In agreeing or determining the Estimated Fair Value of the Agreement the parties shall be obliged to follow the principles set out below:

4.3.1 all forecast amounts of revenues and costs should be calculated in nominal terms at current prices, recognising the adjustment for indexation in respect of forecast inflation between the date of calculation and the forecast payment date(s) as set out in this Agreement;

4.3.2 the total of all payments of the full Service Payments forecast to be made from the Termination Date to the Expiry Date shall be calculated and discounted at the Discount Rate;

4.3.3 the total of all costs reasonably forecast to be incurred by the Board as a result of termination shall be calculated and discounted at the Discount Rate and deducted from the payment calculated pursuant to paragraph 4.3.2

above, such costs to include (without double counting):

(a) a reasonable risk assessment of any cost overruns that will arise, whether or not forecast in the relevant base case;

(b) the costs of providing the Services reasonably forecast to be incurred by the Board from the Termination Date to the Expiry Date in providing the Project Operations to the standard required; and

(c) any rectification costs required to deliver the Project Operations to the standard required (including any costs reasonably forecast to be incurred by the Board to complete the Works) and additional operating costs required to restore operating services standards less (to the extent that such sums are included in any calculation of rectification costs for the purposes of this paragraph) the aggregate of:

(i) any insurance proceeds received (or held in the Insurance Proceeds Account) or which will be received pursuant to policies maintained in accordance with Clause 53 (*Insurance*): and

(ii) amounts payable by the Board in respect of Capital Expenditure under this Agreement which have not been paid,

in each case such costs to be forecast at a level that will deliver the Services to the standards required by this Agreement;

4.3.4 the Net Present Value at the Termination Date of all future Surplus Payments forecast in the Financial Model shall be calculated and deducted from the payment calculation pursuant to paragraph 4.3.2 above.

4.4 If the parties cannot agree on the Estimated Fair Value of the Agreement on or before the date falling twenty (20) Business Days after the date on which the Board elected or was required pursuant to paragraph 2 (*Retendering Election*) or paragraph 3 (*Retendering Procedure*) to follow the no retendering procedure in accordance with this paragraph 4 (*No Retendering Procedure*), then the Adjusted Estimated Fair Value of the Agreement shall be determined in accordance with Clause 56 (*Dispute Resolution*).

4.5 The Adjusted Estimated Fair Value of the Agreement shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

4.6 In the event that the Adjusted Estimated Fair Value of the Agreement exceeds the Maximum Termination Amount, the Adjusted Estimated Fair Value of the Agreement shall be deemed to be an amount equal to the Maximum Termination Amount.

SECTION 3

COMPENSATION ON TERMINATION FOR FORCE MAJEURE

1 CONSEQUENCES OF TERMINATION FOR FORCE MAJEURE

1.1 If Project Co or the Board terminates this Agreement pursuant to Clause 31.1 (*Force Majeure*) or Clause 53.14.2 the Board shall pay to Project Co the **"Force Majeure Termination Sum"** as set out in paragraph1.2.

1.2 Subject to paragraphs 1.4 to 1.6 below the Force Majeure Termination Sum shall be an amount equal to the aggregate of:

1.2.1 the Base Senior Debt Termination Amount;

1.2.2 Redundancy Payments and Sub-Contractor Losses (but excluding therefrom any claims for loss of profit);

1.2.3 an amount equal to the Subordinated Debt less an amount equal to the aggregate of payments of interest paid on the Subordinated Debt provided that where such figure is a negative number it shall be instead fixed at zero; and

LESS, to the extent it is a positive amount, the aggregate of (without double counting) in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below:

1.2.4 the value of any right of Project Co to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 of this Agreement in reinstatement, restoration or replacement, or in the case of third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or have been determined but not yet paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims;

1.2.5 to the extent realised before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; and

(b) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms; and

1.2.6 amounts which the Board is entitled to set off pursuant to Clause 46.12 of this Agreement.

1.3 To the extent that such assets and rights referred to in paragraph 1.2.4 above are not realised and applied pursuant to that paragraph Project Co shall on payment of the Force Majeure Termination Sum assign such assets and rights to the Board.

1.4 If the aggregate of the amounts referred to in paragraphs 1.2.1 and 1.2.3 is less than the Revised Senior Debt Termination Amount, then the Force Majeure Termination Sum shall be increased so that it is equal to the aggregate of the Revised Senior Debt Termination Amount and the amount referred to in paragraph 1.2.2 LESS the amounts referred to at paragraphs 1.2.4 to 1.2.6 above; provided always that (a) the amount referred to in paragraph 1.2.2 LESS the amounts referred to at paragraphs 1.2.4 to 1.2.6 above shall only be paid to the extent that Project Co has demonstrated to the reasonable satisfaction of the Board that the amount will not be paid (in whole or in part) in payment of any Distribution and (b) if, at the time of termination, there are any Additional Permitted Borrowings outstanding, no Sub-Contractor Losses shall be paid in respect of any Sub Contract in circumstances where there is an event of default under such Sub-Contract which would entitle Project Co to terminate such Sub-Contract.

1.5 If a Distribution is made whilst any Additional Permitted Borrowing is outstanding and Project Co has wilfully, or through gross negligence failed to comply with its obligations under clause 9.4.4(a) of the Funders' Direct Agreement then in addition to the deduction of the Distribution made pursuant to paragraph (v) of the definition of Revised Senior Debt Termination Amount, the Board shall be entitled to set off the value of that Distribution a second time against the Force Majeure Termination Sum, provided that the amount of the Force Majeure Termination Sum shall never be less than the Revised Senior Debt Termination Amount.

1.6 If Project Co has wilfully or through gross negligence failed to comply with its obligations under clause 9.4.4(b) of the Funders' Direct Agreement and there has been an overstatement of the cash balances by Project Co as at that date which has caused the Board to reasonably believe that it would be required to pay a lesser sum at the Termination Date than it actually is required to pay under the terms of this Section 3 (*Compensation on Termination for Force Majeure*), then the Force Majeure Termination Sum shall be reduced by the amount of such overstatement (to the extent such overstatement is still applicable at the Termination Date), provided that the amount of the Force Majeure Termination Sum will never be less than the Revised Senior Debt Termination Amount.

1.7 The Force Majeure Termination Sum shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

SECTION 4

CORRUPT GIFTS AND FRAUD, BREACH OF REFINANCING OR BREACH OF NPD REQUIREMENTS

1 Con sequences of Termination for Corrupt Gifts and Fraud, Breach of Refinancing or Breach of NPD Requirements

1.1 If the Board terminates this Agreement pursuant to Clause 40.1.3, Clause 44.3 or Clause 45 (*Breach of NPD Requirements*) the Board shall pay to Project Co an amount equal to the Revised Senior Debt Termination Amount;

LESS, to the extent it is a positive number, the aggregate of (without double counting):

1.1.1 the value of any right to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 of this Agreement in reinstatement, restoration or replacement or, in the case of third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or which have been determined but not paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims; and

1.1.2 to the extent realised before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; and

(b) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms.

1.2 To the extent that such assets and rights referred to in paragraph 1.1.2 above are not realised and applied pursuant to that paragraph, Project Co shall, on payment of the sum referred to in paragraph 1.1 above, assign such assets and rights to the Board.

1.3 The sum referred to in paragraph 1.1 above shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

SECTION 5

GENERAL

1 PAYMENT AND INTEREST

Following termination for Board Default, Force Majeure, Corrupt Gifts or Fraud, Breach of Refinancing or Breach of NPD Requirements

1.1 In respect of the termination payments to be made pursuant to any of Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*), Section 3 (*Compensation on Termination for Force Majeure*), or Section 4 (*Corrupt Gifts and Fraud or Breach of Refinancing or Breach of NPD Requirements*) of this Schedule Part 17 (*Compensation on Termination*) as soon as practicable after, and in any event within twenty (20) Business Days of, the Termination Date, Project Co shall give to the Board an invoice for the relevant termination sum and sufficient supporting evidence, reasonably satisfactory to the Board, justifying the amount of the relevant termination sum including a breakdown of each of the individual elements of such sum.

1.2 Subject to paragraph 1.3 below, the Board shall pay to Project Co:

1.2.1 the relevant termination amount within forty (40) Business Days of the Invoice Date; and

1.2.2 interest on the relevant termination amount (or any part of such amount that remains outstanding) from the Termination Date until the date of payment:

(a) at the No Default Interest Rate for the period from (but excluding) the Termination Date to (and including) the date which is forty (40) Business Days after the Invoice Date; and

(b) thereafter, at the Default Interest Rate.

1.3 The Board shall be entitled to pay the amount payable pursuant to Section 3 or Section 4 (as the case may be) of this Schedule Part 17 *(Compensation on Termination)* (**"Termination Sum"**) in four (4) equal instalments by serving notice on Project Co within thirty (30) Business Days of the Invoice Date, in which case the provisions of paragraph 1.4 shall apply.

1.4 In the event that the Board elects to pay the Termination Sum in instalments pursuant to paragraph 1.3 then:

1.4.1 the first such instalment (together with interest thereon calculated pursuant to paragraph 1.4.2 below) shall be due on the first Business Day occurring six (6) months after the date of the Board's notice served pursuant to paragraph 1.3 above and the remaining instalments (together with interest thereon calculated pursuant to paragraph 1.4.2 below) shall be due,

respectively, on the first Business Day occurring twelve (12), eighteen (18) and twenty-four (24) months after the date of such notice; and

1.4.2 the Board shall pay interest on the Termination Sum (or any part of such sum that remains outstanding) from the Termination Date until the date of payment at the No Default Interest Rate.

If the Board fails to make a payment under paragraph 1.4.1 or 1.4.2 above in full within ten (10) Business Days of the due date for payment, or an Adverse Law or a Proposal for an Adverse Law is made then the outstanding amount of the Termination Sum shall be immediately due and payable and, thereafter, the Board shall pay interest on such sum at the Default Interest Rate.

Following Retendering

1.5 Subject to paragraphs 1.6 and 1.8, following a retendering exercise under Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 the Board shall pay to Project Co an amount equal to the Adjusted Highest Compliant Tender Price no later than the date falling twenty (20) Business Days after the later of:

1.5.1 the date on which the Board receives the Market Value of the New Agreement from the New Project Co; and

1.5.2 if Project Co has referred a dispute relating to the Adjusted Highest Compliant Tender Price to dispute resolution pursuant to paragraph 3.11 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17, the date on which the dispute is finally determined in accordance with Clause 56 (*Dispute Resolution*),

provided that, to avoid doubt, if the dispute referred by Project Co to dispute resolution (pursuant to paragraph 1.5.2 above) concerns only a proportion of the Adjusted Highest Compliant Tender Price then the Board shall pay the undisputed proportion of such sum no later than 20 Business Days after the date referred to in paragraph 1.5.1 above (the "**Undisputed Payment Date**") and the Board shall pay interest to Project Co on any amount of the Adjusted Highest Compliant Tender Price which has been withheld, from the Undisputed Payment Date until the date on which payment is due under paragraph 1.5.2 above at the No Default Interest Rate.

1.6 If the Board has received all bids from bidders under the Tender Process and has received a Compliant Tender but decides not to complete the Tender Process, it shall notify Project Co of this decision and (if the Adjusted Highest Compliant Tender Price is a positive number) pay to Project Co an amount equal to the Adjusted Highest Compliant Tender Price within twenty (20) Business Days of such notification.

1.7 If the Board fails to pay the Adjusted Highest Compliant Tender Price (or any proportion thereof) by the date on which payment is due in accordance with paragraph 1.5 or paragraph 1.6 above, the Board shall pay to Project Co interest on such unpaid amount, which shall accrue on such amount at the Default Interest Rate from (but not including) the date on which payment is due in accordance with paragraph 1.5 or paragraph 1.6 above until such amount is paid.

1.8 If the Adjusted Highest Compliant Tender Price is zero or a negative number then, on entering into the New Agreement with the New Project Co, the Board shall have no obligation to make any payment to Project Co and (if a negative number) an amount equal to the Adjusted Highest Compliant Tender Price shall be due and payable by Project Co to the Board on the date of the New Agreement or (where paragraph 1.6 applies) within twenty (20) Business Days of notification from the Board pursuant to that paragraph.

Following no retendering

1.9 If the Board follows the no retendering procedure set out in paragraph 4 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 *(Compensation on Termination)* then, subject to paragraph 1.10, the Board shall pay to Project Co an amount equal to the Adjusted Estimated Fair Value of the Agreement no later than the date falling twenty (20) Business Days after the Compensation Date together with interest on such amount calculated in accordance with paragraph 1.2.2 above unless the Board has paid Post Termination Service Amounts pursuant to paragraph 3.5 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 *(Compensation on Termination)*.

1.10 To the extent that the Adjusted Estimated Fair Value of the Agreement is less than zero, then an amount equal to the Adjusted Estimated Fair Value of the Agreement shall be due and payable by Project Co to the Board on the Compensation Date.

2 Full and Final Settlement

2.1 Any and all sums irrevocably paid by the Board to Project Co under this Schedule Part 17 (*Compensation on Termination*) will be in full and final settlement of each party's rights and claims against the other for breaches and/or termination of this Agreement and any other Project Document whether under contract, delict, restitution or otherwise but without prejudice to:

2.1.1 any antecedent liability of Project Co to the Board which the Board has been unable to set off pursuant to Clause 46.12 of this Agreement;

2.1.2 any antecedent liability of either party to the other that arose prior to the Termination Date (but not from the termination itself) to the extent such liability has not already been taken into account in determining or agreeing the Board Default Termination Sum, Adjusted Highest Compliant Tender Price, or Adjusted Estimated Fair Value of the Agreement, the Force Majeure Termination Sum or the Corrupt Gifts Termination Sum as the case may be; and

2.1.3 any liabilities arising in respect of any breach by either party of their obligations under Clause 47.6 of this Agreement which arises or continues after the Termination Date.

2.2 If either the Adjusted Highest Compliant Tender Price or (as the case may be) the Adjusted Estimated Fair Value of the Agreement is zero or a negative number the Board shall be released from all liability to Project Co for breaches and/or termination

of this Agreement and any other Project Document whether under contract, delict, restitution or otherwise save for:

2.2.1 any antecedent liability of the Board which arose prior to the Termination Date (but not from the termination itself) to the extent such liability has not already been taken into account in determining the Adjusted Highest Compliant Tender Price or the Adjusted Estimated Fair Value of the Agreement (as the case may be); and

2.2.2 any liabilities arising in respect of any breach by either party of their obligations under Clause 47.6 of the Agreement which continues after the Termination Date.

3 Costs

The costs and/or expenses to be taken into account in the calculation of all termination sums due pursuant to this Schedule Part 17 (*Compensation on Termination*) shall only be such costs and/or expenses to the extent that they are reasonable and proper in quantum and shall have been or will be reasonably and properly incurred and shall only be counted once.

4 Undisputed Amounts

If the calculation of any termination amount is disputed then any undisputed element of that amount shall be paid in accordance with this Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*) and the disputed element shall be dealt with in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

5 Outstanding Senior Debt Amount

5.1 The Board shall be entitled to rely on the certificate of the [Senior Funders' Agent] as conclusive as to the amount of the Base Senior Debt Termination Amount or Revised Senior Debt Termination Amount (as the case may be) outstanding at any relevant time.

5.2 The receipt by the [Senior Funders' Agent] of the Base Senior Debt Termination Amount or Revised Senior Debt Termination Amount or elements thereof (as appropriate) (as the case may be) (and where appropriate any accrued interest or breakage costs as certified in accordance with paragraph 5.1 above) shall discharge the Board's obligations to pay such sums to Project Co.

SECTION 6

DEFINITIONS

"Adjusted Estimated Fair Value of the Agreement" means, subject to paragraph 4.6 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), the Estimated Fair Value of the Agreement adjusted as follows:

(a) where in respect of any month or part of a month from the Termination Date to the Compensation Date the Post Termination Service Amount is a negative number, the aggregate of all such negative Post Termination Service Amounts shall be set against and shall reduce the Estimated Fair Value of the Agreement (whether or not such amounts have been set-off by the Board pursuant to paragraph 3.8 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*));

and the aggregate of the following amounts shall be deducted from the Estimated Fair Value of the Agreement:

(b) the Post Termination Service Amounts actually paid by the Board to Project Co prior to the Compensation Date;

(c) the Tender Costs; and

(d) amounts that the Board is entitled to set off or deduct;

and the aggregate of the following amounts shall be added to the Estimated Fair Value of the Agreement:

(e) all credit balances on any bank accounts held by or on behalf of Project Co on the date that the Estimated Fair Value of the Agreement is calculated; and

(f) any insurance proceeds and other amounts owing to Project Co (and which

Project Co is entitled to retain), to the extent not included in (e);

to the extent that:

(i) (e) and (f) have not been directly taken into account in calculating the Estimated Fair Value of the Agreement; and

(ii) the Board has received such amounts in accordance with this Agreement or such amounts are standing to the credit of the Insurance Proceeds Account;

"Adjusted Highest Compliant Tender Price" means, subject to paragraph 3.15 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), the Highest Compliant Tender Price adjusted as follows:

(a) where in respect of any month or part of a month from the Termination Date to the Compensation Date the Post Termination Service Amount is a negative number, the aggregate of all such negative Post Termination Service Amounts shall be set against and shall reduce such highest tender price (whether or not such amounts have been set-off by the Board pursuant to paragraph 3.8 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*));

and the aggregate of the following amounts shall be deducted from the Highest Compliant Tender Price:

(b) the Forecast Surpluses;

(c) the Post Termination Service Amounts actually paid by the Board to Project Co prior to the Compensation Date;

(d) the Tender Costs; and

(e) amounts that the Board is entitled to set

off or deduct,

and the aggregate of the following amounts shall be added to such highest tender price:

(f) all credit balances on any bank accounts held by or on behalf of Project Co on the date that the highest priced Compliant Tender is received; and

(g) any insurance proceeds and other amounts owing to Project Co (and which Project Co is entitled to retain), to the extent not included in (d);

to the extent that:

(i) (f) and (g) have not been directly taken into account in that Compliant Tender; and

(ii) the Board has received such amounts in accordance with this Agreement;

"APB Distribution" means, for the period during which the Additional Permitted Borrowing subsists, an amount equal to the aggregate of all Distributions made during that period up to an amount equal to the principal of the Additional Permitted Borrowing on the first day of that period;

"Base Senior Debt Termination Amount" means, subject to Clause 4.3:

(a) all amounts outstanding at the Termination Date, including interest and Default Interest accrued as at that date, from Project Co to the Senior Funders in respect of Permitted Borrowings (other than in respect of Additional Permitted Borrowing); and

(b) all amounts including costs of early termination of interest rate hedging arrangements and other breakage costs, payable by Project Co to the Senior Funders as a result of a prepayment in respect of Permitted Borrowings (other than in respect of Additional Permitted Borrowing), or, in the case of early termination of interest rate hedging arrangements only, as a result of termination of this Agreement, subject to

Project Co and the Senior Funders mitigating all such costs to the extent reasonably possible;(c) less, to the extent it is a positive amount the aggregate of (without double counting in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below)

i. any amounts claimable on or after the Termination Date in respect of Contingent Funding Liabilities;

ii. all amounts including costs of early termination of interest rate hedging arrangements and other breakage costs, payable by the Senior Funders to Project Co as a result of prepayment of amounts outstanding in respect of Permitted Borrowings (other than in respect of Additional Permitted Borrowing), or, in the case of early termination of interest rate hedging arrangements only, as a result of termination of this Agreement;

iii. all other amounts received by the Senior Funders on or after the Termination Date and before the date on which any compensation is payable by the Board to Project Co as a result of enforcing any other rights they may have; and

iv. all credit balances on any bank accounts (but excluding the Insurance Proceeds Account) held by or on behalf of Project Co on the Termination Date;

"Compensation Date" means either:

(a) if paragraph 3 (*Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) applies, the earlier of:

i. the date that the New Agreement is entered into; and

ii. the date on which the Board pays the Adjusted Highest Compliant Tender Price to Project Co; or

(b) if paragraph 4 (*No Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) applies, the date that the Adjusted Estimated Fair Value of the Agreement has been agreed or determined;

"Compliant Tender" means a tender that meets all of the Qualification Criteria;

"Compliant Tenderer" means a Suitable Substitute Contractor who submits a Compliant Tender;

["Contingent Funding Liabilities" [insert any contingent liabilities of the shareholders in respect of financial obligations owed to the Contractor and/or Funders under the Funding Agreements which are triggered as a result of or in relation to the termination of the Agreement, e.g. guarantees or letters of credit in respect of deferred equity];

"Deemed New Agreement" means an agreement on the same terms and conditions as this Agreement, as at the Termination Date, but with the following amendments:

(a) if this Agreement is terminated prior to the Actual Completion Date, then the Longstop Date shall be extended by a period to allow a New Project Co (had one been appointed) to achieve the Actual Completion prior to the Longstop Date;

(b) any accrued Deductions and/or Warning Notices shall, for the purposes of termination only, and without prejudice to the rights of the Board to make financial deductions, be cancelled; and

(c) the term of such agreement shall be for a period equal to the term from the Termination Date to the Expiry Date;

"Discount Rate" means a discount rate expressed as [(1+ real base case project IRR + Gilt B – Gilt A)* (1 + i) -1]

where:

"**real base case project IRR**" is the real pre-tax [Project IRR] as set out in the Financial Model at Financial Close;

"**i**" is the agreed assumed forecast rate of increase in RPI set out in the Agreement, for the remaining term of the Agreement;

"**Gilt A**" is the real yield to maturity on a benchmark government Gilt instrument of the

same maturity as the average life of the outstanding Senior Debt as shown in the Financial Model at Financial Close; and

"**Gilt B**" is the real yield to maturity on a benchmark government Gilt instrument of the same maturity as the average life of the outstanding Senior Debt as shown in the Financial Model as on the Termination Date;

"Distribution" has the meaning given in Schedule Part 23 *(Refinancing)*;

"Estimated Fair Value of the Agreement" means the amount determined in accordance with paragraph 4 (*No Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) that a third party would pay to the Board as the market value of the Deemed New Agreement;

"Fair Value" means the amount at which an asset or liability could be exchanged in an arms length transaction between informed and willing parties, other than in a forced or liquidated sale;

"Forecast Surpluses" means the Net Present Value of the Surplus Payments projected to be made by the Compliant Tenderer, as adjusted by the Board to take account of the Board's assessment of the likelihood of such Surpluses arising;

"Highest Compliant Tender Price" means the price offered by the Compliant Tenderer (if any) with the highest tender price, being the sum of:

(a) the capital sum offered by such Compliant Tenderer; and

(b) the Forecast Surpluses;

and, if no Compliant Tenders are received, means zero;

"Invoice Date" means, in respect of the Board Default Termination Sum, the Force Majeure Termination Sum or the Corrupt Gifts Termination Sum (as appropriate), the date that is the later of:

(a) the date on which the Board receives an invoice from Project Co for the relevant termination sum; and

(b) the date on which the Board receives the supporting evidence required pursuant to paragraph 1.1 *(Payment and Interest)* of Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*);

"Liquid Market" means that there are sufficient willing parties (being at least two parties, each of whom is capable of being a Suitable Substitute Contractor) in the market for design, build, finance and maintain contracts or similar contracts for the provision of services (in each case the same as or similar to this Agreement) for the price that is likely to be achieved through a tender to be a reliable indicator of Fair Value provided always that any vehicle controlled and established by the Senior Funders specifically for the purposes of the Project and to which this Agreement may be novated shall be discounted in assessing whether there are sufficient willing parties in the market for such purposes;

"Market Value Availability Deduction Amount" means for any month or part of a month, an amount equal to the availability deduction that was made to the Monthly Service Payment under paragraph 4 (Deductions for Availability Failures) of Section 3 (Deductions from Monthly Service Payments) of Schedule Part 14 (*Payment Mechanism*) in the month immediately preceding the Termination Date, less an amount equal to any availability deduction that was made for a Functional Area which was unavailable at the Termination Date but which has subsequently become available whether as a result of the Board incurring Rectification Costs or otherwise;

"Maximum Service Payment" means one twelfth of the Annual Service Payment ASPn as defined in paragraph 2 (Annual Service Payment) of Section 2 (Calculation of Service Payments) of Schedule Part 14 (*Payment Mechanism*);

"Maximum Termination Amount" means either an amount equal to the aggregate of:

(a) the Base Senior Debt Termination Amount; and

(b) the principal amount of the Subordinated Debt outstanding; and

(c) Redundancy Payments and Sub-Contractor Losses;

OR, if the aggregate of the amounts referred to

in 0 and 0 above is less than the Revised Senior Debt Termination Amount then an amount equal to the aggregate of:

(a) the Revised Senior Debt Termination Amount; and

(b) Redundancy Payments;

"New Agreement" means an agreement on the same terms and conditions as this Agreement at the Termination Date, but with the following amendments:

(a) if this Agreement is terminated prior to the Actual Completion Date, then the Longstop Date shall be extended by a period to allow a New Project Co to achieve the Actual Completion Date prior to the Longstop Date [;

(b) any accrued Deductions and/or Warning Notices shall, for the purposes of termination only, and without prejudice to the rights of the Board to make financial deductions, be cancelled;

(c) the term of such agreement shall be equal to the term from the [Termination Date] until the Expiry Date; and

(d) any other amendments which do not adversely affect the Project Co;

"New Project Co" means the person who has entered or who will enter into the New Agreement with the Board;

"No Default Interest Rate" means [incorporate the non-default interest rate definition in the Senior Funding Agreements];

"Post Termination Service Amount" means for the purposes of paragraph 3 (*Retendering Process*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), for the whole or any part of a month for the period from the Termination Date to the Compensation Date, an amount equal to the Maximum Service Payment (pro rata for part of a month) which would have been payable under this Agreement had this Agreement not been terminated, less an amount equal to the aggregate of (without double counting):

(a) (where relevant) the amount by which the Post Termination Service Amounts for the previous month was less than zero;

(b) the Market Value Availability Deduction Amount for that month; and

(c) the Rectification Costs incurred by the Board in that month;

"Qualification Criteria" means the criteria that the Board requires tenderers to meet as part of the Tender Process, which (subject to compliance with procurement regulations) shall be:

(a) the New Agreement terms;

(b) tenderers should have the financial ability to pay the capital sum tendered for the New Agreement and the financial ability to deliver the Works and/or the Services (as appropriate) for the price tendered;

(c) the tenderers may only bid on the basis of a single capital payment to be made on the date of the New Agreement;

(d) the tenderer is experienced in providing the Services or similar services;

(e) the technical solution proposed by the tenderers is capable of delivery and the tenderer is technically capable of delivery of the Services; and

(f) any other tender criteria agreed by the Board and the Project Co;

"Rectification Costs" means, for the purposes of any Termination Date that occurs after the Actual Completion Date, an amount equal to the reasonable and proper costs incurred by the Board in a particular month or part of a month in ensuring that the Services are available;

"Redundancy Payments" means redundancy payments and other termination payments which are required under Law to be made to employees of Project Co

reasonably and properly incurred by Project Co arising as a direct result of terminating this Agreement (provided that Project Co shall use all reasonable endeavours to mitigate its loss) and provided that in calculating such amount no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) contracts of employment or other agreements or arrangements entered into by Project Co to the extent that such contracts of employment agreements or arrangements were not entered into in connection with the Project; and/or

(b) contracts of employment or other agreements or arrangements entered into by Project Co to the extent that such contracts of employment agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms;

"Relevant Assumptions" means the assumptions that the sale of Project Co is on the basis that there is no default by the Board, that the sale is on a going concern basis, that no restrictions exist on the transfer of share capital, that no Additional Permitted Borrowing has taken place and therefore that the effect of the Additional Permitted Borrowing on the calculation of such amount is disregarded but that otherwise the actual state of affairs of Project Co and the Project is taken into account;

"Revised Senior Debt Termination Amount" means, subject to Clause 4.3 and Refinancing:

(a) all amounts outstanding at the Termination Date, including interest and (other than in respect of Additional Permitted Borrowing) Default Interest accrued as at that date, from Project Co to the Senior Funders in respect of Permitted Borrowing; and

(b) all amounts including costs of early termination of interest rate hedging arrangements and other breakage costs, payable by Project Co to the Senior Funders as a result of a prepayment in respect of Permitted Borrowing, or, in the case of early termination or interest rate hedging arrangements only, as a result of termination of this Agreement subject to Project Co and the Senior Funders mitigating all such costs to the extent

reasonably possible;

less, to the extent it is a positive amount, the aggregate of (without double counting in relation to the calculation of the Revised Senior Debt Termination Amount or the amounts below):

i. all credit balances on any bank accounts (but excluding the Insurance Proceeds Account) held by or on behalf of Project Co on the Termination Date;

ii. any amounts claimable on or after the Termination Date in respect of Contingent Funding Liabilities;

iii. all amounts, including costs of early termination of interest rate hedging arrangements and other breakage costs, payable by the Senior Funders to Project Co as a result of prepayment of amounts outstanding in respect of Permitted Borrowing, or, in the case of early termination of interest rate hedging arrangements only, as a result of termination of this Agreement;

iv. all other amounts received by the Senior Funders on or after the Termination Date and before the date on which any compensation is payable by the Board to Project Co as a result of enforcing any other rights they may have; and

v. all APB Distributions;

"Senior Debt" means the financing provided by the Senior Funders under the Senior Funding Agreements;

"Senior Funding Agreements" has the meaning given in Schedule Part 1 (*Definitions and Interpretation*);

"Sub-Contractor Losses" means:

(a) the amount reasonably and properly payable by Project Co to the Contractor under the terms of the Construction Contract as a direct result of the termination of this Agreement provided that such amount shall be reduced to the extent that Project Co fails to use

all reasonable endeavours to mitigate such amount; and

(b) the amount reasonably and properly payable by Project Co to the Service Providers [under their respective contracts with Project Co] (as the case may be) as a direct result of the termination of this Agreement provided that such amount shall be reduced to the extent that Project Co fails to use all reasonable endeavours to mitigate such amount;

provided that in both cases no account should be taken of any liabilities and obligation of Project Co to the Sub-Contractors arising out of:

i. agreements or arrangements entered into by Project Co and/or the Sub-Contractors to the extent that such agreements or arrangements were not entered into in connection with those parties obligations in relation to the Project; and/or

ii. agreements or arrangements entered into by Project Co and/or the Sub-Contractors to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms;

"Suitable Substitute Contractor" has the meaning given in the Funders' Direct Agreement;

"Subordinated Debt" means [ ];

"Tender Costs" means the reasonable and proper costs of the Board incurred in carrying out the Tender Process and/or in connection with any calculation of the Estimated Fair Value of the Agreement;

"Tender Process" means the process by which the Board requests tenders from any parties interested in entering into a New Agreement, evaluates the responses from those interested parties and enters into a New Agreement with a new service provider, in accordance with paragraph 3 (*Retendering Process*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*);

"Tender Process Monitor" means the person appointed under paragraph 3.6 of Section 2 (*Compensation for Project Co*

	Default) of this Schedule Part 17 (*Compensation on Termination*);
"Termination Sum"	has the meaning given in paragraph 1.3 of Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

SCHEDULE PART 18

HANDBACK PROCEDURE

1 DEFINITIONS

In this Schedule Part 18 (*Handback Procedure*) and elsewhere in this Agreement (save where Schedule Part 1 (*Definitions and Interpretations*) provides to the contrary) the following words shall have the following meanings:

"Handback Works"	means the maintenance works (if any) required to be carried out in respect of the Facilities in order to procure that they will, on the Expiry Date, satisfy the Handback Requirements;
"Handback Programme"	means the programme for carrying out the Handback Works over the remainder of the Project Term describing the total works to be carried out and the method of carrying out such works during the overall period in which the Handback Works are to be executed;
"Handback Amount"	means the estimated cost of carrying out the Handback Works.

2 On the Expiry Date, each element of the Facilities shall be in a condition which is:

2.1 consistent with due performance by Project Co of the Service Level Specification and Method Statements; and

2.2 consistent with the Facilities and each of the elements of them having been designed and constructed in accordance with the applicable design life requirements set out in paragraph [5.1 of Section C] of the Board's Construction Requirements,

together referred to as (the "**Handback Requirements**").

3 Not less than two (2) years prior to the Expiry Date, Project Co and the Board's Representative shall conduct a joint inspection of the Facilities.

4 Within fifteen (15) Business Days after the completion of the inspection, if it is found that any element of the Facilities is not in a condition consistent with the Handback Requirements, Project Co shall forthwith provide to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*):

4.1 Project Co's proposal as to the Handback Works;

4.2 Project Co's proposal as to the Handback Programme; and

4.3 Project Co's estimate of the cost of the Handback Amount.

5 The Board's Representative may, within fifteen (15) Business Days after receipt of the details set out in paragraph 4 from Project Co, raise comments in accordance with paragraph 3 of Schedule Part 8 (*Review Procedure*) on Project Co's proposals and estimate referred to in paragraph1above.

6 On agreement, or determination in accordance with Schedule Part 20 (*Dispute* Resolution *Procedure*), of the Handback Works, the Handback Programme and/or the Handback Amount (as the case may be), Project Co shall procure that the Handback Works are carried out in accordance with the Handback Programme so as to meet the Handback Requirements. Project Co shall carry out the Handback Works at its own cost notwithstanding that the actual cost of the Handback Works may be higher than the Handback Amount.

7 From the date of the agreement (or determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*)) of the matters identified in paragraph 6, the Board shall be entitled to withhold ten per cent (10%) of each subsequent Monthly Service Payment up to the amount of the Handback Amount (the "**Withheld Amount**") and the provisions of paragraph 11 shall apply. The Board shall pay such amounts into an interest bearing account in its own name (the "**Retention Fund**").

8 Project Co may elect by notice in writing to the Board within 10 Business Days of the agreement (or determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*)) of the matters identified in paragraph 6 to procure the provision of a bond (the **"Handback Bond"**) in favour of the Board (and in a form acceptable to the Board (acting in its sole discretion)) for an amount equal to the Handback Amount and from a bank or insurance company authorised to carry out business in the United Kingdom, and upon delivery of the same to the Board, the provisions of paragraph 7 shall not apply.

9 Project Co shall carry out the Handback Works to the satisfaction of the Board's Representative in accordance with Good Industry Practice and in accordance with the Handback Programme so as to meet the Handback Requirements.

10 Notwithstanding:

10.1 the agreement of the Board's Representative to any Handback Works, the Handback Programme or the Handback Amount;

10.2 the participation of the Board's Representative in any inspection under this Schedule; and/or

10.3 the complete or partial carrying out of the Handback Works

Project Co shall not be relieved or absolved from any obligation to conduct any other inspection or to perform any other works in accordance with the Service Level Specification

and Method Statement.

11 Where this paragraph 11 applies, if and to the extent that Project Co carries out any material part of the Handback Works in accordance with paragraph 6, Project Co may make a claim for payment for the work carried out. Any such claim shall be accompanied by a certificate by Project Co setting out the works performed and the value of such works. The Board shall be entitled to require any reasonable further evidence in respect of the valuation of the works. The Board shall make payment of the amount of a valid claim within [fifteen (15) Business Days of the date of the claim and shall be entitled to withdraw that amount from the Retention Fund. If at any time the amount in the Retention Fund is insufficient to cover the costs claimed by Project Co, the Board shall pay the unpaid portion of such valid claim from any amounts which subsequently stand to the credit of the Retention Fund. In the event that the amount remaining in the Retention Fund on the Expiry Date is insufficient to cover Project Co's costs which have not been paid, Project Co shall bear the balance of such costs itself.

12 Not later than ninety (90) Business Days before the Expiry Date, Project Co and the Board's Representative shall conduct a joint inspection of the Facilities. Such inspection shall confirm whether or not the condition of the Facilities is in accordance with paragraph 1above.

13 On, or within ten (10) Business Days after, the Expiry Date, the Board's Representative shall either:

13.1 issue to Project Co a Handback Certificate and return the Handback Bond or pay any balance standing to the credit of the Retention Fund (as appropriate), to Project Co; or

13.2 notify Project Co of its decision not to issue the Handback Certificate stating the reasons for such decision.

14 Any notice given by the Board's Representative in accordance with paragraph 13.2 shall set out each respect in which the Handback Works have not been completed or the Facilities do not comply with the Handback Requirements and shall state the Board’s Representative's estimate of the cost of procuring that the Facilities comply in all respects with the Handback Requirements.

15 Project Co may, within fifteen (15) Business Days after receipt of the notice given in accordance with paragraph 3.2 by notice to the Board's Representative, object to any matter set out in the Board’s Representative's notice. The notice from Project Co shall give details of the grounds of such objection and shall set out Project Co's proposals in respect of such matters.

16 If no agreement is reached between Project Co and the Board's Representative as to any matter referred to in Project Co's notice given in accordance with paragraph 15 within fifteen (15) Business Days of receipt of that notice by the Board's Representative, then either Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) as to:

16.1 whether the Facilities comply in all respects with the Handback Requirements; and

16.2 the estimated cost of procuring that the Facilities comply in all respects with the Handback Requirements, where the Facilities do not comply in all respects with the Handback Requirements.

17 If it is agreed or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) that the Facilities did not, at the Expiry Date, comply in all respects with the Handback Requirements, Project Co shall pay to the Board an amount equal to the estimated cost of completing such Handback Works (less, where applicable, any amounts standing to the credit of the Retention Fund at that time) or procuring that the Facilities comply in all respects with the Handback Requirements. Such payment shall be made not later than fifteen (15) Business Days after the estimated cost has been agreed or determined and, upon such payment being received by the Board, the Board's Representative shall issue the Handback Certificate and return (where applicable) the Handback Bond to Project Co.

SCHEDULE PART 19

RECORD PROVISIONS

SECTION 1

GENERAL REQUIREMENTS

1 Project Co shall retain and maintain all the records (including superseded records) referred to in Section 2 (*Records to be Kept*) of this Schedule Part 19 (*Record Provisions*) in accordance with this Section 1 (*General Requirements*) of this Schedule Part 19 (*Record Provisions*), the requirements of Good Industry Practice, in chronological order, in a form that is capable of audit and at its own expense. Project Co shall make such records available for inspection to the Board where it has reasonable cause for requiring such records, on giving reasonable notice shall provide such facilities as the Board may reasonably require for its representatives to visit any place where the records are held and examine the records maintained under this Schedule Part 19 (*Record Provisions*).

2 Wherever practical, original records shall be retained and maintained in hard copy form. True copies of the original records may be kept by Project Co where it is not practicable to retain original records.

3 Those records relating to the Project Operations (including the design, construction, development, enhancement and maintenance of the Facilities) shall be retained for the duration of the Agreement.

4 Financial and other records (including without limitation all information provided in support of any Change) shall be retained and maintained by Project Co for a period of at least six (6) years after the end of the Project Term in sufficient detail, in appropriate categories and generally in such a manner to enable Project Co to comply with its obligations under Clause 63.1 and where appropriate to enable the data in such records to be entered into the Financial Model so that the output from the Financial Model (on the basis of such data) can be directly compared with the actual financial cashflow and performance of Project Co.

5 Where Project Co wishes to dispose of any records maintained as provided in this Schedule Part 19 (*Record Provisions*) which are more than fifteen (15) years old, or in respect of which the required period for their retention has expired, then Project Co shall notify the Board and if, within forty (40) Business Days of such notice, the Board elects to receive certain of those records, then Project Co shall deliver up such records to the Board in the manner and at the location as the Board shall reasonably specify, and the costs of retaining those records in safe storage and delivering up the same shall be borne by Project Co.

6 Subject to paragraph 5, for a period of not more than six (6) years following the termination for whatever reason of this Agreement, Project Co shall retain in safe storage all such records as are referred to in Section 2 (Records to be Kept) of this Schedule Part 19 (*Record Provisions*) which were in existence at the date of termination of this Agreement. On the expiry of such period or at the earlier request of the Board (and the Parties acknowledge that such a request shall be deemed to have been issued by the Board upon the occurrence of any of the events set out in Clause 40.1.1 whether prior to or following termination of this Agreement), Project Co shall deliver up all those records (or where those records are required by statute to remain with Project Co or a Contracting Associate of Project Co, copies thereof) to the Board in the manner and at the location as the Board shall reasonably specify. The Board shall make available to Project Co all the records Project Co delivers up pursuant to this paragraph subject to reasonable notice. The costs of retaining

those records in safe storage and delivering up the same shall be borne:

6.1 by Project Co where the termination arises as a result of a Project Co Event of Default; and

6.2 by the Board where the termination arises for any other cause.

7 Without prejudice to the foregoing, Project Co shall provide the Board:

7.1 as soon as they may be available and in any event within sixty (60) Business Days after the end of the first six (6) months of each financial year of Project Co which falls during the Project Term, a copy, certified as a true copy by an officer of Project Co, of its unaudited interim accounts and, if appropriate, of consolidated unaudited interim accounts of Project Co, its Subsidiaries and Holding Company (if any) which would (if Project Co were listed on the London Stock Exchange whether or not it is) be required to be sent to shareholders as at the end of and for each such six (6) month period; and

7.2 as soon as they shall have been sent to its shareholders in order to be laid before an annual general meeting of Project Co but not later than one hundred and thirty (130) Business Days after the end of each accounting reference period of Project Co part or all of which falls in a Contract Year, a copy of Project Co's audited accounts and if appropriate, of the consolidated audited accounts of Project Co and, its Associated Companies (if any), in respect of that period, prepared in accordance with the Companies Act 1985 and generally accepted accounting principles and bases in Scotland, consistently applied together with copies of all related directors' and auditors' reports and all other notices/circulars to shareholders.

8 Project Co shall provide to the Board on 31 March, 30 June, 30 September and 31 December each year a document listing all information provided by it to the Senior Funders during the preceding three month period and, at the request of the Board, provide to the Board any information provided by it to the Senior Funders during the Project Term and any other information relating to the Project that the Board may reasonably require.

9 Any drawings required to be made or supplied pursuant to this Agreement shall be of a size appropriate to show the detail to be depicted clearly without magnifying aids and shall conform to British Standards 1192 or 308 or equivalent as appropriate. Where by prior agreement the Board has agreed to accept microfilm, microfiche or other storage media (which must include secure back up facilities), drawings and other documents shall be made or supplied in such form as has been agreed.

10 Upon termination or expiry of this Agreement, and in the event that the Board wishes to enter into another contract for the operation and management of the Project, Project Co shall (and shall ensure that the sub-contractors will) comply with all reasonable requests of the Board to provide information relating to Project Co's costs of operating and maintaining the Project.

11 Project Co shall use all reasonable endeavours to assist the Board in its preparation of any report and/or return required pursuant to regulations, directions or guidance applicable to the Board (in each case as amended, replaced or consolidated from time to time) or as

required by external agencies including without limitation, reports and returns regarding the physical condition of the Facilities, health and safety, under the Fire (Scotland) Regulations 2005 and the Fire Safety (Scotland) Regulations 2006, relating to environmental health and to comply with The NHS and You or any document replacing it or required by the Scottish Government Health Directorates, the Scottish Government or the Scottish Futures Trust from time to time.

SECTION 2

RECORDS TO BE KEPT

1 The Design Build Finance and Maintain Agreement, its Schedule and the Project Documents including all amendments to such agreements.

2 Project Co shall at all times maintain a full record of particulars of the costs of performing the Project Operations, including those relating to the design, construction, maintenance, operation and finance of the Facilities the Retained Estate Handback Infrastructure. This shall require Project Co to keep (and where appropriate to procure that the sub-contractors shall keep) books of account in accordance with best accountancy practice with respect to the Agreement showing in detail:

2.1 administrative overheads;

2.2 payments to Sub-Contractors and to sub-contractors;

2.3 capital and revenue expenditure;

2.4 such other items as the Board may reasonably require to conduct cost audits for verification of cost expenditure or estimated expenditure, for the purpose of Clause 29.11, Schedule Part 16 (*Change Protocol*) and Clause 32 (*Changes in Law*).

and Project Co shall have (and procure that the sub-contractors shall have) the books of account evidencing the items listed in paragraphs 2.1 to 2.4 available for inspection by the Board (and any expert) upon reasonable notice, and shall present a report of these to the Board as and when requested.

3 All other documents, software or other information expressly referred to in this Agreement.

4 Records relating to the appointment and supersession of the Board's Representative and Project Co's Representative.

5 Project Data.

6 Documents, drawings, design data or submissions raised in accordance with Schedule Part 8 (*Review Procedure*).

7 Documents relating to planning applications, consents, refusals and appeals.

8 Records relating to any specialist or statutory inspections of the Facilities the Retained Estate Handback Infrastructure, including any roadways.

9 Notices, reports, results and certificates relating to completion of the Works and completion of the commissioning activities.

10 All operation and maintenance manuals and a full record of all maintenance procedures carried out during the Project Term.

11 Documents relating to events of Force Majeure, Delay Events and Relief Events and the consequences of the same.

12 All formal notices, reports or submissions made to or received from the Board's Representative in connection with the provision of Services, the Monitoring of Performance or the availability of the Facilities.

13 All certificates, licences, registrations or warranties related to the provision of Services.

14 Documents in support of claims for Services Payments.

15 Documents submitted in accordance with Schedule Part 16 (*Change Protocol*) and all documents provided in support.

16 Documents related to referrals to the Dispute Resolution Procedure.

17 Documents related to change in ownership or any interest in any or all of the shares in Project Co and/or Hold Co.

18 Documents relating to the rescheduling of the indebtedness of Project Co or refinancing of the Project.

19 Tax invoices and records related to Value Added Tax.

20 Financial records, including audited and unaudited accounts of [Hold Co and] Project Co and related reports

21 Records required by Law (including in relation to Health and Safety matters and health and safety files prepared pursuant to CDM Regulations) and all Consents.

22 Documents relating to insurance and insurance claims.

23 All other records, notices or certificates required to be produced and/or maintained by Project Co pursuant to this Agreement or any Project Document.

24 Records of all persons employed by Project Co or its sub-contractors and who are wholly or mainly engaged in the delivery of Services.

SCHEDULE PART 20

DISPUTE RESOLUTION PROCEDURE

1 The procedure set out in this Schedule Part 20 (*Dispute Resolution Procedure*) shall apply to any dispute, claim or difference arising out of or relating to this Agreement ("**Dispute**") except where it has been excluded from this procedure by an express term of this Agreement.

2 This Dispute Resolution Procedure shall not impose any pre-condition on either party or otherwise prevent or delay either party from commencing proceedings in any court of competent jurisdiction in relation to any Dispute in which that party requires either:

2.1 an order (whether interlocutory or final) restraining the other party from doing any act or compelling the other party to do any act; or

2.2 a decree for a liquidated sum to which there is no stateable defence.

3 MEDIATION

3.1 If the parties have been unable to resolve the Dispute within twenty (20) Business Days of the Dispute arising, they may (if both parties so agree) refer the Dispute to mediation on such conditions as may be agreed between the parties. Any mediation shall be completed within thirty (30) Business Days of such referral and any agreement arising therefrom shall be recorded in writing and signed by the parties and shall be binding and final to the extent set out in such agreement unless otherwise agreed.

3.2 For the avoidance of doubt, mediation shall not be a precondition to the commencement of Adjudication or court proceedings.

4 ADJUDICATION

4.1 Either party may at any time (notwithstanding that other dispute resolution procedures are running concurrently) give the other party to the Dispute notice of its intention to refer the Dispute to adjudication (the **"Notice of Adjudication"**). The party giving the Notice of Adjudication (the **"Referring Party"**) shall by the same means of communication send a copy of the Notice of Adjudication to an adjudicator selected in accordance with paragraph 4.2 below or paragraph 4.11 (*Related Adjudicator*) below (the **"Adjudicator"**).

4.2 The Adjudicator nominated to consider a Dispute referred to him shall, subject to paragraph 4.11, be selected on a strictly rotational basis from the relevant panel of adjudicators appointed in accordance with the following:

4.2.1 there shall be two (2) panels of adjudicators, one in respect of construction matters (the "**Construction Panel**") and one in respect of operational and maintenance matters (the "**Operational Panel**"). All the adjudicators on

each panel shall be wholly independent of Project Co, the Board, the relevant Sub-Contractor and any of the major competitors of Project Co or the relevant Sub-Contractor;

4.2.2 the Construction Panel shall be comprised of three (3) adjudicators as identified in paragraph 7 (*Panel Members*);

4.2.3 the Operational Panel shall be comprised of three (3) adjudicators [as identified in paragraph 7 (*Panel Members*);

4.2.4 if any member of either panel resigns during the term of the Agreement, a replacement adjudicator shall be appointed by Project Co and the Board as soon as practicable;

4.2.5 if Project Co and the Board are unable to agree on the identity of the adjudicators to be selected for the panels or any replacement adjudicator, the Chairman (or Vice Chairman) for the time being of the Chartered Institute of Arbitrators Scottish Branch shall appoint such adjudicators(s) within seven (7) days of any application for such appointment by either party;

4.2.6 in the event that the first panel member is unable or unwilling to confirm acceptance of his appointment as Adjudicator or where he fails to respond within two (2) days of the date of the Notice of Adjudication, then the Referring Party shall invite the person next in line to act as Adjudicator. In the event that the second panel member is unwilling or unable to confirm acceptance of his appointment as Adjudicator within four (4) days of the date of the Notice of Adjudication or if the parties disagree as to the relevant panel of adjudicators to be used, then the Referring Party may apply to the Chairman (or Vice Chairman) for the time being of the Chartered Institute of Arbitrators Scottish Branch who shall within seven (7) days of the date of the Notice of Adjudication, nominate an Adjudicator (who shall also within the same period, confirm acceptance of his appointment as Adjudicator) to determine the Dispute described in the Notice of Adjudication;

4.2.7 no member of either panel shall be entitled to accept an appointment to act as Adjudicator unless he is willing also to be appointed as the adjudicator to adjudicate any dispute which:

(a) may arise between Project Co and the Contractor and raises issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed; and/or

(b) may arise between Project Co and the Service Provider and raises issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed; and/or

(c) may arise between Project Co and the Independent Tester and raises

issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed.

4.3 The Referring Party shall, within 7 days of the date of the Notice of Adjudication, serve its statement of case (the **"Referral Notice"**) on the Adjudicator (appointed pursuant to paragraph 4.2) and the other party to the Dispute (the **"Responding Party"**). The Referral Notice shall set out each element of the Referring Party's claim and the relief or remedy sought in sufficient detail so as to enable the Responding Party to understand and, where appropriate, respond to the claim and the Referral Notice shall be accompanied by copies of, or relevant extracts from, this Agreement and such other documents as the Referring Party intends to rely upon. The date of the referral of the Dispute (the **"Referral"**) shall be the date of the Referral Notice.

4.4 Within seven (7) days of appointment in relation to a particular Dispute, the Adjudicator shall establish the procedure and timetable for the adjudication. The Adjudicator shall have absolute discretion as to how to conduct the adjudication, including whether a meeting is necessary. He shall establish the procedure and timetable subject to any limitation within this Agreement. The parties shall comply with any request or direction of the Adjudicator in relation to the adjudication.

4.5 The Adjudicator shall reach a decision on the Dispute within twenty-eight (28) days of the date of the Referral (or such other period as the parties may agree). The Adjudicator may extend the period of 28 days by up to 14 days with the consent of the Referring Party. Unless the parties otherwise agree, the Adjudicator shall give reasons for his decision. Unless and until the Dispute is finally determined by Court proceedings or by an agreement in writing between the parties, the Adjudicator's decision shall be binding on both parties who shall forthwith give effect to the decision.

4.6 The Adjudicator's costs of any reference shall be borne as the Adjudicator shall specify or, in default, equally by the parties. Each party shall bear its own costs arising out of the adjudication, including legal costs and the costs and expenses of any witnesses.

4.7 The Adjudicator shall be deemed not to be an arbitrator but shall render his decision as an adjudicator and the law relating to arbitration shall not apply to the Adjudicator or his determination or the procedure by which he reached his determination.

4.8 The Adjudicator shall act fairly and impartially and may take the initiative in ascertaining the facts and the law. The Adjudicator shall have the power to open up, review and revise any opinion, certificate, instruction, determination or decision of whatever nature given or made under this Agreement.

4.9 All information, data or documentation disclosed or delivered by a party to the Adjudicator in consequence of or in connection with his appointment as Adjudicator shall be treated as confidential. The Adjudicator shall not, save as permitted by Clause 61 (*Confidentiality*), disclose to any person or company any such information, data or documentation and all such information, data or documentation shall remain the property of the party disclosing or delivering the same and all copies shall be returned to such party on completion of the Adjudicator's work.

4.10 The Adjudicator is not liable for anything done or omitted in the discharge or purported discharge of his functions as Adjudicator unless the act or omission is in bad faith. Any employee or agent of the Adjudicator is similarly protected from liability.

4.10A.1 The Adjudicator may on his own initiative or on the request of the Referring Party or Responding Party correct his decision so as to remove a clerical or typographical error arising by accident or omission.

4.10A.2 Any correction of a decision shall be made within 5 days of the date upon which the Adjudicator's decision was delivered to the parties.

4.10A.3 Any correction of a decision shall form part of the decision.

4.11 If any Dispute raises issues which, in the opinion of Project Co, are substantially the same as or connected with issues raised in a dispute or difference arising out of or relating to any other agreement (all such agreements being referred to as the "Related Agreements") between:

4.11.1 Project Co and the Contractor;

4.11.2 Project Co and the Service Provider; and/or,

4.11.3 Project Co and the Independent Tester,

which was or has been referred to adjudication (the "**Related Adjudication**") and an adjudicator has already been appointed (the "**Related Adjudicator**") then Project Co may request that the Dispute be referred to the Related Adjudicator and paragraphs 4.12 to 4.14 shall apply.

4.12 Subject to paragraphs 4.13 and 4.14 below, in the event that a Related Adjudicator orders that a Dispute under this Agreement be consolidated with a Related Adjudication with which he is dealing under the Related Agreement, then:

4.12.1 with effect from the time of such order, the Dispute shall be determined by the Related Adjudicator, who shall become the Adjudicator; and

4.12.2 such order shall be binding on Project Co and the Board and both of them shall acknowledge the appointment of the Related Adjudicator as the adjudicator of the Dispute, with Project Co or the Board (as the case may be) using its best endeavours to procure that the third party who is a party to the Related Agreement shall with effect from the time of such order comply with the requirements of the Related Agreement (including if applicable any requirement or direction of the Related Adjudicator appointed under such Related Agreement) as to the future conduct of the determination of the Dispute and the Related Adjudication; and

4.12.3 notwithstanding paragraph 4.6, Project Co and the Board shall be jointly responsible with the third party who is a party to the Related Agreement for the Related Adjudicator's fees and expenses including those of any specialist consultant appointed under the adjudication procedure in the Related Agreement, in respect of the period in which the Dispute is consolidated with the Related Adjudication pursuant to an order of the Related Adjudicator (**"Consolidated Adjudication Costs"**). Project Co and the Board agree that the Related Adjudicator shall have the discretion to make directions to require Project Co, the Board and the third party who is a party to the Related Agreement to pay or make contribution to the Consolidated Adjudication Costs in different proportions. If no such directions are made, Project Co, the Board and the third party who is a party to the Related Agreement shall bear the Consolidated Adjudication Costs in equal shares, and if Project Co, the Board or the third party has paid more than such equal share, that party or third party shall be entitled to a contribution from the other party, parties or third party, as the case may be.

4.13 Notwithstanding anything to the contrary a Dispute under this Agreement may only be consolidated with a Related Adjudication, if the Related Adjudicator receives particulars of the Dispute within ten (10) days of the referral of the Related Adjudication to the Related Adjudicator under the Related Agreement.

4.14 Where Project Co requests that a Dispute under this Agreement be consolidated (in terms of paragraph 4.11) with a Related Adjudication and heard by the Related Adjudicator, the Dispute may only be consolidated where the Board has previously consented in writing to the identity of the Related Adjudicator appointed in respect of the Related Adjudication. The Board's consent to such request shall not be unreasonably withheld and if the Board refuses to consent, it must give reasons in writing for its refusal. Should the Board fail to respond within two (2) days of receipt of such a request it shall be deemed to have consented to the appointment of the Related Adjudicator. Where the Related Adjudicator is on the Construction Panel or Operational Panel at the time of the Referral then the Board shall be deemed to have consented to the appointment of the Related Adjudicator.

5 COURT PROCEEDINGS

Subject to paragraph 4 (*Adjudication*) all Disputes, to the extent not finally resolved pursuant to the procedures set out in the foregoing provisions of this Schedule Part 20 (*Dispute Resolution Procedure*), shall be referred to the Court of Session in Edinburgh.

6 SUBMISSIONS IN RELATION TO ADJUDICATION

6.1 If any Dispute raises issues which relate to:

6.1.1 any dispute between Project Co and the Contractor arising under the Construction Contract or otherwise affects the relationship or rights of Project Co and/or the Contractor under the Construction Contract (the **"Construction Contract Dispute"**); or

6.1.2 any dispute between Project Co and the Service Provider arising under the Service Contract or otherwise affects the relationship or rights of Project Co

and/or the Service Provider under the Service Contract (the **"Service Contract Dispute"**); or

6.1.3 any dispute between Project Co and the Independent Tester arising under the Independent Tester Contract or otherwise affects the relationship or rights of Project Co and/or the Independent Tester under the Independent Tester Contract (the **"Independent Tester Contract Dispute"**),

then Project Co may include as part of its submissions made to the Adjudicator submissions made by the Contractor or by the Service Provider or the Independent Tester as appropriate.

6.2 Any submissions made by the Contractor or the Service Provider or the Independent Tester shall:

6.2.1 be made within the time limits applicable to the delivery of submissions by Project Co to the Adjudicator; and

6.2.2 concern only those matters which relate to the Dispute between the Board and Project Co arising out of this Agreement or in connection therewith.

6.3 Where the Contractor or the Service Provider or the Independent Tester makes submissions in any reference before the Adjudicator, the Adjudicator's costs of such reference shall be borne as the Adjudicator shall specify, or in default, one-third by the Board and two-thirds by Project Co.

6.4 The Board shall have no liability to the Contractor or the Service Provider or the Independent Tester arising out of or in connection with any decision of the Adjudicator or in respect of the costs of the Contractor or the Service Provider or the Independent Tester in participating in the resolution of any Dispute under this Agreement.

6.5 Project Co shall not allow the Contractor or the Service Provider or the Independent Tester access to any Confidential Information relevant to the issues in dispute between the Board and Project Co save where:

6.5.1 the Confidential Information is relevant also to the issues relating to the Construction Contract Dispute or the Service Contract Dispute or the Independent Tester Contract Dispute as the case may be; and

6.5.2 Project Co has first delivered to the Board a written undertaking from the Contractor and/or the Service Provider and/or the Independent Tester (as appropriate) addressed to the Board that they shall not use any such Confidential Information otherwise than for the purpose of the dispute resolution proceedings under this Agreement and that they shall not disclose such Confidential Information to any third party other than the Adjudicator or the courts or any professional adviser engaged by the Contractor or the Service Provider or Independent Tester (as appropriate) to advise in connection with the Dispute.

7 PANEL MEMBERS

The panel members referred to in paragraph 4 are as follows:

Construction Panel [ ]

Operational Panel [ ]

8 NO LOSS

Where the Board would otherwise be expressly liable to make payment to Project Co of sums which include amounts payable in turn by Project Co to any Sub-Contractor, the Board shall not be entitled to withhold, reduce or avoid any such payment to Project Co in reliance only on the fact that the amount which is due from Project Co to the Sub-Contractor or the entitlement of the Sub-Contractor to payment of such amount as a result of the circumstances giving rise to the Board's obligation to pay, is conditional on the entitlement of, or receipt of payment by Project Co from the Board.

9 CONTINUING OBLIGATIONS

Unless this Agreement has already been repudiated or terminated, the parties shall, (notwithstanding that any Dispute is subject to the Dispute Resolution Procedure set out in this Schedule Part 20 (*Dispute Resolution Procedure*)), continue to carry out their obligations in accordance with this Agreement.

SCHEDULE PART 23

REFINANCING

Requirement for Board Consent

1 Project Co shall obtain the Board's prior written consent to any Qualifying Refinancing and both the Board and Project Co shall at all times act in good faith with respect to (a) any Refinancing or (b) any potential or proposed Refinancing under Article [4] of the Articles of Association.

2 The Board shall be entitled to receive:

2.1 a 90% share of the Margin Gain arising from any Qualifying Refinancing which gives rise to a reduction in the Margin from the Margin as shown in the Senior Funding Agreements as at Financial Close (or, in the case of a second or subsequent Qualifying Refinancing, from the Margin as shown in the Senior Funding Agreements as updated at the immediately preceding Qualifying Refinancing);

2.2 a share of any Refinancing Gain (arising otherwise than from a reduction in Margin) from a Qualifying Refinancing, in respect of any Refinancing Gain (when considered in aggregate with all previous Qualifying Refinancings) as follows:

2.2.1 for a Refinancing Gain from £1 up to £1 million, a 50% share;

2.2.2 for a Refinancing Gain from £1 million up to £3 million, a 60% share;

2.2.3 for a Refinancing Gain in excess of £3 million, a 70% share.

3 The Board shall not withhold or delay its consent to a Qualifying Refinancing to obtain a greater share of the Refinancing Gain than that specified in paragraph 2 above.

Project Co Details

4 Project Co shall promptly provide the Board with full details of any proposed Qualifying Refinancing, including a copy of the proposed financial model relating to it (if any) and the basis for the assumptions used in the proposed financial model. The Board shall (before, during and at any time after any Refinancing) have unrestricted rights of audit over any financial model and documentation (including any aspect of the calculation of the Refinancing Gain) used in connection with the Refinancing whether that Refinancing is a Qualifying Refinancing or not.

Receipt of Gain

5 The Board shall have the right to elect to receive its share of any Refinancing Gain (including any Margin Gain) as:

5.1 a single payment being the proportion (corresponding to the proportion of the Refinancing Gain to which the Board is entitled pursuant to paragraph 2 above) of the amount which, but for the provisions of this Schedule Part 23, would otherwise be capable of being released as a Distribution and/or a Surplus Payment on or about the date of the Refinancing;

5.2 a reduction in the Annual Service Payments over the remaining term of this Agreement; or

5.3 a combination of the above.

Method of Calculation

6 The Board and Project Co will negotiate in good faith to agree the basis and method of calculation of the Refinancing Gain (including any Margin Gain) and payment of the Board's share of the Refinancing Gain (taking into account how the Board has elected to receive its share of the Refinancing Gain under paragraph 5 (Receipt of Gain) above). If the parties fail to agree the basis and method of calculation of the Refinancing Gain or the payment of the Board's share, the dispute shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

Costs

7 The Refinancing Gain (including any Margin Gain) shall be calculated after taking into account any breakage costs necessary to facilitate the Qualifying Refinancing together with the reasonable and proper professional costs that each party directly incurs in relation to the Qualifying Refinancing and on the basis that all reasonable and proper professional costs incurred by the Board will be paid to the Board by Project Co within twenty eight (28) days of any Qualifying Refinancing. Such costs shall be allocated pro rata between the Margin Gain (if any) and the remaining Refinancing Gain.

8 Without prejudice to the other provisions of this Schedule Part 23 (*Refinancing*), Project Co shall:

8.1 notify the Board of all Notifiable Financings on becoming aware of the same and again when they are entered into and provide full details of the same; and

8.2 include a provision in the Funding Agreements (other than the Subordinated Funding Agreements) whereby it is entitled to be informed of any proposals which the Senior Funders may have to refinance the Funding Agreements (other than the Subordinated Funding Agreements).

Definitions

In this Schedule Part 23 (*Refinancing*) and elsewhere in this Agreement (save where Schedule Part 1 (*Definitions and Interpretation*) provides to the contrary) the following words and expressions shall have the following meanings:

"Distribution" means:

(a) whether in cash or in kind, any:

i. dividend or other distribution in respect of share capital (whether made validly in accordance with the Articles of Association or otherwise);

ii. reduction of capital, redemption or purchase of shares or any other reorganisation or variation to share capital;

iii. payments under the [Subordinated Funding Agreements] (whether of principal, interest, breakage costs or otherwise);

iv. payment, loan, contractual arrangement or transfer of assets or rights to the extent (in each case) it was put in place after Financial Close and was neither in the ordinary course of business nor on reasonable commercial terms;

v. the receipt of any other benefit which is not received in the ordinary course of business and on reasonable commercial terms; or

(b) the early release of any Contingent Funding Liabilities, the amount of such release being deemed to be a gain for the purposes of any calculation of Refinancing Gain;

"EEA" means from time to time the European Economic Area as created by The Agreement on the European Economic Area 1992 or any successor or replacement body, association, entity or organisation which has assumed either or both the function and responsibilities of the European Economic Area;

"Exempt Refinancing" means:

(a) any Refinancing that was fully taken into account in the calculation of the Annual Service Payments;

(b) a change in taxation or change in accounting treatment;

(c) the exercise of rights, waivers, consents

and similar actions which relate to day to day administrative and supervisory matters, and which are in respect of:

i. breach of representations and warranties or undertakings;

ii. movement of monies between the [Project Accounts] in accordance with the terms of the Senior Funding Agreements as at Financial Close;

iii. late or non-provision of information, consents or licences;

iv. amendments to Sub-Contracts;

v. approval of revised technical and economic assumptions for financial model runs (to the extent required for forecasts under the Funding Agreements);

vi. restrictions imposed by Senior Funders on the dates at which the [Senior Debt] can be advanced to Project Co under the Senior Funding Agreements and/or amounts released from [Escrow Account] during the [Initial Availability Period], each as defined in the Senior Funding Agreements and which are given as a result of any failure by Project Co to ensure that the construction work is performed in accordance with the agreed construction programme and which is notified in writing by Project Co or the Senior Funders to the Board prior to being given;

vii. changes to milestones for drawdown and/or amounts released from the [Escrow Account] during the [Initial Availability Period] set out in the Senior Funding Agreements and which are given as a result of any failure by Project Co to ensure that construction work is performed in accordance with the agreed construction programme and which is notified in writing by Project Co or the Senior Funders to the Board prior to being given;

viii failure by Project Co to obtain any consent by statutory bodies

required by the Senior Funding Agreements; or

ix. voting by Senior Funders and the voting arrangements between the Senior Funders in respect of the levels of approval required by them under the Senior Funding Agreements;

(d) any amendment, variation or supplement of any agreement approved by the Board as part of any Qualifying Change under this Agreement;

(e) any sale of shares in Project Co [or HoldCo] by the shareholders or securitisation of the existing rights and/or interests attaching to shares in Project Co [or HoldCo provided that this paragraph (e) shall, in respect of shares in HoldCo, only apply for so long as HoldCo holds 100% of the issued share capital of Project Co];

(f) any sale or transfer of the Subordinated Funders' existing rights and/or interests under the Subordinated Funding Agreements or securitisation of the Subordinated Funders' existing rights and/or interests under the Subordinated Funding Agreements; or

(g) any Qualifying Bank Transaction;

"Insurance Undertaking" has the meaning given in the rules from time to time of the Financial Services Board;

"Margin" [define by reference to Senior Funding Agreements;]

"Margin Gain" means an amount equal to the lower of:

(a) the Refinancing Gain; and

(b) the higher of:

i. zero; and

ii. D – E;

where:

D = the Net Present Value of the Surplus Payments projected immediately prior to the

Refinancing (taking into account the effect of the change in Margin only in relation to the Refinancing and the senior debt repayment profile immediately prior to the Qualifying Refinancing and using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing but disregarding any Distribution (including any payment under clause [ ] of the [Loan Stock Agreement]) that, but for the Refinancing, would not be made) to be made over the remaining term of this Agreement following the Refinancing; and

E = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (but without taking into account the effect of the Refinancing and using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing) to be made over the remaining term of this Agreement following the Refinancing;

"Net Present Value" means the aggregate of the discounted values, calculated as at the relevant date, of each of the relevant projected cashflows, in each case discounted at [7]%;

"Notifiable Financings" means any Refinancing described in paragraphs (a) or (c) of the definition of Refinancing and any other arrangement which has or would have a similar effect or which has or would have the effect of limiting Project Co's or any Associated Company's ability to carry out any such refinancing or other arrangements that would have a similar effect;

"Project Accounts" means accounts referred to in and required to be established under the Senior Funding Agreements;

"Qualifying Bank Transaction" means:

(a) the syndication by a Senior Funder, in the ordinary course of its business, of any of its rights or interests in the Senior Funding Agreements;

(b) the grant by a Senior Funder of any rights of participation, or the disposition by Senior Funder of any of its rights or interests (other than as specified in paragraph (a) above in respect of the Senior Funding Agreements in favour of:

i. any other Senior Funder;

ii. any institution which is recognised

or permitted under the law of any member state of the EEA to carry on the business of a credit institution pursuant to Council Directive 2006/48/EC relating to the taking up and pursuit of business of credit institutions or which is otherwise permitted to accept deposits in the United Kingdom or any other EEA member state;

iii. a local authority or public authority;

iv. a trustee of a charitable trust which has (or has had at any time during the previous two years) assets of at least £10 million (or its equivalent in any other currency at the relevant time);

v. a trustee of an occupational pension scheme or stakeholder pension scheme where the trust has (or has had at any time during the previous two years) at least 50 members and assets under management of at least £10 million (or its equivalent in any other currency at the relevant time);

vi. an EEA or Swiss Insurance Undertaking;

vii a Regulated Collective Investment Scheme;

viii. any Qualifying Institution; or

ix. any other institution in respect of which the prior written consent of the Board has been given; and/or

(c) the grant by a Senior Funder of any other form of benefit or interest in either the Senior Funding Agreements or the revenues or assets of Project Co [or HoldCo], whether by way of security or otherwise, in favour of:

i. any other Senior Funder;

ii. any institution specified in paragraphs bii to bvii above;

iii. any Qualifying Institution; or

iv. any other institution in respect of

which the prior written consent of the Board has been given;

"Qualifying Institutions" means [ ];

"Qualifying Refinancing" means any Refinancing that will give rise to a Refinancing Gain greater than zero that is not an Exempt Refinancing;

"Refinancing" means:

(a) any amendment, variation, novation, supplement or replacement of any Funding Agreement (other than any Subordinated Funding Agreement);

(b) the exercise of any right, or the grant of any waiver or consent, under any Funding Agreement (other than any Subordinated Funding Agreement);

(c) the disposition of any rights or interests in, or the creation of any rights of participation in respect of, the Funding Agreements (other than the Subordinated Funding Agreements) or the creation or granting of any other form of benefit or interest in either the Funders' Agreements (other than the [Subordinated Funding Agreements]) or the contracts, revenues or assets of Project Co whether by way of security or otherwise; or

(d) any other arrangement put in place by Project Co or another person which has an effect which is similar to any of (a)-(c) above or which has the effect of limiting Project Co's or any Associated Company's ability to carry out any of (a)–(c) above;

"Refinancing Gain" means an amount equal to the greater of zero and [(A – B)], where:

A = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (taking into account the effect of the Refinancing using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing but disregarding any Distribution (including any payment under clause [ ] of the [Loan Stock Instrument]) that, but for the Refinancing, would not be made) to be made over the remaining term of this Agreement following the Refinancing; and

B = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (but without taking into account the effect of the Refinancing and using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing) to be made over the remaining term of this Agreement following the Refinancing;

"Regulated Collective Investment Scheme" has the meaning given in the rules from time to time of the Financial Services Authority;

"Shareholder" means any person from time to time holding share capital in Project Co or [HoldCo].

SCHEDULE PART 24

SECTION 1

NOT USED

SECTION 2

NOT USED

SECTION 3

NOT USED

SCHEDULE PART 25
INSURANCE PROCEEDS ACCOUNT AGREEMENT

AGREEMENT

AMONG:

(1) [PROJECT CO] of [ ] (the "**Issuer**"); and

(2) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the **"Board"**) ;

(3) [FUNDER] of [ ] (the "**Account Bank**"); and

(4) [TRUSTEE] of [ ] (the "**Security Trus**tee").

WHEREAS

(A) The Issuer and the Board have agreed to open an insurance proceeds account in their joint names.

(B) The parties hereto have agreed to set out the terms on which payments may be made to or from that account in this Agreement.

IT IS AGREED as follows:

1 [DEFINITIONS AND INTERPRETATION

"Credit Provider"	means [ ];
"Design, Build, Finance and Maintain Agreement"	means the agreement dated [ ] between the Project Co and the Board in relation to [ ];
"Event of Default"	has the meaning given in Clause 4.5 of this Agreement;
"Qualifying Bank"	means any institutions which is recognised or permitted under the law of any member state of the EEA to carry on the business of a credit institution pursuant to Council Directive 2006/48EC relating to the taking up and pursuit of the business of credit institutions or which is otherwise permitted to accept deposits in the United Kingdom or any other EU member state;
"Senior Finance Documents"	means [ ];
"Security Documents"	means [ ].

1.1 Capitalised terms defined in the Design Build Finance and Maintain Agreement shall have the same meaning in this Agreement.]

1.2 **European Economic and Monetary Union**

In the event that the United Kingdom joins EMU any figures expressed in "£" and "sterling" under this Agreement shall be converted into Euro at the rate for conversion of sterling into Euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations) and any reference to a figure in "£" or "Sterling" shall mean that figure adjusted into Euro.

2 INSURANCE PROCEEDS ACCOUNT

Each of the Issuer and the Board (together the "**Account Holders**") hereby appoint [ ] as the Account Bank.

2.1 The Account Bank has opened on its books, at its office at [ ], an account in the joint names of the Account Holders designated the Board Insurance Proceeds Account (the "Account").

2.2 The Account Bank shall, save as otherwise provided herein, maintain the Account in accordance with its usual practices, provided that, in the event of any conflict between the provisions of this Agreement and any applicable mandate, the provisions of this Agreement shall prevail.

2.3 Notwithstanding anything else in this Agreement, no person shall request or require that any withdrawal be made from the Account if it would cause the Account to become overdrawn and to the extent that any withdrawal (if made in full) would cause the Account to become so overdrawn, such withdrawal shall be made in part in as great an amount as possible as will not result in such Account becoming overdrawn.

2.4 Where any withdrawal required under this Agreement cannot be made in its entirety, the Account Bank shall promptly notify both of the Account Holders of that fact and provide details of the payment not made, the date on which it should have been made and the amount unpaid.

2.5 Each amount from time to time standing to the credit of the Account shall bear interest at the rate agreed between the Account Bank and the Account Holders from time to time, such interest to be credited to the Account in respect of which such interest has accrued in accordance with the relevant mandate.

2.6 Subject to and in accordance with the provisions of this Agreement, including without limitation Clause 4 (*General Provisions for the Account*) of this Agreement, the Account Bank agrees that it shall make such payments out of the amount standing to the credit of the Account as may from time to time be requested by the Account Holders jointly subject to the restrictions as contained in this Agreement. Save as otherwise provided in this Agreement, no party shall be entitled to require the Account Bank to make, and the Account Bank shall not make, any payment out of the amount standing to the credit of the Account.

2.7 Subject to Clause 8.6 of this Agreement, the Account Holders shall maintain the

Account with the Account Bank until the termination of the Design Build Finance and Maintain Agreement. If so instructed after the termination of the Design Build Finance and Maintain Agreement, the Account Bank shall, at the sole cost and expense of the Issuer, terminate the Account in accordance with the relevant instructions and pay any amount standing to the credit of such accounts as the Account Holders may elect in accordance with Clause 4.1 of this Agreement.

3 RECEIPTS AND PAYMENTS

3.1 The Account may only be used in accordance with the terms of and for the purposes set out in this Clause 3 (*Receipts and Payments*).

3.2 The Account shall be used for receiving, to the extent required by Clause 53 (*Insurance*) of the Design Build Finance and Maintain Agreement, the proceeds of all Insurances (as defined in the Design Build Finance and Maintain Agreement).

3.3 Subject to restrictions set out in this Agreement, the Account shall only be used for applying the proceeds of the Board Insurances in accordance with Clause 53 (*Insurance*) of the Design Build Finance and Maintain Agreement either directly or indirectly by way of the reimbursement to the Issuer of costs or expenses incurred or monies paid by it (or on its behalf) in or towards satisfaction of the reinstatement restoration or replacement requirements of that Clause 53 (*Insurance*). In the event that any amount standing to the credit of the Account is not so required to be applied, such amount shall (subject to Clause 4.3 and 4.5 below) be paid by the Account Bank to the Receipts Account, or as otherwise instructed by the Security Trustee pursuant to Clause 4.5 below.

4 GENERAL PROVISIONS FOR THE ACCOUNT

4.1 Subject to Clauses 4.3 and 4.5 below, and provided that:

4.1.1 the Account Bank has received notice in writing from two signatories, one of which shall be an authorised signatory of the Issuer and the other an authorised signatory of the Board, as listed under the applicable mandate that such payment is authorised under this Agreement; and

4.1.2 no notice has been given to the Account Bank by the Credit Provider prior to the making of such payment or transfer of an Event of Default which is subsisting and the Account Bank has no actual notice that an Event of Default will occur as a result of the making of any such payment or transfer,

the Account Bank agrees that it shall only make payments or transfers from the Account on the request of the Account Holders.

4.2 The Board undertakes to provide notice to the Account Bank as prescribed in Clause 4.1.1 for, the purposes of applying any part of the balance standing to the credit of the Account in accordance with Clause 3.3 of this Agreement.

Each of the Account Bank and the Issuer shall be entitled to treat any act of the authorised signatory of the Board as being expressly authorised by the Board and neither the Account Bank nor the Issuer shall be required to determine whether an express authority has in fact been given.

4.3 No payments or transfers from the Account shall be made after an Event of Default which is continuing until the Credit Provider has confirmed to the Account Bank that such payment or transfer may be made except as expressly permitted under this Agreement. The Account Bank shall not be under any obligation to investigate the compliance of any payment with this Agreement.

4.4 All amounts withdrawn from the Account for transfer to another account or for application in or towards making a specific payment or meeting a specific liability shall be transferred to that account or applied in or towards making that payment or meeting that liability, and for no other purpose.

4.5 Notwithstanding any other provision of this Agreement, at any time following the occurrence of any Event of Default (as defined in Schedule Part 4 (*Funders' Direct Agreement*) of the Design Build Finance and Maintain Agreement) which is continuing and has not been waived or remedied, the Security Trustee may at any time give notice to the Account Bank instructing it not to act on the instructions of or at the request of the Issuer in relation to any sums at any such time standing to the credit of the Account. Without prejudice to the foregoing, the Account Bank agrees that it shall pay any amount standing to the credit of the Account and payable to the Issuer in accordance with Clause 3.3 of this Agreement to such a bank account as the Security Trustee shall direct following the occurrence of any Event of Default. The Account Bank agrees that it shall not so act and shall act on the instructions of the Security Trustee in place of the Issuer.

4.6 In establishing the balance standing to the credit of the Account at any time, the Account Bank may take into account credits to and withdrawals from such Account which are to be made on such day.

5 QUALIFYING BANK

If at any time the Account Bank ceases to be a Qualifying Bank, the Account Holders shall promptly open or cause to be opened a new account with a Qualifying Bank on the same terms as the Account and the Account Holders shall take all such action as may be required to open the new account.

6 CHARGES

The charges of the Account Bank (if any) for the operation of the Account shall be for the account of the Account Holders in equal amounts and shall be debited from the balance standing to the credit of the Account as from time to time agreed between the Account Bank, the Board and the Issuer.

7 MANDATES

Each of the Account Holders will deliver to the Account Bank on or prior to the date hereof the applicable mandate together with authorised signature lists for both the Issuer and the Board.

8 THE ACCOUNT BANK

8.1 The Account Bank may:

8.1.1 engage and pay reasonable fees for the advice or services of any lawyers, accountants or other experts whose advice or services may to it seem necessary, expedient or desirable and rely upon any advice so obtained;

8.1.2 rely upon any communication or document believed by it to be genuine and, in particular, rely upon any notice, request or other communication of the Account Holders for the purposes of this Agreement if such notice, request or other communication purports to be signed or sent by or on behalf of an authorised signatory of the Account Holders;

8.1.3 assume that no Event of Default has occurred unless it has actual notice to the contrary; and

8.1.4 assume that all conditions for the making of any payment out of the amount standing to the credit of the Account which is specified in the Design Build Finance and Maintain Agreement or any of the Senior Finance Documents has been satisfied, unless it has actual notice to the contrary.

8.2 Notwithstanding anything to the contrary expressed or implied herein and subject to Clause 2 (*Insurance Proceeds Account*) of this Agreement (Insurance Proceeds Account), the Account Bank shall not:

8.2.1 be bound to enquire as to the occurrence or otherwise of an Event of Default or be affected by notice of any of the same except by reason of and to the extent expressly provided in this Agreement;

8.2.2 be bound to account to any other party hereto for any sum or the profit element of any sum received by it for its own account;

8.2.3 save as provided in this Agreement be bound to disclose to any other person any information relating to any other party hereto;

8.2.4 be under any fiduciary duty towards any other party hereto or under any obligations other than those for which express provision is made in this Agreement;

8.2.5 have any responsibility to ensure that the information set out in any instructions received by it hereunder are correct or to check or enquire as to or otherwise be affected by whether any condition has been or will be met or

fulfilled or any instruction is properly given on behalf of the person from whom it purports to be given or any instruction is given properly other than to exercise the bankers duty of care; or

8.2.6 have any responsibility to any party if any instruction which should be given by the Account Holders to the Account Bank under or in connection with this Agreement is for any reason not received by the Account Bank or is not made at the time it should be made.

8.3 The Account Bank does not have and does not accept any responsibility for the accuracy and/or completeness of any information (other than statements provided in accordance with Clause 9.2 of this Agreement (*Acknowledgements by the Account Bank*)) and the Account Bank shall not be under any liability as a result of taking or omitting to take any action in relation to the Account, save in the case of negligence or wilful misconduct or breach of its obligations under this Agreement.

8.4 Each of the other parties hereto agrees that it will not assert or seek to assert against any director, officer or employee of the Account Bank any claim it might have against the Account Bank in respect of the matters referred to in Clause 8.3 above.

8.5 The Account Bank may accept deposits from, lend money to, invest in and generally engage in any kind of banking or other business with the Account Holders, the Shareholders and any other party to any of the Project Documents.

8.6 The Account Bank may, at any time, (without assigning any reason therefor) notify the Account Holders in writing that it wishes to cease to be a party hereto as Account Bank (a **"cessation notice"**). Upon receipt of a cessation notice the Account Holders may nominate a Qualifying Bank as a successor to the Account Bank (a **"successor Account Bank"**). If no such nomination is made before the date specified in the cessation notice as being the date on which the Account Bank wishes to cease to be a party hereto (the "cessation date") (which date shall be a Business Day falling not less than thirty (30) days after the date of delivery of the cessation notice to the Account Holders) then the Account Bank may nominate a Qualifying Bank as successor Account Bank itself.

8.7 If a successor Account Bank is nominated under the provisions of Clause 8.6 above, then on the cessation date, provided the successor Account Bank has executed and delivered to the Account Holders a deed of novation in such form as the Account Holders may require undertaking to become a party to and bound by the terms and conditions of this Agreement and to become a party to such other documents as may be required by the Security Trustee in order to perfect the security created by the Senior Finance Documents:

8.7.1 the successor Account Bank shall open on its books at its principal office an account equivalent to that described in Clause 2 of this Agreement and any amounts standing to the credit of the Account shall be transferred to the corresponding one of such account;

8.7.2 any reference in the Design Build Finance and Maintain Agreement or any Senior Finance Document to the Account shall be deemed to refer to the corresponding account opened pursuant to Clause 8.7.1;

8.7.3 the Account Bank shall cease to be a party hereto as Account Bank and shall cease to have any obligation hereunder in such capacity (but without prejudice to any accrued liabilities under this Agreement and its obligations under this Clause 8 (*The Account Bank*)) (but shall remain entitled to the benefit of the provisions of this Clause 8 (*The Account Bank*)); and

8.7.4 the successor Account Bank and each of the other parties hereto shall have the same rights and obligations amongst themselves as they would have had if such successor Account Bank had been an original party hereto as Account Bank.

9 ACKNOWLEDGEMENTS BY THE ACCOUNT BANK

9.1 Notwithstanding anything to the contrary in any applicable mandate, the Account Bank hereby waives so far as it may validly and lawfully do so any right it has or may hereafter acquire to combine, consolidate or merge the Account with any other account of the Account Bank, Account Holders or the Security Trustee or any other person or with any liabilities of Account Holders or the Security Trustee or any other person to the Account Bank. In addition, the Account Bank agrees so far as it may validly and lawfully do so that it may not set off, combine, withhold or transfer any sum standing to the credit of the Account in or towards satisfaction of any liabilities to the Account Bank of the Account Holders, the Security Trustee or any other person.

9.2 After the date hereof and until the Account Bank has been notified by the Account Holders of the termination of the Design Build Finance and Maintain Agreement or until the Account Bank ceases to be a party to this Agreement pursuant to the provisions of Clause 8.7 above, the Account Bank shall provide each of the Account Holders and the Security Trustee with statements in respect of the Account, such statement to be supplied in accordance with any reasonable request therefore by the Account Holders.

10 ASSIGNATION

The Account Holders may not assign any of their rights under this Agreement or in relation to the Account otherwise than pursuant to the Security Documents or as permitted under the Design Build Finance and Maintain Agreement. The Security Trustee may assign its rights under this Agreement to a successor Security Trustee appointed in accordance with the Security Trust and Intercreditor Deed and shall promptly give notice of any such assignation to the Account Bank. The Account Bank shall not be entitled to novate (except in accordance with Clause 8.7 above) or assign all or any part of its rights under this Agreement.

11 SECURITY TRUSTEE

The Security Trustee is party hereto solely for the purpose of receiving the benefits and exercising the rights specifically allocated to it under the terms of this Agreement.

12 FURTHER ASSURANCE

The parties hereto agree that they will co-operate fully to do all such further acts and things and execute any further documents as may be necessary or reasonably desirable to give full effect to the arrangements contemplated by this Agreement, subject to any such party being reimbursed to its satisfaction for any costs, expenses (including VAT) liabilities or fees reasonably incurred by it in the negotiation, preparation or execution of any such further documents.

13 AMENDMENTS

The provisions of this Agreement may not be amended (otherwise than in accordance with the terms hereof) except by written agreement between all the parties hereto.

14 NOTICES

14.1 Each communication to be made hereunder shall be made in writing and, unless otherwise stated, may be made by facsimile or letter delivered by registered post or courier.

14.2 Any communication or document to be made or delivered by one person to another pursuant to or in connection with this Agreement shall (unless that other person has by ten days' written notice to the other specified another address) be made or delivered to that other person at the address set out below identified with its signature below or identified with its signature in any deed of novation and shall be deemed to have been made or delivered:

14.2.1 (in the case of any communication made by letter) when delivered to that address; or

14.2.2 (in the case of any communication by facsimile) when transmission of such facsimile communication has been received in legible form and receipt has been confirmed, and communication verified, by telephone,

provided that (a) if such communication or document would otherwise be deemed to have been received on a day which is not a Business Day it shall be deemed to have been received on the next subsequent Business Day, (b) if any communication is made or document is delivered to the Security Trustee, such communication or document shall be effective only if the same is expressly marked for the attention of the officer identified the Security Trustee, as the case may be, below (or such other officer as the Credit Provider or the Security Trustee, as the case may be, shall from time to time specify for this purpose) and (c) if any communication or document is made or delivered to the Account Bank or the Security Trustee, such communication or document shall be effective only when received by the Account Bank, or the Security Trustee.

14.3 Notice to the Account Bank at any other office than the address shown beside its execution of this Agreement or such substitute address notified in accordance with Clause 14.2 above shall not constitute notice to the Account Bank unless agreed in writing by the Account Bank by reference to this Agreement.

15 MISCELLANEOUS

The parties hereto each acknowledge that the Security Trustee when acting hereunder shall be acting in accordance with and subject to the terms of the Security Trust and Intercreditor Deed.

16 GOVERNING LAW AND JURISDICTION

This Agreement is governed by, and shall be construed in accordance with, Scottish law.

17 THIRD PARTY RIGHTS

Save to the extent expressly provided in this Agreement, it is expressly declared that no rights shall be conferred under and arising out of this Agreement upon any person who is not a party to this Agreement and, without prejudice to the foregoing generality, there shall not be created by this Agreement a jus quaesitum tertio in favour of any person whatsoever.

IN WITNESS WHEREOF:

SCHEDULE PART 26

COMMERCIALLY SENSITIVE INFORMATION

Where information or material falls within more than one category identified in column 1 of the table below, it shall be deemed to fall within the category whose corresponding period of confidentiality identified in column 2 of the table below will expire the soonest.

Category of Information/Material	**Period for which information is to be kept confidential**
Financial Model (as at Financial Close)	From the Effective Date until the date falling 2 years after the Actual Completion Date
Financial Model (amended from time to time in accordance with this Agreement)	From the date of the relevant Financial Model until the date falling 2 years after the later of: - the Actual Completion Date; and - the date on which the amendments to Financial Model are agreed in accordance with this Agreement
Prices within the Catalogue of Small Works and Services	Period during which the relevant prices are applicable
Small Works and Services Rates	Period during which the relevant Small Works and Services Rates are applicable
Project Co bank account information	Project Term
[IRR]	In the case of the [IRR] contained in the Financial Model as at Financial Close from the Effective Date until the date falling 2 years after the Actual Completion Date In the case of the [IRR] contained in the Financial Model as amended from time to time in accordance with this Agreement, from the date of the relevant Financial Model until the date falling 2 years after the later of: - the Actual Completion Date; and - the date of the Financial Model containing the relevant information
Ancillary Documents	Project Term
Funding Agreements	Project Term
Information about Project Co's processes, methodologies, working methods and information relating to the development of new processes and methodologies which amounts to a trade secret or which, if	Trade secrets – Project Term All other cases – 5 years from the date on which the information is produced to the Board

disclosed, could reasonably be considered to provide a commercial advantage to Project Co's competitors	
Breakdown of prices within the overall contract price (to the extent not disclosed within the Financial Model)	Project Term
Information on Project Co's costing mechanisms including information obtained from Project Co relating to project risks and pricing of the same and cost information relating to third party contractors and the Sub-Contractors	Project Term
Financial term sheets and related funding information including any funder pricing	2 years from the date on which the information is produced to the Board
Information relating to the appointment of Project Co as the preferred bidder to the Project (including the preferred bidder letter and correspondence and minutes relating to the same)	Until the date falling 2 years after the Actual Completion Date
Information contained within or relating to Project Co's bid for the Project except as otherwise listed in this Schedule Part 26 (*Commercially Sensitive Information*) or otherwise provided in the Agreement	Until the date falling 2 years after the Actual Completion Date

Scottish Hospitals Inquiry – Working draft documents issued on 10 June 2022
Multiplex Construction Europe Limited – Response
29 July 2022

1 Introduction

1.1 The following is a response by Multiplex Construction Europe Limited ("**Multiplex**") to the working draft documents issued by the Inquiry by e-mail dated 10 June 2022 (timed at 16:48) having the following titles:

1.1.1 Scottish Hospitals Inquiry – Research Paper. Comparison across versions of the Environmental Matrix in relation to SHTM 03-01 up to Financial Close (13 Feb 2015);

1.1.2 Narrative concerning the Reference Design of the Royal Hospital for Sick Children and Department for Clinical Neurosciences; and

1.1.3 List flagging gaps in paperwork and ambiguity surrounding final versions identified in the Reference Design paper.

1.2 In preparing this response, Multiplex has proceeded on the basis that the responses to the questions are only to address the period up to 13 February 2015 (being Financial Close), with the period after 13 February 2015 and evidence relating thereto to be addressed at a later stage in the work of the Inquiry.

1.3 As a general point Multiplex note its involvement in RHSC & DCN project first commenced in or around March 2013. Multiplex is therefore not able to assist the Inquiry in relation to the period prior to this.

2 Multiplex response to each of the questions 1 to 14 listed in 'Scottish Hospitals Inquiry – Research Paper. Comparison across versions of the Environmental Matrix in relation to SHTM 03-01 up to Financial Close (13 Feb 2015)'

2.1 "*1. Do you agree with the above? If not, please provide any corrections and/or clarifications.*"

2.1.1 In relation to the matters set out at paragraphs 1 to 10 generally, as a preliminary point Multiplex would respectfully direct the Inquiry to Multiplex's responses (dated 8 October and 5 November 2021) to the Inquiry's Request for Information Number 2, which responses address, *inter alia*, the EM. In particular, Multiplex would direct the Inquiry to paragraph 2.2 of the response and document nos. 2.7 (Critical Care) and 2.11 (Single Room).

2.1.2 Paragraph 1 – Multiplex was not involved in the development of the earlier versions of the EM. For the reasons set out in the above noted documents and explained further below, Multiplex respectfully submits that the reports prepared by KPMG and Grant Thornton are incorrect where they refer to there being 'errors' in the EM. Multiplex's understanding was that the EM represented NHSL's specific requirements for the RHSC & DCN project.

2.1.3 Paragraph 1 – "*In particular, it was identified that 4ACH had been specified in the EM for critical care and multi-bed rooms when - per the Board's Construction Requirements and Table A1 of SHTM 03-01 Part A - 6ACH should have been specified (for general wards) and 10ACH (for critical care areas).*" Multiplex would respectfully submit that this sentence is incorrect. The Board's Construction Requirements provide that:

"*8 Mechanical & Electrical Engineering Requirements*

Project Co shall provide the Works to comply with the Environmental Matrix."[1]

In addition, compliance with SHTM 03-01 was qualified in terms of the Project Agreement[2].

2.1.4 Paragraph 6 –"*Neither NHSL nor IHSL picked up on many of the discrepancies between what was stated in the EM and the SHTM until July 2019 when the IOM testing was carried out*". Multiplex would respectfully submit that this sentence is incorrect. NHSL and IHSL were aware that NHSL's requirements as set out in the EM departed from, *inter alia*, SHTM 03-01 prior to Financial Close. By way of clarification the Inquiry is directed to the following:

2.1.4.1 On 3 July 2014 Multiplex requested that Mott MacDonald provide to it a copy in native format of the EM which had been prepared by NHSL and which formed part of the ITPD[3]. A copy in native format of the EM was provided by Mott MacDonald to Multiplex on 11 July 2014[4].

2.1.4.2 On 29 September 2014 Multiplex issued to NHSL and Mott MacDonald a draft version of the EM[5] which had been prepared by Wallace Whittle and which EM complied with the EM provided to Multiplex referred to at paragraph 2.1.4.1 above[6].

2.1.4.3 On 14 October 2014 Mott MacDonald issued to Multiplex a copy of NHSL's initial technical comments[7] on the draft EM, an extract from which comments is shown below:

7. Bedrooms 4ac/hr, SHTM says 6 ac/hr
   Bedrooms have no extract
   Bedroom en-suites 10 ac/hr, SHTM says 3 ac/hr
   Bedrooms stated as positive pressure, SHTM says 0 or –ve pressure
   The supply air to a bedroom has to be balanced with extract
   e.g. Bedroom area 19m2 and 2.4m high = volume 45.6m3 x 6ac/hr =273.6 m3 / hr
   En-suite area 5 m2 and 2.4m high = volume 12.0m3 x 3ac/hr = 36 m3 / hr
   To achieve balanced pressure within room bedroom extract required = 273.6 – 36 = 237.6 m3 / hr

8. Recovery stated as 4 ac/hr, SHTM says supply and extract 15 ac/hr

1 Page 104 of Hearing commencing 9 May 2022 - Bundle 3 - Governance Volume 3 (of 3).
2 As explained in Multiplex's responses to the Inquiry's Request for Information Number 2.
3 E-mail dated 3 July 2014 (timed at 09:00).
4 Aconex mail number MM-GC-000126 dated 11 July 2014. Document with file name "*RHSC_DCN RDS Environmental Matrix- SoA 13_Issue*".
5 Aconex mail number BMCE-GC-001193 dated 29 September 2014. Document with file name "*RHSC_DCN RDS Environmental Matrix-140904*".
6 Volume 3, Schedule Part 6, Section 3, Appendix C to the ITPD. The EM was unchanged in the version incorporated as part of the IFST.
7 Aconex mail number MM-GC-000339 dated 14 October 2014. Document with file name "*141013 Environmental Matrix Comments*".

2.1.4.4 On 28 October 2014 Multiplex forwarded Wallace Whittle's response to the initial technical comments to Mott MacDonald, an extract from which response (Wallace Whittle's response being the right-hand column in the table) is copied below[8]:

7. Bedrooms 4ac/hr, SHTM says 6 ac/hr Bedrooms have no extract Bedroom en-suites 10 ac/hr, SHTM says 3 ac/hr Bedrooms stated as positive pressure, SHTM says 0 or –ve pressure The supply air to a bedroom has to be balanced with extract e.g. Bedroom area 19m2 and 2.4m high = volume 45.6m3 x 6ac/hr =273.6 m3 / hr En-suite area 5 m2 and 2.4m high = volume 12.0m3 x 3ac/hr = 36 m3 / hr To achieve balanced pressure within room bedroom extract required = 273.6 – 36 = 237.6 m3 / hr	The scheme is based on the Reference design throughout which is essentially mixed mode with openable windows and 2/3rds mechanical supply air to all bedrooms. This gives physiological benefits with access to fresh air control by user and obvious Energy benefits. We have amended the environmental schedule to show the room being balanced which is provided by the opening window.
8. Recovery stated as 4 ac/hr, SHTM says supply and extract 15 ac/hr	15 ac/hr utilised with the current design, matrix amended accordingly.

2.1.4.5 The matter of air change rates and pressure regimes set out in the EM departing from SHTM were therefore the subject of discussion by this date. The matter of air change rates having been settled, discussions which then followed related only to pressure regimes as set out below.

2.1.4.6 On 31 October 2014 Multiplex issued an updated version of the EM to Mott MacDonald[9].

2.1.4.7 A meeting with the subject 'Environmental Matrix NHSL Comments Feedback' was convened on 11 November 2014. The meeting was attended by representatives from Multiplex, Wallace Whittle, NHSL and Mott MacDonald. Notes of the meeting were prepared by Mott MacDonald and issued by e-mail on 11 November 2014[10], which notes are copied below:

"Project Co shall update the Environmental Matrix to reflect the following Board comments

- Update the Environmental Matrix shall by updated by Project Co to reflect all the rooms and room types in the proposed Facility, this should be based on an updated Schedule of Accommodation that has been commented on separately by the Board. This also needs to reflect the names and room numbers in the GSU table.
- Include the requirements contained in the Clinical Output Specification including but not limited to the requirement that theatre temperatures are to be able to be raised to 31°C for certain operations
- Measures shall be assessed, modelled and implemented to demonstrate that the internal air temperature of the following room types to reduce the temperature control from 28°C to 25°C
  - Treatment Rooms;
  - Consulting Rooms;
  - Laboratory;
  - Physiotherapy Studio;
  - Recovery.

  These room shall not exceed the maximum acceptable level of 25°C for more than 50 hours per annum
- Detailed proposal awaited on bedroom ventilation to achieve balanced/negative pressure relative to corridor.
- Colour rendering all stated as 80 where certain areas should be 90
- There also need to have a consistent approach e.g. guidance notes and ED body view room stated as 28 -8, bereavement suite body view room stated as 25 -8.
- Further discussion is required on the minimum temperate requirement for the Body View Room.

8 Aconex mail number BMCE-GC-001410 dated 28 October 2014. Document with file name "*20141027 Environmental Matrix Comments*"

9 Aconex transmittal number BMCE-TRANSMIT-001192. Document with file name "*WW-XX-XX-DC-XXX-001*"

10 E-mail dated 11 November 2014.

Bullet point 4 above relates to the discussions concerning the pressure regime for single bedrooms.

2.1.4.8 On 19 November 2014 a Healthcare Associated Infection (HAI) – System for Controlling Risk in the Built Environment (SCRIBE) ("HAI-Scribe") meeting was held at which it was recorded:

2.2	Is the ventilation system design fit for purpose, given the potential for infection spread via ventilation systems?	**Yes**		**No**	**x**	**N/A**	
		Some concern has been raised in relation to a potential issue with ventilation with regard to negative/balance pressure in single bed rooms. Awaiting drawings and further information to fully understand if there is a risk/issue.					

2.1.4.9 On 13 January 2015 an MEP workshop meeting was held at which the issue of pressure regimes was discussed. This was originally planned as a HAI-Scribe Stage 3 review which was cancelled due to attendance, however ventilation was discussed by those who attended. A 'ventilation overview paper' was issued by Multiplex that day following the meeting[11].

2.1.4.10 On 19 January 2015 Multiplex issued a Request for Information[12] to Mott MacDonald in the following terms:

"*As per meeting of Tuesday 13.01.15 and our request for clarity on negative / positive pressure regime within the bedrooms, we attach the sketches distributed at the meeting and seek confirmation / acceptance from the NHS review with infection control.*"

2.1.4.11 On 29 January 2015 Mott MacDonald responded[13] to Multiplex's Request for Information in the following terms:

"*Following your recent RFI, the Board respond as follows:*

- *The single room with en-suite ventilation design shall comply with the parameters set out in SHTM 03-01.*
- *The design solution should not rely in any way with the opening windows as these will be opened or closed by patient choice.*
- *The critical factor from SHTM 03-01 for infection control will be the resultant pressure within the room being balanced with or negative to the corridor.*
- *Isolation room ventilation shall comply with SHPN 04 Supplement 1.*"

11 Aconex mail number BMCE-GC-001652 dated 13 January 2015.
12 BMCE-RFI-000077 - Bedroom Ventilation: HAI Scribe Confirmation.
13 E-mail dated 29 January 2015.

This was a variation / change to the mandated positive pressure requirement defined within the reference design EM to a balanced or negative pressure regime for the single bedrooms.

2.1.4.12 Following the above discussions, the EM was incorporated into the Project Agreement at Financial Close as part of the Room Data Sheets. The EM was defined as detailing "*the room environmental condition requirements of the Board within each department/unit/space/area*…." with Part 8 of the BCR's stating: *"Project Co shall provide the Works to comply with the Environmental Matrix."*[14]

2.1.4.13 NHSL's requirements as to, *inter alia*, air change rates and pressure regimes were subsequently confirmed post Financial Close during the RHSC & DCN project. By way of example, the EM was reviewed as part of the Schedule 8 Review Procedure, together with the wider associated ventilation design documents. Further, on 18 April 2018, as part of discussions in relation to the pressure regime in Multi-Bed Wards, NHSL expressly confirmed they *were "seeking design for 4 Air Changes to all 14 Rooms"*, four of these 14 rooms were located in Critical Care[15]. The associated design drawing was then issued through RDD on 21 June 2019 and given Status A by NHSL on 27 July 2018.[16]

2.1.5 Footnote 5 - "*The inquiry is unclear what "positive to ensuite" means in terms of the SHTM standards.*" Multiplex understands this term is used to determine the direction of airflow from clean to less clean i.e., air movement from the bedroom to the en-suite. This is to reduce contaminant and/or odour in the en-suite entering the bedroom.

2.1.6 Paragraph 10 – "*Instead all rooms in the hospital are categorised by their room function, irrespective of what department that room is situated in.*" Multiplex would note that in the body of the EM rooms are categorised by department.

2.1.7 Paragraph 14.2 - The change in pressure from positive to balanced was a result of NHSL's comments issued on 14 October 2014 and the response from Wallace Whittle on 28 October 2014 (referred to at paragraph 2.1.4 above).

2.2 "*2. Who produced or proposed changes to the Environmental Matrix at the following stages? 2.1. Before the switch to NPD 2.2. During the reference design stage 2.3. During Competitive Dialogue 2.4. After selection of the preferred bidder*"

2.2.1 Multiplex is unable to assist the Inquiry in relation to questions 2.1 and 2.2.

2.2.2 In relation to question 2.3 in the period from 11 March 2013 to 5 March 2014 the EM was under the control of Mott MacDonald and NHSL.

---

14 Reference is made to Section 2 of Multiplex's 5 November 2021 Response to the Inquiry's Request for Information Number 2,

15 Aconex mail number NHSL-GC-002953 dated 18 April 2018.

16 WW-SZ-XX-DC-XXX-010 – REV 7.

2.2.3 In relation to question 2.4 in the period from 6 March 2014 to 13 February 2015, the EM was updated by Wallace Whittle in response to comments received from Mott MacDonald on behalf of NHSL and issued on 29 September 2014 and on 31 October 2014 before then being incorporated into the Project Agreement, reference is made to paragraph 2.1.4 above.

2.3 "*3. Who approved or confirmed acceptance of the Environmental Matrix and any changes made to it?*"

2.3.1 Multiplex is unable to assist the Inquiry in relation to the period prior to 11 March 2013.

2.3.2 In the period from 11 March 2013 to 5 March 2014 the EM was under the control of Mott MacDonald and NHSL.

2.3.3 In the period from 6 March 2014 to 13 February 2015 Multiplex issued the EM to Mott MacDonald for comment and acceptance on behalf of NHSL on 29 September 2014 and on 31 October 2014 before then being incorporated into the Project Agreement, reference is made to paragraph 2.1.4 above.

2.4 "*4. What was the purpose of the Environmental Matrix?*"

2.4.1 Multiplex understands that the purpose of the EM was to define NHSL's specific room environmental requirements. In this regard, Multiplex would direct the Inquiry to Section 2 of Multiplex's 5 November 2021 Response to the Inquiry's Request for Information Number 2, together with the following:

Bid submission requirement C8.3 of the ITPD stated:

"*Whilst bidders are required to undertake their own design, the Board has provided a draft Environmental Matrix as part of the ITPD documentation. Bidders must confirm acceptance of the Board's Environmental Matrix, highlighting any proposed changes on an exception basis*"

The BCRs within the ITPD and Project Agreement confirmed:

"*Environmental Matrix*

Means the Environmental Matrix, which ***details the room environmental condition requirements of the Board required within each department / unit / space / area****. The title is Reference Design Envisaged Solution – RHSC / DCN Environmental Matrix version third issue as set out in Appendix C of this Section 3 (Board's Construction Requirements) of Schedule Part 6*

(Construction Matters) (as varied, amended or supplemented from time to time in accordance with the Project Agreement);"[17] (emphasis added)

"*8 Mechanical & Electrical Engineering Requirements*

[17] Page 11 of Hearing commencing 9 May 2022 - Bundle 3 - Governance Volume 3 (of 3).

Project Co shall provide the Works to comply with the Environmental Matrix."[18] (emphasis added)

"*The need to* ***maintain comfort conditions in accordance with the Room Data Sheets*** *in all areas but particularly in clinical areas is of paramount importance and Project Co shall develop strategies for achieving these conditions together with minimum energy consumption.*"[19] (emphasis added)

"*2.5.3 Room Data Sheets*

Standard format Room Data Sheets have not been prepared by the Board for the Project*.* ***The specific room requirements*** *(the "Room Information")* ***are detailed in*** *a combination of the following documents:*

- *The Board's Construction Requirements;*
- ***The Environmental Matrix****;*
- *The Schedule of Operational/Design Notes;*
- *The Equipment Schedule;*
- *The Equipment Responsibility Matrix;*
- *The Draft Schedule of Accommodation; and*
- *The Operational Functionality elements of the Reference Design.*"[20]

2.4.2 Item 1 of the Guidance Notes to the EM provided with the ITPD stated: "*This workbook is prepared for the Reference Design Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets"*

2.4.3 Item 1 of the Guidance Notes to the EM incorporated in the Project Agreement, stated: "*This workbook is prepared for the Financial Close Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets."*

2.4.4 Page 3 of the EM is then titled: "*Room Function Reference Sheet*" and states: "*The following table details reference templates which are used to populate cells within the environmental matrix. Refer to individual department sheets for individual room environmental conditions*". In relation to ventilation this table provides the type, supply air changes per hour ("ac/hr"), extract ac/hr, relative pressure, and minimum filtration required for each room type. This being then further expanded within the matrix by reference to each department, with paragraph 2.5 of the BCR's stating:

18 Page 104 of Hearing commencing 9 May 2022 - Bundle 3 - Governance Volume 3 (of 3).
19 Page 120 of Hearing commencing 9 May 2022 - Bundle 3 - Governance Volume 3 (of 3).
20 Page 200 of Hearing commencing 9 May 2022 - Bundle 3 - Governance Volume 3 (of 3).

"*…Where the Board has defined their preference specifically, Project Co shall adopt these preferences as a mandatory requirement. Where no Board preference is stated, Project Co shall engage the Board in the design development process to seek and incorporate the Board's preference within the Facilities*".

2.4.5 Paragraph 2.1.4 and 2.1.32 of Schedule Part 10, Appendix B - Completion Criteria of the Project Agreement, which stated:

2.1.4: "*All mechanical and electrical Plant and systems shall be tested, commissioned and operate satisfactorily in accordance with the specified design criteria, any manufacturers' operating requirements and the Room Data Sheets*"

2.1.32: "*Project Co shall provide Environmental Matrix including Commissioning data test sheets as commissioned in accordance with CIBSE Commissioning Code C and demonstrating compliance with the Environmental Matrix*"

2.4.6 The EM defined NHSL's specific environmental requirements for each space and IHSL were then to develop the building services engineering solutions to achieve these defined environmental requirements.

2.5 "*5. What are Schedule of Accommodation sheets, who produces them and what information did they contain?*"

2.5.1 Generally, a schedule of accommodation defines the minimum space requirements within a facility. The schedule is usually prepared by the client as a briefing document defining their needs. The schedule is likely to contain a room reference no, room name, room type, room area (m²) and arranged by department. As a project progresses the design team develops and expands the schedule to record the actual designed area highlighting any variance.

2.5.2 For the RHSC & DCN project the schedule of accommodation was prepared by NHSL and included within the ITPD Room Information. During the preferred bidder stage the schedule of accommodation was developed by IHSL.

2.6 "*6. Particularly with regard to paragraph 6, could you further explain or clarify the connection between the room function reference sheet, the 'department sheets', ADB Room Data Sheets, and the room data sheets that NHSL and IHSL were responsible for (as you understand it).*"

2.6.1 As a preliminary point, as explained above and by way of clarification, Multiplex would direct the Inquiry to the response to questions 1 and 4 above, as to the responsibility for the EM and Room Data Sheets.

2.6.2 The environmental matrix format was devised prior to Multiplex's involvement and contained both the Room Function Reference Sheet and the Department Sheets.

2.6.3 The Room Function Reference Sheet was included in the EM provided with the ITPD, it provided one line entry for each room type in the facility. The sheet contains the environmental data for each room type. This sheet confirms "*Refer to individual department sheets for individual room environmental conditions"*.

2.6.4 The Department Sheets contain all rooms within each department and provides the environmental conditions for each room. It covers all departments within the facility, as such it is significantly larger than the Room Function Reference Sheets.

2.6.5 Room data sheets are generally produced using a software package such as the Activity Data Base ("ADB") or similar. The system allows room data sheets to be developed from a standard library that can be modified to record specific client requirements.

2.6.6 Item 1 of the Guidance Notes to the EM provided with the ITPD stated: "*This workbook is prepared for the Reference Design Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets."*

2.6.7 Item 1 of the Guidance Notes to the EM incorporated in the Project Agreement stated: "*This workbook is prepared for the Financial Close Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets.*"

2.6.8 At Financial Close, under the Project Agreement, Room Data Sheets were defined as having "*the meaning given in Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters)*". Section 6 then states:

"*The Room Data Sheets are the Room Data Sheets as set out on the disc in the Agreed Form identified and executed as Appendix 1 (RDS Pack) and Appendix 2 (Environmental Matrix) of Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters) of this Agreement, referred to in and forming part of this Agreement.*"

2.6.9 The Room Data Sheets on the project were accordingly formed of two parts: (1) the Room Data Sheets which were provided as Appendix 1 to Section 6; and (2) the EM which is Appendix 2. The ventilation requirements in the Room Data Sheets incorporated as Appendix 1 to Section 6 of the Project Agreement were derived from the EM on the basis they represented NHSL's specific requirements for the project.

2.7 "*7. Other than SHTM 03-01, what guidance and sources of information were used to compile the Environmental Matrix, with particular reference to single bedrooms, 4 bed-rooms/multi-bed wards, and Critical Care/HDU?*"

2.7.1 Multiplex is unable to assist the Inquiry with this question in relation to the EM's prepared by NHSL.

2.7.2 Likewise, insofar as the EM issued on 29 September 2014 and on 31 October 2014 is concerned, the environmental conditions within the EM were provided by NHSL. Multiplex would respectfully direct the Inquiry to Wallace Whittle as the authors of the EMs issued in 2014 to as to the guidance and information it took into account in preparing the EMs.

2.8 "*8. Why are a number of department-specific room types (for example for neutropenic patient areas, infectious disease iso room, UCV operating theatre and anaesthetic room) not included in the Room Function Reference Sheet when they are referred to in Appendix 1 of SHTM 03-01 part A as requiring specialised ventilation?*"

2.8.1 Multiplex is unable to assist the Inquiry with this question, the format of the Room Function Reference Sheet was decided prior to their involvement.

2.9 "*9. Is there a difference between "HDU" and "Critical Care"?*"

2.9.1 Multiplex is unable to assist the Inquiry with this question as it is a matter for suitably qualified clinical experts.

2.9.2 Multiplex would note that at the RHSC & DCN project the "*Critical Care*" department provides both Paediatric Intensive Care ('PICU') and High Dependency ('HDU').

2.10 "*10. Why was "HDU" removed from the room function reference sheet in IHSL's version of the EM dated from September 2014? Was NHSL informed?*"

2.10.1 The EM issued on 29 September 2014 was prepared by Wallace Whittle and Multiplex would therefore respectfully direct the Inquiry to Wallace Whittle to respond to this question.

2.10.2 Multiplex would note that the tab 'All Rooms' includes reference to HDU's.

2.11 "*11. The table in appendix 1 of SHTM 03-01 Part A recommends 'S/E/N' (supply, extract and natural) ventilation for single rooms. What do you understand this to mean in relation to the 'mixed mode' ventilation strategy referred to in different versions of the EM?*"

2.11.1 Multiplex understands the S/E/N outlined in SHTM 03-01 Part A, to be referencing alternative means of providing ventilation i.e. mechanical supply, mechanical extract or natural ventilation. The SHTM has a section that outlines the use and limitations of a natural ventilation solution, and the variability on ventilation rates. The SHTM further goes on to state that *'the variability is normally acceptable for general areas including office accommodation, general wards,….'*.

2.11.2 The mixed mode ventilation strategy was devised prior to Multiplex's involvement, with the BCRs requiring the minimisation of mechanical ventilation and use of natural ventilation (reference is made to paragraphs 5.26 and 8.5.3).

2.11.3 Multiplex were not involved in the production of the Reference Design EM. It would appear to include 4 ac/hr mechanically while taking advantage of natural ventilation effects when present. The 4 ac/hr mechanical ventilation appears to be that required to maintain the NHSL enhanced temperature range of 18 - 25°C for bedrooms as described within the Hulley & Kirkwood reference design Thermal Comfort Report. Multiplex is of the view that this could (along with any other factors considered to be relevant by NHSL) be a possible explanation for the selection of 4 ac/hr plus natural ventilation as designed by Hulley & Kirkwood and prescribed in the Project Agreement. Reference is made to item 5 and 15 in the Guidance Notes to the ITPD and Project Agreement EM and Guidance Note 26 of the Project Agreement EM.

2.12 "*12. In respect of the table below, do you agree that the following are areas of non-compliance with SHTM 03-01? To what extent would these issues have compromised patient safety?*"

2.12.1 As a preliminary point and for clarification, Multiplex would refer to Section 2 of its 5 November 2021 Response to the Inquiry's Request for Information Number 2, including that under the Project Agreement between NHSL and IHSL and the Construction Contract between IHSL and Multiplex, the design and installation of the ventilation systems for the RHCYP & DCN project which Multiplex

was to provide, was to comply with SHTM 03-01, except where a differing requirement was expressed by NHSL in the BCR's and/or required by the Room Data Sheets, as reviewed and approved by NHSL.

Non-compliance with SHTM 03-01 at financial close	Multiplex Comments
Multi-bed ward: SHTM 03-01 recommends 6ac/hr supply/natural ventilation for 'General Ward'. The EM provides for 4 ac/hr supply with extract via en-suite.	Generally concur that this statement aligns with SHTM 03-01 part A and the EM at Financial Close, although understanding of limitations in demonstrating air change rate when reliant on natural ventilation.
Multi-bed ward: SHTM 03-01 does not specify pressure regime. The EM provides for pressure to be positive to en-suite.	SHTM 03-01 Part A App A does not give criteria for multi bed ward – it gives criteria for general ward or single bedroom. General ward criteria within SHTM 03-01 Part A does not stipulate specific pressure requirement.
SHTM recommends temperature range of 18 – 28 degrees Celsius for single bedrooms and general wards. The EM provides for 18 – 25 degrees.	This aligns with Multiplex's understanding of SHTM 03-01 Part A, the Board's Construction Requirements and other contract documents stipulate more onerous criteria, hence the values of the tighter range in the EM.
Single bedrooms: SHTM 03-01 recommends 6ac/hr, EM recommends 4ac/hr	Generally, concur that this statement aligns with SHTM 03-01 part A. the EM at Financial Close required (rather than recommended) 4 mechanical ac/hr. The impact of natural ventilation and the methods of achieving i.e. S/E/N needs to also be considered.
Haematology/Oncology ward (which accommodates neutropenic patients). SHTM 03-01 recommends 10ac/hr supply and 10Pa (positive) pressure EM provides for: Bedrooms: 4ac/hr balanced pressure Isolation bedrooms: 10 ac/hr balanced pressure Multi-bed wards: 4ac/hr positive pressure	This aligns with Multiplex's understanding of SHTM 03-01Part A. EM statement about isolation room states supply of 10ac/h and balanced, however the type states supply air via lobby. EM also states multi bed as natural and central supply with 4 ac/h supply, extract via ensuite and positive pressure to ensuite.
Critical Care/HDU, single bed cubicles: SHTM 03-01 recommends 10ac/hr supply with positive pressure. The EM provides for 4ac/hr natural and central supply air, with extract via ensuite and balanced pressure	It should be noted that critical care and high dependency unit bed bays / single cubicles are not explicitly stated within App A of SHTM 03-01 Part A at time of developing brief / design. Section 8 of SHTM 03-01 Part A V3 (2022) now includes specific criteria for critical individual rooms and open bays.
Critical Care/HDU open plan bays: SHTM 03-01 recommends 10ac/hr supply with positive pressure. EM provides for 4ac/hr natural and central supply air with extract via en-suite and pressure positive to ensuite	It should be noted that critical care and high dependency unit bed bays / single cubicles are not explicitly stated within App A of SHTM 03-01 Part A at time of developing brief / design. Section 8 of SHTM 03-01 Part A V3 (2022) now includes specific criteria for critical individual rooms & open bays.

Non-compliance with SHTM 03-01 at financial close	Multiplex Comments
Critical Care/HDU isolation bedroom: SHTM 03-01 recommends 10ac/hr supply air, negative pressure and temperature 18-25 degrees Celsius. EM provides for isolation room with 10ac/hr, balanced pressure and temperature at 21-25 degrees Celsius. Also includes isolation room lobby which is not mentioned in SHTM 03-01	Under critical care areas, SHTM 03-01 Part A App A states isolation room **may** be negative pressure. For ward isolation rooms SHTM 03-01Part A App A, cross refers to SHPN 04 S1. Critical Care Units HBN 04-02 (2014) published as best practice guidance in Scotland states that *'ventilation system should provide source and protective isolation. A balanced supply and extract ventilation to isolation room and gowning lobby is, therefore, proposed.'*
Recovery Room (for operating theatres): SHTM 03-01 recommends 15ac/hr supply and extract with balanced pressure and temperature control range of 18-25 degrees Celsius. EM provides for 15ac/hr supply and extract and balanced pressure, but a 20 – 28 degrees Celsius temperature control range	This aligns with Multiplex's understanding of SHTM 03-01 Part A. In future revisions of the EM the temperature control range is changed to 20 - 25°C.

2.12.2 As set out previously, in terms of "*EM recommends*", adherence to the EM was mandated by NHSL, it was not a recommendation. This was used as the basis of the MEP design.

2.12.3 The EM at Financial Close, closely aligns with the reference design EM taking into account comments received from Mott MacDonald on behalf of NHSL. In versions post Financial Close the single bedrooms change to balanced pressure in-line with comments made by NHSL prior to Financial Close.

2.12.4 Multiplex is unable to assist the Inquiry in relation to matters of patient safety as that is a matter for suitably qualified clinical experts. In this regard, and by way of example, the Inquiry heard evidence from Mr Professor Humphreys that:

"*Controlled ventilation such as in isolation facilities is one component of preventing infection being spread or being acquired by patients via air.*"[21]

"*It is challenging to identify specially the exact contribution a controlled ventilated area may have in either preventing a patient acquiring infection or in general preventing infections being transmitted within a hospital, because ventilation is not used alone, but is part of a suite of preventative measures.*"[22]

2.13 "*13. Who reviewed the EM?*"

2.13.1 Multiplex is unable to assist the Inquiry in relation to the period prior to 11 March 2013.

2.13.2 In the period from 11 March 2013 to 5 March 2014 the EM was under the control of Mott MacDonald and NHSL.

21 Page 13 of Hearing commencing 9 May 2022 - Bundle 6 Expert Reports and Statement.
22 Page 14 of Hearing commencing 9 May 2022 - Bundle 6 Expert Reports and Statement.

2.13.3 In the period from 6 March 2014 to 13 February 2015 the EM was reviewed by Multiplex who deferred to Wallace Whittle as its specialist design consultant, Wallace Whittle, Mott MacDonald and NHSL reference is made to paragraph 2.1.4 above.

2.14 "*14. Was the EM reviewed by a healthcare planner, an Infection Prevention and Control nurse or expert, by clinicians or by Health Facilities Scotland? Please provide details.*"

2.14.1 Multiplex is unable to assist the Inquiry with this question. Communication to and from NHSL with regards to the EM was through Mott MacDonald.

3 Multiplex response to 'Narrative concerning the Reference Design of the Royal Hospital for Sick Children and Department for Clinical Neurosciences'

3.1 "*4.1 When was the Reference Design completed?*"

3.1.1 Multiplex is unable to assist the Inquiry with this question.

3.2 "*4.2 Room Data Sheets were a deliverable of the Reference Design Team. Why was the decision taken in May 2012 to cease production of Room Data Sheets?*"

3.2.1 Multiplex is unable to assist the Inquiry with this question.

3.3 "*4.3 When Room Data Sheet production was ceased, did the number of completed Room Data Sheets represent the majority of the development?*"

3.3.1 Multiplex is unable to assist the Inquiry with this question.

3.4 "*4.4 What were the Room Data Sheets referred to in Section 3.6.3 of ITPD Volume 3 and 'included in Schedule Part 6 Section 6'? Why were these given to bidders?*"

3.4.1 In regard to the first question, Room Data Sheets were not provided to the bidders. This was clarified at the bidder's day presentation on 13 December 2012, and reinforced within section 2.53 of the ITPD Volume 1 Revision B (noted at paragraph 2.4.1 above).

3.4.2 Multiplex is unable to assist the Inquiry with the second question.

3.5 "*4.5 Why was ventilation data provided in these Room Data Sheets if the preferred bidder had to verify it against functional requirements?*"

3.5.1 Reference is made to the response at paragraph 3.4.1 above.

3.5.2 Multiplex was not obliged to verify the ventilation data as the Reference Design EM was presented as defining NHSL's specific requirements.

3.6 "*4.6 Why was the Environmental Matrix from the capital phase of the project taken forward and developed under the NPD phase when, under that model, responsibility for environmental specifications was going to sit with the preferred bidder?*"

3.6.1 Multiplex is unable to assist the Inquiry with this question.

3.7 "*4.7 Where did the data within the Environmental Matrix come from? How was it arrived at?*"

3.7.1 Multiplex is unable to assist the Inquiry with this question in relation to the EM's prepared by NHSL.

3.7.2 Insofar as the EM issued on 29 September 2014 and on 31 October 2014 is concerned, the data came from NHSL.

3.8 "*4.8 The Inquiry understands that SG policy set out in HDL (2006) 58 and revised by CEL 19 (2010) mandated the use of ADB. It is further understood that ADB is typically used as the basis for producing project specific Room Data Sheets. However section 2.5.3 of ITPD Volume 1 (Reference Design and Mandatory Reference Design Requirements, Room Data Sheets) required bidders to incorporate the terms of the Environmental Matrix into Room Data sheets. Why were bidders to use the Environmental Matrix as the basis for producing Room Data Sheets rather than ADB?*"

3.8.1 Multiplex is unable to assist the Inquiry with this question.

3.9 "*4.9 HDL (2006) 58 and CEL 19 (2010) provided that an alternative to ADB could be used, so long as it was demonstrated that the alternative was of equal quality and value in its application as ADB. How was it demonstrated that the Environmental Matrix was of equal quality and value as ADB?*"

3.9.1 Multiplex is unable to assist the Inquiry with this question.

3.9.2 Multiplex understood that the EM defined NHSL's requirements and replaced the environmental data within ADB.

3.10 "*4.10 The Environmental Matrix features in ITPD Volume 1 Section 2.5 (Reference Design and Mandatory Reference Design Requirements), and ITPD Volume 3 presents the Environmental Matrix as mandatory for bidders to adopt. Why was this the case when the Reference Design was only to mandate Operational Functionality, and Operational Functionality was exclusively to be outlined in the Clinical Output Specification, the Schedule of Accommodation and the Adjacency Matrix?*"

3.10.1 Multiplex is unable to assist the Inquiry with this question.

3.10.2 Multiplex understood the EM was mandatory and that it set out NHSL's specific requirements for the RHSC & DCN project.

3.11 "*4.11 The Environmental Matrix derogated from the terms of SHTM 03-01. Was this derogation intended, and if so, was the decision to derogate documented and supplemented by a risk assessment?*"

3.11.1 Multiplex is unable to assist the Inquiry with this question.

3.11.2 Multiplex understood the EM represented NHSL's specific requirements for the RHSC & DCN project and so any derogation was intended. This was confirmed during the course of the project and as part of the Settlement Agreement and Supplemental Agreements between NHSL and IHSL and IHSL and Multiplex dated 22 February 2019.

3.12 "*4.12 Within the Room Information, the Reference Design contained ventilation requirements. Were these ventilation requirements approved by clinicians, IP&C specialists, or an Authorising Engineer (or an equivalent independent engineering professional) before the Reference Design was issued to bidders?*"

3.12.1 Multiplex is unable to assist the Inquiry with this question.

3.13 "*4.13 The Environmental Matrices of 2010 anticipated a bedroom ventilation design supplemented by openable windows. Why in 2015 did the Board confirm that the ventilation design should not rely on openable windows?*"

3.13.1 Mott MacDonald's response on 29 January 2015 (referred to at paragraph 2.1.4.11 above) was in relation to negative / positive pressure regime within the bedrooms, not air change rates.

3.14 "*4.14 The M&E Reference Design Approach paper provides that 'rooms will not be reliant on natural ventilation alone, unless they comply with maximum temperature limits listed in the RDS Environmental Matrices'. Were maximum temperature limits the decisive factor for how rooms would be ventilated?*"

3.14.1 Multiplex is unable to assist the Inquiry with this question, as they were not involved during this period, reference is made to paragraph 2.11.3 regarding Multiplex's current understanding of the impact of temperature on NHSL's ventilation strategy.

3.15 "*4.15 If it was intended that the preferred bidder would verify and develop the Environmental Matrix, how and where was this communicated?*"

3.15.1 Multiplex is unable to assist the Inquiry with this question as to NHSL's intentions.

3.15.2 Multiplex understood the EM was mandatory and that it set out NHSL's specific requirements for the RHSC & DCN project.

3.16 "*4.16 If one of the failed bidders changed ventilation data within the Environmental Matrix and brought this to the attention of NHSL, what was NHSL's response and why?*"

3.16.1 Multiplex is unable to assist the Inquiry with this question.

4 Multiplex response to 'List flagging gaps in paperwork and ambiguity surrounding final versions identified in the Reference Design paper'

4.1 Multiplex provides the following documents in response to the Inquiry's request:

4.1.1 Hullley and Kirkwood Consulting Engineers Ltd, 'Reference Design Stage BREEAM 2008/2011 Comparison and Project Implications' (September 2011, Issue No.2, Rev A);

4.1.2 Hulley and Kirkwood, 'Reference Design Stage: Section 6 SBEM Compliance Report Revision A' (17 February 2012);

4.1.3 NHS Lothian, 'Invitation to Participate in Dialogue Volume 1 Revision B' (17 April 2013);

4.1.4 NHS Lothian, ‘Invitation to Submit Final Tender’ (Volume 1, Revision A) (16 December 2013);

4.1.5 Wallace Whittle, ‘Air Movement Report For Single Bedrooms (Draft)’ (12 January 2015).

Healthcare Associated Infection System for Controlling Risk in the Built Environment (HAI-SCRIBE)

HAI SCRIBE

Project: RHSC & DCN Re-Provision Project, Little France
Location:
Date:19th November 2014

Construction Start: **TBC**
Construction End: **TBC**

Project Summary:

A project to re-provide the services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France

DRAFT

Risk Assessment in accordance with “HAI-SCRIBE June 2007: Development Stage 3, Construction / Redevelopment Phase in accordance with: Scottish Health Facilities Note 30: Version 3”

Section 1

Scope of Works:	
Location of work activity	**RIE Campus – Car Park B**
Commencement date and duration	**TBC**
Description of work activity	**Construction of new facility**
Who will carry out the work	**IHSL**
Estates Department representative name and contact details.	

HAI SCRIBE Assessment			
Construction/ Refurbishment activity type	**Type 4– Major demolition and construction projects**		
	Comment Small amount of demolition required		
Patient Risk Group	**Group 4 – highest risk**		
	Comment		
Risk Classification	**Class I**	Tick	
	Class II		
	Class III		
	Class IV	√	

Healthcare Associated Infection System for Controlling Risk in the Built Environment (HAI-SCRIBE)

DRAFT

Section 2 – consultation.			
The undernoted staff have been consulted in the preparation of this Risk Assessment			
Department	**Print**	**Sign**	**Date**
Infection Control	Janette Richards		19:11:2014
Design Manager/IHSL	Liane Edwards-Scott		19:11:2014
Lead Architect/IHSL	Lorraine Robertson		19:11:2014
Technical Advisor	David Stillie		19:11:2014
Technical Advisor	Colin Macrae		19:11:2014
Clinical Director	Janice MacKenzie		19:11:2014
Project Manager	Fiona Halcrow		19:11:2014
Contracts Manager	Stuart Davidson		19:11:2014

Section 3 – contractor acceptance.			
I have read and understood the control measures detailed within this risk assessment and accept responsibility for the implementation and maintenance of those measures. The work activity **must not** commence until the work area has been inspected and approval to proceed has been granted by the responsible Estates Department representative.			
Organisation	Print name	Sign	Date

Section 4 – initial inspection of control measures.			
I have inspected the work area and am satisfied that the necessary control measures are in place.

Proposed Plan

Section 2: Assessment of the Risk of Infection from the Design and Layout of the Facility

	Comments					
	Yes	**X**	**No**		**N/A**	

DRAFT

	healthcare facility inhibit the spread of infection?	With reference to national Guidance SHTMs, HBNs etc Infection Control Drawings have been produced and reviewed throughout the process up until FC.					
2.2	Is the ventilation system design fit for purpose, given the potential for infection spread via ventilation systems?	**Yes**		**No**	**x**	**N/A**	
		Some concern has been raised in relation to a potential issue with ventilation with regard to negative/balance pressure in single bed rooms. Awaiting drawings and further information to fully understand if there is a risk/issue.					
2.3	Has account been taken of the use of natural ventilation being affected by neighbourhood sources of environmental pollution as discussed in Development Stage 1?	**Yes**	**X**	**No**		**N/A**	
2.4	Is the interior of the healthcare facility easy to clean and maintain clean? (Surfaces of floors, walls and ceilings should be appropriate to the particular room and the required management of infection risk. Thus, carpeted floors in offices may be appropriate but not appropriate in clinical areas. There should be coving at right angle junctions of walls, floors and ceilings to ease effective cleaning.)	**Yes**	**X**	**No**		**N/A**	
		Throughout the process interior design has been discussed and meets HAI Scribe 30. No clinical area will have carpets in this building.					
2.5	Does each ward allow sufficient space between beds to comply with the current guidance, thus facilitating the healthcare services to the patient, which in turn may reduce HAI risk?	**Yes**	**X**	**No**		**N/A**	
		The distance between bed spaces in the multiple bed areas has been assessed throughout the process and meets guidance. Single room accommodation derogation was sought for both RHSC and DCN and approved by the SGHD.					
2.6	Are there facilities to enable high standards of hand hygiene to be maintained? For example, standards specified in: • 'Improving Clinical Care in Scotland Healthcare Associated Infection (HAI); Infection Control' (QIS 2003); • 'Standards Healthcare Associated Infection (HAI) Infection Control' (CSBS 2001).	**Yes**	**X**	**No**		**N/A**	
		Reviewed thoroughout detailed UGM's (April-July 2014).					
2.7	Where curtain rails and curtains are fitted are they easy to clean and maintain clean?	**Yes**	**X**	**No**		**N/A**	
		To be further developed through procurement phase.					

DRAFT

2.8	Is the toilet, bath and shower accommodation conveniently sited in relation to the ward and, where possible, is this accommodation en- suite?	**Yes**	**X**	**No**		**N/A**	
		This has been achieved and all relevant drawings have been signed off as operationally acceptable during the UGMs (Apr-July 2014).					
2.9	Is the toilet, bath and shower accommodation accessible for cleaning purposes and is the accommodation easily cleaned?	**Yes**	**X**	**No**		**N/A**	
		Will be compliant with SHTM 64.					
2.10	Does the ventilation of the toilet, bath and shower accommodation ensure extraction of air from the room to the outside air?	**Yes**	**X**	**No**		**N/A**	
		Exceeds guidance (3 to 10 air changes).					
2.11	Are the staff changing facilities suitably sited, have sufficient space, and readily accessible?	**Yes**	**X**	**No**		**N/A**	
		Various staff changing accommodation within building that meets relevant guidance. Signed off during UGM's (April - July 2014)					
2.12	Are the staff showering facilities suitably sited and readily accessible for use, particularly in the event of contamination incidents?	**Yes**	**X**	**No**		**N/A**	
		Showering facilities for staff to access in incidents requiring decontamination are sited in relevant departments (e.g. ED/Child Life and Health/Radiology Department /Helipad).					
2.13	Is there satisfactory provision of isolation facilities for infectious and potentially infectious patients?	**Yes**	**X**	**No**		**N/A**	
		Each ward area has the required number of isolation facilities.					
2.14	Is there separation of dirty areas from clean areas to minimise the risk of HAI contamination?	**Yes**	**X**	**No**		**N/A**	
		FM drawings illustrate the separation of dirty and clean areas. Drawings accepted at UGM's and FM Group.					
2.15	Is there sufficient storage accommodation provided in each area of the healthcare facility for equipment which is mobile and not in continuous use?	**Yes**	**X**	**No**		**N/A**	
		Sufficient storage accommodation has been provided in all departments to meet users needs (Mobile Hoists/wheelchairs etc).					
2.16	Are there satisfactory facilities for storage of	**Yes**	**X**	**No**		**N/A**	

DRAFT

cleaning equipment e.g. Domestic Services room?	DSR facilities provided in department areas that allow for the safe storage of materials.

DRAFT

2.17 Is the service ducting for utilities etc. concealed to ease routine cleaning of surfaces?	**Yes**	**X**	**No**		**N/A**	
	Integrated Plumbing System used to ease access for cleaning and identified on drawings. Bed Head trunking will conceal services.					
2.18 Does the service ducting for utilities provide sufficient access for maintenance and pest control?	**Yes**	**X**	**No**		**N/A**	
	Drawings show removable panels for access for maintenance and management of pest control. Further detail to be developed.					
2.19 Are there sufficient and conveniently sited facilities provided for the cleaning of common equipment like trolleys, wheelchairs etc?	**Yes**	**X**	**No**		**N/A**	
	Designated areas in specific departments to aid this process.					
2.20 Are the food preparation areas (including ward kitchens) and distribution systems fit for purpose and complying with current food safety and hygiene standards?	**Yes**	**X**	**No**		**N/A**	
	Specialist catering advisors involved in process to ensure areas fit for purpose on completion.					
2.21 Are waste management facilities and systems robust and fit for purpose? (This includes local and central storage, systems for movement of waste to central storage, systems for handling and compaction of waste, systems for separation and security of waste, especially healthcare clinical waste.)	**Yes**	**X**	**No**		**N/A**	
	Segregated waste areas provided and further detail to follow as part of the RDD process.					
2.22 Is the water distribution system designed to discourage bacterial growth and to ensure delivery of hot and cold water to users at the appropriate temperatures?	**Yes**	**X**	**No**		**N/A**	
	Further detail to follow as part of the RDD process.					
2.23 Is the drainage system design, especially within the healthcare facility building, fit for purpose with access points for maintenance carefully sited to minimise HAI risk?	**Yes**	**X**	**No**		**N/A**	
	Further detail to be provided through RDD process.					

DRAFT

2.24	Are there satisfactory arrangements for effective management of laundry? (This includes local and central storage, systems for movement of laundry to central storage, systems for handling laundry, systems for separation and security of laundry, especially contaminated laundry.)	**Yes**	**X**	**No**		**N/A**	
		Areas identified to manage all laundry types.					
2.25	Are there sufficient and suitably sited facilities for bed pan washing/disposal?	**Yes**	**X**	**No**		**N/A**	
		Each clinical area has a dirty utility room with access to facilities for bed pan washing/disposal where relevant.					

The answers to the above questions should be 'yes'. Where a potential hazard is identified a careful assessment of that hazard must be undertaken.

DRAFT

RHSC – DCN Edinburgh
Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

1.0 Introduction

We have been asked to review the air movement within the single bedrooms under various ventilation scenarios.

1. Windows and trickle vents closed, no natural ventilation, mechanical ventilation only provided to the bedrooms.

2. Windows and window trickle vents open, natural and mechanical ventilation provided to the bedrooms.

3. Some of the windows and window trickle vents open and some closed, mixture of natural and mechanical ventilation to the bedrooms.

2.0 Interpretation of SHTM 03 Ventilation for Healthcare Premises

A single room within Appendix 1 : Table A1 : Recommended air-change rates is given under the ventilation column as supply/extract/natural, with 6 ac/hr and room pressure as zero or negative. The single room WC from the table is 3 ac/hr and room pressure is negative.

Current bedroom ventilation design is supply into the room at 4 ac/hr with opening windows and trickle vents to provide natural ventilation, this gives a balanced room pressure as long as the window is open.

The single bedroom WC extract has been enhanced to 10 ac/hr and the room pressure is negative.

3.0 Ventilation Scenario's

Scenario 1

1. Bedroom is positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows to the corridor via doors.
4. Corridor is provided with extract ventilation, pressure is balanced.

Scenario 2

1. Bedroom has balanced pressure.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows and trickle vents.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms and other rooms.

RHSC – DCN Edinburgh
Air Movement Report For Single Bedrooms (Draft)

Wallace Whittle

Scenario 3

1. Bedrooms with open windows have balanced pressure and bedrooms with closed windows are positively pressurised by supply air.
2. En-suite is negative pressure to the bedroom.
3. Excess bedroom air flows out the open windows or through the bedroom doors if the windows are closed.
4. Corridor is provided with extract ventilation, pressure is negative to surrounding bedrooms.

Refer to Appendix 1 for the Air Flow and Resultant Room Pressure drawings.

The original reference design as detailed within the Environmental Matrix is as follows:-

Bedroom - Supply 4Ac/Hr & Room Pressure Positive.
WC – Extract 10Ac/Hr & Room Pressure Negative.

4.0 Conclusion

Reviewing the three air flow and resultant room pressure scenario drawings G1547/(57)SK01-SK03:

When the windows and trickle vents are utilised for natural ventilation the bedroom pressure is balanced and the corridor becomes negative.

If some of the windows and trickle vents are closed, these bedrooms will become positive and the bedrooms with open windows again will be balanced, where the corridor is negative.

Should all the bedroom windows and trickle vents be closed, the bedroom pressure is positive and the corridor shall be balanced as the corridor extract rate will match the supply air coming from the bedrooms via their doors.

The window trickle vents should be left open when the rooms are occupied, this will ensure that the bedroom pressure is balanced.

By utilising the proposed mixed mode ventilation proposal for the bedrooms, ie. opening windows and trickle vents with the supply air reduced from 6Ac/Hr to 4Ac/Hr direct into the bedroom, this will provide the most energy efficient solution for the space.

We believe that we have complied with the reference design concept as detailed within the original Environmental Matrix.

1. INTRODUCTION

The holistic design approach delivers a passive, energy efficient and green design. The passive design measures, energy efficiency initiatives and Low and Zero Carbon Generating Technology (LZCGT) reduce resource demand which delivers the required energy and carbon savings to meet and improve on the Building Standards.

In this Project, a holistic and integrated design process has been adopted from the very early design stage through to the completion of the Project as well as interfacing with thermal and efficiency testing procedures and metering strategies. The resulting design reflects an environmentally, socially, and financially responsible design, and includes fully integrated architecture and MEP systems to achieve high performance, sustainable, and optimised design. A Dynamic Simulation Modelling (DSM) tool has been employed to investigate various design strategies and proposals in order to achieve design targets. A 3D dynamic simulation model using the approved DSM software IES VE 2012 has been created to simulate the energy hierarchy and to demonstrate compliance with Scottish Building Regulations (Section 6) as well as to determine the BREEAM Ene01 credit achieved. The 3D dynamic simulation model is regarded as a live energy model, which has been and will continue to be regularly updated as the Project progresses through to handover. The milestones of the model update procedure will follow the stages of the Project. The compliance with the Scottish Building Regulations (Section 6) will be issued for building warrant and the Scottish EPC will be issued upon building handover. During the post Financial Close the model will be continually developed and updated to take account of developments to the design and to ensure that the design is maintained to meet the Project requirements.

In addition, the 3D IES VE model will be used in conjunction with metering strategies and thermal and efficiency testing procedure so that the simulation model can be calibrated simultaneously to bridge the performance gap between predicted simulation results and actual performance results based on measured data. The thermal efficiency of the building system will be monitored through a combination of measurement data derived from BMS and additional physical monitoring sensors. The BMS will be configured to provide complete continuous internal data on a zone basis and the metered data will be imported to the 3D simulation model for calibration and model updating purpose.

This document should be read in conjunction with Schedule Part 12 Section 4 – Energy Strategy.

The proposed building has been divided into 2 blocks as Block A and Block B, as shown in figures below. The model iterations have been used to educate the design process with building fabric U values and solar performance amended for optimum compliance.
