**Scottish Hospitals Inquiry**  
**Witness Statement of**  
**GRAEME GREER**

**PROFESSIONAL BACKGROUND**

1. I am Graeme Greer. My address for the purposes of this inquiry is c/o Clyde & Co (Scotland) LLP, Albany House, 58 Albany Street, Edinburgh, EH1 3QR. I graduated in 2002 with BEng (Hons) degree in Civil Engineering. On leaving university I began employment with Babbie Group (which later became Jacobs UK), where I worked for about 10 years, initially as a graduate civil engineer in the reservoir and dams teams before moving to hydropower schemes and sewer design that involved interfacing with PFI projects, increasingly moving away from design and into project management. In 2011 I left Jacobs UK and took up employment with Mott MacDonald Limited (MML). I joined MML as a Consultant, and then in summer 2016 I was promoted to Associate.
2. On commencing employment at MML, I worked on various healthcare projects as project manager and technical advisor, working within MML's Strategic Consultancy Services team. The initial projects I worked on were on hub projects, such as Aberdeen Health and Care Village; Kittybrewster Custodial Centre; Stirling Care Village, and Tain, Woodside, and Forres, a bundle of three healthcare centres. I also worked on a number of NPD projects including the North Ayrshire Community Hospital, Dumfries and Galloway Royal Infirmary, and the Scottish National Blood Transfusion Centre. I worked on the technical advisory and project management side of Design Build Finance Maintain (DBFM) contracts. I am a Chartered Civil Engineer, and a member of the Institution of Civil Engineers.

3. In May 2013 I began working on the Royal Hospital for Children and Young People and Department of Clinical Neurosciences (RHCYP/DCN) project. I joined the team at around the stage of Competitive Dialogue meeting three. I took over as the MML internal Project Manager and Technical Advisor on RHCYP/DCN (although my job title was Consultant and then Associate). In addition, during the course of the RHCYP/DCN project, I was also: (1) MML health care lead in Scotland and Ireland; and 2) leader of the advisory team in Glasgow. From around September 2019, I handed over my Advisory team role and healthcare roles to focus on the remedial works at RHCYP/DCN. I continued to carry out this role until May 2022 when I then left MML and joined NHS Lothian, where I currently work as Programme Director, working on the National Treatment Centre at St. John's Hospital, Livingston.

## **OVERVIEW**

4. In this statement I will address the undernoted themes:
- i. An overview of my role within the project;
  - ii. Procurement Process – The competitive dialogue;
  - iii. Evaluation Manual - Draft Final Tender;
  - iv. Evaluation Scoring Criteria;
  - v. The Evaluation Manual – Final Tender;
  - vi. Appointment of Preferred Bidder;
  - vii. Preferred Bidder to Financial Close;
  - viii. Project Management;
  - ix. M&E Meetings;
  - x. Project Co's Proposals;
  - xi. Room Data Sheets;
  - xii. The Environmental Matrix;
  - xiii. Development of IHSL's Environmental Matrix;
  - xiv. Risk Registers;
  - xv. Project Agreement;
  - xvi. Financial Close.

## **ROLE WITHIN THE PROJECT**

5. I joined the RHCYP/DCN project as internal project manager and technical advisor for MML around the time of competitive dialogue three. At that time, the Invitation to Participate in Dialogue (ITPD) had already been issued. I therefore had no substantive involvement in the preparation of that document.
6. My first significant involvement during this early phase was taking the formal notes in the design and construction section of the Competitive Dialogue meetings. When I took over as internal project manager and technical advisor, Richard Cantlay of MML was leading on the project. I became more involved as time passed and Richard started to hand over the client facing role to me in the run up to financial close (FC), with Richard Peace (MML Project Director) and Richard Cantlay (Lead Technical Advisor) providing approvals and oversight to the team. In my role on the RHCYP/DCN project, I would lead the MML project management team and the technical advisor teams on the ground, and would regularly liaise with Brian Currie, the Project Director for the NHS Lothian Team as we were co-located, sharing the same office space.
7. My role in the RHCYP/DCN project included managing the MML project team, though I did not have any line management responsibility. Within the NHS Lothian Team were: Iain Graham, Director of Capital Planning; Janice Mackenzie, Clinical Director; Jackie Sansbury, commissioning lead; Fiona Halcrow, DCN lead and Neil McLennan, the equipment lead. I would work with all of those on the NHS Lothian team and attend meetings with bidders during the competitive dialogue and then, ultimately, the preferred bidder Integrated Health Solutions Lothian ("IHSL").
8. By the time I became involved in the project, MML's role was to provide project management and technical adviser services to NHS Lothian. During the Competitive Dialogue, MML attended the dialogue meetings and provided comments and advice to NHS Lothian on proposals and submissions produced by bidders. Later MML provided advice on the technical elements of the ISFT, as well as technical sections of the preferred bidder letter issued at the end of

the final tender process. MML continued to advise NHS Lothian during the preferred bidder to FC phase of the project and worked with NHS Lothian to provide comments to assist the preferred bidder in the development of their proposals. When it became apparent that the preferred bidder would not be in a position to produce fully developed Project Co proposals by financial close, including a full suite of room data sheets (“RDS”), we supported NHS Lothian in mitigation measures, and assisted in maintaining a design risk and technical risk register to Financial Close. It is important to note that while MML undertook sample reviews of aspects of the design of the project on behalf of NHS Lothian, IHSL were responsible for the design of the project and for ensuring that amongst other things, the design complied with the Board’s Construction Requirements (BCRs), which was essentially the Board’s specification for the hospital.

### **PROCUREMENT PROCESS – THE COMPETITIVE DIALOGUE**

9. As I say I was not involved in drafting the ITPD, which was the document which set out the rules for the procurement process. By the time I began work on the project the ITPD had already been issued. I did attend one meeting on the drafting of the ITPD right at the start of my time with MML in 2011, but I was then quickly deployed on to other projects. By the time I joined the project in earnest, the competitive dialogue was underway. By that stage, the competitive dialogue process was well established and included monthly dialogue meetings in accordance with the programme in the ITPD. Each of the dialogue meetings were structured with a set agenda. For each monthly set of meetings, submissions based on the dialogue agenda would be issued from each bidder in advance. Each set of dialogue meetings would take place over the course of a week, with meetings scheduled for each day, Bidder A on Tuesday, Bidder B on Wednesday and Bidder C on Thursday, with pre and post meetings with NHS Lothian on Monday and Friday.
  
10. My own role during the competitive dialogue process had two functions. The first was a project management role, managing the MML team that facilitated

the flow of information between the bidders and NHS Lothian. This was managed through a system called Conject, which facilitated the flow of communication either from the bidders to NHS Lothian, and following NHS Lothian approval, answering queries on behalf of the NHS Lothian project team.

11. The other aspect of my role was managing the technical advisor team. Depending on what was being discussed at dialogue, MML would provide technical support to the NHS Lothian project team. This ranged from architectural support to mechanical and electrical engineering support, work on civil and structural matters, acoustics, energy modelling, and even aviation, due to the presence of the helipad. We also provided advisory support on matters such as facilities management which are a crucial aspect of any NPD or PFI project. I coordinated all of these separate disciplines with the support of the project management team as well as working collaboratively with the NHS Lothian team and their legal and financial advisors. NPD projects are extremely complex and incorporate a very wide range of disciplines relevant to the design and build, and then the twenty-five-year concession period following completion. MML's input therefore encompassed project management and a broad range of technical advisory services to support the NHS Lothian team in each of the relevant disciplines.
  
12. A typical dialogue week would include a pre-meet with the Core Evaluation Team. This would involve NHS Lothian, Ernst & Young ("EY") who were the NHS Lothians financial advisers, MacRoberts, who were NHS Lothians legal advisers and MML, for whom the attendees would be Richard Cantlay and me. The Core Evaluation Team is identified at section 3.1.2 of the RHSC DCN Dialogue Plan and Evaluation (**A36308885 - Dialogue Plan and Evaluation,1**) (the "Evaluation Manual"). Section 3.2 of the Evaluation Manual sets out the key individuals involved in the evaluation process. I am listed under design and construction, along with Richard Cantlay and David Stillie of Mott MacDonald but in reality, I worked across the procurement and core evaluation workstreams too.

<sup>1</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

13. The procedure to be followed in the Competitive Dialogue Process was set out at section 4 of the ITPD. Section 4.1.2 (**A34696936 – Draft ITPD Evaluation Criteria – 5 April 2012<sup>2</sup>**) defined the dialogue process as a “series of meetings leading to submission of the Final Tender”, making it clear that the “Board intends to continue the Dialogue until it is satisfied that Solutions from one or more Bidders are capable of meeting the Board’s requirements”. Section 4.1.3 set out the process to be followed during the dialogue, including discussion of aspects of the NPD Project Agreement, and the proposed risk allocation.
14. By the beginning of each dialogue week, we would already have received submissions from the bidders, which would come in around a week before the dialogue session, to allow the submissions to be reviewed. These submissions would be based on a set agenda. We would then have the dialogue meeting with the bidders on Tuesday, Wednesday and Thursday of each dialogue week, and then a debrief Core Evaluation team meeting on the Friday.
15. My recollection of the Bid teams was as follows: Bidder A included Balfour Beatty and BAM. Bidder B was Integrated Health Services Lothian (IHSL), and included Macquarie Capital, Brookfield Multiplex and Bouygues FM as FM contractor. Bidder C was Mosaic, which included Laing O’Rourke and Serco as the FM contractor. Each of the Bidders employed a contractor and their own design teams.
16. Prior to and during a dialogue week, NHS Lothian and MML would review the documents submitted by the bidders. NHS Lothian and MML would then provide comments to the MML Project Management Team. While I was not responsible for reviewing any particular submissions, I would familiarise myself as best I could with them in the time available, particularly if there were any discussion points raised by the NHS Lothian / MML reviewers. The various NHS Lothian, MML, MacRoberts and EY workstreams would meet and discuss

<sup>2</sup> Bundle 2 Reference Design and Invitation to Participate in Dialogue (ITPD) Documents, item 9, p.578

the comments, and the outcome would then be fed into the Core Evaluation team. Any significant issues would be discussed at that stage. The aim of the dialogue meetings was to support the three bidders in developing their tenders.

17. Communications to any of the bidders or other stakeholders would generally be issued by the MML project management team on behalf of NHS Lothian via Conject. I recall that all communication required to be approved by NHS Lothian before issue, generally by either the Project Director or Clinical Director.
18. My recollection is that one of the main areas of focus in the competitive dialogue phase was the development of architectural layouts, and I recall additional dialogue sessions were implemented with each of the bidders to allow further development. I understand there was a particular focus on this point to ensure that the clinical teams were comfortable with the layouts. This was also important to NHS Lothian more generally. In relation to the design risk allocation in the Project Agreement, the architectural layouts and clinical adjacencies fell within the definition of Operational Functionality, which was the only element of the design where NHS Lothian accepted the design risk. All other elements of the design were for the Preferred Bidder / Project Co to develop and ensure were compliant with the BCRs. This approach to risk allocation is adopted as standard in NPD projects in my experience.
19. If matters needed to be escalated to NHS Lothian during the competitive dialogue process, then this was done through the Core Evaluation Team. This would include any technical issues. The dialogue phase was very structured in line with the meeting schedule set out in the ITPD. I understand this meeting schedule was adhered to up until dialogue four, when extra architectural sessions were put in place. That said this was also done in a very structured way.
20. After the appointment of the preferred bidder, there were a number of individual workstreams, such as a civil and structural workstream, a helipad

workstream, and a number of others. There was also a mechanical and electrical workstream. In the preferred bidder phase, I believe the structure changed so that the Core Evaluation Team became the Project Management Executive. Any issues arising would have been discussed in that forum, for example the contents of the risk registers would have been presented and discussed there. Throughout the project there was always a means of escalating any issues which arose.

21. I came into the project at stage three of the competitive dialogue process, following the submission of mechanical and electrical proposals by bidders. These had been considered at dialogue two so I was not involved in discussions on those aspects of the project. There was no formal scoring of the dialogue sessions. The dialogue process was set out at section 4.4 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation**<sup>3</sup>), and paragraph 4 of ITPD volume 1. (**A34697102 – Invitation to Participate in Dialogue Vol 1, Revision B**<sup>4</sup>) The bidders were invited to produce informal submissions in advance of each dialogue week. The informal submissions were produced to give NHS Lothian and the advisers a feel for how the tenders were progressing and allow them to give feedback to support the developers with the development of the tenders.
22. After dialogue five, the bidders submitted draft final tenders. According to the timetable in the ITPD, these were to be produced on 21 October 2013. Section 5.1 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation** <sup>5</sup>) confirmed that the draft final tenders were not to be scored by NHS Lothian. Instead, they were to be used “as a tool for NHS Lothian to ensure that bidders have solutions capable of meeting its requirements, thus enabling NHS Lothian to proceed to conclude the Dialogue Period”. The process for technical reviews was set out at section 5.2 of the Evaluation Manual. These all required to take place between 22 October and 7 November

<sup>3</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>4</sup> Bundle 2 - Reference Design and Invitation to Participate in Dialogue (ITPD) Documents, item 23, p.942

<sup>5</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

2013. This would not have involved a detailed line by line check of each bid for compliance with all of the guidance in the BCRs. NHS Lothian was always mindful of the risk allocation inherent in an NPD project, and it was up to the potential NPD providers to produce a compliant design and undertake their own design assurance. From a technical perspective we would be undertaking a sample review and providing comments and feedback. There was not a lot of time available to review the tenders. Only two weeks had been allowed, and that might only allow for one or two days of a reviewer's time to be spent on reviewing all three bids, bearing in mind it was not a full-time design role for the reviewers, as MML had an advisory only role.

### **EVALUATION MANUAL – DRAFT FINAL TENDER**

23. The aim of the draft final tender stage was to provide an opportunity for bidders to receive feedback on draft submissions to maximise bidders' opportunity to create a compliant bid. By "compliant" I mean compliance with the evaluation criteria set out in section five of the ITPD. At the draft final tender and final tender stage, bidders were expected to provide submissions in line with the level of detail set out in the ITPD, that complied with guidance such as the SHTMs.
24. At draft final tender stage, the guidance to the team reviewing each proposal from a technical perspective would be to highlight any areas which would result in a non-compliant bid. The process was well defined in the evaluation manual. The first step was a completeness check, in order to assess whether the bidders had responded to all the questions they were supposed to respond to. The draft final tender review examined whether there were any obvious areas which would have made bid non-compliant. A report was provided to each bidder, and then there was then a further dialogue session to discuss any issues arising from the draft final tenders. This had been provided for in the programme from the outset. The legal and financial advisers were also providing feedback at this point.
25. As was made clear at section 5.1.1 **(A36308885 - Dialogue Plan and**

**Evaluation<sup>6)</sup>** the draft final tenders were not scored by NHS Lothian or advisors. Instead, they were to be “used as tools during the Dialogue Period for Bidders to set out their Solutions to NHS Lothian and for subsequent feedback on whether aspects of the Informal Submissions and Draft Final Tenders meet the Board’s requirements set out in the ITPD”. The Evaluation Manual set out the procedure to be followed at draft final tender stage. As set out at paragraph 5.3 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation<sup>7)</sup>**), there was to be a technical review, involving “individual review and comment by the relevant member of the technical team”. Paragraph 5 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation<sup>8)</sup>**) indicated that “consistent with the Board’s requirement to ensure fairness between bidders, there will be no detailed feedback going beyond setting out where that bidder does not meet minimum requirements”. A final dialogue meeting (dialogue six), took place after the draft final tender stage to allow for clarification of any points arising at that point.

## **EVALUATION SCORING CRITERIA**

26. Final tenders were produced in January 2014, in accordance with the programme set out at section 4.2 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation<sup>9)</sup>**). The Inquiry has asked me if I have any knowledge of the assessment criteria used for bidders on the Project and the 60/40 price/quality split. From my perspective I believe that this had been set following guidance provided to NHS Lothian by Scottish Futures Trust (SFT), but I was not involved in advising on an appropriate allocation.
27. The ITPD sets the evaluation process. In terms of the evaluation scoring criteria. 60% of the score was cost related and 40% was quality related. Of the 40% allocated to Quality, this was split into Strategic and Management (5%), Design and Construction (23%) and Facilities Management (12%).

<sup>7</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>8</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>9</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

28. A substantial proportion of the Design and Construction scoring questions and evaluation criteria weighting was allocated to the architectural related design elements. The weighting for C8, being clarity, robustness and quality of M&E engineering design proposals was 1.06% of the overall score.
29. In terms of the percentage ascribed to the mechanical and electrical elements, while I was not involved in determining the scoring breakdown, I understood there was an underlying requirement for the consortium ultimately appointed as preferred bidder to ensure that the mechanical and electrical design is compliant with the Board's Construction Requirements ("BCRs"), and that the final design required to comply with all of the applicable guidance.

### **EVALUATION MANUAL – FINAL TENDER**

30. The Evaluation Manual sets out the process for evaluation of the final tenders. My understanding of the scope of MML's role in the evaluation process was very much determined by this document, which had been drafted by MML with input from MacRoberts and EY and had all been approved by NHS Lothian.
31. The process to be followed for evaluation of the final tender is set out in section 6 of the Evaluation Manual (**A36308885 - Dialogue Plan and Evaluation**<sup>10</sup>) as well as section five of ITPD volume 1 (**A34697102 – Invitation to Participate in Dialogue Vol 1, Revision B**<sup>11</sup>). The evaluation process involved the following steps:
- Completeness and compliance check,
  - Check for compliance with the Stand Alone Requirements,
  - Evaluation of all of the Quality Evaluation Criteria on a pass/fail basis,
  - Evaluation of those Quality Evaluation Criteria that are evaluated on a scored basis,

<sup>10</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>11</sup> Bundle 2 - Reference Design and Invitation to Participate in Dialogue (ITPD) Documents, item 23, p.942

- Price Evaluation (including commercial aspects),
  - Evaluation of funding proposals,
  - Legal review,
  - Combination of price evaluation mark and quality evaluation mark.
32. The first step was the completeness and compliance check. According to the detailed programme set out at section 6.2 of the Evaluation Manual **(A36308885 - Dialogue Plan and Evaluation<sup>12</sup>)**, this was due to take place over two days from 7 to 8 January 2014. This was not a technical compliance check. It was a review undertaken by the Procurement Management Team, to check that the bids were complete – i.e., that they had provided answers to all of the questions being asked of bidders – and that they otherwise complied with the submission requirements from a procurement perspective.
33. The next stage was a review of the technical submissions provided by each bidder. This required to be done between Thursday 9 January 2014 and Friday 31 January 2014. The process to be followed was set out at section 6.5 of the Evaluation Manual **(A36308885 - Dialogue Plan and Evaluation<sup>13</sup>)**, and broadly required review by individuals, recording any scores and comments, then a meeting to agree a consensus score, then collation of the final tender evaluation. The process all required to be completed by 12 February 2014, according to the timetable in section 6.2 of the Evaluation Manual **(A36308885 - Dialogue Plan and Evaluation<sup>14</sup>)**.
34. Guidance on the quality scoring was set out at section 6.6 of the Evaluation Manual **(A36308885 - Dialogue Plan and Evaluation<sup>15</sup>)**. This provided that “using the Final Tender Evaluation Proforma in Appendix E, the Evaluation Group members will each undertake individual evaluation of the relevant evaluation criteria within each Bidders’ Final Tender Submissions against the prescribed scoring criteria before meeting with their Group in a workshop, chaired by the Core Evaluation Team member leading that Group, to agree

<sup>12</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>13</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>14</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

<sup>15</sup> Bundle 8 - Scoring & Correspondence Regarding Issues, item 26, p.101

the final consensus scores for each of the evaluation criteria for which that Group is responsible.

35. From an M&E MML perspective, Colin McCrae, Willie Stevenson and Paul Kelly were involved in reviewing the submissions. From NHS Lothian, Ernie Bain (estates manager) and Brian Currie (design and construction workstream chair) were involved in the mechanical and electrical evaluation. Each of the evaluators would produce individual comments and an individual score. Once again these were sample reviews, the bidders were required to undertake their own design assurance. Mechanical and electrical reviews were only a relatively small part of the work MML were undertaking at that stage. MML were undertaking technical reviews in a whole range of areas including acoustics, civil and structural, and facilities management aspects of each bid. The evaluators would then go to a meeting with the workstream lead, and then at the meeting the evaluation team would agree consensus comments and a consensus score. I would not have been involved in reviewing the M&E aspects of each bid as this is not my area of specialism. Once again, the reviewers would not have been undertaking a detailed audit of each bidder's proposals to check in detail for compliance against the guidance in the BCRs. The Evaluation Manual also included pro-formas for the evaluators to complete for each question and bidder.
36. I was involved in the consensus design and construction meetings, in which I or one of my colleagues would collate comments and scores agreed and discuss these with the MacRoberts procurement team. This involved collating the comments and challenging the comments if they did not seem consistent. I don't recall this happening specifically on the project, however an extreme example of the input I may have provided is as follows, if the evaluators were saying a proposal was excellent and only giving a score of 6, I would advise them that the scoring criteria says that if it is excellent then it should generate a score of 10. So, either the wording was wrong or the scoring wrong. This is the type of input I would have as opposed to a technical review. I was trying to assist with ensuring consistency in the scoring of the evaluations. I was not involved in the scoring itself just supporting the collating of the comments at the end.

37. Following the consensus meeting my role was to draft the Design and Construction Draft Final Tender report, and Final Tender reports based on the consensus comments and scores produced by the evaluators.
38. With regard to the scoring of the bidders I was aware that IHSL scored higher than other bidders in some areas. I believe that this was primarily in relation to architecture. I understand they took the best parts of the reference design and enhanced it, which the clinical teams saw as a massive benefit. I understand the other bidders tried to alter significantly the architectural elements of the reference design, but it did not fit the clinical layouts that NHS Lothian were looking for.
39. At the end of the tender evaluation process, a preferred bidder letter and unsuccessful bidder letters were prepared. I worked with NHS Lothian, the MML project management team, MacRoberts and EY to populate the letters based on the scores and comments in the completed tender evaluation proformas. Following the release of the letters, I then participated in de-brief sessions with the unsuccessful bidders.
40. The Inquiry has asked me to express a view on why the anomaly in the environmental matrix between guidance note 15 and the air change rates in critical care, was not identified when the tenders were evaluated. I was not involved in reviewing the detail of the mechanical and electrical submissions, but I am now aware that Bidder C produced a version of the environmental matrix which they had marked up, whereas Bidder B did not produce an environmental matrix with their final tender at all, instead adopting the environmental matrix produced with the ITPD stage for that purpose. I can't comment in detail on the differences in each bidder's approach, as I am not a mechanical and electrical engineer. However more generally, I do not think that the fact that the bidders were proposing two different solutions would of itself necessarily have rung any alarm bells. The bidders would be expected to produce different solutions generally. With specific reference to the EM, the preferred bidder would always have to develop the environmental matrix in

accordance with their own design. Even at final tender stage, the development work on the design is still to be done. The fact that the solutions proposed by each bidder were different, would not necessarily mean that one of them had complied with guidance and the other had not. The anomaly in the environmental matrix *could* have been picked up in the final tender review or in one of the subsequent reviews, but it does not necessarily follow that it *should* have been picked up, particularly if there was no environmental matrix with bidder B's bid. The sample reviews being done at that time did not involve a detailed audit of the design.

41. I have been asked how a bidder could show at final tender stage that they had complied with CEL19 (2010). By this I understand that I am being asked how the bidders could demonstrate that ADB had been used as a design and briefing tool. Bidders did require to produce sample RDS in the final tender, which I would have expected to have been generated from the ADB, and were also required to produce a full set of RDS by financial close, though in the event this did not actually happen as I will go on to explain.

42. The Inquiry has asked me to comment on how NHS Lothian and MML assessed compliance with CEL 19 (2010), given that this required health boards to use ADB as a design and briefing tool. CEL 19 (2010) was one of a number, indeed hundreds, of documents which were referred to in the Board's Construction Requirements ("BCRs"), as being guidance with which bidders were expected to comply. In my role at Mott MacDonald Limited I would not have been checking compliance with the requirements of this document.

43. The Inquiry has also asked specifically how CEL 19 was used to assess tenders for compliance. The tenders were evaluated against the criteria set out in the evaluation manual rather than being assessed in detail against each one of the very many guidance documents contained in the BCRs. It was not part of MML's role to undertake such a review, in addition there would not have been time to assess each tender against every individual document. Similarly, the reviews undertaken at final tender stage did not involve a line-by-line audit for compliance with all the applicable guidance. Ultimately

however, it would be for the successful bidder to ensure that they developed their own design in a manner which complied with the BCRs, reflective of the risk allocation in the project agreement.

44. I don't recall compliance with CEL 19 being discussed specifically, but obviously the procurement process took place a long time ago and I was not involved in the project from the beginning. In relation to whether ADB was used as a briefing tool, I am not aware of whether ADB was used by the reference design team when preparing their design. It might have been, and certainly the existence of an environmental matrix, and the use of ADB, are not mutually exclusive. The originators of the environmental matrix may well have used ADB in populating the services requirements for each room. It is worth highlighting that every NPD project which I have worked on has had an environmental matrix. In my experience, an environmental matrix has been used as standard in healthcare projects. From reading the ITPD, RDS had not been produced by the start of the procurement process, however it was clear key and generic rooms were to be produced by the bidders for final tender, and a full set of RDS were to be produced by the preferred bidder before financial close. The originators of the RDS may well have used ADB in preparing them.

#### **APPOINTMENT OF PREFERRED BIDDER**

45. IHSL were the Preferred Bidder (PB). I understand that they employed an SPV Management company which was HCP Social Infrastructure. Multiplex were the D&C Contractor, and then Bouygues were the Facilities Management provider. Multiplex then had a supply chain of designers, this included HLM, employed as architect, Wallace Whittle (who later became TUV SUD) as mechanical and electrical consultants. Robert Bird was appointed as the Structural engineer. Acoustic design was undertaken by Acoustic Logic. Fire Engineering was undertaken by Exova and then that changed to WSP early in the PB stage. Ironside Farrer was involved in planning. Multiplex also worked with the following sub-contractors: Mercury Engineering; Dunnes; Balfour Beatty Ground Engineering; and Crummock.

## **PREFERRED BIDDER TO FINANCIAL CLOSE**

### **PROJECT MANAGEMENT**

46. During the Preferred Bidder ("PB") phase, MML were on the Project Management Executive ("PME") which involved a pre-meet in preparation for meetings of the Project Delivery Group ("PDG"). The PDG managed escalated legal, technical and financial issues.
47. During the PB phase, there was also a Design Steering Group ("DSG"), and Project Management Group ("PMG"). The DSG managed escalated design issues. The PMG met weekly and managed process elements of the technical workstreams. I attended all of the above meetings. There was also an oversight meeting involving the executives of NHS Lothian, IHSL and possibly SFT, however MML were not involved in that meeting.

### **M&E MEETINGS**

48. Throughout the PB phase of the project, workshops were scheduled for each workstream. Mechanical and electrical workshop number one took place on 7 April 2014. This was the start of series of nine planned workshops scheduled to take place between the appointment of the preferred bidder and financial close.
49. Early in the PB phase there was an M&E meeting (it might even have been M&E workshop 1) where we discussed the preferred bidder (PB) letter as IHSL had seen their M&E score and acknowledged that they were the lowest (5/10) out of all the bidders. In the preferred bidder stage, IHSL asked for some more detail on where they could improve from an M&E perspective. MML and NHS Lothian provided comments around 23 May 2014.

## **PROJECT CO'S PROPOSALS**

50. On 2 April 2014, early into the Preferred Bidder stage, concerns were raised by MML about the initial development of the Project Co's Proposals (PCPs). This included concerns about the proposed structure of the PCPs, and concerns about regular reference to "Glasgow South" noting the following: *"Something else to be wary of is there is a common theme that the IHSL Designers are starting to rely on what they have done on Glasgow South, which is possibly a good starting point, but we need to see the detail of the proposals, and not assume that because Glasgow accepted it, NHS Lothian will too. First issue is we need the details, second issue is we need to review it"*.
51. MML also noted a lack of appropriate lead/attendees at meetings and additional derogations being requested by the preferred bidder to those in the final tender. By "Glasgow South", IHSL were referring to the Queen Elizabeth University Hospital ("QEUH"). IHSL frequently sought to justify design choices made in RHCYP/DCN with reference to what Multiplex were doing at QEUH. This seemed to be a benefit to the RHCYP at that point, as at that stage the QEUH, a very significant project, seemed to be going well.
52. On 4 September 2014, following lengthy discussions about the operational functionality document stamp, NHSL responded to an email trail between NHSL, MML and MacRoberts. I recall the background to the matter related to two main issues;
- (1) an additional Operational Functionality caveat that NHSL required due to a lack of developed C Sheets from the PB; and (2) the Clause 12 Project Agreement risk allocation, where I recall the final agreed RDD stamp reflected the Clause 12 Project Agreement risk allocation.
53. The lengthy conversation about the document stamp related to design risk allocation. I worked with MacRoberts on this as it was critical to the operational

functionality risk allocation in the contract, to ensure that any signing of the submitted design was limited to the operational functionality aspects of the project. This reflected the risk allocation in the project agreement. NHS Lothian was only accepting design risk for aspects of the project relevant to operational functionality. By stamping drawings as approved, there was a risk NHS Lothian could be deemed to be taking responsibility for the design, and it was only appropriate for them to be doing that for matters relevant to operational functionality. This matter was discussed by all parties, and I believe understood by all of them at the time.

54. On 14 October 2014, MML issued an email to NHS Lothian and MacRoberts stating the M&E drawings were largely level C and D, and not at the level we would expect for financial close. As there was pressure to reach financial close, the email also starts to explore possible mitigation measures including the following;

- a. *“An initial fall-back position for the Board could be to request that the Board has the “absolute right of comment” on the drawings post Financial Close...*
- b. *The absolute right of comment approach may not be acceptable to the Funder’s Technical Adviser, and therefore as discussed, a further fall back position would be to provide a schedule of comments that are included in the Project Agreement, with an opening statement of “The following comments shall be incorporated into the drawing by Project Co at no additional cost to the Board, and the drawings shall be submitted by Project to the Board through Schedule Part 8 (Review Procedure)...*

55. On 10 of November 2014, following discussions with MacRoberts and NHSL, MML issued to NHSL and IHSL an updated RDD Schedule that had been expanded to include the following 4 Parts;

*“Part 1: Endorsed RDD Item - Level A or Level B but subject to re-submission to the Board through Schedule Part 8 (Review Procedure)*

*Part 2: Non-Approved RDD Items - Level C or Level D:*

*Part 3: Reviewable Design Data:*

*Part 4: Non-Approved Project Co's Proposals Design Data comments:"*

This started to include MML / NHSL collated workstream comments on Project Co's design data.

56. As a mitigation measure, MML explored with NHS Lothian the comments and qualifications on the PCPs, and one of those was the environmental matrix. The MML technical team in collaboration with NHS Lothian and IHSL developed those comments and qualifications, which went into the RDD schedule.
57. There then followed a number of emails back and forth between IHSL and MML/NHS Lothian with regard to mitigation measures and in particular items to be included as Reviewable Design Data.
58. On 9 December 2014, following discussions between NHS Lothian, MML and MacRoberts, an updated RDD schedule was sent to IHSL rejecting the proposed amendments. On 11 December 2014, a meeting took place between NHS Lothian, IHSL and MML to discuss the RDD schedule. On 16 December 2014, I sent an email to NHS Lothian reflecting the points conceded by NHS Lothian in the meeting relative to revised RDD drafting, then on 18 December 2014, following approval from NHS Lothian, I issued an updated version of the RDD schedule to IHSL.

**ROOM DATA SHEETS**

59. My role in the development of IHSL's RDS included co-ordinating the responses from the MML / NHSL technical teams. I did not undertake any reviews and was not necessarily involved in all of the correspondence, but I have undertaken a review of the relevant parts of MML's file, and the key points were as set out below.
60. Paragraph 2.5.3 of the ITPD (**A34696936 – Draft ITPD Evaluation Criteria –**

**5 April 2012<sup>16</sup>**) sets out the plan for the development of Room Data Sheets (RDS). I think it is important to make the distinction between the template Activity Database Sheets (ADB) versus the project specific RDS. The ADB is a central database which is now in private sector ownership, managed by a company called Talon. This contains standard form sheets setting out the design criteria for individual room types in a hospital, which need to be tailored into project specific RDS, to suit

each particular healthcare facility. I am aware that the ADB cannot always be relied upon for accuracy. My understanding on this point arises from a number of sources. Firstly, the ADB is based on the English guidance, or HTMs, rather than the guidance which applies to Scotland, which is contained in the SHTMs. Secondly, having worked on a number of healthcare projects, from my own experience, including recent project experience, the ADB is used with caution by statutory bodies, boards and private sector designers. This is in recognition of the fact that use of the ADB does not guarantee compliance with relevant standards. It can be out of date. I have seen examples of ADB containing two apparently contradictory sheets for the same area. An example of this would be two sheets which were present on the ADB at the same time relevant to multi-bedded rooms in critical care. Sheet number B1609 relates to a multi-bedroom, critical care, 4 beds including scrub up bay. Mechanical ventilation is given as 6 air changes per hour "to suit design and clinical requirements". Sheet number B1610 on the other hand, which also relates to multi-bedded rooms in critical care, requires 10 air changes per hour. These are two apparently contradictory sheets in the ADB. My understanding therefore is that there is quite a lot of work involved, in developing RDS from the underlying ADB. The designer of the RDS would require to check that the sheets complied with the applicable guidance, rather than simply relying on what was in the ADB sheets. Aside from any issues with the ADB itself, it is well known that some of the underlying guidance can be contradictory, which is why my understanding is that there is a standard clause in NPD project agreements to the effect that the most onerous standard should always apply. In line with this approach this clause was added to the BCRs for the RHCYP/DCN project.

<sup>16</sup> Bundle 2 - Reference Design and Invitation to Participate in Dialogue (ITPD) Documents, p.578

61. I understand that different companies have different ways of developing room data sheets. It is possible that all companies do not necessarily go to Talon to get that information. There was a point where the Department of Health published a spreadsheet version of the ADBs and I believe some companies started to use that as opposed to those from Talon, who took over the licence to issue them.
62. Volume 1 of the ITPD states at section 2.5.3 (**A34696936 – Draft ITPD Evaluation Criteria – 5 April 2012**<sup>17</sup>) that standard form RDS had not been prepared at that early stage. Guidance Note 1 to the draft environmental matrix, issued with the ITPD describes it as an easier reference tool to replace ADB RDS M&E sheets.

During the competitive dialogue phase, RDS were to be prepared by bidders for certain rooms. However, all remaining rooms required to have room datasheets completed before financial close. The preferred bidder was to have responsibility for ensuring that this was done.

63. During the Competitive Dialogue phase, the bidders were each to develop RDS for the key and generic rooms for final tender, and then the Preferred Bidder ("PB") was to develop RDS for all rooms at FC.
64. On 1 April 2014, early in the PB to FC phase, RDS were identified as a priority item for the preferred bidder to develop. This was identified on a technical schedule tracker that MML developed and issued with a view to trying to ensure that progress was being made with key aspects of the project. Throughout the summer of 2014, MML on behalf of NHS Lothian wrote to IHSL on a number of occasions, asking IHSL to expedite the RDS, and even just to produce templates for the RDS that they were planning to produce. On behalf of NHS Lothian, MML set up meetings with IHSL to try to move things along. At least one of these had to be cancelled because IHSL had not produced the documents in time.

<sup>17</sup> Bundle 2 - Reference Design and Invitation to Participate in Dialogue (ITPD) Documents, p.578

65. By autumn 2014 it was becoming clear that RDS would not be available by financial close. On 19 September 2014, NHS Lothian circulated an email to MML noting that NHS Lothian needed to agree a position, on whether to push for completion of all (or indeed any) RDS by FC. The email from NHS Lothian noted that “ the IHSL response is that they cannot do it.” By November 2014, discussions were underway to update the Completion Criteria and BCRs to reflect the lack of completed IHSL RDS for financial close. These were produced on 9 December 2014. Ultimately, by financial close, NHS Lothian did not have a complete set of RDS from IHSL. This meant that NHS Lothian were unable to approve the RDS by that stage. The solution was that the RDS required to be included as Reviewable Design Data (RDD). On 27 Jan 2015, MML wrote to IHSL on behalf of NHS Lothian noting that;

*As the RDS are incomplete, the Board has not stamped the drawings. In accordance with the requirements in Section 5 (Reviewable Design Data) of Schedule Part 6 (Construction Requirements) (A32435789 - Schedule Part 6: Construction matters, section 5 (Reviewable Design Data<sup>18</sup>) Appendix B (Completion Criteria) of Schedule Part 10 (Outline Commissioning Programme) (A33405351 - Schedule Part 10: Outline Commissioning Programme Excerpt pages 299 to 313<sup>19</sup>)*

*Project Co has to submit to the Board through the Review Procedure completed Room Data Sheets for all Rooms whilst taking into account Section 3 of Schedule Part 6 of the Boards Construction Requirements” (A41179262 - Schedule Part 6: Construction matters, section 3 (Board's Construction Requirements), Subsection D Excerpt pages 360 to 780<sup>20</sup>).*

66. Following completion of the project, I reviewed the RDS which IHSL had produced prior to financial close. I noted that the Clinical Activities in the Draft Final Tender, Final Tender and FC RDS for the Critical Care bedrooms rooms have been altered from the ADB sheet Clinical Activities. The FC RDS Critical Care bedroom Clinical Activities appear more those to be expected in a

<sup>18</sup> Bundle 5 – Contract Documents, item 7, p.767

<sup>19</sup> Bundle 5 – Contract Documents, item 13, p.1504

<sup>20</sup> Bundle 5 – Contract Documents, item 4, p.341

normal bedroom, than a critical care bedroom. I say this because the activities specified for the rooms include taking refreshments in a sitting space, dressing and undressing, and arriving on foot. None of these activities would be expected to take place in a critical care area. This can be contrasted with the Clinical Activities in the Critical Care bedroom ADB sheets, that are clearly Critical Care Clinical Activities. This might have led any reviewers considering those RDS, to form the view that those RDS did not relate to critical care rooms, and so that specific aspects of guidance relative to critical care bedrooms in for example SHTM 03-01 was not applicable to those rooms. There may well have been a good explanation for this alteration, however I do not however recall being involved in any such discussions.

67. IHSL were unable to provide a full set of RDS prior to financial close. Due to those that were produced being submitted relatively late towards FC I do not believe they were capable of being reviewed by NHS Lothian or MML prior to financial close. I recall there being some correspondence to the effect that we had not stamped (signed off) the room datasheets.
68. The other thing we did, because the RDS had not been reviewed pre-financial close, was enhance the completion criteria relative to the RDS. There were extra clauses added, requiring IHSL to develop fully populated compliant RDS, which was agreed by all parties and added into the completion criteria. I think there might have been some changes to the BCRs as well, which related to that.
69. Having been unavailable prior to FC, the RDS would instead be reviewed when the project got to the construction phase. They would be presented in user group meetings and reviewed in the development of the design. I believe that Project Co's mechanical and electrical teams sat in on the early sessions to listen to the environmental information from the initial user group meetings, however I am not sure if that continued.
70. In terms of reviewing the mechanical and electrical data contained within the room datasheets, given that IHSL produced only a limited number of RDS

prior to financial close, and later than programmed, I do not recall MML undertaking a review of this data. When the review was undertaken in the construction phase, it would have been sample reviews and spot checks only as MML were not carrying out any design function on the project. Once again MML were not providing design assurance or undertaking an audit of IHSL's work. MML were undertaking an advisory role. The advisory team generally did sample reviews of the documents as opposed to carrying out any detailed analysis of them. MML's role was not to provide design assurance on the project.

71. I do not know how IHSL prepared their RDS, in terms of whether they used ADB or the environmental parameters for the room data sheets, I believe this information would have been taken from IHSL's own environmental matrix and then fed into the room data sheets, which may well have been produced from ADB templates. I do not think there was any changes from the environmental matrix through to the RDS. The building was almost complete I think by the time the final versions of the RDS actually became available so the majority of the environmental discussions were based on the environmental matrix as opposed to the RDS.

## **THE ENVIRONMENTAL MATRIX**

72. I recall the environmental matrix was divided into three sections, a set of guidance notes, a room function reference sheet, and a table of environmental parameters for particular rooms organised by department. The guidance notes were instructions for the bidders to take into account in the preparation of their own design. I was however not involved in considering the detail of the environmental matrix. I understand Hulley and Kirkwood produced the draft Environmental Matrix issued with the reference design and would be better placed to advise on the content. The room function sheet, I believe was part of the excel spreadsheet format, and I think in the original version you were able to select from a drop down list, hence if you selected a bedroom, you would copy and paste the bedroom

criteria into the table below.

73. I understand that the population of the draft environmental matrix issued to bidders with the ITPD with the data relative to the environmental parameters would have been the responsibility of Hulley and Kirkwood. I think all the mechanical and electrical information was shared in the data room to the bidders, for their use, to use how they wanted. The preferred bidder then had ownership of the environmental matrix and became responsible for developing it themselves.
74. The Inquiry has also asked me whether in my opinion the ITPD was requesting something impossible of bidders, being compliance with SHTMs and compliance with an environmental matrix which was itself not compliant with the SHTMs. I do not think that bidders were being asked to do the impossible. This is because the preferred bidder always had responsibility to design its own environmental matrix. The ITPD issue environmental matrix was a draft, for bidders to develop. The preferred bidder required to produce its own environmental matrix, and ultimately would have to construct the facility in alignment with that. It was IHSL's own, developed environmental matrix, which the BCRs required the preferred bidder to comply with. IHSL was aware of this responsibility and were they reminded of this frequently, as I will go on to explain below. In addition, IHSL did adopt the Hulley & Kirkwood matrix, applied their own branding to it, and amended it to suit their own design. All in all, IHSL produced at least eleven different iterations of the environmental matrix after they were appointed as preferred bidder. At no point do I recall IHSL saying that they were being asked to do something which was impossible.
75. The Inquiry has asked me if in my opinion, the information provided to prospective bidders in the ITPD lacked clarity in relation to the purpose of the environmental matrix, and whether bidders needed to formulate their tender to comply with the requirements set out in the environmental matrix. I do not recall the ITPD issue environmental matrix being discussed after Dialogue 3. I played no part in the drafting of the ITPD. That said, as I will go on to explain,

IHSL did adopt the environmental matrix, and developed it, making some significant changes to it. I am also confident that they were reminded at a number of points that they had responsibility for the design, including the environmental matrix, and for ensuring compliance with the BCRs. It was specifically pointed out to IHSL that the reference design had no contractual status as far as the environmental matrix was concerned. IHSL also confirmed that their design for the environmental matrix was compliant with SHTM 03-01.

76. My understanding as to the status of the environmental matrix is that it was provided to bidders in draft form to assist them with formulating their own design. It was always the responsibility of IHSL to develop their own design, including the mechanical and electrical elements contained in the environmental matrix.
77. There were mandatory elements and indicative elements in the ITPD. The environmental matrix was not one of the mandatory elements, which meant that the preferred bidder would have design responsibility for it. I understand that all information issued to bidders was issued as Disclosed Data for the purposes of Clause 7.1 of the Project Agreement. In relation to the environmental matrix, this meant that no warranties were given in relation to it, and bidders were required to prepare their own design and then verify that it complied with all of the guidance and, where there were any contradictions, with the most onerous of standards. IHSL's own environmental matrix was ultimately added into the contract as reviewable data design (RDD), because IHSL had not developed it sufficiently by the time of FC.

### **DEVELOPMENT OF IHSL'S ENVIRONMENTAL MATRIX**

78. My role in the development of IHSL's environmental matrix was limited to coordinating comments from the MML / NHS Lothian technical teams. I did not undertake any reviews and was not necessarily involved in all of the correspondence, but I have undertaken review of the relevant parts of MML's

file, and the key points were as set out below.

79. The development of the environmental matrix in the PB to FC phase started with a discussion on transferring the ownership of the environmental matrix to IHSL. I recall being involved in a conversation to the effect that it was now IHSL's EM and was for IHSL to develop, following which on 3 July 2014, IHSL asked for an excel version of the environmental matrix in order that they could develop it in accordance with their own design. NHS Lothian requested the excel version of the EM from Hulley and Kirkwood, which when received was then issued to IHSL via email on the 11 July 2014. IHSL did then adopt the environmental matrix and amended it. They removed the Hulley and Kirkwood logo, updated the environmental matrix with their own document reference (WW-XX-XX-DC-001), and produced several different iterations of it. In later versions, the preferred bidder included their own logo on the environmental matrix. All in all, IHSL produced at least eleven different consecutive versions of the environmental matrix as they continued to develop their own design for the facility.
80. On 11 June 2014, IHSL issued RFI 005 relating to Guidance Note 15 of the environmental matrix and the provision of humidification in Critical Care and HDU. Guidance note 15 to the environmental matrix stipulated that "Critical Care areas - Design Criteria – SHTM 03-01 – esp Appendix 1 for air change rates – 10ac/hr Supply". IHSL did not query any discrepancy between the air change rates required for critical care in guidance note 15, and the data in the body of the spreadsheet. The RFI was passed onto the MML technical team and NHS Lothian clinical team who responded on 6 August 2014, among other things, reminding IHSL that "IHSL should also update their environmental matrix to reflect the BCR requirement". This reflected the fact that as the preferred bidder, IHSL now had design responsibility for the environmental matrix. I understand that as a result of the RFI response was IHSL altered Guidance Note 15 to reflect the humidification requirements.
81. Along with NHS Lothian, we continued to remind IHSL that they had responsibility for designing the environmental matrix so that it was compliant with the BCRs. On 24 September 2014, NHS Lothian issued an instruction to

IHSL that requested additional agenda items for the Design Steering Group including as item 1 “1 *Environmental Matrix – compliance with BCRs*”

82. On 29 Sept 2014 IHSL issued the first IHSL excel version of the EM. When reviewing this document in connection with my preparatory work for the Inquiry, it was noted that IHSL have removed HDU from this version of the environmental matrix, and also altered the humidification reference in relation to critical care in guidance note 15 to reflect the RFI.
83. In the construction phase, Project Co later altered guidance note 15 in their second version of the matrix so that it required 10 air changes per hour in critical care isolation rooms only. Contrary to an agreement between IHSL and NHS Lothian, Project Co did not highlight the changes that they had made. This meant that the changes would not have been obvious to the reviewers.
84. On 6 October 2014, the MML mechanical and electrical team undertook a sample review of IHSL’s environmental matrix and then discussed the review with the NHS Lothian project team. There was an internal discussion about whether any non-compliances identified by MML might have previously been agreed by NHS Lothian directly in the reference design or competitive dialogue phase. It was decided the best course of action was to raise any concerns with NHS Lothian, and then if they agreed, flag the concerns to IHSL. This is what we then proceeded to do. The reviewers including NHS Lothian reviewers would feed comments to the project management team, and MML would issue the collated comments to NHS Lothian for approval.
85. On 6 October 2014, the environmental matrix was noted on the MML / NHS Lothian design issues register as a risk, as it did not appear to have been sufficiently developed by IHSL by that stage.
86. On 14 October 2014, MML issued comments on the environmental matrix on behalf of NHS Lothian to IHSL. NHS Lothian Estates had not yet given us any comments on the matrix at that point, which MML also raised to NHS Lothian as a project risk. One of the MML comments was that despite having changed

the matrix by that point, IHSL had kept the Hulley & Kirkwood branding on it, which was inappropriate as by that stage IHSL had become the designer.

87. Throughout autumn 2014 and after the turn of the year, there was further correspondence back and forth between NHS Lothian/ MML and IHSL with regard to IHSL's environmental matrix. There were various concerns with regard to IHSL's approach. One of these concerns arose from a HAI-SCRIBE review which took place in November 2014 relative to positive/ negative pressure in single bedrooms.
88. Following discussion with NHSL and IHSL, the following comments relative to the EM were included in Part 4 of the RDD schedule.

*“Project Co shall update the Environmental Matrix to reflect the following Board comments*

- *The Environmental Matrix shall be updated by Project Co to reflect all the rooms and room types in the proposed Facility, this should be based on an updated Schedule of Accommodation that has been commented on separately by the Board. This also needs to reflect the names and room numbers in the GSU table.*
- *Include the requirements contained in the Clinical Output Specification including but not limited to the requirement that theatre temperatures are to be able to be raised to 31°C for certain operations*
- *Measures shall be assessed, modelled and implemented to demonstrate that the internal air temperature of the following room types to reduce the temperature control from 28°C to 25°C;*
  - *Treatment Rooms;*
  - *Consulting Rooms;*
  - *Laboratory;*
  - *Physiotherapy Studio;*
  - *Recovery.*

*These rooms shall not exceed the maximum acceptable level of 25°C for more than 50 hours per annum*

- *Detailed proposal awaited on bedroom ventilation to achieve balanced/negative pressure relative to corridor.*

- *Colour rendering all stated as 80 where certain areas should be 90.*
- *There also need to have a consistent approach e.g. guidance notes and ED body view room stated as 28 -8, bereavement suite body view room stated as 25 -8.*
- *Further discussion is required on the minimum temperate requirement for the Body View Room”.*

89. The Inquiry have asked me to what extent did these identified elements of the RDD bear upon the issues of ventilation issues which later arose. Whilst not a mechanical engineer, I believe the compliance elements of the ventilation issues were generally covered by the RDD comments, and in addition, there was an overarching project agreement requirement for IHSL to ensure their design complied with all the relevant guidance.
90. On 30 January 2015, ventilation was recorded on the MML Design Risk to NHS Lothian to FC register as a high-risk item.
91. On 13 February 2015, the Project Agreement was signed. This included NHS Lothian comments on the environmental matrix for Project Co to incorporate. Project Co continued to develop the environmental matrix post financial close. The Inquiry has asked me whether this meant that the ventilation specification had not been fully agreed by financial close. I think it would be more accurate to say that the ventilation specification was to be found in the BCRs and so was agreed by financial close, but that IHSL design for the environmental matrix was not complete by that stage. IHSL produced a number of further iterations of their environmental matrix following that point. Clearly this was not ideal, and not what would have been anticipated in the project timetable, which is why mitigation measures such as the extended RDD schedule were necessary. IHSL continued to be regularly reminded that they had responsibility for ensuring that the design and content of the environmental matrix was compliant with the relevant guidance.
92. On 15 April 2015 for example, shortly after financial close, MML wrote to Project Co in relation to the environmental matrix, saying that “IHSL are also

reminded that the reference design has no relevance to the current contract, and IHSL are to comply with the Project Agreement and in particular the BCR's and PCP's. Any non-compliance with the BCRs or PCPs should be highlighted to the Board."

93. As late as 7 November 2016, MML wrote to NHS Lothian saying: "the Board still does not believe the environmental matrix and resultant design complies with the Project Agreement. Project Co's failure to comply with the BCRs / PCPs (as per MM-GC- 002084), the Board believes would result in a non-compliant Facility. The Board would suggest that Project resolve the non-compliant issues as a matter of urgency, and requests that Project Co issues a strategy for resolution of these issues". There were a number of other examples during the life of the project of IHSL being reminded that it was their responsibility to ensure that their environmental matrix complied with the BCRs, and that any non-compliances with the applicable guidance required to be highlighted by them.
94. The Inquiry has asked me if I believe the decision to use the concept of an environmental matrix was a cause or part of the cause of the discrepancies within the ventilation parameters for the critical care rooms, and whether the same errors would have resulted from using room data sheets. I believe that the same issues could have happened either way and do not think the use of the environmental matrix was a critical factor. With room data sheets, it is much harder to cross check against similar room types and you would need to look at all rooms on an individual basis. The production of RDS for a project of this scale will run to hundreds of documents as an additional datasheet is required for each room, whereas the environmental matrix condenses that information into a spreadsheet. Environmental matrices are still used frequently on healthcare projects.
95. I have been asked for my opinion on whether there are any benefits to the use of an environmental matrix. In my opinion it does have some benefits in comparison to room data sheets, as you can compare similar room types and make sure that consistent criteria have been applied across similar room

types. However, as it is a spreadsheet you do not have the direct correlation to the clinical activity that you would have within the RDS. I don't know whether Hulley & Kirkwood used the ADB when preparing their draft environmental matrix. I therefore cannot comment on whether ADB was used in the preparation of the matrix. It would make sense if the environmental matrix had been prepared using ADB however as the designers would be able to review clinical activities of a room in order to get the right room function and therefore the correct environmental characteristics.

### **ENVIRONMENTAL MATRIX DEROGATIONS IN THE PROJECT AGREEMENT**

96. As I describe below, the project agreement included a derogation register and Project Co's proposals, which included entries relating to the environmental matrix and mechanical ventilation air conditioning. The derogation request relating to the environmental matrix stated: *"Anomalies within the environmental matrix have been reviewed and proposals incorporated within the room datasheets. This shall be further developed in conjunction with the Board on the basis of the schedule of comments contained in section 5 of RDD."* This was raised to clarify the status of the environmental matrix i.e., for Project Co (IHSL) to update the matrix in accordance with the part 4 of the RDD comments. The Inquiry has asked me if this would have impacted upon the ventilation issues which later arose. I think indirectly yes, because there was a general requirement to update the matrix to make it compliant.
97. On 8 September 2014, the PB issued the first draft of the Schedule of Derogations, this included IHSL-MEP-015 titled "01 DRAFT Environmental Matrix".
98. On 7 October 2014, an M&E meeting took place to discuss the proposed PB M&E derogations. Whilst I did not attend the meeting, I understand the action for MEP-015 included the following - "MEP 015 – Board Action. IHSL await Environmental Matrix feedback prior to reviewing need or not for derogation".

99. On 14 October 2014, the PB issued a second draft (rev 0B) of the Schedule of Derogations, followed by the third draft (Rev 0C) on 16 October 2014, and the fourth draft (rev 0D) on 30 October 2014.
100. On 6 November 2014, a collated set of updated individual derogations was issued by the PB to MML.
101. On 7 November 2014, collated comments were issued by MML to the NHSL project team including collated comments on Rev 0D of the Schedule of Derogations (issued 30th October). For MEP-015 NHSL comments included the following;  
“30/09/14 Project Co's Environmental Matrix shows maximum room temperatures of 28°C where BCR maximum states 25°C & 30/10/14 Further to meeting 29/10/14 Environmental Data Matrix has been revised to reflect agreement. Derogation now withdrawn”.
102. On 5 November 2014, the PB commented MEP-15 could not be withdrawn, and it was agreed that NHSL / MML would provide comments in the RDD Schedule Part 4 for IHSL to incorporate and update the EM and RDS.

## **RISK REGISTERS**

103. Starting in June 2014 through to FC, MML produced technical and design risk registers to financial close. The purpose of these risk registers was to inform NHSL of technical and design risks, and where possible mitigate these risks before financial close. These registers were shared with NHS Lothian and IHSL as a collaborative approach to ensure that everyone was aware of the risks as the project approached financial close.
104. On 25 August 2014, the following item was considered high risk on the technical risk register for financial close, “*Project Co proposals were insufficiently developed to the required level for financial close.*” These proposals were the bidder’s response to the BCRs. A workshop was held setting out the board’s expectations and as a result a decision was made to

increase the length of the Reviewable Design Data (RDD) post FC with a greater focus on the specific design risks which IHSL still had to address.

105. Within the design risk to FC register one of the categories highlighted as high risk was ventilation issue within the single room ensuite, which NHS Lothian felt was not compliant with SHTM 03-01. The action taken by NHS Lothian and IHSL was to agree comments in terms of what still needed to be done and they would be added to part 4 of the RDD schedule for follow up after financial close.

### **PROJECT AGREEMENT**

106. Paragraph 8 of the BCRs provides that Project Co (IHSL) shall take cognisance of all the building services implications of the requirements described in section D, and specific clinical requirements, subsection E. I have been asked by the Inquiry if any of the provisions of the clinical requirements in section D bear upon the ventilation issues which later arose. The clinical requirements were generally broken up by department, hence there was a B1 Critical Care clinical output specification that contained information within that document to determine the clinical activities in the departments.

### **FINANCIAL CLOSE**

107. The Inquiry has asked me if I know why FC was not achieved until February 2015, despite the full business case being submitted to CIG in August 2014. I am aware that the Competitive Dialogue sessions took longer than anticipated as more sessions were implemented to develop the architectural design. As we approached FC there were issues with the development and submissions of the technical documents and legal issues in respect of the project agreement. There were issues over IHSL's ventilation strategy however my colleagues Colin McRae and William Stephenson had highlighted that as a high-risk item on the design risk register and better placed to advise on

comments raised.

108. The Inquiry has asked me if I was aware of tensions between NHS Lothian and IHSL in the last quarter of 2014, due to project not progressing smoothly. Due to the delays to financial close, I was aware of a general increase in pressure / tension, however that is not uncommon in the build up to financial close. I recall discussions post a board meeting that IHSL had suggested that NHS Lothian / MML were requesting more detail than they'd had to provide on other projects, however as MML were not involved in the board meeting I do not know the detail of the discussion.

I believe that the facts stated in this witness statement are true. I understand that this statement may form part of the evidence before the Inquiry and be published on the Inquiry's website.

Signed:

23 February 2023

## SECTION 5

## REVIEWABLE DESIGN DATA

**Part 1: Endorsed RDD Item - Level A or Level B but subject to re-submission to the Board through Schedule Part 8 (Review Procedure)**

As set out below in this Part 1, certain Design Data has been endorsed by the Board as a Level A or Level B at Financial Close ("**Endorsed RDD Item**").

Project Co has provided and the Board has reviewed the information noted below as Endorsed RDD Items (subject to the following Board comments that shall be incorporated into each relevant drawing by Project Co and the drawings shall be re-submitted by Project Co to the Board through Schedule Part 8 (*Review Procedure*)).

If Project Co considers that the Board comments below on any Endorsed RDD Item amount to a Change, Project Co shall, before complying with the comments and resubmitting the Endorsed RDD, notify the Board of the same and, if it is agreed by the parties or determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) that a Change would arise if the comments were complied with, the Board may, if it wishes, implement the Change and it shall be dealt with in accordance with Schedule Part 16 (*Change Protocol*).

In the event that such Endorsed RDD Items are developed further by Project Co under any design development, such Endorsed RDD Items shall be re-submitted by Project Co to the Board for approval under Schedule Part 8 (*Review Procedure*).

CDS-Z1-B1-PL-430-105	05	Basement Kitchen Area GA	As it stands there is no door space between rooms B-S1-017 and B-S1-031 - this would need to be a double door - a sliding door but double would be acceptable.  The door space between B-S1-013 and B-S1-017 is a single size door - this is not sufficient space to get the trolley from the returned trolley space into the clean trolley space.	B
CDS-Z1-B1-PL-430-106	06	Basement Kitchen Area Services Layout	As it stands there is no door space between rooms B-S1-017 and B-S1-031 - this would need to be a double door - a sliding door but double would be acceptable. **Part 2: Non-Approved RDD Items - Level C or Level D:**

Project Co shall submit and the Board shall review the following Reviewable Design Data not approved at Financial Close given that such Reviewable Design Data only received a Level C or Level D at Financial Close, with such Project Co submission addressing the following Board comments in relation to such Reviewable Design Data. These comments shall be incorporated into each relevant drawing by Project Co, and the drawings shall be submitted by Project Co to the Board through Schedule Part 8 (Review Procedure).

If Project Co considers that the Board comments below on any of the items listed in this Part 2 amount to a Change, Project Co shall, before complying with the comments and resubmitting the Endorsed RDD, notify the Board of the same and, if it is agreed by the parties or determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) that a Change would arise if the comments were complied with, the Board may, if it wishes, implement the Change and it shall be dealt with in accordance with Schedule Part 16 (*Change Protocol*).

RBG-SZ-SL-PL-210-101	02	Pile Layout GA	1. We appreciate that this drawing is not a final design. However, our	C

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>comments are valid at this stage. Schedule of pile numbers with noted currently proposed pile diameters and pile cut off levels has not been provided</p> <p>2. We appreciate that this drawing is not a final design. However, our comments are valid at this stage. Piles in some pile group appear to be closely spaced (relevant piles references were highlighted- referenced as per comments numbers 4 to 41, 43 to 58, 60 to 110, 112 to 114, 116 to 127, 129 to 149, 151 to 160, 162, 164 to 189, 191 to 204 shown on the appended drawing "RBG-SZ-SL-Pl.-210-101-Comments-Geotechnical"). We understand that pile group analysis will be undertaken at the detailed design stage in order to take into account the pile group effects. We will require to see evidence of pile group analysis</p> <p>3. We appreciate that this drawing is not a final design. However, our comments are valid at this stage. We note that use of large diameter piles is proposed where single piles are used under columns. Single pile per column is a non-redundant configuration to account for quality and performance issues. Therefore, quality control and assurance during construction and pile testing to verify pile performance will be of great importance. Currently the pile testing proposals are unknown.</p> <p>42. No pile reference is provided</p> <p>59. No pile reference is provided</p> <p>111. We appreciate that this drawing is not a final design. However, our comments are valid at this stage. We note that the pile P436 appears to be located closely to the pile wall. We assume that construction</p>	

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>tolerances will be maintained on site in order to avoid pile clashing. We also assume that the influence from the pile load onto the pile wall will be assessed in order to ensure that it will not have an adverse effect onto the performance of the pile wall, and in reverse.</p> <p>115. It is noted in the Piling Specification that the pile design is to be undertaken in accordance with Eurocode 7. However, the pile loads are not set out in permanent and variable load components, as per Eurocode requirements.</p> <p>128. Orientation of specified load is not clear.</p> <p>150. 1180mm pile diameter is a non-commonly used pile diameter for bored cast in-situ piles.</p> <p>161. Loads for pile group design should be provided. Piling Specification indicates that the piling contractor will be responsible for all aspects of pile design. We assume that this includes design of pile configurations below the proposed buildings and their interaction with the adjacent buildings.</p> <p>163. The table should also contain details of lateral and tension pile loads.</p> <p>190. No legend provided for this symbol. This should be added to the drawing.</p> <p>206. Shallower than 2.0m depth ground water levels were recorded during water monitoring, as reported in the factual ground investigation reports.</p> <p>207. Pile symbol not explained on the drawing legend.</p>	

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>208. Pile references are not shown. These should be added to the drawing.</p> <p>209. Smaller than 3.0m Glacial Till thicknesses were recorded on site.</p> <p>210. Shallower rockheads than the ones presented on the typical ground profile were recorded on site.</p> <p>211. Siltstone rock was also recorded on site.</p> <p>212. It is unclear if this ground model represents the best or the worst ground conditions on site. We note that ground conditions are variable.</p> <p>213. It is understood that contiguous pile wall is proposed. This type of wall is generally used to retain firm/stiff cohesive soils. The soils on site include granular deposits, soft clays and peat. This causes some concern in terms of suitability of the proposed wall type due to loss of material between the piles due to the ground conditions on site.</p>	
RBG-SZ-B1-PL-260-101	03	Basement GA Plan	<p>Comments related to structural aspects</p> <p>1. Remove note subject to confirmation that vibration analysis has been carried out on the design of slabs and beams. We require this information to be final.</p> <p>2. Calite waterproof concrete specified elsewhere to be specified here also.</p> <p>3. Review dimensions of dowels and amend accordingly.</p> <p>4. Provision of gas protection to CS2 is noted and welcomed, however, the detail provided contradicts the</p>	C

			<p>detail in Sewers for Scotland 2nd Ed. Reference should be Figure 16</p> <p>Point 9 - Location of possible pipe clash between Surface Water and Foul drainage.</p> <p>Point 10 - Is Drawing reference correct?</p> <p>Point 11 - Slot drains through the permeable paving.</p> <p>This would appear to by-pass the SUDs treatment provided by the paving</p> <p>Also this would be bedded directly on the create storage units. How does this work?</p> <p>(This note applies to all slot drains (SD) and Channel drains (CD) across the site.)</p> <p>Point 12 - The Legend does not identify the different type of proposed manhole and inspection chambers that are shown on the drawing.</p> <p>The legend should be updated to show this.</p> <p>Point 13 - Secondary Surface Water Channel Drain (CD-0) will be bedded directly on the create storage units. Some detail required to show how this will work.</p> <p>(This note applies to all channel drains (CD-0) across the site based in cellular storage areas.)</p> <p>Point 14 - This 'G' does not seem attached to any gully</p> <p>Point 15 - Where does this slot drain (SD) connect to?</p> <p>Point 16 - Depth of Attenuation System PP1 is 0.45 and PP2 is 0.4 in drawing RBG-SZ-SL-PL-770-101-REV05</p> <p>Should this read 0.4m to 0.45m deep</p> <p>Point 17 - Tree Shown in a Parking Space. Should this be here?</p> <p>Point 18 - No gradient or depth given for this pipe. (This note also applies to a number of pipes across the site).</p>	

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>In this case if the ground level at upstream end of pipe is 52.00m AOD (from planning drawing) and Invert level at SWMH-09 is 51.50m AOD (from schedule) then this does not work</p> <p>Point 19 - Note confirms that the design is not yet complete.</p> <p>Point 20 - Unknown chamber type. These chambers are not identified in the drawing schedule and are not in the Details Drawings</p> <p>Need to be added to key and a detail provided</p> <p>Point 21 - On Drg RBG-SZ-SL-PL-770-101-REV05 the Attenuation Tank (AT1) is identified as holding 1260m<sup>3</sup> of runoff from hardstanding areas. It is not clear from the drawings how this gets into AT1. The only connection to AT1 is from SWMH-07 and this would appear to be from the roof drainage</p> <p>The area surrounding AT1 is also described as 'Soft Landscaping' on Drg RBG-SZ-SL-PL-770-102-REV01 and therefore may not need storage. Stored flow from AT1 does not appear to be subject to SUDs treatment.</p> <p>Point 22 - ACO Channel could not connect into this pipe at this depth using the connection detail shown on RBG-SZ-00-DT-770-002-REV03.</p> <p>Point 23 - No gradient/depth or diameter for this long pipe run to manhole only 0.58m deep. Nearest ground level show on planning drawing is 52.00m AOD and invert level at SWMH-02 is 51.20m AOD</p> <p>From detail drawing RBG-SZ-00-DT-770-002-REV03 gully connections are 150mm diameter if at 1:150 gradient and 40m (approx) this doesn't work.</p> <p>Point 24 - No SUDs treatment for</p>	

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>this area</p> <p>Point 25 - Secondary Surface water pipe connect to the the surface water system Does this need deleting?</p> <p>Point 26 - There are clashes in this area between the Surface Water pipes and the Secondary Surface Water pipes and ACO channels.</p> <p>Point 27 - Depth from ground level to underside of cellular storage crate is 0.53m (0.4m media and 0.13m road make up).</p> <p>The depth below ground of the Surface Water pipe is 0.58m (from Schedule).</p> <p>Therefore the top of the surface water pipe clashes with the underside of the crate storage.</p> <p>Point 28 - Some Type D manholes have multiple pipes coming into them (SWMH 02) while only 675x675 manhole.</p> <p>Point 29 - Schedule Incomplete. There are no co-ordinates shown for any of the manholes.</p> <p>Point 30 - There is very shallow cover to a number of these pipe runs. Some of which are approximately 355mm just before crossing under buildings.</p> <p>Point 31 - Yard gullies (G) in the permeable pavement. Flow to gullies will bypass the SUDs treatment from the permeable paving.</p> <p>Point 32 - Petrol/Oil interceptor for service yard missing in schedule (Petrol/Oil interceptor for Heli-pad has been included in foul schedule).</p> <p>Point 33 - The Secondary Storage system clashes with the underside of the crate storage at manhole SWMH03.</p> <p>Point 34 - Existing manholes (MHs) ST09 &amp; SW03 type are listed 'AS EXISTING'. Can new connections be fitted in with the existing connections or are new Manholes required? If these chambers are to house hydrobrakes</p>	

Drawing Reference	Rev	Drawing Title	Comment	Drawing Status
			<p>they will need to be replaced accordingly with a suitable MH design.</p> <p>Point 35 - Is this a Hydrobrake Chamber?</p> <p>Point 36 - This area has been clouded but there is no explanation why it has on the drawing.</p> <p>Point 37 - Drainage runs under the corner of the building.</p> <p>Point 38 - Is this a Hydrobrake Chamber?</p> <p>Point 39 - No gradient or depth or diameter given for this pipe that runs under the building. This is need to check the cover to the pipe is sufficient.</p> <p>Point 40 - Is this Ground Level correct? It is substantially higher than the surrounding ground levels</p> <p>Point 41 - This chamber is a hydrobrake MH. As shown in Detail RBG-SZ-00-DT-770-004 - Attenuation Tank</p> <p>Point 42 - No invert levels shown for Petrol/oil interceptor. (See note on Schedule)</p> <p>Point 43 - Is this a Hydrobrake Chamber?</p> <p>Point 44 - Only two two gullies for all service area.</p> <p>From the detail drawings RBG-SZ-00-DT-770-002-REV03 these are also only Yard Gullies (G) and not Road Gullies (GR).</p> <p>Dependant on kerbing details and ground profile these gullies easily be bypassed by surface water flows from this area.</p> <p>It is not clear from the drawing how this areas subject to SUDs treatment.</p>

**Part 3: Reviewable Design Data:**

Project Co shall submit and the Board shall review the following Reviewable Design Data not provided to the Board nor approved by the Board at Financial Close.

This Part 3 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) sets out the details of the specific design information, materials, samples and required approvals (as more specifically set out in the table below) ("**Reviewable Design Data**") to be reviewed by the Board in accordance with Schedule Part 8 (*Review Procedure*) before such Reviewable Design Data is incorporated into the Facilities and/or the Site by Project Co.

If Project Co subsequently revises or amends its Project Co's Proposals in relation to the Room Data Sheets and/or Reviewable Design Data, then such revisions or amendments shall require to be issued to the Board for review under Schedule Part 8 (*Review Procedure*).

Any items referenced in the Section 3 (Board's Construction Requirements) and Section 4 (Project Co's Proposals) of Schedule Part 6 (Construction Matters) relating to Schedule Part 8 (Review Procedure), to comments such as "*shall be reviewed as Reviewable Design Data*" or "*to be agreed with the Board*", shall be deemed as Reviewable Design Data to be submitted through Schedule Part 8 (Review Procedure).

Following the date of this Agreement:

- Project Co shall submit a programme of issue dates for Reviewable Design Data set out in this Part 3;
- Project Co shall ensure that such programme shall show the items of Reviewable Design Data forecast to be submitted to the Board within the next 3 months;
- Project Co shall revise and reissue the programme on a monthly basis so as to maintain a rolling 3 month look ahead from each date of issue

Project Co recognises this aspect of the Reviewable Design Data process is still to be agreed and further acknowledges the practicalities for the Board co-ordinating and undertaking the reviews of Reviewable Design Data. Project Co shall ensure that no changes to the first month of each revised 3 month programme shall be made without the prior approval of the Board, and the Board shall approve or reject any Project Co proposal for such a change within 5 Business Days of receipt of the Project Co proposal, failing which the Board shall be deemed to have approved the change.

Project Co shall take reasonable endeavours to sequence the release of information in a manner so as to mitigate the volume of parallel reviews required to be undertaken by the Board pursuant to the Review Procedure.

**Part 4: Non-Approved Project Co's Proposals Design Data comments:**

Project Co shall submit and the Board shall review the following Board comments in respect of relevant Project Co's Proposals (which shall be deemed to be Reviewable Design Data) not approved at Financial Close given that such Reviewable Design Data only received a Level C or Level D at Financial Close, with such Project Co submission addressing the following Board comments in relation to such Reviewable Design Data.

These Board comments shall be incorporated into each relevant item of Design Data (which shall primarily relate to drawings accompanying the relevant Project Co's Proposals) by Project Co and the drawings shall be submitted by Project Co to the Board through Schedule Part 8 (*Review Procedure*).

If Project Co considers that the Board comments below on any of the items listed in this Part 4 amount to a Change, Project Co shall, before complying with the comments and resubmitting the Endorsed RDD, notify the Board of the same and, if it is agreed by the parties or determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) that a Change would arise if the comments were complied with, the Board may, if it wishes, implement the Change and it shall be dealt with in accordance with Schedule Part 16 (*Change Protocol*).

Reference	Title	Board Comments
Project Co Proposal Section 4.3	Construction Methodology	<p>Project Co shall provide Room Mock-ups in accordance with Paragraph 5.5 of the Board's Construction Requirements. The mock-ups are to be fully completed and ready for review and inspection within 6 months of Financial Close.</p> <p>The mock-ups will be constructed in locations to be agreed with the Board, failing which the mock-ups may be constructed as discrete units within the site boundary. If Project Co is unable to construct the mock-ups within the site boundary, they may be constructed, with the agreement of the Board, outwith the site boundary but no more than 5 miles from the RIE Campus.</p> <p>Project Co shall ensure that the proposed remediation measures at the Petrol Station will be sufficient for safe habitation and use of the site for temporary office accommodation.</p> <p>Project Co shall provide a schedule of deliveries and other construction traffic on a weekly basis to the Board so that conflicts with other campus movements are avoided.</p>

Project Co Proposal Section 4.4	Architectural and Landscaping	<p>Anti Ligature:</p> <p>HLM-SZ-00-PL-330-100 03 ANTI-LIGATURE PROPOSALS, in addition to the areas in CAMHS and the Mental Health Exam Room in A1, Project Co shall ensure the following rooms have anti-ligature fittings. G-A2-044, 1-L1-015, 2-L2-010, 2-L2-142 and 3-C1.1-058.</p> <p>Project Co shall ensure the following rooms have plasterboard ceilings – G-F1-022, G-F1-023, G-F1-026, G-F1-027, G-F1-47 and G-F1-048.</p> <p>Proximity Parking:</p> <p>HLM-Z0-00-PL-700-021 03 Landscape GA - Hospital Square. DCN proximity parking layout subject to confirmation in relation to adjacent current and known future RIE MRI scanners. Text adjacent to alternative ED Entrance incorrectly located. Drawing subject to further development with Users and submission as part of RDD.</p> <p>The above comment supersedes the comment on Part 1 of Section 5 RDD of Schedule Part 6 - Construction Matters.</p>
Project Co Proposal Section 4.5	Interior Design and Wayfinding	<p>Project Co shall acknowledge that the integration of the Group 3 furniture and equipment into the interior design is fundamental to the quality of the final interior ambiance of the Facilities and therefore, Project Co shall assist the Board with the selection and co-ordination of that Group 3 furniture and equipment.</p> <p>Project Co shall acknowledge that the facility for patients to personalise their rooms is an important part of the therapeutic process and expects that within the interior design proposals, Project Co shall integrate a dedicated and suitably finished space for children to display their own artwork within their rooms.</p>
Project Co Proposal Section 4.8	Civil and Structural Engineering	<p>Geotechnical and Geoenvironmental Reports :</p> <p>Project Co shall not rely on the Arup/BAM report as referenced in the CGL letters.</p> <p>In accordance with the BCR's, Project Co shall submit to the Board an IHSL GDR and GIR report.</p> <p>Project Co to consider that Ground water at levels above 50m OD were recorded during ground water monitoring as recorded in the factual ground investigation reports.</p> <p>Project Co shall submit the pile testing proposals and the piling contractor testing requirements.</p>

		<p>Pending the issue of the GDR and GIR, the Board reserves the right to comment on the item's raised within these reports including but not limited to ground Gas Protection and Waterproofing measures and the use of contiguous pile wall.</p> <p>Project Co to confirm the basement waterproofing details comply with the BCRs.</p> <p>The Board notes a conflict between the drawings and PCPs with regards to the gas protection. Further discussion required on the provision of gas protection through the RDD process.</p>
Project Co Proposal Section 4.9	Mechanical and Electrical Engineering	<p>Retail Units:</p> <p>Project Co shall provide the retail units with the base build system L1 fire detection.</p> <p>Lothian and Borders police to be replaced with Police Scotland.</p>
Project Co Proposal Section 4.9	Sustainability & Energy Model	Final design model to be submitted through Review Procedure following the finalisation of the Plant selection and system arrangement.
Project Co Proposal Section 4.11	BREEAM	<ul style="list-style-type: none"> <li>• Man 1</li> </ul> <p>- Section 7 (Thermal and Energy Efficiency and Testing Procedure) of Schedule Part 6 (Construction Matters) requires a thermographic survey and seasonal commissioning to be undertaken.</p> <p>Project Co shall undertake a thermographic survey and seasonal commissioning and monitoring.</p> <ul style="list-style-type: none"> <li>• Man 4</li> </ul> <p>- Post Occupation Evaluation (POE) is under investigation, further discussion is required relating to the nature of this investigation.</p> <ul style="list-style-type: none"> <li>• Ene 2</li> </ul> <p>Project Co shall review the strikethrough of item 2, as there is a requirement in the BCR's to sub meter departments e.g. catering and building function areas, retail units.</p> <p>Further discussion required on why Item 2 is not currently targeted.</p> <ul style="list-style-type: none"> <li>• Ene 4</li> </ul> <p>Item 2.12 of section 4.9 M&amp;E PCP states Project Co shall provide "free cooling".</p>

		<p>Further discussion is required on where free cooling is utilised, even if Project Co cannot meet the full BREEAM coverage</p> <ul style="list-style-type: none"> <li>• Ene 5</li> </ul> <p>- This BREEAM scope is for “commercial/industrial sized refrigeration and storage systems”, Project Co responsibility.</p> <p>Further discussions required on whether the new storage can meet the BREEAM standard.</p> <ul style="list-style-type: none"> <li>• LE5</li> </ul> <p>Further discussion required on why item 5 is not achievable.</p>
Project Co Proposal Section 4.12	Fire Strategy	<p>Project Co shall submit to the Board the items identified in the derogations as requiring further development.</p> <p>Project Co shall also submit through the RDD process, including but not limited to;</p> <ul style="list-style-type: none"> <li>• Means of escape,</li> <li>• Means of Warning,</li> <li>• Fire Spread and Control, and</li> <li>• fire brigade access.</li> </ul>
Project Co Proposal Section 4.13	Acoustic Strategy	<p>2.1.2 Internal Doors ACC005/9 Project Co to delete comment box</p> <p>Project Co to clarify derogation reference. 2.9 (and 4.6.1)</p> <p>ACC0021: Project Co to confirm that absorption will be provided to achieve STI 0.6-0.75 in waiting reception areas with speaking distances greater than 1m.</p> <p>ACC0002/14: Project Co to confirm that with the windows closed the ventilation requirements and acoustic performance shall be achieved.</p> <p>EFTE roof-airborne noise break in: Project Co shall control plant noise at source to avoid excessive break-in through ETFE roof.</p> <p>Energy Centre Façade: Project Co shall confirm that the 50dBA limit will be achieved.</p>

4.14	ICT Strategy	<p>Project Co shall confirm the extent of the blown fibre solution.</p> <p>Information Technology (IT) Equipment and Distribution Systems Point 7 – Project Co shall use the title 'node' rooms.</p>
4.15	Vertical Transportation	<p>Section 3.0 - 4th para - Project Co shall provide FM lifts to serve all floors including Basement.</p> <p>Project Co to review drafting of text in conjunction with tables:</p> <ul style="list-style-type: none"> <li>-Section 4.0 - L4 and L5 Lift types should be 'type 2' lifts with a paragraph ref of 5.4.2. Still down as Type 1.</li> <li>-Section 5.0 - section 5.4.2 - text to read - (Lifts L6, L7, L12, L13 &amp; L14). Number of stops should read 6. States 5.</li> <li>- Section 5.0 - section 5.4.3 - text to read (Lifts L4, L5 &amp; L11). Only refers to L11.</li> <li>- Section 5.0 - section 5.4.4 - delete text ref to L4 &amp; L5. Not deleted</li> </ul> <p>Section 6.0 - penultimate para - '2 x 1000kgs' - this statement is not in accordance with the lift capacities detailed in table in section 4.0 Main Characteristics summary , Project Co to review calculations.</p> <p>Project Co shall procure that the two service yard FM lifts are supplied from separate electrical circuits to maintain services.</p> <p>Project Co has stated 223 in-patient beds, this should state 233.</p>
Project Co Proposal Section 4.16	Commissioning	<p>Section 12 – Retained Estate Hand back Infrastructure</p> <p>The following statement within the PCP is incorrect in the context of this section “Project Co shall comply with the requirements contained in Schedule Part 18 Handback Procedure”. Project Co shall provide details on the commissioning and handover of the Retained Estate Hand back Infrastructure.</p>

		<p>Project Co shall discuss with the Board the interaction of the Independent Tester with reference to the Completion Criteria.</p> <p>Project Co shall incorporate the following comments in the Outline Commissioning Programme, located within Appendix C of Schedule Part 10:</p> <ul style="list-style-type: none"> <li>• Line 6 – should read 6 months prior to PC</li> <li>• Line 7 – Project Co shall give notice to IT and Board</li> <li>• Line 29 – 10 days after</li> <li>• Line 30 – include drawings and 10 days post PC</li> <li>• Line 33 – Project Co shall rectify snagging – timescale incorrect – 10 days not 4 weeks</li> <li>• Line 44 – orientation of staff will take longer than 2 weeks</li> <li>• Line 48-51- not sure what this refers to – we plan to move the services in phases not yet agreed.</li> <li>• Line 40- needs to happen earlier – some in pre-completion phase and rest immediately after PC</li> <li>• Line 38 – very specific and doesn't cover all- make more general</li> <li>• Line 47 - will be happening from handover to first patient starts</li> <li>• Line 18 – agreed we would get earlier notice as delivery of group 2a needs to be in line with closure of areas of the building.</li> <li>• Line 22 - Date for NHS Early access – 3 months before PC and 6 months before first patient.</li> <li>• Line 23 will happen as late in the period prior to first patient but may spill back into early access time.</li> <li>• Very light on FM Services commissioning</li> <li>• Missing information from Outline Commissioning Programme as follows:</li> <li>• Lines for close down of different parts of building – this is important for procurement and installation of group 2B and IT - Dates for access to Board for installation of</li> </ul>
--	--	--

		<p>IT in sufficient time to procure and install in agreed phases to match close down of different sections of building</p> <ul style="list-style-type: none"> <li>• Line to cover project Co commissioning and staff training on Board Specified Group 1 equipment</li> <li>• Start of Help desk needs identified and needs to be running on completion</li> <li>• Line to cover 20-30 days notice to IT and Board re works complete and completion test date</li> <li>• Line to cover date for Project Co to give notice to Board of date Board entitled to commence pre-completion commissioning- may be the same as early access</li> <li>• Line for IT to issue certificate of practical completion.</li> </ul>
Project Co Proposal Section 4.17	Access Control Strategy	Further discussion with the Board required to confirm access barrier control locations.
Project Co Proposal Section 4.18	Security Strategy	<p>1.3 Staff Safety</p> <p>Project Co shall provide portable staff attack alarms in line with the BCR's, this requirement shall be discussed further through the Review Procedure.</p> <p>Project Co shall provide the facility to lock departments and public toilets when closed or not in use.</p> <p>Project Co shall provide details as to how reception desks are secured when not attended.</p>
Project Co Proposal Section 4.21	Equipment Strategy	<p>The Board notes that the Equipment Schedule Version 7 used at Financial Close and included within Schedule Part 11 Equipment does not reflect the corrections and updates previously shared with Project Co on drawings or via Aconex and further development is required.</p> <p>Specific equipment responsibilities in areas with specialist fit out will require to be developed further as part of RDD to ensure clarity of roles and responsibilities between Project Co and the Board.</p>
Project Co Proposal Section 4.23	Specifications	<p>MECHANICAL &amp; ELECTRICAL SPECIFICATION</p> <ul style="list-style-type: none"> <li>• Specifications are generic NBS specifications and do not identify if each specification is to be used on this project or for which service it is intended to provide e.g. DHW services pipework should include specification for stainless steel pipework and all associated specifications, pumps, valves, insulation etc.</li> </ul>

		<ul style="list-style-type: none"> <li>• These specifications should be reviewed and only relevant specifications submitted, detailing intended service provision. Example:</li> <li>- Specification 320 - Bulk wholesome quality sectional water storage tanks and break tanks will be located within the basement of the hospital building.</li> <li>- Section 4.9 Mechanical &amp; Electrical Engineering Main raw water, filtered clean water and category 5 storage tanks are located within the fourth floor water tank plant room.</li> <li>• There are 752 pages in the M&amp;E specifications which are generic and include the anomalies as above.</li> <li>• All items that are stated as “Submit proposals” shall be submitted by Project Co through the Review Procedure.</li> <li>• Where options are included these need to be refined to actual proposals.</li> </ul>
		<p>CIVIL &amp; STRUCTURAL SPECIFICATION</p> <p>Project Co shall take account the following comments in ongoing discussions with the Board:</p> <ol style="list-style-type: none"> <li>1. Preliminaries and General Conditions have not been provided for review in conjunction with the Piling Specification.</li> <li>2. “Piling Works Document” and “Performance Specification for Construction Noise and Vibration” have not been provided for review.</li> <li>3. Geotechnical Interpretative reports by BAM Construction Ltd. are referenced in the specification. Project Co does not have reliance on these documents and any reference should be removed.</li> <li>4. Drawing reference (RBG-MZ-B1-PL-210-001) noted in sections 280A and 281 does not match the reference of the Pile Layout Drawing (with noted pile loads) provided for review (RBG-SZ-SL-PL-210-101 rev 02). Drawing RBG-MZ-B1-PL-210-001 was not provided.</li> <li>5. It is stated that the piling guarantee is to be 12 years, which is less the design life of the proposed buildings, Project Co to comply with the BCR’s.</li> <li>6. Reference is made to Contract Documents, but these have not been provided for review</li> </ol>

		<p>7. Table B1.2, as referenced in clause 210A does not contain relevant information for review of piling works proposals.</p> <p>The following information is not contained in the Piling Specification.</p> <p>a. Pile Cut Off levels have not been provided</p> <p>b. Proposed pile commencing surface (indicating lengths of pile head trimming) has not been provided</p> <p>RBG-SZ-XX-SP-260-001 Rev 03 Concrete Specification Specification to be resubmitted on the basis that comments have been made on the structural drawings.</p> <p>RBG-SZ-XX-SP-260-002 Rev 01 Steelwork Specification Comments related to structural aspects Specification to be resubmitted on the basis that no steelwork drawings have been made available for review.</p> <p>RBG-SZ-XX-SP-700-001 Rev 03 Civil Specification Comments on geotechnical aspects of the Civil Specification: Q20 – Granular Sub-base to roads/pavings</p> <p>1. Clause 120 – ‘Checking of Subgrade’ refers to Arup GIR for soil conditions, plasticity parameters, design CBRs, Groundwater conditions – Project Co does not have reliance on these documents.</p> <p>2. Clause 140 – Soft spots &amp; voids – no details of action have been provided, i.e. removal and replacement with suitable compacted granular fill</p> <p>3. Clause 210 – Recycled aggregate is permitted – There is no details provided of any other proposed materials source (i.e. quarry or brownfield site source).</p> <p>4. No section confirming materials testing of Type 1 was provided – as per Series 800, cl. 801. Also there are no details of testing frequency.</p> <p>6. Performance testing requirements of sub-base (and sub-grade) have not been provided. Also there are no details of testing frequency i.e. CBR test spacing of sub-grades</p>
--	--	--

		<p>CIVILS COMMENTS - ALL SECTION R12</p> <p>Clause 110 – No mention of brick manholes.  Clause 135 – All package pump items noted as TBC.  Clause 667 – Bedding – does not comply with the BCR’s.  Clause 667 – Surround – does not comply with the BCR’s  Clause 753 – Step rungs have not been designed in accordance with the BCR’s or Sewers For Scotland standard detail drawing.  Clause 757 – Benching does not comply with the BCR’s</p> <p>RBG-SZ-XX-SP-700-002  Rev 02  Bulk Earthworks Specification / Status C</p> <p>1. General Comment - The scope of proposed earthworks is unclear and difficult to understand based on the information made available.</p> <p>2. General Comment - No earthworks drawings have been provided to support the proposed bulk earthworks specification and scope of works (ie. cut/fill balance, topsoil storage/landscape mounds, final contour plans)</p> <p>3. Section 2.1.1 of the Specification provides a list of documentation to be read in conjunction with the specification of which various sources:</p> <p>a. have not been made available for review (i.e. site topographic survey),</p> <p>b. IHSL do not have reliance on these documents (i.e. BAM/ARUP Geotechnical Interpretative Report) – these documents appear to form the basis of the anticipated ground conditions onsite and subsequent earthworks design.</p> <p>c. All reference to BAM / Arup should be removed. Have been superseded (i.e. CARD Geotechnics Geotechnical Interpretative Report)</p> <p>4. The Scope of Earthworks appears inconsistent as Section 1.2 Scope of Works only references 6N (Structural Fill) fill operations whilst general filling (including starter layers), capping, type 1 filling (sub-base?) and landscaping operations are detailed in sections 2.4.16 to 2.4.20. Further clarification of the full scope of earthworks is required.</p> <p>5. Section 2.3 Disposal of Materials suggests any site-won material not suitable for 6N/6P ‘Hard Fill’ shall be disposed offsite. This statement does not appear to align with other filling operations mentioned later in the document (see above point) and requires further clarification.</p>
--	--	--

	<p>6. Anticipated cut and fill quantities within the development have not been provided and it is therefore difficult to determine magnitude of potential offsite disposal.</p> <p>7. No material classification has been provided for suitable/permissible general and landscape fill materials. Given the presence of geologically variable and potentially unsuitable materials at the site; clarification of acceptable/unacceptable soil for re-use as fill shall be submitted for the Boards review. The Board would expect this the correspond with the contents of Appendix A.</p> <p>8. Compaction requirements (ie. 95% Maximum dry Density) have not been provided for the Type 1 and Capping 6F1/6F2 materials.</p> <p>9. It is unclear what is meant by '150KPA TBC'. No information has been provided to determine the basis of this value.</p> <p>10. As stated above, we are not aware that shallow foundations will be adopted on site and requires clarification.</p> <p>11. No information has been provided to comment on location and adequacy of 'H' testing locations.</p> <p>12. It is unclear what is meant by 'zone' testing</p> <p>13. It is unclear whether formation level refers to cut/excavated level or finished earthworks/foundation level.</p> <p>14. No details have been provided to confirm performance testing (including density testing) of engineered earthworks layers and final/finished earthworks level.</p> <p>15. Appendix A is unclear and requires following clarifications:</p> <p>a. Table includes reference to geotextiles however it is unclear within the document where this forms part of the works.</p> <p>b. Frequency of testing does not distinguish between imported and site won fill materials.</p> <p>c. Many testing requirements are referenced back to clause 2.4.25 for bearing capacity testing below shallow foundation areas suggesting these may only be applicable within these zones which remain unclear. Project Co to undertake materials and performance testing to apply throughout the earthworks operations</p> <p>d. Specification for Highway Works Table 6/1 &amp; 6/2 extracts do not include for all materials contained within the Testing</p>

ATTACHMENT 1      FINANCIAL MODEL

**BETWEEN:**

- (1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Board**"); and
- (2) **IHS LOTHIAN LIMITED** (registered under number SC493676) whose registered office is Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ. ("**Project Co**").

**WHEREAS:**

- (A) The Board wishes to develop new facilities on the Site and Off-Site and to consolidate on the Site services currently provided at other locations in order to improve the quality and efficiency of services provided by the Board.
- (B) The Board wishes to procure the design, build, finance and maintenance of a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Project**").
- (C) In accordance with the Scottish Government's NPD initiative, the Board conducted a competitive dialogue to identify the most economically advantageous tender from persons interested in being appointed the Board's private sector partner and forming a NPD company to procure the Project.
- (D) The tender submitted by Project Co has been selected as the most economically advantageous tender.
- (E) This Agreement is entered into pursuant to a project applying principles similar to the principles of the private finance initiative and is excluded from the Housing Grants, Construction and Regeneration Act 1996 by virtue of the Construction Contracts (Scotland) Exclusion Order 1998 (S.I. 1998/686).

**NOW IT IS HEREBY AGREED** as follows:

**PART 1: GENERAL****1. DEFINITIONS AND INTERPRETATION**

Schedule Part 1 (*Definitions and Interpretation*) shall apply.

**2. EXECUTION AND DELIVERY OF DOCUMENTS**

- 2.1 On or prior to execution of this Agreement Project Co shall deliver to the Board the documents referred to in Section 1 (*Documents to be delivered by Project Co*) of Schedule Part 2 (*Completion Documents*) (unless the requirement to deliver any such document is waived by the Board by written notice to Project Co); and
- 2.2 the Board shall deliver to Project Co the documents referred to in Section 2 (*Documents to be delivered by the Board*) of Schedule Part 2 (*Completion Documents*) (unless the requirement to deliver any such document is waived by Project Co by written notice to the Board).

### 3. COMMENCEMENT AND DURATION

This Agreement, and the rights and obligations of the parties, shall commence on the date of execution of this Agreement and, without prejudice to Clause 47.6, shall terminate automatically on the expiry of the Project Term.

### 4. PROJECT DOCUMENTS

#### Ancillary Documents

4.1 Project Co shall perform its obligations under, and observe all of the provisions of, the Project Documents to which it is a party and shall not:

4.1.1 terminate or agree to the termination of all or part of any Ancillary Document;

4.1.2 make or agree to any material variation of any Ancillary Document;

4.1.3 in any material respect depart from its obligations (or waive or allow to lapse any rights it may have in a material respect), or procure that others in any material respect depart from their obligations (or waive or allow to lapse any rights they may have in a material respect), under any Ancillary Document; or

4.1.4 enter into (or permit the entry into by any other person of) any agreement replacing all or part of (or otherwise materially and adversely affecting the interpretation of) any Ancillary Document,

unless the proposed course of action (and any relevant documentation) has been submitted to the Board's Representative for review under Schedule Part 8 (*Review Procedure*) and either:

(a) there has been no objection in accordance with paragraph 3 of Schedule Part 8 (*Review Procedure*) within twenty (20) Business Days of receipt by the Board's Representative of the submission of the proposed course of action (and any relevant documentation), or such shorter period as may be agreed by the parties; or

(b) Project Co is acting in accordance with the comments of the Board as provided in paragraph 4.2 of Schedule Part 8 (*Review Procedure*);

and, in the circumstances specified in Clause 4.1.1, Project Co has complied with Clause 57 (*Assignment and Sub-contracting*).

#### Changes to Funding Agreements and Refinancing

4.2 Subject to Clauses 4.3, 4.4 and 4.5, Project Co shall be free, at any time, to enter into, terminate, amend, waive its rights and generally deal with its Funding Agreements on such terms and conditions as it sees fit without the prior written consent of the Board provided that (at the time such action is contemplated and

effected) the same will not materially and adversely affect the ability of Project Co to perform its obligations under the Project Documents or this Agreement.

- 4.3 No amendment, waiver or exercise of a right under any Funding Agreement or Ancillary Document shall have the effect of increasing the Board's liabilities on early termination of this Agreement unless:
- 4.3.1 Project Co has obtained the prior written consent of the Board to such increased liability for the purposes of this Clause 4.3; or
- 4.3.2 it is a Permitted Borrowing.
- 4.4 Project Co shall not, without the prior written consent of the Board for the purposes of this Clause 4.4, vary, amend or replace any Funding Agreement or enter into any new Funding Agreement, the effect of which is to:
- 4.4.1 change the circumstances in, or conditions on, which Project Co is entitled or obliged to make payments into the Surplus Account; and/or
- 4.4.2 change the circumstances in, or conditions on, which Project Co is entitled or obliged to make Surplus Payments.
- 4.5 Any amendment or variation of any Funding Agreements which constitutes a Refinancing shall be carried out in accordance with the provisions of Schedule Part 23 (*Refinancing*).
- 4.6 Without prejudice to Clause 4.2, Project Co shall liaise with the Board, and shall use all reasonable endeavours to provide the Board with a copy of the relevant agreement in settled draft form, not less than ten (10) Business Days before it enters into any Funding Agreement (other than the Initial Funding Agreements).

#### **Delivery**

- 4.7 Without prejudice to the provisions of this Clause 4 (*Project Documents*), if at any time an amendment is made to any Project Document, or Project Co enters into a new Project Document (or any agreement which affects the interpretation or application of any Project Document), Project Co shall deliver to the Board a conformed copy of each such amendment or agreement within ten (10) Business Days of the date of its execution or creation, certified as a true copy by an officer of Project Co.

#### **Funding Default**

- 4.8 Project Co shall promptly upon the occurrence of a Funding Default notify the Board of such Funding Default.
- 4.9 The Board may, in circumstances referred to in Clause 4.8 above (regardless of whether the Senior Funders have exercised any enforcement or similar rights under the Senior Funding Agreements), require Project Co to provide an Interim

Project Report and to attend, and use all reasonable endeavours to ensure that the Senior Funders attend, such meetings as the Board may convene to discuss such Interim Project Report and the circumstances giving rise to it.

- 4.10 Project Co shall promptly upon a failure by the Senior Funders to advance amounts due under the Senior Funding Agreements (or in circumstances that might reasonably be expected to lead to such a failure) notify the Board of such failure (or expected failure).
- 4.11 The Board may, in the circumstances referred to in Clause 4.10 above, require Project Co to attend, and use all reasonable endeavours to ensure that the Senior Funders attend, such meetings as the Board may convene to discuss the circumstances.

## 5. THE PROJECT OPERATIONS

### Scope

- 5.1 Subject to and in accordance with the provisions of this Agreement, Project Co shall perform its duties under this Agreement at its own cost and risk without recourse to the Board except as otherwise expressly provided in this Agreement.

### General standards

- 5.2 Project Co shall at its own cost be solely responsible for procuring that the Project Operations are at all times performed:
- 5.2.1 in compliance with all Law and Consents (including without limitation the giving of notices and the obtaining of any such Consents) and so as not to prejudice the renewal of any such Consents;
  - 5.2.2 in a manner that is not likely to be injurious to health or to cause damage to property;
  - 5.2.3 in a manner consistent with the Quality Plans;
  - 5.2.4 except to the extent expressly stated to the contrary in the Board's Construction Requirements or the Service Level Specification, in compliance with all applicable NHS Requirements;
  - 5.2.5 in a manner consistent with the Board discharging its statutory duties and other functions undertaken by it as the same may be notified to Project Co from time to time;
  - 5.2.6 in so far as not in conflict with an express obligation of Project Co under this Agreement, or where in relation to a matter there is no express obligation or standard imposed on Project Co under this Agreement, in accordance with Good Industry Practice; and

- 5.2.7 without prejudice to the foregoing generality, where any of the Project Operations are to be carried out on any part of the Retained Site and/or the Retained Estate in compliance with the reasonable requirements of the Board, which Project Co acknowledges may include the reasonable requirements of Consort and/or the University and/or other parties with an interest in the Retained Site and/or Retained Estate (such reasonable requirements shall be, for the avoidance of doubt, always to be communicated to Project Co by the Board) and PROVIDED ALWAYS that where, in the reasonable opinion of Project Co such requirements would give rise to it incurring material additional costs (which, in respect of the Construction Phase or the correction of Defects or Snagging Matters, shall be additional costs of five thousand pounds (£5,000) or more per reasonable requirement), Project Co shall require the Board to serve a Board Change Notice on Project Co in accordance with Clause 33 (*Change Protocol*) and Schedule Part 16 (*Change Protocol*) and Project Co shall not be obliged to comply with such requirements other than in accordance with the provisions of Schedule Part 16 (*Change Protocol*).

In the event that any ambiguity, uncertainty, dispute or discrepancy arises in the nature and scope of Project Co's obligations under this Clause 5.2 (*General Standards*), the provisions of this Clause 5.2 (*General Standards*) will be given meaning and have effect in descending order of precedence set out in this Clause 5.2 (*General Standards*).

### **Board's Undertaking**

- 5.3 The Board undertakes to Project Co that it shall:
- 5.3.1 subject to the provisions of this Agreement, comply with all Laws, NHS Requirements and Consents applicable to it which relate to the Project Operations;
  - 5.3.2 not wilfully impede Project Co in the performance of its obligations under this Agreement (having regard always to the interactive nature of the activities of the Board and of Project Co and to the Board's use of the Facilities, the Retained Estate Handback Infrastructure and/or the Retained Estate to provide the relevant Board Services and any other operations or activities carried out by the Board on or at the Site, Off-Site and/or the Retained Site for the purposes contemplated by this Agreement and any other of the Board's statutory functions);
  - 5.3.2 inform Project Co as soon as reasonably practicable if at any time it becomes unable to meet any of its financial obligations and in such case inform, and keep Project Co informed, of any course of action to remedy the situation recommended or required by the Scottish Government, the Board or other competent authority; and
  - 5.3.3 to the extent permitted by Law, supply to Project Co within sixty (60) Business Days of their publication, a copy of the Board's Annual Report and Accounts,

provided that, to avoid doubt, nothing in this Clause 5.3 (*Board's Undertaking*) shall in any

way fetter the discretion of the Board in fulfilling its statutory functions.

### **Co-operation**

- 5.4 Each party agrees to co operate, at its own expense, with the other party in the fulfilment of the purposes and intent of this Agreement. To avoid doubt, neither party shall be under any obligation to perform any of the other's obligations under this Agreement.
- 5.5 Without prejudice to the generality of Clause 5.4, the parties shall liaise with a view to ensuring that the requirements of The NHS and You and any other NHS requirement relating to customer service and satisfaction which may from time to time supplement or replace The NHS and You are met in respect of the operation of the Facilities.
- 5.6 Without prejudice to the binding contractual obligations set out in this Agreement, the Parties recognise and agree that the partnering ethos, principles and objectives described and set out in Section 4.30 (*Partnering and Collaborative Working*) of Project Co's Proposal and/or Section 1.3 (*Partnership*) of the Method Statements are aspirational and shall not and are not intended to give rise to legally binding rights and obligations between the Parties.

### **Board Works**

- 5.7 Notwithstanding the terms of Schedule Part 5 (*Land Matters*), the Board shall carry out and complete each element of:-
- 5.7.1 Board Enabling Works in accordance with the requirements and timescales corresponding to that element as set out in Section 1 (*Board Enabling Works*) of Schedule Part 30 (*Board Works*).
- 5.7.2 the Board Neighbouring Works in accordance with the requirements and timescales corresponding to that element as set out in Section 2 (*Board Neighbouring Works*) of Schedule Part 30 (*Board Works*).

## **6. GENERAL OBLIGATIONS AND RESPONSIBILITIES OF PROJECT CO**

### **Other business**

- 6.1 Project Co shall not engage in any business or activity other than the business or activities related to, and conducted for, the purpose of the Project Operations.

### **Project Co Parties**

- 6.2 Subject to the provision of Clause 30.1.7 (*Force Majeure*), Project Co shall not be relieved or excused of any responsibility, liability or obligation under this Agreement by the appointment of any Project Co Party. Project Co shall, as between itself and the Board, be responsible for the selection, pricing, performance, acts, defaults, omissions, breaches and negligence of all Project Co

Parties. All references in this Agreement to any act, default, omission, breach or negligence of Project Co shall be construed accordingly to include any such act, default, omission, breach or negligence of a Project Co Party.

### **Safety**

- 6.3 Project Co shall, in carrying out the Project Operations, have full regard for the safety of all persons on the Site, the Retained Site and/or Off-Site (whether lawfully or not) and keep the Site and/or Off-Site, the Works and the Facilities in an orderly state, appropriate in accordance with Good Industry Practice, to avoid danger to such persons.

## **7. BOARD'S DATA**

### **No liability**

- 7.1 Save where expressly provided otherwise pursuant to Clauses 10.3 to 10.5, (*Responsibility for Contamination*), the Board shall not be liable to Project Co for and Project Co shall not seek to recover from the Board (or from any Board Party) any damages, losses, costs, liabilities or expenses which may arise (whether in contract, delict or otherwise) from the adoption, use or application of the Disclosed Data by, or on behalf of, Project Co, the Independent Tester or any Project Co Party.

### **No warranty**

- 7.2 The Board gives no warranty or undertaking of whatever nature in respect of the Disclosed Data and, specifically (but without limitation), the Board does not warrant that the Disclosed Data represents all of the information in its possession or power (either during the conduct of the tender process for the Project or at the time of execution of this Agreement) relevant or material to or in connection with the Project or the obligations of Project Co under this Agreement or under any of the Project Documents. In addition, the Board shall not be liable to Project Co in respect of any failure to disclose or make available to Project Co (whether before, on or after the execution of this Agreement) any information, documents or data, nor any failure to review or to update the Disclosed Data, nor any failure to inform Project Co (whether before, on or after execution of this Agreement) of any inaccuracy, error, omission, defects or inadequacy in the Disclosed Data.

- 7.3 Project Co acknowledges and confirms that:

7.3.1 it has conducted its own analysis and review of the Disclosed Data and has, before the execution of this Agreement, satisfied itself as to the accuracy, completeness and fitness for purpose of any such Disclosed Data upon which it places reliance; and

7.3.2 save where expressly provided otherwise pursuant to Clauses 10.3 to 10.5 (*Responsibility for Contamination*), it shall not be entitled to and shall not (and shall procure that no Project Co Party shall) make any claim against the Board or any Board Party whether in contract, delict or otherwise including, without limitation, any claim in damages, for extensions of time or for additional payments under this Agreement on

the grounds:

- (a) of any misunderstanding or misapprehension in respect of the Disclosed Data; or
- (b) that incorrect or insufficient information relating to the Disclosed Data was given to it by any person, whether or not a Board Party,

nor shall Project Co be relieved from any obligation imposed on, or undertaken by it, under this Agreement on any such ground.

## 8. REPRESENTATIVES

### Representatives of the Board

- 8.1 The Board's Representative shall be Brian Currie or such other person appointed pursuant to this Clause. The Board's Representative shall exercise the functions and powers of the Board in relation to the Project Operations which are identified in this Agreement as functions or powers to be carried out by the Board's Representative. The Board's Representative shall also exercise such other functions and powers of the Board under this Agreement as may be notified to Project Co from time to time.
- 8.2 The Board's Representative shall be entitled at any time, by notice to Project Co, to authorise any other person to exercise the functions and powers of the Board delegated to him pursuant to this Clause, either generally or specifically. Any act of any such person shall, for the purposes of this Agreement, constitute an act of the Board's Representative and all references to the "**Board's Representative**" in this Agreement (apart from this Clause) shall be taken as references to such person so far as they concern matters within the scope of such person's authority.
- 8.3 The Board may by notice to Project Co change the Board's Representative. The Board shall (as far as practicable) consult with Project Co prior to the appointment of any replacement for the Board's Representative, taking account of the need for liaison and continuity in respect of the Project. Such change shall have effect on the date specified in the written notice (which date shall, other than in the case of emergency, be such date as will not cause material inconvenience to Project Co in the execution of its obligations under this Agreement).
- 8.4 During any period when no Board's Representative has been appointed (or when the Board's Representative is unable through illness, incapacity or any other reason whatsoever to carry out or exercise his functions under this Agreement) the Board shall carry out the functions which would otherwise be performed by the Board's Representative.
- 8.5 No act or omission of the Board, the Board's Representative or any officer, employee or other person engaged by the Board shall, except as otherwise expressly provided in this Agreement:
- 8.5.1 in any way relieve or absolve Project Co from, modify, or act as a

waiver or personal bar of, any liability, responsibility, obligation or duty under this Agreement; or

- 8.5.2 in the absence of an express order or authorisation under Schedule Part 16 (*Change Protocol*), constitute or authorise a Change.
- 8.6 Except as previously notified in writing before such act by the Board to Project Co, Project Co and Project Co's Representative shall be entitled to treat any act of the Board's Representative which is authorised by this Agreement as being expressly authorised by the Board and Project Co and Project Co's Representative shall not be required to determine whether an express authority has in fact been given.

### **Representative of Project Co**

- 8.7 Project Co's Representative shall be Wallace Weir or such other person appointed pursuant to Clause 8.8. Project Co's Representative shall have full authority to act on behalf of Project Co for all purposes of this Agreement. Except as previously notified in writing before such act by Project Co to the Board, the Board and the Board's Representative shall be entitled to treat any act of Project Co's Representative in connection with this Agreement as being expressly authorised by Project Co and the Board and the Board's Representative shall not be required to determine whether any express authority has in fact been given.
- 8.8 Project Co may by notice to the Board change Project Co's Representative. Where Project Co wishes to do so, it shall by written notice to the Board propose a substitute for approval, taking account of the need for liaison and continuity in respect of the Project. Such appointment shall be subject to the approval of the Board (not to be unreasonably withheld or delayed).
- 8.9 Project Co's Key Works Personnel are identified in Schedule Part 3 (*Key Works Personnel*). Project Co shall, as far as it is within Project Co's control, ensure that such persons retain their involvement in the Works and, in particular, will not, for the duration of the Works, require or request any of them to be involved in any other project on behalf of Project Co or any of the Shareholders or its or their Associated Companies if, in the reasonable opinion of the Board, this would adversely affect the Project.

### **Board Observer**

- 8.10 Project Co shall, subject to Clauses 8.11 to 8.13, ensure that the Board Observer:

8.10.1 is invited to attend all Project Co board meetings;

8.10.2 receives at or around the time that they are received by Project Co's board members) the agendas and supporting papers that are circulated to the board members in advance of the board meetings or tabled at the board meetings including, without prejudice to the foregoing generality, six-monthly management accounts, budgets and management reports (including explanations of material variances against budget) and the statutory accounts in respect of each financial year;

- 8.10.3 is permitted by Project Co to attend and participate (but not vote at) all Project Co board meetings; and
- 8.10.4 receives (at or around the same time as they are received by the board members) copies of the minutes of Project Co's board meetings and all other financial information relating to Project Co as any Director might reasonably require to keep himself properly informed about the activities of Project Co.
- 8.11 The Board Observer shall, unless otherwise determined by a board resolution in respect of any particular matter, be entitled to disclose any information received pursuant to Clause 8.10 subject to and in accordance with the provisions of Clause 61 (*Confidentiality*) and the Board shall procure that the individual appointed to fulfil such role executes suitable undertakings of confidentiality to comply with the terms of Clause 61 (*Confidentiality*).
- 8.12 Project Co, acting reasonably, shall be entitled to exclude the Board Observer from attending Project Co's board meetings and withhold the agendas and supporting papers referred to in Clause 8.10:
- 8.12.1 in the event that the Board Observer discloses information received pursuant to Clause 8.10 other than in accordance with Clause 8.11; or
- 8.12.2 where and for so long as the conduct of the Board Observer is inappropriate.
- 8.13 Project Co shall be entitled to exclude the Board Observer from attending any part of a Project Co board meeting at which:
- 8.13.1 the exercise or purported exercise of contractual rights by Project Co against the Board or by the Board against Project Co; or
- 8.13.2 any claims or potential claims by Project Co against the Board or by the Board against Project Co; or
- 8.13.3 any matter of interpretation of this Agreement,
- is discussed and shall be entitled to withhold from the Board any supporting papers and information to the extent that they relate to the matters listed in Clauses 8.13.1 to 8.13.3.

## 8A LITTLE FRANCE CAMPUS WORKING GROUP

- 8A.1 The Board, Consort and the University have established a working group to discuss operational Campus Site and Campus Facilities issues (the "**Little France Campus Working Group**").
- 8A.2 The Little France Campus Working Group shall be attended by the Little France Working Group Parties who shall be obliged to attend any meeting of the Little France Working Group during the Project Term.

- 8A.3 The functions of the Little France Campus Working Group shall be:
- 8A.3.1 to provide means for the review of day to day aspects of the health and safety issues relating to the Campus Site and the Campus Facilities;
  - 8A.3.2 to provide a forum for strategic discussion relating to where improvements could be made to facilitate improved health and safety arrangements within the Campus Site and the Campus Facilities; and
  - 8A.3.3 to monitor and review the Programme to ensure that correct health and safety procedures are adhered to.
- 8A.4 Project Co shall submit to the Board's Representative four (4) Business Days prior to the date of each meeting (except where a meeting is called in an emergency in which case a report will be provided as soon as reasonable in the circumstances) a safety programme, which shall include safety measures to be undertaken by Project Co up to the date of such meeting.
- 8A.5 The role of the Little France Campus Working Group is to make recommendations to the Little France Campus Working Group Parties, which they may accept or reject at their complete discretion. Neither the Little France Campus Working Group itself, nor the Little France Campus Working Group Parties acting in that capacity shall have the authority to vary the provisions of this Agreement or to make any decision which is binding on all of the Little France Campus Working Group Parties. Neither the Board nor Project Co shall rely on any act or omission of the Little France Campus Working Group, nor any Little France Campus Working Group Parties acting in that capacity, so as to give rise to any waiver or personal bar in respect of any right, benefit of obligation of either party.
- 8A.6 Project Co shall appoint and remove its relevant representative of the Little France Campus Working Group and/or alternative by written notice delivered to the Board. If such representative and/or alternate is unavailable to attend then Project Co must issue a report to the Board four (4) Business Days before the relevant meeting of the Little France Campus Working Group setting out any significant health and safety and/or risk management issues within the Site and/or Facilities since the previous meeting, together with the safety programme referred to in Clause 8A.4.

#### **Procedures and practices**

- 8A.7 Subject to the provisions of this Agreement, the Little France Campus Working Parties may adopt such procedures and practices for the conduct of the activities of the Little France Campus Working Group as they consider appropriate from time to time and:
- 8A.7.1 may invite to any meeting of the Little France Campus Working Group such other persons as the Little France Campus Working Group Parties may agree; and
  - 8A.7.2 receive and review a report from any person agreed by its members.
- 8A.8 The Little France Campus Working Group shall meet at least once each month (unless otherwise agreed by its members) and from time to time as necessary.
- 8A.9 Not Used
- 8A.10 Meetings of the Little France Campus Working Group shall be convened by any Little France Working Group Party on not less than seven (7) Business Days notice (identifying the agenda items to be discussed at the meeting) provided that in emergencies a meeting may be called at any time on such notice as may be reasonable in the circumstances.

- 8A.11 Where the Little France Campus Working Group decides it is appropriate, meetings may also be held by telephone or another form of telecommunication, by which each participant can hear and speak to all other participants at the same time.
- 8A.12 Minutes of all recommendations (including those made by telephone or other form of telecommunication) and meetings of the Little France Campus Working Group shall be kept by the Board and copies circulated promptly to the Little France Campus Working Group Parties, normally within five (5) Business Days of the making of the recommendation or the holding of the meeting. A full set of minutes shall be open to inspection by any party at any time, upon request.

## PART 2: LAND ISSUES

### 9. NATURE OF LAND INTERESTS

#### Access During Construction

- 9.1 From the Commencement Date until the Actual Completion Date or (if earlier) the Termination Date, the Board shall grant to Project Co and Project Co Parties, or procure that Project Co and the Project Co Parties are granted the Ancillary Rights set out in paragraphs 1 to 9 of Section 3 (*Ancillary Rights*) of Schedule Part 5 (*Land Matters*), in each case subject only to the Reserved Rights, the Title Conditions and the Board's rights under this Agreement and solely for the purposes of implementing the Works and carrying out Project Co's Pre-Completion Commissioning.

#### Access Following Construction

- 9.2 After the occurrence of the Actual Completion Date the Board shall grant to Project Co and Project Co Parties, or procure that Project Co and Project Co Parties are granted, the Ancillary Rights set out in paragraphs 1 and 10 of Section 3 (*Ancillary Rights*) of Schedule Part 5 (*Land Matters*) subject only to the Reserved Rights, the Title Conditions and the provisions of this Agreement and solely for the purposes of:

9.2.1 carrying out the Project Operations (other than those Project Operations for which Project Co is granted rights pursuant to Clause 9.1 (*Access During Construction*));

9.2.2 remedying Defects and carrying out Snagging Matters and exercising its rights under Clause 23.15 (*Board's Maintenance Obligations*); and

9.2.3 Not Used.

Such rights shall terminate on the Expiry Date or (if earlier) the Termination Date.

#### Extent of Rights

- 9.3 The rights referred to at Clauses 9.1 (*Access During Construction*) and 9.2 (*Access*

*Following Construction*) shall not operate or be deemed to operate as a lease of the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site or any part of the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site and Project Co shall not have or be entitled to exclusive possession (save to the extent expressly included within the Ancillary Rights) or any estate, right, title or interest in and to the Facilities, the Retained Estate Handback Infrastructure, the Site or Off-Site except as provided herein and shall occupy the Site as a licensee only.

9.4 The rights referred to at Clause 9.1 (*Access During Construction*) and Clause 9.2 (*Access Following Construction*) are personal to Project Co and the Project Co Parties.

9.5 Project Co shall procure that:

9.5.1 all Project Operations carried out at the Site or Off-Site by or on behalf of Project Co (whether before, during or after the completion of the Works) shall be carried out in a manner which does not breach any of the Title Conditions and/or the Reserved Rights; and

9.5.2 there shall be no action, or omission to act by Project Co or a Project Co Party, which shall give rise to a right for any person to obtain title to the Site and/or Off-Site or any part of it.

9.6 Notwithstanding the terms of Clauses 9.1 and 9.2 or any other rights granted under this Agreement, the Board shall (if it is the heritable proprietor of the Site or Off-Site), or (if it is not the heritable proprietor of the Site or Off-Site) shall procure that the heritable proprietor of the Site and/or Off-Site shall, enter into such wayleaves, deeds of servitude or other similar agreements with any third party that Project Co or any Project Co Party may require to be granted in favour of or by any third party, in order to exercise its rights or perform its obligations under this Agreement. The Board shall enter into (or, where appropriate, shall procure that the heritable proprietor of the Site and/or Off-Site shall enter into) any such wayleave, deed of servitude or other similar agreement, as soon as reasonably practicable after Project Co has provided to the Board all relevant information in connection therewith provided always that Project Co has obtained at its own cost the prior agreement of the third party in terms acceptable to the Board (acting reasonably). Project Co shall reimburse the Board for all costs and expenses reasonably and properly incurred by the Board (and/or the heritable proprietor of the Site and/or Off-Site) in connection with entering into such wayleaves, deeds of servitude or other similar agreements at the request of Project Co. Provided that the Board shall have no obligations in terms of this Clause 9.6 in relation to any land or interest in land which is procured by Project Co for the purpose of locating any electricity sub-station, or any ancillary apparatus or cabling to serve such sub-station if such land does not form part of (i) the Site or (ii) limb (a) or (b) of the definition of Off-Site.

## 10. THE SITE AND OFF-SITE

10.1 Subject to Clauses 10.3 and 10.4, the condition of the Site shall be the sole responsibility of Project Co and the condition of the Off-Site shall be the responsibility of Project Co when carrying out the Project Operations and to the extent that the condition of the Off-Site is affected by such Project Operations. Accordingly (without prejudice to any other obligation of Project Co under this Agreement), Project Co shall be deemed to have:

- 10.1.1 reviewed and taken cognisance of the Ground Physical and Geophysical Investigation and the Petrol Station Site Contamination Investigation and to have inspected and examined the Site and Off-Site and its surroundings and (where applicable) any existing structures or works on, over or under the Site and Off-Site;
- 10.1.2 satisfied itself as to the nature of the Site Conditions and Off-Site Conditions, the ground and the subsoil, the form and nature of the Site and Off-Site, the load bearing and other relevant properties of the Site and Off-Site, the risk of injury or damage to property affecting the Site and Off-Site, the nature of the materials (whether natural or otherwise) to be excavated and the nature of the design, work and materials in each case, necessary for the execution of the Works;
- 10.1.3 satisfied itself as to the extent and adequacy of the Site and Off-Site and of the rights of access to and from and through the Site and Off-Site granted hereunder and any accommodation it may require for the purposes of fulfilling its obligations under this Agreement (such as additional land or buildings outside the Site) without prejudice to Project Co's rights under this Agreement in respect of a breach by the Board of its obligations under Clause 9.1 and/or Clause 9.2;
- 10.1.4 satisfied itself as to the reasonable precautions, times and methods of working necessary to prevent any nuisance or interference, whether public or private, being caused to any third parties including without limitation Consort, Consort Parties, the University and any University Parties; and
- 10.1.5 satisfied itself as to the conditions, burdens, restrictions and reservations set out in the Title Conditions and the Reserved Rights.
- 10.2 Subject to Clause 10.3, to avoid doubt, Project Co accepts full responsibility for all matters referred to in Clause 10.1 and Project Co shall:
- 10.2.1 not be entitled to make any claim against the Board of any nature whatsoever save, if applicable, as expressly provided in Clause 29 (*Delay Events*), on any grounds including (without limitation) the fact that incorrect or insufficient information on any matter relating to the Site and Off-Site was given to it by any person, whether or not the Board or a Board Party;
- 10.2.2 be responsible for, and hold the Board harmless from, (1) cleaning up and/or otherwise dealing with any Contamination at the Site and Off-Site and (2) that it shall at all times comply with its obligations under this Agreement including (without limitation) complying with, at its own cost, any applicable Laws and any Consents, orders, notices or directions of any regulatory body (whether made against the Board or Project Co).

### **Responsibility for Contamination**

- 10.3 Notwithstanding the terms of Clause 10.2, and subject to Clause 10.5 below, save to the extent that Project Co has a valid legal claim for breach of duty of care and

or negligence against the provider of the Ground Physical and Geophysical Investigations and/or the Petrol Station Site Contamination Investigation in respect of its loss the Board shall be responsible for:

- 10.3.1 Relevant Petrol Station Site Contamination; and
- 10.3.2 any Contamination arising after the Commencement Date caused by the Board or a Board Party, whether directly or indirectly, at the Site or Off-Site.

If the Board is responsible for such Contamination under this Clause 10.3, the provisions of Clause 10.4 shall apply.

- 10.4 Where pursuant to Clause 10.3 the Board is responsible for any Contamination then the following provisions shall apply:
  - 10.4.1 during the Construction Phase any such matter shall be deemed to be a Compensation Event for the purposes of this Agreement;
  - 10.4.2 where such matter arises during the Operational Term it shall, for the avoidance of doubt, be deemed to be an Excusing Cause for the purposes of Clause 51 (*Excusing Cause*);
  - 10.4.3 where such matter arises during the Operational Term and any work or change to the Services is required or instructed to be done in consequence to it, it shall be deemed to be a Qualifying Change; and
  - 10.4.4 where any such matter is Contamination (whether during the Construction Phase and/or Operational Term) the Board shall further hold Project Co harmless from cleaning up and otherwise dealing with the Contamination and shall indemnify Project Co in respect of all Direct Losses incurred by Project Co resulting from such Contamination.
- 10.5 The Board shall be responsible for any loss suffered by Project Co in accordance with Clause 10.4 as a result of any Contamination under Clause 10.3 which exceeds the liability caps of the provider of the Ground Physical and Geophysical Investigations and/or the Petrol Station Site Contamination Investigation under their relevant contracts or which cannot be recovered by Project Co due to such provider being insolvent.

## 11. CONSENTS & PLANNING APPROVAL

- 11.1 Subject to Clause 11.3, Project Co shall be responsible for:
  - 11.1.1 obtaining all Consents which may be required for the performance of the Project Operations; and
  - 11.1.2 implementing each Consent within the period of its validity in accordance with its terms.

11.2 In the event that:

11.2.1 a Consent that has been granted is subsequently amended, repealed, revoked or otherwise ceases to be in full force and effect in accordance with its terms as a consequence of any action by a Relevant Authority;

11.2.2 affected persons are entitled to claim compensation for the adverse effects of such action under a statutory scheme of compensation; and

11.2.3 Project Co is not entitled in its own name to claim under that scheme but the Board is so entitled

the Board must use all reasonable endeavours, at the request and at the cost of Project Co, to claim or to include within its claim such sums as Project Co acting reasonably requests and shall pay to Project Co the part of any compensation that it receives under that scheme that relates to the sums claimed at the request of Project Co.

#### **Board's Consents and Planning Obligations**

11.3 Each party shall implement and satisfy each of the conditions and reserved matters of the Planning Approval in respect of which responsibility for the same has been allocated to it by the table set out in Part 1 (*Planning Condition Responsibilities*) of Schedule Part 29 (*Planning*).

### PART 3: DESIGN AND CONSTRUCTION

## 12. THE DESIGN CONSTRUCTION AND COMMISSIONING PROCESS

### Overall Responsibility

- 12.1 Project Co shall carry out the Works:
- 12.1.1 so as to procure satisfaction of the Board's Construction Requirements;
  - 12.1.2 in accordance with Project Co's Proposals; and
  - 12.1.3 in accordance with the terms of this Agreement.
- 12.2 To avoid doubt, the obligations in Clauses 12.1.1, 12.1.2 and 12.1.3 are independent obligations. In particular:
- 12.2.1 the fact that Project Co has complied with Project Co's Proposals shall not be a defence to an allegation that Project Co has not satisfied the Board's Construction Requirements; and
  - 12.2.2 the fact that Project Co has satisfied the Board's Construction Requirements shall not be a defence to an allegation that Project Co has failed to comply with Project Co's Proposals.

### Design responsibility

- 12.3 Project Co warrants that it has used, and will continue to use, the degree of skill and care in the design of the Facilities and the Retained Estate Handback Infrastructure that would reasonably be expected of a competent professional designer experienced in carrying out design activities of a similar nature, scope and complexity to those comprised in the Works.

### Corporate Identity and Signage

- 12.4 The parties acknowledge that the Board may, from time to time during the Construction Phase, be required to procure the erection of hoarding, site boards, plaques and/or other signage in connection with the Project. Accordingly:
- 12.4.1 where requested by the Board (acting reasonably), Project Co shall procure the erection and maintenance of such hoarding, site boards, plaques and/or other signage as the Board may require; and
  - 12.4.2 the size, design, information disclosed, position and materials used in connection with such hoarding, site boards, plaques or other signage

shall be approved by the Board, such approval not to be unreasonably withheld; and

- 12.4.3 for the purposes of this Clause 12.4 (*Corporate Identity and Signage*), the Board shall be deemed to be acting reasonably where any proposals made by it and/or any approvals exercised by it conform with any relevant guidance issued to NHS Boards by the Scottish Government Health Directorate (or any successor Directorate) in relation to such matters whether by Executive Letter or otherwise.

### **Board design approval**

- 12.5 The Board confirms that, as at the date of this Agreement, it has reviewed such of Project Co's Proposals as have been initialled by the Board and that, subject to any qualifications and/or comments notified by the Board to Project Co in writing and set out in Section 9 (*Board's Qualification/Comments in respect of Operational Functionality requirements*) of Schedule Part 6 (*Construction Matters*) such proposals satisfy the Board's requirements in respect of Operational Functionality, so far as can reasonably be determined given the level of detail of Design Data which has been disclosed to the Board.

- 12.6 Project Co shall develop and finalise the design and specification of the Works and the Board shall review the Reviewable Design Data in accordance with Schedule Part 8 (*Review Procedure*) and the provisions of this Clause 12.6:

- 12.6.1 Project Co shall submit the Reviewable Design Data and the design of any Changes developed in accordance with the procedure set out in Schedule Part 16 (*Change Protocol*) to the Board's Representative for review under Schedule Part 8 (*Review Procedure*). Project Co shall not commence or permit the commencement of construction of the part or parts of the Facilities and/or Retained Estate Handback Infrastructure to which such Reviewable Design Data relates until it has submitted the appropriate Reviewable Design Data and either it is confirmed by the Board's Representative that Project Co is entitled to proceed with construction in accordance with paragraph 3.3 of Schedule Part 8 (*Review Procedure*) or Project Co is:

- (a) disputing the status of such Reviewable Design Data pursuant to paragraph 1.3.1 or paragraph 4.3 of Schedule Part 8 (*Review Procedure*); and
- (b) proceeding at risk pursuant to paragraph 1.3.2 of Schedule Part 8 (*Review Procedure*).

- 12.6.2 with effect from the date at which any item of Reviewable Design Data is or becomes an Approved RDD Item in accordance with Schedule Part 8 (*Review Procedure*), such Approved RDD Item shall for the purposes of this Agreement be deemed to have satisfied the requirements of the Board in the manner and to the extent set out in, Table A in Appendix 1 of Schedule Part 8 (*Review Procedure*);

- 12.6.3 Project Co shall allow the Board's Representative, at any time, a reasonable opportunity to view any items of Design Data, which shall

be made available to the Board's Representative as soon as practicable following receipt of any written request from the Board's Representative; and

- 12.6.4 Project Co shall procure that the Contractor establishes and maintains a computerised design database which Project Co and the Board's Representative may access remotely by computer to view drawings comprised within the Design Data (including Reviewable Design Data) and electronically store and/or print copies of such Design Data. In the event of the Board's Representative being unable to access such design database, Project Co shall procure that it is made available for inspection by the Board's Representative, or any other person authorised by the Board's Representative.

### **Rectification of Project Co's Proposals**

- 12.7 Without prejudice to Clause 12.1, if it should be found that Project Co's Proposals do not fulfil the Board's Construction Requirements, Project Co shall at its own expense, and in accordance with Clause 12.8 below, amend Project Co's Proposals and rectify the Works or any part affected. Such amendment and rectification shall have the effect that:

- 12.7.1 Project Co's Proposals shall satisfy the Board's Construction Requirements; and

- 12.7.2 following the amendment or rectification, the structural, mechanical and electrical performance of the Facilities and/or Retained Estate Handback Infrastructure will be of an equivalent standard of performance to that set out in Project Co's Proposals prior to their amendment or rectification (for the purpose of this comparison disregarding the fault which required the amendment or rectification to be made).

- 12.8 Where Clause 12.7 applies, Project Co shall submit its proposal for amending Project Co's Proposals and rectifying the Works (or any part affected) to the Board's Representative for review under Schedule Part 8 (*Review Procedure*) and shall not amend Project Co's Proposals or commence or allow the commencement of the rectification of the Works (or any part affected) until it is permitted to proceed in accordance with Schedule Part 8 (*Review Procedure*).

### **Construction Skills Certification Scheme**

- 12.9 Project Co shall ensure that all persons engaged in carrying out the Works (or part thereof) on the Site and/or Off Site are accredited under the Construction Skills Certification Scheme or an equivalent scheme and where Project Co enters into a sub-contract for the purposes of carrying out the Works Project Co shall cause a term to be included in such sub-contract:

- 12.9.1 which requires the sub-contractor to ensure that such persons are accredited under the Construction Skills Certification Scheme or an equivalent scheme; and

- 12.9.2 in the same terms as that set out in this Clause 12.9 (including for the avoidance of doubt this Clause 12.9.2) subject only to modification to

refer to the correct designation of the equivalent party as Project Co and the sub-contractor as the case may be.

### 13. RIGHT OF ACCESS OF BOARD'S REPRESENTATIVE

#### Access to the Site and Off-Site

13.1 Without prejudice to Clause 9 (*Nature of Land Interests*), Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the Interface Proposals, Project Co shall procure that:

13.1.1 subject to complying with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure, the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time, the Board's Representative and any other parties authorised by the Board's Representative to accompany the Board's Representative shall have unrestricted access at all reasonable times during normal working hours to:

(a) view the Works at the Site and Off-Site on reasonable prior notice appropriate to the circumstances, provided that the notice procedures in this Clause 13.1.1(a) shall not apply to the right of access for the Board's Representative and his staff and visitors to the office and other facilities provided at the Site and Off-Site for his use; and

(b) subject to obtaining the consent of the relevant manufacturer or supplier (which Project Co agrees to use all reasonable endeavours to obtain), visit any site or workshop where materials, plant or equipment are being manufactured, prepared or stored for use in the Works for the purposes of general inspection and of attending any test or investigation being carried out in respect of the Works;

13.1.2 the Board's Representative shall have such rights of access to the Site and/or Off-Site in an emergency as he (acting reasonably) considers suitable in the circumstances; and

13.1.3 monthly progress meetings and site meetings are held and that the Board's Representative shall have the right to attend such monthly progress meetings and site meetings and to attend such other meetings as the Board's Representative may reasonably request.

#### Increased monitoring

13.2 If, following any viewing, visit or inspection made pursuant to Clause 13.1.1, it is discovered that there are defects in the Works or that Project Co has failed to comply with the Board's Construction Requirements or Project Co's Proposals, the Board's Representative may (without prejudice to any other right or remedy available to the Board) by notice to Project Co increase the level of monitoring of

Project Co until such time as Project Co shall have demonstrated to the satisfaction of the Board that it is capable of performing and will perform all its obligations to the Board under this Agreement. Project Co shall compensate the Board for any reasonable additional costs incurred as a result of such increased monitoring.

### **Right to Open Up**

- 13.3 Subject to Clause 13.4, the Board's Representative shall have the right at any time prior to the Actual Completion Date to request Project Co to open up and inspect any part or parts of the Works where the Board's Representative reasonably believes that such part or parts of the Works is or are defective and Project Co shall comply with such request.
- 13.4 Prior to exercising his right pursuant to Clause 13.3 above, the Board's Representative shall notify Project Co of his intention to exercise such right, setting out detailed reasons.
- 13.5 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the inspection shows that the relevant part or parts of the Works are not defective then Clause 29.3.4 (*Delay Events*) shall apply.
- 13.6 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the inspection shows that the relevant part or parts of the Works is or are defective, Project Co shall rectify and make good such Defect(s) and any consequence of such rectification and/or making good Defect(s) shall be carried out by Project Co at no cost to the Board and Project Co shall not be entitled to any extension of time in relation to such rectification and making good of the Works.
- 13.7 If, following the exercise by the Board's Representative of his right pursuant to Clause 13.3, the Board's Representative is of the opinion that the inspection shows that the relevant part or parts of the Works is or are defective and Project Co does not agree with such opinion, the matter shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).
- 13.8 Without prejudice to the rights of the Board's Representative pursuant to this Clause 13 (*Right of Access of Board's Representative*) the parties acknowledge that the exercise of such rights shall not in any way affect the obligations of Project Co under this Agreement save as expressly set out in this Clause 13 (*Right of Access of Board's Representative*).

### **Safety during Construction**

- 13.9 The provisions of Section 2 (*Safety During Construction*) of Schedule Part 6 (*Construction Matters*) shall apply to matters of safety.

### **13A BOARD'S RIGHT TO STOP PROJECT OPERATIONS DURING THE PROJECT TERM**

- 13A.1 The Board's Representative shall have the right at any time during the Project

Term to verbally or in writing instruct Project Co to stop the relevant part or parts of the Project Operations and to allow him to inspect the relevant part or parts of the Project Operations if:

- 13A.1.1 the Board's Representative reasonably believes a Stop Incident has occurred.
  - 13A.1.2 the Board's Representative reasonably believes that the carrying out of the relevant part or parts of the Project Operations has or is likely to have a potentially adverse impact upon the Clinical Services at the Facilities and/or the clinical services at the RIE Facilities; or
  - 13A.1.3 there is an occurrence of a Major Incident during the Construction Phase.
- 13A.2 In the event that Project Co receives an instruction from the Board's Representative to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1, then Project Co shall immediately stop the relevant part or parts of the Project Operations until such time as:
- 13A.2.1 in the case of Clause 13A.1.1, Project Co has confirmed to the Board its proposals for ensuring that the relevant breach is remedied and that Project Co is able to re-start the relevant part or parts of Project Operations in accordance with such proposals as soon possible, provided that the Board's Representative is satisfied (acting reasonably) with such proposals;
  - 13A.2.2 in any case pursuant to Clause 13A.1, Project Co receives an instruction from the Board's Representative pursuant to Clause 13A.6 below to re-start the relevant part or parts of the Project Operations as soon as possible.
- 13A.3 If following the exercise by the Board's Representative of his right to stop the relevant part or parts of the Project Operations pursuant to:
- 13A.3.1 Clause 13A.1.1, it is agreed or determined under the Dispute Resolution Procedure that the breach which the Board's Representative considers has given rise to a Stop Incident has not occurred, then Clause 29.3.9 (*Delay Events*) shall apply;
  - 13A.3.2 Clause 13A.1.2, then Clause 29.3.10 (*Delay Events*) shall apply;
  - 13A.3.3 Clause 13A.1.3, then Clause 29.3.11 (*Delay Events*) shall apply.
- 13A.4 If following the exercise by the Board's Representative of his rights pursuant to Clause 13A.1.1, the inspection shows that one or more Stop Incident(s) have occurred, Project Co shall rectify and make good such Stop Incident(s) and any consequence of such rectification and/or making good such Stop Incident(s) shall be carried out by Project Co at no cost to the Board and Project Co shall not be entitled to any extension of time in relation to such rectification and making good of such Stop Incident(s).

- 13A.5 If following the exercise by the Board's Representative of his right pursuant to Clause 13A.1.1 the Board's Representative is of the opinion that the inspection shows that one or more Stop Incident(s) have occurred and Project Co does not agree with such opinion, the matter shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).
- 13A.6 Without prejudice to Clause 13A.7, following the exercise of the Board's Representative of his rights pursuant to Clause 13A.1, the Board's Representative shall have the right to instruct Project Co to re-start the relevant part or parts of the Project Operations.
- 13A.7 Without prejudice to the rights of the Board's Representative pursuant to this Clause 13A (*Board's right to stop Project Operations during the Project Term*) the parties acknowledge that the exercise of such rights shall not in any way affect the obligations of Project Co under this Agreement save as expressly set out in this Clause 13A (*Board's right to stop Project Operations during the Project Term*).
- 13A.8 The Board's Representative shall provide Project Co with written reasons for any verbal instruction (or for any written instruction where such written instruction did not contain written reasons) to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1 within three (3) Business Days of any such verbal instruction.
- 13A.9 Project Co shall maintain an up-to-date Stop Log Book for each instruction of the Board's Representative to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1, which shall set out:
- 13A.9.1 the date and time when the Board's Representative issued a verbal or written instruction to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1 and the date and time when the relevant part or parts of the Project Operations were re-started by Project Co pursuant to Clause 13A.2;
- 13A.9.2 the written reasons of the Board's Representative in respect of any instruction to stop the relevant part or parts of the Project Operations, together with the reasons of Project Co for re-starting the relevant part or parts of the Project Operations, with such Stop Log Book being updated by Project Co within three (3) Business Days of receipt of the Board's Representative's written reasons pursuant to Clause 13A.8;
- 13A.10 The Board's Representative shall be able to access the Stop Log Book upon written request to Project Co, and Project Co shall provide such access to the Board within three (3) Business Days of receipt of any such request.

## **14. PROGRAMME AND DATES FOR COMPLETION**

### **Dates for Completion**

- 14.1 Project Co shall complete the Works by the Completion Date. Without prejudice to Clause 40 (*Project Co Event of Default*), 42 (*Board Voluntary Termination*), 46 (*Compensation on Termination*) and 47 (*Consequences of Termination*) the Board shall not be entitled to claim liquidated or general damages in respect of any delay

which elapses between the Completion Date and the Actual Completion Date.

### **The Programme**

- 14.2 Any Programme submitted in accordance with the provisions set out below shall be prepared in accordance with Good Industry Practice and shall be in sufficient detail so as to enable the Board's Representative to monitor the progress including all commissioning activities and likely future progress of the Works.
- 14.3 The initial Programme is set out at Schedule Part 7 (*The Programme*). Any change to the Programme shall only be made in accordance with this Clause 14 (*Programme and Dates for Completion*) and Schedule Part 8 (*Review Procedure*). Project Co shall promptly submit to the Board's Representative a copy of any version of the Programme varied in accordance with this Clause 14 (*Programme and dates for Completion*) and Schedule Part 8 (*Review Procedure*).
- 14.4 If it appears to the Board's Representative at any time that the actual progress of the Works has significantly fallen behind the Programme, then the Board's Representative shall be entitled to require Project Co to submit to the Board's Representative a report identifying the reasons for the delay and, unless the event causing the delay is still subsisting and it is not possible to predict with any certainty when the delay might come to an end, require Project Co (at the Board's option):
- 14.4.1 to produce and submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a revised Programme showing the manner and the periods in which the Works will be carried out to ensure completion; and/or
- 14.4.2 to produce and submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a revised Programme showing the steps which are to be taken to eliminate or reduce the delay.

### **Early completion**

- 14.5 Notwithstanding that the Works may have been completed in accordance with this Agreement, the Actual Completion Date may only occur on a date on or after the Completion Date unless the Board, in its absolute discretion, agrees otherwise in writing.
- 14.6 Not Used.

## **15. INDEPENDENT TESTER**

### **Appointment**

- 15.1 The parties have on or prior to the date of this Agreement, in compliance with all Law relating to procurement which is applicable to either party, appointed a suitably qualified and experienced consultant to act as the Independent Tester for the

purposes of this Agreement upon the terms of the Independent Tester Contract.

### **Changes to terms of appointment**

- 15.2 Neither the Board nor Project Co shall without the other's prior written approval (not to be unreasonably withheld or delayed):
- 15.2.1 terminate, repudiate or discharge the Independent Tester Contract or treat the same as having been terminated, repudiated or otherwise discharged;
  - 15.2.2 waive, settle, compromise or otherwise prejudice any rights or claims which the other may from time to time have against the Independent Tester; or
  - 15.2.3 vary the terms of the Independent Tester Contract or the service performed or to be performed by the Independent Tester.
- 15.3 The parties shall comply with and fulfil their respective duties and obligations arising under or in connection with the Independent Tester Contract.

### **Co-operation**

- 15.4 The parties agree to co-operate with each other generally in relation to all matters within the scope of or in connection with the Independent Tester Contract. All instructions and representations issued or made by either of the parties to the Independent Tester shall be simultaneously copied to the other and both parties shall be entitled to attend all inspections undertaken by or meetings involving the Independent Tester.

### **Replacement**

- 15.5 If the Independent Tester's appointment is terminated otherwise than for full performance, the parties shall liaise and co-operate with each other in order to appoint, in accordance with this Clause 15.5, a replacement consultant to act as the Independent Tester as soon as reasonably practicable. The identity of any such replacement shall be as agreed by the parties and the terms of his appointment shall, unless otherwise agreed, be as set out in the Independent Tester Contract.
- 15.6 If the parties fail to agree the identity and/or terms of a replacement Independent Tester in accordance with Clause 15.5 within ten (10) Business Days of the original Independent Tester's appointment being terminated then such disagreement shall be referred for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

## **16. EQUIPMENT**

Project Co and the Board each shall comply with their respective obligations set out in

Schedule Part 11 (*Equipment*) in respect of Equipment.

## 17. PRE-COMPLETION COMMISSIONING AND COMPLETION

- 17.1 Not less than nine (9) months before the Completion Date, the Board shall provide Project Co with a draft of the Final Commissioning Programme as jointly developed by the Board and Project Co in accordance with the provisions of Clause 17.2 and 17.3. Project Co shall provide the Board with comments on the draft Final Commissioning Programme submitted to it within fifteen (15) Business Days. The parties shall, within fifteen (15) Business Days of receipt by the Board of Project Co's comments agree the terms of the Final Commissioning Programme provided that the Board may by prior notice to Project Co change the scope and time of the Board's Commissioning and reimburse Project Co its reasonable costs incurred as a result of such change in scope or time. If the parties are unable to agree the Final Commissioning Programme or the change in scope or time of the Board's Commissioning by three (3) months, the matter shall be referred for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).
- 17.2 The Final Commissioning Programme shall be in accordance with the Outline Commissioning Programme and shall impose no greater or more onerous obligations on the Board than those set out in the Outline Commissioning Programme (unless otherwise agreed by the Board in its absolute discretion). The Final Commissioning Programme shall then replace the Outline Commissioning Programme.
- 17.3 The Final Commissioning Programme shall describe the steps necessary, the party responsible for taking each of such steps and the timing and sequence of each of such steps to ensure:
- 17.3.1 that Project Co's Pre-Completion Commissioning and the Board's Commissioning will not delay the Actual Completion Date from occurring by the Completion Date; and
- 17.3.2 that Project Co's Post Completion Commissioning and the Board's Post Completion Commissioning are completed by the Commissioning End Date.
- 17.4 The parties shall procure that the steps that they are responsible for carrying out and completing pursuant to the Final Commissioning Programme include, in the case of Project Co's activities, the activities described at paragraph 4.5.17 (*Completion Requirements*) of the Board's Construction Requirements.
- 17.5 Project Co shall notify the Independent Tester and the Board's Representative of the date when Project Co (acting reasonably) considers that the Works will be complete in accordance with the Board's Construction Requirements, the Completion Criteria and this Agreement not less than three (3) months prior to such anticipated completion. Such notification shall trigger the activities of the Independent Tester under this Clause.
- 17.6 The parties each undertake to co-operate with the Independent Tester to ensure that the Independent Tester is familiar with all necessary aspects of the Project for the purposes of its role as described in this Clause.

**Commissioning prior to Completion Date**

- 17.7 Project Co shall:
- 17.7.1 undertake Project Co's Pre-Completion Commissioning in accordance with the Final Commissioning Programme; and
  - 17.7.2 permit the Board to undertake the Board's Commissioning including permitting specialist contractors engaged by the Board to deliver and install equipment on such dates as agreed between the Board and Project Co, in accordance with the Final Commissioning Programme

and the Board shall undertake the Board's Commissioning in accordance with the Final Commissioning Programme and so as not to cause material damage to the Works.

- 17.8 Project Co shall give written notice to the Independent Tester and the Board of the commencement of Project Co's Pre-Completion Commissioning and shall ensure that the Independent Tester and the Board's Representative are invited to witness all of, and are provided with all information they may reasonably require in relation to, Project Co's Pre-Completion Commissioning and that the Independent Tester is invited to comment on Project Co's Pre-Completion Commissioning.
- 17.9 Project Co shall (or shall procure that the Contractor shall), give the Board access to the Facilities and the Retained Estate Handback Infrastructure at such times as may be set out in the Final Commissioning Programme to enable the Board to undertake the Board's Commissioning in accordance with the Final Commissioning Programme for the period prior to completion. When exercising such rights the Board shall comply with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure, the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time.

**Pre-Completion inspection**

- 17.10 Without prejudice to the notice periods in respect of the Works which are set out in Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) in respect of which notice of completion is to be given by Project Co, Project Co shall in addition give the Independent Tester and the Board's Representative not less than twenty (20) Business Days notice and not more than thirty (30) Business Days notice of the date upon which Project Co considers that the Works will be complete and the tests on completion required to be performed in accordance with the Final Commissioning Programme will be carried out. Following receipt of the notice specified in this Clause 17.10 (*Pre-Completion Inspection*) the Board's Representative and the Independent Tester shall be entitled to inspect the Works on the date or dates reasonably specified by Project Co in accordance with this Clause 17.10 (*Pre-Completion Inspection*), and to attend any of the tests on completion. Project Co shall, if so requested, accompany the Board's Representative and the Independent Tester on any such inspection.

**Pre-Completion matters**

- 17.11 The parties shall procure that the Independent Tester, within five (5) Business Days of any inspection made pursuant to Clause 17.10 (*Pre-Completion Inspection*), notifies Project Co and the Board of any outstanding matters (including, without limitation, the repetition of any of the tests on completion which are required to be carried out and passed in accordance with the Final Commissioning Programme) which are required to be attended to before the Works can be considered to be complete in accordance with the Board's Construction Requirements, Project Co's Proposals and the Completion Criteria. Project Co shall attend to such matters and shall, if necessary, give the Independent Tester further notices in accordance with Clause 17.10 (*Pre-Completion Inspection*) (but dealing only with matters raised in the notification under this Clause 17.11 (*Pre-Completion Matters*)) so that the procedures in Clause 17.10 (*Pre-Completion Inspection*) and this Clause 17.11 (*Pre-Completion Matters*) are repeated as often as may be necessary to ensure that all outstanding matters in relation to the Works are attended to.

### **Completion Certificate**

- 17.12 Pursuant to the terms of the Independent Tester Contract, the parties shall procure that the Independent Tester, when he is satisfied that the Facilities and the Retained Estate Handback Infrastructure are complete in accordance with the Completion Criteria, issues a Certificate of Practical Completion to that effect to the Board and to Project Co.
- 17.13 Without prejudice to Clauses 17.14 and 17.17, the issue of the Certificate of Practical Completion shall, in the absence of manifest error, bad faith or fraud, be conclusive evidence (but only for the purpose of ascertaining the Payment Commencement Date), that the Facilities and the Retained Estate Handback Infrastructure were complete in accordance with the Completion Criteria on the date stated in the Certificate of Practical Completion.
- 17.14 The Independent Tester shall issue the Certificate of Practical Completion notwithstanding that there are Snagging Matters. Where there are Snagging Matters, the parties shall procure that the Independent Tester shall, within ten (10) Business Days of the date of issue of the Certificate of Practical Completion, issue a Snagging Notice which shall specify the Snagging Matters and an estimate of the cost of rectifying such Snagging Matters.
- 17.15 Following the issue of a Snagging Notice, Project Co shall, in consultation with the Board's Representative and in such manner as to cause as little disruption as reasonably practicable to the Board's Post Completion Commissioning and the Board's use of the Facilities and the Retained Estate Handback Infrastructure and the Retained Estate, rectify all Snagging Matters within ten (10) Business Days of the issue of the Snagging Notice.
- 17.16 If, within ten (10) Business Days of the issue of the Snagging Notice, Project Co has failed to rectify the Snagging Matters specified in the Snagging Notice the Board may by itself (or engage others to) carry out the works necessary to rectify the Snagging Matters, at the risk and cost of Project Co.
- 17.17 The issue of the Certificate of Practical Completion shall in no way affect the obligations of Project Co under this Agreement including in respect of any Defects.

### **As-built specification**

- 17.18 Within ten (10) Business Days, after the issue of the Certificate of Practical Completion, Project Co shall provide to the Board three (3) hard copies and one (1) electronic copy of the as-built building specification, together with all drawings relating to the Works.

## **18. POST COMPLETION COMMISSIONING**

### **Commissioning**

- 18.1 Project Co and the Board shall respectively undertake and complete Project Co's Post-Completion Commissioning and the Board's Post Completion Commissioning, in accordance with the Final Commissioning Programme. Both parties shall, at all times, and in particular in the period between the Actual Completion Date and the Actual Commissioning End Date, use reasonable endeavours to assist the other party to ensure compliance with the Final Commissioning Programme.

### **Information**

- 18.2 Project Co shall ensure that the Board's Representative is provided with all the information he may reasonably require in relation to Project Co's Post-Completion Commissioning and the Board shall ensure that Project Co is provided with all information Project Co may reasonably require in relation to the Board's Post Completion Commissioning.
- 18.3 If the Board's Representative, acting reasonably, makes any comment in relation to the carrying out of Project Co's Post-Completion Commissioning, such comments shall be taken into account by Project Co and if Project Co, acting reasonably, makes any comment in relation to the carrying out of the Board's Post Completion Commissioning, such comment shall be taken into account by the Board.
- 18.4 On the completion of Project Co's Post-Completion Commissioning and the Board's Post Completion Commissioning the Independent Tester shall issue the Commissioning Completion Certificate.

### **Operational Manuals**

- 18.5 Project Co shall make available on the Site to the Board's Representative:
- 18.5.1 at least twenty four (24) weeks prior to the anticipated Actual Completion Date, one (1) electronic copy and three (3) hard copies of a draft operation and maintenance manual in sufficient detail to allow the Board to plan for the safe and efficient operation of the Facilities and the Retained Estate Handback Infrastructure;
- 18.5.2 on or before the Actual Completion Date one (1) electronic copy and three (3) hard copies of a final draft operation and maintenance manual in sufficient detail to allow the Board to operate and use the Facilities and the Retained Estate Handback Infrastructure safely and efficiently;

18.5.3 within ten (10) Business Days following the Actual Completion Date, the principal operation and maintenance manual;

in each case including all manufacturers' instructions relating to Equipment installed by or on behalf of Project Co.

18.6 Project Co shall provide to the Board such information after the Actual Completion Date as relates to any Snagging Matters or rectification of Defect as is reasonably necessary to allow for the updating of any of the items listed in Clause 18.5.

18.7 On termination of this Agreement (howsoever arising) prior to the provision by Project Co in accordance with Clause 18.5 of the items listed therein, Project Co shall within ten (10) Business Days of such termination provide in triplicate hard copies and a single electronic copy of any operating and maintenance manual not yet provided (completed as appropriate to the date of termination) to the Board.

## 19. FOSSILS AND ANTIQUITIES

### Property

19.1 As between the parties, all fossils, antiquities, and other objects having artistic, historic or monetary value and human remains which may be found on or at the Site and Off-Site are or shall become, upon discovery, the absolute property of the Board.

### Discovery

19.2 Upon the discovery of any such item during the course of the Works, Project Co shall:

19.2.1 immediately notify the Board's Representative of such discovery;

19.2.2 take all steps not to disturb the object and, if necessary, cease any Works in so far as the carrying out of such Works would endanger the object or prevent or impede its excavation; and

19.2.3 take all necessary steps to preserve the object in the same position and condition in which it was found.

### Action

19.3 The Board shall procure that the Board's Representative promptly, and in any event within ten (10) Business Days of receipt of notice pursuant to Clause 19.2.1, issues an instruction to Project Co specifying what action the Board's Representative requires Project Co to take in relation to such discovery.

19.4 Project Co shall promptly and diligently comply with any instruction issued by the Board's Representative referred to in Clause 19.3 above (except and to the extent

that such instruction constitutes a Board Change pursuant to Clause 19.6 below in which case the provisions of Schedule Part 16 (*Change Protocol*) shall apply), at its own cost.

19.5 If directed by the Board's Representative, Project Co shall allow representatives of the Board to enter the Site and Off-Site for the purposes of removal or disposal of such discovery provided that such entry shall be subject to the Board complying with all relevant safety procedures, which shall include any relevant construction phase plans and health and safety plans for the construction of the Facilities and the Retained Estate Handback Infrastructure, the Contractor's Site Rules from time to time and any reasonable directions with regard to site safety that may be issued by or on behalf of the Contractor's Site Manager from time to time.

19.6 If, in relation to such discovery, the Board requires Project Co to carry out works (being any work of alteration, addition, demolition or extension or variation in the Works) which are not works which would be necessary for the purpose of compliance with Law or any Consents, it must issue a Board Change Notice in accordance with the provisions of Schedule Part 16 (*Change Protocol*).

**19A CONSORT INTERFACE WITH CAMPUS SITE AND/OR CAMPUS FACILITIES**

Project Co shall comply with the provisions of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and shall provide and thereafter adhere to all relevant Interface Proposals in relation to such Schedule.

## PART 4: QUALITY ASSURANCE

### 20. QUALITY ASSURANCE

#### Quality Plans and Systems

- 20.1 Project Co shall procure that all aspects of the Project Operations are the subject of quality management systems in accordance with the provisions of this Clause 20 (*Quality Assurance*).
- 20.2 The quality management systems referred to in Clause 20.1 above shall be reflected in appropriate quality plans, the standard of which shall be consistent with BS EN ISO 9001 or 9002 (as the case may be) or any equivalent standard which is generally recognised as having replaced them (or either of them).
- 20.3 Without limitation to the generality of Clause 20.2, there shall be:
- 20.3.1 a Design Quality Plan;
  - 20.3.2 a Construction Quality Plan; and
  - 20.3.3 a Services Quality Plan for each Service,
- provided that the Design Quality Plan and the Construction Quality Plan may be incorporated into one document.
- 20.4 Project Co shall procure that the Project Operations are carried out in compliance with the Quality Plans. All Quality Plans shall be submitted to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) and Project Co shall not be entitled to implement or procure the implementation of any Quality Plan unless Project Co is entitled to proceed with such implementation pursuant to Schedule Part 8 (*Review Procedure*).
- 20.5 Project Co shall implement the quality management systems referred to in Clause 20.1 and shall procure that:
- 20.5.1 the Contractor implements the Design Quality Plan;
  - 20.5.2 the Contractor implements the Construction Quality Plan;
  - 20.5.3 each Service Provider implements the relevant Services Quality Plan for each Service being provided by that Service Provider.
- 20.6 Where any aspect of the Project Operations is performed by more than one contractor or subcontractor, then the provisions of this Clause 20 (*Quality Assurance*) (in so far as relevant or appropriate to the activities to be performed by

such contractor or subcontractor) shall apply in respect of each of such contractors or subcontractors, and references in this Clause 20 (*Quality Assurance*) to the "**Contractor**" or the "**Service Provider**" shall be construed accordingly. To avoid doubt, this Clause shall not be construed as requiring subcontractors of the Contractor or the Service Provider to have their own quality plans but only to comply with the Design Quality Plan and the Construction Quality Plan or the relevant aspects of the Services Quality Plan (as the case may be).

- 20.7 Project Co shall from time to time submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) any changes to any of the Quality Plans required for such Quality Plan to continue to comply with the requirements set out in Clause 20.2. The Board's Representative may raise comments on any such proposed change only on the grounds set out in paragraph 3 of Schedule Part 8 (*Review Procedure*).
- 20.8 If there is no objection under Schedule Part 8 (*Review Procedure*) to a change to any Quality Plan proposed pursuant to Clause 20.7, the Quality Plan shall be amended to incorporate such change.

### **Quality Manuals and Procedures**

- 20.9 If any Quality Plan refers to, relies on or incorporates any quality manual or procedure, then such quality manual or procedure or the relevant parts of it shall be submitted to the Board's Representative at the time that the relevant Quality Plan or part of (or change to) a Quality Plan is submitted in accordance with Schedule Part 8 (*Review Procedure*), and the contents of such quality manual or procedure shall be taken into account in the consideration of the relevant Quality Plan or part of (or change to) a Quality Plan in accordance with Schedule Part 8 (*Review Procedure*).

### **Quality Management**

- 20.10 Project Co shall maintain a quality management system which shall:
- 20.10.1 ensure the effective operation of the quality systems described in this Clause 20 (*Quality Assurance*);
  - 20.10.2 cause an audit of the quality systems at regular intervals and the findings of such audit will be reported to the Board's Representative;
  - 20.10.3 require review of all quality systems at intervals agreed with the Board's Representative to ensure their continued suitability and effectiveness;
  - 20.10.4 require liaison with the Board's Representative on all matters relating to quality management; and
  - 20.10.5 require production of reports and their delivery to Project Co.

### **Quality Monitoring**

- 20.11 The Board's Representative may carry out audits of Project Co's quality management system (including all relevant Quality Plans and any quality manuals and procedures) to establish that Project Co is complying with Clauses 20.1 and 20.3. The Board's Representative may carry out such audits at approximate intervals of three (3) months and may carry out other periodic monitoring, spot checks and auditing of Project Co's quality management systems. Project Co shall procure that the Board's Representative shall have an equivalent right in respect of the Contractor's and the Service Provider's quality management systems. Project Co shall co operate, and shall procure that any Sub-Contractor co-operates, with the Board's Representative including providing him with all information and documentation which he reasonably requires in connection with his rights under this Clause.

**PART 5: NOT USED**

**21. NOT USED**

## PART 6: SERVICES

### 22. THE SERVICES

#### General obligations

22.1 Throughout the Operational Term Project Co shall provide (or procure that the Service Provider provides) the Services in accordance with:

22.1.1 the Service Level Specification;

22.1.2 the Method Statements; and

22.1.3 the terms of this Agreement

22.2 To avoid doubt the obligations in Clauses 22.1.1, 22.1.2 and 22.1.3, are independent obligations and:

22.2.1 the fact that Project Co has complied with the Method Statements shall not be a defence to an allegation that Project Co has not satisfied the Service Level Specification; and

22.2.2 the fact that Project Co has complied with the Service Level Specification shall not be a defence to an allegation that Project Co has not satisfied the Method Statements,

provided that where there is any conflict between the Service Level Specification and the Method Statements the Board shall be entitled (in its sole discretion) to decide which shall take precedence and inform Project Co of its decision and Project Co shall, at its own cost, be obliged to implement the Board's decision.

#### Commencement of Services

22.3 Project Co shall procure that the provision of the Services commences on the Actual Completion Date.

#### Project Co Services Changes

22.4 Project Co may at any time submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) proposals for amendments to or substitution for the Method Statements or any part of them. If there is no comment on such proposed amendment or substitution (on the grounds set out in paragraph 3 of Schedule Part 8 (*Review Procedure*)), then the Method Statements as so amended or substituted shall be the Method Statements for the purposes of this Agreement, subject to any further amendment or substitution to which there has been no comment in accordance with Schedule Part 8 (*Review Procedure*).

- 22.5 To avoid doubt, an amendment to or substitution for the Method Statements proposed pursuant to Clause 22.4 shall not be a Qualifying Change entitling Project Co to any payment (or other compensation) or to any relief from the performance of its obligations under this Agreement.

### No disruption

- 22.6 Project Co shall perform the Services so as to co-ordinate with the Board's operations on the Site, the Retained Site and Off-Site and/or in the Facilities and/or the Retained Estate and shall take all reasonable care to ensure that it does not interfere with the operations of the Board and/or Board Party.

## 23. MAINTENANCE

### Programmed Maintenance Works

- 23.1 No later than three (3) months prior to the Completion Date Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Programmed Maintenance for the period from the Completion Date to the expiry of that Contract Year.
- 23.2 Not later than three (3) months prior to the commencement of each subsequent Contract Year Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Programmed Maintenance for the next succeeding Contract Year.
- 23.3 Each Schedule of Programmed Maintenance shall contain the following information (the "**Programmed Maintenance Information**"):
  - 23.3.1 details of the proposed start and end dates for each period of Programmed Maintenance, the works to be carried out and the proposed hours of work; and
  - 23.3.2 details of any effect of the Programmed Maintenance on the delivery of any of the Services and/or the activities of the Board; and
  - 23.3.3 any other information which is required pursuant to Section 2 (*Operational Construction Issues*), Section 5 (*Access Strategy*), Section 6 (*Service Strip and Foul Service Strip*) and Section 7 (*Link Building*) of Part 1 and Part 2 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or of Clause 9 (*Nature of Land Interests*).
- 23.4 Not later than twenty (20) Business Days prior to the commencement of any quarter (being a three month period commencing on 1 April, 1 July, 1 October or 1 January), Project Co may submit to the Board's Representative for approval in accordance with Schedule Part 8 (*Review Procedure*) a revision to the Schedule of Programmed Maintenance for the Contract Year in which the relevant quarter falls showing the effect of the proposed changes to the Programmed Maintenance Information. If the Board's Representative does not raise comments on such proposed revision in accordance with Schedule Part 8 (*Review Procedure*), the

Schedule of Programmed Maintenance as revised shall become the Schedule of Programmed Maintenance in respect of that quarter.

- 23.5 Where the Board's Representative raises comments in respect of any Programmed Maintenance periods and/or hours of work shown in a Schedule of Programmed Maintenance in accordance with paragraph 3 of Schedule Part 8 (*Review Procedure*), he shall indicate whether, and if so when, the Programmed Maintenance can be re-scheduled and Project Co shall amend the relevant Schedule of Programmed Maintenance accordingly.

## **23A LIFECYCLE REPLACEMENT**

### **Lifecycle Replacement**

- 23A.1 No later than three (3) months prior to the Actual Completion Date, Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Lifecycle Replacement for the Facilities for the Project Term.
- 23A.2 Not later than three (3) months prior to each subsequent Contract Year, Project Co shall submit to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*) a Schedule of Lifecycle Replacement for the Facilities for the next succeeding Contract Year.
- 23A.3 Each Schedule of Lifecycle Replacement shall contain the following information:
- 23A.3.1 details of all items of Plant and Group 1 Equipment and any other asset for which Lifecycle Replacement is planned during the Project Term; and
  - 23A.3.2 the Contract Year (or Years) when the Lifecycle Replacement is planned to take place.
- 23A.4 Each Schedule of Lifecycle Replacement shall contain the following additional information for the items scheduled for the following Contract Year:
- 23A.4.1 details of all items of Plant and Group 1 Equipment and any other asset for which Lifecycle Replacement is planned during the Contract Year;
  - 23A.4.2 any changes in any Plant, Group 1 Equipment or any other assets which appear in the Schedule of Lifecycle Replacement since the previous annual revision of the Schedule of Lifecycle Replacement;
  - 23A.4.3 evidence which demonstrates that Project Co has taken into account in the proposed Lifecycle Replacement the cost to the Board of occupation and operation of the Facilities, which may be affected by Project Co's proposals for Lifecycle Works, including without limitation, energy consumption and the Board's maintenance and cleaning obligations;

- 23A.4.4 details of Group 1 Equipment to be replaced and commentary on how this has been determined with particular reference to any changes to the Board Services which the Board has made Project Co aware of, which mean that a like for like replacement of Group 1 Equipment may not be appropriate or represent best value for money to the Board;
- 23A.4.5 details of the proposed start and end dates for the Lifecycle Replacement, the works to be carried out and the proposed hours of work, and any other information which the Board may reasonably require; and
- 23A.4.6 details of any effect of the Lifecycle Replacement on the delivery of any of the Services and/or the activities of the Board.
- 23A.5 Where Lifecycle Replacement provides an opportunity to improve whole life costs, such as through lower energy consumption, longer life, or lower replacement costs, Project Co shall provide the Board with the details and benefits of any alternative products or solutions.
- 23A.6 The Board's Representative may comment on each Schedule of Lifecycle Replacement submitted by Project Co in accordance with this Clause 23A in accordance with Schedule Part 8 (*Review Procedure*). Project Co shall consider the Board's Representative comments but, for the avoidance of doubt (and without prejudice to Project Co's obligations under this Agreement), Project Co shall not be obliged to amend the Schedule of Lifecycle Replacement to reflect any comments which the Board's Representative may make in accordance with the provisions of paragraph 3.11 of Schedule Part 8 (*Review Procedure*).

### **Programmed and Unprogrammed Maintenance**

- 23.6 Project Co shall not carry out any Programmed Maintenance or Unprogrammed Maintenance Works or Lifecycle Replacement save:
- 23.6.1 in accordance with a Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement to which subject to Clause 23A.6 (*Lifecycle Replacement*), no objection has been made under Schedule Part 8 (*Review Procedure*) or, where comment has been raised in respect of the Programmed Maintenance periods and/or time, the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement has been amended pursuant to the Service Level Specification;
- 23.6.2 in accordance with the procedures set out in Clause 23.8; or
- 23.6.3 in an emergency, in accordance with Clause 23.9.
- 23.7 Notwithstanding that there has been no objection to a Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement, the Board's Representative may, at any time, require Project Co to accelerate or defer any Programmed Maintenance or Lifecycle Replacement by giving written notice to Project Co, (unless otherwise agreed) not less than twenty (20) Business Days prior to the scheduled date for carrying out such Programmed Maintenance or Lifecycle

Replacement, which notice shall set out the time and/or periods at or during which the Board requires the Programmed Maintenance or Lifecycle Replacement to be performed. Project Co shall notify the Board of the amount of any additional reasonable costs which it will incur as a direct consequence of such acceleration or deferment (the "**Estimated Increased Maintenance and Lifecycle Costs**") within five (5) Business Days of the receipt of the written notice advising of the requirement for an acceleration or deferment of the Programmed Maintenance or Schedule of Lifecycle Replacement. The Board shall, within a further period of five (5) Business Days following receipt by the Board of notification of the amount of the Estimated Increased Maintenance and Lifecycle Costs, at the Board's option, either confirm or withdraw its request to accelerate or defer the Schedule of Programmed Maintenance and Schedule of Lifecycle Replacement. If the Board does not respond within this five (5) Business Day period, the request shall be deemed to have been confirmed. The Board shall reimburse Project Co the direct and reasonable costs actually incurred by Project Co as a consequence of such acceleration or deferment up to, but not exceeding, the amount of the Estimated Increased Maintenance and Lifecycle Costs.

- 23.8 If, in circumstances other than an emergency, the need arises for Maintenance Works or Lifecycle Replacement (excluding any works of a *de minimis* nature in respect of which the parties have agreed this Clause 23.8 shall not apply and excluding works carried out for the purpose of Rectification, which shall take place in accordance with the provisions of Schedule Part 14 (*Payment Mechanism*)), which are not scheduled to be carried out as part of the Programmed Maintenance or Lifecycle Replacement ("**Unprogrammed Maintenance or Lifecycle Replacement Works**"), Project Co shall not carry out any Unprogrammed Maintenance or Lifecycle Replacement Work unless and until the Board's Representative has approved the proposed commencement date, the proposed hours of work and estimated duration of the requisite Unprogrammed Maintenance or Lifecycle Replacement Work in accordance with the provisions of paragraph 3.9 of Schedule Part 8 (*Review Procedure*). Nothing in this Clause 23.8 (including any approval of the Board pursuant to Schedule Part 8 (*Review Procedure*)) shall prevent the Board from making any deductions in calculating the Monthly Service Payments pursuant to the Payment Mechanism.
- 23.9 If, as a result of an emergency, the need arises for Unprogrammed Maintenance or Lifecycle Replacement Works, Project Co may carry out such Unprogrammed Maintenance or Lifecycle Replacement Works provided that Project Co shall notify the Board's Representative as soon as possible (and in any event within one (1) hour of the occurrence of the emergency) of the extent of the necessary Unprogrammed Maintenance or Lifecycle Replacement Works and the reasons for them. Project Co shall take all reasonable steps to minimise the duration of such Unprogrammed Maintenance or Lifecycle Replacement Works. Nothing in this Clause 23.9 shall prevent the Board from making any deductions in calculating the Monthly Service Payments pursuant to the Payment Mechanism.
- 23.10 Where Programmed Maintenance and/or Lifecycle Replacement scheduled to be carried out in accordance with the Schedule of Programmed Maintenance has been deferred by the Board's Representative under Clause 23.7, Project Co shall not be treated as having failed to perform the relevant Service on account of the condition of the Facilities or any part of them from the time the Programmed Maintenance and/or Lifecycle Replacement was scheduled to have been completed until the time the deferred Programmed Maintenance and/or Lifecycle Replacement was scheduled to have been completed, but not afterwards, provided always, to avoid doubt, that Project Co shall not be relieved from the consequences of any failure to maintain the Facilities in respect of any period prior to the period for performing the particular work according to the Schedule of Programmed Maintenance or the Schedule of Lifecycle Replacement.

### 5 Year Maintenance Plan

- 23.11 Project Co shall deliver to the Board's Representative not less than three (3) months prior to the Completion Date, and thereafter not less than three (3) months prior to the commencement of each Contract Year the latest version of the 5 Year Maintenance Plan.
- 23.12 The Board shall have a right to inspect the Facilities and the Maintenance Works to ensure that the Facilities are being maintained in accordance with the Service Level Specification and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals throughout the Project Term. The Board may appoint an independent third party for the purposes of carrying out any such inspection and shall make known the findings to Project Co and the Funders. The parties shall then meet to discuss any implications of such findings and any steps that are necessary to remedy any failure to comply with such obligations. Project Co shall (subject to Clause 33 (*Change Protocol*)) take into account such discussions in the next Schedule of Programmed Maintenance so that any failure to comply with such obligations shall be remedied.

### Board's Maintenance Obligations

- 23.13 The Board's Maintenance Obligations are as follows:
- 23.13.1 not less frequently than once in every five (5) years from the Actual Completion Date, in a good and workmanlike manner to make good plaster and other interior wall and ceiling finishes and decoration in all such parts of the interior of the Functional Areas as were plastered, finished and/or decorated by Project Co as part of the Works or in implementing a Board Change;
- 23.13.2 Not Used;
- 23.13.3 Not Used;
- 23.13.4 as often as is necessary to maintain anything provided by the Board under a Derogated Low Value Change; and
- 23.13.5 to ensure that all portable electrical appliances that are connected to the electricity supply in the Facilities by the Board and Board Parties have been tested in accordance with Law and the "**Code of Practice for In-service Inspection and Testing of Electrical Equipment**" published from time to time by the Institution of Electrical Engineers.
- 23.14 Subject to Clause 23.21, the Board must carry out and perform the Board's Maintenance Obligations or procure that the Board's Maintenance Obligations are carried out and performed as often as required by Clause 23.13 and in accordance with Good Industry Practice. Without prejudice to the Board's rights under Clause 23.7, the Board's Maintenance Obligations must be scheduled by the Board so as not to interfere with Project Co carrying out Programmed Maintenance or Lifecycle Replacement in accordance with the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement and/or interfere with Project Co carrying out Unprogrammed Maintenance Work or Lifecycle Replacement in accordance with

## Clause 23.8.

23.15 If the Board is in breach of Clause 23.14, Project Co may, while the breach is continuing, give a notice to the Board requiring it to carry out the relevant Board Maintenance Obligations. If the Board:

23.15.1 does not reply to Project Co in writing within ten (10) Business Days of the date of Project Co's notice with a programme for carrying out the relevant Board Maintenance Obligations within a period of time that is reasonable having regard to the nature of the breach, the reasonably foreseeable consequences of non-performance of the relevant Board Maintenance Obligations for the Services and Project Co's obligations under this Agreement; or

23.15.2 having provided such a programme, does not comply with it,

Project Co shall be entitled to perform the Board's Maintenance Obligations so far as necessary to prevent any reasonably foreseeable adverse effect on the Services and/or Project Co's obligations under this Agreement consequent upon the non-performance of the relevant Board Maintenance Obligations ("**Project Co-Remedial Services**").

23.16 Project Co shall not carry out any Project Co's Remedial Services unless and until the Board's Representative, pursuant to this Clause 23.16, has approved or is deemed to have approved or has specified the proposed commencement date, the proposed hours of work and the estimated duration of Project Co's Remedial Services (together the "**PRS Timetable**"). Project Co must give the Board not less than twenty (20) Business Days notice of its proposed PRS Timetable. If the Board's Representative considers that the proposed PRS Timetable is not consistent with the principles set out in Appendix 2 to Schedule Part 8 (*Review Procedure*), he may specify an alternative PRS Timetable that is consistent with those principles, which shall be as near to the PRS Timetable proposed by Project Co as reasonably practicable. If the Board's Representative fails either to approve Project Co's proposed PRS Timetable or to specify an alternative PRS Timetable within ten (10) Business Days of receipt of Project Co's proposed PRS Timetable, he shall be deemed to have approved it.

23.17 The Board must allow Project Co and relevant Project Co Parties access to the Site and the Facilities:

23.17.1 for the purpose of monitoring the carrying out of Board's Maintenance Obligations; and

23.17.2 in accordance with the approved PRS Timetable for the purpose of carrying out any of Project Co's Remedial Services.

23.18 If the Board does not allow access to the Site and/or the Facilities as required pursuant to Clause 23.17.2, or otherwise prevents or interferes with Project Co and any relevant Project Co Party performing the PRS Remedial Works, Project Co may propose a new PRS Timetable in respect of the relevant Project Co's Remedial Services and Clause 23.16 shall apply.

- 23.19 In carrying out and performing Project Co's Remedial Services, Project Co must comply with the standards applicable to the relevant Board's Maintenance Obligations and Good Industry Practice and must use reasonable endeavours to match colours and other finishes to those that currently exist in the relevant part or parts of the Facilities.
- 23.20 The Board must reimburse Project Co all reasonable costs that it incurs in carrying out and performing Project Co's Remedial Services in accordance with this Clause 23.
- 23.21 Notwithstanding the terms of Clauses 23.14 to 23.19 above, Project Co is responsible for:
- 23.21.1 making good any defects in plaster and other interior wall and ceiling finishes and decoration provided by Project Co as part of the Works or in implementing a Board Change, caused by defective design or workmanship in the carrying out of the Works or in implementing the Board Change; and
- 23.21.2 making good any defects in plaster and other interior wall and ceiling finishes and decoration provided by Project Co as part of the Works or in implementing a Board Change (whether or not these have subsequently been replaced or renewed by the Board) and things referred to in Clause 23.13.4 consequential on any Programmed Maintenance or Unprogrammed Maintenance or any act or omission of Project Co.
- 23.22 The Board and Project Co shall co-operate with each other to coordinate any activities that the Board proposes to undertake to implement any of the Board's Maintenance Obligations and Project Co's Programmed Maintenance and Project Co must include the Board's intentions with regard to performing the Board's Maintenance Obligations in the Schedule of Programmed Maintenance for each Contract Year.

### **Energy for Repairs**

- 23.23 Subject to Clause 23.24, the Board is entitled to be reimbursed by Project Co for costs incurred by the Board for Utilities supplied to the Facilities during the Operational Term that are consumed in the process of Project Co or any Project Co Party carrying out operations to rectify an Availability Failure.
- 23.24 For the purpose of applying Clause 23.23 the cost of each Utility shall be considered separately and Clause 23.23 shall not apply if the costs concerned, in respect of the particular Availability Failure, do not exceed the daily average cost based on bills paid by the Board to the supplier of the relevant Utility to the Facilities over the most recent twelve (12) month period for which figures are available. If the particular Availability Failure occurs prior to first anniversary of the Actual Completion Date then the daily average cost based on bills paid by the Board to the supplier of the relevant Utility shall be calculated by reference to the period from the Actual Completion Date to the date of the Availability Failure.
- 23.25 Where the Board claims reimbursement of Utilities costs pursuant to Clause 23.23 it must reasonably estimate those costs using all available evidence and send

Project Co a statement showing its calculation of the amount claimed along with its supporting evidence. Unless Project Co disputes the statement within ten (10) Business Days of receipt, the Board will be entitled, pursuant to Clause 34.6 (*Set Off*), to set-off the amount claimed.

### Energy for deviation from the Energy Strategy

- 23.26 Subject to Clause 23.27, the Board is entitled to be reimbursed by Project Co for costs and losses incurred by the Board in relation to Utilities supplied to the Facilities during the Operational Term that are consumed as a result of the occurrence of Performance Failure(s) in respect of Performance Standard FM67A, such additional costs to be calculated in accordance with Clause 23.29 below (the “**Utility Cost Difference**”).
- 23.27 For the purpose of applying Clause 23.26 the Board shall not be entitled to reimbursement if the Utility Cost Difference is less than zero (0).
- 23.28 Where the Board claims reimbursement of Utilities costs and/or losses pursuant to Clause 23.26 it must calculate the Utility Cost Difference pursuant to Clause 23.29 and send Project Co a statement showing its calculation of the amount claimed along with its supporting evidence. Unless Project Co disputes the statement within ten (10) Business Days of receipt, the Board will be entitled, pursuant to Clause 34.6, to set-off the amount claimed.
- 23.29 The Board shall calculate the Utility Cost Difference using the following formula:

$$\text{Utility Cost Difference} = \text{Actual Utility Cost} - \text{Energy Strategy Utility Cost}$$

For the purposes of this Clause 23.29:

- 23.29.1 The Actual Utility Cost is the aggregate of the cost of Utilities for each heat and power source incurred for each day on which the relevant Performance Failure occurs and shall be calculated as:

$$\text{Actual Utility Cost} = \sum \text{Heat Cost} + \sum \text{Power Cost}$$

- 23.29.2 The Energy Strategy Utility Cost is the aggregate cost of Utilities for each heat and power source that would have been incurred for each day had the relevant Performance Failure not occurred and shall be calculated as:

$$\text{Energy Strategy Utility Cost} = \sum \text{Heat Cost} + \sum \text{Power Cost}$$

- 23.29.3 The Heat Cost in respect of heat source (n) shall be calculated as:

$$\text{Heat Cost}_n = \left( \frac{H_{DHn}}{E_{Hn}} \right) \times H_{nUc} - RHI_n$$

Where

$H_{DHn}$  = heat demand met by heat source n  
 $E_{Hn}$  = efficiency ratio for heat source n as provided for in the Energy Strategy  
 $H_{nUc}$  = average unit cost of fuel for heat source n  
 $RHI_n$  = renewable heat incentive savings available for heat source n

23.29.4 The Power Cost in respect of power source (n) shall be calculated as:

$$\text{Power Cost}_n = (P_{DPn} \times P_{nUc}) - FIT_n$$

Where

$P_{DPn}$  = power demand for power source n

$P_{nUc}$  = average unit cost of fuel for power source n

$FIT_n$  = feed in tariff savings available for power source n

## 24. MONITORING OF PERFORMANCE

### Monitoring

- 24.1 In carrying out the Services, Project Co shall, and shall procure that all Project Co Parties and any other persons for whom it is responsible shall, comply with the provisions of Schedule Part 12 (*Service Requirements*).
- 24.2 Project Co shall be responsible for monitoring its performance of this Agreement during the Operational Term, in the manner and at the frequencies set out in Schedule Part 12 (*Service Requirements*). Project Co shall provide the Board's Representative with relevant particulars of any aspects of its performance which fail to meet the requirements of this Agreement (unless otherwise notified in writing by the Board). The Board may at all reasonable times observe, inspect and satisfy itself as to the adequacy of the monitoring procedures (including without limitation carrying out sample checks).

### Grounds for Warning Notices

- 24.3 If at any time during the Operational Term (other than by reason of a Force Majeure Event, a Relief Event or an Emergency):
- 24.3.1 the total Deductions for any Contract Month amount to more than 0.207 per cent of the Annual Service Payment for the current Contract Year; or
- 24.3.2 the total Deductions in each of any three Contract Months in any six consecutive Contract Months amount to more than 0.097 per cent of the Annual Service Payment for the current Contract Year,

the Board's Representative may serve a Warning Notice on Project Co, provided always that, to give Project Co time to take appropriate rectification measures, the Board's Representative shall not be entitled:

- (a) to serve more than one (1) Warning Notice in any Contract Month;
- (b) to serve a Warning Notice in any two (2) consecutive Contract Months to the extent that the same event has contributed to the Board's right to serve the Warning Notice, but provided that Project Co demonstrates to the Board that it has taken all reasonable steps to remedy the cause of that event.

### Warning Notices Disputes

- 24.4 If Project Co disputes that the Board was or is entitled to serve a Warning Notice, Project Co may refer that dispute for determination under the Dispute Resolution Procedure for resolution. If, after the Board's Representative issues a Warning Notice, the parties subsequently agree, or it is determined under the Dispute Resolution Procedure that the Warning Notice was served without justification, that Warning Notice shall be recalled or shall be cancelled and deemed not to have been served.

### Board's remedial rights

- 24.5 The provisions of Clauses 24.6 to 24.9 (inclusive) shall apply if the Board, acting reasonably, considers that it needs to take action in connection with the Services:

24.5.1 because of an immediate and serious threat to the health or safety of any user of the Facilities and/or the Retained Estate; or

24.5.2 to prevent or address material interruption in the provision of one or more of the Services; or

24.5.3 because of a risk of the ability of the Board to provide the relevant Board Services being prejudiced to a material degree.

- 24.6 If any of the circumstances set out in Clause 24.5 arise (without prejudice to its rights under Clause 40 (*Project Co Event of Default*) or any other express rights under this Agreement) and the Board wishes to take action (either by itself or by engaging others), the Board shall notify Project Co in writing of the following:

24.6.1 the action it wishes to take;

24.6.2 the reason for such action;

24.6.3 the date it wishes to commence such action;

24.6.4 the time period which it believes will be necessary for such action; and

24.6.5 to the extent practicable, the effect on Project Co and its obligation to provide the Services during the period such action is being taken.

- 24.7 Following service of such notice, the Board shall take such action as has been notified under Clause 24.6 and any consequential additional action as it reasonably believes is necessary (together, the "**Required Action**") and Project Co shall give all reasonable assistance to the Board while it is taking the Required Action. To the extent that the Board performs any of the obligations of Project Co hereunder or undertakes tasks that would otherwise be undertaken by Project Co pursuant to this Agreement, the Board shall perform such obligations or undertake such tasks to the same standard as would be required of Project Co under the terms of this Agreement.

- 24.8 If the Required Action is taken other than as a result of a breach by Project Co of its obligations under this Agreement, then for so long as and to the extent that the Required Action is taken, and this prevents Project Co from providing any part of the Services:
- 24.8.1 Project Co shall be relieved from its obligations to provide such part of the Services; and
- 24.8.2 in respect of this period in which the Board is taking the Required Action and provided that Project Co provides the Board with reasonable assistance (such assistance to be at the expense of the Board to the extent that additional costs are incurred), the Monthly Service Payments due from the Board to Project Co shall equal the amounts that Project Co would receive if it were satisfying all of its obligations and providing the Services affected by the Required Action in full over that period and the Board shall indemnify Project Co against all Direct Losses sustained by Project Co as a result of the Board taking the Required Action.
- 24.9 If the Required Action is taken as a result of a breach by Project Co of its obligations under this Agreement, then for so long as and to the extent that the Required Action is taken, and this prevents Project Co from providing any part of the Services:
- 24.9.1 Project Co shall be relieved of its obligations to provide such part of the Services; and
- 24.9.2 in respect of the period in which the Board is taking the Required Action, the Monthly Service Payments due from the Board to Project Co shall equal the amounts Project Co would receive if it were satisfying all of its obligations and providing the Services affected by the Required Action in full over that period, less an amount equal to all of the costs incurred by the Board in taking the Required Action (including, without limitation, an appropriate sum in respect of general staff costs and overheads).

### **Emergencies**

- 24.10 If an Emergency arises during the Operational Term which cannot be dealt with by performance of the Services, the Board may instruct Project Co to procure that such additional or alternative services are undertaken by Project Co as and when required by the Board to ensure that the Emergency is dealt with and normal operation of the Facilities resumes as soon as is reasonably practicable.
- 24.11 The cost of any additional or alternative services provided by Project Co under Clause 24.10 shall be borne by the Board and paid in accordance with Clause 34 (*Payment*). The Board will not be entitled to levy Deductions in respect of any failure to provide the Services to the extent that such failure arises by reason of Project Co's compliance with Clause 24.10.

## 25 TUPE AND EMPLOYMENT MATTERS

### No Employee Transfer

- 25.1 The Board and Project Co agree that there are no individuals presently employed by the Board or any other sub-contractor of the Board whose contracts of employment will, by virtue of the transfer to Project Co of responsibility for provision of (or procuring the provision by Service Providers of) any of the Services in accordance with this Agreement and in accordance with the Transfer Regulations, have effect after the date or dates of such transfer as agreed by the parties (each a "**Relevant Service Transfer Date**") (or at any other time) as if originally made between those persons and the relevant Service Provider.
- 25.2 If it is subsequently agreed or determined that there are persons presently employed by the Board or any other sub-contractor of the Board whose contracts of employment do have effect after the Relevant Service Transfer Date as if originally made between those persons and the relevant Service Provider ("**Transferring Staff**") then:
- 25.2.1 the Board shall within ten (10) Business Days of the date on which it was so agreed or determined have the opportunity to offer or procure the offer of a position as an employee of the Board to some or all of the Transferring Staff;
- 25.2.2 Project Co shall procure that no person to whom the Board has offered a position in accordance with Clause 25.2.1 shall be dismissed by reason of redundancy until the period for acceptance of such offer has expired and the person in question has not accepted such offer; and
- 25.2.3 subject to Clauses 25.2.1 and 25.2.2 Project Co or any Service Provider shall be entitled to dismiss any or all of the Transferring Staff by reason of redundancy provided that Project Co shall and shall procure that any Service Provider shall carry out in the required manner any obligation to consult with the Transferring Staff or any of them, or their respective representatives, and shall use all reasonable endeavours to mitigate the amount of any costs payable in respect of the Transferring Staff or their dismissal.

The Board shall indemnify Project Co against any costs referred to in Clause 25.2.3 reasonably incurred by Project Co (or by a relevant Service Provider and for which Project Co is responsible) and shall reimburse any costs reasonably and properly incurred by Project Co or the Service Provider in employing any Transferring Staff prior to the expiry of the period referred to in Clause 25.2.2 including any protective award claims that arise as a result of the Board's failure or omission in relation to consultation required under the Transfer Regulations.

### Compliance with Legislation and Board Policies

- 25.3 Project Co shall comply and shall procure that each Service Provider and all persons employed or engaged by a Service Provider in connection with the provision of any Service shall comply at all times with the Law on health and safety at work and on anti-discrimination and equal opportunities.
- 25.4 Project Co shall procure that each Service Provider takes all reasonable steps to

procure that all persons including any employed or engaged by a Service Provider in connection with the provision of any Service shall, so far as applicable, comply with the Board Policies as regards health and safety at work (including the Board Policy regarding smoking) and with those relating to anti-discrimination and equal opportunities (including those relating to harassment). Project Co also shall take and shall procure that every Service Provider shall take all such steps as the Board may reasonably require, which shall include co-operation with action proposed or taken by the Board, to ensure that the Board complies with its duty under Section 3(1) Health and Safety at Work Act 1974 regarding the conduct of the undertaking of the Board.

### **Project Co Indemnities**

25.5 Project Co shall indemnify and keep indemnified in full the Board and, at the Board's request, each and every service provider who has or shall provide any service equivalent to any of the Services against:

25.5.1 claims in respect of all emoluments and all other contractual or statutory payments unpaid by Project Co or a Service Provider to any person entitled to such payments from Project Co or a Service Provider who is or has been employed or engaged by Project Co or any Service Provider on or after the Relevant Service Transfer Date but prior to the date of expiry or termination of this Agreement, and all income tax and pension and national insurance contributions payable thereon; and

25.5.2 insofar as Clause 25.5.1 does not apply, all Direct Losses incurred by the Board as a result of any claim against the Board in respect of any liability to any person who is or has been employed or engaged (whether as a consequence of the Transfer Regulations or of the provisions of this Clause 25) by Project Co or any Service Provider in connection with the provision of any of the Services, where such claim arises as a result of any act or omission of Project Co or the Service Provider occurring after the Relevant Service Transfer Date and before the expiry or termination of this Agreement;

BUT the indemnities in Clauses 25.5.1 and 25.5.2 shall not apply to the extent that the claim arises from a wrongful act or omission of the Board or is in respect of sums for which the Board is liable pursuant to Clause 25.2.

25.6 Clause 49.3 (*Conduct of Claims*) of this Agreement shall apply where any claim is made in respect of the indemnities given by Project Co under Clause 49.1 (*Project Co Indemnities*).

### **Position on expiry or earlier termination of this Agreement**

25.7 On the expiry or earlier termination of this Agreement, the Board and Project Co agree that it is their intention that the Transfer Regulations shall apply in respect of the provision thereafter of any service equivalent to a Service but the position shall be determined in accordance with the Law at the date of expiry or termination as the case may be and this Clause is without prejudice to such determination.

25.8 Project Co shall not and shall procure that no Service Provider shall make any material change to the terms and conditions of employment of any person employed in the provision of any Service, transfer any person employed in the provision of any Service to another part of its business, or materially increase or

decrease the number of such persons:

25.8.1 within the period of twelve (12) months immediately preceding the expiry of this Agreement, or

25.8.2 within the period of twelve (12) months before the termination of this Agreement or, if shorter, during the period of notice of termination

without the Board's consent (which shall not be unreasonably withheld), except if such change is required by Law.

25.9 If the Transfer Regulations do not apply on the expiry or earlier termination of this Agreement, the Board shall ensure that each new provider of a service equivalent to a Service on or after the expiry or earlier termination of this Agreement (including the Board) shall offer employment to the persons employed by Project Co or a Service Provider in the provision of the Service immediately before the expiry or earlier termination of this Agreement and shall indemnify Project Co or a Service Provider for Direct Losses any of them may suffer or incur as a result of its failure to do so, and for any costs, claims or liabilities for redundancy payments (whether statutory or contractual).

25.10 If an offer of employment is made in accordance with Clause 25.9 the employment shall be on the same terms and conditions as applied immediately before the expiry or earlier termination of this Agreement including full continuity of employment, except that the Board or other new service provider may at its absolute discretion not offer such terms and conditions if there has been any change to the terms and conditions of the persons concerned in breach of Clause 25.8.

## **26. NOT USED**

## **27. SITE AND OFF-SITE SECURITY AND PERSONNEL ISSUES**

### **Access**

27.1 The Board shall have the right to refuse admittance to, or order the removal from, the Facilities and/or the Retained Estate of any person employed by (or acting on behalf of) Project Co, any Project Co Party or any sub-contractor whose presence, in the reasonable opinion of the Board, is likely to have a material adverse effect on the provision by the Board of the relevant Board Services at the Facilities and/or the Retained Estate or who is not a fit and proper person to be in the Facilities and/or the Retained Estate.

27.2 Action taken under Clause 27.1 shall forthwith be confirmed in writing by the Board to Project Co and, to avoid doubt, shall not relieve Project Co of any of its obligations under this Agreement.

27.3 If and when so directed in writing by the Board, Project Co shall within twenty (20) Business Days provide a list of the names and addresses of all persons it expects may require admission in connection with this Agreement, to any premises occupied by the Board, specifying the capacities in which those persons are concerned with this Agreement and giving such other particulars as the Board may

reasonably require.

- 27.4 The decision of the Board as to whether any person is to be refused admission shall be final and conclusive.

### **Board Policies**

- 27.5 Project Co shall, and shall procure that all Project Co Parties shall, comply at all times with the Board Policies.
- 27.6 The Board shall notify Project Co of any proposed change to the Board Policies as soon as practicable (and, in any event, prior to such change taking effect) and consult with Project Co. Subject to Clause 27.7, such change shall take effect as a Change in accordance with Schedule Part 16 (*Change Protocol*).
- 27.7 The Board may, at its sole option, notify Project Co that Project Co shall not be obliged to comply with any change to any Board Policy and that Project Co should continue to comply with the relevant Board Policy prior to any change in which case such change shall not take effect as a Change in accordance with Schedule Part 16 (*Change Protocol*).

### **Resources and training**

- 27.8 Project Co shall procure that:
- 27.8.1 there shall at all times be a sufficient number of staff (including all relevant grades of supervisory staff) engaged in the provision of the Services with the requisite level of skill and experience. To avoid doubt, this obligation shall include ensuring that there are sufficient staff to cover periods of holiday, sickness, other absence, and anticipated and actual peaks in demand for each of the Services; and
- 27.8.2 all staff receive such training and supervision as is necessary to ensure the proper performance of this Agreement and compliance with all health and safety rules, procedures and requirements.
- 27.9 Not Used.

### **Convictions and disciplinary action**

- 27.10 Subject to Clause 27.10A, Project Co (to the extent permitted by Law) shall procure that all potential staff or persons performing any of the Project Operations who may reasonably be expected in the course of their employment or engagement to have access to children, the elderly and/or vulnerable adults:
- 27.10.1 are questioned concerning their Convictions; and
- 27.10.2 are required to complete a Protecting Vulnerable Groups Scheme

form.

- 27.10A The completion of a Protecting Vulnerable Groups Scheme form in accordance with Clause 27.10 shall not be applicable to any person engaged by Project Co or a Service Provider during the course of the Project Operations (who is not a member of Project Co's or Service Provider's staff nor ordinarily at the Facilities and/or the Retained Estate) provided that any such person is always accompanied within the Facilities and/or Retained Estate by a member of Project Co's or a Service Provider's staff who has satisfactorily completed a Protecting Vulnerable Groups Scheme form and who (if found to have any Convictions) has been employed or engaged in the Project Operations with the Board's prior written consent pursuant to Clause 27.11.
- 27.11 Project Co shall procure that no person who discloses any Convictions, or who is found to have any Convictions following the completion of a Protecting Vulnerable Groups Scheme form, in either case of which Project Co or a Service Provider is aware or ought to be aware is employed or engaged in the provision of the Project Operations without the Board's prior written consent (such consent not to be unreasonably withheld or delayed).
- 27.12 Project Co shall procure that the Board is kept advised at all times of any person employed or engaged by Project Co or any Service Provider in the provision of any of the Project Operations who, subsequent to his/her commencement of such employment or engagement, receives a Conviction of which Project Co or a Service Provider becomes aware or whose previous Convictions become known to Project Co or a Service Provider.
- 27.13 The Board's Representative (acting reasonably) may instruct Project Co to procure that appropriate disciplinary action is taken against any employee of Project Co or any Sub-Contractor (in accordance with the terms and conditions of employment of the employee concerned) who misconducts himself or is incompetent or negligent in his duties or whose presence or conduct on the Site and/or Off-Site or at work is otherwise considered by the Board's Representative (acting reasonably) to be undesirable. The Board shall co-operate with any such disciplinary proceedings and shall be advised in writing by Project Co of the outcome.
- 27.14 Project Co shall procure that there are set up and maintained, by it and by all Service Providers, personnel policies and procedures covering all relevant matters (including discipline, grievance, equal opportunities and health and safety). Project Co shall procure that the terms and the implementation of such policies and procedures comply with Law and Good Industry Practice and that they are published in written form and that copies of them (and any revisions and amendments to them) are forthwith issued to the Board.

### **Management**

- 27.15 Project Co shall consult with the Board in relation to the selection procedure (which shall stipulate a professional qualification in respect of facilities management or equivalent qualification) for Project Co's Facility Manager and such person shall not be appointed (or replaced) without the prior written consent of the Board (such consent not to be unreasonably withheld or delayed).
- 27.16 Project Co shall provide, and shall procure that all Service Providers provide, to the Board upon request details of their respective management organisations.

**Lists and Records**

27.17 Project Co shall procure that the Board's Representative shall at all reasonable times have access to all material details in respect of all employees of Project Co or any Service Provider engaged in the provision of the Services including numbers and categories of staff employed to perform the Services and including in respect of each such employee:

27.17.1 details of qualifications; and

27.17.2 details of training undertaken by the employee.

**Health Requirements**

27.18 Not Used.

27.19 Not Used.

27.20 Not Used.

27.21 The Board's Representative may (acting reasonably) refuse admittance to or order the removal from the Board's premises of any person employed or engaged in the provision of the Services whose presence poses or is reasonably believed to pose a risk to the health of Board staff, patients or visitors and such action, which shall forthwith be confirmed in writing by the Board, shall not relieve Project Co of any of its obligations under this Agreement.

**28. STOCKS CONSUMABLES, MATERIALS AND EQUIPMENT****Standards**

28.1 All goods, equipment, consumables and materials which are to be used in the provision of the Services shall be of satisfactory quality.

28.2 Project Co shall ensure that the goods, equipment, consumables and materials used by it or any Sub-Contractor in connection with the provision of any of the Services (each as a distinct and separate obligation) are:

28.2.1 maintained in a safe, serviceable and clean condition in accordance with Good Industry Practice;

28.2.2 of the type specified in the Service Level Specification and/or the Method Statements (where appropriate); and

28.2.3 in compliance with any relevant rules, regulations, codes of practice and/or British or European Standards,

and shall, as soon as practicable after receiving a request from the Board's Representative, supply to the Board's Representative evidence to demonstrate its compliance with this Clause 28.2.

- 28.3 Project Co shall procure that sufficient stocks of goods, consumables, equipment and materials are held in order to comply with its obligations under this Agreement.

#### **Hazardous substances and materials**

- 28.4 Project Co shall not install, keep or use in or on the Facilities any materials, equipment or apparatus the installation, keeping or use of which is likely to cause (or in fact causes):

28.4.1 material damage to the Facilities;

28.4.2 dust, noise or vibration constituting a nuisance to the owners and/or occupiers of any property adjoining or near to the Facilities; or

28.4.3 the generation, accumulation or migration of any hazardous substance in an unlawful manner whether within or outside the Facilities,

and shall use all reasonable endeavours to ensure (by directions to staff and otherwise) that all materials, equipment or apparatus in or on the Facilities is operated so as to minimise noise and vibration likely to cause annoyance or disturbance and the unlawful generation or migration of any hazardous substance.

- 28.5 Project Co shall not bring in or on to (or keep or maintain in or on) the Facilities, any hazardous materials or equipment without the prior written consent of the Board and unless Project Co has complied with all relevant Law.

- 28.6 Without prejudice to the generality of its obligations, Project Co shall:

28.6.1 procure that all hazardous materials and equipment used, by it or by a Sub-Contractor or used on behalf of any of them, or stored, by it or by a Sub-Contractor or stored on behalf of any of them, on the Site and/or Off-Site are kept in accordance with all relevant Law and Good Industry Practice, properly and securely labelled and stored, under appropriate supervision and used only by appropriately trained and competent staff; and

28.6.2 use all practicable and reasonable means to:

(a) prevent or counteract, to the satisfaction of the Board's Representative, the unlawful emission of any such hazardous substance;

(b) avoid the unlawful discharge into any conducting media serving the Facilities, of any hazardous substance;

- (c) prevent the unlawful generation, accumulation or migration of any hazardous substance at or from the Facilities; and
- (d) prevent any environmental claims arising or any circumstances arising likely to result in any environmental claims,

in so far as any such hazardous substance is, or should be, under the control of Project Co pursuant to this Agreement.

28.7 The Board shall:

28.7.1 procure that all hazardous materials and equipment used, by it or by any Board Party or used on behalf of any of them, or stored, by it or by any Board Party or stored on behalf of any of them, on the Site are kept in accordance with all relevant Law and Good Industry Practice, properly and securely labelled and stored, under appropriate supervision and used only by appropriately trained and competent staff; and

28.7.2 use all practicable and reasonable means to:

- (a) prevent or counteract the unlawful emission of any such hazardous substance;
- (b) avoid the unlawful discharge into any conducting media serving the Facilities of any hazardous substance;
- (c) prevent the unlawful generation, accumulation or migration of any hazardous substance at or from the Facilities; and
- (d) prevent any environmental claims arising or any circumstances arising likely to result in any environmental claims,

in so far as any such hazardous substance is, or should be, under the control of the Board.

28.8 The Board shall:

28.8.1 maintain a COSHH register for the Facilities, which shall be up-to-date at all times;

28.8.2 ensure that a copy of the COSHH register is kept at the Facilities; and

28.8.3 ensure that a further copy of the COSHH register is given to Project Co as often as it is changed.

28.9 Project Co shall:

- 28.9.1 provide or procure that the Service Provider provides all necessary information (in a form acceptable to the Board) in respect of items associated with the provision of the Services at the Facilities in order to allow the Board to comply with its obligations set out at Clause 28.8; and
  - 28.9.2 carry out or procure that the Service Provider carries out all relevant COSHH risk assessments, the training and the display and provision of risk assessments thereto at the Facilities in respect of the Services.
- 28.10 The Board shall have no liability for any information provided by Project Co and/or the Service Provider pursuant to Clause 28.9 and for the avoidance of doubt the Board shall not be responsible for carrying out any assessments, providing training and displaying information relative to COSHH in respect of the Services.

## PART 7: DELAY EVENTS, RELIEF EVENTS AND FORCE MAJEURE

### 29. DELAY EVENTS

- 29.1 If, at any time, Project Co becomes aware that there will be (or is likely to be) a delay in completion of the Works, Project Co shall forthwith give notice to the Board's Representative to that effect specifying the relevant delay or impediment. In relation to any such delay or impediment if the Board's Representative is satisfied, or it is determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*), that such delay or impediment has arisen as a result of the occurrence of a Delay Event, then, subject to Clause 29.2, the Board's Representative shall allow Project Co an extension of time equal to the delay or impediment caused by such Delay Event (taking into account reasonably foreseeable consequences of the Delay Event) and shall revise the Completion Date accordingly but to avoid doubt, there shall be no extension to the Project Term as a result of any such delay or impediment.
- 29.2 If Project Co is (or claims to be) affected by a Delay Event:
- 29.2.1 it shall (and shall procure that the Project Co Parties shall) take and continue to take all reasonable steps to eliminate or mitigate the consequences of such an event upon the performance of its obligations under this Agreement and, where relevant, resume performance of its obligations affected by the Delay Event as soon as practicable; and
- 29.2.2 it shall neither be relieved from liability under this Agreement nor entitled to any extension of time for the purpose of Clause 29 (*Delay Events*) to the extent that it is delayed or impeded due to its failure (if any) to comply with its obligations under Clause 29.2.1 above.
- 29.3 For the purposes of this Agreement, a Delay Event means any of the following to the extent in each case that there will be (or is likely to be) a delay in completion of the Facilities and/or the Retained Estate Handback Infrastructure:
- 29.3.1 the occurrence of a Qualifying Change in relation to which it has been agreed or determined that the implementation of the Board Change would delay the completion of the Facilities and/or the Retained Estate Handback Infrastructure;
- 29.3.2 any breach by the Board and/or any Board Party of any of the Board's express obligations under this Agreement to the extent in each case that any such breach is not caused, or contributed to, by Project Co or any Project Co Party;
- 29.3.3 the execution of works on the Site not forming part of this Agreement by the Board or any contractors employed by the Board;
- 29.3.4 opening up of the Works pursuant to Clauses 13.3 to 13.7 (inclusive) where such Works are not subsequently found to be defective (unless it is agreed or determined in accordance with Schedule Part 20

(*Dispute Resolution Procedure*) that the opening up of the Works was reasonable in the light of other defects previously discovered by the Board);

- 29.3.5 Force Majeure;
  - 29.3.6 a Relief Event; or
  - 29.3.7 a Relevant Change in Law referred to in Clause 32.3.1 (*Discriminatory Change in Law*) and Clause 32.3.2 (*Specific Change in Law*);
  - 29.3.8 the occurrence or circumstances deemed to be a Compensation Event pursuant to Clause 10.4;
  - 29.3.9 an instruction by the Board's Representative to Project Co to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1.1 (*Board's right to stop Project Operations during the Project Term*) where it is subsequently agreed or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) that the breach which the Board considered had given rise to a Stop Incident(s) had not occurred);
  - 29.3.10 an instruction by the Board's Representative to Project Co to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1.2 (*Board's right to stop Project Operations during the Project Term*);
  - 29.3.11 an instruction by the Board's Representative to Project Co to stop the relevant part or parts of the Project Operations pursuant to Clause 13A.1.3 (*Board's right to stop Project Operations during the Project Term*); or
  - 29.3.12 subject to Project Co complying with the mitigation measures set out within Section 4.3 (*Construction Methodology*) of Project Co's Proposals, the exercise of any of the Reserved Rights set out in paragraphs 12 and/or 13 and/or 14 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*).
- 29.4 Without prejudice to the generality of Clause 29 (*Delay Events*), Project Co shall give notice in writing to the Board's Representative as soon as it (or the Contractor) can reasonably foresee a Delay Event occurring or, if the same is not reasonably foreseeable, as soon as it (or the Contractor) shall become aware of a Delay Event. Project Co shall within ten (10) Business Days after such notification, give further written details to the Board's Representative which shall include:
- 29.4.1 a statement of which Delay Event the claim is based upon;
  - 29.4.2 details of the circumstances from which the Delay Event arises;
  - 29.4.3 details of the contemporary records which Project Co will maintain to

substantiate its claim for extra time;

- 29.4.4 details of the consequences (whether direct or indirect, financial or non-financial) which such Delay Event may have upon completion of the Facilities and the Retained Estate Handback Infrastructure; and
- 29.4.5 details of any measures which Project Co proposes to adopt to mitigate the consequences of such Delay Event.
- 29.5 As soon as possible but in any event within (five (5) Business Days of Project Co (or the Contractor) receiving, or becoming aware of, any supplemental information which may further substantiate or support Project Co's claim then, provided that the Completion Date has not otherwise already been revised pursuant to Clause 29.7, Project Co shall submit further particulars based on such information to the Board's Representative.
- 29.6 The Board's Representative shall, after receipt of written details under Clause 29.4, or of further particulars under Clause 29.5, be entitled by notice in writing to require Project Co to provide such further supporting particulars as he may reasonably consider necessary. Project Co shall afford the Board's Representative reasonable facilities for investigating the validity of Project Co's claim including, without limitation, onsite inspection.
- 29.7 Subject to the provisions of this Clause, the Board's Representative shall revise the Completion Date in accordance with Clause 29.1 (*Delay Events*) as soon as reasonably practicable and in any event within ten (10) Business Days of the later of:
- 29.7.1 the date of receipt by the Board's Representative of Project Co's notice given in accordance with Clause 29.4 and the date of receipt of any further particulars (if such are required under Clause 29.6), whichever is the later; and
- 29.7.2 the date of receipt by the Board's Representative of any supplemental information supplied by Project Co in accordance with Clause 29.5 and the date of receipt of any further particulars (if such are required under Clause 29.6), whichever is the later.
- If Project Co has failed to comply with the requirements as to the giving of notice under Clause 29.4, or has failed to maintain records or afford facilities for inspection to the Board's Representative, then Project Co shall not be entitled to any extension of time (and the Completion Date shall not be revised) in respect of any period of delay by Project Co in giving notice or providing information under Clause 29.4 and/or to the extent that its failure to maintain records or afford facilities for inspection to the Board's Representative has prevented the Board's Representative from assessing the consequences of the Delay Event.
- 29.8 If:
- 29.8.1 the Board's Representative declines to fix a revised Completion Date;

or

29.8.2 Project Co considers that a different Completion Date should be fixed;  
or

29.8.3 there is a disagreement as to whether a Delay Event has occurred,

then Project Co shall be entitled to refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

### Compensation

29.9 If the Delay Event is a Compensation Event Project Co's sole right to compensation shall be as provided for in Clauses 29.11 to 29.13 inclusive. To avoid doubt, no other Delay Event shall entitle Project Co to receive any compensation save as otherwise expressly provided in:

29.9.1 Schedule Part 16 (*Change Protocol*) in the case of a Delay Event referred to in Clause 29.3.1 (subject always to the provisions of Clause 32 (*Changes in Law*)); or

29.9.2 Clause 32 (*Changes in Law*) in the case of a Delay Event referred to in Clause 29.3.7.

29.10 For the purposes of Clause 29.9, a Compensation Event means:

29.10.1 any Delay Event referred to in Clause 29.3.2, Clause 29.3.3 or Clauses 29.3.4, 29.3.9, 29.3.10, 29.3.11 and 29.3.12 for which, in each case, it has been agreed or determined pursuant to this Clause 29 (*Delay Events*) that Project Co is entitled to an extension of time;

29.10.2 in the period prior to the Actual Completion Date, in circumstances where there is no delay in completion of the Facilities and the Retained Estate Handback Infrastructure any breach by the Board and/or any Board Party of any of the Board's express obligations under this Agreement to the extent that such breach is not caused, or contributed to, by Project Co or any Project Co Party;

29.10.3 the occurrence or circumstances deemed to be a Compensation Event pursuant to Clause 10.4; or

29.10.4 subject to Project Co complying with the mitigation measures set out within Section 4.3 (*Construction Methodology*) of Project Co's Proposals, the exercise of any of the Reserved Rights set out in paragraphs 12 and/or 13 and/or 14 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*).

29.11 Subject to Clause 29.12, if it is agreed, or determined, that there has been a Compensation Event, and Project Co has incurred loss (including loss of revenue)

and/or expense as a direct result of such Compensation Event, Project Co shall be entitled to such compensation as would place Project Co in no better or worse position than it would have been in had the relevant Compensation Event not occurred. Project Co shall promptly provide the Board's Representative with any additional information he may require in order to determine the amount of such compensation.

29.12 Project Co shall take all reasonable steps so as to minimise the loss and/or expense referred to in Clause 29.11 (and shall in the event that the Board is in breach of Clause 5.7 (*Board Works*) include the rearranging of programmed activities pursuant to the Programme but only to the extent that this causes Project Co minimal disruption and no critical delay to the Programme) in relation to any Compensation Event and any compensation payable shall:

29.12.1 exclude any amounts incurred or to be incurred as a result of any failure of Project Co (or any Project Co Party) to comply with this Clause 29.12; and

29.12.2 be reduced by any amount which Project Co has recovered or will recover under any insurance policy (or would have recovered if it had complied with the requirements of this Agreement or of any policy of insurance required under this Agreement) which amount, to avoid doubt, shall not include any excess or deductibles or any amount over the maximum amount insured applicable to any such insurance policy.

29.13 The amount of any compensation due to Project Co under Clause 29.11 shall be agreed between the parties or, failing agreement, determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) and such compensation shall be payable:

29.13.1 in respect of compensation for a Compensation Event to the extent resulting in Capital Expenditure being incurred the Board shall compensate Project Co for the actual Capital Expenditure incurred by Project Co within twenty (20) Business Days of its receipt of a written demand accompanied by a valid VAT invoice for the same by Project Co supported by all relevant information; and

29.13.2 in all other cases in accordance with Section 6 (*Changing the Financial Model*) of Schedule Part 16 (*Change Protocol*) as if a Relevant Event had taken place.

### **30. RELIEF EVENTS**

30.1 For the purposes of this Agreement, subject to Clause 30.4, Relief Events mean any of the following events:

30.1.1 fire, explosion, lightning, storm, tempest, flood, bursting or overflowing of water tanks, apparatus or pipes, ionising radiation (to the extent it does not constitute Force Majeure), earthquake, riot or civil commotion;

30.1.2 failure by any statutory undertaker, utility company, local authority or

other like body to carry out works or provide services;

- 30.1.3 accidental loss or damage to the Works and/or Facilities or any roads servicing the same;
- 30.1.4 without prejudice to any obligation of Project Co to provide stand-by power facilities in accordance with the Board's Construction Requirements, the Service Level Specification, failure or shortage of power, fuel or transport;
- 30.1.5 blockade or embargo falling short of Force Majeure;
- 30.1.6 the discovery of fossils, antiquities and human remains requiring action in accordance with Clause 19 (*Fossils and Antiquities*); or
- 30.1.7 official or unofficial strike, lockout, go slow or other dispute in each case generally affecting the construction, building maintenance or facilities management industry (or a significant sector of that industry),

provided in each case that such event does not arise (directly or indirectly) as a result of any wilful act or default of the party claiming relief and/or (i) in the case of Project Co claiming relief, any Project Co Party and (ii) in the case of the Board claiming relief, any Board Party.

- 30.2 Subject to Clauses 30.3 and 30.4, no right of termination shall arise under this Agreement by reason of any failure by a party to perform any of its obligations under this Agreement to the extent that such failure to perform occurs because of the occurrence of a Relief Event (and, to avoid doubt, and without prejudice to Clause 30.9, unless expressly stated to the contrary in this Agreement, it is acknowledged that all other rights and obligations of the parties under this Agreement remain unaffected by the occurrence of a Relief Event).
- 30.3 Without prejudice to Project Co's rights under Clause 29 (Delay Events), Project Co shall only be relieved of its obligations under Clauses 12 (*The Design, Construction and Commissioning Process*), 13 (*Right of Access of Board's Representative*), 14 (*Programme and Dates for Completion*), 17 (*Pre-Completion Commissioning and Completion*) and 29 (*Delay Events*) by Delay Events in accordance with Clause 29 (*Delay Events*).

### **Mitigation**

- 30.4 Where a party is (or claims to be) affected by a Relief Event:
  - 30.4.1 it shall take all reasonable steps to mitigate the consequences of such an event upon the performance of its obligations under this Agreement, resume performance of its obligations affected by the Relief Event as soon as practicable and use all reasonable endeavours to remedy its failure to perform; and
  - 30.4.2 it shall not be entitled to rely upon the relief afforded to it pursuant to

Clause 30.2 of this Agreement to the extent that it is not able to perform, or has not in fact performed, its obligations under this Agreement due to its failure (if any) to comply with its obligations under Clause 30.4.1 above.

- 30.5 The party claiming relief shall serve written notice on the other party within five (5) Business Days of it becoming aware of the relevant Relief Event. Such initial notice shall give sufficient details to identify the particular event claimed to be a Relief Event.
- 30.6 A subsequent written notice shall be served by the party claiming relief on the other party within a further five (5) Business Days of the notice referred to in Clause 30.5 which shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including (without limitation) the effect of the Relief Event on the ability of the party to perform, the action being taken in accordance with Clause 30.4, the date of the occurrence of the Relief Event and an estimate of the period of time required to overcome it (and/or its effects).
- 30.7 The party claiming relief shall notify the other as soon as the consequences of the Relief Event have ceased and of when performance of its affected obligations can be resumed.
- 30.8 If, following the issue of any notice referred to in Clause 30.6, the party claiming relief receives or becomes aware of any further information relating to the Relief Event (and/or any failure to perform), it shall submit such further information to the other party as soon as reasonably possible.
- 30.9 To avoid doubt, the occurrence of a Relief Event shall not entitle Project Co to any compensation.

## **31. FORCE MAJEURE**

- 31.1 For the purposes of this Agreement, Force Majeure means any of the following events or circumstances:
- 31.1.1 war, civil war, armed conflict or terrorism; or
- 31.1.12 nuclear contamination unless in any case Project Co and/or any Project Co Party is the source or the cause of the contamination; or
- 31.1.3 chemical or biological contamination of the Works and/or the Facilities and/or the Site from any of the events referred to in Clause 31.1.1 above; or
- 31.1.4 pressure waves caused by devices travelling at supersonic speeds,

which directly causes either party to be unable to comply with all or a material part of its obligations under this Agreement.

- 31.2 Subject to Clauses 31.3 and 31.4 the party claiming relief shall be relieved from liability under this Agreement to the extent that by reason of the Force Majeure it is not able to perform its obligations under this Agreement. For the avoidance of doubt (but without prejudice to Clause 41 (*Termination Resulting from Force Majeure*)) the Board shall not be entitled to terminate this Agreement for a Project Co Event of Default if such Project Co Event of Default arises from a Force Majeure Event.
- 31.3 Where a party is (or claims to be) affected by an event of Force Majeure:
- 31.3.1 it shall take all reasonable steps to mitigate the consequences of such an event upon the performance of its obligations under this Agreement, resume performance of its obligations affected by the event of Force Majeure as soon as practicable and use all reasonable endeavours to remedy its failure to perform; and
- 31.3.2 it shall not be relieved from liability under this Agreement to the extent that it is not able to perform, or has not in fact performed, its obligations under this Agreement due to its failure (if any) to comply with its obligations under Clause 31.3.1.
- 31.4 Without prejudice to Project Co's rights under Clause 29 (*Delay Events*), Project Co shall only be relieved from its obligations under Clauses 12 (*The Design, Construction and Commissioning Process*), 13 (*Right of Access of Board's Representative*), 14 (*Programme and Dates for Completion*) and 29 (*Delay Events*) by Delay Events in accordance with Clause 29 (*Delay Events*).
- 31.5 The party claiming relief shall serve written notice on the other party within five (5) Business Days of it becoming aware of the relevant event of Force Majeure. Such initial notice shall give sufficient details to identify the particular event claimed to be an event of Force Majeure.
- 31.6 A subsequent written notice shall be served by the party claiming relief on the other party within a further five (5) Business Days which shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including (without limitation) the effect of the event of Force Majeure on the ability of the party to perform, the action being taken in accordance with Clause 31.3, the date of the occurrence of the event of Force Majeure and an estimate of the period of time required to overcome it (and/or its effects).
- 31.7 The party claiming relief shall notify the other as soon as the consequences of the event of Force Majeure have ceased and of when performance of its affected obligations can be resumed.
- 31.8 If, following the issue of any notice referred to in Clause 31.6, the party claiming relief receives or becomes aware of any further information relating to the event of Force Majeure (and/or any failure to perform), it shall submit such further information to the other party as soon as reasonably possible.
- 31.9 Nothing in this Clause 31 shall affect the Board's entitlement to make Deductions in the period during which any event of Force Majeure is subsisting.

- 31.10 The parties shall endeavour to agree any modifications to this Agreement which may be equitable having regard to the nature of an event or events of Force Majeure. Schedule Part 20 (*Dispute Resolution Procedure*) shall not apply to a failure of the Board and Project Co to reach agreement pursuant to this Clause 31.10.

## PART 8: CHANGES IN LAW & CHANGES

### 32. CHANGES IN LAW

#### General

32.1 Project Co shall take all steps necessary to ensure that the Project Operations are performed in accordance with the terms of this Agreement (including, without limitation, Clause 5.2.1 (*General Standards*)) following any Change in Law.

#### Relevant Changes in Law

32.2 Subject to Clause 32.4.3(e) and Clause 32.4.3(f) and on the occurrence of any Relevant Change in Law, the parties shall be entitled to seek adjustments to the Annual Service Payments to compensate for any increase or decrease (as the case may be) in the net cost to Project Co of performing the Project Operations. Such adjustments (if any) will be calculated in accordance with and subject to Clause 32.4.

32.3 Relevant Change in Law means any of the following:

- 32.3.1 the occurrence of any Discriminatory Change in Law having an impact on the cost of performance of the Project Operations;
- 32.3.2 the occurrence of any Specific Change in Law having an impact on the cost of performance of the Project Operations; or
- 32.3.3 the occurrence, after the relevant date, of any Change in Law which requires any work of alteration, addition, demolition or extension or variation in the quality or function of the Facilities which is not Maintenance Work, Lifecycle Replacement or other work which, in each case, Project Co would (had such Change in Law not taken effect) otherwise be required to undertake to comply with its obligations under this Agreement. For the purposes of this Clause 32.3.3, the relevant date shall be the later to occur of the Completion Date and the Actual Completion Date, save where the Actual Completion Date is delayed by a Compensation Event, a Delay Event referred to in Clause 29.3.1 or by a Delay Event referred to in Clause 29.3.7, in which case the relevant date shall be the later to occur of the Completion Date and the date on which the Works would have been completed in accordance with this Agreement had the relevant Compensation Event or Delay Event not occurred,

provided that:

- (a) such Change in Law (or, in the case of a Specific Change in Law, change to a NHS Requirement, as the case may be) was not reasonably foreseeable at the date of this Agreement by an experienced contractor performing operations similar to the relevant the Project Operations, on the basis of draft bills published in Government green or white papers or other Government departmental

consultation papers, bills, draft statutory instruments or draft instruments or proposals published in the Official Journal of the European Union, in each case published:

- (i) prior to the date of this Agreement; and
  - (ii) in substantially the same form or having substantially the same effect as the Relevant Change in Law; and
- (b) a Change in Law relating to the application for, coming into effect, terms, implementation, repeal, revocation or otherwise of any Planning Permission shall not constitute a Relevant Change in Law.

32.4 On the occurrence of a Relevant Change in Law:

32.4.1 either party may give notice to the other of the occurrence of the Relevant Change in Law;

32.4.2 the parties shall meet within fifteen (15) Business Days of the notice referred to in Clause 32.4.1 to consult and seek to agree the effect of the Relevant Change in Law. If the parties, within ten (10) Business Days of this meeting, have not agreed the occurrence or the effect of the Relevant Change in Law, either party may refer the question of whether a Relevant Change in Law has occurred or the effect of any Relevant Change in Law for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*); and

32.4.3 within five (5) Business Days of the agreement or determination referred to in Clause 32.4.2 above, the Board's Representative shall issue a Board Change Notice and the relevant provisions of Schedule Part 16 (*Change Protocol*) shall apply except that:

- (a) Project Co may give notice to the Board's Representative that it objects to such a Board Change Notice only on the grounds that the implementation of the Change would not give effect to or comply with the Relevant Change in Law;
- (b) the Board shall (i) agree the implementation of the Low Value Change, or (ii) confirm the estimate for the Medium Value Change, or (iii) approve the High Value Change Stage 2 Submission, (as appropriate) in respect of the Change in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*);
- (c) the provisions of Clause 11 (*Consents and Planning Approval*) shall apply;
- (d) the Board shall not be entitled to withdraw any Board Change Notice or its agreement as to the implementation of

the Low Value Change, confirmation of an estimate for the Medium Value Change or approval of a High Value Change Stage 2 Submission (as appropriate), issued in accordance with this Clause 32.4;

- (e) Project Co shall, without prejudice to its general obligation to comply with the terms of this Agreement:
  - (i) use all reasonable endeavours to mitigate the adverse effects of any Relevant Change in Law and take all reasonable steps to minimise any increase in costs arising from such Relevant Change in Law; and
  - (ii) use all reasonable endeavours to take advantage of any positive or beneficial effects of any Relevant Change in Law and take all reasonable steps to maximise any reduction in costs arising from such Relevant Change in Law; and
- (f) any compensation payable, or reduction to the Annual Service Payments, shall be calculated in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*) provided that:
  - (i) the amount of any compensation payable; or
  - (ii) the amount by which the Annual Service Payment is to be reduced,

shall not take into account any amounts incurred or to be incurred as a result of Project Co's failure to comply with Clause 32.4.3(e) above.

### **General Change in Law**

32.5 Either party may give notice to the other of the need for a Change which is necessary in order to enable Project Co to comply with any Change in Law which is not a Relevant Change in Law, in which event:

32.5.1 the parties shall meet within fifteen (15) Business Days to consult and seek to agree the effect of the Change in Law and any Change required as a consequence. If the parties, within ten (10) Business Days of this meeting, have not agreed the occurrence or the effect of the relevant Change in Law, either party may refer the question of whether a Change in Law has occurred or the effect of the Change in Law for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*); and

32.5.2 within twenty (20) Business Days of the agreement or determination referred to in Clause 32.5.1 above the Board's Representative shall, if

it is agreed or determined that a Change is required in order to comply with the Change in Law, issue a Board Change Notice and the relevant provisions of Schedule Part 16 (*Change Protocol*) shall apply except that:

- (a) Project Co may give notice to the Board's Representative that it objects to such a Board Change Notice only on the grounds that the implementation of the Change would not give effect to or comply with the Change in Law;
- (b) the Board shall (i) agree the implementation of the Low Value Change; or (ii) confirm the estimate for the Medium Value Change; or (iii) approve the High Value Change Stage 2 Submission, (as appropriate) in respect of the Change in accordance with the relevant provisions of Schedule Part 16 (*Change Protocol*);
- (c) the provisions of Clause 11 (*Consents and Planning Approval*) shall apply;
- (d) the Board shall not be entitled to withdraw any Board Change Notice or its (i) agreement as to the implementation of the Low Value Change; or (ii) confirmation of an estimate for the Medium Value Change; or (iii) approval of a High Value Change Stage 2 Submission (as appropriate), issued in accordance with this Clause 32.5 (*General Changes in Law*); and
- (e) Project Co shall not be entitled to any payment or other compensation or relief from any performance of its obligations under this Agreement in respect of such Change in Law or associated Change (or the consequences of either).

### **33. CHANGE PROTOCOL**

The provisions of Schedule Part 16 (*Change Protocol*) shall have effect in respect of Changes except as otherwise expressly provided in this Agreement.

## PART 9: FINANCIAL

## 34. PAYMENT

**Service Payments**

34.1 Project Co shall not be entitled to receive any Monthly Service Payments until the Payment Commencement Date. Subject to the provisions of this Agreement, the Board shall pay Project Co the Monthly Service Payments in respect of each Contract Month following the Payment Commencement Date in accordance with the provisions of Schedule Part 14 (*Payment Mechanism*).

**Invoicing and payment arrangements**

34.2 The provisions of this Clause 34.2 apply to the issue of invoices in respect of the Monthly Service Payment by Project Co under this Agreement:

34.2.1 On or before the first day of each Contract Month Project Co shall submit to the Board an invoice ("**Monthly Invoice**") aggregating the following:

- (a) the Monthly Service Payment for that Contract Month, calculated in accordance with Section 2 (*Calculation of Service Payments*) of Schedule Part 14 (*Payment Mechanism*);
- (b) adjustments to reflect previous over-payments and/or under-payments (each adjusted stated separately);
- (c) any other amounts due by one party to the other (and where owed by Project Co showing as a negative figure);
- (d) any VAT payable in respect of the above amounts;
- (e) Not Used;
- (f) as a negative figure, in respect of the Monthly Invoice issued during the final Contract Month only, an amount equivalent to twice the monthly average of the Deductions incurred in the previous six (6) Contract Months ("**Estimated Deductions**"),

and setting out the date of the invoice, the due date for payment of the invoice and the account to which payment is to be made together with supporting information that clearly sets out the derivation and calculation of amounts referred to in the Monthly Invoice.

34.2.2 Subject to Clauses 34.2.3 and 34.3 and the submission of the

supporting information referred to in Clause 34.2.1, where a Monthly Invoice shows a net amount owed by the Board to Project Co, the Board shall pay the amount of the Monthly Invoice within ten (10) Business Days of its submission and delivery of a valid VAT invoice in respect thereof. Where a Monthly Invoice shows a net amount owed by Project Co to the Board, Project Co shall pay that amount to the Board within ten (10) Business Days of the Monthly Invoice or, at the option of the Board, carry forward that amount to the next Monthly Invoice to reduce amounts which would otherwise be owed by the Board to Project Co.

- 34.2.3 Within ten (10) Business Days of the Expiry Date, Project Co shall provide to the Board a Performance Monitoring Report in respect of the final two Contract Months. If the Deductions incurred in the final two Contract Months exceed the Estimated Deductions, Project Co shall pay to the Board an amount equal to the excess within ten (10) Business Days of receipt of an invoice therefor. If the Estimated Deductions exceed the Deductions incurred in the final two Contract Months the Board shall pay to Project Co an amount equal to the excess within ten (10) Business Days of receipt of an invoice therefor.
- 34.2.4 On or before the tenth (10<sup>th</sup>) day of each Contract Month Project Co shall submit to the Board a Monthly Service Report in respect of the immediately preceding Contract Month. The Monthly Service Report shall set out, in respect of the immediately preceding Contract Month:
- (a) details of each and the aggregate amount of all Deductions incurred in relation to Performance Failures;
  - (b) details of each and the aggregate amount of all Deductions incurred in relation to Availability Failures;
  - (c) other information detailed in Schedule Part 12 (*Service Requirements*).
- 34.2.5 The parties shall endeavour to agree the contents of a Monthly Service Report within ten (10) Business Days of its submission in accordance with Clause 34.2.4, failing which either party may refer the matter to the Dispute Resolution Procedure.

### **Manner of payment**

- 34.3 All invoices under this Agreement shall be raised in Pounds Sterling and the money of account and money of payment in respect of all payments, liabilities and claims (including any accrued rights) under this Agreement at any time shall remain denominated in Pounds Sterling. All payments under this Agreement shall be made in Pounds Sterling by electronic transfer of funds for value on the day in question to the bank account of the recipient (located in the United Kingdom) specified in the relevant invoice, quoting the invoice number against which payment is made.

### **Disputes**

- 34.4 If the Board (acting in good faith) disputes all or any part of the Monthly Service Payments calculated in accordance with Clause 34.2 (*Invoicing and Payment Arrangements*), the undisputed amount of the Monthly Service Payment shall be paid by the Board in accordance with Clause 34.2 (*Invoicing and Payment Arrangements*) and the provisions of this Clause 34.4 shall apply. The parties shall use all reasonable endeavours to resolve the dispute in question within ten (10) Business Days of the dispute arising. If they fail so to resolve it, either party may refer the matter to the Dispute Resolution Procedure. Following resolution of the dispute, any amount agreed or determined to have been payable shall be paid forthwith by the Board to Project Co, together with interest on such amount calculated in accordance with Clause 34.5 (*Late Payments*).

#### **Late Payments**

- 34.5 Each party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not duly made pursuant to the terms of this Agreement on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate and including from the day after the date on which payment was due up to and including the date of payment.

#### **Set-Off**

- 34.6 Subject to Clause 46.12 (*Rights of Set-Off*), whenever any sum of money shall be agreed, or determined, as due and payable by Project Co to the Board, such sum may at the Board's discretion be deducted from or applied to reduce the amount of any sum then due, or which at any time afterwards may become due, to Project Co from the Board under this Agreement provided that the Board has given Project Co not less than five (5) Business Days' notice of its intention to deduct or apply such sum.
- 34.7 Whenever any sum of money shall be agreed, or determined, as due and payable by the Board to Project Co, such sum may at Project Co's discretion be deducted from or applied to reduce the amount of any sum then due, or which at any time afterwards may become due, from Project Co to the Board under this Agreement provided that Project Co has given the Board not less than five (5) Business Days' notice of its intention to deduct or apply such sum.

### **35. VAT AND CONSTRUCTION INDUSTRY TAX DEDUCTION SCHEME**

#### **VAT**

- 35.1 All amounts stated to be payable by either party under this Agreement shall be exclusive of any VAT properly chargeable on any amount.
- 35.2 Each party shall pay to the other party any VAT properly chargeable on any supply made to it under this Agreement provided that it shall first have received from the other party a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.
- 35.3 If either party (referred to in this Clause as the "**First Party**") shall consider that any VAT which the other party (referred to in this Clause as the "**Second Party**") claims to be properly chargeable to the First Party in connection with this

Agreement is not in fact properly so chargeable, the First Party shall be entitled to require the Second Party to obtain a ruling from the Commissioners for Customs and Excise (or, if relevant, such other body as is charged at the time with the collection and management of VAT) (referred to in this Clause as the "**Commissioners**") as to the VAT (if any) properly so chargeable. The Second Party shall forthwith request the Commissioners for such a ruling.

- 35.4 The following further provisions shall apply in respect of the application for a ruling in accordance with Clause 35.3:
- 35.4.1 prior to submitting its request for such a ruling and any further communication to the Commissioners in connection with the obtaining of the ruling, the Second Party shall first obtain the agreement of the First Party to the contents of such request and any such further communication, such agreement not to be unreasonably withheld or delayed;
- 35.4.2 the Second Party shall provide to the First Party copies of all communications received from the Commissioners in connection with the application for a ruling as soon as practicable after receipt; and
- 35.4.3 the Second Party shall use all reasonable endeavours (including without limitation the provision of such additional information as the Commissioners may require) to obtain such a ruling as soon as reasonably practicable following the initial request.
- 35.5 If a ruling is required by the First Party under Clause 35.3, the First Party shall not be obliged to pay the VAT so claimed by the Second Party unless and until a ruling is received from the Commissioners which states that a sum of VAT (the "**VAT Sum**") is properly so chargeable or the Commissioners state that they are not prepared to give any ruling on the matter. In this case, then subject to Clauses 35.6 and 35.7 and provided that the First Party shall first have received a valid tax invoice which complies with the requirements of Part III VAT Regulations 1995 and which states the VAT Sum to be the amount of VAT chargeable to the First Party, the First Party shall pay the VAT Sum (and any interest or penalties attributable to the VAT Sum) to the Second Party.
- 35.6 If the First Party disagrees with any ruling obtained pursuant to Clause 35.3 by the Second Party from the Commissioners, then the Second Party (provided that it is indemnified to its reasonable satisfaction against all costs and expenses including interest and penalties which it may incur in relation thereto) shall take such action and give such information and assistance to the First Party as the First Party may require to challenge such ruling or otherwise to resist or avoid the imposition of VAT on the relevant supply.
- 35.7 The following further provisions shall apply if the First Party shall exercise its rights under Clause 35.6:
- 35.7.1 the action which the First Party shall be entitled to require the Second Party to take shall include (without limitation) contesting any assessment to VAT or other relevant determination of the Commissioners before any VAT tribunal or court of competent jurisdiction and appealing any judgement or decision of any such tribunal or court;

- 35.7.2 if the Second Party shall be required to pay to or deposit with the Commissioners a sum equal to the VAT assessed as a condition precedent to its pursuing any appeal, the First Party shall, at its election, either pay such sum to the Commissioners on behalf of the Second Party or on receipt of proof in a form reasonably satisfactory to the First Party that the Second Party has paid such sum to or deposited such sum with the Commissioners the First Party shall pay such sum to the Second Party;
- 35.7.3 save as specifically provided in Clause 35.5, the First Party shall not be obliged to pay to the Second Party any sum in respect of the VAT in dispute to the Second Party or in respect of VAT on any further supplies made by the Second Party to the First Party which are of the same type and raise the same issues as the supplies which are the subject of the relevant dispute unless and until the final outcome of the relevant dispute is that it is either determined or agreed that VAT is properly chargeable on the relevant supply or supplies; and
- 35.7.4 the Second Party shall account to the First Party for any costs awarded to the Second Party on any appeal, for any sum paid to or deposited with the Commissioners in accordance with Clause 35.7.2 which is repayable to the Second Party and for any interest to which the Second Party is entitled in respect of such sums.

#### **Changes in recoverability of VAT**

- 35.8 Subject to Clause 35.9, if, following a Change in Law, Project Co becomes unable to recover VAT attributable to supplies to be made to the Board by Project Co pursuant to this Agreement, the Board shall ensure that Project Co is left in no better and no worse position than it would have been had such Change in Law not occurred (including but not limited to making such amendments to this Agreement as Project Co and the Board shall agree acting reasonably), provided that Project Co shall use all reasonable endeavours to mitigate the adverse effects of any such Change in Law.
- 35.9 The provisions of Clause 35.8 shall apply only if (and to the extent that) the Change in Law was not reasonably foreseeable at the date of this Agreement by an experienced contractor performing operations similar to the relevant Works on the basis of draft bills published in Government green or white papers or other Government departmental consultation papers, bills, draft statutory instruments or draft instruments or proposals published in the Official Journal of the European Union, in each case published:
- 35.9.1 prior to the date of this Agreement; and
- 35.9.2 in substantially the same form as the Change in Law.

#### **Construction Industry Tax Deduction Scheme**

- 35.10 This Clause 35.10 (*Construction Industry Tax Deduction Scheme*) relates to the Construction Industry Tax Deduction Scheme:

- 35.10.1 In this Clause 35.10 (*Construction Industry Tax Deduction Scheme*) (but not otherwise):
- (a) "**the Act**" means the Finance Act 2004;
  - (b) "**the Regulations**" means the Income Tax (Construction Industry Scheme) Regulations 2005 (SI 2005/2045);
  - (c) "**the Legislation**" means Chapter 3 Part 3 of the Act and the Regulations, taken together;
  - (d) "**Contractor**" means a person who is a contractor for the purposes of Chapter 3 Part 3 of the Act; and
  - (e) "**sub-contractor**" means a person who is a sub-contractor for the purposes of Chapter 3 Part 3 of the Act.
- 35.10.2 Each of the Board and Project Co shall comply with the Legislation.
- 35.10.3 If any payment due from the Board to Project Co under this Agreement is a contract payment under section 60(1) of the Act, then the Board, as Contractor, shall (not later than fifteen (15) Business days before the first such payment is due to be made) verify, in accordance with paragraph 6 of the Regulations, whether the sub-contractor is registered for gross payment or for payment under deduction or is not registered under Chapter 3 Part 3 of the Act.
- 35.10.4 If any payment due from the Board to Project Co under this Agreement is a contract payment under section 60(1) of the Act, then:
- (a) if Project Co is registered for gross payment under section 63(2) of the Act, the Board shall make a payment to Project Co without any deduction;
  - (b) if Project Co is not registered for gross payments under section 63(2) of the Act, the Board shall make a payment to Project Co, subject to the deduction of the relevant percentage in accordance with section 61(1) of the Act, and thereupon Clause 35.10.6 below shall apply.
- 35.10.5 If any dispute arises between the Board and Project Co as to whether any payment due by the Board to Project Co under this Agreement is or is not a contract payment by virtue of the exemption in Regulation 23 of the Regulations, the parties will jointly apply to HM Revenue and Customs for a written ruling and until such ruling is received it shall be assumed that such payment is a contract payment and the provisions of Clause 35.10 (*Construction Industry Tax Deduction Scheme*) shall apply accordingly.
- 35.10.6 The Board shall be entitled to make a deduction at the rate specified in

section 61(1) of the Act or at such other rate as may be in force from time to time from the whole of any payment to Project Co (and not just that part of such payment which does not represent the direct cost to Project Co or any other person of materials used or to be used in carrying out the construction operations to which the relevant payment relates) unless prior to making such payment the Board shall have received written confirmation from HM Revenue and Customs (obtained by and at the expense of Project Co) in a form which is reasonably satisfactory to the Board directing the Board to make the deduction against only a specified amount or proportion of any such payment to Project Co.

35.10.7 Where any error or omission has occurred in calculating or making any payment under this Clause 35.10 (*Construction Industry Tax Deduction Scheme*) then:

- (a) in the case of an over deduction, the Board shall correct that error by repayment of the sum over deducted to Project Co; and
- (b) in the case of an under deduction, Project Co shall correct that error or omission by repayment of the sum under deducted to the Board.

35.10.8 The Board shall send promptly to H M Revenue & Customs any returns required by the Legislation, and shall provide to Project Co a payment statement (where appropriate) and/or such other information as may be required by the Legislation in relation to any contract payment.

35.10.9 If compliance with this Clause 35.10 involves the Board or Project Co in not complying with any other of the terms of this Agreement, then the provisions of this Clause shall prevail.

## **36. PAYMENT OF SURPLUSES AND COMPLIANCE WITH NPD REQUIREMENTS**

Project Co shall:

36.1 subject to the provisos, obligations and restrictions contained in its Articles of Association, pay the Surplus available as at each Surplus Payment Date to the Board (as a rebate of the Monthly Service Payments for the Contract Year most recently ended prior to the relevant Surplus Date) or to such other party as the Board may in its absolute discretion direct, in either case within thirty (30) Business Days of the relevant Surplus Payment Date; and

36.2 comply with the NPD Requirements at all times throughout the Project Term.

## **37. FINANCIAL MODEL**

37.1 Unless otherwise agreed between the parties, any amendments to the Financial Model shall reflect, be consistent with and be made only in accordance with the

provisions of this Agreement, and shall in all cases be subject to the prior written approval of the Board (such approval not to be unreasonably withheld or delayed). In the event that the parties fail to agree any proposed amendments to the Financial Model, the matter shall be referred for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

- 37.2 Following any amendment of the Financial Model in accordance with this Agreement, Project Co shall promptly deliver a copy of the revised Financial Model to the Board in the same form as the original form (or such other form as may be agreed by the parties from time to time).

## 38. RECORDS AND OPEN BOOK ACCOUNTING

### Records and Reports

The provisions of Schedule Part 19 (*Record Provisions*) shall apply to the keeping of records and the making of reports.

## PART 10: TERMINATION

## 39. BOARD EVENTS OF DEFAULT

- 39.1 For the purposes of this Agreement, Board Events of Default means any of the following events or circumstances:
- 39.1.1 the Board is in material breach of its obligations under Clause 9 (*Nature of Land Interests*) (other than as a consequence of a breach by Project Co of its obligations under this Agreement) and such breach materially adversely affects the ability of Project Co to perform its material obligations under this Agreement for a continuous period of not less than thirty (30) Business Days; or
  - 39.1.2 the Board fails to pay any sum or sums due to Project Co under this Agreement (which sums are not in dispute) which, either singly or in aggregate, exceed(s) the amount of the Monthly Service Payment from time to time and such failure continues for thirty (30) Business Days from receipt by the Board of a notice of non payment from Project Co;
  - 39.1.3 the Board is in breach of its obligations under Clause 57.4 (*Assignment*); or
  - 39.1.4 an Adverse Law or a Proposal for an Adverse Law being made.
  - 39.1.5 an expropriation, sequestration or requisition of a material part of the Assets and/or shares of Project Co or Hold Co by the Board or a Relevant Authority.

### Project Co's options

- 39.2 On the occurrence of a Board Event of Default, or within a reasonable time after Project Co becomes aware of the same, and while the same is still subsisting, Project Co may, at its option:
- 39.2.1 in respect of execution of the Works, suspend performance by it of its obligations under this Agreement until such time as the Board shall have demonstrated to the reasonable satisfaction of Project Co that it is capable of performing, and will perform, its obligations under this Agreement; or
- 39.2.2 serve notice on the Board (or such other party as may be notified in advance in writing by the Board to Project Co) of the occurrence (and specifying details) of such Board Event of Default. If the relevant matter or circumstance has not been rectified or remedied by the Board (or otherwise) in respect of Clause 39.1.1, Clause 39.1.3 or Clause 39.1.5 within sixty (60) Business Days of such notice, and in respect of Clause 39.1.2 within thirty (30) Business Days of such notice, Project Co may serve a further notice on the Board (or its substitute notified in accordance with this Clause 39.2.2) terminating this Agreement with immediate effect.
- 39.3 Project Co shall not exercise or purport to exercise any right to terminate this Agreement (or accept any repudiation of this Agreement) except as expressly set out in this Agreement.

#### **40. PROJECT CO EVENT OF DEFAULT**

##### **Project Co Event of Default**

- 40.1 For the purposes of this Agreement, Project Co Event of Default means any of the following events or circumstances:

##### **Insolvency**

- 40.1.1 the occurrence of any of the following events in respect of Project Co, namely:
- (a) any arrangement or composition with or for the benefit of creditors (including any voluntary arrangement as defined in the Insolvency Act 1986) being entered into by or in relation to Project Co;
  - (b) a receiver, administrator, administrative receiver or other encumbrancer taking possession of or being appointed over, or any distress, execution or other process being levied or enforced (and not being discharged within ten (10) Business Days) upon, the whole or any material part of the assets of Project Co;
  - (c) Project Co ceasing to carry on business;

- (d) a petition being presented (and not being discharged within twenty (20) Business Days), or a resolution being passed or an order being made for the administration or the winding up, bankruptcy or dissolution of Project Co; or
- (e) if Project Co shall suffer any event analogous to the events set out in Clauses 40.1.1(a) to (d) in any jurisdiction in which it is incorporated or resident.

### Long stop

- 40.1.2 Project Co failing to achieve the Actual Completion Date within a period of eighteen (18) months after the Completion Date;

### Default

#### 40.1.3

- (a) Project Co committing a material breach of its obligations under this Agreement which has a material and adverse effect on the delivery of the Board Services (other than as a consequence of a breach by the Board of its obligations under this Agreement);
- (b) Project Co wilfully breaches Schedule Part 23 (*Refinancing*);

- 40.1.4 Project Co abandoning this Agreement;

### Health and safety

- 40.1.5 at any time after the Actual Completion Date Project Co committing a material breach of its obligations under this Agreement (other than as a consequence of a breach by the Board of its obligations under this Agreement) which results in the criminal investigation, prosecution and conviction of Project Co or any Project Co Party or the Board under the Health and Safety Regime (a "**H&S Conviction**") provided that an H&S Conviction of a Project Co Party or the Board shall not constitute a Project Co Event of Default if, within ninety (90) Business Days from the date of the H&S Conviction (whether or not the H&S Conviction is subject to an appeal or any further judicial process), the involvement in the Project Operations of each relevant Project Co Party (which in the case of an individual director, officer or employee shall be deemed to include the Project Co Party of which that person is a director, officer or employee) is terminated and a replacement is appointed by Project Co in accordance with Clause 57.5 (*Sub contracting*);

In determining whether to exercise any right of termination or right to require the termination of the engagement of a Project Co Party pursuant to this Clause 40.1.5, the Board shall:

- (a) act in a reasonable and proportionate manner having regard to such matters as the gravity of any offence and the identity of the person committing it; and
- (b) give all due consideration, where appropriate, to action other than termination of this Agreement;

### **Change in Control**

- 40.1.6 the occurrence of any Change in Control which is prohibited by Clause 58 (*Ownership Information and Changes in Control*);

### **Assignment**

- 40.1.7 Project Co failing to comply with the provisions of Clauses 57.2 or 57.5 (*Assignment*);

### **Deductions**

- 40.1.8 in each of any three Contract Months in any six (6) consecutive Contract Months Project Co has suffered Deductions equal to or greater than 0.411 percent of the Annual Service Payment for the current Contract Year; or

### **Warning Notices**

- 40.1.9 Project Co is awarded a total of five (5) or more Warning Notices in any period of twelve (12) consecutive months; or

### **Payment**

- 40.1.10 Project Co failing to pay any sum or sums due to the Board under this Agreement (which sums are not in dispute) which, either singly or in aggregate, exceed(s) one hundred and fifty thousand pounds (£150,000) (index linked) and such failure continues for sixty (60) Business Days from receipt by Project Co of a notice of non payment from the Board; or

### **Insurance**

- 40.1.11 a breach by Project Co of its obligation to take out and maintain the insurances required by Clauses 53.1 and 53.2 (*Project Co Insurances*).

### **Notification**

- 40.2 Project Co shall notify the Board of the occurrence, and details, of any Project Co

Event of Default and of any event or circumstance which is likely, with the passage of time or otherwise, to constitute or give rise to a Project Co Event of Default, in either case promptly on Project Co becoming aware of its occurrence.

### Board's options

- 40.3 On the occurrence of a Project Co Event of Default, or within a reasonable time after the Board becomes aware of the same, and while the same is subsisting, the Board may:
- 40.3.1 in the case of the Project Co Events of Default referred to in Clauses 40.1.1 (*Insolvency*), 40.1.2 (*Long Stop*), 40.1.3(b) (*Default*), 40.1.5 (*Health and Safety*), 40.1.6 (*Change in Control*), 40.1.7 (*Assignment*), 40.1.8 (*Deductions*) 40.1.9 (*Warning Notices*) or 40.1.10 (*Payment*), terminate this Agreement in its entirety by notice in writing having immediate effect;
- 40.3.2 in the case of any Project Co Event of Default referred to in Clause 40.1.3(a) (*Default*) and 40.1.4 (*Default*), serve notice of default on Project Co requiring Project Co at Project Co's option either:
- (a) to remedy the Project Co Event of Default referred to in such notice of default (if the same is continuing) within twenty (20) Business Days of such notice of default; or
- (b) to put forward within twenty (20) Business Days of such notice of default a reasonable programme (set out, if appropriate, in stages) for remedying the Project Co Event of Default. The programme shall specify in reasonable detail the manner in, and the latest date by, which such Project Co Event of Default is proposed to be remedied (Project Co shall only have the option of putting forward a programme in accordance with this Clause 40.3.2(b) if it first notifies the Board within ten (10) Business Days of such notice of default that it proposes to do so); and
- 40.3.3 in the case of any Project Co Event of Default referred to in Clause 40.1.11 (*Insurance*) serve notice of default on Project Co requiring Project Co to remedy the Project Co Event of Default (if the same is continuing) within twenty (20) Business Days of such notice of default.

### Remedy provisions

- 40.4 Where Project Co puts forward a programme in accordance with Clause 40.3.2(b), the Board shall have twenty (20) Business Days from receipt of the same within which to notify Project Co (acting reasonably) that it does not accept the programme, failing which the Board shall be deemed to have accepted the programme. Where the Board notifies Project Co that it does not accept the programme as being reasonable, the parties shall endeavour within the following five (5) Business Days to agree any necessary amendments to the programme put forward. In the absence of agreement within five (5) Business Days, the question of whether the programme (as the same may have been amended by agreement) will remedy the Project Co Event of Default in a reasonable manner and within a

reasonable time period (and, if not, what would be a reasonable programme) may be referred by either party for resolution in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

- 40.5 If:
- 40.5.1 the Project Co Event of Default notified in a notice of default served under Clause 40.3.2 or Clause 40.3.3 (as the case may be) is not remedied before the expiry of the period referred to in Clause 40.3.2(a) or Clause 40.3.3 (as appropriate); or
  - 40.5.2 where Project Co puts forward a programme pursuant to Clause 40.3.2(b) which has been accepted by the Board or has been determined to be reasonable and Project Co fails to achieve any element of the programme or the end date for the programme (as the case may be); or
  - 40.5.3 any programme put forward by Project Co pursuant to Clause 40.3.2(b) is rejected by the Board as not being reasonable, and the Dispute Resolution Procedure does not find against that rejection,

then the Board may terminate this Agreement in its entirety by written notice to Project Co with immediate effect. Provided that for the purposes of Clause 40.5.2 if Project Co's performance of the programme is adversely affected by the occurrence of Force Majeure, a Relief Event or an Excusing Cause then, subject to Project Co complying with the mitigation and other requirements in this Agreement concerning Force Majeure, a Relief Event or an Excusing Cause (as the case may be), the time for performance of the programme or any relevant element of it shall be deemed to be extended by a period equal to the delay caused by Force Majeure, the Relief Event or the Excusing Cause (as the case may be) which is agreed by the parties or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

#### **Board's costs**

- 40.6 Project Co shall reimburse the Board for all reasonable costs incurred by the Board in exercising any of its rights pursuant to this Clause 40 (*Project Co Event of Default*) (including, without limitation, any relevant increased administrative expenses). The Board shall take reasonable steps to mitigate such costs.
- 40.7 The Board shall not exercise, or purport to exercise, any right to terminate this Agreement except as expressly set out in this Agreement. The rights of the Board (to terminate or otherwise) under this Clause are in addition (and without prejudice) to any right which the Board may have to claim the amount of loss or damage suffered by the Board on account of the acts or omissions of Project Co (or to take any action other than termination of this Agreement).

#### **41. TERMINATION RESULTING FROM FORCE MAJEURE**

If, in the circumstances referred to in Clause 31 (*Force Majeure*), the parties have failed to reach agreement on any modification to this Agreement pursuant to Clause 31 (*Force Majeure*) within six (6) calendar months of the date on which the party affected serves notice

on the other party in accordance with Clause 31 (*Force Majeure*) either party may at any time afterwards terminate this Agreement by written notice to the other party having immediate effect provided always that the effects of the relevant event of Force Majeure continues to prevent either party from performing any material obligation under this Agreement.

#### 42. BOARD VOLUNTARY TERMINATION

42.1 The Board shall be entitled to terminate this Agreement at any time on six (6) months' written notice to Project Co. In the event of notice being given by the Board in accordance with this Clause, the Board shall, at any time before the expiration of such notice, be entitled to direct Project Co, where the Works (or any part or parts of the Works) or any Service (or any elements of any Service) have not been commenced, to refrain from commencing any such Works or Services (or to procure the same).

#### 43. EXPIRY

This Agreement shall terminate automatically on the Expiry Date unless it shall have been terminated earlier in accordance with the provisions of this Agreement. To avoid doubt, Project Co shall not be entitled to any compensation for termination of this Agreement on the Expiry Date.

#### 44. CORRUPT GIFTS AND PAYMENTS

##### Prohibition on corruption

44.1 The term "**Prohibited Act**" means:

44.1.1 offering, giving or agreeing to give to the Board or any other public body or to any person employed by or on behalf of the Board or any other public body any gift or consideration of any kind as an inducement or reward:

(a) for doing or not doing (or for having done or not having done) any act in relation to the obtaining or performance of this Agreement or any other agreement with the Board or any other public body; or

(b) for showing or not showing favour or disfavour to any person in relation to this Agreement or any other agreement with the Board or any other public body;

44.1.2 entering into this Agreement or any other agreement with the Board or any other public body in connection with which commission has been paid or has been agreed to be paid by Project Co or on its behalf, or to its knowledge, unless before the relevant agreement is entered into particulars of any such commission and of the terms and conditions of any such agreement for the payment of such commission have been disclosed in writing to the Board;

- 44.1.3 committing any offence:
- (a) under the Bribery Act 2010;
  - (b) under any Law creating offences in respect of fraudulent acts; or
  - (c) at common law, in respect of fraudulent acts in relation to this Agreement or any other agreement with the Board or any other public body; or
- 44.1.4 defrauding or attempting to defraud or conspiring to defraud the Board or any other public body.

### Warranty

- 44.2 Project Co warrants that in entering into this Agreement it has not committed any Prohibited Act.

### Remedies

- 44.3 If Project Co or any Project Co Party (or anyone employed by or acting on behalf of them) commits any Prohibited Act, then the Board shall be entitled to act in accordance with Clauses 44.3.1 to 44.3.6 below:
- 44.3.1 if a Prohibited Act is committed by Project Co or by an employee not acting independently of Project Co, then the Board may terminate this Agreement with immediate effect by giving written notice to Project Co;
  - 44.3.2 if the Prohibited Act is committed by an employee of Project Co acting independently of Project Co, then the Board may give written notice to Project Co of termination and this Agreement will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co terminates the employee's employment and (if necessary) procures the performance of the relevant part of the Works and/or Services by another person;
  - 44.3.3 if the Prohibited Act is committed by a Contracting Associate or by an employee of that Contracting Associate not acting independently of that Contracting Associate then the Board may give written notice to Project Co of termination and this Agreement will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co terminates the relevant Sub-Contract and procures the performance of the relevant part of the Works and/or Services by another person, where relevant, in accordance with Clause 57 (*Assignment and Sub-Contracting*);
  - 44.3.4 if the Prohibited Act is committed by an employee of a Contracting Associate acting independently of that Contracting Associate, then the Board may give notice to Project Co of termination and this Agreement

will terminate, unless within twenty (20) Business Days of receipt of such notice Project Co procures the termination of the employee's employment and (if necessary) procures the performance of the relevant part of the Works and/or Services by another person;

44.3.5 if the Prohibited Act is committed by any other person not specified in Clauses 44.3.1 to 44.3.4 above, then the Board may give notice to Project Co of termination and this Agreement will terminate unless within twenty (20) Business Days Project Co procures the termination of such person's employment and of the appointment of their employer (where the employer is not the Board and where such person is not employed by Project Co or the Contracting Associate) and (if necessary) procures the performance of the relevant part of the Works and/or Services by another person; and

44.3.6 any notice of termination under this Clause shall specify:

- (a) the nature of the Prohibited Act;
- (b) the identity of the party who the Board believes has committed the Prohibited Act; and
- (c) the date on which this Agreement will terminate in accordance with the applicable provisions of this Clause.

44.4 Without prejudice to its other rights or remedies under this Clause, the Board shall be entitled to recover from Project Co:

44.4.1 the amount or value of any such gift, consideration or commission; and

44.4.2 any other loss sustained in consequence of any breach of this Clause.

#### **Permitted payments**

44.5 Nothing contained in this Clause shall prevent Project Co from paying any proper commission or bonus to its employees within the agreed terms of their employment.

#### **Notification**

44.6 Project Co shall notify the Board of the occurrence (and details) of any Prohibited Act promptly on Project Co becoming aware of its occurrence.

#### **Interim Management**

44.7 Where Project Co is required to replace any Sub Contractor pursuant to this Clause, the provisions of Clause 57.9 shall apply and be construed accordingly.

## 45. BREACH OF THE NPD REQUIREMENTS

### Breach by Project Co

- 45.1 If Project Co breaches Clause 36 (*Payment of Surpluses and Compliance with NPD Requirements*) then the Board may terminate this Agreement, at any time within eighteen (18) months of becoming aware of such breach, in accordance with Clause 45.2 (*Notice of Termination*) below. The Board shall inform Project Co of the occurrence of any such breach as soon as reasonably practicable after becoming aware of the breach, provided that failure by the Board to so inform Project Co shall not constitute a breach of this Agreement by the Board and shall not prejudice the exercise of its rights under Clause 45.2 (*Notice of Termination*).

### Notice of Termination

- 45.2 If the Board wishes to terminate this Agreement under this Clause 45 (*Breach of the NPD Requirements*), it must first give Project Co notice stating:

45.2.1 that the Board is terminating this Agreement under this Clause 45 (*Breach of the NPD Requirements*); and

45.2.3 that this Agreement will terminate on the date falling thirty (30) Business Days after the date of receipt of the notice.

and this Agreement will terminate on the day falling 30 Business Days after Project Co receives the notice unless Project Co demonstrates to the satisfaction of the Board (acting reasonably) that such breach was caused by an administrative error of Project Co and Project Co rectifies such breach within ten (10) Business Days of receipt of such notice, in which the notice shall be deemed not to have been served.

## 46. COMPENSATION ON TERMINATION

- 46.1 If this Agreement is terminated pursuant to Clause 41 (*Termination Resulting from Force Majeure*), then the Board shall pay compensation to Project Co in accordance with Section 3 (*Consequence of Termination for Force Majeure*) of Schedule Part 17 (*Compensation on Termination*).

- 46.2 If this Agreement is terminated pursuant to Clause 40 (*Project Co Events of Default*) other than pursuant to Clause 40.1.3(b) (*Default*), then the Board shall pay compensation to Project Co in accordance with Section 2 (*Compensation on Project Co Default*) of Schedule Part 17 (*Compensation on Termination*).

- 46.3 If this Agreement is terminated pursuant to Clause 39 (*Board Events of Default*), then the Board shall pay compensation to Project Co in accordance with Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*) of Schedule Part 17 (*Compensation on Termination*).

- 46.4 If this Agreement is terminated pursuant to Clause 42 (*Voluntary Termination*), then the Board shall pay compensation to Project Co in accordance with Section 1

(*Compensation on Termination for Board Default and Voluntary Termination*) of Schedule Part 17 (*Compensation on Termination*).

- 46.5 If this Agreement is terminated pursuant to Clause 40.1.3(b) (*Default*), Clause 44.3 (*Remedies*) or Clause 45 (*Breach of the NPD Requirements*) then the Board shall pay compensation to Project Co in accordance with Section 4 (*Corrupt Gifts and Fraud or Breach of Refinancing or Breach of NPD Requirements*) of Schedule Part 17 (*Compensation on Termination*).

#### **Tax equalisation**

- 46.6 Where a payment is to be made to Project Co pursuant to Clause 46.1 (*Compensation on Termination*), Clause 46.3 (*Compensation on Termination*), Clause 46.4 (*Compensation on Termination*) or Clause 46.5 (*Compensation on Termination*) (a "**Compensation Payment**") and Project Co has a Relevant Tax Liability in respect of such payment, then the amount of the Compensation Payment to be made by the Board to Project Co shall be increased so as to ensure that Project Co is in the same position (after account is taken of the Relevant Tax Liability) as it would have been in had it not been for such Relevant Tax Liability.

- 46.7 For the purposes of this Clause 46 (*Compensation on Termination*):

46.7.1 "**Relief**" shall mean any relief, allowance or deduction in computing profits or tax or a credit against, or right to repayment of, tax granted by or pursuant to any legislation for tax purposes;

46.7.2 a "**Relief derived from the Project**" is a Relief which arises in connection with the Project and includes any Relief arising as a consequence of the distribution of any amount obtained in respect of the Project (other than a Compensation Payment) by Project Co (whether by way of interest, dividend or other distribution, repayment, reduction or redemption of capital or indebtedness or return of assets or otherwise); and

46.7.3 Project Co shall be regarded as having a "**Relevant Tax Liability**" in respect of a Compensation Payment to the extent that:

- (a) it has a liability for tax in consequence of or in respect of a Compensation Payment ("**Actual Liability**"); or
- (b) it would have had a liability for tax within paragraph (a) above but for the utilisation of a Relief other than a Relief derived from the Project ("**Deemed Liability**").

- 46.8 In determining whether Project Co has a Relevant Tax Liability by reason of a Compensation Payment, it should be assumed that any Reliefs derived from the Project which are available to Project Co (or would have been so available but for a surrender by Project Co of such Reliefs by way of group or consortium relief) for offset against the Compensation Payment, or against tax in relation to the same, have been so offset to the maximum extent possible.

- 46.9 Project Co shall keep the Board fully informed of all negotiations with the HM Revenue and Customs in relation to any Relevant Tax Liability in respect of a Compensation Payment. Project Co shall not agree, accept or compromise any claim, issue or dispute relating to such Relevant Tax Liability without the prior written consent of the Board, which shall not be unreasonably withheld or delayed. The Board may, if it considers in good faith that such action is justified having regard to the likely costs and benefits, direct Project Co to resist, appeal, defend or otherwise dispute the Relevant Tax Liability in respect of the Compensation Payment, provided that the cost of any such dispute (including any interest or penalties incurred) shall be at the Board's expense. However, if Project Co obtains professional advice from an independent person with relevant expertise that any resistance, appeal, defence or other mode of dispute is not likely to result in any more beneficial position in relation to the Relevant Tax Liability, Project Co shall be entitled not to continue with such resistance, appeal, defence or other mode of dispute. Where any resistance, appeal, defence or other mode of dispute results in a more beneficial position in relation to the Relevant Tax Liability, an adjustment will be made to the amount payable under Clause 46.6 to reflect such outcome.
- 46.10 Any increase in the amount of a Compensation Payment which is payable under Clause 46.6 shall be paid on the later of five (5) Business Days after a demand therefore (together with evidence in sufficient detail for the Board to satisfy itself of the Relevant Tax Liability and its calculation) is made by Project Co and:
- 46.10.1 in the case of an Actual Liability, five (5) Business Days before the date on which the relevant tax must be paid to the tax Board in order to avoid incurring interest and penalties; and
- 46.10.2 in the case of a Deemed Liability, five (5) Business Days before the date on which tax which would not have been payable but for the utilisation of the relevant Relief must be paid in order to avoid incurring interest or penalties (whether by Project Co or otherwise) and, for the purposes of determining when the Relief would otherwise have been utilised, Reliefs shall be regarded as utilised in the order in which they arise.
- 46.11 The Board shall have the right to pay the amount payable under Clause 46.6 direct to HM Revenue and Customs in satisfaction of the relevant tax due by Project Co.

#### **Rights of Set-Off**

- 46.12 To avoid doubt, the Board's obligations to make any payment of compensation to Project Co pursuant to this Clause are subject to the Board's rights under Clause 34.6 (*Set – Off*), save that the Board agrees not to set-off any amount agreed or determined as due and payable by Project Co to the Board against any payment of termination compensation (whether payable as a lump sum or in instalments) under Clauses 46.1, 46.3, 46.4 or 46.5, except to the extent that such termination payment exceeds the Base Senior Debt Termination Amount or the Revised Senior Debt Termination Amount (as the case may be) at that time.

#### **Full and final settlement**

- 46.13 Subject to the provisions of paragraph 2.1 of Section 5 (*General*) of Schedule Part 17 (*Compensation on Termination*):

- 46.13.1 any compensation paid pursuant to this Clause shall be in full and final settlement of any claim, demand and/or proceedings of Project Co in relation to any termination of this Agreement and/or any Project Document (and the circumstances leading to such termination) and Project Co shall be excluded from all other rights and remedies in respect of any such termination; and
- 46.13.2 the compensation payable (if any) pursuant to this Clause 46 (*Compensation on Termination*) above shall be the sole remedy of Project Co and Project Co shall not have any other right or remedy in respect of such termination.

## 47. CONSEQUENCES OF TERMINATION

### Continued performance

- 47.1 Subject to any exercise by the Board of its rights to perform, or to procure a third party to perform, the obligations of Project Co, the parties shall continue to perform their obligations under this Agreement, notwithstanding the giving of any notice of default or notice of termination, until the Termination Date.

### Transfer to Board of Assets, Contracts etc.

- 47.2 On the service of a notice of termination in accordance with this Agreement for any reason:
- 47.2.1 if prior to the Actual Completion Date, in so far as any transfer shall be necessary fully and effectively to transfer property to the Board, Project Co shall transfer to, and there shall vest in, the Board, such part of the Works and/or the Facilities as shall have been constructed and such items of the Plant and Equipment as shall have been procured by Project Co if the Board so elects:
- 47.2.2 all goods and all materials on or near to the Site and/or Off-Site not yet incorporated in the Works shall remain available to the Board for the purposes of completing the Works and if the cost of such goods and materials has not been reflected in the payment of any compensation pursuant to Schedule Part 17 (*Compensation on Termination*), subject to the payment by the Board (determined as between a willing vendor and willing purchaser with any disputes determined pursuant to Clause 56 (*Dispute Resolution Procedure*));
- 47.2.3 the construction plant shall remain available to the Board for the purposes of completing the Works, subject to payment of the Contractor's reasonable charges;
- 47.2.4 Project Co shall hand over to, and there shall vest in, the Board, free from any Encumbrances (other than any created on or by or against the Board):

- (a) the Facilities and Equipment (which in the case of the termination

of this Agreement in accordance with Clause 43 (*Expiry*) shall be in the state required in accordance with Schedule Part 18 (*Handback Procedure*); and

- (b) the Retained Estate Handback Infrastructure (if relevant prior to the Actual Completion Date);

47.2.5 if the Board so elects, Project Co shall procure that any of the Construction Contract, the Service Contracts and/or the Independent Tester Contract shall be novated or assigned to the Board, provided that where termination occurs under Clause 39 (*Board Events of Default*) the consent of the Contractor, the Service Provider or the Independent Tester (as the case may be) shall be required;

47.2.6 Project Co shall, or shall procure that any Contracting Associate shall (as the case may be), offer to sell to the Board at a fair value (determined as between a willing vendor and willing purchaser, with any disputes as to such fair value being determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*), free from any Encumbrance all or any part of the stocks of material and other assets, road vehicles, spare parts and other moveable property owned by Project Co or any of its Contracting Associates and reasonably required by the Board in connection with the operation of the Facilities or the provision of the Services;

47.2.7 Project Co shall deliver to the Board (as far as not already delivered to the Board) three (3) hard copies and one (1) electronic copy of complete sets of:

- (a) "as built drawings" showing all alterations made to the Facilities since the commencement of operation of the Facilities; and
- (b) maintenance, operation and training manuals for the Facilities and the Retained Estate Handback Infrastructure;

47.2.8 Project Co shall use all reasonable endeavours to procure that the benefit of all manufacturer's warranties in respect of mechanical and electrical plant and equipment used or made available by Project Co under this Agreement and included in the Facilities and the Retained Estate Handback Infrastructure are assigned, or otherwise transferred, to the Board with full title guarantee; and

47.2.9 Project Co shall deliver to the Board in relation to the employees employed by Project Co and/or Service Providers the records referred to in Clause 38 (*Records and Open Book Accounting*) except where such documents are required by Law to be retained by Project Co or its Contracting Associates (in which case complete copies shall be delivered to the Board).

47.3 Project Co shall ensure that provision is made in all contracts of any description whatsoever to ensure that the Board will be in a position to exercise its rights, and Project Co will be in a position to comply with its obligations, under Clause 47.2.

**Transitional arrangements**

- 47.4 On the termination of this Agreement for any reason, for a reasonable period both before and after any such termination, Project Co shall have the following duties:
- 47.4.1 Project Co shall co-operate fully with the Board and any successor providing to the Board services in the nature of any of the Services or any part of the Services in order to achieve a smooth transfer of the manner in which the Board obtains services in the nature of the Services and to avoid or mitigate in so far as reasonably practicable any inconvenience or any risk to the health and safety of the employees of the Board and members of the public;
- 47.4.2 Project Co shall as soon as practicable remove from the Site and/or Off-Site, all property not acquired by the Board pursuant to Clause 47.2 (or not belonging to the Board or any Board Party) and if it has not done so within forty (40) Business Days after any notice from the Board requiring it to do so the Board may (without being responsible for any loss, damage, costs or expenses) remove and sell any such property and shall hold any proceeds less all costs incurred to the credit of Project Co;
- 47.4.3 Project Co shall forthwith deliver to the Board's Representative:
- (a) any security passwords, access codes and other keys to the Facilities and the Retained Estate Handback Infrastructure (if relevant prior to the Actual Completion Date) and the equipment; and
- (b) without prejudice to Clause 55 (*Intellectual Property*), any copyright licences for any computer programmes (or licences to use the same) necessary for the operation of the Facilities and the Retained Estate Handback Infrastructure (if relevant prior to the Actual Completion Date) (but excluding computer programmes, which have been developed or acquired by a Service Provider for its own use and not solely for the purposes of provision of any of the Services at the Facilities or the assignment or transfer of which is otherwise restricted); and
- 47.4.5 Project Co shall as soon as practicable vacate the Site and Off-Site , and (without prejudice to Schedule Part 18 (*Handback Procedure*)) shall leave the Site and Off-Site and the Facilities and the Retained Estate Handback Infrastructure (if relevant prior to the Actual Completion Date), in a safe, clean and orderly condition.
- 47.5 If the Board wishes to conduct a competition prior to the Expiry Date with a view to entering into an agreement for the provision of services (which may or may not be the same as, or similar to, the Services or any of them) following the expiry of this Agreement, Project Co shall co-operate with the Board fully in such competition process including (without limitation) by:
- 47.5.1 providing any information which the Board may reasonably require to conduct such competition but, to avoid doubt, information which is

commercially sensitive to Project Co shall not be provided (and, for the purpose of this Clause 47.5.1 commercially sensitive shall mean information which would if disclosed to a competitor of Project Co give that competitor a competitive advantage over Project Co and thereby prejudice the business of Project Co but shall, to avoid doubt, exclude any information to be disclosed in terms of Clause 25 (*TUPE and Employment matters*)); and

- 47.5.2 assisting the Board by providing all (or any) participants in such competition process with access to the Site, Off-Site and the Facilities and the Retained Estate Handback Infrastructure (if relevant prior to the Actual Completion Date).

### **Continuing Obligations**

- 47.6 Save as otherwise expressly provided in this Agreement or as already taken into account in the calculation of any termination sum or other payment of compensation on termination pursuant to this Agreement:

- 47.6.1 termination of this Agreement shall be without prejudice to any accrued rights and obligations under this Agreement as at the date of termination; and

- 47.6.2 termination of this Agreement shall not affect the continuing rights and obligations of Project Co and the Board under Clauses 10 (*The Site*), 25 (*TUPE and Employment Matters*), 31 (*Force Majeure*), 34 (*Payment*), 35 (*Taxation*), 36 (*Payment of Surpluses and compliance with NPD Requirements*), 37 (*Custody of Financial Model*), 38 (*Records and Reports*), 41 (*Termination Resulting from Force Majeure*), 42 (*Board Voluntary Termination*), 44 (*Corrupt Gifts and Payments*), 46 (*Compensation on Termination*), 47.2 (*Transfer of Board Assets, Contracts etc*), 47.4 and 47.5 (*Transitional Arrangements*), 49 (*Indemnities and Liability*), 53 (*Insurance*), 54 (*Exclusions and Limits on Liability*), 55 (*Intellectual Property*), 56 (*Dispute Resolution Procedure*), 59 (*Mitigation*), 61 (*Confidentiality*), 64 (*Notices*) and Clause 74 (*Governing Law and Jurisdiction*) or under any other provision of this Agreement which is expressed to survive termination or which is required to give effect to such termination or the consequences of such termination.

### **48. HANDBACK PROCEDURE**

The provisions of Schedule Part 18 (*Handback Procedure*) shall apply to the handback of the Facilities to the Board on expiry of this Agreement.

## PART 11: INDEMNITIES, WARRANTIES & INSURANCE

### 49. INDEMNITIES

#### Project Co indemnities to Board

- 49.1 Project Co shall indemnify and keep the Board indemnified at all times from and against all Direct Losses sustained by the Board (which Project Co acknowledges may include any Direct Losses sustained by the Board as a result of (i) any Direct Losses sustained by the Campus Parties and/or (ii) any Direct Losses sustained by the Board pursuant to the RIE Project Agreement) in consequence of:
- 49.1.1 any claim for, or in respect of, the death and/or personal injury of any employee of, or person engaged by, Project Co or any Project Co Party notwithstanding any act or omission of the Board or any Board Party;
  - 49.1.2 any claim for, or in respect of, the death and/or personal injury of any third party (other than a person referred to in Clause 49.2.1) arising out of, or in the course of, the Project Operations, save to the extent caused (or contributed to) by any Unreasonable Act by the Board or any Board Party, breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party;
  - 49.1.3 any physical loss of or damage to Board Assets arising by reason of any act or omission of Project Co or any Project Co Party, save to the extent that such loss or damage arises out of the breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party;
  - 49.1.4 any loss of or damage to property or assets of any third party arising by reason of any act or omission of Project Co or any Project Co Party, save to the extent that such loss or damage arises out of the breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board or any Board Party;
  - 49.1.5 any breach of and/or any negligent act in complying with the terms of the Interface Proposals and/or paragraphs 4.4.3(b), 4.4.3(e), 4.5.1A, 4.5.12, 6.1.1, 6.1.2 and/or 7.6(j) of Sub-Section C of the Board's Construction Requirements and/or Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*), by Project Co or any Project Co Party save to the extent such breach arises due to the breach of any express provision of this Agreement by the Board or any Board Party or any deliberate or negligent act or omission of the Board, any Board Party; and
  - 49.1.6 any breach of Clause 9.5.1 (Extent of Rights) insofar as relates to the Reserved Rights set out in paragraphs 9, 10 and 16 of Section 2 (Reserved Rights) of Schedule Part 5 (Land Matters),

by Project Co or any Project Co Party.

### **Board indemnities to Project Co**

49.2 The Board shall indemnify and keep Project Co indemnified at all times from and against all Direct Losses sustained by Project Co in consequence of:

49.2.1 any claim for, or in respect of, the death and/or personal injury of any employee of, or person engaged by, the Board or any Board Party notwithstanding any act or omission of Project Co or any Project Co Party;

49.2.2 any claim for, or in respect of, the death and/or personal injury of any third party (other than a person referred to in Clause 49.1.1) arising by reason of any act or omission of the Board or any Board Party in the course of provision of the Board Services, any Unreasonable Act by the Board or any Board Party, breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party;

49.2.3 any physical damage to any part of the Facilities or any assets or other property of Project Co or any Project Co Party arising by reason of any breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party; and

49.2.4 any loss of or damage to property or assets of any third party arising by reason of any breach of any express provision of this Agreement by the Board or any Board Party or any deliberate act or omission of the Board or any Board Party, save to the extent caused (or contributed to) by any act or omission of Project Co or any Project Co Party;

provided that in the case of Clauses 49.2.3 and 49.2.4 there shall be excluded from the indemnity given by the Board any liability:

- (a) for the occurrence of risks against which and to the extent to which Project Co is obliged to insure under this Agreement (but for the avoidance of doubt, not such liability to the extent within any applicable excess or deductible or over the maximum amount insured or to be insured under such insurance); or
- (b) in respect of a matter which is a Compensation Event; or
- (c) in respect of malicious damage.

### **Conduct of claims**

- 49.3 This Clause 49.3 (*Conduct of Claims*) shall apply to the conduct, by a party from whom an indemnity is sought under this Agreement, of claims made by a third person against a party having (or claiming to have) the benefit of the indemnity. The party having, or claiming to have, the benefit of the indemnity is referred to as the "**Beneficiary**" and the party giving the indemnity is referred to as the "**Indemnifier**". Accordingly:
- 49.3.1 if the Beneficiary receives any notice, demand, letter or other document concerning any claim for which it appears that the Beneficiary is, or may become, entitled to indemnification under this Agreement, the Beneficiary shall give notice in writing to the Indemnifier as soon as reasonably practicable and in any event within twenty (20) Business Days of receipt of the same;
- 49.3.2 subject to Clauses 49.3.3, 49.3.4 and 49.3.5 below, on the giving of a notice by the Beneficiary pursuant to Clause 49.3.1 above, where it appears that the Beneficiary is or may be entitled to indemnification from the Indemnifier in respect of all (but not part only) of the liability arising out of the claim, the Indemnifier shall (subject to providing the Beneficiary with an indemnity to its reasonable satisfaction against all costs and expenses that it may incur by reason of such action) be entitled to dispute the claim in the name of the Beneficiary at the Indemnifier's own expense and take conduct of any defence, dispute, compromise, or appeal of the claim and of any incidental negotiations. The Beneficiary shall give the Indemnifier all reasonable co operation, access and assistance for the purposes of considering and resisting such claim;
- 49.3.3 with respect to any claim conducted by the Indemnifier pursuant to Clause 49.3.2 above:
- (a) the Indemnifier shall keep the Beneficiary fully informed and consult with it about material elements of the conduct of the claim;
  - (b) the Indemnifier shall not bring the name of the Beneficiary into disrepute; and
  - (c) the Indemnifier shall not pay or settle such claims without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed;
- 49.3.4 the Beneficiary shall be free to pay or settle any claim on such terms as it thinks fit and without prejudice to its rights and remedies under this Agreement if:
- (a) the Indemnifier is not entitled to take conduct of the claim in accordance with Clause 49.3.2 above; or
  - (b) the Indemnifier fails to notify the Beneficiary of its intention to take conduct of the relevant claim within twenty (20) Business Days of the notice from the Beneficiary under Clause 49.3.1 above or notifies the Beneficiary that it does not intend to take

conduct of the claim; or

- (c) the Indemnifier fails to comply in any material respect with the provisions of Clause 49.3.3 above;

49.3.5 the Beneficiary shall be free at any time to give notice to the Indemnifier that it is retaining or taking over (as the case may be) the conduct of any defence, dispute, compromise or appeal of any claim (or of any incidental negotiations) to which Clause 49.3.2 above applies. On receipt of such notice the Indemnifier shall promptly take all steps necessary to transfer the conduct of such claim to the Beneficiary, and shall provide to the Beneficiary all reasonable co-operation, access and assistance for the purposes of considering and resisting such claim. If the Beneficiary gives any notice pursuant to this Clause 49.3.5, then the Indemnifier shall be released from any liability under its indemnity under Clause 49.1 (*Project Co Indemnities to Board*) or Clause 49.2 (*Board Indemnities to Project Co*) (as the case may be) and, without prejudice to any accrued liabilities, any liability under its indemnity given pursuant to Clause 49.3.2 in respect of such claim;

49.3.6 if the Indemnifier pays to the Beneficiary an amount in respect of an indemnity and the Beneficiary subsequently recovers (whether by payment, discount, credit, saving, relief or other benefit or otherwise) a sum which is directly referable to the fact, matter, event or circumstances giving rise to the claim under the indemnity, the Beneficiary shall forthwith repay to the Indemnifier whichever is the lesser of:

- (a) an amount equal to the sum recovered (or the value of the saving or benefit obtained) less any out of pocket costs and expenses properly incurred by the Beneficiary in recovering the same; and
- (b) the amount paid to the Beneficiary by the Indemnifier in respect of the claim under the relevant indemnity,

49.3.7 provided that there shall be no obligation on the Beneficiary to pursue such recovery and that the Indemnifier is repaid only to the extent that the amount of such recovery aggregated with any sum recovered from the Indemnifier exceeds any loss sustained by the Beneficiary (including for this purpose indirect or consequential losses or claims for loss of profits which are excluded by this Agreement from being recovered from the Indemnifier); and

49.3.8 any person taking any of the steps contemplated by Clauses 49.3.1 to 49.3.5 shall comply with the requirements of any insurer who may have an obligation to provide an indemnity in respect of any liability arising under this Agreement.

#### **Mitigation – indemnity claims**

49.4 To avoid doubt the provisions of Clause 59 (*Mitigation*) apply to any indemnity

given under this Agreement and any such indemnity shall not apply to the extent that such part or parts of Direct Losses could have been reduced or avoided by the Beneficiary complying with the provisions of such Clause 59 (*Mitigation*).

## 49A MALICIOUS DAMAGE

### 49A.1 Remit of Clause

This Clause 49A specifies the respective obligations of the parties in relation to malicious damage to the Facilities during the Operational Term.

### 49A.2 Notification

49A.2.1 As soon as possible after a Service Event has been notified to the Helpdesk or after Project Co has itself or by a Service Provider become aware of a Service Event, if it considers that the Service Event was caused by malicious damage by a person other than a Project Co Party, Project Co must verbally inform the Helpdesk and the Board's Representative (a "**Malicious Damage Report**"). Where it is reasonably practicable for it to do so without prejudicing its ability to achieve Rectification of the Service Event within the Rectification Period and subject to any immediate steps that it requires to take to make the Facilities safe, it must allow the Board's Representative an opportunity to inspect the evidence it relies on to support its claim that malicious damage caused the Service Event concerned before carrying out Rectification and, where this is not reasonably practicable, Project Co must take reasonable steps to preserve or record in a suitable manner any such evidence and forthwith make that record available to the Board.

49A.2.2 Provided Project Co has complied with the requirements of Clause 49A.2.1, unless within twelve (12) hours of receipt of a Malicious Damage Report the Board's Representative notifies Project Co that he agrees that the Service Event referred to in the relevant Malicious Damage Report was caused by malicious damage by a person other than a Project Co Party, the Board's Representative will be deemed to have disagreed that the Service Event concerned was caused by malicious damage by a person other than a Project Co Party.

### 49A.3 Rectification of Malicious Damage

49A.3.1 In relation to any Service Event referred to in a Malicious Damage Report, Project Co shall always take such steps as are necessary in accordance with its obligations under this Agreement to make the Facilities safe.

49A.3.2 If the Board's Representative agrees in accordance with Clause 49A.2 that a Service Event was caused by malicious damage by a person other than a Project Co Party, except when Clause 49A.3.3 applies, Project Co shall not Rectify the Service Event beyond what is required by Clause 49A.3.1 unless instructed by the Board to do so as a Board Change under Schedule Part 16 (*Change Protocol*).

49A.3.3 If, in the reasonable opinion of Project Co, the Service Event referred to in a Malicious Damage Report, if not Rectified, will or is likely to result in the costs of performing the Services and in particular the costs of Maintenance Works and Lifecycle Replacement being materially increased, it may notify the Board's Representative to that effect and shall be entitled to proceed with Rectification in accordance with its obligations under this Agreement.

49A.3.4 If the Board's Representative does not agree accordance with Clause 49A.2 that the Service Event referred to in a Malicious Damage Report was caused by malicious damage by a person other than a Project Co Party, Project Co shall be entitled to proceed with Rectification in accordance with its obligations under this Agreement.

#### 49A.4 **Costs of rectifying malicious damage**

Project Co will be entitled to include all reasonable costs incurred with any Service Provider or third party:

49A.4.1 to make the Facilities safe pursuant to Clause 49A.3.1 if it is agreed by the Board or subsequently determined under the Dispute Resolution Procedure that the Service Event was caused by malicious damage by a person other than a Project Co Party; or

49A.4.2 to carry out Rectification pursuant to Clause 49A.3.3; or

49A.4.3 to carry out Rectification pursuant to Clause 49A.3.4 if it is subsequently determined under the Dispute Resolution Procedure that the Service Event was caused by malicious damage by a person other than a Project Co Party,

in a Monthly Invoice in accordance with Clause 34.2.1(c). In deciding what a reasonable cost is, regard may be had to prices and rates in the Catalogue (as defined in Schedule Part 16 (*Change Protocol*)).

#### 49A.5 **Project Co to Provide Information**

Project Co must provide the Board with such information as the Board reasonably requests for the purpose of making claims for losses due to malicious damage, under the Operational Insurances.

#### 49A.6 **Disputes**

Any dispute under this Clause 49A shall be determined under the Dispute Resolution Procedure.

### 50. **TAX ON INDEMNITY PAYMENTS**

If any payment by one party under an indemnity in this Agreement is subject to income tax or

corporation tax (or any tax replacing them) in the hands of the recipient, the recipient may demand in writing to the party making the payment that the payment shall be increased by such amount as would ensure that, after taking into account any such tax payable in respect of such additional amount, the recipient receives and retains a net sum equal to the amount it would have otherwise received had the payment not been subject to such tax. In relation to any such additional amount payable to Project Co, Project Co and the Board shall have the same rights and obligations as would apply to a Relevant Tax Liability under Clause 46.7.3 (*Tax Equalisation*) and Clauses 46.6 to 46.11 (*Tax Equalisation*) (inclusive) shall apply mutatis mutandis to the payment of the additional amount. The party making the payment shall pay such additional amount within ten (10) Business Days of receipt of such demand.

## 51. EXCUSING CAUSES

51.1 If an Excusing Cause interferes adversely with, or causes or contributes to a failure of, the performance of the Project Operations by Project Co and/or causes or contributes to the occurrence of an Availability Failure and/or a Performance Failure and provided that the effect of such Excusing Cause is claimed within ten (10) Business Days of the date on which Project Co became aware (or ought reasonably to have become so aware) of the occurrence of the Excusing Cause, then (subject to Clauses 51.3 (*Insured Exposure*) and 51.4 (*Mitigation of Excusing Cause*)) to the extent such failure or interference or occurrence of an Availability Failure and/or a Performance Failure arises as a result of such Excusing Cause:

51.1.1 such failure by Project Co to perform or interference or occurrence, and any poor performance of, any affected Service shall not constitute a breach of the provisions of this Agreement by Project Co;

51.1.2 such failure by Project Co to perform or interference or occurrence shall be taken account of in measuring the performance of any affected Service in accordance with the Service Level Specification, which shall be operated as though the relevant Service had been performed free from such adverse interference; and

51.1.3 any such Availability Failure and/or Performance Failure shall be deemed not to have occurred,

so that Project Co shall be entitled to payment under this Agreement as if there had been no such interference with, or failure in the performance of, the Project Operations and no such occurrence of an Availability Failure and/or Performance Failure.

51.2 For the purpose of Clause 51 (*Excusing Causes*), an Excusing Cause means:

51.2.1 any breach of any express provision of this Agreement by the Board or any Board Party (unless, and to the extent, caused or contributed to by Project Co or any Project Co Party);

51.2.2 any deliberate act or omission of the Board or any Board Party or any failure by the Board or Board Party (having regard always to the interactive nature of the activities of the Board and of Project Co) to take reasonable steps to carry out its activities in a manner which minimises undue interference with Project Co's performance of the

Project Operations, save where (and to the extent):

- (a) caused or contributed to by Project Co or any Project Co Party;
  - (b) the Board or Board Party is acting in accordance with a recommendation or instruction of Project Co or any Project Co Party;
  - (c) any such act or omission giving rise to such failure was within the contemplation of the parties or was otherwise provided for in this Agreement;
  - (d) the consequences of any such deliberate act or omission or other acts or omissions giving rise to such failure would have been prevented by the proper performance of Project Co's obligations under this Agreement; or
  - (e) the same arises from an act of the Board or a Board Party compliant with the Contractor's Site Rules and other requirements of the Contractor as referred to in Clause 13.1 (*Access to Site*) or 17.9 (*Commissioning prior to Completion Date*); or
- 51.2.3 the outbreak or the effects of any outbreak of any Medical Contamination unless and to the extent that the effects of such outbreak are caused (or contributed to) by any failure of Project Co or any Project Co Party to comply with procedures (or Board instructions) relating to control of infection or to take all reasonable steps to mitigate the effect of such Medical Contamination;
- 51.2.4 the implementation of any action taken by the Board or any Board Party, or any suspension of Project Co's obligation to deliver any or any part of the Services or the compliance by Project Co with instructions given by the Board, in each case in the circumstances referred to in Clauses 24.6 to 24.9 (*Board's remedial rights*) (inclusive);
- 51.2.5 the carrying out of any Low Value Change in accordance with the terms of this Agreement during the period of time agreed between the Board and Project Co;
- 51.2.6 the carrying out of planned preventative maintenance in accordance with the Schedule of Programmed Maintenance and Schedule of Lifecycle Replacement;
- 51.2.7 the occurrence of a Service Event that the Board's Representative has agreed pursuant to Clause 49A.3.2 (*Malicious Damage*) or that it has been determined pursuant to the Dispute Resolution Procedure has been caused by malicious damage by a person other than a Project Co Party, but only until such time as either (i) the Board has instructed Project Co to Rectify the Service Event as a Board Change and the time period for implementation of such Board Change has expired or

(ii) Project Co has Rectified the Service Event pursuant to Clause 49A.3.3 (*Malicious Damage*);

51.2.8 the occurrence of a matter referred to in Clause 10.4 (*Responsibility for Contamination*) during the Operational Term; or

51.2.9 subject to Project Co complying with the mitigation measures set out within Section 4.3 (*Construction Methodology*) of the Project Co Proposals, the exercise of any of the Reserved Rights set out in paragraphs 13 and/or 14 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*).

### **Insured exposure**

51.3 Without prejudice to Clause 53 (*Insurance*), Project Co shall not be entitled to any payment which would not have been due under this Agreement but for Clause 51 (*Excusing Causes*) to the extent that Project Co is or should be able to recover under any policy of insurance required to be maintained by Project Co or any Project Co Party in accordance with this Agreement (whether or not such insurance has in fact been effected or, if effected, has been vitiated as a result of any act or omission of Project Co (or any Project Co Party), including but not limited to non-disclosure or under insurance) or has any other policy of insurance which Project Co has taken out and maintained.

### **Mitigation of Excusing Cause**

51.4 Project Co shall take all reasonable steps to mitigate the consequences of an Excusing Cause on Project Co's ability to perform its obligations under this Agreement. To the extent that Project Co does not take such steps, Project Co shall not be entitled to, and shall not receive, the relief specified in Clause 51.2.2

51.5 To avoid doubt, Clause 51.2.2 shall not impose a general obligation on the Board to take (or to procure that any Board Party takes) such steps and shall apply (and be construed) solely for the purpose of establishing whether an Excusing Cause has occurred.

**52. NOT USED**

**53. INSURANCE**

### **Project Co Insurances**

53.1 Project Co shall procure that the insurances, details of which are set out in Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) of Schedule Part 15 (*Insurance Requirements*), are taken out prior to the commencement of the Works and are maintained for the periods specified in Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) of Schedule Part 15 (*Insurance Requirements*).

- 53.2 Project Co shall procure that the insurances, details of which are set out in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*), are taken out prior to the Actual Completion Date and are maintained for the periods specified in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*).
- 53.3 Without prejudice to the other provisions of this Clause 53 (*Insurance*), Project Co shall, at all relevant times, at its own cost, effect and maintain in full force those insurances which it is required to effect by any applicable Law.
- 53.4 All Insurances referred to in Clauses 53.1 and 53.2 shall:
- 53.4.1 be maintained in the names of the parties specified in Schedule Part 15 (*Insurance Requirements*) and shall be composite policies of insurance (and not joint) unless stated otherwise in Schedule Part 15 (*Insurance Requirements*);
  - 53.4.2 be placed with insurers who are acceptable to the Board (such acceptance not to be unreasonably withheld or delayed);
  - 53.4.3 in so far as they relate to damage to assets (including the Facilities), cover the same for the full reinstatement value;
  - 53.4.4 comply with the relevant provisions of Section 1 (*Policies to be taken out by Project Co and maintained during the Design and Construction Phase*) and Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*).
  - 53.4.5 provide for thirty (30) days prior written notice of their cancellation, non-renewal or amendment to be given to the Board in accordance with Endorsement 1 in Section 3 (*Endorsement*) of Schedule Part 15 (*Insurance Requirements*);
  - 53.4.6 in respect of the Physical Damage Policies provide for payment of any proceeds received by Project Co to be applied in accordance with Clause 53.22 (*Reinstatement*);
  - 53.4.7 in the case of the Operational Insurances only, be taken out and maintained in accordance with Section 4 (*Insurance Arrangements*) of Schedule Part 15 (*Insurance Requirements*).
- 53.5 Project Co shall ensure that its brokers give the Board a letter of undertaking substantially in the form set out in Section 5 (*Broker's Letter of Undertaking*) of Schedule Part 15 (*Insurance Requirements*) at Financial Close and subsequently on the renewal of each of the Insurances.

**Subrogation and Vitiation**

- 53.6 Project Co shall in respect of the insurances referred to in Clauses 53.1 and 53.2:
- 53.6.1 procure that all policies of insurance to be effected by it pursuant to this Clause shall contain a provision to the effect that the insurers have agreed to waive all rights of subrogation against the Board (and all Board Parties other than contractors and sub-contractors in accordance with Endorsement 2 in Schedule 3 (*Endorsements*) of Schedule Part 15 (*Insurance Requirements*); and
- 53.6.2 provide for non-vitiation protection in respect of any claim made by the Board as co-insured in accordance with Endorsement 2 in Section 3 (*Endorsements*) of Schedule Part 15 (*Insurance Requirements*),
- provided that, to avoid doubt, this Clause 53.6 shall not by itself prevent Project Co from claiming against the Board (or any Board Party) under an express provision of this Agreement for any loss or damage not covered because of the level of deductibles under such insurance permitted by this Agreement or to the extent such loss or damage exceeds the maximum of such insurance required by this Agreement.
- 53.7 Neither party shall take any action or fail to take any reasonable action or (in so far as it is reasonably within its power) permit or allow others to take or fail to take any action (including failure to disclose any fact) as a result of which any of the Insurances may be rendered void, voidable, unenforceable or suspended or impaired in whole or in part or which may otherwise render any sum paid out under any relevant policy repayable in whole or in part.

**Evidence of Project Co Insurance**

- 53.8 Not less than twenty (20) Business Days prior to the amendment or expiry of any relevant insurance policy (other than the expiry of any of the Operational Insurances in respect of which Project Co must comply with the provisions of Section 4 of Schedule Part 15 (*Insurance Requirements*)), Project Co shall submit to the Board a request for approval from the Board of the insurer and the principal terms and conditions of such insurance policy (and any revision to such terms and conditions or change in identity of such insurer), such approval not to be unreasonably withheld or delayed.
- 53.9 Project Co shall provide to the Board:
- 53.9.1 copies on request of all insurance policies referred to in Clauses 53.1 to 53.3 (together with any other information reasonably requested by the Board relating to such insurance policies) and the Board shall be entitled to inspect them during ordinary business hours; and
- 53.9.2 evidence that the premiums payable under all insurance policies have been paid and that the Insurances are in full force and effect in accordance with the requirements of this Clause 53 (*Insurance*) and Schedule Part 15 (*Insurance Requirements*).

- 53.10 Renewal certificates or other such evidence of renewal in relation to the Insurances shall be obtained as and when necessary and copies (certified in a manner acceptable to the Board) shall be forwarded to the Board as soon as possible but in any event within twenty (20) Business Days of the renewal date.
- 53.11 If Project Co defaults in insuring or continuing to maintain the Insurances, the Board may insure against any risk in respect of which such default has occurred and recover any premiums from Project Co as a debt provided that if the default occurs during the Operational Term the amount recoverable from Project Co shall be the difference between the premiums had Project Co continued to maintain the Insurances and the premiums paid by the Board to take out and maintain the Insurances.

#### Acceptance and compliance

- 53.12 The supply to the Board of any draft insurance policy or certificate of insurance or other evidence of compliance with this Clause 53 (*Insurance*) shall not imply acceptance by the Board (or the Board's Representative) that:
- 53.12.1 the extent of insurance cover is sufficient and its terms are satisfactory; or
- 53.12.2 in respect of any risks not insured against, that the same were Uninsurable.
- 53.13 Neither failure to comply, nor full compliance, with the insurance provisions of this Agreement shall relieve Project Co of its liabilities and obligations under this Agreement.

#### Uninsurable Risks

- 53.14
- 53.14.1 If a risk usually covered by contractors' 'all risks' insurance, property damage insurance, third party liability insurance, delay in start up and business interruption insurance (but not loss of profits) or statutory insurances in each case required under this Agreement becomes Uninsurable then:
- (a) Project Co shall notify the Board of any risk becoming Uninsurable within five (5) Business Days of becoming aware of the same and in any event at least five (5) Business Days before expiry or cancellation of any existing insurance in respect of that risk; and
- (b) if both parties agree, or it is determined in accordance with the Dispute Resolution Procedure that the risk is Uninsurable and that:
- (i) the risk being Uninsurable is not caused by the

actions of Project Co or any sub-contractor of Project Co (of any tier); and

- (ii) Project Co has demonstrated to the Board that Project Co and a prudent board of directors of a company operating the same or substantially similar businesses in the United Kingdom to that operated by Project Co would in similar circumstances (in the absence of the type of relief envisaged by this Clause) be acting reasonably and in the best interests of the company if they resolved to cease to operate such businesses as a result of that risk becoming Uninsurable, taking into account inter alia (and without limitation) the likelihood of the Uninsurable risk occurring (if it has not already occurred), the financial consequences for such company if such Uninsurable risk did occur (or has occurred) and other mitigants against such consequences which may be available to such company,

the parties shall meet to discuss the means by which the risk should be managed or shared (including considering the issue of self-insurance by either party).

53.14.2 If the requirements of Clause 53.14.1 are satisfied, but the parties cannot agree as to how to manage or share the risk, then:

- (a) where such requirements are satisfied in respect of such third party liability insurance the Board shall (at the Board's option) either pay to Project Co an amount equal to the amount calculated in accordance with Section 3 (*Compensation on Termination for Force Majeure*) of Schedule Part 17 (*Compensation on Termination*) and this Agreement will terminate, or elect to allow this Agreement to continue and Clause 53.14.2(b) below shall thereafter apply in respect of such risk; and
- (b) where such requirements are satisfied in respect of contractors' 'all risks' insurance, property damage insurance, third party liability insurance (if the Board elects to allow this Agreement to continue in accordance with Clause 53.14.2(a)), delay in start up and business interruption insurance (but not loss of profits) or statutory insurances this Agreement shall continue and on the occurrence of the risk (but only for as long as such risk remains Uninsurable) the Board shall (at the Board's option) either pay to Project Co an amount equal to insurance proceeds that would have been payable had the relevant insurance continued to be available and this Agreement will continue, or an amount equal to the amount calculated in accordance with Section 3 (*Compensation on Termination for Force Majeure*) of Schedule Part 17 (*Compensation on Termination*) plus (in relation to third party liability insurance only) the amount of insurance proceeds that would have been payable whereupon this Agreement will terminate; and

- (c) where pursuant to Clauses 53.14.2(a) and/or 53.14.2(b) this Agreement continues then the Annual Service Payment shall be reduced in each year for which the relevant insurance is not maintained by an amount equal to the premium paid (or which would have been paid) by Project Co in respect of the relevant risk in the year prior to it becoming Uninsurable (index linked from the date that the risk becomes Uninsurable) save to the extent that such reduction is otherwise reflected in a reduction in the payments claimed by Project Co pursuant to paragraph 3.1 of Section 6 (*Pass Through Costs*) of Schedule Part 14 (*Payment Mechanism*). Where the risk is Uninsurable for part of a year only the reduction in the Annual Service Payment shall be pro rated to the number of months for which the risk is Uninsurable;
- (d) where pursuant to Clauses 53.14.2(a) and/or 53.14.2(b) this Agreement continues Project Co shall approach the insurance market at least every four (4) months to establish whether the risk remains Uninsurable. As soon as Project Co is aware (and the parties agree or it is determined pursuant to the Dispute Resolution Procedure) that the risk is no longer Uninsurable, Project Co shall take out and maintain or procure the taking out and maintenance of insurance (to be incepted as soon as is reasonably practicable) for such risk in accordance with this Agreement;
- (e) in respect of any period between the Board receiving notification in accordance with Clause 53.14.1(a) that a TPL Risk has become Uninsurable and the Board's notification to the Project Co in accordance with Clause 53.14.2(a) in respect of such risk then, provided it is ultimately agreed or determined that the requirements of Clause 53.14.1(b) are satisfied in respect of the Uninsurable TPL Risk and subject to Clause 53.14.2(f) below, Clause 53.14.2(b) shall apply in respect of occurrences of the Uninsurable TPL Risk during such period unless the parties otherwise agree how to manage the risk during this period; and
- (f) Clause 53.14.2(e) shall only apply provided Project Co does not unreasonably materially delay (a) agreement and/or determination in accordance with the Dispute Resolution Procedure as to whether the requirements of Clause 53.14.1(b) are satisfied in respect of the Uninsurable TPL Risk and/or (b) meeting with the Board to discuss the means by which the risk should be managed.

Where this Clause 53.14.2 applies and this Agreement continues, Project Co shall, subject to Clause 53.14.2(c), be relieved of its obligations to maintain insurance in respect of the relevant Uninsurable Risk.

- 53.14.3 If, pursuant to Clause 53.14.1(b), the Board elects to make payment of compensation to Project Co (such that this Agreement will terminate)(the "**Relevant Payment**"), Project Co shall have the option (exercisable in writing within twenty (20) Business Days of the date of such election by the Board (the "**Option Period**")) to pay to the Board on or before the end of the Option Period, an amount equal to the

insurance proceeds that would have been payable had the relevant risk not become Uninsurable, in which case this Agreement will continue (and the Relevant Payment will not be made by the Board), and Project Co's payment shall be applied for the same purpose and in the same manner as insurance proceeds would have been applied had the relevant risk not become Uninsurable.

53.14.4 During the Operational Term, the Board shall be entitled to notify Project Co that a risk has become Uninsurable under paragraph (b) of the definition of "Uninsurable". Following such notification Clauses 53.14.1(b) to 53.14.3 (except Clause 53.14.1(b)(ii)) shall apply as if Project Co has issued a notice under Clause 53.14.1(a).

### 53.15 Unavailability of terms

53.15.1 If, upon the renewal of any of the Insurances:

- (a) any Insurance Term is not available to Project Co in the worldwide insurance market with reputable insurers of good standing; and/or
- (b) the insurance premium payable for Insurance incorporating such Insurance Term is such that the Insurance Term is not generally being incorporated in insurance procured in the worldwide insurance market with reputable insurers of good standing by contractors in the United Kingdom,
- (c) other than, in each case by reason of one or more actions of Project Co and/or any sub-contractor of Project Co (of any tier) then Clause 53.15.2, shall apply.

53.15.2 If it is agreed or determined that Clause 53.15.1 applies then the Board shall waive Project Co's obligations in Clauses 53.1 to 53.3 (*Project Co Insurances*) and/or Schedule Part 15 (*Insurance Requirements*) in respect of that particular Insurance Term and Project Co shall not be considered in breach of its obligations regarding the maintenance of insurance pursuant to this Agreement as a result of the failure to maintain insurance incorporating such Insurance Term for so long as the relevant circumstances described in Clause 53.15.1 continue to apply to such Insurance Term.

53.15.3 To the extent that the parties agree (acting reasonably), or it is determined pursuant to the Dispute Resolution Procedure, that an alternative or replacement term and /or condition of insurance is available to Project Co in the worldwide insurance market with reputable insurers of good standing which if included in the relevant insurance policy would fully or partially address Project Co's inability to maintain or procure the maintenance of insurance with the relevant Insurance Term, at a cost which contractors in the UK are (at such time) generally prepared to pay, Project Co shall maintain or procure the maintenance of insurance including such alternative or replacement term and/or condition.

- 53.15.4 Project Co shall notify the Board as soon as reasonably practicable and in any event within five (5) days of becoming aware that Clause 53.15.1(a) and/or Clause 53.15.1(b) are likely to apply or (on expiry of the relevant insurance then in place) do apply in respect of an Insurance Term (irrespective of the reason for the same). During the Operational Term the Board shall be entitled to notify Project Co that Clause 53.15.1(b) is likely to apply or (on expiry of the relevant insurance then in place) does apply in respect of an Insurance Term (irrespective of the reason for the same). Project Co shall provide the Board with such information as the Board reasonably requests regarding the unavailability of the Insurance Term and the parties shall meet to discuss the means by which such unavailability should be managed as soon as is reasonably practicable.
- 53.15.5 In the event that Clause 53.15.1(a) and/or Clause 53.15.1(b) apply in respect of an Insurance Term, (irrespective of the reasons for the same) Project Co shall approach the insurance market at least every four months to establish whether Clause 53.15.1(a) and/or Clause 53.15.1(b) remain applicable to the Insurance Term. As soon as Project Co is aware that Clause 53.15.1(a) and/or Clause 53.15.1(b) has ceased to apply to the Insurance Term and the parties agree or it is determined pursuant to the Dispute Resolution Procedure, Project Co shall take out and maintain or procure the taking out and maintenance of insurance (to be incepted as soon as is reasonably practicable) incorporating such Insurance Term in accordance with this Agreement.

### **Risk Management**

- 53.16 With effect from the date of this Agreement, the Board and Project Co shall each designate or appoint an insurance and risk manager and notify details of the same to the other party. Such person shall:
- 53.16.1 be responsible for dealing with all risk management matters on behalf of its appointing or designating party including (without limitation) ensuring compliance by that party with this Clause 53.16;
- 53.16.2 advise and report to that party on such matters; and
- 53.16.3 ensure that any report or survey conducted by any insurer of any relevant procedures in relation to the Project is disclosed to the parties.
- 53.17 Without prejudice to the provisions of Clause 53.16, the parties shall notify one another, and in Project Co's case the relevant insurer, of any circumstances which may give rise to a claim of a value equal to or in excess of fifty thousand pounds (£50,000) (index linked) under the Insurances within five (5) Business Days of becoming aware of the same (or earlier, if so requested by the terms of the relevant insurance policy). If any insurer disputes any such claim, Project Co shall provide the Board with full details of any disputed claim and the parties shall liaise with one another to ensure that the relevant claim is preserved or pursued.

### **Application of Proceeds**

- 53.18 All insurance proceeds received by Project Co under the insurances referred to in paragraph 1 (*Contractor's "All Risk" Insurance*) of Section 1 (*Insurance Requirements*) and paragraph 1 (*Property Damage Insurance*) of Section 2 (*Policies to be taken out by Project Co and Maintained from the Actual Completion Date*) of Schedule Part 15 (*Insurance Requirements*) shall be paid into the Insurance Proceeds Account and shall be applied in accordance with this Agreement and in accordance with the Insurance Proceeds Accounts Agreement.
- 53.19 Subject to the provisions of the Funders' Direct Agreement and Clause 53.22 (*Reinstatement*), Project Co shall apply any proceeds of any policies of Insurance:
- 53.19.1 in the case of third party legal liability or employers' liability insurance, in satisfaction of the claim, demand, proceeding or liability in respect of which such proceeds are payable; and
- 53.19.2 in the case of any other insurance other than delay in start up or business interruption insurance, so as to ensure the performance by Project Co of its obligations under this Agreement, including where necessary the reinstatement, restoration or replacement of the Facilities, assets, materials or goods affected by the event giving rise to the insurance claim and consequent payment of proceeds.
- 53.20 Where reinstatement monies are required to be released from the Insurance Proceeds Account Project Co shall obtain the Board's consent in accordance with the Insurance Proceeds Account Agreement. The Board shall give its consent (or confirm that it is withholding its consent) to the release of monies from the Insurance Proceeds Account within one (1) Business Day of a request from Project Co (provided that such consent must not be unreasonably withheld).
- 53.21 If the proceeds of any insurance claim are insufficient to cover the settlement of such claims, Project Co will make good any deficiency forthwith.

#### 53.22 **Reinstatement**

- 53.22.1 All insurance proceeds received under any Physical Damage Policy shall be applied to repair, reinstate and replace each part or parts of the Facilities in respect of which the proceeds were received.
- 53.22.2 Where a claim is made or proceeds of insurance are received or are receivable under any Physical Damage Policy in respect of a single event (or a series of related events) (the "**Relevant Incident**") in an amount in excess of two hundred and fifty thousand pounds (£250,000) (Index linked) :
- (a) Project Co shall deliver as soon as practicable and in any event within twenty eight (28) days after the making of the claim a plan prepared by Project Co for the carrying out of the works necessary (the "**Reinstatement Works**") to repair, reinstate or replace (the "**Reinstatement Plan**") the assets which are the subject of the relevant claim or claims in accordance with Clause 53.22.2(b) below. The Reinstatement Plan shall set out:

- (i) if not the Contractor, the identity of the person proposed to effect the Reinstatement Works, which shall be subject to the prior written approval of the Board; and
  - (ii) the proposed terms and timetable or, if not then established, the reasonably anticipated terms and timetable upon which the Reinstatement Works are to be effected (including the date that the Project will become fully operational), the final terms of which shall be subject to the prior written approval of the Board, which approval shall not be unreasonably delayed;
- (b) provided that the Board is satisfied that the Reinstatement Plan will enable Project Co to comply with Clause 53.22.2(b)(iv) below within a reasonable timescale:
- (i) the Reinstatement Plan will be adopted and carried out by Project Co;
  - (ii) Project Co shall enter into contractual arrangements to effect the Reinstatement Works with the person identified in the Reinstatement Plan approved by the Board;
  - (iii) prior to the earlier to occur of the Termination Date or the Expiry Date, any amounts standing to the credit of the Insurance Proceeds Account (the "**Relevant Proceeds**") (together with any interest accrued) may be withdrawn by Project Co from the Insurance Proceeds Account as required to enable it to make payments in accordance with the terms of the contractual arrangements referred to in Clause 53.22.2(b)(ii) above, and to meet any other reasonable costs and expenses of Project Co for the sole purposes of funding the Reinstatement Works and the parties shall operate the signatory requirements of the Insurance Proceeds Account in order to give effect to such payments. Following the earlier to occur of the Termination Date and the Expiry Date, the Board may withdraw amounts standing to the credit of the Insurance Proceeds Account for the purposes of funding any Reinstatement Works;
  - (iv) the Board agrees and undertakes that, subject to compliance by Project Co with its obligations under this Clause, and provided that Project Co procures that the Reinstatement Works are carried out and completed in accordance with the contractual arrangements referred to in Clause 53.22.2(b)(ii), it shall not exercise any right which it might otherwise have to terminate this Agreement by virtue of the event which gave rise to the claim for the Relevant Proceeds;

- (v) the Board undertakes to use reasonable endeavours to assist Project Co in the carrying out of the Reinstatement Plan; and
- (vi) after the Reinstatement Plan has been implemented to the reasonable satisfaction of the Board and in accordance with Clause 53.22.3 below the Board shall permit withdrawal by Project Co of any Relevant Proceeds then held in the Insurance Proceeds Account that have not been paid under Clause 53.22.2(b)(iii) above, in respect of the Relevant Incident, together with any interest accrued.
- (vii) subject to the provisions of Clause 49.1 (*Project Co Indemnities to Board*) Project Co shall be solely responsible for the payment of any deficiency.

53.22.3 Where insurance proceeds are to be used, in accordance with this Agreement, to repair, reinstate or replace any Facilities, Project Co shall carry out the work in accordance with the Board's Construction Requirements so that on completion of the work, the provisions of this Agreement are complied with.

53.22.4 If and to the extent that a breach by Project Co of its obligations under Clause 53.22.2(b) leads to a delay in the completion of the Reinstatement Works, any entitlement that Project Co has to relief under Clause 30 (*Relief Events*) shall be suspended.

## 54. EXCLUSIONS AND LIMITATIONS ON LIABILITY

### Exclusions

54.1 The indemnities under this Agreement shall not apply and (without prejudice to the Board's rights under the Payment Mechanism and to the provisions of Schedule Part 17 (*Compensation on Termination*)) there shall be no right to claim damages for breach of this Agreement, in delict or on any other basis whatsoever to the extent that any loss claimed by either party is for loss of profits, loss of use, loss of production, loss of business or loss of business opportunity or is a claim for consequential loss or for indirect loss of any nature ("**Indirect Losses**") suffered or allegedly suffered by either party. The Board agrees that, notwithstanding the foregoing, any losses of Project Co arising under the Construction Contract and the Service Contracts as originally executed (or as amended in accordance with and subject to Clause 4.1 (*Ancillary Documents*)) which are not Indirect Losses shall not be excluded from such a claim solely by reason of this Clause 54.1.

54.2 The Board shall not be liable in delict to Project Co or any Project Co Party in respect of any negligent act or omission of the Board and/or any Board Party relating to or in connection with this Agreement and Project Co shall procure that no Project Co Party shall bring such a claim against the Board. Project Co has accepted this on the basis that it and each Project Co Party will cover the risk of negligent acts or omissions by insurance or in such other manner as it (or they) may think fit.

**No Double Recovery**

54.3 Subject to:

54.3.1 any other express right of the Board pursuant to this Agreement; and

54.3.2 the Board's right to claim, on or after termination of this Agreement, the amount of its reasonable costs, losses, damages and expenses suffered or incurred by it as a result of rectifying or mitigating the effects of any breach of this Agreement by Project Co save to the extent that the same has already been recovered by the Board pursuant to this Agreement or has been taken into account to reduce any compensation payable by the Board pursuant to Clause 46 (*Compensation on Termination*),

the sole remedy of the Board in respect of a failure to provide the Services in accordance with this Agreement shall be the operation of the Payment Mechanism.

54.4 Subject to Clause 29 (*Board Events of Default*) and any other express right of Project Co pursuant to this Agreement, Project Co's sole remedy in respect of any breach of this Agreement which is a Compensation Event shall be pursuant to Clause 29 (*Delay Events*).

54.5 Nothing in Clause 54.3 shall prevent or restrict the right of the Board to seek interdict or a decree of specific implement or other discretionary remedies of the court.

54.6 Notwithstanding any other provision of this Agreement, neither party shall be entitled to recover compensation or make a claim under this Agreement or any other agreement in relation to the Project in respect of any loss that it has incurred (or any failure of the other party) to the extent that it has already been compensated in respect of that loss or failure pursuant to this Agreement or otherwise.

54.7 Neither party shall have the right to terminate this Agreement for breach of contract save as expressly set out in this Agreement.

## PART 12: MISCELLANEOUS

### 55. INTELLECTUAL PROPERTY

#### Project Data

55.1 Project Co shall make available to the Board free of charge (and hereby irrevocably licences the Board to use) all Project Data that might reasonably be required by the Board and Project Co shall ensure that it can make the Project Data available to the Board on these terms, for the purposes of:

55.1.1 the Board carrying out the Board Services (and its operations relating to the performance of the Board Services), its duties under this Agreement and/or any statutory duties that the Board may have; and

55.1.2 following termination of this Agreement, the design or construction of the Facilities, the operation, maintenance or improvement of the Facilities and/or the carrying out of operations the same as, or similar to, the Project Operations,

(together the "**Approved Purposes**") and in this Clause "use" shall include the acts of copying, modifying, adapting and translating the material in question and/or incorporating them with other materials and the term "the right to use" shall be construed accordingly.

#### Intellectual Property Rights

55.2 Project Co:

55.2.1 hereby grants to the Board, free of charge, an irrevocable, non-exclusive and transferable (but only to any assignee or transferee of any rights or benefits under this Agreement or upon or at any time following termination of this Agreement) licence (carrying the right to grant sub-licences) to use the Intellectual Property Rights which are or become vested in Project Co; and

55.2.2 shall, where any Intellectual Property Rights are or become vested in a third party, use all reasonable endeavours to procure the grant of a like licence to that referred to in Clause 55.2.1 above to the Board,

in both cases, solely for the Approved Purposes.

Project Co shall use all reasonable endeavours to ensure that any Intellectual Property Rights created, brought into existence or acquired during the term of this Agreement vest, and remain vested throughout the term of this Agreement, in Project Co and Project Co shall enter into appropriate agreements with any Project Co Party (or other third parties) that may create or bring into existence, or from which it may acquire, any Intellectual Property Rights.

**Maintenance of data**

- 55.3 To the extent that any of the data, materials and documents referred to in this Clause are generated by or maintained on a computer or similar system, Project Co shall use all reasonable endeavours to procure for the benefit of the Board, at no charge or at the lowest reasonable fee, the grant of a licence or sub-licence for any relevant software to enable the Board or its nominee to access and otherwise use (subject to the payment by the Board of the relevant fee, if any) such data for such purposes as the Board may at its sole discretion require. As an alternative, Project Co may provide such data, materials or documents in a format which may be read by software generally available in the market at the relevant time or in hard copy format.
- 55.4 Project Co shall ensure the back-up and storage in safe custody of the data, materials and documents referred to in Clause 55.3 in accordance with Good Industry Practice. Without prejudice to this obligation, Project Co shall submit to the Board's Representative for approval its proposals for the back-up and storage in safe custody of such data, materials and documents and the Board shall be entitled to object if the same is not in accordance with Good Industry Practice. Project Co shall comply, and shall cause all Project Co Parties to comply, with all procedures to which the Board's Representative has given its approval. Project Co may vary its procedures for such back-up and storage subject to submitting its proposals for change to the Board's Representative, who shall be entitled to object on the basis set out above.

**Claims**

- 55.5 Where a claim or proceeding is made or brought against the Board which arises out of the infringement of any rights in or to any Intellectual Property (other than any Disclosed Data) or because the use of any materials, Plant, machinery or equipment in connection with the Project Operations infringes any rights in or to any Intellectual Property of a third party then, unless such infringement has arisen out of the use of any Intellectual Property by or on behalf of the Board otherwise than in accordance with the terms of this Agreement, Project Co shall indemnify the Board at all times from and against all such claims and proceedings and the provisions of Clause 49.3 (*Conduct of Claims*) shall apply.

**56. DISPUTE RESOLUTION PROCEDURE**

Except where expressly provided otherwise in this Agreement, any dispute arising out of or in connection with this Agreement shall be resolved in accordance with the procedure set out in Schedule Part 20 (*Dispute Resolution Procedure*).

**57. ASSIGNATION AND SUB-CONTRACTING****Assigation**

- 57.1 This Agreement and any other agreement in connection with the Project to which both the Board and Project Co are a party shall be binding on, and shall enure to the benefit of, Project Co and the Board and their respective statutory successors and permitted transferees and assignees. In the case of the Board, its successors shall include any person to whom the Scottish Ministers, in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the

Board ceasing to exist, transfers the property, rights and obligations of the Board under this Agreement and such other agreements in connection with the Project to which the Board and Project Co are both a party.

57.2 Subject to Clause 57.3, Project Co shall not, without the prior written consent of the Board, assign, novate transfer, sub-contract or otherwise dispose of any interest in this Agreement, the Independent Tester Contract, the Construction Contract, the Service Contracts and any other contract entered into by Project Co for the purposes of performing its obligations under this Agreement.

57.3 To avoid doubt:

57.3.1 the provisions of Clause 57.2 do not apply to the grant of any security, in a form approved by the Board prior to its grant (such approval not to be unreasonably withheld or delayed) for any loan made to Project Co under the Initial Funding Agreements provided that any assignee shall enter into the Funders' Direct Agreement in relation to the exercise of its rights, if the Board so requires; and

57.3.2 the Board consents pursuant to Clause 57.2 to the subcontracting by Project Co of the agreed management activities to HCP Management Services Limited (company number 3819468), whose registered office is situated at 8 White Oak Square, London Road, Swanley, Kent BR8 7AG, under a management services agreement with Project Co dated on or about the date of this Agreement.

57.4 The Board shall be entitled to assign, transfer or dispose of the whole of this Agreement and/or of any agreement entered into in connection with this Agreement to which the Board and Project Co are both party to:

57.4.1 the Scottish Ministers, another Health Board or any other person or body replacing any of the foregoing (or to whom the Scottish Ministers exercising their statutory rights would be entitled to transfer such benefits) covered by the National Health Service (Residual Liabilities) Act 1996; or

57.4.2 any other person or body with the prior written consent of Project Co (not to be unreasonably withheld or delayed);

provided that nothing in this Clause shall restrict the rights of the Scottish Ministers to effect a statutory transfer.

### **Sub-contractors**

57.5 Project Co shall, without prejudice to Clause 57.1, procure that none of the persons listed below shall sub-contract all (or substantially all) of their obligations under or in the agreement set out next to its name:

<b>Person</b>	<b>Contract</b>
---------------	-----------------

Contractor                      Construction Contract

Service Provider              Service Contract

without, in each case, the prior written consent of the Board (such consent not to be unreasonably withheld or delayed). To avoid doubt, (i) any failure to comply with Clause 57.7 shall be a reasonable ground for withholding consent and (ii) consent shall, without prejudice to the other provisions of Clause 57.5, not be required in respect of the appointment of any party currently approved by the Board as a suitable replacement and (iii) the Board consents to the agreed packages of work being sub-contracted to the Design Team and the Key Sub-contractors.

- 57.6      If the contract set out next to the name of any person referred to in Clause 57.5 shall at any time lapse, terminate or otherwise cease to be in full force and effect (whether by reason of expiry or otherwise), with the effect that such person shall cease to act in relation to the Project, Project Co shall forthwith appoint a replacement (subject to compliance with Clause 57.5).
- 57.7      Project Co shall procure that any replacement for any person referred to in Clause 57.5 or any Key Sub-Contractor shall enter into a contract upon the same or substantially similar terms as the person so replaced and shall also enter into a collateral agreement on the same or substantially the same terms as the Collateral Agreement entered into by the person so replaced.
- 57.8      Where Project Co enters into a contract with a sub-contractor for the purposes of carrying out the Project Operations or any part of the Project Operations under this Agreement, Project Co shall cause a term to be included in such contract:
- 57.8.1      which requires payment to be made to the sub-contractor within a specified period not exceeding thirty (30) days from receipt of a valid invoice as defined by the contract requirements and in the case of the provision of Services provides that, for the purpose of payment alone, where the Board has made payment to Project Co and the sub-contractor's invoice includes Project Operations in relation to which payment has been made by the Board then, to the extent that it relates to such Project Operations, the invoice shall be treated as valid and payment shall be made to the sub-contractor without deduction (but without prejudice to any right to deduct or set off validly arising under the terms of the contract with the sub-contractor); and
- 57.8.2      which notifies the sub-contractor that the contract forms part of a larger contract for the benefit of the Board and that should the sub-contractor have any difficulty in securing the timely payment of an invoice that matter may be referred by the sub-contractor to the Board's Representative; and
- 57.8.3      in the same terms as this Clause 57.8 (including for the avoidance of doubt this Clause 57.8.3) subject only to modification to refer to the correct designation of the equivalent party as the supplier and recipient of the relevant Project Operations as the case may be.

- 57.8A Project Co shall procure that each Key Sub-Contractor:
- 57.8A.1 in the case of the Design Team, enters into an agreement in the applicable Agreed Form of the Collateral Agreement for the applicable Design Team member in favour of the Board;
  - 57.8A.2 in the case of the work packages set out in limbs (a), (h) and (i) of the definition of 'Key Sub-Contractor' enters into the applicable Agreed Form of Key Sub-Contractor Collateral Agreement in favour of the Board;
  - 57.8A.3 in the case of the work packages set out in limbs (b), (c), (d), (e), (f), (l), (j), (k) and (m) of the definition of 'Key Sub-Contractor' enters into an agreement substantially in the form of the Key Sub-Contractor Collateral Agreement set out in Section 3 of Schedule Part 9 (*Collateral Agreements*) in favour of the Board;
  - 57.8A.4 in the case of the work package set out in limb (g) of the definition of "Key Sub-Contractor" provides a product warranty consistent with Good Industry Practice in favour of the Board or as approved by the Board acting reasonably naming the Board as a beneficiary of such product warranty;

and that each such document is duly executed by the parties thereto (other than by the Board, where the Board is a signatory) and is delivered to the Board:

- 57.8A.5 by the date of this Agreement in the case of both (1) the Design Team referred to in Clause 57.8A.1 and (2) the work packages referred to in Clause 57.8A.2; and
- 57.8A.6 within twenty (20) Business Days after the appointment of the relevant Key Sub-Contractor by the Contractor and in any event not later than the Completion Date, in the case of the works packages referred to in Clause 57.8A.3; and
- 57.8A.7 not later than the Completion Date in the case of the work package referred to in Clause 57.8A.4;

together with a certified true copy of the relevant sub-contract between the Contractor and each member of the Design Team and/or Key Sub-contractor (save for pricing information which may be redacted) and evidence that the professional indemnity insurance (or product liability insurance, in the case of the work package referred to in Clause 57.8A.4), to be maintained by the Key Sub-Contractor in terms of the relevant sub-contract and Collateral Agreement as applicable is in place.

### **Replacement of a non-performing Sub-Contractor**

- 57.9 On the substitution or replacement of a Service Provider due to a breach or default under a Service Contract, Project Co may elect, subject to Clause 57.11 and provided that at the time of making such election no notice of termination has been served under this Agreement, that for the purposes of Clause 40.1.8 (*Deductions*) and Clause 40.1.9 (*Warning Notices*) only, all Deductions incurred and Warning Notices served prior to the date of such substitution or replacement shall be disregarded by virtue of Clause 57.10 below.
- 57.10 If Project Co makes an election pursuant to Clause 57.9 above then, with effect from the date of substitution or replacement of the Service Provider, all Deductions incurred and Warning Notices served prior to that date shall be disregarded for the purposes of Clause 40.1.8 (*Deductions*) and Clause 40.1.9 (*Warning Notices*). For

the avoidance of doubt, the Board shall retain the right to make Deductions in accordance with Schedule Part 14 (*Payment Mechanism*) in respect of the Availability Failures and/or Performance Failures to which the Deductions and/or Warning Notices are attributable.

- 57.11 Project Co shall be entitled to make an election pursuant to Clause 57.9 on a maximum of two occasions during the Project Term.

## 58. OWNERSHIP INFORMATION AND CHANGES IN CONTROL

- 58.1 Project Co represents and warrants to the Board that at the date of this Agreement the legal and beneficial ownership of Project Co is as set out in Schedule Part 21 (*Project Co Information*) and that, other than any Shareholder pre-emption rights, no arrangements are in place that have or may have or result in any sale, transfer or disposal of any legal, beneficial, equitable or other interest in any or all of the shares in Project Co.

- 58.2 Project Co shall inform the Board as soon as reasonably practicable (and in any event, within thirty (30) days) of any Change in Control occurring in respect of Project Co.

- 58.3 The Board may, not more than twelve (12) times in any Contract Year, or any time when a Project Co Event of Default is outstanding, require Project Co to inform it, as soon as reasonably practicable and in any event within thirty (30) days of receipt of the Board's request for details, of any Change in Control in respect of Project Co.

- 58.4 Project Co's obligations under Clauses 58.1 and 58.2 above shall, except where a legal transfer of shares has occurred be limited to the extent of Project Co's awareness having made all reasonable enquiry.

- 58.5 Subject to Clause 58.6, prior to the expiry of a period of twelve (12) months commencing on the Actual Completion Date, no Change in Control in any or all of the shares in Project Co, Hold Co, Top Co and/or Mac Co shall be permitted without the prior written approval of the Board. Any Change in Control arising as a consequence of either:

58.5.1 the grant or enforcement of security in favour of the Senior Funders over or in relation to any of the shares of the Project Co, provided that any document conferring security over any shares has been approved by the Board (such approval not to be unreasonably withheld or delayed); or

58.5.2 any sale, transfer or disposal of any legal, beneficial or equitable interest in any shares or other interests by any Shareholder or an Associate of such Shareholder (the "**Transferor**") to another Associate of the Transferor (the "**Transferee**");

58.5.3 any change in legal or beneficial ownership of any shares or other interests that are listed on a recognised investment exchange (as defined in section 285 of the Financial Services and Markets Act 2000);

shall be disregarded for the purpose of this Clause 58.5 above.

Where Clause 58.5.2 applies and subsequent to any such transfer (the “**Original Transfer**”) the Transferee ceases to be an Associate of the original Transferor, it shall be a breach of this Clause 58.5 if the shares or interests which were the subject of the Original Transfer are not within twenty (20) Business Days of the Transferee ceasing to be an Associate of the original Transferor, transferred to the original Transferor or any Associate of such Transferor, except where that Transferee is both (i) a unit trust, limited partnership or fund as set out in the definition of “Associated Company” and (ii) the relevant trustee, general partner, manager or co-manager has been terminated from its appointment for default or cause in accordance with the terms of that unit trust, limited partnership or fund or its contract of appointment.

- 58.6 No Change in Control (at any time) in any or all of the shares in Project Co (or any company (other than a public quoted company whose equity securities are listed on a recognised investment exchange, as defined in section 285 of the Financial Services and Markets Act 2000) holding shares in Hold Co, Project Co or in any company (or its shareholders) holding shares in such a company (or its shareholders)) shall be permitted without the prior written approval of the Board where the person acquiring control is a Restricted Person.

## 59. MITIGATION

Each of the Board and Project Co shall at all times take all reasonable steps to minimise and mitigate any loss for which the relevant party is entitled to bring a claim against the other party pursuant to this Agreement.

## 60. DATA PROTECTION

### Data Protection

- 60.1 For the purpose of the following Clauses, the term "personal data" shall have the meaning given to it in the Data Protection Act 1998.
- 60.2 Project Co undertakes to the Board that it shall comply with the obligations of a "data controller" under the provisions of the Seventh Data Protection Principle as set out in Schedule 1 of the Data Protection Act 1998. In addition, Project Co:
- 60.1.1 warrants that it has, or will have at all material times, (and it shall use best endeavours to procure that all Sub-Contractors (and their agents and sub contractors of any tier have or will have at all material times) the appropriate technical and organisational measures in place against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data held or processed by it and that it has taken, or will take at all material times, all reasonable steps to ensure the reliability of any of its staff which will have access to personal data processed as part of the Project Operations;
- 60.2.2 undertakes that it will act only on the instructions of the Board in relation to the processing of any personal data made available by or

on behalf of the Board as part of the Project Operations;

- 60.2.3 undertakes that it will only obtain, hold, process, use, store and disclose personal data as is necessary to perform its obligations under this Agreement and (without prejudice to Clause 5.2 (*General standards*)) that such data will be held, processed, used, stored and disclosed only in accordance with the Data Protection Act 1998 and any other applicable Law; and
- 60.2.4 undertakes to allow the Board access to any relevant premises on reasonable notice to inspect its procedures described at Clause 60.2.1 above.

## 61. CONFIDENTIALITY

61.1 The Board shall, subject to Clause 61.2 be entitled to make the documents and information listed in this Clause 61.1 freely available to the public (which may include, without limitation, publication on the Board's website):

- 61.1.1 this Agreement;
- 61.1.2 the Independent Tester Contract;
- 61.1.3 the Collateral Agreements;
- 61.1.4 the payment and performance report;
- 61.1.5 the Financial Model (as updated from time to time in accordance with this Agreement); and
- 61.1.6 Schedule of Lifecycle Replacement; and
- 61.1.7 Not Used,

and Project Co acknowledges and agrees that, subject to the exclusion of information referred to in Clause 61.2.2, the provision or publication of the documents and information listed in this Clause 61.1 shall not give rise to any liability under the terms of this Agreement or otherwise. The Board shall notify Project Co in writing not less than ten (10) Business Days prior to any intended provision or publication of information pursuant to this Clause 61.1.

61.2

- 61.2.1 The parties agree that the provisions of this Agreement, the Financial Model and each Ancillary Document shall, subject to Clause 61.2.2 below, not be treated as Confidential Information and may be disclosed without restriction and Project Co acknowledges that the Board shall, subject to Clause 61.2.2 below, be entitled to make this

Agreement, the Financial Model and each Ancillary Document available in the public domain.

- 61.2.2 Clause 61.2.1 above shall not apply to provisions of this Agreement, the Financial Model or an Ancillary Document designated as Commercially Sensitive Information and listed in Schedule Part 26 (*Commercially Sensitive Information*) to this Agreement which shall, subject to Clause 61.3 be kept confidential for the periods specified in that Schedule Part 26 (*Commercially Sensitive Information*).
- 61.2.3 The parties shall keep confidential all Confidential Information received by one party from the other party relating to this Agreement and Ancillary Documents or the Project and shall use all reasonable endeavours to prevent their employees and agents from making any disclosure to any person of any such Confidential Information.

### Permitted Disclosure

61.3 Clauses 61.2.2 and 61.2.3 shall not apply to:

- 61.3.1 any disclosure of information that is reasonably required by any person engaged in the performance of their obligations under this Agreement for the performance of those obligations;
- 61.3.2 any matter which a party can demonstrate is already or becomes generally available and in the public domain otherwise than as a result of a breach of this Clause;
- 61.3.3 any disclosure to enable a determination to be made under Schedule Part 20 (*Dispute Resolution Procedure*) or in connection with a dispute between Project Co and any of its subcontractors;
- 61.3.4 any disclosure which is required pursuant to any Law or Parliamentary obligation placed upon the party making the disclosure or the rules of any stock exchange or governmental or regulatory authority having the force of law or, if not having the force of law, compliance with which is in accordance with the general practice of persons subject to the stock exchange or governmental or regulatory authority concerned;
- 61.3.5 any disclosure of information which is already lawfully in the possession of the receiving party, prior to its disclosure by the disclosing party;
- 61.3.6 any provision of information to the parties' own professional advisers or insurance advisers or to the Senior Funders or the Senior Funders' professional advisers or insurance advisers or, where it is proposed that a person should or may provide funds (whether directly or indirectly and whether by loan, equity participation or otherwise) to Project Co to enable it to carry out its obligations under this Agreement, or may wish to acquire shares in Project Co and/or Hold Co, Top Co and/or Mac Co in accordance with the provisions of this Agreement to that person or their respective professional advisers but

only to the extent reasonably necessary to enable a decision to be taken on the proposal;

- 61.3.7 any disclosure by the Board of information relating to the design, construction, operation and maintenance of the Project and such other information as may be reasonably required for the purpose of conducting a due diligence exercise, to any proposed new contractor, its advisers and lenders, should the Board decide to retender this Agreement; or
- 61.3.8 any registration or recording of the Consents and property registration required;
- 61.3.9 any disclosure of information by the Board to any other department, office or agency of the Government or their respective advisers or to the Scottish Futures Trust or to any person engaged in providing services to the Board for any purpose related to or ancillary to this Agreement;
- 61.3.10 any disclosure for the purpose of:
- (a) the examination and certification of the Board's or Project Co's accounts;
  - (b) any examination pursuant to section 6(1) of the National Audit Act 1983 of the economy, efficiency and effectiveness with which the Board has used its resources;
  - (c) complying with a proper request from either party's insurance adviser, or insurer on placing or renewing any insurance policies; or
  - (d) (without prejudice to the generality of Clause 61.3.4) compliance with the FOI(S)A and/or the Environmental Information (Scotland) Regulations;
- 61.3.11 disclosure pursuant to Clause 61.1; or
- 61.3.12 disclosure to the extent required pursuant to Clause 63.2;

provided that, to avoid doubt, neither Clause 61.3.10(d) nor Clause 61.3.4 above shall permit disclosure of Confidential Information otherwise prohibited by Clause 61.2.3 where that information is exempt from disclosure under section 36 of the FOI(S)A.

- 61.4 Where disclosure is permitted under Clause 61.3, other than under Clauses 61.3.2, 61.3.4, 61.3.5, 61.3.8 and 61.3.10, the party providing the information shall procure that the recipient of the information shall be subject to the same obligation of confidentiality as that contained in this Agreement.

- 61.5 Project Co shall not make use of this Agreement or any information issued or provided by or on behalf of the Board in connection with this Agreement otherwise than for the purpose of this Agreement, except with the written consent of the Board.
- 61.6 Where Project Co, in carrying out its obligations under this Agreement, is provided with information relating to any Board Party, Project Co shall not disclose or make use of any such information otherwise than for the purpose for which it was provided, unless Project Co has obtained the prior written consent of that person and has obtained the prior written consent of the Board.
- 61.7 On or before the Expiry Date, Project Co shall ensure that all documents or computer records in its possession, custody or control, which contain information relating to any patient or Board Party including any documents in the possession, custody or control of a Sub-Contractor, are delivered up to the Board.
- 61.8 The parties acknowledge that Audit Scotland has the right to publish details of this Agreement (including Commercially Sensitive Information) in its relevant reports to Parliament.
- 61.9 The provisions of this Clause 61 (*Confidentiality*) are without prejudice to the application of the Official Secrets Acts 1911 to 1989.

### **Announcements**

- 61.10 Unless otherwise required by any Law or any regulatory or governmental authority (but only to that extent), neither party shall make or permit or procure to be made any public announcement or disclosure (whether for publication in the press, the radio, television screen or any other medium) of any Confidential Information or in the case of Project Co of its (or any Project Co Party's) interest in the Project or, in any such case, any matters relating thereto, without the prior written consent of the other party (which shall not be unreasonably withheld or delayed).

## **62. FREEDOM OF INFORMATION**

- 62.1 Project Co acknowledges that the Board is subject to the requirements of the FOI(S)A and the Environmental Information (Scotland) Regulations and shall assist and cooperate with the Board to facilitate the Board's compliance with its Information disclosure requirements pursuant to the same in the manner provided for in Clauses 62.2 to 62.8.
- 62.2 Where the Board receives a Request for Information in relation to Information that Project Co is holding on its behalf and which the Board does not hold itself the Board shall refer to Project Co such Request for Information as soon as practicable and in any event within five (5) Business Days of receiving such Request for Information and Project Co shall:
- 62.2.1 provide the Board with a copy of all such Information in the form that the Board requires as soon as practicable and in any event within five (5) Business Days (or such other period as the Board acting reasonably may specify) of the Board's request; and

62.2.2 provide all necessary assistance as reasonably requested by the Board in connection with any such Information, to enable the Board to respond to the Request for Information within the time for compliance set out in section 10 of the FOI(S)A or Regulation 5 of the Environmental Information (Scotland) Regulations.

62.3 Following notification under Clause 62.2, and up until such time as Project Co has provided the Board with all the Information specified in Clause 62.2.1, Project Co may make representations to the Board as to whether or not or on what basis Information requested should be disclosed, and whether further information should reasonably be provided in order to identify and locate the information requested, provided always that the Board shall be responsible for determining at its absolute discretion:

62.3.1 whether Information is exempt from disclosure under the FOI(S)A and the Environmental Information (Scotland) Regulations;

62.3.2 whether Information is to be disclosed in response to a Request for Information, and

in no event shall Project Co respond directly, or allow its Sub-Contractors to respond directly, to a Request for Information unless expressly authorised to do so by the Board.

62.4 Project Co shall ensure that all Information held on behalf of the Board is retained for disclosure for the remainder of the Project Term plus an additional seven (7) years, and shall permit the Board to inspect such Information as requested from time to time.

62.5 Project Co shall transfer to the Board any Request for Information received by Project Co as soon as practicable and in any event within two (2) Business Days of receiving it.

62.6 Project Co acknowledges that any lists provided by it listing or outlining Confidential Information are of indicative value only and that the Board may nevertheless be obliged to disclose Confidential Information in accordance with the requirements of FOI(S)A and the Environmental (Scotland) Regulations.

62.7 In the event of a request from the Board pursuant to Clause 62.2 Project Co shall as soon as practicable, and in any event within five (5) Business Days of receipt of such request, inform the Board of Project Co's estimated costs of complying with the request to the extent these would be recoverable, if incurred by the Board, under section 13(1) of the FOI(S)A and the Fees Regulations. Where such costs (either on their own or in conjunction with the Board's own such costs in respect of such Request for Information) will exceed the appropriate limit referred to in section 12(1) of the FOI(S)A and as set out in the Fees Regulations (the "**Appropriate Limit**") the Board shall inform Project Co in writing whether or not it still requires Project Co to comply with the request and where it does require Project Co to comply with the request the ten (10) Business Days period for compliance shall be extended by such number of additional days for compliance as the Board is entitled to under section 10 of the FOI(S)A. In such case, the Board shall notify Project Co of such additional days as soon as practicable after becoming aware of them and shall reimburse Project Co for such costs as Project Co incurs in complying with the request to the extent it is itself entitled to

reimbursement of such costs in accordance with its own FOI(S)A policy from time to time.

- 62.8 Project Co acknowledges that (notwithstanding the provisions of Clause 61 (*Confidentiality*)) the Board may, acting in accordance with the Scottish Ministers Code of Practice on the Discharge of Functions of Public Authorities under Part 6 of the Freedom of Information (Scotland) Act 2002 (the "**Code**"), and/or having full regard to any guidance or briefings issued by the Scottish Information Commissioner or the Scottish Ministers, be obliged under the FOI(S)A, or the Environmental Information (Scotland) Regulations to disclose Information concerning Project Co or the Project:

62.8.1 in certain circumstances without consulting with Project Co; or

62.8.2 following consultation with Project Co and having taken their views into account,

provided always that where Clause 62.8.1 above applies the Board shall, in accordance with the recommendations of the Code, draw this to the attention of Project Co prior to any disclosure.

- 62.9 In the event that the Project Co is or becomes subject to Environmental Information (Scotland) Regulations or FOI(S)A it shall comply with its obligations under Environmental Information (Scotland) Regulations and FOI(S)A. In doing so, it will use reasonable endeavours to consult the Board before disclosing Information about them or any agreement entered into between the Board and Project Co.

### 63. INFORMATION AND AUDIT ACCESS

- 63.1 Project Co shall provide to the Board's Representative all information, documents, records and the like in the possession of, or available to, Project Co (and to this end Project Co shall use all reasonable endeavours to procure that all such items in the possession of the Contractor or any Service Providers shall be available to it and Project Co has included, or shall include, relevant terms in all contracts with the Contractor or any Service Providers to this effect) as may be reasonably requested by the Board's Representative for any purpose in connection with this Agreement.

63.2 For the purpose of:

63.2.1 the examination and certification of the Board's accounts; or

63.2.2 any examination pursuant to section 23 of the Public Finance and Accountability (Scotland) Act 2000 of the economy, efficiency and effectiveness with which the Board has used its resources,

the Auditor General for Scotland may examine such documents as he may reasonably require which are owned, held or otherwise within the control of Project Co (and Project Co shall procure that any person acting on its behalf who has such documents and/or other information shall also provide access) and may require

Project Co to produce such oral or written explanations as he considers necessary.

- 63.3. Project Co shall provide and shall procure that its Sub-Contractors shall provide such information as the Board may reasonably require from time to time to enable it to meet its obligations to provide reports and returns pursuant to regulations, directions or guidance applicable to the Board including, without limitation, reports and returns regarding the physical condition of buildings occupied by the Board, health and safety, under the firecode, relating to environmental health and to comply with requirements for the provision of information relating to achievement of customer service targets.

#### 64. NOTICES

- 64.1 All notices under this Agreement shall be in writing and all certificates, notices or written instructions to be given under the terms of this Agreement shall be served by sending the same by first class post, or by hand, leaving the same at:

If to Project Co	Address:	Chris Mackay Burness Paull LLP 50 Lothian Road Edinburgh EH3 9WJ
------------------	----------	--

If to the Board	Address:	The Chief Executive Lothian Health Board Waverley Gate 2-4 Waterloo Place Edinburgh EH1 3EG
-----------------	----------	--

- 64.2 Where any information or documentation is to be provided or submitted to the Board's Representative or the Project Co Representative it shall be provided or submitted by sending the same by first class post, or by hand, leaving the same at:

If to Project Co's Representative	Address:	Wallace Weir c/o Chris Mackay Burness Paull LLP 50 Lothian Road Edinburgh EH3 9WJ
-----------------------------------	----------	--

If to the Board's Representative	Address:	Brian Currie Lothian Health Board Waverley Gate 2-4 Waterloo Place Edinburgh EH1 3EG
----------------------------------	----------	---

(copied in each case to the Board)

- 64.3 Either party to this Agreement (and either Representative) may change its nominated address by prior notice to the other party.

- 64.4 Notices given by post shall be effective upon the earlier of (i) actual receipt, and (ii) five (5) Business Days after mailing. Notices delivered by hand shall be effective

upon delivery.

## 65. NO WAIVER

65.1 Any relaxation, forbearance, indulgence or delay (together "**indulgence**") of any party in exercising any right shall not be construed as a waiver of the right and shall not affect the ability of that party subsequently to exercise that right or to pursue any remedy, nor shall any indulgence constitute a waiver of any other right (whether against that party or any other person).

### Continued effect – no waiver

65.2 Notwithstanding any breach of this Agreement by either party, and without prejudice to any other rights which the other party may have in relation to it, the other party may elect to continue to treat this Agreement as being in full force and effect and to enforce its rights under this Agreement. The failure of either party to exercise any right under this Agreement, including any right to terminate this Agreement and any right to claim damages, shall not be deemed a waiver of such right for any continuing or subsequent breach.

## 66. NO AGENCY

66.1 Nothing in this Agreement shall be construed as creating a partnership or as a contract of employment between the Board and Project Co.

66.2 Save as expressly provided otherwise in this Agreement, Project Co shall not be, or be deemed to be, an agent of the Board and Project Co shall not hold itself out as having authority or power to bind the Board in any way.

66.3 Without limitation to its actual knowledge, Project Co shall for all purposes of this Agreement, be deemed to have such knowledge in respect of the Project as is held (or ought reasonably to be held) by any Project Co Party.

## 67. ENTIRE AGREEMENT

67.1 Except where expressly provided otherwise in this Agreement, this Agreement constitutes the entire agreement between the parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings concerning the subject matter of this Agreement.

67.2 Each of the parties acknowledges that:

67.2.1 it does not enter into this Agreement on the basis of and does not rely, and has not relied, upon any statement or representation (whether negligent or innocent) or warranty or other provision (in any case whether oral, written, express or implied) made or agreed to by any person (whether a party to this Agreement or not) except those expressly repeated or referred to in this Agreement and the only remedy or remedies available in respect of any misrepresentation or untrue statement made to it shall be any remedy available under this

Agreement; and

67.2.2 this Clause shall not apply to any statement, representation or warranty made fraudulently, or to any provision of this Agreement which was induced by fraud, for which the remedies available shall be all those available under the law governing this Agreement.

## **68. THIRD PARTY RIGHTS**

Save to the extent expressly provided in this Agreement and, to avoid doubt, without prejudice to the terms of the Funders' Direct Agreement or the rights of any permitted successor to the rights of Project Co or of any permitted assignee, it is expressly declared that no rights shall be conferred under and arising out of this Agreement upon any person other than the Board and Project Co and without prejudice to the generality of the foregoing, there shall not be created by this Agreement a *jus quaesitum tertio* in favour of any person whatsoever.

## **69. SEVERABILITY**

If any provision of this Agreement shall be declared invalid, unenforceable or illegal by the courts of any jurisdiction to which it is subject, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Agreement.

## **70. CONFLICTS OF AGREEMENTS**

In the event of any conflict between this Agreement and the Project Documents, the provisions of this Agreement shall prevail.

## **71. COSTS AND EXPENSES**

Each party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement.

## **72. FURTHER ASSURANCE**

Each party shall do all things and execute all further documents necessary to give full effect to this Agreement.

## **73. COMMUNITY BENEFITS**

73.1 Project Co shall comply with the Board's Community Benefits Requirements in accordance with Project Co's Community Benefits Method Statements.

73.2 If, in relation to the Works, Project Co does not:

73.2.1 in respect of educational support, provide twenty five (25) work

placements for 16 to 19 year olds and nine (9) work placements for 14 to 16 year olds and undertake twenty (20) curriculum support activities in accordance with Project Co's Community Benefits Method Statement then for each work placement and/or curriculum support activity not provided Project Co shall pay to the Board the relevant amount, as detailed in rows 1 to 3 of the table set out in Section 3 of Schedule Part 32 (*Community Benefits*), under declaration that the total amount payable pursuant to this Clause 73.2.1 shall not exceed the sum of twenty five thousand pounds (£25,000) in the aggregate over the whole of the Project Term;

- 73.2.2 in respect of jobs, provide a total of seventy three (73) new jobs comprising of fifty three (53) new entrant jobs, three (3) graduate jobs and seventeen (17) new apprenticeships jobs from a range of disciplines including electrical, plumbing, joinery, construction trades, administration and welfare operatives, then for each new entrants job, new graduate job and/or new apprenticeship job not provided Project Co shall pay to the Board the relevant amount, as detailed in rows 4 to 6 of the table set out in Section 3 of Schedule Part 32 (*Community Benefits*), under declaration that the total amount payable pursuant to Clause 73.2.2 shall not exceed the sum of twenty five thousand pounds (£25,000), in the aggregate over the whole of the Project Term;
- 73.2.3 in respect of training, provide thirty four (34) NVQ starts, thirty six (36) NVQ completions from a range of disciplines including electrical, plumbing, joinery, construction trades, administration and welfare operatives and provide fourteen (14) training plans, twenty five (25) supervisor training sessions, twenty one (21) leadership training sessions and twenty four (24) advanced health and safety sessions, then for each NVQ start, NVQ completion, training plan, supervisor training session, leadership training session and advanced health and safety session not provided Project Co shall pay to the Board the relevant amount , as detailed in rows 7 to 12 of the table set out in Section 3 of Schedule Part 32 (*Community Benefits*), under declaration that the total amount payable pursuant to this Clause 73.2.3 shall not exceed the sum of twenty five thousand pounds (£25,000), in the aggregate over the whole of the Project Term;
- 73.2.4 in respect of local supply chain opportunities for SMEs and Social Enterprises advertise fifty per cent (50%) of available work packages required via the Capital City Partnership and project portal or any other similar media, and host two (2) 'meet the buyer' events and four (4) 'capacity building workshops' then for each work package not advertised and each meet the buyer event and "capacity building workshop" not provided Project Co shall pay to the Board the relevant amount, as detailed in rows 13 to 15 of the table set out in Section 3 of Schedule Part 32 (*Community Benefits*), under declaration that the total amount payable pursuant to this Clause 73.2.4 shall not exceed the sum of twenty five thousand pounds (£25,000), in the aggregate over the whole of the Project Term;
- 73.2.5 provide the quarterly information in accordance with Project Co's Community Benefits Method Statement then on the occurrence of each such failure Project Co shall pay to the Board the amount , as detailed in row 16 of the table set out in Section 3 of Schedule Part 32 (*Community Benefits*), under declaration that the total amount payable pursuant to this Clause 73.2.5 shall not exceed the sum of five thousand pounds (£5,000) in the aggregate over the whole of the Project Term,

provided that in each case the Board has first served notice on Project Co notifying it of its non-compliance and Project Co has failed to rectify such non-compliance within twenty (20) Business Days of such notice.

73.3 The Board's sole and exclusive remedy in respect of a breach of Clause 73.2 above shall be the payments provided for in Clause 73.2 and Project Co's maximum liability in this respect shall be fifty thousand pounds (£50,000) in the aggregate over the whole of the Project Term.

73.4 If, in relation to the Services, Project Co does not for a Contract Year:

73.4.1 maintain at all times a minimum of three (3) positions to graduates and/or apprentices from a range of disciplines including electrical, mechanical, building and administration and use reasonable endeavours to fill such positions at all times or as soon as reasonably practicable following any vacancy being made available for any reason then Project Co shall pay to the Board the sum of one thousand pounds (£1,000) (index linked) for that Contract Year;

73.4.2 advertise jobs through local employment vehicles for at least eighty-five per cent (85%) of the vacancies then Project Co shall pay to the Board the sum of one thousand pounds (£1,000) (index linked) for that Contract Year;

73.4.3 make available to the local supply chain opportunities for Small to Medium Sized Enterprises and Social Enterprises by advertising fifty per cent (50%) of available sub-contracted works packages required via the Capital City Partnership and project portal or any other similar media, then Project Co shall pay to the Board the sum of one thousand pounds (£1,000) (index linked) for that Contract Year;

73.4.4 provide the annual information in accordance with the agreed community benefit report format as set out in the annual report in accordance with Schedule Part 12 (Service Requirements), then on the occurrence of a failure, the total amount for that Contract Year that Project Co shall pay to the Board the sum of one thousand pounds (£1,000) (index linked) for that Contract Year,

provided that in each case the Board has first served notice on Project Co notifying it of its non-compliance and Project Co has failed to rectify such non-compliance within twenty (20) Business Days of such notice.

73.5 The Board's sole and exclusive remedy in respect of a breach of Clause 73.4 shall be the payments provided for in Clause 73.4 and Project Co's maximum liability in this respect shall be thirty thousand pounds (£30,000) in the aggregate over the whole of the Project Term (index linked). For the avoidance of doubt such payments are not and shall not be treated as Deductions.

73.6 Payments due by Project Co to the Board under this Clause 73 shall be payable:

73.6.1 within twenty (20) Business Days of a written demand in respect of each non-provision of the quarterly information pursuant to Clause 73.2.5 and

any sums due pursuant to Clause 73.4; and

73.6.2 in respect of such sums as are agreed as due pursuant to Clauses 73.2.1 to 73.2.4, within sixty (60) Business Days of the Actual Completion Date, and

if the parties are unable to agree the sums due by the date upon which they are due and payable pursuant to this Clause 73.6, either party may refer the matter to the Dispute Resolution Procedure.

**74. GOVERNING LAW AND JURISDICTION**

74.1 This Agreement shall be considered as a contract made in Scotland and shall be subject to the laws of Scotland.

74.2 Subject to the provisions of the Dispute Resolution Procedure, both parties agree that the courts of Scotland shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Agreement and irrevocably submit to the jurisdiction of those courts.

This is the Schedule referred to in the foregoing Agreement between Lothian Health Board and IHS Lothian Limited in relation to the re-provision of the RHSC and DCN at Little France

## SCHEDULE

### SCHEDULE PART 1

#### DEFINITIONS AND INTERPRETATION

##### SECTION 1

In this Agreement unless the context otherwise requires:

<b>"217 Old Dalkeith Road"</b>	means that area forming 217 Old Dalkeith Road shown outlined in red on Plan 9;
<b>"5 Year Maintenance Plan"</b>	means the plan, to be prepared by or on behalf of Project Co, for any works for the maintenance or repair of the Facilities, including the renewal or replacement of plant or equipment as necessary, during each rolling five (5) year period for the duration of the Project Term;
<b>"Access Areas"</b>	means the Orange Area and the Yellow Area;
<b>"Access Roads"</b>	means the access roads and footpaths shown coloured pink and yellow on Plan 8;
<b>"Access Strategy"</b>	means the agreed Interface Proposal for access to the Access Areas, as set out in Appendix 4 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) and/or any proposal for access to the Access Areas agreed or determined pursuant to paragraph 1 of Section 2 ( <i>Access Areas and Amended Supplemental Drainage Proposals</i> ) of Part 2 ( <i>Interface Proposals Procedure</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>"Account Bank Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Actual Commissioning End Date"</b>	means the date specified in the Commissioning Completion Certificate issued by the Independent Tester pursuant to Clause 18.4 ( <i>Information</i> );
<b>"Actual Completion Date"</b>	means the later of: <ul style="list-style-type: none"> <li>(a) the date stated in the Certificate of Practical Completion issued by the Independent Tester pursuant to Clause 17.12 (<i>Completion Certificate</i>); and</li> <li>(b) subject to Clause 14.5 (<i>Early Completion</i>), the Completion Date;</li> </ul>
<b>"Actual Liability"</b>	has the meaning given in Clause 46.7.3;
<b>"Additional Oversail Strategy"</b>	has the meaning given in paragraph 1 of Section 1 ( <i>Oversail</i> ) of Part 2 ( <i>Interface Proposals</i> )

*Procedure*) of Schedule Part 31 (Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*);

**“Additional Permitted Borrowing”**

means on any date, the amount equal to any amount of principal outstanding under the Senior Funding Agreements (as the same may from time to time be amended, whether or not with the approval of the Board) in excess of the amount of principal scheduled under the Senior Funding Agreements at Financial Close to be outstanding at that date,

but only to the extent that:

- (a) this amount is less than or equal to the Additional Permitted Borrowings Limit; and
- (b) in respect of any Additional Permitted Borrowing the Agent is not in material breach of its obligations under clause 9.4.3 of the Funders' Direct Agreement as it applies to such Additional Permitted Borrowing,

and provided further that any such excess amount of principal which is:

- (i) invested as part of any Qualifying Change; or
- (ii) outstanding from time to time as a result of any drawing under the Senior Funding Agreements as entered into at the date of this Agreement, disregarding any subsequent amendment; or
- (iii) outstanding from time to time as a result of any amendment to the Senior Funding Agreements in respect of which the Board has agreed that its liabilities on a termination may be increased pursuant to Clause 4.3 shall not be counted as Additional Permitted Borrowing;

**“Additional Permitted Borrowings Limit”**

means an amount equal to:

- (a) 10% of the Original Senior Commitment, for any Additional Permitted Borrowing subsisting in the period from the date of Financial Close to the date on which the amount outstanding under the Senior Funding Agreements is reduced to 50% or less of the Original Senior Commitment; and thereafter
- (b) the higher of:
  - (i) 5% of the Original Senior

Commitment; and

- (ii) the amount of any Additional Permitted Borrowing outstanding on the last day of the period referred to in paragraph (a);

**“Adjudicator”**

has the meaning given in paragraph 4.1 of Schedule Part 20 (*Dispute Resolution Procedure*);

**"Adverse Law"**

means any Change in Law which would if passed into Law have the following effects, and any administrative act of the Government or any minister of the Crown, department, agency, regulator or other public body or official not amounting to a Change in Law but which has (or would, if made, have) the following effects:

- (a) remove, transfer to another party or otherwise have a material adverse effect upon the Board's legal capacity (or obligation) to perform any of its material obligations in relation to the Project which are material to the interests of Project Co and/or its Funders; or
- (b) amend or repeal (without re-enactment, consolidation or replacement by Law having an equivalent effect) the National Health Service (Residual Liabilities) Act 1996 or the National Health Service (Private Finance) Act 1997;

provided that,

- (i) in the circumstances referred to in paragraph (a), where a Change in Law would have the effect of transferring the legal capacity or obligation of the Board in relation to such material obligations to a new entity (a "**Board Substitute**"), the relevant Law shall not be an Adverse Law if:

(aa) either:

- (i) the provisions of the National Health Service (Residual Liabilities) Act 1996 and the National Health Service (Private Finance) Act 1997 (together the "**Protective Legislation**") apply to such Board Substitute in full (as applied to the Board as at the date of this Agreement); or

(ii) the relevant Law has the same effect in relation to the Board Substitute as the Protective Legislation; and

(bb) the relevant Law does not otherwise have any adverse material effect on the legal capacity or obligation of the Board Substitute which affects (or could reasonably be expected to affect) the Board Substitute's ability to perform any material obligations owed to Project Co and/or the Funders in relation to the Project which are material to the interests of Project Co and/or its Funders, when compared to the material obligations of the Board under this Agreement;

<b>“Agent”</b>	has the meaning given in the Funders' Direct Agreement;
<b>"Amended Service Proposal"</b>	has the meaning given in paragraph 1.1 of Section 3 (Amended Service Proposal) of Part 2 (Interface Proposals Procedure) of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities);
<b>"Amended Supplemental Drainage Proposal"</b>	has the meaning given in paragraph 2.1 of Section 2 ( <i>Access Areas and Amended Supplemental Drainage Proposal</i> ) of Part 2 ( <i>Interface Proposals Procedure</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>“Ancillary Documents”</b>	means the Construction Contract, the Service Contracts and the Performance Guarantees, the appointments of the Design Team, the appointments of the Key Sub-contractors, Interface Agreement, the Management Services Agreement (only in relation to an increase in fees relating to Schedule 2 ( <i>Fees</i> ) of such agreement) all as the same may be amended or replaced from time to time;
<b>“Ancillary Rights”</b>	means such rights as set out in Section 3 ( <i>Ancillary Rights</i> ) of Schedule Part 5 ( <i>Land Matters</i> );
<b>“Annual Service Payment”</b>	has the meaning given in Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Appendix A”</b>	means Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>“Approved RDD Item”</b>	means an item of Reviewable Design Data which has been returned or has been deemed to have

been returned endorsed either "Level A – no comment" or "Level B – proceed subject to amendment as noted" by the Board's Representative pursuant to the provisions of Clause 12 (*Design, Construction and Commissioning Process*) and Schedule Part 8 (*Review Procedure*) (provided that in the case of any item of Reviewable Design Data which has been returned or has been deemed to have been returned endorsed "Level B – proceed subject to amendment as noted" Project Co has taken account of the Board's Representative's comments), as such item of Reviewable Design Data may be varied or amended from time to time in accordance with Schedule Part 16 (*Change Protocol*);

**“Articles of Association”**

means Project Co's articles of association, and the term **“Articles”** shall be construed accordingly;

**"As Built Energy Model"**

means Project Co's Financial Close Energy Model updated to incorporate all as built construction, commissioning and testing information and any Board agreed design amendments, as agreed with the Board prior to the Commissioning End Date;

**"As Built Facilities Energy Performance"**

means the Energy Performance of the Facilities, as determined by Project Co's As Built Energy Model;

**“Associated Companies”**

means, in relation to any person:

- (a) a company which is a Subsidiary, a Holding Company or a company that is a Subsidiary of the ultimate Holding Company of that relevant company, and in the case of Project Co shall include Hold Co, Top Co and Mac Co and each of the Shareholders; or
- (b) any unit trust, limited partnership or fund in which that person or any Holding Company or Subsidiary of that person or any Subsidiary of such Holding Company of that person is a trustee, general partner, principal, manager, co-manager or adviser,

save that for the purposes of determining whether one entity is an Associated Company of another any transfer of shares by way of security or to a nominee of the transferor shall be disregarded, and the term **"Associate"** shall be interpreted accordingly;

**“Availability Failure”**

has the meaning given in Schedule Part 14 (*Payment Mechanism*);

**“Base Date”**

has the meaning given in paragraph 16 of Section 2 (*Interpretation*) of Schedule Part 1 (*Definitions and Interpretation*);

<b>“Base Senior Debt Termination Amount”</b>	has the meaning given in Section 6 ( <i>Definitions</i> ) of Schedule Part 17 ( <i>Compensation on Termination</i> );
<b>“Beneficiary”</b>	has the meaning given in Clause 49.3 ( <i>Conduct of Claims</i> );
<b>“Board Assets”</b>	means the Retained Estate, Retained Site and any other assets and equipment or other property used by, or on behalf of, the Board or any Board Party, other than the Facilities;
<b>“Board Change”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Board Change Notice”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Board Events of Default”</b>	has the meaning given in Clause 39.1 ( <i>Board Events of Default</i> );
<b>“Board Observer”</b>	means, from time to time, the individual designated as such by the Board;
<b>“Board Party”</b>	<p>means any:</p> <ul style="list-style-type: none"> <li>(a) of the Board's agents, contractors (including Consort and/or any Consort Party) and sub-contractors of any tier and its or their directors, officers and employees; and/or</li> <li>(b) University Party performing Clinical Services,</li> </ul> <p>each at the Facilities, with the authority of the Board but excluding Project Co, any Project Co Party and statutory undertakers and utilities and <b>“Board Parties”</b> shall be construed accordingly;</p>
<b>“Board Policies”</b>	means, subject to Clause 27.7 ( <i>Board Policies</i> ), the policies of the Board set out in Schedule Part 28 ( <i>Board Policies</i> ) as amended from time to time;
<b>“Board Services”</b>	<p>means:</p> <ul style="list-style-type: none"> <li>(a) the Clinical Services;</li> <li>(b) the Non-Clinical Services;</li> <li>(c) a catering service comprising a restaurant, grab and go kiosks, vending machines and trolley services,</li> <li>(d) retail premises for the sale of goods which are ordinarily sold in hospitals;</li> <li>(e) display of works of art for exhibition and/or sale within the Site;</li> </ul>

	(f) any Volunteer Services;
	(f) the holding of an occasional fete, tombola and raffle for charitable fund raising purposes within the Site;
	(e) Teenager Cancer Trust Activities,
	and such other services as may be notified to Project Co by the Board from time to time which are not services to be carried out by Project Co under this Agreement;
<b>"Board Specified Group 1 Equipment"</b>	means the Group 1 Equipment to be specified by the Board as listed in Appendix 3 ( <i>Board Specified Group 1 Equipment</i> ) in Schedule Part 11 ( <i>Equipment</i> );
<b>"Board Specified Group 1 Equipment Specifications"</b>	means the specifications for the Board Specified Group 1 Equipment as set out in Appendix 4 ( <i>Board Specified Group 1 Equipment Specifications</i> ) of Schedule Part 11 ( <i>Equipment</i> );
<b>"Board's Commissioning"</b>	means the Board's pre-completion commissioning activities to be carried out by the Board in accordance with Clause 17 ( <i>Pre-Completion Commissioning and Completion</i> );
<b>"Board's Community Benefits Requirements"</b>	means those requirements set out in Section 1 of Schedule Part 32 ( <i>Community Benefits</i> );
<b>"Board's Construction Requirements"</b>	means the requirements of the Board set out or identified in Section 3 ( <i>Board's Construction Requirements</i> ) of Schedule Part 6 ( <i>Construction Matters</i> ) as amended from time to time in accordance with the terms of this Agreement;
<b>"Board's Maintenance Obligations"</b>	has the meaning given in Clause 23.13 ( <i>Board's Maintenance Obligations</i> );
<b>"Board's Post Completion Commissioning"</b>	means the Board's post-completion commissioning activities to be carried out by the Board in accordance with Clause 18.1 ( <i>Post Completion Commissioning</i> );
<b>"Board's Representative"</b>	means the person so appointed by the Board pursuant to Clause 8 ( <i>Representatives</i> );
<b>"Borrower Loan Note"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Bus Stop Infrastructure"</b>	means the infrastructure resulting from the Bus Stop Works;
<b>"Bus Stop Works"</b>	means the design (including preparation of all Design Data), construction, testing and commissioning and completion of the bus stop works to be undertaken in accordance with paragraph 4.5.10(e)(i) of the Board's Construction Requirements;

<b>“Business Day”</b>	means a day other than a Saturday, Sunday or a bank holiday in Edinburgh;
<b>"Campus Facilities"</b>	means the Facilities and Retained Estate;
<b>"Campus Parties"</b>	means the Board and/or Board Parties and/or Consort and/or Consort Parties and/or the University and/or the University Parties, and each of their tenants or any party authorised by the same;
<b>"Campus Site"</b>	means the land shown outlined in red on Plan 7 including for the avoidance of doubt the Site and the University Site;
<b>“Capital Expenditure”</b>	means capital expenditure (as such term is interpreted in accordance with generally accepted accounting principles in the United Kingdom from time to time);
<b>"Car Park E"</b>	means the area of land the extent of which is shown delineated in a broken red line on Plan 3 and the location of which within the Campus Site is shown on Plan 5;
<b>“CDM Regulations”</b>	has the meaning given in Section 2 ( <i>Safety During Construction</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>“Certificate of Practical Completion”</b>	means a certificate in the relevant form set out in Schedule Part 22 ( <i>Certificates</i> );
<b>“Change”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Change in Control”</b>	means: <ul style="list-style-type: none"> <li>(a) any sale or other disposal of any legal, beneficial or equitable interest in any or all of the equity share capital of a corporation (including the control over the exercise of voting rights conferred on that equity share capital, control over the right to appoint or remove directors or the rights to dividends); and/or</li> <li>(b) any other arrangements that have or may have or which result in the same effect as paragraph (a) above;</li> </ul>
<b>"Change in Law"</b>	means the coming into effect or repeal (without re-enactment or consolidation) in Scotland of any Law, or any amendment or variation to any Law, or any judgement of a relevant court of law which changes binding precedent in Scotland in each case after the date of this Agreement;
<b>"Clinical Clean"</b>	has the meaning given to it in paragraph 4 ( <i>Clinical Clean</i> ) of Appendix B ( <i>Completion Criteria</i> ) of Schedule Part 10 ( <i>Outline</i> );

*Commissioning Programme*);

**"Clinical Services"**

means:

- (a) the management, responsibility, administration and carrying out of the clinical and medical services provided at the Facilities by or on behalf of the Board from time to time;
- (b) the provision of training and education required to deliver the services referred to in paragraph (a) above,

and which are not services to be provided by Project Co to the Board under this Agreement;

**"Collateral Agreements"**

means the Contractor's Collateral Agreement, the Service Providers' Collateral Agreements and the Key Sub-Contractor Collateral Agreements;

**"Commencement Date"**

means the last day of execution of this Agreement;

**"Commercially Sensitive Information"**

means the sub set of Confidential Information listed in column 1 of Part 1 (*Commercially Sensitive Contractual Provisions*) and column 1 of Part 2 (*Commercially Sensitive Material*) of Schedule Part 26 (*Commercially Sensitive Information*) in each case for the period specified in column 2 of Parts 1 and 2 of Schedule Part 26 (*Commercially Sensitive Information*);

**"Commissioners"**

has the meaning given in Clause 35.3 (*VAT*);

**"Commissioning Completion Certificate"**

means a certificate in the relevant form set out in Schedule Part 22 (*Certificates*);

**"Commissioning End Date"**

means the date by which the parties' commissioning activities are programmed to be completed in accordance with the Final Commissioning Programme;

**"Common Terms Agreement"**

means the common terms agreement dated on or about the date of this Agreement between, amongst others, Project Co, the Senior Funders, the Senior-Subordinated On-Loan Lenders, the Intercreditor Agent and the Security Trustee;

**"Compensation Event"**

has the meaning given in Clause 29.10 (*Compensation*);

**"Compensation Payment"**

has the meaning given in Clause 46.10 (*Compensation on Termination*);

**"Completion Criteria"**

means the Completion Tests as defined in Appendix B of Schedule Part 10 (*Outline Commissioning Programme*);

<b>“Completion Date”</b>	means 3 <sup>rd</sup> July 2017 or such revised date as may be specified by the Board’s Representative pursuant to Clause 29 ( <i>Delay Events</i> ) or such other date as may be agreed by the parties;
<b>"Completion Process"</b>	has the meaning given to it in Schedule Part 10 ( <i>Outline Commissioning Programme</i> );
<b>“Confidential Information”</b>	means: <ul style="list-style-type: none"> <li>(a) information that ought to be considered as confidential (however it is conveyed or on whatever media it is stored) and may include information whose disclosure would, or would be likely to, prejudice the commercial interests of any person, trade secrets, Intellectual Property Rights and know-how of either party and all personal data and sensitive personal data within the meaning of the Data Protection Act 1988 and</li> <li>(b) Commercially Sensitive Information;</li> </ul>
<b>"Connection Area"</b>	means the area of land shown shaded blue on Plan 2;
<b>"Connection Proposal"</b>	means the agreed Interface Proposal for connection information relating to the connection from the Facilities to the Link Building, as set out in Appendix 8 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>“Consents”</b>	means all permissions, consents, approvals, certificates, permits, licences, statutory agreements and authorisations required by Law, and all necessary consents and agreements from any third parties (including, without limitation, any Planning Permission), needed to carry out the Project Operations in accordance with this Agreement;
<b>"Consort"</b>	means Consort Healthcare (Edinburgh Royal Infirmary) Limited a company incorporated in Scotland under the Companies Acts (company number SC187449) and having its registered office at Edinburgh Quay, 133 Fountainbridge, Edinburgh EH3 9AG and/or any successor and/or assignee or party acquiring an interest in the Retained Estate and/or Retained Site and/or the RIE Project Agreement;
<b>"Consort Party"</b>	means Consort's agents and contractors of any tier and its or their directors, officers, employees and/or workmen in relation to the Retained Site and/or the Retained Estate and any relevant successors of the same;
<b>"Construction Access"</b>	as defined in paragraph 1.1 of Section 1 ( <i>Construction Access</i> ) of Part 1 ( <i>Interface</i> )

*Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*);

**"Construction Access Proposal"**

means the agreed Interface Proposal for construction access to the Site over the Yellow Area and/or Petrol Station Site, as set out in Appendix 1 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*);

**"Construction Contract"**

means the design and build contract dated the same date as this Agreement between Project Co and the Contractor (which, as at the date of this Agreement, is in the Agreed Form) as amended or replaced from time to time in accordance with this Agreement;

**"Construction Phase"**

means the period from and including the date of execution of this Agreement to and including the Actual Completion Date;

**"Construction Quality Plan"**

means the document at Section 8 (*Quality Plans (Design and Construction)*) of Schedule Part 6 (*Construction Matters*);

**"Construction Skills Certification Scheme"**

means the scheme operated by Construction Skills Certification Scheme Limited (registered under number 03024675) to evidence the identity and skills and competence of persons employed on construction sites;

**"Contamination"**

means all or any pollutants or contaminants, including any chemical or industrial, radioactive, dangerous, toxic or hazardous substance, waste or residue (whether in solid, semi-solid or liquid form or a gas or vapour) and including without limitation genetically modified organisms;

**"Contract Manager"**

means the person so appointed by the Board and notified to Project Co from time to time;

**"Contract Month"**

means a calendar month provided that:

- (a) the first Contract Month shall be the period from and including the Payment Commencement Date to and including the last day of the calendar month in which the Payment Commencement Date falls; and
- (b) the last Contract Month shall be the period from and including the first day of the calendar month in which the Expiry Date or Termination Date (as the case may be) falls to and including the Expiry Date or the Termination Date (as the case may be);

**"Contract Year"**

means:

- (a) for the first Contract Year, the period from

the date of this Agreement to the subsequent 31 March; and

- (b) for all subsequent Contract Years, the period of twelve (12) calendar months commencing on each anniversary of 1 April,

provided that the final Contract Year shall be such period as commences on 1 April and ends on and includes the date of expiry or earlier termination of this Agreement (as the case may be);

**“Contracting Associate”**

means the Contractor, any Service Provider and any other entity which performs on behalf of Project Co any material function in connection with this Agreement or the Project Operations;

**“Contractor”**

means Brookfield Multiplex Construction Europe Limited (registered under number 03808946) whose registered office is at 99 Bishopsgate, Second Floor, London, EC2M 3XD, engaged by Project Co to carry out the Works and any substitute design and/or building contractor engaged by Project Co as may be permitted by this Agreement;

**“Contractor's Collateral Agreement”**

means a collateral agreement among the Board, Project Co and the Contractor in the form set out in Section 1 of Schedule Part 9 (*Collateral Agreements*);

**“Contractor's Site Manager”**

means the manager to be appointed by the Contractor for purposes of supervision of all day-to-day activities on the Site and/or Off-Site;

**“Contractor's Site Rules”**

means the Contractor's rules, applicable on the Site and/or Off-Site to the Board, Project Co, the Contractor and their respective sub-contractors and suppliers of every tier during the construction of the Facilities and the Retained Estate Handback Infrastructure;

**“Convictions”**

means, other than in relation to minor road traffic offences, any previous or pending prosecutions, convictions, cautions and binding-over orders (including any spent convictions as contemplated by section 1(1) of The Rehabilitation of Offenders Act 1974 by virtue of the exemptions specified in Part II of Schedule 1 of the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (SI 1975/1023) and the Rehabilitation of Offenders Act 1974 (Exclusions and Exceptions) (Scotland) Order 2003 Scottish SI 2003/231) or any replacement or amendment to those Orders);

**"Cycle Path Infrastructure**

means the infrastructure resulting from the Cycle Path Works;

**"Cycle Path Works"**

means the design (including preparation of all Design Data), construction, testing and

	commissioning and completion of the works to be undertaken on the cycle path and reconfigure the landscaped areas in accordance with inter alia paragraphs 3.8.4 and 4.5.10C of the Board's Construction Requirements;
<b>“Deduction”</b>	means a deduction to be made in calculating a Monthly Service Payment, calculated in accordance with Section 3 ( <i>Deductions from Monthly Service Payments</i> ) of Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Deemed Liability”</b>	has the meaning given in Clause 46.7.3 ( <i>Compensation on Termination</i> );
<b>“Default Interest”</b>	means any increased margin that is payable to the Senior Funders or which accrues as a result of any payment due to the Senior Funders not being made on the date on which it is due;
<b>“Default Interest Rate”</b>	means 2% over LIBOR;
<b>“Defects”</b>	means any defect or fault in the Works and/or the Facilities and/or the Retained Estate Handback Infrastructure (not being a Snagging Matter) which occurs due to a failure by Project Co to meet the Board's Construction Requirements and/or Project Co's Proposals or otherwise to comply with its obligations under this Agreement;
<b>“Delay Event”</b>	has the meaning given in Clause 29.3 ( <i>Delay Events</i> );
<b>“Derogated Low Value Change”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Design Data”</b>	means all drawings, reports, documents, plans, software, formulae, calculations and other data relating to the design, construction, testing and/or operation of the Facilities and/or the Retained Estate Handback Infrastructure;
<b>“Design Quality Plan”</b>	means the document at Section 8 ( <i>Quality Plans (Design and Construction)</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>"Design Team"</b>	means: <ul style="list-style-type: none"> <li>(a) TUV SUD Limited (trading as Wallace Whittle) a company registered in Scotland (company number SC215164) whose registered office is at Napier Building, Scottish Enterprise Technology Park, East Kilbride, G75 0QF who shall carry out works packages relating to the mechanical and electrical design and mechanical and electrical engineering including mechanical and electrical systems of the helipad;</li> <li>(b) HLMAD Limited, a company registered in England &amp; Wales (company number 05047778) whose registered office is at</li> </ul>

Ground Floor, 46 Loman Street, London, SE1 0EH who shall carry out works packages relating to the architectural design;

- (c) Robert Bird & Partners Limited, a company registered in England & Wales (company number 04472743) whose registered office is at Second Floor North Block, Harling House, 47-51 Great Suffolk Street, London, United Kingdom, SE1 0BS who shall carry out works packages relating to the structural engineering design including but not limited to primary steelwork, pre-cast / reinforced concrete, structural support for the helipad and the geotechnical consultancy services to satisfy the design requirements of the Petrol Station Site Works;
- (d) Acoustic Logic Consultancy (UK) Limited, a company registered in England and Wales (company number 06487654) whose registered office is 12 Russell Gardens, London, W14 8EZ who shall carry out acoustic services relating to the acoustic design;
- (e) Ove Arup & Partners Limited, a company registered in England and Wales (company number 01312453) whose registered office is 13 Fitzroy Street, London, W1T 4BQ who shall carry out transportation services relating to traffic consultancy;
- (f) WSP UK Limited, a company registered in England and Wales (company number 01383511) whose registered office is WSP Home, 70 Chancery Lane, London, WC2A 1AF who shall carry out fire engineering services relating to fire engineering;
- (g) Ironside Farrar Limited, a company registered in Scotland (company number SC109330) whose registered office is 111 MacDonald Road, Edinburgh, EH7 4NW who shall carry out planning services relative to planning consultancy;
- (h) Brookfield Multiplex CDM Services Europe Limited, a company registered in England (company number 06324496) whose registered office is 99 Bishopsgate, Second Floor, London, EC2M 3XD who shall carry out works packages relating to CDM Co-ordinator.

**“Direct Losses”**

means, subject to the provisions of Clause 54.1 (*Exclusions*), all damage, losses, liabilities, claims, actions, costs, expenses (including the cost of legal or professional services, legal costs being on an agent/client, client paying basis), proceedings, demands and charges whether arising under statute, contract or at common law

but, to avoid doubt, excluding:

- (a) Indirect Losses; and
- (b) any deductions levied by the Board and incurred by Consort pursuant to the payment mechanism within the RIE Project Agreement;

**“Disclosed Data”**

means any Design Data and any other written information, data and documents made available or issued to Project Co or any Project Co Party in connection with the Project by or on behalf of the Board (or any Board Party) whether on, before or after the execution of this Agreement;

**“Discriminatory Change in Law”**

means any Change in Law the effect of which is to discriminate directly against:

- (a) hospitals whose design, construction, financing and operation are procured under the private finance initiative in relation to other similar projects; or
- (b) companies undertaking projects procured by contracts under the private finance initiative in relation to other companies undertaking similar projects;
- (c) the Facilities or the Retained Estate Handback Works in relation to other similar facilities; or
- (d) Project Co in relation to other companies,

save:

- (i) where such Change in Law is in response to any act or omission on the part of Project Co which is illegal (other than an act or omission rendered illegal by virtue of the Change in Law itself);
- (ii) that such action shall not be deemed to be discriminatory solely on the basis that its effect on Project Co is greater than its effect on other companies; and
- (iii) that a change in taxes or the introduction of a tax affecting companies generally or a change in VAT shall be deemed not to be discriminatory in any circumstances (to avoid doubt, such changes being given effect in accordance with Clause 35 (*VAT and Construction Industry*)).

*Tax Deduction Scheme);*

<b>“Dispute”</b>	has the meaning given in paragraph 1 of Schedule Part 20 ( <i>Dispute Resolution Procedure</i> );
<b>“Dispute Resolution Procedure”</b>	means the procedure set out in Schedule Part 20 ( <i>Dispute Resolution Procedure</i> );
<b>"EIB Senior Finance Contract"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"EIB Senior Subordinated Finance Contract"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"EIB Senior Subordinated On-Loan Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"EIB Senior Subordinated On-Loan Lender"</b>	has the meaning given to that term in the Common Terms Agreement;
<b>“Emergency”</b>	means an event causing or, in the reasonable opinion of a party, threatening to cause death or injury to any individual, or serious disruption to the lives of a number of people or extensive damage to property, or contamination of the environment, in each case on a scale beyond the capacity of the emergency services or preventing the Services operating under normal circumstances and requiring the mobilisation and organisation of the emergency services;
<b>"Encumbrance"</b>	means any option, right of pre-emption, pledge, security, interest, lien, charge, mortgage, lease, licence, claim, condition, retention or other encumbrance or restriction whether imposed by agreement, by law or otherwise;
<b>"Endorsed RDD Item"</b>	has the meaning given in Part 1 ( <i>Endorsed RDD Item– Level A or B but subject to re-submission to the Board through Schedule Part 8 (Review Procedure)</i> ) of Section 5 ( <i>Reviewable Region Data</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>"Energy Model"</b>	means Project Co's approved software energy model used to inform compliance of Project Co's Proposals with the Energy Performance criteria;
<b>"Energy Performance"</b>	means the Board's requirements in relation to achieving a minimum performance for BREEAM credit ENE 01 and a minimum Energy Performance Certificate rating, as set out in the Board's Construction Requirements;
<b>“Environmental Information Regulations” (Scotland)</b>	means the Environmental Information (Scotland) Regulations 2004 together with any guidance and/or codes of practice issued by the Scottish Information Commissioner or relevant Government Department in relation to such regulations;

<b>"Equipment"</b>	means the Group 1 Equipment, the Group 2A Equipment, the Group 2B Equipment and/or the Group 3 Equipment;
<b>"Equipment Responsibilities Matrix"</b>	means the equipment responsibilities matrix set out in Appendix 2 of Schedule Part 11 ( <i>Equipment</i> );
<b>"Equipment Schedule"</b>	means the equipment schedule set out in Appendix 1 to Schedule Part 11 ( <i>Equipment</i> );
<b>"Equity Documents"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Equity Funding Date"</b>	means 31 July 2017 or such earlier date for accelerated equity funding in accordance with the terms of the Finance Documents or Senior Subordinated Finance Documents, as such are defined in the Intercreditor Agreement;
<b>"Estimated Deductions"</b>	has the meaning given in Clause 34.2.1 ( <i>Invoicing and Payment Arrangements</i> );
<b>"Estimated Increased Maintenance Costs"</b>	has the meaning given in Clause 23.7 ( <i>Programmed and Unprogrammed Maintenance</i> );
<b>"Excusing Cause"</b>	has the meaning given in Clause 51.2 ( <i>Excusing Causes</i> );
<b>"Expiry Date"</b>	means midnight on 2 <sup>nd</sup> July 2042;
<b>"Facilities"</b>	means the buildings and other facilities, together with all supporting infrastructure (including the Plant and the Group 1 Equipment), external hard-standings, specialist surfaces and other amenities located on the Site and Off-Site (excluding the Retained Estate Handback Infrastructure but including as a minimum all aspects detailed within Appendix B to Section 1 ( <i>Service Level Specification</i> ) of Schedule Part 12 ( <i>Service Requirements</i> )), as required to enable Project Co to comply with its obligations under this Agreement, all as the same may be varied, amended or supplemented from time to time in accordance with this Agreement;
<b>"Facility Manager"</b>	means Project Co's duty manager who shall be present at the Facilities in accordance with the Service Level Specification;
<b>"Fee Letter"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Fees Regulations"</b>	means the Freedom of Information (Fees for Required Disclosure (Scotland)) Regulations 2004;
<b>"Final Commissioning Programme"</b>	means the programme jointly developed and agreed by the Board and Project Co in accordance with the provisions of Clause 17.1 ( <i>Pre-completion Commissioning and</i>

	<i>Completion</i> );
<b>“Financial Close”</b>	means the date of this Agreement;
<b>"Financial Close Energy Model"</b>	means Project Co's Energy Model as agreed with the Board at Financial Close to inform compliance of Project Co's Proposals with the Board's Energy Performance requirements for the Facilities as detailed in Section 3 ( <i>Board's Construction Requirements</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>“Financial Model”</b>	means the computer spreadsheet model for the Project incorporating statements of Project Co's cashflows including all expenditure, revenues, financing and taxation of the Project Operations together with the profit and loss accounts and balance sheets for Project Co throughout the Project Term accompanied by details of all assumptions, calculations and methodology used in their compilation and any other documentation necessary or desirable to operate the model, as amended from time to time in accordance with the terms of Clause 37 ( <i>Financial Model</i> ), a copy of which is attached to this Agreement on disk as Attachment 1;
<b>“Finishes”</b>	means those finishes listed in the table set out in paragraph 1.2.3 of Schedule Part 8 ( <i>Review Procedure</i> );
<b>“Finishes Proposal Date”</b>	means, in relation to a Finish, the relevant date identified in the table set out in paragraph 1.2.3 of Schedule Part 8 ( <i>Review Procedure</i> );
<b>“Finishes Selection Date”</b>	means, in relation to a Finish, the relevant date identified in the table set out in paragraph 1.2.3 of Schedule Part 8 ( <i>Review Procedure</i> );
<b>“Fire Alarm System”</b>	means the fire alarm system to be installed as part of the Works and thereafter maintained by Project Co as more fully described in paragraph 4.5.10(A) of the Board's Construction Requirements;
<b>“First Party”</b>	has the meaning given in Clause 35.3 ( <i>VAT</i> );
<b>“FOI(S)A”</b>	means the Freedom of Information (Scotland) Act 2002 and any subordinate legislation (as defined in section 73 of the Freedom of Information (Scotland) Act 2002) made under the Freedom of Information (Scotland) Act 2002 from time to time together with any guidance and/or codes of practice issued by the Scottish Information Commissioner or relevant Government department in relation to such Act;
<b>“Force Majeure”</b>	has the meaning given in Clause 31 ( <i>Force Majeure</i> );
<b>"Foul Service Strip"</b>	means the area shaded yellow and hatched black

	on Plan 2A;
<b>“Foul Water Drainage”</b>	means the foul water drainage to be installed as part of the Works and thereafter maintained by Project Co, as more fully described in paragraphs 4.5.10 ( <i>Construction Works Further Information</i> ), 6.11 ( <i>Drainage</i> ) and 8.7.20 ( <i>Drainage</i> ) of Sub Section 1A of the Board's Construction Requirements;
<b>“Functional Area”</b>	means an area of the Facilities identified as such in Appendix 2 to Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Funders”</b>	means all or any of the persons who provide financing or funding in respect of the Project Operations under the Funding Agreements including European Investment Bank, The Prudential Assurance Company Limited and Prudential Retirement Income Limited and, where the context so permits, prospective financiers or funders;
<b>“Funders' Direct Agreement”</b>	means the agreement to be entered into between the Board, the Senior Funders and Project Co in the form set out in Schedule Part 4 ( <i>Funders' Direct Agreement</i> );
<b>"Funders' Contractor Direct Agreement"</b>	has the meaning given to the term "Construction Contract Direct Agreement" in the Common Terms Agreement;
<b>"Funders' Service Provider Direct Agreement"</b>	has the meaning given to the term "Service Provider Direct Agreement" in the Common Terms Agreement;
<b>“Funding Agreements”</b>	means all or any of the agreements or instruments to be entered into by Project Co or any of its Associates relating to the financing of the Project Operations (including the Initial Funding Agreements and any agreements or instruments to be entered into by Project Co or any of its Associates relating to the rescheduling of their indebtedness or the refinancing of the Project Operations);
<b>“Funding Default”</b>	means a Default, as such term is defined in the Common Terms Agreement;
<b>“Good Industry Practice”</b>	means using standards, practices, methods and procedures conforming to the Law and exercising that degree of skill and care, diligence, prudence and foresight which would reasonably and ordinarily be expected from a skilled and experienced person engaged in a similar type of undertaking under the same or similar circumstances;
<b>“Government”</b>	means the government of the United Kingdom or the Scottish Ministers;
<b>“Ground Physical and Geophysical</b>	means the investigation procured by the Board

<b>Investigation”</b>	dated 25 <sup>th</sup> July 2013 together with a supplemental report dated 27 <sup>th</sup> August 2013 of all the conditions of and surrounding the Site and of any extraneous materials in, on or under the Site (including its surface and subsoil) to enable the Facilities (other than those parts of the Facilities to be constructed Off-Site) to be designed and constructed and the Works to be carried out with due regard for those conditions and the seismic activity (if any) in the region of the Site;
<b>"Group 1 Equipment"</b>	means the equipment indicated as 1 in the "Group" column of the Appendix 1 ( <i>Equipment Schedule</i> ) of Schedule Part 11 ( <i>Equipment</i> ), including for the avoidance of doubt the Board Specified Group 1 Equipment and any Replacement Board Specified Group 1 Equipment;
<b>"Group 2A Equipment"</b>	means the equipment indicated as 2A in the "Group" column of the Appendix 1 ( <i>Equipment Schedule</i> ) of Schedule Part 11 ( <i>Equipment</i> );
<b>"Group 2B Equipment"</b>	means the equipment indicated as 2B in the "Group" column of the Appendix 1 ( <i>Equipment Schedule</i> ) of Schedule Part 11 ( <i>Equipment</i> );
<b>"Group 3 Equipment"</b>	means the equipment indicated as 3 in the "Group" column of the Appendix 1 ( <i>Equipment Schedule</i> ) of Schedule Part 11 ( <i>Equipment</i> );
<b>“H&amp;S Conviction”</b>	has the meaning given in Clause 40.1.5 ( <i>Health and Safety</i> );
<b>“Handback Amount”</b>	has the meaning given in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>“Handback Bond”</b>	has the meaning given in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>“Handback Certificate”</b>	means the certificate of confirmation that the Facilities comply with the Handback Requirements in the relevant form set out in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>“Handback Programme”</b>	has the meaning given in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>“Handback Requirements”</b>	has the meaning given in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>“Handback Works”</b>	has the meaning given in Schedule Part 18 ( <i>Handback Procedure</i> );
<b>"Handover Clean"</b>	has the meaning given in paragraph 3 ( <i>Handover Clean</i> ) of Appendix B ( <i>Completion Criteria</i> ) of Schedule Part 10 ( <i>Outline Commissioning Programme</i> );
<b>"Hatched Orange Area"</b>	means the areas of land shown coloured orange and hatched in black on Plan 2, which form part

	of the Orange Area;
<b>“Health and Safety Regime”</b>	means the Food Safety Act 1990 (and associated regulations), the Health & Safety at Work etc Act 1974 (and associated regulations), the Fire Precautions Act 1971, the Environmental Protection Act 1990 and the Water Industry (Scotland) Act 2002 and any similar or analogous health, safety or environmental legislation in force from time to time;
<b>“Health Board”</b>	means a health board established under section 2 of the National Health Service (Scotland) Act 1978 (or any successor body to any such body established with substantially the same powers or duties);
<b>“High Value Change Stage 2 Submission”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Hold Co"</b>	means IHS Lothian Holdings Limited (company number 09360660);
<b>"HoldCo Loan Note"</b>	has the meaning given to it in the Common Terms Agreement;
<b>“Holding Company”</b>	has the meaning given to it in section 1159 of the Companies Act 2006;
<b>“Hospital Square”</b>	means the areas shaded orange and hatched black on Plan 2, which form part of the Orange Area;
<b>“Hospital Square Infrastructure”</b>	means the infrastructure resulting from the Hospital Square Works;
<b>“Hospital Square Works”</b>	means the design (including preparation of all Design Data), construction, testing and commissioning and completion of the works to be undertaken in Hospital Square in accordance with inter alia paragraph 4 ( <i>Site Specific Requirements</i> ) of Sub-Section C of the Board's Construction Requirements;
<b>“Hours for Programmed Maintenance”</b>	has the meaning given in Appendix 2 of Schedule Part 8 ( <i>Review Procedure</i> );
<b>“Hours of Operation”</b>	has the meaning given in Appendix 2 of Schedule Part 8 ( <i>Review Procedure</i> );
<b>“ICT”</b>	means the information communications technology to be installed as part of the Works and thereafter maintained by Project Co, as more fully described in paragraph 9 ( <i>Information and Communication Technology (ICT) Requirements</i> ) of Sub-Section C of Board's Construction Requirements;
<b>“Indemnifier”</b>	has the meaning given in Clause 49.3 ( <i>Conduct of Claims</i> );

<b>“Indemnity Period”</b>	has the meaning given to it in Schedule Part 15 ( <i>Insurance Requirements</i> );
<b>“Independent Tester”</b>	means EC Harris LLP (registered under number OC368843) whose registered office is at ECHQ, 34 York Way, London N1 9AD or such substitute independent tester as may be permitted pursuant to this Agreement;
<b>“Independent Tester Contract”</b>	means the contract dated the same date as this Agreement in the form set out in Schedule Part 13 ( <i>Independent Tester Contract</i> ) or any replacement thereof among Project Co, the Board and the Independent Tester;
<b>“Indirect Losses”</b>	has the meaning given in Clause 54.1 ( <i>Exclusions and Limits on Liability</i> );
<b>“Information”</b>	has the meaning given under section 73 of the Freedom of Information (Scotland) Act 2002;
<b>“Initial Drainage Proposal”</b>	means the proposal in regard to works to install new Surface Water Drainage Works connections from the Site to the surface water drainage within the RIE Site detailed in Appendix E of the Board's Construction Requirements;
<b>“Initial Funding Agreements”</b>	means the Common Terms Agreement, the Intercreditor Agreement, the Institutional Investor Senior Facility Agreement, the EIB Senior Finance Contract, the Institutional Investor Senior Subordinated Facility Agreement, the EIB Senior Subordinated Finance Contract, the Topco Institutional Investor On-Loan Agreement, the Topco EIB On-Loan Agreement, the Institutional Investor Senior Subordinated On-Loan Agreement, the EIB Senior Subordinated On-Loan Agreement, the Account Bank Agreement, the Funders' Direct Agreement, the Funders' Contractor Direct Agreement, Funders' Service Provider Direct Agreement, each Fee Letter, each Security Document, the Equity Documents and each Senior Subordinated Security Document in the Agreed Form;
<b>"Insurance Proceeds Account”</b>	means the account numbered 326330 (GB27 SMBC 405 125 0032 6330) in the joint names of Project Co and the Board with the Account Bank (as defined in the Common Terms Agreement);
<b>“Insurance Proceeds Account Agreement”</b>	means the agreement in the form set out in Schedule Part 25 ( <i>Insurance Proceeds Account Agreement</i> );
<b>“Insurance Term”</b>	means any term and/or condition required to be included in a policy of insurance by Clause 53 ( <i>Insurance</i> ) and/or Schedule Part 15 ( <i>Insurance Requirements</i> ) but excluding any risk;
<b>“Insurances”</b>	means, as the context requires, all or any of the insurances required to be maintained by Project

	Co pursuant to this Agreement;
<b>“Intellectual Property”</b>	means all registered or unregistered trademarks, service marks, patents, registered designs, utility models, applications for any of the foregoing, copyrights, unregistered designs, the sui generis rights of extraction relating to databases, trade secrets and other confidential information or know-how;
<b>“Intellectual Property Rights”</b>	means the Intellectual Property which (or the subject matter of which) is created, brought into existence, acquired, used or intended to be used by Project Co, any Project Co Party or by other third parties (for the use by or on behalf of or for the benefit of Project Co) for the purposes of the design or construction of the Facilities and the Retained Estate Handback Infrastructure, the operation, maintenance, improvement and/or testing of the Facilities and Retained Estate Handback Infrastructure or the conduct of any other Project Operation or otherwise for the purposes of this Agreement;
<b>"Intercreditor Agent"</b>	has the meaning given to it in the Common Terms Agreement;
<b>“Interface Agreement”</b>	means an interface agreement of even date between Project Co, the Contractor and the Service Provider;
<b>“Interface Output Specification”</b>	means the document detailing interfaces between the Facilities and the Link Building and/or the RIE Facilities set out in Appendix B of the Board's Construction Requirements;
<b>“Interface Proposals”</b>	means any of the Access Strategy, Connection Proposal, Construction Access Proposal, Oversail Strategy, Service Proposal, Supplemental Drainage Proposal, Traffic Management Strategy, and any strategy or proposal agreed or determined pursuant to the terms of Part 2 ( <i>Interface Proposals Procedure</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ), which Interface Proposals form part of Project Co's Proposals and Method Statements;
<b>"Intercreditor Agent"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Intercreditor Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Institutional Investor Senior Facility Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Institutional Investor Senior Lender"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Institutional Investor Senior Subordinated Facility Agreement"</b>	has the meaning given to it in the Common Terms Agreement;

<b>"Institutional Investor Senior Subordinated On-Loan Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Institutional Investor Senior Subordinated On-Loan Lender"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Interim Project Report"</b>	means a report prepared by Project Co setting out all information which Project Co is required to provide to the Senior Funders in respect of a Funding Default;
<b>"IT"</b>	means information technology systems, hardware and software;
<b>"Joint"</b>	means the isolation/movement joint within the Connection Area between the Facilities and the Link Building, as more particularly referred to at paragraph 2.3 of the Interface Output Specification;
<b>"Key Sub-Contractor"</b>	<p>means the sub-contractors, including the Design Team, appointed to complete the following works packages:</p> <ul style="list-style-type: none"> <li>(a) mechanical and electrical engineering and PTS;</li> <li>(b) connections design only in relation to primary steelwork and secondary steelwork;</li> <li>(c) roofing (excluding green and bituminous ballast/slab roofs) ;</li> <li>(d) cladding and windows (to the extent that design liability is not covered by the package set out in limb (e) of this definition);</li> <li>(e) curtain walling and windows(to the extent that design liability is not covered by the package set out in limb (d) of this definition);</li> <li>(f) structural glass (glazed balustrades);</li> <li>(g) helipad;</li> <li>(h) lifts;</li> <li>(i) piling;</li> <li>(j) SFS;</li> <li>(k) external canopies;</li> <li>(l) precast concrete (stairs, landings and edge beams only); and</li> <li>(m) catering facilities;</li> </ul>
<b>"Key Sub-Contractor Collateral Agreements"</b>	<p>means:</p> <ul style="list-style-type: none"> <li>(1) the Agreed Form Collateral Agreements between the members of the Design Team and the Board referred to in Clause 57.8A.1 of this</li> </ul>

Agreement; and

(2) the Agreed Form Collateral Agreements among the Board the Contractor and the Key Sub-Contractors referred to in Clause 57.8A.2 of this Agreement; and

(3) the Collateral Agreements among the Board, the Contractor and the Key Sub-Contractors referred to in Clause 57.8A.3 of this Agreement substantially in the form set out in Section 3 of Schedule Part 9 (*Collateral Agreements*); and

(4) the product warranty to be provided to the Board in accordance with Clause 57.8A.4 of this Agreement.

**“Law”**

means:

- (a) any applicable statute or proclamation or any delegated or subordinate legislation;
- (b) any enforceable community right within the meaning of section 2(1) of the European Communities Act 1972;
- (c) any applicable guidance, direction or determination with which the Board and/or Project Co is bound to comply to the extent that the same are published and publicly available or the existence or contents of them have been notified to Project Co by the Board; and
- (d) any applicable judgement of a relevant court of law which is a binding precedent in Scotland,

in each case in force in Scotland;

**"LIBOR"**

means the rate per annum administered by ICE Benchmark Administration Limited (or any other person which takes over the administration of that rate) for six month sterling deposits in the London interbank market displayed (before any correction, recalculation or republication by the administrator) on pages LIBOR01 or LIBOR02 of the Thomson Reuters screen (or any appropriate replacement screen which displays that rate) and if, in either case, that rate is less than zero, LIBOR shall be deemed to be zero;

**“Lifecycle Replacement”**

means any works for the renewal or replacement of any Plant, Group 1 Equipment, or any other equipment or asset or part of the Facilities that are necessary to ensure that the Facilities are maintained in accordance with the Service Level

	Specification and Method Statements and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals throughout the Project Term;
<b>"Link Building"</b>	means the extension to the RIE Facilities constructed or to be constructed within the Connection Area by or on behalf of the Board pursuant to the Interface Output Specification;
<b>"Little France Campus Working Group"</b>	has the meaning given to it in Clause 8A.1 ( <i>Little France Campus Working Group</i> );
<b>"Little France Campus Working Group Parties"</b>	means the Board, Consort, the University, Project Co and the relevant Sub-Contractor;
<b>"Little France Steading"</b>	means subjects extending to 0.242 hectares forming Little France Steading shown outlined in red on Plan 10;
<b>"Low Value Change"</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Mac Co"</b>	means IHS Lothian Corporate Limited (company number 09359625);
<b>"Maintenance Works"</b>	means any works for maintenance or repair of the Facilities that are necessary to ensure that the Facilities are maintained in accordance with Service Level Specification and Method Statements and that the Facilities comply with the Board's Construction Requirements and Project Co's Proposals (including, without limitation, the renewal or replacement of any Plant or equipment) throughout the Project Term but excluding for the avoidance of doubt Lifecycle Replacement;
<b>"Major Incident"</b>	means the widely accepted term used by the emergency services to describe any emergency that requires the implementation of special arrangements by one or more of the emergency services, the NHS, the Board or the local authority;
<b>"Malicious Damage Report"</b>	has the meaning given in Clause 49A.2.1;
<b>"Management Services Agreement"</b>	means the management services agreement of even date between Top Co, Hold Co, Project Co and HCP Management Services Limited (registered under number 3819468);
<b>"Medical Contamination"</b>	means a disease carrying agent which cleaning and prevention of infection or contamination techniques in use in accordance with Good Industry Practice and this Agreement cannot substantially prevent or cannot substantially remove with the result that: <ul style="list-style-type: none"> <li>(a) it is unsafe to admit patients or staff to the relevant area or to use the area for</li> </ul>

	the purpose for which it is intended; and
	(b) the area cannot be made safe for the admission of patients or staff;
<b>“Medium Value Change”</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Method Statements”</b>	means the method of providing a Service as set out or identified in Section 2 ( <i>Method Statements</i> ) of Schedule Part 12 ( <i>Service Requirements</i> ) as amended from time to time in accordance with Clause 33 ( <i>Change Protocol</i> ) and Clause 22 ( <i>The Services</i> );
<b>“Monthly Service Payment”</b>	has the meaning given in Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Monthly Service Report”</b>	means a monthly report to be prepared by Project Co and provided to the Board in accordance with the relevant provisions in Section 1 ( <i>Service Level Specification</i> ) of Schedule Part 12 ( <i>Service Requirements</i> );
<b>“Net Present Value”</b>	has the meaning given in Schedule Part 23 ( <i>Refinancing</i> );
<b>“NHS”</b>	means the National Health Service;
<b>“NHS Requirement”</b>	means: <ul style="list-style-type: none"> <li>(a) in relation to the Works, Health Building Notes and Health Technical Memoranda and such other requirements as are designated as NHS Requirements in the Board’s Construction Requirements; and</li> <li>(b) in relation to the Project Operations (other than the Works), Health Building Notes, Health Technical Memoranda, all Executive Letters, Health Service Guidelines, Health Circulars of the NHS and any similar official requests, requirements and guidance having similar status for the time being in force, but only to the extent the same are published and publicly available or the existence and contents of them have been notified to Project Co by the Board;</li> </ul>
<b>“Non-Clinical Services”</b>	has the meaning set out in Sub-Section E ( <i>Specific Non-Clinical Requirements</i> ) of the Board’s Construction Requirements;
<b>“NPD”</b>	means non-profit distributing model;
<b>“NPD Requirements”</b>	means all of the following requirements: <ul style="list-style-type: none"> <li>(a) not to make a distribution of profit or surplus, or any transfer of assets to one or more shareholders whether by</li> </ul>

means of any payment or transfer of assets, directly or indirectly, in cash or in any kind, whether by way of dividend, bonus or release of obligation or in any other way otherwise than:

- (i) for full consideration; or
  - (ii) to the Board pursuant to Clause 36 (*Payment of Surpluses and Compliance with NPD Requirements*) or Article 12 or 13 of the Articles of Association); or
  - (iii) Project Co's Share of a Project Co Change; or
  - (iv) Project Co's Share of a Refinancing Gain;
- (b) to comply with Clause 4.4 (*Changes to Funding Agreements and Refinancing*);

**"Off-Site"**

means:

- (a) the land made available to Project Co for the Works, the Off-Site Works and Services being:
  - (i) the Yellow Area, the Petrol Station Site, the Orange Area, the Connection Area and the Service Strip and
  - (ii) the Foul Service Strip; and
  - (iii) Not Used; and
- (b) those parts of the RIE Facilities made available to Project Co for the Off-Site Works and Services; and
- (c) the land procured by Project Co for the Substation Works.

**"Off-Site Conditions"**

means the condition of the Off-Site (including but not limited to) hydrological, hydrogeological, ecological, environmental, geotechnical and archaeological conditions;

**"Off-Site Works"**

means the RIE Works, Hospital Square Works, Cycle Path Works, Substation Works, Petrol Station Site Works and/or Surface Water Drainage Works;

**"Operational Functionality"**

means

(a) the following matters as shown on the 1:500 scale development control plan and site plans;

- (i) the point of access to and within the Site and the Facilities;
- (ii) the relationship between one or more buildings that comprise the Facilities; and
- (iii) the adjacencies between different hospital departments within the Facilities,

as indicated on the following drawings in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*)

- HLM-Z0-00-PL-700-020 Rev 6;
- HLM-SZ-B1-PL-400-400 Rev 2;
- HLM-SZ-00-PL-400-400 Rev 3;
- HLM-SZ-01-PL-400-400 Rev 2;
- HLM-SZ-02-PL-400-400 Rev 2;
- HLM-SZ-03-PL-400-400 Rev 2;
- HLM-SZ-04-PL-400-400 Rev 2;

(b) the following matters as shown on the 1:200 scale plans:

- (i) the points of access to and within the Site and the Facilities;
- (ii) the relationship between one or more buildings that comprise the Facilities;
- (iii) the adjacencies between different hospital departments within the Facilities; and
- (iv) the adjacencies between rooms within the hospital departments within the Facilities,

as indicated on the following drawings in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*)

- HLM-SZ-00-PL-220-001 Rev 6;

- HLM-SZ-01-PL-220-001 Rev 6;
  - HLM-SZ-02-PL-220-001 Rev 6;
  - HLM-SZ-03-PL-220-001 Rev 6;
  - HLM-SZ-04-PL-220-001 Rev 6;
  - HLM-SZ-06-PL-240-001 Rev 5;
  - HLM-SZ-B1-PL-220-001 Rev 7;
  - HLM-Z5-SL-PL-220-001 Rev 6;
- (c) the quantity, description and areas (in square metres) and minimum critical dimensions of those rooms and spaces as indicated on the following drawings in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*)
- HLM-SZ-00-PL-220-001 Rev 6;
  - HLM-SZ-01-PL-220-001 Rev 6;
  - HLM-SZ-02-PL-220-001 Rev 6;
  - HLM-SZ-03-PL-220-001 Rev 6;
  - HLM-SZ-04-PL-220-001 Rev 6;
  - HLM-SZ-06-PL-240-001 Rev 5;
  - HLM-SZ-B1-PL-220-001 Rev 7;
  - HLM-Z5-SL-PL-220-001 Rev 6;
- (d) the location and relationship of equipment, furniture, fittings and user terminals as shown on the 1:50 loaded room plans in respect of:
- (i) all bed and trolley positions;
  - (ii) internal room elevations;
  - (iii) actual ceiling layouts;
  - (iv) the Non-Clinical Services supplies, storage, distribution and waste management spaces; and
  - (v) the ICT requirements;
- (e) the location of and the inter-relationships between rooms within the departments within the Facilities, as indicated on the following drawings in Section 4 (*Project Co's Proposals*) of Schedule Part 6

*(Construction Matters)*

- HLM-SZ-00-PL-220-001 Rev 6;
- HLM-SZ-01-PL-220-001 Rev 6;
- HLM-SZ-02-PL-220-001 Rev 6;
- HLM-SZ-03-PL-220-001 Rev 6;
- HLM-SZ-04-PL-220-001 Rev 6;
- HLM-SZ-06-PL-240-001 Rev 5;
- HLM-SZ-B1-PL-220-001 Rev 7;
- HLM-Z5-SL-PL-220-001 Rev 6;

but only insofar as each of the matters listed in (a) to (e) above relate to or affect Operational Use;

**“Operational Insurances”**

means the insurances required by Clause 53.2 and **“Operational Insurance”** means any one of such insurances;

**“Operational Term”**

means the period from the Actual Completion Date until the end of the Project Term;

**“Operational Use”**

means the use of a room or space to the extent that it is used by the Board or its employees, tenants, agents and/or contractors (but not to avoid doubt Project Co staff) for carrying out the Board Services;

**“Option Period”**

has the meaning given in Clause 53.14.3 (*Uninsurable Risks*);

**“Orange Area”**

means the area of land shaded orange on Plan 2 including for the avoidance of doubt the Hatched Orange Area;

**“Original Senior Commitment”**

means the amount committed under the Senior Funding Agreements as at Financial Close (as adjusted to take into account any Qualifying Change);

**“Outline Commissioning Programme”**

means the programme setting out the standards, specifications, procedures and other requirements for the carrying out and completion of the commissioning activities of the parties set out in outline in Appendix 3 (*Outline Commissioning Programme*) Schedule Part 10 (*Outline Commissioning Programme*);

**“Oversail Strategy”**

means the agreed Interface Proposal for oversailing parts of the Campus Site other than the Facilities, as set out in Appendix 3 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*);

<b>“Payment Commencement Date”</b>	means the Actual Completion Date;
<b>“Payment Mechanism”</b>	means Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Performance Failure”</b>	has the meaning given in Section 1 of Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Performance Guarantees”</b>	means the guarantees to Project Co in respect of the Construction Contract, the Service Contracts which, as at the date of this Agreement are in the Agreed Form;
<b>"Permit to Work System"</b>	means as at the Commencement Date the permit to work system in force at the Campus Site, as more fully described in the documentation set out in Appendix 11 ( <i>Permit to Work Documentation</i> ) of Schedule Part 31 ( <i>Consort interfere with Campus Site and/or Campus Facilities</i> );
<b>“Permitted Borrowing”</b>	means without double-counting, any: <ul style="list-style-type: none"> <li>(a) advance to Project Co under the Senior Funding Agreements;</li> <li>(b) Additional Permitted Borrowing;</li> <li>(c) Not Used; and</li> <li>(d) interest and, in respect of the original Senior Funding Agreements only (as entered into at the date of this Agreement, prior to any subsequent amendment), other amounts accrued or payable under the terms of such original Senior Funding Agreements,</li> </ul> <p>except where the amount referred to in paragraphs (a) to (d) above is or is being used to fund a payment of Default Interest on any Additional Permitted Borrowing;</p>
<b>"Petrol Station Site"</b>	means the area outlined in pink set out on Plan 2;
<b>"Petrol Station Site Contamination Investigation"</b>	means the investigation procured by the Board dated 26 June 2014 (titled "Little France Service Station, Edinburgh Report on Ground Investigations, Final Factual Report") of the conditions the Petrol Station Site and of any extraneous materials in, on or under the Petrol Station Site (including its surface and subsoil) to enable the Petrol Station Site Works to be carried out with due regard for those conditions and the seismic activity (if any) in the region of the Petrol Station Site;
<b>"Petrol Station Site Infrastructure"</b>	means the infrastructure resulting from the Petrol Station Site Works;

<b>"Petrol Station Site Works"</b>	means the design (including preparation of all Design Data), construction, remediation, demolition, testing and commissioning and completion of the works to be undertaken in relation to the Petrol Station Site in accordance with paragraph 4.6 ( <i>Petrol Station Site Works</i> ) of the Board's Construction Requirements;
<b>"Physical Damage Policies"</b>	means the policies of insurance referred to in paragraph 1 ( <i>Contractors' 'All Risk' Insurance</i> ) of Section 1 ( <i>Policies to be Taken Out by Project Co and Maintained During the Design and Construction Phase</i> ) and paragraph 1 ( <i>Property Damage</i> ) of Section 2 ( <i>Policies to be Taken Out By Project Co and Maintained from the Actual Completion Date</i> ) of Schedule Part 15 ( <i>Insurance Requirements</i> );
<b>"Plan 1"</b>	means the plan marked "Plan 1 ( <i>RHSC &amp; DCN Site</i> )" annexed and executed as relative hereto and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 2"</b>	means the plan marked "Plan 2 ( <i>Yellow Area, Orange Area, Connection Area, Service Strip, Substation Access Area and Petrol Station Site</i> )" annexed and executed as relative hereto and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 2A"</b>	means the plan marked "Plan 2A ( <i>Foul Service Strip</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 3"</b>	means the plan marked "Plan 3 ( <i>Car Park E</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 5"</b>	means the plan marked "Plan 5 ( <i>Car Park Layout Plan</i> )" annexed and executed as relative hereto and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 6"</b>	means the plan marked "Plan 6 ( <i>Roads Layout</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 7"</b>	means the indicative plan marked "Plan 7 ( <i>Campus Site Plan</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 8"</b>	means the plan marked "Plan 8 ( <i>Access Roads</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 ( <i>Plans</i> );
<b>"Plan 9"</b>	means the plan marked "Plan 9 ( <i>217 Old Dalkeith Road</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27

(Plans);

<b>"Plan 10"</b>	means the plan marked "Plan 10 ( <i>Little France Steading</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 (Plans);
<b>"Plan 11"</b>	means the plan marked "Plan 11 ( <i>Sewer</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 (Plans);
<b>"Plan 12"</b>	means the plan marked "Plan 12 ( <i>Manhole</i> )" annexed and executed as relative to this Agreement and contained in Schedule Part 27 (Plans);
<b>"Planning Approval"</b>	means planning permission in principal for the Project given reference number 11/02454/PPP by the City of Edinburgh Council and dated 5 April 2012, and annexed as Attachment 2;
<b>"Planning Permission"</b>	means any planning permission, approval of matters specified in conditions attached to any planning permission in principle listed building consent, conservation areas consent and/or other consent or approval reasonably required from time to time for construction and/or operation of the Facilities and the construction of the Retained Estate Handback Infrastructure (including without limitation for any Board Change and the Planning Approval);
<b>"Plant"</b>	means the infrastructure systems, building systems, fixed, and immovable equipment systems, installed as part of the Works or pursuant to a Board Change as replaced from time to time;
<b>"Post Completion Commissioning"</b>	means, as appropriate, Project Co's Post Completion Commissioning and/or the Board's Post Completion Commissioning;
<b>"Pounds Sterling"</b>	means the currency issued by the Bank of England from time to time;
<b>"Programme"</b>	means the programme set out in Schedule Part 7 ( <i>The Programme</i> ) as revised and issued by Project Co (or on its behalf) from time to time pursuant to Clause 14 ( <i>Programme and Dates for Completion</i> );
<b>"Programmed Maintenance"</b>	means the maintenance work which Project Co is to carry out in accordance with Schedule of Programmed Maintenance;
<b>"Programmed Maintenance Information"</b>	has the meaning given in Clause 23.3 ( <i>Programmed Maintenance Works</i> );
<b>"Prohibited Act"</b>	has the meaning given in Clause 44 ( <i>Corrupt Gifts and Payments</i> );

<b>“Project”</b>	has the meaning given in Recital B;
<b>“Project Co Event of Default”</b>	has the meaning given in Clause 40 ( <i>Project Co Events of Default</i> );
<b>“Project Co Party”</b>	means Project Co's agents and contractors (including without limitation the Contractor and the Service Providers) and its or their sub-contractors of any tier and its or their directors, officers, employees and workmen in relation to the Project and <b>"Project Co Parties"</b> shall be construed accordingly;
<b>“Project Co's Community Benefits Method Statements”</b>	means those method statements set out in Section 2 of Schedule Part 32 ( <i>Community Benefits</i> );
<b>“Project Co's Post-Completion Commissioning”</b>	means Project Co's commissioning activities carried out in accordance with Clause 18.1 ( <i>Commissioning</i> );
<b>“Project Co's Pre-Completion Commissioning”</b>	means Project Co's commissioning activities to be carried out in accordance with Clause 17 ( <i>Pre Completion Commissioning and Completion</i> );
<b>“Project Co's Proposals”</b>	means the document at Section 4 ( <i>Project Co Proposals</i> ) of Schedule Part 6 ( <i>Construction Matters</i> ) as amended from time to time in accordance with Clause 33 ( <i>Change Protocol</i> );
<b>“Project Co's Remedial Services”</b>	means any activities to be performed by or on behalf of Project Co pursuant to its rights under Clause 23.15 ( <i>Board's Maintenance Obligation</i> );
<b>“Project Co's Representative”</b>	means the person appointed by Project Co pursuant to Clause 8 ( <i>Representatives</i> );
<b>“Project Data”</b>	means: <ul style="list-style-type: none"> <li>(a) all Design Data;</li> <li>(b) all drawings, reports, documents, plans, software, formulae, calculations and other data relating to the provision of the Services; and</li> <li>(c) any other materials, documents and or data acquired, brought into existence or used in relation to the Project Operations or this Agreement;</li> </ul>
<b>“Project Documents”</b>	means the Ancillary Documents and the Funding Agreements;
<b>"Project IRR"</b>	means 9.47%;
<b>“Project Operations”</b>	means the carrying out of the Works, the carrying out of Project Co's Pre-Completion Commissioning and Project Co's Post-Completion Commissioning, the management

and provision of the Services and the performance of all other obligations of Project Co under this Agreement from time to time;

**“Project Term”**

means the period commencing at midnight on the date of this Agreement and ending on the earlier of the Expiry Date and the Termination Date;

**"Proposal for an Adverse Law"**

means a proposal for an Adverse Law as follows:

- (a) in the case of a bill, the bill being introduced by the Government or receiving the support of the Government at its second reading in the first House of Parliament into which it is introduced or the bill passing a second reading in the first House of Parliament into which it is introduced;
- (b) in the case of a bill passing through the Scottish Parliament, the bill being introduced by the Scottish Government or receiving the support of the Scottish Government at Stage 2 in the Scottish Parliament or the bill passing Stage 2 in the Scottish Parliament;
- (c) in the case of subordinate legislation, the proposed statutory instrument or order being laid before Parliament in draft;
- (d) in the case of a directive, regulation or decision of the European Union, its adoption; or
- (e) in the case of an administrative act as referred to in the definition of Adverse Law, any of the following prior or preparatory to the making of such an act;
- (f) the taking by the Board, the Government, a minister of the Crown, or a department, agency, regulator or other public body official of any step in a process defined by Law for the making of such administrative acts, other than any early stages of such process (such as, without limitation, consultation or information gathering) following the completion of which further substantive steps remain in such a process before the making of such an administrative act can occur; or
- (g) any communication from the

Government, a minister of the Crown, or the department, agency, regulator or other public body or official responsible for making such administrative acts, to the effect that such an administrative act will be made;

**"Protecting Vulnerable Groups Scheme"**

means the Scottish Government's membership scheme which helps to ensure that people who have regular contact with children and protected adults through paid or unpaid work do not have a known history of harmful behaviour;

**"PRS Timetable"**

has the meaning given in Clause 23.16 (*Board's Maintenance Obligation*);

**"PTS"**

means the pneumatic tube system to be installed as part of the Works and thereafter maintained by Project Co, as more fully described in paragraph 8.7.23 (*Pneumatic Air Tube Transport System*) of the Board's Construction Requirements;

**"Qualifying Change"**

means (unless expressly stated otherwise):

- (a) a Low Value Change in respect of which the parties have agreed the method of implementation; or
- (b) a Medium Value Change in respect of which the Board has issued a confirmation notice pursuant to paragraph 7.1.1 of Section 3 (*Medium Value Changes*) of Schedule Part 16 (*Change Protocol*); or
- (c) a High Value Change which has received Stage 2 Approval pursuant to paragraph 8.2.1 of Section 4 (*High Value Changes*) of Schedule Part 16 (*Change Protocol*),

in each case provided that any necessary changes required to be made to any Project Document and/or Ancillary Document pursuant to Schedule Part 16 (*Change Protocol*) have been given effect to and become unconditional;

**"Quality Plans"**

means the Design Quality Plan and Construction Quality Plan, prepared in accordance with Section 8 (*Quality Plans (Design and Construction)*) of Schedule Part 6 (*Construction Matters*), and the Services Quality Plan, prepared in accordance with Section 3 (*Service Quality Plan*) of Schedule Part 12 (*Service Requirements*), as required to be implemented by Project Co in accordance with Clause 20 (*Quality*

*Assurance*);

<b>"Regulatory Authority"</b>	means any competent authority having powers and duties in relation to the enforcement of any law rule regulation or obligation existing adopted made commenced introduced or otherwise brought into force prior to or after this transfer concerning the protection of human health the Environment or any Relevant Substances and for the avoidance of doubt the expression 'Regulatory Authority' shall not include any court of law, and <b>"Regulatory Authorities"</b> shall be construed accordingly;
<b>"Range of Finishes"</b>	has the meaning given in paragraph 1.2.3(a) of Schedule Part 8 ( <i>Review Procedure</i> );
<b>"Rectification"</b>	has the meaning given in Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>"Rectification Period"</b>	has the meaning given in Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>"Refinancing"</b>	has the meaning given in Schedule Part 23 ( <i>Refinancing</i> );
<b>"Reinstatement Plan"</b>	has the meaning given in Clause 53.22 ( <i>Reinstatement</i> );
<b>"Reinstatement Works"</b>	has the meaning given in Clause 53.22.2 ( <i>Reinstatement</i> );
<b>"Relevant Authority"</b>	means any court with the relevant jurisdiction and any local, national or supra-national agency, inspectorate, minister, ministry, official or public or statutory person of the government of the United Kingdom, or of the European Union, (or of the Scottish Government or the Scottish Parliament);
<b>"Relevant Change in Law"</b>	has the meaning given in Clause 32.3 ( <i>Changes in Law</i> );
<b>"Relevant Event"</b>	has the meaning given in Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Relevant Incident"</b>	has the meaning given in Clause 53.22.2 ( <i>Reinstatement</i> );
<b>"Relevant Payment"</b>	has the meaning given in Clause 53.14.3;
<b>"Relevant Petrol Station Site Contamination"</b>	means: <ul style="list-style-type: none"> <li>(a) Contamination in, on, at, over or under the Petrol Station Site; and</li> <li>(b) Contamination that has migrated from the Petrol Station Site to the Site or Off-Site (excluding the Petrol Station Site) after the Commencement Date,</li> </ul> <p style="margin-left: 40px;">save to the extent that:</p>

- (i) the implementation of cleaning up and/or mitigation measures and/or otherwise dealing with such Contamination is within the scope of the Petrol Station Site Works to be carried out by Project Co; or
- (ii) such Contamination (A) arises, (B) is aggravated or disturbed by, (C) increases in concentration, (D) necessitates the implementation of cleaning up and/or mitigation measures and/or (E) otherwise requires to be dealt with (in any of these cases) as a result of an act and/or omission of Project Co or any Project Co Party or any failure by Project Co to carry out the Project Operations in accordance with this Agreement;

<b>“Relevant Proceeds”</b>		has the meaning given in Clause 53.22.2 ( <i>Reinstatement</i> );
<b>“Relevant Service Transfer Date”</b>		has the meaning given in Clause 25.1 ( <i>No Employee Transfer</i> );
<b>“Relevant Tax Liability”</b>		has the meaning given in Clause 46.7.3 ( <i>Compensation on Termination</i> );
<b>“Relief”</b>		has the meaning given in Clause 46.7.1,
<b>“Relief Events”</b>		has the meaning given in Clause 30 ( <i>Relief Events</i> );
<b>"Replacement Board Specified Equipment"</b>	<b>Group 1</b>	means any item or items of Board Specified Group 1 Equipment which requires to be replaced by Project Co in accordance with its Schedule of Lifecycle Replacement;
<b>"Replacement Board Specified Equipment Commissioning Tests"</b>	<b>Group 1</b>	means any tests required to demonstrate that any replacement item of Board Specified Group 1 Equipment has been commissioned, such tests to be in accordance with Good Industry Practice and Law;
<b>"Replacement Board Specified Equipment Specifications"</b>	<b>Group 1</b>	means the specifications for any Replacement Board Specified Group 1 Equipment prepared by the Board pursuant to paragraph 1A.1 of Schedule Part 11 ( <i>Equipment</i> );
<b>"Replacement Board Specified Equipment Commissioning Tests"</b>	<b>Group 1</b>	means any tests required to demonstrate that any replacement item of Board Specified Group 1 Equipment has been commissioned, such tests to be in accordance with Good Industry Practice and Law;
<b>"Replacement Group 1 Equipment"</b>		means any item or items of Group 1 Equipment which requires to be replaced by Project Co in accordance with its Schedule of Lifecycle

		Replacement;
<b>"Replacement Group 1 Commissioning Tests"</b>	<b>1</b>	<b>Equipment</b> means any tests required to demonstrate that any replacement item of Group 1 Equipment has been commissioned, such tests to be in accordance with Good Industry Practice and Law;
<b>"Request for Information"</b>		has the meaning set out in the FOI(S)A or the Environmental Information (Scotland) Regulations as relevant (where the meaning set out for the term "request" shall apply);
<b>"Required Action"</b>		has the meaning given in Clause 24.7 ( <i>Board's Remedial Rights</i> );
<b>"Reserved Rights"</b>		means the matters referred to in Section 2 ( <i>Reserved Rights</i> ) of Schedule Part 5 ( <i>Land Matters</i> );
<b>"Restricted Person"</b>		means either: <ul style="list-style-type: none"> <li>(a) a person providing or proposing to provide healthcare services of a similar nature to those provided or contemplated by the Board at the time in question; or</li> <li>(b) any person who has a material interest in the production of tobacco products and/or alcoholic beverages;</li> </ul>
<b>"Retail Prices Index" or "RPI"</b>		means the Retail Prices Index (All Items) as published by the Office for National Statistics from time to time (the " <b>Index</b> "), or, failing such publication or in the event of a fundamental change to the Index, such other index as the parties may agree, or such adjustments to the Index as the parties may agree (in each case with the intention of putting the parties in no better nor worse position than they would have been in had the Index not ceased to be published or the relevant fundamental change not been made) or, in the event that no such agreement is reached, as may be determined in accordance with the Dispute Resolution Procedure;
<b>"Retained Estate"</b>		means the RIE Facilities and the University Facilities and the Retained Estate Handback Infrastructure;
<b>"Retained Estate Handback Infrastructure"</b>		means the infrastructure to be handed back to the Board at or prior to the Actual Completion Date, comprising the Hospital Square Infrastructure, Cycle Path Infrastructure, Petrol Station Site Infrastructure, Surface Water Drainage Infrastructure (outwith the site) and Bus Stop Infrastructure;
<b>"Retained Estate Handback Works"</b>		means the Hospital Square Works, Cycle Path Works, Surface Water Drainage Works (outwith

		the site), Petrol Station Site Works and Bus Stop Works;
<b>"Retained Estate Completion Criteria"</b>	<b>Handback Works</b>	has the meaning given to it in paragraph 6 ( <i>Retained Estate Handback Infrastructure Completion Criteria</i> ) of Appendix B ( <i>Completion Criteria</i> ) of Schedule Part 10 ( <i>Outline Commissioning Programme</i> );
<b>"Retained Site"</b>		means the Campus Site under exception of the Site;
<b>"Revenue"</b>		means the projected Unavoidable Fixed Costs and Senior Debt Service Costs of Project Co;
<b>"Reviewable Design Data"</b>		means the Design Data listed at Section 5 ( <i>Reviewable Design Data</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>"Revised Senior Debt Termination Amount"</b>		has the meaning given in Section 6 ( <i>Definitions</i> ) of Schedule Part 17 ( <i>Compensation on Termination</i> );
<b>"RIE Facilities"</b>		means the existing hospital, buildings and other facilities together with all supporting infrastructure and amenities located on the RIE Site as such hospital, buildings, facilities, infrastructure and amenities may be modified from time to time;
<b>"RIE Infrastructure"</b>		means the infrastructure resulting from the RIE Works;
<b>"RIE Project"</b>		means the financing, design, construction equipping and operation of, and the provision of certain services in connection with the RIE Facilities and the University Facilities;
<b>"RIE Project Agreement"</b>		means the private finance initiative agreement between the Board and Consort in relation to the RIE Project;
<b>"RIE Site"</b>		means the Campus Site under exception of the Site and the University Site;
<b>"RIE Works"</b>		means the design (including preparation of all Design Data), construction, testing, commissioning and completion of the works to be undertaken at the RIE Site and/or the RIE Facilities in accordance with inter alia paragraph 4 ( <i>Site Specific Requirements</i> ) of Sub-Section C of the Board's Construction Requirements (as varied, amended or supplemented from time to time in accordance with this Agreement), namely the PTS, ICT, Foul Water Drainage, Joint and Fire Alarm System;
<b>"Room Data Sheets"</b>		has the meaning given in Section 6 ( <i>Room Data Sheets</i> ) of Schedule Part 6 ( <i>Construction Matters</i> );
<b>"Schedule of Condition"</b>		shall have the meaning given to it in paragraph 2.1 ( <i>Schedules of Condition</i> ) of Part 3 ( <i>General</i>

	<i>Matters) of Schedule Part 31 (Consort interface with Campus Site and/or Campus Facilities); .</i>
<b>“Schedule of Lifecycle Replacement”</b>	means the programme of Lifecycle Replacement for the Project Term that complies with the requirements set out in Clause 23A ( <i>Lifecycle Replacement</i> );
<b>“Schedule of Programmed Maintenance”</b>	means the programme referred to in Clause 23.1 ( <i>Programmed Maintenance Works</i> ) to be submitted to the Board's Representative by Project Co in accordance with Schedule Part 8 ( <i>Review Procedure</i> );
<b>“Scottish Futures Trust”</b>	means Scottish Futures Trust Limited (Company Number SC348382), having its registered office at 1 <sup>st</sup> Floor, 11-15 Thistle Street, Edinburgh EH2 1DT;
<b>“Second Party”</b>	has the meaning given in Clause 35.3 ( <i>VAT</i> );
<b>"Secured Creditors"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Security Document"</b>	has the meaning given to it in the Common Terms Agreement;
<b>“Security Trustee”</b>	means Prudential Trustee Company Limited (registered number 01863305);
<b>“Senior Debt”</b>	has the meaning given in Section 6 ( <i>Definitions</i> ) of Schedule Part 17 ( <i>Compensation on Termination</i> );
<b>“Senior Debt Service Costs”</b>	means interest and debt service costs incurred in respect of the Senior Funding Agreements less: <ul style="list-style-type: none"> <li>(a) sums which are in arrears;</li> <li>(b) all sums reserved by Project Co and which Project Co is entitled to use to make such payments, without breaching the Senior Funding Agreements;</li> </ul>
<b>“Senior Funders”</b>	means the Senior Lenders, the Senior Subordinated Lenders and the Senior Subordinated On-Loan Lenders, as such terms are defined respectively in the Common Terms Agreement;
<b>“Senior Funding Agreements”</b>	means the Initial Funding Agreements (other than the Equity Documents) as at the date of this Agreement and as amended as permitted under Clause 4 ( <i>Project Documents</i> );
<b>"Senior-Subordinated On-Loan Lenders"</b>	has the meaning given to in the Common Terms Agreement;
<b>"Senior Subordinated Security Document"</b>	has the meaning given to it in the Common

Terms Agreement;

<b>“Service Contracts”</b>	means the contracts dated the same date as this Agreement between Project Co and each Service Provider (which as at the date of this Agreement are in the Agreed Form), by which Project Co will procure the performance of the Services (as amended or replaced from time to time in accordance with this Agreement);
<b>"Service Event"</b>	has the meaning given in Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Service Level Specification”</b>	means the requirements of the Board set out in Section 1 ( <i>Service Level Specification</i> ) of Schedule Part 12 ( <i>Service Requirements</i> ) as amended from time to time in accordance with Clause 33 ( <i>Change Protocol</i> );
<b>“Service Proposal”</b>	means the agreed Interface Proposal in respect of the route, depth and size (having regard to the condition of existing service media in the Service Strip and Foul Service Strip) for laying and maintaining service media in the Service Strip and/or foul drainage in the Foul Service Strip as applicable, as set out in Appendix 7 of Schedule Part 31;
<b>“Service Provider”</b>	means each of Bouygues E&S FM UK Limited (registered under number 04243192) whose registered office is at Waterloo Centre Elizabeth House, 39 York Road, London, SE1 7NQ, or any other person engaged by Project Co from time to time as may be permitted by this Agreement to procure the provision of the Services (or any part of them);
<b>“Service Providers Collateral Agreements”</b>	means the collateral agreements among the Board, Project Co and each Service Provider in the form set out in Section 2 of Schedule Part 9 ( <i>Collateral Agreements</i> );
<b>"Service Strip"</b>	means the area shaded yellow and hatched black on Plan 2;
<b>“Services”</b>	means the services to be provided, managed and/or procured by Project Co for the Board in relation to the Facilities in accordance with Schedule Part 12 ( <i>Service Requirements</i> ) as subsequently amended or adjusted in accordance with this Agreement;
<b>“Services Quality Plan”</b>	means the document set out in Section 3 ( <i>Services Quality Plan</i> ) of Schedule Part 12 ( <i>Service Requirements</i> );
<b>“Sewer”</b>	means the sewer, the expected route of which within the Site is shown red and to be located within the area of land shaded green on Plan 11;
<b>“Shareholder(s)”</b>	means any person(s) who from time to time, as permitted by this Agreement, holds share capital

	in Project Co, Hold Co or Top Co which persons are, as at the date of this Agreement, listed as such in Schedule Part 21 ( <i>Project Co Information</i> );
<b>“Site”</b>	means the land made available to Project Co for the Project delineated in a broken red line on "Plan 1";
<b>"Shareholder Support Agreement"</b>	has the meaning given to it in the Common Terms Agreement;
<b>“Site Conditions”</b>	means the condition of the Site including (but not limited to) climatic, hydrological, hydrogeological, ecological, environmental, geotechnical and archaeological conditions;
<b>"SME's"</b>	means a company that is a: <ul style="list-style-type: none"> <li>(i) small or medium sized company and is not a member of a large group;</li> <li>(ii) has a turnover of up to fifty million (50,000,000) Euro per annum; and</li> <li>(iii) has no more than two hundred and fifty (250) employees;</li> </ul>
<b>“Snagging Matters”</b>	means minor items of outstanding work (including in relation to landscaping) which would not materially impair the Board's use and enjoyment of the Facilities and/or Retained Estate and/or the Retained Estate Handback Infrastructure or the carrying out by the Board of the Board Services or the performance of the Services by Project Co and/or the carrying out of any services pursuant to the RIE Project Agreement;
<b>“Snagging Notice”</b>	means the notice to be issued by the Independent Tester in accordance with Clause 17.14 ( <i>Completion Certificate</i> );
<b>"Social Enterprises"</b>	means any registered charity as defined in either the Charities and Trustees Investment (Scotland) Act 2005 or the Charities Act 2011 (both as amended) and any community-interest-company, not-for profit organisation or other organisation whose constitution or founding document contains an express asset-lock under which proceeds and/or benefits from its activities must be applied to further an identified social cause;
<b>“Specific Change in Law”</b>	means: <ul style="list-style-type: none"> <li>(a) any Change in Law which specifically refers to: <ul style="list-style-type: none"> <li>(i) the provision of works or services the same as or similar to the Works or the Services in premises similar to the Facilities; or</li> </ul> </li> </ul>

(ii) the holding of shares in companies whose main business is providing works or services the same as or similar to the Works or the Services in premises similar to the Facilities; or

(b) any change in a NHS Requirement (other than any NHS Requirement which merely gives effect to Law generally and does not principally affect or principally relate to the provision or operation of the Facilities or healthcare premises);

**"Stop Incident"**

means a failure by Project Co to carry out the relevant part or parts of the Project Operations in accordance with:

- (a) Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the Interface Proposals; and/or
- (b) any provision of this Agreement and such breach gives rise to an immediate and serious threat to the health and safety of any user of the Site, Off-Site, Retained Site and/or the Retained Estate (which for the avoidance of doubt shall include any adverse impact upon clinical services at the RIE Facilities) during the Construction Phase; and/or
- (c) paragraphs 4.4.3(b), 4.4.3(e), 4.5.1A, 4.5.12, 6.1.1, 6.1.2 and/or 7.6(j) of Sub-section C of the Board's Construction Requirements;

**"Stop Log Book"**

means a log book to be maintained by Project Co pursuant to Clause 13A.9 (*Board's Right to stop Project Operations during the Project Term*) in relation to the dates, timings and reasons for stopping and re-starting the relevant part or parts of the Project Operations;

**"Sub-Contractor"**

means any third party (including the Contractor and a Services Provider) who enters into any Sub-Contract;

**"Sub-Contracts"**

means the contracts entered into by or between Project Co, the Contractor and/or a Service Provider and other third parties in relation to any aspect of the Project Operations;

**"Subordinated Debt"**

has the meaning given in Section 6 (*Definitions*) of Schedule Part 17 (*Compensation on Termination*);

**"Subordinated Debt Rate"**

means 9.47%;

**"Subordinated Funder"**

means a person providing finance under a Subordinated Funding Agreement;

<b>“Subordinated Funding Agreements”</b>	means the Equity Documents and as at the date of this Agreement or as amended with the prior written agreement of the Board;
<b>“Subsidiary”</b>	has the meaning given to it in Section 1159 of the Companies Act 2006;
<b>“Substation Works”</b>	means the design (including preparation of all Design Data), construction, testing and commissioning and completion of the substation in accordance with inter alia paragraph 4.5.10(d) of sub-section C of the Board's Construction Requirements;
<b>“Suitable Substitute Contractor”</b>	has the meaning given in Section 6 ( <i>Definitions</i> ) of Schedule Part 17 ( <i>Compensation on Termination</i> );
<b>“Supplemental Drainage Proposal”</b>	means the agreed Interface Proposal for Surface Water Drainage Works connections in the Orange Area, as set out in Appendix 5 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>“Surface Water Drainage Infrastructure”</b>	means the surface water infrastructure resulting from the Surface Water Drainage Works;
<b>“Surface Water Drainage Works”</b>	means the design (including preparation of all Design Data), construction, testing and commissioning and completion of the surface water drainage works connections to be undertaken in accordance with inter alia paragraphs 4.5.10 ( <i>Construction Works Further Information</i> ) of section C, 6.11 ( <i>Drainage Works</i> ) and 8.7.20 ( <i>Drainage Works</i> ) of Sub-Section C of the Board's Construction Requirements and the Initial Drainage Proposal and/or the Supplemental Drainage Proposal;
<b>“Surplus”</b>	means, on any given date, the amount (if any) standing to the credit of the Surplus Account;
<b>“Surplus Account”</b>	has the meaning given in the Common Terms Agreements;
<b>“Surplus Payment”</b>	means the payment of a Surplus or Surpluses by Project Co to the Board pursuant to Clause 36 ( <i>Payment of Surpluses and Compliance with NPD Requirements</i> );
<b>“Surplus Payment Date”</b>	means the date falling five (5) Business Days after 31 March and 30 September in each year that follows the Commencement Date;
<b>"Teenage Cancer Trust Activities"</b>	means activities carried out at the Facilities and/or Site by the "Teenage Cancer Trust", a charitable organisation devoted to improving the lives of teenagers and young adults with cancer;
<b>“Termination Date”</b>	means the date on which termination of this Agreement takes effect in accordance with its

	terms;
<b>“The NHS and You”</b>	means the document so entitled and issued by the Scottish Government Health Directorate in January 2009;
<b>“Title Conditions”</b>	means title conditions set out in Section 1 of Schedule Part 5 ( <i>Land Matters</i> );
<b>"Top Co" or "Topco" or "TopCo"</b>	means IHS Lothian Investments Limited (company number 09359641);
<b>"Top Co EIB On-Loan Agreement"</b>	has the meaning set out in the Common Terms Agreement;
<b>"TopCo Institutional Investor On-Loan Agreement"</b>	has the meaning set out in the Common Terms Agreement;
<b>"TopCo Loan Note"</b>	has the meaning set out in the Common Terms Agreement;
<b>“TPL Risk”</b>	means a risk which is required to be insured under the third party liability insurance policy;
<b>“Traffic Management Strategy" or "TMS”</b>	means the agreed Interface Proposal in relation to the traffic management strategy for construction access over the Orange Area, as set out in Appendix 2 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> );
<b>“Transfer Regulations”</b>	means the Transfer of Undertaking (Protection of Employment) Regulations 2006 (SI No. 246);
<b>"Transferring Staff"</b>	has the meaning given to it in Clause 25.2 ( <i>No Employee Transfer</i> );
<b>“Unavoidable Fixed Costs”</b>	means the fixed costs incurred by Project Co which first fall due for payment by Project Co during the period of indemnity but excluding: <ul style="list-style-type: none"> <li>(a) costs which could have reasonably been mitigated or avoided by Project Co;</li> <li>(b) payments to Project Co’s Associated Companies;</li> <li>(c) payments which are not entirely at arm’s length;</li> <li>(d) payments to holders of equity in Project Co, providers of Subordinated Debt and any other financing costs other than Senior Debt Service Costs;</li> <li>(e) indirect losses suffered or allegedly suffered by any person;</li> <li>(f) fines, penalties or damages for unlawful acts, breaches of contract or other legal obligations;</li> </ul>

- (g) payments Project Co can recover under contract or in respect of which Project Co has a remedy against another person in respect of the same liability;
- (h) payments to the extent that Project Co has available to it including:
  - (i) reserves which Project Co can draw upon without breaching the Senior Funding Agreements;
  - (ii) standby or contingent facilities or funds of Senior Debt or equity which Project Co is entitled to have available;
- (i) payments representing any profits of the Project (to the extent not already excluded in (e) above);

**“Uninsurable”**

means, in relation to a risk, either that:

- (a) insurance is not available to Project Co in respect of the Project in the worldwide insurance market with reputable insurers of good standing in respect of that risk; or
- (b) the insurance premium payable for insuring that risk is at such a level that the risk is not generally being insured against in the worldwide insurance market with reputable insurers of good standing by contractors in the United Kingdom;

**"University"**

means the University Court of the University of Edinburgh and any successor or permitted assignee acquiring an interest in the University Site and/or the University Facilities;

**“University Facilities”**

means the existing university buildings and other facilities together with all supporting infrastructure and amenities located on the University Site, as each university buildings, facilities, infrastructure and amenities may be modified from time to time;

**"University Party"**

means any of the University's agents, contractors and sub-contractors of any tier, its tenants and its or their directors, officers, employees, consultants, researchers, students, staff, workmen, licensees, permitted occupiers, tenants, users, visitors, sub-contractors (of any tier), any patients (whether of the University or of the University's tenants), and any other person for whom the University is responsible for;

**"University Site"**

means the two areas of land shaded peach and

	outlined in blue on Plan 7;
<b>“Unprogrammed Maintenance or Lifecycle Replacement Work”</b>	has the meaning given in Clause 23.8 ( <i>Programmed and Unprogrammed Maintenance</i> );
<b>“Unreasonable Act”</b>	means any act or omission which is contrary to any reasonable instruction, guidance or rules for the operation or management of the Facilities;
<b>“Utilities”</b>	has the meaning given in the Service Level Specification;
<b>“VAT”</b>	means value added tax at the rate prevailing at the time of the relevant supply charged in accordance with the provisions of the Value Added Tax Act 1994;
<b>“VAT Sum”</b>	has the meaning given in Clause 35 ( <i>VAT and Construction Industry Tax Deduction Scheme</i> );
<b>“Vitiating Act”</b>	has the meaning given in Endorsement 2, Section 3 ( <i>Endorsement</i> ) of Schedule Part 15 ( <i>Insurance Requirements</i> );
<b>"Volunteer Services"</b>	means any volunteer services and/or third sector bodies and/or retail bodies authorised by the Board to be the provider of volunteer services at the Facilities and/or Site from time to time, including for the avoidance of doubt the drop in centre, radio lollipop and clown doctors;
<b>“Warning Notice”</b>	means a notice validly served by the Board's Representative on Project Co under Clause 24.3 ( <i>Warning Notices</i> ), specifying that it is a Warning Notice and setting out the circumstances that have given rise to the issue thereof;
<b>“Works”</b>	means the design (including the preparation of all Design Data), construction, testing, commissioning and completion of the Facilities and the Retained Estate Handback Infrastructure (including any temporary works) and the installation, testing, commissioning and completion of Equipment to be performed by Project Co in accordance with this Agreement (as varied, amended or supplemented from time to time in accordance with this Agreement);
<b>"Yellow Area"</b>	means the area shaded Yellow on Plan 2.

**SECTION 2****INTERPRETATION**

This Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- 1 The headings and marginal notes and references to them in this Agreement shall be deemed not to be part of this Agreement and shall not be taken into consideration in the interpretation of this Agreement.
- 2 Except where the context expressly requires otherwise, references to Clauses, Sub-clauses, paragraphs, sub-paragraphs and parts of the Schedule are references to Clauses, Sub-clauses, paragraphs, sub-paragraphs and parts of the Schedule to this Agreement and references to Sections, Appendices and Attachments (if any) are references to Sections, Appendices and Attachments to or contained in this Agreement.
- 3 The Schedule and Attachments (if any) to this Agreement are integral parts of this Agreement and a reference to this Agreement includes a reference to the Schedule and the Attachments (if any).
- 4 Words importing persons shall, where the context so requires or admits, include individuals, firms, partnerships, trusts, corporations, governments, governmental bodies, authorities, agencies, unincorporated bodies of persons or associations and any organisations having legal capacity.
- 5 Where the context so requires words importing the singular only also include the plural and vice versa and words importing the masculine shall be construed as including the feminine or the neuter or vice versa.
- 6 The language of this Agreement is English. All correspondence, notices, drawings, Design Data, test reports, certificates, specifications and information shall be in English. All operating and maintenance instructions, name plates, identification labels, instructions and notices to the public and staff and all other written, printed or electronically readable matter required in accordance with, or for purposes envisaged by, this Agreement shall be in English.
- 7 Save where stated to the contrary, references to any agreement or document include (subject to all relevant approvals and any other provisions of this Agreement concerning amendments to agreements or documents) a reference to that agreement or document as amended, supplemented, substituted, novated or assigned.
- 8 References to any Law are to be construed as references to that Law as from time to time amended or to any Law from time to time replacing, extending, consolidating or amending the same provided that the provisions of this paragraph shall be without prejudice to the operation of Clause 32 (*Changes in Law*) and Schedule Part 16 (*Change Protocol*) which shall operate in relation to a Change in Law on the basis set out in this Agreement.
- 9 Without prejudice to Clause 57.1 (*Assignment*), references to a public organisation (other than the Board) shall be deemed to include a reference to any successor to such public organisation or any organisation or entity which has taken over either or both the relevant functions and relevant responsibilities of such public organisation.

- 10 Without prejudice to Clause 57.1 (*Assignment*), references to other persons (other than the Board and Project Co) shall include their successors and assignees.
- 11 References to a deliberate act or omission of the Board or any Board Party shall be construed having regard to the interactive nature of the activities of the Board and of Project Co and the expression shall exclude acts or omissions which were within the contemplation of the parties or which were otherwise provided for in this Agreement.
- 12 The words in this Agreement shall bear their natural meaning. The parties have had the opportunity to take legal advice on this Agreement and no term shall, therefore, be construed contra proferentem.
- 13 Reference to "parties" means the parties to this Agreement and references to "a party" mean one of the parties to this Agreement.
- 14 In construing this Agreement, the rule known as the ejusdem generis rule shall not apply nor shall any similar rule or approach to the construction of this Agreement and accordingly general words introduced or followed by the word "other" or "including" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- 15 All of Project Co's obligations, duties and responsibilities shall be construed as separate obligations, duties and responsibilities owed to the Board and to be performed at Project Co's own cost and expense.
- 16 Unless expressly stated otherwise, references to amounts or sums expressed to be "**(index linked)**" are references to amounts or sums expressed in prices relevant at the date of this Agreement (the "**Base Date**") which require to be adjusted whenever the provision containing the amount or sum is given effect in accordance with this Agreement to reflect the effects of inflation after that date. The adjustment shall be measured by changes in the relevant index published for that Contract Year as calculated in accordance with the following formula:

$$\text{Amount or sum in Base Date prices} \times \text{RPI}_d / \text{RPI}_0$$

Where  $\text{RPI}_d$  is the value of the Retail Prices Index published or determined with respect to the month of February most recently preceding the date when the provision in question is to be given effect and  $\text{RPI}_0$  is the value of the Retail Prices Index at the Base Date

$$\frac{\text{RPI}_d}{\text{RPI}_0}$$

- 17 Reference to a document being in the Agreed Form is a reference to the form of the relevant document (or where appropriate, the form of relevant document on disc) agreed between the parties and for the purpose of identification initialled by each of them or on their behalf.
- 18 The operation of the Housing Grants, Construction and Regeneration Act 1996 upon any Project Document shall not affect the rights or obligations of the parties under this Agreement.
- 19 Words in parenthesis and italics appearing after a Clause reference or a reference to a Schedule Part are inserted for ease of reference only. If there is any discrepancy between the Clause reference and the words appearing in parenthesis and italics after the Clause

reference, the Clause reference shall prevail.

- 20 Where this Agreement states that an obligation shall be performed "no later than" or "within" or "by" a prescribed number of Business Days after a stipulated date or event, or "no later than" or "by" a stipulated date or event which is a prescribed number of Business Days after a stipulated date or event, the latest time for performance shall be 5pm on the last Business Day for performance of the obligations concerned.
- 21 Where this Agreement states that an obligation shall be performed "no later than" or "within" or "by" a prescribed number of Business Days before a stipulated date or event, or "no later than" or "by" a stipulated date or event which is a prescribed number of Business Days before a stipulated date or event, the latest time for performance shall be 5pm on the last Business Day for performance of the obligations concerned.

**SCHEDULE PART 2****COMPLETION DOCUMENTS****SECTION 1****DOCUMENTS TO BE DELIVERED BY PROJECT CO**

Unless an original document is specifically requested, a copy (certified by an officer of Project Co as being a true copy) of each of the following documents is to be delivered by Project Co to the Board in accordance with Clause 2.1 (*Execution and Delivery of Documents*) of this Agreement:

1. Not Used.
2. Not Used.
3. The Initial Funding Agreements and certification from Project Co that (1) the Initial Funding Agreements have become unconditional (other than any condition relating to the conditionality of this Agreement) and (2) that all conditions to the availability of funds to Project Co under the Initial Funding Agreements have been satisfied or waived, accompanied by evidence of the same.
4. The Construction Contract, the Services Contract, Performance Guarantees, Subordinated Funding Agreements, Interface Agreement, Management Services Agreement, executed by the parties to such agreements.
5. An original of the Funders' Direct Agreement, the Independent Tester Contract, the Insurance Proceeds Account Agreement, the Collateral Agreements (and in terms of the Key Sub-contractor Collateral Agreements shall be those agreements referred to in Clauses 57.8A.1 and 57.8A.2 of this Agreement) and the brokers letters of undertaking relating to the Insurances referred to in paragraph 11 below in the Agreed Form, executed by the parties to such agreements (other than the Board).
6. Extracts from the minutes of the meeting of the board of directors (certified as true and accurate by the Secretary, Director or authorised signatory of the relevant company) of each of Project Co, Hold Co, Top Co, the Contractor, the Service Provider and each of the guarantors under the parent company guarantees to Project Co in respect of the Construction Contract and the Service Contract, at which resolutions were passed approving the execution, delivery and performance of each relevant document to which such person is expressed to be a party and in each case authorising a named person or persons to execute and deliver each such document and any other documents to be delivered by it pursuant to it. For the avoidance of doubt, this requirement shall not extend to the Senior Funders.
7. A certificate of the Secretary, Director or authorised signatory of each of the companies referred to in paragraph 6 above setting out the names and specimen signatures of the person or persons named in the relevant certified extract.
8. Evidence of the share subscriptions contemplated under Article 11.1 of the Articles of Association of Project Co having been made.
9. Project Co's, Hold Co's and Top Co's Certificate of Incorporation and of any Certificate of Incorporation on Change of Name.

- 10 The Articles of Association of Project Co, Hold Co and Top Co.
- 11 The insurance broker's letter of undertaking, evidence of the insurances required in accordance with Clause 53 (*Insurances*) having been taken out by Project Co and that the policies comply with the requirements of this Agreement, and an estimate by the insurance broker of the premiums for the Operational Insurances for the first year of the Operational Term.
- 12 Two computer disk copies of the Financial Model audited by Mazars.
- 13 Evidence that an election has been made for Project Co to act as "client" for the Project for the purposes of the CDM Regulations.
- 14 Evidence that the Insurance Proceeds Account has been opened.
- 15 The sub-contracts for Key Sub-Contractors executed by the parties to such agreements for the relevant sub-contract between the Contractor and each member of the Design Team and/or Key Sub-contractor required to provide a Collateral Agreement pursuant to Clauses 57.8A.1 and 57.8A.2 of this Agreement, and evidence that the professional indemnity insurance, to be maintained by the Key Sub-Contractor in terms of the relevant sub-contract and Collateral Agreement as applicable is in place.
- 16 Letter from Macquarie to B Director in relation to the provision of training to the B Director regarding both anti-bribery and anti-money laundering laws and regulations.
- 17 An original duly executed copy of this Agreement.

## SECTION 2

## DOCUMENTS TO BE DELIVERED BY THE BOARD

The Board shall deliver to Project Co the following documents:

1. An original copy of the Funders' Direct Agreement, the Collateral Agreements referred to in Clauses 57.8A.1 and 57.8A.2 of this Agreement, the Independent Tester Contract, the Insurance Proceeds Account Agreement and this Agreement, duly executed by the Board.
2. A certified copy of the resolution of the Board approving:
  - 2.1 the execution, delivery and performance of the documents referred to in paragraph 1 above;
  - 2.2 the full business case for the Project; and
  - 2.3 in the case of the execution and delivery of the documents referred to in paragraph 1 above, authorising a named person or persons to execute and deliver each such document and any documents to be delivered by it pursuant thereto.
3. A certificate of the relevant officer of the Board setting out the names and specimen signatures of the person or persons named in the resolution of the Board referred to in paragraph 2 above.
4. Certified copies of the Board's:
  - 4.1 standing orders;
  - 4.2 standing financial instructions; and
  - 4.3 scheme of delegation.
5. An original certificate of the Scottish Government issued pursuant to Section 1 of the National Health Service (Private Finance) Act 1997 as amended by the NHS Reform (Scotland) Act 2004, in relation to the documents referred to in paragraph 1 above
6. A certified copy of a letter confirming that the full business case of the Board has been approved on behalf of the Scottish Government, in respect of the Project.
7. A confirmation from the Director of Finance of the Board in respect of:
  - 7.1 approval of the documents to be signed by the Director of Finance of the Board as more fully described in the resolution of the Board referred to in paragraph 2 above; and
  - 7.2 no threatened, pending or actual litigation in respect of the procurement process for the Project.
8. The following documentation for Raeburn Drilling and Geotechnical Ltd (company number 00094320) ("**Raeburn**"):
  - 2526505\_21
  - A47206723

- 8.1 Raeburn letters of reliance in respect of the Ground Physical and Geophysical Investigation and the Petrol Station Site Contamination Investigation for each Project Co, the Contractor and the Service Provider; and
- 8.2 the appointments of Raeburn in respect of both the Ground Physical and Geophysical Investigation and the Petrol Station Site Contamination Investigation.

**SCHEDULE PART 3**  
**KEY WORKS PERSONNEL**

Position	Name
Project Director (Construction)	Alasdair Fernie
Design Lead (Construction)	Liane Edwards-Scott
Construction Director	Fergus Shaw
Lead M&E Engineer (Construction)	Stewart McKechnie
Lead Architect (Architect)	Lorraine Robertson
Civil and Structural Lead (Construction)	Barry McCormack

## SCHEDULE PART 4

## FUNDERS' DIRECT AGREEMENT

## THIS AGREEMENT IS MADE ON

## AMONG:

- (1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Board**")
- (2) **PRUDENTIAL TRUSTEE COMPANY LIMITED** (the "**Security Trustee**" for the Secured Creditors) on behalf of itself and the Secured Creditors; and
- (3) **IHS LOTHIAN LIMITED** (company no SC493676) whose registered office is at Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ ("**Project Co**")

## IT IS AGREED AS FOLLOWS:

## 1 INTERPRETATIONS

**Definitions**

In this Agreement, unless the context otherwise requires:

<b>"Accrued Rights"</b>	means all costs, claims, damages, losses and liabilities suffered by Project Co and/or the Senior Funders which shall have arisen out of, or in connection with, the Sub-contracts, the Funders' Contractor Direct Agreement, the Funders' Service Provider Direct Agreement and the Security Documents in relation to which the Intercreditor Agent and/or the Security Trustee is acting on behalf of Project Co, in respect of the period prior to and including the Termination Date;
<b>"Affiliate"</b>	means, in relation to any person, any holding company or subsidiary of that person or any subsidiary of such holding company, and " <b>holding company</b> " and " <b>subsidiary</b> " shall have the meaning given to them in section 1159 of the Companies Act 2006;
<b>"Appointed Representative"</b>	means a Representative that has been notified to the Board pursuant to a Step-In Notice;
<b>"Assets"</b>	to be defined by reference to Clause 47.2 ( <i>Transfer to the Board of Assets, Contracts, etc.</i> ) of the Design Building Finance and Maintain Agreement;
<b>"Board Project Documents"</b>	means the Project Agreement and all other documents to which the Board and Project Co

	are parties pursuant to the Project Agreement;
<b>“Collateral Agreements”</b>	means the Contractor's Collateral Agreement and the Service Provider's Collateral Agreement and each Key Sub-contractor Collateral Agreement;
<b>“Collateral Agreement Counterparty”</b>	means one of the parties to the Collateral Agreements (other than the Board or Project Co);
<b>“Common Terms Agreement”</b>	means the common terms agreement dated on or around about the date of this Agreement between, amongst others, Project Co, the Senior Funder, the Senior Subordinated On-Loan Lenders, the Intercreditor Agent and the Security Trustee, as such terms are defined therein;
<b>“Enforcement Event”</b>	means the Security Trustee taking any steps set out in Clause 17.3 ( <i>Remedies</i> ) of the Common Terms Agreement;
<b>“Event of Default”</b>	shall have the meaning given to it in the Common Terms Agreement;
<b>“Event of Insolvency”</b>	means Clause 40.1.1 ( <i>Project Co Event of Default</i> ) of the Project Agreement (inclusive) of a Project Co Event of Default;
<b>“Final Payment Date”</b>	means the later of the Senior Discharge Date and the Senior Subordinated On-Loan Discharge Date, as each such term is defined in the Intercreditor Agreement;
<b>“Project Agreement”</b>	means an agreement dated on or around the date of this Agreement between Project Co and the Board relating to the design, development, construction and provision of certain services in connection with the re-provision of the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France at the Site and Off-Site;
<b>“Project Co Event of Default”</b>	shall have the meaning given to it in the Project Agreement;
<b>“Representative”</b>	means: <ul style="list-style-type: none"> <li>(a) the Intercreditor Agent, any Senior Funder and/or any of their Affiliates;</li> <li>(b) an administrator, administrative receiver, receiver or receiver and manager of Project Co appointed under the Security Documents;</li> </ul>

(c) a person directly or indirectly owned or controlled by the Security Trustee and/or any Senior Funders; or

(d) any other person approved by the Board (such approval not to be unreasonably withheld or delayed);

**“Required Period”**

means subject to paragraph 4 (*No Liquid Market*) the period starting on the date of a Termination Notice and:

(a) prior to the Payment Commencement Date, ending eighty (80) Business Days later; and

(b) on or following the Payment Commencement Date, ending sixty (60) Business Days later;

**“Secured Creditors”**

has the meaning given to it in the Common Terms Agreement;

**“Security Documents”**

means:

- (a) Borrower Assignment in Security;
- (b) Borrower Bond and Floating Charge;
- (c) Borrower Debenture;
- (d) HoldCo Share Pledge;
- (e) HoldCo (First Ranking) Debenture;
- (f) HoldCo (Second Ranking) Debenture;
- (g) Intercreditor Agreement,
- (h) the Assignment in Security of Reversionary Rights
- (i) Hold Co Assignment and Pledge

(each as defined in the Common Terms Agreement) together with:

- (j) the TopCo Charge (as defined in the Intercreditor Agreement);
- (k) any present or future document confirming or evidencing any Security (as defined in the Common Terms Agreement) or guarantee for, or in relation to, all the Senior Debt (as defined in the Intercreditor Agreement);
- (l) all agreements and other documents

executed from time to time pursuant to any of the foregoing including all notices of assignment and intimations of assignation given pursuant to, and as contemplated by, the above documents and the acknowledgements to the notices of assignment and intimations of assignation;

- (m) any other agreement or document which the Security Trustee may from time to time designate as a "Security Document" in accordance with the Common Terms Agreement; and
- (n) any other agreement or document which the Senior Subordinated Security Trustee (as defined in the Intercreditor Agreement) may from time to time designate as a "Senior Subordinated Security Document" in accordance with the Senior Subordinated Finance Documents (as defined in the Common Terms Agreement);

**“Senior Debt Discharge Date”**

means the date on which all amounts owing by the Contractor to the Senior Funders under the Senior Funding Agreements have been irrevocably paid in full;

**“Senior Funders”**

means the Senior Lenders and the Senior Subordinated Lenders, as such terms are defined respectively in the Common Terms Agreement;

**“Step-In Date”**

means the date on which the Security Trustee gives the Board a Step-In Notice;

**“Step-In Notice”**

means the notice given by Project Co to the Board pursuant to paragraph 5 (*Representative*) stating that the Security Trustee is exercising the step-in rights under this Agreement and identifying the Appointed Representative;

**“Step-In Period”**

means the period from the Step-In Date up to and including the earlier of:

- (a) the Step-Out Date;
- (b) the date of any transfer under paragraph 8 (*Novation*);
- (c) the date of any termination for breach under paragraph 6 (*Step-In Period*); and

- (d) the date of expiry of the Project Agreement;
- “Step-Out Date”** means the date falling twenty (20) Business Days after the date of a Step-Out Notice;
- “Step-Out Notice”** means a notice from the Security Trustee or Appointed Representative to the Board pursuant to paragraph 7 (*Step-Out*);
- “Suitable Substitute Contractor”** means a person approved by the Board (such approval not to be unreasonably withheld or delayed) as:
- (a) having the legal capacity, power and authority to become a party to and perform the obligations of Project Co under the Board Project Documents; and
  - (b) employing persons having the appropriate qualifications, experience and technical competence and having the resources available to it (including committed financial resources and sub-contracts) which are sufficient to enable it to perform the obligations of Project Co under the Board Project Documents;
- “Termination Notice”** means a notice given by the Board to the Security Trustee under paragraph 3.2;
- “Unrestricted Assets”** means those Assets, excluding any revenues or cash balances or claims outstanding at the date of transfer under any Sub-Contract, which are required by the Board or its nominee or any replacement of Project Co for the purposes of the construction, operation or maintenance of the Facilities following termination, assuming such construction, operation or maintenance is carried out on terms substantially the same as the terms of the Project Agreement.

## 1.2 Interpretation

- 1.2.1 Capitalised terms defined in the Project Agreement shall have the same meaning in this Agreement.
- 1.2.2 The clause and paragraph headings in this Agreement are for ease of reference only and are not to be taken into account in the construction or interpretation of any provision to which they refer.

- 1.2.3 Unless the context otherwise requires:
- (a) a reference in this Agreement to any clause, sub-clause, paragraph, schedule or annex is, except where it is expressly stated to the contrary, a reference to such clause, sub-clause, paragraph, schedule or annex of this Agreement;
  - (b) references to this Agreement or to any other such document shall include any permitted variation, amendment or supplements to such document;
  - (c) references to any enactment, order, regulation or other similar instrument shall be construed as a reference to the enactment, order, regulation or instrument (including any EU instrument) as amended or re-enacted;
  - (d) references to a person includes firms and corporations and their successors and permitted assignees or transferees;
  - (e) words in this Agreement importing any one gender include both other genders and may be used interchangeably; and
  - (f) words in this Agreement importing the singular meaning, include the plural meaning and vice versa.

## **2. CONSENT TO SECURITY**

- 2.1 The Board acknowledges notice of, and consents to, the security interest granted over Project Co's rights under the Board Project Documents effected by Project Co in favour of the Senior Funders under the Security Documents.
- 2.2 The Board confirms that it has not received notice of any other security interest granted over Project Co's rights under the Board Project Documents.
- 2.3 Except as specifically provided for in this Agreement the Board has no obligations (whether express, implied, collateral or otherwise) to the Security Trustee and/or the Senior Funders in connection with this Agreement or the Board Project Documents or the Project.
- 2.4 The Board acknowledges notice of and consents to the security interest granted by Hold Co in favour of the Security Trustee over the entire issued share capital of Project Co.
- 2.5 For the purposes of Clause 34.3 of the Project Agreement, Project Co and the Security Trustee hereby authorise and instruct the Board (and the Board agrees) to pay all sums payable to Project Co under the Board Project Documents to the Proceeds Account and Project Co and the Board agree that upon the occurrence of an Enforcement Event, if so directed in writing by the Security Trustee upon giving reasonable notice, the Board shall pay any sum which it is obliged to pay to Project Co under the Board Project Documents to a bank account specified by the Intercreditor Agent.

- 2.6 The Board shall not be obliged to make any enquiry as to the authority of the Security Trustee in doing any act or entering into any document or making any agreement under or in connection with this Agreement and the Board shall be entitled to assume that the Security Trustee is duly authorised by each of the Senior Funders to assume the obligations expressed to be assumed by it under this Agreement and to undertake on behalf of each Senior Funder in the terms of this Agreement so as to bind each Senior Funder as if it were a party hereto.
- 2.7 The rights of the Security Trustee under this Agreement shall be extinguished upon the Final Payment Date.

### 3. NO TERMINATION WITHOUT NOTICE

- 3.1 Subject only to paragraph 3.2, the Board may serve notice terminating the Project Agreement at any time if it is entitled to do so under the terms of the Project Agreement.
- 3.2 The Board shall not terminate or serve notice terminating the Project Agreement in respect of a Project Co Event of Default without giving to the Intercreditor Agent:
- 3.2.1 at least the Required Period of prior written notice (a "**Termination Notice**") stating:
- (a) that a Project Co Event of Default has occurred and the proposed Termination Date; and
- (b) the grounds for termination in reasonable detail, and
- 3.2.2 not later than the date falling twenty (20) Business Days after the date of a Termination Notice a notice containing details of any amount owed by Project Co to the Board, and any other liabilities or obligations of Project Co of which the Board is aware (having made proper enquiry) which are:
- (a) accrued and outstanding at the time of the Termination Notice; and/or
- (b) which will fall due on or prior to the end of the Required Period, under the Project Agreement.
- 3.3 On becoming aware of an Enforcement Event the Security Trustee shall give notice thereof to the Board stating that an Enforcement Event has occurred and giving reasonable details thereof (an "**Enforcement Event Notice**") whereupon, subject to payment by the Intercreditor Agent of the Board's reasonable costs and expenses in respect thereof (being such costs and expenses as would not have been incurred in respect of the provision of such information had an Enforcement Event Notice not been served) the provisions of paragraph 3.2.2 shall apply as if references therein to a Termination Notice were to an Enforcement Event Notice.

### 4. NO LIQUID MARKET

- 4.1 At any time during the Required Period the Security Trustee may issue a written notice (the "**No Liquid Market Notice**") to the Board setting out the reasons why the Security Trustee does not believe that a Liquid Market exists.
- 4.2 On or before the date falling fourteen (14) Business Days after the date on which a No Liquid Market Notice is received by the Board, the Board shall notify the Security Trustee of its opinion as to whether or not a Liquid Market exists. Where the Board believes that a Liquid Market does exist, such notice shall set out the reasons for the Board's belief. If the parties do not agree whether or not a Liquid Market exists, then either party may refer the dispute to be determined in accordance with paragraph 17 (*Disputes*) below.
- 4.3 If the parties agree or it is determined in accordance with Clause 56 (*Dispute Resolution Procedure*) of the Project Agreement that no Liquid Market exists, the Project Agreement shall automatically terminate and the provisions of paragraph 4 (*No Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of Schedule Part 17 (*Compensation on Termination*) to the Project Agreement (*No Retendering*) shall apply.
- 4.4 If any dispute relating to this paragraph 4 (*No Liquid Market*) is determined pursuant to paragraph 17, the Required Period shall be extended by the period of time spent determining such dispute pursuant to paragraph 17.

## 5. REPRESENTATIVE

- 5.1 Subject to paragraph 5.2 and without prejudice to the Intercreditor Agent's rights under the Security Documents, the Security Trustee may give the Board a Step-In Notice at any time:
- 5.1.1 during which a Project Co Event of Default or an Enforcement Event is subsisting (whether or not a Termination Notice has been served); or
- 5.1.2 during the Required Period.
- 5.2 The Security Trustee shall give the Board not less than 5 Business Days prior notice of:
- 5.2.1 its intention to issue a Step-In Notice; and
- 5.2.2 the identity of the proposed Appointed Representative.
- 5.3 On the issue of the Step-In Notice, the Appointed Representative shall assume jointly with Project Co the rights of Project Co under the Board Project Documents and thereafter, until the end of the Step-In Period the Board shall deal with the Appointed Representative and not Project Co.

## 6. STEP-IN PERIOD

- 6.1 Notwithstanding paragraph 3 (*No Termination Without Notice*) above, the Board may terminate the Project Agreement if:
- 6.1.1 any amount referred to in paragraph 3.2.2(a) above has not been paid to the Board on or before the Step-In Date; or
  - 6.1.2 any amount referred to in paragraph 3.2.2(b) above has not been paid on or before the last day of the Required Period;
  - 6.1.3 amounts, of which the Board was not aware (having made proper enquiry) at the time of the Termination Notice, subsequently become payable and are not discharged on or before the date falling twenty (20) Business Days after the date on which the liability of Project Co for these amounts is notified to the Security Trustee or if later the Step-In Date; or
  - 6.1.4 grounds arise after the Step-In Date in accordance with the terms of the Project Agreement provided that Deductions and/or Warning Notices that arose pursuant to Schedule Part 14 (*Payment Mechanism*) to the Project Agreement prior to the Step-In Date shall not be taken into account during the Step-In Period but such Deductions and/or Warning Notices (to the extent applicable under the terms of the Project Agreement) shall be taken into account after the Step-Out Date.
- 6.2 The Board shall not terminate the Project Agreement during the Step-In Period on grounds:
- 6.2.1 that the Security Trustee has served a Step-In Notice or enforced any Security Document; or
  - 6.2.2 arising prior to the Step-In Date of which the Board was aware (having made proper enquiry) and whether or not continuing at the Step-In Date unless:
    - (a) the grounds arose prior to the Actual Completion Date, and the Actual Completion Date does not occur on or before the date twelve (12) months after the date on which the Board would have been entitled to terminate the Project Agreement for non-completion of the Works under Clause 40.1.2 (*Long stop*) of the Project Agreement; or
    - (b) the grounds arose after the Actual Completion Date, and neither the Appointed Representative nor Project Co is using all reasonable endeavours (including implementation of any remedial programme) to remedy any breach of the Project Agreement which:
      - (i) arose prior to the Step-In Date; and

(ii) is continuing (and capable of remedy); and

(iii) would have entitled the Board to terminate the Project Agreement; or

(c) the grounds (whenever they first arose) did not give rise to any right to terminate until after the Step-In Notice; or

6.2.3 arising solely in relation to Project Co

## 7. STEP-OUT

7.1 The Appointed Representative may at any time during the Step-In Period deliver to the Board a Step-Out Notice which shall specify the Step-Out Date.

7.2 On expiry of the Step-In Period:

7.2.1 the Appointed Representative will be released from all of its obligations and liabilities to the Board under the Board Project Documents arising prior to the end of the Step-In Period and rights of the Appointed Representative against the Board will be cancelled; and

7.2.2 the Board shall no longer deal with the Appointed Representative and shall deal with Project Co in connection with the Board Project Documents.

7.3 Project Co shall continue to be bound by the terms of the Project Agreement, notwithstanding the occurrence of a Step-In Notice, a Step-In Period, a Step-Out Notice, Step-Out Date, any action by the Security Trustee or Appointed Representative or the Senior Funders and/or any provision of this Agreement.

## 8. NOVATION

8.1 Subject to paragraph 8.2, at any time:

8.1.1 after an Enforcement Event has occurred; or

8.1.2 during the Step-In Period,

the Security Trustee may, subject to paragraph 8.2, on not less than twenty (20) Business Days' prior notice to the Board and any Appointed Representative, procure the transfer of Project Co's rights and liabilities under the Board Project Documents to a Suitable Substitute Contractor in accordance with the provisions of paragraph 8.4.

8.2 The Board shall notify the Security Trustee as to whether any person to whom the

Security Trustee proposes to transfer Project Co's rights and liabilities under the Board Project Documents to a Suitable Substitute Contractor, on or before the date falling twenty (20) Business Days after the date of receipt from the Security Trustee of all information reasonably required by the Board to decide whether the proposed transferee is a Suitable Substitute Contractor.

- 8.3 The Board shall not unreasonably withhold or delay its decision on whether the proposed transferee is a Suitable Substitute Contractor and it shall, without limitation, be reasonable for the Board to withhold its consent if there are unremedied breaches under the Board Project Documents and there is no rectification plan reasonably acceptable to the Board in respect of the breaches.
- 8.4 Upon the transfer referred to in paragraph 8.1 becoming effective:
- 8.4.1 Project Co and the Board will be released from their obligations under the Board Project Documents to each other (the "discharged obligations");
  - 8.4.2 the Suitable Substitute Contractor and the Board will assume obligations towards each other which differ from the discharged obligations only insofar as they are owed to or assumed by the Suitable Substitute Contractor instead of Project Co;
  - 8.4.3 the rights of Project Co against the Board under the Board Project Documents and vice versa (the "**discharged rights**") will be cancelled;
  - 8.4.4 the Suitable Substitute Contractor and the Board will acquire rights against each other which differ from the discharged rights only insofar as they are exercisable by or against the Suitable Substitute Contractor instead of Project Co;
  - 8.4.5 any then subsisting ground for termination of the Project Agreement by the Board shall be deemed to have no effect and any subsisting Termination Notice shall be automatically revoked;
  - 8.4.6 the Board shall enter into a direct agreement with the Suitable Substitute Contractor and a representative of Senior Funders lending to the Suitable Substitute Contractor on substantially the same terms as this Agreement; and
  - 8.4.7 any Deductions and/or Warning Notices that arose pursuant to Schedule Part 14 (*Payment Mechanism*) prior to that time shall, without prejudice to the rights of the Board to make financial deductions, not be taken into account in determining whether a Project Co Event of Default has occurred.

## 9. MISCELLANEOUS

- 9.1 The Board shall at Project Co's expense, take whatever action the Intercreditor Agent, an Appointed Representative or a Suitable Substitute Contractor taking a

transfer in accordance with paragraph 8.1 may require for perfecting any transfer or release under paragraph 5 (*Representative*) above, paragraph 7 (*Step-Out*) above and paragraph 8 (*Novation*) above including the execution of any transfer or assignment, and the giving of any notice, order or direction and the making of any registration which, in each case, the Security Trustee or Appointed Representative or Suitable Substitute Contractor reasonably requires.

- 9.2 The Board shall not take any action to wind up, appoint an administrator or sanction a voluntary arrangement (or similar) in relation to Project Co.
- 9.3 This Agreement shall remain in effect until the earlier of:
- 9.3.1 the Final Payment Date;
  - 9.3.2 the date of termination of the Project Agreement; or
  - 9.3.3 the date of transfer of Project Co's rights and liabilities under the Board Project Documents to a Suitable Substitute Contractor pursuant to paragraph 9.1 above.
- 9.4 The Intercreditor Agent, in respect of paragraphs 9.4.1, 9.4.2 and 9.4.3, and Project Co, in respect of paragraph 9.4.4 shall promptly notify the Board of:
- 9.4.1 any Enforcement Event and any action taken in connection with such Enforcement Event, any decisions to accelerate the maturity of any amounts owing by Project Co to the Senior Funders under the Senior Funding Agreements and/or any decisions to demand repayment;
  - 9.4.2 the date referred to in paragraph 9.3.1 above on or before the date falling twenty (20) Business Days after its occurrence:
  - 9.4.3 the details and amount of any proposed Additional Permitted Borrowing including:
    - (a) the circumstances giving rise to it and reasons for it; and
    - (b) the terms on which it will be borrowed;
  - 9.4.4 on the first Business Day of each calendar month during which any Additional Permitted Borrowing is, or may be, subsisting, the amount outstanding under the Senior Funding Agreements (as the same may be amended (whether or not with the approval of the Board))and, to the extent it is aware (having made reasonable and proper enquiry);
    - (a) the amount of any Distribution made by Project Co; and
    - (b) the amount of any credit balance on any account of Project Co.

- 9.5 Project Co joins in this Agreement to acknowledge and consent to the arrangements set out and agrees not knowingly to do or omit to do anything that may prevent any party from enforcing its rights under this Agreement.
- 9.6 For the avoidance of doubt, if there is any conflict or inconsistency between the provisions of this Agreement and the Project Agreement, the provisions of this Agreement shall prevail.
- 9.7 Notwithstanding any provision in the Collateral Agreements to the contrary, the Board agrees that, subject to paragraphs 9.8 and 9.9, it will not, in respect of any particular Collateral Agreement, exercise or seek to exercise any of its step-in rights or other rights (other than design, intellectual property or similar rights) under such Collateral Agreement until the earliest of:
- 9.7.1 the Senior Debt Discharge Date; or
- 9.7.2 the date on which the Security Trustee has given its written consent to such exercise; or
- 9.7.3 the time when in respect of any such Collateral Agreement either:
- (a) the Senior Funders have failed to exercise any corresponding right to such Collateral Agreement under their own Security Documents and the time for exercising such right has ended in accordance with the terms thereof; or
- (b) the Security Trustee has confirmed in writing to the Board (following any request from the Board for such confirmation, to which the Security Trustee shall be obliged to respond promptly) that it does not intend to exercise any of its rights under the relevant Security Document or that it has no further claim thereunder; or
- (c) the Senior Funders have stepped in to or otherwise directly or indirectly taken control over the rights of Project Co under the relevant Sub-Contract (in accordance with their rights under their Security Documents) and then stepped out from, or otherwise relinquished control of such rights under or in connection with such Sub-Contract; or
- 9.7.4 the date falling three (3) months after the date on which the Project Agreement has been terminated in accordance with its terms and the terms of this Agreement.
- 9.8 In addition to its rights under paragraph 9.7, where the Project Agreement has not been terminated but a counterparty has a right to terminate its Sub-Contract for breach by Project Co of the terms of such Sub-Contract the Board may pay directly, or undertake to make a payment directly to the counterparty concerned, amounts due pursuant to the Sub-Contract and may set off any such sums against any payments payable by the Board to Project Co under the Project Agreement so as to satisfy them pro tanto, provided always that the Board shall not exercise its rights under this paragraph 9.8 in respect of any particular Sub-Contract in

circumstances where the Senior Funders have stepped in to or otherwise directly or indirectly taken control over the relevant Sub-Contract and have not stepped out of it or otherwise relinquished such control.

- 9.9 In addition to its rights under paragraph 9.7, where the Project Agreement has been terminated, the Board shall from the Termination Date be able to exercise any of its step-in rights or other rights under or in respect of any of the Collateral Agreements; however notwithstanding the terms of the Collateral Agreements or any other provisions of this paragraph 9.9, each of the relevant Sub-Contractors (and any guarantors thereof as relevant) shall remain responsible, and be liable, to Project Co in respect relevant Accrued Rights in relation to which the Security Trustee acting on behalf of Project Co and the Senior Funders shall retain the benefit of all and any rights to all and any Accrued Rights.
- 9.10 Except in accordance with the provisions of paragraphs 9.7 to 9.9(inclusive) the Board shall not, prior to the Senior Debt Discharge Date:
- 9.10.1 claim, recover, retain or receive (or seek to claim, recover, retain or receive) any amount under the Collateral Agreements;
- 9.10.2 take any action to wind-up, appoint an administrator, seek an interim order appointee (under paragraph 3(b) of the Insolvency Act 1986 (as amended)) or sanction a voluntary arrangement (or similar) in relation to any Sub-Contractors; or
- 9.10.3 save with the prior written consent of the Intercreditor Agent, compete on grounds (whether in whole or in part) relating to the Project (by virtue of a claim under any of the Collateral Agreements, the Project Agreement or any other Project Document or otherwise) with the rights of the Senior Funders on any formal insolvency of any Sub-Contractor or Project Co, nor claim to be subrogated to the rights of any Senior Funders.
- 9.11 The Board agrees and undertakes that if it receives any amount in contravention of the provisions of paragraph 9.10 above it will promptly turn the same over to the Security Trustee and pending such payment hold the same on trust for the Security Trustee and the Senior Funders.
- 9.12 Notwithstanding the terms of the Project Agreement and Security Documents, the Security Trustee agrees that the Board may exercise its rights to have transferred to it or its nominee any Unrestricted Assets following the Termination Date and the Security Trustee will not exercise or seek to exercise any enforcement rights and shall on or before the date any Unrestricted Assets are transferred to the Board or its nominee, as the case may be, release its security over them.
- 9.13 Notwithstanding the terms of any Senior Funding Agreements, the parties agree and shall, to the extent it is within their power, direct that all insurance proceeds receivable or received by Project Co under the insurances referred to in Clause 53 (*Insurance*) of the Project Agreement shall be paid directly into the Insurance Proceeds Account and applied in accordance with the Project Agreement.

**10. ASSIGNATION**

- 10.1 No party to this Agreement may assign or transfer any part of its rights or obligations under this Agreement save as provided in this paragraph 10 (*Assignment*).
- 10.2 The Security Trustee may assign, novate or transfer its rights and obligations under this Agreement and in respect of the Security Documents to a successor Security Trustee in accordance with the Senior Funding Agreements without the consent of the Board and any such assignment novation or transfer shall not constitute a Change of Control for the purposes of Clause 58.6 of the Project Agreement. The Board also agrees that any enforcement by the Security Trustee of the security referred to in paragraph 2.5 above (and any subsequent transfer of share capital in Project Co) following an Enforcement Event shall not constitute a Project Co Event of Default under Clause 40.1.6 (*Change in Control*) of the Project Agreement.
- 10.3 Any Senior Funder may assign or transfer its rights under the Senior Funding Agreements in accordance with the terms of the Senior Funding Agreements.
- 10.4 The Board may transfer its rights and obligations under this Agreement to any permitted assignee of its interest in the Project Agreement and the Security Trustee and the Senior Funders shall co-operate with the Board in completing the formalities of any transfer or assignment including by executing any additional documents as may be required by the Board.
- 10.5 If paragraph 10.2 applies in relation to the Intercreditor Agent, the Board shall enter into a new direct Agreement with the new Intercreditor Agent on substantially the same terms as this Agreement.

**11. ENTIRE AGREEMENT**

Unless otherwise stated in this Agreement, this Agreement and the Board Project Documents constitutes the entire agreement between the parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings concerning the subject matter of this Agreement. No party has relied on any representation except as expressly set out in this Agreement.

**12. WAIVER**

- 12.1 The failure of any party to exercise any contractual right or remedy shall not constitute a waiver thereof until communication in writing under paragraph 12.2.
- 12.2 No waiver shall be effective unless it is communicated in writing to the other party.
- 12.3 A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of this Agreement.

**13. SEVERABILITY**

If any term, condition or provision contained in this Agreement shall be held to be invalid, unlawful or unenforceable to any extent, such term, condition or provision shall not affect the validity, legality or enforceability of the remaining parts of this Agreement.

**14. CONFIDENTIALITY**

The Security Trustee shall be bound to comply with the obligations on the part of Project Co contained in Clause 61 (*Confidentiality*) of the Project Agreement in relation to all information and matters obtained from any other party under or in connection with the Project.

**15. NOTICES CONSENTS AND APPROVALS**

15.1 Any notice served under or in connection with this Agreement is to be in writing and shall be deemed to have been served:-

15.1.1 if delivered at the time of delivery; or

15.1.2 if posted at noon (Greenwich mean time) one Business Day after posting; or

15.1.3 if set by fax at the time shown in the relevant transmission report for the complete fax.

provided that a notice or other communication received on a non-Business Day or after 5p.m. in the place of receipt shall be deemed to be received at 9a.m. on the next following Business Day in such place.

15.2 Any notice to be given to the Board should be marked for the attention of The Chief Executive and delivered to Lothian Health Board, Waverley Gate, 2-4 Waterloo Place, Edinburgh, EH1 3EG or such other party or address or fax number as notified in writing to the Security Trustee by the Board.

15.3 Any notice to be given to the Security Trustee should be marked for the attention of Prudential Trustee Company Limited and delivered to Laurence Pountney Hill London EC4R 0HH or faxed to:

Attention: Corporate Trust Manager,

or such other party address or fax number as notified in writing to the Board by the Intercreditor Agent.

15.4 Any consent or approval under this Agreement is required to be obtained before the act or event to which it applies is carried out or done and is to be treated as effective only if the consent or approval is given in writing.

**16. SURVIVORSHIP**

Notwithstanding the provisions of paragraph 9.3.2 and paragraphs 9.7 to 9.13 (inclusive) (*Miscellaneous*) shall survive termination of this Agreement.

**17. DISPUTES**

17.1 All disputes shall be resolved in accordance with terms equivalent (mutatis mutandis) to the Dispute Resolution Procedure set out in the Project Agreement.

17.2 Project Co, the Board and the Security Trustee shall co-operate to facilitate the proper, just, economical and expeditious resolution of any and all such disputes which arise under this Agreement.

**18. GOVERNING LAW**

18.1 Subject to paragraph 17 (*Disputes*) above, this Agreement is governed by the laws of Scotland.

18.2 The parties agree that the courts of Scotland shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Agreement and irrevocably submit to the jurisdiction of those courts.

## SCHEDULE PART 5

### LAND MATTERS

#### SECTION 1 – TITLE CONDITIONS

1. Little France Steading has the benefit of the following rights:
  - 1.1 a servitude right to lay and thereafter maintain a pipe connecting Little France Steading to the main sewer running through the Campus Site to the northwest of Little France Steading, subject to causing as little inconvenience as possible during pipe laying operations and making good any damage caused to the surface of the said subjects occasioned by the laying of the pipe or the maintenance thereof;
  - 1.2 a right to enter that part of the Campus Site lying to the northeast of Little France Steading in so far as this may be necessary for the repair, maintenance or renewal of the buildings erected on these subjects.
2. 217 Old Dalkeith Road has the benefit of a heritable and irredeemable servitude right of access and egress for vehicular and pedestrian traffic in all time coming over that part of the access road shown on Plan 9 as is required to give access to 217 Old Dalkeith Road.

3. Not Used

4. Not Used.

#### 5. **Use of the Campus Site by Project Co**

Project Co and any Project Co Parties shall not be permitted to use any part of the Campus Site (including, without prejudice to the foregoing generality, the car parks, shops, restaurants, toilets, concourses and corridors forming the Campus Site except (a) as otherwise provided for in this Agreement, or (b) with the express permission of the Board, or (c) with regard to the accident and emergency department within the RIE Facilities, in the case of a medical emergency).

6. Not Used.

#### 7 **Petrol Station Site**

During the Construction Phase, the Petrol Station Site is subject to the following burdens:

- 7.1 Project Co shall not use or permit the Petrol Station Site or any part thereof to be used for any of the following purposes:
  - 7.1.1 residential accommodation or development, which includes any form of accommodation that is designed as and/or converted into accommodation in which people sleep or reside whether or not on a permanent basis or as a principal residence;
  - 7.1.2 hotel, hostel, guest house or bed and breakfast accommodation;
  - 7.1.3 campsite or caravan site;
  - 7.1.4 nursing home or similar geriatric facility or healthcare facility for children, disabled or injured persons in which persons sleep or reside;
  - 7.1.5 place of worship;

- 7.1.6 nursery, school or a playground;
  - 7.1.7 growing any produce for the purpose of human consumption or consumption by any living thing, or any other agricultural use;
  - 7.1.8 processing food;
  - 7.1.9 the construction or installation of:-
    - (a) any water wells for drinking or food processing, or
    - (b) basement living space or any underground living space;
  - 7.1.10 the construction or installation of
    - (a) underground storage space (including vehicle parking spaces),
    - (b) underground utility space, and
    - (c) additional underground utility conduits.
- 7.2 Project Co shall:
- 7.2.1 not construct, install or make use of any basement or other sub-ground level accommodation or facility in or under any part of the Petrol Station Site other than for (1) foundations, (2) Services (which for the purposes of this paragraph 7 of Section 1 of Schedule Part 5 (*Land Matters*) shall mean pipes, cables, conduits and utility spaces where those items are vapour tight, and shall not wells or boreholes for the abstraction of water) and (3) temporary boreholes for testing of soil and ground water and (4) use of underground storage tanks in relation to the permitted use;
  - 7.2.2 not remove, alter or compromise the integrity of any Membrane and Fill Works (which for the purposes of this paragraph 7 of Schedule Part 5 (*Land Matters*) shall mean. the laying of an appropriate membrane that prevents exposure of users of the relevant part of the Petrol Station Site to contaminants that may be present overlaid by a protective layer of uncontaminated fill of appropriate depth) undertaken on the Petrol Station Site other than in compliance with paragraph 7.2.4;
  - 7.2.3 install during the course of any development upon the Petrol Station Site such other building design, controls and safeguards (including protective of human health and the Environment) as an appropriately experienced environmental engineer appointed by Project Co recommends or may be required by relevant Regulatory Authorities;
  - 7.2.4 as part of any permitted works upon the Petrol Station Site, undertake Membrane and Fill Works protective of human health in accordance with a design specification and method statement approved by an appropriately experienced environmental engineer and that to the satisfaction of any relevant Regulatory Authorities (which, for *the purposes of this paragraph 7 of Schedule 1 of Schedule Part 5 (Land Matters)*, Regulatory Authority means any competent authority having powers and duties in relation to the enforcement of any law rule regulation or obligation existing adopted made commenced introduced or otherwise brought into force prior to or after this transfer concerning the protection of human health the Environment or any Relevant Substances and for the avoidance of doubt the expression 'Regulatory Authority' shall not include any court of law, and "Regulatory Authorities" shall be construed accordingly);
  - 7.2.5 install a Vapour Barrier (which for the purposes of this paragraph 7 of Section 1 of Schedule Part 5 (*Land Matters*) shall mean a membrane that prevents the migration of vapours from the underlying soil to the interior of each building upon the Petrol Station Site) protective of human health during the course of construction of each building from time to time constructed upon the Petrol Station Site in accordance with a design specification and method statement approved by an appropriately

experienced environmental engineer appointed by Project Co and that to the satisfaction of all relevant Regulatory Authorities;

- 7.2.6 not remove, alter or compromise the integrity of any Vapour Barrier installed pursuant to paragraph 7.2.5 above unless as part of demolition of the relevant building or the relevant part of such building;
- 7.2.7 not open up create or use any borehole or water abstraction point upon the Petrol Station Site and upon discovery of any well or borehole upon the Petrol Station Site providing an actual or potential supply of water without unreasonable delay to permanently decommission and plug the same in accordance with a design specification and method statement of an appropriately experienced environmental engineer appointed by Project Co and to the satisfaction of all relevant Regulatory Authorities;
- 7.2.8 install Engineering Controls (which, for the purpose of this paragraph 7 of Section 1 of Schedule Part 5 (*Land Matters*) means such controls as are required to effectively prevent the migration of vapours and or liquids containing Relevant Substances into any buildings underground utilities or storm water retention/detention ponds upon the Burdened Land including (without limitation) slab or at grade construction vapour installations systems, vapour barriers, sealed sumps and storm pond liners) protective of human health during the course of construction of each building from time to time constructed upon the Petrol Station Site in accordance with a design specification and method statement approved by an appropriately experienced environmental engineer appointed by Project Co and to the satisfaction of all relevant Regulatory Authorities;
- 7.2.9 not remove alter or compromise the integrity of any Engineering Controls installed at the Petrol Station Site unless as part of demolition of the relevant building or the relevant part of such building; and
- 7.2.10 install during the course of any development upon the Petrol Station Site such building design, controls and safeguards (including protective of human health and the environment) as an appropriately experienced environmental engineer appointed by the Project Co recommends or may be required by relevant Regulatory Authorities.

## **SECTION 2 – RESERVED RIGHTS**

1. To each Campus Party the full free and uninterrupted passage and running of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications) and other services through the Campus Site by or through the pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media which currently or at any time in the future may be located within the Campus Site.
2. To each Campus Party or any party on behalf of any of them, the right to connect into and maintain, repair, renew and replace existing pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media through, under and over the Retained Site for the passage of services referred to in paragraph 1.
3. To each Campus Party or any party on behalf of any of them, the right to maintain, repair and renew and replace existing pipes, channels, drains, sewers, conduits, water courses, wires, cables and other conducting media through, under and over the Site for the passage of services referred to in paragraph 1 above subject to the following conditions:
  - 3.1 this right is exercisable on reasonable prior notice being given (except in an emergency) to Project Co;
  - 3.2 the right shall be exercised in such a manner as shall cause the minimum practicable disruption to the use and occupation of the Site;
  - 3.3 the Board shall procure that any physical damage to the Site and any buildings,

structures and others erected thereon and any plant, machinery and equipment resulting from the exercise of the rights is made good.

4. To each Campus Party or any party on behalf of any of them, a right of access over the Site where necessary in connection with the carrying out of works of maintenance, repair and renewal and replacement to the Retained Site and/or Retained Estate subject to the following conditions:
  - 4.1 this right is exercisable on reasonable prior notice being given (except in an emergency) to Project Co;
  - 4.2 the right shall be exercised in such a manner as shall cause the minimum practicable disruption to the use and occupation of the Site;
  - 4.3 the Board shall procure that any physical damage to the Site and any buildings, structures and others erected thereon and any plant, machinery and equipment resulting from the exercise of the rights is made good.
  
5. To the Board and/or any Board Party and/or Consort and/or any Consort Party or any party on behalf of them, a right of overhang in respect of the canopy forming part of the RIE Facilities at the A&E entrance and a right to retain pillars supporting the said canopy, for so long as they subsist (in their existing form or as replaced or renewed from time to time) to the extent that such pillars or canopy are within the remainder of the RIE Facilities together with all rights of access over the Site where necessary for the purposes of carrying out any works of maintenance, repair, renewal or replacement of the canopy and pillars, provided that the rights in this paragraph 5 shall cease to be enforceable following the permanent dismantling and removal of the canopy and pillars subject to the following conditions:
  - 5.1 this right is exercisable on reasonable prior notice being given (except in an emergency) to Project Co;
  - 5.2 the right shall be exercised in such a manner as shall cause the minimum practicable disruption to the use and occupation of the Site;
  - 5.3 the Board shall procure that any physical damage to the Site and any buildings, structures and others erected thereon and any plant, machinery and equipment resulting from the exercise of the rights is made good.
  
6. Not Used.
  
7. Not Used.
  
8. To the Board and/or any Board Party or any party acting on their behalf all necessary rights required for the maintenance and cleansing of the Niddrie Burn.
  
9. To the Board and/or any Board Party and/or Consort and/or any Consort Party, an exclusive right of occupation over the RIE Site, subject to the Reserved Rights and the Ancillary Rights.
  
10. To the Board and/or any Board Party and/or the University and/or any University Party, an exclusive right of occupation over the University Site.
  
11. To each Campus Party or any party on behalf of any of them a right to inspect, maintain, repair, renew and/or replace any service media, buildings, structures and others erected thereon and any plant, machinery and equipment located within or adjacent to any part or parts of the Access Areas which are occupied and/or hoarded off by Project Co or a Project Co Party pursuant to Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and if any such party requires to access such areas to inspect, maintain, repair, renew and/or replace as aforesaid then the following provisions shall apply:
  - 11.1 except in the case of an emergency, the Board shall give Project Co reasonable prior notice of the requirement to enter such areas;

- 11.2 Project Co shall provide the Board and/or any Board Party, and/or Consort and/or any Consort Party and/or the University and/or any University Party and/or any party authorised by them with the level of access required to implement their obligations and/or exercise their rights in regard to such service media, buildings, structures and others erected thereon and any plant, machinery and equipment;
- 11.3 the Board shall use reasonable endeavours to procure that Consort and the University shall in exercising the rights pursuant to this paragraph 11 cause as little inconvenience as is reasonably practicable to Project Co; and
- 11.4 the Board shall use reasonable endeavours to procure that Consort and the University in exercising the rights pursuant to this paragraph 11 shall comply with Project Co's reasonable site rules and requirements which are applied in accordance with Good Industry Practice.
12. To each Campus Party, or any party on behalf of any of them, a right to inspect, maintain, repair, renew and/or replace service media buildings, structures and others erected thereon and any plant, machinery and equipment, located within any parts of Car Park E which are occupied by Project Co or a Project Co Party and/or are hoarded off pursuant to Section 3 (*Site Compound/Car Park E*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) (and provided always that Project Co shall not locate any site accommodation at a location which could impede such a party in accessing service media) and if any such party requires to access such areas to inspect, maintain, repair, renew and/or replace aforesaid then the following provisions shall apply:
- 12.1 except in the case of an emergency where no prior notice is required, the Board shall give Project Co reasonable prior notice of the requirement to enter Car Park E and/or the relevant part;
- 12.2 Project Co shall provide the Board and/or any Board Party and/or Consort and/or any Consort Party, and the University and/or University Party and/or any party authorised by them with the level of access required to exercise their rights and/or implement their obligations in regard to such service media buildings, structures and others and any plant, machinery and equipment and without prejudice to the foregoing generality shall ensure that the areas under which the such service media, buildings, structures and others and any plant, machinery and equipment are located are not obstructed; and
- 12.3 the Board shall use reasonable endeavours to procure that Consort and/or the University shall in exercising the rights pursuant to this paragraph 12 cause as little inconvenience as is reasonably practicable to Project Co.
- 12.4 the Board shall use reasonable endeavours to procure that Consort and the University in exercising the rights pursuant to this paragraph 12 shall comply with Project Co's reasonable site rules and requirements which are applied in accordance with Good Industry Practice.
13. To the extent that the gas pipe serving the RIE Site and/or RIE Facilities is located within the Site Project Co shall comply with the conditions and restrictions in paragraph 6.1.2 of Sub-Section C of the Board's Construction Requirements and there shall be reserved to the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them, rights of access to the Site to the extent required to maintain, repair, replace and renew the gas pipe and all necessary rights to maintain, repair, replace and renew the gas pipe.
14. To the extent that the Sewer serving the RIE Site and/or RIE Facilities and other neighbouring properties on and off the Campus Site part of which is located within the Site as shown in Plan 11 which forms part of the Disclosed Data, Project Co shall comply with the conditions and restrictions in paragraph 6.1.1 of Sub-Section C of the Board's Construction Requirements and there shall be reserved to the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them, rights of access to the Site to the extent required to maintain, repair, replace and renew the Sewer and all necessary

rights to maintain, repair, replace and renew the Sewer.

15. To each Campus Party and/or any party on behalf of any of them and other restrictions, reservations and others contained in Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and in each of the Interface Proposals.
16. To the Board or Exxon Mobil Corporation (a company incorporated in the State of New Jersey in the United States of America and its predecessor and successor companies) a right to re-enter the Petrol Station Site to carry out any works, operations or steps for the purpose of preventing, mitigating or remedying Contamination to the Petrol Station Site that are required by any Regulatory Authority, but then only if Project Co has failed to carry out such required remediation work.
17. There are reserved in favour of the local or public authorities and statutory undertakers, utilities companies or organisations and the like all necessary rights of access for the installation, repair, maintenance, cleaning and renewal of all electric and telegraphic cables, water, gas and drainage pipes, sewers, soil, waste and water supply pipes and all other cables, pipes and transmitters and other services serving the Site or running through the Site provided that such rights may be exercised by any local or public authority or statutory undertaker or utility company or organisation without any liability on the part of the Board.

### **SECTION 3 – ANCILLARY RIGHTS**

The following Ancillary Rights are granted to the extent required for the purpose of implementing the Works, performing the Services and fulfilling Project Co's rights and obligations under this Agreement:

#### **1. Occupancy**

A non exclusive right to enter and remain on the Site;

#### **2. Construction Access over the Yellow Area and/or Petrol Station Site**

Project Co shall have the right to:

- 2.1 form the Construction Access;
- 2.2 hoard off the Construction Access from the remainder of the Yellow Area and/or Petrol Station Site;
- 2.3 use the Construction Access during the Construction Phase for access to and/or egress from the Site at all times for all kinds of construction traffic and pedestrians; and
- 2.4 carry out the Petrol Station Works at the Petrol Station Site,

subject to Project Co complying with and carrying out such works and hoarding off in accordance with the provisions of paragraph 1 of Section 1 (*Construction Access*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Construction Access Proposal.

#### **3 Construction Access over the Orange Area**

Project Co shall have the right to take:

- 3.1 construction access to and egress from the Site for the carrying out and completion of the Works over the Orange Area; and
- 3.2 access to and egress from Car Park E over the Orange Area,

subject to Project Co complying with and carrying out the Works over the Orange Area in accordance with the provisions of paragraph 2 of Section 1 (*Construction Access*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface*

with Campus Site and/or Campus Facilities) and the TMS.

#### 4. Access Areas

Project Co shall have the right during the Construction Phase as part of the Works to:

- 4.1 enter upon and occupy on an exclusive basis and where necessary hoard off from the remainder of the RIE Site any part or parts of the Access Areas in connection with the exercise of the rights granted in terms of the Access Strategy;
- 4.2 carry out works to form pedestrian and vehicular accesses to and from the Site onto the Orange Area;
- 4.3 reconfigure the roads, footpaths and landscaped areas within the Hatched Orange Area;
- 4.4 install the Surface Water Drainage Works from the Site to the existing surface water drain within the Orange Area; and
- 4.5 carry out the Cycle Path Works in the Yellow Area and the Service Strip;

subject to Project Co complying with the conditions in Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Access Strategy, and in relation to the matters in the foregoing paragraph 4.4 the Initial Drainage Proposal and the Supplemental Drainage Proposal and where applicable the Amended Supplemental Drainage Proposal and/or Access Strategy agreed or determined pursuant to Section 2 (*Access Areas and Amended Supplemental Drainage Proposals*) of Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*).

#### 5. Not Used.

#### 6. Service Strip and Foul Service Strip

Project Co shall have the right to construct and lay and thereafter maintain, repair and renew service media through, under and over (1) the Service Strip for the passage of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications), and (2) the Foul Service Strip for the passage of foul drainage, in each case as necessary in connection with the Works but subject to Project Co complying with the conditions in Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Service Proposal and/or where applicable any Amended Service Proposal agreed or determined pursuant to Section 3 (*Amended Service Proposal*) of Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*).

#### 7. Link Building

Following the construction of the Link Building to the RIE Facilities within the Connection Area, Project Co shall be entitled to:

- 7.1 install a Joint between the Facilities to the Link Building;
- 7.2 install interface links between the Fire Alarm System within the Facilities with those within the RIE Facilities;
- 7.3 install the PTS in relation to the Facilities; and
- 7.4 install the ICT in relation to the Facilities,

subject to Project Co complying with the conditions in Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Connection Proposal.

**8. Site Compound/Car Park E**

During the Construction Phase Project Co shall be entitled to occupy Car Park E and where necessary hoard off and segregate Car Park E or the relevant part thereof being occupied from the remainder of the Campus Site subject to Project Co complying with the conditions in Section 3 (*Site Compound/Car Park E*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Interface Proposals.

**9. Oversail**

Project Co shall be permitted to oversail parts of the Retained Site with the jib and/or counterweight of any crane subject to Project Co complying with the requirements in Section 4 (*Oversail*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Oversail Strategy and/or where applicable any Additional Oversail Strategy agreed or determined pursuant to Section 1 (*Oversail*) of Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*).

**9A. Petrol Station Site**

Project Co shall be entitled to take access to the Petrol Station Site from the Yellow Area and to occupy and use the Petrol Station Site only for the purpose of temporary modular office.

**9B. Manhole**

During the Construction Phase, Project Co shall be entitled to construct, install, lay, commission, maintain, repair, renew and replace a water main/sewer pipe connection and any ancillary apparatus through the area shown as a continuous red line running between and connecting at the points marked MHF3 and MHF7 (indicated by a dotted red circle) and MHFX on Plan 12.

**10. Operational Access**

10.1 During the Operational Term Project Co shall have the following rights of access to and egress from the Site:

10.1.1 (until adoption by the relevant authority for use as a public road) for pedestrians and vehicles (excluding heavy construction traffic) over and across the roads and footpaths shown coloured blue, coloured yellow and coloured pink and also hatched black (excluding the section of road coloured pink but unhatched) on Plan 6;

10.1.2 for pedestrians and vehicles (excluding heavy construction traffic) over and across the roads and footpaths shown coloured pink (excluding the section of road coloured pink and hatched black) on Plan 6 until such time as the Board notify Project Co in writing that access over this area shall no longer be permitted;

10.1.3 a right of access over the Service Strip where necessary in connection with the carrying out of works or maintenance, repair and renewal to the Site. This right is subject to the following conditions:

(a) the right shall only be exercisable on reasonable prior notice (except in case of emergency) being given to the Board (who shall liaise with Consort);

(b) the right shall be exercised in such a manner as shall cause the minimum practicable disruption to the use and occupation of the Service Strip;

(c) Project Co shall make good any physical damage to the Service Strip and any buildings, structures and others erected thereon and any plant, machinery and equipment resulting from the use of this right.

10.2 During the Operational Term Project Co shall have a right of access over the RIE Site where

necessary to maintain, repair and renew to the Facilities subject to Project Co complying with the conditions in paragraph 1 of Section 2 (*Operational Construction Issues*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Interface Proposals.

- 10.3 During the Operational Term Project Co shall have a right of access to the Service Strip and the Foul Service Strip to repair, maintain and renew service media serving the Facilities located within the Service Strip or the Foul Service Strip subject to Project Co complying with the terms of Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Service Proposal, and where applicable any Amended Service Proposal agreed or determined pursuant to Section 3 (*Amended Service Proposal*) of Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*).
- 10.4 During the Operational Term, Project Co shall have a right of access to the RIE Facilities to:
- 10.4.1 maintain, repair and renew interface links between the Fire Alarm System within the Facilities and those within the RIE Facilities;
- 10.4.2 maintain, repair and renew the PTS in relation to the Facilities;
- 10.4.3 maintain, repair and renew the ICT in relation to the Facilities,
- 10.4.4 maintain, repair and renew the Joint,
- subject to Project Co complying with Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and the Connection Proposal.
- 10.5 During the Operational Term, Project Co shall be entitled to construct, lay, commission, maintain, repair, renew and replace a water main/sewer pipe connection and any ancillary apparatus through the area shown as a continuous red line running between and connecting at the points marked MHF3 and MHF7 (indicated by a dotted red circle) and MHFX on Plan 12 (*Manhole*) in Schedule Part 27 (*Plans*).
11. Wherever in this Schedule Part 5 (*Land Matters*) Project Co has an obligation to perform or comply with any matter, Project Co shall procure that Project Co Parties shall perform or comply with any such matter.

**SCHEDULE PART 6  
CONSTRUCTION MATTERS**

**SECTION 1**

**NOT USED**

## SECTION 2

## SAFETY DURING CONSTRUCTION

1 In this Section 2 (*Safety During Construction*) of Schedule Part 6 (*Construction Matters*) and wherever used elsewhere in this Agreement:

1.1 "**CDM Regulations**" means the Construction (Design and Management) Regulations 2007 (and "**CDM Regulation**" shall be construed accordingly); and

1.2 "the **client**", "**the CDM Co-ordinator**" and "the Executive" shall have the same meanings as are ascribed to them in the CDM Regulations.

2 In so far as not already done, within five (5) Business Days of the date of execution of this Agreement, Project Co shall make and serve on the Board a declaration pursuant to and in the form (if any) required by CDM Regulation 8 that Project Co will act as the client in relation to the Works for all the purposes of the CDM Regulations. Notwithstanding the election made by Project Co in relation to CDM Regulation 8, the Board will comply with its remaining obligations as set out in CDM Regulation 8. During the Project Term, Project Co shall not, and shall not seek to, withdraw, terminate or in any manner derogate from its declaration that it will act as, and its acceptance of its responsibilities as, the client in relation to the Works for all the purposes of the CDM Regulations. The Board will endorse its consent, in writing, to such election on the said election and return it to Project Co within five (5) Business Days of receipt.

3 Project Co warrants that it has the competence, resources and capacity to, and shall, observe, perform and discharge or shall procure the observance, performance and discharge of:

3.1 all the obligations, requirements and duties of the client arising under the CDM Regulations in connection with the Works and, where necessary, the provision of the Services; and

3.2 all obligations incumbent on the client under any Code of Practice for the time being approved by the Health and Safety Commission pursuant to the Health and Safety at Work etc Act 1974 issued in connection with the CDM Regulations.

4 Project Co shall provide to the Board's Representative:

4.1 in a substantially complete form on the Actual Completion Date; and

4.2 in final form within five (5) Business Days of the Actual Completion Date,

one electronic copy (on computer disk, tape or other format) of each and every health and safety file and construction phase plan prepared by the CDM Co-ordinator pursuant to the CDM Regulations in relation to the Works and the Services and electronic or paper copies of every amendment or update made to such file during the Project Term.

**SECTION 3**

**BOARD'S CONSTRUCTION REQUIREMENTS**

The Board's Construction Requirements are the Board's Construction Requirements as set out on the disc in the Agreed Form identified and executed as the Section 3 (*Board's Construction Requirements*) of Schedule 6 (*Construction Matters*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 4****PROJECT CO'S PROPOSALS**

Project Co's Proposals are Project Co's Proposals as set out on the disc in the Agreed Form identified and executed as disc 1 (*Project Co Proposals*), disc 2 (*HLM Operational Functionality and Financial Close Drawings*), disc 3 (*Robert Bird Group Financial Close Drawings*), disc 4 (*TUV SUD Ltd Financial Close Drawings*), disc 5 (*Mercury Financial Close Drawings*) and disc 6 (*Catering Design Services Financial Close Drawings*) of Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 5**

**REVIEWABLE DESIGN DATA**

The Reviewable Design Data is the Reviewable Design Data as set out on the disc in the Agreed Form identified and executed as the Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 6**

**ROOM DATA SHEETS**

The Room Data Sheets are the Room Data Sheets as set out on the disc in the Agreed Form identified and executed as Appendix 1 (*RDS Pack*) and Appendix 2 (*Environmental Matrix*) of Section 6 (*Room Data Sheets*) of Schedule Part 6 (*Construction Matters*) of this Agreement, referred to in and forming part of this Agreement.

**Appendix 1**

**RDS Pack**

The RDS Pack is the RDS Pack as set out on the disc in the Agreed Form identified and executed as Appendix 1 (*RDS Pack*) and Appendix 2 (*Environmental Matrix*) of Section 6 (*Room Data Sheets*) of Schedule Part 6 (*Construction Matters*) of this Agreement referred to in and forming part of this Agreement.

**Appendix 2**  
**Environmental Matrix**

The Environmental Matrix is the Environmental Matrix as set out on the disc in the Agreed Form identified and executed as Appendix 1 (*RDS Pack*) and Appendix 2 (*Environmental Matrix*) of Section 6 (*Room Data Sheet*) of Schedule Part 6 (*Construction Matters*) of this Agreement, referred to in and forming part of this Agreement.

## SECTION 7

### THERMAL AND ENERGY EFFICIENCY TESTING PROCEDURE

#### 1. INTRODUCTION

##### 1.1 Main Principles

This Section 7 (*Thermal and Energy Efficiency and Testing Procedure*) of Schedule Part 6 (*Construction Matters*), sets out the structure and main principles of the Thermal and Energy Efficiency Testing procedures to be carried out by Project Co at the Facilities in order to ascertain the As Built Facilities Energy Performance. In particular, this Section 7 (*Thermal and Energy Efficiency and Testing Procedure*) of Schedule Part 6 (*Construction Matters*), sets out the tests that shall be carried out during the Final Commissioning Period to ensure the completed Facilities comply with the agreed Energy Performance, or if improved, the Energy Performance stated in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*).

#### 2. TESTING OF THE THERMAL AND ENERGY MODEL

Project Co shall provide an As Built Energy Model for the Facilities to ensure compliance with the agreed Energy Performance, or if improved, the Energy Performance stated in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*).

##### 2.1 As Built Energy Model

- 2.1.1 Prior to the Commissioning End Date, Project Co shall submit an As Built Energy Model for the Board's review.
- 2.1.2 The information provided with the As Built Energy Model shall be in line with Good Industry Practice, and consistent with the level of information submitted in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) and consistent with the Section 3 (*Board's Construction Requirements*) of Schedule Part 6 (*Construction Matters*).
- 2.1.3 The As Built Energy Model shall be developed from Financial Close Energy Model. When updating to the As Built Energy Model, Project Co shall not amend any parameters of the Financial Close Energy Model other than where agreed in writing with the Board or where those parameters are affected by the information and commissioning tests detailed below.
- 2.1.4 Project Co shall include the following updates in the As Built Energy Model:
  - (a) As built building envelope and construction materials performance;
  - (b) As installed manufacturers' plant and components information, including all associated operating parameters such as co-efficient of performance;
  - (c) Results of building wide commissioning of completed installations including, but not limited to, all Heating, Ventilation and Cooling (HVAC) systems and lighting systems; and
  - (d) Results of commissioning period tests as detailed in paragraph 3 of this Section 7 (*Thermal and Energy Efficiency Testing Procedure*) of Schedule Part 6 (*Construction Matters*).
- 2.1.5 Project Co shall ensure the completed Facilities meet the Energy Performance or if improved, the Energy Performance stated in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) following input of all the above information.

- 2.1.6 Project Co shall clearly report input information and results of the As Built Energy Model for the Board's review and approval. Reporting shall highlight where input parameters have been altered from the Financial Close Energy Model, and the reason for the change i.e. following commissioning period testing.

### **3. COMMISSIONING PERIOD TESTS**

#### **3.1 Introduction**

3.1.1 Notwithstanding Project Co's obligation to undertake all commissioning requirements of Schedule Part 10 (*Outline Commissioning Programme*) and Appendix B (*Completion Criteria*), Project Co shall undertake the following commissioning period tests in an agreed test zone (or with respect to the Air tightness test for all zones in the Facilities), to be agreed by the Board and Project Co, both parties acting reasonably, to demonstrate the actual Energy Performance of the Facilities:

- (a) Air tightness test;
- (b) Internal lighting installation test;
- (c) Building fabric performance test; and
- (d) Seasonal heating, cooling and ventilation installation testing.

3.1.2 Project Co shall incorporate the results of the commissioning period tests as detailed in this paragraph 3 of this Section 7 (*Thermal and Energy Efficiency Testing Procedure*) of Schedule Part 6 (*Construction Matters*), in the As Built Energy Model.

3.1.3 Project Co shall interpolate all results from the commissioning period tests such that the confirmed performance of the Facilities/installations following the commissioning period tests is applied across the complete Facilities in the As Built Energy Model.

3.1.4 Project Co shall submit all commissioning period test results and interpolative calculations to the Board as part of their As Built Energy Model submission for the Board's review.

3.1.5 An indication of the methodology of the commissioning period tests are outlined below, however the final extent and scope of the tests to be undertaken shall be developed and agreed by the Board and Project Co, both parties acting reasonably.

#### **3.2 Air Tightness Test**

3.2.1 Project Co shall carry out an air tightness test for the Facilities as outlined and in compliance with the Scottish Technical Standards and as detailed in CIBSE Technical Memorandum TM23-2000.

3.2.2 This air leakage rate should demonstrate the construction quality of the Facilities and allow a direct correlation to the assumed value used in the As Built Energy Model, detailed in  $m^3/m^2/h@50P$ .

#### **3.3 Internal Lighting Installation**

3.3.1 The lighting installation serving the agreed area/zone shall be completed, commissioned and operational and manually enabled for an agreed fixed period of time.

3.3.2 All lighting controls tested shall be as those installed in the Facilities and shall include all automatic presence and photocell sensors, time controls and manual switching/dimming controls.

3.3.3 The operating usage and hours for the lighting installation within the test zone and period shall be as the operating profiles in the Financial Close Energy Model.

- 3.3.4 The lighting distribution board feeding the agreed area/zone shall be separately metered to provide the actual energy consumption for that area which shall confirm, or otherwise inform, the lighting energy consumption in the As Built Energy Model.
- 3.3.5 Project Co shall undertake light meter tests in the agreed area/zone to confirm, or otherwise inform, the lighting levels within the respective areas in the As Built Energy Model.

### **3.4 Building Fabric Performance**

- 3.4.1 The thermal performance of the Facilities building fabric shall be assessed by Project Co within the agreed area/zone.
- 3.4.2 Project Co shall undertake the necessary tests to confirm the thermal performance of window, external door, ground floor, roof and external wall areas, as agreed between Project Co and the Board, both parties acting reasonably, within the agreed test zone.
- 3.4.3 Project Co shall further undertake thermographic surveys, to the relevant British Standards, of the agreed test areas to prove the quality of the thermal performance of the Facilities.
- 3.4.4 The thermal performance assessment in the agreed test zone shall confirm the thermal performance figures used for the building constructions, and all assumptions on thermal bridging, assumed within the As Built Energy Model.

### **3.5 Seasonal Heating, Cooling and Ventilation Installation Testing**

- 3.5.1 Energy testing of the heating, cooling and ventilation system shall require seasonal testing of the completed, commissioned and operational main heating plant and any cooling and ventilation plant serving the agreed area/zone.
- 3.5.2 Project Co shall incorporate in their commissioning programme the ability to monitor the heating, and any cooling and ventilation, installations during extremes of ambient conditions, for example testing heating systems within the winter months, and testing cooling systems in the summer months complete with fully simulated heat gains, as agreed with the Board in the Financial Close Energy Model, both parties acting reasonably.
- 3.5.3 The main heating/cooling distribution pipework feeding the agreed test area/zone shall be separately metered (for the test area/zone) and the BMS/controls installation shall require to be manually adjusted to simulate an agreed operating period.
- 3.5.4 Ventilation systems shall be assessed at maximum power on maximum pressure drop across the system.
- 3.5.5 The power feeds serving the agreed area/zone heating, cooling and ventilation systems shall be further separately metered to provide the actual energy consumption for those services within that area.
- 3.5.6 The actual power consumption of the installations during the testing period will confirm, or otherwise inform, Project Co's assumed co-efficients of performance, specific fan powers and energy efficiency ratings for the heating, ventilation and cooling systems in the As Built Energy Model; this being based on power inputs, heat/air flow rates/cooling outputs and associated ambient conditions during the testing procedures.

**SECTION 8**

**QUALITY PLANS (DESIGN AND CONSTRUCTION)**

The Quality Plans (*Design and Construction*) are the Quality Plans (*Design and Construction*) as set out in Section 4.20 (*Quality Plan*) of Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*).

**SECTION 9**

**AGREED FORM BOARD'S QUALIFICATIONS/COMMENTS IN RESPECT OF OPERATIONAL  
FUNCTIONALITY REQUIREMENTS**

**SCHEDULE PART 7**

**THE PROGRAMME**

The Programme is the Programme as set out on the disc in the Agreed Form identified and executed as the Schedule Part 7 (*The Programme*) of this Agreement, referred to in and forming part of this Agreement.

## SCHEDULE PART 8

### REVIEW PROCEDURE

#### 1. REVIEW

1.1 The provisions of this Schedule Part 8 (*Review Procedure*) shall apply whenever any item, document or course of action is required to be reviewed, approved or otherwise processed in accordance with Schedule Part 8 (*Review Procedure*).

1.2 Subject to any express provision of this Agreement, the manner, form and timing of any submission to be made by Project Co to the Board's Representative for review under this Schedule Part 8 (*Review Procedure*) shall be a matter for Project Co to determine. Each submission under this Schedule Part 8 (*Review Procedure*) shall be accompanied by a copy of the proposed document to be reviewed (including, where applicable, any Reviewable Design Data) or a statement of the proposed course of action (the entire contents of a submission being referred to in this Schedule Part 8 (*Review Procedure*) as a "**Submitted Item**"). In relation to each Submitted Item, the following procedure shall apply:

1.2.1 as soon as possible and, if the Submitted Item comprises:

- (a) an item of Reviewable Design Data;
- (b) a revised Programme submitted pursuant to Clause 14 (*Programme and Dates for Completion*); or
- (c) a document or proposed course of action submitted in the case of (an emergency),

within fifteen (15) Business Days of the date of receipt of a submission (or re-submission, as the case may be) of the Submitted Item to the Board's Representative (or such other period as the parties may agree), the Board's Representative shall return one copy of the relevant Submitted Item to Project Co endorsed "no comment" or (subject to and in accordance with paragraph 3 (*Grounds for Objection*)) "comments" as appropriate; and

1.2.2 subject to paragraph 1.4, if the Board's Representative fails to return a copy of any Submitted Item (including any re-submitted Submitted Item) duly endorsed in accordance with paragraph 1.2.1, within fifteen (15) Business Days (or within such other period as the parties may agree in writing) of the date of its submission to the Board's Representative, then the Board's Representative shall be deemed to have returned the Submitted Item to Project Co endorsed "no comment" (and, in the case of Reviewable Design Data, endorsed "Level A - no comment"); and

1.2.3 in relation to the aspects of each Finish identified in the table below:

- (a) Project Co shall submit to the Board a range or selection of finishes ("**Range of Finishes**") no later than the relevant Finishes Proposal Date;
- (b) the Board's Representative shall by the relevant Finishes Selection Date notify Project Co of its selection for the relevant Finish; and
- (c) if no selection of a Finish has been made by the Board's Representative and notified to Project Co in accordance with paragraph 1.2.3(b) by the relevant Finish Selection Date, Project Co shall be entitled to make a selection from the Range of Finishes submitted in accordance with paragraph 1.2.3(a). After the relevant Finish Selection Date, should the Board wish to vary any selection previously made by Project Co or by the Board, such variation shall be

effected as a Change in accordance with Schedule Part 16 (*Change Protocol*).

Table of Finishes

Finishes	Aspects	Finishes Proposal Date	Finishes Selection Date
External envelope and finishes including roof, windows, horizontal glazing or equivalent, cladding screens, ventilation outlets and grilles comprising the external elevations and roofing all incorporated in minimum of full size three mock-ups	colour and materials and detailing	13/4/15, (or such earlier date as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
internal wall finishes	colour and specification	9/10/15 (finishes) (or such earlier date) as may be proposed by Project Co)  21/12/15 (wall paint) (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
ceiling finishes	colour and specification	28/10/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
floor finishes	colour and specification	28/10/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
doors and screens	colour and specification	11/9/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
ironmongery (windows and doors)	style, colour and specification	13/4/15 (external) (or such earlier date) as may be proposed by Project Co)  11/9/15 (internal) (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
sanitary fittings	style and content	1/3/16 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
reception counters and desks	colour, content, style and material	26/10/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
nurses station	colour, content, style and material	26/10/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date

main public light fittings	specification and style	1/12/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
lifts – walls, ceilings and floors, external finishes and trims.	colour, content, style and material	1/6/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
external signage	size, style, colour and location	16/6/16 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
internal signage	size, style, colour and location	18/1/16 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
light switches and sockets	style and colour	1/12/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
light fittings	style and colour	1/12/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
hard landscaping	colour and material	9/2/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
soft landscaping	specification, material and colour	22/4/16 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
boundary fencing and enclosures	size, style, colour and location	9/12/15 (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date
stairs, treads, balustrades and handrails	style and colour	17/11/15 (Internal) (or such earlier date) as may be proposed by Project Co); 4/5/15 (external) (or such earlier date) as may be proposed by Project Co)	15 Business Days after the Finishes Proposal Date

1.3 If the Board's Representative raises comments on any Submitted Item in accordance with paragraph 3 (*Grounds for Objection*) he shall state the ground upon which such comments are based and the evidence or other information necessary to substantiate that ground. To the extent that the Board's Representative comments on a Submitted Item other than on the basis set out in this Schedule Part 8 (*Review Procedure*), or fails to comply with the provisions of this paragraph, Project Co may, in its discretion, either:

1.3.1 request written clarification of the basis for such comments and, if clarification is not received within ten (10) Business Days of such request by Project Co, refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*); or

- 1.3.2 in the case of a Submitted Item comprising Reviewable Design Data only, at its own risk, and without prejudice to Clause 12 (*The Design, Construction and Commissioning Process*), proceed with further design or construction disregarding such comments pending the outcome of any reference to the Dispute Resolution Procedure that may be made by either party.
- 1.4 In the case of any Submitted Item of the type referred to in paragraph 3.10, a failure by the Board's Representative to endorse and return such Submitted Item within the period specified in paragraph 1.2.2 shall be deemed to constitute an objection by the Board's Representative to such Submitted Item. If the parties fail to agree the form and content of such Submitted Item, within ten (10) Business Days following the expiry of the period specified in paragraph 1.2.2, the matter shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

## 2. FURTHER INFORMATION

Project Co shall submit any further or other information, data and documents that the Board's Representative reasonably requires in order to determine whether he has a basis for raising comments or making objections to any Submitted Item in accordance with this Schedule Part 8 (*Review Procedure*). If Project Co does not submit any such information, data and documents, the Board's Representative shall be entitled to:

- 2.1 comment on the Submitted Item on the basis of the information, data and documents which have been provided; or
- 2.2 object to the Submitted Item on the grounds that insufficient information, data and documents have been provided to enable the Board's Representative to determine whether he has a legitimate basis for commenting or objecting in accordance with this Schedule Part 8 (*Review Procedure*).

## 3. GROUNDS OF OBJECTION

The expression "raise comments" in this paragraph shall be construed to mean "raise comments or make objections" unless the contrary appears from the context. The Board's Representative may raise comments in relation to any Submitted Item on the grounds set out in paragraph 2 (*Further Information*) above or on the ground that the Submitted Item would (on the balance of probabilities) breach any Law but otherwise may raise comments in relation to a Submitted Item only as follows:

- 3.1 in relation to any Submitted Item if:
- 3.1.1 Project Co's ability to perform its obligations under this Agreement would (on the balance of probabilities) be adversely affected by the implementation of the Submitted Item; or
- 3.1.2 the implementation of the Submitted Item would (on the balance of probabilities) adversely affect any right of the Board under this Agreement or its ability to enforce any such right;
- 3.1.3 any aspect of a Submitted Item does not comply with or is not in accordance with or breaches Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the Interface Proposals;
- 3.2 in relation to any Submitted Item submitted pursuant to Clause 4.1 (*Ancillary Documents*) if:
- 3.2.1 the Board's ability to perform its obligations under this Agreement would be adversely affected by the proposed course of action;
- 3.2.2 the Board's ability to provide the relevant Board Services or to carry out any

- of its statutory functions would (on the balance of probabilities) be adversely affected by the proposed course of action;
- 3.2.3 the proposed course of action would be likely to result in an increase to the Board's liabilities or potential or contingent liabilities under this Agreement;
- 3.2.4 the proposed course of action would adversely affect any right of the Board under this Agreement or its ability to enforce any such right; or
- 3.2.5 Project Co's ability to perform its obligations under this Agreement would be materially adversely affected by the proposed course of action;
- 3.3 in relation to Reviewable Design Data submitted pursuant to Clause 12.6:
- 3.3.1 which does not comprise 1:50 scale Room Layout Drawings the Board's Representative may raise comments, subject to and in accordance with paragraph 4 (*Effect of Review*) on the ground that the Submitted Item is not in accordance with:
- (a) the Board's Construction Requirements; and/or
- (b) Project Co's Proposals;
- 3.3.2 which comprises a 1:50 scale Room Layout Drawing in respect of which there is a corresponding generic 1:50 scale Room Layout Drawing for the relevant room type (which has previously been reviewed and commented upon by the Board's Representative in accordance with this Schedule Part 8 (*Review Procedure*)), the Board's Representative may raise comments, subject to and in accordance with paragraph 4 (*Effect of Review*), on the ground that the Submitted Item does not conform to the generic 1:50 scale Room Layout Drawing; and
- 3.3.3 which comprises a 1:50 scale Room Layout Drawing in respect of which there is no corresponding generic 1:50 scale Room Layout Drawing for the relevant room type (which has previously been reviewed and commented upon by the Board's Representative in accordance with this Schedule Part 8 (*Review Procedure*)), the Board's Representative may raise comments, subject to and in accordance with paragraph 4 (*Effect of Review*), on the grounds that the Submitted Item:
- (a) is not in accordance with the Board's Construction Requirements and/or Project Co's Proposals; or
- (b) is inconsistent with the guidance contained in any current NHS Requirement which is applicable to a room of that function provided that such guidance has not been superseded by and is not inconsistent with any other provisions of the Board's Construction Requirements (including any existing Approved RDD Item);
- 3.3.4 on the grounds that the Interface Proposals (other than those set out in Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort interfere with Campus Site and/or Campus Facilities*), and/or Reviewable Design Data as set out in Part 5 of Section 5 (*Reviewable Design Data*) is not in accordance with or breaches Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the relevant Interface Proposals;
- 3.4 in relation to a proposal to amend Project Co's Proposals and rectify (part of) the Works submitted pursuant to Clause 12.8 (*Rectification of Project Co's Proposals*), on the grounds that, following the amendment and rectification proposed:
- 3.4.1 Project Co's Proposals would not satisfy the Board's Construction Requirements; and/or

- 3.4.2 the structural, mechanical and/or electrical performance of the Facilities and/or the Retained Estate Handback Infrastructure would not be of an equivalent standard of performance to that set out in Project Co's Proposals prior to their amendment or rectification (for the purpose of this comparison disregarding the fault which required the amendment or rectification to be made);
- 3.5 in relation to Finishes:
- 3.5.1 which have the effect of making a selection from the Range of Finishes (or any alternative range or selection of Finishes submitted by Project Co to the Board's Representative) pursuant to Clause 12.6.1 (*Board Design Approval*); or
- 3.5.2 where the Submitted Item does not comply with the relevant provisions of the Board's Construction Requirements and/or Project Co's Proposals;
- 3.6 in relation to the submission of any revised Programme pursuant to Clause 14 (*Programme and Dates for Completion*) on the ground that the revised Programme would not (on the balance of probabilities) enable the Works to be completed by the Completion Date and/or reflect any timescales set out in the Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the Interface Proposals;
- 3.7 in relation to the submission of any Quality Plan or part of a Quality Plan or any changes to any Quality Plan pursuant to Clause 20.4 (*Quality Plans and Systems*) or Clause 20.7 (*Quality Plans and Systems*) or any quality manual or procedure in accordance with Clause 20.9 (*Quality Manuals and Procedures*), on the grounds that such Quality Plans, or parts of or changes to such Quality Plans, quality manuals or procedures, or the quality management systems which they reflect, would not comply with:
- 3.7.1 in the case of the Design Quality Plan and the Construction Quality Plan referred to in Clause 20.8 (*Quality Plans and Systems*), the requirements referred to in Section 8 (*Quality Plans (Design and Construction)*) of Schedule Part 6 (*Construction Matters*); and
- 3.7.2 in the case of the Services Quality Plan referred to in Clause 20 (*Quality Assurance*), the requirements referred to in Section 3 (*Services Quality Plan*) of Schedule Part 12 (*Service Requirements*);
- 3.8 in relation to the submission of any proposed revision or substitution for the Method Statements and/or Interface Proposals (other than those set out in Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort interfere with Campus Site and/or Campus Facilities*) or any part of any Method Statement (as the case may be) pursuant to Clause 22.4 (*Project Co Service Changes*), on the grounds that:
- 3.8.1 the proposed revision or substitution is not in accordance with Good Industry Practice;
- 3.8.2 the performance of the Services in accordance with the proposed revision or substitution would (on the balance of probabilities):
- (a) be materially different from the performance of the Services in accordance with the Method Statement prior to such proposed revision or substitution; or
  - (b) be less likely to achieve compliance with the Service Level Specification and/or the relevant Interface Proposals; or
  - (c) have an adverse effect on the provision by the Board of the relevant Board Services at, or on the safety of any users of, the Facilities; or

- 3.8.3 the proposed revision or substitution would (on the balance of probabilities) result in an inferior standard of performance of the Services to the standard of performance in accordance with the Method Statement prior to such proposed revision or substitution; and
- 3.8.4 the Method Statement and/or Interface Proposals (other than those set out in Part 2 (*Interface Proposals Procedure*) of Schedule Part 31 (*Consort interfere with Campus Site and/or Campus Facilities*) are not in accordance with or breach Schedules Part 31 (*Consort interfere with Campus Site and/or Campus Facilities*)
- 3.9 in relation to the submission of any Schedule of Programmed Maintenance pursuant to Clause 23.1 (*Programmed Maintenance Works*), the submission of any Schedule of Lifecycle Replacement pursuant to Clause 23A (*Lifecycle Replacement*), any revision to any Schedule of Programmed Maintenance pursuant to Clause 23.4 (*Programmed Maintenance Works*) or any submission of Unprogrammed Maintenance Works pursuant to Clause 23.8 (*Programmed and Unprogrammed Maintenance*), on the grounds that:
- 3.9.1 carrying out the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works in the period or at the times suggested would (on the balance of probabilities) interfere with the operations of the Board and/or any Board Party and such interference could be avoided or mitigated by Project Co rescheduling the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works; or
- 3.9.2 in relation to the Schedule of Programmed Maintenance or Schedule of Lifecycle Replacement, the proposed hours for carrying out the Programmed Maintenance or Schedule of Lifecycle Replacement are not consistent with the principles set out in Appendix 2, Table B to this Schedule Part 8 (*Review Procedure*); or
- 3.9.3 the proposed method of performance of the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works would not be in accordance with the Service Level Specification and/or the relevant Interface Proposals and/or Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the restrictions and/or requirements of Clause 9 (*Nature of Land Interests*) including without limitation Schedule Part 5 (*Land Matters*); or
- 3.9.4 the safety of users of the Facilities and/or RIE Facilities would (on the balance of probabilities) be adversely affected; or
- 3.9.5 the period for carrying out the Programmed Maintenance, Lifecycle Replacement or the Unprogrammed Maintenance Works would (on the balance of probabilities) exceed the period reasonably required for the relevant works.
- 3.10 in relation to the submission of Project Co's proposals for the Handback Works, the Handback Programme and the Handback Amount pursuant to Schedule Part 18 (*Handback Procedure*), on the grounds that:
- 3.10.1 in the case of the Handback Works, Project Co's proposals will not (on the balance of probabilities) ensure that the Handback Requirements are achieved by the Expiry Date;
- 3.10.2 in the case of the Handback Programme, performance of the Handback Works in accordance with the programme is not (on the balance of probabilities) capable of achieving satisfaction of the Handback Requirements by the Expiry Date; and
- 3.10.3 in the case of the Handback Amount, it does not represent the cost of

carrying out the Handback Works according to the Handback Programme and the provisions of Schedule Part 18 (*Handback Procedure*);

- 3.11 in relation to the submission of any Schedule of Lifecycle Replacement on the grounds that, Project Co's Proposals do not address the issues set out in Clause 23A.3 and/or Clause 23A.4 (*Lifecycle Replacement*) or the Board's Representative wishes to make additional comments on the issues set out in Clauses 23A.3, 23A.4 and/or 23A.5 (*Lifecycle Replacement*).

#### 4. EFFECT OF REVIEW

- 4.1 Any Submitted Item which is returned or deemed to have been returned by the Board's Representative endorsed "no comment" (and in the case of Reviewable Design Data, endorsed "Level A - no comment") shall be complied with or implemented (as the case may be) by Project Co.
- 4.2 In the case of any Submitted Item other than Reviewable Design Data, if the Board's Representative returns the Submitted Item to Project Co endorsed "comments", Project Co shall comply with such Submitted Item after amendment in accordance with the comments unless Project Co disputes that any such comment is on grounds permitted by this Agreement, in which case Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) and Project Co shall not act on the Submitted Item until such matter is so determined or otherwise agreed.
- 4.3 In the case of a Submitted Item comprising Reviewable Design Data, if the Board's Representative returns the Submitted Item endorsed other than "Level A - no comment", Project Co shall:
- 4.3.1 where the Board's Representative has endorsed the Submitted Item "Level B - proceed subject to amendment as noted", either proceed to construct or proceed to the next level of design of the part of the Works to which the Submitted Item relates but take into account any amendments required by the Board's Representative in his comments;
- 4.3.2 where the Board's Representative has endorsed the Submitted Item "Level C - subject to amendment as noted" not act upon the Submitted Item, amend the Submitted Item in accordance with the Board's Representative's comments and re-submit the same to the Board's Representative in accordance with paragraph 4.4; and
- 4.3.3 where the Board's Representative has endorsed the Submitted Item "Level D - rejected" not act upon the Submitted Item, amend the Submitted Item and re-submit the Submitted Item to the Board's Representative in accordance with paragraph 4.4,

unless Project Co disputes that any such comment or proposed amendment is on grounds permitted by this Agreement, in which case Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) and Project Co shall not act on the Submitted Item until such matter is so determined or otherwise agreed except at its own risk in accordance with paragraph 1.3.2.

- 4.4 Within ten (10) Business Days of receiving the comments of the Board's Representative on any Submitted Item comprising Reviewable Design Data, Project Co shall (except in the case contemplated in paragraph 4.3.1) send a copy of the Submitted Item as amended to the Board's Representative pursuant to paragraph 4.3 and the provisions of paragraphs 1.2.1, 4.1 and 4.3 shall apply (changed according to context) to such re-submission.
- 4.5 The return or deemed return of any Submitted Item endorsed "no comment" (or in the case of Reviewable Design Data endorsed "Level A - no comment" or otherwise endorsed in accordance with paragraphs 4.3.1 or 4.3.2) shall mean that the relevant

Submitted Item may be used or implemented for the purposes for which it is intended but, save to the extent expressly stated in this Agreement including, without limitation, as specified in Appendix 1 Table A to this Schedule Part 8 (*Review Procedure*), such return or deemed return of any Submitted Item shall not otherwise relieve Project Co of its obligations under this Agreement nor is it an acknowledgement by the Board that Project Co has complied with such obligations.

- 4.6 Clause 23A.6 (*Lifecycle Replacement*) shall apply in respect of any comments made by the Board's Representative on the grounds set out in paragraphs 3.9 to 3.11 which Project Co shall not be bound to implement, notwithstanding any other provision in this Schedule Part 8 (*Review Procedure*).

## 5. DOCUMENTATION MANAGEMENT

- 5.1 Project Co shall issue two (2) copies of all Submitted Items to the Board and compile and maintain a register of the date and contents of the submission of all Submitted Items.
- 5.2 Project Co shall compile and maintain a register of the date of receipt and content of all Submitted Items that are returned or deemed to be returned by the Board's Representative.
- 5.3 Save to the extent set out in Appendix 1, Table A to this Schedule Part 8 (*Review Procedure*) or elsewhere in this Schedule Part 8 (*Review Procedure*), no review, comment or approval by the Board shall operate to exclude or limit Project Co's obligations or liabilities under this Agreement (or the Board's rights under this Agreement).

## 6. CHANGES

- 6.1 No approval or comment or any failure to give or make an approval or comment under this Schedule Part 8 shall constitute a Change save to the extent provided in this Schedule Part 8 (*Review Procedure*).
- 6.2 If, having received comments from the Board's Representative, Project Co considers that compliance with those comments would amount to a Change, Project Co shall, before complying with the comments, notify the Board of the same and, if it is agreed by the parties or determined pursuant to Schedule Part 20 (*Dispute Resolution Procedure*) that a Change would arise if the comments were complied with, the Board may, if it wishes, implement the Change and it shall be dealt with in accordance with Schedule Part 16 (*Change Protocol*). Any failure by Project Co to notify the Board that it considers compliance with any comments of the Board's Representative would amount to a Change shall constitute an irrevocable acceptance by Project Co that any compliance with the Board's comments shall be without cost to the Board and without any extension of time.
- 6.3 No alteration or modification to the design, quality and quantity of the Works arising from the development of detailed design or from the co-ordination of the design shall be construed or regarded as a Change.

## APPENDIX 1

TABLE A

Approved (by category)	RDD	Item	Scale	Meaning of "Level A - no comment" and "Level B - proceed subject to amendment as noted" endorsement of Reviewable Design Data under Schedule Part 8 ( <i>Review Procedure</i> ) (including both the actual and deemed endorsement).
Room Data Sheets			n/a	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any room data sheet means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information in the relevant room data sheet satisfies Operational Functionality.
Drawings –  Development Control  Plan			1:1250	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:1250 scale development control plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies Operational Functionality.
Drawings –  Site Plan			1:500	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:500 scale site plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies Operational Functionality.
Drawings –  Floor Plans			1:200	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:200 scale floor plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied that the design and other information contained in the relevant drawing satisfies the Operational Functionality.
Drawings –  Room Layouts (including room elevations) &  Reflected ceiling plans			1:50	A "Level A - no comment" endorsement or a "Level B - proceed subject to amendment as noted" endorsement of any 1:50 scale room layout and/or reflected ceiling drawing means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied (to the extent of the design and other information contained in the relevant drawing) that the design and other information in the relevant drawing satisfies Operational Functionality.

Drawings –  Departmental plans	1:50	A "Level A - no comment" endorsement or a "Level B – proceed subject to amendment as noted" endorsement of any 1:50 scale departmental plan means that Project Co may proceed to construct in accordance with the Submitted Item and that the Board is satisfied (to the extent of the design and other information contained in the relevant drawing) that the design and other information in the relevant drawing satisfies Operational Functionality.

## APPENDIX 2

## HOURS FOR PROGRAMMED MAINTENANCE

- 1 Subject to paragraphs 3 to 5 below, Project Co shall carry out Programmed Maintenance and Lifecycle Replacement at the Facilities during the hours of 0800 to 1700 from Monday to Friday ("**Hours for Programmed Maintenance**").
- 2 Project Co may, with the consent of the Board (which consent shall not be unreasonably withheld) carry out Maintenance Works outside the Hours for Programmed Maintenance and Lifecycle Replacement provided always that it shall take into account:
  - 2.1 the likely disturbance to the Board, Board Party and/or any Campus Party and users within the immediate area where the Maintenance Works and Lifecycle Replacement are to be undertaken;
  - 2.2 the likely disturbance to adjacent areas, the Board, Board Party and/or any Campus Party and users in those adjacent areas that may be affected by the Maintenance Works to be undertaken in the area(s) identified in (i) above; and
  - 2.3 compliance with the Law.
- 3 Subject to paragraph 4 and/or Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) and/or the Interface Proposals, Project Co shall have access to the Facilities during the hours of operation to the areas set out in and in accordance with Table B below ("**Hours of Operation**") to carry out Programmed Maintenance and Lifecycle Replacement.

TABLE B

Wards	0800 - 1800
Day Case Areas	1000 – 2000
Emergency Department	0800 - 1600
Theatres	1800 - 0700
Laboratories	0800 - 1600
ITU/High Dependency	0800 - 1800
Toilets	0000 - 0000
Corridors	0000 - 0000
VIP Rooms and Meeting Rooms	0000 - 0000
Family Hotel	0900 - 1700
Outpatient Departments	0000 - 0000
Office Accommodation	0000 - 0000
Reception/Entrances	0000 - 0000
Storage Areas	0000 – 0000

Classrooms	Outwith term time
------------	-------------------

- 4 Where Project Co requires access to an area of the Facilities during the Hours of Operation, Project Co will consult with and obtain the consent of the Contract Manager concerning dates, times and periods during which Programmed Maintenance or Lifecycle Replacement is to be undertaken in those departments so as to minimise disruption to those departments.
- 5 The Board may request Project Co to carry out Programmed Maintenance or Lifecycle Replacement outside the Hours for Programmed Maintenance in the event that the carrying out of such Programmed Maintenance or Lifecycle Replacement during the Hours for Programmed Maintenance would adversely affect the use of the department or area.

**SCHEDULE PART 9**  
**COLLATERAL AGREEMENTS**

## SECTION 1

## CONTRACTOR'S COLLATERAL AGREEMENT

## COLLATERAL WARRANTY

## AMONG:

- (1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Board**");
- (2) **BROOKFIELD MULTIPLEX CONSTRUCTION EUROPE LIMITED** (registered under number 03808946) whose registered office is at 99 Bishopsgate, Second Floor, London, EC2M 3XD, (the "**Contractor**");
- (3) **IHS LOTHIAN LIMITED** (registered number SC493676 whose registered office is at Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ) ("**Project Co**");
- (4) **PRUDENTIAL TRUSTEE COMPANY LIMITED** as agent and trustee for and on behalf of the Secured Creditors (the "**Security Trustee**"); and
- (5) **M&G INVESTMENT MANAGEMENT LIMITED** as agent for and on behalf of the European Investment Bank, The Prudential Assurance Company Limited, Prudential Retirement Income Limited, Hold Co and Top Co (the "**Intercreditor Agent**").

## WHEREAS:

- (A) The Board and Project Co have agreed the terms on which Project Co will design, develop and construct and provide certain services in connection with the reprovision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Development**") at the Site and Off-Site (as such expressions are defined in the Project Agreement) and, accordingly, have entered into the Project Agreement an agreement ("**Project Agreement**") and the Project Documents (as defined in the **Project Agreement**).
- (B) Project Co has entered into the Senior Funding Agreements, (as defined in the Project Agreement) with the Funders.
- (C) The Contractor and Project Co have entered into an agreement (the "**Construction Contract**") of even date herewith relating to the provision of the Works (as defined in the Project Agreement) by the Contractor to enable Project Co to discharge its obligations to the Board regarding such Works under the Project Agreement and the Project Documents.
- (D) This Contractor's Collateral Agreement (the "**Agreement**") is the Contractor's Collateral Agreement contemplated by the Project Agreement.

**NOW IT IS HEREBY AGREED** as follows:

## 1 DEFINITIONS AND INTERPRETATION

### 1.1 Definitions

In this Agreement, the following terms shall, unless the context otherwise requires, have the following meanings:

"**Ancillary Documents**" has the meaning given in the Project

	Agreement;
<b>“Business Day”</b>	means a day other than a Saturday, Sunday or a bank holiday in Scotland;
<b>“Construction Contract”</b>	has the meaning given in the Project Agreement;
<b>“Event of Project Co Default”</b>	has the meaning given in the Construction Contract;
<b>“Funders”</b>	means the Senior Lenders and the Senior Subordinated Lenders, as such terms are defined respectively in the Common Terms Agreement;
<b>“Funders’ Contractor Direct Agreement”</b>	means the agreement of even date herewith between, amongst others, Project Co, the Contractor, the Security Trustee and the Intercreditor Agent;
<b>“Funders’ Direct Agreement”</b>	is the agreement of even date herewith between, amongst others, the Board, Project Co, the Security Trustee and the Intercreditor Agent;
<b>“Senior Funding Agreements”</b>	has the meaning given in the Project Agreement;
<b>“Novation Agreement”</b>	has the meaning given in Clause 4.5.3(b);
<b>“Novation Effective Date”</b>	means the date of performance of the obligations set out in Clause 4 ( <i>Novation</i> );
<b>“Parent Company Guarantee”</b>	has the meaning given in the Construction Contract;
<b>“Project Agreement”</b>	means the project agreement of even date herewith between (1) the Board and (2) Project Co;
<b>“Proposed Novation Date”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Proposed Novation Notice”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Proposed Step-in Date”</b>	has the meaning given in Clause 3.1 ( <i>Step-in Notice</i> );
<b>“Proposed Substitute”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Secured Creditors”</b>	means has the meaning given to it in the Intercreditor Agreement;
<b>“Security Documents”</b>	has the meaning given in the Funders’ Direct Agreement;

<b>“Step-in Date”</b>	means the date of issue of the Step-in Undertaking;
<b>“Step-in Notice”</b>	has the meaning given in Clause 3.1 ( <i>Step-in Notice</i> );
<b>“Step-in Period”</b>	means the period commencing on the Step-in Date and ending on the earliest of: <ul style="list-style-type: none"> <li>(a) the date of the first anniversary of the Step-in Date (but subject always to Clause 4.7 (<i>Extension of Step-in Period</i>));</li> <li>(b) the Step-out Date;</li> <li>(c) the Novation Effective Date; and(d) termination of the Construction Contract under Clause 3.3 (<i>Restriction of Right of Termination</i>);</li> </ul>
<b>“Step-in Undertaking”</b>	has the meaning given in Clause 3.2.4 ( <i>Notice of Obligation and Step-In Undertaking</i> );
<b>“Step-out Date”</b>	has the meaning given in Clause 3.4.1 ( <i>Proposed Substitute</i> );
<b>“Termination Notice”</b>	has the meaning given in Clause 2.3 ( <i>Termination Notice</i> ).

## 1.2 Interpretation

Save to the extent that the context or the express provisions of this Agreement otherwise require:

- 1.2.1 headings and sub-headings are for ease of reference only and shall not be taken into consideration in the interpretation or construction of this Agreement;
- 1.2.2 all references to Clauses are references to Clauses of this Agreement;
- 1.2.3 all references to agreements, documents or other instruments include (subject to all relevant approvals) a reference to that agreement, document or instrument as amended, supplemented, substituted, novated or assigned from time to time;
- 1.2.4 all references to any statute or statutory provision shall include references to any statute or statutory provision which amends, extends, consolidates or replaces the same or which has been amended, extended, consolidated or replaced by the same and shall include any orders, regulations, codes of practice, instruments or other subordinate legislation made under the relevant statute or statutory provision;
- 1.2.5 any reference to time of day shall be a reference to Edinburgh time;

- 1.2.6 the words "herein", "hereto" and "hereunder" refer to this Agreement as a whole and not to the particular Clause in which such word may be used;
- 1.2.7 words importing the singular include the plural and vice versa;
- 1.2.8 words importing a particular gender include all genders;
- 1.2.9 "person" includes any individual, partnership, firm, trust, body corporate, government, governmental body, authority, agency, unincorporated body of persons or association;
- 1.2.10 any reference to a public organisation shall be deemed to include a reference to any successor to such public organisation or any organisation or entity which has taken over the functions or responsibilities of such public organisation;
- 1.2.11 references to "Party" means a party to this Agreement and references to "Parties" shall be construed accordingly;
- 1.2.12 all monetary amounts are expressed in pounds sterling;
- 1.2.13 references to the word "includes" or "including" are to be construed without limitation;
- 1.1.14 the obligations of any Party under this Agreement are to be performed at that Party's own cost and expense;
- 1.1.15 terms used in this Agreement that are defined in the Project Agreement or the Ancillary Documents shall have the meanings given to them in the Project Agreement or the Ancillary Documents, as appropriate.

## **2 TERMINATION NOTICE AND BOARD TERMINATION**

### **2.1 Contractor's Warranties and Undertakings**

The Contractor warrants and undertakes to the Board that it has complied with and fulfilled and shall continue to comply with and fulfil its duties and obligations arising under or by virtue of the Construction Contract, provided that the Board shall only be entitled to make a claim against the Contractor under this Clause 2.1 (Contractor's Warranties and Undertakings) if the Project Agreement has terminated and shall not be entitled to do so during the Step-in Period or after the Construction Contract has been novated under Clause 4 (Novation).

### **2.2 Liability of Contractor**

Any liability arising from any claim for breach of the warranty under or pursuant to Clause 2.1 (*Contractor's Warranties and Undertakings*) shall be in addition to and without prejudice to any other present or future liability of the Contractor to the Board (including, without prejudice to the generality of the foregoing, any liability in negligence) and shall not be released, diminished or in any other way be affected by any independent enquiry into any relevant matter which may be made or carried out by or on behalf of the Board by any person nor by any action or omission of any

person whether or not such action or omission might give rise to an independent liability of such person to the Board provided always that the Contractor shall owe no greater duties or obligations to the Board under this Agreement than it owes or would have owed to Project Co under the Construction Contract. Without prejudice to Clause 12 (*Aggregate Liability*), the Contractor shall be entitled in any action or proceedings brought by the Board under this Agreement to rely on any limitation or exclusion of liability in the Construction Contract and to raise equivalent rights in defence of liability (but excluding retention, set-offs and counterclaims) as it would have against Project Co under the Construction Contract.

## 2.3 Termination Notice

2.3.1 The Contractor undertakes not to terminate the Construction Contract on account of an Event of Project Co Default without first giving the Board not less than twenty (20) Business Days' prior written notice specifying the grounds for that termination. Subject to Clause 2.3.2 below any such notice shall be a "**Termination Notice**".

2.3.2 Where the Contractor's right to terminate is subject to the terms of the Funders' Contractor Direct Agreement then the Contractor shall notify the Board of the same as soon as reasonably practicable upon becoming aware of the provisions of the Funders' Contractor Direct Agreement applying. Thereafter as soon as the Contractor becomes entitled to terminate the Construction Contract free from the constraints contained in the Funders' Contractor Direct Agreement, whether upon the expiry of the Step-in Period (as such term is defined in the Funders' Direct Agreement) or otherwise, then the Contractor undertakes to the Board not to terminate the Construction Contract on account of an Event of Project Co Default (whether occurring before or after the Contractor's right to terminate the Construction Contract was free from the constraints of the Funders' Contractor Direct Agreement) without first giving the Board not less than twenty (20) Business Days' prior notice specifying the grounds for that termination and noting that the Contractor's right of termination is not subject to the Funders' Contractor Direct Agreement. Any such notice, other than one given in circumstances where there is no default under the Construction Contract by Project Co or the Contractor, shall for the purposes of this Agreement also be a Termination Notice and the provisions of this Agreement shall apply accordingly.

2.3.3 Notwithstanding any provision of the Construction Contract to the contrary, and subject to the exercise by the Board of its rights under paragraph 3 (*Step-in and Step-out*) of this Agreement, the parties agree that following termination of the Project Agreement, the Construction Contract shall come to an end.

2.3.4 The Board acknowledges that it shall not be entitled to exercise its rights under Clauses 3 (*Step-in and Step-out*) and 4 (*Novation*):

- (a) where the event giving rise to termination of the Project Agreement is a Contractor Event of Default (as that term is defined in the Construction Contract) whether or not at the relevant time there has been notice to terminate the Construction Contract for such Contractor Event of Default.

## 3. STEP-IN AND STEP-OUT

### 3.1 Step-in Notice

- 3.1.1 If the Board has terminated the Project Agreement in accordance with the terms of the Project Agreement or if the Board has received a Termination Notice, then subject to the provisions of this Agreement, the Board may give written notice to the Contractor (copied to the Security Trustee and Intercreditor Agent) (a "**Step-in Notice**") of the intention of the Board to issue a Step-in Undertaking on a specified date (the "**Proposed Step-in Date**") provided that such Proposed Step-in Date shall be:
- (a) no later than five (5) Business Days after termination of the Project Agreement where this has been terminated by the Board; and
  - (b) no earlier than the date falling five (5) Business Days prior to the date of expiry of the Termination Notice and no later than the date of expiry of the Termination Notice where a Termination Notice has been given by the Contractor.
- 3.1.2 Unless the Contractor otherwise consents, only one Step-in Notice may be given during the period of this Agreement. Subject to Clause 5.1 (*Rights of Termination*) below, the Contractor shall not be entitled to terminate the Construction Contract until after the Proposed Step-in Date.

### 3.2 **Notice of Obligations and Step-in Undertaking**

- 3.2.1 Within three (3) Business Days of receipt of any Step-in Notice, the Contractor shall give written notice to the Board of any sums of which the Contractor has actual knowledge which are due and payable but unpaid by Project Co and of any other material obligations or liabilities, of which the Contractor has actual knowledge, which should have been performed or discharged by Project Co under the Construction Contract, in each case, as at the date of the Step-in Notice.
- 3.2.2 The Contractor shall inform the Board in writing as soon as reasonably practicable of:
- (a) any change in such sums, obligations or liabilities referred to in Clause 3.2.1; and
  - (b) any further sums, obligations or liabilities thereafter falling due and payable but unpaid or falling due for performance or discharge and unperformed or undischarged (as the case may be);
- in each case of which the Contractor has actual knowledge, before the Step-in Date.
- 3.2.3 The Contractor shall give the Board the information referred to in Clauses 3.2.1 and 3.2.2 in good faith and may not give any further notifications pursuant to Clause 3.2.2 less than two (2) Business Days prior to the Proposed Step-in Date. The Board shall not be required to assume any liability under a Step-in Undertaking for any outstanding obligations or liabilities of Project Co to the Contractor which are not notified to the Board pursuant to Clauses 3.2.1 or 3.2.2.

- 3.2.4 Not later than the Proposed Step-in Date the Board shall decide if it is prepared to issue a Step-in Undertaking. If it does so decide, the Board shall promptly give the Contractor written notification of such decision and, at the same time, provide a copy of such notification to the Security Trustee and Intercreditor Agent. The Board shall deliver to the Contractor on the Proposed Step-in Date, a written undertaking in form and substance agreed with the Contractor (both the Board and the Contractor acting reasonably) (the "**Step in Undertaking**"), incorporating a clause in terms similar to Clause 11 (but only to the extent that there will not be double counting of default interest accruing under the Construction Contract and this Agreement), and undertaking to the Contractor:
- (a) to pay or procure the payment to the Contractor, within twenty (20) Business Days of demand by the Contractor, of any sum due and payable but unpaid by Project Co to the Contractor under the Construction Contract before the Step-in Date and which has been notified by the Contractor to the Board in accordance with Clause 3.2.1 or 3.2.2;
  - (b) to perform or discharge or procure the performance or discharge of any unperformed or undischarged obligations of Project Co under the Construction Contract which shall have fallen due for performance or discharge before the Step-in Date and which have been notified by the Contractor to the Board in accordance with Clause 3.2.1 or 3.2.2 within such period as the Contractor may reasonably require;
  - (c) to pay or procure the payment of any sum due and payable by Project Co under the Construction Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 and 4.5.3(b)) but not, to avoid doubt, any sum due in respect of any Works carried out before the Step-in Date; and
  - (d) to perform or discharge or procure the performance or discharge of any obligations of Project Co under the Construction Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 (*Step-Out*) and 4.5.3(b)) but not, to avoid doubt, to perform or discharge or to procure the performance or discharge of any obligations in respect of any Works carried before the Step-in Date.
- 3.2.5 Following notification of the Board's decision pursuant to Clause 3.2.4, the Security Trustee and Intercreditor Agent shall, on or before the Proposed Step-in Date, take any action which is necessary unconditionally and irrevocably to release the Construction Contract and the Parent Company Guarantee from the security constituted by the Security Documents.
- 3.2.6 Upon release by the Security Trustee and Intercreditor Agent of its security over the Parent Company Guarantee in accordance with Clause 3.2.5, Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause 17 of the same.
- 3.2.7 If the Board shall not have issued the Step-in Undertaking on or before the

Proposed Step-in Date the Step-in Notice shall be deemed to have been withdrawn and the rights and obligations of the Parties shall be construed as if the Step-in Notice had not been given.

### 3.3 Restriction of Right of Termination

During or in respect of the Step-in Period, the Contractor confirms to the Board that it shall continue to observe and perform its duties and obligations under the Construction Contract and shall, without prejudice to Clause 5.1 (*Rights of Termination*), only be entitled to exercise its rights of termination under the Construction Contract:

- 3.3.1 by reference to an Event of Project Co Default arising during the Step-in Period provided that no event of default by Project Co under the Project Agreement (whether resulting in termination of the Project Agreement or otherwise, and notwithstanding that it has occurred during the Step-in Period) shall entitle the Contractor to exercise such rights of termination during the Step-in Period; or
- 3.3.2 if the Board, in breach of the terms of the Construction Contract, fails to pay when due any amount owed to the Contractor or fails to perform or discharge when falling due for performance or discharge any obligation under the Step-in Undertaking or fails to procure such payment or performance or discharge; or
- 3.3.3 if such rights of termination arise in circumstances where there is no default under the Construction Contract by the Board or the Contractor.

### 3.4 Step-Out

- 3.4.1 the Board may, at any time, give the Contractor at least twenty (20) days' prior written notice to terminate the Step-in Period on a date specified in the notice (the "**Step-out Date**");
- 3.4.2 the Board shall give the Contractor at least twenty (20) days' prior written notice that (subject to Clause 4.4.2) the Step-in Period will end due to the occurrence (subject to Clause 4.7 (*Extension of Step-in Period*)) of the first anniversary of the Step-in Date;

provided that:

- (a) the Board has performed and discharged in full or procured the performance and discharge in full of any obligations of Project Co under the Construction Contract in relation to the maintenance of records and the provision of reports during the Step-in Period so as to permit the Contractor to monitor the performance of Project Co's other obligations under the Construction Contract; and
- (b) all liability under the Step-in Undertaking pursuant to any claims made up to the date specified in either Clause 3.4.1 or Clause 3.4.2 (as the case may be) shall have been fully and unconditionally discharged,

the Board shall be released from the Step-in Undertaking on the expiry of the Step-in Period in accordance with Clauses 3.4.1 and 3.4.2. Such release shall not affect the continuation of Project Co's obligations towards the Contractor under the Construction Contract.

## 4 NOVATION

### 4.1 Proposed Substitute

At any time that the Board is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*) or at any time during the Step-in Period the Board may give notice (copied to the Security Trustee and Intercreditor Agent) (a "**Proposed Novation Notice**") to the Contractor that it wishes itself or another person (a "**Proposed Substitute**") to assume, by way of sale, transfer or other disposal, the rights and obligations of Project Co under the Construction Contract and specifying a date (the "**Proposed Novation Date**"):

- 4.1.1 falling not later than fifteen (15) Business Days after termination of the Project Agreement where this has been terminated by the Board;
- 4.1.2 falling not later than the expiry of the Termination Notice where a Proposed Novation Notice is given by the Board at a time when it is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*); and
- 4.1.3 falling not later than twenty-eight (28) Business Days after the date of the Proposed Novation Notice, where a Proposed Novation Notice is given during a Step-in Period.

Save as provided in Clause 4.4 (*Consent Withheld*), only one Proposed Novation Notice may be given during the period of this Agreement. Without prejudice to Clauses 3.3 (*Restriction of Right of Termination*) and 5.1 (*Rights of Termination*), the Contractor shall not be entitled to terminate the Construction Contract during the notice period specified in a Proposed Novation Notice.

### 4.2 Information for Consent to Novation

If the Proposed Novation Notice specifies the Board as the Proposed Substitute, the Contractor's consent to the novation shall be deemed to have been given automatically. Where the Proposed Substitute is not the Board, a novation in accordance with a Proposed Novation Notice shall only be effective if the Contractor consents to that novation in writing in accordance with Clause 4.3 (*Grant of Consent*) and the Board shall (as soon as practicable) supply the Contractor with the following information (copied to the Security Trustee and Intercreditor Agent):

- 4.2.1 the name and registered address of the Proposed Substitute;
- 4.2.2 the names of the shareholders in the Proposed Substitute and the share capital owned by each of them;
- 4.2.3 the names of the directors and the secretary of the Proposed Substitute;

- 4.2.4 details of the means by which it is proposed to finance the Proposed Substitute (including the extent to which such finance is committed and any conditions precedent as to its availability for drawing); and
- 4.2.5 the resources (including contractual arrangements) which are to be available to the Proposed Substitute to enable it to perform its obligations under the Construction Contract.

#### 4.3 **Grant of Consent**

The Contractor may withhold or delay consent to a novation only where the Proposed Substitute is not the Board and the Board has failed to show to the Contractor's satisfaction (acting reasonably) that:

- 4.3.1 the Proposed Substitute has the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co under the Construction Contract; and
- 4.3.2 the technical competence and financial standing of and the technical and financial resources available to the Proposed Substitute are sufficient to perform the obligations of Project Co under the Construction Contract.

The Contractor shall notify the Board in writing, within five (5) Business Days of the later of receipt of a Proposed Novation Notice and all information required under Clause 4.2 (*Information for Consent to Novation*), as to whether or not it has decided to grant such consent (together with an explanation of its reasons if it has decided to withhold its consent).

#### 4.4 **Consent withheld**

If, in accordance with Clause 4.3 (*Grant of Consent*), the Contractor withholds its consent to a Proposed Novation Notice, the Board shall be entitled to give one or more subsequent Proposed Novation Notices, pursuant to the provisions of Clause 4.1 (*Proposed Substitute*), containing changed particulars relating to the same Proposed Substitute or particulars relating to another Proposed Substitute which (where the replacement Proposed Substitute is not the Board) the Board has good cause to believe would fulfil the requirements of Clauses 4.3.1 and 4.3.2, provided that only one Proposed Novation Notice may be outstanding at any one time, and provided further that:

- 4.4.1 where a Step-in-Notice has not been issued, any revised Proposed Novation Date shall be a date falling no later than the date specified in Clause 4.1.1 or 4.1.2 as appropriate; and
- 4.4.2 if the Proposed Novation Notice was served during the Step-in Period, any revised Proposed Novation Date shall be a date falling not later than twenty-eight (28) Business Days after the date of the revised Proposed Novation Notice.

#### 4.5 **Implementation of Novation**

- 4.5.1 If the Contractor consents to a novation pursuant to a Proposed Novation Notice (whether automatically or otherwise), then on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*),
- (a) following notification pursuant to Clause 4.1 (*Proposed Substitute*) and in the absence of any prior release in accordance with Clause 3.2.5, the Security Trustee and Intercreditor Agent shall, on or before the Proposed Novation Date, take any action which is necessary unconditionally and irrevocably to release the Construction Contract and the Parent Company Guarantee from the security constituted by the Security Documents; and
  - (b) Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause 17 of the same and on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*).
- 4.5.2 Subject to the prior performance by the Security Trustee and Intercreditor Agent and Project Co of their respective obligations under Clause 4.5.1(a) and Clause 4.5.1(b) the Proposed Substitute shall become a party to the Construction Contract in place of Project Co and, thereafter, shall be treated as if it was and had always been named as a party to the Construction Contract in place of Project Co; and
- (a) the Contractor, Project Co and the Proposed Substitute shall enter into a novation agreement (the "**Novation Agreement**") and any other requisite agreements, in form and substance satisfactory to the Contractor (acting reasonably), pursuant to which:
    - (i) the Proposed Substitute shall be granted all of the rights of Project Co under the Construction Contract (including those arising prior to the end of the Step-in Period);
    - (ii) subject to the Contractor giving to the Proposed Substitute within three (3) Business Days of receipt of the Proposed Novation Notice such notice as is referred to in Clause 3.2.1 and to the provisions of Clauses 3.2.2 and 3.2.3, mutatis mutandis, the Proposed Substitute shall assume all of the obligations and liabilities of Project Co under the Construction Contract (including those arising prior to the end of any Step-in Period and those arising during the period of the Proposed Novation Notice);
- provided that the Contractor will not be in breach of any of its obligations under this Agreement if the Proposed Substitute does not enter into one or other of such agreements.
- 4.5.3 On and after the Novation Effective Date:
- (a) the Contractor shall owe its obligations under the Construction Contract (whether arising before, on or after such date) to the Proposed Substitute and the receipt, acknowledgement or acquiescence of the Proposed Substitute shall be a good discharge;

and

- (b) if the Board shall have entered into a Step-in Undertaking, the Board will be released from the Step-in Undertaking, provided that:
- (i) all obligations of the Board under the Step-in Undertaking which have accrued up to the Novation Effective Date and are identifiable as at that date shall have been fully and unconditionally discharged; and
  - (ii) the Board has performed and discharged in full or procured the performance and discharge in full of the obligations of Project Co under the Construction Contract in relation to the maintenance of records and the provision of reports during the Step-in Period up to the Novation Effective Date so as to permit the Contractor to monitor the performance of Project Co's other obligations under the Construction Contract.

4.5.4 the Board and the Contractor shall use all reasonable endeavours to agree and the Board shall use reasonable endeavours to procure that the Proposed Substitute agrees any amendments to the Construction Contract necessary to reflect Clause 3.2.2 and the fact that the Project Agreement may have terminated at the time of the Novation Effective Date.

#### 4.6 Termination After Novation

After the Novation Effective Date the Contractor shall only be entitled to exercise its rights of termination under the Construction Contract:

- 4.6.1 in respect of any Event of Project Co Default arising after that date in accordance with the Construction Contract; or
- 4.6.2 if the Proposed Substitute does not discharge the obligations and liabilities assumed by it under Clause 4.5.2(a) which relate to matters arising prior to the end of the Step-in Period within fifteen (15) Business Days following the Novation Effective Date.

#### 4.7 Extension of Step-In Period

As at the date of the first anniversary of the Step-in Date, if the Step-in Period has not previously ended, and:

- 4.7.1 the Board is in the course of conducting discussions in good faith with a Proposed Substitute (the novation to whom has been approved by the Contractor whether automatically or otherwise in accordance with Clause 4.3 (*Grant of Consent*)), the Step-in Period shall be extended and shall continue until such date as is proposed by the Board and agreed by the Contractor; or
- 4.7.2 a contract has been entered into between the Board and a Proposed Substitute (which has been approved by the Contractor in accordance with

Clause 4.3 (*Grant of Consent*) as at such date,

the Step-in Period shall be extended and shall continue until the date such contract comes into force, provided that such date shall not be later than thirty (30) Business Days after the last date of execution of such contract.

#### **4A GUARANTEE IN RESPECT OF THE CONSTRUCTION CONTRACT**

For the avoidance of doubt, the exercise of the Board's rights under Clause 3 (*Step-In and Step Out*) or 4 (*Novation*) of this Agreement shall for the purposes of the guarantee to Project Co in respect of the Construction Contract be treated as an assignation or novation as contemplated under Clause 17 of such guarantee.

### **5 RIGHTS AND OBLIGATIONS UNDER THE CONSTRUCTION CONTRACT**

#### **5.1 Rights of Termination**

If:

- 5.1.1 no Step-in Notice or Proposed Novation Notice is given before a Termination Notice expires or within twenty (20) Business Days after termination of the Project Agreement by the Board; or
- 5.1.2 a Step-in Undertaking is not issued on the Proposed Step-in Date; or
- 5.1.3 the Step-in Notice is withdrawn or, pursuant to Clause 3.2.7, deemed to have been withdrawn; or
- 5.1.4 the Step-in Period ends before the occurrence of the Novation Effective Date; or
- 5.1.5 in the absence of a Step-in Undertaking, the Contractor withholds its consent to a novation pursuant to a Proposed Novation Notice, in accordance with Clause 4.3 (*Grant of Consent*), and does not subsequently grant consent to a novation in accordance with Clause 4.4 (*Consent Withheld*) on or before the Proposed Novation Date; or
- 5.1.6 in the absence of a Step-in Undertaking, the obligations of the Proposed Substitute set out in Clause 4.5 (*Implementation of Novation*) are not performed on the Proposed Novation Date; or
- 5.1.7 the Contractor is entitled to terminate the Construction Contract under Clause 3.3 (*Restriction of Right of Termination*) or 4.6 (*Termination after Novation*); or
- 5.1.8 the Board exercises its right to Step-out under Clause 3.4.1,

the Contractor shall, on and from the Step-out Date, be entitled to:

- 5.1.9 exercise all of its rights under the Construction Contract and act upon any

and all grounds for termination available to it in relation to the Construction Contract whenever occurring; and/or

- 5.1.10 pursue any and all claims and exercise any and all rights and remedies against Project Co.

## 5.2 Project Co's Obligations to Continue

Until completion of a novation pursuant to Clause 4.5 (*Implementation of Novation*) (unless the terms of such novation expressly preserve an obligation or liability of Project Co), Project Co shall continue to be liable for all its obligations and liabilities, whenever occurring, under or arising from the Construction Contract notwithstanding:

- 5.2.1 the service of a Step-in Notice or the issue of a Step-in Undertaking or the expiry of the Step-in Period or the release of a Step-in Undertaking; or
- 5.2.2 the service of a Proposed Novation Notice; or
- 5.2.3 any other provision of this Agreement.

## 6 REVOCATION OF NOTICES

A Termination Notice and a Step-in Notice may each be revoked (in writing to the recipient) by the Party giving them before the expiry of their respective notice periods. Upon any such revocation, the rights and obligations of the Parties shall be construed as if the relevant notice had not been given.

## 7 ASSIGNATION

### 7.1 Binding on Successors and Assignees

This Agreement shall be binding on and shall ensure to the benefit of the Parties and their respective successors and permitted assignees. In the case of the Board, its successors shall include any person to which the Scottish Ministers, in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the Board ceasing to exist, transfers the rights and obligations of the Board under this Agreement.

### 7.2 Restriction on Assignment

No Party shall assign or transfer any part of its respective rights or obligations under this Agreement without the prior consent of the others (such consent not to be unreasonably withheld or delayed), provided that:

- 7.2.1 Project Co shall not assign this Agreement to any party other than a party to whom Project Co's interests in the Project Agreement and Construction Contract are assigned in accordance with the terms of the Project Agreement and Construction Contract respectively;

- 7.2.2 the Board shall be entitled, without the consent of any other Party, to transfer all its rights and obligations hereunder, to any person to whom it assigns or otherwise disposes of the benefit of the Project Agreement in accordance with Clause 57 (*Assignment and Sub-Contracting*) of the Project Agreement and, otherwise, with Project Co's and the Contractor's consent (not to be unreasonably withheld or delayed);
- 7.2.3 nothing in this sub-clause shall restrict the rights of the Scottish Ministers to effect a statutory transfer;
- 7.2.4 the Contractor shall assign this Agreement to any party to whom it assigns the Construction Contract (in accordance with the terms of that agreement).
- 7.2.5 the Security Trustee and Intercreditor Agent may assign or transfer its rights and obligations to a successor trustee of the Security Trustee and Intercreditor Agents under the Funding Agreement without the consent of any other Party and this Clause 7.2 shall not prevent any Security Trustee and Intercreditor Agent assigning or transferring its rights under the Senior Funding Agreements and the Security Documents in accordance with the terms of the Senior Funding Agreements.

### 7.3 **No Loss**

The Contractor agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no loss or a different loss has been suffered by such assignee.

## 8 **CONFIDENTIALITY**

- 8.1 The parties shall be bound to observe, mutatis mutandis, the terms of Clause 61 (*Confidentiality*) of the Construction Contract with respect to any information or document referred to in Clause 61 (*Confidentiality*) of the Construction Contract which shall come into its possession pursuant to this Agreement.
- 8.2 The Contractor agrees that the Board shall be entitled to disclose the terms of this Agreement in accordance with Clause 61 (*Confidentiality*) of the Project Agreement.

## 9 **NOTICES**

Any notice given under this Agreement shall be deemed to be duly given if it is delivered by hand or sent by recorded delivery to the party named therein at the address of such party shown in this Agreement or such other address as such party may by notice in writing nominate for the purpose of service and if sent by recorded delivery shall be deemed (subject to proof to the contrary) to have been received forty eight (48) hours after being posted.

## 10 PAYMENTS AND TAXES

### 10.1 Payments

All payments under this Agreement to any Party shall be made in pounds sterling by electronic transfer of funds for value on the day in question to the bank account of the recipient (located in the United Kingdom) specified to the other Parties from time to time.

### 10.2 VAT

10.2.1 All amounts stated to be payable by any Party under this Agreement shall be exclusive of any VAT properly payable in respect of the supplies to which they relate.

10.2.2 Each Party shall pay any VAT properly payable hereunder in respect of any supply made to it under this Agreement, provided that it shall first have received a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.

### 10.3 Deductions from payments

All sums payable by a Party to any other Party under this Agreement shall be paid free and clear of all deductions or withholdings whatsoever in respect of taxation, save as may be required by Law.

## 11 DEFAULT INTEREST

Each Party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not made on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate from the day after the date on which payment was due up to and including the date of payment.

## 12 AGGREGATE LIABILITY

Notwithstanding any other provision of this Agreement, the Contractor's aggregate liability from time to time under this Agreement and the Construction Contract shall not at any time exceed its maximum liability as stated in the Construction Contract.

## 13 PROFESSIONAL INDEMNITY INSURANCE

13.1 The Contractor by this Agreement covenants with the Board that it has at its own cost taken out, or procured the taking out of, professional indemnity insurance with reputable insurers carrying on business in the European Union with a limit of indemnity of not less than ten million pounds (£10,000,000) in the annual aggregate with at least one annual reinstatement, in relation to the Works, provided always that:

13.2 such insurance shall be in place from the commencement of the Works until no less

than twelve (12) years after the Actual Completion Date or, if earlier, after the date of termination of the Construction Contract;

- 13.3 the insurance premiums in respect of the insurance shall at all times be the responsibility of the Contractor;
- 13.4 if such insurance is not available to the Contractor (and/or design and build contractors engaged in projects of a similar scope, size, nature and complexity as the Contractor) at commercially reasonable rates and terms (excluding any increase in premiums attributable to the actions, omissions, errors or defaults of the Contractor), the Contractor and the Board will meet and the Contractor will outline the steps it intends to take to manage such risks. If the steps proposed by the Contractor are not acceptable to the Board (acting reasonably), the Contractor and the Board shall agree an alternative method of managing such risk.
- 13.5 The Contractor will, upon request, provide the Board with reasonable evidence that the policy referred to in this Clause 13 (*Professional Indemnity Insurance*) is in full force and effect in accordance with the requirements of this Clause 13 (*Professional Indemnity Insurance*).

#### 14 **THIRD PARTY RIGHTS**

It is agreed that this Agreement is not intended to, and does not, give to any person who is not a party to this Agreement any rights to enforce any provisions contained herein except for any person to whom the benefit of this Agreement is assigned or transferred in accordance with Clause 7 (*Assignment*).

#### 15 **AGENCY**

##### 15.1 **No Delegation**

No provision of this Agreement shall be construed as a delegation by the Board of any of its statutory Board to any other Party.

##### 15.2 **No Agency**

Save as otherwise provided in this Agreement, no other Party shall be or be deemed to be an agent of the other Parties nor shall any party hold itself out as having Board or power to bind the other parties in any way.

##### 15.3 **Independent Contractor**

The Parties shall, at all times, be independent contractors and nothing in this Agreement shall be construed as creating any partnership between the Parties or any relationship of employer and employee between the Parties.

#### 16 **WHOLE AGREEMENT**

16.1 This Agreement (when read together with the Project Agreement, the Construction Contract and the Parent Company Guarantee) supersedes all previous agreements and understandings between the Parties with respect thereto and each of the Parties acknowledges and confirms that it does not enter into this Agreement in reliance on any representation, warranty or other undertaking not fully reflected in the terms of this Agreement.

16.2 Nothing in this Agreement is intended to or shall operate so as to exclude or limit any liability for fraud or fraudulent misrepresentation.

17 **WAIVER**

Failure by any Party at any time to enforce any provision of this Agreement or to require performance by the other Parties of any provision of this Agreement shall not be construed as a waiver of such provision and shall not affect the validity of this Agreement or any part of it or the right of the relevant Party to enforce any provision in accordance with its terms.

18 **SEVERABILITY**

If any condition, Clause or provision of this Agreement not being of a fundamental nature, is held to be illegal or unenforceable, the validity or enforceability of the remainder of this Agreement shall not be affected thereby.

19 **COSTS AND EXPENSES**

Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement.

20 **AMENDMENTS**

No amendment to this Agreement shall be binding unless in writing and signed by the duly authorised representatives of the Parties.

21 **GOVERNING LAW AND JURISDICTION**

21.1 **Law**

This Agreement shall be governed by and construed in all respects in accordance with Scottish law.

21.2 **Jurisdiction**

The Parties each submit to the jurisdiction of the Scottish Courts as regards any claim or matter arising in relation to this Agreement.

## SECTION 2

## SERVICE PROVIDER COLLATERAL AGREEMENT

## COLLATERAL WARRANTY

## AMONG:

- (1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Board**");
- (2) **BOUYGUES E&S FM (UK) LIMITED** (registered under number 04243192) whose registered office is at Waterloo Centre Elizabeth House, 39 York Road, London, SE1 7NQ, (the "**Service Provider**");
- (3) **IHS LOTHIAN LIMITED** (registered number SC493676) whose registered office is at Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ ("**Project Co**");
- (4) **PRUDENTIAL TRUSTEE COMPANY LIMITED** as agent and trustee for and on behalf of the Secured Creditors ("the **Security Trustee**"); and
- (5) **M&G INVESTMENT MANAGEMENT LIMITED** as agent for and on behalf of the European Investment Bank, The Prudential Assurance Company Limited, Prudential Retirement Income Limited, Hold Co and Top Co ("the **Intercreditor Agent**").

## WHEREAS:

- (A) The Board and Project Co have agreed the terms on which Project Co will design, develop and construct and provide certain services in connection with the reprovision of services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Development**") at the Site and Off-Site (as such expressions are defined in the Project Agreement) and, accordingly, have entered into the Project Agreement an agreement ("**Project Agreement**") and the Project Documents.
- (B) Project Co has entered into the Funding Agreement (as defined in the Project Agreement with the Funder.
- (C) The Service Provider and Project Co have entered into an agreement of even date herewith relating to the provision of certain of the Services (as defined in the Project Agreement) by the Service Provider to enable Project Co to discharge its obligations to the Board regarding such Services under the Project Agreement and the Project Documents (the "**Service Contract**").
- (D) This Service Provider's Collateral Agreement (the "**Agreement**") is one of the Service Providers' Collateral Agreements contemplated by the Project Agreement.

**NOW IT IS HEREBY AGREED** as follows:

## 1 DEFINITIONS AND INTERPRETATION

### 1.1 Definitions

In this Agreement, the following terms shall, unless the context otherwise requires, have the following meanings:

<b>“Ancillary Documents”</b>	has the meaning given in the Project Agreement;
<b>“Business Day”</b>	means a day other than a Saturday, Sunday or a bank holiday in Scotland;
<b>“Event of Project Co Default”</b>	has the meaning given in the Service Contract;
<b>“Funders”</b>	means the Senior Lenders and the Senior Subordinated Lenders, as such terms are defined respectively in the Common Terms Agreement;
<b>“Funders' Direct Agreement”</b>	is the agreement of even date herewith between, amongst others, the Board,. Project Co, and the Security Trustee and the Intercreditor Agent;
<b>“Funders’ Service Provider Direct Agreement”</b>	means the agreement of even date herewith between, amongst others, Project Co, the Service Provider , the Security Trustee and the Intercreditor Agent;
<b>“Senior Funding Agreements”</b>	has the meaning given in the Project Agreement;
<b>“Novation Agreement”</b>	has the meaning given in Clause 4.5.3(b);
<b>“Novation Effective Date”</b>	means the date of performance of the obligations set out in Clause 4 ( <i>Novation</i> );
<b>“Parent Company Guarantee”</b>	has the meaning given in the Service Contract;
<b>“Project Agreement”</b>	means the project agreement of even date herewith between (1) the Board and (2) Project Co;
<b>“Proposed Novation Date”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Proposed Novation Notice”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Proposed Step-in Date”</b>	has the meaning given in Clause 3.1 ( <i>Step-in Notice</i> );
<b>“Proposed Substitute”</b>	has the meaning given in Clause 4.1 ( <i>Proposed Substitute</i> );
<b>“Secured Creditors”</b>	means has the meaning given to it in the Intercreditor Agreement;
<b>“Security Documents”</b>	has the meaning given in the Funders' Direct Agreement;
<b>“Service Contract”</b>	has the meaning given in the Project Agreement;
<b>“Step-in Date”</b>	means the date of issue of the Step-in Undertaking;
<b>“Step-in Notice”</b>	has the meaning given in Clause 3.1 ( <i>Step-in Notice</i> );

<b>"Step-in Period"</b>	means the period commencing on the Step-in Date and ending on the earliest of: <ul style="list-style-type: none"> <li>(a) the date of the first anniversary of the Step-in Date (but subject always to Clause 4.7 (<i>Extension of Step-in Period</i>));</li> <li>(b) the Step-out Date;</li> <li>(c) the Novation Effective Date; and</li> <li>(d) termination of the Service Contract under Clause 3.3 (<i>Restriction of Right of Termination</i>);</li> </ul>
<b>"Step-in Undertaking"</b>	has the meaning given in Clause 3.2.4 ( <i>Notice of Obligation and Step-In Understanding</i> );
<b>"Step-out Date"</b>	has the meaning given in Clause 3.4.1 ( <i>Step-Out</i> );
<b>"Termination Notice"</b>	has the meaning given in Clause 2.4 ( <i>Termination Notice</i> ).

## 1.2 Interpretation

Save to the extent that the context or the express provisions of this Agreement otherwise require:

- 1.2.1 headings and sub-headings are for ease of reference only and shall not be taken into consideration in the interpretation or construction of this Agreement;
- 1.2.2 all references to Clauses are references to Clauses of this Agreement;
- 1.2.3 all references to agreements, documents or other instruments include (subject to all relevant approvals) a reference to that agreement, document or instrument as amended, supplemented, substituted, novated or assigned from time to time;
- 1.2.4 all references to any statute or statutory provision shall include references to any statute or statutory provision which amends, extends, consolidates or replaces the same or which has been amended, extended, consolidated or replaced by the same and shall include any orders, regulations, codes of practice, instruments or other subordinate legislation made under the relevant statute or statutory provision;
- 1.2.5 any reference to time of day shall be a reference to Edinburgh time;
- 1.2.6 the words "herein", "hereto" and "hereunder" refer to this Agreement as a whole and not to the particular Clause in which such word may be used;

- 1.2.7 words importing the singular include the plural and vice versa;
- 1.2.8 words importing a particular gender include all genders;
- 1.2.9 "person" includes any individual, partnership, firm, trust, body corporate, government, governmental body, authority, agency, unincorporated body of persons or association;
- 1.2.10 any reference to a public organisation shall be deemed to include a reference to any successor to such public organisation or any organisation or entity which has taken over the functions or responsibilities of such public organisation;
- 1.2.11 references to "Party" means a party to this Agreement and references to "Parties" shall be construed accordingly;
- 1.2.12 all monetary amounts are expressed in pounds sterling;
- 1.2.13 references to the word "includes" or "including" are to be construed without limitation;
- 1.2.14 the obligations of any Party under this Agreement are to be performed at that Party's own cost and expense;
- 1.2.15 terms used in this Agreement that are defined in the Project Agreement or the Ancillary Documents shall have the meanings given to them in the Project Agreement or the Ancillary Documents, as appropriate.

## **2 TERMINATION NOTICE AND BOARD TERMINATION**

### **2.1 Service Provider's Warranties and Undertakings**

The Service Provider warrants and undertakes to the Board that it has complied with and fulfilled and shall continue to comply with and fulfil its duties and obligations arising under or by virtue of the Service Contract, provided that the Board shall only be entitled to make a claim against the Service Provider under this Clause 2.1 (*Service Provider's Warranties and Undertakings*) if the Project Agreement has terminated and shall not be entitled to do so during the Step-in Period or after the Service Contract has been novated under Clause 4 (*Novation*).

### **2.2 Liability of Service Provider**

Any liability arising from any claim for breach of the warranty under or pursuant to Clause 2.1 (*Service Provider's warranties and Undertakings*) shall be in addition to and without prejudice to any other present or future liability of the Service Provider to the Board (including, without prejudice to the generality of the foregoing, any liability in negligence) and shall not be released, diminished or in any other way be affected by any independent enquiry into any relevant matter which may be made or carried out

by or on behalf of the Board by any person nor by any action or omission of any person whether or not such action or omission might give rise to an independent liability of such person to the Board provided always that the Service Provider shall owe no greater duties or obligations to the Board under this Agreement than it owes or would have owed to Project Co under the Service Contract. Without prejudice to Clause 12 (*Aggregate Liability*), the Service Provider shall be entitled in any action or proceedings brought by the Board under this Agreement to rely on any limitation or exclusion of liability in the Service Contract and to raise equivalent rights in defence of liability (but excluding retention, set-offs and counterclaims) as it would have against Project Co under the Service Contract.

### 2.3 Not Used

### 2.4 Termination Notice

2.4.1 The Service Provider undertakes not to terminate the Service Contract on account of an Event of Project Co Default without first giving the Board not less than twenty (20) Business Days' prior written notice specifying the grounds for that termination. Subject to Clause 2.4.2 below any such notice shall be a "**Termination Notice**".

2.4.2 Where the Service Provider's right to terminate is subject to the terms of the Funders' Service Provider's Direct Agreement then the Service Provider shall notify the Board of the same as soon as reasonably practicable upon becoming aware of the provisions of the Funders' Service Provider Direct Agreement applying. Thereafter as soon as the Service Provider becomes entitled to terminate the Service Contract free from the constraints contained in the Funders' Service Provider's Direct Agreement, whether upon the expiry of the Step-in Period (as such term is defined in the Funders' Service Provider's Direct Agreement) or otherwise, then the Service Provider undertakes to the Board not to terminate the Service Contract on account of an Event of Project Co Default (whether occurring before or after the Service Provider's right to terminate the Service Contract was free from the constraints of the Funders' Service Provider's Direct Agreement) without first giving the Board not less than fifteen (15) Business Days' prior notice specifying the grounds for that termination and noting that the Service Provider's right of termination is not subject to the Funders' Service Provider's Direct Agreement. Any such notice, other than one given in circumstances where there is no default under the Service Contract by Project Co or the Service Provider, shall for the purposes of this Agreement also be a Termination Notice and the provisions of this Agreement shall apply accordingly.

2.4.3 Notwithstanding any provision of the Service Contract to the contrary, and subject to the exercise by the Board of its rights under paragraph 3 (*Step-in and Step-out*) of this Agreement, the parties agree that following termination of the Project Agreement the Service Contract shall come to an end.

2.4.4 The Board acknowledges that it shall not be entitled to exercise its rights under Clauses 3 (*Step-in and Step-out*) and 4 (*Novation*) where the event giving rise to termination of the Project Agreement is a Service Provider Event of Default (as that term is defined in the Service Contract) whether or not at the relevant time there has been notice to terminate the Service Contract for such Service Provider Event of Default.

### 3 STEP-IN AND STEP-OUT

#### 3.1 Step-in Notice

- 3.1.1 If the Board has terminated the Project Agreement in accordance with the terms of the Project Agreement or if the Board has received a Termination Notice, then subject to the provisions of this Agreement, the Board may give written notice to the Service Provider (copied to the Security Trustee and Intercreditor Agent) (a "**Step-in Notice**") of the intention of the Board to issue a Step-in Undertaking on a specified date (the "**Proposed Step-in Date**") provided that such Proposed Step-in Date shall be:
- (a) no later than five (5) Business Days after termination of the Project Agreement where this has been terminated by the Board; and
  - (b) no earlier than the date falling five (5) Business Days prior to the date of expiry of the Termination Notice and no later than the date of expiry of the Termination Notice where a Termination Notice has been given by the Service Provider.
- 3.1.2 Unless the Service Provider otherwise consents, only one Step-in Notice may be given during the period of this Agreement. Subject to Clause 5.1 (*Rights of Termination*) below, the Service Provider shall not be entitled to terminate the Service Contract until after the Proposed Step-in Date.

#### 3.2 Notice of Obligations and Step-in Undertaking

- 3.2.1 Within three (3) Business Days of receipt of any Step-in Notice, the Service Provider shall give written notice to the Board of any sums of which the Service Provider has actual knowledge which are due and payable but unpaid by Project Co and of any other material obligations or liabilities, of which the Service Provider has actual knowledge, which should have been performed or discharged by Project Co under the Service Contract, in each case, as at the date of the Step-in Notice.
- 3.2.2 The Service Provider shall inform the Board in writing as soon as reasonably practicable of:
- (a) any change in such sums, obligations or liabilities referred to in Clause 3.2.1; and
  - (b) any further sums, obligations or liabilities thereafter falling due and payable but unpaid or falling due for performance or discharge and unperformed or undischarged (as the case may be);
- in each case of which the Service Provider has actual knowledge, before the Step-in Date.

- 3.2.3 The Service Provider shall give the Board the information referred to in Clauses 3.2.1 and 3.2.2 in good faith and may not give any further

notifications pursuant to Clause 3.2.2 less than two (2) Business Days prior to the Proposed Step-in Date. The Board shall not be required to assume any liability under a Step-in Undertaking for any outstanding obligations or liabilities of Project Co to the Service Provider which are not notified to the Board pursuant to Clauses 3.2.1 or 3.2.2.

3.2.4 Not later than the Proposed Step-in Date the Board shall decide if it is prepared to issue a Step-in Undertaking. If it does so decide, the Board shall promptly give the Service Provider written notification of such decision and, at the same time, provide a copy of such notification to the Security Trustee and Intercreditor Agent. The Board shall deliver to the Service Provider on the Proposed Step-in Date, a written undertaking in form and substance agreed with the Service Provider (both the Board and the Service Provider acting reasonably) (the "**Step in Undertaking**"), incorporating a clause in terms similar to Clause 11 (*Default Interest*) (but only to the extent that there will not be double counting of default interest accruing under the Service Contract and this Agreement), and undertaking to the Service Provider:

- (a) to pay or procure the payment to the Service Provider, within twenty (20) Business Days of demand by the Service Provider, of any sum due and payable but unpaid by Project Co to the Service Provider under the Service Contract before the Step-in Date and which has been notified by the Service Provider to the Board in accordance with Clause 3.2.1 or 3.2.2;
- (b) to perform or discharge or procure the performance or discharge of any unperformed or undischarged obligations of Project Co under the Service Contract which shall have fallen due for performance or discharge before the Step-in Date and which have been notified by the Service Provider to the Board in accordance with Clause 3.2.1 or 3.2.2 within such period as the Service Provider may reasonably require;
- (c) to pay or procure the payment of any sum due and payable by Project Co under the Service Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 (*Step-Out*) and 4.5.3(b)) but not, to avoid doubt, any sum due in respect of any Services provided before the Step-in Date; and
- (d) to perform or discharge or procure the performance or discharge of any obligations of Project Co under the Service Contract as a result of any act or omission occurring during the Step-in Period which shall arise from any act or omission occurring after the Step-in Date (but subject to Clauses 3.4 (*Step-Out*) and 4.5.3(b)) but not, to avoid doubt, to perform or discharge or to procure the performance or discharge of any obligations in respect of any Services provided before the Step-in Date.

3.2.5 Following notification of the Board's decision pursuant to Clause 3.2.4, the Security Trustee and Intercreditor Agent shall, on or before the Proposed Step-in Date, take any action which is necessary unconditionally and irrevocably to release the Service Contract and the Parent Company Guarantee from the security constituted by the Security Documents.

- 3.2.6 Upon release by the Security Trustee and Intercreditor Agent of its security over the Parent Company Guarantee in accordance with Clause 3.2.5 Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause 19 of the same.
- 3.2.7 If the Board shall not have issued the Step-in Undertaking on or before the Proposed Step-in Date the Step-in Notice shall be deemed to have been withdrawn and the rights and obligations of the Parties shall be construed as if the Step-in Notice had not been given.

### 3.3 Restriction of Right of Termination

During or in respect of the Step-in Period, the Service Provider confirms to the Board that it shall continue to observe and perform its duties and obligations under the Service Contract and shall, without prejudice to Clause 5.1 (*Rights of Termination*), only be entitled to exercise its rights of termination under the Service Contract:

- 3.3.1 by reference to an Event of Project Co Default arising during the Step-in Period provided that no event of default by Project Co under the Project Agreement (whether resulting in termination of the Project Agreement or otherwise, and notwithstanding that it has occurred during the Step-in Period) shall entitle the Service Provider to exercise such rights of termination during the Step-in Period; or
- 3.3.2 if the Board, in breach of the terms of the Service Contract, fails to pay when due any amount owed to the Service Provider or fails to perform or discharge when falling due for performance or discharge any obligation under the Step-in Undertaking or fails to procure such payment or performance or discharge; or
- 3.3.3 if such rights of termination arise in circumstances where there is no default under the Service Contract by the Board or the Service Provider.

### 3.4 Step-Out

- 3.4.1 the Board may, at any time, give the Service Provider at least twenty (20) days' prior written notice to terminate the Step-in Period on a date specified in the notice (the "**Step-out Date**");
- 3.4.2 the Board shall give the Service Provider at least twenty (20) days' prior written notice that (subject to Clause 4.4.2) the Step-in Period will end due to the occurrence (subject to Clause 4.7 (*Extension of Step-In Period*)) of the first anniversary of the Step-in Date;

provided that:

- (a) the Board has performed and discharged in full or procured the performance and discharge in full of any obligations of Project Co under the Service Contract in relation to the maintenance of records and the provision of reports during the Step-in Period so as to permit

the Service Provider to monitor the performance of Project Co's other obligations under the Service Contract; and

- (b) all liability under the Step-in Undertaking pursuant to any claims made up to the date specified in either Clause 3.4.1 or Clause 3.4.2 (as the case may be) shall have been fully and unconditionally discharged,

the Board shall be released from the Step-in Undertaking on the expiry of the Step-in Period in accordance with Clauses 3.4.1 and 3.4.2. Such release shall not affect the continuation of Project Co's obligations towards the Service Provider under the Service Contract.

## 4 NOVATION

### 4.1 Proposed Substitute

At any time that the Board is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*) or at any time during the Step-in Period the Board may give notice (copied to the Security Trustee and Intercreditor Agent) (a "**Proposed Novation Notice**") to the Service Provider that it wishes itself or another person (a "**Proposed Substitute**") to assume, by way of sale, transfer or other disposal, the rights and obligations of Project Co under the Service Contract and specifying a date (the "**Proposed Novation Date**"):

- 4.1.1 falling not later than fifteen (15) Business Days after termination of the Project Agreement where this has been terminated by the Board;
- 4.1.2 falling not later than the expiry of the Termination Notice where a Proposed Novation Notice is given by the Board at a time when it is entitled to give a Step-in Notice pursuant to Clause 3.1 (*Step-in Notice*); and
- 4.1.3 falling not later than twenty-eight (28) Business Days after the date of the Proposed Novation Notice, where a Proposed Novation Notice is given during a Step-in Period.

Save as provided in Clause 4.4 (*Consent withheld*), only one Proposed Novation Notice may be given during the period of this Agreement. Without prejudice to Clauses 3.3 (*Restriction of Right of Termination*) and 5.1 (*Rights of Termination*), the Service Provider shall not be entitled to terminate the Service Contract during the notice period specified in a Proposed Novation Notice.

### 4.2 Information for Consent to Novation

If the Proposed Novation Notice specifies the Board as the Proposed Substitute, the Service Provider's consent to the novation shall be deemed to have been given automatically. Where the Proposed Substitute is not the Board, a novation in accordance with a Proposed Novation Notice shall only be effective if the Service Provider consents to that novation in writing in accordance with Clause 4.3 (*Grant of Consent*) and the Board shall (as soon as practicable) supply the Service Provider with the following information (copied to the Security Trustee and Intercreditor Agent):

- 4.2.1 the name and registered address of the Proposed Substitute;
- 4.2.2 the names of the shareholders in the Proposed Substitute and the share capital owned by each of them;
- 4.2.3 the names of the directors and the secretary of the Proposed Substitute;
- 4.2.4 details of the means by which it is proposed to finance the Proposed Substitute (including the extent to which such finance is committed and any conditions precedent as to its availability for drawing); and
- 4.2.5 the resources (including contractual arrangements) which are to be available to the Proposed Substitute to enable it to perform its obligations under the Service Contract.

#### 4.3 **Grant of Consent**

The Service Provider may withhold or delay consent to a novation only where the Proposed Substitute is not the Board and the Board has failed to show to the Service Provider's satisfaction (acting reasonably) that:

- 4.3.1 the Proposed Substitute has the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co under the Service Contract; and
- 4.3.2 the technical competence and financial standing of and the technical and financial resources available to the Proposed Substitute are sufficient to perform the obligations of Project Co under the Service Contract.

The Service Provider shall notify the Board in writing, within five (5) Business Days of the later of receipt of a Proposed Novation Notice and all information required under Clause 4.2 (*Information for Consent to Novation*), as to whether or not it has decided to grant such consent (together with an explanation of its reasons if it has decided to withhold its consent).

#### 4.4 **Consent withheld**

If, in accordance with Clause 4.3 (*Grant of Consent*), the Service Provider withholds its consent to a Proposed Novation Notice, the Board shall be entitled to give one or more subsequent Proposed Novation Notices, pursuant to the provisions of Clause 4.1 (*Proposed Substitute*), containing changed particulars relating to the same Proposed Substitute or particulars relating to another Proposed Substitute which (where the replacement Proposed Substitute is not the Board) the Board has good cause to believe would fulfil the requirements of Clauses 4.3.1 and 4.3.2, provided that only one Proposed Novation Notice may be outstanding at any one time, and provided further that:

- 4.4.1 where a Step-in-Notice has not been issued, any revised Proposed Novation Date shall be a date falling no later than the date specified in Clause 4.1.1 or 4.1.2 as appropriate; and

- 4.4.2 if the Proposed Novation Notice was served during the Step-in Period, any revised Proposed Novation Date shall be a date falling not later than twenty-eight (28) Business Days after the date of the revised Proposed Novation Notice.

#### 4.5 Implementation of Novation

- 4.5.1 If the Service Provider consents to a novation pursuant to a Proposed Novation Notice (whether automatically or otherwise), then on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*):

- (a) following notification pursuant to Clause 4.1 (*Proposed Substitute*) and in the absence of any prior release in accordance with Clause 3.2.5, the Security Trustee and Intercreditor Agent shall, on or before the Proposed Novation Date, take any action which is necessary unconditionally and irrevocably to release the Service Contract and the Parent Company Guarantee from the security constituted by the Security Documents; and
- (b) Project Co shall immediately assign all its rights and powers under the Parent Company Guarantee to the Board in accordance with Clause 19 of the same, and on the Proposed Novation Date and without prejudice to Clause 5.1 (*Rights of Termination*).

- 4.5.2 Subject to the prior performance by the Security Trustee and Intercreditor Agent and Project Co of their respective obligations under Clause 4.5.1(a) and Clause 4.5.1(b) the Proposed Substitute shall become a party to the Service Contract in place of Project Co and, thereafter, shall be treated as if it was and had always been named as a party to the Service Contract in place of Project Co; and

- (a) the Service Provider, Project Co and the Proposed Substitute shall enter into a novation agreement (the "**Novation Agreement**") and any other requisite agreements, in form and substance satisfactory to the Service Provider (acting reasonably), pursuant to which:
- (i) the Proposed Substitute shall be granted all of the rights of Project Co under the Service Contract (including those arising prior to the end of the Step-in Period);
- (ii) subject to the Service Provider giving to the Proposed Substitute within three (3) Business Days of receipt of the Proposed Novation Notice such notice as is referred to in Clause 3.2.1 and to the provisions of Clauses 3.2.2 and 3.2.3 mutatis mutandis, the Proposed Substitute shall assume all of the obligations and liabilities of Project Co under the Service Contract (including those arising prior to the end of any Step-in Period and those arising during the period of the Proposed Novation Notice);

provided that the Service Provider will not be in breach of any of its obligations under this Agreement if the Proposed Substitute does not enter into one or other of such agreements.

4.5.3 On and after the Novation Effective Date:

- (a) the Service Provider shall owe its obligations under the Service Contract (whether arising before, on or after such date) to the Proposed Substitute and the receipt, acknowledgement or acquiescence of the Proposed Substitute shall be a good discharge; and
- (b) if the Board shall have entered into a Step-in Undertaking, the Board will be released from the Step-in Undertaking, provided that:
  - (i) all obligations of the Board under the Step-in Undertaking which have accrued up to the Novation Effective Date and are identifiable as at that date shall have been fully and unconditionally discharged; and
  - (ii) the Board has performed and discharged in full or procured the performance and discharge in full of the obligations of Project Co under the Service Contract in relation to the maintenance of records and the provision of reports during the Step-in Period up to the Novation Effective Date so as to permit the Service Provider to monitor the performance of Project Co's other obligations under the Service Contract.

4.5.4 the Board and the Service Provider shall use all reasonable endeavours to agree and the Board shall use reasonable endeavours to procure that the Proposed Substitute agrees any amendments to the Service Contract necessary to reflect Clause 3.2.2 and the fact that the Project Agreement may have terminated at the time of the Novation Effective Date.

**4.6 Termination After Novation**

After the Novation Effective Date the Service Provider shall only be entitled to exercise its rights of termination under the Service Contract:

- 4.6.1 in respect of any Event of Project Co Default arising after that date in accordance with the Service Contract; or
- 4.6.2 if the Proposed Substitute does not discharge the obligations and liabilities assumed by it under Clause 4.5.2 which relate to matters arising prior to the end of the Step-in Period within fifteen (15) Business Days following the Novation Effective Date.

**4.7 Extension of Step-In Period**

As at the date of the first anniversary of the Step-in Date, if the Step-in Period has not previously ended, and:

- 4.7.1 the Board is in the course of conducting discussions in good faith with a Proposed Substitute (the novation to whom has been approved by the

Service Provider whether automatically or otherwise in accordance with Clause 4.3 (*Grant of Consent*), the Step-in Period shall be extended and shall continue until such date as is proposed by the Board and agreed by the Service Provider; or

- 4.7.2 a contract has been entered into between the Board and a Proposed Substitute (which has been approved by the Service Provider in accordance with Clause 4.3 (*Grant of Consent*)) as at such date,

the Step-in Period shall be extended and shall continue until the date such contract comes into force, provided that such date shall not be later than thirty (30) Business Days after the last date of execution of such contract.

## 5 RIGHTS AND OBLIGATIONS UNDER THE SERVICE CONTRACT

### 5.1 Rights of Termination

If:

- 5.1.1 no Step-in Notice or Proposed Novation Notice is given before a Termination Notice expires or within twenty (20) Business Days after termination of the Project Agreement by the Board; or
- 5.1.2 a Step-in Undertaking is not issued on the Proposed Step-in Date; or
- 5.1.3 the Step-in Notice is withdrawn or, pursuant to Clause 3.2.7, deemed to have been withdrawn; or
- 5.1.4 the Step-in Period ends before the occurrence of the Novation Effective Date; or
- 5.1.5 in the absence of a Step-in Undertaking, the Service Provider withholds its consent to a novation pursuant to a Proposed Novation Notice, in accordance with Clause 4.3 (*Grant of Consent*), and does not subsequently grant consent to a novation in accordance with Clause 4.4 (*Consent Withheld*) on or before the Proposed Novation Date; or
- 5.1.6 in the absence of a Step-in Undertaking, the obligations of the Proposed Substitute set out in Clause 4.5 (*Implementation of Novation*) are not performed on the Proposed Novation Date; or
- 5.1.7 the Service Provider is entitled to terminate the Service Contract under Clause 3.3 (*Restriction of Right of Termination*) or 4.6 (*Termination after Novation*); or
- 5.1.8 the Board exercises its right to Step-out under Clause 3.4.1,

the Service Provider shall, on and from the Step-out Date, be entitled to:

- 5.1.9 exercise all of its rights under the Service Contract and act upon any and all grounds for termination available to it in relation to the Service Contract whenever occurring; and/or
- 5.1.10 pursue any and all claims and exercise any and all rights and remedies against Project Co.

## 5.2 Project Co's Obligations to Continue

Until completion of a novation pursuant to Clause 4.5 (*Implementation of Novation*) (unless the terms of such novation expressly preserve an obligation or liability of Project Co), Project Co shall continue to be liable for all its obligations and liabilities, whenever occurring, under or arising from the Service Contract notwithstanding:

- 5.2.1 the service of a Step-in Notice or the issue of a Step-in Undertaking or the expiry of the Step-in Period or the release of a Step-in Undertaking; or
- 5.2.2 the service of a Proposed Novation Notice; or
- 5.2.3 any other provision of this Agreement.

## 6 REVOCATION OF NOTICES

A Termination Notice and a Step-in Notice may each be revoked (in writing to the recipient) by the Party giving them before the expiry of their respective notice periods. Upon any such revocation, the rights and obligations of the Parties shall be construed as if the relevant notice had not been given.

## 7 ASSIGNATION

### 7.1 Binding on Successors and Assignees

This Agreement shall be binding on and shall enure to the benefit of the Parties and their respective successors and permitted assignees. In the case of the Board, its successors shall include any person to which the Scottish Ministers, in exercising their statutory powers to transfer property, rights and liabilities of the Board upon the Board ceasing to exist, transfers the rights and obligations of the Board under this Agreement.

### 7.2 Restriction on Assignment

No Party shall assign or transfer any part of its respective rights or obligations under this Agreement without the prior consent of the others (such consent not to be unreasonably withheld or delayed), provided that:

- 7.2.1 Project Co shall not assign this Agreement to any party other than a party to whom Project Co's interests in the Project Agreement and Service Contract are assigned in accordance with the terms of the Project Agreement and

Service Contract respectively;

- 7.2.2 the Board shall be entitled, without the consent of any other Party, to transfer all its rights and obligations hereunder, to any person to whom it assigns or otherwise disposes of the benefit of the Project Agreement in accordance with Clause 57 (*Assignment and Sub-Contracting*) of the Project Agreement and, otherwise, with Project Co's and the Service Provider's consent (not to be unreasonably withheld or delayed);
- 7.2.3 nothing in this sub-clause shall restrict the rights of the Scottish Ministers to effect a statutory transfer;
- 7.2.4 the Service Provider shall assign this Agreement to any party to whom it assigns the Service Contract (in accordance with the terms of that agreement).
- 7.2.5 the Security Trustee and Intercreditor Agent may assign or transfer its rights and obligations to a successor trustee of the Security Trustee and Intercreditor Agents under the Funding Agreement without the consent of any other Party and this Clause 7.2 (*Restriction on Assignment*) shall not prevent any Security Trustee and Intercreditor Agent assigning or transferring its rights under the Senior Funding Agreements and the Security Documents in accordance with the terms of the Senior Funding Agreements.

### 7.3 **No Loss**

The Services Provider agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no loss or a different loss has been suffered by such assignee.

## 8 **CONFIDENTIALITY**

- 8.1 The parties shall be bound to observe, mutatis mutandis, the terms of Clause 61 (*Confidentiality*) of the Service Contract with respect to any information or document referred to in Clause 61 (*Confidentiality*) of the Service Contract which shall come into its possession pursuant to this Agreement.
- 8.2 The Service Provider agrees that the Board shall be entitled to disclose the terms of this Agreement in accordance with Clause 61 (*Confidentiality*) of the Design Build, Finance and Maintain Agreement.

## 9 **NOTICES**

Any notice given under this Agreement shall be deemed to be duly given if it is delivered by hand or sent by recorded delivery to the party named therein at the address of such party shown in this Agreement or such other address as such party may by notice in writing nominate for the purpose of service and if sent by recorded delivery shall be deemed (subject to proof to the contrary) to have been received forty eight (48) hours after being posted.

## 10 PAYMENTS AND TAXES

### 10.1 Payments

All payments under this Agreement to any Party shall be made in pounds sterling by electronic transfer of funds for value on the day in question to the bank account of the recipient (located in the United Kingdom) specified to the other Parties from time to time.

### 10.2 VAT

10.2.1 All amounts stated to be payable by any Party under this Agreement shall be exclusive of any VAT properly payable in respect of the supplies to which they relate.

10.2.2 Each Party shall pay any VAT properly payable hereunder in respect of any supply made to it under this Agreement, provided that it shall first have received a valid tax invoice in respect of that supply which complies with the requirements of Part III VAT Regulations 1995.

### 10.3 Deductions from payments

All sums payable by a Party to any other Party under this Agreement shall be paid free and clear of all deductions or withholdings whatsoever in respect of taxation, save as may be required by Law.

## 11 DEFAULT INTEREST

Each Party shall be entitled, without prejudice to any other right or remedy, to receive interest on any payment not made on the due date calculated from day to day at a rate per annum equal to the Default Interest Rate from the day after the date on which payment was due up to and including the date of payment.

## 12 AGGREGATE LIABILITY

Notwithstanding any other provision of this Agreement, the Service Provider's aggregate liability from time to time under this Agreement and the Service Contract shall not at any time exceed its maximum liability as stated in the Service Contract.

## 13 THIRD PARTY RIGHTS

It is agreed that this Agreement is not intended to, and does not, give to any person who is not a party to this Agreement any rights to enforce any provisions contained herein except for any person to whom the benefit of this Agreement is assigned or transferred in accordance with Clause 7 (*Assignment*).

## 14 AGENCY

**14.1 No Delegation**

No provision of this Agreement shall be construed as a delegation by the Board of any of its statutory authority to any other Party.

**14.2 No Agency**

Save as otherwise provided in this Agreement, no other Party shall be or be deemed to be an agent of the other Parties nor shall any party hold itself out as having authority or power to bind the other parties in any way.

**14.3 Independent Contractor**

The Parties shall, at all times, be independent contractors and nothing in this Agreement shall be construed as creating any partnership between the Parties or any relationship of employer and employee between the Parties.

**15 WHOLE AGREEMENT**

15.1 This Agreement (when read together with the Project Agreement, the Service Contract and the Parent Company Guarantee) contains or supersedes all previous agreements and understandings between the Parties with respect thereto and each of the Parties acknowledges and confirms that it does not enter into this Agreement in reliance on any representation, warranty or other undertaking not fully reflected in the terms of this Agreement.

15.2 Nothing in this Agreement is intended to or shall operate so as to exclude or limit any liability for fraud or fraudulent misrepresentation.

**16 WAIVER**

Failure by any Party at any time to enforce any provision of this Agreement or to require performance by the other Parties of any provision of this Agreement shall not be construed as a waiver of such provision and shall not affect the validity of this Agreement or any part of it or the right of the relevant Party to enforce any provision in accordance with its terms.

**17 SEVERABILITY**

If any condition, Clause or provision of this Agreement not being of a fundamental nature, is held to be illegal or unenforceable, the validity or enforceability of the remainder of this Agreement shall not be affected thereby.

**18 COSTS AND EXPENSES**

Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement.

19 **AMENDMENTS**

No amendment to this Agreement shall be binding unless in writing and signed by the duly authorised representatives of the Parties.

20 **GOVERNING LAW AND JURISDICTION**

20.1 **Law**

This Agreement shall be governed by and construed in all respects in accordance with Scottish law.

20.2 **Jurisdiction**

The Parties each submit to the jurisdiction of the Scottish Courts as regards any claim or matter arising in relation to this Agreement.

## SECTION 3

## KEY SUB-CONTRACTOR COLLATERAL AGREEMENT

## COLLATERAL WARRANTY

## AMONG:

**LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Beneficiary**" which expression shall include its successors in title or permitted assignees under this Agreement and for the Project Agreement and/or the Beneficiary's appointee);

and

**BROOKFIELD MULTIPLEX CONSTRUCTION EUROPE LIMITED**, a company incorporated in England and Wales under the Companies Acts (Registered Number 03808946) registered office at 99 Bishopsgate, Second Floor, London, EC2M 3XD (the "**Contractor**" which expression shall include its successors in title or permitted assignees under this Agreement);

and

[ ] **LIMITED**, a company incorporated in [Scotland/England and Wales/Northern Ireland] under the Companies Acts (Registered Number [ ]) and having its Registered Office at [ ] (the "**Subcontractor**").

## WHEREAS:

- (A) The Beneficiary and IHS Lothian Limited, a company incorporated in Scotland under the Companies Acts (Registered Number SC493676) and having its Registered Office at 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ ("**Project Co**") have entered into an agreement for the design, build, finance and maintenance of a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France (the "**Project**") on [ ]<sup>1</sup> (the "**DBFM Agreement**").
- (B) Project Co and the Contractor have entered into a contract (the "**Construction Contract**") on or about the date of the DBFM Agreement for the design and construction of the Project (the "**Contract Works**").
- (C) The Contractor has entered or intends to enter into an agreement with the Subcontractor whereby the Subcontractor will provide certain works (the "**Subcontract Works**") in connection with the Project ("**the Subcontract**") as more particularly described in the Subcontract.

<sup>1</sup> Insert date of signature of Project Agreement

- (D) It is a condition of the Subcontract that the Subcontractor enters this Agreement with the Beneficiary.
- (E) The Beneficiary shall be entitled to rely and is deemed to have relied on the Subcontractor's reasonable skill, care and diligence in respect of all matters covered by this Agreement insofar as they relate to the Subcontract Works provided by the Subcontractor under the Subcontract.

**NOW IT IS AGREED** as follows:

## **1 WARRANTY AND UNDERTAKING**

- 1.1 The Subcontractor warrants and undertakes to the Beneficiary that it has complied and will continue to comply with all the terms and obligations and duties under or arising out of the Subcontract on the Subcontractor's part to be performed and observed and shall complete the Subcontract Works in accordance with the Subcontract.
- 1.2 Without prejudice to Clause 1.1 of this Agreement, the Subcontractor further warrants and undertakes to the Beneficiary that:
- 1.2.1 it has exercised and will continue to exercise all the due skill, care and diligence of a properly qualified and competent subcontractor experienced in providing design of works on projects similar in nature, size and complexity to the Project in:
- (a) the design of the Subcontract Works; and
  - (b) the materials selected or specified by or on its behalf for use in the Subcontract Works (or any part or parts thereof) are in accordance with the guidance contained in the Good Practice Guidance and this Clause 1.21(b); and
  - (c) only materials and goods which are new and of sound and satisfactory quality shall be specified for use in connection with the Subcontract Works; and
  - (d) there shall not be specified for use in connection with the Subcontract Works any materials or substances which are expressly prohibited by the Subcontract or which are generally known not to be in accordance with British or European Standards and Codes of Practice at the time of specification or use (as applicable), or any materials or substances which are deleterious to health and safety or to the durability of buildings and/or other structures and/or finishes and/or plant and machinery in the particular circumstances in which they are used, or any materials or substances identified as deleterious, unsatisfactory or unsuitable in the relevant circumstances in the Good Practice Guidance and, in addition to and separate from the foregoing, any substances or combination of substances publicised prior to the time of construction in any Building Research Establishment Limited ("**BRE**") publications issued as part of

the BRE Professional development service which the BRE recommend are not used for building purposes or for the type of buildings comprised in the Project; and

- (e) the performance of the Subcontract Works to the Contractor under the Subcontract;

For the purposes of Clause 1.2.1, "**Good Practice Guidance**" means the edition of the publication entitled "Good practice in the selection of construction materials" (British Council for Offices (BCO): 2011) or any amended or updated version as at the Commencement Date (as such term is defined in the DBFM Agreement); and

- 1.2.2 the final design and all materials and goods specified therein will correspond as to description, quality and condition with the requirements of the Subcontract; and
- 1.2.3 the final design will at practical completion or its equivalent under the Subcontract, as the case may be, comply with all relevant legislation and Good Industry Practice.

## 2 INSURANCE

- 2.1 The Subcontractor shall maintain throughout the duration of provision of the Subcontract Works and for a period of 12 years after the date of practical completion or its equivalent under the Construction Contract, professional indemnity insurance in an amount of not less than [ five] million pounds (£[ 5 ,000,000])<sup>2</sup> sterling on an each and every claim basis and for any one occurrence or series of occurrences arising out of any one event with insurers of good repute carrying on business in the European Union provided always that such insurance is available at rates which are commercially reasonable to subcontractors.
- 2.2 In determining whether or not insurance is available as aforesaid, the financial characteristics and claims' record of the Subcontractor shall be ignored.
- 2.3 The Subcontractor shall immediately inform the Beneficiary if such insurance ceases to be available at rates which are commercially reasonable in order that the Subcontractor and the Beneficiary can consider alternative means of best protecting their respective positions in respect of the Project in the absence of such insurance provided that the Beneficiary shall be entitled to require the Subcontractor to maintain such lesser amount of Professional Indemnity Insurance as is available to the Subcontractor at rates which are commercially reasonable.
- 2.4 As and when it is reasonably requested to do so by the Beneficiary the Subcontractor shall produce for inspection documentary evidence satisfactory to the Beneficiary (acting reasonably) that its Professional Indemnity Insurance is being maintained.
- 2.5 The Subcontractor confirms that this Agreement has been disclosed to and has been approved by the Subcontractor's Professional Indemnity Insurers or Underwriters.

<sup>2</sup> The exact amount shall be an appropriate amount on a case by case basis having regard to the scope, value and importance of works package.

- 2.6 Should the Subcontractor be in breach of any of its obligations under this Clause **Error! Reference source not found. (Error! Reference source not found.)**, the Beneficiary may itself insure against any risk with respect to which the breach shall have occurred and may recover such sum or sums from the Subcontractor as a debt.

### 3 COPYRIGHT

- 3.1 The Subcontractor hereby grants to the Beneficiary or its appointee and all those authorised by the Beneficiary an irrevocable, transferable, non-exclusive and royalty-free licence (which shall be capable of assignation) to use and reproduce all information (whether or not stored in computer systems), drawings, models, bills of quantities, specifications, schedules, details, plans, programmes, budgets, reports, calculations or other documents, work or things including all applicable passwords or access codes whatsoever provided or to be provided by the Subcontractor in connection with the Subcontract Works (the “**Documents**”) for such purposes as the Beneficiary may at its sole discretion require.
- 3.2 Such licence shall carry the right to grant sub-licences and shall subsist notwithstanding that the Subcontract is terminated or the obligations and duties there under have been completed. For the avoidance of doubt, the grant of such licence or sub-licences shall not impose any additional liability on the Subcontractor.
- 3.3 The Subcontractor shall on reasonable demand provide to the Beneficiary or its appointee and those authorised by the Beneficiary additional copies of any documents on receipt of reasonable copying costs. The Subcontractor will not be liable for any use by the Beneficiary or any appointee or sub-licensee of any of the Documents for any purpose other than that for which the same were prepared and provided by the Subcontractor or for any improper or negligent use by the Beneficiary or any appointee or sub-licensee.
- 3.4 The Subcontractor agrees to indemnify and keep indemnified the Beneficiary from and against all loss, damage, cost, expense, liability or claim in respect of breach of the copyright or other intellectual property rights of any third party caused by or arising out of the carrying out of the Subcontract Works or the use of the licence.

### 4 ASSIGNATION

- 4.1 This Agreement may be assigned or otherwise transferred, novated, in whole or in part by the Beneficiary to any successor to the Beneficiary’s interest in the Project or any part thereof without the consent of the Subcontractor being required and such assignation shall be effective upon written notice thereof being given to the Subcontractor. No assignation of this Agreement by any other party shall be permitted.
- 4.2 The Subcontractor agrees that it shall not at any time assert that any permitted assignee in terms of this Agreement is precluded from recovering any loss resulting from any breach of this Agreement by reason that such assignee is not an original party to this Agreement or that no less or a different loss has been suffered by such assignee.

### 5 NO WAIVER OR VARIATION

- 5.1 No failure, approval, act or forbearance on the part of the Beneficiary in respect of any right of the Beneficiary pursuant to this Agreement shall constitute any waiver of any right of the Beneficiary under or arising out of this Agreement nor relieve the Subcontractor of any of its duties or obligations under or arising out of this Agreement.
- 5.2 The Subcontractor will not seek to modify or vary any of the obligations for which it is responsible under the Subcontract in any respect if that modification or variation will be detrimental to the Beneficiary or affects the Beneficiary's rights or obligations under the DBFM Agreement, the Construction Contract or this Agreement or affects the Subcontractor's obligations under this Agreement.

## 6 EQUIVALENT RIGHTS

The obligations of the Subcontractor under this Agreement shall be no greater in extent or quantity than if the Beneficiary had been named as joint employer with the Contractor under the Subcontract. The Subcontractor shall be entitled in any action or proceedings by the Beneficiary to rely on any limitation in the Subcontract and to raise the equivalent rights in defence of liability as it would have against the Contractor under the Subcontract (other than retention, counterclaim, set-off or to state a defence of no loss or a different loss has been suffered by the Contractor).

## 7 NOTICES

- 7.1 Any notice, consent or demand to be given or made by any party under this Agreement (hereinafter called a "Notice") shall only be validly served if in writing and delivered personally or sent by pre-paid first class recorded delivery post to the following address and marked for the attention of the following person in the case of each party:

Party	Address	Person
The Beneficiary	Lothian Health Board Waverley Gate 2-4 Waterloo Place Edinburgh EH1 3EG	The Chief Executive
The Contractor	[•]	[•]
The Subcontractor	[•]	[•]

Any party may by Notice to the other party/parties change its address or the title of the person for whose attention Notices are to be given or made pursuant to this Clause. Any such Notice shall be deemed to have been received:

- 7.1.1 if delivered personally, at the time of delivery; and
- 7.1.2 in the case of pre-paid first class recorded delivery post, on the first Business Day after the date of posting.
- 7.2 If any Notice is delivered after 5 p.m. on a Business Day, or at any time during a day which is not a Business Day, that Notice shall be deemed to have been received at 9 a.m. on the next Business Day.

- 7.3 For the purposes of this Clause 7 (*Notices*), "Business Day" means any day which is not a Saturday, a Sunday or a public holiday in Scotland. In proving service it shall be sufficient to prove that the envelope containing such Notice was properly addressed to the relevant party and either delivered personally to that address or delivered into the custody of the postal authorities as a pre-paid first class recorded delivery letter. For the avoidance of doubt, Notices shall not be validly served if sent by e-mail or fax.
- 7.4 The definitions of words and phrases used in this Agreement shall be those set out in the Construction Contract and the Subcontract except where expressly defined in this Agreement.
- 7.5 This Agreement shall be governed by and construed in accordance with Scots Law and the parties hereto submit to the exclusive jurisdiction of the Scottish Courts.

**SCHEDULE PART 10****OUTLINE COMMISSIONING PROGRAMME****1 PRE-COMPLETION COMMISSIONING**

- 1.1 Project Co's Pre-Completion Commissioning shall comprise the activities described as such in Table A of Appendix A of this Schedule Part 10 (*Outline Commissioning Programme*) and more fully set out in Appendix C of this Schedule Part 10 (*Outline Commissioning Programme*).
- 1.2 Project Co shall give written notice to the Independent Tester and the Board's Representative of the commencement of Project Co's Pre-Completion Commissioning not less than five (5) Business Days prior to the date when Project Co (acting reasonably) considers that it shall commence Project Co's Pre-Completion Commissioning.
- 1.3 The Board's Pre-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 (*Outline Commissioning Programme*) and more fully set out in Appendix C of this Schedule Part 10 (*Outline Commissioning Programme*).
- 1.4 Project Co shall give written notice to the Board's Representative of the date upon which the Board shall be entitled to commence the Board's Pre-Completion Commissioning, such notice to be given at least one (1) month prior to the date when Project Co (acting reasonably) considers that the Board should commence the Board's Commissioning in accordance with the Final Commissioning Programme.

**2. POST-COMPLETION COMMISSIONING**

- 2.1 Project Co's Post-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 (*Outline Commissioning Programme*) and more fully set out in Appendix C of this Schedule Part 10 (*Outline Commissioning Programme*).
- 2.2 The Board's Post-Completion Commissioning shall comprise the activities identified as such in Table A of Appendix A of this Schedule Part 10 (*Outline Commissioning Programme*) and more fully set out in Appendix C of this Schedule Part 10 (*Outline Commissioning Programme*).

**3. EQUIPMENT AND TRAINING**

- 3.1 Project Co shall not clean, or move to enable general cleaning, items of equipment so identified by the Board unless in agreement with the Board's Representative. This shall include but not be limited to:
  - 3.1.1 physiological monitoring equipment;
  - 3.1.2 department based computers, visual display units and radiographic equipment or machine consoles including anything bearing radiation or hazard Warning signs; and
  - 3.1.3 equipment that is plugged in for re-charging.
- 3.2 The Board shall ensure that any equipment of the Board that is transferred from an existing site is cleaned and disinfected prior to being transferred to the Facilities.

## APPENDIX B – COMPLETION CRITERIA

### 1. GENERAL

#### 1.1 General Requirements

- 1.1.1 Project Co shall provide such labour, materials, stores, test equipment, tools, instruments, apparatus and assistance as are reasonably required for the purpose of any inspection and where appropriate testing by the Independent Tester and shall be responsible for the provision of such electricity, fuel, water and other consumables and materials as may be reasonably required for the same. Invitations shall be furnished by Project Co to the Board and its technical advisers to witness such inspections, testing and commissioning activities of the Works as the Board deems necessary at least fourteen (14) Business Days' prior to the date of any such inspections, testing and commissioning activities of the Works. If the Board and/or its technical advisers are unable to attend such inspections, testing and commissioning activities of the Works then the Independent Tester shall carry out such inspections, testing and commissioning activities of the Works at the date previously notified to the Board.
- 1.1.2 Project Co shall ensure that major items of Plant shall be tested during the Works for both performance and safety prior to dispatch and provide documentary evidence that testing has been carried out if requested by the Independent Tester. For the purposes of this paragraph "major items of Plant" shall include, but not be limited to, boilers, air handling units, generators, chillers, HV/MV switchgear and pressure vessels. Project Co shall arrange for the Board and its technical advisers to witness specific unit factory testing of major items of Plant and shall furnish the Board and its technical advisers with the opportunity to witness all such factory testing. The Board and its technical advisers shall be given at least fourteen (14) Business Days' prior notice, or such reasonable notice as may be agreed, of such testing of major items of Plant. If the Board and/or its technical advisers are unable to attend such testing of major items of Plant the Independent Tester shall carry out such testing of major items of Plant at the date previously notified to the Board.

### 2. WORKS INSPECTION, TESTING AND ACCEPTANCE ACTIVITIES

#### 2.1 Completion Criteria

Project Co shall demonstrate that the following criteria (the "**Completion Criteria**") has been achieved:

- 2.1.1 The building is structurally complete, all external fabric is complete, wind and watertight and air pressure testing complete. Internally all the finishes are complete in accordance with the Room Data Sheets;
- 2.1.2 The Joint between the Link Building and the Facilities has been constructed in accordance with this Agreement;
- 2.1.3 All incoming Utilities including but not limited to power, water, gas and all relevant back up systems are tested, commissioned and operational;
- 2.1.4 All mechanical and electrical Plant and systems shall be tested, commissioned and operate satisfactorily in accordance with the specified design criteria, any manufacturers' operating requirements and the Room Data Sheets;
- 2.1.5 The building management system is complete, tested, commissioned and operational including the setting up of graphs, logs or equivalent;

- 2.1.6 All furniture and Equipment shown on the loaded room layout drawings (as supplemented by Schedule Part 11 (Equipment)) as Project Co's responsibility have been installed (and commissioned if appropriate);
- 2.1.7 All keys, access cards, access codes and other access devices along with any associated suiting, for access to all relevant areas of the Facilities, complete with all relevant schedules, including agreed suiting schedules are ready for handover to the Board;
- 2.1.8 Safe access and egress to and within the Facilities has been established;
- 2.1.9 The Works shall be free from all surplus materials, plant and equipment and shall comply with the standards and requirements of paragraph 3 (Handover Clean);
- 2.1.10 All internal, external and below ground drainage systems are installed and are operational including connections to the drainage as operated by Consort;
- 2.1.11 All external works as appropriate have been completed and are available for use by the Board;
- 2.1.12 All hard-landscaped external works, including roads, car parks, pavements and boundary walls/fences are complete and available for use by the Board;
- 2.1.13 All lift systems are complete, commissioned and operational; including connection and monitoring of lift car emergency call device;
- 2.1.14 All, building, directional, departmental, general information, room numbering and external signage as indicated within Project Co's Proposals and/or Reviewable Design Data and necessary to allow the operational Services to commence has been provided and installed. This includes both internal and external signage for the Facilities and areas outwith the Site to include the access routes and buildings on the Retained Site;
- 2.1.15 Those elements of the fire management strategy and fire safety risk assessment in accordance with the Fire (Scotland) Act 2005, for which Project Co is responsible, have been produced;
- 2.1.16 All fire detection, alarm and suppression systems including the interconnection with the existing RIE Facilities are complete, tested commissioned and operational;
- 2.1.17 All external lighting, including specialist lighting for the helipad, is installed, tested, commissioned and operational;
- 2.1.18 All IT, communication and security systems to be installed by Project Co including the interconnection with the existing RIE Facilities (where relevant), are complete, tested and test results submitted to the Board (and if appropriate commissioned);
- 2.1.19 All security and surveillance systems, access controls and call alarms are complete, tested, commissioned, operational and available for use by the Board;
- 2.1.20 All acoustic testing has been completed to prove compliance with the Board's Construction Requirements and Project Co's Proposals;
- 2.1.21 All medical gas and vacuum systems are complete, tested, commissioned and witnessed by the Board's chief pharmacist and medical gases approved person;
- 2.1.22 All pneumatic tube systems including the elements within the RIE Facilities are complete, tested, commissioned, operational and available for use by the Board;
- 2.1.23 Project Co has provided all documentation to the Independent Tester in accordance with this Agreement and paragraph 4 (*Indicative Testing and Commissioning Documentation*) below;

- 2.1.24 A final draft Operational Manual for the Facilities, in accordance with Clause 18.5 (*Operational Manuals*) of this Agreement, (containing, as a minimum, all the testing and commissioning information including as-built drawings / test results so far as it is reasonably practicable) have been made available by the Contractor to Project Co to allow the Facilities to be operated safely;
- 2.1.25 All tests undertaken in accordance with Section 7 (*Thermal & Energy Efficiency Testing Procedures*) of Schedule Part 6 (*Construction Matters*);
- 2.1.26 Updated Schedule Part 12 (*Service Requirements*) Section 4 (*Energy Strategy*) incorporating final plant selection sizing and efficiencies as identified by Manufacturer's data sheets and commissioning activities and as reviewed and agreed with the Board as per Schedule Part 8 (*Review Procedure*);
- 2.1.27 All elements of the Handover Clean, set out in paragraph 3 (*Handover Clean*) below are complete;
- 2.1.28 Testing and commissioning of all access systems;
- 2.1.29 Project Co shall ensure the following finishing Works are completed;
- (a) Removal of Site establishment;
  - (b) Cap off and completely remove temporary site services and record position;
  - (c) Removal of temporary materials, including surfacing, complete with full reinstatement; and
- 2.1.30 Project Co shall reinstate any damage to Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E in accordance with paragraph 3 of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 and 4 of Section 3 (*General Matters*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*).
- 2.1.31 Project Co shall demonstrate that the following areas shall comply with the requirements of paragraph 8.60 of SHTM 03-01 for conventional operating rooms:
- (a) Operating Theatre suites including;
    - (i) Anaesthetic room;
    - (ii) Theatre;
    - (iii) Preparation room;
    - (iv) Scrub up room; and
    - (v) Utility room.
  - (b) Digital Angiography including:
    - (i) Procedures room
    - (ii) Control room; and
    - (iii) Sterile supplies
  - (c) Intra Operative MRI including:
    - (i) MRI room;
    - (ii) Clean utility;
    - (iii) MR control room; and
    - (iv) Induction area;

The aforementioned areas are as defined in the Schedule of Accommodation.

- 2.1.31 Project Co shall provide completed Section 6 (Room Data Sheets) of Schedule Part 6 (Construction Matters) for all rooms and areas within the Facilities including the

environmental data contained in the Environmental Matrix. These Room Data Sheets shall be complete in all respects;

- 2.1.32 Project Co shall provide Environmental Matrix including Commissioning data test sheets as commissioned in accordance with CIBSE Commissioning Code C and demonstrating compliance with the Environmental Matrix;
- 2.1.33 To the extent not already provided, Project Co shall provide the Collateral Agreements referred to in Clauses 57.8A.3 and 57.8A.4 of this Agreement together with copies certified by Project Co of the sub-contracts for Key Sub-Contractors executed by the parties to such agreements for the relevant sub-contract between the Contractor and each Key Sub-contractor required to provide a Collateral Agreement pursuant to Clauses 57.8A.3 and 57.8A.4 of this Agreement, and evidence that the professional indemnity insurance (or product liability insurance, in the case of the work package referred to in Clause 57.8A.4), to be maintained by the Key Sub-Contractor in terms of the relevant sub-contract and Collateral Agreement as applicable is in place.

### **3. HANDOVER CLEAN**

On completion of the Works, Project Co shall remove builders debris, and clean all areas of the Facilities including plant rooms, to the standard defined below:

#### **3.1 Floors**

- 3.1.1 The floor is cleaned to remove paint, plaster, grit and litter, water and other liquids;
- 3.1.2 The floor is cleaned to remove stains, spots and scuffs;
- 3.1.3 Inaccessible areas (edges and corners) cleaned to remove grit and lint;
- 3.1.4 All carpets, vinyl's and the like floor coverings are clean and vacuumed;
- 3.1.5 Barrier matting zones are vacuumed and wells free of debris;
- 3.1.6 Toilets, Sinks, Basins, Baths, Taps and Fixtures free of all labels, tape and sticky marks to be removed;
- 3.1.7 Porcelain, cubicle rails and plastic surfaces are wiped clean;
- 3.1.8 Metal surfaces, shower screens and mirrors are wiped clean;
- 3.1.9 Wall tiles and wall fixtures (including dispensers, toilet holders, paper dispensers, grab rails and the like) wiped clean to remove grit;
- 3.1.10 Inaccessible areas (edges, corners, folds and crevices) are cleaned to remove grit and lint;
- 3.1.11 All pieces of fixed furniture, equipment and appliances free of all labels, tape and sticky marks and litter, cleaned inside and out;
- 3.1.12 All high surfaces are wiped clean;
- 3.1.13 Blinds, curtains, screens including hanging rails, hooks and fixings cleaned to remove all dust and wiped clean;
- 3.1.14 Shelves, bench tops, cupboards and wardrobes are wiped clean inside and out and are free of litter;
- 3.1.15 Protective film is removed from all hard surfaces and equipment unless otherwise requested by the Service Provider.

### 3.2 Low Level Surfaces

- 3.2.1 Internal walls cleaned to remove paint splashes, grit, soil and graffiti;
- 3.2.2 Skirtings, covings and the like are cleaned to remove paint or plaster splashes;
- 3.2.3 Light switches and electrical sockets are wiped clean; and
- 3.2.4 All windows (glass internal and external), ironmongery, vents window frames and sills are cleaned.

### 3.3 High Level Surfaces

- 3.3.1 Walls and ceilings are cleaned to remove plaster splashes, paint splashes, grit, soil, film and graffiti;
- 3.3.2 Ceilings and light fittings and are cleaned to remove surface markings, dust and dirt;
- 3.3.3 Doors and doorframes are cleaned to remove grit, soil, and film;
- 3.3.4 Air vents, grilles and other ventilation outlets are unblocked and cleaned to remove grit, soil, scuffs and other marks; and
- 3.3.5 Door tracks and door jambs are cleaned to remove grit and other debris.

## 4. INDICATIVE TESTING AND COMMISSIONING DOCUMENTATION

### 4.1 Documentation

The following list is indicative of the test documentation expected to be provided

- 4.1.1 Building warrant completion certificates;
- 4.1.2 Evidence that all conditions for which Project Co is responsible attached to the detailed Planning Approval have been discharged to the satisfaction of the relevant local authority;
- 4.1.3 Not Used;
- 4.1.4 Flushing cleaning and chlorination test certificates;
- 4.1.5 Boiler Plant manufacturer's factory test and commissioning sheets in accordance with CIBSE Commissioning Code B, including all steam systems;
- 4.1.6 Ductwork systems pressure test and volume flow rate certificates if appropriate;
- 4.1.7 Kitchen equipment commissioning certificate if appropriate;
- 4.1.8 Electrical installation completion and inspection certificates in accordance with (BS 7671 and NICEIC requirements);
- 4.1.9 Lighting and power certificate of test;
- 4.1.10 Fire and intruder alarms commissioning certificates, including intruder detection and alarm, access control system(s);
- 4.1.11 General electrical earth loop and insulation resistance test sheets;
- 4.1.12 Testing of all hot water service thermostatic mixing valves ("**TMV's**") in accordance with BS6700 and tests to comply with HSE Document L8 and HGN 'Safe Hot Water and Surface Temperatures;

- 4.1.13 Emergency lighting completion and test certificates;
- 4.1.14 Security systems commissioning certificates;
- 4.1.15 Certificate of soundness testing of gas installation;
- 4.1.16 Gas pipework pressure test and purge certificates;
- 4.1.17 Fire suppression system certificates (in accordance with BS6266 and tests to comply with CIBSE Guidance E;
- 4.1.18 Fire alarm sound record sheets;
- 4.1.19 Lighting calculation sheets and lux level test results;
- 4.1.20 Machine (generator/ups etc) specialist commissioning and factory test sheets;
- 4.1.21 Acoustic test sheets (in accordance with BS EN ISO 717 – 1: 1997);
- 4.1.22 Lift Commissioning in accordance with BS EN 81;
- 4.1.23 Lightning protection risk analysis and test/commissioning sheets in accordance with BS EN 62305 (2008);
- 4.1.24 Works pressure test certificates for all pressure vessels;
- 4.1.25 Mechanical pipework systems pressure tests;
- 4.1.26 A/C Equipment performance tests;
- 4.1.27 Condensate clearance tests for A/C Equipment;
- 4.1.28 BMS/EMS tests/commissioning records in accordance with CIBSE Commissioning Code C;
- 4.1.29 Air distribution systems in accordance with CIBSE Commissioning Code A;
- 4.1.30 Water systems (heating and domestic water) in accordance with CIBSE Commissioning Code W and SHTM 04-01;
- 4.1.31 Legionella testing (to include an organic check on the incoming mains) within tolerances given in HSE ACOP test sheets;
- 4.1.32 Domestic water systems bacteriological quality test sheets;
- 4.1.33 All medical gas and medical and dental vacuum systems test and commissioning certificates as witnessed by the Board's chief pharmacist and medical gases approved person in accordance with SHTM 02-01: Medical gas pipeline systems, Vol 1 – Design, installation, validation and verification;
- 4.1.34 Anaesthetic gas scavenging system test and commissioning certificates in accordance with SHTM 02-01: Medical gas pipeline systems, Vol 1 – Design, installation, validation and verification;
- 4.1.35 Plant (Calorific, Treatment etc.) specialist commissioning and factory test sheets, if applicable;
- 4.1.36 Nurse call test certificate;
- 4.1.37 Disabled Toilet Alarm test certificate;

- 4.1.38 Fire Alarm Test Certificate;
- 4.1.39 CCTV and access control test certificate;
- 4.1.40 Telephone and data structured cable scheme test certificate, test results and copy of manufacturer's warranty;
- 4.1.41 Pneumatic tube system test certificate;
- 4.1.42 Induction loop test certificate;
- 4.1.43 Pipeline Pressure and flow rate test certificates including drainage and all steam systems;
- 4.1.44 Steam boiler/generator test factory test and commissioning certificates in accordance with CIBSE Commissioning Code B;
- 4.1.45 Chiller factory test and commissioning certificates in accordance with CIBSE Commissioning Code R;
- 4.1.46 Chemical clean and inhibitor dosing certification to heating/chilled water systems;
- 4.1.47 Ductwork physical cleaning certification in accordance with SHTM 03-01 and the HVCA (2005) 'TR/19 – Guide to good practice';
- 4.1.48 Proving of isolation rooms differential pressure;
- 4.1.49 Air tests and test records for the Facilities drains and drainage network;
- 4.1.50 Test certificates and sufficient written evidence covering the design, construction and repair etc for all protective devices such as pressure relief valves and the like. Specific reference is made to compliance with Regulation 5 of The Pressure Systems Safety Regulations 2000; and
- 4.1.51 Project Co has provided documentation relating to the acceptance of the helipad for operation by the CAA and Air Ambulance operators, including the lighting and Rescue and Fire Fighting provision.

## 5. **RETAINED ESTATE HANDBACK WORKS COMPLETION CRITERIA.**

Prior to handing back the Retained Estate Handback Works to the Board, at a point in the programme agreed between both parties, Project Co shall ensure the following "**Retained Estate Handback Works Completion Criteria**" have occurred for the Retained Estate Handback Works:

- 5.1.1 All furniture and Equipment shown on the loaded room layout drawings (as supplemented by Schedule Part 11 (*Equipment*)) as Project Co's responsibility have been installed (and commissioned if appropriate);
- 5.1.2 Safe access and egress to, from and within land associated with the Retained Estate Handback Works has been established;
- 5.1.3 The Retained Estate Handback Works shall be free from all surplus materials, plant and equipment;
- 5.1.4 All external drainage systems associated with the Retained Estate Handback Works are installed and are operational including connections to the drainage as operated by Consort;
- 5.1.5 All external works as appropriate for the Retained Estate Handback Works have been completed and are available for use by the Board;

- 5.1.6 All hard-landscaped external works, including roads, pavements and boundary walls/fences within land associated with the Retained Estate Handback Works are complete and available for use by the Board;
- 5.1.7 All external signage as indicated within Project Co's Proposals and/or Reviewable Design Data and necessary to allow the Retained Estate Handback Works to operate has been provided and installed;
- 5.1.8 Those elements of the fire management strategy and fire safety risk assessment in accordance with the Fire (Scotland) Act 2005, for which Project Co is responsible, have been provided;
- 5.1.9 All external lighting as appropriate for the Retained Estate Handback Works is installed, tested, commissioned and operational;
- 5.1.10 All security and surveillance systems associated with the Retained Estate Handback Works is tested, commissioned, operational and available for use by the Board;
- 5.1.11 Reinstatement of damage in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 (*General Matters*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) insofar as is relevant to the Retained Estate Handback Works;
- 5.1.12 Project Co shall ensure the following finishing works are undertaken for land associated with the Retained Estate Handback Works;
  - (a) Removal of any Site establishment;
  - (b) Cap off and completely remove temporary site services and record position; and
  - (c) Removal of temporary materials, including surfacing, complete with full reinstatement.

## 6. PETROL STATION SITE WORKS COMPLETION CRITERIA

- 6.1 Prior to handing back the Petrol Station Site Works to the Board, Project Co shall ensure the following "**Petrol Station Site Works Completion Criteria**" have occurred for the Petrol Station Site Works:
  - 6.1.1 All furniture and Equipment shown on Project Co's Proposals' external works drawings and/or Reviewable Design Data (as supplemented by Schedule Part 11 (*Equipment*)) as Project Co's responsibility have been installed (and commissioned if appropriate);
  - 6.1.2 Safe access and egress to, from and within land associated with the Petrol Station Site Works has been established;
  - 6.1.3 The Petrol Station Site Works shall be free from all surplus materials, plant and equipment;
  - 6.1.4 All external drainage systems associated with the Petrol Station Site Works are installed and are operational including connections to the drainage as operated by Consort;
  - 6.1.5 All external works as appropriate for the Petrol Station Site Works have been completed and are available for use by the Board;
  - 6.1.6 All hard-landscaped external works, including roads, pavements and boundary walls/fences within land associated with the Petrol Station Site Works are complete and available for use by the Board;

- 6.1.7 All external signage as indicated within Project Co's Proposals and/or Reviewable Design Data and necessary to allow the Petrol Station Site Works to operate has been provided and installed;
- 6.1.8 Those elements of the fire management strategy and fire safety risk assessment in accordance with the Fire (Scotland) Act 2005, for which Project Co is responsible, have been provided;
- 6.1.9 All external lighting as appropriate for the Petrol Station Site Works is installed, tested, commissioned and operational;
- 6.1.10 All security and surveillance systems associated with the Petrol Station Site Works is tested, commissioned, operational and available for use by the Board;
- 6.1.11 Reinstatement of damage in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 (*General Matters*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) insofar as is relevant to the Petrol Station Site Works.
- 6.1.12 Project Co shall ensure the following finishing works are undertaken for land associated with the Petrol Station Site Works;
- (a) Removal of any Site establishment;
  - (b) Cap off and completely remove temporary site services and record position; and
  - (c) Removal of temporary materials, including surfacing, complete with full reinstatement;
- 6.1.13 Remedial measures associated with the proposed public open space land use at the Petrol Station Site Works are completed and shall be independently verified by the Environmental Consultant and certified in accordance with the City of Edinburgh Council Planning Requirements and Regulations;
- 6.1.14 Project Co shall provide all documentation relating to remediation of the Petrol Station Site Works for proposed temporary uses (e.g. construction access road) and final use as an area of public open space. This shall include contaminated land risk assessments, remedial options appraisal reports, remedial strategy reports, detailed design documents and completion/validation reports produced in line with Part IIA of the Environmental Protection Act (1990) and following best practice guidelines detailed in CLR11 (2004), BS10175:2011+A1:2013 and PAN 33; and
- 6.1.15 Project Co shall provide evidence that the ground conditions within the Petrol Station Site Works have not deteriorated as a result of the construction activities.

**Appendix C**

**Outline Commissioning Programme**

The Outline Commissioning Programme is the Outline Commissioning Programme as set out on the disc in the Agreed Form identified and executed as the Appendix C (*Outlook Commissioning Programme*) of Schedule Part 10 (*Outline Commissioning Programme*) of this Agreement, referred to and forming part of this Agreement.

## SCHEDULE PART 11

### EQUIPMENT

#### 1 GROUP 1 EQUIPMENT

1.1 Subject to paragraph 1.3, Project Co shall at its own cost procure, install and commission the Group 1 Equipment at the Facilities as part of the Works in accordance with the Board's Construction Requirements, the Final Commissioning Programme, Project Co's Proposals and any other relevant provisions of this Agreement.

1.2 Project Co shall at its own cost repair, maintain, replace, decommission and dispose of the Group 1 Equipment in accordance with the Service Level Specification and the Method Statements and in accordance with paragraphs 1A (*Standards for Replacement Board Specified Group 1 Equipment*) and 1B (*Commissioning of Replacement Board Specified Group 1 Equipment*).

1.3 The Board shall at its own cost install and commission or procure the installation and the commissioning of Group 1 Equipment set out in the rooms referred to in Appendix 5 (*Board's installation responsibility for rooms with Group 1 Equipment*).

1.4 If at the time of the Board installing the Group 1 Equipment referred to in paragraph 1.3 above, such Group 1 Equipment is:

1.4.1 damaged by the Board; or

1.4.2 is defective or does not properly function due to the acts or omissions of the Board or any Board Party,

then Project Co shall repair or replace such Group 1 Equipment and the Board shall reimburse Project Co for any costs reasonably and properly incurred by Project Co in repairing or replacing any item of Group 1 Equipment referred to in paragraph 1.3 above within twenty (20) Business Days of receipt of a demand thereof together with supporting information, provided that, to avoid doubt, where such Group 1 Equipment referred to in paragraph 1.3 above is damaged or is defective or does not function properly due to the acts or omissions of Project Co or any Project Co Party, then the costs associated with any repair and/or replacement of Group 1 Equipment referred to in paragraph 1.3 above shall be borne by Project Co.

#### 1A PROCUREMENT OF REPLACEMENT BOARD SPECIFIED GROUP 1 EQUIPMENT

1A.1 In accordance with Clause 23A.4.4 (*Lifecycle Replacement*), the Board shall prepare any relevant Replacement Board Specified Group 1 Equipment Specifications.

1A.2 In terms of the procurement of any Replacement Board Specified Group 1 Equipment, Project Co shall use the Replacement Board Specified Group 1 Equipment Specifications provided by the Board pursuant to paragraph 1A.1 above and shall comply with all Laws applicable at the time of procurement of any item of Replacement Board Specified Group 1 Equipment.

1A.3 Project Co shall involve the Board in all aspects of the procurement of Replacement Board Specified Group 1 Equipment in relation to the Replacement Board Specified Group 1 Equipment Specifications, including the tendering process and selection process of the supplier of the Replacement Board Specified Group 1 Equipment.

1A.4 Project Co shall comply with paragraph 1(ii) of Section 4.21 (*Equipment Strategy*) of the Project Co Proposals in relation to the procurement of the Replacement Board Specified Group 1 Equipment.

#### 1B COST OF REPLACEMENT BOARD SPECIFIED GROUP 1 EQUIPMENT

1B.1 Each item of Replacement Board Specified Group 1 Equipment to be supplied by Project Co shall be in accordance with the relevant Replacement Board Specified Group 1 Equipment Specifications:

1B.1.1 at no additional cost to the Board where any such Replacement Board Specified Group 1 Equipment Specifications:

- (a) fulfil the technical and other specifications and functionality of the relevant item of Board Specified Group 1 Equipment as detailed in the Board Specified Group 1 Equipment Specifications; and
- (b) incorporate all technological advances made after the date of execution of this Agreement to the relevant item of Board Specified Group 1 Equipment which have been accepted as standard features for such item of Board Specified Group 1 Equipment of that specification at the time of procurement of that item of Replacement Board Specified Group 1 Equipment;

provided that:

- (i) Project Co shall only be obliged to incorporate technological advances under paragraph 1B.1.1(a) above which require a change to the design, physical structure or layout of the Facilities where either:
  - (A) the Board Specified Group 1 Equipment and/or Board Specified Group 1 Equipment Specifications have become obsolete; or
  - (B) the Board has instructed a Board Change Notice.

1B.1.2 at no additional cost to Project Co where any such Replacement Board Specified Group 1 Equipment Specifications exceed the requirements set out in paragraph 1B.1.1 above. In such an event, the Board shall instruct a Board Change Notice in relation to each item of Replacement Board Specified Group 1 Equipment to be supplied by Project Co being in accordance with the relevant Replacement Board Specified Group 1 Equipment Specifications.

1B.2 In order to avoid double counting the costs of any item of Replacement Board Specified Group 1 Equipment, in the event that the Board issues a Board Change Notice in respect of any item of Replacement Board Specified Group 1 Equipment and/or Board Specified Group 1 Equipment Specifications, the Estimated Change in Project Costs (subsequently calculated by Project Co in respect of such Board Change Notice) shall deduct Project Co's original estimated cost of the Replacement Board Specified Group 1 Equipment set out in the Financial Model.

## 1C **Commissioning of Replacement Board Specified Group 1 Equipment**

1C.1 During the Operational Term, Project Co agrees that:

1C.1.1 the commissioning of any item of Replacement Board Specified Group 1 Equipment shall be carried out against the Replacement Board Specified Group 1 Equipment Commissioning Tests; and

1C.1.2 Project Co shall invite the Board, upon reasonable prior notice, to witness any commissioning carried out pursuant to this paragraph 1C. The Board's response or non-response to Project Co's invitation shall not delay or postpone the commissioning process.

## 1D **Standards for Replacement Group 1 Equipment**

1D.1 Subject to paragraph 1E (*Commissioning of Replacement Group 1 Equipment*) Project Co shall ensure that any item of Replacement Group 1 Equipment which:

- 1C.1.1 is within the public realm areas of the Facilities;
- 1C.1.2 may impact upon health and safety within the Facilities; and/or

1C.1.3 may impact upon the reputation of the Board,

at least meets the original specification for that item of Group 1 Equipment and is (without limitation) of a colour, shape and style so that it is appropriate for its context, location and environment and Project Co shall agree such item of Replacement Group 1 Equipment with the Board (the Board's consent shall not be unreasonably withheld or delayed) prior to installation at the Facilities.

## 1E Commissioning of Replacement Group 1 Equipment

1E.1 During the Operational Term, Project Co agrees that:

1E.1.1 the commissioning of any item of Replacement Group 1 Equipment referred to in paragraph 1D (*Standards for Replacement Group 1 Equipment*) shall be carried out against the Replacement Group 1 Equipment Commissioning Tests; and

1E.1.2 Project Co shall invite the Board, upon reasonable prior notice, to witness any commissioning carried out pursuant to paragraph 1E.1.1. The Board's response or non-response to Project Co's invitation shall not delay or postpone the commissioning process.

## 2 GROUP 2A EQUIPMENT

2.1 The Board shall at its own cost:

2.1.1 procure and make available to Project Co the Group 2A Equipment for installation by Project Co at the Facilities in accordance with the Final Commissioning Programme; and

2.1.2 without prejudice to paragraph 2.1.1, ensure that the relevant items are delivered to the Facilities during the relevant periods set out in the Final Commissioning Programme and in accordance with paragraph 2.6.

2.2 Project Co shall install the Group 2A Equipment at the Facilities in accordance with the Final Commissioning Programme, the Board's Construction Requirements and Project Co's Proposals.

2.3 The Board shall be responsible for the maintenance, replacement, decommissioning and disposal of the Group 2A Equipment and Project Co shall have no responsibility to maintain, replace, decommission or dispose of the Group 2A Equipment save for the installation of lifecycle replacements.

2.4 Project Co shall give the Board not less than three (3) Months prior written notice of the date upon which Project Co requires the Board to procure the delivery of Group 2A Equipment to be installed and commissioned by Project Co in accordance with paragraph 2.2.

2.5 Each notice given pursuant to paragraph 2.4 shall specify;

2.5.1 the item or items of Group 2A Equipment be delivered by the Board;

2.5.2 the location on the Site to which that Group 2A Equipment is to be delivered by the Board; and

2.5.3 the date upon which Project Co requires the Board to deliver the relevant item or items of Group 2A Equipment.

2.6 Without prejudice to paragraph 2.1, the Board shall deliver, or shall procure delivery of the relevant item or items of and/or pertaining to the Group 2A Equipment on the date specified in the relevant notice issued by Project Co pursuant to paragraph 2.4 to such location as set out in paragraph 2.5.2 (which for the avoidance of doubt, must be safely accessible by those persons delivering the relevant item or items of Equipment).

2.7 Following delivery of the Group 2A Equipment pursuant to paragraph 2.6, Project Co shall

procure the safe and appropriate storage of the same until the completion of installation of the Group 2A Equipment by Project Co.

- 2.8 If at the time of installing or commissioning the Group 2A Equipment, such Group 2A Equipment is found to be damaged, does not properly function or otherwise does not correspond with the items to be procured by the Board pursuant to paragraph 2.1 to allow successful completion of commissioning to occur, then the Board shall procure the repair or replacement of such Group 2A Equipment as soon as reasonably practicable, having regard to the length of time generally taken to procure such Group 2A Equipment or procure repairs to such Group 2A Equipment provided that, to avoid doubt, where such Group 2A Equipment is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 2A Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

### **3 GROUP 2B EQUIPMENT**

- 3.1 The Board shall at its own cost:
- 3.1.1 procure the Group 2B Equipment for installation by its own contractors at the Facilities in accordance with the Final Commissioning Programme; and
- 3.1.2 without prejudice to paragraph 3.1.1, ensure that the Group 2B Equipment is delivered to and installed at the Facilities during the relevant periods set out in the Final Commissioning Programme in accordance with paragraph 3.6.
- 3.2 The Board shall procure the installation of the Group 2B Equipment at the Facilities in accordance with the Final Commissioning Programme, the Board's Construction Requirements and Project Co's Proposals.
- 3.3 The Board shall be responsible for the maintenance, replacement, decommissioning and disposal of the Group 2B Equipment and Project Co shall have no responsibility to maintain, replace, decommission or dispose of the Group 2B Equipment.
- 3.4 Project Co shall give the Board not less than twenty five (25) Business Days prior written notice to the Board's Representative of the date upon which Project Co requires the Board to procure the delivery and installation of the Group 2B Equipment by the Board and its contractors in accordance with paragraph 3.2.
- 3.5 Each notice given pursuant to paragraph 3.4 shall specify;
- 3.5.1 the item or items of Group 2B Equipment be delivered and installed by the Board;
- 3.5.2 the location on the Site to which that Group 2B Equipment is to be delivered and installed by the Board; and
- 3.5.3 the date upon which Project Co requires the Board to deliver and install the relevant item or items of Group 2B Equipment.
- 3.6 Without prejudice to paragraph 3.1, the Board shall deliver, or shall procure delivery of the relevant item or items of and/or pertaining to the Group 2B Equipment on the date specified in the relevant notice issued by Project Co pursuant to paragraph 3.4 to such location as set out in paragraph 3.5.2 (which for the avoidance of doubt, must be safely accessible by those persons delivering the relevant item or items of Equipment).
- 3.7 Following delivery of the Group 2B Equipment pursuant to paragraph 3.6, Project Co shall procure the safe and appropriate storage of the same until the completion of installation by or procured by the Board.
- 3.8 If at the time of installing or commissioning the Group 2B Equipment, such Group 2B Equipment is found to be damaged, does not properly function or otherwise does not correspond with the

items to be procured by the Board pursuant to paragraph 3.1 to allow successful completion of commissioning to occur, then the Board shall procure the repair or replacement of such Group 2B Equipment as soon as reasonably practicable, having regard to the length of time generally taken to procure such Group 2B Equipment or procure repairs to such Group 2B Equipment provided that, to avoid doubt, where such Group 2B Equipment is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 2B Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

#### **4 GROUP 3 EQUIPMENT**

- 4.1 Without prejudice to paragraph 1, the Board shall at its own cost procure, install and commission the Group 3 Equipment at the Facilities as part of the Board's Post Completion Commissioning.
- 4.2 The Board shall be responsible for the maintenance, replacement, decommission and disposal of the Group 3 Equipment and Project Co shall have no responsibility to maintain, replace, decommission or dispose of the Group 3 Equipment. If such Group 3 Equipment is damaged or does not function properly to allow commissioning to occur due to the acts or omissions of Project Co or any Project Co Party, then Project Co shall reimburse the Board for any costs reasonably and properly incurred by the Board in procuring the repair of a replacement item of Group 3 Equipment within twenty (20) Business Days of receipt of a demand thereof together with supporting information.

#### **5 GENERAL**

- 5.1 Each Party shall at its own expense perform its obligations described in this Schedule Part 11 (*Equipment*).

**Appendix 1: Equipment Schedule**

The Appendix 1 (*Equipment Schedule*) is the Appendix 1 (*Equipment Schedule*) as set out on the disc in the Agreed Form identified and executed as the Appendix 1 (*Equipment Schedule*) of Schedule Part 11 (*Equipment*) of this Agreement, referred to in and forming part of this Agreement.

**Appendix 2**

**Not Used**

## Appendix 3

## Board Specified Group 1 Equipment

Item	Code	Quantity	Description	Group
1	AUT900	1	Autoclave	1
2	CAB200	2	CABINET: Class II tissue culture cabinet	1
3	CAN010	7	CANOPY: ultra clean ventilation (UCV) operating theatre, 2000mm clear from floor level to underside, 3200W x3200D, sliding screens.	1
4	HOI006	45	HOIST PATIENT; electric; 24V; straight track ceiling mounted (Length of the track to suit the individual needs).	1
5	HOI906	4	HOIST PATIENT; BARIATRIC, electric; 24V; H-frame track ceiling mounted. (Length of the track to suit the individual needs.)	1
6	HOI907	75	HOIST, patient, electric, 24V, H-frame track ceiling mounted. (Length of the track to suit the individual needs)	1
7	LIG2502	4	LUMINAIRE; double arm; operating theatre; table with satellite; shadowless; lux 140000 and lux 110000.	1
8	LIG2505	6	LIGHT; Operating 3 arm	1
9	LIG2506	6	LIGHT; green blue light source.	1
10	LSU003	1	SINK laboratory; 300H 450W 420D; HTM67/S3.	1
11	PAN053	10	PANEL operating theatre; to meet the theatre requirements.	1
12	PEN002	35	PENDANT; Anaesthetic; medical & power supply unit; vertical movement; ceiling mounted; outlets comprising.	1
13	PEN006	2	PENDANT SURGICAL; touch screen monitor; medical and power supply unit; lateral and vertical movement; ceiling mounted; outlets comprising:	1
14	PEN006A	4	PENDANT SURGICAL; medical and power supply unit; lateral and vertical movement; ceiling mounted; outlets comprising:	1
15	PEN1000L	20	PENDANT; critical care; twin arm; left hand monitor arm, with elbow joints; multi movement.	1
16	PEN1004	24	PENDANT; critical care; CIS; single arm with elbow joints; multi movement (to NHS specification).	1
17	PEN1005	4	PENDANT; critical care; single arm (to NHS specification).	1
18	PEN2504	1	PENDANT; Anaesthetic; medical & power supply unit; vertical movement; ceiling mounted; outlets comprising:	1

19	PEN900	8	PENDANT RESUSCITATION, medical gases and power supply unit, fixed location, ceiling mounted, medical gases and power outlets comprising:	1
----	--------	---	--	---

**SCHEDULE PART 12**  
**SERVICE REQUIREMENTS**

**SECTION 1**  
**SERVICE LEVEL SPECIFICATION**

The Service Level Specification is the Service Level Specification as set out on the disc in the Agreed Form identified and executed as the Section 1 (*Service Level Specification*) of Schedule Part 12 (*Service Requirements*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 2**

**METHOD STATEMENTS**

The Method Statements are the Method Statements as set out on the disc in the Agreed Form identified and executed as the Section 2 (*Method Statements*) of Schedule Part 12 (*Service Requirements*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 3**

**SERVICES QUALITY PLAN**

The Services Quality Plan is the Services Quality Plan as set out on the disc in the Agreed Form identified and executed as the Section 3 (*Services Quality Plan*) of Schedule Part 12 (*Service Requirements*) of this Agreement, referred to in and forming part of this Agreement.

**SECTION 4**

**ENERGY STRATEGY**

The Energy Strategy is Energy Strategy as set out on the disc in the Agreed Form identified and executed as the Section 4 (*Energy Strategy*) of Schedule Part 12 (*Service Requirements*) of this Agreement, referred to in and forming part of this Agreement.

## SCHEDULE PART 13

## INDEPENDENT TESTER CONTRACT

## AGREEMENT

## AMONG:

- (1) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (together with its successors, assignees and/or transferees is referred to as the "**Board**");
- (2) **IHS LOTHIAN LIMITED**, (registered under number SC493676 whose registered office is at Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ) ("**Project Co**");
- (3) **EC HARRIS LLP** (registered under number OC368843) whose registered office is at ECHQ, 34 York Way, London N1 9AB (the "**Independent Tester**");
- (4) **PRUDENTIAL TRUSTEE COMPANY LIMITED**, as agent and trustee for and on behalf of the Secured Creditors ("the **Security Trustee**");
- (5) **M&G INVESTMENT MANAGEMENT LIMITED**, as agent for and on behalf of the European Investment Bank, The Prudential Assurance Company Limited, Prudential Retirement Income Limited, Hold Co and Top Co (the "**Intercreditor Agent**"); and
- (6) **BROOKFIELD MULTIPLEX CONSTRUCTION EUROPE LIMITED** (registered under number 03808946) whose registered office is at 99 Bishopsgate, Second Floor, London, EC2M 3XD (the "**Contractor**");

## WHEREAS:

- (A) Project Co and the Board have entered into an agreement for the financing, design and construction of and the provision of certain services in connection with a project to re-provide services from the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department of Clinical Neurosciences in a single building adjoining the Royal Infirmary of Edinburgh at Little France at the Site and Off-Site (the "**Project**") pursuant to the Government's private finance initiative (the "**Project Agreement**") under the terms of which they have jointly agreed to appoint an independent tester.
- (B) Project Co has entered into the Construction Contract with the Contractor for the development of the Project at the Site and Off-Site.
- (C) Project Co has entered into the Senior Funding Agreements with the Funders.
- (D) The Independent Tester is an independent adviser willing to provide services to Project Co and the Board and for the benefit of the Secured Creditors and the Funders.
- (E) Project Co and the Board have jointly agreed to engage the Independent Tester to carry out the duties and obligations ascribed to the Independent Tester in the Project Agreement upon the terms of this Agreement.

IT IS AGREED as follows:

## 1 INTERPRETATION

- 1.1 Unless the context otherwise requires, words and expressions defined in the Project Agreement have the same meanings in this Agreement as in the Project Agreement.

**"Completion Process"** means the process and procedures for carrying out the notification, testings, inspections and completion certification as set out in Schedule Part 10 (*Outline Commissioning Programme*) of the Project Agreement as may be applicable to the Works.

- 1.2 The headings in this Agreement do not affect its interpretation.

Unless the context otherwise requires, all references to Clauses and Appendices are references to clauses of and appendices to this Agreement.

## 2 APPOINTMENT

- 2.1 Project Co and the Board jointly appoint the Independent Tester to perform the services obligations and tasks which are ascribed to the Independent Tester under the Project Agreement and which are set out in Appendix 1 upon the terms and conditions set out below. The Contractor is a party to this Agreement solely to make the commitments on its part as expressly made in this Agreement and, for the avoidance of doubt, the Independent Tester shall have no liability to the Contractor.
- 2.2 The Independent Tester shall provide the services, obligation and tasks under Clause 2.1 above (the **"Services"**) independently, fairly and impartially to and as between Project Co and the Board in relation to the Project Agreement at such times and at such locations as the parties shall agree from time to time. In performing the Services in accordance with the terms of this Agreement, the Independent Tester shall have regard to the interest of and shall perform the same for the benefit of and with a duty of care to the Funders, the Secured Creditors, the Security Trustee and the Intercreditor Agent. Whilst the Independent Tester shall take account of any representations made by Project Co and the Board and the Contractor (as appropriate) the Independent Tester shall not be bound to comply with any representations made by any of them in connection with any matter on which the Independent Tester is required to exercise his professional judgement.

## 3 VARIED SERVICES

- 3.1 The Independent Tester shall carry out and perform any additional and/or varied services required for the implementation of the Project reasonably required by the Board and Project Co which are not included in, or which are omitted from, the Services (the **"Varied Services"**), subject to prior agreement by the Board and Project Co to the costs thereof. The written agreement by the Board and Project Co pursuant to this Clause 3.1 shall state whether (and where applicable in what proportions) the Board and/or Project Co will be responsible for the payment of the fee agreed for the Varied Services. The Independent Tester acknowledges that the liability of Project Co and the Board to pay the Independent Tester for the Varied Services shall be several and not joint.
- 3.2 If the Independent Tester shall at any time be required to perform Varied Services, it shall give to the Board and Project Co a written estimate of the cost thereof (taking into account any reduction in work or other expense which might also occur as a result of the circumstances giving rise to the Varied Services).

- 3.3 Where a change to the Project occurs pursuant to the terms of the Project Agreement (whether by virtue of a Delay Event, Change, change to the Programme or otherwise) which may materially impact on the Services or otherwise on the Independent Tester, the Board and Project Co shall promptly notify the Independent Tester of such change. The Independent Tester shall within five (5) Business Days of receiving such notification, notify the Board and Project Co of the impact of such change, if any, on the Services, including whether such change gives rise to any Varied Services and the provisions of this Clause 3.3 shall apply accordingly.
- 3.4 The Independent Tester shall promptly and efficiently provide the Services and the Varied Services:
- 3.4.1 with the reasonable care, skill and diligence to be expected of a properly qualified and competent professional adviser who has held itself out as competent and experienced in rendering such services for projects of a similar size, nature, scope and complexity to the Project; and
- 3.4.2 in accordance with all applicable Law and NHS Requirements.
- 3.5 All instructions to the Independent Tester must be given signed and given jointly by the Board's Representative and Project Co's Representative or such other person appointed pursuant to Clause 8 (*Representatives*) of the Project Agreement and, for the avoidance of doubt, the Independent Tester shall not act in accordance with any instructions given to him by either the Board or Project Co (or any other person) not given in accordance with the provisions of this Clause 3.5.
- 3.6 The Independent Tester shall comply with all reasonable instructions given to it by Project Co and the Board pursuant to Clause 3.5 except and to the extent that the Independent Tester reasonably considers that any such instructions vary or might vary the Services or its authority or responsibilities under this Agreement or prejudices or might prejudice the exercise by the Independent Tester of its professional judgement in accordance with Clauses 2.2 and 3.4 above. The Independent Tester shall promptly confirm in writing to Project Co and the Board whether or not it shall comply with any such instruction setting out the grounds upon which the decision is made.
- 3.7 The Board, Project Co and the Contractor agree to co-operate with and provide reasonable assistance to the Independent Tester to familiarise the Independent Tester with all necessary aspects of the Project to enable the Independent Tester to carry out its obligations under this Agreement.
- 3.8 The Independent Tester shall be deemed to have full knowledge of the provisions of the Project Agreement, the Construction Contract, the Service Contracts, the Senior Funding Agreements and the Interface Agreement (as defined in the Construction Contract) such as relates to the Services and shall be deemed to be aware of and to have taken full account of all the undertakings and warranties, both expressed and implied, on the part of Project Co and the Board which are set out in the Project Agreement provided always that true and accurate copies have been delivered to the Independent Tester.
- 3.9 Subject to Clause 3.10, the Independent Tester shall use the following partners, directors or employees:

Ed Baldwin – Partner

John Edwards – Lead Independent Certifier

Christian Darbyshire – Independent Certifier

Glen Thompson – Independent Certifier

Gio Credali – Independent Certifier

in connection with the performance of the Services and such persons' services shall be available when necessary and for so long as may be necessary to ensure the proper performance by the Independent Tester of the Services. Such persons shall have full authority to act on behalf of the Independent Tester for all purposes in connection with the Services.

- 3.10 The Independent Tester may by written notice to the Board and Project Co replace the staff identified in Clause 3.9 taking into account the need for liaison, continuity, level of qualification and availability of personnel in respect of the Project. Such replacement shall be subject to approval in writing by Project Co and the Board (not to be unreasonably withheld or delayed).

#### 4 DURATION

- 4.1 The Services shall commence on the last date of execution of the Project Agreement
- 4.2 The parties hereby agree that this Agreement governs all of the Services (including the Varied Services, if any) provided by the Independent Tester in relation to the Project whether before or after the date hereof.

#### 5 FEE

- 5.1 Project Co shall pay to the Independent Tester a fee of one hundred and ninety thousand five hundred and twenty pounds (£190,520.00) for the Services provided under this Agreement. The fee is exclusive of value added tax and inclusive of disbursements. The Independent Tester shall issue an invoice to Project Co on a monthly basis in accordance with Appendix 2 Section 1 (*Schedule of Drawdown of Fees*) (the “**Application for Payment**”). Five (5) days after the date on which the invoice is received by Project Co shall constitute the due date (the “**Due Date**”). The final date for payment by Project Co shall be thirty (30) days after receipt of the Independent Tester's invoice (the “**Final Date**”). If Varied Services are provided then they shall be paid for in accordance with the agreement between the Independent Tester and the Board and Project Co pursuant to Clause 3.1.
- 5.2 Not later than five (5) days after the Due Date ascertained in accordance with Clause 5.1, Project Co shall give written notice to the Independent Tester stating the amount which Project Co considers to be or have been due at the Due Date and the basis on which the amount is calculated (the “**Payment Notice**”). It is immaterial that the sum referred to in this notice may be zero. If Project Co fails to give a Payment Notice in accordance with this Clause 5.2 and the Independent Tester has given an Application for Payment in accordance with Clause 5.1, subject to any Pay Less Notice given under Clause 5.3, the sum to be paid to the Independent Tester shall be the sum specified in the Application for Payment.
- 5.3 Where Project Co intends to pay less than the sum stated as due pursuant to this

Agreement, Project Co shall, not later than two (2) days before the relevant Final Date, give a written notice to the Independent Tester (a “**Pay Less Notice**”). Such Pay Less Notice shall specify both the sum that Project Co considers to be due to the Independent Tester at the date the notice is given and the basis on which that sum is calculated. It is immaterial that the sum referred to in this Clause 5.3 may be zero. Where any Pay Less Notice is given, the payment to be made on or before the relevant Final Date shall be not less than the amount stated as due in such notice.

- 5.4 If Project Co fails to pay a sum, or any part of it, properly due to the Independent Tester under this Agreement by the relevant Final Date, Project Co shall, in addition to any unpaid amount that should properly have been paid, pay the Independent Tester simple interest on that amount from the Final Date until the actual date of payment at the Default Interest Rate.
- 5.5 If Project Co fails to pay any amount properly due pursuant to this Agreement by the relevant Final Date and the failure continues for twenty one (21) days after the Independent Tester has given notice to Project Co of its intention to suspend performance of all or any of the Services and the ground or grounds on which it is intended to suspend performance, the Independent Tester may suspend performance of any or all of its obligations until payment of the amount properly due is made in full. Any period of suspension of the Services in accordance with this Clause 5.5 shall be disregarded in computing any contractual time limit to complete work directly or indirectly affected by the exercise of the rights conferred by this Clause 5.5 or as the case may be, the time for completion of such work shall be extended by a period equal to the period of suspension.

Where the Independent Tester exercises its right of suspension under this Clause 5.5, it shall be entitled to a reasonable amount in respect of costs and expenses reasonably incurred by it as a result of the exercise of that right. Any such costs and expenses shall be included in the Independent Tester's next Application for Payment and the Independent Tester shall, with its application, submit such details of the costs and expenses as are reasonably necessary to enable the Independent Tester's entitlement to be ascertained.

- 5.6 Without prejudice to Clause 3.5, neither the Board nor Project Co shall issue instructions or do anything which does or is reasonably likely materially to increase the fees payable to the Independent Tester without the prior approval of the other (such approval not to be unreasonably withheld or delayed).
- 5.7 As soon as the Independent Tester becomes aware of the same and before acting on the same the Independent Tester shall inform the Board and Project Co of any instructions given to him pursuant to Clause 3.5 which will or could reasonably be expected to increase the fees payable to the Independent Tester under the terms of this Agreement. The Independent Tester shall if requested by either Project Co or the Board provide both the Board and Project Co with as detailed an estimate as is reasonably practicable of the increase to the fees payable to it if it carries out such instructions. The estimate of increased fees shall be based upon the rates contained in Appendix 2, Section 2 (*Schedule of Daily Rates*).

## 6 LIMITATIONS ON AUTHORITY

- 6.1 The Independent Tester shall not:

6.1.1 make or purport to make any alteration or addition to or omission from the

design of the Facilities and/or the Retained Estate Handback Infrastructure, (including, without limitation, the setting of performance standards) or issue any instruction or direction to any contractor or professional consultant employed or engaged in connection with the Project; or

- 6.1.2 (unless both Project Co and the Board consent in writing) consent or agree to any waiver or release of any obligation of Project Co or the Board under the Project Agreement or of any contractor or professional consultant employed or engaged in connection with the Project.
- 6.2 For the avoidance of doubt, the Independent Tester shall not express an opinion on and shall not interfere with or give any advice, opinion or make any representation in relation to any matters which are beyond its role and responsibilities under this Agreement.

## 7 TERMINATION

- 7.1 Project Co and the Board may by joint notice in writing (a “**Joint Notice**”) immediately terminate this Agreement if the Independent Tester:
- 7.1.1 is in breach of any of the terms of this Agreement which, in the case of a breach capable of remedy, shall not have been remedied by the Independent Tester within twenty one (21) days of receipt by the Independent Tester of a Joint Notice specifying the breach and requiring its remedy;
- 7.1.2 is incompetent, guilty of gross misconduct and/or any material failure, negligence or delay in the provision of the Services and/or its other duties under this Agreement;
- 7.1.3 fails or refuses after written warning to provide the Services and/or its other duties under this Agreement reasonably and as properly required of him; or
- 7.1.4 is subject to an event analogous to any of the events set out in Clause 40.1.1 (*Insolvency*) of the Project Agreement.
- 7.2 If the Project Agreement is rescinded, terminated or repudiated for any reason and, notwithstanding that the validity of such rescission, termination or repudiation may be disputed, this Agreement may be terminated by Joint Notice and with immediate effect.
- 7.3 Following any termination of this Agreement, but subject to any set-off or deductions which Project Co or the Board may be entitled properly to make as a result of any breach of this Agreement by the Independent Tester, the Independent Tester shall be entitled to be paid in full and final settlement of any valid claim which the Independent Tester may have in consequence thereof, any fees due under Clause 5 (*Fee*) above in respect of the Services carried out in accordance with this Agreement prior to the date of termination.
- 7.4 Termination of this Agreement shall be without prejudice to any accrued rights and obligations under this Agreement as at the date of termination (including the right of

Project Co and the Board to recover damages from the Independent Tester).

- 7.5 If this Agreement is terminated in accordance with Clause 7.1, Project Co and the Board shall use reasonable endeavours to engage an alternative Independent Tester within thirty (30) days, subject to Law and public procurement rules. If within such period Project Co and the Board are unable to procure the appointment of an alternative Independent Tester on reasonable commercial terms, the Independent Tester shall pay to Project Co and/or the Board, as the case may be, any reasonable incremental loss, damage or extra costs suffered by each of them.
- 7.6 If Project Co fails to make a payment of any undisputed sum to the Independent Tester within twenty (20) Business Days of the expiry of any notice issued pursuant to Clause 5.5. in respect of such sum, the Independent Tester may issue a further written notice to the Board and Project Co specifying that the payment remains outstanding (the “**Second Notice**”) and if payment is not made within fifteen (15) Business Days of receipt of the Second Notice the Independent Tester may issue a further written notice terminating this Agreement with immediate effect. Failure by Project Co to pay, following receipt of a Second Notice pursuant to this Clause 7.6, shall be the Independent Tester’s sole ground for terminating this Agreement by reason of breach of this Agreement by the Board and/or Project Co.
- 7.7 Termination of this Agreement shall not affect the continuing rights and obligations of Project Co, the Board and the Independent Tester under Clauses 6 (*Limitations on Authority*), 8 (*Confidential Information and Copyright*), 9 (*Professional Indemnity Insurance*), 18 (*Dispute Resolution Procedure*) and this Clause or under any other Clause which is expressed to survive termination or which is required to give effect to such termination or the consequences of such termination.

## 8 CONFIDENTIAL INFORMATION AND COPYRIGHT

- 8.1 The Independent Tester shall treat as secret and confidential and shall not at any time for any reason disclose or permit to be disclosed to any person or otherwise make use of or permit to be made use of any unpublished information relating to Project Co’s or the Board’s or the Contractor’s (if appropriate) technology or other know-how business plans or finances or any such information relating to a subsidiary, supplier, customer or client of Project Co or the Board or the Contractor (if appropriate) where the information was received during the period of this Agreement except as may be reasonably necessary in the performance of the Services. Upon termination of this Agreement for whatever reasons the Independent Tester shall offer to deliver up to Project Co or the Board (as appropriate) all working papers, computer disks and tapes or other material and copies provided to or prepared by him pursuant either to this Agreement or to any previous obligation owed to Project Co or the Board provided always that the Independent Tester shall be entitled to retain copies of all such items where such offer is accepted.
- 8.2 The obligation to maintain confidentiality does not apply to any information or material to the extent that the Independent Tester is compelled to disclose any such information or material by law or any regulatory or Government authority.
- 8.3 The copyright in all reports, and other documents produced by the Independent Tester in connection with the Project shall remain vested in the Independent Tester but the Independent Tester grants to Project Co and Board and their nominees with full title guarantee a non-exclusive irrevocable royalty free licence to copy and use such reports, and other documents and to reproduce the information contained in them for any purpose related to the Project including (but without limitation) the construction,

completion, maintenance, letting, promotion, advertisement, reinstatement, extension and repair of the Project. Such licence shall include a licence to grant sub-licences and to transfer the same to third parties.

- 8.4 The Independent Tester shall not be liable for use by any person of the documents, (including reports, details, plans, specifications, schedules, computer programs, software, consents and any other papers, works, reports and inventions produced by the Independent Tester) for any purpose other than that for which the same were prepared by or on behalf of the Independent Tester.

## **9 PROFESSIONAL INDEMNITY INSURANCE**

- 9.1 Without prejudice to its obligations under this Agreement, or otherwise at law, the Independent Tester shall maintain professional indemnity insurance with a limit of indemnity of not less than ten million pounds (£10,000,000) for any one claim in respect of any neglect, error or omission on the Independent Tester's part in the performance of its obligations under this Agreement for the period commencing on the date of this Agreement and expiring twelve (12) years after:

9.1.1 the date of final certification of the Works; or

9.1.2 the termination of this Agreement,

whichever is the earlier, provided that such insurance is available in the market place at commercially reasonable rates.

- 9.2 The Independent Tester shall maintain such insurance with reputable insurers carrying on business in the United Kingdom.
- 9.3 Any increased or additional premium required by insurers by reason of the Independent Tester's own claims record or other acts, omissions, matters or things particular to the Independent Tester shall be deemed to be within commercially reasonable rates.
- 9.4 The Independent Tester shall as soon as reasonably practicable inform Project Co and the Board if such insurance ceases to be available at commercially reasonable rates in order that the Independent Tester and Project Co and the Board can discuss means of best protecting the respective positions of Project Co and the Board and the Independent Tester in respect of the Project in the absence of such insurance.
- 9.5 The Independent Tester shall fully co-operate with any measures reasonably required by Project Co and the Board including (without limitation) completing any proposals for insurance and associated documents, maintaining such insurance at rates above commercially reasonable rates if Project Co and the Board undertake in writing to reimburse the Independent Tester in respect of the net cost of such insurance to the Independent Tester above commercially reasonable rates.
- 9.6 The Independent Tester shall, prior to commencing the provision of the Services and as soon as reasonably practicable following renewal dates, produce for inspection by Project Co and the Board documentary evidence that such insurance is being properly maintained.

- 9.7 The above obligations in respect of professional indemnity insurance shall continue notwithstanding termination of this Agreement for any reason whatsoever, including (without limitation) breach by Project Co and the Board.

## 10 LIMITATION OF LIABILITY

- 10.1 With the exception of liability for death, personal injury and/or any other liability that cannot lawfully be excluded or limited, the Independent Tester's maximum aggregate liability to all parties, under or in connection with this Agreement, whether in contract or in delict, or for breach of statutory duty is limited to ten million (£10,000,000).
- 10.2 Not Used.
- 10.3 No action or proceedings under or in connection with this Agreement shall be commenced against the Independent Tester after the expiry of twelve years from the earlier of: (a) the completion of the Services; and (b) the termination of this Agreement.

## 11 SUB-CONTRACTOR LOSSES AND NO LOSS AVOIDANCE

- 11.1 Without prejudice to Clause 10 (*Limitation of Liability*) the Independent Tester hereby acknowledges and accepts (a) that a breach or failure on the part of the Independent Tester could have adverse financial consequences for the Sub-Contractors (or any of them) and (b) any losses, damages, costs and/or other liabilities suffered or incurred by the Sub-Contractors (or any of them) (as the case may be) arising from or in connection with any breach or failure on the part of the Independent Tester under this Agreement shall, for the purposes of this Agreement and notwithstanding the provisions of any Sub-Contract, be deemed to be losses, damages, costs and/or liabilities suffered or incurred by Project Co arising from or in connection with such breach or failure.
- 11.2 Where the Independent Tester would otherwise be liable to make a payment by way of compensation to Project Co including amounts which, in turn, comprise compensation to any Sub-Contractor which is payable by Project Co and/or which would be payable by way of compensation to any Sub-Contractor by Project Co the Independent Tester shall not be entitled to withhold, reduce or avoid any such payment to Project Co in reliance (in whole or in part) on the fact that payment of the amount which is or would be due from Project Co to the Sub-Contractor or the entitlement of the Sub-Contractor to receive payment of such amount (as a result of the circumstances giving rise to the Independent Tester's obligation to pay such compensation) is conditional on receipt by Project Co of such amount from the Independent Tester.

## 12 NOTICES

All notices or other communications required in connection with this Agreement shall be in writing and sent by hand, by first class pre-paid post or by facsimile transmission to the relevant address or facsimile number set out in the Project Agreement or in the case of the Independent Tester to its registered office for the attention of the company secretary or to such other address or facsimile number as a party to this Agreement may notify to another party to this Agreement in writing.

**13 ASSIGNATION**

- 13.1 The Independent Tester shall not assign or transfer any of its rights or obligations under this Agreement or sub-contract the whole or any part of the Services.
- 13.2 Neither Project Co nor the Board shall be entitled to assign or transfer any of their respective rights or obligations under this Agreement save that the parties hereby consent to any such assignment or transfer which is contemporaneous to the assignment or transfer of the Project Agreement and is made to the same assignee or transferee. In the event that the Project Agreement is novated to a third party, the term "Project Agreement" shall include any replacement contract arising from such novation.
- 13.3 The Independent Tester shall not be entitled to contend that any person to whom this Agreement is assigned in accordance with Clause 13.2 is precluded from recovering under this Agreement any loss incurred by such assignee resulting from any breach of this Agreement (whenever happening) by reason that such person is an assignee and not a named party under this Agreement.

**14 CUMULATIVE RIGHTS AND ENFORCEMENT**

- 14.1 Any rights and remedies provided for in this Agreement whether in favour of Project Co or the Board or the Independent Tester are cumulative and in addition to any further rights or remedies which may otherwise be available to the parties.
- 14.2 The duties and obligations of the Independent Tester arising under or in connection with this Agreement are owed to Project Co and the Board both jointly and severally and Project Co and the Board may accordingly enforce the provisions hereof and pursue their respective rights hereunder in their own name, whether separately or with each other.
- 14.3 Project Co and the Board covenant with each other that they shall not waive any rights, remedies or entitlements or take any other action under this Agreement which would or might reasonably be expected to adversely affect the rights, remedies or entitlements of the other without the other's prior written consent, such consent not to be unreasonably withheld or delayed.

**15 WAIVER**

The failure of any party at any one time to enforce any provision of this Agreement shall in no way affect its right thereafter to require complete performance by any other party, nor shall the waiver of any breach or any provision be taken or held to be a waiver of any subsequent breach of any provision or be a waiver of the provision itself.

**16 SEVERABILITY**

In the event that any term, condition or provision contained in this Agreement shall be held to be invalid, unlawful or unenforceable to any extent, such term, clause or provision shall, to that extent, be omitted from this Agreement and the rest of this Agreement shall stand, without affecting the remaining clauses.

## APPENDIX 1

## SCOPE OF SERVICES - INDEPENDENT TESTER CONTRACT

The Independent Tester shall perform the role of Independent Tester as referred to in Clauses 17 (*Pre-Completion Commissioning and Completion*), 18 (*Post Completion Commissioning*) and 19 (*Fossils and Antiquities*) (including complying with any time limits specified in such Clauses) and Schedule Part 6 (*Construction Matters*), Schedule Part 7 (*The Programme*), Schedule Part 8 (*Review Procedure*), Schedule Part 10 (*Outlining Commissioning Programme*), Schedule Part 11 (*Equipment*) and Schedule Part 17 (*Compensation on Termination*) of the Project Agreement, by providing the following scope of Services:

## 1 MONTHLY REPORT AND COMPLETION CERTIFICATION

The Independent Tester shall:

- 1.1 During the Works, attend monthly site progress meetings and provide the Board and Project Co with a monthly report on the activities carried out by the Independent Tester.
- 1.2 Undertake regular inspections during the Works, as necessary, in accordance with the Project Agreement. Report on the completion status of the Project, identifying any work that is not compliant with the Board's Construction Requirements, Project Co's Proposals, the Approved Reviewable Design Data (Approved RDD) and/or the Completion Criteria.
- 1.3 Provide details of any tests carried out by Project Co together with results obtained during that period.
- 1.4 Certify the Actual Completion Date and issue a Certificate of Practical Completion in accordance with the Project Agreement.
- 1.5 Within five (5) Business Days of issue of the Certificate of Practical Completion, issue a Snagging Notice specifying any Snagging Matters. Monitor and review rectification of such Snagging Matters in accordance with the Project Agreement.
- 1.6 Review the programme for the rectification of all Snagging Matters to be carried out and advise Project Co and the Board as appropriate.
- 1.7 And in order to enable the Independent Tester to discharge these primary functions which are to be performed independently, fairly and impartially to and as between Project Co and the Board and having regard to the interests of Funders, the Secured Creditors, the Security Trustee and the Intercreditor Agent, the Independent Tester shall discharge the further duties described below.
- 1.8 Monitor the Works against the required standards of construction quality and Reviewable Design Data.
- 1.9 Monitor the Works for compliance with the Board Construction Requirements and Project Co's Proposals and compliance with Law.

1.10 Provide details of Project Co's compliance with the Quality Plans.

## 2 GENERAL

The Independent Tester shall:

- 2.1 Familiarise itself with the Project Agreement (including the Design Data, the Design Quality Plan, the Construction Quality Plan, Schedule Part 11 (*Equipment*) of the Project Agreement and any Changes issued from time to time and any other relevant documentation or information referred to in the Project Agreement, relevant Service Level Specification and Method Statements) and the Construction Contract to the extent necessary to enable it to provide a report to the Board and Project Co on any contradictory requirements contained within the same and to be in a position to carry out the Services in accordance with the terms of the Project Agreement and this Agreement. Prior to the Commencement Date the Independent Tester shall prepare and issue to the Board and Project Co a project execution plan ("PEP") to include a detailed execution methodology for undertaking the Services including the following; (i) proposed team and duties for each team member; (ii) proposed programme for site visits detailing key inspections; (iii) monthly report template including standard format and items to be covered; and (iv) detailed project specific procedures for undertaking the Services.
- 2.2 Following notification by Project Co, pursuant to Clauses 17.8 (*Commissioning prior to Completion Date*) and 17.10 (*Pre-Completion inspection*) of the Project Agreement, inspect and comment as required on the Works as required by the Completion Process.
- 2.3 Undertake monthly inspections in accordance with the Programme and Final Commissioning Programme.
- 2.4 Identify any delays in the Programme and/or Final Commissioning Programme, any non-compliance by Project Co and any other quality control matters.

## 3 DESIGN REVIEW

The Independent Tester shall:

- 3.1 Monitor and report upon the implementation of the Design Quality Plan for the construction, structural and engineering services design for the Project.
- 3.2 Monitor the detailed working drawings and specifications for a sample number and type of rooms which in his professional judgment is appropriate to be selected by the Independent Tester to verify that they comply with the Approved RDD as described in the Project Agreement. The Independent Tester has indicated that in normal circumstances twenty-five percent (25%) of rooms should be sampled. If in the professional judgment of the Independent Tester, because of the results of its sample or other circumstances a different sampling percentage is appropriate, he shall provide a detailed report in respect of that and, if so agreed (or determined as between Project Co and the Board by the Dispute Resolution Procedure) any change in the percentage sampling resulting in a change in fees will be borne by Project Co and the Board as they shall agree or as determined by the Dispute Resolution Procedure.

- 3.3 Review the detailed design information for any approved design or specification variations for compliance with the performance and quality standards of the Project Agreement, and quality standards as set out in the and the Contractor's Quality Plan.

#### 4 PROCEDURE REVIEW

The Independent Tester shall:

- 4.1 Monitor the operation of the quality assurance procedures of the Contractor at monthly intervals during the execution of the Works.
- 4.2 The Independent Tester shall familiarise itself with the proposed procedures and programmes for the testing and commissioning of the Mechanical and Electrical engineering services prior to the Board's occupation.
- 4.3 Monitor the procedures for the identification, approval and recording of agreed Changes to the Works in accordance with the Project Agreement.
- 4.4 Review any samples or mock ups as required by Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) and Schedule Part 8 (*Review Procedure*) and check that they have been approved in accordance with the Project Agreement.

#### 5 CONSTRUCTION REVIEW

The Independent Tester shall:

- 5.1 Visit the Site and Off-Site and monitor the Works for their compliance with the Project Agreement, the Completion Criteria, the Board's Construction Requirements, Project Co's Proposals and the Approved RDD. The frequency and timing of the Independent Tester's visits are dependent on the progress of construction on Site and Off-Site. The Contractor shall agree a programme with the Independent Tester for the inspection of key construction processes and the completed Works and shall give the Independent Tester advance notice of these Works being carried out on Site and Off-Site. The Independent Tester shall identify any aspect of the Works which needs to be inspected before being covered over by subsequent activity so that he may satisfy himself that these have been constructed in accordance with the Contractor's Quality Plan without the need for opening up.
- 5.2 Randomly check that the Works are being undertaken in accordance with the Construction Quality Plan that has been agreed by the Board and Project Co.
- 5.3 Review the written Mechanical and Electrical engineering services testing and commissioning procedure. Undertake selective witnessing of the Mechanical and Electrical services testing and commissioning. The Independent Tester has indicated that these sampling proportions should amount to approximately fifty percent (50%). The Independent Tester shall review one hundred percent (100%) of all test results. If in the professional judgment of the Independent Tester, because of the results of witnessing (or because of other circumstances) a different sampling percentage is appropriate he shall provide a detailed report in respect of that and any change in the percentage sampling resulting in a change of fees will be borne by Project Co, the Board or the Contractor as they shall agree, failing such agreement, as determined by

the Dispute Resolution Procedure.

- 5.4 Inspect rectification works which have previously prevented the Independent Tester from certifying the Project as complete. Concurrent with the issue of the Certificate of Practical Completion, agree a list of Snagging Matters with the Board and Project Co together with its programme for implementation and issue a Snagging Notice in accordance with Clause 17.14 (*Completion Certificate*) of the Project Agreement.
- 5.5 Check the production of the relevant operating manuals, relevant approvals, test results, inspection records and as built drawings and monitor the timely handover of this documentation.

## **6 PARTICIPATION IN DISPUTE RESOLUTION**

As and when required by the Board or Project Co, the Independent Tester shall participate in the Dispute Resolution Procedure of the Project Agreement (as such term is defined in the Project Agreement) to the extent that issues under the Project Agreement which have been referred to the said Dispute Resolution Procedure relate to the Independent Tester's other obligations and tasks as set out in this Appendix 1 and this Agreement.

## APPENDIX 2

## SECTION 1

## SCHEDULE OF DRAWDOWN OF FEES

**FEE BREAKDOWN  
(excluding VAT)**

Drawdown Fee per Month

## SCHEDULE OF DAILY RATES

**Daily Rates for Provision of Additional Services****Grade Daily Rate (£)**

Partner	£ 1,240.00
Lead Independent Tester	£ 1,064.00
Independent Tester	£ 712.00
Service Expert (Structural Engineering, ICT, Medical Equipment)	£ 768.00
Technical Support	£ 352.00

**SCHEDULE PART 14**

**PAYMENT MECHANISM**

**SECTION 1  
INTERPRETATION**

In this Schedule Part 14 (*Payment Mechanism*) and elsewhere in this Agreement (save where Schedule Part 1 (*Definitions and Interpretation*) provides to the contrary) the following words shall have the following meanings:

- “Annual Service Payment”** means the sum in pounds sterling calculated in accordance with paragraph 2 (*Annual Service Payment*) of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*);
- “Availability Failure”** subject to Section 4 (*Temporary Repairs*) of this Schedule Part 14 (*Payment Mechanism*), means a Service Event which has not been Rectified within the relevant Rectification Period and which causes a Functional Area to be Unavailable;
- “Availability Standards”** means the service requirements identified as such, set out in the Service Level Specification;
- “Consequential Unavailable Areas”** means, in relation to a Functional Area affected by an Availability Failure, the Functional Area(s) (if any) listed against that Functional Area in the column headed “Consequential Unavailable Areas” in Appendix 2 to this Schedule Part 14 (*Payment Mechanism*);
- “Deduction Period” or “DP”**
- (a) where the relevant Performance Failure or Availability Failure arises following a Service Event in respect of which a Rectification Period is specified in the Availability Standards or the Performance Standards, as applicable, the Deduction Period shall equal the number of Sessions that elapse from and including the Session during which the Service Failure Time occurs to, and including, the Session on which the Logged Rectification Time occurs; and
  - (b) where the relevant Performance Failure arises following a Service Event in respect of which no Rectification Period is specified in the Performance Standards, as applicable, the Deduction Period shall equal 1;
- “External Utility Failure”** means a failure in:
- (a) the supply of gas, electricity, water, telephone or telecommunications services to the Site; or
  - (b) the service and facility of discharging water and sewerage from the Site,
- where such failure originates on the side of the relevant Utility Point that is owned or controlled by the relevant utility provider and provided that such failure has not arise as a result of an act or omission of Project Co or a Project Co Party;
- “Gross Monthly Availability Deduction”** means, for Contract Month "n", the amount in pounds sterling calculated by the formula:

$SUR \times SUF \times Sessions_n$

where  $Sessions_n$  is the number of Sessions in Contract Month $_n$ ;

<b>“Gross Service Units” or “GSUs”</b>	means the number of service units attributed to each Functional Area as set out in Appendix 2 to this Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Helpdesk”</b>	means the helpdesk facilities established by Project Co Pursuant to the Service Level Specification;
<b>“Indexation Factor” or “IF”</b>	means 26%;
<b>“Logged Rectification Time”</b>	means the time which is shown in the Helpdesk records maintained by Project Co in accordance with the Service Level Specification as being the time when a Service Event was Rectified or Remedied, as the case may be, or, in the event that a failure affecting the Helpdesk occurs, as shown on the manual Helpdesk records maintained by Project Co;
<b>“Logged Report Time”</b>	means the date and time which is shown in the Helpdesk records maintained by Project Co in accordance with the Service Level Specification as being the date and time at which a Service Report was received by the Helpdesk or, if a failure affecting the Helpdesk occurs, as shown on the manual Helpdesk records maintained by Project Co;
<b>“Major Performance Failure”</b>	means a Performance Failure which has been designated as such in the Service Level Specification or in this Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Medium Performance Failure”</b>	means a Performance Failure which has been designated as such in the Service Level Specification or in this Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Minimum Agreed Availability Standards”</b>	means the minimum standards with which a Functional Area must comply, as agreed between the Board and Project Co, for the period until a Permanent Repair can be undertaken;
<b>“Minimum Availability Deduction”</b>	means, in any Contract Year "n", an amount in pounds sterling calculated using the following formula:

$$MAD_n = MAD_o \times (1 - IF) + \left( (MAD_o \times IF) \times \left( 1 + \frac{(RPI_n - RPI_o)}{RPI_o} \right) \right)$$

where

**MAD<sub>n</sub>** is the Minimum Availability Deduction applicable for the relevant Contract Year;

**MAD<sub>o</sub>** is £50 or, where the relevant Functional Area is Unavailable but Used, is £25;

**RPI<sub>n</sub>** is the value of the Retail Price Index published or determined with respect to the month of February which most recently precedes the relevant Contract Year; and

**RPI<sub>o</sub>** is the value of the Retail Price Index published or

determined with respect to the Base Date;

- “Minor Performance Failure”** means a Performance Failure which has been designated as such in the Service Level Specification or in this Schedule Part 14 (*Payment Mechanism*);
- “Monthly Service Payment”** means the sum in pounds sterling calculated in accordance with paragraph 1 of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*);
- “Patient Bed Lifts”** means those Functional Areas identified as such in Appendix 2 to this Schedule Part 14 (*Payment Mechanism*) including rooms BD-003, BD-004, BD-005, BD-001, and BD-002;
- “Pass Through Costs” or “PTC”** means costs payable to Project Co pursuant to Section 6 (*Pass Through Costs*) of this Schedule Part 14 (*Payment Mechanism*);
- “Performance Failure”** subject to Section 4 (*Temporary Repairs*) of this Schedule Part 14 (*Payment Mechanism*), means a Service Event relating to a Performance Standard which has not been Rectified within the relevant Rectification Period (if any);
- “Performance Standards”** means the service requirements identified as such, set out in the Service Level Specification;
- “Permanent Repair”** means Rectification following the agreement of a Temporary Repair;
- “Permanent Repair Deadline”** has the meaning given in paragraph 1.2 of Section 4 (*Temporary Repairs*) of this Schedule Part 14 (*Payment Mechanism*);
- “Rectification”** means, following the occurrence of a Service Event, making good the Service Event so that the subject matter of the Service Event complies with the levels of Service required pursuant to this Agreement which shall, without prejudice to the generality of the foregoing, include (a) restoring all functional capability and (b) ensuring that any Functional Area which has been affected by the relevant Service Event complies with the Availability Standards and the Performance Standards, as applicable, and “Rectify” and “Rectifying” shall be construed accordingly;
- “Rectification Period”** means, where applicable, the period of time specified in the Availability Standards or the Performance Standards, as the case may be, allowed for the Rectification of the relevant Service Event, which period shall commence at the Logged Report Time, provided that, subject to Project Co having promptly notified the Board’s Representative of the fact and having recorded the same on the Helpdesk system, the Rectification Period shall be extended by any period during which Project Co was prevented or interrupted by the Board and/or any Board Party from Rectifying any failure to meet the Availability Standards or Performance Standards;
- “Remedial Period”** means, where applicable, the period of time specified in the Performance Standards within which Project Co must Remedy a Service Event;
- “Remedy”** means the actions or tasks, detailed in the column headed Remedial Period/Remedy in the Performance Standards, required to remedy a Performance Failure and “**Remedied**” shall be construed accordingly;

<b>“Service Event”</b>	means an incident or state of affairs which does not meet or comply with the Performance Standards and/or does not satisfy the Availability Standards;
<b>“Service Failure Time”</b>	means the date and time when a Service Event becomes a Performance Failure or an Availability Failure, as the case may be;
<b>“Service Report”</b>	has the meaning given in Section 1 ( <i>Service Level Specification</i> ) of Schedule Part 12 ( <i>Service Requirements</i> );
<b>“Service Unit Rate” or “SUR”</b>	means, for Contract Year “n”, the amount in pounds sterling calculated by the formula:

$$SUR = \left( \frac{ASP_n}{SUF \times TSS} \right)$$

where:

**ASP<sub>n</sub>** is the Annual Service Payment for Contract Year “n” calculated in accordance with paragraph 2 of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*); and

**TSS** is the number of Sessions in Contract Year “n”;

<b>“Service Units Affected” or “SUA”</b>	means the aggregate of the GSUs of the Functional Areas affected by an Availability Failure and the GSUs of the Consequential Unavailable Areas (if any) related to those Functional Areas, as determined by Appendix 2 to this Schedule Part 14 ( <i>Payment Mechanism</i> );
<b>“Service Units of the Facilities” or “SUF”</b>	means a value equal to 12,917;
<b>“Session”</b>	means a period of 8 hours, beginning at 6am, 2pm and 10pm in each 24-hour period;
<b>“Temporary Repair”</b>	means, in respect of the occurrence of a Service Event, works of a temporary nature that do not constitute Rectification but satisfy the Minimum Agreed Availability Standards and substantially make good the relevant Service Event for the period until a Permanent Repair can be undertaken;
<b>“Unavailable”</b>	means in relation to a Functional Area that such Functional Area is in a state or condition which does not comply with any one or more of the Availability Standards;
<b>“Unavailable but Used”</b>	means in relation to any Functional Area that it is Unavailable but is used by the Board for its normal purpose at any time (apart from the purposes of evacuating the Functional Areas and the time taken for such evacuation) including for the avoidance of doubt, for the provision of Board Services during which it would otherwise be Unavailable;
<b>“Utility Point”</b>	means the point at which ownership and/or control of each relevant utility passes from Project Co or a Project Co Party to the relevant utility provider as shown on the drawing:

- (a) proposed site plan "Gas, MWS & Fire Mains Services Layout (drawing reference WW-EW-XX-PL-750-001-Rev

01); and

- (b) proposed new Scottish Power substation and high voltage cable route (drawing reference WW-EW-XX-PL-755-001 Rev 02),

both as set out in Section 4.9.of Part 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*).

## SECTION 2

## CALCULATION OF SERVICE PAYMENTS

## 1. MONTHLY SERVICE PAYMENT

- 1.1 Calculate the Monthly Service Payment payable in respect of a Contract Month “n” using the following formula:

$$MSP_n = \left( \frac{ASP_n}{12} \right) - \sum D_{n-2} + PTC$$

where:

**MSP<sub>n</sub>** is the Monthly Service Payment for the Contract Month n;

**ASP<sub>n</sub>** is the Annual Service Payment for the Contract Year in which Contract Month n occurs, calculated in accordance with paragraph 1.2 below;

**ΣD** is the sum of Deductions in respect of performance of the Services during the Contract Month that was 2 months prior to Contract Month n as shown in the Monthly Service Report for that Contract Month and calculated in accordance with the provisions set out in Section 3 (*Deductions from Monthly Service Payments*) of this Schedule Part 14 (*Payment Mechanism*);

**PTC** means any Pass Through Costs due for which supporting uncontested invoices from Project Co’s suppliers are available;

- 1.2 In the Contract Month in which the Payment Commencement Date falls, unless the Payment Commencement Date is the first day of that Contract Month, and in the last Contract Month of the Project Term, unless the last day of the Project Term is the last day of that Contract Month, adjust  $ASP_n$  for the purposes of paragraph 1.1 above pro rata to reflect the actual number of days in the relevant Contract Month from and including the Payment Commencement Date (for the first month) and (for the last month) up to and including the last day of the Project Term (for the last month).

## 2. ANNUAL SERVICE PAYMENT

Calculate the Annual Service Payment for any Contract Year “n” using the following formula:

$$ASP_n = ASP_0 x (1 - IF) + \left[ (ASP_0 x IF) x \left[ 1 + \frac{(RPI_n - RPI_0)}{RPI_0} \right] \right]$$

where:

**ASP<sub>n</sub>** is the Annual Service Payment for the relevant Contract Year;

**ASP<sub>0</sub>** is the value for ASP<sub>0</sub> stated in Appendix 1 to this Schedule Part 14 (*Payment Mechanism*) (being the Annual Service Payment at the Base Date), subject to any

adjustments made from time to time in accordance with any express provision of this Agreement;

$RPI_n$  is the value of the Retail Prices Index published or determined with respect to the month of February which most recently precedes the relevant Contract Year; and

$RPI_0$  is the value of the Retail Prices Index published or determined with respect to the Base Date.

## SECTION 3

### DEDUCTIONS FROM MONTHLY SERVICE PAYMENTS

#### 1. ENTITLEMENT TO MAKE DEDUCTIONS

- 1.1 If at any time after the Payment Commencement Date an Availability Failure or a Performance Failure occurs the Board will be entitled, subject to paragraphs 1.2 and 1.4 of this Section 3 (*Deductions from Monthly Service Payments*) and paragraph 1 of Section 4 (*Temporary Repairs and Alternative Accommodation*), to make Deductions in calculating the Monthly Service Payment in respect of that Availability Failure or Performance Failure, calculated in accordance with this Section 3 (*Deductions from Monthly Service Payments*) of Schedule Part 14 (*Payment Mechanism*).
- 1.2 In calculating the Monthly Service Payment for Contract Month "n", the maximum aggregate of all Deductions that the Board may make in respect of Contract Month "n-2" is the Gross Monthly Availability Deduction for Contract Month "n-2".
- 1.3 In any Contract Month where the value of  $\sum D_{n-2}$  exceeds the value of  $ASP_n/12$ , the Monthly Service Payment due by the Board shall be an amount equal to PTC for that Contract Month but the Board shall, in calculating the Monthly Service Payment in respect of the following and (to the extent necessary) any subsequent Contract Months, be entitled to carry forward and set off the amount of such excess against the amount by which the value of  $ASP_n/12$  exceeds the value of  $\sum D_{n-2}$  (as such values are calculated in the following Contract Month and (to the extent necessary) any subsequent Contract Months) until the amount of such excess has been set-off in full. To the extent that any such excess has not been set off as at the earlier to occur of the Expiry Date and the Termination Date, then an amount equal to such excess shall be immediately due and payable by Project Co to the Board.
- 1.4 To the extent that an Availability Failure or a Performance Failure:
- 1.4.1 is the result of an Excusing Cause; or
- 1.4.2 is the result of an External Utility Failure,
- the Board shall not be entitled to make Deductions.
- 1.5 To the extent that an Availability Failure or a Performance Failure is the result of:
- 1.5.1 a Relief Event; or
- 1.5.2 an event of Force Majeure,
- the Board shall be entitled to make Deductions but any such Deductions shall be disregarded for the purposes of Clause 24.3 (*Grounds for Warning Notices*) and Clause 40.1.8 (*Deductions*).

#### 2. DEDUCTIONS FOR PERFORMANCE FAILURES

- 2.1 Subject to paragraphs 1 (*Entitlement to make Deductions*) and 5 (*Repeated Failures*) of this Section 3 (*Deductions from Monthly Service Payments*), the amount of the Deduction in respect of a Performance Failure is calculated using the following formula:

$$D = PFD \times DP$$

where:

**D** means the amount (in pounds sterling) of the Deduction in respect of the Performance Failure; and

**PFD** means:

- (a) in the case of a Minor Performance Failure, the sum of £30, index linked;
- (b) in the case of a Medium Performance Failure, the sum of £75, index linked;
- (c) in the case of a Major Performance Failure, the sum of £200, index linked;

2.2 In the case of a Service Event for which no Rectification Period is specified in the Performance Standard, a Performance Failure occurs immediately upon the occurrence of the Service Event and, if it is not Remedied within the relevant Remedial Period, it will reoccur at the expiry of the Remedial Period and the Remedial Period shall recommence and so on until such time as the Performance Failure has been Remedied.

2.3 No Deduction may be made by the Board from the Monthly Service Payment for the relevant Contract Month in respect of any Minor Performance Failure if the total number of Minor Performance Failures which have occurred in the relevant Contract Month is not more than 5. Where two or more Performance Failures occur in a Functional Area during a Session, only the Performance Failure that results in the highest Deduction will apply.

### 3. DEEMED PERFORMANCE FAILURES

If Project Co fails to monitor or accurately report a Service Event, a Performance Failure or an Availability Failure then, without prejudice to the Deduction to be made in respect of the relevant Performance Failure or Availability Failure (if any), the failure to monitor or report the Service Event, Performance Failure or Availability Failure will be deemed to be a new Medium Performance Failure unless the circumstances set out in paragraph 6 of Section 5 (*Failure by Project Co to Monitor or Report*) apply, in which case there shall be deemed to be a new Major Performance Failure.

### 4. DEDUCTIONS FOR AVAILABILITY FAILURES

4.1 Subject to paragraphs 1 (Entitlement to make Deductions) and 5 (*Repeated Failures*) of this Section 3 (*Deductions from Monthly Service Payments*), and subject also to paragraph 4.2, paragraph 4.3 and paragraph 4.4 below where applicable, the amount of the Deduction in respect of an Availability Failure is the higher of:

4.1.1 the Minimum Availability Deduction x DP; and

4.1.2 an amount calculated in accordance with the following formula:

$$D = SUA \times SUR \times DP$$

where:

**D** means the amount (in pounds sterling) of the Deduction in respect of the Availability Failure

- 4.2 Where the relevant Functional Area is Unavailable but Used the Deduction for the Availability Failure shall be reduced by 50%.
- 4.3 The number of GSUs applicable to a Patient Bed Lift that is affected by an Availability Failure shall be multiplied by 1.5 in each Session in which (whether resulting from the same Service Event or different Service Events) 2 or 3 other Patient Bed Lifts have also been affected by an Availability Failure.
- 4.4 The number of GSUs applicable to a Patient Bed Lift that is affected by an Availability Failure shall be multiplied by 3 in each Session in which (whether resulting from the same Service Event or different Service Events) 4 other Patient Bed Lifts have also been affected by an Availability Failure.

## 5. REPEATED FAILURES

Subject to paragraph 1 (*Entitlement to make Deductions*) of this Section 3 (*Deductions from Monthly Service Payments*) and paragraph 5A below if:

- 5.1 a Performance Failure in respect of the same Performance Standard (other than a Performance Failure in respect of Performance Standard FM71 that relates to a Service Event that is either Routine or Important); or
- 5.2 an Availability Failure in respect of the same Availability Standard,

occurs 3 or more times in a rolling period of 3 consecutive Contract Months, then the Deduction calculated pursuant to paragraph 2 (*Deductions for Performance Failures*) or paragraph 4 (*Deductions for Availability Failures*) of this Section 3 (*Deductions from Monthly Service Payments*) for the 4th and each subsequent such Performance Failure and/or the 4th and each subsequent such Availability Failure during the relevant period of 3 consecutive Contract Months shall be multiplied by 1.5.

- 5A Subject to paragraph 1 (*Entitlement to make Deductions*) of this Section 3 (*Deductions from Monthly Service Payments*) if in respect of Performance Standard FM71 21 or more Performance Failures relating to Service Events that are Routine and/or 15 or more Performance Failures relating to Service Events that are Important occur in a rolling period of 3 consecutive Contract Months, then the Deduction calculated pursuant to paragraph 2 (*Deductions for Performance Failures*) of this Section 3 (*Deductions from Monthly Service Payments*) for the 22<sup>nd</sup> or 16<sup>th</sup> (respectively) and each subsequent such Performance Failure during the relevant period of 3 consecutive Contract Months shall be multiplied by 1.5.

## 6. REPEATED RECTIFICATION

If four or more Service Events occur in any rolling seven day period and:

- 6.1 each such Service Event is in connection with the same Performance Standard or Availability Standard;
- 6.2 each such Service Event affects the same Functional Area; and
- 6.3 there is good reason to believe that the root cause of each such Service Event is the same

then, notwithstanding paragraph 2.3 and notwithstanding that Project Co achieves Rectification of the Service Events within the relevant Rectification Period, there will be deemed to be a Major Performance Failure.

## 7. EFFECT OF UNAVAILABILITY ON OTHER DEDUCTIONS

- 7.1 Subject to paragraphs 7.2 and 7.3, if a Performance Failure occurs affecting a Functional Area and the Service Event giving rise to the Performance Failure also gives rise to an Availability

Failure affecting that Functional Area, only the deductions for the Availability Failure apply.

- 7.2 If an Availability Failure affects a Functional Area and the Board does not continue to use that Functional Area, the Board shall not, until Rectification of that Availability Failure, be entitled to make further Deductions in respect of that Functional Area other than in respect of the Availability Failure.
- 7.3 If a Functional Area is Unavailable but Used, the Board will be entitled to make Deductions in respect of any Performance Failures affecting that Functional Area.

## SECTION 4

## TEMPORARY REPAIRS

1. If Project Co informs the Board that it is unable to Rectify a Service Event within the specified Rectification Period due to the need for specialised materials or personnel that are not, and cannot reasonably be expected to be, immediately available at the Facilities but that a Temporary Repair can be effected:
  - 1.1 Project Co may carry out the Temporary Repair proposed by Project Co unless the Board, acting reasonably, considers that, if the Temporary Repair proposed by Project Co is carried out, the relevant Functional Area will not be fit for use for the Board Services for which it is normally used; and
  - 1.2 where a Temporary Repair is permitted pursuant to paragraph 1.1, the Board and Project Co must act reasonably to agree a date and time (the "**Permanent Repair Deadline**") by which a Permanent Repair must be made, giving Project Co a reasonable period within which to carry out the Permanent Repair.
2. During any period beginning at the time when a Temporary Repair has been approved by the Board and ending at the earlier of:
  - 2.1 the time at which a Permanent Repair is successfully completed; and
  - 2.2 the Permanent Repair Deadline,

the Availability Standards will be replaced by the Minimum Agreed Availability Standards.
3. If an agreed Temporary Repair is completed by Project Co before the Permanent Repair Deadline and results in the Functional Area affected by the relevant Service Event satisfying the Minimum Agreed Availability Standards, the date and time shown in the Helpdesk records maintained by Project Co in accordance with the Service Level Specification as being the date and time when the Temporary Repair was completed (or, in the event that a failure affecting the Helpdesk occurs, as shown on the manual Helpdesk records maintained by Project Co as being the date and time when the Temporary Repair was completed) shall be deemed to be the Logged Rectification Time for that Service Event for the purpose of determining the value of DP in the formula in paragraph 4 (*Deductions for Availability Failures*) in Section 3 (*Deductions from Monthly Service Payments*) of this Schedule Part 14 (*Payment Mechanism*).
4. If the Permanent Repair is not carried out by the Permanent Repair Deadline, a Performance Failure or, as the case may be, an Availability Failure, will occur at that date and time and the provisions of paragraph 2 (*Deductions for Performance Failures*), paragraph 4 (*Deductions for Availability Failures*) and, if applicable, paragraph 5 (*Repeated Failures*) of Section 3 (*Deductions from Monthly Service Payments*) of this Schedule Part 14 (*Payment Mechanism*) shall apply.

## SECTION 5

## FAILURE BY PROJECT CO TO MONITOR OR REPORT

1. Subject to paragraphs 2 to 4 inclusive of this Section 5 (*Failure by Project Co to Monitor or Report*), the Performance Monitoring Report produced by Project Co for any Contract Month shall be the source of the factual information regarding the performance of the Services for the relevant Contract Month for the purposes of calculating the Deductions pursuant to Section 3 (*Deductions from Monthly Service Payments*) of this Schedule Part 14 (*Payment Mechanism*).
2. Either party may give written notice to the other if it believes there is an error or omission in a Monthly Service Report provided that, save in the circumstances referred to in paragraph 6 below, such notice must be given before the end of the Contract Month that falls two Contract Months after the Contract Month in which the relevant Monthly Service Report was submitted by Project Co. The parties shall endeavour to agree the amendments required to rectify the error or omission (if any) within ten (10) Business Days of notice being given in accordance with this paragraph 2, failing which either party may, on giving written notice to the other, refer the matter to the Dispute Resolution Procedure.
3. Where Project Co fails to monitor or accurately to report a Performance Failure or an Availability Failure in the circumstances referred to in paragraph 6 of this Section 5 (*Failure by Project Co to Monitor or Report*), for the purposes of paragraph 1 of Section 1 (*General Requirements*) of Schedule Part 19 (*Record Provisions*) the Board shall be deemed to have reasonable cause to require that Project Co shall make available to the Board for inspection such of the records referred to in paragraphs 10 and 11 of Section 2 (*Records to be Kept*) of Schedule Part 19 (*Record Provisions*) as the Board may specify.
4. Project Co shall upon submission of a valid invoice pay to the Board a sum equal to the costs reasonably incurred by the Board in carrying out any inspection and investigation of records made available pursuant to paragraph 3 above.
5. In the event that the Board's inspection or investigation of records made available pursuant to paragraph 3 above reveals any further matters of the types referred to in paragraphs 2 and 3 above, those matters shall be dealt with in accordance with paragraph 2 or 3 as appropriate and the Board shall, in addition, be entitled to make Deductions in respect of any Performance Failures or Availability Failures in the manner prescribed Section 3 (*Deductions from Monthly Service Payments*) of this Schedule Part 14 (*Payment Mechanism*). The Monthly Service Payment for the Contract Month in which any such Deduction would (but for the error or omission in the Performance Monitoring Report) have been made shall be re-calculated to take account of such Deduction and the amount of such Deduction shall be immediately due and payable by Project Co to the Board together with interest at the Default Interest Rate from the date on which the Board paid the Monthly Invoice for the relevant Contract Month until the date on which payment is made by Project Co.
6. For the purposes of paragraphs 2 and 3 of this Section 5 (*Failure by Project Co to Monitor or Report*) the relevant circumstances are:
  - 6.1 fraudulent action or inaction; or
  - 6.2 deliberate misrepresentation; or
  - 6.3 gross misconduct or gross incompetence,
 in each case on the part of Project Co or a Project Co Party.

The provisions of this Section 5 (*Failure by Project Co to Monitor or Report*) shall be without prejudice to any rights of the Board in this Agreement pursuant to Clause 24 (*Monitoring of Performance*), Clause 40 (*Project Co Events of Default*) and Clause 44 (*Corrupt Gifts and Payments*).

**SECTION 6****PASS THROUGH COSTS****1. UTILITY CHARGES**

- 1.1 Project Co may include charges for Utilities in the Monthly Service Payment in accordance with paragraph 1.1 of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*) on the basis of costs reasonably incurred by Project Co and supported by an appropriate invoice from Project Co's suppliers.
- 1.2 The Board is responsible for all connection, line rental and usage telephone charges.

**2. RATES**

Project Co may include local authority rates in the Monthly Service Payment in accordance with paragraph 1.1 of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*) on the basis of the cost incurred by Project Co and supported by an appropriate invoice from the relevant local authority.

**3. OPERATIONAL INSURANCE PREMIUMS**

- 3.1 Subject to paragraph 3.2, Project Co may include the premiums paid by Project Co to take out and maintain the Operational Insurances in accordance with Clause 53 (*Insurance*) in the Monthly Service Payment in accordance with paragraph 1 (*Monthly Service Payment*) of Section 2 (*Calculation of Service Payments*) of this Schedule Part 14 (*Payment Mechanism*) on the basis of the cost incurred by Project Co and supported by an appropriate premium notices from the relevant insurer.
- 3.2 There shall be excluded from the premiums referred to in paragraph 3.1, a sum equal to any portion of the premiums attributable to any issue or factor other than: (i) circumstances generally prevailing in the relevant insurance market; and/or (ii) circumstances attributable to malicious damage to the Facilities; and/or (iii) the claims history of the Board or any Board Party.

**APPENDIX 1**  
**ANNUAL SERVICE PAYMENTS AT BASE DATE**

£15,426,840.77

**APPENDIX 2**

**FUNCTIONAL AREAS AND GSUs**

The Functional Areas and GSUs are the Functional Areas and GSUs as set out on the disc in the Agreed Form identified and executed as the Appendix 2 (*Functional Areas and GSUs*) of Schedule Part 14 (*Payment Mechanism*) of this Agreement, referred to in and forming part of this Agreement.

**SCHEDULE PART 15**  
**INSURANCE REQUIREMENTS**

**SECTION 1**

**POLICIES TO BE TAKEN OUT BY PROJECT CO AND MAINTAINED DURING THE DESIGN AND CONSTRUCTION PHASE**

**Policies to be taken out by Project Co and maintained during the design and construction phase.**

Common to each policy in Section 1 (*Policies to be taken out by Project Co and maintained during the design and construction phase*) (unless stated otherwise):

**Insureds:**

1. Board
2. Project Co
3. Contractor
4. Service Provider
5. Construction sub-contractors of any tier
6. Senior Funders
7. Subordinated Funders
8. Consultants - for their site activities only

each for their respective rights and interests in the Project

**1 CONTRACTORS' 'ALL RISKS' INSURANCE (CAR)**

**1.1 Insured Property**

The permanent and temporary works, materials (including but not limited to equipment supplied by the Board, goods, plant and equipment for incorporation in the works (other than constructional plant, tools, accommodation and equipment belonging to or the responsibility of the Contractor or the Construction sub-contractors) and all other property used or for use in connection with works associated with the Project.

**1.2 Coverage**

"All risks" of physical loss or damage to the Insured Property unless otherwise excluded.

### 1.3 **Sum Insured**

At all times an amount not less than the full reinstatement or replacement value of the Insured Property, but not less than the value specified in the Construction Contract plus provision to include Cover Features & Extensions as appropriate.

### 1.4 **Maximum Deductible**

Not to exceed £150,000 each and every claim for defective design, materials and workmanship, and in respect of all other claims £10,000.

### 1.5 **Territorial Limits**

United Kingdom including offsite storage and during inland transit.

### 1.6 **Period of Insurance**

From the date of this Agreement until the Actual Completion Date and thereafter in respect of defects liability until expiry of the 12 months defects liability period.

### 1.7 **Cover Features & Extensions**

1.7.1 Terrorism

1.7.2 Munitions of war clause

1.7.3 Additional costs of completion clause

1.7.4 Professional fees clause (including Board professional fees incurred during any period of reinstatement)

1.7.5 Debris removal clause

1.7.6 72 hour clause

1.7.7 European Union local authorities clause

1.7.8 Free issue materials clause

1.7.9 10% escalation clause

1.7.10 Automatic reinstatement of sum insured clause

- 1.17.11 Loss minimisation
- 1.17.12 Testing/commissioning period clause
- 1.17.13 Plans and documents clause
- 1.17.14 Expediting expenses
- 1.17.15 Temporary repairs
- 1.17.16 Not Used.

## 1.8 **Principal Exclusions**

- 1.8.1 War and related perils (UK market agreed wording)
- 1.8.2 Nuclear/radioactive risks (UK market agreed wording)
- 1.8.3 Pressure waves caused by aircraft and other aerial devices travelling at sonic or supersonic speeds
- 1.8.4 Wear, tear and gradual deterioration
- 1.8.5 Consequential financial losses
- 1.8.6 Cyber risks
- 1.8.7 Inventory losses
- 1.8.8 Fraud and employee dishonesty
- 1.8.9 Faulty design, workmanship and materials DE5 or LEG3 option extension

## **2 DELAY IN START UP INSURANCE (DSU)**

### **2.1 Insureds**

- 2.1.1 Project Co
- 2.1.2 Senior Funders

### 2.1.3 Subordinated Funders

each for their respective rights and interests in the Project.

## 2.2 Indemnity

In respect of:

- 2.2.1 loss of anticipated Revenue during at least the Minimum Indemnity Period arising from a delay in completion of the Project as a result of loss or damage covered under the Contractors' All Risks' Insurance effected in accordance with Item 1 (*Contractors' 'All Risks' Insurance (CAR)*) of Schedule Part 15 (*Insurance Requirements*), including physical loss or damage which would be indemnifiable but for the application of any deductible;
- 2.2.2 the economic additional expenditure necessarily and reasonably incurred for the purpose of avoiding or reducing the loss of Revenue of Project Co which without such expenditure would have taken place, during the Minimum Indemnity Period.

## 2.3 Sum Insured

An amount sufficient to cover the sums the subject of the Indemnity for the Minimum Indemnity Period.

## 2.4 Maximum Excess

45 days.

## 2.5 Minimum Indemnity Period

24 months.

## 2.6 Period of Insurance

As per the Contractors' "All Risks" Insurance, excluding the defects liability period.

## 2.7 Cover Features & Extensions

2.7.1 Denial of access

2.7.2 Utilities

- 2.7.3 Terrorism
- 2.7.4 Automatic Reinstatement of sum insured
- 2.7.5 Professional Fees
- 2.7.6 Not Used.

## 2.8 **Principal Exclusions**

- 2.8.1 The exclusions under the Contractors' 'All Risks' Insurance, other than for consequential financial losses.
- 2.8.2 Delayed response by a public body or state authority.

## 3 **CONSTRUCTION THIRD PARTY LIABILITY INSURANCE**

### 3.1 **Interest**

To indemnify the Insured in respect of all sums that they may become legally liable to pay (including claimant's costs and expenses) as damages in respect of accidental:

- 3.1.1 death, or bodily injury, illness, disease contracted by any person;
- 3.1.2 loss or damage to property;
- 3.1.3 interference to property or any easement right of air, light, water or way or the enjoyment or use thereof by obstruction, trespass, nuisance, loss of amenities, or any like cause.

happening during the Period of Insurance and arising out of or in connection with the Project.

### 3.2 **Limit of Indemnity**

Not less than one hundred million pounds (£100,000,000) in respect of any one occurrence, the number of occurrences being unlimited, but in the aggregate in respect of pollution liability.

### 3.3 **Maximum Deductible**

£10,000 for each and every occurrence of property damage. (Personal injury claims will be paid in full).

**3.4 Territorial Limits**

UK and elsewhere in the world in respect of non manual visits.

**3.5 Jurisdiction**

Worldwide excluding USA and Canada.

**3.6 Period of Insurance**

As per the Contractors' "All Risks" Insurance, including the defects liability period.

**3.7 Cover Features & Extensions**

3.7.1 Munitions of war

3.7.2 Cross liability clause

3.7.3 Contingent motor

3.7.4 Legal defence costs in addition

3.7.5 Personal injury to include false imprisonment, wrongful arrest, eviction or any like cause

3.7.6 Defective premises act clause

3.7.7 Data protection act clause

3.7.8 Indemnify to employees and directors

3.7.9 Not Used.

**3.8 Principal Exclusions**

3.8.1 Liability for death, illness, disease or bodily injury sustained by employees of the insured.

3.8.2 Liability arising out of the use of mechanically propelled vehicles whilst required to be compulsorily insured by legislation in respect of such vehicles.

3.8.3 Liability in respect of predetermined penalties or liquidated damages

imposed under any contract entered into by the Insured.

- 3.8.4 Liability in respect of loss or damage to property in the care, custody and control of the insured but this exclusion is not to apply to all property belonging to the Board which is in the care, custody and control of another Insured.
- 3.8.5 Events more properly covered under a professional indemnity policy.
- 3.8.6 Liability arising from the ownership, possession or use of any aircraft or marine vessel.
- 3.8.7 Liability arising from seepage and pollution unless caused by a sudden, unintended and unexpected occurrence.
- 3.8.8 Losses indemnified under the CAR policy or DSU policy.
- 3.8.9 Asbestos.
- 3.8.10 Toxic mould.

**SECTION 2****POLICIES TO BE TAKEN OUT BY PROJECT CO AND MAINTAINED FROM THE ACTUAL COMPLETION DATE**

Common to all policies in Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) (unless stated otherwise):

**Insureds**

- 1 Board
- 2 Project Co
- 3 Service Provider
- 4 Service Provider's sub-contractors
- 5 Senior Funders
- 6 Subordinated Funders

each for their respective rights and interests in the Project.

**1 PROPERTY DAMAGE INSURANCE****1.1 Insured Property**

The project assets which are the property of Project Co or for which Project Co may be responsible including but not limited to the Facilities.

**1.2 Coverage**

"All risks" of physical loss or damage to the Insured Property from any cause not excluded, including machinery breakdown and computer breakdown in respect of appropriate building services equipment.

**1.3 Sum Insured**

At all times an amount not less than the total reinstatement or replacement value of the Insured Property plus provision to include other Principal Extensions as appropriate (escalated periodically as appropriate).

**1.4 Maximum Deductible**

£10,000 each and every claim (escalated periodically as appropriate).

## 1.5 Territorial Limits

United Kingdom plus elsewhere whilst in inland transit.

## 1.6 Period of Insurance

From the Actual Completion Date or as otherwise specified in this Agreement for the duration of this Agreement and renewable on an annual basis unless agreed otherwise by the Parties.

## 1.7 Cover Features & Extensions

1.7.1 Terrorism

1.7.2 Automatic reinstatement of sum insured

1.7.3 Capital additions clause

1.7.4 72 hour clause

1.7.5 European Union local authorities clause

1.7.6 Professional fees

1.7.7 Debris removal

1.7.8 Pollution and contamination to the Insured Property arising from an event which itself is not otherwise excluded

1.7.9 Repair / reinstatement basis of claims settlement with cash option for non-reinstatement

1.7.10 Theft damage to buildings

1.7.11 Day one reinstatement – 15% uplift

1.7.12 Not Used.

## 1.8 Principal Exclusions

1.8.1 War and related perils (UK market agreed wording)

- 1.8.2 Nuclear/radioactive risks (UK market agreed wording)
- 1.8.3 Pressure waves caused by aircraft and other aerial devices travelling at sonic or supersonic speeds
- 1.8.4 Wear, tear and gradual deterioration
- 1.8.5 Consequential financial losses
- 1.8.6 Cyber risks
- 1.8.7 Losses recovered under the CAR policy

## **2 BUSINESS INTERRUPTION INSURANCE**

### **2.1 Insureds**

- 2.1.1 Project Co
- 2.1.2 Senior Funders
- 2.1.3 Subordinated Funders

each for their respective rights and interests in the Project.

### **2.2 Indemnity**

In respect of:

- 2.2.1 loss of anticipated Revenue during at least the Minimum Indemnity Period arising from an interruption or interference in the operation of the Project as a result of loss or damage covered under Property Damage Insurance effected in accordance with paragraph 1 of Section 2 (*Policies to be taken out by Project Co and maintained from the Actual Completion Date*) of this Schedule Part 15 (*Insurance Requirements*) including physical loss or damage which would be indemnifiable but for the application of any deductible;
- 2.2.2 the economic additional expenditure necessarily and reasonably incurred for the purpose of avoiding or reducing the loss of Revenue of Project Co which without such expenditure would have taken place, during the Indemnity Period.

### **2.3 Sum Insured**

An amount sufficient to cover the sums the subject of the Indemnity for the Minimum Indemnity Period.

**2.4 Maximum Excess**

£10,000 each and every claim (escalated periodically as appropriate)

**2.5 Minimum Indemnity Period**

24 months.

**2.6 Period of Insurance**

From the Actual Completion Date for the duration of this Agreement and renewable on an annual basis unless agreed otherwise.

**2.7 Cover Features & Extensions**

2.7.1 Denial of access

2.7.2 Terrorism

2.7.3 Utilities

2.7.4 Accountants Clause

2.7.5 Automatic reinstatement of sum insured

2.7.6 Not Used.

**2.8 Principal Exclusions**

2.8.1 Financial losses

2.8.2 Delayed response by a public body or state authority

**3 THIRD PARTY PUBLIC AND PRODUCTS LIABILITY INSURANCE**

**3.1 Indemnity**

To indemnify the Insured in respect of all sums that they may become legally liable to pay (including claimant's costs and expenses) as damages in respect of accidental:

- 3.1.1 death, or bodily injury, illness, disease contracted by any person;
- 3.1.2 loss or damage to property;
- 3.1.3 interference to property or any easement right of air, light, water or way or the enjoyment or use thereof by obstruction, trespass, nuisance, loss of amenities, or any like cause.

happening during the period of insurance and arising out of or in connection with the Project and the provision of the Services.

### 3.2 **Limit of Indemnity**

Not less than one hundred million pounds (£100,000,000) (escalated periodically as appropriate) in respect of any one occurrence, the number of occurrences being unlimited, but in the aggregate in respect of pollution and products liability.

### 3.3 **Maximum Deductible**

£10,000 for each and every occurrence of property damage (escalated periodically as appropriate). (Personal injury claims will be paid in full).

### 3.4 **Territorial Limits**

UK and elsewhere in the world in respect of non manual visits.

### 3.5 **Jurisdiction**

Worldwide.

### 3.6 **Period of Insurance**

From the Actual Completion Date or as otherwise specified in this Agreement for the duration of this Agreement and renewable on an annual basis unless agreed otherwise.

### 3.7 **Cover Features & Extensions**

- 3.7.1 Munitions of war.
- 3.7.2 Cross liability clause
- 3.7.3 Contingent motor

- 3.7.4 legal defence costs in addition to the Limit of Indemnity
- 3.7.5 Personal injury to include false imprisonment, wrongful arrest, eviction or any like cause
- 3.7.6 Health & safety at work act(s) defence costs
- 3.7.7 Effective premises act clause
- 3.7.8 Data protection act clause
- 3.7.9 Directors & employees
- 3.7.10 Not Used.

### 3.8 Principal Exclusions

- 3.8.1 Liability for death, illness, disease or bodily injury sustained by employees of the insured.
- 3.8.2 Liability arising out of the use of mechanically propelled vehicles whilst required to be compulsorily insured by legislation in respect of such vehicles.
- 3.8.3 Liability in respect of predetermined penalties or liquidated damages imposed under any contract entered into by the insured.
- 3.8.4 Liability in respect of loss or damage to property in the care, custody and control of the insured but this exclusion is not to apply to all property belonging to the Board which is in the care, custody and control of another Insured Party.
- 3.8.5 Liability arising out of technical or professional advice (given for a fee) other than in respect of death or bodily injury to persons or damage to third party property.
- 3.8.6 Liability arising from the ownership, possession or use of any aircraft or marine vessel.
- 3.8.7 Liability arising from seepage and pollution unless caused by a sudden, unintended and unexpected occurrence.
- 3.8.8 Losses under the property damage policy or business interruption policy.
- 3.8.9 Asbestos

3.8.10 Toxic mould

**SECTION 3**  
**ENDORSEMENTS**

Unless the context otherwise requires defined terms set out in the following endorsements shall have the meaning set out in the Contract.

**Endorsement 1**

**Cancellation**

- 1 This policy shall not be cancelled or terminated before the original expiry date is to take effect except in respect of non-payment of premium.
  
- 2 The insurer shall by written notice advise the Board:
  - 2.1 at least 30 days before any such cancellation or termination is to take effect;
  
  - 2.2 at least 30 days before any reduction in limits or coverage or any increase in deductibles is to take effect; and
  
  - 2.3 of any act or omission or any event of which the insurer has knowledge and which might invalidate or render unenforceable in whole or in part this policy.

**Endorsement 2**

**Multiple Insured/Non-Vitiation Clause**

1. Each of the parties comprising the insured shall for the purpose of this policy be considered a separate co-insured entity, insured on a composite basis, with the words "the insured" applying to each as if they were separately and individually insured provided that the total liability of the insurers under each section of this policy to the insured collectively shall not (unless the policy specifically permits otherwise) exceed the limit of indemnity or amount stated to be insured under that section or policy. Accordingly, the liability of the insurers under this policy to any one insured shall not be conditional upon the due observance and fulfilment by any other insured party of the terms and conditions of this policy or of any duties imposed upon that insured party relating thereto, and shall not be affected by any failure in such observance or fulfilment by any such other insured party.
  
- 2 It is understood and agreed that any payment or payments by insurers to any one or more of the insureds shall reduce, to the extent of that payment, insurers' liability to all such parties arising from any one event giving rise to a claim under this policy and (if applicable) in the aggregate.
  
- 3 Insurers shall be entitled to avoid liability to or (as may be appropriate) claim damages from any insured party in circumstances of fraud misrepresentation non-disclosure or material breach of warranty or condition of this policy (each referred to in this clause as a "**Vitiating Act**") committed by that insured party save where such misrepresentation non-disclosure or breach of warranty or condition was committed innocently and in good faith.
  
- 4 For the avoidance of doubt it is however agreed that a Vitiating Act committed by one insured party shall not prejudice the right to indemnity of any other insured who has an insurable interest and who has not committed the Vitiating Act.

- 5 Insurers hereby agree to waive all rights of subrogation and/or recourse which they may have or acquire against any insured party (together with their employees and agents) except where the rights of subrogation or recourse are acquired in consequence of a Vitiating Act in which circumstances insurers may enforce such rights against the insured responsible for the Vitiating Act notwithstanding the continuing or former status of the vitiating party as an insured.
- 6 Notwithstanding any other provision of this policy or any other document or any act and/or omission by any insured party insurers agree that:
- 6.1 no party other than the Board has any authority to make any warranty, disclosure or representation in connection with this policy on behalf of the Board;
- 6.2 where any warranty, disclosure or representation is required from the Board in connection with this policy insurers will contact the Board in writing (in accordance with Endorsement 3 to the Contract) and set out expressly the warranty, disclosure and/or representation required within a reasonable period of time from the Board (regarding itself); and
- 6.3 save as set out in a request from insurers to the Board in accordance with (2) above, the Board shall have no duty to disclose any fact or matter to insurers in connection with this policy save to the extent that for the Board not to disclose a fact or matter would constitute fraudulent misrepresentation and/or fraudulent non-disclosure.

### Endorsement 3

#### Communications

1. All notices or other communications under or in connection with this policy shall be given to each insured (and the Board) in writing or by facsimile. Any such notice will be deemed to be given as follows:
- 1.1 if in writing, when delivered;
- 1.2 if by facsimile, when transmitted but only if, immediately after transmission, the sender's facsimile machine records a successful transmission has occurred.
2. The address and facsimile number of the Board for all notices under or in connection with this policy are those notified from time to time by the Board for this purpose to Project Co at the relevant time. The initial address and facsimile number of the Board are as follows:

The Board:

Address: Lothian Health Board  
Waverley Gate  
2-4 Waterloo Place  
Edinburgh  
EH1 3EG

Email: [REDACTED]

Attention Contract Manager for RHSC & DCN Project

Attention: The Chief Executive from time to time of the Board

3. It is further agreed that a notice of claim given by the Board or any other insured shall in the absence of any manifest error be accepted by the insurer as a valid notification of a claim on behalf of all insureds.

**Endorsement 4**

**Loss Payee (applicable only to the Physical Damage Policies)**

Subject to the provision of Clause 53.22.2 of this Agreement all proceeds of this policy shall be payable without deduction or set-off to the Insurance Proceeds Account.

**Endorsement 5**

**Primary Insurance**

It is expressly understood and agreed that this policy provides primary cover for the insured parties and that in the event of loss destruction damage or liability covered by this policy which is covered either in whole or in part under any other policy or policies of insurance effected by or on behalf of any of the insured parties the insurers will indemnify the insured parties as if such other policy or policies of insurance were not in force and the insurers waive their rights of recourse if any against the insurers of such other policy or policies of insurance.

**Endorsement 6**

**Ringfencing**

The level of any indemnity available to an insured party under this policy in relation to any claim(s) concerning the Project shall not be affected and/or reduced by any claim(s) unrelated to the Project.

**SECTION 4****INSURANCE ARRANGEMENTS**

- 1 Project Co must comply with the provisions of this Section 4 of Schedule Part 15 when placing or renewing the Operational Insurances.
- 2 Not less than sixty (60) Business Days prior to the Completion Date and each subsequent renewal date in respect of each of the Operational Insurances, Project Co must inform the Board's Representative of the forthcoming requirement to place or renew an Operational Insurance and provide either:
  - 2.1 confirmation that any existing long term agreement (entered into with the agreement of the Board) is being maintained, or
  - 2.2 its proposals for obtaining competitive quotations from at least three (3) suitable insurers. Project Co must take advice from reputable insurance brokers experienced in arranging insurances for similar risks as to which insurers are most likely to provide quotations that will represent best value for money for the Board as payer of the premiums for such insurance. In considering which insurers to approach, Project Co must consider whether any of the Shareholders enjoys any special relationship with any insurer and/or is otherwise able to procure the placing of the relevant insurance in any particular manner consistent with the requirements of this Agreement that may result in lower premiums and shall include such insurers in its proposal under this paragraph 2.
- 3 Within ten (10) Business Days of receiving a notice from Project Co pursuant to paragraph 2, the Board may provide Project Co with details of up to two (2) other insurers that it wishes Project Co to invite to quote for provision of the relevant Operational Insurance.
- 4 Not less than thirty (30) Business Days prior to the Completion Date and each subsequent renewal date for any of the Operational Insurances, Project Co must forward to the Board's Representative quotes from the proposed insurers (together with the principal terms and conditions of the relevant insurance policies), to include any insurer nominated by the Board pursuant to paragraph 3, including a reasoned recommendation as to which quote Project Co views as offering best value for money for the Board, taking into account all relevant circumstances.
- 5 Within ten (10) Business Days of receiving a recommendation from Project Co pursuant to paragraph 4, the Board must notify Project Co in writing which insurer it is to place the relevant Operational Insurance with, failing which Project Co shall be entitled to place the relevant Operational Insurance with the insurer recommended by Project Co.

## SECTION 5

## BROKER'S LETTER OF UNDERTAKING

Date

To:

Dear Sirs

**Project Agreement dated on or about the date hereof entered into between IHS Lothian Limited ("Project Co") Lothian Health Board (the "Board") (the "Agreement")**

- 1 We refer to the Agreement. Unless the context otherwise requires, terms defined in the Agreement shall have the same meaning in this letter.
- 2 We act as insurance broker to Project Co in respect of the Insurances and in that capacity we confirm that the Insurances which are required to be procured pursuant to clause 53 (*Insurance*) and Schedule Part 15 (*Insurance Requirements*) of the Agreement:
  - 2.1 where appropriate name you and such other persons as are required to be named pursuant to the Agreement for their respective interests;
  - 2.2 are, in our reasonable opinion as insurance brokers, as at today's date, in full force and effect;
  - 2.3 all premiums due to date in respect of the Insurances are paid and the Insurances are, to the best of our knowledge and belief, placed with insurers which, as at the time of placement, are reputable and financially sound. We do not, however, make any representations regarding such insurers' current or future solvency or ability to pay claims; and that
  - 2.4 the endorsements set out in Section 3 (*Endorsements*) to Schedule Part 15 (*Insurance Requirements*) of the Agreement are as at today's date in full force and effect in respect of the Insurances.
- 3 We further confirm that the attached cover notes confirm this position.
- 4 Pursuant to instructions received from Project Co and in consideration of your approving our appointment or continuing appointment as brokers in connection with the Insurances, we hereby undertake in respect of the interests of the Board in relation to the Insurances:
  - 4.1 **Notification Obligations**
    - 4.1.1 to notify you at least thirty (30) days prior to the expiry of any of the Insurances if we have not received instructions from Project Co to negotiate renewal and in the event of our receiving instructions to renew, to advise you promptly of the details thereof;
    - 4.1.2 to notify you at least thirty (30) days prior to ceasing to act as brokers to Project Co unless, due to circumstances beyond our control, we are unable to do so in which case we shall notify you as soon as practicable; and
    - 4.1.3 to pay into the Insurance Proceeds Account without set off or deduction of any kind for any reason all payments in respect of claims received by us from insurers in relation to the Insurances specified in Clauses 30.1 to 30.3 (*Relief Events*) of the Agreement.

4.2 **Advisory Obligations**

- 4.2.1 to notify you as soon as practicable of any default in the payment of any premium for any of the Insurances;
- 4.2.2 to notify you if any insurer cancels or gives notification of cancellation of any of the Insurances, at least thirty (30) days before such cancellation is to take effect or as soon as reasonably practicable in the event that notification of cancellation takes place less than thirty (30) days before it is to take effect;
- 4.2.3 to notify you as soon as reasonably practicable of any act or omission, breach or default of Project Co or any other insured under the Insurances of which those of our employees directly involved with the placement or administration of the Insurances become aware and which acting reasonably they consider may invalidate any Insurance or render it void, avoidable or unenforceable in whole or in part or which may otherwise materially impact on the extent of cover provided under the Insurances; and
- 4.2.4 in accordance with our duty to Project Co to notify Project Co of its pre-contractual duties of disclosure to insurers including the duty to disclose all information that would be considered material in the context of such duty.

#### 4.3 **Disclosure Obligations**

##### 4.3.1

- (a) disclose to insurers all information and any fact, change of circumstance or occurrence made available to us by Project Co; or
- (b) disclose, with the approval of Project Co (such approval not to be unreasonably withheld), all information and any fact, change of circumstance or occurrence made available to us by the Board,

which in our reasonable opinion is material to the risks insured against under the Insurances and which properly should be disclosed to insurers in accordance with the insurers' relevant policy terms and conditions as soon as reasonably practicable after we are in receipt from Project Co of such information or of the approval of Project Co in respect of such information and become aware of such information, fact, change of circumstance or occurrence whether prior to inception or renewal or otherwise; and

- 4.3.2 to treat as confidential all information so marked or otherwise stated to be confidential and supplied to us by or on behalf of Project Co or the Board and not to disclose such information, without the prior written consent of the supplier of the information, to any third party other than those persons who, in our reasonable opinion have a need to have access to such information from time to time, and for the purpose of disclosure to the insurers or their agents in respect of the Insurances in discharge of our obligation set out at clause 4.3.1 of this letter. Our obligations of confidentiality shall not conflict with our duties owed to Project Co and shall not apply to disclosure required by an order of a court of competent jurisdiction, or pursuant to any applicable law, governmental or regulatory authority having the force of law or to information which is in the public domain.

#### 4.4 **Administrative Obligations**

- 4.4.1 to hold copies of all documents relating to or evidencing the Insurances, including but without prejudice to the generality of the foregoing, insurance slips, contracts, policies, endorsements and copies of all documents evidencing renewal of the Insurances, payment of premiums and presentation and receipt of claims;
- 4.4.2 to supply to the Board and/or its insurance advisers (or the Board's or its insurance advisers' authorised representatives) promptly on written request copies of the documents set out in clause 4.4.1 of this letter, and to the extent available, to make available to such persons promptly upon the Board's

request the originals of such documents;

- 4.4.3 to administer the payment of premiums due pursuant to the Insurances such that, in so far as we hold appropriate funds, all such premiums shall be paid to insurers in accordance with the terms of the Insurances;
- 4.4.4 to administer the payment of claims from insurers in respect of the Insurances (the "**Insurance Claims**") including:
- (a) negotiating settlement of Insurance Claims presented in respect of the Insurances;
  - (b) collating and presenting all information required by insurers in relation to Insurance Claims presented in respect of the Insurances; and
  - (c) insofar as it is relevant and practicable, liaising with and reporting to the Board throughout the settlement, payment and administration of such Insurance Claims.
- 4.4.5 to advise the Board promptly upon receipt of notice of any material changes which we are instructed to make in the terms of the Insurances and which, if effected, in our opinion as Insurance Brokers would result in any material reduction in limits or coverage or in any increase in deductibles, exclusions or exceptions;
- 4.4.6 to advise the Board in advance of any lapse or non renewal of any policy maintained in respect of the Insurances;
- 4.4.7 to use our reasonable endeavours to have endorsed on each and every policy evidencing the Insurances (when the same is issued) endorsements substantially in the form set out in Section 3 (*Endorsements*) to Schedule Part 15 (*Insurance Requirements*) of the Agreement.

#### 4.5 **Insurance Cost Reporting Procedures**

- 4.5.1 to provide, prior to the Commencement of the Operational Insurances and prior to each renewal of any of them, a statement containing
- (a) the information required to satisfy the requirement of Section 4 (Insurance Arrangements) of Schedule Part 15 (*Insurance Requirements*) to the Agreement; and
  - (b) our opinion, supported by appropriate evidence, of the generally prevailing market for the relevant Insurance and of any other circumstances relevant to the application of paragraph 3.2 (*Operational Insurance Premiums*) of Section 6 (*Pass Through Costs*) of Schedule Part 14 (*Payment Mechanism*) to the Agreement to the premiums for the relevant Insurance specifying the impact of each factor on the premium quotations obtained.

### 5 **Notification Details**

- 5.1 Our obligations at clause 4 of this letter to notify or inform you shall be discharged by providing the requisite information in hard copy to:

#### 5.1.1 **The Board:**

Address: Lothian Health Board  
Waverley Gate  
2-4 Waterloo Place  
Edinburgh  
EH1 3EG

Attention Contract Manager for RHSC & DCN Project

5.1.2 **Project Co**

Address: Burness Paull LLP,  
50 Lothian Road,  
Festival Square,  
Edinburgh,  
EH3 9WJ

Attention: Chris Mackay

6 **General**

- 6.1 For the avoidance of doubt, the undertakings and confirmations given in this letter relate solely to the Insurances. They do not apply to any other insurances and nothing in this letter should be taken as providing any undertakings or confirmations in relation to any insurance (other than the Insurances) that ought to have been placed or may at some future date be placed by ourselves or by other brokers.
- 6.2 Following termination of our appointment as broker to Project Co, on written notice to the Board we are released from all ongoing obligations set forth in this letter.
- 6.3 Nothing in this letter shall prejudice insurers' right to cancel the Insurances in accordance with their terms and the undertakings and confirmations set out in this letter are given subject to such right.
- 6.4 This letter is given by us on the instructions of Project Co and with Project Co's full knowledge and consent as to its terms as evidenced by Project Co's signature below. Accordingly, Project Co hereby waives any potential liability we might otherwise have had to it arising from actions taken by us to comply with the terms of this letter (including, without limitation, any particular liability relating to any conflict of interest).
- 6.5 This letter shall be governed by and construed in accordance with Scottish law.

Yours faithfully

-----  
For and on behalf of Jardine Lloyd Thompson Limited

-----  
For and on behalf of the Board

**SCHEDULE PART 16**

**CHANGE PROTOCOL**

**SECTION 1**

**DEFINITIONS**

In this Schedule Part 16 (*Change Protocol*) and elsewhere in this Agreement (save where Schedule Part 1 provides to the contrary) the following words shall have the following meanings:

<b>“Adjustment Date”</b>	means the date on which the adjustment to the Annual Service Payments takes effect in accordance with the provisions of this Agreement, or such other date as is agreed between the parties;
<b>“Affordable”</b>	means within the revenue resource parameters determined by the Board and notified in writing by it to Project Co as available for a proposed High Value Change;
<b>“Approval Criteria”</b>	has the meaning given in paragraph 7 ( <i>Approval Criteria</i> ) of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Approved Criteria”</b>	has the meaning given in paragraph 8.2.1 of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Assumption Adjustment”</b>	means an adjustment to any of the assumptions contained in the Financial Model;
<b>“Board Change”</b>	means, as the case may be, a Low Value Change, a Medium Value Change or a High Value Change;
<b>“Board Change Notice”</b>	means a notice issued in accordance with this Schedule Part 16 ( <i>Change Protocol</i> ) requiring a Board Change;
<b>“Calculation Date”</b>	means the relevant date for the purposes of calculating the Incurred Change Management Fee in accordance with Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Capital Cost”</b>	means in relation to any High Value Change the cost of carrying out the design, construction and commissioning of any construction works required to implement that High Value Change;
<b>“Catalogue of Small Works and Services” and “Catalogue”</b>	means the list of prices and time periods for types of Low Value Changes set out in Appendix 1 Part 1 ( <i>Catalogue</i> ) to this Schedule Part 16 ( <i>Change Protocol</i> ), as amended from time to time in accordance with paragraph 3 ( <i>Project Co Response and Board Confirmation</i> ) of Section 2 ( <i>Low Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>“Catalogue Price”</b>	means the total cost (excluding VAT) of carrying out a Low Value Change as set out in the Catalogue;
<b>“Catalogue Review Date”</b>	means each third anniversary of the Commencement

Date;

**“Change”**

means a change in the Works, the Facilities and/or Services or additional works and/or services or a change in the Board's Policies that may be made under Clause 33 (*Change Protocol*) or this Schedule Part 16 (*Change Protocol*);

**“Change in Costs”**

means in respect of any Relevant Event, the effect of that Relevant Event (whether of a one-off or recurring nature, and whether positive or negative) upon the actual or anticipated costs, losses or liabilities of Project Co and/or the Contractor and/or any Service Provider (without double counting), including, as relevant, the following:

- (a) the reasonable costs of complying with the requirements of Clauses 24.9 (*Board's Remedial Rights*), 29 (*Delay Events*), 32 (*Changes in Law*) and/or Sections 2 (*Low Value Changes*) to 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*), including the reasonable costs of preparation of design and estimates;
- (b) the costs of continued employment of, or making redundant, staff who are no longer required;
- (c) the costs of employing additional staff;
- (d) reasonable professional fees;
- (e) the costs to Project Co of financing any Relevant Event (and the consequences thereof) including commitment fees and capital costs interest and hedging costs, lost interest on any of Project Co's own capital employed and any finance required pending receipt of a lump sum payment or adjustments to the Annual Service Payment;
- (f) the effects of costs on implementation of any insurance reinstatement in accordance with this Agreement, including any adverse effect on the insurance proceeds payable to Project Co (whether arising from physical damage insurance or business interruption insurance (or their equivalent)) in respect of that insurance reinstatement and any extension of the period of implementation of the insurance reinstatement;
- (g) operating costs, including Lifecycle Replacement or maintenance costs;
- (h) Capital Expenditure (or, in the case of a Relevant Event which is a Relevant Change in Law, Capital Expenditure for which the Board is responsible);
- (i) the costs required to ensure continued compliance with the Funding Agreements;
- (j) any deductible or increase in the level of deductible, or any increase in premium under or in respect of any insurance policy; and

- (k) Direct Losses or Indirect Losses, including reasonable legal expenses on an indemnity basis;
- “Change Management Fee”** means the fee calculated in accordance with paragraph 10 (*Change Management Fee*) of Section 4 (*High Value Changes*);
- “Cost”** where used in the definitions of High Value Change and Low Value Change means the immediate cost that will be incurred by Project Co to implement the relevant Change, disregarding any Whole Life Costs;
- “Derogated Low Value Change”** means:
- (a) installation or relocation of shelving, notice boards, white boards, clocks, mirrors, coat hooks, towel holders, toilet roll holders, soap dispensers and ad-hoc wall protection; and
  - (b) any other Low Value Change that:
    - (i) consists of minor works;
    - (ii) only affects the interior of the Facilities;
    - (iii) does not affect any of the mechanical and electrical equipment of the Facilities;
    - (iv) does not involve any interference with the service media in the Facilities;
    - (v) will not conflict with any Programmed Maintenance or Lifecycle Replacement; and
    - (vi) will not prejudice any of the Operational Insurances;
- “Derogated Low Value Change Notice”** means a notice given by the Board in accordance with paragraph 1.2 of Section 2 (*Low Value Changes*) of this Schedule Part 16 (*Change Protocol*);
- “Estimate”** has the meaning given in paragraph 3 of Section 3 (*Medium Value Changes*) of this Schedule Part 16 (*Change Protocol*);
- “Estimated Change in Project Costs”** means, in respect of any Relevant Event, the aggregate of any Change in Costs;
- “High Value Change”** means:
- (a) a Change requested by the Board that, in the reasonable opinion of the Board, is likely either to Cost in excess of five hundred thousand pounds (£500,000) index linked or to require an adjustment to the Annual Service Payment that on a full year basis is 2% or more of the Annual Service Payment in the relevant Contract Year provided that the parties may agree that such a Change should instead be processed as a Medium Value Change; or
  - (b) any other Change that the parties agree is to be

treated as a High Value Change;

- “High Value Change Proposal”** means a proposal satisfying the requirements of paragraph 3.4 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
- “High Value Change Requirements”** has the meaning given in paragraph 2.1.3 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
- “High Value Change Stage 2 Submission”** has the meaning given in paragraph 4.1.1 of Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*);
- “Incurred Change Management Fee”** means the amounts actually incurred or payable by or on behalf of Project Co up to the Calculation Date in respect of matters identified by Project Co pursuant to paragraphs 3.4.3 and/or 4.3.7 of Section 4 (*High Value Changes*) of this Schedule as falling within the Change Management Fee (and not already reimbursed by the Board);
- “Input Adjustment”** means any adjustment to the Financial Model other than Assumption Adjustment and Logic Adjustments;
- “Key Ratios”** means the following ratios:
- (a) the Senior Loan Life Cover Ratio (as defined in the Common Terms Agreement);
  - (b) the Total Loan Life Cover Ratio (as defined in the Common Terms Agreement);
  - (c) the Senior Projected Debt Service Cover Ratio (as defined in the Common Terms Agreement);
  - (d) the Total Projected Debt Service Cover Ratio (as defined in the Common Terms Agreement);
  - (e) the Senior Historic Debt Service Cover Ratio (as defined in the Common Terms Agreement); and
  - (f) the Total Historic Debt Service Cover Ratio (as defined in the Common Terms Agreement);
- “Logic Adjustment”** means an adjustment to the logic or formulae contained in the Financial Model;
- “Low Value Change”** means a Change which is either:
- (a) of a type listed in the Catalogue of Small Works and Services; or
  - (b) is not so listed, but has an individual Cost not exceeding twenty five thousand pounds (£25,000) index linked , or as otherwise agreed from time to time, except for any request that would (if

implemented) increase the likelihood of Project Co failing to meet the Board's Construction Requirements and/or the Service Level Specification or materially and adversely affect Project Co's ability to perform its obligations under this Agreement;

<b>"Medium Value Change"</b>	means a Change requested by the Board which is not a Low Value Change or a High Value Change;
<b>"Post-Adjustment Financial Model"</b>	means the Financial Model in effect immediately following the making of the relevant Adjustments;
<b>"Pre-Adjustment Financial Model"</b>	means the Financial Model in effect immediately prior to the making of the relevant Adjustments;
<b>"Project Co Change"</b>	means a Change that is initiated by Project Co by submitting a Project Co Notice of Change to the Board pursuant to Section 5 ( <i>Project Co Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Project Co Notice of Change"</b>	has the meaning given in paragraph 1 of Section 5 ( <i>Project Co Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Relevant Event"</b>	means an event or circumstance in which this Agreement expressly provides for an adjustment to the Annual Service Payments to be made;
<b>"Review Procedure"</b>	means the procedure set out in Schedule Part 8 ( <i>Review Procedure</i> );
<b>"Small Works and Services Rates"</b>	means the rates to be applied in respect of any request from the Board for a Low Value Change set out in Appendix 1 Part 2 ( <i>Small Works and Services Rates</i> ) to this Schedule Part 16 ( <i>Change Protocol</i> ), as amended from time to time in accordance with paragraph 8 of Section 2 ( <i>Low Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Stage 1 Approval"</b>	has the meaning given in paragraph 3.7 of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Stage 1 Approved Project"</b>	has the meaning given in paragraph 3.7 of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Stage 2 Approval"</b>	has the meaning given in paragraph 8.2.1 of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Target Cost"</b>	has the meaning given in paragraph 2.1.2 of Section 4 ( <i>High Value Changes</i> ) of this Schedule Part 16 ( <i>Change Protocol</i> );
<b>"Third Party Costs"</b>	means the costs incurred by Project Co with third parties in responding to a Board Change Notice for a Medium Value Change or a High Value Change, including, but not limited to, the Sub-Contractors, consultants and advisers; and

**“Whole Life Cost”**

means the estimated and (to the extent that such information is available) the actual cost of operating and maintaining that High Value Change over its intended design life (consistent with Project Co's Proposals).

## SECTION 2

### LOW VALUE CHANGES

#### 1. Low Value Change Notice

- 1.1 Subject to paragraph 1.2 of this Section 2 (*Low Value Changes*), where a Low Value Change is required by the Board, it must submit a Board Change Notice to Project Co.
- 1.2 The Board may carry out Derogated Low Value Changes during the Operational Term. If the Board wishes to carry out a Derogated Low Value Change it shall send Project Co a notice at least five (5) Business Days prior to the date on which it proposes to start to implement the Change setting out the nature of the proposed Change in sufficient detail to enable Project Co to satisfy itself that the proposed Change constitutes a Derogated Low Value Change. Project Co may notify the Board within three (3) Business Days of receipt of a Derogated Low Value Change Notice that it does not agree that the proposed Change constitutes a Derogated Low Value Change and, unless the parties otherwise agree, the Board must not take any steps to carry out the proposed Change unless it has referred the dispute to the Dispute Resolution Procedure and it has been determined that the proposed Change is a Derogated Low Value Change.
- 1.3 If it carries out a Derogated Low Value Change, the Board must use Good Industry Practice to the standards that would have applied to Project Co if it had carried it out as a Low Value Change.

#### 2 Board Change Notice

A Board Change Notice for a Low Value Change must:

- 2.1 state that it relates to a Low Value Change;
- 2.2 contain a description of the works and/or the change to the Works and/or the Services that the Board requires including, if relevant, the applicable type of Low Value Change listed in the Catalogue; and
- 2.3 if there is no applicable type of change listed in the Catalogue, specify the time period within which the Board requires the Change to be implemented.

#### 3 Project Co Response and Board Confirmation

Within five (5) Business Days of receipt of a Board Change Notice for a Low Value Change, Project Co must notify the Board of:

- 3.1 the cost of implementing the required Low Value Change; and
- 3.2 the time period for implementing the Low Value Change,

in each case in accordance with paragraph 4 of this Section 2 (*Low Value Changes*).

## 4 Cost and Timing

- 4.1 If the Low Value Change is of a type listed in the Catalogue, the cost of carrying out that Low Value Change shall not exceed the relevant Catalogue Price and the time period for implementing the Low Value Change shall not exceed the relevant time specified in the Catalogue.
- 4.2 If the Low Value Change is not of a type that is listed in the Catalogue, the cost of carrying out that Low Value Change shall be calculated on the basis that:
- 4.2.1 wherever practicable the Low Value Change will be carried out by an existing on-site and suitably qualified employee of Project Co or a Project Co Party and in that case, Project Co may not charge for labour. Where there is no such suitably qualified on-site employee reasonably available to carry out the Low Value Change, the cost of the labour element will be calculated in accordance with the Small Works and Services Rates or, where such rates are not applicable, in accordance with rates which are fair and reasonable; and
- 4.2.2 the materials element will be charged at the cost of materials to Project Co or to the Project Co Party carrying out the work (net of all discounts) and there shall be no management fee, margin, overhead, contingency or other cost applied in relation thereto.
- 4.3 Other than the costs referred to in paragraphs 4.1 and 4.2 of this Section 2 (*Low Value Changes*) Project Co may not charge the Board for processing, implementing or managing a Low Value Change.

## 5 Board objection

The Board may object in writing within five (5) Business Days of receipt of Project Co's notice pursuant to paragraph 3 of this Section 2 (*Low Value Changes*), to any part of that notice and in that event the parties shall act reasonably to endeavour to agree as soon as practicable how and when the Low Value Change is to be implemented, which may include the Board withdrawing the Board Notice of Change.

## 6 Implementation

- 6.1 Project Co must implement a required Low Value Change so as to minimise any inconvenience to the Board and, subject to paragraph 10.2 of this Section 2 (*Low Value Changes*), within the timescale specified in the notice given by Project Co pursuant to paragraph 3 of this Section 2 (*Low Value Changes*) (or agreed by the parties pursuant to paragraph 5 of this Section 2 (*Low Value Changes*)).
- 6.2 Project Co shall notify the Board when it considers that the Low Value Change has been completed.
- 6.3 If Project Co:
- 6.3.1 fails to give a notice to the Board in accordance with paragraph 3 of this

Section 2 (*Low Value Changes*) within fifteen (15) Business Days of the date of the Board Change Notice; or

- 6.3.2 gives a notice pursuant to paragraph 3 of this Section 2 (*Low Value Changes*) to which the Board has objected pursuant to paragraph 5 of this Section 2 (*Low Value Changes*) on any ground other than the cost of the Low Value Change, the parties have not reached agreement as to how the Low Value Change is to be implemented and the objection has not been referred to the Dispute Resolution Procedure; or
- 6.3.3 gives a notice pursuant to paragraph 3 of this Section 2 (*Low Value Changes*) to which the Board does not object pursuant to paragraph 5 but then fails to fully implement the Low Value Change within ten (10) Business Days after the timescale specified in that notice or agreed in accordance with paragraph 5 of this Section 2 (*Low Value Changes*),

then, subject to paragraph 10.3 of this Section 2 (*Low Value Changes*), the Board may notify Project Co that the Low Value Change Notice is withdrawn and, following such notification, may procure the implementation of the Low Value Change without further recourse to Project Co, but the Board must ensure that the Low Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the Low Value Change.

## **7 Payment**

Unless the Board notifies Project Co within five (5) Business Days of receipt of a notice from Project Co pursuant to paragraph 6.2 above that the Low Value Change has not been implemented to its reasonable satisfaction:

- 7.1 Project Co shall, where the Low Value Change is implemented prior to the Operational Term, issue an invoice in respect of the costs of the Low Value Change, which the Board must pay within twenty (20) Business Days of receipt; or
- 7.2 Project Co shall, where the Low Value Change is implemented during the Operational Term, include the costs of the Low Value Change in the next Monthly Invoice submitted pursuant to Clause 34.2 (*Invoicing and Payment Arrangements*) of this Agreement following completion or implementation of the relevant Low Value Change and the amounts payable for the Low Value Changes shall be invoiced and paid in accordance with the procedure described in Clause 34 (*Payment*) of this Agreement.

## **8 Update of Catalogue and Small Works and Services Rates**

- 8.1 From the Commencement Date the Catalogue shall be that set out in Part 1 of Appendix 1 to this Schedule Part 16 (*Change Protocol*) and the Small Works and Services Rates shall be those set out in Part 2 of Appendix 1 to this Schedule Part 16 (*Change Protocol*).
- 8.2 Subject to paragraph 8.3 of this Section 2 (*Low Value Changes*), the unit prices and the Small Works and Services Rates set out in the Catalogue and the Small Works and Services Rates shall be index linked on each anniversary of the Commencement Date for the change in RPI since the Commencement Date or, after the first Catalogue Review Date, since the most recent Catalogue Review Date.

8.3 On the date which is twenty (20) Business Days before each Catalogue Review Date, Project Co must provide the Board with:

8.3.1 a revised and updated Catalogue which:

- (a) includes in the Catalogue unit prices for any types of Low Value Changes which have occurred and which the parties consider are reasonably likely to reoccur during the life of the Project and any other types of Low Value Changes as the parties may agree; and
- (b) includes time periods for the carrying out of each listed type of Low Value Change; and

8.3.2 updated Small Works and Services Rates.

The unit prices and Small Works and Services Rates will be for the ensuing three-year period following the Catalogue Review Date. The unit prices must represent good value for money having regard to:

- (a) prices prevailing for similar items in the market at the time; and
- (b) paragraph 4.2 of this Section 2 (*Low Value Changes*).

The Small Works and Services Rates must provide value for money with reference to rates prevailing for similar services in the market at the time.

8.4 Within ten (10) Business Days of the submission by Project Co of the revised and updated Catalogue and Small Works and Services Rates pursuant to paragraph 8.3 of this Section 2 (*Low Value Changes*), the Board shall confirm in writing whether or not it agrees that the revised and the updated Catalogue shall constitute the Catalogue and the updated Small Works and Services Rates shall constitute the Small Works and Services Rates for the purposes of this Agreement from the relevant Catalogue Review Date;

8.5 If the Board does not confirm to Project Co that it agrees with the revised and updated Catalogue and/or Small Works and Services Rates provided by Project Co pursuant to paragraph 8.3 of this Section 2 (*Low Value Changes*), the parties shall meet and endeavour, in good faith, to agree any amendments to the Catalogue and/or Small Works and Services Rates. Any dispute in relation to this paragraph 8 may be referred by either party to the Dispute Resolution Procedure. The revised and updated Catalogue and revised and updated Small Works and Services Rates with such amendments as are agreed by the parties or determined under the Dispute Resolution Procedure shall constitute the Catalogue and the Small Works and Services Rates for the purposes of this Agreement from the relevant Catalogue Review Date.

## **9 Documentation and Monitoring**

9.1 No due diligence (whether funder, legal, technical, insurance or financial) shall be required in relation to Low Value Changes unless otherwise agreed between the

parties.

- 9.2 No changes shall be made to this Agreement or any Project Document as a result of a Low Value Change, unless otherwise agreed between the parties.
- 9.3 Where it is agreed that an adjustment of the Annual Service Payment is required in respect of a Low Value Change, the Financial Model shall be adjusted to give effect to such Low Value Changes once each Contract Year on a date to be agreed between the parties and all relevant Low Value Changes that have occurred since the preceding such adjustment shall be aggregated together into a single cumulative adjustment in accordance with Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*).
- 9.4 Project Co shall keep a record of all Low Value Changes processed, completed and outstanding and shall provide the Board with a copy of that record whenever reasonably required by the Board.

## **10 Disputes**

- 10.1 Any dispute concerning any matter referred to in this Section 2 (*Low Value Changes*) may be referred by either party to the Dispute Resolution Procedure.
- 10.2 Project Co shall not be obliged to implement the Low Value Change until any dispute has been determined except that where such dispute concerns only the cost of a Low Value Change, unless the Board otherwise directs, Project Co must continue to carry out or implement the Low Value Change within the prescribed timescale notwithstanding the dispute.
- 10.3 The Board is not entitled to withdraw a Board Change Notice and procure implementation of a Low Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will implement and carry out the Low Value Change in accordance with the determination.

### SECTION 3

#### MEDIUM VALUE CHANGES

#### 1 Medium Value Changes

- 1.1 If the Board requires a Medium Value Change, it must serve a Board Change Notice on Project Co in accordance with paragraph 2 (*Medium Value Change Notice*) of this Section 3 (*Medium Value Changes*).
- 1.2 Project Co shall be entitled to refuse a Medium Value Change that:
- 1.2.1 requires the Works and/or the Services to be performed in a way that infringes any law or is inconsistent with Good Industry Practice;
  - 1.2.2 would cause any Necessary Consent to be revoked (or would require a new consent to be obtained or any existing Necessary Consent to be amended which, after using reasonable efforts, Project Co has been unable to obtain);
  - 1.2.3 would materially and adversely affect Project Co's ability to deliver the Works and/or the Services (except those Works and/or Services which have been specified as requiring to be amended in the Board Change Notice) in a manner not compensated for pursuant to this Section 3 (*Medium Value Changes*);
  - 1.2.4 would materially and adversely affect the health and safety of any person;
  - 1.2.5 would, if implemented, materially and adversely change the nature of the Project (including its risk profile); or
  - 1.2.6 the Board does not have the legal power or capacity to require implementation of.

#### 2 Medium Value Change Notice

- 2.1 A Board Change Notice for a Medium Value Change must:
- 2.1.1 state that it refers to a Medium Value Change;
  - 2.1.2 set out the change in the Works or Services or the additional works or services required in sufficient detail to enable Project Co to calculate and provide the Estimated Change in Project Costs in accordance with paragraph 3 (*Contractor's Estimate*) of this Section 3 (*Medium Value Changes*);
  - 2.1.3 set out whether, in respect of any additional facilities, Project Co is expected to provide facilities management services and lifecycle maintenance services in respect of such additional facilities; and

- 2.1.4 set out the timing of the additional works or services required by the Board.
- 2.2 Within fifteen (15) Business Days of receipt of the Medium Value Change Notice, Project Co must notify the Board in writing:
- 2.2.1 whether it considers that it is entitled to refuse the Medium Value Change on any of the grounds set out in paragraphs 1.2.1 to 1.2.6 of this Section 3;
- 2.2.2 when it will provide the Estimate to the Board bearing in mind the requirement in paragraph 7.2.2 of this Section 3; and
- 2.2.3 its estimate of the Third Party Costs that it will incur to prepare the Estimate.
- 2.3 If Project Co notifies the Board that it considers that it is entitled to refuse the Medium Value Change on one or more of the grounds set out in paragraphs 1.2.1 to 1.2.6 of this Section 3, then unless the parties otherwise agree, the Board shall be deemed to have withdrawn the Board Notice of Change if it has not referred the matter to the Dispute Resolution Procedure within twenty (20) Business Days of receipt of Project Co's notice.
- 2.4 If the Board considers that Project Co's proposed time for providing the Estimate is not reasonable, the parties shall endeavour to agree the time, failing which the matter may be referred to the Dispute Resolution Procedure.
- 2.5 If the Board considers that the Project Co's estimate of Third Party Costs to prepare the Estimate is not reasonable, the parties shall endeavour to agree the same, failing which the matter may be referred to the Dispute Resolution Procedure.
- 2.6 If any matter is referred to the Dispute Resolution Procedure pursuant to paragraph 2 (*Medium Value Change Notice*) of this Section 3 (*Medium Value Changes*), the time for Project Co to provide the Estimate shall be counted from the date of determination of that dispute if the dispute is determined in Project Co's favour.

### **3 Project Co's Estimate**

As soon as reasonably practicable and in any event within the time period agreed or determined pursuant to paragraph 2.4 of this Section 3, Project Co shall deliver to the Board the Estimate.

The Estimate must contain:

- 3.1 a detailed timetable for implementation of the Medium Value Change;
- 3.2 any requirement for relief from compliance with obligations, including the obligations of Project Co to achieve the Actual Completion Date by the Completion Date and to meet the requirements set out in the Board's Construction Requirements and/or the Service Level Specification during the implementation of the Medium Value Change;

- 3.3 an outline of the proposed design solution and design, including an appropriate analysis/risk appraisal and, to the extent relevant, the impact on whole life costings;
- 3.4 any impact on the provision of the Works and/or the Services;
- 3.5 a value for money justification for any proposed change to the quality of the works or the services comprised in the Medium Value Change as compared to the Works and the Services;
- 3.6 any amendment required to this Agreement and/or any Project Document as a result of the Medium Value Change;
- 3.7 any Estimated Change in Project Costs that results from the Medium Value Change;
- 3.8 any Capital Expenditure that is required or no longer required as a result of the Medium Value Change;
- 3.9 amendments to existing Necessary Consents that are required;
- 3.10 a payment schedule for any Capital Expenditure required to implement the Change, based on milestones where relevant;
- 3.11 costs and details of (i) any other approvals required and/or due diligence permitted pursuant to paragraph 12 of this Section 3 (*Medium Value Changes*); and (ii) any Third Party Costs;
- 3.12 the method of implementation and the proposed method of certification of any construction aspects of the Medium Value Change, if not covered by the procedures specified in Clause 14 (*Programme and Dates for Completion*); and
- 3.13 any other information requested by the Board in the Board Change Notice.

together the "**Estimate**"

#### **4 Costing of the Estimate**

In calculating the Estimated Change in Project Costs and/or the Capital Expenditure for the purposes of the Estimate, Project Co shall apply the following principles wherever applicable:

- 4.1 unless the Board's requirements for the Medium Value Change specify a different quality as compared to the Works:
  - 4.1.1 the unit cost of any construction or installation works or associated preliminaries (excluding any temporary or demolition works, professional fees, contingencies, overheads and profit margins) required to implement the Medium Value Change is the equivalent unit rate set out in Part 1 (*Unit*

*Cost for Construction or Installation Costs*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*), uplifted using the BIS Pubsec Index for construction cost inflation in the period between the Commencement Date and the date the Medium Value Change is to be commenced;

- 4.1.2 any Lifecycle Replacement and Maintenance Works associated with additional works (or changes to the Works) are consistent with the lifecycle and maintenance profile of the Facilities envisaged in Section 4 (*Project Co's Proposals*) of Schedule Part 6 (*Construction Matters*) including (without limitation) in terms of the replacement cycles for equipment, provided that Project Co must reflect improvements in technology that can optimise Whole Life Costs for the Board; and
- 4.1.3 the unit costs to be applied to the pricing of lifecycle replacement and maintenance is the equivalent unit rate set out in Part 2 (*Unit Costs of Lifecycle Maintenance*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*) (index linked);
- 4.2 any professional fees, contingencies, overheads and/or profit margins to be charged by any consultant, sub-contractor or supplier in respect of construction and/or installation and/or lifecycle and/or service provision for the Medium Value Change are the equivalent rates set out in Part 3 (*Consultant, Sub-contractor or Supplier Fees*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*) (index linked), or if the professional fees, contingencies, overheads and profit margins being charged by consultants, sub-contractors and/or suppliers in current market conditions have changed significantly from those set out in Part 3 (*Consultant, Sub-contractor or Supplier Fees*) of Appendix 2 of this Schedule Part 16 (*Change Protocol*) (index linked), such other rates as the parties agree or failing agreement as may be determined under the Dispute Resolution Procedure as being consistent with those charged in current market conditions;
- 4.3 unless the Board's requirements for the Medium Value Change specify a different quality than required by the Service Level Specification, the unit cost of any extension of, or change to, any Service (either in scope or area), taking into account the capacity of existing labour resources, is consistent with the equivalent unit rate set out in Part 4 of Appendix 2 to this Schedule Part 16 (*Change Protocol*) (index linked);
- 4.4 other than as referred to in paragraphs 4.1 to 4.3 of this Section 3 (*Medium Value Changes*) to this Schedule Part 16 no charge shall be made in respect of Project Co's time, or that of any Project Co Party spent processing, managing or monitoring the Medium Value Change (and no additional mark up or management fee shall be applied by Project Co); and
- 4.5 where aspects of the Medium Value Change are not addressed by paragraphs 4.1 to 4.4 of this Section 3 (*Medium Value Changes*), they shall be costed on a fair and reasonable basis reflecting the then current market rates.

## **5 Standards of provision of the Estimate**

In providing the Estimate Project Co must:

- 5.1 use reasonable endeavours to oblige its Sub-Contractors to minimise any increase in costs and maximise any reduction in costs;

- 5.2 demonstrate how any Capital Expenditure to be incurred or avoided is being measured in a cost effective manner, including showing that when such expenditure is incurred, reasonably foreseeable Changes in Law at that time have been taken into account; and
- 5.3 demonstrate that any expenditure that has been avoided, which was anticipated to be incurred to replace or maintain assets that have been affected by the Medium Value Change concerned, has been taken into account in the amount which in its opinion has resulted or is required under paragraphs 3.7 and/or 3.8 of this Section 3; and
- 5.4 provide written evidence of Project Co's compliance with paragraphs 5.1 to 5.3 of this Section 3.

## **6 Determination of the Estimate**

As soon as practicable after the Board receives the Estimate, the parties shall discuss and endeavour to agree the contents of the Estimate. If the parties cannot agree on the contents of the Estimate, the matter may be referred by either party to the Dispute Resolution Procedure to determine if the Estimate represents a fair and reasonable approach to implementing the Medium Value Change in all respects.

## **7 Confirmation or Withdrawal of the Medium Value Change Notice**

- 7.1 As soon as practicable after the contents of the Estimate have been agreed or otherwise determined pursuant to paragraph 6 of this Section 3, the Board shall:
  - 7.1.1 confirm in writing to Project Co the Estimate (as modified); or
  - 7.1.2 withdraw the Board Change Notice.
- 7.2 If, in any Contract Year, the Board has either not confirmed an Estimate (as modified, if applicable) within twenty (20) Business Days of the contents of the Estimate having been agreed or determined in accordance with the foregoing provisions of this Section 3 or has withdrawn a Board Change Notice for a Medium Value Change on three or more occasions, then the Board shall pay to Project Co on the third and each subsequent such occasion in that Contract Year the reasonable additional Third Party Costs incurred by Project Co in preparing the Estimate provided that:
  - 7.2.1 Project Co has used all reasonable endeavours to submit a reasonably priced Estimate; and
  - 7.2.2 Project Co made available to the Board, with the Estimate, a cost break down of Third Party Costs incurred by Project Co to prepare the Estimate, which shall be consistent with the estimate of such costs approved by the Board pursuant to paragraph 2.5 of this Section 3.

## **8 Implementation of the Medium Value Change**

- 8.1 When the Board has confirmed the Estimate in accordance with paragraph 7.1 of this

Section 3, Project Co shall, subject to Project Co obtaining all new or amended Necessary Consents that are required and have not already been obtained, implement the required Medium Value Change in accordance with the Estimate. Where an extension of time has been agreed as part of the Estimate the Completion Date shall be extended as agreed in the Estimate.

8.2 Project Co shall notify the Board when it considers that the Medium Value Change has been completed.

8.3 If:

8.3.1 Project Co fails to provide a response pursuant to paragraph 2.2 of this Section 3 within fifteen (15) Business Days of the date of the Medium Value Change Notice; or

8.3.2 Project Co fails to provide an Estimate in accordance with paragraph 3 of this Section 3; or

8.3.3 the Board has confirmed an Estimate but Project Co fails to fully implement the Medium Value Change within ten (10) Business Days after the expiry of the time for implementing the Medium Value Change set out in the Estimate Low Value Change (as such time may be extended for any delay that is, or is equivalent to, a Delay Event).;

then, subject to paragraph 14.3 of this Section 3, the Board may notify Project Co that the Medium Value Change Notice is withdrawn and, following such notification, may procure the implementation of the Medium Value Change without further recourse to Project Co, but the Board must ensure that the Medium Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the Medium Value Change.

## **9 Certification of the Medium Value Change**

9.1 Where the Medium Value Change is implemented at the Facilities and/or the Retained Estate Handback Infrastructure before the Actual Completion Date, the procedure set out at Clause 17 (*Pre-Completion Commissioning and Completion*) shall apply to the Medium Value Change at the same time as it applies to the original Works.

9.2 Where the Medium Value Change is implemented at the Facilities after the Actual Completion Date and constitutes additional works, the procedure set out and agreed in the Estimate for certifying the completion of the Medium Value Change shall apply to determine whether the Medium Value Change has been completed appropriately.

## **10 Method of Payment of Board Contribution**

10.1 Project Co shall invoice the Board for Capital Expenditure incurred by Project Co to implement a Medium Value Change according to the payment schedule set out in the Estimate as referred to in paragraph 3.10.

10.2 The Board shall make a payment to Project Co within fifteen (15) Business Days of

receipt by the Board of invoices presented to the Board (complete in all material respects) in accordance with paragraph 10.1 of this Section 3 accompanied by the relevant evidence (where applicable) that the relevant part of the Medium Value Change has been carried out.

## 11 Adjustment to Annual Service Payment

Any adjustment to the Annual Service Payment that is necessary due to the implementation of a Medium Value Change shall be calculated in accordance with Section 6 of this Schedule Part 16 (*Change Protocol*).

## 12 Due Diligence

12.1 Project Co shall procure that the Senior Lenders shall not:

12.1.1 (in any event) withhold or delay any consents that are required pursuant to the Senior Financing Agreements to a Medium Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.6 of this Section 3 apply; or

12.1.2 carry out any due diligence (whether funder, legal, technical, insurance or financial) in relation to the carrying out of any Medium Value Change unless either (i) the Medium Value Change in question would result in an adjustment to the Annual Service Payment that, on a full year basis, is in excess of one percent (1%) of the Annual Service Payment in the relevant Contract Year or (ii) the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.6 of this Section 3 apply.

12.2 Where not prohibited by paragraph 12.1 of this Section 3, the Senior Lenders may carry out legal, financial, insurance and/or technical due diligence on any proposal for a Medium Value Change. In the event that such due diligence is permitted and required, the parties shall agree a budget for the due diligence not exceeding 5% of the overall value of the Medium Value Change in question unless the parties (acting reasonably) agree otherwise. Any costs incurred by Project Co as a result of the Senior Lenders due diligence shall be reimbursed by the Board following agreement or determination of the contents of the Estimate within ten (10) Business Days of Project Co submitting an invoice for and evidence of such costs, subject to the invoices being in accordance with the agreed budget.

12.3 It is acknowledged that Changes (particularly where they involve a change to the Works or the Facilities) may require authorisation from the insurers under the Required Insurances. Project Co shall notify the relevant insurance broker immediately upon any material Medium Value Change being agreed (materiality being judged in relation to the size and nature of the scope of the Medium Value Change).

## 13 Project Documentation

13.1 Unless the parties otherwise agree, no changes to the Project Documents shall be made as a result of a Medium Value Change.

- 13.2 Project Co shall, no later than one (1) month following completion of a Medium Value Change, update the as-built drawings and the operating and maintenance manuals as necessary to reflect the Medium Value Change.

#### **14 Disputes**

- 14.1 Any dispute concerning any matter referred to in this Section 3 may be referred by either party to the Dispute Resolution Procedure.
- 14.2 Project Co shall not be obliged to implement the Medium Value Change until the dispute has been determined.
- 14.3 The Board is not entitled to withdraw a Board Change Notice and procure implementation of a Medium Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will implement and carry out the Medium Value Change in accordance with the determination.

## SECTION 4

## HIGH VALUE CHANGES

**1 High Value Changes**

- 1.1 If the Board requires a High Value Change it must serve a Board Change Notice on Project Co in accordance with paragraph 2 of this Section 4 (*High Value Changes*).
- 1.2 Project Co shall be entitled to refuse a High Value Change that:
- 1.2.1 requires the Works and/or the Services to be performed in a way that infringes any law or is inconsistent with Good Industry Practice;
  - 1.2.2 would cause any Necessary Consent to be revoked (or would require a new consent to be obtained to implement the relevant change in the Works and/or the Services which, after using reasonable efforts, Project Co has been unable to obtain);
  - 1.2.3 would materially and adversely affect Project Co's ability to deliver the Works and/or the Services (except those Works and/or Services which have been specified as requiring to be amended in the High Value Change Notice) in a manner not compensated pursuant to this Section 4 (High Value Changes);
  - 1.2.4 would materially and adversely affect the health and safety of any person;
  - 1.2.5 would, if implemented, materially and adversely change the nature of the Project (including its risk profile);
  - 1.2.6 is the subject of a High Value Change Notice that cannot reasonably be complied with;
  - 1.2.7 the Board does not have the legal power or capacity to require implementation of; or
  - 1.2.8 would if implemented adversely affect the enforceability or priority of the security held by or on behalf of the existing Senior Lenders.

**2 High Value Change Notice**

- 2.1 A Board Change Notice for a High Value Change must:
- 2.1.1 state that it refers to a High Value Change;
  - 2.1.2 set out the maximum available capital and/or revenue the Board is able to commit to that High Value Change (the "**Target Cost**");

- 2.1.3 identify any requirements of the Board that must be satisfied as part of the High Value Change Proposal (the “**High Value Change Requirements**”); and
  - 2.1.4 identify how the Board will assess whether the High Value Change Stage 2 Submission offers it value for money.
- 2.2 The parties may agree written protocols with express reference to this Section 4 (*High Value Changes*) which explain or clarify any aspects of the High Value Change approval procedure set out in this Section 4 (*High Value Changes*) and such protocols shall be read as if incorporated into this Section 4 (*High Value Changes*) (including accelerated procedures with reduced requirements for High Value Changes of relatively low values).
- 2.3 The parties must:
- 2.3.1 within five (5) Business Days of receipt by Project Co of any High Value Change Notice, discuss and review the nature of the High Value Change, including a discussion as to which of the items set out in paragraph 3.4 of this Section 4 (*High Value Changes*) are appropriate to be included within the High Value Change Proposal; and
  - 2.3.2 within five (5) Business Days of a High Value Change Proposal becoming a Stage 1 Approved Project, discuss and review the nature of the Stage 1 Approved Project, including a discussion as to which of the items set out in paragraph 4.3 of this Section 4 (*High Value Changes*) are appropriate to be included within the High Value Change Stage 2 Submission.

### **3 High Value Change Proposal**

- 3.1 Project Co must notify the Board in writing as soon as practicable and in any event within fifteen (15) Business Days after having received the Board Change Notice for a High Value Change if it considers that any of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply. If no such notice is served, Project Co must (within thirty (30) Business Days after having received the Board Change Notice) either:
- 3.1.1 submit a High Value Change Proposal to the Board; or
  - 3.1.2 notify the Board as to when the High Value Change Proposal will be provided to it (provided that Project Co shall use all reasonable endeavours to obtain all the information that it requires, expeditiously).
- 3.2 If Project Co notifies the Board that it considers that one or more of the grounds set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply, then unless the parties otherwise agree, the Board shall be deemed to have withdrawn the Board Notice of Change if it has not referred the matter to the Dispute Resolution Procedure within twenty (20) Business Days of receipt of Project Co’s notice. If the matter is referred to the Dispute Resolution Procedure the time for Project Co to provide the High Value Change Proposal shall be counted from the date of determination of that dispute if the dispute is determined in Project Co’s favour.

- 3.3 If the Board considers that Project Co's proposed time for providing the High Value Change Proposal is not reasonable, the parties shall endeavour to agree the time, failing which the matter may be referred to the Dispute Resolution Procedure.
- 3.4 Unless Project Co has submitted a High Value Change Proposal in accordance with paragraph 3.1.1 of this Section 4 (*High Value Changes*), Project Co must deliver to the Board the High Value Change Proposal as soon as reasonably practicable and in any event within the time period agreed or determined pursuant to paragraph 3.3 of this Section 4 (*High Value Changes*). Unless the parties agree otherwise, a High Value Change Proposal will contain at least the following information in sufficient detail to enable the Board to make an informed decision under paragraph 3.6 of this Section 4 (*High Value Changes*):
- 3.4.1 a description of the High Value Change, with evidence of how the High Value Change meets the High Value Change Requirements;
  - 3.4.2 an outline of the proposed building solution and design including an appropriate analysis/risk appraisal of, in each case to the extent relevant (if at all), the preferred investment solution contemplated in terms of new build, refurbishment, whole life costings;
  - 3.4.3 the Change Management Fee for the High Value Change, which shall be a capped fee calculated in accordance with paragraph 10 of this Section 4 (*High Value Changes*);
  - 3.4.4 details of the third party activity likely to be required by Project Co in developing a High Value Change Stage 2 Submission together with a budget (or budgets) for relative Third Party Costs;
  - 3.4.5 an estimated programme for submission of the High Value Change Stage 2 Submission and for the implementation of the High Value Change;
  - 3.4.6 any requirement for relief from compliance with obligations, including the obligations of Project Co to achieve the Actual Completion Date by the Completion Date and meet the requirements set out in the Board's Construction Requirements and/or the Service Level Specification during the implementation of the High Value Change;
  - 3.4.7 any impact on the provision of the Works and/or the Services;
  - 3.4.8 any amendment required to this Agreement and/or any Project Document as a result of the High Value Change;
  - 3.4.9 any Estimated Change in Project Costs that results from the High Value Change;
  - 3.4.10 an outline of how Project Co proposes to finance any Capital Expenditure required for the High Value Change;
  - 3.4.11 Project Co's suggested payment schedule for any Capital Expenditure to be

incurred in implementing the Change that is to be borne by the Board, based on milestones where relevant;

- 3.4.12 any new Necessary Consents and/or any amendments to existing Necessary Consents which are required;
- 3.4.13 costs and details of any other approvals required or due diligence permitted pursuant to paragraph 14 of this Section 4 (*High Value Changes*);
- 3.4.14 the proposed method of certification of any construction or operational aspects of the Works or the Services required by the proposed High Value Change if not covered by the procedures specified in Clause 17 (*Pre-Completion Commissioning and Completion*); and
- 3.4.15 a value for money assessment explaining why Project Co's proposals represent value for money taking into account both the proposed Capital Cost and Whole Life Cost.

### 3.5 **Liaison between Project Co, the Board and relevant end users**

In developing a High Value Change Proposal Project Co must liaise with the Board and relevant end users (being such persons or organisations as Project Co in consultation with the Board considers appropriate). The Board must provide Project Co with such information about its requirements as Project Co reasonably requires and must assist Project Co in the review of any draft designs in relation to the High Value Change Proposal. Any and all information and other input or feedback provided by the Board to Project Co, unless expressly stated otherwise by the Board, will be without warranty and will be provided without prejudice to the Board's rights under this Section 4 (*High Value Changes*).

### 3.6 **Consideration of a High Value Change Proposal by the Board**

The Board will consider in good faith each High Value Change Proposal put forward by Project Co and the Board will not unreasonably withhold or delay its consent to a High Value Change Proposal. If, acting reasonably, the Board finds that any material aspects of the High Value Change Proposal are unsatisfactory to it, it shall notify Project Co of the same and offer reasonable assistance to Project Co to enable it to revise and resubmit the High Value Change Proposal as soon as reasonably practicable.

### 3.7 **Board response to a High Value Change Proposal**

If the Board approves a High Value Change Proposal (including any revised High Value Change Proposal resubmitted pursuant to paragraph 3.5 of this Section 4 (*High Value Changes*)), then it shall be a "**Stage 1 Approved Project**" or be referred to as having received "**Stage 1 Approval**", as the context requires.

### 3.8 **Project Co not entitled to dispute non-approval**

Project Co shall not be entitled to refer any dispute concerning the Board's failure to

approve a High Value Change Proposal to the Dispute Resolution Procedure.

#### **4 Stage 2 Submission**

##### **4.1 Development of a High Value Change Stage 2 Submission**

4.1.1 Within ten (10) Business Days of a High Value Change Proposal having become a Stage 1 Approved Project, the parties shall seek to agree the time period within which Project Co must develop the Stage 1 Approved Project into a detailed submission (the “**High Value Change Stage 2 Submission**”). If the parties are unable to agree a reasonable time period for such submission any dispute may be referred to the Dispute Resolution Procedure.

4.1.2 Following agreement or determination of what is an appropriate time period for submission by Project Co of the High Value Change Stage 2 Submission pursuant to paragraph 4.1.1 of this Section 4 (*High Value Changes*), Project Co shall proceed regularly and diligently to produce and submit the same to the Board within the agreed or determined time period.

##### **4.2 Liaison between Project Co, the Board and relevant end users**

In developing a High Value Change Stage 2 Submission Project Co must continue to liaise with the Board and relevant end users (being such persons or organisations as the Board in consultation with Project Co considers appropriate). The Board must provide Project Co with such information as to its requirements as is reasonably necessary to enable Project Co to submit a full and complete High Value Change Stage 2 Submission and any such other information as Project Co may reasonably require and must assist Project Co in the review of any draft designs in relation to the Stage 1 Approved Project and in the development of other aspects of the High Value Change Stage 2 Submission (but not where this would involve the Board incurring additional material expense). Any and all information and other input or feedback provided by the Board to Project Co will be without warranty and will be provided without prejudice to the Board’s rights under this Section 4 (*High Value Changes*).

##### **4.3 Content requirements in relation to a High Value Change Stage 2 Submission**

Save where the parties agree otherwise, in relation to the relevant Stage 1 Approved Project, Project Co shall procure that a High Value Change Stage 2 Submission includes (but not be limited to):

4.3.1 draft(s) of the relevant Project Document(s) identifying (if relevant) any material changes or amendments proposed in respect of the relevant Stage 1 Approved Project, together with the reasons for any such changes or amendments proposed and including full details of which provisions of the relevant Project Documents will apply to the High Value Change so that it is implemented in equivalent manner and to an equivalent standard as required in respect of the Works and/or Services as appropriate;

4.3.2 detailed design solutions (to RIBA Level D);

- 4.3.3 appropriate plans and drawings;
- 4.3.4 relevant detailed planning permissions and any other relevant planning approvals and Necessary Consents (or such lesser confirmation or information in relation to planning as may be agreed with the Board);
- 4.3.5 a proposed revised Financial Model including the detailed price estimates for the Stage 1 Approved Project;
- 4.3.6 an explanation (together with appropriate supporting evidence) as to why the High Value Change Stage 2 Submission meets the Approval Criteria (as defined in paragraph 7 of this Section 4 (*High Value Changes*));
- 4.3.7 confirmation (or details of any requested variations to (with supporting justification)) of the Change Management Fee referred in paragraph 3.4.3 of this Section 4 (*High Value Changes*);
- 4.3.8 the proposed method of certification of any construction aspects of the High Value Change, if not covered by the procedures specified in Clause 17 (*Pre-Completion Commissioning & Completion*);
- 4.3.9 a value for money assessment explaining why Project Co's proposals represent value for money taking into account both the proposed Capital Cost and Whole Life Cost;
- 4.3.10 a timetable and method statement setting out how the relevant High Value Change will be delivered, which shall include (but not be limited to) in so far as relevant:
- (a) proposals for the effective management of the building programme;
  - (b) details of any relevant Interface Proposals;
  - (c) an assessment as to the savings (if relevant) to be generated by the High Value Change, particularly on staff costs and lifecycle replacement and maintenance and operation of Services;
  - (d) details of the Sub-Contractors together with evidence and explanation of the value testing undertaken by Project Co in relation to the High Value Change;
  - (e) a completed risk register showing the potential risks identified in relation to the delivery of the High Value Change the occurrence of which are capable of adversely affecting the time for completion, cost and/or quality of the project, the probability of such risks occurring and a financial estimate of the most likely consequences of each risk occurring together with the prioritisation of all continuing risks and an action plan in respect of, and risk owners for, all risks prioritised as serious risks;

- 4.3.11 any surveys and investigations and associated reports that are reasonably necessary to ascertain (in relation to Changes involving the construction of additional buildings) information as to the nature, location and condition of the relevant land (including hydrological, geological, geotechnical and sub-surface conditions) together with information relating to archaeological finds, areas of archaeological, scientific or natural interest and (in relation to the refurbishment of any existing buildings) information on the condition and quality of existing structures and, in particular, the presence of any latent defects.

#### **Co-operation of the Board**

- 4.4 The Board will co-operate with Project Co in relation to any High Value Change Stage 2 Submission being developed by Project Co, including (without limitation) promptly providing:
- 4.4.1 written confirmation of the Target Cost and/or High Value Change Requirements and any change to such Target Cost and/or High Value Change Requirements; and
- 4.4.2 any information reasonably required by Project Co to enable it to satisfy the requirements of paragraph 4.3 of this Section 4 (*High Value Changes*).

#### **5 Time periods for approval**

- 5.1 Each High Value Change Proposal and each High Value Change Stage 2 Submission shall be valid for a period of three (3) months from the date of its submission by Project Co.
- 5.2 If by the end of the three (3) month period referred to in paragraph 5.1 of this Section 4 (*High Value Changes*) the Board has not:
- 5.2.1 in relation to a High Value Change Proposal, approved or rejected that High Value Change Proposal in accordance with the procedures set out in this Section 4 (*High Value Changes*):
- (a) Project Co shall be entitled to withdraw the High Value Change Proposal; and
- (b) Project Co shall not be entitled to any costs relating to the High Value Change Proposal unless the Board has either not responded to the High Value Change Proposal and/or is in material breach of its obligations in paragraph 3 and/or paragraph 4.4 of this Section 4 in which case paragraph 8.5 of this Section 4 (*High Value Changes*) shall apply;
- 5.2.2 in relation to a High Value Change Stage 2 Submission, approved or rejected that High Value Change Stage 2 Submission in accordance with the procedures set out in this Section 4 (*High Value Changes*) (or has not given any notification of the Board's response to the High Value Change Stage 2 Submission or has given written notice to Project Co withdrawing or cancelling the High Value Change to which the High Value Change Stage 2 Submission relates) then the High Value Change Stage 2 Submission shall

be deemed to have been improperly rejected by the Board and paragraph 8.5 shall apply.

## 6 Changes to the High Value Change Requirements or Approval Criteria

- 6.1 If the High Value Change Requirements or Approval Criteria are subject to any material variation in relation to a High Value Change by the Board after the High Value Change Proposal has been submitted then:
- 6.1.1 Project Co and the Board shall negotiate in good faith as to the implications on the High Value Change Proposal or High Value Change Stage 2 Submission (as the case may be) and shall seek to agree changes thereto to accommodate the variation (including any change to the Target Cost and/or to the Change Management Fee);
- 6.1.2 if agreement has not been reached pursuant to paragraph 6.1.1 of this Section 4 (*High Value Changes*) within twenty (20) Business Days (or such longer period as the parties may agree) then:
- (a) Project Co shall be entitled by notice in writing to the Board to withdraw the High Value Change Proposal or the High Value Change Stage 2 Submission (as the case may be) and to be paid the Incurred Change Management Fee with the Calculation Date being the date of the variation notified by the Board; and
- (b) the Board shall not be entitled to procure the High Value Change without issuing a new Board Change Notice for the High Value Change and complying with the procedure in this Section 4 (*High Value Changes*) in relation to that High Value Change.
- 6.1.3 The Board may, at any time, give notice in writing to Project Co that it proposes to cancel a High Value Change without completing the process set out in this Section 4 (*High Value Changes*) in which case the Board must pay Project Co the Incurred Change Management Fee in respect of the cancelled High Value Change with the Calculation Date being the date of such notice.

## 7 Approval Criteria

- 7.1 For the purposes of this Section 4 (*High Value Changes*), Approval Criteria means the criteria against which any Stage 1 Approved Project is to be judged by the Board in determining whether it achieves Stage 2 Approval. The criteria are:
- 7.1.1 whether the costs of the Stage 1 Approved Project are within the Target Cost notified to Project Co by the Board;
- 7.1.2 whether it has been demonstrated that the Stage 1 Approved Project provides value for money assessed in accordance with the measures identified by the Board in accordance with paragraph 2.1.4 of this Section 4 (*High Value Changes*);

- 7.1.3 whether the Board, acting reasonably, is satisfied that the High Value Change Stage 2 Submission meets the High Value Change Requirements;
- 7.1.4 whether any material changes or amendments to the relevant Project Document(s) as detailed pursuant to paragraph 4.3.1 of this Section 4 (*High Value Changes*) are acceptable to the Board, acting reasonably; and
- 7.1.5 whether the High Value Change Stage 2 Submission contains all the information required pursuant to paragraph 4.3 of this Section 4 (*High Value Changes*) (or as otherwise agreed by the parties).

## **8 Submission of the High Value Change Stage 2 Submission to the Board and consideration of that submission by the Board**

- 8.1 The Board will consider in good faith High Value Change Stage 2 Submissions submitted by Project Co and the Board will not unreasonably withhold or delay its consent to a High Value Change Stage 2 Submission. The Board is entitled to call for such reasonable information and assistance as it considers appropriate to enable it to decide whether the High Value Change Stage 2 Submission meets the Approval Criteria. Project Co must reply promptly to all such requests for further information and assistance.
- 8.2 As soon as reasonably practicable after the submission to it of a High Value Change Stage 2 Submission (including any revised High Value Change Stage 2 Submission re-submitted by Project Co) the Board must give written notice of whether it:
  - 8.2.1 approves the relevant Stage 1 Approved Project (in which case the Stage 1 Approved Project will be referred to as having received "**Stage 2 Approval**" or as being a "**Stage 2 Approved Project**" or an "Approved Project" as the context requires); or
  - 8.2.2 rejects the Stage 1 Approved Project:
    - (a) on the ground that the High Value Change Stage 2 Submission in relation to the relevant Stage 1 Approved Project has failed to meet one or more of the Approval Criteria (except as referred to in paragraph 8.2.2(b)(i) or paragraph 8.2.2(b)(ii)), in which case (subject to resubmission under paragraph 8.2.3) paragraph 8.3 shall apply;
    - (b)
      - (i) because, as a result of any change to the Target Cost referred to in paragraph 2.1.2, the Stage 1 Approved Project is not in fact Affordable despite the High Value Change Stage 2 Submission being within the Target Cost notified by the Board pursuant to paragraph 2.1.2 of this Section 4 (*High Value Changes*); or
      - (ii) because Project Co has failed to meet one or more of the Approval Criteria and the sole reason for that failure is that any Necessary Consent identified by Project Co (in compliance with

paragraph 3.4.12 of this Section 4 (*High Value Changes*) has not been obtained; or

- (iii) otherwise on grounds other than those set out in paragraphs 8.2.2(a), 8.2.2(b)(i) and 8.2.2(b)(ii) of this Section 4 (*High Value Changes*),

in which case paragraph 8.5 shall apply.

8.2.3 If the Board rejects the High Value Change Stage 2 Submission on the grounds set out in paragraph 8.2.2(a) the Board and Project Co will work together to address the reasons for such failure and attempt in good faith to produce a revised High Value Change Stage 2 Submission for Project Co to re-submit to the Board.

8.2.4 If:

- (a) a resubmitted High Value Change Stage 2 Submission is rejected by the Board on the ground set out in paragraph 8.2.2(a) (subject to paragraphs 16.3 to 16.4 (if applicable) of this Section 4 (*High Value Changes*)); or
- (b) no resubmission of the High Value Change Stage 2 Submission is made within thirty (30) Business Days of the date of the notice of rejection (or such longer period as the parties may agree),

then the relevant Stage 1 Approved Project shall be treated as having been properly rejected, the provisions of paragraph 8.3 of this Section 4 (*High Value Changes*) shall apply and neither the Board nor Project Co will have any further obligations in relation to the relevant High Value Change referred to in the High Value Change Stage 2 Submission.

**If a High Value Change Stage 2 Submission is properly rejected by the Board**

8.3 Where this paragraph 8.3 applies (as set out in paragraph 8.2.2(a), paragraph 8.2.4 and paragraph 16.4.2 of this Section 4 (*High Value Changes*)) the Board shall not be required to reimburse or compensate Project Co in respect of any costs relating to the High Value Change including the Change Management Fee.

8.4 If:

8.4.1 Project Co fails to provide a response to a Board Change Notice in accordance with paragraph 3.1 of this Section 4 (*High Value Changes*); or

8.4.2 (where applicable) Project Co fails to provide a High Value Change Proposal in accordance with paragraph 3.4 of this Section 4 (*High Value Changes*); or

8.4.3 Project Co fails to submit a High Value Change Stage 2 Submission in accordance with paragraph 4.1.2 of Section 4 (*High Value Changes*); or

- 8.4.4 the Board has validly rejected a High Value Change Stage 2 Submission in accordance with paragraph 8.2 and the matter has not been referred to the Dispute Resolution Procedure or any such dispute has been determined as described in paragraph 16.4.2 of this Section 4 (*High Value Changes*),

then, subject to paragraph 17 of this Section 4 (*High Value Changes*), the Board may notify Project Co that the High Value Change Notice is withdrawn and, following such notification, may procure the implementation of the High Value Change without further recourse to Project Co, but the Board must ensure that the High Value Change is carried out in accordance with Good Industry Practice and to the standards that would have applied to Project Co if it had implemented the High Value Change.

**If a High Value Change Stage 2 Submission is improperly rejected by the Board**

- 8.5 Where this paragraph 8.5 applies (as set out in paragraph 5.2.1(b), paragraph 5.2.2 paragraph 8.2.2(b) and paragraph 16.4.1)), the Incurred Change Management Fee and Third Party Costs incurred by Project Co to prepare the High Value Change Proposal and Stage 2 Submission, which shall be in accordance with the activities and budget referred to in paragraph 3.4.4 of this Section 4 (*High Value Changes*), in relation to the relevant High Value Change will be paid by the Board within ten (10) Business Days of the date on which Project Co receives written notice of the rejection or the date of the deemed rejection (as the case may be) with the date of the rejection or the deemed rejection (as the case may be) being the Calculation Date for the purposes of calculating the amount of the Incurred Change Management Fee (unless a different Calculation Date is expressly stated in this Section 4 (*High Value Changes*) in relation to the circumstances giving rise to the entitlement of Project Co to be paid the Incurred Change Management Fee).

**9 Information and notifications by the Board to Project Co and cooperation of the Board**

- 9.1 The Board must notify Project Co as soon as it becomes aware of any matter which may have a reasonably foreseeable material adverse effect on the viability of any High Value Change including any:
- 9.1.1 planning issues likely to cause a material delay in the anticipated programme for the High Value Change or material cost increases; and
  - 9.1.2 changes to funding which the Board receives or to the way in which funding may be applied, either or both of which may affect whether a High Value Change is Affordable.
- 9.2 The Board shall provide reasonable assistance to Project Co in relation to the procurement by Project Co of all relevant Necessary Consents.

**10 Change Management Fee**

The Change Management Fee is to reimburse Project Co for the time spent by its employees in project managing the development, procurement and implementation of the High Value Change and shall:

- 10.1 be based on actual time spent (validated by time sheets);

10.2 be calculated at the daily rates as set out in Appendix 2 Part 3 to this Schedule Part 16 (*Change Protocol*), but capped at the sum set out in the High Value Change Proposal;

10.3 not include the time of any person who is not employed by Project Co;

10.4 not include any mark-up or profit or additional overheads;

10.5 be paid in three stages as follows:

10.5.1 on Stage 1 Approval;

10.5.2 on Stage 2 Approval; and

10.5.3 when any works involved in the High Value Change have been completed,

and at each stage Project Co shall charge the Board (subject to the applicable cap) only for the time incurred by its staff up to completion of that stage.

## **11 Implementation of the High Value Change**

Project Co must implement any High Value Change approved by the Board so as to minimise any inconvenience to the Board and to the provision of Board Services and in accordance with the Approved Project. Where an extension of time has been agreed as part of the Stage 2 Approval the Completion Date shall be extended as agreed in the Approved Project.

## **12 Method of Payment of Board Contribution**

12.1 This paragraph 12 shall apply where Capital Expenditure for an Approved Project is to be funded in whole or part by the Board.

12.2 Project Co shall invoice the Board for Capital Expenditure incurred by Project Co to implement a High Value Change that is to be borne by the Board according to the payment schedule set out in the High Value Change Stage 2 Submission as referred to in paragraph 3.4.11 of this Section 4.

12.3 The Board shall make a payment to Project Co within fifteen (15) Business Days of receipt by the Board of invoices presented to the Board (complete in all material respects) in accordance with paragraph 12.2 of this Section 4, accompanied by the relevant evidence (where applicable) that the relevant part of the High Value Change has been carried out.

## **13 Adjustment to Annual Service Payment**

Any adjustment to the Annual Service Payment which is necessary as a result of the implementation of a High Value Change shall be calculated in accordance with Section 6 of

this Schedule Part 16 (*Change Protocol*).

## 14 Due Diligence

- 14.1 Where the Board is funding the High Value Change, Project Co shall procure that the Senior Lenders shall not withhold or delay any consents which are required pursuant to the Senior Financing Agreements to such High Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply.
- 14.2 Where the Board is not funding the High Value Change, Project Co shall procure that the Senior Lenders do not unreasonably withhold or delay any consents which are required pursuant to the Senior Financing Agreements to such High Value Change other than on the basis that the Senior Lenders, acting pursuant to the terms of the Senior Financing Agreements, reasonably believe that one or more of the circumstances set out in paragraphs 1.2.1 to 1.2.8 of this Section 4 (*High Value Changes*) apply.
- 14.3 The parties agree that the Senior Lenders may carry out legal, financial, insurance and technical due diligence on any proposal for a High Value Change. The parties shall agree a budget for the due diligence provided that the costs may not exceed the lower of (i) 3% of the overall value of the High Value Change in question or (ii) fifty thousand pounds (£50,000) unless, in either case, the parties (acting reasonably) agree otherwise. Any costs incurred by Project Co as a result of the Senior Lenders due diligence will be reimbursed by the Board following the conclusion of the process in this Section 4 (*High Value Changes*) within ten (10) Business Days of Project Co submitting an invoice for and evidence of such costs, subject to the invoices being in accordance with the agreed budget.
- 14.4 It is acknowledged that High Value Changes (particularly where they involve a change to the Works or the Facilities) may require authorisation from the insurers under the Required Insurances. Project Co shall notify the relevant insurance broker immediately upon any material High Value Change being agreed (materiality being judged in relation to the size and nature of the scope of the High Value Change).
- 14.5 The parties agree that paragraph 14.2 of this Section 4 (*High Value Changes*) of this Schedule Part 16 (*Change Protocol*) does not oblige the Senior Lenders to provide any additional funding for the relevant High Value Change, which shall be in their absolute discretion.

## 15 Project Documentation

- 15.1 The only changes to the Project Documents or Ancillary Documents to be made as a result of a High Value Change shall be those identified in the Approved Project (subject to any amendments to it agreed by the parties).
- 15.2 Project Co shall, on completion of the Change, update the as-built drawings and the operating and maintenance manuals as necessary to reflect the High Value Change.

## 16 Disputes

- 16.1 Except as otherwise expressly provided, any dispute concerning any matter referred to in this Section 4 (*High Value Changes*) may be referred by either party to the Dispute Resolution Procedure.
- 16.2 The Board shall not be entitled to approve a High Value Change Proposal or a High Value Change Stage 2 Submission that is the subject of a dispute until the dispute has been determined.
- 16.3 If the Board rejects a High Value Change Stage 2 Submission pursuant to the provisions of paragraph 8.2.2(a) of this Section 4, Project Co shall be entitled to refer the matter for consideration under the Dispute Resolution Procedure within ten (10) Business Days after receiving written notice of the Board's decision.
- 16.4 If, following a referral to the Dispute Resolution Procedure, it is agreed or determined:
- 16.4.1 that the High Value Change rejected by the Board pursuant to paragraph 8.2.2(a) of this Section 4 met the Approval Criteria the Board shall either:
- (a) declare that the relevant High Value Change has received Stage 2 Approval and that High Value Change shall proceed; or
  - (b) declare that its rejection of the relevant High Value Change be treated as an improper rejection and that the provisions of paragraph 8.2.2(a) of this Section 4 (*High Value Changes*) shall apply.
- 16.4.2 the High Value Change did not meet the Approval Criteria, save in one of the respects referred to in paragraphs 8.2.2(b)(i) or 8.2.2(b)(ii) the provisions of paragraph 8.3 of this Section 4 (*High Value Changes*) shall apply.
- 17 The Board is not entitled to withdraw a Board Change Notice and procure implementation of a High Value Change in respect of which there is a dispute that has been referred to the Dispute Resolution Procedure, unless that dispute has been determined in its favour and Project Co has not confirmed to the Board in writing within five (5) Business Days of the date of the determination that it will comply with its obligations under this Section 4 in accordance with the determination.

## SECTION 5

### PROJECT CO CHANGES

- 1 If Project Co wishes to introduce a Project Co Change, it shall serve a notice containing the information required pursuant to paragraph 2 of this Section 5 (*Project Co Changes*) (a "*Project Co Notice of Change*") on the Board.
  
- 2 A Project Co Notice of Change shall:
  - 2.1 set out the proposed Project Co Change in sufficient detail to enable the Board to evaluate it in full;
  
  - 2.2 specify Project Co's reasons for proposing Project Co Change;
  
  - 2.3 indicate any implications of Project Co Change;
  
  - 2.4 indicate what savings, if any, will be generated by Project Co Change, including:
    - 2.4.1 whether a reduction of the Annual Service Payment is; or
  
    - 2.4.2 whether such savings will be paid to the Board in a lump sum,

in each case giving details in accordance with paragraph 8 of this Section 5 (*Project Co Changes*);
  
  - 2.5 indicate whether there are any critical dates by which a decision by the Board is required; and
  
  - 2.6 request the Board to consult with Project Co with a view to deciding whether to agree to Project Co Change and, if so, what consequential changes the Board requires as a result.
  
- 3 The Board shall evaluate Project Co Notice of Change in good faith, taking into account all relevant issues, including whether:
  - 3.1 a revision of the Annual Service Payment will occur;
  
  - 3.2 the Project Co Change may affect the quality of the Services and/or the Works or the likelihood of successful completion of the Works and/or delivery of the Services (or any of them);
  
  - 3.3 the Project Co Change will interfere with the relationship of the Board with third parties;
  
  - 3.4 the financial strength of Project Co is sufficient to perform the Works and/or Services after implementation of Project Co Change;

- 3.5 the value and/or life expectancy of any of the Facilities will be reduced; or
- 3.6 the Project Co Change materially affects the risks or costs to which the Board is exposed.
- 4 As soon as practicable after receiving Project Co Notice of Change, the parties shall meet and discuss the matters referred to in it, including in the case of a Relevant Change in Law those matters referred to in Clause 32.4 (*Relevant Changes in Law*) of this Agreement. During discussions the Board may propose modifications to, or accept or reject, Project Co Notice of Change.
- 5 If the Board accepts Project Co Notice of Change (with or without modification) the parties shall consult and agree the remaining details as soon as practicable and upon agreement the Board shall issue a notice confirming Project Co Change which shall set out the agreed Project Co Change and:
- 5.1 shall enter into any documents to amend this Agreement or any relevant Ancillary Document which are necessary to give effect to Project Co Change;
- 5.2 subject to paragraph 7 of this Section 5 (*Project Co Changes*), the Annual Service Payment shall be revised in accordance with Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*); and
- 5.3 Project Co Change shall be implemented within the period specified by the Board in its notice of acceptance.
- 6 If the Board rejects Project Co Notice of Change, it shall not be obliged to give its reasons for such a rejection and Project Co shall not be entitled to reimbursement by the Board of any of its costs involved in the preparation of Project Co Notice of Change.
- 7 Unless the Board's written acceptance expressly agrees to an increase in the Annual Service Payment or that Project Co should be entitled to relief from any of its obligations, there shall be no increase in the Annual Service Payment or relief granted from any obligations as a result of a Project Co Change.
- 8 If a Project Co Change causes, or will cause, Project Co's costs or those of a sub-contractor to decrease, there shall be a decrease in the Annual Service Payment such that any cost savings (following deduction of costs reasonably incurred by Project Co in implementing such Project Co Change) will be shared on the basis of fifty per cent (50%) of the saving being retained by Project Co and fifty per cent (50%) of the saving being paid to the Board as a lump sum within ten (10) Business Days of agreement or determination or by way of revision of the Annual Service Payment pursuant to Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*).

## SECTION 6

### CHANGING THE FINANCIAL MODEL

#### Procedure

- 1 If a Relevant Event occurs, the Financial Model shall be adjusted in accordance with this Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*).

#### Adjusting the Logic or Formulae

- 2 If it is necessary to make a Logic Adjustment to permit an Input Adjustment or Assumption Adjustment to be made, Project Co shall make such Logic Adjustment only:
- 2.1 to the extent necessary;
  - 2.2 in accordance with generally accepted accounting principles in the United Kingdom; and
  - 2.3 so as to leave Project Co in no better and no worse a position.
- 3 In order to demonstrate that the conditions in paragraph 2 are met, Project Co shall prepare:
- 3.1 a run of the Financial Model before making any Assumption Adjustment or Input Adjustment and immediately prior to making the Logic Adjustment; and
  - 3.2 a run of the Financial Model immediately following the Logic Adjustment which shows that Project Co is in no worse and no better a position following the making of the Logic Adjustment.

#### Adjusting the Assumptions

- 4 Subject to paragraph 5, Project Co may make an Assumption Adjustment so that the Assumptions in the Financial Model reflect:
- 4.1 reasonable economic assumptions prevailing at the Adjustment Date; and
  - 4.2 reasonably foreseeable changes in the prospective technical performance of the Project arising as a result of the Relevant Event.
- 5 In making Assumption Adjustments, Project Co may make such adjustments only insofar as they relate to the Relevant Event, and such adjustments shall not have effect in relation to any period prior to the Adjustment Date, nor in relation to any aspect of the Project other than the Relevant Event in the period following the Adjustment Date.

#### Adjusting the Inputs

- 6 Project Co may make Input Adjustments to the extent required to reflect the Estimated Change in Project Costs arising out of the Relevant Event.

#### Adjusting the Annual Service Payments

- 7 In order to calculate the adjustment to be made to the Annual Service Payments, Project Co shall run the Financial Model after making the Logic Adjustments, the Assumption Adjustments and the Input Adjustments relating to the Relevant Event and permitted by this Section 6 (*Changing the Financial Model*) of this Schedule Part 16 (*Change Protocol*) so that, following the Relevant Event, it is in no better and no worse a position than it would have been if no Relevant Event had occurred.
- 8 The Annual Service Payments shall be adjusted by such amount as leaves Project Co, following the Relevant Event, in no better and no worse a position than it would have been if no Relevant Event had occurred.

**No better and no worse**

- 9 Any reference in this Agreement to “no better and no worse” or to leaving Project Co in “no better and no worse a position” shall be construed by reference to Project Co’s:
- 9.1 rights, duties and liabilities under or arising pursuant to performance of this Agreement, the Funding Agreements, the Construction Contract and Service Contracts; and
  - 9.2 ability to perform its obligations and exercise its rights under this Agreement, the Funding Agreements, the Construction Contract and Service Contracts,
- so as to ensure that:
- 9.3 Project Co is left in a position in relation to the Key Ratios which is no better and no worse in the Post-Adjustment Financial Model than it is in the Pre-Adjustment Financial Model; and
  - 9.4 following the making of the Adjustments, the ability of Project Co to comply with this Agreement is not adversely affected or improved as a consequence of the Relevant Event.

Appendix 1, Part 1, (Catalogue)

[Return to Summary](#)

Provide fixed, fully inclusive rates for the following tasks:

Task / Item - Hard Services	Bidder Priced Task Description	Timescale	Rate (£)
a	Installation or relocation of single 13A electrical single/double gang socket	2h	87.5
b	Installation or relocation of single RJ45/11 single/double Network point	4h	140
c	Installation or relocation of single 13A single/double switch	4h	87.5
d	Installation or relocation of single isolation switch	4h	100
e	Installation or relocation of light fitting	2h	125
f	Installation of additional smoke/heat detector (compatible with fire system)	8h	395
g	Installation of additional break glass call point (compatible with fire system)	8h	395
h	Provision of additional keys (cost per key)	48h	12.5
i	Supply & installation of door names/plaques	48h	75

j	Supply & install mechanical numeric door lock	Based on Securefast Mechanical Standard Duty Push Button Lock	4h	37.5
k	Supply & install cylinder door lock (complete with 2 keys) (identify by type)	Based on 2h labour and supply and fit euro cylinder anti-bump	2h	30
l	Supply & install swipe access point and magnetic lock (identify by type)	Based on Mag lock 250kg, swipe access card, power supply, 10 m cable and connections	8h	210
m	Supply & install digital access pad and magnetic lock (identify by type)	Based on Mag lock 250kg, digital access card, power supply, 10 m cable and connections, not connected to networks for remote access	8h	185
n	Supply & install spur type wall mounted shelf 1m long	Based on standard shelves (10kg/ml)	0.75h	19.8
o	Supply & install (IPS) clinical wash hand basin including taps	Based on Armitage Shanks LBG M Portman 21 hospital pattern wash basin with Contour 21 lever thermostatic tap. Waste connection allowed up to 2m run. Water services connection allowed up to floor to slab height.	2.75h	433.4
p	Supply & install solar control film to internal windows (ward accommodation) (per m <sup>2</sup> )	Based on 3M solar control Amber Low E, minimum order of 5 windows	0.75h	72.4
q	Supply & install solar control film to internal windows (office accommodation) (per m <sup>2</sup> )	Based on 3M solar control Amber, minimum order of 5 windows	0.67h	53.8
r	Supply & install solar control film to internal windows (public areas) (per m <sup>2</sup> )	Based on 3M solar control Amber, minimum order of 5 windows	0.67h	53.8
s	Re-hang door to reverse opening		1.5h	217.9
t	Replacement of bed head system	Bed head trunking replacement from Mediplan 3m horizontal unit	12h	850.0

## Part 1

## Unit Cost for Construction or Installation Costs

Project Co to update Items, Units and Predicted LCR to reflect the bidders design submission				
	Items	Bidder Priced Product Description	Unit	Unit Cost (£)
	<b>Carpet Tiles</b>			
1	Carpet Tiles	Light duty, office finish, minimum 50sqm order.	m2	£26.09
	<b>Linoleum</b>			
2	2.5mm Thickness	Minimum 50sqm order. 'Forbo Marmoleum Real'	m2	£19.67
3	2.0mm acoustic/corkment	Minimum 50sqm order.	m2	£23.09
4	2mm rubber sheet	Minimum 50sqm order.	m2	£23.09
5	4mm rubber sheet acoustic	Minimum 50sqm order.	m2	£34.51
6	Marmoleum Skirting	Minimum 50 lm order. 'Forbo Marmoleum Real'	m	£11.15
7	Rubber Skirting (2mm)	Minimum 50 lm order.	m	£8.46
8	Rubber Skirting (4mm)	Minimum 50 lm order.	m	£8.80
	<b>Vinyl Flooring</b>			
9	Vinyl Flooring	Minimum 50sqm order. 'Forbo Eternal Wood' by Forbo Flooring Systems	m2	£22.39
10	Acoustic Underlay	Minimum 50sqm order.	m2	£6.52
11	Skirting	Minimum 50 lm order. Forbo Eternal Wood' by Forbo Flooring Systems	m	£10.09
12	Screed	9mm Latex cement screed by Tremco Illbruck, with minimum 50 sqm order.	m2	£10.59
	<b>Gyproc Suspended Ceiling</b>			
13	Type 1	Minimum 50 sqm order.	m2	£19.32
14	Type 2 Moisture resistant	Minimum 50 sqm order.	m2	£20.45
15	Type 3	Minimum 50 sqm order.	m2	£80.55
16	Bulkheads	Minimum 50 lm order.	m	£30.46
17	Perimeter Channels	Minimum 50 lm order.	m	£11.36

18	Perimeter Channels (curved)	Minimum 50 lm order.	m	£20.38
19	Caulk Joint to edge beab and wall	Minimum 50 lm order.	m	£11.36
20	Window and corridor Bulkheads	Minimum 50 lm order.	m	£22.99
21	Vertical Downstands	Minimum 50 lm order.	m	£33.25
22	Transitions	Minimum 50 lm order.	m	£33.25
23	Taping to Ceilings	Minimum 50 lm order.	m	£3.41
	<b>Tiled Suspended Ceiling</b>			
24	Tiles	Minimum 50 sqm order.	m2	£18.79
25	Tee Grid Section	Minimum 50 sqm order.	m2	£8.80
26	Angle Trim Grid Section	Minimum 50 lm order.	m	£8.80
27	Galvanised Wire	Minimum 50 lm order.	m	£3.00
	<b>Blockwork</b>			
28	Blockwork partition (full height)	Minimum 40 sqm order. 100mm thick (excludes openings, lintels, fixings, paint, etc)	m2	£21.17
	<b>Plasterboard Partitions</b>	All rates exclude deflection heads, bwic, moisture board, finish etc		
29	155mm Partition 3600 - 3900 high	Minimum 50 lm order. Type D - K10:125D	m	£245.57
30	102mm Partition 3600 - 3900 high	Minimum 50 lm order. Type A - K10:125A	m	£182.40
31	144 mm Acoustic Partition 3600- 3900 high	Minimum 50 lm order. Type C - K10:125C	m	£204.65
32	145 mm Partition 3600 - 3900 high	Minimum 50 lm order. Type F - K10:125F	m	£190.83
33	92 mm Partition 3600 - 3900 high	Minimum 50 lm order. Type A - K10:125A	m	£182.40
34	96 mm Partition 3600 - 3900 high (curved)	Minimum 50 lm order. Type A - K10:125A	m	£273.60
35	102 mm Partition 3600 - 3900 high (curved)	Minimum 50 lm order. Type A - K10:125A	m	£273.60
36	PVC wall protection 1200mm	30 lm minimum order. Pawling WC-60 PVC sheet	m	£62.70
37	PVC wall protection 3600-3900high	30 lm minimum order.	m	£195.95
38	Crash Protection Barrier	20lm minimum order. Pawling WG-7 Wall guard, 203mm wide, 35mm projection, comprises extruded PVC cover (excluding angles, end caps etc)	m	£30.11
	<b>Internal Doors</b>			

39	Single leaf Type 01	Type 1a; single leaf door	Nr	£642.68
40	Single leaf Type 02	Type 1a; single leaf door; FD30	Nr	£667.84
41	Leaf and Half Type 01	Type 1c; leaf and half door	Nr	£982.90
42	Leaf and Half Type 02	Type 1c; leaf and half door; FD30	Nr	£1,029.33
43	Double Leaf Type 01	Type 1f; double door	Nr	£1,051.28
44	Double Leaf Type 02	Type 1f; double door; FD30	Nr	£1,097.70
45	Glazed panel openings	To single non fire rated door (rate to new doors, not for retro fitting in existing doors)	Nr	£85.05
46	Door Frame	base on Type 1 single door frame	Nr	£273.40
	<b>External Doors and Windows</b>			
47	Fire Door	Metal door, double, PPC finish	Nr	£2,220.83
48	Single Leaf Glazed door		Nr	£1,363.64
49	Windows	Minimum 20 m2 order. 1050 x 1000mm high incorporating 1 fixed lights	Nr	£627.70
	<b>Ventilation</b>			
50	Supply Fan	based on single axial fan (up to 350mm diam) and 10m of duct	Nr	£839.54
51	Extract Fan	based on single axial fan (up to 350mm diam) and 10m of duct	Nr	£769.69
52	Grilles	600*600 grilles, install on suspended ceiling, grille only	Nr	£55.00
53	Diffusers	600*600 grilles, install on suspended ceiling, diffuser only	Nr	£55.00
	<b>Space Heating and Air Conditioning</b>			
54	Circulation Pump	based on Grundfos Alpha2L range	Nr	£346.34
55	Dosing Pot	based on 5 Litre Chemical Dosing Pot	Nr	£701.52
56	Electric panel heater	based on dimplex EPX1500	Nr	£170.54
57	Radiator with TCV	Based on Hudevad Fiona 68 600*400 with TRV, no pipeworks or connection included.	Nr	£550.00

5 8	Radiant Panel inc connection to system	600*1200 Radiant panel, excluding balancing and pipeworks.	Nr	£520.00
5 9	Room Environmental Controller	based on single wire analogue controller	Nr	£59.13
6 0	Room Environmental Stat	based on single wire analogue controller	Nr	£32.20
6 1	Heat meter	based on Sensus Pollucom Compact meter	Nr	£315.51
	<b>Public Health Systems</b>			
6 2	Water Meter	Based on 15mil copper pipe not connected to BMS.	Nr	£120.00
6 3	Immersion Heater	Based on 9Kw, 14 inch, Incoloy, power and cylinder already available.	Nr	£300.00
	<b>Fire and Security Systems</b>			
6 4	Fire Alarm break glass point	based on the Fulleon CXL-UNIV-R break glass unit	Nr	£74.52
6 5	Fire Alarm Fire/Smoke detector	based on the Apollo 55000-600-XP95	Nr	£26.36
6 6	Fire Alarm Sound Beacon	LAMP INDICATING fire alarm initiation; wall mounted	Nr	£130.68
6 7	CCTV Camera	CAMERA; CCTV; pan/tilt/zoom network connected camera with 50m of cable	Nr	£2,252.37
6 8	CCTV Monitor	based on 19 inch Surveillance LCD VGA Monitor	Nr	£360.41
6 9	Disabled Alarm System Point	based on disable single alarm point 800 series	Nr	£229.89
7 0	Nurse call pull cord	PUSH BUTTON patient/staff call with socket for extension pear push; trunking mounted	Nr	£329.78
7 1	Staff attack node	PUSH BUTTON; security alarm	Nr	£67.37
7 2	Door Access sensor	based on Ubiquiti mFi mFi-DS sensor	Nr	£140.00
7 3	Door Access keypad	based on KDC60SS kit, power not part of the installation	Nr	£125.00
	<b>Electrical and Communications Systems</b>			
7 4	Double sockets	SOCKET outlet; switched; 13 amp; twin	Nr	£52.98
7 5	Single sockets	SOCKET outlet; switched; 13 amp; single	Nr	£49.53
7 6	Fused Connection Unit	CONNECTION UNIT; switched; 13 amp	Nr	£44.28
7 7	Isolation switch	OUTLET isolator 20amp; TP&N; wall mounted	Nr	£62.32
7 8	Data/Comms Points	SOCKET outlet; computer data; double.	Nr	£51.36
7 9	Bed head Lamp	LUMINAIRE; bedhead; dimmable; patient reading and general nursing care/examination	Nr	£343.81

80	Medical Gases Bedhead Outlet	OUTLET oxygen medical; trunking mounted	Nr	£96.38
81	Bedhead Television Point	SOCKET outlet television aerial; single; wall mounted	Nr	£25.46
	<b>Lighting Systems</b>			
82	Internal Luminaire	LUMINAIRE; single fluorescent lamp; wall; 8 watt; 300 mm	Nr	£343.81
83	Internal Emergency Luminaire	based on single 8W T5 emergency luminaire from Eterna	Nr	£172.75
84	External Luminaire	based on 28W bulkhead HF Square from Firtzgerald	Nr	£57.14
85	Lighting switch	SWITCH; light; to M&E design.	Nr	£39.44
86	PIR	based on Timeguard SLFM360 false ceiling mounted, 2m cabling included	Nr	£38.52
87	Photocell sensor	based on TL PS40, internal photocell	Nr	£27.30
	<b>Piped Systems</b>			
88	Heating pipework	based on 15mm* 3m copper pipe	m	£12.23
89	Refrigerant pipework	based on 22mm* 3m copper pipe	m	£13.87
90	Chilled Water pipework	based on 15mm* 3m copper pipe	m	£12.23
91	CWS pipework	based on 22mm* 3m copper pipe	m	£13.87
92	HWS pipework F&R	based on 22mm* 3m copper pipe	m	£13.87
93	Internal Drainage pipework	based on PVC 110mm *5m pipe	m	£13.47
94	Soil Vent pipework	based on PVC 200mm *5m pipe	m	£54.15
95	Rainwater pipework	based on pvc 160mm * 4m pipe	m	£18.86
96	Diesel pipework	based on durapipe 16mm* 3m	m	£12.23
97	Gas pipework	based PE Gas Pipe SDR11*2m 63mm	m	£13.87
	<b>Sanitaryware</b>			
98	Shower (Thermostatic)	SHOWER; slip resistant floor with drainage outlet; 900W 900D; valve; thermostatic mixer (associated with SHO020); SHTM 64 TM1; adjustable shower head hand spray (associated with SHO018); SHTM 64 TM1	Nr	£504.73

9 9	WC	WC with 2in1 family toilet seat; 520-550 projection; wall hung; hospital pattern; rimless pan; vitreous china; SHTM64WCH	Nr	£631.57
1 0 0	Basin	BASIN; medium; hospital pattern; vitreous china; no tap holes; no overflow; integral back outlet; 500W 400D. SHTM64LBHM	Nr	£195.89
1 0 1	Mixer taps	TAP; monobloc; pillar mixer; integral thermostatic; short lever; SHTM 64 TP6	Nr	£247.30
1 0 2	Taps	TAP; pillar; high neck; long lever; pair hot and cold; 1/2 in.; SHTM 64 TP3	Nr	£138.16
	<b>Decoration</b>			
		Minimum of 50sqm, exclude access equipment		
1 0 3	Primer to plasterboard walls	Minimum of 50sqm, exclude access equipment	m2	£4.00
1 0 4	Diamond eggshell to walls	Minimum of 50sqm, exclude access equipment	m2	£4.82
1 0 5	Sterishield eggshell to walls	Minimum of 50sqm, exclude access equipment	m2	£7.28
1 0 6	Diamond Satinwood to mdf skirtings	Minimum of 50sqm, exclude access equipment	m	£3.58
1 0 7	Primer and eggshell to plasterboard ceilings	Minimum of 50sqm, exclude access equipment	m2	£4.80
1 0 8	Sterishield eggshell to ceilings	Minimum of 50sqm, exclude access equipment	m2	£7.28
1 0 9	Primer to plasterboard ceilings	Minimum of 50sqm, exclude access equipment	m2	£4.00
1 1 0	Render to external walls	Sto render. Excluding details at cills, jambs, head, fire breaks	m2	£107.17
1 1 1	Coating to external walls	Minimum of 10sqm, exclude access equipment	m2	£24.00
1 1 2	Diamond glaze to walls	Minimum of 10sqm, exclude access equipment	m2	£5.75
	<b>Fixtures</b>			
1 1 3	Standard wall unit, 2 doors, 1 adj. shelf	Excluding noggins and re-enforcement on wall	Nr	£37.91
1 1 4	Standard wall unit, 2 doors, 1 adj. Shelf, Lockable	Excluding noggins and re-enforcement on wall	Nr	£46.98
1 1 5	Working ht. base unit, 1 full height door, 1 adj. shelf, RHH	Excluding noggins and re-enforcement on wall	Nr	£27.31
1	Working ht. base unit, 1 locking full ht.	Excluding noggins and re-	Nr	£36.38

1 6	door, 1 adj. shelf, RHH	enforcement on wall		
1 1 7	Post formed laminate worktop, 50mm covered upstand	Excluding noggins and re-enforcement on wall	Nr	£35.98
1 1 8	Post formed laminate worktop, 50mm covered upstand	Excluding noggins and re-enforcement on wall	Nr	£35.98
1 1 9	Finished laminate return end (for PFW worktops)	Excluding noggins and re-enforcement on wall	Nr	£35.98
1 2 0	Blind, blackout, 1100W 2700H	Excluding noggins and re-enforcement on wall	Nr	£130.00
1 2 1	Rail for shower curtain, L-shape, 1600L, 1100W	Excluding noggins and re-enforcement on wall	Nr	£103.31
1 2 2	Stainless Steel Sink, inset, RH drainer	Excluding noggins and re-enforcement on wall	Nr	£237.68
1 2 3	Track, curtain, two sided, U-shape, 2700L 2585W	Excluding noggins and re-enforcement on wall	Nr	£41.86
1 2 4	Track, curtain, two sided, L-shape, 2700L 2700W	Excluding noggins and re-enforcement on wall	Nr	£41.86
1 2 5	Track, curtain, one sided, 2700mm length	Excluding noggins and re-enforcement on wall	Nr	£25.12
1 2 6	Track, curtain, one sided, 3300mm length	Excluding noggins and re-enforcement on wall	Nr	£37.68
1 2 7	Track, curtain, two sided, L-shape, 3600L 1900W	Excluding noggins and re-enforcement on wall	Nr	£58.61
1 2 8	Blind, blackout, 900W 2700H	Excluding noggins and re-enforcement on wall	Nr	£150.00
1 2 9	Blind, blackout, 3000W 2700H	Excluding noggins and re-enforcement on wall	Nr	£190.00
1 3 0	HOOK, double, wall mounted [Including back plate	Excluding noggins and re-enforcement on wall	Nr	£25.29
1 3 1	HOOK, hat and coat, 1 (Including back plate)	Excluding noggins and re-enforcement on wall	Nr	£36.78
1 3 2	HOOK, single, small, wall mounted	Excluding noggins and re-enforcement on wall	Nr	£20.69
1 3 3	BOARD, display/notice, wall mounted, 900H 600W	Excluding noggins and re-enforcement on wall	Nr	£40.23
1 3 4	Larder Cupboard Unit	Excluding noggins and re-enforcement on wall	Nr	£137.93
	<b>Ironmongery</b>			
1 3 5	Hardware set 1	To ensuite doors	Nr	£89.45

1 3 6	Hardware set 2	To single riser cupboard doors	Nr	£50.70
1 3 7	Hardware set 3	To double riser cupboard doors	Nr	£86.57
1 3 8	Hardware set 4	To single non-fire rated doors	Nr	£228.20
1 3 9	Hardware set 5	To double non-fire rated doors	Nr	£344.52
	<b>Misc</b>			
1 4 0	Microwave	Based on Samsung CM1089 microwave, power available within reach of the power cord	Nr	£255.00
1 4 1	Hot water heater	WATER BOILER; 2.5 litre; electric; wall mounted	Nr	£423.74
1 4 2	Window blinds	1m x 1m	Nr	£34.09

## APPENDIX 2

## Part 2

## Unit Costs for Lifecycle Maintenance

Items, Units and Predicted LCR will be automatically populated from Appendix 2 part 1. Project Co to update Responsible Party to reflect the bidders design submission

	Items	Responsible Party	Unit	Unit Cost (£)
	<b>Carpet Tiles</b>			
1	Carpet Tiles	Project Co	m2	£34.69
	<b>Linoleum</b>			
2	2.5mm Thickness	Project Co	m2	£26.15
3	2.0mm acoustic/corkment	Project Co	m2	£30.70
4	2mm rubber sheet	Project Co	m2	£30.70
5	4mm rubber sheet acoustic	Project Co	m2	£45.88
6	Marmoleum Skirting	Project Co	m	£14.82
7	Rubber Skirting (2mm)	Project Co	m	£11.25
8	Rubber Skirting (4mm)	Project Co	m	£11.70
	<b>Vinyl Flooring</b>			
9	Vinyl Flooring	Project Co	m2	£29.76
10	Acoustic Underlay	Project Co	m2	£8.67
11	Skirting	Project Co	m	£13.41
12	Screed	Project Co	m2	£14.08
	<b>Gyproc Suspended Ceiling</b>			
13	Type 1	Project Co	m2	£25.68
14	Type 2 Moisture resistant	Project Co	m2	£27.19
15	Type 3	Project Co	m2	£107.08
16	Bulkheads	Project Co	m	£40.49
17	Perimeter Channels	Project Co	m	£15.11
18	Perimeter Channels (curved)	Project Co	m	£27.09
19	Caulk Joint to edge beab and wall	Project Co	m	£15.11
20	Window and corridor Bulkheads	Project Co	m	£30.56
21	Vertical Downstands	Project Co	m	£44.20
22	Transitions	Project Co	m	£44.20
23	Taping to Ceilings	Project Co	m	£4.53
	<b>Tiled Suspended Ceiling</b>			
24	Tiles	Project Co	m2	£24.98
25	Tee Grid Section	Project Co	m2	£11.70
26	Angle Trim Grid Section	Project Co	m	£11.70
27	Galvanised Wire	Project Co	m	£3.99
	<b>Blockwork</b>			
28	Blockwork partition (full height)	Project Co	m2	£28.14
	<b>Plasterboard Partitions</b>			
29	155mm Partition 3600 - 3900 high	Project Co	m	£326.46
30	102mm Partition 3600 - 3900 high	Project Co	m	£242.48
31	144 mm Acoustic Partition 3600- 3900 high	Project Co	m	£272.06
32	145 mm Partition 3600 - 3900 high	Project Co	m	£253.69

33	92 mm Partition 3600 - 3900 high	Project Co	m	£242.48
34	96 mm Partition 3600 - 3900 high (curved)	Project Co	m	£363.73
35	102 mm Partition 3600 - 3900 high (curved)	Project Co	m	£363.73
36	PVC wall protection 1200mm	Board		
37	PVC wall protection 3600-3900high	Board		
38	Crash Protection Barrier	Project Co	m	£40.03
	<b>Internal Doors</b>			
39	Single leaf Type 01	Project Co	Nr	£854.39
40	Single leaf Type 02	Project Co	Nr	£887.84
41	Leaf and Half Type 01	Project Co	Nr	£1,306.68
42	Leaf and Half Type 02	Project Co	Nr	£1,368.40
43	Double Leaf Type 01	Project Co	Nr	£1,397.58
44	Double Leaf Type 02	Project Co	Nr	£1,459.30
45	Glazed panel openings	Project Co	Nr	£113.07
46	Door Frame	Project Co	Nr	£363.46
	<b>External Doors and Windows</b>			
47	Fire Door	Project Co	Nr	£2,952.40
48	Single Leaf Glazed door	Project Co	Nr	£1,812.83
49	Windows	Project Co	Nr	£834.47
	<b>Ventilation</b>			
50	Supply Fan	Project Co	Nr	£1,116.09
51	Extract Fan	Project Co	Nr	£1,023.23
52	Grilles	Project Co	Nr	£73.12
53	Diffusers	Project Co	Nr	£73.12
	<b>Space Heating and Air Conditioning</b>			
54	Circulation Pump	Project Co	Nr	£460.43
55	Dosing Pot	Project Co	Nr	£932.61
56	Electric panel heater	Project Co	Nr	£226.72
57	Radiator with TCV	Project Co	Nr	£731.18
58	Radiant Panel inc connection to system	Project Co	Nr	£691.29
59	Room Environmental Controller	Project Co	Nr	£78.61
60	Room Environmental Stat	Project Co	Nr	£42.81
61	Heat meter	Project Co	Nr	£419.44
	<b>Public Health Systems</b>			
62	Water Meter	Project Co	Nr	£159.53
63	Immersion Heater	Project Co	Nr	£398.82
	<b>Fire and Security Systems</b>			
64	Fire Alarm break glass point	Project Co	Nr	£99.07
65	Fire Alarm Fire/Smoke detector	Project Co	Nr	£35.04
66	Fire Alarm Sound Beacon	Project Co	Nr	£173.73
67	CCTV Camera	Project Co	Nr	£2,994.32
68	CCTV Monitor	Project Co	Nr	£479.13
69	Disabled Alarm System Point	Project Co	Nr	£305.62
70	Nurse call pull cord	Project Co	Nr	£438.41
71	Staff attack node	Project Co	Nr	£89.56
72	Door Access sensor	Project Co	Nr	£186.12
73	Door Access keypad	Project Co	Nr	£166.18
	<b>Electrical and Communications Systems</b>			
74	Double sockets	Project Co	Nr	£70.43
75	Single sockets	Project Co	Nr	£65.84
76	Fused Connection Unit	Project Co	Nr	£58.86
77	Isolation switch	Project Co	Nr	£82.85
78	Data/Comms Points	Project Co	Nr	£68.28

79	Bed head Lamp	Project Co	Nr	£457.07
80	Medical Gases Bedhead Outlet	Project Co	Nr	£128.13
81	Bedhead Television Point	Project Co	Nr	£33.84
	<b>Lighting Systems</b>			
82	Internal Luminaire	Project Co	Nr	£457.07
83	Internal Emergency Luminaire	Project Co	Nr	£229.66
84	External Luminaire	Project Co	Nr	£75.96
85	Lighting switch	Project Co	Nr	£52.43
86	PIR	Project Co	Nr	£51.21
87	Photocell sensor	Project Co	Nr	£36.29

**SCHEDULE PART 17**

**COMPENSATION ON TERMINATION**

**SECTION 1**

**COMPENSATION ON TERMINATION FOR BOARD DEFAULT AND VOLUNTARY TERMINATION**

**1 Compensation on Termination for the Board Default and Voluntary Termination**

1.1 If Project Co terminates this Agreement pursuant to Clause 39 (*Board Events of Default*) or the Board terminates this Agreement pursuant to Clause 42.1 the Board shall pay to Project Co the "**Board Default Termination Sum**" as set out in paragraph 1.2.

1.2 Subject to paragraphs 1.4 to 1.6 below the Board Default Termination Sum shall be an amount equal to the aggregate of:

1.2.1 the Base Senior Debt Termination Amount;

1.2.2 Redundancy Payments and Sub-Contractor Losses; and

1.2.3 the aggregate amount for which the share capital of Project Co and the amounts outstanding under the Subordinated Funding Agreements could have been sold on an open market basis based on the Relevant Assumptions,

LESS, to the extent it is a positive amount, the aggregate of without double counting in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below:

1.2.4 the value of any right of Project Co to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 of this Agreement in reinstatement, restoration or replacement or, in the case of any third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or have been determined but not yet paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims;

1.2.5 to the extent realised before the Invoice Date the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in

connection with Project Co's obligations in relation to the Project; or

- (b) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms; and
- 1.2.6 amounts which the Board is entitled to set off pursuant to Clause 46.12 of this Agreement.
- 1.3 To the extent that such assets and rights referred to in paragraph 1.2.5 above are not realised and applied by the Invoice Date, Project Co shall on payment of the Board Default Termination Sum assign such assets and rights to the Board.
- 1.4 If the aggregate of the amounts referred to in paragraphs 1.2.1 and 1.2.3 is less than the Revised Senior Debt Termination Amount, then the Board Default Termination Sum shall be increased so that it is equal to the aggregate of the Revised Senior Debt Termination Amount and the amount referred to in paragraph 1.2.2 LESS, without double counting in relation to the calculation of the Revised Senior Debt Termination Amount, the amounts referred to in paragraphs 1.2.4 to 1.2.6 above; provided always that (a) the amount referred to in paragraph 1.2.2 shall only be paid to the extent that Project Co has demonstrated to the reasonable satisfaction of the Board that the amount will not be applied (in whole or in part) in payment of any Distribution and (b) if, at the time of termination, there are any Additional Permitted Borrowings outstanding, no Sub-Contractor Losses shall be paid in respect of any Sub Contract in circumstances where there is an event of default under such Sub-Contract which would entitle Project Co to terminate such Sub-Contract.
- 1.5 If a Distribution is made whilst any Additional Permitted Borrowing is outstanding and Project Co has wilfully, or through gross negligence failed to comply with its obligations under clause 9.4.4(a) of the Funders' Direct Agreement then in addition to the deduction of the Distribution made pursuant to paragraph (v) of the definition of Revised Senior Debt Termination Amount, the Board shall be entitled to set off the value of that Distribution a second time against the Board Default Termination Sum, provided that the amount of the Board Default Termination Sum shall never be less than the Revised Senior Debt Termination Amount.
- 1.6 If Project Co has wilfully or through gross negligence failed to comply with its obligations under clause 9.4.4(b) of the Funders' Direct Agreement and there has been an overstatement of the cash balances by Project Co as at that date which has caused the Board to reasonably believe that it would be required to pay a lesser sum at the Termination Date than it actually is required to pay under the terms of this Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*), then the Board Default Termination Sum shall be reduced by the amount of such overstatement (to the extent such overstatement is still applicable at the Termination Date), provided that the amount of the Board Default Termination Sum will never be less than the Revised Senior Debt Termination Amount.
- 1.7 The Board Default Termination Sum shall be payable in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

## SECTION 2

### COMPENSATION FOR PROJECT CO DEFAULT

- 1 If the Board terminates this Agreement pursuant to Clause 40 (*Project Co Events of Default*), with the exception of termination pursuant to Clause 40.1.3(b), the Board shall pay to Project Co such sum as is calculated according to this Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*).

### 2 RETENDERING ELECTION

- 2.1 The Board shall be entitled to retender the provision of the Project Operations in accordance with paragraph 3 (*Retendering Procedure*) and the provisions of paragraph 3 (*Retendering Procedure*) shall apply if:

2.2.1 the Board notifies Project Co on or before the date falling twenty (20) Business Days after the Termination Date that it intends to retender; and

2.2.2 there is a Liquid Market; and either

(a) the Senior Funders have not exercised their rights to step-in under clause 5 (*Representative*) of the Funders' Direct Agreement; or

(b) Project Co or the Senior Funders have not procured the transfer of Project Co's rights and liabilities under this Agreement to a Suitable Substitute Contractor and have failed to use all reasonable efforts to do so

but otherwise the Board shall not be entitled to re-tender the provision of the Project Operations and paragraph 4 (*No Retendering Procedure*) shall apply.

### 3 RETENDERING PROCEDURE

- 3.1 The objective of the Tender Process shall be to enter into a New Agreement with a Compliant Tenderer.

- 3.2 The Board shall (subject to any legal requirements preventing it from doing so) use all reasonable endeavours to complete the Tender Process as soon as practicable.

- 3.3 The Board shall as soon as reasonably practicable notify Project Co of the Qualification Criteria and the other requirements and terms of the Tender Process, including the timing of the Tender Process, and shall act reasonably in setting such requirements and terms.

- 3.4 Project Co authorises the release of any information by the Board under the Tender Process which would otherwise be prevented under Clause 61 (*Confidentiality*) that is reasonably required as part of the Tender Process.

- 3.5 For all or any part of a month, falling within the period from the Termination Date to the

Compensation Date, the Board shall pay to Project Co:

- 3.5.1 the Post Termination Service Amount for each completed month, on or before the date falling ten (10) Business Days after the end of that month; and
  - 3.5.2 the Post Termination Service Amount for the period from the end of the last completed month until the Compensation Date, on or before the date falling twenty (20) Business Days after the Compensation Date.
- 3.6 Project Co may, at its own cost, appoint a person to monitor the Tender Process for the purpose of monitoring and reporting to Project Co and the Senior Funders on the Board's compliance with the Tender Process.
- 3.7 The Tender Process Monitor shall enter into a confidentiality agreement with the Board in a form acceptable to the Board and shall be entitled to attend all meetings relating to the Tender Process, inspect copies of all the tender documentation and bids and make representations to the Board as to compliance with the Tender Process. The Board shall not be bound to consider or act upon such representations but acknowledges that such representations may be referred to by Project Co in the event that Project Co refers a dispute as to the Adjusted Highest Compliant Tender Price to the Dispute Resolution Procedure. The Tender Process Monitor will not disclose confidential information to Project Co or the Senior Funders or any other person (and shall provide an undertaking to the Board to such effect as a condition of his appointment) but shall be entitled to advise Project Co and the Senior Funders on whether it considers that the Board has acted in accordance with the Tender Process and correctly determined the Adjusted Highest Compliant Tender Price.
- 3.8 If any Post Termination Service Amount is less than zero then it may be carried forward and may be set off against any future positive Post Termination Service Amounts.
- 3.9 The Board shall require bidders to bid on the basis that they will receive the benefit of any outstanding claims under material damage insurance policies and the amount (if any) standing to the credit of the Insurance Proceeds Account on the date that the New Agreement is entered into.
- 3.10 As soon as practicable after tenders have been received, the Board shall (acting reasonably) review and assess the Compliant Tenders and shall notify Project Co of:
- 3.10.1 the Highest Compliant Tender Price;
  - 3.10.2 the Tender Costs; and
  - 3.10.3 the Adjusted Highest Compliant Tender Price.
- 3.11 If Project Co refers a dispute relating to the Adjusted Highest Compliant Tender Price to dispute resolution in accordance with Clause 56 (*Dispute Resolution*), the Board shall irrespective of such dispute be entitled to enter into a New Agreement.

- 3.12 The Adjusted Highest Compliant Tender Price shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).
- 3.13 Subject to paragraphs 1.6 and 1.8 of Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*), if the Board has not paid an amount equal to the Adjusted Highest Compliant Tender Price to Project Co on or before the date falling two years after the Termination Date then the following provisions of this paragraph 3 shall not apply to that termination and the provisions of paragraph 4 (*No Retendering Procedure*) shall apply instead.
- 3.14 The Board may elect at any time prior to the receipt of a Compliant Tender, to follow the no retendering procedure under paragraph 4 (*No Retendering Procedure*) by notifying Project Co that this election has been made.
- 3.15 In the event that the Adjusted Highest Compliant Tender Price exceeds the Maximum Termination Amount, the Adjusted Highest Compliant Tender Price shall be deemed to be an amount equal to the Maximum Termination Amount.

#### **4 NO RETENDERING PROCEDURE**

- 4.1 Subject to paragraph 4.2, if the provisions of this paragraph 4 (*No Retendering Procedure*) apply Project Co shall not be entitled to receive any Post Termination Service Amount.
- 4.2 If the Board elects to follow the no retendering procedure in accordance with this paragraph 4 (*No Retendering Procedure*) after it has elected to follow the procedure under paragraph 3 (*Retendering Procedure*), then the Board shall continue to pay to Project Co each Post Termination Service Amount until the Compensation Date, in accordance with paragraph 3 (*Retendering Procedure*).
- 4.3 In agreeing or determining the Estimated Fair Value of the Agreement the parties shall be obliged to follow the principles set out below:
- 4.3.1 all forecast amounts of revenues and costs should be calculated in nominal terms at current prices, recognising the adjustment for indexation in respect of forecast inflation between the date of calculation and the forecast payment date(s) as set out in this Agreement;
- 4.3.2 the total of all payments of the full Service Payments forecast to be made from the Termination Date to the Expiry Date shall be calculated and discounted at the Discount Rate;
- 4.3.3 the total of all costs reasonably forecast to be incurred by the Board as a result of termination shall be calculated and discounted at the Discount Rate and deducted from the payment calculated pursuant to paragraph 4.3.2 above, such costs to include (without double counting):
- (a) a reasonable risk assessment of any cost overruns that will arise, whether or not forecast in the relevant base case;

- (b) the costs of providing the Services reasonably forecast to be incurred by the Board from the Termination Date to the Expiry Date in providing the Project Operations to the standard required; and
- (c) any rectification costs required to deliver the Project Operations to the standard required (including any costs reasonably forecast to be incurred by the Board to complete the Works) and additional operating costs required to restore operating services standards less (to the extent that such sums are included in any calculation of rectification costs for the purposes of this paragraph) the aggregate of:
  - (i) any insurance proceeds received (or held in the Insurance Proceeds Account) or which will be received pursuant to policies maintained in accordance with Clause 53 (*Insurance*): and
  - (ii) amounts payable by the Board in respect of Capital Expenditure under this Agreement which have not been paid,

in each case such costs to be forecast at a level that will deliver the Services to the standards required by this Agreement;

4.3.4 the Net Present Value at the Termination Date of all future Surplus Payments forecast in the Financial Model shall be calculated and deducted from the payment calculation pursuant to paragraph 4.3.2 above but only to the extent that the payment calculation pursuant to paragraph 4.3.2 above less the sum of:

- (i) the costs calculation pursuant to paragraph 4.3.3 above; and
- (ii) the Net Present Value at the Termination Date of all future Surplus Payments forecast in the Financial Model,

exceeds the Revised Senior Debt Termination Amount.

4.4 If the parties cannot agree on the Estimated Fair Value of the Agreement on or before the date falling twenty (20) Business Days after the date on which the Board elected or was required pursuant to paragraph 2 (*Retendering Election*) or paragraph 3 (*Retendering Procedure*) to follow the no retendering procedure in accordance with this paragraph 4 (*No Retendering Procedure*), then the Adjusted Estimated Fair Value of the Agreement shall be determined in accordance with Clause 56 (*Dispute Resolution*).

4.5 The Adjusted Estimated Fair Value of the Agreement shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

4.6 In the event that the Adjusted Estimated Fair Value of the Agreement exceeds the Maximum Termination Amount, the Adjusted Estimated Fair Value of the Agreement shall be deemed to be an amount equal to the Maximum Termination Amount.

## SECTION 3

## COMPENSATION ON TERMINATION FOR FORCE MAJEURE

## 1 CONSEQUENCES OF TERMINATION FOR FORCE MAJEURE

1.1 If Project Co or the Board terminates this Agreement pursuant to Clause 31.1 (*Force Majeure*) or Clause 53.14.2 (*Uninsurable Risks*) the Board shall pay to Project Co the "**Force Majeure Termination Sum**" as set out in paragraph 1.2.

1.2 Subject to paragraphs 1.4 to 1.6 below the Force Majeure Termination Sum shall be an amount equal to the aggregate of:

1.2.1 the Base Senior Debt Termination Amount;

1.2.2 Redundancy Payments and Sub-Contractor Losses (but excluding therefrom any claims for loss of profit);

1.2.3 an amount equal to the Subordinated Debt less an amount equal to the aggregate of payments of interest paid on the Subordinated Debt provided that where such figure is a negative number it shall be instead fixed at zero; and

LESS, to the extent it is a positive amount, the aggregate of (without double counting) in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below:

1.2.4 the value of any right of Project Co to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 (*Application of Proceeds*) of this Agreement in reinstatement, restoration or replacement, or in the case of third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or have been determined but not yet paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims;

1.2.5 to the extent realised before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

(a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; and

(b) agreements or arrangements entered into by Project Co to the extent

that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms; and

- 1.2.6 amounts which the Board is entitled to set off pursuant to Clause 46.12 (*Rights of Set-Off*) of this Agreement.
- 1.3 To the extent that such assets and rights referred to in paragraph 1.2.4 above are not realised and applied pursuant to that paragraph Project Co shall on payment of the Force Majeure Termination Sum assign such assets and rights to the Board.
- 1.4 If the aggregate of the amounts referred to in paragraphs 1.2.1 and 1.2.3 is less than the Revised Senior Debt Termination Amount, then the Force Majeure Termination Sum shall be increased so that it is equal to the aggregate of the Revised Senior Debt Termination Amount and the amount referred to in paragraph 1.2.2 LESS, without double counting in relation to the calculation of the Revised Senior Debt Termination Amount, the amounts referred to at paragraphs 1.2.4 to 1.2.6 above; provided always that (a) the amount referred to in paragraph 1.2.2 LESS the amounts referred to at paragraphs 1.2.4 to 1.2.6 above shall only be paid to the extent that Project Co has demonstrated to the reasonable satisfaction of the Board that the amount will not be paid (in whole or in part) in payment of any Distribution and (b) if, at the time of termination, there are any Additional Permitted Borrowings outstanding, no Sub-Contractor Losses shall be paid in respect of any Sub Contract in circumstances where there is an event of default under such Sub-Contract which would entitle Project Co to terminate such Sub-Contract.
- 1.5 If a Distribution is made whilst any Additional Permitted Borrowing is outstanding and Project Co has wilfully, or through gross negligence failed to comply with its obligations under clause 9.4.4(a) of the Funders' Direct Agreement then in addition to the deduction of the Distribution made pursuant to paragraph (v) of the definition of Revised Senior Debt Termination Amount, the Board shall be entitled to set off the value of that Distribution a second time against the Force Majeure Termination Sum, provided that the amount of the Force Majeure Termination Sum shall never be less than the Revised Senior Debt Termination Amount.
- 1.6 If Project Co has wilfully or through gross negligence failed to comply with its obligations under clause 9.4.4(b) of the Funders' Direct Agreement and there has been an overstatement of the cash balances by Project Co as at that date which has caused the Board to reasonably believe that it would be required to pay a lesser sum at the Termination Date than it actually is required to pay under the terms of this Section 3 (*Compensation on Termination for Force Majeure*), then the Force Majeure Termination Sum shall be reduced by the amount of such overstatement (to the extent such overstatement is still applicable at the Termination Date), provided that the amount of the Force Majeure Termination Sum will never be less than the Revised Senior Debt Termination Amount.
- 1.7 The Force Majeure Termination Sum shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

## SECTION 4

**CORRUPT GIFTS AND FRAUD, BREACH OF REFINANCING OR BREACH OF NPD REQUIREMENTS****1 Con sequences of Termination for Corrupt Gifts and Fraud, Breach of Refinancing or Breach of NPD Requirements**

- 1.1 If the Board terminates this Agreement pursuant to Clause 40.1.3 (*Default*), Clause 44.3 (*Remedies*) or Clause 45 (*Breach of NPD Requirements*) the Board shall pay to Project Co an amount equal to the Revised Senior Debt Termination Amount;

LESS, to the extent it is a positive number, the aggregate of (without double counting):

- 1.1.1 the value of any right to receive insurance proceeds (save where such insurance proceeds are held in the Insurance Proceeds Account and are to be applied in accordance with Clause 53.19 (*Application of Proceeds*) of this Agreement in reinstatement, restoration or replacement or, in the case of third party legal liability or employer's liability, in satisfaction of the claim, demand, proceeding or liability) or sums due and payable from third parties (but only when received from third parties) but excluding any claims under any Sub-Contracts or claims against other third parties which have not been determined or which have been determined but not paid provided that in such case Project Co shall assign any such rights and claims under the Sub-Contracts or claims against other third parties to the Board and give the Board reasonable assistance in prosecuting such claims; and
- 1.1.2 to the extent realised before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to the Board pursuant to this Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under this Agreement as at the Termination Date provided that no account should be taken of any liabilities and obligations of Project Co arising out of:
- (a) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; and
- (b) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms.
- 1.2 To the extent that such assets and rights referred to in paragraph 1.1.2 above are not realised and applied pursuant to that paragraph, Project Co shall, on payment of the sum referred to in paragraph 1.1 above, assign such assets and rights to the Board.
- 1.3 The sum referred to in paragraph 1.1 above shall be paid in accordance with Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

## SECTION 5

## GENERAL

## 1 PAYMENT AND INTEREST

**Following termination for Board Default, Force Majeure, Corrupt Gifts or Fraud, Breach of Refinancing or Breach of NPD Requirements**

- 1.1 In respect of the termination payments to be made pursuant to any of Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*), Section 3 (*Compensation on Termination for Force Majeure*), or Section 4 (*Corrupt Gifts and Fraud or Breach of Refinancing or Breach of NPD Requirements*) of this Schedule Part 17 (*Compensation on Termination*) as soon as practicable after, and in any event within twenty (20) Business Days of, the Termination Date, Project Co shall give to the Board an invoice for the relevant termination sum and sufficient supporting evidence, reasonably satisfactory to the Board, justifying the amount of the relevant termination sum including a breakdown of each of the individual elements of such sum, provided that where the amount of any SPENS Breakage Costs and/or EIB Prepayment Amount is not capable of final determination at the date of the invoice, a reasonable estimate shall be included and the Board shall be kept informed at reasonable intervals of any changes thereto and notified upon final determination of those amounts (and in any event no later than (where paragraph 1.2 below applies) two (2) Business Days prior to the date for payment pursuant to that paragraph, or (where paragraph 1.3 below applies) two (2) Business Days prior to the date for payment pursuant to that paragraph, of the last of the four (4) instalments there referred to), Where as a result of the timing of the final determination notice(s) in respect of the SPENS Breakage Costs, and/or EIB Prepayment Amount the amount paid by the Board is greater than or less than the correct amount due there shall be a balancing adjustment paid by Project Co or, as the case may be, the Board.
- 1.2 Subject to paragraph 1.3 below, the Board shall pay to Project Co:
- 1.2.1 the relevant termination amount within forty (40) Business Days of the Invoice Date; and
- 1.2.2 interest on the relevant termination amount (or any part of such amount that remains outstanding) from the Termination Date until the date of payment:
- (a) at the No Default Interest Rate for the period from (but excluding) the Termination Date to (and including) the date which is forty (40) Business Days after the Invoice Date; and
- (b) thereafter, at the Default Interest Rate.
- 1.3 The Board shall be entitled to pay the amount payable pursuant to Section 3 or Section 4 (as the case may be) of this Schedule Part 17 (*Compensation on Termination*) ("**Termination Sum**") in four (4) equal instalments by serving notice on Project Co within thirty (30) Business Days of the Invoice Date, in which case the provisions of paragraph 1.4 shall apply.
- 1.4 In the event that the Board elects to pay the Termination Sum in instalments pursuant

to paragraph 1.3 then:

- 1.4.1 the first such instalment (together with interest thereon calculated pursuant to paragraph 1.4.2 below) shall be due on the first Business Day occurring six (6) months after the date of the Board's notice served pursuant to paragraph 1.3 above and the remaining instalments (together with interest thereon calculated pursuant to paragraph 1.4.2 below) shall be due, respectively, on the first Business Day occurring twelve (12), eighteen (18) and twenty-four (24) months after the date of such notice; and
- 1.4.2 the Board shall pay interest on the Termination Sum (or any part of such sum that remains outstanding) from the Termination Date until the date of payment at the No Default Interest Rate.

If the Board fails to make a payment under paragraph 1.4.1 or 1.4.2 above in full within ten (10) Business Days of the due date for payment, or an Adverse Law or a Proposal for an Adverse Law is made then the outstanding amount of the Termination Sum shall be immediately due and payable and, thereafter, the Board shall pay interest on such sum at the Default Interest Rate.

#### **Following Retendering**

- 1.5 Subject to paragraphs 1.6 and 1.8, following a retendering exercise under Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 the Board shall pay to Project Co an amount equal to the Adjusted Highest Compliant Tender Price no later than the date falling twenty (20) Business Days after the later of:
- 1.5.1 the date on which the Board receives the Market Value of the New Agreement from the New Project Co; and
- 1.5.2 if Project Co has referred a dispute relating to the Adjusted Highest Compliant Tender Price to dispute resolution pursuant to paragraph 3.11 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17, the date on which the dispute is finally determined in accordance with Clause 56 (*Dispute Resolution*),

provided that, to avoid doubt, if the dispute referred by Project Co to dispute resolution (pursuant to paragraph 1.5.2 above) concerns only a proportion of the Adjusted Highest Compliant Tender Price then the Board shall pay the undisputed proportion of such sum no later than 20 Business Days after the date referred to in paragraph 1.5.1 above (the "**Undisputed Payment Date**") and the Board shall pay interest to Project Co on any amount of the Adjusted Highest Compliant Tender Price which has been withheld, from the Undisputed Payment Date until the date on which payment is due under paragraph 1.5.2 above at the No Default Interest Rate.

- 1.6 If the Board has received all bids from bidders under the Tender Process and has received a Compliant Tender but decides not to complete the Tender Process, it shall notify Project Co of this decision and (if the Adjusted Highest Compliant Tender Price is a positive number) pay to Project Co an amount equal to the Adjusted Highest Compliant Tender Price within twenty (20) Business Days of such notification.
- 1.7 If the Board fails to pay the Adjusted Highest Compliant Tender Price (or any proportion thereof) by the date on which payment is due in accordance with paragraph 1.5 or paragraph 1.6 above, the Board shall pay to Project Co interest on such unpaid

amount, which shall accrue on such amount at the Default Interest Rate from (but not including) the date on which payment is due in accordance with paragraph 1.5 or paragraph 1.6 above until such amount is paid.

- 1.8 If the Adjusted Highest Compliant Tender Price is zero or a negative number then, on entering into the New Agreement with the New Project Co, the Board shall have no obligation to make any payment to Project Co and (if a negative number) an amount equal to the Adjusted Highest Compliant Tender Price shall be due and payable by Project Co to the Board on the date of the New Agreement or (where paragraph 1.6 applies) within twenty (20) Business Days of notification from the Board pursuant to that paragraph.

### **Following no retendering**

- 1.9 If the Board follows the no retendering procedure set out in paragraph 4 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) then, subject to paragraph 1.10, the Board shall pay to Project Co an amount equal to the Adjusted Estimated Fair Value of the Agreement no later than twenty (20) Business Days after the Compensation Date and shall (unless the Board has paid Post Termination Service Amounts pursuant to paragraph 3.5 of Section 2 (*Compensation on Termination for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*)) pay interest on such amount calculated in accordance with paragraph 1.2.2 above.
- 1.10 To the extent that the Adjusted Estimated Fair Value of the Agreement is less than zero, then an amount equal to the Adjusted Estimated Fair Value of the Agreement shall be due and payable by Project Co to the Board on the Compensation Date.

## **2 Full and Final Settlement**

- 2.1 Any and all sums irrevocably paid by the Board to Project Co under this Schedule Part 17 (*Compensation on Termination*) will be in full and final settlement of each party's rights and claims against the other for breaches and/or termination of this Agreement and any other Project Document whether under contract, delict, restitution or otherwise but without prejudice to:
- 2.1.1 any antecedent liability of Project Co to the Board which the Board has been unable to set off pursuant to Clause 46.12 (*Rights of Set-Off*) of this Agreement;
- 2.1.2 any antecedent liability of either party to the other that arose prior to the Termination Date (but not from the termination itself) to the extent such liability has not already been taken into account in determining or agreeing the Board Default Termination Sum, Adjusted Highest Compliant Tender Price, or Adjusted Estimated Fair Value of the Agreement, the Force Majeure Termination Sum or the sum due in accordance with Section 4 of this Schedule Part 17 (*Compensation on Termination*) as the case may be; and
- 2.1.3 any liabilities arising in respect of any breach by either party of their obligations under Clause 47.6 (*Continuing Obligations*) of this Agreement which arises or continues after the Termination Date.

2.2 If either the Adjusted Highest Compliant Tender Price or (as the case may be) the Adjusted Estimated Fair Value of the Agreement is zero or a negative number the Board shall be released from all liability to Project Co for breaches and/or termination of this Agreement and any other Project Document whether under contract, delict, restitution or otherwise save for:

2.2.1 any antecedent liability of the Board which arose prior to the Termination Date (but not from the termination itself) to the extent such liability has not already been taken into account in determining the Adjusted Highest Compliant Tender Price or the Adjusted Estimated Fair Value of the Agreement (as the case may be); and

2.2.2 any liabilities arising in respect of any breach by either party of their obligations under Clause 47.6 (*Continuing Obligations*) of the Agreement which continues after the Termination Date.

### **3 Costs**

The costs and/or expenses to be taken into account in the calculation of all termination sums due pursuant to this Schedule Part 17 (*Compensation on Termination*) shall only be such costs and/or expenses to the extent that they are reasonable and proper in quantum and shall have been or will be reasonably and properly incurred and shall only be counted once.

### **4 Undisputed Amounts**

If the calculation of any termination amount is disputed then any undisputed element of that amount shall be paid in accordance with this Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*) and the disputed element shall be dealt with in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

### **5 Outstanding Senior Debt Amount**

5.1 The Board shall be entitled to rely on the certificate of the Intercreditor Agent as conclusive as to the amount of the Base Senior Debt Termination Amount or Revised Senior Debt Termination Amount (as the case may be) outstanding at any relevant time.

5.2 The receipt by the Intercreditor Agent of the Base Senior Debt Termination Amount or Revised Senior Debt Termination Amount or elements thereof (as appropriate) (as the case may be) (and where appropriate any accrued interest or breakage costs as certified in accordance with paragraph 5.1 above) shall discharge the Board's obligations to pay such sums to Project Co.

**SECTION 6**  
**DEFINITIONS**

**“Adjusted Estimated Fair Value of the Agreement”** means, subject to paragraph 4.6 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), the Estimated Fair Value of the Agreement adjusted as follows:

- (a) where in respect of any month or part of a month from the Termination Date to the Compensation Date the Post Termination Service Amount is a negative number, the aggregate of all such negative Post Termination Service Amounts shall be set against and shall reduce the Estimated Fair Value of the Agreement (whether or not such amounts have been set-off by the Board pursuant to paragraph 3.8 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*));

and the aggregate of the following amounts shall be deducted from the Estimated Fair Value of the Agreement:

- (b) the Post Termination Service Amounts actually paid by the Board to Project Co prior to the Compensation Date;
- (c) the Tender Costs; and
- (d) amounts that the Board is entitled to set off or deduct;

and the aggregate of the following amounts shall be added to the Estimated Fair Value of the Agreement:

- (e) all credit balances on any bank accounts held by or on behalf of Project Co on the date that the Estimated Fair Value of the Agreement is calculated; and
- (f) any insurance proceeds and other amounts owing to Project Co (and which Project Co is entitled to retain), to the extent not included in (e);

to the extent that:

- (i) (e) and (f) have not been directly taken into account in calculating the Estimated Fair Value of the Agreement; and
- (ii) the Board has received such amounts in accordance with this Agreement or such amounts are standing to the credit of the Insurance Proceeds Account;

**“Adjusted Highest Compliant Tender Price”**

means, subject to paragraph 3.15 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), the Highest Compliant Tender Price adjusted as follows:

- (a) where in respect of any month or part of a month from the Termination Date to the Compensation Date the Post Termination Service Amount is a negative number, the aggregate of all such negative Post Termination Service Amounts shall be set against and shall reduce such highest tender price (whether or not such amounts have been set-off by the Board pursuant to paragraph 3.8 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*));

and the aggregate of the following amounts shall be deducted from the Highest Compliant Tender Price:

- (b) the Post Termination Service Amounts actually paid by the Board to Project Co prior to the Compensation Date;
- (c) the Tender Costs; and
- (d) amounts that the Board is entitled to set off or deduct under this Agreement,

and the aggregate of the following amounts shall be added to such highest tender price:

- (e) all credit balances on any bank accounts

held by or on behalf of Project Co on the date that the highest priced Compliant Tender is received; and

- (f) any insurance proceeds and other amounts owing to Project Co (and which Project Co is entitled to retain), to the extent not included in (e);

to the extent that:

- (i) (e) and (f) have not been directly taken into account in that Compliant Tender; and
- (ii) the Board has received such amounts in accordance with this Agreement;

**“APB Distribution”**

means, for the period during which the Additional Permitted Borrowing subsists, an amount equal to the aggregate of all Distributions made during that period up to an amount equal to the principal of the Additional Permitted Borrowing on the first day of that period;

**“Base Senior Debt Termination Amount”**

means, subject to Clause 4.3 (*Changes to Funding Agreements and Refinancing*):

- (a) all amounts outstanding at the Termination Date, including interest and Default Interest accrued as at that date, from Project Co to the Senior Funders in respect of Permitted Borrowings (other than in respect of Additional Permitted Borrowing); and
- (b) all amounts by way of breakage costs (including, without double counting and to the extent not covered by paragraph (a), any SPENS Breakage Costs (only in respect of Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*) of this Schedule Part 17)) and any EIB Prepayment Amount) excluding, where any SPENS Breakage Costs are payable, any sum representing outstanding loan principal under the Institutional Investor Senior Facility Agreement and/or Institutional Investor Senior Subordinated Facility Agreement included in Permitted Borrowings in paragraph (a) above, payable by Project Co to the Senior Funders as a result of a prepayment in respect of Permitted Borrowings (other than in respect of Additional Permitted Borrowing) (or if any such prepayment

has not occurred by the Invoice Date, such amount as will become payable on the assumption that such prepayment will be made on (if paragraph 1.2 of Section 5 of this Schedule Part 17 applies) the date for payment by the Board pursuant to that paragraph, or (where paragraph 1.3 of Section 5 of this Schedule Part 17 applies) on the date for payment, pursuant to that paragraph, of the last of the four instalments there referred to) subject to Project Co and the Senior Funders mitigating all such costs to the extent reasonably possible;

- (c) less, to the extent it is a positive amount the aggregate of (without double counting in relation to the calculation of the Base Senior Debt Termination Amount or the amounts below)
- i. any amounts claimable on or after the Termination Date in respect of Contingent Funding Liabilities;
  - ii. all other amounts received by the Senior Funders on or after the Termination Date and before the date on which any compensation is payable by the Board to Project Co as a result of enforcing any other rights they may have; and
  - iii. all credit balances on any bank accounts (but excluding the Insurance Proceeds Account and the Surplus Account) held by or on behalf of Project Co on the Termination Date;

**“Compensation Date”**

means either:

- (a) if paragraph 3 (*Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) applies, the earlier of:
  - i. the date that the New Agreement is entered into; and
  - ii. the date on which the Board pays the Adjusted Highest Compliant Tender Price to Project Co; or
- (b) if paragraph 4 (*No Retendering Procedure*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*) applies, the date that the Adjusted Estimated Fair Value of the Agreement has been agreed or determined;

- “Compliant Tender”** means a tender that meets all of the Qualification Criteria;
- “Compliant Tenderer”** means a Suitable Substitute Contractor who submits a Compliant Tender;
- “Deemed New Agreement”** means an agreement on the same terms and conditions as this Agreement, as at the Termination Date, but with the following amendments:
- (a) if this Agreement is terminated prior to the Actual Completion Date, then the Longstop Date shall be extended by a period to allow a New Project Co (had one been appointed) to achieve the Actual Completion prior to the Longstop Date;
  - (b) any accrued Deductions and/or Warning Notices shall, for the purposes of termination only, and without prejudice to the rights of the Board to make financial deductions, be cancelled; and
  - (c) the term of such agreement shall be for a period equal to the term from the Termination Date to the Expiry Date;
- “Discount Rate”** means a discount rate expressed as  $[(1 + \text{real base case project IRR} + \text{Gilt B} - \text{Gilt A}) * (1 + i) - 1]$
- where:
- "real base case project IRR"** is the Pre-tax Project IRR" set out in cell reference F22! which is 3.04% of the Financial Model at Financial Close;
- "i"** is the agreed assumed forecast rate of increase in RPI set out in the Agreement, for the remaining term of the Agreement;
- "Gilt A"** is the real yield to maturity on a benchmark government Gilt instrument of the same maturity as the average life of the outstanding Senior Debt as shown in the Financial Model at Financial Close; and
- "Gilt B"** is the real yield to maturity on a benchmark government Gilt instrument of the same maturity as the average life of the outstanding Senior Debt as shown in the

	Financial Model as on the Termination Date;
<b>“Distribution”</b>	has the meaning given in Schedule Part 23 ( <i>Refinancing</i> );
<b>"EIB Prepayment Amount"</b>	means the amount of any Prepayment Indemnity (as defined in the EIB Senior Finance Contract) and the amount of any Prepayment Indemnity (as defined in the EIB Senior Subordinated On-Loan Agreement) in respect of a prepayment as determined under the EIB Senior Finance Contract and the EIB Senior Subordinated On-Loan Agreement at the relevant time;
<b>“Estimated Fair Value of the Agreement”</b>	means the amount determined in accordance with paragraph 4 ( <i>No Retendering Procedure</i> ) of Section 2 ( <i>Compensation for Project Co Default</i> ) of this Schedule Part 17 ( <i>Compensation on Termination</i> ) that a third party would pay to the Board as the market value of the Deemed New Agreement;
<b>“Fair Value”</b>	means the amount at which an asset or liability could be exchanged in an arm's length transaction between informed and willing parties, other than in a forced or liquidated sale;
<b>“Highest Compliant Tender Price”</b>	means the price offered by the Compliant Tenderer (if any) with the highest tender price and if no Compliant Tenders are received, means zero;
<b>“Invoice Date”</b>	means, in respect of the Board Default Termination Sum, the Force Majeure Termination Sum or the Corrupt Gifts Termination Sum (as appropriate), the date that is the later of: <ul style="list-style-type: none"> <li>(a) the date on which the Board receives an invoice from Project Co for the relevant termination sum; and</li> <li>(b) the date on which the Board receives the supporting evidence required pursuant to paragraph 1.1 (<i>Payment and Interest</i>) of Section 5 (<i>General</i>) of this Schedule Part 17 (<i>Compensation on Termination</i>);</li> </ul>
<b>“Liquid Market”</b>	means that there are sufficient willing parties (being at least two parties, each of whom is capable of being a Suitable Substitute Contractor) in the market for design, build, finance and maintain contracts or similar contracts for the provision of services (in each case the same as or similar to this Agreement) for the price that is likely to be achieved through a tender to be a reliable indicator of Fair Value provided always that any vehicle controlled and established by the Senior Funders specifically for the purposes of the Project and to which this Agreement may be novated shall be discounted

in assessing whether there are sufficient willing parties in the market for such purposes;

- “Market Value Availability Deduction Amount”** means for any month or part of a month, an amount equal to the availability deduction that was made to the Monthly Service Payment under paragraph 4 (*Deductions for Availability Failures*) of Section 3 (*Deductions from Monthly Service Payments*) of Schedule Part 14 (*Payment Mechanism*) in the month immediately preceding the Termination Date, less an amount equal to any availability deduction that was made for a Functional Area which was unavailable at the Termination Date but which has subsequently become available whether as a result of the Board incurring Rectification Costs or otherwise;
- “Maximum Service Payment”** means one twelfth of the Annual Service Payment ASP<sub>n</sub> as defined in paragraph 2 (Annual Service Payment) of Section 2 (*Calculation of Service Payments*) of Schedule Part 14 (*Payment Mechanism*);
- “Maximum Termination Amount”** means either an amount equal to the aggregate of:
- (a) the Base Senior Debt Termination Amount; and
  - (b) the principal amount of the Subordinated Debt outstanding; and
  - (c) Redundancy Payments and Sub-Contractor Losses;
- OR, if the aggregate of the amounts referred to in (a) and (b) above is less than the Revised Senior Debt Termination Amount then an amount equal to the aggregate of:
- (a) the Revised Senior Debt Termination Amount; and
  - (b) Redundancy Payments;
- “New Agreement”** means an agreement on the same terms and conditions as this Agreement at the Termination Date, but with the following amendments:
- (a) if this Agreement is terminated prior to the Actual Completion Date, then the Longstop Date shall be extended by a period to allow a New Project Co to achieve the Actual Completion Date

prior to the Longstop Date;

- (b) any accrued Deductions and/or Warning Notices shall, for the purposes of termination only, and without prejudice to the rights of the Board to make financial deductions, be cancelled;
- (c) the term of such agreement shall be equal to the term from the Termination Date until the Expiry Date; and
- (d) any other amendments which do not adversely affect the Project Co;

**“New Project Co”**

means the person who has entered or who will enter into the New Agreement with the Board;

**“No Default Interest Rate”**

means in respect of a sum payable by Project Co for the benefit of:

- (a) EIB, the Fixed Rate (as defined in the EIB Senior Finance Contract);
- (b) the Institutional Investor Senior Lender, the Fixed Rate (as defined in the Institutional Investor Senior Facility Agreement);
- (c) the EIB Senior Subordinated On-Loan Lender, the Fixed Rate (as defined in the EIB Senior Subordinated On-Loan Agreement); and
- (d) the Institutional Investor Senior Subordinated On-Loan Lender, the Fixed Rate (as defined in the Institutional Investor Senior Subordinated On-Loan Agreement),

provided that for the purposes of paragraph 1.5.2 of Section 5 of this Schedule Part 17, the No Default Interest Rate shall be the weighted average of the rates referred to in paragraphs (a) to (d) inclusive above.

**“Post Termination Service Amount”**

means for the purposes of paragraph 3 (*Retendering Process*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*), for the whole or any part of a month for the period from the Termination Date to the Compensation Date, an amount equal to the Maximum Service Payment (pro rata for part of a month) which would have been payable under this Agreement had this Agreement not been terminated, less an amount equal to the aggregate of (without double counting):

- (a) (where relevant) the amount by which the Post Termination Service Amounts

for the previous month was less than zero;

- (b) the Market Value Availability Deduction Amount for that month; and
- (c) the Rectification Costs incurred by the Board in that month;

**“Qualification Criteria”**

means the criteria that the Board requires tenderers to meet as part of the Tender Process, which (subject to compliance with procurement regulations) shall be:

- (a) the New Agreement terms;
- (b) tenderers should have the financial ability to pay the capital sum tendered for the New Agreement and the financial ability to deliver the Works and/or the Services (as appropriate) for the price tendered;
- (c) the tenderers may only bid on the basis of a single capital payment to be made on the date of the New Agreement;
- (d) the tenderer is experienced in providing the Services or similar services;
- (e) the technical solution proposed by the tenderers is capable of delivery and the tenderer is technically capable of delivery of the Services; and
- (f) any other tender criteria agreed by the Board and the Project Co;

**“Rectification Costs”**

means, for the purposes of any Termination Date that occurs after the Actual Completion Date, an amount equal to the reasonable and proper costs incurred by the Board in a particular month or part of a month in ensuring that the Services are available;

**“Redundancy Payments”**

means redundancy payments and other termination payments which are required under Law to be made to employees of Project Co reasonably and properly incurred by Project Co arising as a direct result of terminating this Agreement (provided that Project Co shall use all reasonable endeavours to mitigate its loss) and provided that in calculating such amount no account should be taken of any liabilities and

obligations of Project Co arising out of:

- (a) contracts of employment or other agreements or arrangements entered into by Project Co to the extent that such contracts of employment agreements or arrangements were not entered into in connection with the Project; and/or
- (b) contracts of employment or other agreements or arrangements entered into by Project Co to the extent that such contracts of employment agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms;

**“Relevant Assumptions”**

means the assumptions that the sale of Project Co is on the basis that there is no default by the Board, that the sale is on a going concern basis, that no restrictions exist on the transfer of share capital, that no Additional Permitted Borrowing has taken place and therefore that the effect of the Additional Permitted Borrowing on the calculation of such amount is disregarded but that otherwise the actual state of affairs of Project Co and the Project is taken into account;

**“Revised Senior Debt Termination Amount”**

means, subject to Clause 4.3 (*Changes to Funding Agreements and Refinancing*):

- (a) all amounts outstanding at the Termination Date, including interest and (other than in respect of Additional Permitted Borrowing) Default Interest accrued as at that date, from Project Co to the Senior Funders in respect of Permitted Borrowing; and
- (b) all amounts by way of breakage costs (including without double counting and to the extent not covered by paragraph (a), any SPENS Breakage Costs (only in respect of Section 1 (*Compensation on Termination for Board Default and Voluntary Termination*) of this Schedule Part 17) and any EIB Prepayment Amount) excluding, where any SPENS Breakage Costs are payable, any sum representing outstanding loan principal under the Institutional Investor Senior Facility Agreement and/or Institutional Investor Senior Subordinated Facility Agreement included in Permitted Borrowings in paragraph (a) above, payable by Project Co to the Senior Funders as a result of a prepayment in respect of Permitted Borrowings (other

than in respect of Additional Permitted Borrowing) (or if any such prepayment has not occurred by the Invoice Date, such amount as will become payable on the assumption that such prepayment will be made on (if paragraph 1.2 of Section 5 of this Schedule 17 applies) the date for payment by the Board pursuant to that paragraph, or (where paragraph 1.3 of Section 5 of this Schedule Part 17 applies) on the date for payment, pursuant to that paragraph, of the last of the four instalments there referred to) subject to Project Co and the Senior Funders mitigating all such costs to the extent reasonably possible;(c) less, to the extent it is a positive amount, the aggregate of (without double counting in relation to the calculation of the Revised Senior Debt Termination Amount or the amounts below):

- i. all credit balances on any bank accounts (but excluding the Insurance Proceeds Account and the Surplus Account) held by or on behalf of Project Co on the Termination Date;
- ii. any amounts claimable on or after the Termination Date in respect of Contingent Funding Liabilities; iii. all other amounts received by the Senior Funders on or after the Termination Date and before the date on which any compensation is payable by the Board to Project Co as a result of enforcing any other rights they may have; and
- iv. all APB Distributions;

**“Senior Debt”**

means the financing provided by the Senior Funders under the Senior Funding Agreements;

**“Senior Funding Agreements”**

has the meaning given in Schedule Part 1 (*Definitions and Interpretation*);

**"SPENS Breakage Costs"**

means for the purposes of the Institutional Investor Senior Facility Agreement, the Spens Amount as defined therein and for the purposes of the Institutional Investor Senior Subordinated On-Loan Agreement, the Spens Amount as defined therein;

**“Sub-Contractor Losses”**

means:

- (a) the amount reasonably and properly payable by Project Co to the Contractor under the terms of the Construction

Contract as a direct result of the termination of this Agreement provided that such amount shall be reduced to the extent that Project Co fails to use all reasonable endeavours to mitigate such amount; and

- (b) the amount reasonably and properly payable by Project Co to the Service Providers under their respective contracts with Project Co (as the case may be) as a direct result of the termination of this Agreement provided that such amount shall be reduced to the extent that Project Co fails to use all reasonable endeavours to mitigate such amount;

provided that in both cases no account should be taken of any liabilities and obligation of Project Co to the Sub-Contractors arising out of:

- i. agreements or arrangements entered into by Project Co and/or the Sub-Contractors to the extent that such agreements or arrangements were not entered into in connection with those parties obligations in relation to the Project; and/or
- ii. agreements or arrangements entered into by Project Co and/or the Sub-Contractors to the extent that such agreements or arrangements were not entered into in the ordinary course of business and on commercial arm's length terms;

**“Suitable Substitute Contractor”**

has the meaning given in the Funders' Direct Agreement;

**“Subordinated Debt”**

means the debt contributed by the Subordinated Funders pursuant to the Subordinated Funding Agreements;

**“Tender Costs”**

means the reasonable and proper costs of the Board incurred in carrying out the Tender Process and/or in connection with any calculation of the Estimated Fair Value of the Agreement;

**“Tender Process”**

means the process by which the Board requests tenders from any parties interested in entering into a New Agreement, evaluates the responses from those interested parties and enters into a New Agreement with a new service provider, in accordance with paragraph 3 (*Retendering Process*) of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17

*(Compensation on Termination);*

**“Tender Process Monitor”**

means the person appointed under paragraph 3.6 of Section 2 (*Compensation for Project Co Default*) of this Schedule Part 17 (*Compensation on Termination*);

**“Termination Sum”**

has the meaning given in paragraph 1.3 of Section 5 (*General*) of this Schedule Part 17 (*Compensation on Termination*).

**SCHEDULE PART 18**  
**HANDBACK PROCEDURE**

**1 DEFINITIONS**

In this Schedule Part 18 (*Handback Procedure*) and elsewhere in this Agreement (save where Schedule Part 1 (*Definitions and Interpretations*) provides to the contrary) the following words shall have the following meanings:

- “Handback Works”** means the maintenance works (if any) required to be carried out in respect of the Facilities in order to procure that they will, on the Expiry Date, satisfy the Handback Requirements;
- “Handback Programme”** means the programme for carrying out the Handback Works over the remainder of the Project Term describing the total works to be carried out and the method of carrying out such works during the overall period in which the Handback Works are to be executed;
- “Handback Amount”** means the estimated cost of carrying out the Handback Works.

2 On the Expiry Date, each element of the Facilities shall be in a condition which is:

- 2.1 consistent with due performance by Project Co of the Service Level Specification and Method Statements; and
- 2.2 consistent with the Facilities and each of the elements of them having been designed and constructed in accordance with the applicable design life requirements set out in paragraph 5.1 of Section C of the Board's Construction Requirements,

together referred to as (the "**Handback Requirements**").

3 Not less than two (2) years prior to the Expiry Date, Project Co and the Board's Representative shall conduct a joint inspection of the Facilities.

4 Within fifteen (15) Business Days after the completion of the inspection, if it is found that any element of the Facilities is not in a condition consistent with the Handback Requirements, Project Co shall forthwith provide to the Board's Representative in accordance with Schedule Part 8 (*Review Procedure*):

- 4.1 Project Co's proposal as to the Handback Works;

- 4.2 Project Co's proposal as to the Handback Programme; and
- 4.3 Project Co's estimate of the cost of the Handback Amount.
- 5 The Board's Representative may, within fifteen (15) Business Days after receipt of the details set out in paragraph 4 from Project Co, raise comments in accordance with paragraph 3 of Schedule Part 8 (*Review Procedure*) on Project Co's Proposals and estimate referred to in paragraph 1 above.
- 6 On agreement, or determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*), of the Handback Works, the Handback Programme and/or the Handback Amount (as the case may be), Project Co shall procure that the Handback Works are carried out in accordance with the Handback Programme so as to meet the Handback Requirements. Project Co shall carry out the Handback Works at its own cost notwithstanding that the actual cost of the Handback Works may be higher than the Handback Amount.
- 7 From the date of the agreement (or determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*)) of the matters identified in paragraph 6, the Board shall be entitled to withhold ten per cent (10%) of each subsequent Monthly Service Payment up to the amount of the Handback Amount (the "**Withheld Amount**") and the provisions of paragraph 11 shall apply. The Board shall pay such amounts into an interest bearing account in its own name (the "**Retention Fund**").
- 8 Project Co may elect by notice in writing to the Board within ten (10) Business Days of the agreement (or determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*)) of the matters identified in paragraph 6 to procure the provision of a bond (the "**Handback Bond**") in favour of the Board (and in a form acceptable to the Board (acting in its sole discretion)) for an amount equal to the Handback Amount and from a bank or insurance company authorised to carry out business in the United Kingdom, and upon delivery of the same to the Board, the provisions of paragraph 7 shall not apply.
- 9 Project Co shall carry out the Handback Works to the satisfaction of the Board's Representative in accordance with Good Industry Practice and in accordance with the Handback Programme so as to meet the Handback Requirements.
- 10 Notwithstanding:
- 10.1 the agreement of the Board's Representative to any Handback Works, the Handback Programme or the Handback Amount;
- 10.2 the participation of the Board's Representative in any inspection under this Schedule; and/or
- 10.3 the complete or partial carrying out of the Handback Works,

Project Co shall not be relieved or absolved from any obligation to conduct any other inspection or to perform any other works in accordance with the Service Level Specification and Method Statement.

- 11 Where this paragraph 11 applies, if and to the extent that Project Co carries out any material part of the Handback Works in accordance with paragraph 6, Project Co may make a claim for payment for the work carried out. Any such claim shall be accompanied by a certificate by Project Co setting out the works performed and the value of such works. The Board shall be entitled to require any reasonable further evidence in respect of the valuation of the works. The Board shall make payment of the amount of a valid claim within fifteen (15) Business Days of the date of the claim and shall be entitled to withdraw that amount from the Retention Fund. If at any time the amount in the Retention Fund is insufficient to cover the costs claimed by Project Co, the Board shall pay the unpaid portion of such valid claim from any amounts which subsequently stand to the credit of the Retention Fund. In the event that the amount remaining in the Retention Fund on the Expiry Date is insufficient to cover Project Co's costs which have not been paid, Project Co shall bear the balance of such costs itself.
- 12 Not later than ninety (90) Business Days before the Expiry Date, Project Co and the Board's Representative shall conduct a joint inspection of the Facilities. Such inspection shall confirm whether or not the condition of the Facilities is in accordance with paragraph 1 above.
- 13 On, or within ten (10) Business Days after, the Expiry Date, the Board's Representative shall either:
- 13.1 issue to Project Co a Handback Certificate and return the Handback Bond or pay any balance standing to the credit of the Retention Fund (as appropriate), to Project Co; or
- 13.2 notify Project Co of its decision not to issue the Handback Certificate stating the reasons for such decision.
- 14 Any notice given by the Board's Representative in accordance with paragraph 13.2 shall set out each respect in which the Handback Works have not been completed or the Facilities do not comply with the Handback Requirements and shall state the Board's Representative's estimate of the cost of procuring that the Facilities comply in all respects with the Handback Requirements.
- 15 Project Co may, within fifteen (15) Business Days after receipt of the notice given in accordance with paragraph 13.2 by notice to the Board's Representative, object to any matter set out in the Board's Representative's notice. The notice from Project Co shall give details of the grounds of such objection and shall set out Project Co's proposals in respect of such matters.
- 16 If no agreement is reached between Project Co and the Board's Representative as to any matter referred to in Project Co's notice given in accordance with paragraph 15 within fifteen (15) Business Days of receipt of that notice by the Board's Representative, then either Project Co or the Board's Representative may refer the matter for determination in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) as to:
- 16.1 whether the Facilities comply in all respects with the Handback Requirements; and
- 16.2 the estimated cost of procuring that the Facilities comply in all respects with the Handback Requirements, where the Facilities do not comply in all respects with the Handback Requirements.

- 17 If it is agreed or determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*) that the Facilities did not, at the Expiry Date, comply in all respects with the Handback Requirements, Project Co shall pay to the Board an amount equal to the estimated cost of completing such Handback Works (less, where applicable, any amounts standing to the credit of the Retention Fund at that time) or procuring that the Facilities comply in all respects with the Handback Requirements. Such payment shall be made not later than fifteen (15) Business Days after the estimated cost has been agreed or determined and, upon such payment being received by the Board, the Board's Representative shall issue the Handback Certificate and return (where applicable) the Handback Bond to Project Co.

**SCHEDULE PART 19****RECORD PROVISIONS****SECTION 1****GENERAL REQUIREMENTS**

- 1 Project Co shall retain and maintain all the records (including superseded records) referred to in Section 2 (*Records to be Kept*) of this Schedule Part 19 (*Record Provisions*) in accordance with this Section 1 (*General Requirements*) of this Schedule Part 19 (*Record Provisions*), the requirements of Good Industry Practice, in chronological order, in a form that is capable of audit and at its own expense. Project Co shall make such records available for inspection to the Board where it has reasonable cause for requiring such records, on giving reasonable notice shall provide such facilities as the Board may reasonably require for its representatives to visit any place where the records are held and examine the records maintained under this Schedule Part 19 (*Record Provisions*).
- 2 Wherever practical, original records shall be retained and maintained in hard copy form. True copies of the original records may be kept by Project Co where it is not practicable to retain original records.
- 3 Those records relating to the Project Operations (including the design, construction, development, enhancement and maintenance of the Facilities) shall be retained for the duration of the Agreement.
- 4 Financial and other records (including without limitation all information provided in support of any Change) shall be retained and maintained by Project Co for a period of at least six (6) years after the end of the Project Term in sufficient detail, in appropriate categories and generally in such a manner to enable Project Co to comply with its obligations under Clause 63.1 (*Information and Audit Access*) and where appropriate to enable the data in such records to be entered into the Financial Model so that the output from the Financial Model (on the basis of such data) can be directly compared with the actual financial cashflow and performance of Project Co.
- 5 Where Project Co wishes to dispose of any records maintained as provided in this Schedule Part 19 (*Record Provisions*) which are more than fifteen (15) years old, or in respect of which the required period for their retention has expired, then Project Co shall notify the Board and if, within forty (40) Business Days of such notice, the Board elects to receive certain of those records, then Project Co shall deliver up such records to the Board in the manner and at the location as the Board shall reasonably specify, and the costs of retaining those records in safe storage and delivering up the same shall be borne by Project Co.
- 6 Subject to paragraph 5, for a period of not more than six (6) years following the termination for whatever reason of this Agreement, Project Co shall retain in safe storage all such records as are referred to in Section 2 (*Records to be Kept*) of this Schedule Part 19 (*Record Provisions*) which were in existence at the date of termination of this Agreement. On the expiry of such period or at the earlier request of the Board (and the Parties acknowledge that such a request shall be deemed to have been issued by the Board upon the occurrence of any of the events set out in Clause 40.1.1 (*Insolvency*) whether prior to or following termination of this Agreement), Project Co shall deliver up all those records (or where those records are required by statute to remain with Project Co or a Contracting Associate of Project Co, copies thereof) to the Board in the manner and at the location as the Board shall reasonably specify. The Board shall make available to Project Co all the records Project Co delivers up pursuant to this paragraph subject to reasonable notice. The costs of retaining those records in safe storage and delivering up the same shall be borne:

- 6.1 by Project Co where the termination arises as a result of a Project Co Event of Default; and
- 6.2 by the Board where the termination arises for any other cause.
- 7 Without prejudice to the foregoing, Project Co shall provide the Board:
- 7.1 as soon as they may be available and in any event within sixty (60) Business Days after the end of the first six (6) months of each financial year of Project Co which falls during the Project Term, a copy, certified as a true copy by an officer of Project Co, of its unaudited interim accounts and, if appropriate, of consolidated unaudited interim accounts of Project Co, its Subsidiaries and Holding Company (if any) which would (if Project Co were listed on the London Stock Exchange whether or not it is) be required to be sent to shareholders as at the end of and for each such six (6) month period; and
- 7.2 as soon as they shall have been sent to its shareholders in order to be laid before an annual general meeting of Project Co but not later than one hundred and thirty (130) Business Days after the end of each accounting reference period of Project Co part or all of which falls in a Contract Year, a copy of Project Co's audited accounts and if appropriate, of the consolidated audited accounts of Project Co and, its Associated Companies (if any), in respect of that period, prepared in accordance with the Companies Act 1985 and generally accepted accounting principles and bases in Scotland, consistently applied together with copies of all related directors' and auditors' reports and all other notices/circulars to shareholders.
- 8 Project Co shall provide to the Board on 31 March, 30 June, 30 September and 31 December each year a document listing all information provided by it to the Senior Funders during the preceding three month period and, at the request of the Board, provide to the Board any information provided by it to the Senior Funders during the Project Term and any other information relating to the Project that the Board may reasonably require.
- 9 Any drawings required to be made or supplied pursuant to this Agreement shall be of a size appropriate to show the detail to be depicted clearly without magnifying aids and shall conform to British Standards 1192 or 308 or equivalent as appropriate. Where by prior agreement the Board has agreed to accept microfilm, microfiche or other storage media (which must include secure back up facilities), drawings and other documents shall be made or supplied in such form as has been agreed.
- 10 Upon termination or expiry of this Agreement, and in the event that the Board wishes to enter into another contract for the operation and management of the Project, Project Co shall (and shall ensure that the sub-contractors will) comply with all reasonable requests of the Board to provide information relating to Project Co's costs of operating and maintaining the Project.
- 11 Project Co shall use all reasonable endeavours to assist the Board in its preparation of any report and/or return required pursuant to regulations, directions or guidance applicable to the Board (in each case as amended, replaced or consolidated from time to time) or as required by external agencies including without limitation, reports and returns regarding the physical condition of the Facilities, health and safety, under the Fire (Scotland) Regulations 2005 and the Fire Safety (Scotland) Regulations 2006, relating to environmental health and to comply with The NHS and You or any document replacing it or required by the Scottish Government Health Directorates, the Scottish Government or the Scottish Futures Trust from time to time.

## SECTION 2

## RECORDS TO BE KEPT

- 1 This Agreement, its Schedule and the Project Documents and the Funding Agreements including all amendments to such agreements.
  
- 2 Project Co shall at all times maintain a full record of particulars of the costs of performing the Project Operations, including those relating to the design, construction, maintenance, operation and finance of the Facilities and the design, construction and finance of the Retained Estate Handback Infrastructure. This shall require Project Co to keep (and where appropriate to procure that the sub-contractors shall keep) books of account in accordance with best accountancy practice with respect to the Agreement showing in detail:
  - 2.1 administrative overheads;
  
  - 2.2 payments to Sub-Contractors and to sub-contractors;
  
  - 2.3 capital and revenue expenditure;
  
  - 2.4 such other items as the Board may reasonably require to conduct cost audits for verification of cost expenditure or estimated expenditure, for the purpose of Clause 29.11 (*Compensation*), Schedule Part 16 (*Change Protocol*) and Clause 32 (*Changes in Law*).

and Project Co shall have (and procure that the sub-contractors shall have) the books of account evidencing the items listed in paragraphs 2.1 to 2.4 available for inspection by the Board (and any expert) upon reasonable notice, and shall present a report of these to the Board as and when requested.
  
- 3 All other documents, software or other information expressly referred to in this Agreement.
  
- 4 Records relating to the appointment and supersession of the Board's Representative and Project Co's Representative.
  
- 5 Project Data.
  
- 6 Documents, drawings, design data or submissions raised in accordance with Schedule Part 8 (*Review Procedure*).
  
- 7 Documents relating to planning applications, consents, refusals and appeals.
  
- 8 Records relating to any specialist or statutory inspections of the Facilities and the Retained Estate Handback Infrastructure, including any roadways.
  
- 9 Notices, reports, results and certificates relating to completion of the Works and completion of the commissioning activities.

- 10 All operation and maintenance manuals and a full record of all maintenance procedures carried out during the Project Term.
- 11 Documents relating to events of Force Majeure, Delay Events and Relief Events and the consequences of the same.
- 12 All formal notices, reports or submissions made to or received from the Board's Representative in connection with the provision of Services, the Monitoring of Performance or the availability of the Facilities.
- 13 All certificates, licences, registrations or warranties related to the provision of Services.
- 14 Documents in support of claims for Services Payments.
- 15 Documents submitted in accordance with Schedule Part 16 (*Change Protocol*) and all documents provided in support.
- 16 Documents related to referrals to the Dispute Resolution Procedure.
- 17 Documents related to change in ownership or any interest in any or all of the shares in Project Co, Hold Co and/or Top Co.
- 18 Documents relating to the rescheduling of the indebtedness of Project Co or refinancing of the Project.
- 19 Tax invoices and records related to Value Added Tax.
- 20 Financial records, including audited and unaudited accounts of Top Co, Hold Co and Project Co and related reports
- 21 Records required by Law (including in relation to Health and Safety matters and health and safety files prepared pursuant to CDM Regulations) and all Consents.
- 22 Documents relating to insurance and insurance claims.
- 23 All other records, notices or certificates required to be produced and/or maintained by Project Co pursuant to this Agreement or any Project Document.
- 24 Records of all persons employed by Project Co or its sub-contractors and who are wholly or mainly engaged in the delivery of Services.

## SCHEDULE PART 20

### DISPUTE RESOLUTION PROCEDURE

- 1 The procedure set out in this Schedule Part 20 (*Dispute Resolution Procedure*) shall apply to any dispute, claim or difference arising out of or relating to this Agreement ("**Dispute**") except where it has been excluded from this procedure by an express term of this Agreement.
  
- 2 This Dispute Resolution Procedure shall not impose any pre-condition on either party or otherwise prevent or delay either party from commencing proceedings in any court of competent jurisdiction in relation to any Dispute in which that party requires either:
  - 2.1 an order (whether interlocutory or final) restraining the other party from doing any act or compelling the other party to do any act; or
  
  - 2.2 a decree for a liquidated sum to which there is no stateable defence.

### 3 **MEDIATION**

- 3.1 If the parties have been unable to resolve the Dispute within twenty (20) Business Days of the Dispute arising, they may (if both parties so agree) refer the Dispute to mediation on such conditions as may be agreed between the parties. Any mediation shall be completed within thirty (30) Business Days of such referral and any agreement arising therefrom shall be recorded in writing and signed by the parties and shall be binding and final to the extent set out in such agreement unless otherwise agreed.
  
- 3.2 For the avoidance of doubt, mediation shall not be a precondition to the commencement of Adjudication or court proceedings.

### 4 **ADJUDICATION**

- 4.1 Either party may at any time (notwithstanding that other dispute resolution procedures are running concurrently) give the other party to the Dispute notice of its intention to refer the Dispute to adjudication (the "**Notice of Adjudication**"). The party giving the Notice of Adjudication (the "**Referring Party**") shall by the same means of communication send a copy of the Notice of Adjudication to an adjudicator selected in accordance with paragraph 4.2 below or paragraph 4.11 below (the "**Adjudicator**").
  
- 4.2 The Adjudicator nominated to consider a Dispute referred to him shall, subject to paragraph 4.11, be selected on a strictly rotational basis from the relevant panel of adjudicators appointed in accordance with the following:
  - 4.2.1 there shall be two (2) panels of adjudicators, one in respect of construction matters (the "**Construction Panel**") and one in respect of operational and maintenance matters (the "**Operational Panel**"). All the adjudicators on each panel shall be wholly independent of Project Co, the Board, the relevant Sub-Contractor and any of the major competitors of Project Co or the relevant Sub-Contractor;

- 4.2.2 the Construction Panel shall be comprised of three (3) adjudicators as identified in paragraph 7 (*Panel Members*);
- 4.2.3 the Operational Panel shall be comprised of three (3) adjudicators as identified in paragraph 7 (*Panel Members*);
- 4.2.4 if any member of either panel resigns during the term of the Agreement, a replacement adjudicator shall be appointed by Project Co and the Board as soon as practicable;
- 4.2.5 if Project Co and the Board are unable to agree on the identity of the adjudicators to be selected for the panels or any replacement adjudicator, the Chairman (or Vice Chairman) for the time being of the Chartered Institute of Arbitrators Scottish Branch shall appoint such adjudicator(s) within seven (7) days of any application for such appointment by either party;
- 4.2.6 in the event that the first panel member is unable or unwilling to confirm acceptance of his appointment as Adjudicator or where he fails to respond within two (2) days of the date of the Notice of Adjudication, then the Referring Party shall invite the person next in line to act as Adjudicator. In the event that the second panel member is unwilling or unable to confirm acceptance of his appointment as Adjudicator within four (4) days of the date of the Notice of Adjudication or if the parties disagree as to the relevant panel of adjudicators to be used, then the Referring Party may apply to the Chairman (or Vice Chairman) for the time being of the Chartered Institute of Arbitrators Scottish Branch who shall within seven (7) days of the date of the Notice of Adjudication, nominate an Adjudicator (who shall also within the same period, confirm acceptance of his appointment as Adjudicator) to determine the Dispute described in the Notice of Adjudication;
- 4.2.7 no member of either panel shall be entitled to accept an appointment to act as Adjudicator unless he is willing also to be appointed as the adjudicator to adjudicate any dispute which:
- a) may arise between Project Co and the Contractor and raises issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed; and/or
  - b) may arise between Project Co and the Service Provider and raises issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed; and/or
  - c) may arise between Project Co and the Independent Tester and raises issues which, in the opinion of Project Co, are substantially the same as or connected with the Dispute in relation to which he has been appointed.
- 4.3 The Referring Party shall, within seven (7) days of the date of the Notice of Adjudication, serve its statement of case (the "**Referral Notice**") on the Adjudicator (appointed pursuant to paragraph 4.2) and the other party to the Dispute (the "**Responding Party**"). The Referral Notice shall set out each element of the

Referring Party's claim and the relief or remedy sought in sufficient detail so as to enable the Responding Party to understand and, where appropriate, respond to the claim and the Referral Notice shall be accompanied by copies of, or relevant extracts from, this Agreement and such other documents as the Referring Party intends to rely upon. The date of the referral of the Dispute (the "**Referral**") shall be the date of the Referral Notice.

- 4.4 Within seven (7) days of appointment in relation to a particular Dispute, the Adjudicator shall establish the procedure and timetable for the adjudication. The Adjudicator shall have absolute discretion as to how to conduct the adjudication, including whether a meeting is necessary. He shall establish the procedure and timetable subject to any limitation within this Agreement. The parties shall comply with any request or direction of the Adjudicator in relation to the adjudication.
- 4.5 The Adjudicator shall reach a decision on the Dispute within twenty-eight (28) days of the date of the Referral (or such other period as the parties may agree). The Adjudicator may extend the period of twenty eight (28) days by up to fourteen (14) days with the consent of the Referring Party. Unless the parties otherwise agree, the Adjudicator shall give reasons for his decision. Unless and until the Dispute is finally determined by Court proceedings or by an agreement in writing between the parties, the Adjudicator's decision shall be binding on both parties who shall forthwith give effect to the decision.
- 4.6 The Adjudicator's costs of any reference shall be borne as the Adjudicator shall specify or, in default, equally by the parties. Each party shall bear its own costs arising out of the adjudication, including legal costs and the costs and expenses of any witnesses.
- 4.7 The Adjudicator shall be deemed not to be an arbitrator but shall render his decision as an adjudicator and the law relating to arbitration shall not apply to the Adjudicator or his determination or the procedure by which he reached his determination.
- 4.8 The Adjudicator shall act fairly and impartially and may take the initiative in ascertaining the facts and the law. The Adjudicator shall have the power to open up, review and revise any opinion, certificate, instruction, determination or decision of whatever nature given or made under this Agreement.
- 4.9 All information, data or documentation disclosed or delivered by a party to the Adjudicator in consequence of or in connection with his appointment as Adjudicator shall be treated as confidential. The Adjudicator shall not, save as permitted by Clause 61 (*Confidentiality*), disclose to any person or company any such information, data or documentation and all such information, data or documentation shall remain the property of the party disclosing or delivering the same and all copies shall be returned to such party on completion of the Adjudicator's work.
- 4.10 The Adjudicator is not liable for anything done or omitted in the discharge or purported discharge of his functions as Adjudicator unless the act or omission is in bad faith. Any employee or agent of the Adjudicator is similarly protected from liability.
  - 4.10A.1 The Adjudicator may on his own initiative or on the request of the Referring Party or Responding Party correct his decision so as to remove a clerical or typographical error arising by accident or omission.

- 4.10A.2 Any correction of a decision shall be made within five (5) days of the date upon which the Adjudicator's decision was delivered to the parties.
- 4.10A.3 Any correction of a decision shall form part of the decision.
- 4.11 If any Dispute raises issues which, in the opinion of Project Co, are substantially the same as or connected with issues raised in a dispute or difference arising out of or relating to any other agreement (all such agreements being referred to as the "**Related Agreements**") between:
- 4.11.1 Project Co and the Contractor;
- 4.11.2 Project Co and the Service Provider; and/or,
- 4.11.3 Project Co and the Independent Tester,

which was or has been referred to adjudication (the "**Related Adjudication**") and an adjudicator has already been appointed (the "**Related Adjudicator**") then Project Co may request that the Dispute be referred to the Related Adjudicator and paragraphs 4.12 to 4.14 shall apply.

- 4.12 Subject to paragraphs 4.13 and 4.14 below, in the event that a Related Adjudicator orders that a Dispute under this Agreement be consolidated with a Related Adjudication with which he is dealing under the Related Agreement, then:
- 4.12.1 with effect from the time of such order, the Dispute shall be determined by the Related Adjudicator, who shall become the Adjudicator; and
- 4.12.2 such order shall be binding on Project Co and the Board and both of them shall acknowledge the appointment of the Related Adjudicator as the adjudicator of the Dispute, with Project Co or the Board (as the case may be) using its best endeavours to procure that the third party who is a party to the Related Agreement shall with effect from the time of such order comply with the requirements of the Related Agreement (including if applicable any requirement or direction of the Related Adjudicator appointed under such Related Agreement) as to the future conduct of the determination of the Dispute and the Related Adjudication; and
- 4.12.3 notwithstanding paragraph 4.6, Project Co and the Board shall be jointly responsible with the third party who is a party to the Related Agreement for the Related Adjudicator's fees and expenses including those of any specialist consultant appointed under the adjudication procedure in the Related Agreement, in respect of the period in which the Dispute is consolidated with the Related Adjudication pursuant to an order of the Related Adjudicator ("**Consolidated Adjudication Costs**"). Project Co and the Board agree that the Related Adjudicator shall have the discretion to make directions to require Project Co, the Board and the third party who is a party to the Related Agreement to pay or make contribution to the Consolidated Adjudication Costs in different proportions. If no such directions are made, Project Co, the Board and the third party who is a party to the Related Agreement shall bear the Consolidated Adjudication Costs in equal shares, and if Project Co, the Board or the third party has paid more

than such equal share, that party or third party shall be entitled to a contribution from the other party, parties or third party, as the case may be.

- 4.13 Notwithstanding anything to the contrary a Dispute under this Agreement may only be consolidated with a Related Adjudication, if the Related Adjudicator receives particulars of the Dispute within ten (10) days of the referral of the Related Adjudication to the Related Adjudicator under the Related Agreement.
- 4.14 Where Project Co requests that a Dispute under this Agreement be consolidated (in terms of paragraph 4.11) with a Related Adjudication and heard by the Related Adjudicator, the Dispute may only be consolidated where the Board has previously consented in writing to the identity of the Related Adjudicator appointed in respect of the Related Adjudication. The Board's consent to such request shall not be unreasonably withheld and if the Board refuses to consent, it must give reasons in writing for its refusal. Should the Board fail to respond within two (2) days of receipt of such a request it shall be deemed to have consented to the appointment of the Related Adjudicator. Where the Related Adjudicator is on the Construction Panel or Operational Panel at the time of the Referral then the Board shall be deemed to have consented to the appointment of the Related Adjudicator.

## 5 COURT PROCEEDINGS

Subject to paragraph 4 (*Adjudication*) all Disputes, to the extent not finally resolved pursuant to the procedures set out in the foregoing provisions of this Schedule Part 20 (*Dispute Resolution Procedure*), shall be referred to Scottish courts.

## 6 SUBMISSIONS IN RELATION TO ADJUDICATION

6.1 If any Dispute raises issues which relate to:

- 6.1.1 any dispute between Project Co and the Contractor arising under the Construction Contract or otherwise affects the relationship or rights of Project Co and/or the Contractor under the Construction Contract (the "**Construction Contract Dispute**"); or
- 6.1.2 any dispute between Project Co and the Service Provider arising under the Service Contract or otherwise affects the relationship or rights of Project Co and/or the Service Provider under the Service Contract (the "**Service Contract Dispute**"); or
- 6.1.3 any dispute between Project Co and the Independent Tester arising under the Independent Tester Contract or otherwise affects the relationship or rights of Project Co and/or the Independent Tester under the Independent Tester Contract (the "**Independent Tester Contract Dispute**"),

then Project Co may include as part of its submissions made to the Adjudicator submissions made by the Contractor or by the Service Provider or the Independent Tester as appropriate.

6.2 Any submissions made by the Contractor or the Service Provider or the Independent Tester shall:

- 6.2.1 be made within the time limits applicable to the delivery of submissions by Project Co to the Adjudicator; and
- 6.2.2 concern only those matters which relate to the Dispute between the Board and Project Co arising out of this Agreement or in connection therewith.
- 6.3 Where the Contractor or the Service Provider or the Independent Tester makes submissions in any reference before the Adjudicator, the Adjudicator's costs of such reference shall be borne as the Adjudicator shall specify, or in default, one-third by the Board and two-thirds by Project Co.
- 6.4 The Board shall have no liability to the Contractor or the Service Provider or the Independent Tester arising out of or in connection with any decision of the Adjudicator or in respect of the costs of the Contractor or the Service Provider or the Independent Tester in participating in the resolution of any Dispute under this Agreement.
- 6.5 Project Co shall not allow the Contractor or the Service Provider or the Independent Tester access to any Confidential Information relevant to the issues in dispute between the Board and Project Co save where:
- 6.5.1 the Confidential Information is relevant also to the issues relating to the Construction Contract Dispute or the Service Contract Dispute or the Independent Tester Contract Dispute as the case may be; and
- 6.5.2 Project Co has first delivered to the Board a written undertaking from the Contractor and/or the Service Provider and/or the Independent Tester (as appropriate) addressed to the Board that they shall not use any such Confidential Information otherwise than for the purpose of the dispute resolution proceedings under this Agreement and that they shall not disclose such Confidential Information to any third party other than the Adjudicator or the courts or any professional adviser engaged by the Contractor or the Service Provider or Independent Tester (as appropriate) to advise in connection with the Dispute.

## 7 PANEL MEMBERS

The panel members referred to in paragraph 4 are as follows:

Construction Panel		
Item	Type of Dispute	Named individual and nominating body
1.	Legal	Person to be used:  1.1 Jonathan Broome, Axiom Stable, Advocates' Library, Parliament House, Edinburgh, EH1 1RF; or

Construction Panel		
Item	Type of Dispute	Named individual and nominating body
		<p>1.2 Robert Howie QC, Ampersand Stable, Advocates' Library, Parliament House, Edinburgh, EH1 1RF,</p> <p>whom failing such person to be nominated by:</p> <p>1.3 Dean/Vice President of Faculty of Advocates, Parliament House, Edinburgh; or</p> <p>1.4 President/Vice President of Law Society of Scotland</p>
2.	Technical	<p>Person to be used:</p> <p>1.1 Janey Milligan, Construction Dispute Resolution, Pavillion 1, Parkway Court, 291 Springhill Parkway, Glasgow, G69 6GA; or</p> <p>1.2 Trevor Pettigrew Smith, FTI Brewer Consulting, Earlsgate House, 35 St Ninians Road, Stirling, FK8 2HE,</p> <p>whom failing such person to be nominated by:</p> <p>1.3 President/Vice President of the Royal Incorporation of Chartered Surveyors (Scottish Branch); or</p> <p>1.4 President/Vice President of the Royal Incorporation of Architects in Scotland; or</p> <p>1.5 President/Vice President of the Institution of Civil Engineers (Scottish Branch)</p>

Construction Panel		
Item	Type of Dispute	Named individual and nominating body
3.	Financial	<p>Person to be nominated by:</p> <p>1.1 President/Vice President of the Institute of Chartered Accountants in Scotland.</p>

Operational Panel		
Item	Type of Dispute	Person to be used and nominating body
1.	Legal	<p>Person to be used for first five (5) years of the Operational Term:</p> <p>1.1 Jonathan Broome, Axiom Stable, Advocates' Library, Parliament House, Edinburgh, EH1 1RF; or</p> <p>1.2 Robert Howie QC, Ampersand Stable, Advocates' Library, Parliament House, Edinburgh, EH1 1RF,</p> <p>whom failing and/or after such five (5) year period such person to be nominated by:</p> <p>1.3 Dean/Vice President of Faculty of Advocates, Parliament House, Edinburgh; or</p> <p>1.4 President/Vice President of Law Society of Scotland</p>
2.	Technical	<p>Person to be used for first five (5) years of the Operational Term:</p> <p>1.1 Janey Milligan, Construction Dispute Resolution, Pavillion 1, Parkway Court, 291 Springhill Parkway, Glasgow, G69 6GA; or</p> <p>1.2 Trevor Pettigrew Smith, FT1 Brewer Consulting, Earlsgate House, 35 St Ninians</p>

Operational Panel		
Item	Type of Dispute	Person to be used and nominating body
		Road, Stirling, FK8 2HE,  whom failing and/or after such five (5) year period such person to be nominated by:  1.3 President/Vice President of the Royal Incorporation of Chartered Surveyors (Scottish Branch); or  1.4 President/Vice President of the Royal Incorporation of Architects in Scotland; or  1.5 President/Vice President of the Institution of Civil Engineers (Scottish Branch).
3.	Financial	Person to be nominated by:  1.1 President/Vice President of the Institute of Chartered Accountants in Scotland.

## 8 NO LOSS

Where the Board would otherwise be expressly liable to make payment to Project Co of sums which include amounts payable in turn by Project Co to any Sub-Contractor, the Board shall not be entitled to withhold, reduce or avoid any such payment to Project Co in reliance only on the fact that the amount which is due from Project Co to the Sub-Contractor or the entitlement of the Sub-Contractor to payment of such amount as a result of the circumstances giving rise to the Board's obligation to pay, is conditional on the entitlement of, or receipt of payment by Project Co from the Board.

## 9 CONTINUING OBLIGATIONS

Unless this Agreement has already been repudiated or terminated, the parties shall, (notwithstanding that any Dispute is subject to the Dispute Resolution Procedure set out in this Schedule Part 20 (*Dispute Resolution Procedure*)), continue to carry out their obligations in accordance with this Agreement.

## SCHEDULE PART 21

## PROJECT CO INFORMATION

## SECTION 1

## PROJECT CO INFORMATION

Name : IHS Lothian Limited

Date of Incorporation : 18<sup>th</sup> December 2014

Registered number : SC493676

Registered office : Burness Paull LLP  
50 Lothian Road  
Festival Square  
Edinburgh  
EH3 9WJ

Directors :

Name	Address
Mark Jonathan Dooley	[REDACTED]
Mark Dening Bradshaw	[REDACTED]
Brian Saunders	[REDACTED]

Secretary : Helen Louise Everitt

Subsidiary undertakings at the date of this Agreement : none

Authorised and issued share capital at the date of this Agreement: £101

Name and address of registered holder	Number and class held	Amount paid up
Prudential Trustee Company Limited (as Security Trustee)  Laurence Poutney Hill, London, EC4R 0HH	100 ordinary A shares of £1.00	£100.00
Lothian Health Board	1 ordinary B share of £1.00	£1.00

Loan Stock at the date of this Agreement issued as follows:

Name and address of registered holder	Nominal value of Loan stock
IHS Lothian Holdings Limited Ropemaker Place, 28 Ropemaker Street, London, EC2Y 9HD	£14,579,266.73

#### Borrower Loan Note Provisions

- (a) The initial principal amount of the Borrower Loan Note is GBP as above and shall be designated as "unsecured 9.47 per cent. Borrower loan note 2015/01". The Borrower Loan Note shall be issued on financial close but must be paid for by HoldCo on or before the Equity Funding Date.
- (b) The interest rate on the Borrower Loan Notes is 9.47% per annum payable on bi-annual interest payment dates of 31 March and 30 September. The default interest rate is the interest rate plus 2% per annum.
- (c) The Borrower Loan Notes are repayable on any Business Day after the debt of the Senior Funders and the Senior Subordinated On-Loan Debt has been fully repaid by the Borrower (the "Discharge Date") in accordance with the terms of the Shareholder Support Agreement.

**SCHEDULE PART 23****REFINANCING****Requirement for Board Consent**

- 1 Project Co shall obtain the Board's prior written consent to any Qualifying Refinancing and both the Board and Project Co shall at all times act in good faith with respect to any Refinancing.
  
- 2 The Board shall be entitled to receive:
  - 2.1 a 90% share of the Margin Gain arising from any Qualifying Refinancing which gives rise to a reduction in the Margin from the Margin as shown in the Senior Funding Agreements as at Financial Close (or, in the case of a second or subsequent Qualifying Refinancing, from the Margin as shown in the Senior Funding Agreements as updated at the immediately preceding Qualifying Refinancing);
  
  - 2.2 a share of any Refinancing Gain (arising otherwise than from a reduction in Margin) from a Qualifying Refinancing, in respect of any Refinancing Gain (when considered in aggregate with all previous Qualifying Refinancings) as follows:
    - 2.2.1 for a Refinancing Gain from £1 up to £1 million, a 50% share;
  
    - 2.2.2 for a Refinancing Gain from £1 million up to £3 million, a 60% share;
  
    - 2.2.3 for a Refinancing Gain in excess of £3 million, a 70% share.
  
- 3 The Board shall not withhold or delay its consent to a Qualifying Refinancing to obtain a greater share of the Refinancing Gain than that specified in paragraph 2 above.

**Project Co Details**

- 4 Project Co shall promptly provide the Board with full details of any proposed Qualifying Refinancing, including a copy of the proposed financial model relating to it (if any) and the basis for the assumptions used in the proposed financial model. The Board shall (before, during and at any time after any Refinancing) have unrestricted rights of audit over any financial model and documentation (including any aspect of the calculation of the Refinancing Gain) used in connection with the Refinancing whether that Refinancing is a Qualifying Refinancing or not.

**Receipt of Gain**

- 5 The Board shall have the right to elect to receive its share of any Refinancing Gain (including any Margin Gain) as:
  - 5.1 a single payment being the proportion (corresponding to the proportion of the Refinancing Gain to which the Board is entitled pursuant to paragraph 2 above) of the amount which, but for the provisions of this Schedule Part 23 (*Refinancing*), would otherwise be capable of being released as a Distribution and/or a Surplus Payment on

or about the date of the Refinancing;

5.2 a reduction in the Annual Service Payments over the remaining term of this Agreement; or

5.3 a combination of the above.

### Method of Calculation

6 The Board and Project Co will negotiate in good faith to agree the basis and method of calculation of the Refinancing Gain (including any Margin Gain) and payment of the Board's share of the Refinancing Gain (taking into account how the Board has elected to receive its share of the Refinancing Gain under paragraph 5 (*Receipt of Gain*) above). If the parties fail to agree the basis and method of calculation of the Refinancing Gain or the payment of the Board's share, the dispute shall be determined in accordance with Schedule Part 20 (*Dispute Resolution Procedure*).

### Costs

7 The Refinancing Gain (including any Margin Gain) shall be calculated after taking into account any breakage costs necessary to facilitate the Qualifying Refinancing together with the reasonable and proper professional costs that each party directly incurs in relation to the Qualifying Refinancing and on the basis that all reasonable and proper professional costs incurred by the Board will be paid to the Board by Project Co within twenty eight (28) days of any Qualifying Refinancing. Such costs shall be allocated pro rata between the Margin Gain (if any) and the remaining Refinancing Gain.

8 Without prejudice to the other provisions of this Schedule Part 23 (*Refinancing*), Project Co shall:

8.1 notify the Board of all Notifiable Financings on becoming aware of the same and again when they are entered into and provide full details of the same; and

8.2 include a provision in the Funding Agreements (other than the Subordinated Funding Agreements) whereby it is entitled to be informed of any proposals which the Senior Funders may have to refinance the Funding Agreements (other than the Subordinated Funding Agreements).

### Definitions

In this Schedule Part 23 (*Refinancing*) and elsewhere in this Agreement (save where Schedule Part 1 (*Definitions and Interpretation*) provides to the contrary) the following words and expressions shall have the following meanings:

#### “Distribution”

means:

- (a) whether in cash or in kind, any:
  - i. dividend or other distribution in respect of share capital (whether made validly in accordance with the Articles of Association or

- otherwise);
- ii. reduction of capital, redemption or purchase of shares or any other reorganisation or variation to share capital;
  - iii. payments under the Subordinated Funding Agreements (whether of principal, interest, breakage costs or otherwise);
  - iv. payment, loan, contractual arrangement or transfer of assets or rights to the extent (in each case) it was put in place after Financial Close and was neither in the ordinary course of business nor on reasonable commercial terms;
  - v. the receipt of any other benefit which is not received in the ordinary course of business and on reasonable commercial terms; or
- (b) the early release of any Contingent Funding Liabilities, the amount of such release being deemed to be a gain for the purposes of any calculation of Refinancing Gain;

**“EEA”**

means from time to time the European Economic Area as created by The Agreement on the European Economic Area 1992 or any successor or replacement body, association, entity or organisation which has assumed either or both the function and responsibilities of the European Economic Area;

**“Exempt Refinancing”**

means:

- (a) any Refinancing that was fully taken into account in the calculation of the Annual Service Payments;
- (b) a change in taxation or change in accounting treatment;
- (c) the exercise of rights, waivers, consents and similar actions which relate to day to day administrative and supervisory matters, and which are in respect of:
  - i. breach of representations and warranties or undertakings;
  - ii. movement of monies between the Project Accounts in accordance with the terms of the

Senior Funding Agreements as at Financial Close;

- iii. late or non-provision of information, consents or licences;
  - iv. amendments to Sub-Contracts;
  - v. approval of revised technical and economic assumptions for financial model runs (to the extent required for forecasts under the Funding Agreements);
  - vi. restrictions imposed by Senior Funders on the dates at which the debt contributed by the Senior Lenders can be advanced to Project Co under the Senior Funding Agreements and/or amounts released from Drawdown Account during the Availability Period, each as defined in the Common Terms Agreement and which are given as a result of any failure by Project Co to ensure that the construction work is performed in accordance with the agreed construction programme and which is notified in writing by Project Co or the Senior Funders to the Board prior to being given;
  - vii. changes to milestones for drawdown and/or amounts released from the Drawdown Account during the Availability Period set out in the Common Terms Agreement and which are given as a result of any failure by Project Co to ensure that construction work is performed in accordance with the agreed construction programme and which is notified in writing by Project Co or the Senior Funders to the Board prior to being given;
  - viii. failure by Project Co to obtain any consent by statutory bodies required by the Senior Funding Agreements; or
  - ix. voting by Senior Funders and the voting arrangements between the Senior Funders in respect of the levels of approval required by them under the Funding Agreements;
- (d) any amendment, variation or supplement of any agreement approved by the Board

as part of any Qualifying Change under this Agreement;

- (e) any sale of shares in Project Co or HoldCo by the shareholders or securitisation of the existing rights and/or interests attaching to shares in Project Co or HoldCo provided that this paragraph (e) shall, in respect of shares in HoldCo, only apply for so long as HoldCo holds 100% of the issued share capital of Project Co;
- (f) any sale or transfer of the Subordinated Funders' existing rights and/or interests under the Subordinated Funding Agreements or securitisation of the Subordinated Funders' existing rights and/or interests under the Subordinated Funding Agreements; or
- (g) any Qualifying Bank Transaction;

**“Insurance Undertaking”**

has the meaning given in the rules from time to time of the Financial Services Board;

**"Margin"**

has the meaning given to it in the Senior Funding Agreements as at the date immediately prior to the relevant Qualifying Refinancing or in the case of the Institutional Investor Senior Facility Agreement and the Institutional Investor Senior Subordinated On-Loan Facility Agreement, as each are defined in the Common Terms Agreement, the rate of interest on the face value of the loan less the yield on the relevant reference gilt in place on the date of the Senior funding Agreements;

**“Margin Gain”**

means an amount equal to the lower of:

- (a) the Refinancing Gain; and
- (b) the higher of:

zero; and

$D - E$ ;

where:

D = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (taking into account the effect of the change in Margin only in relation to the Refinancing and the senior debt repayment profile immediately prior to the Qualifying Refinancing and using the Financial Model as updated (including as to the performance of the

Project) so as to be current immediately prior to the Refinancing but disregarding any Distribution (including any payment under Clauses 5.3 and 5.4 of the Shareholder Support Agreement) that, but for the Refinancing, would not be made) to be made over the remaining term of this Agreement following the Refinancing; and

E = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (but without taking into account the effect of the Refinancing and using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing) to be made over the remaining term of this Agreement following the Refinancing;

**“Net Present Value”**

means the aggregate of the discounted values, calculated as at the relevant date, of each of the relevant projected cashflows, in each case discounted at 9.47%.%;

**“Notifiable Financings”**

means any Refinancing described in paragraphs (a) or (c) of the definition of Refinancing and any other arrangement which has or would have a similar effect or which has or would have the effect of limiting Project Co's or any Associated Company's ability to carry out any such refinancing or other arrangements that would have a similar effect;

**“Project Accounts”**

means accounts referred to in and required to be established under the Senior Funding Agreements;

**“Qualifying Bank Transaction”**

means:

- (a) the syndication by a Senior Funder, in the ordinary course of its business, of any of its rights or interests in the Senior Funding Agreements;
- (b) the grant by a Senior Funder of any rights of participation, or the disposition by Senior Funder of any of its rights or interests (other than as specified in paragraph (a) above in respect of the Senior Funding Agreements in favour of:
  - i. any other Senior Funder;
  - ii. any institution which is recognised or permitted under the law of any member state of the EEA to carry on the business of a credit institution pursuant to Council Directive 2006/48/EC relating to the taking up and pursuit of business of credit institutions or which is otherwise permitted to

- accept deposits in the United Kingdom or any other EEA member state;
- iii. a local authority or public authority;
  - iv. a trustee of a charitable trust which has (or has had at any time during the previous two years) assets of at least £10 million (or its equivalent in any other currency at the relevant time);
  - v. a trustee of an occupational pension scheme or stakeholder pension scheme where the trust has (or has had at any time during the previous two years) at least 50 members and assets under management of at least £10 million (or its equivalent in any other currency at the relevant time);
  - vi. an EEA or Swiss Insurance Undertaking;
  - vii. a Regulated Collective Investment Scheme;
  - viii. any Qualifying Institution; or
  - ix. any other institution in respect of which the prior written consent of the Board has been given; and/or
- (c) the grant by a Senior Funder of any other form of benefit or interest in either the Senior Funding Agreements or the revenues or assets of Project Co or HoldCo, whether by way of security or otherwise, in favour of:
- i. any other Senior Funder;
  - ii. any institution specified in paragraphs bii to bvii above;
  - iii. any Qualifying Institution; or
  - iv. any other institution in respect of which the prior written consent of the Board has been given;

**“Qualifying Institutions”**

means any institution which is authorised by the Financial Conduct Authority to accept deposits in the United Kingdom;

**“Qualifying Refinancing”**

means any Refinancing that will give rise to a Refinancing Gain greater than zero that is not an

**“Refinancing”**

Exempt Refinancing;

means:

- (a) any amendment, variation, novation, supplement or replacement of any Funding Agreement (other than any Subordinated Funding Agreement);
- (b) the exercise of any right, or the grant of any waiver or consent, under any Funding Agreement (other than any Subordinated Funding Agreement);
- (c) the disposition of any rights or interests in, or the creation of any rights of participation in respect of, the Funding Agreements (other than the Subordinated Funding Agreements) or the creation or granting of any other form of benefit or interest in either the Funders' Agreements (other than the Subordinated Funding Agreements) or the contracts, revenues or assets of Project Co whether by way of security or otherwise; or
- (d) any other arrangement put in place by Project Co or another person which has an effect which is similar to any of (a)-(c) above or which has the effect of limiting Project Co's or any Associated Company's ability to carry out any of (a)-(c) above;

**“Refinancing Gain”**

means an amount equal to the greater of zero and  $[(A - B)]$ , where:

A = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (taking into account the effect of the Refinancing using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing but disregarding any Distribution (including any payment under Clauses 5.3 and 5.4 of the Shareholder Support Agreement) that, but for the Refinancing, would not be made) to be made over the remaining term of this Agreement following the Refinancing; and

B = the Net Present Value of the Surplus Payments projected immediately prior to the Refinancing (but without taking into account the effect of the Refinancing and using the Financial Model as updated (including as to the performance of the Project) so as to be current immediately prior to the Refinancing) to be made over the

remaining term of this Agreement following the Refinancing;

**“Regulated Collective Investment Scheme”**

has the meaning given in the rules from time to time of the Financial Services Authority;

**“Shareholder”**

means any person from time to time holding share capital in Project Co or HoldCo.

**"Shareholder Support Agreement"**

has the meaning given to it in the Common Terms Agreement;

## SCHEDULE PART 25

## INSURANCE PROCEEDS ACCOUNT AGREEMENT

## AGREEMENT

## AMONG:

- (1) **IHS LOTHIAN LIMITED** (registered under number SC493676) whose registered office is Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, EH3 9WJ. (the "**Issuer**"); and
- (2) **LOTHIAN HEALTH BOARD**, a health board constituted in Scotland under the National Health Service (Constitution of Health Boards) (Scotland) Order 1974 (S.I. 1974/267) as amended by the National Health Service (Constitution of Health Boards) (Scotland) Amendment Order 2003 (S.S.I. 2003/217) pursuant to Section 2 of the National Health Service (Scotland) Act 1978 as amended by section 28 of the National Health Service and Community Care Act 1990 and having its principal address at Waverley Gate, 2-4 Waterloo Place, Edinburgh EH1 3EG (the "**Board**");
- (3) **SUMITOMO MITSUI BANKING CORPORATION EUROPE LIMITED** (the "**Account Bank**"); and
- (4) **PRUDENTIAL TRUSTEE COMPANY LIMITED** (the "**Security Trustee**").

## WHEREAS

- (A) The Issuer and the Board have agreed to open an insurance proceeds account in their joint names.
- 1 The parties hereto have agreed to set out the terms on which payments may be made to or from that account in this Agreement.

IT IS AGREED as follows:

## 1 DEFINITIONS AND INTERPRETATION

<b>"Credit Provider"</b>	means the Senior Funders, as such term is defined in the Project Agreement;
<b>"Event of Default"</b>	has the meaning given in Clause 4.5 ( <i>General Provisions for the Account</i> ) of this Agreement;
<b>"Proceeds Account"</b>	has the meaning given to it in the Common Terms Agreement;
<b>"Qualifying Bank"</b>	means any institutions which is recognised or permitted under the law of any member state of the EEA to carry on the business of a credit institution pursuant to Council Directive 2006/48EC relating to the taking up and pursuit of the business of credit institutions or which is otherwise permitted to accept deposits in the United Kingdom or any other EU member state;
<b>"Project Agreement"</b>	means the agreement dated on or around the date of this Agreement between the Project Co and the Board in relation to the design, development, construction and provision of certain services in connection with the re-provision of the Royal Hospital for Sick Children, Child and Adolescent Mental Health Service and the Department for Clinical Neuroscience in a single building adjoining the Royal Infirmary of

Edinburgh at Little France at the Site and Off-Site;

**"Senior Finance Documents"**

means the Senior Funding Agreements, as such term is defined in the Project Agreement;

**"Security Documents"**

means:

- (a) Borrower Assignment in Security;
  - (b) Borrower Bond and Floating Charge;
  - (c) Borrower Debenture;
  - (d) HoldCo Share Pledge;
  - (e) HoldCo (First Ranking) Debenture;
  - (f) HoldCo (Second Ranking) Debenture;
  - (g) Intercreditor Agreement,
  - (h) the Assignment in Security of Reversionary Rights;
  - (i) HoldCo Assignment and Pledge,
- (each as defined in the Common Terms Agreement) together with:
- (j) the TopCo Charge (as defined in the Intercreditor Agreement);
  - (k) any present or future document confirming or evidencing any Security (as defined in the Common Terms Agreement) or guarantee for, or in relation to, all the Senior Debt (as defined in the Intercreditor Agreement);
  - (l) all agreements and other documents executed from time to time pursuant to any of the foregoing including all notices of assignment and intimations of assignment given pursuant to, and as contemplated by, the above documents and the acknowledgements to the notices of assignment and intimations of assignment;
  - (m) any other agreement or document which the Security Trustee may from time to time designate as a "Security Document" in accordance with the Common Terms Agreement; and
  - (n) any other agreement or document which the Senior Subordinated Security Trustee (as defined in the Intercreditor Agreement) may from time to time designate as a "Senior Subordinated Security Document" in accordance with the Senior Subordinated Finance Documents (as defined in the Common Terms Agreement)."

1.1 Capitalised terms defined in the Project Agreement shall have the same meaning in

this Agreement.

## 1.2 European Economic and Monetary Union

In the event that the United Kingdom joins EMU any figures expressed in "£" and "sterling" under this Agreement shall be converted into Euro at the rate for conversion of sterling into Euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations) and any reference to a figure in "£" or "Sterling" shall mean that figure adjusted into Euro.

## 2 INSURANCE PROCEEDS ACCOUNT

Each of the Issuer and the Board (together the "**Account Holders**") hereby appoint Sumitomo Mitsui Corporation Europe Limited as the Account Bank.

- 2.1 The Account Bank has opened on its books, at its office at 99 Queen Victoria Street, London, EC4V 4EH, an account in the joint names of the Account Holders designated the Board Insurance Proceeds Account (the "**Account**").
- 2.2 The Account Bank shall, save as otherwise provided herein, maintain the Account in accordance with its usual practices, provided that, in the event of any conflict between the provisions of this Agreement and any applicable mandate, the provisions of this Agreement shall prevail.
- 2.3 Notwithstanding anything else in this Agreement, no person shall request or require that any withdrawal be made from the Account if it would cause the Account to become overdrawn and to the extent that any withdrawal (if made in full) would cause the Account to become so overdrawn, such withdrawal shall be made in part in as great an amount as possible as will not result in such Account becoming overdrawn.
- 2.4 Where any withdrawal required under this Agreement cannot be made in its entirety, the Account Bank shall promptly notify both of the Account Holders of that fact and provide details of the payment not made, the date on which it should have been made and the amount unpaid.
- 2.5 Each amount from time to time standing to the credit of the Account shall bear interest at the rate agreed between the Account Bank and the Account Holders from time to time, such interest to be credited to the Account in respect of which such interest has accrued in accordance with the relevant mandate.
- 2.6 Subject to and in accordance with the provisions of this Agreement, including without limitation Clause 4 (*General Provisions for the Account*) of this Agreement, the Account Bank agrees that it shall make such payments out of the amount standing to the credit of the Account as may from time to time be requested by the Account Holders jointly subject to the restrictions as contained in this Agreement. Save as otherwise provided in this Agreement, no party shall be entitled to require the Account Bank to make, and the Account Bank shall not make, any payment out of the amount standing to the credit of the Account.
- 2.7 Subject to Clause 8.6 (*The Account Bank*) of this Agreement, the Account Holders

shall maintain the Account with the Account Bank until the termination of the Project Agreement. If so instructed after the termination of the Project Agreement, the Account Bank shall, at the sole cost and expense of the Issuer, terminate the Account in accordance with the relevant instructions and pay any amount standing to the credit of such accounts as the Account Holders may elect in accordance with Clause 4.1 (*General Provisions for the Account*) of this Agreement.

### 3 RECEIPTS AND PAYMENTS

- 3.1 The Account may only be used in accordance with the terms of and for the purposes set out in this Clause 3 (*Receipts and Payments*).
- 3.2 The Account shall be used for receiving, to the extent required by Clause 53 (*Insurance*) of the Project Agreement, the proceeds of all Insurances (as defined in the Project Agreement).
- 3.3 Subject to restrictions set out in this Agreement, the Account shall only be used for applying the proceeds of the insurances in accordance with Clause 53 (*Insurance*) of the Project Agreement either directly or indirectly by way of the reimbursement to the Issuer of costs or expenses incurred or monies paid by it (or on its behalf) in or towards satisfaction of the reinstatement restoration or replacement requirements of that Clause 53 (*Insurance*). In the event that any amount standing to the credit of the Account is not so required to be applied, such amount shall (subject to Clauses 4.3 and 4.5 (*General Provisions for the Agreement*) below) be paid by the Account Bank to the Proceeds Account, or as otherwise instructed by the Security Trustee pursuant to Clause 4.5 below.

### 4 GENERAL PROVISIONS FOR THE ACCOUNT

- 4.1 Subject to Clauses 4.3 and 4.5 below, and provided that:
- 4.1.1 the Account Bank has received notice in writing from two signatories, one of which shall be an authorised signatory of the Issuer and the other an authorised signatory of the Board, as listed under the applicable mandate that such payment is authorised under this Agreement; and
- 4.1.2 no notice has been given to the Account Bank by the Credit Provider prior to the making of such payment or transfer of an Event of Default which is subsisting and the Account Bank has no actual notice that an Event of Default will occur as a result of the making of any such payment or transfer,

the Account Bank agrees that it shall only make payments or transfers from the Account on the request of the Account Holders.

- 4.2 The Board undertakes to provide notice to the Account Bank as prescribed in Clause 4.1.1 for, the purposes of applying any part of the balance standing to the credit of the Account in accordance with Clause 3.3 (*Receipts and Payments*) of this Agreement.

Each of the Account Bank and the Issuer shall be entitled to treat any act of the authorised signatory of the Board as being expressly authorised by the Board and neither the Account Bank nor the Issuer shall be required to determine whether an

express authority has in fact been given.

- 4.3 No payments or transfers from the Account shall be made after an Event of Default which is continuing until the Credit Provider has confirmed to the Account Bank that such payment or transfer may be made except as expressly permitted under this Agreement. The Account Bank shall not be under any obligation to investigate the compliance of any payment with this Agreement.
- 4.4 All amounts withdrawn from the Account for transfer to another account or for application in or towards making a specific payment or meeting a specific liability shall be transferred to that account or applied in or towards making that payment or meeting that liability, and for no other purpose.
- 4.5 Notwithstanding any other provision of this Agreement, at any time following the occurrence of any Event of Default (as defined in Schedule Part 4 (*Funders' Direct Agreement*) of the Project Agreement) which is continuing and has not been waived or remedied, the Security Trustee may at any time give notice to the Account Bank instructing it not to act on the instructions of or at the request of the Issuer in relation to any sums at any such time standing to the credit of the Account. Without prejudice to the foregoing, the Account Bank agrees that it shall pay any amount standing to the credit of the Account and payable to the Issuer in accordance with Clause 3.3 (*Receipts and Payments*) of this Agreement to such a bank account as the Security Trustee shall direct following the occurrence of any Event of Default. The Account Bank agrees that it shall not so act and shall act on the instructions of the Security Trustee in place of the Issuer.
- 4.6 In establishing the balance standing to the credit of the Account at any time, the Account Bank may take into account credits to and withdrawals from such Account which are to be made on such day.

## **5 QUALIFYING BANK**

If at any time the Account Bank ceases to be a Qualifying Bank, the Account Holders shall promptly open or cause to be opened a new account with a Qualifying Bank on the same terms as the Account and the Account Holders shall take all such action as may be required to open the new account.

## **6 CHARGES**

The charges of the Account Bank (if any) for the operation of the Account shall be for the account of the Account Holders in equal amounts and shall be debited from the balance standing to the credit of the Account as from time to time agreed between the Account Bank, the Board and the Issuer.

## **7 MANDATES**

Each of the Account Holders will deliver to the Account Bank on or prior to the date hereof the applicable mandate together with authorised signature lists for both the Issuer and the Board.

## **8 THE ACCOUNT BANK**

- 8.1 The Account Bank may:
- 8.1.1 engage and pay reasonable fees for the advice or services of any lawyers, accountants or other experts whose advice or services may to it seem necessary, expedient or desirable and rely upon any advice so obtained;
  - 8.1.2 rely upon any communication or document believed by it to be genuine and, in particular, rely upon any notice, request or other communication of the Account Holders for the purposes of this Agreement if such notice, request or other communication purports to be signed or sent by or on behalf of an authorised signatory of the Account Holders;
  - 8.1.3 assume that no Event of Default has occurred unless it has actual notice to the contrary; and
  - 8.1.4 assume that all conditions for the making of any payment out of the amount standing to the credit of the Account which is specified in the Project Agreement or any of the Senior Finance Documents has been satisfied, unless it has actual notice to the contrary.
- 8.2 Notwithstanding anything to the contrary expressed or implied herein and subject to Clause 2 (*Insurance Proceeds Account*) of this Agreement, the Account Bank shall not:
- 8.2.1 be bound to enquire as to the occurrence or otherwise of an Event of Default or be affected by notice of any of the same except by reason of and to the extent expressly provided in this Agreement;
  - 8.2.2 be bound to account to any other party hereto for any sum or the profit element of any sum received by it for its own account;
  - 8.2.3 save as provided in this Agreement be bound to disclose to any other person any information relating to any other party hereto;
  - 8.2.4 be under any fiduciary duty towards any other party hereto or under any obligations other than those for which express provision is made in this Agreement;
  - 8.2.5 have any responsibility to ensure that the information set out in any instructions received by it hereunder are correct or to check or enquire as to or otherwise be affected by whether any condition has been or will be met or fulfilled or any instruction is properly given on behalf of the person from whom it purports to be given or any instruction is given properly other than to exercise the bankers duty of care; or
  - 8.2.6 have any responsibility to any party if any instruction which should be given by the Account Holders to the Account Bank under or in connection with this Agreement is for any reason not received by the Account Bank or is not made at the time it should be made.

- 8.3 The Account Bank does not have and does not accept any responsibility for the accuracy and/or completeness of any information (other than statements provided in accordance with Clause 9.2 (*Acknowledgements by the Account Bank*) of this Agreement) and the Account Bank shall not be under any liability as a result of taking or omitting to take any action in relation to the Account, save in the case of negligence or wilful misconduct or breach of its obligations under this Agreement.
- 8.4 Each of the other parties hereto agrees that it will not assert or seek to assert against any director, officer or employee of the Account Bank any claim it might have against the Account Bank in respect of the matters referred to in Clause 8.3 above.
- 8.5 The Account Bank may accept deposits from, lend money to, invest in and generally engage in any kind of banking or other business with the Account Holders, the Shareholders and any other party to any of the Project Documents.
- 8.6 The Account Bank may, at any time, (without assigning any reason therefor) notify the Account Holders in writing that it wishes to cease to be a party hereto as Account Bank (a "**cessation notice**"). Upon receipt of a cessation notice the Account Holders may nominate a Qualifying Bank as a successor to the Account Bank (a "**successor Account Bank**"). If no such nomination is made before the date specified in the cessation notice as being the date on which the Account Bank wishes to cease to be a party hereto (the "**cessation date**") (which date shall be a Business Day falling not less than thirty (30) days after the date of delivery of the cessation notice to the Account Holders) then the Account Bank may nominate a Qualifying Bank as successor Account Bank itself.
- 8.7 If a successor Account Bank is nominated under the provisions of Clause 8.6 above, then on the cessation date, provided the successor Account Bank has executed and delivered to the Account Holders a deed of novation in such form as the Account Holders may require undertaking to become a party to and bound by the terms and conditions of this Agreement and to become a party to such other documents as may be required by the Security Trustee in order to perfect the security created by the Senior Finance Documents:
- 8.7.1 the successor Account Bank shall open on its books at its principal office an account equivalent to that described in Clause 2 (*Insurance Proceeds Account*) of this Agreement and any amounts standing to the credit of the Account shall be transferred to the corresponding one of such account;
- 8.7.2 any reference in the Project Agreement or any Senior Finance Document to the Account shall be deemed to refer to the corresponding account opened pursuant to Clause 8.7.1;
- 8.7.3 the Account Bank shall cease to be a party hereto as Account Bank and shall cease to have any obligation hereunder in such capacity (but without prejudice to any accrued liabilities under this Agreement and its obligations under this Clause 8 (*The Account Bank*)) (but shall remain entitled to the benefit of the provisions of this Clause 8 (*The Account Bank*)); and
- 8.7.4 the successor Account Bank and each of the other parties hereto shall have the same rights and obligations amongst themselves as they would have had if such successor Account Bank had been an original party hereto as Account Bank.

## **9 ACKNOWLEDGEMENTS BY THE ACCOUNT BANK**

- 9.1 Notwithstanding anything to the contrary in any applicable mandate, the Account Bank hereby waives so far as it may validly and lawfully do so any right it has or may hereafter acquire to combine, consolidate or merge the Account with any other account of the Account Bank, Account Holders or the Security Trustee or any other person or with any liabilities of Account Holders or the Security Trustee or any other person to the Account Bank. In addition, the Account Bank agrees so far as it may validly and lawfully do so that it may not set off, combine, withhold or transfer any sum standing to the credit of the Account in or towards satisfaction of any liabilities to the Account Bank of the Account Holders, the Security Trustee or any other person.
- 9.2 After the date hereof and until the Account Bank has been notified by the Account Holders of the termination of the Project Agreement or until the Account Bank ceases to be a party to this Agreement pursuant to the provisions of Clause 8.7 (*The Account Bank*) above, the Account Bank shall provide each of the Account Holders and the Security Trustee with statements in respect of the Account, such statement to be supplied in accordance with any reasonable request therefore by the Account Holders.

## **10 ASSIGNATION**

The Account Holders may not assign any of their rights under this Agreement or in relation to the Account otherwise than pursuant to the Security Documents or as permitted under the Project Agreement. The Security Trustee may assign its rights under this Agreement to a successor Security Trustee appointed in accordance with the Security Trust and Intercreditor Deed and shall promptly give notice of any such assignation to the Account Bank. The Account Bank shall not be entitled to novate (except in accordance with Clause 8.7 (*The Account Bank*) above) or assign all or any part of its rights under this Agreement.

## **11 SECURITY TRUSTEE**

The Security Trustee is party hereto solely for the purpose of receiving the benefits and exercising the rights specifically allocated to it under the terms of this Agreement.

## **12 FURTHER ASSURANCE**

The parties hereto agree that they will co-operate fully to do all such further acts and things and execute any further documents as may be necessary or reasonably desirable to give full effect to the arrangements contemplated by this Agreement, subject to any such party being reimbursed to its satisfaction for any costs, expenses (including VAT) liabilities or fees reasonably incurred by it in the negotiation, preparation or execution of any such further documents.

## **13 AMENDMENTS**

The provisions of this Agreement may not be amended (otherwise than in accordance with the terms hereof) except by written agreement between all the parties hereto.

## **14 NOTICES**

14.1 Each communication to be made hereunder shall be made in writing and, unless otherwise stated, may be made by facsimile or letter delivered by registered post or courier.

14.2 Any communication or document to be made or delivered by one person to another pursuant to or in connection with this Agreement shall (unless that other person has by ten days' written notice to the other specified another address) be made or delivered to that other person at the address set out below identified with its signature below or identified with its signature in any deed of novation and shall be deemed to have been made or delivered:

14.2.1 (in the case of any communication made by letter) when delivered to that address; or

14.2.2 (in the case of any communication by facsimile) when transmission of such facsimile communication has been received in legible form and receipt has been confirmed, and communication verified, by telephone,

provided that (a) if such communication or document would otherwise be deemed to have been received on a day which is not a Business Day it shall be deemed to have been received on the next subsequent Business Day, (b) if any communication is made or document is delivered to the Security Trustee, such communication or document shall be effective only if the same is expressly marked for the attention of the officer identified the Security Trustee, as the case may be, below (or such other officer as the Credit Provider or the Security Trustee, as the case may be, shall from time to time specify for this purpose) and (c) if any communication or document is made or delivered to the Account Bank or the Security Trustee, such communication or document shall be effective only when received by the Account Bank, or the Security Trustee.

14.3 Notice to the Account Bank at any other office than the address shown beside its execution of this Agreement or such substitute address notified in accordance with Clause 14.2 above shall not constitute notice to the Account Bank unless agreed in writing by the Account Bank by reference to this Agreement.

## **15 MISCELLANEOUS**

The parties hereto each acknowledge that the Security Trustee when acting hereunder shall be acting in accordance with and subject to the terms of the Security Trust and Intercreditor Deed.

## **16 GOVERNING LAW AND JURISDICTION**

This Agreement is governed by, and shall be construed in accordance with, Scottish law.

## **17 THIRD PARTY RIGHTS**

Save to the extent expressly provided in this Agreement, it is expressly declared that no rights shall be conferred under and arising out of this Agreement upon any person who is not a party to this Agreement and, without prejudice to the foregoing generality, there shall not be created by this Agreement a jus quaesitum tertio in favour of any person whatsoever.

## SCHEDULE PART 26

## COMMERCIALLY SENSITIVE INFORMATION

Where information or material falls within more than one category identified in column 1 of the table below, it shall be deemed to fall within the category whose corresponding period of confidentiality identified in column 2 of the table below will expire the soonest.

Category of Information/Material	Period for which information is to be kept confidential
Financial Model (as at Financial Close)	From the Effective Date until the date falling two (2) years after the Actual Completion Date
Financial Model (amended from time to time in accordance with this Agreement)	From the date of the relevant Financial Model until the date falling two (2) years after the later of: <ol style="list-style-type: none"> <li>1 the Actual Completion Date; and</li> <li>2 the date on which the amendments to Financial Model are agreed in accordance with this Agreement</li> </ol>
Prices within the Catalogue of Small Works and Services	Period during which the relevant prices are applicable
Small Works and Services Rates	Period during which the relevant Small Works and Services Rates are applicable
Project Co bank account information	Project Term
Project IRR	In the case of the Project IRR contained in the Financial Model as at Financial Close from the Effective Date until the date falling two (2) years after the Actual Completion Date  In the case of the Project IRR contained in the Financial Model as amended from time to time in accordance with this Agreement, from the date of the relevant Financial Model until the date falling two (2) years after the later of: <ol style="list-style-type: none"> <li>3 the Actual Completion Date; and</li> <li>4 the date of the Financial Model containing the relevant information</li> </ol>
Ancillary Documents	Project Term
Funding Agreements	Project Term
Information about Project Co's processes, methodologies, working methods and information relating to the development of new processes and methodologies which amounts to a trade secret or which, if disclosed, could reasonably be considered to provide a commercial advantage to Project	Trade secrets – Project Term  All other cases – five (5) years from the date on which the information is produced to the Board

Co's competitors	
Breakdown of prices within the overall contract price (to the extent not disclosed within the Financial Model)	Project Term
Information on Project Co's costing mechanisms including information obtained from Project Co relating to project risks and pricing of the same and cost information relating to third party contractors and the Sub-Contractors	Project Term
Financial term sheets and related funding information including any funder pricing	Two (2) years from the date on which the information is produced to the Board
Information relating to the appointment of Project Co as the preferred bidder to the Project (including the preferred bidder letter and correspondence and minutes relating to the same)	Until the date falling two (2) years after the Actual Completion Date
Information contained within or relating to Project Co's bid for the Project except as otherwise listed in this Schedule Part 26 ( <i>Commercially Sensitive Information</i> ) or otherwise provided in the Agreement	Until the date falling two (2) years after the Actual Completion Date

**BOARD POLICIES**

The Board Policies are the Board Policies as set out below and as set out on the disc in the Agreed Form identified and executed as the Schedule Part 28 (*Board Policies*) of this Agreement, referred to in and forming part of this Agreement.

<b>Policy Type</b>	<b>Name of Board Policy</b>
<b>Employment</b>	
	Alcohol and substance use
	Dealing positively with stress at work
	Dignity at work
	Facilities Agreement
	Freedom of speech
	Healthcare associated infection: staff screening during incidents and outbreaks
	Management of employee capability
	Management of violence and aggression
	Recruitment guide and Selection Policy
	Social media
	Tobacco policy
	Dress code
<b>Financial</b>	
	Business conduct procedure
<b>Health and Safety</b>	
	Safety Alarm system and emergency response
	Control of contractors
	Fire safety
	First aid
	Health and safety
	Management and control of hot water
	Advance Event Management Policy
	Legionella
	Lone working

	Manual handling
	Pseudomonas
	Waste Disposal
	Window management
<b>Infection Control</b>	
	National Infection Prevention and Control Manual
<b>Information Governance</b>	
	Code of practice on the discharge of functions by public authorities under the Freedom of Information (Scotland) Act 2002
	Confidentiality of personal health information
<b>Business Continuity and Emergency Planning</b>	
	NHSL Reliance – Role and Duties of the Board and Partners
	Business Continuity Tactical Plan: Estates - Hard Facilities Management
<b>Sustainability</b>	
	Carbon management plan
	Sustainable development strategy

## SCHEDULE PART 29

## PLANNING

## PART 1

## PLANNING CONDITION RESPONSIBILITIES

For the purposes of this Schedule Part 29 (*Planning Condition Responsibilities*):

"AMSC" means application for approval of matters specified in conditions;

"Council" or CEC" means the City of Edinburgh Council;

"Enabling Works" means the flood protection works, road infrastructure works, vacuum insulated evaporator relocation works, link building works, service diversion works, sewer diversion works, clinical facilities works and the off-site flood protection works, as more fully described in paragraph 4.3 of the Board's Construction Requirements.

"PPiP or PPP" means planning permission in principle.

The planning condition responsibilities for each party are identified in the table below:

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
1	<p><b>Specified Matters to be Approved</b></p> <p>Prior to the commencement of works on site and excluding the enabling road works detailed in condition 2 below, details of the following under-noted matters, shall be submitted and approved by the planning authority in the form of a detailed layout of the site (including landscaping and car parking), and detailed plans, sections and elevations of the building(s) and all other structures:</p>		Project Co. (with the exception of the agreed Enabling Works)	Project Co. with the exception of the Enabling Works.
	(a) The precise location and extent of the various hospital and ancillary uses;	✓		Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
				Council on 27.08.14. This condition is discharged by grant of such AMSC which addresses this issue
(b)	Siting, design and height of individual developments, including design of all external features and glazing specifications (including acoustic capabilities), all external materials and finishes, including their colour;	✓	Project Co.	<p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14.</p> <p>Planning Permission progressed (Ref: 14/03599/AMC): Project Co. application for flu stack at Energy Centre associated with Condition 19b of PPP Planning (Ref:11/02454/PP). This condition is discharged by grant of 14/01796/AMC</p>
(c)	The design and configuration of all external spaces including internal courtyard and roof areas, demonstrating the extent and means of public access, details and extent of green roofs, and details of subsequent maintenance;		Project Co.	<p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14.</p> <p>The internal courtyards will be the subject of a further AMSC application for internal courtyards by Project Co. to be lodged with the planning authority prior to 05 April 2015.</p>
(d)	Details of alternative transport arrangements for passenger service vehicles;	✓	The Board	As a result of the legal agreement associated with the PPIp (in particular in relation to flood prevention) a separate detailed application (12/00479/FUL) was approved on 04.06.12 following the conclusion of the Section 75 legal agreement) relating to revised access and public transport arrangements to allow for the Enabling Works to commence outwith the context of the PPIp. Discussions with the Council have suggested that decision 12/00479/FUL can be regarded as having

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
				<p>addressed this condition. Formal confirmation presently being sought in this regard.</p> <p>Correspondence circulated dated 9 September 2014 from CEC confirming that the planning permission 12/00479/FUL satisfies the requirements of condition 2(i), 3 and 4 of 11/02454/PPP (and consequently 1d) and that no further AMSC application is required in this regard (in response to the Board's letter dated 25 June, previously circulated to Project Co.).</p>
(e)	Details of car, cycle and motor cycle parking including location, design and access arrangements including details of ticket machines and access barriers, details of intended use and car park management;	✓	Project Co. with the exception of the Enabling Works.	<p>Project Co. with the exception of the Enabling Works.</p> <p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14. This condition is discharged by grant of 14/01796/AMC.</p>
(f)	Details of road layouts, footpaths and cycle routes including existing and finished ground levels in relation to Ordnance Datum; and details of the location and design of pedestrian crossing facilities;	✓	Project Co. with the exception of the Enabling Works.	<p>Project Co. with the exception of the Enabling Works.</p> <p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14. This condition is discharged by grant of 14/01796/AMC</p>
(g)	<p>Hard and soft landscaping details which shall include:</p> <p>(i) Existing and finished ground levels in relation to Ordnance Datum;</p> <p>(ii) Layout and design, including walls, fences, gates and any other boundary treatments;</p>	✓	Project Co. with the exception of the (i) Enabling Works and (ii) the pro-	Project Co. with the exception of the (i) Enabling Works and (ii) the proposed landscaping between the Orange Area and the RIE Facilities as delineated in red diagonal hatching on the Landscape Site Plan (drawing number HLM-Z0-00-PL-700-020) Rev 11 dated

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments

	(j) Sustainability details in the form of an overall strategy and site specific details demonstrating how the hospital and associated developments shall meet or exceed the Edinburgh Standards for Sustainable Building (2010) or the equivalent standard at the time of submission;	✓	Project Co.	<p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14.</p> <p>Full 14/01797 contains detail re area outwith PPP application site.</p>
	(k) A detailed lighting strategy for the development including details demonstrating that light pollution and associated	✓	Project Co.	Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
	impacts on ecology have been minimised in line with the Environmental Statement and have been designed along of Secure by Design principles;			Council on 27.08.14.
(l)	Further details of noise attenuation and air quality measures in relation to the various uses;	✓	Project Co.	Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14.
(m)	The detailed siting and design of the rooftop helipad including details of night time lighting.		Project Co.	AMSC application in respect of the helipad to be submitted to the planning authority for approval prior to 05 April 2015.
	<i>Reason: In order to accord with the statutory requirements of the Town and Country Planning (Scotland) Acts.</i>			
2	<p><b>Revisions to the Enabling Road Works</b></p> <p>In terms of the enabling road works itemised A - E shown on the road layout reference drawing AT/209592/x(90)x/02 and the accompanying cycle track drawing SK 070 Issue I2 the following further revisions and further submission requirements shall apply:</p>	✓	The Board & Project Co.	<p>As a result of the legal agreement associated with the PPIp (in particular in relation to flood prevention) a separate detailed application (12/00479/FUL) was approved on 04.06.12 following the conclusion of the Section 75 legal agreement) relating to revised access and public transport arrangements to allow for the Enabling Works to commence outwith the context of the PPIp. Discussions with the Council have suggested that decision 12/00479/FUL can be regarded as having addressed this condition. Formal confirmation presently being sought in this regard.</p> <p>Correspondence circulated dated 9 September 2014 from CEC confirming that the planning permission 12/00479/FUL satisfies the requirements of condition 2(i), 3 and 4 of 11/02454/PPP (and consequently 1d) and that</p>

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
				<p>no further AMSC application is required in this regard (in response to the Board's letter dated 25 June previously circulated to Project Co)</p> <p>D (Hospital Square) and E (A&amp;E drop off) - temporary arrangements will have been approved and will be in place (as approved in the application for the Link Building) but Project Co will be responsible for delivering the final design solution.</p>
	<p>(i) Items A and C are not approved and a revised plan shall be prepared as part of a further application for Approval of Matters (AMC) as detailed in condition 1 part (d) above. Further consultation shall be undertaken with the planning authority and relevant consultees to consider the various pedestrian and vehicular movements including servicing and emergency movements and matters relating to landscaping and public realm. These shall be considered in a comprehensive manner and the potential for more direct vehicular connections to the public car parks thereby avoiding the bus terminus shall be explored and where practicable incorporated into the finalised design. The design shall include full details of lighting, pedestrian crossings, bus stop and any associated layover facilities, detailed junction arrangements, vehicular access and egress arrangements for the adjacent MS Centre, landscaping, SUDS and associated construction details;</p>	✓	The Board	<p>As a result of the legal agreement associated with the PPIP (in particular in relation to flood prevention) a separate detailed application (12/00479/FUL) was approved on 04.06.12 following the conclusion of the Section 75 legal agreement) relating to revised access and public transport arrangements to allow for the Enabling Works to commence outwith the context of the PPIP. Discussions with the Council have suggested that decision 12/00479/FUL can be regarded as having addressed this condition.</p> <p>Formal confirmation presently being sought in this regard.</p> <p>Correspondence circulated dated 9 September 2014 from CEC confirming that the planning permission 12/00479/FUL satisfies the requirements of condition 2(i), 3 and 4 of 11/02454/PPP (and consequently 1d) and that no further AMSC application is required in this regard (in response to Project Co's letter dated 25 June previously circulated to Project Co.)</p>

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
	(ii) Item B relating to the cycle track is approved subject to the prior written agreement by the Head of Planning of details of lighting, SUDS, landscaping and associated construction details;	✓	The Board / Project Co.	<p>The Cycle Path Works shall be the responsibility of Project Co. with the route through the Site.</p> <p>The Board shall be responsible for the remainder of the cycle path route.</p> <p>The condition shall be discharged on completion of the entire cycle path link. Project Co. proposals submitted and approved with 14/01796/AMC, including lighting details.</p>
	(iii) Items D and E shall form part of a further application for Approval of Matters (AMC) as detailed in condition 1 parts (e) and (f) above;	✓	The Board / Project Co.	<p>D (Hospital Square) and E (A&amp;E drop off) – It is understood that temporary arrangements will be in place (as approved in the application for the Link Building) but that Project Co. shall be responsible for delivering the final design solution.</p> <p>Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14</p>
	Following detailed approval in accordance with the requirements specified above, the enabling road works items A-E shall be implemented in accordance with the timescales specified in condition 3 below and with the details shown on the accompanying phasing drawing AT/209592/x(90)x/01.		The Board/ Project Co.	Project Co. and the Board should keep the Council advised of phasing in relation to elements D and E (Hospital Square and A&E parking) as appropriate. Project Co. in relation to the design solution, the Board in relation to implementation.
	<b>Reasons:</b> In order for the details to be submitted to and approved for the development			

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
3	<p><b>Implementation in accordance with Phasing Drawing</b></p> <p>The items referred to on the approved phasing drawing AT/209592/x(90)x/01 relate to the further approval of matters specified in conditions 1 and 2 and matters contained in the legal agreement for the development. Following approval, the individual parts of the development shall be implemented solely in accordance with the approved phasing drawing or such other drawing which shall be submitted to and approved in writing by the Head of Planning.</p> <p>For the avoidance of doubt, no works involving the stopping up of Little France Crescent shall take place until the enabling road works specified in items A and C on the road layout reference drawing AT/209592/x(90)x/02 have first been approved in terms of conditions 1 and 2 and those works having first been constructed and certified in writing by the Head of Planning as being completed and open for use by two way bus and general traffic.</p> <p><i>Reason: To ensure that the works required to accommodate the new hospital on the existing RIE site are completed in a timely manner as part of the development.</i></p>	✓	The Board	<p>This condition requires the various Enabling Works, including revised public transport arrangements to be in place, allowing for a phased development.</p> <p>As a result of the legal agreement associated with the PPIp (in particular in relation to flood prevention) a separate detailed application (12/00479/FUL) was approved on 04.06.12 following the conclusion of the Section 75 legal agreement) relating to revised access and public transport arrangements to allow for the Enabling Works to commence outwith the context of the PPIp. Discussions with the Council have suggested that decision 12/00479/FUL can be regarded as having addressed this condition. Formal confirmation presently being sought in this regard. Item A (revisions to the loop road) and C (revised bus infrastructure), as referred to in this condition, are dealt with by the above application.</p> <p>An Order in relation to the Stopping Up of Little France Crescent was made on 15 May 2013 and Confirmed on 20 November 2013.</p> <p>Correspondence circulated dated 9 September 2014 from CEC confirming that the planning permission 12/00479/FUL satisfies the requirements of condition 2(i), 3 and 4 of 11/02454/PPP (and consequently 1d) and that no further AMSC application is required in this regard (in response to the Board's letter dated 25 June previously circulated to Project Co.)</p>

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
4	<p><b>Approval of Detailed Landscape Proposals</b></p> <p>In terms of landscape details for the site wide road works referred to and itemised A - C in condition 2, the further submissions shall comprise a fully detailed landscape plan, including details of all hard and soft surface and boundary treatments and all planting. The total amount of replacement planting shall as far as practicable reflect the overall loss of existing tree cover to be generated by the road enabling works, currently estimated at approximately 458 trees or thereby. The approved landscaping scheme shall be fully implemented within six months of the completion of the road works, [and thereafter shall be maintained by the applicants and/or their successors to the entire satisfaction of the planning authority; maintenance shall include the replacement of plant stock which fails to survive, for whatever reason, as often as is required to ensure the establishment of the approved 4 landscaping scheme.]</p> <p><i>Reason: In order to ensure that a high standard of landscaping is achieved, appropriate to the location of the site.</i></p>	✓	The Board	<p>As a result of the legal agreement associated with the PPIp (in particular in relation to flood prevention) a separate detailed application (12/00479/FUL) was approved on 04.06.12 following the conclusion of the Section 75 legal agreement) relating to revised access and public transport arrangements to allow for the Enabling Works to commence outwith the context of the PPIp. Discussions with the Council have suggested that decision 12/00479/FUL can be regarded as having addressed this condition.</p> <p>Correspondence circulated dated 9 September 2014 from CEC confirming that the planning permission 12/00479/FUL satisfies the requirements of condition 2(i), 3 and 4 of 11/02454/PPP (and consequently 1d) and that no further AMSC application is required in this regard (in response to the Board's letter dated 25 June previously circulated to Project Co. )</p> <p>In relation to the planting on site, Project Co. shall be liable for 2 years post Actual Completion, thereafter the Board take full responsibility.</p>
	<p>...and thereafter shall be maintained by the applicants and/or their successors to the entire satisfaction of the planning authority; maintenance shall include the replacement of plant stock which fails to survive, for whatever reason, as often as is required to ensure the establishment of the approved 4 landscaping scheme.</p>	Compliance	The Board	The Board are liable for the two (2) year liability period and responsibility thereafter.
5	<b>Maximum Building Heights</b>	✓	Project Co.	Details provided in AMSC 14/01796/AMC

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
	<p>The finished building heights for the development to be submitted and agreed as matters in condition 1(b) shall be substantively in accordance with the massing drawing NA/10727/L(100)G/06.</p> <p><i>Reason: In order to ensure that the impact of the development accords with the details shown in the Environmental Statement.</i></p>			progressed by Project Co. as approved by the Council on 27.08.14.
6	<p><b>Rooftop Helipad</b></p> <p>The height and position of the rooftop helipad to be submitted and agreed as matters 1 (a) - (c) shall be substantively in accordance with the massing drawing NA/10727/L(100)G/06 which demonstrates the proximity of the helipad to residential properties on Old Dalkeith Road.</p> <p><i>Reason: In order to safeguard the amenity of neighbouring residents and other occupiers</i></p>		Project Co.	AMSC application in respect of helipad to be submitted to the planning authority for approval prior to 05 April 2015. Work in progress.
7	<p><b>Gross Internal Area</b></p> <p>The maximum Gross Internal Area of the new hospital including basement accommodation and enclosed plant rooms at roof level but excluding the separate energy centre, shall be limited to a maximum of 48,500 square metres.</p> <p><i>Reason: In order to ensure that the impact of the development accords with the details shown in the Environmental Statement</i></p>	✓	Project Co.	Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14.
8	<p><b>Compliance with Environmental Statement</b></p> <p>The development shall be constructed and thereafter operated in</p>	Compliance	Project Co.	

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
	<p>accordance with the details set out in the Environmental Statement dated July 2011 and in the accompanying Addendums dated August and October 2011.</p> <p><i>Reason: In order to ensure that the impact of the development accords with the details shown in the Environmental Statement</i></p>			
9	<p><b>Construction Environmental Management Plan</b></p> <p>Prior to the commencement of the development hereby permitted a detailed Construction Environmental Management Plan shall be submitted to and approved in writing by the Head of Planning dealing with the mitigation of construction impacts as detailed in the Environmental Statement dated July 2011 including but not limited to the air quality mitigation detailed in section 6.9 of the Environmental Statement. Thereafter the construction works shall be carried out in accordance with the approved details.</p> <p><i>Reason: In order to enable the Head of Planning &amp; Building Standards to consider this/these matter/s in detail</i></p>	✓	Project Co.	Details provided in AMSC 14/01796/AMC progressed by Project Co. as approved by the Council on 27.08.14. Condition discharged by grant of 14/01796/AMC
10	<p><b>Programme of Archaeological Works</b></p> <p>No development shall take place on the site identified in blue on the site plan drawing NA / 10727 / L(100)G/02 Rev P2 for the new hospital or any amended site boundary plan agreed either in writing by the Head of Planning or as part of a future approval of matters submission until the applicant has secured the implementation of a programme of archaeological work (excavation, analysis &amp; reporting, publication) in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority</p> <p><i>Reason: In order to enable the Head of Planning &amp; Building Standards to consider this/these matter/s in detail</i></p>	✓	The Board	<p>WSI's have been agreed between consultants acting on behalf of the Board (AOC Archaeology) and the City Archaeologist 17 December 2013 in relation to this condition 10, and subsequently 14 April 2014 (in relation to the on Site flood works – condition 2(i))</p> <p>Condition superseded by equivalent condition on 14/01796/AMC approval.</p> <p>Letter obtained by Board from CEC agreeing to revised written scheme of investigation and watching brief and confirms development can take place.</p>

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
11	<p><b>SI for Contaminants and Risk Assessment</b></p> <p>i) Prior to the commencement of construction works on site:</p> <p>a) A site survey (including intrusive investigation where necessary) must be carried out to establish to the satisfaction of the Head of Planning and Building Standards, either that the level of risk posed to human health and the wider environment by contaminants in, on or under the land is acceptable, or that remedial and/or protective measures could be undertaken to bring the risks to an acceptable level in relation to the development; and</p> <p>b) Where necessary, a detailed schedule of any required remedial and /or protective measures, including their programming, must be submitted to and approved in writing by the Head of Planning and Building Standards.</p> <p>ii) Any required remedial and/or protective measures shall be implemented in accordance with the approved schedule and documentary evidence to certify those works shall be provided to the satisfaction of the Head of Planning and Building Standards.</p> <p><i>Reason: In order to ensure that the site is suitable for redevelopment, given the nature of previous uses/processes on the site.</i></p>	✓	Project Co. 12	<p><b>Compliance with NR25 Noise Standard</b></p> <p>The design and installation of any plant, machinery or equipment shall be such that any associated noise complies with NR25 when measured within any nearby living apartment, and no structure borne vibration is perceptible within any nearby living apartment.</p>	Compliance	Project Co.	Compliance.

Item	Planning Condition in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
	<i>Reason: In order to safeguard the amenity of neighbouring residents and other occupiers.</i>			

Item	Informatives in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
1(a)	Application for the approval of matters specified in conditions shall be made before the expiration of 5 years from the date of the grant of planning permission in principle, unless an earlier application for such approval has been refused or an appeal against such refusal has been dismissed, in which case application for the approval of all outstanding matters specified in conditions must be made within 6 months of the date of such refusal or dismissal.		The Board / Project Co. as appropriate as per above	Note: Board legal advice has confirmed that the statutory time period for the grant of planning permission (i.e. 3 years) continues to apply given that no formal direction was issued by the Council in seeking to extend the time periods.  All applications for the Approval of Matters Specified in Conditions will be submitted by 05 April 2015.
1(b)	The approved development shall be commenced not later than the expiration of 5 years from the date of grant of planning permission in principle or 2 years from the final approval of matters specified in conditions, whichever is later.		The Board/ Project Co. as appropriate as per above	
2	No development shall take place on the site until a 'Notice of Initiation of Development' has been submitted to the Council stating the intended date on which the development is to commence. Failure to do so constitutes a breach of planning control, under Section 123(1) of the Town and Country Planning (Scotland) Act 1997.	✓	The Board	Project Co. will issue a NID for the PPP application, following discharge of the pre-start planning conditions in the week beginning 19 January 2015.

Item	Informatives in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
3	As soon as practicable upon the completion of the development of the site, as authorised in the associated grant of permission, a 'Notice of Completion of Development' must be given, in writing to the Council.		The Board/ Project Co. as appropriate as per above	
4	<p>Please refer to the final response from the Head of Transport dated 16 November 2011 for detailed requirements for the design and construction and subsequent operation of roads, footpaths and cycle tracks to be formed as part of the development including requirements for separate approval under Road Construction Consent. In terms of that response please note that the extent of adoptable roads and the justification for the placement and design of individual pedestrian crossings requires to be submitted for the prior agreement of the Head of Transport in line with the timescales set out in the response.</p> <p>In terms of traffic orders, no development shall commence on site until relevant traffic orders have been promoted and concluded for the roads and footpaths affected by the development, including but not exclusively for the permanent stopping up of Little France Crescent to allow for the construction of the new hospital on Car Park B, linking with the existing Royal Infirmary of Edinburgh Accident and Emergency Department. These shall be progressed under Sections 207 and 208 of the Town and Country Planning (Scotland) Act 1997 or the appropriate amended legislation at the time of application.</p>	✓	The Board	<p>Applications for road construction consents are being progressed by Consort's contractors.</p> <p>An Order in relation to the Stopping Up of Little France Crescent was made by the Board on 15 May 2013 and Confirmed on 20 November 2013</p> <p>The Council confirmed in e-mail correspondence 6 March 2014 that no stopping up of the existing established cycle route was required, to allow for its relocation.</p>
5A	<p>Vehicles</p> <p>The developer shall investigate the installation of electric vehicle charging points for service vehicles associated with the development with reference to Making the Connection - The Plug-in Vehicle Infrastructure Strategy, Office for Low Emission Vehicles (June 2011)</p>		Project Co. (the Board may also have a role in this respect).	<p>Superseded by equivalent Condition attaching to approval of 14/01796/AMC</p> <p>Project Co. to make a proposal.</p> <p>Supplemented by Informative 1 of this Planning Condition.</p>

Item	Informatives in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application	Condition satisfied	Party responsible	Comments
5B	Energy Centre  (i) Any chimney serving the emergency generators for the energy centre should terminate at the same point as the Gas CHP chimney.	✓	Project Co. (the Board may also have a role in this respect).	Discharged by approval of 14/03599/AMC
	(ii) A note should be made in the log book of the periods during which any standby boiler or furnace is fired or any alternative fuel is used.	Compliance	The Board	Operational issue
6	The applicant has indicated a willingness to enter into a Good Neighbour Agreement for the development		The Board	The Board shall commit to and implement a Good Neighbour Agreement. Project Co. input provided through PCPs.
7	For the avoidance of doubt, although the reference design presented for Planning Permission in Principle (PPP) demonstrates that the proposals can in principle be accommodated on the site, the various design and critical adjacency issues require to be further analysed in a comprehensive manner in advance of a future submission for Approval of Matters (AMC). To assist this process, it is recommended that a further design exercise is undertaken involving the applicant, the final appointed design team, Architecture and Design Scotland who commented on previous iterations of the reference design and representatives of CEC planning.	✓	Project Co.	Condition discharged by grant of applications 14/01796/AMC, 14/1797/FUL and 14/03599/AMC.
8	A legal agreement has been concluded in respect of this application and is available to view on the Council website		Board	

Item	Summary of Planning Obligation (Section 75 agreement of the Town and Country Planning (Scotland) Act 1997) in relation to PPP Planning (Ref:11/02454/PP): Site and Off-Site planning application.	Condition satisfied	Party responsible	Comments
3.1	<p><b>Flood Management Work</b></p> <p>Before any work is begun on site, a scheme outlining flood mitigation and management measures is to be submitted to the City of Edinburgh Council for approval, to include details of the works, maintenance and any third party land required for implementation. The City of Edinburgh Council can ask for additional information if needed, but if not approved then the matter can be referred to an arbitrator (or you may rely upon the parallel right of appeal to the Scottish Ministers, since the same information must be approved in terms of a planning condition attached to the permission).</p> <p>No work can be undertaken until the scheme is approved and all third party land rights have been secured. If this is not done, then the City of Edinburgh Council can revoke the permission with no compensation payable. However, this is not considered to be unduly onerous, as planning permission would in any event expire if not lawfully implemented in accordance with the requirement to secure the flood mitigation works.</p>	✓	The Board	<p>Pre-commencement requirement. Works being progressed by the Board (TAWO 156).</p> <p>Draft Flood Management scheme dated 31 August 2012. E-mail approval Stephen Haydock  <span style="background-color: black; color: black;">[REDACTED]</span>            Sent: 10 January 2013 14:54</p> <p>Application for Planning Permission 14/01810/FUL progressed by the Board in relation to the development of off-site flood defences. 1	<p>A detailed specification, including trade names where appropriate, of all the proposed external materials shall be submitted to and approved in writing by the Planning Authority within 6 months of the date of this consent; Note: samples of the materials will be required.</p> <p><i>Reason: In order to enable the planning authority to consider this/these matter/s in detail.</i></p>		Project Co.	Trade names and samples to be submitted to CEC Planning prior to 27 February 2015 for approval. Any change to materials samples post approval to be agreed with CEC Planning.
2	<p>No development shall take place on the site until the applicant has secured the implementation of a programme of archaeological work (excavation, analysis &amp; reporting, publication) in accordance with a written scheme of investigation which has been submitted by the applicant and approved by the Planning Authority.</p> <p><i>Reason: In the interests of cultural heritage.</i></p>		The Board	See Condition 10 of the PPP.
3	<p>No development shall take place on site until details have been submitted and approved by SEPA and City of Edinburgh Council's Flood Prevention Unit regarding that the methodology for the dewatering of the excavation.</p> <p><i>Reason: In the interests of flood prevention.</i></p>		Project Co.	Dewatering methodology with CEC Flood Risk & Planning and SEPA. To be discharged in week beginning 19 January 2015.
4	<p>The approved landscaping scheme shall be fully implemented within six months of the completion of the development. Any trees or plants which within a period of five years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced with others of a size and species similar to those originally required to be planted, or in accordance with such other scheme as may be submitted to and approved in writing by the Planning Authority.</p>	Compliance	Project Co.	Project Co. will be responsible for the two (2) year maintenance liability period with the Board responsible thereafter.

Item	Planning Condition in relation to AMSC Planning (Ref:14/01796/AMC): Project Co application in relation to the detail of the Facilities	Condition satisfied	Party responsible	Comments
	<i>Reason: In order to ensure that the approved landscaping works are properly established on site.</i>			
5	<p>The approved landscaping scheme for the bund on the southern boundary of the site adjacent to Little France Mills shall be fully implemented within six months of the completion of the development. Any trees or plants which within a period of five years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced with others of a size and species similar to those originally required to be planted, or in accordance with such other scheme as may be submitted to and approved in writing by the Planning Authority.</p> <p><i>Reason: In the interests of residential amenity.</i></p>	Compliance	Project Co.	Project Co. will be responsible for the two (2) year maintenance liability period with the Board responsible thereafter.
6	<p>Deliveries and vehicle movements to the service yard shall be restricted to between the hours of 0700 and 2300.</p> <p><i>Reason: In the interests of residential amenity.</i></p>	Compliance	The Board	The Board's position in this respect has been clarified to the Council i.e. exclusions of emergency vehicles.

Item	Informatives in relation to (Ref:14/01796/AMC): Project Co. application in relation to the detail of the Facilities	Condition satisfied	Party responsible	Comments
1	<p>The developer should seek to install electric car charging points to the following specification:</p> <p>70 or 50kW (32 Amp) DC with 43kW (32 Amp) AC unit. DC charge delivered via both JEVS G105 and 62196-3 sockets, the AC supply by a 62196-2 socket. Must have the ability to be de-rated to supply 25kW to any two of the three outlets simultaneously.</p>	Compliance	Project Co.	The Board's Construction Requirements refer to these.

Item	Informatives in relation to (Ref:14/01796/AMC): Project Co. application in relation to the detail of the Facilities	Condition satisfied	Party responsible	Comments
2	The floodlighting system shall be so controlled so there is no direct illumination of neighbouring land, and so that any light spillage onto neighbouring land shall not exceed 25 lux.		Project Co.	Note that this is assumed to be 'lighting' generally as there are no floodlights.
3	The design, installation and operation of any plant, machinery or equipment shall be such that any associated noise complies with NR25 when measured within any nearby living apartment.		Project Co.	
4	The proposed cycle track and works to Little France Crescent must be open for use by the public in terms of the statutory definition of 'road' and will require to be the subject of applications for road construction consent (RCC). Such application to include extent of adoptable roads, bus stops / stances, footways, footpaths, accesses, cycle tracks, verges and service strips along with details of lighting, drainage, signs and markings, SUDs, materials, structures, layout, design and specification and proposed improvements works as appropriate. Clear identification of adoptable areas should be agreed as early as possible.		Project Co.	
5	No development to commence on site until relevant traffic orders have been promoted and implemented for the roads, footways etc. affected by the development, including the stopping up of Little France Crescent to allow for the construction of the new hospital. These are to be progressed under Sections 207 and 208 of the Town and Country Planning (Scotland) Act 1997 as amended and have been consented under a separate planning application.		The Board	
6	All disabled persons parking places should comply with Disabled Persons Parking Places (Scotland) Act 2009. The applicant should therefore advise the Head of Transport if he wishes the bays to be enforced under this legislation. A contribution of £2,000 will be required to progress the necessary traffic order. All disabled		The Board	This is covered by Section 75 Agreement.

Item	Informatives in relation to (Ref:14/01796/AMC): Project Co. application in relation to the detail of the Facilities	Condition satisfied	Party responsible	Comments
	persons parking places must comply with Traffic Signs Regulations and General Directions 2002 regulations or British Standard 8300:2009 as approved by the Head of Transport.			
7	<p>It should be noted that if the applicant is seeking the Council to promote traffic regulation orders, the following contributions will be sought to:</p> <p>a. fund the progression of traffic orders including those to re-determine sections of road, introduce waiting and loading restrictions at appropriate locations, introduce taxi ranks, disabled parking and stopping up orders as necessary at no cost to the Council. Note that any objections to any traffic orders will require to be considered by the Transport and Environment Committee of this Council and therefore no guarantee can be given that orders can be successfully implemented. A contribution of £2,000 per order will be required;</p> <p>b. provide real time bus infrastructure to serve the development;</p> <p>c. submit a draft travel plan prior to first occupation and a final travel plan within 12 months of that date.</p>		The Board	This is covered by Section 75 Agreement.
8	For clarification purposes, no approval is given to the location or details of the flue stack.	✓	Project Co.	<p>Planning Condition in relation to the detailed Planning Permission (Ref: 14/03599/AMC): Project Co. application for flue stack at Energy Centre associated with Condition 19 b of PPP Planning (Ref:11/02454/PP). 1	<p>The proposed cycle track and works to Little France Crescent must be open for use by the public in terms of the statutory definition of 'road' and will require to be the subject of applications for road construction consent ("<b>RCC</b>"). Such application to include extent of adoptable roads, bus stops / stances, footways, footpaths, accesses, cycle tracks, verges and service strips along with details of lighting, drainage, signs and markings, SUDs, materials, structures, layout, design and specification and proposed improvements works as appropriate. Clear identification of adoptable areas should be agreed as early as possible.</p>	Compliance	Project Co.	
2	<p>No development to commence on site until relevant traffic orders have been promoted and implemented for the roads, footways etc affected by the development, including the stopping up of Little France Crescent to allow for the construction of the new hospital. These are to be progressed under Sections 207 and 208 of the</p>	N/A	Project Co.	<p>None required.</p> <p>Little France Crescent Stopping Up Order 2013 PO/13/2 was approved 22 November 2013.</p>

Item	Informatives in relation to the detailed Planning Permission (Ref:14/01797/FUL): Project Co. application for landscaping and parking proposals	Condition satisfied	Party responsible	Comments
	Town and Country Planning (Scotland) Act 1997 as amended and have been consented under separate planning application.			
3	All disabled persons parking places should comply with Disabled Persons Parking Places (Scotland) Act 2009. The Act places a duty on the local authority to promote proper use of parking places for disabled persons' vehicles. The applicant should therefore advise the Head of Transport if he wishes the bays to be enforced under this legislation. A contribution of £2,000 will be required to progress the necessary traffic order. All disabled persons parking places must comply with Traffic Signs Regulations and General Directions 2002 regulations or British Standard 8300:2009 as approved by the Head of Transport.	Compliance	Project Co.	Covered by the S75 Agreement (May 2012).
4	<p>Planning permission should not be granted until the applicant has entered into a suitable legal agreement to:</p> <p>a) fund the progression of traffic orders including those to re-determine sections of road, introduce waiting and loading restrictions at appropriate locations, introduce taxi ranks, disabled parking and stopping up orders as necessary at no cost to the Council.</p> <p>Note that any objections to any traffic orders will require to be considered by the Transport and Environment Committee of this Council and therefore no guarantee can be given that orders can be successfully implemented. A contribution of £2,000 per order will be required;</p> <p>b) provide real time bus infrastructure to serve the development.</p>	N/A	The Board	<p>Already covered in PPP application- see note 4 on Full Consent.</p> <p>Covered by the S75 Agreement (May 2012).</p> <p>Previously agreed that this was covered in the PPP application and was not therefore required.</p>
5	The development hereby permitted shall be commenced no later than the expiration of three years from the date of this consent.	Compliance	Project Co.	

Item	Informatives in relation to the detailed Planning Permission (Ref:14/01797/FUL): Project Co. application for landscaping and parking proposals	Condition satisfied	Party responsible	Comments
6	No development shall take place on the site until a 'Notice of Initiation of Development' has been submitted to the Council stating the intended date on which the development is to commence. Failure to do so constitutes a breach of planning control, under Section 123(1) of the Town and Country Planning (Scotland) Act 1997.	Compliance	Project Co.	
7	As soon as practicable upon the completion of the development of the site, as authorised in the associated grant of permission, a 'Notice of Completion of Development' must be given, in writing to the Council.	Compliance	Project Co.	

Item	Planning Condition in relation to the detailed Planning Permission (Ref: 14/03599/AMC): Project Co. application for flue stack at Energy Centre associated with Condition 1 b of PPP Planning (Ref:11/02454/PP).	Condition satisfied	Party responsible	Comments
------	--	---------------------	-------------------	----------

No conditions imposed by the planning authority.

N/A

N/A

No conditions imposed by the planning authority.

Item	Informatives in relation to Planning Condition in relation to the detailed Planning Permission (Ref: 14/03599/AMC): Project Co. application for flue stack at Energy Centre associated with Condition 1 b of PPP Planning (Ref:11/02454/PP).	Condition satisfied	Party responsible	Comments
1	Any relevant alterations to the plan will require the chimney height to be recalculated. A note should be made in the log book of the periods during which any standby boiler or furnace is fired or any alternative fuel is used. Furthermore the construction or alteration of a chimney and/or the installation of a furnace or other heat producing appliance whether by way of new work or by way of replacement requires approval under the provisions of the Building Regulations.	Compliance	The Board	

## PART 2

## PLANNING APPROVAL

The Planning Approval is the Planning Approval as set out below and as set out on the disc in the Agreed Form identified and executed as Part 2 (*Planning Approval*) of Schedule Part 29 (*Planning*) of this Agreement, referred to in and forming part of this Agreement.

Reference number	Date	Description
11/02454/PPP	Dated 5 <sup>th</sup> April 2012	PPP decision in relation to the Site and Off Site Works application
11/02454/PPP	Dated 30 <sup>th</sup> March 2012	Associated Legal Agreement
14/00078/AMC	Dated 10 <sup>th</sup> April 2014	AMSC decision in relation to the on site flood application
14/01796/AMC	Dated 28 <sup>th</sup> August 2014	AMSC decision in relation to the detail of the facilities
14/01797/AMC	Dated 23 <sup>rd</sup> September 2014	AMSC decision in respect of landscaping and parking proposals
14/03599/AMC	Dated 6 <sup>th</sup> November 2014	AMSC decision in relation to the Flue Stack
14/01797/FUL	Dated 15 <sup>th</sup> January 2015	Letter of discharge of a planning condition number 2 on consent notice 14/01797/FUL in relation to the ground contamination report for the petrol filling station.

**SCHEDULE PART 30**

**BOARD WORKS**

**Section 1**

**Board Enabling Works**

**"Flood Protection Enabling Works"** means the works being separately procured by the Board to meet current flood design criteria for hospitals expressed as a 1:1000 year flood event at the Campus Site.

**"Link Building Enabling Works"** means the works being separately procured by the Board to create a new build extension to the RIE Facilities to allow the Facilities to tie into the existing RIE Facilities at ground and first floor levels.

**"PTS Enabling Works"** means the works being separately procured by the Board in relation to the provision of the power requirements for the PTS as follows:

- (1) to supply, install and commission the cable and the 8 way (three phase & neutral) distribution board to the second floor plantroom to be fed from section board (spare way reference 52C/1L); and
- (2) to supply, install and commission the cable and the switched fused connection unit fed from distribution board reference DB-6-2 D-A to the ground floor pharmacy department within the RIE Facilities.

**"Sewer Diversions Enabling Works"** means the works being separately procured by the Board to clear as far as is possible the Site of existing sewers (namely the Little France/Niddrie sewer and the south eastern relief sewer) for the construction of the Facilities. New sewers are to be 1050mm and 1200mm diameter and shall comprise precast concrete pipes.

**"Services Diversions Enabling Works"** means the works being separately procured by the Board to divert all live services serving the RIE Facilities, and which are under the Site to a location outwith the Site. In respect of electric, data and gas services and sewer pipes any services which are diverted, any apparatus, pipes, or other service media which is redundant may be left in the Site provided it is disconnected, non functioning and redundant and left in a safe condition so that it may be safely removed by Project Co.

<b>Element of Enabling Works</b>	<b>Completion Date</b>
Flood Protection Enabling Works	31 <sup>st</sup> March 2015
Link Building Enabling Works	31 <sup>st</sup> March 2015
Sewer Diversions Enabling Works	31 <sup>st</sup> May 2014
Services Diversion Enabling Works	31 <sup>st</sup> March 2015
PTS Enabling Works	31 <sup>st</sup> July 2015

## Section 2

## Board Neighbouring Works

**"Link Building Temporary Compound Removal"** means the works being separately procured by the Board to remove all temporary site compound related items adjacent to the Link Building to allow formation of the temporary ambulance drop off as part of Project Co Interface Proposals and activities.

**"Reconfiguration of RIE Facilities A&E Entrances"** means the works being separately procured by the Board to re-site the RIE Facilities A&E entrance to suit temporary ambulance drop off area.

**"A&E New Ambulant Road Works"** means the works being separately procured by the Board to form a new access road from Little France Crescent adjacent to Little France Drive, to the existing RIE Facilities ambulance drop off area.

**"MRI / Endoscopy Works"** means the works separately procured by the Board that shall form a new facility on the west elevation of the RIE Facility on Little France Crescent attached to and within the RIE Facilities.

Element of Neighbouring Works	Completion Date
Link Building Temporary Compound Removal	23 <sup>rd</sup> January 2015
Reconfiguration of RIE Facilities A&E Entrances	9 <sup>th</sup> March 2015
A&E New Ambulant Road Works	2 <sup>nd</sup> March 2015
MRI / Endoscopy Works	6 <sup>th</sup> June 2016

**SCHEDULE PART 31**

**CONSORT INTERFACE WITH CAMPUS SITE AND/OR CAMPUS FACILITIES**

**CONTENTS**

**Part 1: Interface Construction Issues and Interface Proposals**

**Section 1 – Construction Access**

**Section 2 – Operational Construction Access**

**Section 3 – Site Compound/Car Park E**

**Section 4 – Oversail**

**Section 5 – Access Areas and Drainage**

**Section 6 – Service Strip and Foul Service Strip**

**Section 7 – Link Building**

**Part 2: Interface Proposals Procedure**

**Section 1 – Oversail**

**Section 2 – Access Areas and Amended Supplemental Drainage Proposal**

**Section 3 – Amended Service Proposal**

**Part 3: General Matters**

**Appendices – Interface Proposals and relevant forms of notices**

## Part 1

### Interface Construction Issues and Interface Proposals

#### Section 1

#### Construction Access

#### 1 Construction Access over the Yellow Area and/or Petrol Station Site

- 1.1 Project Co acknowledges that it is intended that the primary construction access to the Site will be via a dedicated access route which may comprise a temporary road or bridge, or a combination of both from Old Dalkeith Road or Little France Drive over the Yellow Area and/or Petrol Station Site (the "**Construction Access**").
- 1.2 Project Co shall give the Board not less than twenty (20) Business Days written notice in the form of notice set out in Annex 1 of Part B of Appendix 1 of this Schedule Part 31 prior to commencing works to hoard off the affected part of the Yellow Area and/or Petrol Station Site from the remainder of the Yellow Area and/or Petrol Station Site and form the Construction Access in accordance with paragraph 1.1 and in accordance with the Construction Access Proposal which shall identify the proposed location of the Construction Access and provide details of the proposed methodology of construction of the Construction Access.
- 1.3 Prior to Project Co commencing works within the Yellow Area and/or Petrol Station Site the condition of the Yellow Area and/or Petrol Station Site shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 of Part 3 (*General Matters*) of this Schedule Part 31.
- 1.4 On commencement of the works to form the Construction Access in accordance with paragraph 1.2 the affected part of the Yellow Area and/or Petrol Station Site shall be securely hoarded off by Project Co from the remainder of the Yellow Area and/or Petrol Station Site.
- 1.5 Project Co shall and shall procure that all Project Co Parties shall not damage and shall take all necessary measures to protect the Yellow Area and/or Petrol Station Site, and any service media, buildings, structures and others erected thereon and any plant, machinery and equipment within the Yellow Area and/or Petrol Station Site. In the event of damage being caused to the Yellow Area and/or Petrol Station Site, and/or any service media, buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment by Project Co and/or any Project Co Party, Project Co will immediately notify the Board.
- 1.6 Project Co shall and shall procure that all Project Co Parties shall reinstate any damage caused to the Yellow Area and/or Petrol Station Site to the satisfaction of the Board in accordance with paragraph 3 of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 and 4 of Section 3 (*General Matters*) of this Schedule Part 31.
- 1.7 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Yellow Area and/or Petrol Station Site in accordance with paragraph 11 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement.
- 1.8 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this paragraph 1 of Section 1 (*Construction Access*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Yellow Area and/or Petrol Station Site, and/or any service media, buildings, structures, plants and others erected thereon and any plant, machinery and equipment within the Yellow Area and/or Petrol Station Site.
- 1.9 As at the Commencement Date, the Construction Access Proposal shall be deemed to be agreed by the Board as satisfying the requirements of this paragraph 1 of Section 1 of Part 1

of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## 2 Construction Access over the Orange Area

2.1 In the event that Project Co considers: -

- 2.1.1 it is not possible for Project Co to construct and use a Construction Access to the Site over the Yellow Area and/or Petrol Station Site which complies with Law; or
- 2.1.2 it is not reasonably practicable for Project Co to construct and use a suitable Construction Access to the Site over the Yellow Area and/or Petrol Station Site from a technical and/or safety perspective; or
- 2.1.3 it is technically feasible to construct and use a Construction Access to the Site over the Yellow Area and/or Petrol Station Site but the Construction Access would not represent value for money to the Board when compared to an alternative traffic strategy involving access to and egress from the Site over the Orange Area; or
- 2.1.4 a Construction Access to the Site is (or is to be) constructed over the Yellow Area and/or Petrol Station Site by Project Co but it is not possible or it is not reasonably practicable from a technical and/or safety perspective for Project Co to carry out the Works without a secondary construction access/egress route over the Orange Area during all or part(s) of the Construction Phase,

then Project Co shall notify the Board in writing not later than ten (10) Business Days in the form of notice set out in Annex 1 of Part B of Appendix 2 of this Schedule Part 31 stipulating which of the provisions of this paragraph 2.1 it considers are not possible and/or not reasonably practicable (as applicable). At the Board's option in the event that Board considers any of the provisions of this paragraph 2.1 are not possible and/or not reasonably practicable (as applicable) whether or not it has received notice from Project Co aforesaid, then the Board may at its entire discretion and subject to the remaining provisions of this paragraph 2 of Section 1 (*Construction Access*) of Part 1 (*Construction Interface Issues and Interface Proposals*) of this Schedule Part 31 give written notice to Project Co permitting Project Co to take construction access to and egress from the Site for the carrying out and completion of the Works over the Orange Area.

2.2 In the event that Project Co is permitted to take construction access to the Site for the Works over the Orange Area and/or the Petrol Station Site Project Co shall and shall procure that all Project Co Parties shall do so in accordance with the TMS which shall address the following:

- 2.2.1 the health and safety of all users of the Campus Site and/or Campus Facilities must be safeguarded at all times;
- 2.2.2 the RIE Facilities are a working hospital to which access must be maintained at all times;
- 2.2.3 traffic to the Campus Site will be prioritised in accordance with the following hierarchy:
  - (a) blue light traffic access/egress;
  - (b) staff, patients and visitors to Campus Site and/or Campus Facilities (public transport);
  - (c) staff, patients and visitors to Campus Site and/or Campus Facilities (car parking);
  - (d) Campus Site and/or Campus Facilities deliveries, FM supplies and waste collection; and
  - (e) Project Co's construction traffic; and

- 2.2.4 insofar as reasonably practicable and appropriate in the circumstances (taking into consideration, for example, the number of construction vehicles involved, the number of journeys anticipated, the time of the day when access is required and the part(s) of the Orange Area and/or the Petrol Station Site affected) Project Co's construction traffic using the Orange Area shall require to be segregated from other traffic and/or pedestrians using the Orange Area (for example, through contra-flow or one way traffic arrangements and safe routes for pedestrians).
- 2.3 Subject to Clause 5.2.7 (*General Standards*), Project Co shall and shall procure that all Project Co Parties shall also comply with any other measures or requirements of the Board as regards the TMS such as:
- 2.3.1 appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area and/or the Petrol Station Site (for example, where the TMS envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area);
- 2.3.2 the imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;
- 2.3.3 restrictions on the periods during which construction access may be taken;
- 2.3.4 the physical separation of construction traffic from other traffic and pedestrians using the Orange Area and/or the Petrol Station Site;
- 2.3.5 the re-sequencing (and/or temporary cessation) of the performance of elements of the Works; and
- 2.3.6 other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities.
- 2.4 Notwithstanding the foregoing, at the Board's option on giving written notice to Project Co, Project Co shall be entitled to take construction access over the Orange Area subject to the following conditions:
- 2.4.1 Project Co shall give the Board not less than twenty (20) Business Days prior written notice in the form of notice set out in Annex 1 of Part B of Appendix 2 of this Schedule Part 31 of the date upon which Project Co intends to first take access over the Orange Area and/or the Petrol Station Site; and
- 2.4.2 during any period when construction access is being taken by Project Co over the Orange Area and/or the Petrol Station Site, Project Co shall be responsible for (i) the management of traffic across the Orange Area and/or the Petrol Station Site and shall have primary responsibility for the health and safety of all users of the Orange Area and/or the Petrol Station Site; and (ii) road traffic signage and pedestrian crossings within the Orange Area and/or the Petrol Station Site.
- 2.5 Prior to Project Co first taking construction access over the Orange Area and/or the Petrol Station Site the condition of the Orange Area and/or the Petrol Station Site shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 of Part 3 (*General Matters*) of this Schedule Part 31.
- 2.6 Project Co shall and shall procure that all Project Co Parties shall not damage and shall take all necessary measures to protect the Orange Area and/or the Petrol Station Site, and any service media, buildings, structures and others erected thereon and any plant, machinery and equipment within the Orange Area and/or the Petrol Station Site. In the event of damage being caused to the Orange Area and/or the Petrol Station Site, and/or any service media, buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment by Project Co and/or any Project Co Party, Project Co will immediately notify the Board.

- 2.7 Project Co shall and shall procure that all Project Co Parties reinstate any damage caused to the Orange Area and/or the Petrol Station Site to the satisfaction of the Board in accordance with paragraph 3 of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 and 4 of Part 3 (*General Matters*) of this Schedule Part 31.
- 2.8 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Orange Area in accordance with Clause 9 (*Nature of Land Interests*) including without limitation paragraph 11 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement.
- 2.9 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this paragraph 2 of this Section 1 (*Construction Access*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Orange Area, and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment within the Orange Area and/or the Petrol Station Site.
- 2.10 As at the Commencement Date, the TMS shall be deemed to be agreed by the Board as satisfying the requirements of paragraphs 2.2 and 2.3 of Section 1 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## Section 2

## Operational Construction Issues

## 1. Access to RIE Site and RIE Facilities

- 1.1 When carrying out works of maintenance, repair and renewal to the Facilities where access over any part of the RIE Site and/or RIE Facilities is permitted pursuant to Clause 9 (*Nature of Land Interests*) including without limitation Section 3 (*Ancillary Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement and required during the Operational Term, Project Co shall comply and shall procure Project Co Parties comply with the following conditions:
- 1.1.1 prior to carrying out any such works the condition of relevant part of the RIE Site and/or RIE Facilities shall either (1) where expressly required in accordance with this Schedule Part 31 be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 of Part 3 (*General Matters*) of this Schedule Part 31 or (2) where there are no express provisions requiring a Schedule of Condition then prior to any such works being undertaken in the RIE Site and/or RIE Facilities or any part (a) Project Co shall at its cost prepare a record of the condition of the relevant part of the RIE Site and/or RIE Facilities such record to comprise photographs along with, if necessary to properly record the condition of the area, a written commentary together with such specification and drawings as are available of any service media running through, under and over the relevant area and any buildings, structures and others erected thereon and any plant, machinery and equipment located thereon and (b) Project Co shall provide three copies of such record to the Board and (c) where the Board acting reasonably considers it is necessary Project Co and the Board or representatives on behalf of the Board shall jointly inspect the relevant part of the RIE Site and/or RIE Facilities;
- 1.1.2 reasonable prior notice of not less than ten (10) Business Days in the form of notice set out in Annex 5 of Part C of Appendix 4, Annex 5 and/or Annex 6 of Part C of Appendix 7, Annex 5, Annex 6, Annex 7 or Annex 8 of Part C of Appendix 8, to this Schedule Part 31 as applicable to the works shall be given to the Board (except in an emergency (which for the purposes of this paragraph shall include any circumstances which give or may give rise to the occurrence of a Service Event) where Project Co shall provide as much prior notice as is reasonably practicable in the circumstances);
- 1.1.3 the minimum practicable disruption to the use and occupation of the Retained Site and/or Retained Estate shall be caused; and
- 1.1.4 Project Co shall and shall procure that all Project Co Parties (1) shall not damage the Retained Site and/or Retained Estate or any part of them and any plant, machinery and equipment and/or other assets at them and (2) shall make good any damage to the Retained Site and/or Retained Estate or any part of them and any plant, machinery and equipment and/or other assets at them resulting from the exercise of the rights to the Board's satisfaction unless, at the Board's option it is agreed that any Campus Party shall make good any such damage. In the event of damage being caused to the Retained Site and/or Retained Estate or any part of them and any plant, machinery and equipment and/or other assets by Project Co and/or any Project Co Party in the exercise of the rights under this paragraph 1 Project Co will immediately notify the Board. In the event Project Co fails or fails to procure any such damage is made good as soon as reasonably practicable having regard to the nature of the damage using best endeavours to mitigate the effects of any such damage then any Campus Party shall be entitled to make good any such damage.
- 1.1.5 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Retained Site and/or Retained Estate or any part of them and any plant, machinery and equipment and/or other assets at them in accordance with Clause 9 (*Nature of Land Interests*) including without limitation Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement; and
- 1.1.6 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with

and/or any breach of and/or any negligent act in complying with the requirements in this paragraph 1 of this Section 2 (*Operational Construction Issues*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Retained Site and/or Retained Estate or any part of them and/or any plant, machinery and equipment and/or other assets at them.

## **2. Service Strip and Foul Service Strip**

- 2.1 Without limiting the terms of paragraph 1 (*Access to RIE Site and RIE Facilities*), during the Operational Term Project Co shall repair, maintain, replace and renew service media serving the Facilities located within the Service Strip or the Foul Service Strip subject to the terms of Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and the Initial Drainage Proposal, the Supplemental Drainage Proposal, the Service Proposal, the Access Strategy and where applicable any Amended Service Proposal and/or Access Strategy and/or Amended Supplemental Drainage Proposal agreed or determined pursuant to Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) and/or Section 3 (*Amended Service Proposal*) of Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31.

## **3. PTS, ICT, Joint and Fire Alarm System**

- 3.1 Without limiting the terms of paragraph 1 (*Access to RIE Site and RIE Facilities*), during the Operational Term Project Co shall repair, maintain, replace and renew the interface links between the Fire Alarm System, PTS and ICT and the Joint to be installed pursuant to the Board's Construction Requirements and Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31, subject to and in accordance with Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and the Interface Output Specification and the Connection Proposal.

## **4. Not Used**

## Section 3

## Site Compound/Car Park E

1. During the Construction Phase Project Co shall be entitled to occupy Car Park E and where necessary hoard off and segregate Car Park E or the relevant part thereof being occupied from the remainder of the Campus Site subject to the following conditions:
  - 1.1 Project Co shall be obliged to give the Board at least twenty five (25) Business Days prior written notice in the form of notice set out in Annex 1 of Appendix 9 of this Schedule Part 31 of the intention to occupy Car Park E;
  - 1.2 prior to Project Co first taking occupation of Car Park E the condition of Car Park E shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 of Part 3 (*General Matters*) of this Schedule Part 31;
  - 1.3 Car Park E may be used by Project Co only for office accommodation, welfare accommodation and parking for staff and contractors (but not Commercial Vehicles) necessarily required for the Works. For the purposes of this paragraph, "**Commercial Vehicles**" means any vehicle which requires a HGV or PSV licence and/or any vehicle used for retail purpose. No construction materials may be stored on Car Park E except with the prior written agreement of the Board, such agreement not to be unreasonably withheld, provided the Board may withhold agreement unless the Board is satisfied any such construction materials are being stored properly, safely and securely and are adequately protected, and that such storage is compatible with the permitted use of Car Park E for office and welfare accommodation and parking for staff and contractors;
  - 1.4 Car Park E shall be kept in a neat and tidy condition at all times;
  - 1.5 Project Co shall and shall procure that all Project Co Parties (1) shall not damage Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E and (2) shall take all necessary measures to protect Car Park E and any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E. In the event of damage being caused to Car Park E and/or any service media, buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment by Project Co and/or any Project Co Party, Project Co will immediately notify the Board;
  - 1.6 Project Co shall and shall procure that all Project Co Parties shall reinstate any damage to Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E to the satisfaction of the Board in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 (*Reinstatement of Damage*) and 4 (*Repair of Defects*) of Section 3 (*General Matters*) of this Schedule Part 31;
  - 1.7 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E in accordance with Clause 9 (*Nature of Land Interests*) including without limitation paragraph 12 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement and without prejudice to the foregoing generality shall ensure that the areas of Car Park E under which service media are located are not obstructed; and
  - 1.8 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this Section 3 (*Site Compound/Car Park E*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to

Car Park E and/or the relevant part and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment at Car Park E.

## Section 4

### Oversail

- 1 Subject to the following provisions of this Section 4 of this Part 1 (*Construction Interface Issues and Interface Proposals*) of this Schedule Part 31, Project Co shall be permitted in connection with the Works to oversail parts of the Retained Site and/or Retained Estate with the jib and/or counterweight of any crane in accordance with the Oversail Strategy and, where applicable any Additional Oversail Strategy agreed or determined pursuant to Section 1 (*Oversail*) of Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31.
  
- 2 Project Co shall and where applicable the Oversail Strategy and where applicable the Additional Oversail Strategy shall provide that Project Co shall:
  - 2.1 have due regard to the safeguarding of the health and safety of all persons on the Campus Site at all times and due regard to RIE Facilities as an operational hospital;
  
  - 2.2 obtain and comply with all Laws applicable to crane use and operation;
  
  - 2.3 ensure that no part of any crane or load carried by it shall be lower than three (3) metres above any part of any building and/or other structure erected on the Campus Site;
  
  - 2.4 engage only properly qualified employees to erect, operate and dismantle any crane or any part of any crane, and whenever reasonably requested in writing by the Board, Project Co shall provide copies of any appropriate test and/or competence certificate for any such persons;
  
  - 2.5 take all reasonable steps to ensure that the security of the Campus Site and/or Campus Facilities are not compromised by the existence of any crane and that all cranes are kept secure and that all reasonable steps are taken to prevent unauthorised access and/or vandalism to all cranes including removing ladders and other means of access thereto when any crane is not in use;
  
  - 2.6 ensure that all cranes are erected, used and dismantled in a good and workmanlike manner consistent with the Good Industry Practice;
  
  - 2.7 take all reasonable and practicable measures to minimise the inconvenience and disturbance to other occupiers of the Campus Site and/or Campus Facilities;
  
  - 2.8 use risk based criteria in assessing oversail operations over the Campus Site and/or Campus Facilities;
  
  - 2.9 ensure all proper safety precautions are taken and all safety and warning devices in, on or relating to any crane are visible and function properly at all times;
  
  - 2.10 ensure the jib of any tower crane shall freely caster through 360 degrees;
  
  - 2.11 ensure no crane loads shall be suspended above other parts of the Campus Facilities;
  
  - 2.12 ensure all cranes are kept in good working order and maintained in full compliance with the maintenance and operating instructions of the manufacturer and any requirements

of the supplier of the cranes and any Laws;

- 2.13 ensure no crane is used for any load that is unsuitable or larger or heavier than it is designed to carry;
  - 2.14 ensure all cranes are regularly inspected at reasonable intervals by an appropriately qualified engineer and that any reasonable recommendations made by the engineer to carry out any works or remedy any defects that are necessary to put and keep all cranes safe and in proper working order are carried out as soon as is practicable; and
  - 2.15 ensure that at such times as any crane is at the Site but is not in use it is left secure and is parked in accordance with the operating instructions and shall not be parked in a position oversailing any part of the Retained Site and/or Retained Estate unless required for health and safety reasons.
3. Where there is any dispute or disagreement about the Oversail Strategy and/or any Additional Oversail Strategy agreed or determined pursuant to Section 1 (*Oversail*) of Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31, including the requirement for any change to the Oversail Strategy and/or Additional Oversail Strategy, then the disputed element of the Oversail Strategy and/or Additional Oversail Strategy and/or applicable oversailing activities shall not proceed pending agreement or determination or such dispute or disagreement.
  4. As at the Commencement Date, the Oversail Strategy shall be deemed to be agreed by the Board as satisfying the requirements of paragraph 2.3 of Section 4 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## Section 5

### Access Areas and Drainage

#### 1. Access Areas

- 1.1 On giving not less than twenty (20) Business Days prior written notice, in the forms of notices referred to in paragraphs 1.1.1 to 1.1.6 below, to the Board and subject to compliance with the following provisions of this Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31, Project Co shall and shall procure Project Co Parties during the Construction Phase as part of the Works:
- 1.1.1 hoard off from the remainder of the Campus Site any part or parts of the Access Areas in connection with the carrying out of any works in terms of this paragraph 1 and in terms of Section 6 (*Service Strip and Foul Service Strip*) of this Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule, in the form of notice set out in Annex 1, and/or Annex 3 of Part B of Appendix 7 of this Schedule Part 31, and where applicable the Access Strategy; and/or
  - 1.1.2 carry out works to form pedestrian and vehicular accesses to and from the Site onto the Orange Area, in the form of notice set out in Annex 1 of Part B of Appendix 4 of Schedule Part 31; and/or
  - 1.1.3 carry out works to reconfigure the roads, footpaths and landscaped areas within the Hatched Orange Area, in the form of notice set out in Annex 2 of Part B of Appendix 4 of this Schedule Part 31; and/or
  - 1.1.4 carry out the Surface Water Drainage Works connections from the Site to the existing surface water drain within the Orange Area in the form of notice set out in Annex 1 of Part B of Appendix 5 of Schedule Part 31; and/or
  - 1.1.5 Not Used.
  - 1.1.6 carry out works to form the Cycle Path Works in the form of notice set out in Annex 3 of Part B of Appendix 4 of this Schedule Part 31.

#### 1.2 Access Strategy

- 1.2.1 Where the part or parts of the Access Areas to be occupied by Project Co include any part or parts of the Orange Area pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times (albeit that the access arrangements may require to be subject to restrictions or diversions during any periods of occupation such restrictions to be approved by the Board and Consort) and Project Co shall comply with and procure compliance by Project Co Parties with the Access Strategy which shall ensure:
- (a) the health and safety of all users of the Campus Site and Campus Facilities must be safeguarded at all times;
  - (b) regard is had to RIE Facilities as a working hospital to which appropriate pedestrian and vehicular access must be maintained at all times;
  - (c) pedestrian and vehicular access must be maintained (albeit, at times it may be restricted) over the section of Little France Crescent lying within the part of the Orange Area shown shaded orange (but not hatched black) on Plan 2; and
  - (d) traffic will be prioritised in accordance with the following hierarchy:
    - (i) blue light traffic access/egress;
    - (ii) staff, patients and visitors to the Campus Site and/or Campus Facilities (public

- transport);
- (iii) staff, patients and visitors to the Campus Site and/or Campus Facilities (car parking);
  - (iv) Campus Site and/or Campus Facilities deliveries, FM supplies and waste collection; and
  - (v) Project Co's construction traffic.

Subject to Clause 5.2.7 (*General Standards*), Project Co shall also implement and comply with and ensure Project Co Parties implement and comply with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities.

- 1.3 Notwithstanding the foregoing, at the Board's option on giving written notice to Project Co, Project Co shall be entitled to occupy the relevant parts or parts of the Access Areas subject to the following conditions:
- 1.3.1 Project Co shall give the Board not less than twenty (20) Business Days notice in the form of notice set out in Part B of Appendix 4 of this Schedule Part 31 of the date upon which Project Co intends to occupy the relevant part or parts of the Access Areas; and
  - 1.3.2 during any period when Project Co is occupying the relevant part or parts of the Access Areas Project Co shall be responsible for (i) the management of traffic across the Orange Area and shall have primary responsibility for the health and safety of all users of the Orange Area; and (ii) road traffic signage and pedestrian crossings within the Orange Area.

#### **1.4 Conditions of occupation and use of Access Areas**

- 1.4.1 On any part or parts of the Access Areas being occupied by Project Co pursuant to this Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 the affected part of the Access Areas shall be securely hoarded off by Project Co; and
- 1.4.2 Prior to any part or parts of the Access Areas being occupied by Project Co the condition of the Access Areas shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 (*Schedule of Condition*) of Part 3 (*General Matters*) of this Schedule Part 31; and
- 1.4.3 Project Co shall and shall procure that all Project Co Parties shall (1) not damage the Access Areas and/or any service media within and/or, buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment within the Access Areas and (2) take all necessary measures to protect the Access Areas and any service media within and, buildings, structures and others erected thereon and any plant, machinery and equipment within the Access Areas. In the event of damage being caused to the Access Areas, and/or any service media within and/or buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment by Project Co and/or any Project Co Party in the exercise of the rights over such parts of the Access Areas Project Co will immediately notify the Board; and
- 1.4.4 Project Co shall and shall procure that all Project Co Parties shall reinstate any damage caused to the Access Areas and/or any service media within and/or buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment to the satisfaction of the Board in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 (*Reinstatement of Damage*) and 4 (*Repair of Defects*) of Section 3 (*General Matters*) of this Schedule Part 31; and
- 1.4.5 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Access Areas and/or any service media within and/or buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment in accordance with Clause 9 (*Nature of Land Interests*) including without limitation paragraphs 3, 4 and 11 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement; and

- 1.4.6 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in paragraph 1 of this Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Access Areas and/or any service media within and/or buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment.
- 1.5 As at the Commencement Date, the Access Strategy shall be deemed to be agreed by the Board as satisfying the requirements of paragraph 1.2 of Section 5 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## 2. Drainage Proposals

- 2.1 In addition to the requirements of paragraph 1 of this Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31, the following additional provisions will apply in respect of the installation of the Surface Water Drainage Works connections from the Site to the existing surface water drainage within the Orange Area:
- 2.1.1 the Surface Water Drainage Works shall conform to the Initial Drainage Proposal and the Supplemental Drainage Proposal which shall contain full details of the design, construction, programme and method statements sufficient to enable a full assessment of the proposed works and shall provide that the works will:
- (a) be safe to any personnel or equipment or any part of the Campus Site and/or Campus Facilities; and
  - (b) comply with Good Industry Practice and Law; and
  - (c) have the effect that the operational and/or structural performance of the Campus Site and/or Campus Facilities will be of an equivalent standard of performance compared with the standard of performance if the Supplemental Drainage Proposal were not implemented and/or that the functionality or design life of the Campus Site and/or Campus Facilities or any material part thereof and/or the Board's, Consort's and/or the University's and/or any other operations at the Campus Site and Campus Facilities are not materially adversely affected.
- 2.1.2 the Board and/or any Board Party and/or Consort and/or any Consort Party or any party on behalf of any of them shall be entitled to observe the works for the protection of existing service media serving the Campus Site and/or Campus Facilities within the relevant part of the Access Areas;
- 2.1.3 In advance of any such proposed works Project Co shall undertake a camera survey to document the condition of the existing surface water drainage system within the RIE Site. The camera survey will be carried out in accordance with Good Industry Practice and cover the full section of the RIE Site surface water drainage system that will serve the Site, from the point of the first connection from the Site to the drainage system to the point at which the drainage system discharges from the RIE Site to the Niddrie Burn. Four hard copies and an electronic version of the camera survey will be delivered to the Board and no works may be carried out until the said camera survey has been carried out and requisite copies delivered to the Board.
- 2.2 As at the Commencement Date, the Supplemental Drainage Proposal shall be deemed to be agreed by the Board as satisfying the requirements of paragraph 2 of Section 5 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to

any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*)

**3. Not Used.**

**4. Not Used.**

**5. Other General Matters**

5.1 Project Co shall notify the Board on completion of the works within the parts of the Access Areas referred to in paragraph 1. As soon as reasonably practicable following receipt of such notification:

5.1.1 the condition of the relevant parts of the Access Areas shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 (*Schedules of Condition*) of Part 3 (*General Matters*) of this Schedule Part 31; and

5.1.2 Project Co will repeat the camera survey to be carried out pursuant to paragraph 2.1.3 (*Drainage Proposals*) of this Section 5, to document the condition of the surface water drainage system following the installation of the new connections and four hard copies and an electronic version of the repeated camera survey will be delivered to the Board.

## Section 6

## Service Strip and Foul Service Strip

1. Project Co shall carry out any works to construct and lay and thereafter maintain, repair and renew service media pursuant to paragraph 2 (*Service Strip and Foul Service Strip*) of Section 2 (*Operational Construction Issues*) of this Part 1 of Schedule Part 31, through, under and over (1) the Service Strip for the passage of water, sewage, drainage or oil, gas, electricity, telephone (and other telecommunications), and (2) the Foul Service Strip for the passage of Foul Water Drainage, in each case as necessary in connection with the Works subject to the following conditions:
  - 1.1 Project Co shall exhibit to the Board the approval of Scottish Water or other relevant statutory authority and/or utility provider with jurisdiction in relation to the works to the connection of service media from the Site to the mains sewer located on the RIE Site;
  - 1.2 Project Co shall comply with and procure compliance by Project Co Parties with, as applicable the Access Strategy, the Initial Drainage Proposal, the Supplemental Drainage Proposal, the Service Proposal and/or any Access Strategy and/or Amended Service Proposal and/or Amended Supplemental Drainage Proposal agreed or determined pursuant to Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31;
  - 1.3 save where the Service Proposal and/or any Amended Service Proposal and/or if applicable the Supplemental Drainage Proposal and/or any Amended Supplemental Drainage Proposal contains method statements for constructing and laying, maintaining, repairing and renewing such service media through, under and over the Service Strip or the Foul Service Strip (as applicable), Project Co shall provide detailed method statements a reasonable period, and in any event no fewer than twenty five (25) Business Days, in advance of the date for any proposed works to construct and lay, maintain, repair and renew such service media through, under and over the Service Strip or the Foul Service Strip (as applicable) to the Board, save that in an emergency (which for the purposes of this paragraph shall include any circumstances which give or may give rise to the occurrence of a Service Event) Project Co shall provide such method statements to the Board as soon as possible but not necessarily in advance and the Project Co shall notify the Board of such emergency as soon as possible;
  - 1.4 the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them shall be entitled to (a) make representations with regard to the conduct of any such proposed works to construct and lay, maintain, repair and renew such service media (to which representations given in advance of the relevant works commencing and communicated to Project Co, Project Co shall be obliged to and shall ensure Project Co Parties shall give due regard), (b) observe such works for the protection of existing service media within the Service Strip or the Foul Service Strip (as applicable) serving the Campus Site and/or Campus Facilities save in the event that the works are emergency works (which for the purposes of this paragraph shall include any circumstances which give or may give rise to the occurrence of a Service Event) and sufficient notification was not possible (in which circumstances the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any person on behalf of any of them shall be permitted to view the Campus Site and/or Campus Facilities service media within the Service Strip or the Foul Service Strip (as applicable) following completion of such emergency works but before reinstatement of the ground);
  - 1.5 prior to Project Co commencing works to install service media within the Service Strip or Foul Service Strip (as applicable) the condition of the Service Strip or Foul Service Strip (as applicable) and any existing service media within them will be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 (*Schedules of Condition*) of Part 3 (*General Matters*) of this Schedule Part 31;
  - 1.6 Project Co shall and shall procure that all Project Co Parties shall not damage and shall take all necessary measures to protect the Service Strip or the Foul Service Strip (as applicable) and the existing service media within either of them. In the event of damage being caused to Service Strip or the Foul Service Strip (as applicable) and/or the

existing service media within either of them by Project Co and/or any Project Co Party, Project Co will immediately notify the Board;

- 1.7 Project Co shall and shall procure that all Project Co Parties shall reinstate any damage caused to the Service Strip or the Foul Service Strip (as applicable) and/or the existing service media within either of them to the satisfaction of the Board in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 (*General Matters*) and shall comply with the requirements in paragraphs 3 (*Reinstatement of Damage*) and 4 (*Repair of Defects*) of Section 3 (*General Matters*) of this Schedule Part 31;
  - 1.8 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Service Strip or the Foul Service Strip (as applicable) and/or the existing service media within either of them in accordance with Clause 9 (*Nature of Land Interests*) and including without limitation paragraphs 1 to 4 and 11 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement; and
  - 1.9 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this paragraph 1 of this Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Service Strip or the Foul Service Strip (as applicable) and/or the existing service media within either of them.
2. Where the works to be carried out by Project Co pursuant to paragraph 1 involve the repair, maintenance or renewal of service media previously installed by Project Co within the Service Strip or the Foul Service Strip (as applicable) pursuant to paragraph 2 (*Service Strip and Foul Service Strip*) of Section 2 (*Operational Construction Issues*) of this Part 1 of Schedule Part 31 and serving the Site rather than the initial installation of the service media the following provisions shall apply:
- 2.1 except in the case of emergency works (which for the purposes of this paragraph shall include any circumstances which give or may give rise to the occurrence of a Service Event) of repair, maintenance or renewal, the condition of the Service Strip or Foul Service Strip (as applicable) will be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 (*Schedules of Condition*) of Part 3 (*General Matters*) of this Schedule Part 31;
  - 2.2 the works shall be carried out in such a manner as shall cause the minimum practicable disruption to the use and occupation of the relevant area and completed as soon as reasonably practicable;
  - 2.3 on completion of the works Project Co shall and shall procure Project Co Parties shall reinstate the relevant area and any buildings, structures and others erected thereon and any plant, machinery and equipment to no worse condition than that which existed prior to Project Co taking occupation of the relevant area to carry out the works evidenced by the Schedule of Condition referred to at paragraph 2.1 and that as soon as practicable, and in the event Project Co fails or fails to procure any such reinstatement is effected as soon as reasonably practicable then the Board and/or any Board Party and/or Consort and/or any Consort Party and/or any party on behalf of any of them shall be entitled to effect such reinstatement at Project Co's cost;
  - 2.4 Project Co shall be obliged to give the Board notice of completion of the works in the form of notice set out in Annex 8 and/or Annex 9 of Part B of Appendix 10 of this Schedule Part 31 as applicable and the reinstatement works forthwith on the works being completed and the relevant area being vacated by Project Co; and
  - 2.5 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this

paragraph 2 of this Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of reinstatement of the Service Strip or the Foul Service Strip (as applicable) and/or the existing service media within either of them.

3. As at the Commencement Date, the Service Proposal shall be deemed to be agreed by the Board as satisfying the requirements of paragraph 1 of Section 6 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## Section 7

### Link Building

1. Project Co shall, as part of the Works, form a Joint connection between the Facilities and the Link Building, install and commission and thereafter maintain, repair, replace and renew interface links between the Fire Alarm System within the Facilities with those within the RIE Facilities and install and commission and thereafter maintain, repair, replace and renew the PTS and ICT and the Joint.
2. The Board requires to be satisfied with regard to design and the methodology for the Works described in paragraph 1.
- 2A Prior to commencing the Works described in paragraph 1, Project Co shall notify the Board not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities to carry out such Works as follows:
  - 2A.1 in the form of notice set out in Annex 1 of Part B of Appendix 8 of this Schedule Part 31 in respect of the ICT;
  - 2A.2 in the form of notice set out in Annex 2 of Part B of Appendix 8 of this Schedule Part 31 in respect of the PTS;
  - 2A.3 in the form of notice set out in Annex 3 of Part B of Appendix 8 of this Schedule Part 31 in respect of the Joint; and/or
  - 2A.4 in the form of notice set out in Annex 4 of Part B of Appendix 8 of this Schedule Part 31 in respect of the Fire Alarm System.
3. Project Co shall comply with and procure compliance by Project Co Parties with the Interface Output Specification. The Connection Proposal shall be prepared by Project Co and shall set out the following specific connection information in relation to the Works described in paragraph 1:
  - 3.1 Joint: (i) Design and commissioning package for method of connection of the Facilities to the Link Building; (ii) a proposal/construction method statement in respect of the Joint connection between the Facilities and the Link Building; and (iii) a Method Statement for the maintenance, repair, renewal and replacement of the Joint connection between the Facilities and the Link Building;
  - 3.2 Fire Alarm System: (i) The Fire Alarm System specification for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities; (ii) design and commissioning package information for method of installation for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities; (iii) a proposal for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities; and (iv) a Method Statement for the maintenance, repair, renewal and replacement of the interface link between the Fire Alarm System within the Facilities and the RIE Facilities;
  - 3.3 Not Used;
  - 3.4 PTS: (i) The PTS specifications for the Facilities and the RIE Facilities; (ii) design and commissioning package information for the proposed method of installation of the PTS within the Facilities and the RIE Facilities; (iii) a proposal for the installation of the PTS within the Facilities and RIE Facilities; and (iv) a Method Statement for the maintenance, repair, renewal and replacement of the PTS within the Facilities and RIE Facilities;
  - 3.5 ICT: (i) The ICT specifications for the Facilities and the RIE Facilities; (ii) design and commissioning package information for the proposed method of installation of the ICT within the Facilities and the RIE Facilities; (iii) proposal for the installation of the ICT within the Facilities and RIE Facilities; and (iv) a Method Statement for the maintenance and repair of the ICT within the Facilities and RIE Facilities

4. Project Co shall also comply with and procure compliance by Project Co Parties with the Connection Proposal and in a manner which means the works and the manner in which they are carried out are safe to any personnel or equipment or any part of the Campus Site and/or Campus Facilities, comply with Good Industry Practice and Law and do not affect the operational and/or structural performance of the RIE Facilities nor the functionality or design life of the RIE Facilities or otherwise materially adversely affect any material part thereof, and shall not damage and shall take all necessary measures to protect the Campus Site and/or Campus Facilities in which the works described in paragraph 1 are being carried out.
5. Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to any areas affected by the works described in this Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 in accordance with Clause 9 (*Nature of Land Interests*) including without limitation Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement.
6. Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Campus Site and/or Campus Facilities.
7. As at the Commencement Date, the Connection Proposal shall be deemed to be agreed by the Board as satisfying the requirements of paragraph 3 of Section 7 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*), subject to any outstanding deliverables referred to in Part 5 of Section 5 (*Reviewable Design Data*) of Schedule Part 6 (*Construction Matters*) being submitted by Project Co to the Board pursuant to Schedule Part 8 (*Review Procedure*).

## Part 2

### Interface Proposals Procedure

#### General

Notwithstanding any other provision of this, including without limitation any provisions regarding Change, the provisions of this Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31 shall prevail in respect of the matters to which it relates.

#### Section 1

#### Oversail

- 1 In the event the Oversail Strategy requires to be amended and/or Project Co requires to oversail in a manner and/or for a period and/or for a purpose not in the Oversail Strategy then Project Co shall prepare and issue to the Board as far in advance as possible of (but in any event not later than ten (10) Business Days prior to) any proposed oversailing (such notice period to apply to each individual period of oversailing and/or for every crane which will oversail (as applicable)), a notice in the form of notice set out in Annex 1 of Part B and/or Part C of Appendix 3 of this Schedule Part 31 as applicable together with an oversailing strategy (or, as the case may be, strategies) which shall include (as a minimum) a programme of proposed oversailing activities, risk assessments and method statements for the erection, operation and dismantling of any crane(s) intended to oversail ("**the Additional Oversail Strategy**").
- 2 In the preparation of the Additional Oversail Strategy Project Co shall:
  - 2.1 have due regard to the safeguarding of the health and safety of all persons on the Campus Site and/or Campus Facilities at all times; and
  - 2.2 have due regard to RIE Facilities as an operational hospital; and
  - 2.3 meet all of the requirements detailed in paragraph 2 of Section 4 (*Oversail*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31.
3. Not later than fifteen (15) Business Days of receipt of the Additional Oversail Strategy from Project Co pursuant to paragraph 1 the Board shall provide Consort with a copy of the Additional Oversail Strategy.
4. The Board shall use reasonable endeavours to procure that Consort have been provided with a copy of the Additional Oversail Strategy pursuant to paragraph 3 to:
  - 4.1 review the Additional Oversail Strategy and consider the impact (if any) of the proposed oversailing activities on Consort's and/or Consort Party, the University's and/or any University Party's and/or the Board's and/or others operations at the Campus Site and/or Campus Facilities;
  - 4.2 consider any measures that require to be taken within the Campus Site and/or the Campus Facilities in the interests of health and safety during periods of oversailing; and
  - 4.3 consider any amendment(s) to the Additional Oversail Strategy which are necessary in order to address the requirements set out in paragraph 2.

Project Co shall also implement and comply with any other measures and operations reasonably requested by the Board for the proper implementation of the Additional Oversail Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities including addressing any objections to and/or suggest changes to the Additional Oversail Strategy if the Board and/or Consort and/or the University considers that the Additional Oversail Strategy does not meet the requirements of paragraph 2.

5. If requested by the Board, Project Co shall attend any meeting and/or provide such information as the Board may reasonably request in support of the Additional Oversail Strategy. The Board

shall take account of and put forward to Consort and/or the University, if applicable representations made by Project Co in support of the Additional Oversail Strategy which the Board acting reasonably consider are proper and reasonable.

6. If the Board notifies Project Co that the Additional Oversail Strategy has been approved then Project Co shall be entitled to commence oversailing activities in accordance with the approved Additional Oversail Strategy.
7. If the Board notifies Project Co of objections and/or suggested changes to the Additional Oversail Strategy then Project Co shall consider those objections and/or suggested changes and within ten (10) Business Days of the date of notification by the Board and shall provide the Board with a written response confirming:
  - 7.1 whether Project Co considers that the objections are valid (and if not, providing reasons); and/or
  - 7.2 whether the suggested changes (if any) are accepted (and if not accepted, providing reasons).
8. If pursuant to paragraph 7 Project Co:
  - 8.1 notifies the Board that Project Co does not accept the objections and/or suggested changes to the Additional Oversail Strategy and gives reasons which show that the Additional Oversail Strategy does comply with paragraph 2; and/or
  - 8.2 suggests a counter proposal to the proposed objections and/or suggested changes,

then the Board shall issue a copy of Project Co's response to Consort and/or Consort Party and shall use reasonable endeavours to procure a meeting as soon as reasonably practicable thereafter to review Project Co's objection or counter proposal.
9. As soon as reasonably practicable following the meeting held pursuant to paragraph 8 the Board shall notify Project Co either:
  - 9.1 that the Additional Oversail Strategy has been approved; or
  - 9.2 of any objections and/or suggested changes to the Additional Oversail Strategy put forward at the meeting.
10. If the Board notifies Project Co pursuant to paragraph 9 of objections and/or suggested changes to the Additional Oversail Strategy then Project Co shall consider those objections and/or suggested changes and within ten (10) Business Days of the date of notification by the Board shall provide the Board with a written response confirming whether Project Co considers the objections to be valid (and if not, providing reasons) and/or whether the suggested changes (if any) are acceptable (and if not accepted, providing reasons).
11. If pursuant to paragraph 10 Project Co notifies the Board that it does not consider the objections to be valid and/or does not accept the suggested changes and where the objections and/or suggested changes are from Consort and/or Consort Party then the Board shall if requested by Project Co refer the matters in dispute to an official of Consort and/or Consort Party (nominated from time to time for the resolution of disputes, failing which, the Chief Executive of Consort) and an official of the Board (nominated from time to time for the resolution of disputes, failing which, the Chief Executive of the Board), and the Board shall reasonably endeavour and shall use reasonable endeavours to procure the official or Chief Executive of Consort use its reasonable endeavours to negotiate (in good faith) to resolve the dispute. Failing agreement being reached between the officials of Consort and the Board, if requested by Project Co, the Board shall call for the matters in dispute to be referred to the Independent Expert who will act as an expert and will accept as a condition of his appointment that he shall give a decision within five (5) Business Days of his appointment. Before nominating a person to act as Independent Expert or agreeing to the nomination by Consort, the Board shall take account of any reasonable representations made by Project Co with regard to the identity of the proposed Independent Expert. In referring matters to the Independent Expert, the Board shall give due regard to any written representations received from Project Co which the Board acting

reasonably consider are proper and reasonable and shall keep Project Co advised as to all communications to and from the Independent Expert and Project Co agrees to be bound by the decision of the Independent Expert. In the event that the Independent Expert decides wholly or partly in favour of Consort, Project Co shall meet any award as to the costs of and associated with the referral proceedings including without limitation the costs of the Independent Expert, Consort, the Board and any other party involved in the referral.

12. Until agreement has been reached or a dispute has been determined on the terms of the Additional Oversail Strategy, including the requirement for any change to the Additional Oversail Strategy, then the disputed element of the Additional Oversail Strategy and/or applicable oversailing activities shall not proceed pending such agreement or determination.

## Section 2

### Access Areas and Amended Supplemental Drainage Proposal

#### Access Strategy

- 1.1 Where the part or parts of the Access Areas to be occupied by Project Co include any part or parts of the Orange Area pedestrian and vehicular access to Campus must be maintained at all times (albeit that the access arrangements may require to be subject to restrictions or diversions during any periods of occupation such restrictions to be approved by the Board and Consort and the University) and where there is no Access Strategy or the Access Strategy does not apply to the access arrangements being sought at the particular time then Project Co shall prepare a strategy ("**the Access Strategy**") for the continued access and egress of pedestrians and vehicles to and from the Campus Site and/or Campus Facilities during any such period of occupation and Project Co shall send the Access Strategy together with a notice to the Board in the form of notice set out in Annex 4 of Part B of Appendix 4 of this Schedule Part 31 detailing the required occupation at least ten (10) Business Days in advance of the intention to occupy.
- 1.2 Project Co shall prepare the Access Strategy which shall ensure:
  - 1.2.1 the health and safety of all users of the Campus Site and/or Campus Facilities must be safeguarded at all times;
  - 1.2.2 regard is had to RIE Facilities as a working hospital to which appropriate pedestrian and vehicular access must be maintained at all times;
  - 1.2.3 pedestrian and vehicular access must be maintained (albeit, at times it may be restricted) over the section of Little France Crescent lying within the part of the Orange Area shown shaded orange (but not hatched black) on Plan 2; and
  - 1.2.4 traffic will be prioritised in accordance with the following hierarchy:
    - (a) blue light traffic access/egress;
    - (b) staff, patients and visitors to the Campus Site and/or Campus Facilities (public transport);
    - (c) staff, patients and visitors to the Campus Site and/or Campus Facilities (car parking);
    - (d) Campus Site and/or Campus Facilities deliveries, FM supplies and waste collection; and
    - (e) Project Co's construction traffic.
- 1.3 When serving notice on the Board pursuant to paragraph 1 Project Co shall provide the Board with a copy of the Access Strategy. Not later than five (5) Business Days of receipt of the notice and Access Strategy from Project Co the Board shall provide Consort with a copy of the Access Strategy. The Board shall use reasonable endeavours to procure a meeting not later than ten (10) Business Days of the date upon which the Board has provided Consort with a copy of the Access Strategy to:
  - 1.3.1 review the Access Strategy and consider whether it will ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and parts of the Retained Site and/or Retained Estate during the period of occupation; and
  - 1.3.2 consider the impact of the Access Strategy on operations at the Campus Site and/or Campus Facilities and to agree appropriate measures for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;

- 1.4 The Board shall intimate to Project Co the measures agreed at the meeting referred to in paragraph 1.3 and Project Co shall, in occupying the relevant part or parts of the Access Areas, be obliged to comply with those measures.
- 1.5 In the event that at the meeting referred to in paragraph 1.3 the Board and/or others are unable to agree the measures to be taken pursuant to paragraph 1.3 by the date eight (8) weeks after the Access Strategy was provided to the Board pursuant to paragraph 1.3 then Project Co shall be entitled to occupy the relevant parts or parts of the Access Areas subject to the following conditions: -
- 1.5.1 Project Co shall give the Board not less than twenty (20) Business Days notice in the form of notice set out in Annex 4 of Part B of Appendix 4 of this Schedule Part 31 of the date upon which Project Co intends to occupy the relevant part or parts of the Access Areas; and
- 1.5.2 during any period when Project Co is occupying the relevant part or parts of the Access Areas Project Co shall be responsible for (i) the management of traffic across the Orange Area and shall have primary responsibility for the health and safety of all users of the Orange Area; and (ii) road traffic signage and pedestrian crossings within the Orange Area; and
- 1.5.3 prior to Project Co first taking construction access over the Orange Area the condition of the Orange Area shall be recorded in a Schedule of Condition to be prepared pursuant to paragraph 2 of Part 3 (*General Matters*) of this Schedule Part 31; and
- 1.5.4 Project Co shall and shall procure that all Project Co Parties shall not damage and shall take all necessary measures to protect the Orange Area, and any service media, buildings, structures and others erected thereon and any plant, machinery and equipment within the Orange Area. In the event of damage being caused to the Orange Area, and/or any service media, buildings, structures and/or others erected thereon and/or any plant, machinery and/or equipment by Project Co and/or any Project Co Party, Project Co will immediately notify the Board; and
- 1.5.5 Project Co shall and shall procure that all Project Co Parties reinstate any damage caused to the Orange Area to the satisfaction of the Board in accordance with paragraph 3 (*Reinstatement of Damage*) of Part 3 of (*General Matters*) and shall comply with the requirements in paragraphs 3 (*Reinstatement of Damage*) and 4 (*Repair of Defects*) of Section 3 (*General Matters*) of this Schedule Part 31; and
- 1.5.6 Project Co shall and shall procure that all Project Co Parties shall comply with and permit access to the Orange Area in accordance with Clause 9 (*Nature of Land Interests*) including without limitation paragraph 11 of Section 2 (*Reserved Rights*) of Schedule Part 5 (*Land Matters*) of this Agreement; and
- 1.5.7 Project Co shall be liable and the provisions of Clause 49.1 (*Project Co Indemnities to Board*) of this Agreement shall apply for the consequences of failing to comply with and/or any breach of and/or any negligent act in complying with the requirements in this paragraph 1 of Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) of Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31 and/or the losses which may be suffered or incurred by any Campus Party as a result of any act or omission of Project Co and/or a Project Co Party exercising any of the rights and/or performing any of its obligations and/or failing to do so including without limitation costs of rectification as a consequence of any damage to the Orange Area, and/or any service media, buildings, structures and others erected thereon and any plant, machinery and equipment within the Orange Area.

### **Drainage Proposals**

2. In the event the route, depth, size or condition of any existing service media within the Orange Area is found to be different from the Supplemental Drainage Proposal with the result that the Supplemental Drainage Proposal cannot be implemented and requires to be amended then:

- 2.1 Project Co shall provide written notice to the Board in the form of notice set out in Annex 2 of Part B of Appendix 5 of this Schedule Part 31 together with information outlining the details of the issue with the existing service media and providing an amended Supplemental Drainage Proposal (the "**Amended Supplemental Drainage Proposal**") with such additional detail, information and drawings in relation to Amended Supplemental Drainage Proposal as are available. The Board shall deliver a copy of the Amended Supplemental Drainage Proposal to Consort not later than two (2) Business Days of receipt of the Amended Supplemental Drainage Proposal from Project Co;
- 2.2 not later than seven (7) Business Days of the date upon which notice has been given to the Board pursuant to paragraph 2.1, Project Co and the Board shall, and the Board shall use reasonable endeavours to procure that Consort (or the respective representatives thereof) shall meet on site to review the Amended Supplemental Drainage Proposal, inspect the existing service media and, Project Co and the Board, shall use all reasonable endeavours and the Board shall use reasonable endeavours to procure that Consort shall use all reasonable endeavours (acting in good faith) to provisionally agree the Amended Supplemental Drainage Proposal and any variations thereto which will allow the drainage installation(s) to proceed;
- 2.3 not later than five (5) Business Days following the meeting held pursuant to paragraph 2.2 Project Co and the Board shall and the Board shall use reasonable endeavours to procure Consort shall further review the detail of the Amended Supplemental Drainage Proposal proposed at the meeting, with a view to reaching agreement on a final Amended Supplemental Drainage Proposal including updated plans and/or specifications for the drainage installations; and
- 2.4 in the event that the Board have not intimated to Project Co that the Amended Supplemental Drainage Proposal has been agreed by the Board and Consort by the date seven (7) Business Days after the date of the meeting held pursuant to paragraph 2.3 then the Board shall, where the Amended Supplemental Drainage Proposal is not agreed by Consort if requested to do so by Project Co, refer the determination of the Amended Supplemental Drainage Proposal to the Independent Expert (who in this case, in the event of a failure by the Board and Consort to agree on the proposed expert, shall be nominated by the Institution of Engineering and Technology, Institution of Mechanical Engineers or the Chartered Institution of Building Services Engineers, as appropriate). The Independent Expert shall act as an expert and will accept as a condition of his appointment that he shall give a decision within five (5) Business Days of his appointment. The Independent Expert shall require to determine the amendments that should be made to the Drainage Proposal to enable the drainage installations to proceed within the Orange Area while taking into account the need to protect the existing service media within the Orange Area serving the RIE Site and/or RIE Facilities and the requirement for the Board and/or any Board Party and/or Consort and/or any Consort Party to access such service media in order to comply with its maintenance obligations. Before nominating a person to act as Independent Expert or agreeing to the nomination by Consort the Board shall take account of any reasonable representations made by Project Co with regard to the identity of the proposed Independent Expert. In referring matters to the Independent Expert the Board shall give due regard to any written representations received from Project Co which the Board acting reasonably consider are proper and reasonable and shall keep Project Co advised as to all communications to and from the Independent Expert. The decision of the Independent Expert shall be final and binding on the Board, Project Co and Consort. In the event that the Independent Expert decides wholly or partly in favour of Consort, Project Co shall meet any award as to the costs of and associated with the referral proceedings including without limitation the costs of the Independent Expert, Consort, the Board and any other party involved in the referral.
- 2.5 Project Co shall and shall procure that Project Co Parties shall comply with and the provisions of paragraphs 1 and 2 and 5 of Section 5 (*Access Areas and Drainage*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 shall apply in respect of any matters carried out pursuant to the Amended Supplemental Drainage Proposal agreed or determined pursuant to paragraph 2 of

this Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) of Part 2 (*Interface Proposals Procedure*) of this Schedule Part 31.

### Section 3

#### Amended Service Proposal (Service Strip and Foul Service Strip)

1. In the event that the route, depth, size or condition of any existing service media within the Service Strip or the Foul Service Strip (as applicable) is found to be different from the Service Proposal, with the result that the Service Proposal cannot be implemented and requires to be amended then:
  - 1.1 Project Co shall provide written notice to the Board in the form of notice set out in Annex 2 and/or Annex 4 of Part B of Appendix 7 of this Schedule Part 31 as applicable of how the Service Proposal cannot be implemented and the changes required together with details outlining the issue with the existing service media and providing an amended Service Proposal (the "**Amended Service Proposal**") with such additional detail, information and drawings in relation to Amended Service Proposal. The Board shall deliver a copy of the Amended Service Proposal to Consort;
  - 1.2 not later than seven (7) Business Days following the date upon which notice has been given to the Board pursuant to paragraph 1.1 Project Co and the Board shall and the Board shall use reasonable endeavours to procure that Consort (or the respective representatives thereof) shall meet on site to review the Amended Service Proposal and inspect the existing service media, and the Board and Project Co shall use all reasonable endeavours, and the Board shall use reasonable endeavours to procure that Consort use all reasonable endeavours (acting in good faith) to provisionally agree the Amended Service Proposal and any variations thereto which will allow the service installation(s) to proceed;
  - 1.3 not later than five (5) Business Days following the meeting held pursuant to paragraph 1.2 Project Co and the Board, and the Board shall use reasonable endeavours to procure that Consort shall further review the detail of the Amended Service Proposal proposed at the meeting, with a view to reaching agreement on a final Amended Service Proposal including updated plans and/or specifications for the service installations; and
  - 1.4 in the event that the Board has not intimated to Project Co that the Amended Service Proposal has not been agreed by the Board and Consort by the date seven (7) Business Days after the date of the meeting held pursuant to paragraph 1.2 then the Board shall, where not agreed by Consort and if requested to do by Project Co, refer the determination of the Amended Service Proposal to the Independent Expert (who in this case, in the event of a failure by the Board and Consort to agree on the proposed expert, shall be nominated by the Institution of Engineering and Technology, Institution of Mechanical Engineers or the Chartered Institution of Building Services Engineers, as appropriate). The Independent Expert shall act as an expert and will accept as a condition of his appointment that he shall give a decision within five (5) Business Days of his appointment. The Independent Expert shall require to determine the amendments that should be made to the Amended Service Proposal to enable the service installations to proceed within the Service Strip or the Foul Service Strip (as applicable) while taking into account the need to protect the existing service media within the Service Strip or the Foul Service Strip (as applicable) serving the Campus Site and/or Campus Facilities and the requirement for the Board and/or any Board Party and/or Consort and/or any Consort Party to access such service media in order to comply with its maintenance obligations. Before nominating a person to act as Independent Expert or agreeing to the nomination by Consort the Board shall take account of any reasonable representations made by Project Co with regard to the identity of the proposed Independent Expert. In referring matters to the Independent Expert the Board shall give due regard to any written representations received from Project Co which the Board acting reasonably consider are proper and reasonable and shall keep Project Co advised as to all communications to and from the Independent Expert. The decision of the Independent Expert shall be final and binding on the Board, Project Co and Consort. In the event that the Independent Expert decides wholly or

partly in favour of Consort, Project Co shall meet any award as to the costs of and associated with the referral proceedings including without limitation the costs of the Independent Expert, Consort, the Board and any other party involved in the referral; and

- 1.5 Project Co shall and shall procure that Project Co Parties shall comply with and the provisions of paragraphs 1 and 2 and 5 of Section 5 (*Access Areas and Drainage*) and with Section 6 (*Service Strip and Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) of this Schedule Part 31 shall apply in respect of any matters carried out pursuant to the Amended Service Proposal agreed or determined pursuant to this Section 3.

### Part 3

#### General Matters

#### 1. Interface Proposals

- 1.1 Project Co shall comply with and implement the Works and where applicable provide the Services in accordance with all of the Interface Proposals.
- 1.2 Wherever in this Schedule Part 31 Project Co has an obligation to perform or comply with any matter, Project Co shall procure that Project Co Parties shall perform or comply with any such matter.
- 1.3 Not Used.
- 1.4 Whenever Project Co has given a notice pursuant to any of the following provisions of this Schedule Part 31, namely:
- 1.4.1 paragraphs 1.2, 2.1 and/or 2.4 of Section 1 (*Construction Access*) of Part 1;
  - 1.4.2 paragraph 1.1.2 of Section 2 (*Operational Construction Access*) of Part 1;
  - 1.4.3 paragraph 1.1 of Section 3 (*Site Compound/Car Park E*) of Part 1;
  - 1.4.4 paragraphs 1.1, 1.3.1 and/or 4.1.1 of Section 5 (*Access Areas and Drainage*) of Part 1;
  - 1.4.5 paragraph 1 of Section 1 (*Oversail*) of Part 2;
  - 1.4.6 paragraphs 1.1, 1.5.1 and/or 2.1 of Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) of Part 2; and/or
  - 1.4.7 paragraph 1.1 of Section 3 (*Amended Service Proposal*) of Part 2,

proposing to undertake any works and/or carry out any works of repair, maintenance, replacement and/or renewal pursuant to the relevant provisions of this Schedule Part 31 on, over or under any part of the Retained Site and/or Retained Estate ("**Project Co's Activities**"), then notwithstanding any other provision of this Schedule Part 31, where the Board is aware of any clinical and/or other related activities and/or operations which are being or which it is proposed will be carried out in that part of the Retained Site and/or Retained Estate which would be affected by Project Co's Activities, then the Board shall refer the matter to the Little France Campus Working Group for consideration and the Board may request having regard where appropriate to any recommendation of the Little France Campus Working Group that any of the Project Co Activities, subject to Clause 5.2.7 (*General Standards*), be rescheduled to such other time as may be reasonably required by the Board having regard to the nature, extent and duration of the clinical and/or other related activities and/or operations and to Project Co's Activities.

#### 2. Schedules of Condition

- 2.1 Where in this Agreement the condition of an area is to be recorded in a Schedule of Condition the following provisions shall apply:
- 2.1.1 the Schedule of Condition will comprise photographs along with, if necessary to properly record the condition of the area, a written commentary together with such specification and drawings as are available of any service media running through, under and over the relevant area and any buildings, structures and others erected thereon and any plant, machinery and equipment located thereon. The Schedule of Condition shall record that the service media is operating normally and any buildings, structures and others erected thereon and any plant, machinery and equipment located thereon are defective, except to the extent that any performance

issues or defects are known to Consort and/or the Board (the Board being obliged to take account of any representations from Project Co which the Board acting reasonably consider are proper and reasonable as to any such performance issues or defects), in which case the Schedule of Condition shall make reference to such performance issues or defects. A reference in the Schedule of Condition to service media operating normally shall not infer that as at the date of the Schedule of Condition the service media was free of latent or other defects, only that as at that date Consort and/or the Board were not aware of any performance issues or defects;

- 2.1.2 the Board shall and shall use reasonable endeavours to procure Consort shall mutually appoint a chartered surveyor who is a member of a leading firm of surveyors as may be nominated by agreement between the Board and Consort or in default of agreement appointed by or on behalf of the chairman (or senior office holder at the time available) of the Scottish Branch of The Royal Institution of Chartered Surveyors (as constituted, reconstituted, formed or reformed from time to time) to undertake an inspection of the relevant area and prepare a Schedule of Condition of that area not later than ten (10) Business Days from the appointment. Before nominating a surveyor or agreeing to the appointment of a surveyor nominated by Consort the Board shall consult with Project Co and shall take account of any reasonable representations made by Project Co with regard to the identity of the proposed surveyor;
- 2.1.3 on determination of the Schedule of Condition the Schedule of Condition will be prepared in triplicate and a hard copy will be provided to each of Project Co, the Board and Consort;
- 2.1.4 Project Co shall be responsible for the fees of the chartered surveyor appointed pursuant to paragraph 2.1.2.
- 2.1.5 where the Schedule of Condition is required prior to commencing works and/or an activity, and/or taking access and/or taking occupation and/or exercising any rights and/or obligations then the relevant works, activity, access, occupation, rights cannot be carried out and/or exercised in the relevant area until receipt by the Board of the Schedule of Condition in accordance with paragraph 2.1.3.

### 3. Reinstatement of Damage

- 3.1 Where in this Agreement Project Co are entitled to occupy or use an area outwith the Site in connection with the Works and/or the Facilities (such as Car Park E, the Yellow Area and/or Petrol Station Site or the Orange Area) then the following provisions shall apply (with any reference to the area being deemed to include a reference to any service media, buildings, structures, plant, machinery and/or equipment and landscaping located on, under or within the area);
- 3.1.1 Project Co shall give the Board at least fifteen (15) Business Days in the form of relevant notices as set out in Part A and/or Part B of Appendix 10 of this Schedule Part 31 as applicable prior notice of the date upon which Project Co shall vacate and cease using the relevant area (the "**Vacation Date**");
- 3.1.2 subject to paragraph 3.2, on or before the Vacation Date Project Co shall (a) deliver to the Board all information showing or describing the Works that have been carried out within the relevant area including without limitation, as built drawings, O&M manuals and if applicable testing and community records and certification; and (2) reinstate the area to no worse condition than that which existed prior to Project Co taking occupation of or using the relevant area, such condition to be as evidenced by the Schedule of Condition prepared prior to Project Co's occupation and/or use; and
- 3.1.3 on completion of the reinstatement works pursuant to paragraph 3.1.2 to the Board's satisfaction, the condition of the relevant area shall be recorded in a further Schedule of Condition to be prepared pursuant to paragraph 2.
- 3.1A Following Project Co's completion of the reinstatement works:

- 3.1A.1 in the event that the Board considers that Project Co have failed to properly reinstate the relevant area pursuant to paragraph 3.1.2 to the Board's satisfaction, the Board or others in its behalf shall notify Project Co of the alleged failure within the period of fifteen (15) Business Days following the Vacation Date;
- 3.1A.2 following service of a notice by or on behalf of the Board pursuant to paragraph 3.1A.1 the Board and Project Co (or their respective representatives) shall as soon as reasonably practicable arrange a joint inspection of the relevant area and the alleged failure and the Independent Tester and any other Campus Parties and/or their representatives will be entitled to attend such inspection;
- 3.1A.3 the Board and Project Co shall act reasonably and in good faith in considering and agreeing whether the failures notified by or on behalf of the Board pursuant to paragraph 3.1A.1 are failures caused by Project Co and/or any Project Co Party failing to comply with their obligations pursuant to paragraph 3.1.2;
- 3.1A.4 where it is agreed or determined that Project Co and/or any Project Co Party has failed to properly reinstate the relevant area pursuant to paragraph 3.1.2 to the Board's satisfaction, Project Co shall and shall ensure any Project Co Party carry out the works to remedy such failure within a reasonable period (given the nature and extent of the failure) (but in any event no later than ten (10) Business Days following such agreement or determination) failing which the Board and/or any party on its behalf and/or any other Campus Party or parties on their behalf shall be permitted to make good the damage and/or reinstatement at Project Co's cost;
- 3.1A.5 Project Co shall give the Board notice of the completion of the works required in order to remedy the failure which it has been agreed or determined is the Project Co's responsibility pursuant to this paragraph 3 and its vacation of the relevant area, and the Board shall have fifteen (15) Business Days to intimate any alleged failures following the date notified by Project Co to the Board pursuant to this paragraph 3.1A.5. The procedure set out in paragraphs 3.1A.2 to 3.1A.5 shall be repeated in relation to further alleged failures notified by the Board pursuant to this paragraph 3.1A.5 until such time as it is agreed or determined that Project Co has complied with their obligations in terms of paragraph 3.1.2 to the Board's satisfaction.
- 3.2 For the avoidance of doubt Project Co's obligation to reinstate in terms of paragraph 3.1 shall not apply to areas to the extent that those areas have purposefully changed pursuant to the carrying out of the Works on those areas (for example, by the construction on those areas of new roads, footpaths etc).
- 3.3 In the event Project Co fails to reinstate or any area has not been reinstated in accordance with this paragraph 3, then Project Co shall be liable and shall indemnify and keep the Board indemnified at all times from and against all Direct Losses (including without limitation costs of rectification) which may be suffered or incurred and/or sustained by the Board and/or any Campus Party and/or liability including all actions, proceedings, costs, claims and demands which may be suffered and/or incurred by and/or made by any party against the Board and/or any Campus Party, where any Campus Party has carried out works to reinstate an area pursuant to paragraph 3 (*Reinstatement of Damage*) of this Part 3 (*General Matters*) of this Schedule Part 31.
- 4. Repair of Defects**
- 4.1 Notwithstanding any other provisions of this Agreement as regards Defects and without prejudice to the continuing liability of Project Co for any Defects in or arising out of or as a consequence of the Works, Project Co shall make good any defects in any of the Works as notified to Project Co by or on behalf of the Board and where any such defects are in areas outwith the Site then Project Co shall only be permitted to enter upon areas outwith the Site which have previously been occupied by Project Co in connection with the carrying out of the Works to make good defects which appear in:
- 4.1.1 the reinstatement works carried out by or on behalf of Project Co pursuant to paragraph 3 (*Reinstatement of Damage*); or

- 4.1.2 the works carried out by Project Co to those parts of the Access Areas where Project Co carry out works pursuant to Section 5 (*Access Areas and Drainage*) and/or Section 6 (*Service Strip and/or Foul Service Strip*) of Part 1 (*Interface Construction Issues and Interface Proposals*) and/or any Amended Service Proposal and/or Access Strategy agreed or determined pursuant to Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) and Section 3 (*Amended Service Proposal*) of this Schedule Part 31; or
- 4.1.3 the Retained Estate Handback Infrastructure,
- 4.1.4 Project Co shall notify the Board when the defects referred to in paragraph 4.1 have been made good.

during the period of three (3) Months following the Vacation Date or, if later, the period of three (3) months from the date that the reinstatement works in an area have been completed by or on behalf of Project Co in accordance with paragraph 3.1A above or otherwise by agreement with the Board.

#### 4.1A.

- 4.1A.1 Following service of a notice by or on behalf of the Board pursuant to paragraph 4.1 the Board and Project Co (or their respective representatives) shall as soon as reasonably practicable arrange a joint inspection of the relevant area and the alleged Defects and the Independent Tester and any other Campus Parties or their representatives will be entitled to attend such inspection;
- 4.1A.2 The Board and Project Co shall act reasonably and in good faith in considering and agreeing whether the defects notified by or on behalf of the Board pursuant to paragraph 4.1 are Defects.
- 4.1A.3 where it is agreed or determined that the defects are Defects, Project Co shall and shall ensure that any Project Co Parties carry out the works to repair the Defects within a reasonable period (given the nature and extent of the defects) (but in any event no later than 10 Business Days following the date of such agreement or determination), failing which the Board and/or any party on its behalf and/or any other Campus Party or parties on their behalf shall be permitted to make good the Defects at Project Co's cost.

- 4.2 Without limiting any other rights of the Board or the obligations of Project Co as regards any (1) alleged failure of Project Co and/or any Project Co Party to comply with paragraph 3 and/or (2) Defect where, in either case, in the reasonable opinion of the Board, the alleged failure and/or any Defect poses an immediate risk to the health and safety of the users of the relevant area and this risk cannot reasonably be mitigated (for example, by cordoning off the area in question) without causing material disruption to the operation of the Campus Site and/or Campus Facilities or the relevant area then the Board shall be entitled to and/or others on its behalf may take immediate action to remedy the alleged failure and/or Defect at Project Co's cost and shall not require to afford Project Co an opportunity to remedy the alleged failure and/or Defect.
- 4.3 In the event Project Co fails to remedy any Defects and/or such Defects have not been rectified in accordance with this paragraph 4, Project Co shall be liable and shall indemnify and keep the Board indemnified at all times from and against all Direct Losses (including without limitation costs of rectification) which may be suffered or incurred and/or sustained by the Board and/or any Campus Party and/or liability including all actions, proceedings, costs, claims and demands which may be suffered and/or incurred by and/or made by any party against the Board and/or any Campus Party, where any Campus Party has carried out works to remedy a defect pursuant to paragraph 4.2 of this Part 3 (*General Matters*) of this Schedule Part 31.

## 5. No Disruption

Project Co shall co-ordinate with the Campus Parties' operations on the Site, the Retained Site and Off-Site and/or in the Facilities and/or the Retained Estate and shall take all reasonable care to ensure that it does not interfere with the operations of any Campus Party.

**6. Notices**

- 6.1 The notices issued by Project Co to the Board pursuant to this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*) Appendix 13 (*Final Form Notices*) prior to the Commencement Date shall be deemed by the Board to be valid and compliant pursuant to the terms of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*).
- 6.2 The Board further confirms that its permission to Project Co to take construction access to and egress from the Site for the carrying out and completion of the Works over the Orange Area as contemplated by paragraph 2.1 of Section 1 of Part 1 of this Schedule Part 31 (*Consort interface with the Campus Site and/or Campus Facilities*) shall hereby be deemed to be granted, subject to Project Co complying with the Construction Access Proposal and TMS.

**APPENDIX 1**

**Part A - Construction Access Proposal**

The Construction Access Proposal is the Construction Access Proposal as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets Part A (*Construction Access Proposal*) of Appendix 1 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement.

## APPENDIX 1

## PART B: Form of Notices for Construction Phase

## ANNEX 1: Construction Access over the Yellow Area and/or Petrol Station Site)

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Minimum twenty (20) Business Days prior to commencing works to hoard of affected part of Yellow Area to form the Construction Access.		Paragraph 1.2 of Section 1 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[ ]		<b>Board:</b> [ ]	<b>Project Co:</b> [ ]
<b>Description of Works:</b>			
Works to form Construction Access in the Yellow Area shown [ ] on the plan [ ] attached and as more particularly described in the specification attached.			
<b>Area or areas of the Retained Site where access will be required</b>			
Those areas in the Yellow Area shown [ ] on the plan [ ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert a date not less than twenty (20) Business Days after the date of this notice]			
<b>Schedule of Condition:</b>			
A Schedule of Condition of the Yellow Area has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this form of notice].			
<b>Construction Access Strategy:</b>			
Project Co shall comply or shall procure compliance with the Construction Access Proposal when carrying out the works to form the Construction Access.			
<b>Hoarding off Yellow Area:</b>			
Upon commencement of the works to form the Construction Access, Project Co shall or shall procure that the Yellow Area shall be securely hoarded off [in the following manner.....and with the ....hoarding – insert list of any information Board/Consort require about sequence of operations – including starting location, direction of working, and finishing location (if relevant); details of signage; illustrated routes for contractors and staff/patients/visitors.]			
<b>Identity of contractor:</b>			
Project Co shall or shall procure that the works shall be carried out by [identity of contractor].			
<b>Supervision of works:</b>			
Project Co shall or shall procure that the works are being supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]			
<b>Description of materials:</b>			
Project Co shall procure that the hoarding materials are [ ] and will be delivered as follows [delivery			

schedules, vehicle size/type, access requirements, off-loading, storage].
<b>Board requirements:</b>
Project Co shall comply or shall procure compliance with [the Board's and/or any other applicable Permit to Work System and/or any applicable Off-Site site rules and notification of any permits which are needed for its work to be issued by or on behalf of the Board and/or other parties with an interest in the affected part of the Retained Site and/or Retained Estate].
<b>Other requirements of Schedule Part 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in paragraph 1 of Section 1 of Part 1 of Schedule Part 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.
<b>Issued by: [     ] for Project Co:</b>

**PART C: Form of Notices for Operational Term**

**N/A**

**APPENDIX 2**

**PART A - TRAFFIC MANAGEMENT STRATEGY**

The Traffic Management Strategy is the Traffic Management Strategy as on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out Part A (*Traffic Management Strategy*) of Appendix 2 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement.

## APPENDIX 2

## Part B – Form of Notices for Construction Phase

## Annex 1: Construction Access over the Orange Area

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
[Not less than ten (10) Business Days when Project Co considers the requirements in paragraph 2.1 of Section 1 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement are not possible or reasonably practicable] OR [Not less than twenty (20) Business Days of the date upon which Project Co intends to first take access over the Orange Area, following a notice from the Board pursuant to paragraph 2.4 of Section 1 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.]		[Paragraph 2.1] OR [Paragraph 2.4] of Section 1 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[        ]		<b>Board:</b> [        ]	<b>Project Co:</b> [        ]
<b>Description of requirements:</b>			
Construction access to the Site is required for the Works over the Orange Area shown on plan [        ] attached.			
<b>Reason for access over Orange Area</b>			
[Project Co hereby give notice pursuant to paragraph 2.1 of Section 1 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement that Project Co considers:			
1	it is not possible for Project Co to construct and use a Construction Access to the Site over the Yellow Area which complies with Law; or		
2	it is not reasonably practicable for Project Co to construct and use a suitable Construction Access to the Site over the Yellow Area from a technical and/or safety perspective; or		
3	it is technically feasible to construct and use a Construction Access to the Site over the Yellow Area but the Construction Access would not represent value for money to the Board when compared to an alternative traffic strategy involving access to and egress from the Site over the Orange Area; or		
4	a Construction Access to the Site is (or is to be) constructed over the Yellow Area by Project Co but it is not possible or it is not reasonably practicable from a technical and/or safety perspective for Project Co to carry out the Works without a secondary construction access/egress route over the Orange Area during all or part(s) of the Construction Phase.]*		
OR			
[Receipt of notice from the Board pursuant to paragraph 2.4. of Section 1 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.]*			
[*delete as applicable]			
<b>Area or areas of the Retained Site where access will be required:</b>			

The Orange Area shown on plan [ ] attached.
<b>Date or dates on which access will be required:</b>
[Insert date not less than [ten (10)] OR [twenty (20)] Business Days after the date of this notice]
<b>Schedule of Condition:</b>
A Schedule of Condition of the Orange Area has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice].
<b>Traffic Management Strategy:</b>
Project Co shall comply with the TMS, which in turn shall comply with the requirements of paragraph 2.2 of Section 1 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the Orange Area.
<b>Responsibility for traffic management:</b>
Project Co shall be responsible for management of traffic across the Orange Area and primary responsibility for health and safety of all users of the Orange Area and road traffic signage and pedestrian crossings within the Orange Area.
<b>Traffic management arrangements:</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys:</b>
Project Co anticipates the following number of journeys shall be [ ].
<b>Timing of access:</b>
Project requests that the time of day when access is required shall be [ ].
<b>Construction traffic:</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic:</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc ].
<b>Compliance with paragraph 2.3 of Section 1 of Part 1 of Schedule 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
Project Co shall comply or shall procure compliance of the following additional requirements of the Board:
<ol style="list-style-type: none"> <li>1 appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the TMS envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area);</li> <li>2 the imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;</li> </ol>

- 3 restrictions on the periods during which construction access may be taken;
- 4 the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
- 5 the re-sequencing (and/or temporary cessation) of the performance of elements of the Works; and
- 6 other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities
7. [others?]

**Other requirements of Schedule Part 31(*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in paragraph 1 of Section 1 of Part 1 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

**APPENDIX 3**

**Part A - Oversail Strategy**

The Oversail Strategy is the Oversail Strategy as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out Part A (*Oversail Strategy*) of Appendix 3 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement

## APPENDIX 3

## Part B – Form of Notices for Construction Phase

## Annex 1: Additional Oversail Strategy

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not later than ten (10) Business Days prior to any proposed period or crane oversailing, which is not covered by the Oversail Strategy.	Paragraph 1 of Section 1 (Oversail) of Part 2 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[       ]	Board: [       ]	Project Co: [       ]
<b>Description of requirements:</b>		
Proposed oversailing for [       ] by [       ] crane, over the area shown on plan [       ] attached.		
<b>Area or areas of the Campus Site and/or Campus Facilities Site where oversailing will be required:</b>		
The area(s) shown on plan [       ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice].		
<b>Additional Oversailing Strategy:</b>		
Attached is the Additional Oversailing Strategy for the proposed period of oversailing which includes:		
<ul style="list-style-type: none"> <li>• A programme of proposed oversailing activities;</li> <li>• Risk assessments; and</li> <li>• Method Statements for the erection, operation and dismantling of the crane</li> </ul>		
Project Co confirms the Additional Oversailing Strategy has been prepared having regard to the requirements of paragraph 2 of Section 1 (Oversail) of Part 2 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, including without limitation paragraph 2 of Section 4 (Oversail) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.		
Project Co shall comply with any other measures and operations reasonably requested by the Board for the proper implementation of the Additional Oversail Strategy including measures to reduce any health and safety risks to all persons at the Campus Site and/or Campus Facilities [ <i>list any if known here</i> ]		
Project Co confirms that if requested by the Board, Project Co shall attend any meeting and/or provide information the Board may reasonably request in support of the Additional Oversail Strategy.		
<b>Other requirements of Schedule Part 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>		
Project Co acknowledges and shall comply and/or shall procure compliance with the requirements set out in Section 1 (Oversail) of Part 2 ( <i>Interface Proposals Procedure</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.

## APPENDIX 4

## Part B – Form of Notices for Construction Phase

## ANNEX 3 – Cycle Path Works in the Yellow Area

Notice Period:		Notice Order Provisions:	
Not less than [twenty (20) Business Days] or [ten (10) Business Days] of the date upon which Project Co intends to carry out works to form Cycle Path Works in the Yellow Area.		[Paragraph 1.1 (relative to paragraph 1.1.6) of Section 5 (Access Areas and Drainage) of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
OR		OR	
[Not less than twenty (20) Business Days of the date upon which Project Co intends to occupy the relevant parts of the Access Area, following a notice from the Board pursuant to paragraph 1.3.1 of Section 5 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.]		[Paragraph 1.3.1 ( <i>Access Areas and Drainage</i> ) of Section 5 of Part 1] of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.]	
Date of Notice:		Reference:	
[       ]		Board: [       ]	Project Co: [       ]
Description of requirements:			
Works to [form the Cycle Path Works (a cycle path/ reconfigure landscaped areas)] within the Yellow Area shown on plan [       ] attached.			
Area or areas of the Retained Site where access will be required:			
The Yellow Area shown on plan [       ] attached.			
Date or dates on which access will be required:			
[Insert date not less than [twenty (20) Business Days] OR [ ten (10) Business Days] after the date of this notice].			
Schedule of Condition:			
A Schedule of Condition of the Access Area being occupied has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice].			
Access Strategy <sup>5</sup> :			
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the Orange Area.			

<sup>5</sup> Some of the Yellow Area is adjacent to the Orange Area so it is possible the works in the Yellow Area could require some occupation of the Orange Area. These provisions can be deleted if there is no impact on the Orange Area

<b>Responsibility for traffic management<sup>6</sup>:</b>
Project Co shall will be responsible for management of traffic across the Orange Area and primary responsibility for health and safety of all users of the Orange Area and road traffic signage and pedestrian crossings within the Orange Area
<b>Arrangements for traffic management:</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys:</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access:</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic:</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic:</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
As per [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
<ol style="list-style-type: none"> <li>1 have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) and shall be responsible for be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area;<sup>7</sup></li> <li>2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;</li> <li>3 ensure restrictions on the periods during which construction access may be taken;</li> <li>4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;<sup>8</sup></li> <li>5 re-sequencing (and/or temporary cessation) the performance of elements of the Works/activities; and</li> </ol>

<sup>6</sup> Same as last footnote

<sup>7</sup> Only applicable if Orange Area (not Yellow Area)

<sup>8</sup> Per last footnote

6 implement other reasonable measures which should be taken (1) to ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation, and (2) to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;

7. [others?]]

**Hoarding off Access Area:**

The affected part of the Access Areas shall be securely hoarded off by Project Co.

**Other requirements of Schedule Part 31(*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in paragraph 1 (*Access Areas*), and on completion of the works, paragraph 5 (*Other General Matters*) of Section 5 (*Access Areas and Drainage*) of Part 1, and the applicable completion and vacation requirements of Part 3 (*General Matters*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

## APPENDIX 4

## Part C – Form of Notices for Operational Term

**ANNEX 5 - Access To RIE Site And RIE Facilities to maintain, repair, renew the Facilities (which are not Service Strip, Foul Service Strip, PTS, ICT, Fire Alarm System or the Joint) during the Operational Term**

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities to maintain, repair, renew the Facilities (which are not Service Strip, Foul Service Strip, PTS, ICT, Fire Alarm System or the Joint) during the Operational Term.		Paragraph 1.1.2 of Section 2 ( <i>Operational Construction Issues</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>[NB THE NOTICE PERIOD DOES NOT APPLY IN AN EMERGENCY WHERE AS MUCH NOTICE AS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>			
<b>Date of Notice:</b>		<b>Reference:</b>	
[       ]		Board: [       ]	Project Co: [       ]
<b>Description of requirements:</b>			
[       ] works of [maintenance, repair and renewal] to [ <i>insert description of service media etc</i> ] serving the Facilities which requires access over the parts of the RIE Site and/or RIE Facilities as shown on plan [       ] attached.			
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>			
The area(s) shown on plan [       ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert date not less than ten (10) Business Days after the date of this notice]. <b>[NB: EXCEPT IN AN EMERGENCY WHEN AS MUCH NOTICE AS IS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>			
<b>Schedule of Condition:</b>			
A Schedule of Condition of the of the relevant part of the RIE Site and/or RIE Facilities has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] <sup>10</sup> OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]			

<sup>10</sup> This is required where the area affected is covered by another express provision of Schedule 31 which requires a Schedule of Condition to be prepared

<b>Joint Inspection:</b>
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [ ] <sup>11</sup>
<b>[Access Strategy (where applicable to the affected part of RIE Site):<sup>12</sup></b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of paragraph 1.2 of Section 2 of Part 2 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the RIE Site affected by this notice
<b>Responsibility for traffic management (where the Access Strategy also applies and the relevant area is in the Orange Area):</b>
Project Co shall will be responsible for management of traffic across the part of the RIE Site which is in the Orange Area affected by this notice and primary responsibility for health and safety of all users of this part and road traffic signage and pedestrian crossings within this part.
<b>Arrangements for traffic management (where the Access Strategy also applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]
<b>Journeys (where the Access Strategy also applies):</b>
Project Co anticipates the following number of journeys shall be [ ].
<b>Timing of access (where the Access Strategy also applies):</b>
Project requests that the time of day when access is required shall be [ ].
<b>Construction traffic (where the Access Strategy also applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic (where the Access Strategy also applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [paragraphs 1.2 to 1.4 of Section 2 of Part 2 of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement (where the Access Strategy also applies):</b>
As per paragraph paragraphs 1.2 to 1.4 of Section 2 of Part 2 of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:

<sup>11</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

<sup>12</sup> If the relevant area is also an "Access Area " to which the Access Strategy applies then the following provisions that apply to Access Strategy will also apply to this area. The Access Strategy will apply where the works are to surface water drainage connections as these are in the Orange Area.

- 1 be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area;<sup>13</sup>
- 2 ensure the imposition, where appropriate, of a suitable Permit to Work System which for the avoidance of doubt includes the Board's and/or any Board Party's and/or any Consort and/or Consort Party's Permit to Work System, appropriate to the nature of the activities;
- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;<sup>14</sup>
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the activities; and
- 6 implement other reasonable measures which should be taken to (1) ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation, and (2) reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]]

**Hoarding off Access Area (where the Access Strategy also applies):**

The affected part of the Access Areas shall be securely hoarded off by Project Co.]

**Other requirements of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in paragraph 1 (*Access to the RIE and RIE Facilities*) of Section 2 of Part 1 and on completion and vacation of the affected area, the applicable requirements of Part 3 (*General Matters*), of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

**APPENDIX 5**

**Part A - Supplemental Drainage Proposal**

The Supplemental Drainage Proposal is the Supplemental Drainage Proposal as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out Part A (*Supplemental Drainage Proposal*) of Appendix 5 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement.

## APPENDIX 5

## Part B – Form of Notices for Construction Phase

## Annex 1 - Constructing in Access Areas - Surface Water Drainage Works within the Orange Area

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than [twenty (20) Business Days] or [ten (10) Business Days] twenty of the date upon which Project Co intends to carry out the Surface Water Drainage Works connections from the Site to the existing surface water drain within the Orange Area.		[Paragraph 1.1 (relative to paragraph 1.1.4) of Section 5 ( <i>Access Areas and Drainage</i> ) of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[     ]		<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>			
Surface Water Drainage Works connections from the Site to the existing surface water drain within the Orange Area shown on plan [     ] attached.			
<b>Area or areas of the Retained Site where access will be required:</b>			
The Orange Area shown on plan [     ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert date not less than [twenty (20) Business Days] OR [ ten (10) Business Days] after the date of this notice].			
<b>Schedule of Condition:</b>			
A Schedule of Condition of the Access Area being occupied has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice].			
<b>Camera Survey:</b>			
A camera survey to document the condition of the existing surface water drainage system within the RIE Site has been carried out in accordance with paragraph 2.1.3 of Section 5 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement and four (4) hard copies are attached to the Form of Notice (and an electronic version has been delivered to the Board on [insert date]).			
<b>Access Strategy:</b>			
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the Orange Area.			
<b>Responsibility for traffic management:</b>			
Project Co shall will be responsible for management of traffic across the Orange Area and primary responsibility for health and safety of all users of the Orange Area and road traffic signage and pedestrian crossings within the Orange Area			

<b>Arrangements for traffic management:</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys:</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access:</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic:</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic:</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:</b>
As per [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
<ol style="list-style-type: none"> <li>1. have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) and shall be responsible for be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area);<sup>15</sup>;</li> <li>2. ensure the ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;</li> <li>3. ensure restrictions on the periods during which construction access may be taken;</li> <li>4. ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;</li> <li>5. re-sequencing (and/or temporary cessation) the performance of elements of the Works; and</li> <li>6. implement other reasonable measures which should be taken to (1) ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation, and (2) to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities; ;</li> <li>7. [others?]</li> </ol>

<sup>15</sup> Only applicable if Orange Area (not Yellow Area)

<b>Hoarding off Access Area:</b>
The affected part of the Access Areas shall be securely hoarded off by Project Co.
<b>Surface Water Drainage Works:</b>
The Surface Water Drainage Works shall conform to the Initial Drainage Proposal and the Supplemental Drainage Proposal which will comply with paragraph 2 of Section 5 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.
The full details of design of the Surface Water Drainage Works are set out [    ].
The Construction Programme for the Surface Water Drainage Works is set out [            ].
The Project Co's Proposals in relation to the Surface Water Drainage Works are set out [    ].
Project Co acknowledges that the Board and/or any Board Party and/or Consort and/or any Consort Party or any party on behalf of any of them shall be entitled to observe the Surface Water Drainage Works.
<b>Other requirements of Schedule Part 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in paragraph 1 ( <i>Access Areas</i> ) and 2 ( <i>Access Strategy</i> ), and on completion of the works, paragraph 5 ( <i>Other General Matters</i> ) of Section 5 ( <i>Access Areas and Drainage</i> ) of Part 1, and the applicable completion and vacation requirements of Part 3 ( <i>General Matters</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.

## APPENDIX 5

## Part B – Form of Notices for Construction Phase

## Annex 2 - Amended Supplemental Drainage Proposal

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not applicable.	Paragraph 2.1 of Section 2 ( <i>Access Areas and Amended Supplemental Drainage Proposal</i> ) of Part 2 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
The [route, depth, size or condition – insert exact details of the problem] of the existing service media in the Orange Area differs from what has been provided for in the Supplemental Drainage Proposal with the result the Supplemental Drainage Proposal cannot be implemented and requires to be amended		
<b>Amended Supplemental Drainage Proposal:</b>		
The Amended Supplemental Drainage Proposal is attached and includes: <ul style="list-style-type: none"> <li>• Additional details of works</li> <li>• Information and drawings</li> </ul>		
<b>Meeting and inspection:</b>		
Project Co agrees to meet the Board (and if required Consort) at site not later than seven (7) Business Days after this notice has been given to the Board to review the Amended Supplemental Drainage Proposal and inspect the existing service media and to attend any further meetings within five (5) Business Days of the meeting at site (as required) to endeavour to agree the Amended Supplemental Drainage Proposal.		
<b>Schedule of Condition:</b>		
A Schedule of Condition of the Access Area being occupied has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice]		
<b>Camera Survey:</b>		
A camera survey to document the condition of the existing surface water drainage system within the RIE Site has been carried out in accordance with paragraph 2.1.3 of Section 5 of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement and four hard copies are attached to the Form of Notice (and an electronic version has been delivered to the Board on [insert date]).		
<b>Access Strategy:</b>		
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule Part 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the Orange Area.		

<b>Responsibility for traffic management:</b>
Project Co shall will be responsible for management of traffic across the Orange Area and primary responsibility for health and safety of all users of the Orange Area and road traffic signage and pedestrian crossings within the Orange Area
<b>Traffic management arrangements:</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [ identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys:</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access:</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic:</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic:</b>
Project Co's construction traffic will be doing the following activities [ off-loading, etc ].
<b>Compliance with [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
As per [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
<ol style="list-style-type: none"> <li>1 have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) and shall be responsible for be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area);<sup>16</sup>.</li> <li>2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the;</li> <li>3 ensure restrictions on the periods during which construction access may be taken;</li> <li>4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;</li> <li>5 re-sequencing (and/or temporary cessation) the performance of elements of the Works; and</li> <li>6 implement other reasonable measures which should be taken to (1) ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation,</li> </ol>

<sup>16</sup> Only applicable if Orange Area (not Yellow Area)

**APPENDIX 6**

**NOT USED**

**APPENDIX 7**

**Part A - Service Proposal**

The Service Proposal is the Service Proposal as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out the Part A (*Service Proposal*) of Appendix 7 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement

## APPENDIX 7

## Part B – Form of Notices for Construction Phase

## Annex 1 - Access for Works in the Foul Service Strip

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than twenty five (25) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site to construct and lay Foul Water Drainage within the Foul Service Strip.		Paragraph 1 (relative to paragraph 1.1.1 of Section 5 ( <i>Access Areas and Drainage</i> )) and Section 6 ( <i>Service Strip and Foul Service Strip</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[       ]		<b>Board:</b> [       ]	<b>Project Co:</b> [       ]
<b>Description of requirements:</b>			
[       ] works to construct and lay Foul Water Drainage serving the Facilities which requires access over the parts of the RIE Site within the Foul Service Strip (which is with the Orange Area and comprises an Access Area) as shown on plan [       ] attached.			
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>			
The area(s) shown on plan [       ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert date not less than twenty five (25) Business Days after the date of this notice].			
<b>Approvals:</b>			
Approval from [Scottish Water and/or [insert name of any other statutory authority/utility provider with jurisdiction in relation to the works]] to connect to the main sewer on the RIE Site has been obtained and [and a copy is attached to this Form of Notice].			
<b>Schedule of Condition:</b>			
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] <b>[NB THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS]</b>			
<b>Joint Inspection:</b>			
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [       ] <sup>17</sup>			
<b>Service Proposal:</b>			
Project Co acknowledges and shall comply with the Service Proposal.			
<b>Amended Service Proposal (Section 3 of Part 2 of Schedule 31):</b>			

<sup>17</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary  
2526505\_21 652

Project Co acknowledges and shall comply with any applicable Amended Service Proposal.
<b>Access Strategy:</b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Foul Service Strip affected by this notice
<b>Responsibility for traffic management:</b>
Project Co shall will be responsible for management of traffic across the part of the RIE Site which is in the Orange Area of which the Foul Service Strip forms part and is affected by this notice and primary responsibility for health and safety of all users of this part and road traffic signage and pedestrian crossings within this part.
<b>Arrangements for traffic management:</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]
<b>Journeys:</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access:</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic:</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic:</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2 to 1.4 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
As per [paragraph 1.2 of Section 5 of Part 1] OR [paragraph 1.1 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
<ol style="list-style-type: none"> <li>[1] have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and shall be responsible for be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area)];<sup>18</sup>;</li> <li>2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;</li> </ol>

<sup>18</sup> Only applicable if Orange Area (not Yellow Area)

- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the Works; and
- 6 implement other reasonable measures which should be taken to (1) ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation, and (2) to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]

**Hoarding off Access Area:**

The affected part of the Access Areas shall be securely hoarded off by Project Co.

**Method Statements (Paragraph 1.3 of Section 6 of Part 1 of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement):**

The Service Proposal (and if applicable the Amended Service Proposal) does not contain method statements for constructing and laying such service media and Project Co has provided these not less than twenty five (25) Business Days in advance of the date of any proposed works. [and copies of these are attached to this notice.] **[NB THESE METHOD STATEMENTS DO NOT NEED TO BE PROVIDED IN ADVANCE IN AN EMERGENCY]**

**Other requirements of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in:

- paragraph 1 of Section 2 (*Operational Construction Issues*) of Part 1;
- paragraphs 1, and on completion of the works, paragraph 5 of Section 5 (*Access Areas and Drainage*) of Part 1;
- Section 6 (*Service Strip and Foul Service Strip*) of Part 1;
- if applicable, paragraph 1 of Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*);
- Section 3 (*Amended Service Proposal Service Strip and Foul Service Strip*) of Part 2 (*Interface Proposals Procedure*) – and
- the applicable completion and vacation requirements of Part 3 (*General Matters*),

of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

## APPENDIX 7

## Part B – Form of Notices for Construction Phase

## Annex 3 - Access for Works in the Service Strip

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than twenty (20) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site to construct and lay service media for the passage of water, sewage, drainage, or oil, gas, electricity, telephone or other telecommunications in the Service Strip.	Paragraph 1 (relative to paragraph 1.1.1) of Section 5 ( <i>Access Areas and Drainage</i> ) and Section 6 ( <i>Service Strip and Foul Service Strip</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
[     ] works to construct and lay service media for the passage of [water, sewage, drainage, or oil, gas, electricity, telephone or other telecommunications] serving the Facilities which requires access over the parts of the RIE Site within the Service Strip (which is with the Yellow Area and comprises an Access Area) as shown on plan [     ] attached.		
<b>Area or areas of the RIE Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than twenty (20) Business Days after the date of this notice].		
<b>Approvals:</b>		
Approval from [Scottish Water and/or [insert name of any other statutory authority/utility provider with jurisdiction in relation to the works]] to connect to the main sewer on the RIE Site has been obtained and [and a copy is attached to this Form of Notice].		
<b>Schedule of Condition:</b>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>20</sup>		
<b>Service Proposal:</b>		
Project Co acknowledges and shall comply with the Service Proposal.		
<b>Amended Service Proposal (Section 3 of Part 2 of Schedule 31):</b>		
Project Co acknowledges and shall comply with any applicable Amended Service Proposal.		

<sup>20</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary  
2526505\_21 658

<b>Access Strategy:</b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Service Strip affected by this notice
<b>Responsibility for traffic management (where Access Strategy applies):</b>
Project Co shall be responsible for management of traffic across the part of the RIE Site which is in the Orange Area and is affected by this notice and primary responsibility for health and safety of all users of this part and road traffic signage and pedestrian crossings in respect of that area.
<b>Arrangements for traffic management(where Access Strategy applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys(where Access Strategy applies):</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access(where Access Strategy applies):</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic(where Access Strategy applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic(where Access Strategy applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2 to1.4 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
As per paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2 to1.4 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
<p>[1    have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) and shall be responsible for be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area);<sup>21</sup></p> <p>2    ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;</p>

<sup>21</sup> See last footnote  
2526505\_21

- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;<sup>22</sup>
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the Works; and
- 6 implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities, and (2) to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]

**Hoarding off Access Area:**

The affected part of the Access Areas shall be securely hoarded off by Project Co.

**Method Statements (Paragraph 1.3 of Section 6 of Part 1 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement):**

The Service Proposal (and if applicable the Amended Service Proposal does not contain method statements for constructing and laying such service media and Project Co has provided these not less than twenty five (25) Business Days in advance of any proposed works. [and copies of these are attached to this notice.] **[NB THIS METHOD STATEMENTS DO NOT NEED TO BE PROVIDED IN ADVANCE IN AN EMERGENCY]**

**Other requirements of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in:

- paragraphs 1, and on completion of works paragraph 5, of Section 5 (*Access Areas and Drainage*); and
- Section 6 (*Service Strip and Foul Service Strip*) of Part 1; , and
- if applicable paragraph 1 of Section 2 (*Access Areas and Amended Supplemental Drainage Proposal*) and Section 3 (*Amended Service Proposal (Service Strip and Foul Service Strip)*) of Part 2; and
- the applicable requirements of Part 3 (*General Matters*),

of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] <b>[NB: THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS]</b>			
<b>Joint Inspection:</b>			
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>26</sup>			
<b>Service Proposal:</b>			
Project Co acknowledges and shall comply with the Service Proposal.			
<b>Amended Service Proposal (Section 3 of Part 2 of Schedule 31):</b>			

<sup>26</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary  
2526505\_21 667

Project Co acknowledges and shall comply with any applicable Amended Service Proposal.
<b>Access Strategy:</b>
N/A <sup>27</sup>
<b>Hoarding off Access Area:</b>
The affected part of the Access Areas shall be securely hoarded off by Project Co.
<b>Method Statements (Paragraph 1.3 of Section 6 of Part 1 of Schedule Part 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement):</b>
The Service Proposal (and if applicable the Amended Service Proposal does not contain method statements for maintaining, repairing and renewing such service media and Project Co has provided these not less than twenty five (25) Business Days in advance of any proposed works [and copies of these are attached to this notice.] <b>[NB THIS METHOD STATEMENTS DO NOT NEED TO BE PROVIDED IN ADVANCE IN AN EMERGENCY]</b>
<b>Other requirements of Schedule Part 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>
Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in: <ul style="list-style-type: none"> <li>• paragraphs 1 and 2 of Section 2 (<i>Operational Construction Issues</i>) of Part 1;</li> <li>• Section 5 (<i>Access Areas and Drainage</i>) of Part 1;</li> <li>• where applicable, Section 3 of Part 2 (<i>Interface Proposals Procedure</i>); and</li> <li>• the applicable provisions of Part 3 (<i>General Matters</i>),</li> </ul> of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.

**APPENDIX 8**

**Part A - Connection Proposal**

The Connection Proposal is the Connection Proposal as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out Part A (*Connection Proposal*) of Appendix 8 of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement.

## APPENDIX 8

## Part B – Form of Notices for Construction Phase

## Annex 1 - Access to RIE Site and RIE Facilities for Works relating to the ICT

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities in respect of Works relating to the ICT.	Paragraph 1 of Section 7 ( <i>Link Building</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
[     ] works of design and construction of the ICT shown on plan [     ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice].		
<b>Schedule of Condition:<sup>26</sup></b>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>27</sup>		
<b>Interface Output Specification:</b>		
Project Co acknowledges and shall comply with the Interface Output Specification.		
<b>Connection Proposal:</b>		
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:		

<sup>26</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>27</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

- The ICT specifications for the Facilities and the RIE Facilities;
- Design package information for the proposed method of installation of the ICT within the Facilities and the RIE Facilities;
- Proposal for the installation of the ICT within the Facilities and the RIE Facilities;
- [Method Statement for the maintenance and repair of the ICT within the Facilities and the RIE Facilities].

and the Board requires to be satisfied as to the design and methodology for the works proposed.

**[Access Strategy:<sup>30</sup>**

Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, when taking any access over the part of the Service Strip affected by this notice

**Arrangements for traffic management (where the Access Strategy applies):**

Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]

**Journeys (where the Access Strategy applies):**

Project Co anticipates the following number of journeys shall be [     ].

**Timing of access (where the Access Strategy applies):**

Project requests that the time of day when access is required shall be [     ].

**Construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].

**Activities of construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will be doing the following activities [off-loading, etc].

**Compliance with paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31(*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement (where the Access Strategy applies):**

As per paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:

- [1] have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and be responsible for (i) the

<sup>30</sup> The Access Strategy may apply if works to the PTS involved accessing the Orange Area and so pedestrian or vehicular access could be affected although we expect this is unlikely.

	management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area); ] <sup>31</sup>
2	ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;
3	ensure restrictions on the periods during which construction access may be taken;
4	ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area, <sup>32</sup>
5	re-sequencing (and/or temporary cessation) the performance of elements of the Works/activities; and
6	implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities and implement other reasonable measures which should be taken to (1) ensure sufficient and appropriate continued pedestrian and vehicular access to the Campus Site and/or Campus Facilities and part of the Retained Site and/or Retained Estate during the period of occupation, and (2) reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7.	[others?]]
<b>Hoarding off Access Area (where the Access Strategy applies):</b>	
The affected part of the Access Areas shall be securely hoarded off by Project Co.]	
<b>Paragraphs Section 7 of Part 1 and Part 3 of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:</b>	
Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out Section 7 (Link Building) of Part 1 and the applicable requirements of Part 3 (General Matters), of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement.

## APPENDIX 8

## Part B – Form of Notices for Construction Phase

## ANNEX 2 - Access to RIE Site and RIE Facilities during the Works relating to the PTS

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities for Works relating to the PTS.	Paragraph 1 of Section 7 ( <i>Link Building</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
[     ] works of design and construction of the PTS shown on plan [     ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice].		
<b>Schedule of Condition:</b> <sup>33</sup>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>34</sup>		
<b>Interface Output Specification:</b>		
Project Co acknowledges and shall comply with the Interface Output Specification.		
<b>Connection Proposal:</b>		
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:		

<sup>33</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>34</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

- The PTS specifications for the Facilities and the RIE Facilities;
- Design package information for the proposed method of installation of the PTS within the Facilities and the RIE Facilities;
- A proposal for the installation of the PTS within the Facilities and the RIE Facilities;
- [Method Statement for the maintenance, repair, renewal and replacement of the PTS within the Facilities and the RIE Facilities],

and the Board requires to be satisfied as to the design and methodology for the works proposed.

**[Access Strategy:<sup>35</sup>**

Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, when taking any access over the part of the Service Strip affected by this notice

**Arrangements for traffic management (where the Access Strategy applies):**

Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]

**Journeys (where the Access Strategy applies):**

Project Co anticipates the following number of journeys shall be [     ].

**Timing of access (where the Access Strategy applies):**

Project requests that the time of day when access is required shall be [     ].

**Construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].

**Activities of construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will be doing the following activities [off-loading, etc].

**Compliance with paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement (where the Access Strategy applies):**

As per paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:

- [1    have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area];<sup>36</sup>;

<sup>35</sup> The Access Strategy may apply if works to the PTS involved accessing the Orange Area and so pedestrian or vehicular access could be affected although we expect this is unlikely.

<sup>36</sup> Only applicable if Orange Area (not Yellow Area)

- 2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;
- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the Works/activities; and
- 6 implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities and  
(2)reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]]

**Hoarding off Access Area (where the Access Strategy applies):**

The affected part of the Access Areas shall be securely hoarded off by Project Co.]

**Other requirements of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out Section 7 (*Link Building*) of Part 1 and the applicable requirements of Part 3 (*General Matters*), of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

## APPENDIX 8

## Part B – Form of Notices for Construction Phase

## Annex 3 - Access to RIE Site and RIE Facilities for Works relating to the Joint

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities for Works relating to the Joint.	Paragraph 1 of Section 7 (Link Building) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
[     ] works of forming a connection from the Facilities to the Link Building (i.e. the Joint) shown on plan [     ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice].		
<b>Schedule of Condition:<sup>37</sup></b>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice]		
OR		
A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>38</sup>		
<b>Interface Output Specification:</b>		
Project Co acknowledges and shall comply with the Interface Output Specification.		
<b>Connection Proposal:</b>		
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:		

<sup>37</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>38</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

- A Design package for method of connection of the Facilities to the Link Building; and
- A proposal in respect of the connection to the Link Building.

and the Board requires to be satisfied as to the design and methodology for the works proposed.

**[Access Strategy:<sup>39</sup>**

Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, when taking any access over the part of the Service Strip affected by this notice

**Arrangements for traffic management (where the Access Strategy applies):**

Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]

**Journeys (where the Access Strategy applies):**

Project Co anticipates the following number of journeys shall be [     ].

**Timing of access (where the Access Strategy applies):**

Project requests that the time of day when access is required shall be [     ].

**Construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].

**Activities of construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will be doing the following activities [off-loading, etc].

**Compliance with paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2 to 1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement (where the Access Strategy applies):**

As per paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2 to 1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:

- [1] have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area);]<sup>40</sup>;
- 2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;

<sup>39</sup> The Access Strategy may apply if works to the Joint involved accessing the Orange Area and so pedestrian or vehicular access could be affected. Might need a "cherry picker" or other vehicle for above ground level access to maintain

<sup>40</sup> Only applicable if Orange Area (not Yellow Area)

3	ensure restrictions on the periods during which construction access may be taken;
4	ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
5	re-sequencing (and/or temporary cessation) the performance of elements of the Works; and
6	implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities and (2) reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;

## APPENDIX 8

## Part B – Form of Notices for Construction Phase

## Annex 4 - Access to RIE Site and RIE Facilities for Works relating to the Fire Alarm System

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities for Works relating to the Fire Alarm System.	Paragraph 3 of Section 7 (Link Building) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[       ]	<b>Board:</b> [       ]	<b>Project Co:</b> [       ]
<b>Description of requirements:</b>		
[       ] works of design and construction of the interface links between the Fire Alarm System within the Facilities and those within the RIE Facilities shown on plan [       ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [       ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice].		
<b>Schedule of Condition:<sup>41</sup></b>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [       ] <sup>42</sup>		
<b>Interface Output Specification:</b>		
Project Co acknowledges and shall comply with the Interface Output Specification.		
<b>Connection Proposal:</b>		
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:		

<sup>41</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>42</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

- The fire alarm specification for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities;
- Design package information for method of installation for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities;
- A proposal for the interface link between the Fire Alarm System within the Facilities and the RIE Facilities;
- [Method Statement for the maintenance, repair, renewal and replacement of the interface link between the Fire Alarm System within the Facilities and the RIE Facilities],

and the Board requires to be satisfied as to the design and methodology for the works proposed.

**[Access Strategy:<sup>43</sup>**

Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, when taking any access over the part of the Service Strip affected by this notice

**Arrangements for traffic management (where the Access Strategy applies):**

Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]

**Journeys (where the Access Strategy applies):**

Project Co anticipates the following number of journeys shall be [     ].

**Timing of access (where the Access Strategy applies):**

Project requests that the time of day when access is required shall be [     ].

**Construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].

**Activities of construction traffic (where the Access Strategy applies):**

Project Co's construction traffic will be doing the following activities [off-loading, etc].

**Compliance with paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2 to 1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement (where the Access Strategy applies):**

As per paragraph [1.2.1 of Section 5 of Part 1 OR paragraphs 1.2 to 1.4 of Section 2 of Part 2] of Schedule 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. ## Annex 5 - Access to RIE Site and RIE Facilities during Operational Term relating to the ICT

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities during the Operational Term in relation to the ICT.  <b>[NB: THE NOTICE PERIOD DOES NOT APPLY IN AN EMERGENCY WHERE AS MUCH NOTICE AS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>		Paragraph 3 of Section 2 (Operational Construction Issues) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[     ]		<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>			
[     ] works of [maintenance, repair, replacement and renewal] of the ICT shown on plan [     ] attached.			
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>			
The area(s) shown on plan [     ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert date not less than ten (10) Business Days after the date of this notice]. <b>[NB: EXCEPT IN AN EMERGENCY WHEN AS MUCH NOTICE AS IS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>			
<b>Schedule of Condition:<sup>45</sup></b>			
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] <b>[NB: THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS]</b>			
OR			
A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]			
<b>Joint Inspection:</b>			

<sup>45</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [ ] <sup>46</sup>
<b>Interface Output Specification:</b>
Project Co acknowledges and shall comply with the Interface Output Specification.
<b>Connection Proposal:</b>
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:
<ul style="list-style-type: none"> <li>Method Statement for the maintenance and repair of the ICT within the Facilities and the RIE Facilities<sup>47</sup>,</li> </ul>
And the Board requires to be satisfied as to the design and methodology for the maintenance, repair and renewal works proposed.
<b>[Access Strategy: <sup>48</sup></b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Service Strip affected by this notice
<b>Arrangements for traffic management (where the Access Strategy applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]
<b>Journeys (where the Access Strategy applies):</b>
Project Co anticipates the following number of journeys shall be [ ].
<b>Timing of access (where the Access Strategy applies):</b>
Project requests that the time of day when access is required shall be [ ].
<b>Construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement (where the Access Strategy applies):</b>
As per paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should

<sup>46</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

<sup>47</sup> It is assumed the Board will already be satisfied as to design package and proposed method for the original installation of the ICT

<sup>48</sup> The Access Strategy may apply if works to the PTS involved accessing the Orange Area and so pedestrian or vehicular access could be affected although we expect this is unlikely.

## APPENDIX 8

## Part C – Form of Notices for Operational Term

## Annex 6 - Access to RIE Site and RIE Facilities during Operational Term relating to the PTS

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities during the Operational Term in relation to the PTS.  <b>[NB: THE NOTICE PERIOD DOES NOT APPLY IN AN EMERGENCY WHERE AS MUCH NOTICE AS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>	Paragraph 3 of Section 2 (Operational Construction Issues) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	Board: [     ]	Project Co: [     ]
<b>Description of requirements:</b>		
[     ] works of [maintenance, repair, replacement and renewal] of the PTS shown on plan [     ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice]. <b>[NB: EXCEPT IN AN EMERGENCY WHEN AS MUCH NOTICE AS IS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>		
<b>Schedule of Condition:</b> <sup>90</sup>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] NB THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		

<sup>90</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [ ] <sup>51</sup>
<b>Interface Output Specification:</b>
Project Co acknowledges and shall comply with the Interface Output Specification.
<b>Connection Proposal:</b>
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:
<ul style="list-style-type: none"> <li>Method Statement for the maintenance, repair, renewal and replacement of the PTS within the Facilities and the RIE Facilities<sup>52</sup>,</li> </ul>
and the Board requires to be satisfied as to the design and methodology for the maintenance , repair and renewal works proposed.
<b>[Access Strategy:</b> <sup>53</sup>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2.1 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Service Strip affected by this notice
<b>Arrangements for traffic management (where the Access Strategy applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc.)]
<b>Journeys (where the Access Strategy applies):</b>
Project Co anticipates the following number of journeys shall be [ ].
<b>Timing of access (where the Access Strategy applies):</b>
Project requests that the time of day when access is required shall be [ ].
<b>Construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2 to1.4 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement (where the Access Strategy applies):</b>
As per paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2 to1.4 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures

<sup>51</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

<sup>52</sup> It is assumed the Board will already be satisfied as to design package and proposed method for the original installation of the PTS

<sup>53</sup> The Access Strategy may apply if works to the PTS involved accessing the Orange Area and so pedestrian or vehicular access could be affected although we expect this is unlikely.

which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:

- [1 have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area); ]<sup>54</sup>;
- 2 ensure the he imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the Works;
- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the Works/activities; and
- 6 implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities and (2)reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]]

**Hoarding off Access Area (where the Access Strategy applies):**

The affected part of the Access Areas shall be securely hoarded off by Project Co.]

**Other requirements of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in:

- paragraphs 1 (*Access to RIE and RIE Facilities*) and 3 (*PTS, ICT, Joint and Fire Alarm System*) of Section 2 (*Operational Construction Issues*) of Part 1 (*Interface Construction Issues and Interface Proposals*);
- Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*); and
- the applicable provisions of Part 3 (*General Matters*).

each of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

Issued by: [ ] for Project Co

<sup>54</sup> Only applicable if Orange Area (not Yellow Area)

## APPENDIX 8

## Part C – Form of Notices for Operational Term

## Annex 7 - Access to RIE Site and RIE Facilities during Operational Term relating to the Joint

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities during the for the Operational Term in relating to the maintenance, repair, replacement and renewal of the Joint.  <b>[NB: THE NOTICE PERIOD DOES NOT APPLY IN AN EMERGENCY WHERE AS MUCH NOTICE AS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>		Paragraph 3 of Section 2 (Operational Construction Issues) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[     ]     ]		<b>Board:</b> [     ]     ]	<b>Project Co:</b> [     ]     ]
<b>Description of requirements:</b>			
[     ] works of [maintenance, repair, replacement and renewal] of the Joint shown on plan [     ] attached.			
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>			
The area(s) shown on plan [     ] attached.			
<b>Date or dates on which access will be required:</b>			
[Insert date not less than ten (10) Business Days after the date of this notice]. <b>[NB: EXCEPT IN AN EMERGENCY WHEN AS MUCH NOTICE AS IS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>			
<b>Schedule of Condition:</b> <sup>55</sup>			
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] NB THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]			
<b>Joint Inspection:</b>			
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>56</sup> .			

<sup>55</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>56</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

<b>Interface Output Specification:</b>
Project Co acknowledges and shall comply with the Interface Output Specification.
<b>Connection Proposal:</b>
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information: <ul style="list-style-type: none"> <li>• Design package for method of connection of the Facilities to the link building and a proposal in respect of the connection,</li> </ul> and the Board requires to be satisfied as to the design and methodology for the maintenance , repair and renewal works proposed.
<b>[Access Strategy:<sup>57</sup></b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Service Strip affected by this notice
<b>Arrangements for traffic management (where the Access Strategy applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]
<b>Journeys (where the Access Strategy applies):</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access (where the Access Strategy applies):</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31(<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement (where the Access Strategy applies):</b>
As per paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
[1     have appropriate allocation of primary responsibility for areas and at times when construction access is required over the Orange Area (for example, where the Access Strategy envisages

<sup>57</sup> The Access Strategy may apply if works to the Joint involved accessing the Orange Area and so pedestrian or vehicular access could be affected. Might need a "cherry picker" or other vehicle for above ground level access to maintain

## APPENDIX 8

## Part C – Form of Notices for Operational Term

## Annex 8 - Access To RIE Site and RIE Facilities during Operational Term relating to the Fire Alarm System

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than ten (10) Business Days of the date upon which Project Co intends to access the relevant part of the RIE Site and/or RIE Facilities during the Operational Term in relation to the Fire Alarm System.  <b>[NB: THE NOTICE PERIOD DOES NOT APPLY IN AN EMERGENCY WHERE AS MUCH NOTICE AS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>	Paragraph 3 of Section 2 (Operational Construction Issues) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of requirements:</b>		
[     ] works of [maintenance, repair, replacement and renewal] of the interface links between the Fire Alarm System within the Facilities and those within the RIE Facilities shown on plan [     ] attached.		
<b>Area or areas of the RIE Site and/or RIE Facilities Site where access will be required:</b>		
The area(s) shown on plan [     ] attached.		
<b>Date or dates on which access will be required:</b>		
[Insert date not less than ten (10) Business Days after the date of this notice]. <b>[NB: EXCEPT IN AN EMERGENCY WHEN AS MUCH NOTICE AS IS PRACTICABLE IN THE CIRCUMSTANCES IS TO BE GIVEN]</b>		
<b>Schedule of Condition:</b> <sup>59</sup>		
A Schedule of Condition of the of the relevant part of the RIE Site has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice] NB THIS IS NOT REQUIRED WHERE THERE ARE EMERGENCY WORKS OR A record of the condition of the relevant part of the RIE Site and/or RIE Facilities properly recording the condition of the area, comprising photographs, [a written commentary, specification and drawings] of service media, buildings, structures, plant, machinery and equipment through, under over or on the relevant area, has been carried out [and three copies are attached to this Form of Notice]		
<b>Joint Inspection:</b>		
A joint inspection of the relevant part of the RIE Site and/or RIE Facilities has been carried out by Project Co and the Board or representatives on behalf of the Board at the Board's request on [     ] <sup>60</sup>		

<sup>59</sup> SoC only required if need to go into the Orange Area but otherwise the record of condition should apply

<sup>60</sup> This is only required if the Board acting reasonably considers a joint inspection is necessary

<b>Interface Output Specification:</b>
Project Co acknowledges and shall comply with the Interface Output Specification.
<b>Connection Proposal:</b>
Project Co acknowledges and shall comply with the Connection Proposal which shall set out the following specific information:- <ul style="list-style-type: none"> <li>Method Statement for the maintenance, repair, renewal and replacement of the interface link between the Fire Alarm System within the Facilities and the RIE Facilities<sup>61</sup></li> </ul> And the Board requires to be satisfied as to the design and methodology for the maintenance, repair and renewal works proposed.
<b>[Access Strategy:<sup>62</sup></b>
Project Co shall ensure pedestrian and vehicular access to the Campus Site and Campus Facilities must be maintained at all times and shall comply with the Access Strategy, which in turn shall comply with the requirements of [paragraph 1.2 of Section 5 of Part 1 OR paragraph 1.2 of Section 2 of Part 2] of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the part of the Service Strip affected by this notice
<b>Arrangements for traffic management (where the Access Strategy applies):</b>
Project Co's traffic arrangements (e.g. one way and contra flow) shall be managed by [identity of contractor] and supervised by [identity of supervisors, their duties and responsibilities, contact details (telephone numbers, bleep numbers, etc).]
<b>Journeys (where the Access Strategy applies):</b>
Project Co anticipates the following number of journeys shall be [     ].
<b>Timing of access (where the Access Strategy applies):</b>
Project requests that the time of day when access is required shall be [     ].
<b>Construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will comprise the following [vehicle size/type, access requirements].
<b>Activities of construction traffic (where the Access Strategy applies):</b>
Project Co's construction traffic will be doing the following activities [off-loading, etc].
<b>Compliance with paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement (where the Access Strategy applies):</b>
As per paragraph [1.2 of Section 5 of Part 1 OR paragraphs 1.2-1.4 of Section 2 of Part 2] of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, Project Co shall also implement and comply with any with any other measures and operations reasonably requested by the Board for the proper implementation of the Access Strategy, including measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities. For the avoidance of doubt, Project Co shall:
[1     have appropriate allocation of primary responsibility for areas and at times when construction

<sup>61</sup> It is assumed the Board will already be satisfied as to design package and proposed method for the original installation interface links for the Fire Alarm System

<sup>62</sup> The Access Strategy may apply if works to the fire alarm interface links involved accessing the Orange Area and so pedestrian or vehicular access could be affected although we expect this is unlikely.

access is required over the Orange Area (for example, where the Access Strategy envisages that Project Co shall have a segregated access within the Orange Area it is acknowledged by Project Co that Project Co will be primarily responsible for traffic management, health and safety, signage and pedestrian crossings in respect of that area) [and be responsible for (i) the management of traffic across the Orange Area and (ii) road traffic signage and pedestrian crossings within the Orange Area];<sup>63</sup>

- 2 ensure the imposition, where appropriate, of a suitable Permit to Work System and any other reasonable requirement of the Board, appropriate to the nature of the;
- 3 ensure restrictions on the periods during which construction access may be taken;
- 4 ensure the physical separation of construction traffic from other traffic and pedestrians using the Orange Area;
- 5 re-sequencing (and/or temporary cessation) the performance of elements of the Works/activities; and
- 6 implement other reasonable measures which should be taken to reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities, and (2) reduce any health and safety risks to all visitors, staff and patients at the Campus Site and/or Campus Facilities;
7. [others?]

**Hoarding off Access Area (where the Access Strategy applies):**

The affected part of the Access Areas shall be securely hoarded off by Project Co.]

**Paragraphs 1 and 3 of Section 2 and Section 7 of Part 1 and Part 3 of Schedule Part 31 (Consort Interface with Campus Site and/or Campus Facilities) of this Agreement:**

Project Co acknowledges and shall comply and/or shall procure compliance with the other requirements set out in:

- paragraphs 1 (*Access to RIE and RIE Facilities*) and 3 (*PTS, ICT, Joint and Fire Alarm System*) of Section 2 (*Operational Construction Issues*) of Part 1 (*Interface Construction Issues and Interface Proposals*);
- Section 7 (*Link Building*) of Part 1 (*Interface Construction Issues and Interface Proposals*); and
- the applicable provisions of Part 3 (*General Matters*),

each of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement.

Issued by: [ ] for Project Co

<sup>63</sup> Only applicable if Orange Area (not Yellow Area)

## APPENDIX 9

## Other Form of Notices for Construction Phase

## Annex 1 - Occupation of Car Park E

<b>Notice Period:</b>		<b>Notice Order Provisions:</b>	
Not less than twenty five (25) Business Days of the date when Project Co intends to occupy of Car Park E.		Paragraph 1.1 of Section 3 ( <i>Site Compound/Car Park E</i> ) of Part 1 of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>		<b>Reference:</b>	
[            ]		<b>Board:</b> [            ]	<b>Project Co:</b> [            ]
<b>Description of requirements:</b>			
Occupation of Car Park E shown on plan [            ] attached for use as office accommodation, welfare accommodation, parking for staff and contractors necessarily required for the Works.			
<b>Date or dates on which occupation will be required:</b>			
[Insert date not less than twenty five (25) Business Days after the date of this notice]			
<b>Anticipated Date or dates until which occupation will be required:</b>			
[            ]			
<b>Schedule of Condition:</b>			
A Schedule of Condition of Car Park E has been prepared in accordance with paragraph 2 of Part 3 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement [and a copy is attached to this Form of Notice].			
<b>Traffic Management Strategy:</b>			
Project Co shall comply with the TMS, which in turn shall comply with the requirements of paragraph 2.2 of Section 1 of Part 1 of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement, when taking any access over the Orange Area to occupy Car Park E.			
<b>Restrictions applying to access to and occupation of Car Park E:</b>			
<ul style="list-style-type: none"> <li>• No Commercial Vehicles may be parked in Car Park E – a Commercial Vehicle means a vehicle which requires a HGV or a PSV licence and/or any vehicle used for retail purposes;</li> <li>• No construction materials may be stored on Car Park E [except [            ] which have the prior written agreement of the Board which was given by the Board on [            ]; any construction materials which are stored shall be stored properly, safely and securely and shall be adequately protected and is compatible with the use of Car Park E as office and welfare accommodation and parking for staff and contractors;</li> <li>• Car Park E shall be kept in a neat and tidy condition at all times;</li> <li>• [any other requirements attached to the TMS that it would be helpful to reiterate here (e.g. timing of access to the Car Park E, routes in and out of Car Park E etc?)</li> </ul>			
<b>Other requirements of Schedule Part 31 (<i>Consort Interface with Campus Site and/or Campus Facilities</i>) of this Agreement:</b>			

## APPENDIX 10

## Form of Notices for Completion and Vacation

## Part A – Form of Notices for Construction Phase

## Annex 1 - Proposed Vacation of an area outwith the Site

<b>Notice Period:</b>	<b>Notice Order Provisions:</b>	
Not less than fifteen (15) Business Days of the date upon which Project Co intends to vacate and cease using the relevant area outwith the Site <sup>64</sup> .	Paragraph 3.1.1 ( <i>Reinstatement of Damage</i> ) of Part 3 (General Matters) of Schedule 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement.	
<b>Date of Notice:</b>	<b>Reference:</b>	
[     ]	<b>Board:</b> [     ]	<b>Project Co:</b> [     ]
<b>Description of Area being vacated:</b>		
Project Co hereby gives notice that it proposes to vacate and cease to use the area which forms part of [insert Car Park E, Access Areas, RIE Site/RIE Facilities (eg for PTS, Joint, ICT, fire alarm) etc to which access was given ] shown on plan [     ] attached in respect of which area access was given pursuant to Project Co's notice to the Board dated [     ].		
<b>Proposed Vacation Date:</b>		
[insert a date not earlier than 15 Business Days after the date of this notice]		
<b>Reinstatement of area:</b>		
Project Co confirms it has reinstated the relevant area to no worse condition than that which existed prior to taking occupation of the relevant area as evidenced by the original Schedule of Condition dated [     ] attached to Project Co's notice to the Board dated [     ]		
<b>Further Schedule of Condition:</b>		
A further Schedule of Condition of the Access Area which is no longer being used has now be prepared in accordance with paragraph 2 ( <i>Schedules of Condition</i> ) of Part 3 ( <i>General Matters</i> ) of Schedule Part 31 ( <i>Consort Interface with Campus Site and/or Campus Facilities</i> ) of this Agreement and three hard copies are attached to this notice. <sup>65</sup>

## Request for Limitation of Access Permit

**REQUEST FOR ACCESS / TECHNICAL PERMIT**

## Royal Infirmary of Edinburgh &amp; University of Edinburgh Medical School

This request for site access should be faxed to Cofely on 0131 242 3998 no later than five (5) days prior to your arrival on site for all planned work activities. For emergency works, ie, business critical/health and safety the five (5) days notice period will not be enforced, however, submission of this form is still required prior to the contractor arriving on site. Additionally, should a **Technical Permit** be required (see below) this form should also be faxed to 0131 242 3998 for due process. Failure to do so will result in delay.

Please present your completed copy of this form when you collect your access pass from FM reception.

## RIE Contractor Access Control Procedure

Edinburgh Royal Infirmary  
Contractor Access Control Procedure

Uncontrolled document, if printed, 02 March 2015

Date: 29 <sup>th</sup> April, 2014	Document No: 02
Author: Gavin McNeill	Approver: Tony McLaughlin

**1.0 Purpose**

This procedure covers the delivery of the service or task as detailed in the procedure title. This document is to ensure compliance with statutory legalisation, contractual obligations and contractual KPI requirements.

**2.0 Scope**

The procedure is applicable to all (including all undertakings and activities carried out by all COFELY employees in connection with their scope of employment within the RIE concession) and outlines offices and operational work areas in definition 3.0 below. This document outlines the process to be followed when access is required to the main Hospital and University.

**3.0 Definition**

Cofely GDF Suez	COFELY
Royal Infirmary of Edinburgh	RIE
National Health Service Lothian	NHSL
University of Edinburgh	UOE
Consort Healthcare	CH

**4.0 Responsibilities**

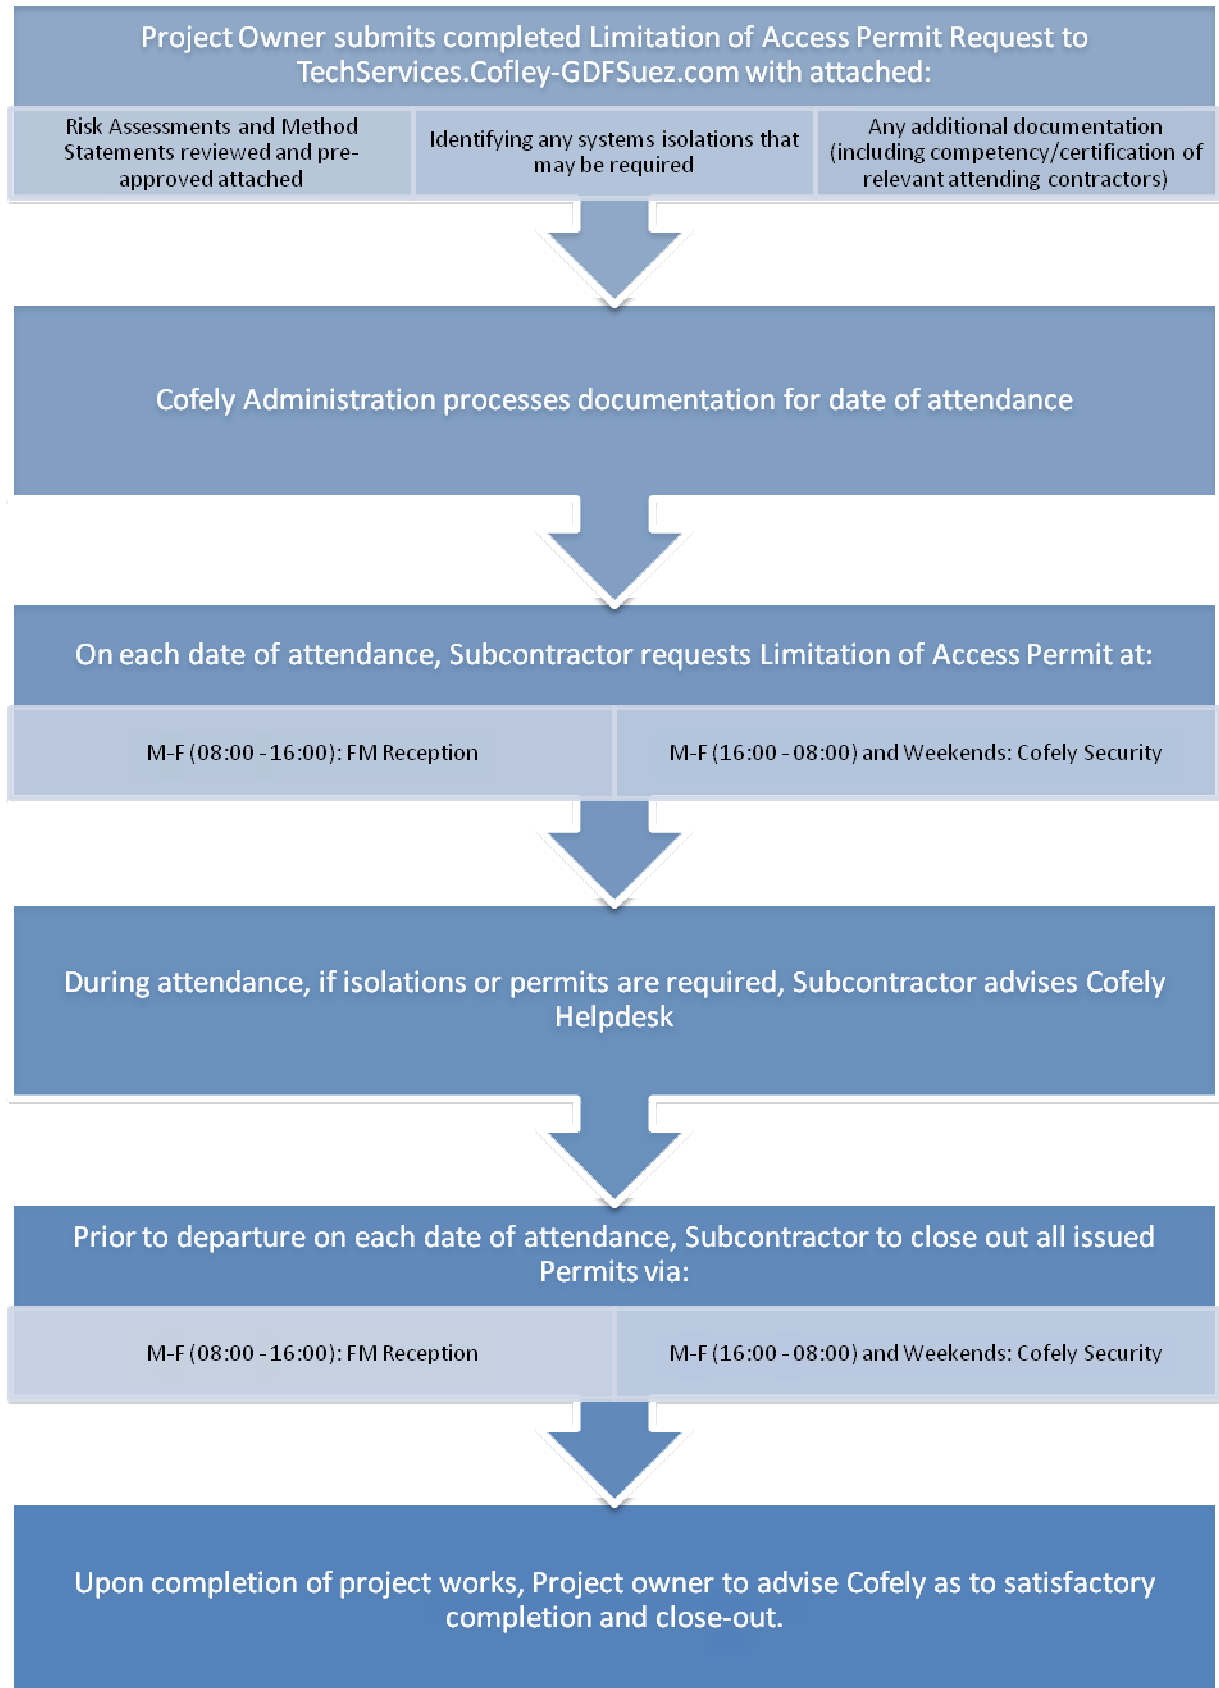

The RIE Concession General Manager shall have overall responsibilities to ensure this procedure is in place and adhered to. This shall be accomplished by delegation of the day to day management of the system through the Head of Estates Manager to the Engineering Services Manager who shall ensure sufficient knowledge and resource are made and in place at all times to ensure total compliance with the procedure.

Name	Role	Contact Details	Responsibilities
Gavin McNeill	COFELY Head of Estates	[REDACTED]	Acting Head of Estates Hard FM services
John Wilson	Engineering Services Manager	[REDACTED]	Site Manager Hard FM services M&E
Paul Dobosz	Engineering Systems Manager	[REDACTED]	Site Engineering Systems Manger
David Lopez	Electrical Manager	[REDACTED]	Hard FM services, Electrical and Mechanical

Name	Role	Contact Details	Responsibilities
Peter Bishop	Building Fabric Manager	[REDACTED]	Hard FM services, Building Fabric
Jason Catterson	Project Manager	[REDACTED]	Hard Services, Projects
COFELY Reception	COFELY receptionist	[REDACTED]	Receptionist in FM Building
COFELY Helpdesk	Customer Support Supervisor	[REDACTED]	Helpdesk/Carps Supervisor

5.0 Process Flowchart

## 6.0 Process Detail

### Access Protocol

During normal working hours all contractors are required to inform the COFELY Manager responsible for the works of their attendance on site. All works must have been agreed in advance of the contractor presenting on site, this includes issuance and receipt of a Purchase Order for the planned works. All Method Statements and Risk Assessments issued for the relevant works must be appraised by the manager responsible for the work and formal notice issued to the contractor five (5) days in advance, confirming the contractor can attend site on the date requested.

**Note: Failure to adhere with this protocol will result in access being denied to site.**

During normal working hours, all visiting Consort Healthcare personnel and subcontractors, COFELY personnel, COFELY subcontractors, NHS subcontractors, University of Edinburgh subcontractors, Cofely personnel and their subcontractors will report initially to the FM Building and sign-in to receive a Limitation of Access Permit.

Once signed in, the COFELY receptionist will issue Contractor Badges and inform the COFELY Manager responsible for the works/business as to their arrival on site. COFELY will then arrange for all contractors to attend the relevant site Estates Office, where, if required, they will be given a Health & Safety Induction and on prior receipt of their Method Statement & Risk Assessment, will be issued with a Permit-to-Work. All Method Statement & Risk Assessments will have been appraised and approved by the responsible manager prior to the contractor arriving on site.

As required, COFELY staff will direct/escort subcontractor staff to their intended location to undertake their works. All persons must sign in and out each time they enter or leave site.

On completion of works and at the end of each day on site, all contractors will sign out through the COFELY receptionist in the FM building, returning the Contractor Badges issued. All permits to work must be closed out by the manager responsible for the work or in his absence a deputy appointed by the manager responsible. No contractor can leave site unless all permits have been closed off by the appropriate competent person.

### Contact Details

Edinburgh Royal Infirmary Contact Details:

FM Building reception	0131 242 7000
Helpdesk	0131 242 7015
Engineering Services Manager	0131 242 7001 or [REDACTED]
Engineering Systems Manager	0131 242 7001 or [REDACTED]
Site Supervisor Electrical	0131 242 7001
Site Supervisor Mechanical	0131 242 7001
Site Supervisor Fabric	0131 242 7001

**Note: COFELY shall endeavour so far as reasonably practicable to provide advanced notice to Consort of any planned or reactive works which will impact on service provision.**

### Out of Hours

Out with normal hours and call out events, all contractors attending site will sign in at Security office on arrival and if required sign out keys for access to relevant area of incident. Security must check that all relevant Method Statement & Risk Assessments are in date and valid for the task, if security is not comfortable with issuing access to the contractor they must escalate to shift technician or the on call technical manager.

For lone working provision, a COFELY Technician will accompany the contractor and report regularly to Security Office advising as to progress. On completion/rectification of repair works contractors will return to Security Office, sign in any keys received and sign out of building prior to leaving.

All contractors must submit their Method Statements and Risk Assessments to COFELY at least five (5) days in advance to allow time to review, provide feedback and make necessary access

arrangements.

**Note:** Failure to adhere with this protocol will result in access being denied to site.

### Escalation Process

If there is an issue that is not being dealt with as swiftly as required, or where there is either actual or potential major impact on the business, this is the escalation path which should be followed.

Name	Role	Contact Details	Escalation Point
John Wilson	COFELY Engineering Services Manager	[REDACTED]	1 <sup>st</sup> Level Escalation
Paul Dobosz	COFELY Engineering Systems Manager	[REDACTED]	2 <sup>nd</sup> Level escalation
Gavin McNeill	COFELY Head of Estates	[REDACTED]	3 <sup>rd</sup> Level escalation
Tony McLaughlin	COFELY Concession General Manager	[REDACTED]	4 <sup>th</sup> Level escalation

**Appendix 12**

Not used.

**Appendix 13**

**Final Form Notices**

The Final Form Notices are the Final Form Notices as set out on the disc in the Agreed Form identified and executed as "Appendices for Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*)" which sets out Appendix 13 (*Final Form Notices*) of Schedule Part 31 (*Consort Interface with Campus Site and/or Campus Facilities*) of this Agreement, referred to in and forming part of this Agreement.

**SCHEDULE PART 32**  
**COMMUNITY BENEFITS**

**Section 1**

**Board's Community Benefits Requirements**

**1. THE BOARD'S COMMUNITY BENEFITS REQUIREMENTS**

**1.1 Targeted Recruitment & Training/Employment and Skills Plan**

Project Co shall ensure to meet the following required outputs and volumes in respect of recruitment, training and employment skills during the Construction Phase:

Recruitment, Training and Employment Skills Outputs and Volumes	
Work Placement (16-19 years)	16
Work Placement (14-16 years)	4
Curriculum support activities	14
Graduates	3
Apprentice starts	11
Existing apprentices	10
Apprentice completions	3
Jobs advertised through local employment vehicles	7
N/SVQ starts for subcontractors	21
N/SVQ completions for subcontractors	18
Training Plans for subcontractors	5
Supervisor training for subcontractors	10
Leadership and management training for subcontractors	9
Advanced health and safety training for subcontractors	11

**1.2 Supply Chain Development: SMEs**

Project Co shall ensure to advertise, and ensure that the Contractor during the Construction Phase and the Service Provider during the Operational Term:

1.2.1 advertise all relevant subcontracts to be agreed with Project Co, with reference to Project Co's Community Benefits Method Statements; and

1.2.2 allow SMEs equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market).

**1.3 Supply Chain Development: Social Enterprises**

Project Co shall ensure to advertise, and ensure that the Contractor during the Construction Phase and the Service Provider during the Operational Term:

1.3.1 advertise all relevant subcontracts to be agreed with Project Co with reference to Project Co's Community Benefits Method Statements; and

1.3.2 allow Social Enterprises equal opportunities to tender provided they have the appropriate capacity, experience and financial standing (and without leading to discrimination against others in the market).

**1.4 Other Community Benefits**

Project Co shall set out any additional community benefits that Project Co shall be willing to provide at no additional cost to the Board over the Project Term, such as Project Co:

- 1.4.1 undertaking educational initiatives with community, voluntary and charitable organisations relevant to the Project and not falling under paragraphs 1.1 and 1.2 above; or
- 1.4.2 supporting or contributing in some other way to the work of community, voluntary and charitable organisations associated with the Project.

## **1.5 General Board Community Benefits Requirements**

### **1.5.1 Monitoring**

Project Co shall provide monitoring information in respect of the Board's Community Benefits Requirements at least:

- (a) quarterly during the Construction Phase, as against the ESP and commitments made in the Community Benefits Method Statements; and
- (b) annually during the Operational Term, as against the plan referred to in paragraph 1.6.2 and commitments made in the Community Benefits Method Statements,

in a format to be agreed with the Board.

### **1.5.2 Insurances**

Project Co shall ensure that any insurance cover includes people aged 16 and over and staff from employment and training organisations when on work experience at the Site and/or Off Site in relation to the Works and/or Services.

## **1.6 Employment and Skills Plan: Construction Phase and Operational Term**

In respect of the Construction Phase, Project Co shall complete an Employment and Skills Plan ("**ESP**") covering the employment and skills areas, as set out in table one below.

The benchmarks for the Construction Phase are set out in paragraph 1.1 above and shall constitute the minimum outputs for Project Co's ESP.

Project Co shall provide an unequivocal statement alongside their ESP for the Construction Phase that Project Co shall be contractually bound to deliver against what they have set out in the ESP, in accordance with the terms and conditions set out in Clause 73 (*Community Benefits*) of this Agreement.

Project Co shall complete:

- 1.6.1 the ESP as set out in table 1 below, containing detail at monthly intervals during the Construction Phase;
- 1.6.2 its own plan relating to employment and skills as detailed within Project Co's Community Benefits Method Statements and at annual intervals for the Operational Term.

Table 1

TEMPLATE EMPLOYMENT AND SKILLS PLAN (ESP) FOR CONSTRUCTION PHASE														
Employment and Skills areas		Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7	Month 8	Month 9	Month 10	Month 11	Month 12	Summ No
1.	Work Placement (16-19 years) – persons													16
2.	Work Placement (14-16 years) – persons													4
3.	Curriculum Support Activities – individual engagement													14
4.	Graduates – persons													3
5.	Apprentice Starts - persons													11
6.	Existing apprentices - persons													10
7.	Apprentice Completions - persons													3
8.	Jobs Advertised Through proximate Employment Vehicles - number													7
9.	N/SVQ Starts for Subcontractors - persons													21
10.	N/SVQ Completions for Subcontractors - persons													18
11.	Training Plans for Subcontractors - number													5
12.	Supervisor Training for Subcontractors - persons													10
13.	Leadership and Management Training for Subcontractors - persons													9
14.	Advanced Health and Safety Training for Subcontractors - persons													11

**2. Project Co's Community Benefits Method Statements**

**2.1 Employment and Skills Method Statement**

Project Co shall comply with the Project Co Community Benefits Method Statement which sets out how Project Co intends to implement the employment and training requirements of the Board, deliver the ESP during the Construction Phase and deliver its own plan relating to employment and skills as detailed within Project Co's Community Benefits Method Statements during the Operational Term.

**2.2 Supply Chain Development: SMEs and Social Enterprise**

Project Co shall comply with the two separate Community Benefits Method Statements which detail what Project Co proposes to do to meet the Board's SME and Social Enterprise supplier development objectives in respect of both the Construction Phase and Operational Term.

**2.3 Other Community Benefit**

Project Co shall comply with the Project Co Community Benefits Method Statement which sets out any other Community Benefits that Project Co is willing to provide.

## Section 2

## Project Co's Community Benefits Method Statements

## 1. Employment and Skills Plan Method Statements

## Construction Phase

## Delivery of Community Benefit Proposal

Project Co shall be committed to community benefits and linking local people and businesses into the Project. Project Co shall have a robust set of systems and processes in place to ensure Project Co shall deliver on the Boards Community Benefit Requirements as set out in Section 1, (Boards Community Benefits Requirements) of Schedule Part 32 (Community Benefits) of this Agreement. Project Co shall focus on four core areas for the Employment and Skills Plan (ESP):

- Creating new entrant Jobs including apprenticeships and graduates;
- Training and up-skilling the workforce;
- Educational and curriculum support for young people; and
- Work experience placements

Project Co shall ensure the following outputs are met in respect of training, recruitment and educational support during the Construction Phase. Please refer to Appendix 1 for indicative monthly outputs as set out at bid stage:

Recruitment, Training and Employment Skills Outputs and Volumes	Outputs
Work Placement (16-19 years)	25
Work Placement (14-16 years)	9
Curriculum support activities	20
Graduates	3
Apprentice starts	17
Existing apprentices	13
Apprentice completions	14
Jobs advertised through local employment vehicles	60
N/SVQ starts for sub-contractors	34
N/SVQ completions for sub-contractors	36
Training Plans for sub-contractors	14
Supervisor training for sub-contractors	25
Leadership and management training for sub-contractors	21
Advanced health and safety training for sub-contractors	24

In addition to the above outputs Project Co shall create 53 new entrant jobs during the Construction Phase.

A partnership has been established by Project Co to implement, manage and deliver on Project Co's community benefit proposal ("The Community Benefit Partnership"). The Community Benefit Partnership will be managed by Project Co's Community Engagement Manager and shall include a representative from the Board, Capital City Partnership and City of Edinburgh Council's Learning and Skills Dept, and project leaders from the key supply chain. In addition to the core partnership team, the

services of Construction Skills shall be introduced as required as we move through the Project. Project Co's delivering of its community benefit proposal shall focus on collaboration, partnership working and involvement from a wide selection of stakeholders which shall be driven by Project Co's Community Engagement Manager.

### **Community Benefit Guarantee**

The Project Co community benefit guarantee ("Community Benefit Guarantee – see attached in Appendix 2) sets out a partnership approach that will be developed to support the delivery by Project Co of the outputs in the ESP.

One of the key elements of this partnership involves 'buy-in' to the community benefit outputs from Project Co's contractor supply chain. This process involves the Project Co's supply chain and supporting project consultants all taking an active role in the delivery of the community benefits targets.

As part of the procurement process, Project Co shall ensure that its Contractor has developed a set of rules and principals that the Contractor's supply chain shall commit to. This shall include the outputs included in the ESP - creating jobs, training opportunities, offering work experience placements and curriculum support for school pupils.

Prior to starting work on the Project, Project Co shall ensure that its Contractor supply chain completes a Community Benefit Guarantee form. Such terms shall outline how many operatives are forecast to be involved in the delivery of their work packages along with confirming the key performance indicators for number of new jobs and training outcomes to be delivered.

The Community Benefit Guarantee form shall be reviewed by Project Co's Community Engagement Manager. Project Co shall put in place plans to support the delivery of the key performance indicators with the Contractor during the Construction Phase.

Project Co shall ensure that its Contractor's supply chain shall be an integral part of the Community Benefit Partnership and Project Co shall hold monthly and quarterly review meetings with these partners. These meetings shall be designed to manage forward planning, review progress of the key performance indicators, facilitate strong lines of communication and ensure that the requirements of the Community Benefit Method Statement are achieved by Project Co.

Project Co shall ensure that all sub-contractors working on the Site are linked into the Community Benefit Partnership and will have direct access to the wide range of agencies and organisations that form such partnership.

Project Co shall ensure that its Contractor shall establish a recruitment and skills facility with Capital City Partnership in their office at Fort Kinnaird Shopping Centre. In addition to this, during the Construction Phase the supply chain will participate in the Community Benefit Guarantee discussion and Project Co shall ensure that the Contractor and their supply chain commits to the key performance indicators and the systems and processes that have been put in place, in relation to the Community Benefit Guarantee.

This shall include:

- Passing all vacancies to the Capital City Partnership;
- Attending community benefit review and planning meetings;
- Information sharing and links into Community Benefit Partnership;
- Vacancy, SME and training tracker control submissions;
- Sub-contractor workshops;
- Quarterly monitoring reviews and case study submission.

Project Co shall ensure that the Contractor shall specify contractual obligations that the supply chain shall adhere to and submit monthly trackers that shall confirm who has been recruited to the Project, who has received training and what training has been delivered by the Contractor and their supply chain. In particular, the focus for these monthly trackers shall be to review new entrants, apprenticeships and training outcomes in accordance with the key performance indicators included within the ESP.

## Monitoring

Project Co shall provide the Board with a quarterly report that shall demonstrate progress towards key performance indicators as set out in the ESP. The quarterly report shall highlight progress towards the ESP outputs along with works that have been undertaken as part of the Community Benefit Guarantee.

Each tracker to be issued by Project Co to the Board as part of the monitoring process shall comply with the Data Protection Act and shall include a statement authorising disclosure of personal data for trainees.

## Types of Opportunities to be offered

Project Co shall ensure that its Contractor and their supply chain shall offer apprenticeship opportunities within a number of trade and occupational areas:

- Mechanical and electrical services;
- General construction;
- Painting and decorating;
- Project administration;
- Joining and carpentry; and
- Dry lining.

It is also envisaged by Project Co that Mechanical and Electrical Engineering certificates, diplomas and degrees shall also be undertaken by some members of the construction staff. Project Co shall ensure that the Contractor shall plan to provide training opportunities for operatives who shall, once qualified, be in a strong position to move through the Construction Phase and onto the Operational Term.

There shall also be the opportunity for work experience placements with the contractor within the design element of the Project that may lead to further areas of work and learning.

The main beneficiaries for all Project Co training shall be Site based operatives, staff and managers. A comprehensive selection of construction, health and safety, environmental, quality and job specific training outcomes shall be delivered as part of the Project by Project Co.

These shall include the following:

- Health and safety awareness;
- Site management safety training scheme;
- Working at height;
- Manual handling;
- Prefabricated Access Suppliers' and Manufacturers' Association
- Construction Skills Certificate Scheme
- Fire marshalling;
- Environmental;
- Dumper truck driving;
- Mobile elevating work platforms – IPAF

In addition to the above, Project Co shall arrange for a range of weekly tool box talks for all operatives, life long learning sessions and training workshops for new entrants and the existing project team, operatives, and staff.

Project Co shall ensure that the Contractor and its supply chain offer advanced accredited qualification opportunities for apprentices, graduates and managers. These apprenticeships shall be a mix of traditional led and advanced level programmes and will be delivered in conjunction with trade associations and statutory bodies including SNIPEFF, SECTT and Construction Skills.

Project Co's apprenticeship opportunities shall come from a range disciplines including:

- Plumbing;
- Electrical;
- General construction;
- Finishing trades;
- Scaffolding; and
- Modern apprenticeships in administration.

### **Compliance**

Project Co shall have the correct insurances and health and safety standards and regulations in place to minimise any risk that results from young people coming to the Site.

All young people shall be required by Project Co to complete a full Site induction and have a specific method statement, risk assessment and work plan in place prior to attending Site. They shall be asked to provide parental or school consent as required. Project Co shall facilitate appropriate discussion prior to any engagement with young people. At no time will a young person (14-16 years) be left unattended within either the construction village or project Site - they will be supervised at all times by Project Co.

### **Operational Term**

Throughout the Operational Term, Project Co's Contract Manager shall be ultimately responsible for overseeing the community benefit proposal along with support from the Recruitment Manager, who shall be responsible for working with the established community engagement framework to recruit staff whilst the training and apprentice scheme will be managed by Project Co's Service Provider's, Head of Learning and Development.

As part of the Community Benefit Guarantee the partnership established for the Construction Phase shall continue to manage and deliver on the proposal and training schemes during the operational term. This shall be managed by Project Co's Contract Manager and shall include a representative from the Board, The Capital City Partnership, and a selection of relevant training providers.

Throughout the Operational Term the self delivery model requires that only a small number of specialist sub-contractors shall be employed for short periods of time. As part of the tendering process Project Co shall request a Community Benefit Method Statement from all sub-contractors detailing their approach to CSR responsibilities.

As required, Project Co shall ensure that Service Provider offers support to sub-contractors to build their capacity and to increase their overall understanding of the Project objectives with regards to economic impacts and community engagement.

Where appropriate Project Co shall ensure that the Service Provider shall provide the following support:

- Invitations to training and innovation seminars
- Assistance with certification mechanisms (e.g. sharing our experience in obtaining ISO 9001, OHSAS 18001)
- Explore opportunities for apprentices to work with sub-contractors to gain broader work experience
- Offer the opportunity of appropriate health and safety courses to their employees
- Project Co recognises that the Board has not set any expected output figures for the Operational Term of the Project. The Operational Term shall be based on a self delivery model of Services and Project Co shall ensure that the Service Provider shall recruit and train new members of staff to be involved in the operational delivery of the Project.

### **Employment and Skills Plan Outputs**

The employment and skills to be delivered by Project Co during the Operational Term are outlined below:

Trades/ Profession	New Starts	Graduates and/or apprentices	Jobs advertised through local employment vehicles	Training Plans for sub- contractor's	Supervisor training for sub- contractor's	Leadership and management training for sub- contractors	Advanced health and safety training for sub- contractors
Facilities Management	23	3	85%	4	1	2	2

- **Graduates and/or apprentices:** to provide 3 positions to graduates and/or apprentices from a range of disciplines (electrical, mechanical and administration);
- **Jobs advertised through local employment vehicles:** Jobs shall be advertised through local employment vehicles for at least 85% of the vacancies over the year;
- **Training Plans for sub-contractors:** Training plans for sub-contractors shall be formulated during the Services mobilisation period. Plans shall be updated as and when necessary throughout the Project Term by Project Co and made available for inspection by the Board at any time of year;
- **Supervisor training for sub-contractors:** Training shall be given to sub-contractors at least once a year on topics related to the supervision of the Services and works at the Site;
- **Leadership and management training for sub-contractors:** Training shall be given to sub-contractors at least twice a year on topics related to leadership and management of the Services and Works at the Site, and;
- **Advanced health and safety training for sub-contractors:** Training shall be given to sub-contractors at least twice a year on topics related to advanced health and safety of the Services and works at the Site.

#### Types of Opportunities to be offered

Training to be offered by Project Co shall include a wide range of accredited and non accredited courses. As an accredited training centre with the Chartered Institute of Environmental Health, Project Co shall offer a range of health and safety courses and shall identify and train triple auditors and ISO 50001 champions to drive continuous improvement in Quality, Safety, Energy Management and Environmental issues.

To ensure compliance with the Health Technical Memorandum, Project Co's staff shall be incorporated into the "Authorising Engineers" and "Approved Persons" programme to ensure that they receive relevant updated training in areas such as:

- Electrical regulations;
- Medical gases;
- Boilers and the pressure systems; and
- Water treatment.

Managerial, administrative and supervisory staff shall be given the opportunity by Project Co to access courses on developing management skills such as performance management, diversity and recruitment as well as certificated programmes which include: ILM Level 2 Award/Certificate in Team Leading; ILM Level 3 Certificate in FM; BIFM Certificates in FM at Level 4 and 5.

Project Co shall work with local schools, colleges and organisations and shall commit to making the following placements available:

Opportunity	Commitment to provide the following opportunities
One week work placements	3 a year, maximum 2 persons per placement
Work shadowing: enabling a young person to 'shadow' an individual employee going about their	One day a month, maximum 2 people

normal activities	
Work observation and visits	One 4 hour session once a month, maximum of 5 people
CV preparation & mock interviews	2 times a year, 4 hour session, maximum of 10 people per session
Mentoring with an employee to enhance their motivation, knowledge and skills	2 people per year
Third sector partner or organisation	To select a local third sector partner or organisation to be our chosen charity/ cause each year.

Project Co shall offer 3 apprenticeships for during the Operation Term of the Project:

- Maintenance Apprentices: 1 x electrical and 1 x mechanical
- Modern apprenticeship: 1 x Administration

The apprenticeships shall be a mix of traditional led programmes and advanced level, and shall be delivered in conjunction with trade associations and statutory bodies including SNIPEFF, SECTT and Edinburgh City College.

### Monitoring

Project Co shall report to the Board's Representative in writing with notification of any new starters and to confirm clearance from Disclosure Scotland and Occupational Health. Also included within this notification shall be a section within the form identifying where the job was advertised. This information shall be presented in the annual report in accordance with Part 12 (Service Requirements) of this agreement. In addition to this, the annual report shall identify all new starters, apprentice progress and the training that has been delivered as part of the Project. The reporting shall also be fully compliant with the Data Protection Act and shall include a personal statement that Project Co can disclose information to the Board.

### Compliance

Project Co shall be committed to health and safety throughout the Operational Term. The approach is based on the following:

- Promoting a culture of health and safety;
- Induction and training;
- Safety awareness and customer interface;
- Review and improvement;

Project Co shall ensure that the Service Provider shall have an integrated quality, environmental and health & safety approach and shall also obtain Site specific accreditation for Quality ISO 9001 Environment: ISO 14001 and Health and Safety: BS OHSAS 18001 for the facilities. This approach shall ensure that all the health and safety systems within the health and safety manual are Site specific.

During the Operational Term, Project Co shall ensure that health and safety on site shall be the responsibility of the Service Provider Contract Manager who shall be supported by the health and safety Lead assigned to the Project to offer advice, support and assistance.

All staff, apprentices and sub-contractors will be required to comply with Project Co's health and safety plan whilst on Site.

## 2 Supply Chain Development: SMEs & Social Enterprise Construction Phase

As part of Project Co's commitment to providing economic benefit to the local SMEs and Social Enterprises, Project Co shall work in conjunction with the range of agencies and business providers to support this sector. Project Co has established a partnership with Capital City Partnership and Business Gateway in the development of the Community Benefit Method Statement and will engage with Edinburgh Chamber of Commerce, Craigmillier and District Business Association and Edinburgh Social Enterprise Network as required.

Project Co shall work to build capacity, present opportunities via advertising and make dealing with the Contractor easy, transparent and straightforward.

Project Co's Community Engagement Manager shall work with the Contractor's procurement and commercial teams to ensure that available work packages are advertised well in advance to allow local businesses the opportunity to express an interest in working on the Project.

Project Co shall produce a tender event schedule which shall outline dates that shall specify when an advert shall be placed to allow plenty of time to work through the full commercial process.

Project Co shall undertake the following activities to identify relevant, business ready SME's and Social Enterprises:

Activity	Format	Participants	Audience
Meet The Buyer	Exhibition style event that businesses and Social Enterprises will be invited to attend and meet on a one to one basis with supply chain.  Will last for 2-3 hours	Project Co's delivery partners.	All relevant local SME's and Social Enterprises. Will be promoted via partnership networks.
Project Web Portal	Website that provides details of the work packages available at the project. Advertise opportunities and allows interested parties to download PQQ documentation and register their interest in working on the Project.	All supply chain that shall be letting work packages.	Open to the world wide web. Will be promoted via partnership networks.
Capacity Building Workshops	3 hour sessions aimed at providing local SMEs/ Social Enterprises with the tools to submit tenders for work on the project, environmental and quality. Smaller more intimate workshops with opportunities for direct Q&A.	Procurement Team of Project Co delivery partners.	SMEs/ Social Enterprises interested in applying for work packages on the Project.
Advertising Opportunities	Developing existing links with partners such as Business Gateway and Public Contracts Scotland to place adverts for relevant subcontracts on their procurement portal.	All key supply chain with work opportunities available to let.	Businesses registered with Business Gateway and Public Contracts Web Portal.
Networking	Developing partnership links with Supplier Development Programme, Community Enterprise in Scotland, Scottish Business in the Community, Edinburgh City Council and Edinburgh Chamber of Commerce. Delivery presentations and	Project Co delivery partners.	Local SMEs and Social Enterprises

workshops.		
------------	--	--

Project Co shall ensure that all of the activities outlined above will be run in conjunction with the Contractor supply chain on the Site. These Project Co initiatives are expected to provide SMEs and Social Enterprises with a significant advantage and the aim is to support their learning, knowledge and understanding of the potential works at the Project.

Project Co shall make a commitment to work with local Social Enterprises for a range of ancillary services. Working in conjunction with the client team Project Co shall approach Social Enterprises and Assisted Businesses to present opportunities.

These shall include training providers, environmental, cleaning, event management, catering and print and marketing suppliers.

The table outlined below provides a summary of the types of work packages that shall be available for the local SME and Social Enterprise sector:

Work Package Opportunity	SME	Social Enterprise
Ductwork	✓	
Flooring	✓	
Joinery Works	✓	
Electrical	✓	
Plumbing	✓	
Steelwork	✓	
Ceiling	✓	
Furniture	✓	
Ground works & Landscaping	✓	
Fire Stopping	✓	
Access	✓	
Tiling	✓	
Cleaning	✓	
Catering	✓	✓
Painting & Decorating	✓	✓
Hospital Gases	✓	
Signage	✓	✓
Blinds	✓	
Scaffolding	✓	
Waste Recycling	✓	✓
Marketing Supplies	✓	✓
Web Design	✓	
Transport	✓	
Training	✓	✓

#### Economic Benefit

Project Co shall undertake to maximise economic benefits for local SMEs and Social Enterprises. The table below outlines the number of hours and value Project Co shall commit to building capacity and engaging within the local supply chain:

Activity	Hours	Value
Management, Implementation, Networking	128	£19,200.00
Meet the Buyer Event	24	£3600.00
Doing Business with IHSL Workshop	8	£1200.00
Tender Submission Workshop	6	£900.00
Quality, Health and Safety Workshop	6	£900.00
Environmental Workshop	4	£600.00
Presentations and Seminars	16	£2400.00
RHSC Web Portal		£3000.00
Marketing and associate support material		£8000.00
<b>Total</b>	<b>192</b>	<b>£39,800.00</b>

The overall approach and methodology of Project Co to support SMEs and Social Enterprises and the wider stakeholders shall be based on an open and collaborative approach. This shall stem from the early consultation by the Contractor with the supply chain.

The Community Benefit Guarantee form shall outline what the Contractor's supply chain have committed to achieve for the Project and this shall be reviewed, planned and developed as Project Co move through the process. Regular monthly meetings shall keep the focus on the delivery of the commitments and Project Co's external partners shall attend quarterly planning reviews.

### **Business Engagement**

Project Co shall ensure that the Contractor's supply partners complete a Community Benefit Guarantee form that confirms their key performance indicators. In addition to this, Project Co shall ensure that the documentation outlines the procedures and processes in place for supporting the community benefit commitments and clearly states that all available work opportunities are to be advertised to the local supply chain.

Project Co shall make this process easy by establishing a local project portal and creating the right links with the Community Benefit Partnership. Advertising opportunities will be reviewed by Project Co at monthly meetings and a procurement tracker shall be developed to outline the following:

- What work packages have been purchased?;
- Have they been advertised?;
- How many responses to adverts?; and
- Who was the successful contractor?

Project Co anticipates that around 65% of SME's shall be successful in securing work packages on the Project. As well as the work packages available for the local construction related supply chain, Project Co encourages that a number of other suppliers shall have the opportunity to gain contracts from the Project. This shall include stationery suppliers, transport, catering services, printers, equipment hire, office and furniture supplies, hotels, restaurants and cafes.

Project Co anticipates that around four (4) Social Enterprises shall be successful in securing appropriate work packages and services relation to the Project.

### **Community Impact**

Overall, the economic impact of the Project shall be measured by the number of businesses that secure work packages along with the number of operatives that are employed at the Project. The ESP

outlines that Project Co shall recruit 53 new entrants for the Project and it is envisaged that these people will come from the local labour supply.

The social impact shall be measured by the additional community benefits Project Co undertake. These shall include educational programmes for school pupils and students, volunteering programmes and environmental projects.

Project Co shall monitor the impact of the Project on a quarterly basis via the Procurement and Recruitment Trackers (see attached in Appendix ) and at the monthly supply partner review meetings. A quarterly community benefit report shall be prepared by Project Co and issued to the Board which shall outline full details of all SME and Social Enterprise engagement in terms of activity, new sub-contractors to the Site, meetings, seminar and events. In addition to this a final economic and social impact report will be produced at the completion of the Project.

Project Co shall provide the Board with a quarterly report that will demonstrate progress towards delivery of its community benefits proposals. The quarterly report shall highlight progress towards requirements and targets along with all works that have been undertaken as part of the Community Benefit Guarantee.

### 3 Supply Chain Development: SMEs & Social Enterprise Operational Term

Project Co shall ensure that the Service Provider supports the development of the SMEs and Social Enterprise sectors and as part of this Project shall actively engage with these suppliers. From the very outset of the Project, Project Co shall ensure that the Service Provider forms a major part of the Community Benefit Partnership to establish strong links with such suppliers.

As referred to in paragraph 2, Project Co identified Project Co's Contractor's approach to running "Meet the Buyer" events. Project Co shall ensure that the Service Provider shall attend these events to raise Project Co's profile in the area and publicize the opportunities that shall be available at the Operational Term.

Approximately a year prior to the Actual Completion Date Project Co shall ensure that the Service Provider shall run an FM-specific "Meet the Buyer" event. This shall highlight details about available contracts to the networks and infrastructure already in place.

Project Co shall ensure that these events shall be attended by the Service Provider's contract team, the procurement team and the quality, safety and environmental advisors. Each member of Project Co's staff shall provide information and support to the SMEs and Social Enterprises to ensure that they are able to meet the compliance and safety standards required to participate in contract opportunities.

At least 50% of the Project Co's available contracts shall be advertised via the Community Benefit Partnership and project portal, providing SMEs and Social Enterprises with an opportunity to tender. Throughout the Operational Term, Project Co shall continue to develop relationships with local SMEs and Social Enterprises through Project Co's Community Benefit Partnership.

Project Co shall adopt a 'team' approach which shall encourage co-operation, flexibility and transparency, although formal methods of communications are also used.

The contract management team, supported by procurement, HR & training and quality, safety and environmental ("**QSE**") advisors, shall deliver a range of activities designed to encourage and support SMEs and Social Enterprises organisations participating in the Project Co's Service Provider's supply chain.

Alongside the 'Meet the Buyer' referenced above, these activities shall include:

#### **Workshops**

Project Co shall work with local partners to provide a range of workshops to support organisations in gaining the skills to tender for work, developing safety and environmental management systems to ensure that partners are able to meet set standards.

Project Co shall provide support to enable the achievement of ISO certifications including ISO 9001, ISO14001 and OHSAS 18001.

#### **Training**

SMEs and Social Enterprises staff shall be offered the opportunity to participate in relevant modules in Project Co's contract training programme, in areas including:

- Safety management activities including development of method statements and risk assessments;
- Health and safety programmes, including accident reporting, legionella awareness, COSHH;
- Management and manual handling;
- Joint training, for contract-specific equipment; and
- Communications skills and working in sensitive environments.

Project Co's approach to working with the entire supply chain shall look to offer long term contracts to supply chain partners and for SMEs and Social Enterprises partners, Project Co shall:

- Develop longer term commercial arrangements (e.g., 3 or 5 year contracts);
- Offer the opportunity to go for new work on other contracts.

Project Co shall commit to providing the level of resources required to deliver this programme effectively, and shall review delivery and success on an annual basis. An indicative summary identifying Project Co's annual commercial commitment is shown below:

Activity	Hours	Value
Management, Implementation, Networking	11.0	£1,536.00
Meet the Buyer Event	2.0	£288.00
Doing Business with IHSL Workshop	1.0	£96.00
Tender Submission Workshop	1.0	£72.00
Quality, Health and Safety Workshop	1.0	£72.00
Environmental Workshop	1.0	£48.00
Presentations and Seminars	1.5	£192.00
RHSC Web Portal		£240.00
Marketing and associate support material		£640.00
<b>Total</b>	<b>19</b>	<b>£3,184.00</b>

Project Co's approach to service provision shall be based on self-delivery of Services, and Project Co shall only subcontract specialist services to organisations that shall be delivering them directly, using their own staff. Project Co would not expect, when subcontracting these specialised areas of work, that its partners would in turn subcontract this work.

Where Project Co appoints other organisations directly to work with the Service Provider, Project Co shall adopt a rigorous approach both to their selection and to their annual performance review. As part of the appointment process new organisations to Project Co shall be required to commit and buy-in to the community benefit key performance indicators.

As part of Project Co's management approach, each contract reports to Project Co's Service Provider's Managing Director each month against a series of corporate management indicators. The indicators developed for this contract shall make reference to agreed targets for the development of relationships and spend with SMEs, and shall be reviewed by Project Co's board of directors on a regular basis.

This information shall be collated by Project Co's Contract Manager, enabling comparison to be made across the company, which in turn enables trend reporting and identifies areas for improvement. The annual community benefits report to the Board shall identify Project Co's targets and achievements and shall also make reference to improvement initiatives designed to increase participation.

#### **4 Other Community Benefits**

Project Co shall support wider community benefits.

Activities such as educational programmes, environmental works, citizenship, regeneration, sustainability and charitable works all come under this section.

##### **Community and Educational Programmes**

Project Co shall implement a number of schools and environmental programmes at the Project working in conjunction with our partners Construction Skills, the Capital City Partnership and Edinburgh and Lothian Greenspace Trust.

Project Co shall implement an Independent Learning Programme for senior school pupil in the Portobello, Craigmillier, Liberton and Gilmerton areas of the city during the construction phase of the project.

Project Co's educational programmes shall give students and pupils an insight into the world of construction as well as helping to develop softer skills such as confidence building, communication, presentation and team working. As part of the programme Project Co shall offer employability workshops that focus on interview techniques, CV preparation, job search and job applications to help prepare young people for the world of work.

As well as secondary school pupils, Project Co shall ensure that its Contractor shall offer programmes for university and college students and younger pupils. Project Co shall work with local schools and colleges in Edinburgh to offer graduate placements, work experience, site visits, presentations and volunteering opportunities along with workshops and seminars. Project Co shall offer mentoring programmes, career development sessions and shall devote management and project time to supporting local young people on their journey through the construction sector.

Project Co shall provide support for local groups, community based environmental projects and charitable events. This is an area that Project Co shall develop in line with the needs of the local community, the board and the City of Edinburgh Council. Project Co is already linked into Neighbourhood Networks via the community benefit partnership.

##### **Environmental Programme**

Project Co shall work in conjunction with the social enterprise, Edinburgh and Lothians Greenspace Trust (ELGT), in order to provide local communities with new community greenspaces.

Project Co and ELGT's main goal shall be to create and maintain accessible greenspaces in urban areas in order to provide much needed oases of calm for city dwellers, helping to promote health and wellbeing. The aim is to include the local community throughout so that what they want to achieve from the project is understood and implemented.

Project Co and ELGT shall work with local residents, school children, and Project Co employees, asking for volunteers to come forward to be part of the scheme.

Project Co has compiled a volunteer time bank booklet, detailing the internal team members who have agreed to volunteer their time to the local community, which, among many other cross-sector activities, shall include community greenspacing. Project Co shall seek out opportunities from the local community to utilize the time bank resource. See attached in Appendix 4 the time bank skills available for the local community.

Project Co shall devise a Future Greenspace Volunteer Schedule which shall be updated quarterly with new projects that have been commissioned by ELGT for the year ahead in the above areas. This shall assist in the organisation of team volunteers, and shall help ensure that there are adequate resources.

##### **Schools Art Initiative**

Project Co shall approach a total of five (5) local primary schools within the Liberton, Gracemount, 2526505\_21

Craigmillier and Portobello areas of Edinburgh, in order to engage and inspire the local children through the development of a creative programme that results in lasting pieces of art.

Project Co shall in close liaison with primary school teachers, develop a project for primary school children, in which they are invited to create a piece of art to be entered into a competition. Project Co shall choose a winner from each school and shall commit to printing, framing and hanging the pieces of art professionally. The winning art work can be sited on selected wards/corridors of the new hospital with the agreement of the Board.

**Appendix 1****Appendices to the Project Co's Community Benefits Method Statements**

The Appendix 1 (*Appendices to the Project Co's Community Benefits Method Statements*) is the Appendix 1 (*Appendices to the Project Co's Community Benefits Method Statements*) as set out on the disc in the Agreed Form identified and executed as the Appendix 1 (*Appendices to the Project Co's Community Benefits Method Statements*) of Section 2 (*Project Co's Community Benefits Method Statements*) of Schedule Part 32 (*Community Benefits*) of this Agreement, referred to in and forming part of this Agreement.

## Section 3

**Amounts due by Project Co to the Board per default in relation to the Works pursuant to Clause T3.2 (Community Benefits)**

<b>Employment and Skills Plan</b>			
<b>Issue</b>	<b>Activity</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board</b>
	<b>Educational Support (10%)</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board for each work placement and/or curriculum support activity not provided</b>
1.	Work Placement (16 – 19 years)	25	£463
2.	Work Placement (14 – 16 years)	9	£472
3.	Curriculum Support Activities	20	£463
	<b>Total</b>	<b>54</b>	
	<b>Jobs (60%)</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board for each new entrants jobs, new graduate jobs and/or new apprenticeship jobs not provided</b>
4.	New Entrant	53	£342
5.	Graduate	3	£342
6.	Apprenticeship Starts	17	£342
	<b>Total</b>	<b>73</b>	
	<b>Training (30%)</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board per NVQ start, NVQ completions, training plans, supervisor training sessions, leadership training sessions and advanced health and safety sessions not provided</b>
7.	NVQ Starts	34	£162
8.	NVQ Completions	36	£160
9.	Training Plans	14	£179
10.	Supervisor Training sessions	25	£150
11.	Leadership Training sessions	21	£167
12.	Advanced Health and Safety sessions	24	£167
	<b>Total</b>	<b>154</b>	

<b>SME and Social Enterprise</b>			
<b>Issue</b>	<b>Activity</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board per work package not advertised and meet the buyer event and "capacity building workshop" not provided</b>
13.	Capability Building Workshops (40%)	4	£2,500
14.	Advertising Packages (40%)	50%	£5,000
15.	Meet the Buyer Events (20%)	3	£2,500

<b>Clause 73.2.4</b>			
<b>Issue</b>	<b>Activity</b>	<b>Target</b>	<b>Amounts due by Project Co to the Board per non-provision of the quarterly information</b>
16.	Quarterly report	27	£555

This is the Attachment referred to in the foregoing Agreement between Lothian Health Board and IHS Lothian Limited in relation to the Re-provision of the RHSC and DCN at Little France

#### **ATTACHMENT 1**

#### **FINANCIAL MODEL**

The Financial Model is the Financial Model as set out on the disc in the Agreed Form identified and executed as the Attachment 1 (*Financial Model*) of this Agreement, referred to in and forming part of this Agreement

**From:** Kolodziejczyk, Kamil K  
**Sent:** 05 August 2015 16:47  
**To:** 'Mackenzie, Janice'; 'Halcrow, Fiona'; [REDACTED] Currie, Brian  
**Cc:** Greer, Graeme; [REDACTED] Gordon, Kelly J; Macrae, Colin  
**Subject:** M&E drawings  
**Attachments:** M&E RDD.pdf

All

As you may be aware we received quite a lot of M&E drawings recently. The summary of all drawings received between 21 July – 31 July is as follows:

- 334 first submission drawings, some on and some not on programme however hard to tell as no detailed programme for M&E was ever received, dwgs are due back between 11 August – 21 August
- We also received 35 second submission dwgs all of which are not on programme
- Total number of dwgs is 369 however I suspect a few more packs still to come

I had a meeting with Ken last week to raise this concern and the consensus was that they will work with us in a pragmatic manner. I mentioned we would do what we can however some of the dates will have to be pushed back a little otherwise we will have to reject due to the programme.

I would like to propose to review the following packs with the proposed submission dates:

- Heating, cooling, ventilation and PTS for 11<sup>th</sup> August
- Drainage, small power water services and power plant for 18<sup>th</sup> August
- Nurse call for 25<sup>th</sup> August
- Fire detection for 1<sup>st</sup> September
- CCTV for 8<sup>th</sup> September
- Data outlets and lighting layouts for 15<sup>th</sup> September

Also would like to let Ken and PCo know that those packs will not be returned as per PA. Can you please check and confirm if the below email can be issued to PCo?

*"Ken,*

*Thanks for the meeting last week. Further to the M&E drawings received between 21 and 31 July for RDD review the Board will not respond to all RDD submissions within 15 business days due to an unreasonable sequence of release of drawings being submitted by Project Co.*

*As discussed, to help move this forward, the Board would like to propose the following RDD return dates:*

- *Heating, cooling, ventilation and PTS 14<sup>th</sup> August*
- *Drainage, small power water services and power plant 21<sup>st</sup> August*
- *Nurse call 28<sup>th</sup> August*
- *Fire detection 4<sup>th</sup> September*
- *CCTV 11<sup>th</sup> September*
- *Data outlets and lighting layouts 18<sup>th</sup> September.*

*For the avoidance of doubt, any drawings returned to Project Co outwith 15 BDs shall be returned in accordance with the dates in "Response to Project Co by" column shown in the attached spreadsheet and therefore should not be considered to have been endorsed as 'Status A – No Comment'."*

Regards

Kamil

## Message

Ken,

Thanks for the meeting last week. Further to the M&E drawings received between 21 and 31 July for RDD review the Board will not respond to all RDD submissions within 15 business days due to an unreasonable sequence of release of drawings being submitted by Project Co.

As discussed, to help move this forward, the Board would like to propose the following RDD return dates:

- Heating, cooling, ventilation and PTS 14<sup>th</sup> August
- Drainage, small power water services and power plant 21<sup>st</sup> August
- Nurse call 28<sup>th</sup> August
- Fire detection 4<sup>th</sup> September
- CCTV 11<sup>th</sup> September
- Data outlets and lighting layouts 18<sup>th</sup> September.

For the avoidance of doubt, any drawings returned to Project Co outwith 15 BDs shall be returned in accordance with the dates in "Response to Project Co by" column shown in the attached and therefore should not be considered to have been endorsed as 'Status A – No Comment'.

Regards

Kamil

## Royal Hospital for Sick Children and Department for Clinical Neurosciences - Edinburgh

### RHSC / DCN RDS Environmental Matrix

Dept Code	Index
~	Cover
~	Guidance Notes
~	Room Function Reference Sheet
~	Occupancy & Equipment Load Allowances
A1 - A4	Front Door - A&E / Assessment Ward
B1	Critical Care / HDU / Neonatal Surgery
C1- C5	RHSC In Patient Pathway / Ward Care
D1 - D10	RHSC Ambulatory Care
E1	Pod
F1	Child and Adolescent Mental Health
G2 - G3	Clinical Support
H1 - H3	Academic
I1 - I2	Facilities / Infrastructure Support Services
J1 - J2	Patient / Family Support
K1 - K2	Family Facilities
L1 - L2	DCN In Patient Pathway / Ward Care
M1- M4	DCN Support Space
N1	DCN Out Patient Departments
P1	Combined Theatres
Q1	Combined Radiology
R1 - R2	Office / Admin Support Services
S1 - S7	Combined Facilities / Infrastructure Support Services
T1	Plant
U1	Shelled Space

This document has been compiled from the Schedule of Accommodation Revision 03 and is based on the environmental data at FC stage.

3rd June 2015

**Environmental Matrix - Guidance Notes**

- 1 This workbook is prepared for the Financial Close Stage as an easier reference tool to replace ADB RDS M&E Sheets for the Environmental Criteria elements as described on these sheets.
- 2 The services matrices are produced from the Schedule of Accommodation Sheets.
- 3 The design of the HVAC systems to the theatres shall be in accordance with SHTM 03-01.
- 4 Where radiant panels are indicated in any room in these matrices, detailed design development may remove the need for these without detriment to environmental temperature. This design development is dependant on actual room layout - i.e. whether a room is located adjacent to an external wall, ground bearing floor, roof surface or is internal.
- 5 Ventilation air change rates and the use of natural ventilation in Patient Areas shall be reviewed throughout the detail design process to ensure a maximum internal temperature of 25°C (dry bulb) is not exceeded during normal occupancy. This criteria shall also apply to cellular and open plan office spaces.
- 6 Maximum internal temperatures listed relate to normal occupancy and Summer Design Conditions ; External Summer Conditions for Cooling Plant Selection as per SHTM2025, Enthalpy 54kJ/kgda.26deg°Cdb, 19deg°C wb. External Winter Conditions as per CIBSE Guide A Table A 2.2 for locality = - 6°C for Heat Losses, and as SHTM 2025 for locality = -10°C for AHU Ventilation Plant design.
- 7 Examination lamp notes where listed are provisional. Detailed requirements (fixed, mobile, illumination) will be detailed on C sheets as agreed from signed off 1:50 RDS, which shall take precedence over this schedule.
- 8 All lighting levels are derived from CIBSE Lighting Guide LG2.
- 9 Colour rendering refers to CIBSE Lighting Design Guide and will be applied throughout.  
 "80" : Normal  
 "90" - Enhanced to provide close as possible match to natural light for clinical purposes
- 10 Thermostatic Mixing Devices - SHTM 04-01 Guidance shall be employed for specific TRV Type versus listed Area/Activity.
- 11 Standby Lighting to be Grade A throughout .
- 12 The internal temperature in naturally or mechanically ventilated rooms shall not exceed the maximum temperature as listed on these Environmental Matrices provided external summer design criteria is not exceeded .
- 13 Local Radiant Panel PICV's shall have adjustable sensors.
- 14 Local Control BMS Temperature Sensors for ducted reheat zones and chilled water cassettes for hotspots shall be provided with local range adjustment to +/- 2°C of BMS Set Point. BMS set point shall be adjustable via operator/user dialogue through formal FM channels.
- 15 **Typical bedroom** - Design Criteria - SHTM 03-01 Clause 2.11 - internal temperatures in patient areas should not exceed 28°C db for more than 50 hrs per year. Appendix 1 SHTM 03-01 gives 18°C to 28°C float range. NHSL however require that the maximum internal design temperature should not exceed 25°C for more than 50 hrs per year.  
  
**HDU bed areas** - Design Criteria - HBN 57 gives specific guidance as well as SHTM 03-01 - Appendix 1 for air change rates - 10ac/hr Supply, 18°C to 25°C control range. ( Capability shall be provided but not at the summer and winter external ambient design extremes against the internal maximum and minimum range conditions ).  
  
 The department will be comfort cooled and controlled on a zonal basis.  
  
 Central AHU to be provided with blank section for future provision of humidification.  
  
**Post theatre recovery areas** - Design Criteria - SHTM 03-01 - Appendix 1 for air change rates - 15ac/hr S&E , 18°C to 25°C control range.( Capability shall be provided but not at the summer and winter external ambient design extremes against the maximum and minimum range conditions ).  
  
**Critical Care areas** - Design Criteria - SHTM 03-01 - Appendix 1 for air change rates - 10ac/hr Supply , 18°C to 25°C control range.( Capability shall be provided but not at the summer and winter external ambient design extremes against the maximum and minimum range conditions). NHSL may require specific rooms to have a control range up to 28°C.  
  
 Central AHU to be provided with blank section for future provision of humidification.

- 16 **Corridor** ventilation may be either mechanical or where the opportunity exists natural. To be determined during detailed design with due regard to clinical functionality.
- 17 **Single Room WC** - SHTM 03-01 Appendix 1 suggests 3ac/hr extract air change rate only. We have applied 10ac/hr extract rate to provide a more robust rate of extract.
- 18 **Diagnostic Rooms** - ( X Ray, CT Scanner, MRI Scanners, Gamma Camera ) - air change rates listed at 8ac/hr. Actual air change rate must be derived through room heat gain analysis and actual equipment guidance.
- 19 **Operating Theatre Laminar Flow/UCV Requirements** - Refer to Operational Policy Documents for specific theatres which require Laminar Flow/UCV canopy style ventilation solution.
- 20 **Small workshop Areas** - Local Extract Ventilation (LEV) unit requirement to be determined from room equipment schedules.
- 21 **Note that Isolation Suite ventilation solutions for this project shall follow HBN 4 Supplement 1 Section 4 Item 4.8 Guidance i.e.**  
 A common departmental AHU shall be employed to provide supply air ventilation ( and shall therefore employ duty & standby motors ).  
 Isolation Rooms En Suite Extracts shall be provided with an independent Isolation Room toilet extract ventilation system.  
 Isolation Rooms En Suite Extracts shall be provided with either externally located 3 mtr high discharge stack in a safe location or with extract filters ( H14 ) within a safe change housing outside the building on the suction side of the fan.  
 Heating & Cooling Isolation Suites shall be provided via the ventilation system.
- 22 **Retail Provision** - Service provisions listed are Infrastructure only for future fit-out by retailer. ( Fire detection shall be provided to assist completion).
- 23 **Comfort Cooled Fresh Air** - Where noted as such on the matrices, this means as provided via departmental air handling plant via chilled water cooling coils.
- 24 **Body View Room** to be provided with ceiling cassette incorporating specialist refrigeration based cooling unit to reduce room temperature to 8°C minimum +/- 2°C. Room temperature will be achieved within two hours of plant operation.  
 This room will have dual function capability, normally at 28°C design max temperature and when required go to 8°C for storage and viewing of body.
- 25 Anti ligature rooms (5no. off ) will be treated as sealed rooms with Supply at 6ac/hr and Extract to match to achieve a balanced pressure.
- 26 **Single Bedroom** - The design philosophy for ventilation is for a mixed mode operation where natural vent is encouraged which has benefits both psychological with users being partly in control, and from an energy stand point where mechanical vent loading is partly reduced (2/3rds). This strategy results in zero pressure differential regime within the room where supply and extract is balanced.
